# "SOUND as THE WHEAT"

Generations of golden wheat harvests are the rich heritage of America's midlands. And the supreme compliment to a savings institution is, "it's sound as the wheat."

It is symbolic that several offices of California Federal Savings stand on land once occupied by fields of wheat. For soundness... "sound as the wheat" ... is also the great tradition of the nation's largest federal savings association.

At California Federal, the same, sound management policies have weathered all tests of wars, depressions and prosperity for over a third of a century. Reserves have grown to \$34,000,000—an all-time high. Resources have passed \$1½-billion. And, since 1934, every savings account has been insured under the terms provided by the Federal Savings and Loan Insurance Corporation.

Consistently, too, California Federal has always paid the highest rate commensurate with safety for your savings.

Currently this annual rate is 4½% with dividends paid every quarter. We invite you to open your savings account at one of our 9 friendly offices soon.
