# ONCE UPON A TIME THERE WERE TWO BEARS...

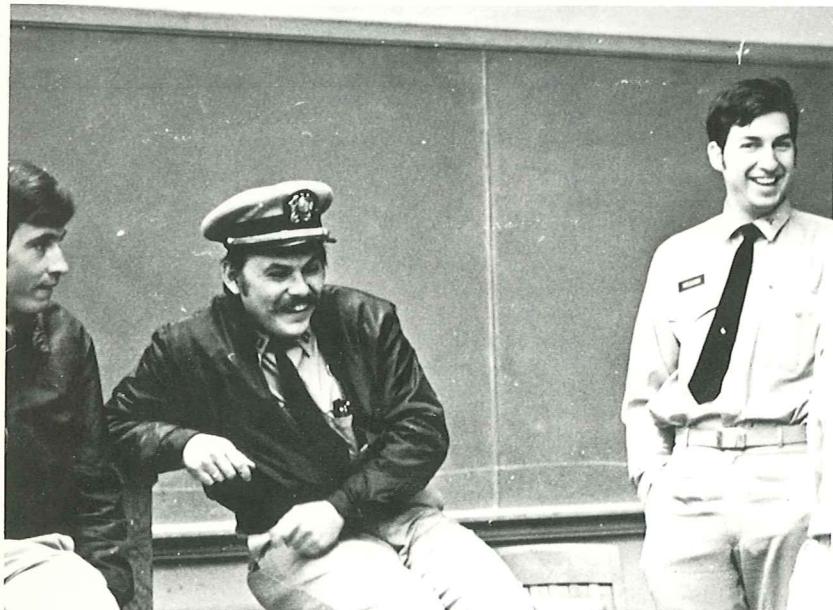

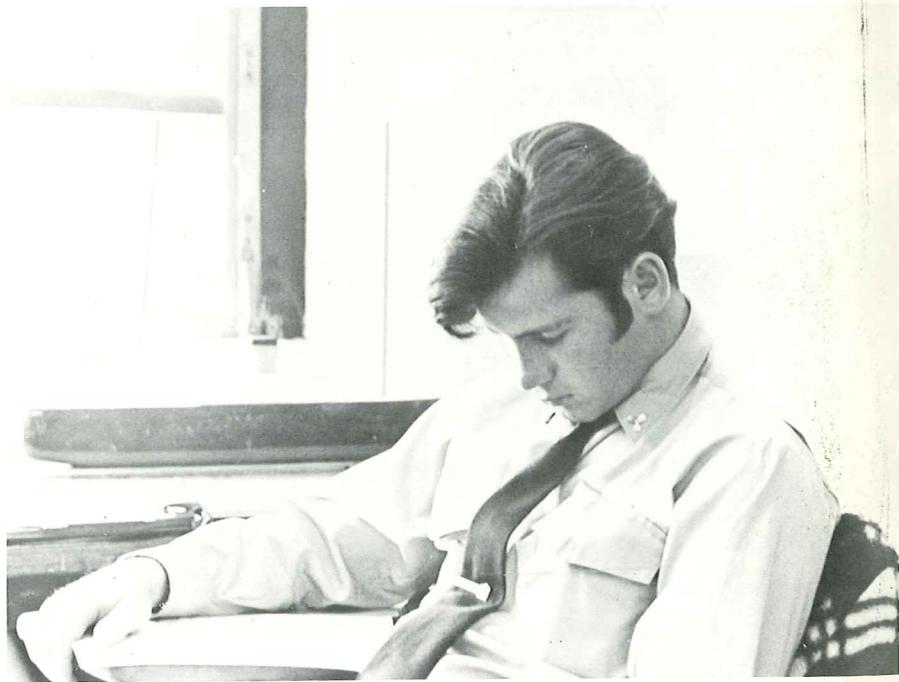

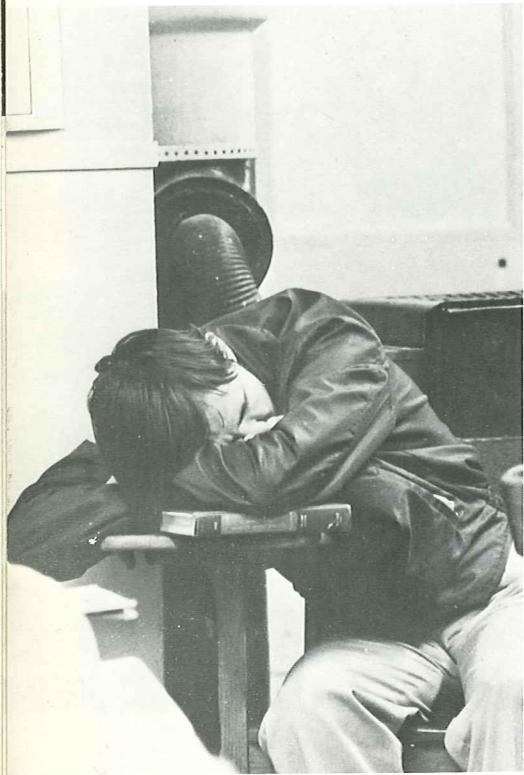

# CURRICULUM

The Academy provides practical as well as informative classroom instruction to all those midshipmen desiring to listen. Most teachers try and keep the class interested by occasionally telling "sea stories." However, even then, some students would rather watch the garbage truck make deliveries to Harry's Mess Deck or maybe at times try to remember what they did last weekend.

