Santa Paula, California

Dear Members:

In last Saturday's newspaper your Chairman, Mrs. Jane Tolmach, speaking as a "private citizen", made statements with regard to Armed Services personnel being censured for their anti-communist program, and, in particular, the cessation of the showing of the films "Operation Abolition" and Communism on The Map".

We direct the following questions to your entire committee, and offer the opportunity to announce your position for the satisfaction of the public:

1. Do you agree with your chairman that:
  - a. The films in question do more to aid communism than fight it?
  - b. The films were made by a political group?
  - c. The films will break down the NATO alliance and destroy the desire in this country to try to get the politically uncommitted nations of the world on our side?
2. Does your committee disagree with our U.S. legislators,
