Make nominations for staff award by September 9

It's time to start nominating outstanding employees for the Vivian Cunniffe Staff Award. Nominations should be sent to the Office of Human Resources by September 9. Any member of the University can make nominations.

To be eligible for the award, an individual must have been employed by the campus full time for five years and must be a non-management staff personnel. A one-page nomination detailing the staff member's qualifications and signed by the nominator must be submitted.

The selection process will consider the nominee's service to the campus community; professional attitude; willingness to assume responsibility; demonstrated involvement with or commitment to campus life; and pride in a job well done.

CSU jobs bulletin board continued after pilot year

The CSU Employment Bulletin Board (CSUEB), which lists announcements for tenure-track and full-time temporary faculty positions, has been funded for 1993-94 and will be expanded to include administrative positions. It began as a pilot project last year and since becoming fully operational in January, has been used by sixteen CSU campuses listing a total of 180 full-time faculty positions.

The funding comes from the Strategic Systems Initiatives budget line with the expectation that the service will become self-supporting.

The easiest way to access CSUEB is through Internet.

Students gain recognition

Jonathan Koople, graduate student in biology, tied for first place with his poster presentation entitled "The effect of exposing *Fusobacterium necrophorum* to aerobic conditions," presented at the spring meeting of NCASM, Northern California American Society for Microbiology, at Stanford.

Debra Wadford, also a graduate student in biology, attended the 43rd Annual Institute of the California Association of Public Health Laboratory Directors (CAPHLD) in May to present an abstract. Graduate students in microbiology programs from all the California State Universities were invited to submit abstracts of their research which related to public health. Beverly A. Dixon was her sponsoring professor.

The American Association of Teachers of French, Northern California chapter, awarded its first prize to Joyce Podevyn and third prize to Michael Wrenn for their achievements in the advanced category. Both students were enrolled in Teresa Myintoo's French dramatic performance class.

Shuttle stays on the road

The Board of Directors of the Bay Area Air Quality Management District has approved Cal State Hayward's application for funds to support the Rideshare Program and the Clean Fuel Shuttle. The University will receive \$53,000 from the Transportation Fund for Clean Air. Out of 101 applications, thirty-nine projects received funding.

According to Patricia Hilligoss, chairperson of the board, "The projects demonstrate your...commitment to reducing air pollution from motor vehicles and helping to improve the region's air quality."

Chinese follow Russians to campus for study

On June 17, the School of Business and Economics signed an agreement with Beijing Administrative College, the top administrative college in China, to establish an academic and cultural exchange program.

Tailored after the successful CSUH Russian Executive Development Program, the Chinese program will train business executives and government employees on free market economics, American management techniques and personnel management. The Chinese will also be able to develop contacts with local businesses.

Faculty convocation expanded

The Fall Faculty Convocation, which will take place Tuesday, September 21, in University Theatre will include recognition of the recipient of the George and Miriam Phillips Outstanding Professor Award, those faculty who have been awarded emeritus status, and those faculty who have been awarded tenure effective Fall 1993.

The event begins at 8:30 a.m. with coffee and pastries. President Rees will speak at 9 a.m. The annual President's lunch for faculty will be served following the convocation at the University Club.

The Fall Staff Convocation will take place September 22 at 10:30 a.m.

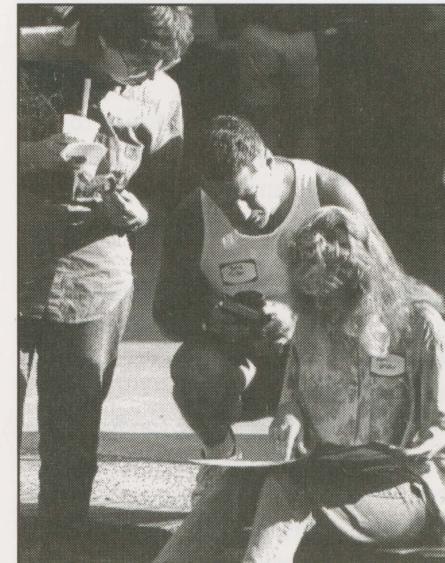

Jane Lopus, right, director of the Center for Economic Education, received one of the 1993 Freedoms Foundation Leavy Awards for Excellence in Private Enterprise Education. Lopus won the award for her "Economics for Special Education" program, developed for high school students with learning disabilities.