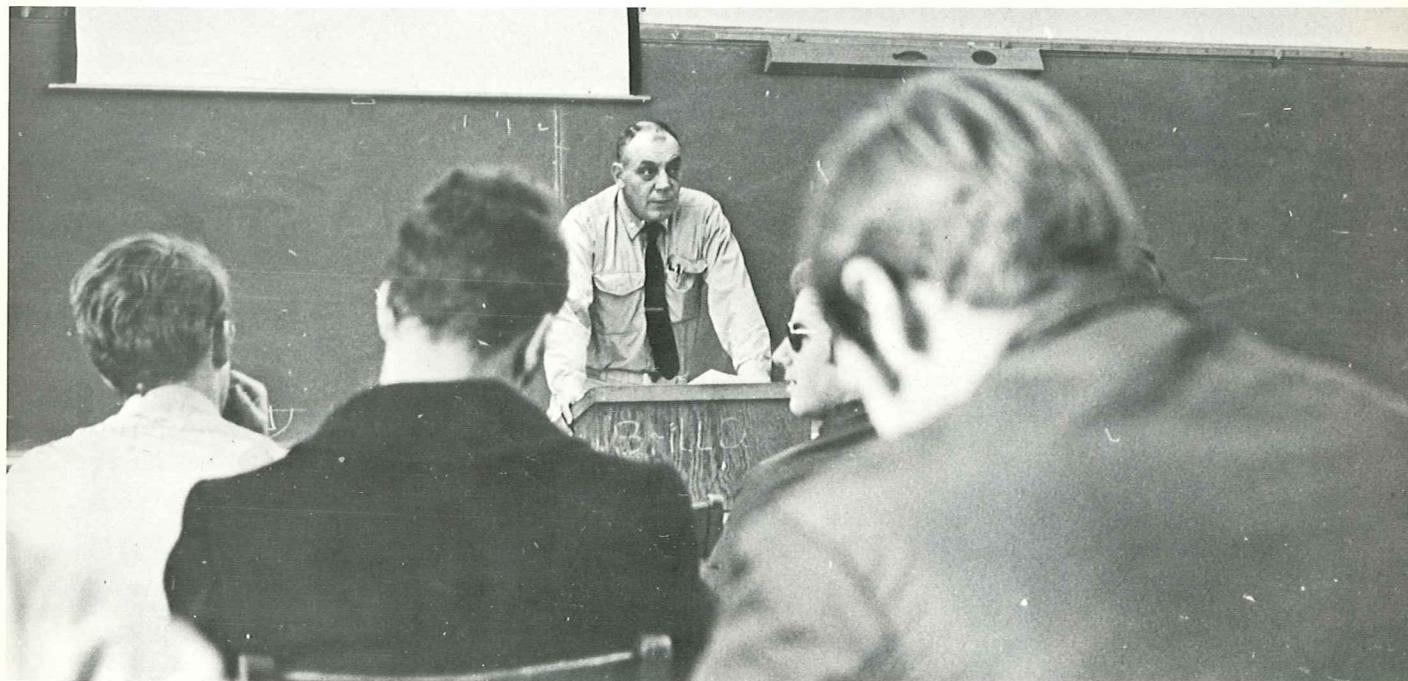

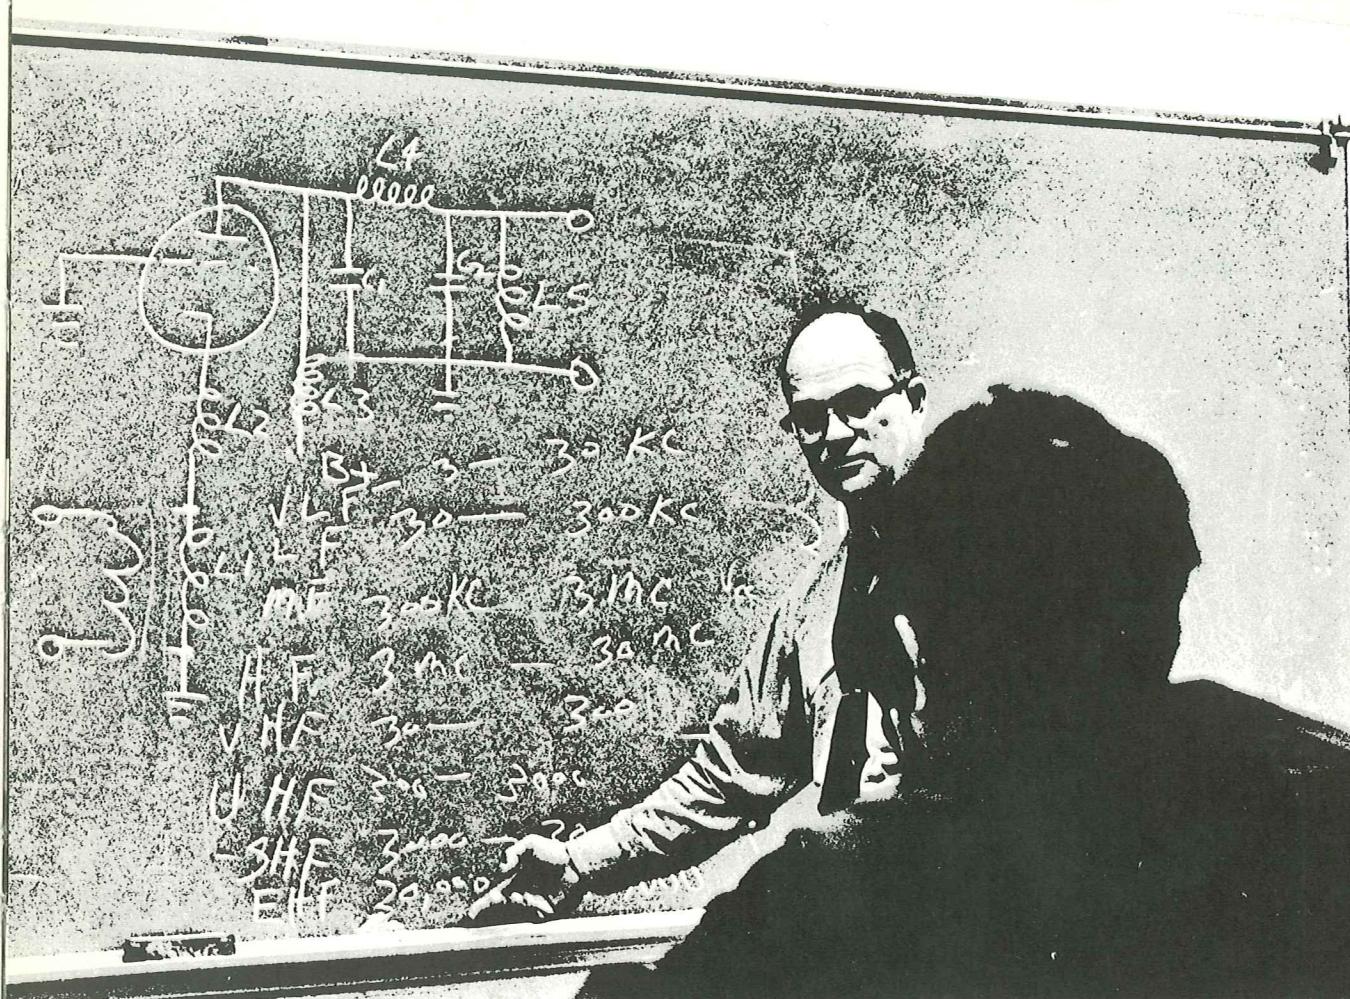

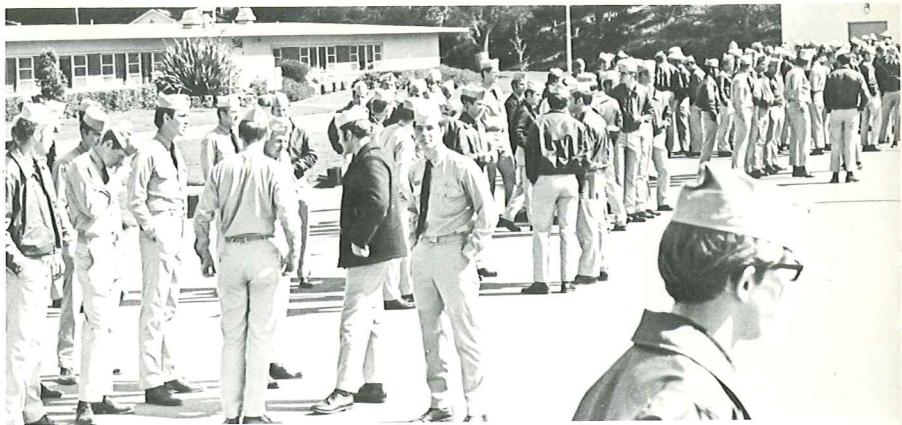

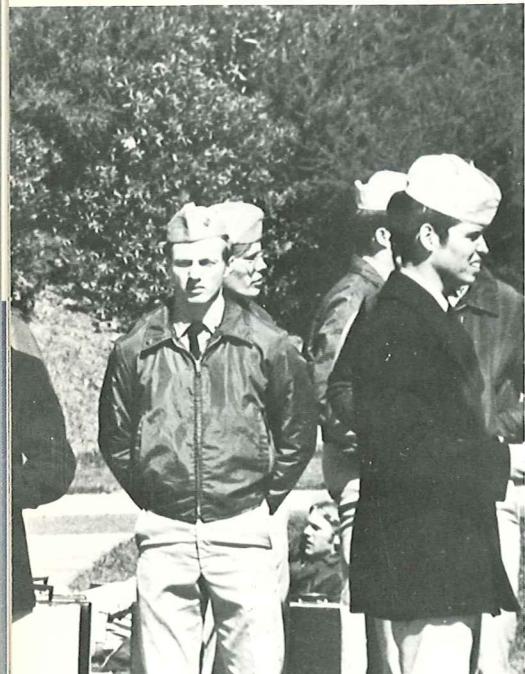

The rigorous academy routine and extracurricular activities in higher education consistently inspire midshipmen, as well as faculty, onward and upward dreamily into the promising clouds of the future.

From time to time the midshipmen are addressed by a person who has attained prominence in some phase of the shipping or allied industries. The majority of the time, however, they're addressed by their 'instructors'.

