00:01:49:17 - 00:02:28:25

Unknown

You ready? Watch the first. I need the flash.

00:02:28:27 - 00:03:11:03

Unknown

No, I. I can't. I can't account the fact that I can't get out right now. I'm going to go down to the front.

00:03:11:06 - 00:03:13:20

Speaker 3

Okay, honey.

00:03:13:22 - 00:07:26:08

Unknown

Oh. Right now. Oh, I got one, brother. Oh, I know. Go back to Vegas. Welcome to the other members of the marching band. My name is Bill Lord, but I know that these memories, memory makes me feel for the soldiers from our 1990 football season repertoire. We've just recently returned from Fresno when the football team won a global competition, giving us plenty of opportunity to play a few songs that you just heard back to back.

00:07:26:11 - 00:07:54:06

Unknown

They were the Southeastern University High School Down Under. He's are music buffs in the audience that have been playing for two or three. The Fight Club was really 1939. Jack Wild and Down Under was maybe 55. Gentlemen, Mr. James Veteran and Mr. Gerald Graves for a little bit of sport for each game by playing especially composed, especially for the band.

But it's part of Scottish. It's called Thunderstruck and we'd like to play it for you at this time. Our tremendous percussion section will be debuted with a very interesting because it's a little called In the Dead of Night and how thank you for a lot this jersey and how it played out Randy's words. It's called professional sparks composed by a member from Scotland.

00:11:10:25 - 00:12:23:24

And we think it evokes images of regular Americans of their homes, much like on the 40 2000 strong winds right up to the town house where they. I'd like to point out that we have several members of the band. This is my original counsel was scheduled for December 2nd. But we would love to have a rock concert to go on here and stay there for a while.

00:12:23:26 - 00:12:46:21

Unknown

So there is a reason it was so they were able to. We're sure that this enduring spirit and we could play in your ear to watch at least one of our shows this year was built around the band, like the first Sunday night show with the theme for the movie Battle of Britain, commemorating the famous little town over 1850 years ago.

00:12:46:23 - 00:17:37:20

Unknown

Here is the Battle of Britain. We probably saw John, but John, much too great. But from the Battle of Britain was about through the ice. And our fight show goes to the title Music from the popular movie Top Gun. This arrangement was loved by many of us and features our high price spectrum. It's part of spectrum dancing. It's called 19 Degrees of Fire and I know that a lot of people work very hard to make the band just as good as it is.

00:17:37:22 - 00:17:46:24

Unknown

One of the things the choreographer for our wonderful band, she's a former major dancer herself, is a graduate of Saturday State University.

00:17:46:27 - 00:17:47:24

Speaker 3

And she choreographed.

00:17:47:24 - 00:17:52:20

Unknown

For many local theater groups as well as coordinators that.

00:17:52:22 - 00:17:53:02

Speaker 3

Did not.

00:17:53:07 - 00:25:02:23

Unknown

We like to introduce her recently married choreographer Debbie Wilson. Doris to close our show about why this is another reason why bands have a record of close proximity to one guy, but they ask to hear one of the more popular marches composed by John Philip Sousa called Hawk March. Don't know what

you think. Well, you at first glance, it would be gained by bringing back out of this world, despite the fact that this is not in the form of Earth, Wind and Fire and Jupiter, but what what.

00:25:02:25 - 00:25:03:15

Speaker 3

At this time.

00:25:03:15 - 00:25:43:29

Unknown

Do you think about the Great Barrier Reef in the second half of the song? Please take this opportunity to do something interesting around you in this picture like, well, that where we can get all of our professional instructors to show it right now, just about all the partners, because I know it's comfortable for a number of our colleagues and drummers to play the video.

00:25:44:05 - 00:26:28:16

Unknown

00:28:20:24 - 00:28:31:08

Unknown

To really try to because education qualifies as just the fact that we keep the trumpet solos poorly and I free to do.