Students welcome students as Orientation begins

Cal State Hayward's Orientation programs begin this week with sessions for transfer students and run through September.

Playing an integral part in introducing new students and their parents to the campus are the members of the Orientation staff, who are generally seen wearing their red t-shirts. They are "one of the most cohesive volunteer groups on campus," says Cindy Baxter of Stu-

dent Life about the forty students under her direction. "These are students who want to help new students and share their experiences. They have a lot of pride in the University and are active in other organizations as well."

All of the members are students who volunteer large amounts of time to help newcomers feel comfortable on campus. They facilitate discussions, speak in front of groups, conduct tours of the campus, and assist in special events such as Commencement and the Freshman Overnight.

It's a year-round commitment. Members work a minimum of three programs during fall quarter (equivalent to twenty-five hours) and ten hours in each of the following quarters.

"The commitment these students give to the University is outstanding," says Baxter. "On many campuses student orientation staff leaders are paid. The fact that our CSUH staff is volunteer makes their contribution particularly special."

Joe Pacheco, a senior, works thirty hours a week and is an officer in the Alpha Phi Omega fraternity. Pacheco joined the staff when he was a freshman and "looking for something to do."

"Orientation is the beginning for most students and then they find out about other things from there," said Pacheco. "I remember going through Orientation when I was a freshman."

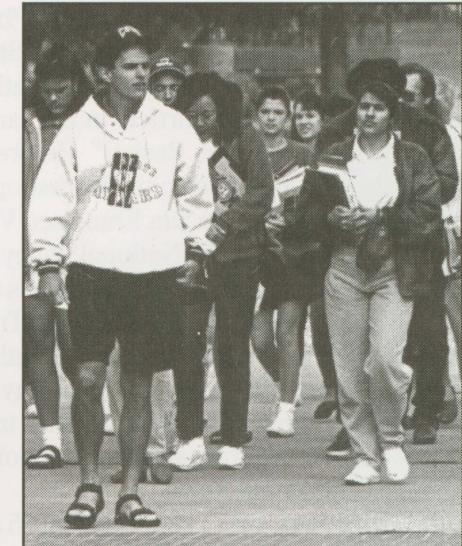

"Being on the staff has been more than just fun, it has been very personally rewarding," says Sylvia Hernandez, a sophomore. "Helping new students feel comfortable in their new surroundings is very important to me. My participation on staff has helped my own self-confidence grow. I have learned so much about what

Printed on recycled stock

Items in this section are printed in the order in which they are received in the Office of University Relations and Development. We receive numerous submissions each week and print them as space allows.

Donald A. Chu (Kinesiology & Physical Education, emeritus) has been appointed chairman of the Certified Strength Coaching Specialist Executive Council, the certifying agency of the National Strength Coaches Association. He was also featured in an article in the January, 1993 issue of *Walking* magazine entitled, "How Can You Resist?" He presented a talk on tennis conditioning at the Minority Tennis Coaching Workshop of the NorCal Tennis Association, held in conjunction with the San Francisco Volvo indoor tennis event. In February, he presented a talk at the National Volleyball and Track and Field clinics in Irvine on "Plyometric Training" for both sports and was the keynote speaker to over 600 tennis coaches at the 1993 USTA Area Training Center Coaches Workshop held in Indianapolis. In Pittsburgh he recently conducted a two-day "learn-by-doing" seminar for the Shadyside Hospital Physical Therapy department, attended by over 300 physical therapists, athletic trainers, and coaches from the eastern United States. He has also been appointed to the board of directors for the Hayward Education Fund.