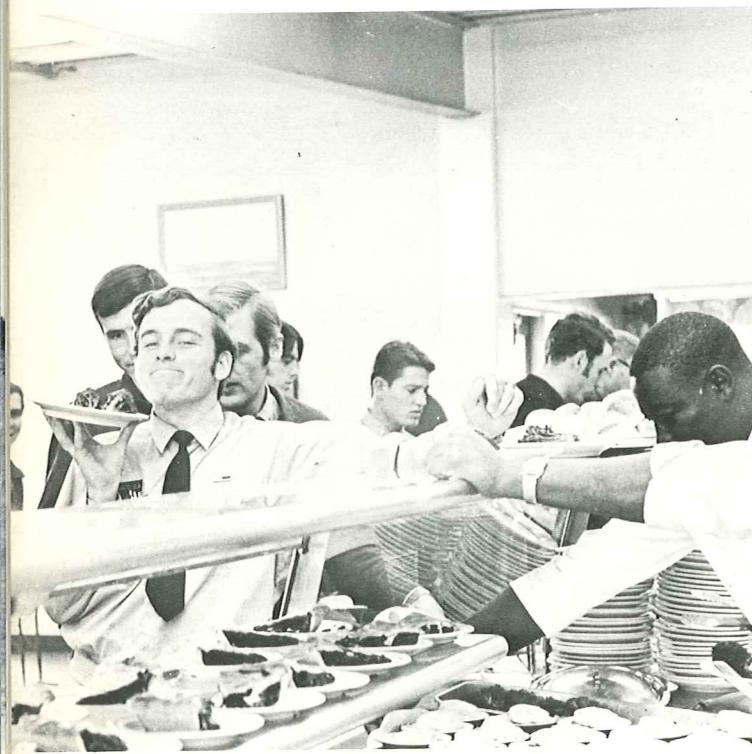

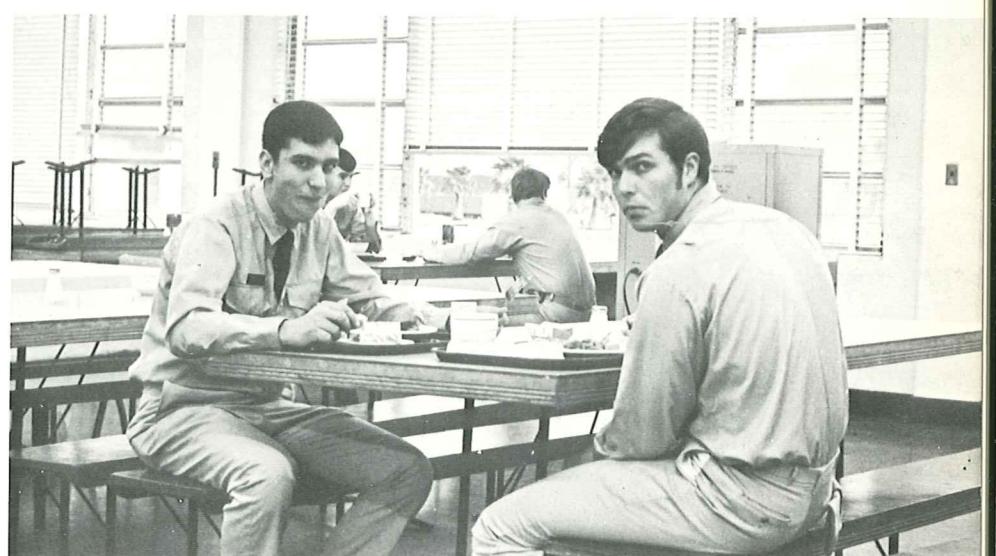

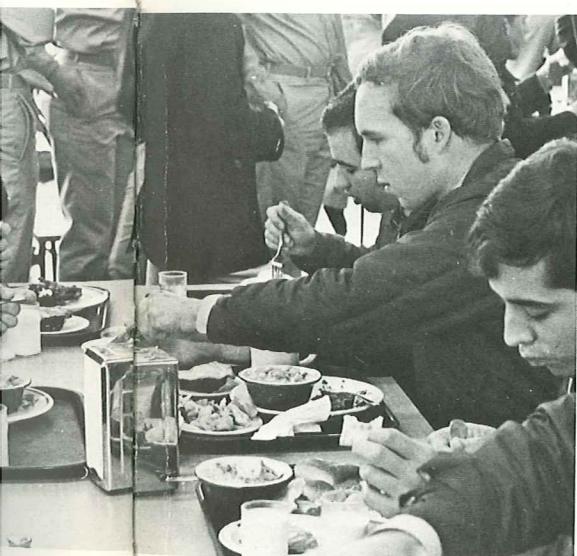

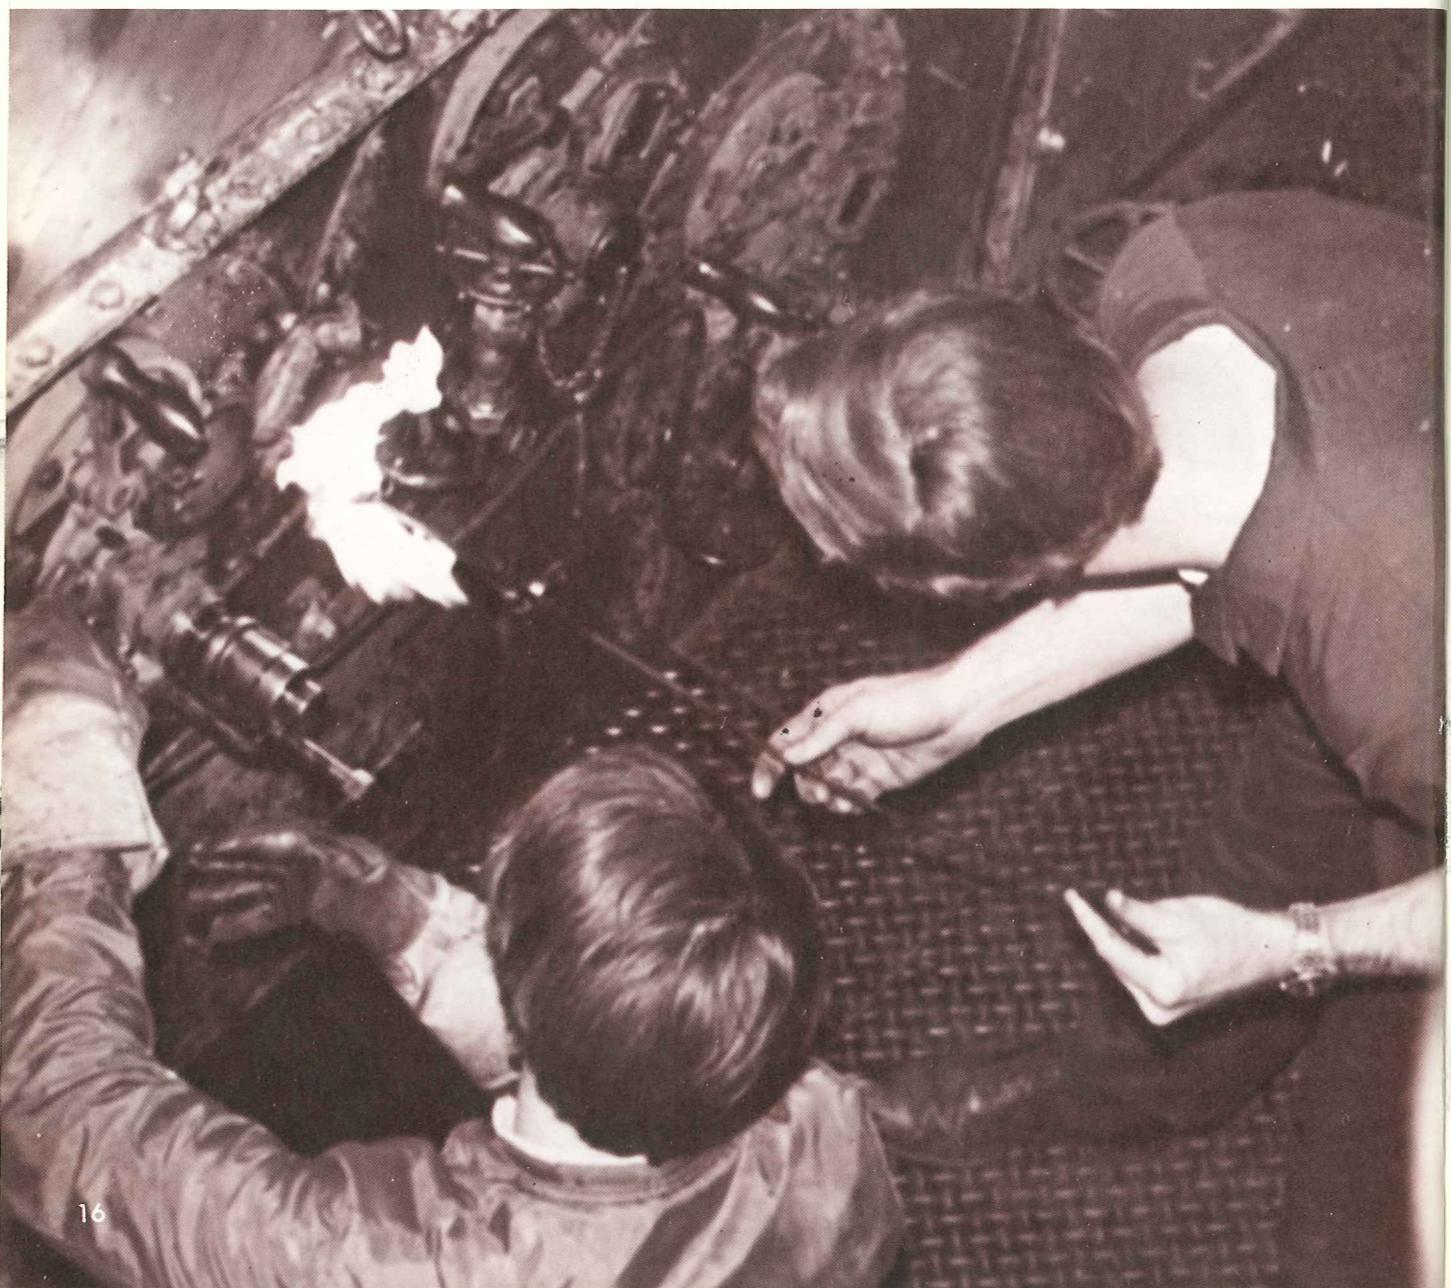

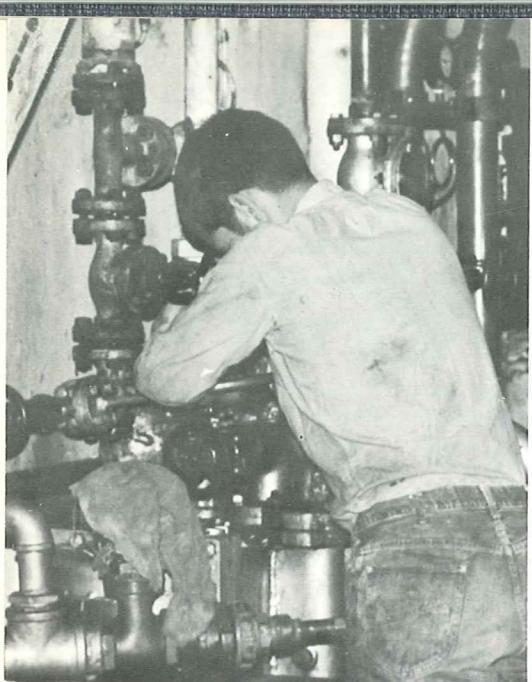

Formations are a way of life here at KEEMA. They play an important function in that it is the only time when the whole corps is together as a single unit and the faculty meets the midshipman face to face.

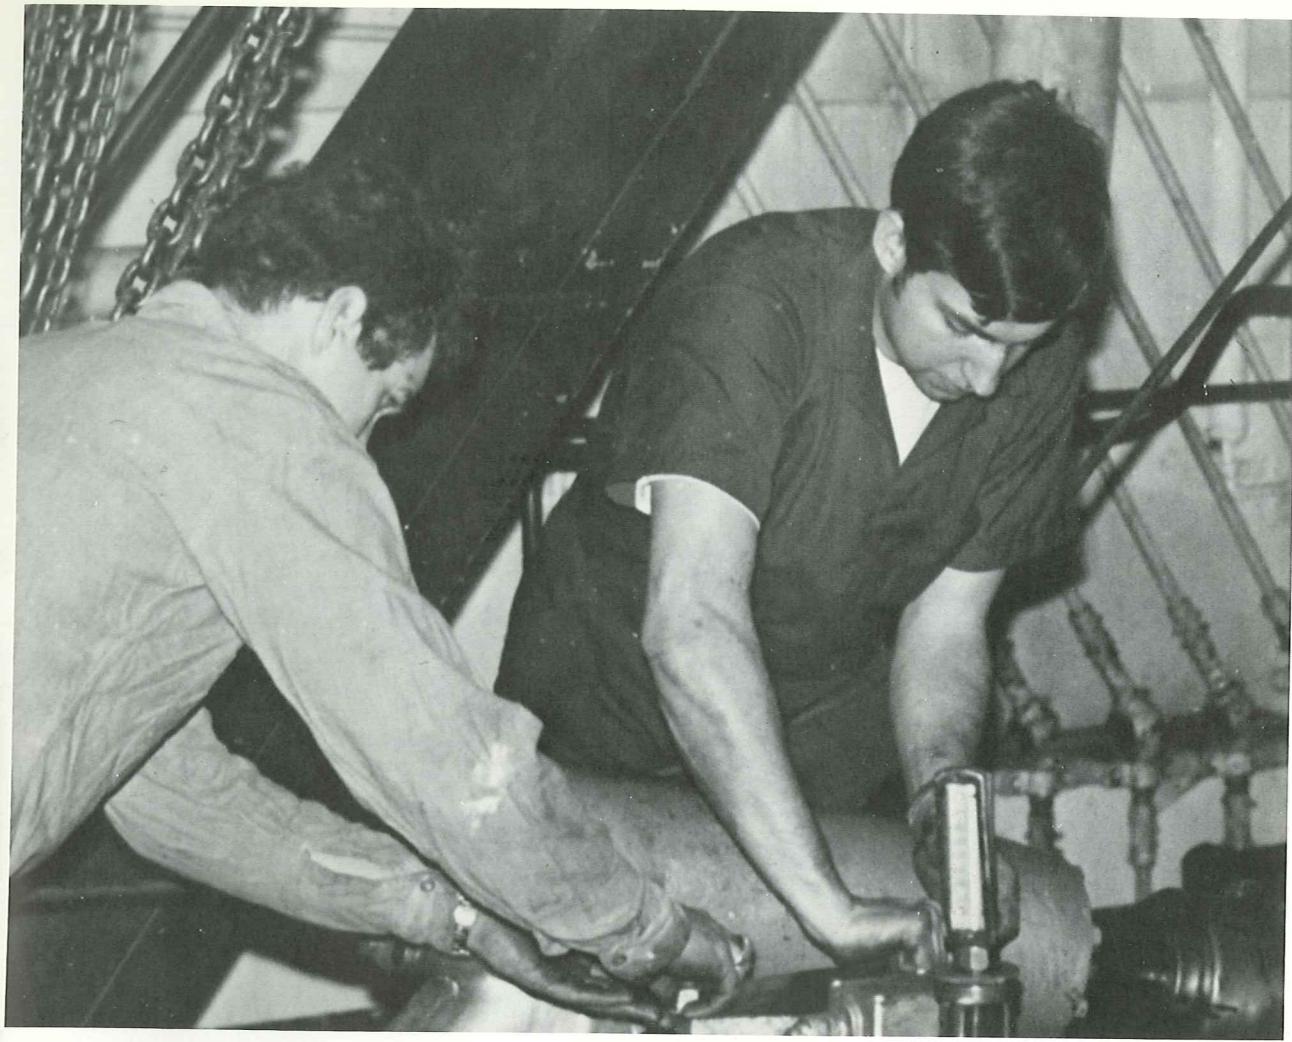

Harry's Mess Deck Grill is a permanent building adjacent to the midshipmen morning formation area. Service is cafeteria style, and a balanced diet is provided by dietary experts. Occasionally they even cook some food.

