

I put a "Kamparts in your mailbox" & wrote a letter to them, reminding them that they give you the magazine. August 10, 1966

Dear Patricia:

It was good that you were able to join our family party last evening. You added a great deal to everyone's enjoyment, especially that of my two sisters. Annie especially wanted to get acquainted with you, as the two of you had had such a brief introduction at my dinner last May.

Tomorrow I'm going up to Joyce & Tom's in the P.M., planning to be at their place about five o'clock. Then the three of us will go with a group of the younger faculty from Hayward State - mostly former San Jose State Students - to a restaurant in San Francisco that is operated by Basques &

which, I'm told, serves typical Basque food. We have to beat the restaurant at an appointed time as all sewing is done family style - each table being set & provided with a full assortment of food and only those who are on hand when the meal begins are assured of their share. It promises to be a most enjoyable dinner.

I'd like to be able to take you also, but I presume your plans are already complete for tomorrow and provide for no changes. However, if my presumption is wrong and you'd like to go, just give me a ring. Once I learn where the place is, though, we can go another time - going to S. F. by train or bus, which ever is convenient. I go to the Ranch to the Saturday evening I go to the Ranch to the sendoff party for Lindy before she goes to Europe. I guess that's all the important news for now. Love as always - Carl.