Jay L. Tontz (SBE) spoke on June 5 at a conference on Rotary service to the former Soviet Union and Eastern Europe on "CSUH programs in the CIS and some first hand observations on the fall of the U.S.S.R." and on June 11 to the Castro Valley Sunrise Rotary Club on "Good News About the Economy: Forecast '93."

Dvora Yanow (Public Administration) gave one of the plenary addresses at the 7th Biennial International Conference of The Society for Philosophy and Technology in Peniscola, Spain. Her presentation was entitled "Ecologies of Technological Metaphors and the Theme of Control."

Mary-Therese Schweickert-Stary (Office of Student Life) facilitated a panel at James Monroe Elementary School in San Leandro on disability awareness, May 27. Three of the speakers are current students or graduates of CSUH: Mark Graves (and his guide dog Hutton), Enrique Madrinan, and Erma White.

Kathleen Kashima (Career Development Center) presented to the Study Group on Contemporary Issues in Dentistry a talk titled, "Psychological considerations in the treatment of patients with temporomandibular disorders" on May 26. She was also selected to be in *Who's Who of American Women* (1993).

Frederic Palmer (Music) presented a workshop featuring his compositions for recorder ensemble for the Buffalo Recorder Society on May 8 in Williamsville, New York and a workshop featuring early music from eastern Europe for the New York Recorder Guild on May 15 at Columbia University.

Helen C. Botnarescu (Teacher Education) was an invited participant at the International Symposium on Early Childhood Education and Development held in Jiamen, P.R. China. The symposium was co-sponsored by the State Education Commission and UNICEF. She read her paper, "Professionalism in Early Childhood Education in the United States: A Paradox of Perceptions" and presented a copy of the 2nd edition of her book, *Student Teaching Early Childhood Practicum Guide* to Mr. Lui Bin, the Vice-Chair of the State Education Commission, from Beijing.

Bruce A. Glasrud (History) recently spoke on "The Backdrop of the Civil

War: The South In the 1850's" to the Tri-Valley Civil War Round Table in Dublin.

Gloria M. Enguidanos (Student Development Center) has been asked to review papers written by women of color for the Association of Women in Psychology and to present the Women of Color Psychologies Award. The award will be presented at the American Psychological Association (APA) annual convention in August.

Rhoda Agin was guest professor of voice at the Department of Communicative Disorders of Tel Aviv University School of Medicine for Spring 1993. In February she made a presentation on "Therapy Techniques for Velopharyngeal Disorders" to the San Mateo County Special Education Local Plan Area.

Doug Weiss stands tall among the Bears

Doug Weiss, interim athletic director and baseball coach, was one of nine individuals recently inducted into the California Athletic Hall of Fame at the University of California Berkeley.

Weiss is considered one of the top pitchers in the Bears baseball history. He was All-America in 1957 when he led the Golden Bears to the NCAA team title. He holds the Cal record for career wins with thirty-one and career strikeouts with 275. He ranks second in the number of innings pitched with 344.7 and ended his career with a 31-12 record. He earned the Clint Evans Award as the Most Valuable Player in 1957. He was an assistant coach at Cal in 1961.

Weiss played professionally as part of the Yankee organization from 1958 to 1961. He has coached at Cal State Hayward for twenty-one years and was named interim athletic director in December 1992.

Distinguished oceanographer and director of Moss Landing dies

John Holland Martin, director of the Moss Landing Marine Laboratories, died June 18 of cancer.

Moss Landing is operated by CSUH and four other CSU campuses. Martin had been director there since 1976 and is credited with building the facility into a major research center. The laboratories were destroyed in the Loma Prieta earthquake in 1989 and Martin had been working on rebuilding the facility. A garden named "Martin's Point of View" will be planted at the new site of Moss Landing.

Ned Lyke of the biology department called Martin, "a warm and caring human being, who worked tremendously hard for the program."

He noted that Martin was stricken with polio as a teenager and could not use his legs, yet became a distinguished oceanographer. "He was very determined," recalls Lyke.
