

# **President's Planning and Policy Council**

## **About the President's Planning and Policy Council**

The President's Planning and Policy Council is comprised of members representing students, faculty and staff from all campus divisions. It is the role of President's Planning and Policy Council members to participate in the shared governance of the University through an interactive process, by bringing issues and ideas to the group for discussion and recommendation to the President. The Council has oversight responsibility for assessing the University's progress toward meeting its Strategic Plan as well as developing, reviewing, and ultimately recommending administrative policy to the President.

The Administrative Policy Manual is located at <http://policy.csuci.edu/>