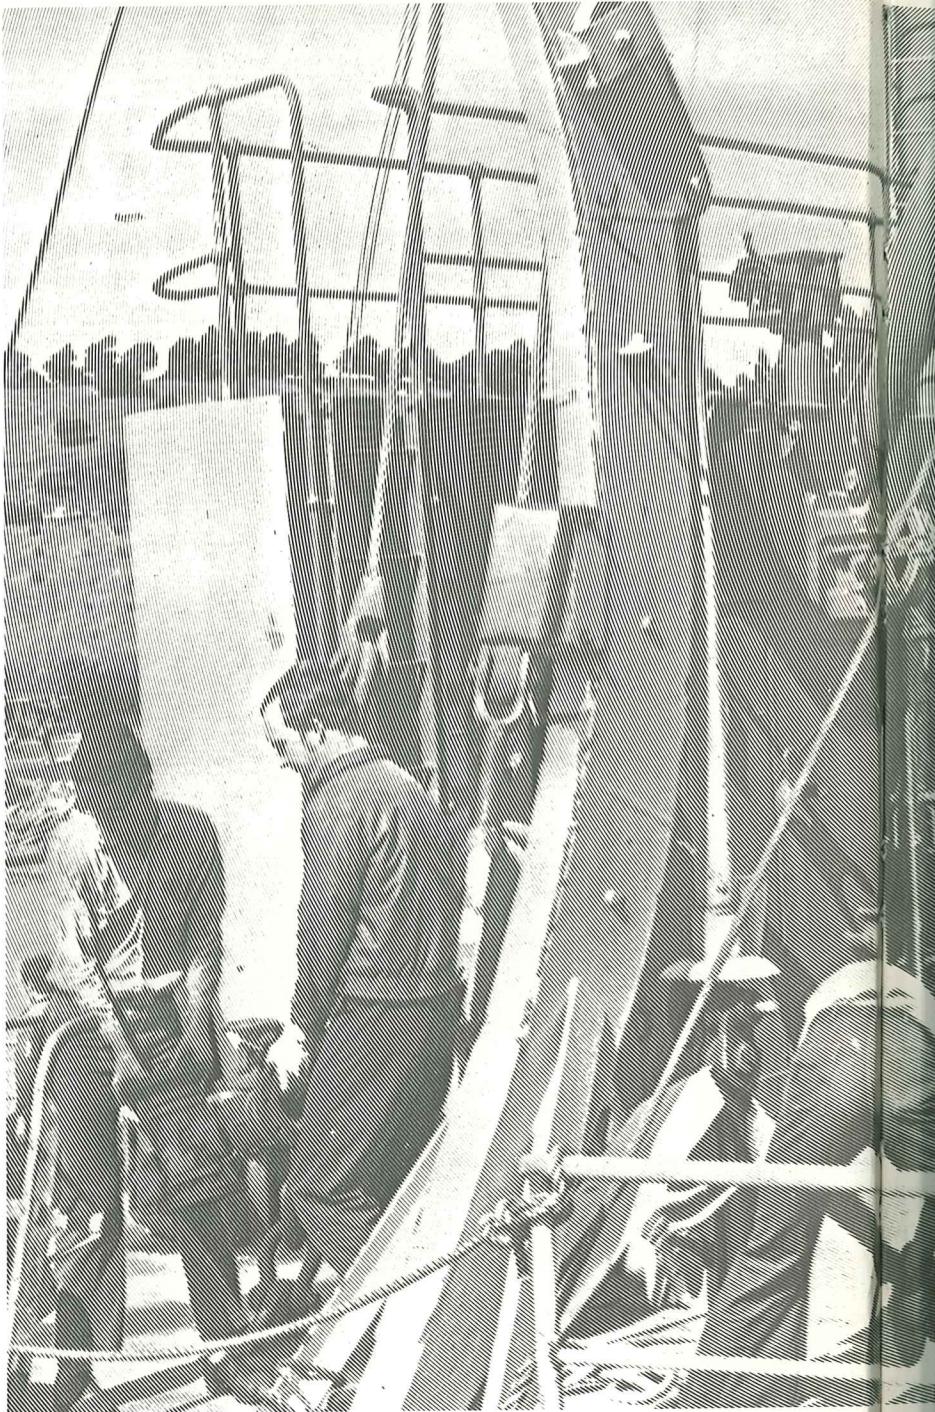

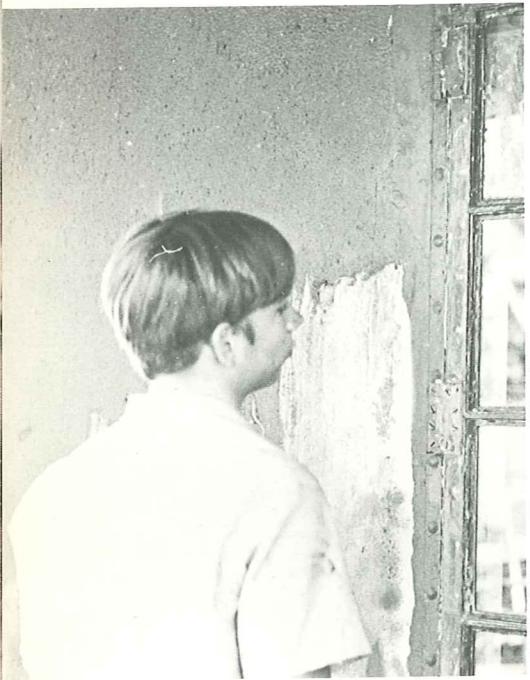

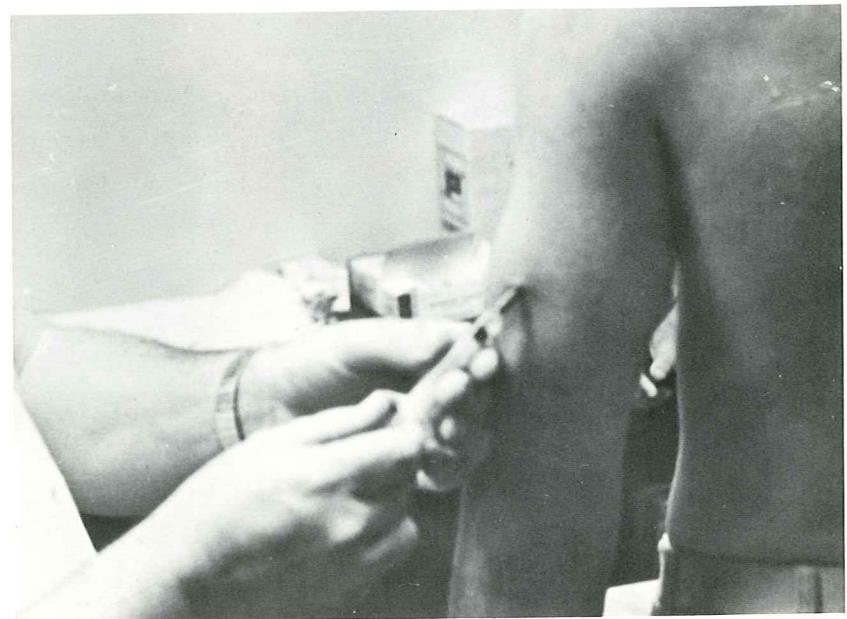

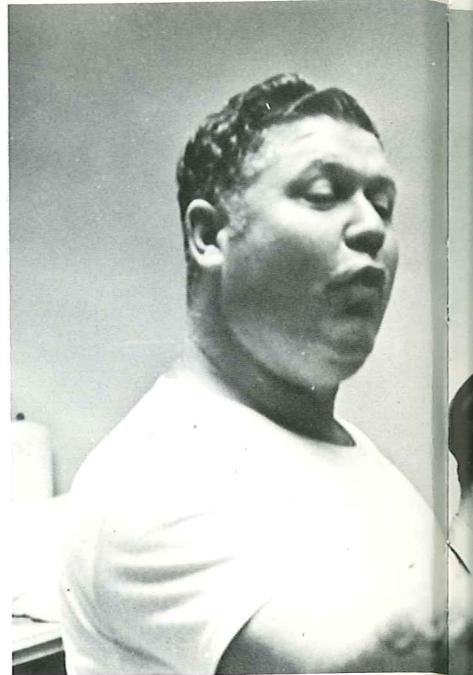

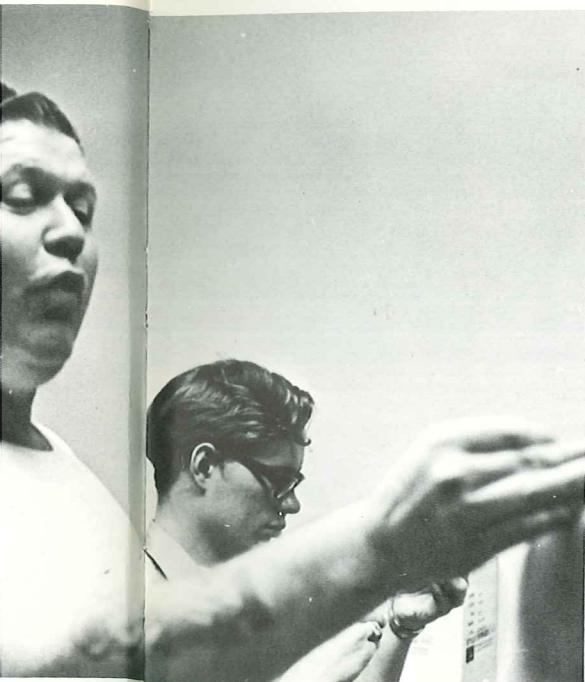

Light-off was a critical time for the new BEAR and the whole Academy. It proved that the impossible could be done once again. Perhaps one day Uncle Tom will bring his area of specialization up to the "mint condition" of the rest of the ship.

