Miss Julia Morgan

Architect Merchants Exchange Bldg., San Francisco

Received drawing of lower terrace of A but dont like
it as well as the model we agreed upon I dont like semi
circular bowed front in middle of terrace first
because that is where Hill is steepest and wall there
could be very high and expensive second because it is
too much like the others please put fountains in square
terrace on each side will try to find raised basins
and two statues to go in centers of these fountains
