Dear Miss Morgan:

I bought these lions and they are so very, very fine that we must get them in some very conspicuous place.

Perhaps they can be made an important <sup>part</sup> of the east entrance as long as we are trying to elaborate that facade.

I think we have enough on the west facade and they would almost be lost there, but they surely can be made a feature of the east facade in some way.

Another <sup>point</sup> is, what will they support? They ought to have some definite function.

Sincerely yours,

*W. R. Hearst* #