00:28:31:11 - 00:28:41:10

Speaker 3

I, you know what I really want.

00:28:41:12 - 00:30:22:03

So when I was coming so what about the music is part of that Fortunately they perform at all and right now so before you as a man with another record on the radio, what you don't know but that for me. For me, for me absolutely beautiful this just a little measure of if you really love making this is probably one of the things period songs occasionally online in the band one of the time I'm done for supply to the anyways during the fourth quarter of our cable stream, which was most of the time, it's hammered home and when we reach out to the media, don't around birthdays and much like huge crowd went

00:36:28:28 - 00:38:40:14

Unknown

wild over here I tried to put a note try not to worry about if it doesn't get to the level of every play too. I mean it's coming out. He's working very hard for players for four or five episodes each season and they're really fortunate to have such a very creative person because here's the of the university's performance of the World Champion, which some are teaching for marching on to regional America during the summer.

The call stand up now refocus the song from our television show but we support it as a bunch of Our very first record in my group is called Free Night. But what other things about the theater is the problem of blood, sweat and tears. Nobody, you know, the locals like they, but they were willing to accept the invitation as we bring back to participate in dances one more time.

00:41:26:24 - 00:47:32:26

Unknown

For three years, Lucretia what you what what I found on the show. It was a really cool thing to really like. Hard to believe and try to work and grow within the program and have a dedicated service to the

band and first responders and stuff. But as long as you get your comfort zone, Joy and in March and we thank you for taking the time and we hope to have a wonderful holiday season, please drive safely and thank you.

Speaker 6

That was Joe Piscopo saluting David Hartman on his last day here on Good Morning America. We will have more memories a little later this morning as we do celebrate our 15th anniversary today. You know, when we went on the air all those years ago, one of the big, big new crazes at that time was jogging. Now, so many people run, we don't even think of it.

01:05:55:01 - 01:06:56:00

Speaker 5

Okay. The yeah, I think I did put Sticks and the Chrysanthemum last night because they get a heavy, heavy flower. And the flowers, you know, get them big, you know, they get fiber so they will stay, you know, straight.

01:06:56:02 - 01:06:57:09

Speaker 3

Extra material from.

01:06:57:09 - 01:07:08:00

Only lucky.

01:14:57:10 - 01:15:03:19

Speaker 4

On.

01:15:13:21 - 01:15:32:22

Speaker 6

That was Joe Piscopo saluting David Hartman on his last day here on Good Morning America. And we will have more memories a little later this morning as we do celebrate our 15th anniversary today. You know, when we went on the air, all those years ago, one of the big, big new crazes at that time was jogging. Now, so many people run, we don't even think of it.

01:15:32:24 - 01:16:11:06

Speaker 5

Okay. The I, I did the Put Sticks and the Chrysanthemum last night because they get a heavy, heavy, heavy flower. And the flowers, you know, get them big, you know, they get heavier so they will stay, you know, straight. And I see the pansies here. They took off pretty good. So by the time when the frost, the, you know, the apple with a first, you know, will hit the begonias, then we will have that and then we'll have, you know, flowers from the transitional.

01:16:11:08 - 01:16:46:02

Speaker 5

I see that cherry tree over there. Yeah. Doing pretty good but they do other than the other one is gone. And since the rendering so good. No, no. But you know. Okay, okay, okay. Now she like I said, I lost, you know, I mean that that said it through over there. So I'm going to plant another one and I'm going to transfer to, you know, in this climate, the roses on the front.

01:16:46:04 - 01:17:39:09

Speaker 5

So I planned that Satsuma tree here. Get it. But I don't think that was wise because that shade from the other tree in the first, you know as well another idea you know but there is Oh my life I move it. Yeah. Yes, yes. And also, you know, when I have to trim Flora to get them in those elements, you know, so, so

because they're good and get them in tall and and they're not in shape or so I would like to get some, you know, branches from down there to try.