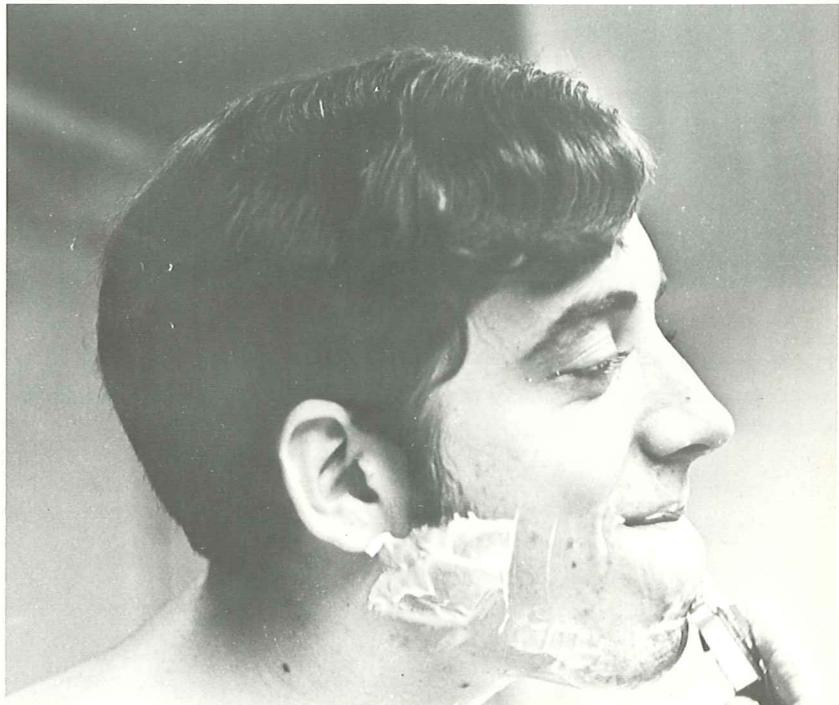

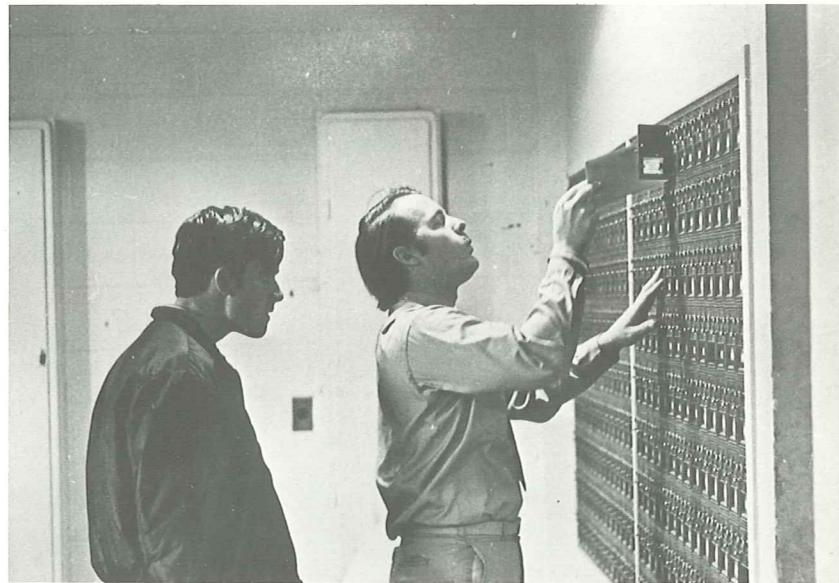

Ship's Operations has been a unique and awing experience this year. Never before has any academy attempted such a massive project—bringing a ship back to life after 25 years. Whether the project was a success or not is up to some debate. There will probably NEVER be any agreement.

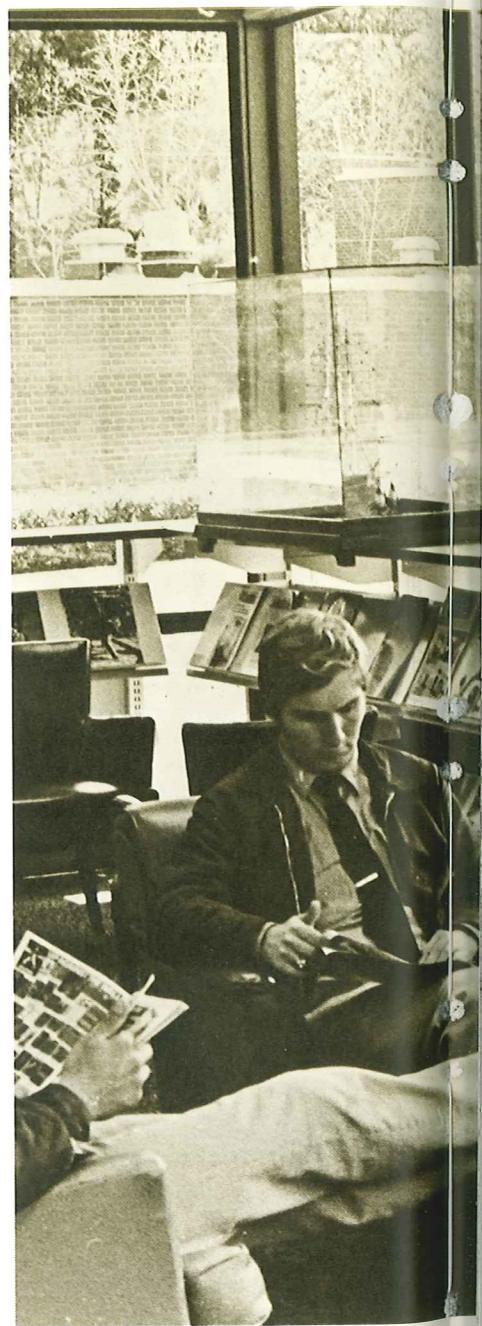

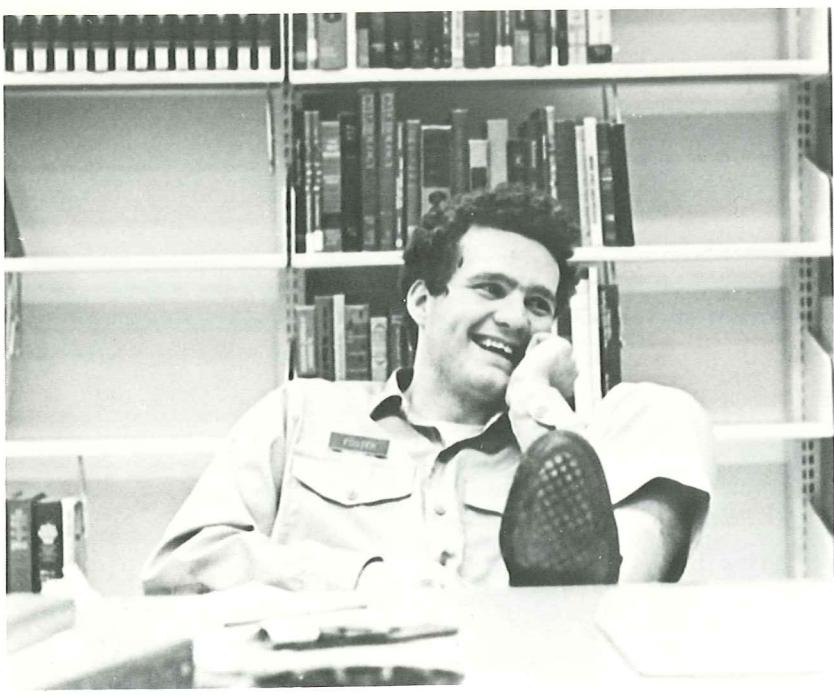

The happiest day of Lowbrow's year. He's been practicing all month on his dart board. The midshipmen will never forget the skillful manner in which his harpoon penetrates human flesh, nor the freezing cold of the serum being forced into their arms.

For each person, each day brings something different. Some wait expectantly, while others find the unexpected. But mostly, everybody goes on like the day before.

