Q
The purpose of this study is to determine the effect of the
theoretical model on the experimental results. The results
show that the theoretical model is in good agreement with
the experimental results. The results also show that the
theoretical model is in good agreement with the experimental
results.

FROM THE PRESIDENT

As President of California State University, Fullerton, I am pleased to welcome you to our 41st annual commencement. Commencement is a very special time for degree candidates, families, friends and other members of the campus community. It is a time when we celebrate the successful conclusion of degree programs designed to foster the development of humane leaders prepared to meet the opportunities and challenges of a changing, diverse world.

Today the university honors some 6,835 undergraduate and graduate students who completed degree requirements in January or who are scheduled to do so in June or August. It is fitting that recognition of your accomplishments should be in the presence of your professors, relatives and friends who have participated in a variety of ways in helping you attain your academic goals. As candidates for graduation, you are the proud products of our academic enterprise. We hope that you forever will be life-long learners dedicated to the pursuit of excellence and the importance of life issues.

On behalf of the faculty, staff and students of California State University, Fullerton, I extend heartiest congratulations to the Class of 2000 upon reaching this educational milestone. I wish each and every one of you the happiness of a productive life, the respect of your fellow human beings, and the love of your family. The future is yours.

A handwritten signature in dark ink, reading "Milton A. Gordon". The signature is written in a cursive, flowing style with a large initial 'M' and a stylized 'G'.

Milton A. Gordon

President, California State University, Fullerton

FROM THE ALUMNI

On behalf of the CSUF Alumni Association, congratulations to the Class of 2000! I am sure you are experiencing a variety of emotions today—pride, anticipation, and certainly joy as you celebrate your accomplishments. After today's festivities are over, and the pain of homework, finals, and parking are nothing but a distant memory, we know that you will remember the good times you had at Cal State Fullerton and appreciate the tremendous education you have received. Because of the outstanding accomplishments of our university over the past four decades, and the dedication of thousands of faculty and staff, alumni continually are afforded the opportunity to realize their professional dreams and goals.

You now are part of a large network of fellow alumni that have made significant contributions in business, the arts, education, science and engineering. Through the CSUF Alumni Association, you will have many opportunities to tie into this network. We encourage Cal State Fullerton alumni to assist in job placement, interact professionally and help us to build support for our alma mater as CSUF continues to emerge as a great national university. As our university gains prominence, so does the value of our degrees.

Once again, congratulations on your accomplishments and best wishes for all that the future holds for you!

Joel H. Fick '74/'77

President, CSUF Alumni Association

ABOUT THE PROGRAM

LIST OF CANDIDATES: Students eligible to participate in the 2000 commencement ceremonies are January 2000 graduates and June 2000 and August 2000 candidates who filed for graduation prior to the announced deadlines.

GRADUATION WITH HONORS: Honors at graduation are awarded to undergraduate students in three classifications and take into account all courses taken at Cal State Fullerton and other institutions of higher learning. The minimum grade point averages follow: cum laude, 3.5 to 3.74; magna cum laude, 3.75 to 3.89; summa cum laude, 3.9 to 4.0. Students who have earned honors at graduation have been awarded ribbons with medallions that bear the seal of the university: white ribbons denote cum laude; orange ribbons denote magna cum laude; and blue ribbons denote summa cum laude. Program notations indicating achievement of these awards are based on the students' records at the end of the fall 1999 semester. Official award of appropriate diplomas and recognition of honors achieved (which are indicated on the diplomas as appropriate) are contingent upon the candidates having met all university requirements and related criteria.

PRESIDENT'S SCHOLARS: Students who are President's Scholars are noted in the list of candidates. This program to recognize academic and extracurricular excellence is sponsored by the President's Associates.

FACULTY MARSHALS: The faculty marshal leading the procession in each commencement ceremony has been honored as the Distinguished Faculty Member

of that particular college. This distinction is bestowed by the president upon the nomination of fellow faculty members.

PHI KAPPA PHI: Among those participating in commencement ceremonies are students wearing a white ribbon with a zigzag design. These students have been elected to membership in the Honor Society of Phi Kappa Phi, a national organization founded in 1897. Students are selected for membership from all of the recognized academic disciplines based on records of outstanding scholarly achievement.

PHOTOGRAPHY: The CSUF Alumni Association has arranged for a commercial studio to photograph each graduate at the moment he or she crosses the platform. Proofs and information on ordering prints will be mailed, with no cost or obligation, to participants. Guests may take photographs during the ceremonies; in the interest of decorum, they are requested to do so from their seats.

ALCOHOLIC BEVERAGES: Alcoholic beverages will not be allowed at any time in the assembly area, at the commencement seating area or at other areas associated with commencement.

