William Randolph Hearst
137 Riverside Drive
New York, N.Y.

Revised pipe line going to reservoir site Hill eighteen eighteen thence one branch to camp and one branch to intersect present line between old reservoir and power house increasing head for power plant and giving you water for camp, fountain system and watering. Cost of this pipe laid approximately thirty-five thousand dollars. Cost of reservoir on hill eighteen eighteen approximately five thousand two hundred dollars. Change of water wheel will cost approximately one thousand five hundred dollars. New electric gas engine with tanks, switch boards, etc. will cost approximately twelve thousand three hundred dollars. A sheet metal building with foundations ^{for engines} approximately four thousand two hundred dollars. Phillips thinks can be ready July

first if we can get pipe and engine on boat sailing twenty-fourth.

Next sailing ^{very} indefinite

~~work on building preparing well.~~
~~you could bring pipe line over reservoir site to camp~~
~~without carrying down to increase water power and get~~
~~your electricity by installing the gas engine - leaving~~
1135 Merchants Exchange Bldg.
Paid.

~~reservoir and branch line from it to power line~~
~~until later~~

If you do not want all this now you could omit reservoir & branch from reservoir to power line as now water wheel & gas engine will give electricity needed now & dam line will give water needed at camp.