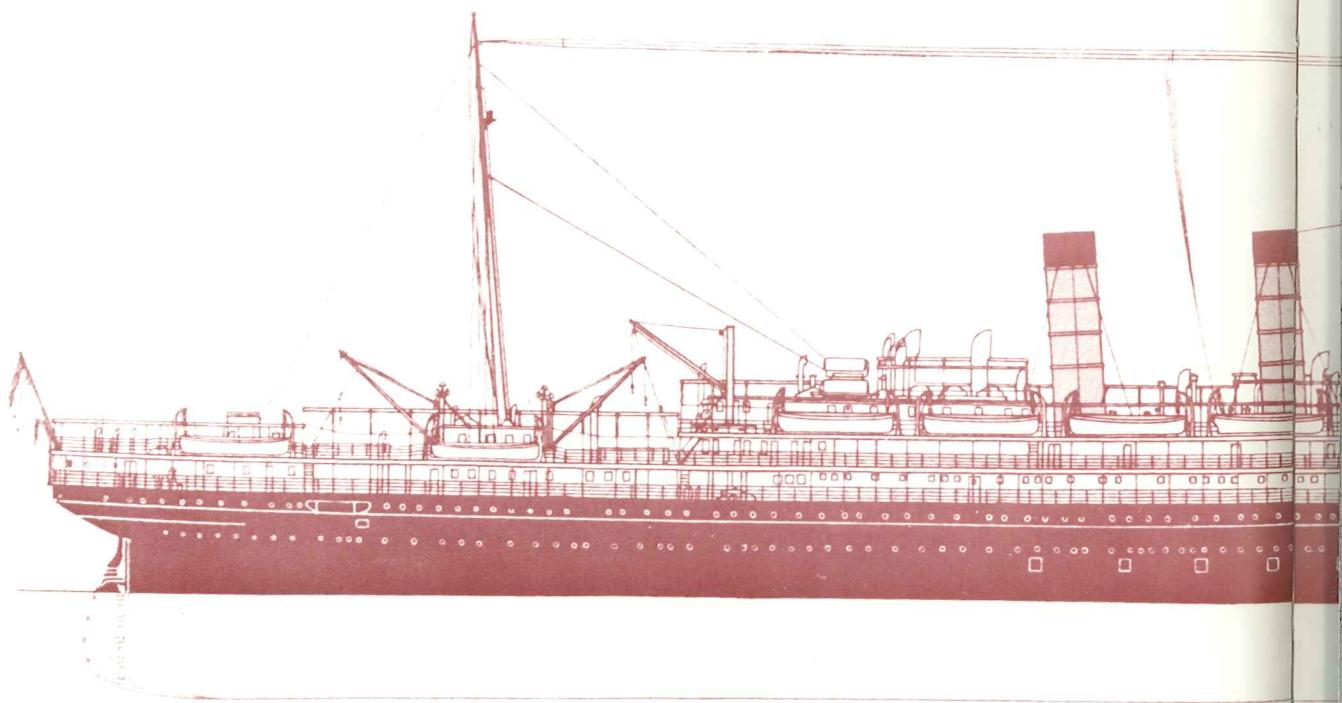

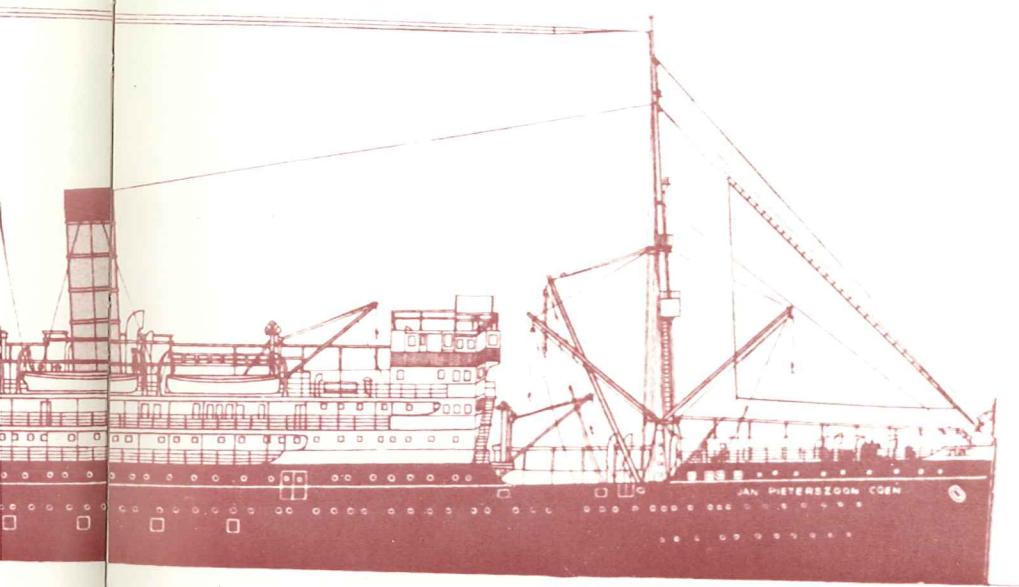

The new library was an earnest attempt by the administration to raise morale as well as a large step towards accreditation. Morale was definitely higher, especially at its grand opening "pig push" which many of us may or may not remember. By skillfully arranging what few books we do have, Paul O'Bannon has made the library appear three times as well equipped as it actually is.

The one that got away.

left to right: Coach Diavatis, Mike Dindio, Paul Arsenault, Steve Gibson, Stan Gibson, Terry Burke, John McGuire, Les Eldridge, Louis Hannigan, and Steve Lee (Manager).

Mike Displays unique free-throw style.

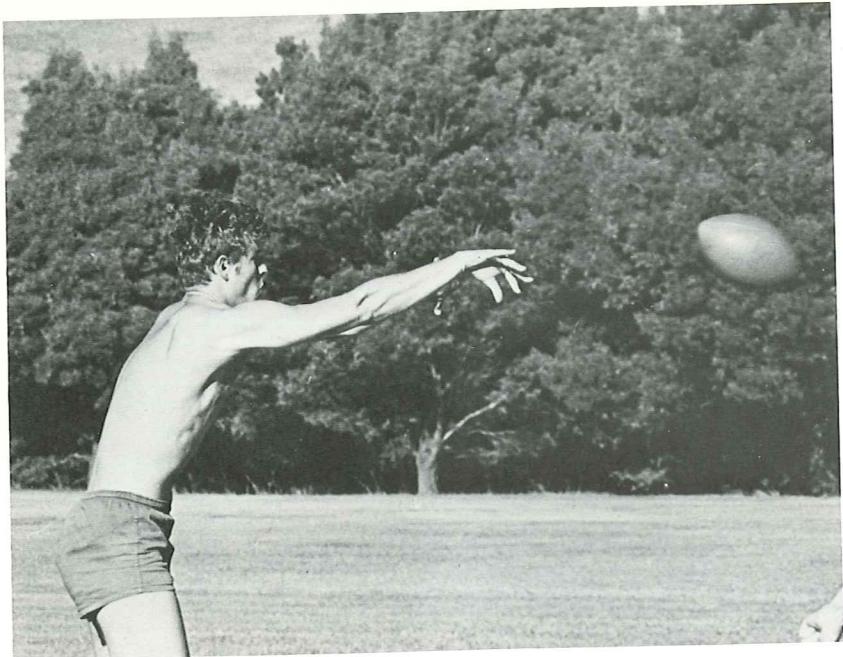

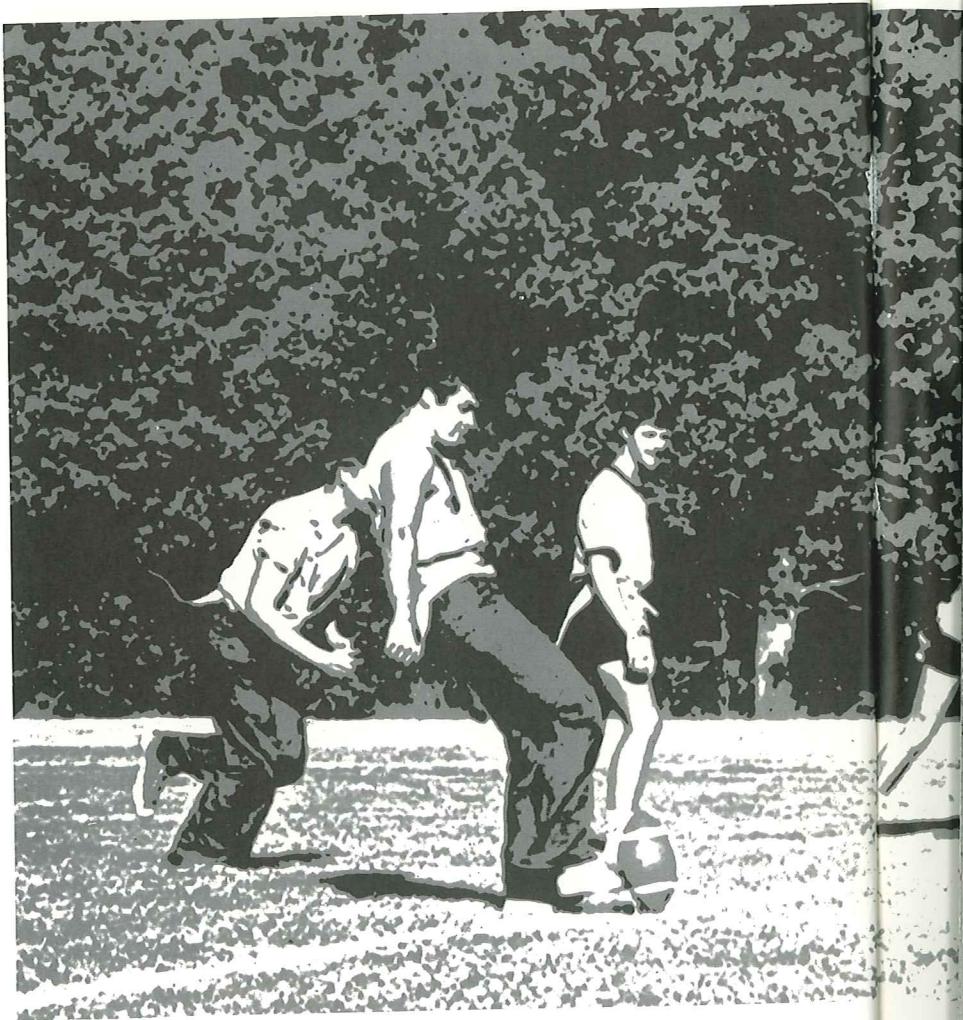

Eldridge kicks in a couple.

Nice block Steve!

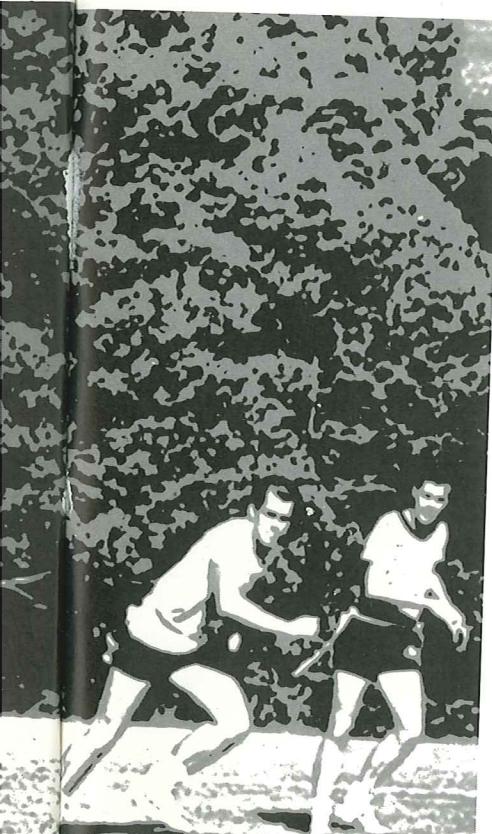

Curly takes the snap.

