Dear Mr. Hearst:

It was a beautiful winter day on the Hill yesterday - a day spent following up small items chiefly. The theatre is stripped and I arranged for a wood and paper covering-in of wall and roof openings. There is a good deal to do yet on the projection room equipment.

Today I have word from Mr. and Mrs. Byne that they arrive in San Francisco this week end. If you are on the Hill Sunday, may I bring them up? It is their first California experience. ~~and~~ They seem much excited in anticipation. ~~over it.~~

Would you have any objection to their seeing photographs in the office of your collections?

Yours very truly,

JM-de M