01:17:39:12 - 01:18:04:02

Speaker 5

I like this color. So I'd like to have more of the skeleton here. There is it. I didn't do any good this year. And you're doing all right. Get down, get down. Let's get down on. Let's complain. That's all right. Let's go down. No, no, They're going to get them in. Yeah, Let's go down. Know my name. You know the lemons.

01:18:04:04 - 01:18:32:00

Speaker 5

Those are not really lemons. They are Mexican lunch, they call it. Yeah, And also those pansies. They're from Fabulous Party. We had the Glacier National Party we had last year. I took it from the tables and they planted the way and now they would just the territories. They did it pretty good. That's another color also. I like it.

01:18:32:02 - 01:19:02:01

Speaker 5

Florida. Now this is a winner again. Another will blooming phenomenon the wintertime, you know. Yeah. You know like you remember we had good crop from the from the Plumbtree as well and the pits business Bureau whatever you call it this and then this one. Good. No I see yellow. So you have to fertilize, you know, a little bit.

01:19:02:03 - 01:19:08:21

Unknown

You'll get a good. Okay.

01:19:08:23 - 01:19:54:28

Speaker 5

Since then, since we thought that used to be full of, uh, flowers. Flowers, you know, And then we put the pansies and you see them in the. This thing is a yellow news. Yellow miss from more than. Yeah.

What do we care? You know, normal carry a lot of spoiled Not too long. Oh, I can't remember the name of the tree, but this is apple tree, which is only only a year and a half.

01:19:55:00 - 01:20:39:06

Speaker 5

And look at them in the air pollution as a beautiful. I'm so proud of. I shiver. This is delicious. I get a yellow delicious just and this one is fizzy. But I had no fruit yet. Probably next year. You know they take longer that that delicious. I guess whatever is better is the good ones you know take a long time to get this this here is start to bloom now.

01:20:39:06 - 01:21:10:26

Speaker 5

And the only time that you don't have flower here is when it's very, very hot. But There will be all the wintertime, the blooming and also get a little lemon tree, which is 18 months old. I'm so proud of it. No, because they're so well, and I spent here 80% my free time with the flowers and the vegetables.

01:21:10:29 - 01:22:05:17

Speaker 5

Of course, there's no vegetables right now is down there. But next April, we'll start again. Okay? Barely. There is anything left, but I head over there. Okra, beans, black beans here, eggplant bell peppers, melons, tomatoes and some celery and tenderloins. I spend very, very, very many happy hours know down here. Most of them are long, and I always get upset whenever they run.

01:22:05:19 - 01:23:50:11

Unknown

Yeah, well, of course, the affliction of the little one of the out of it maximum. And I think that's most significant. But.

01:23:50:14 - 01:24:33:00

Speaker 8

Hello, how are you? I am when I speak. Do I keep. Hi. Welcome. This is at home. I was built by nine years ago by a very wealthy Greek family, which they moved to, you know, after that and were very happy

because it's very comfortable and a little bit of Greek flavor which where Greeks do. So as you come in, I saw you few she thinks in the house and this.

01:24:33:01 - 01:25:04:10

Speaker 8

Yes I'm very proud of my macdonell which is the 17 century. And it came from Spain to Mexico and from Mexico here. And I love that piece. So it's very and the only thing is that when the earthquake we had the earthquake, I fell down and then I had a base in the bottom. Yeah.

01:25:04:13 - 01:25:05:24

Speaker 5

Okay.

01:25:05:26 - 01:25:39:18

Speaker 8

Okay. I have a few antique pieces in the house, which is some. Okay, This is the living room, which is we entertain a lot and I have few pieces here that they're very interesting. This is a rococo table from friends, and it's very old. Also the icon, which is a gift from a very good friend of ours. And it's an art piece from Venice and this is the Sea.

01:25:39:20 - 01:25:53:23

Speaker 8

And they said, if you can see that little Bible book that I have there, it's from old and and most of them are from Europe because.
