

Sustainability Council

Functions

1. Promote the broadest vision of sustainability in our region
2. Advocate general principles of sustainability in the community
3. Act as a network for receiving and sharing information about sustainability
(create a web site)
4. Establish a round table so that various groups can resolve conflicts and reach common ground
5. Educate the public about sustainability through public conferences, school programs, curriculum reforms
6. Evaluate the sustainability of local projects and publish our findings