3-E kicks off.

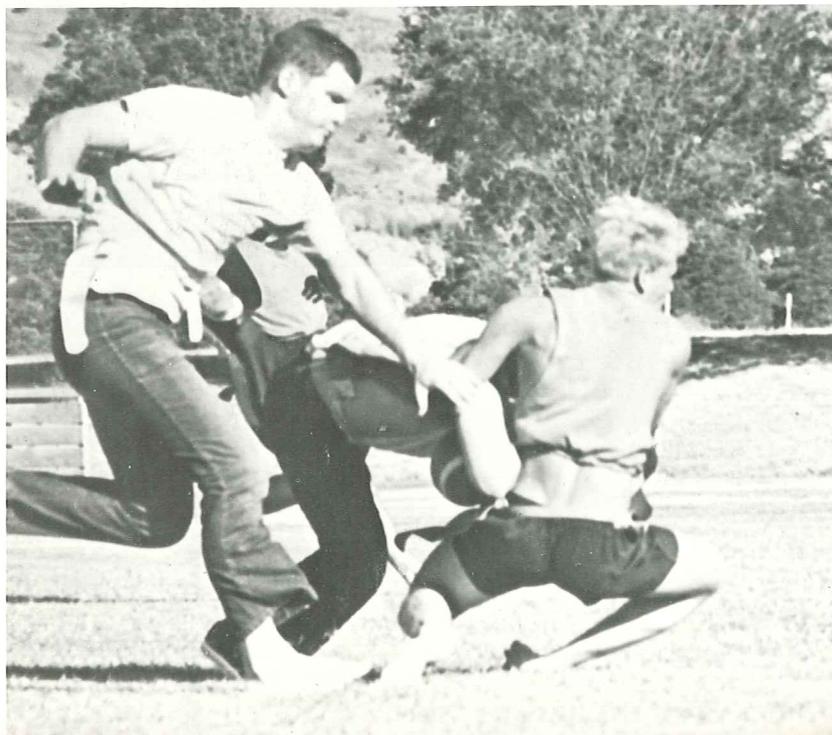

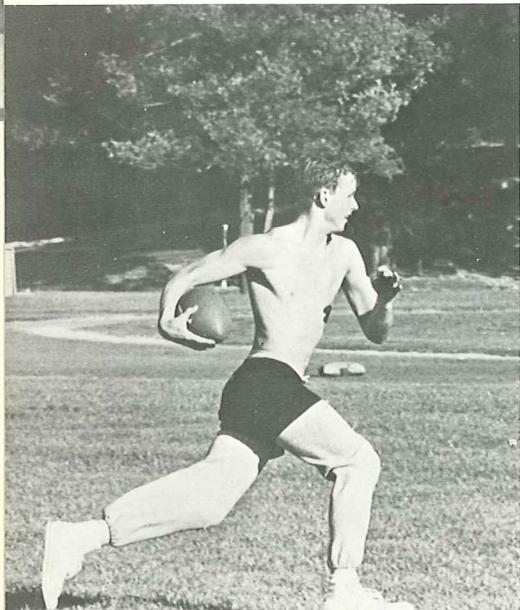

Jim leads an end-around.

That's the way I did it in 2-E and that's the way I'm gonna do it in 1-E. . . .  
questions?

Chalk up another one.

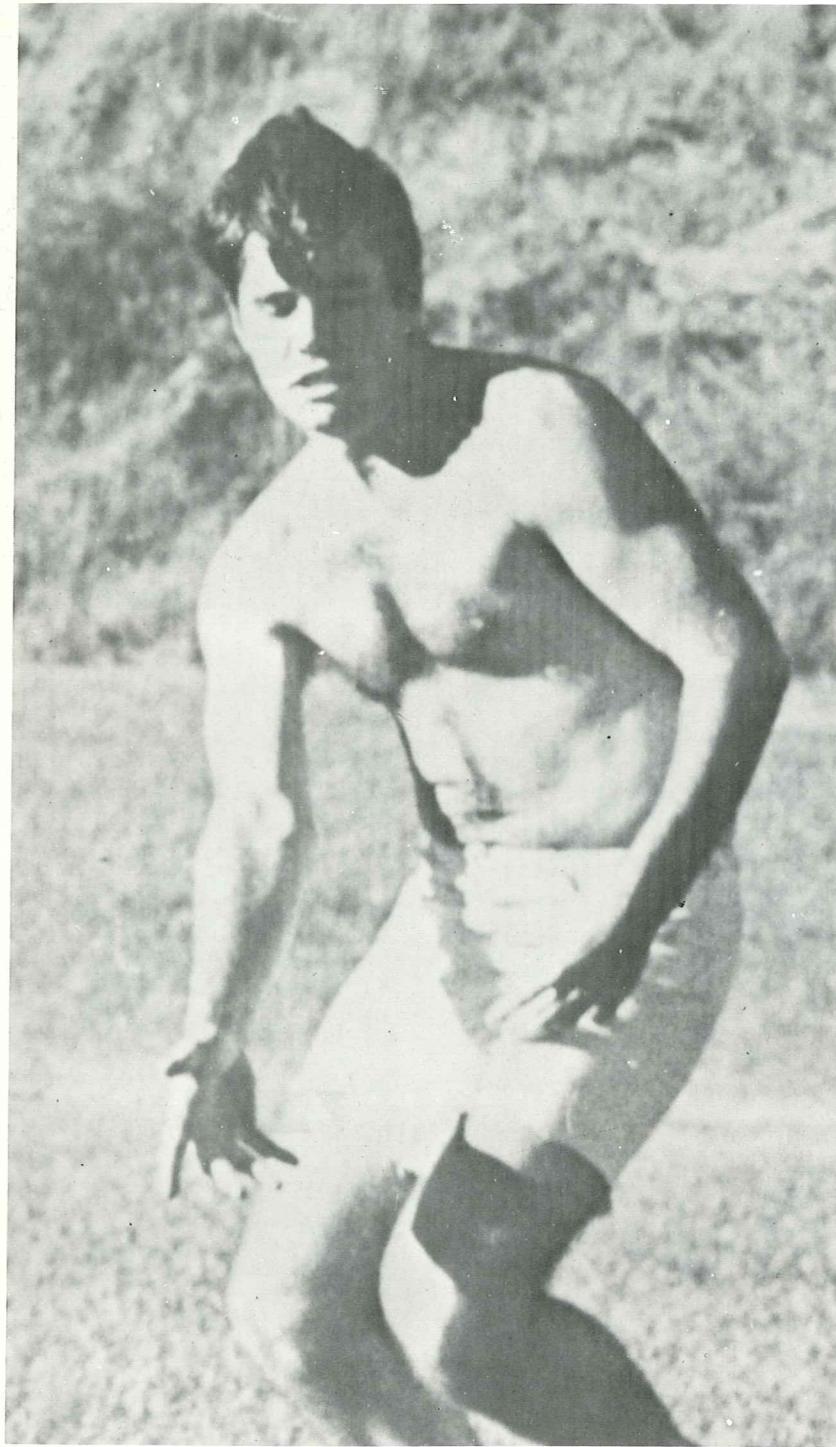

Sandy scores.

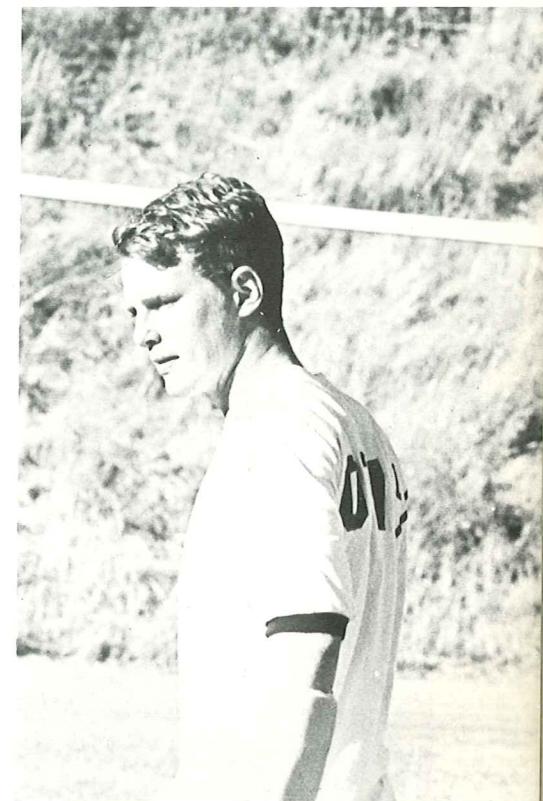

Which way did they go?

The wrath of Max.

Tom scoops one in.

I wish they'd let me play!

Watch the game, Ref.

