check with Paul about clubs in the area - there are 3 or 4

We have urged them to contact you so that you may direct them to a district headquarters. We would like to have you plan a training session for as many of the club members as show a willingness to, and are responsible enough to participate in the election day efforts. YFK clubs can be of invaluable assistance in typing, duplisticking, precinct card correcting and mailings, because of their availability in the after school hours. USE THEM.

All club members are aware of the tabloid and of their part in its distribution. Fit them into your districts plans and utilize their manpower where needed. Any questions or problems will gladly be handled by So. Calif. headquarters. Please call us and let us know how effective the Youth clubs are in your district and how we can help to make them even more effective.

Yours for a Democratic Victory in '60