SMOKING: Please, no smoking during the ceremonies.

EMERGENCIES: Personnel from the Student Health Center and the Public Safety Department will be on duty to provide aid in the event of emergencies. The emergency telephone number is 278-3333.

CEREMONIAL REGALIA

3

The history of academic dress goes back to the medieval European universities of the 14th century. European universities continue to follow varied patterns in cut and color of gown and type of headdress. United States universities have standardized the academic dress so that its features are generally uniform throughout the country.

THE GOWN: The gown is ordinarily black for academic degrees, but certain universities have authorized the use of colored gowns. Light blue gowns are worn by candidates for associate degrees in terminal technical curriculums. The pattern varies with the degree held: pointed sleeves for the bachelor's degree; short sleeves for the master's degree; and round, full sleeves for the doctorate. The bachelor's and master's gowns have no trimmings. The doctoral gown is faced down the front with black velvet and trimmed with three bars of the same material across the sleeves—or the color of this velvet may be that of the subject in which the degree is granted.

THE HOOD: Hoods are not usually worn for the bachelor's degree. The master's hood is shorter and lacks the panels of the doctoral hood. Hoods are lined with the color of the school, two colors being shown by putting chevrons of one color on the other color. The binding or edging of the hood is velvet of the color pertaining to the subject of the degree.

THE CAP: The standard cap is the mortarboard, usually the color of the gown. The standard tassel is black, but at Cal State Fullerton many students wear tassels reflecting their disciplines. Doctoral caps have gold tassels.

TRIMMINGS: Color trimmings on doctoral gowns and hoods indicate the following: light blue, Doctor of Education; dark blue, Philosophy; white, Letters; brown, Fine Arts; golden yellow, Science; purple, Laws; pink, Music; green, Medicine; scarlet, Divinity; crimson, Humane Letters; and light coffee (drab), Business Education.

THE MACE: The mace is a ceremonial symbol of authority carried in academic processions at commencements and convocations. Originating in the Middle Ages, it once was a formidable weapon, held ready to protect the person of dignity. The University Mace, first used in 1975, and the mace holder, first used in 1979, were designed especially for Cal State Fullerton by John L. Berg, who earned his Bachelor of Arts in Communications in 1973, and Master of Arts in Art in 1976. The design of the mace reflects the university's architecture, colors (blue and white) and location—the site of the first commercially grown valencia orange grove. The stem is of cocobolo, a wood orange in color, while the university's colors are represented through the use of ivory and niello. At the top of the mace is the university seal.

OUTSTANDING PROFESSOR

Dr. Jane Hall, a nationally recognized expert on environmental economics and assessment, is this year's Cal State Fullerton Outstanding Professor Award recipient. A member of the campus community since 1981, Dr. Hall received her doctorate from UC Berkeley. Currently, she teaches courses in microeconomic theory, international and environmental economics, and environmental regulation and is one of the first faculty members on campus to offer a completely on-line course. For the past two years, Dr. Hall has served

as the Chair of the Academic Senate while continuing to fulfill her responsibilities as a professor of Economics. She has also served the campus as the former acting dean of the college and the former chair of the economics department.

Her teaching methods have always earned her high marks by her students. When interviewed, her former students have offered the following remarks: "She taught students how to think and creatively solve problems; As a professor I have tried to emulate Hall's teaching style; She is simply brilliant in the classroom—the subject matter comes to life; I have never since had such a wonderful teacher and role model."

Dr. Hall is a noted author of the 1997 book *Air Pollution and Regional Economic Performance: A Case Study* and more than 60 governmental and agency reports, book chapters and peer-reviewed articles. Her research has garnered more than \$1.3 million in grant support and she has made presentations internationally. She serves on several government environmental boards and councils and is active in professional associations.

Dr. Hall's outstanding achievements in teaching has impacted the lives of her students. Through her research, state and federal programs have been developed which have improved the public's health through the reduction of air pollution nationwide.

Kappy Ruzzi
Ellen B. Shaw

Learning is preeminent at California State University, Fullerton. We aspire to combine the best qualities of teaching and research universities where actively engaged students, faculty and staff work in close collaboration to expand knowledge.

Our affordable undergraduate and graduate programs provide students the best of current practice, theory and research and integrate professional studies with preparation in the arts and sciences. Through experiences in and out of the classroom, students develop the habit of intellectual inquiry, prepare for challenging professions, strengthen relationships to their communities and contribute productively to society.

We are a comprehensive, regional university with a global outlook, located in Orange County, a technologically rich and culturally vibrant area of metropolitan Los Angeles. Our expertise and diversity serve as a distinctive resource and catalyst for partnerships with public and private organizations. We strive to be a center of activity essential to the intellectual, cultural and economical development of our region.
