

Project Rebound

Each one teach one: the journey from incarceration to education

Who Do We Serve?

Project Rebound is a new branch of a highly successful program out of San Francisco State that is committed to serving individuals who have been involved with the Criminal Justice System and are interested in pursuing higher education. In 2015 eight other CSU's have joined the cause, and together we cover 70% of the state.

These individuals reach out to us at any point in the process whether they're still behind bars or already enrolled at Fresno State.

In year one, we have a cohort of thirteen Fresno State scholars and twenty three students pursuing active steps to matriculating into the University.

Our students serve their community through volunteer service hours and taking advantage of opportunities to mentor, tutor, and lead in their communities.

For more information please contact Jennifer Leahy, Program Director, at projectrebound@mail.fresnostate.edu or 559-278-2313
