## 5. Update on the Parking Budget

The Committee discussed the exchange of Parking budget materials over the last year with Vice President C. Teniente-Matson and Matt Babick. A key point noted was that the restructuring of parking policies, for which reason the UBC became involved, centers on the putative loss of funds to the parking budget due to students learning about relaxed parking beforehand and subsequently parking for free. The UBC agreed that such a concern was a plausible cause of lost revenue, but that the potential for lost of revenue had not been effectively documented by the budget information provided. As such the UBC critically viewed the desire to restructure parking policy as a mechanism to increase revenue rather than to address a documented problem. The committee noted several points including (i) that careful regulation of the porous parking system present on the campus is a challenge; and (ii) the potential to lose community "good will" during events that have a large fraction of non-University users parking on campus.

MSC the Chair of the UBC will write a memo to Matt Babick expressing concern regarding the lack of documentation illustrating a loss of parking revenue due to individuals parking without some form of payment.

MSC to adjourn at 5:05 p.m.

The next University Budget Committee meeting will be on Wednesday, October 20, 2010 at 3:30 p.m. in TA #117.
