**DEMOCRATIC  
PARTY  
OF  
CALIFORNIA**

Mrs. Jane Tolmach

Oxnard, Calif.

Dear Jane:

Since you couldn't be with us on August 25th, I am sending you a copy of the report as well as some demographic material which we have sent to Senator Alan Cranston so that you can evaluate the program which we outlined for Project 70.

In a very few words, we have come to grips with the hard political reality that next year is crucial in California and the nation since the 1970 Legislature will reapportion the state based upon the 1970 census.

California will get at least six new Congressmen. All the lines for the congressional districts, the assembly districts and the state senate districts will be redrawn by that legislature. To prevent a Republican gerrymander we must plan now to win those key seats which will give control of the state legislature back to the Democrats.

If Project 70 is to be successful it must have your support. Please read the enclosed material and give me your analysis of it. Equally important, please send now your \$100 so that we can start the preliminary staff work.

Sincerely,

  
Leon M. Cooper
