

Hi Patricia:

How are these?
For linguistic exploration?
paraconscious or
paraconsciousness
meaning alongside of, or
close to, or perhaps similar
to conscious or to
consciousness

cryptoconscious or
cryptoconsciousness
meaning hidden
consciousness or
conscious but hidden

infraconscious or infra-
consciousness
meaning at the base of
or underlying conscious-
ness or the conscious ^{over}

basiconscious or
basiconsciousness
meaning in the basis or
foundation of conscious-
ness or the conscious.

protoconscious or
protoconsciousness
meaning belonging to
the most primal or
fundamental or first
aspects of the conscious
or of consciousness.

There are a few other possi-
bilities but they combine to
make awkward or non-
euphonious words & so
would not be used.

This is fun! Carl.
