July 1, 1960

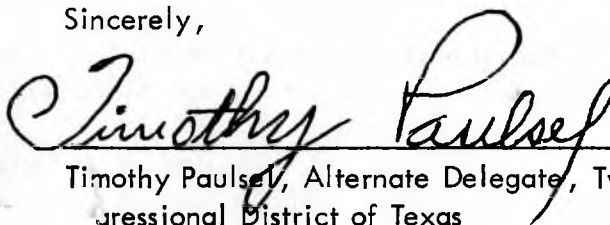

DEAR FELLOW DELEGATE:

I am writing you on behalf of Senator Lyndon B. Johnson, the only man that can win over the Republicans.

He is the Leader of many types of opinion of the U.S. Senate; - a Leader that Leads; - a Leader that is able to secure legislation acceptable to men that sit on opposite sides of the aisles of our Senate: - not in name only, but in viewpoints, and economics as well; - a man that has been able to secure honor for both sides of these aisles in a mood of moderation and self respect for all alike; - a man not given toward vindictive legislation to any section, race, or station of life; - a man that wants, and seeks the support of all areas of our Nation; - a man that would be President of All The People, without bitterness, rancor or partiality; - a man that did not claim he could win without any particular section of the Country. Senator Johnson is a man acquainted with the problems of Water Development, Natural Resources, and of the Space Age. What other candidate does our Party have that can know the problems of your State so well? Senator Johnson is a man that takes a lead in behalf of the Housing Industry which has contributed so much in wealth to your State and our Nation. This is the Leader that thinks before he speaks. He is a man of mature judgment. He did not advocate an overture to the Red Chinese nor an apology to the Russians.

If you have not already done so, you should make up your mind to support Senator Lyndon B. Johnson as the Leader of our Nation. As a matter of fact, you should make up your mind Today to be on his Team.

Sincerely,

Timothy Paulsel, Alternate Delegate, Twelfth Congressional District of Texas

3404 Autumn Drive
Fort Worth, Texas
