

26 / GENERAL INFORMATION

Departmental and area accreditations, certificated memberships, and accrediting organizations include

Business	American Association of Collegiate Schools of Business
Communicative Disorders:	
Education of the Deaf	Council on Education of the Deaf
Language, Hearing, and Speech Clinic (Accredited for Professional Services)	American Speech and Hearing Association
Chemistry	American Chemical Society
Engineering (Civil, Electrical, Mechanical)	Engineering Council for Professional Development
Health Professions Program	American Society of Allied Health Professions
Health Science (Sanitarian)	State Department of Public Health
Home Economics	American Home Economics Association
Home Economics (Dietetics)	Approved for admission to internship program of the American Dietetic Association
Journalism (News-Editorial)	American Council of Education for Journalism
Music	National Association of Schools of Music
Nursing	National League for Nursing
Physical Therapist Program	AMA Council on Medical Education/American Physical Therapy Association
Rehabilitation Counselor Education	Council on Rehabilitation Education, Inc.
Social Work	Accreditation by the Council on Social Work Education; and undergraduate and graduate membership in the Council
Urban and Regional Planning, MCRP	American Institute of Planners

FACILITIES

The University is located at Cedar and Shaw Avenues in the northeast section of the City of Fresno. Its 1,410 acres provide for the possible expansion of facilities when necessitated by increasing enrollment. When the Shaw Avenue location was first occupied, during the 1953-54 academic year, there were only four completed buildings on what was then an 880-acre site. Ten years later, in 1963-64, major buildings on campus included administration, agricultural classroom, agricultural mechanics, home economics, bookstore, business, cafeteria, education-psychology, engineering, home management cottage, industrial arts, library, gymnasiums for men and women, music science, social science, speech arts, student health service and the first residence halls. Subsequent to 1964, student administration, residence hall commons, classroom, and office buildings, a three-story college union, new bookstore, and a new art building of contemporary design were constructed. There are now more than 45 buildings in service. A \$7,368,000 additional science building was completed during 1975-76. Future plans include an addition to the library with construction expected to be started in 1977.

The buildings are in a setting of colorful trees, shrubbery, flowers, and lawns. A tree-lined amphitheater accommodates commencements, convocations, and other large assemblages and provides an outdoor setting for numerous programs and gatherings during the year. A centrally located memorial court, benches, and fountain are favorite spots for relaxation. The adjacent free speech area and college union are centers of student life and activity.

A farm operated by the School of Agricultural Sciences includes more than 34 structures and is considered one of the most modern and best equipped agricultural plants in the west.

CENTER FOR INFORMATION PROCESSING

The Center is organized to serve all information processing and computation needs of the university including instruction, research, and administration. It provides a variety of direct and indirect free services to students. Consultants are available in the Instructional Laboratories to give assistance in the use of facilities and computer programming and the laboratories provide timesharing terminals, keypunches, and sorters for students. Approximately 25 percent of the students now make substantial use of the facilities. Use of the computers in the instructional program is increasing at a rapid rate. The Center is located