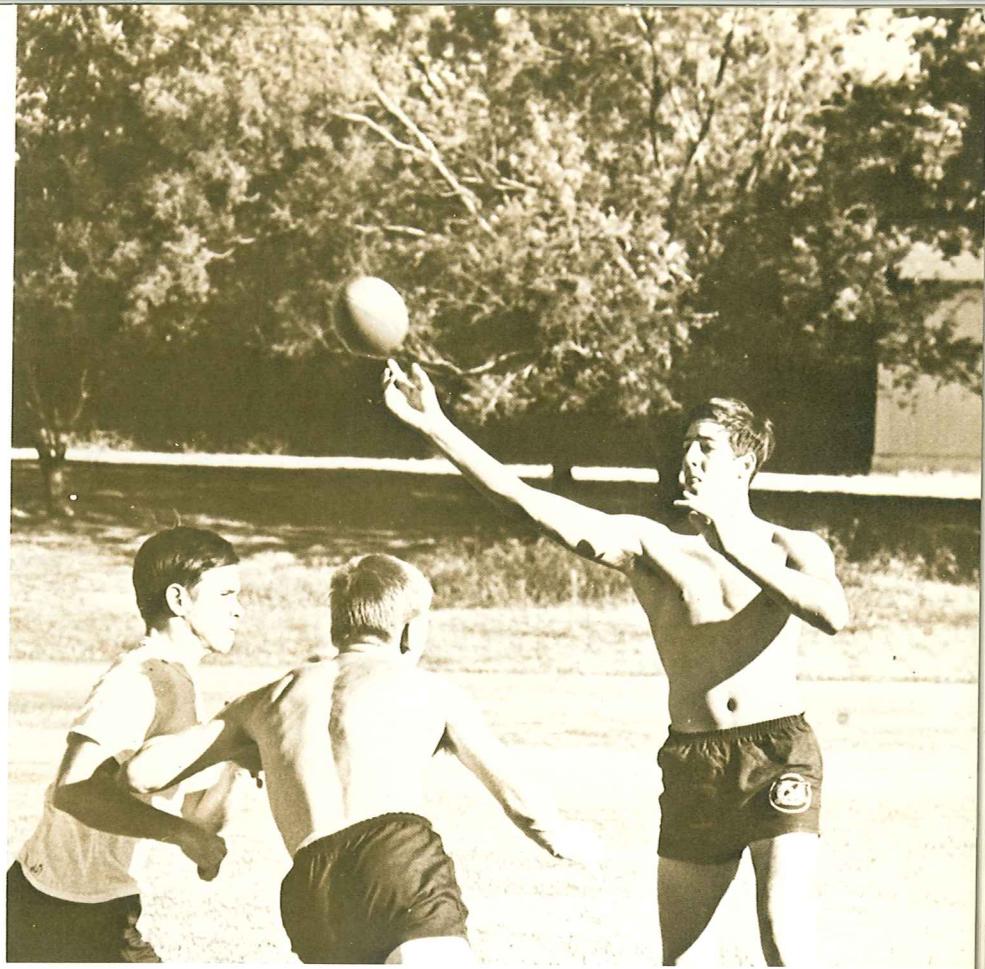

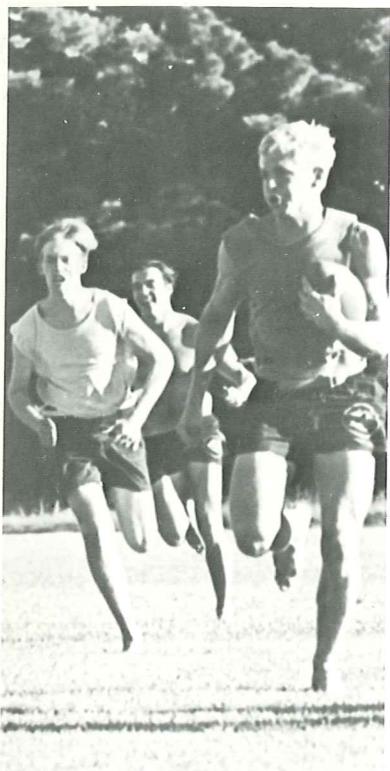

Let's see. . .  
was that down  
and out. . .or  
down and in?

Pulley engineers the score.

The deckies score... one.

Gamba overthrows Foulk.

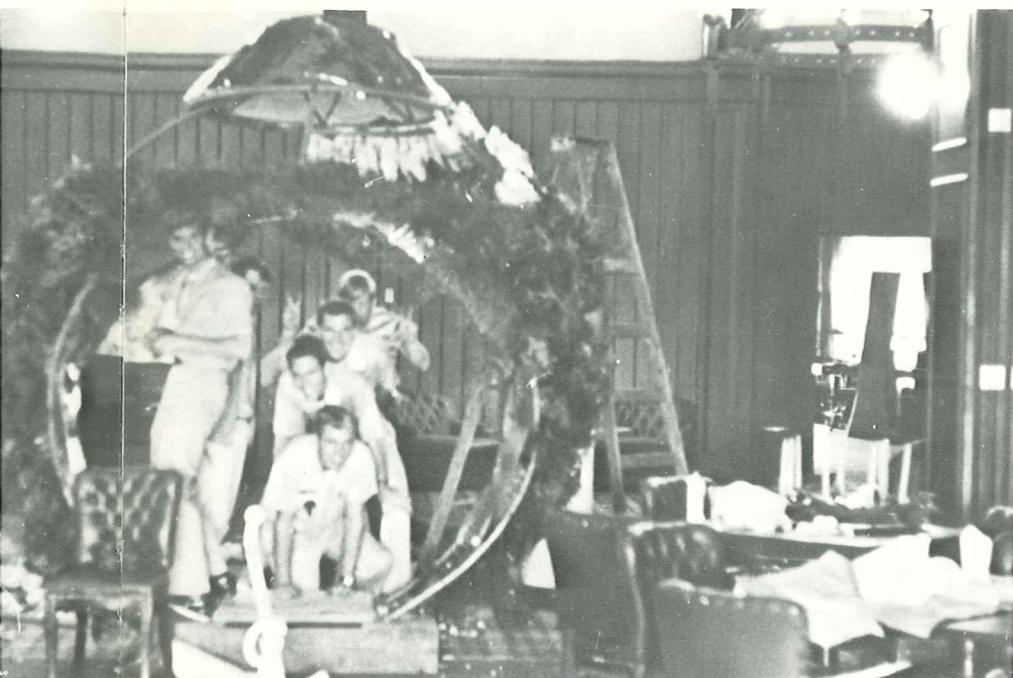

Gene gains a yard!

RING DANCE  
1970

Maritime Day provided a relaxing day away from the Academy and an opportunity to see some of the outside world.

And there is always time for practical work: such as, the fires on Magic Mountain.

# SAILING CLUB

The Sailing Club enjoyed many an afternoon on the placid straits off the Academy. They even managed to venture as far west as Angel Island while participating in traditional sailing activities.

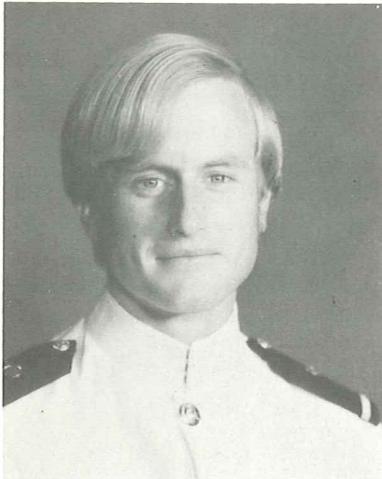

CLASS OF 1971

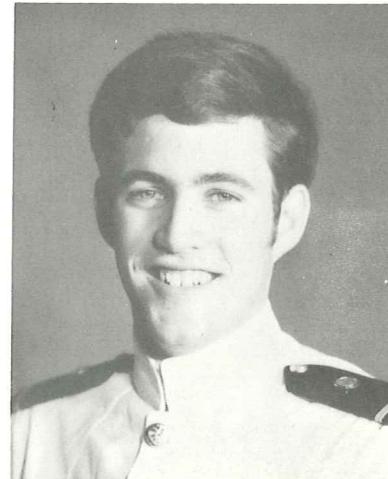

DOUGLAS BRIAN ADRIANCE  
Chula Vista, California

Dean's List, Admiral's Leadership Award, Captain's List, Board of Governor's Club, Member of Lowbrow and Sons. . . "Little Dougie" had an interest in the Administration and this interest made him a very controversial figure in Keema History. A firm believer in "Power to the Middies," he carried out his numerous campaigns in the best traditions of Che. Doug plans to grow his hair long and live happily ever after on welfare.

FRANK H. ATHEARN

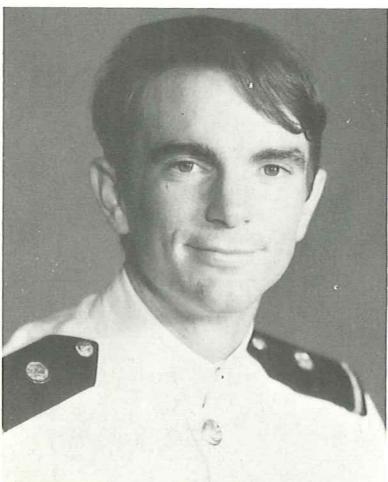

2720 Oakmont Drive, San Bruno, Calif.

First Class Secretary, Propeller Club Secretary-Treasurer, Sports. . . No two ways about it, Frank was definitely capitalistic. If he wasn't in the library tabulating his income, he could either be found giving 25¢ haircuts for a dollar or selling his infamous CMA Christmas Cards for an equally ridiculous fee. . . Frank's life is one of a man who picked himself up off the floor. . . just to jump back down to demonstrate the gator for a fee.

C. LOWELL BASS, JR.  
8022 NE 22th Bellevue, Washington 98004

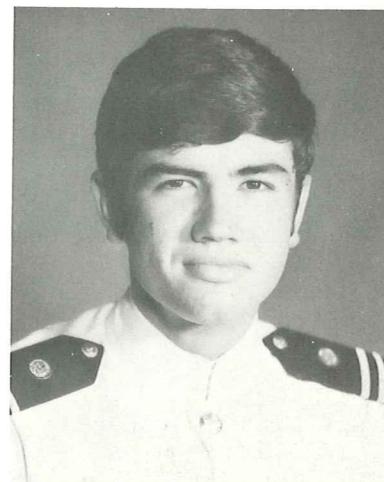

Skipper SS Fireplug 6, Sunday Night Fillmore, 1969 Wine Bust, Member of the Class of 69 and 71, President FBN Appreciation Club. . . Twice in the past years Lowell has ventured out of the Northland in an attempt to earn his third's ticket. Come May 9, however, Lowell will once again return to the timberland of the North, never to be heard from again.

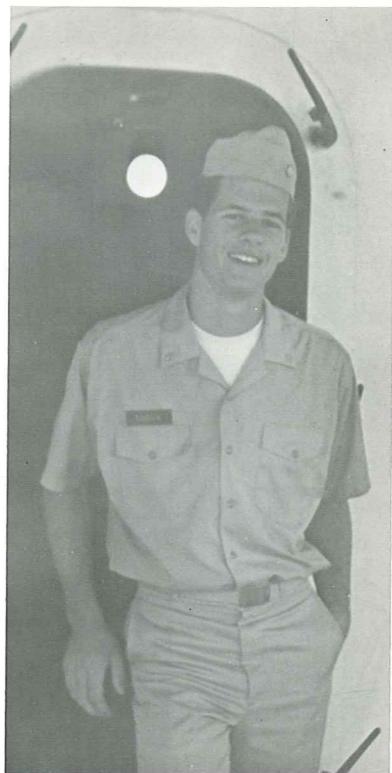

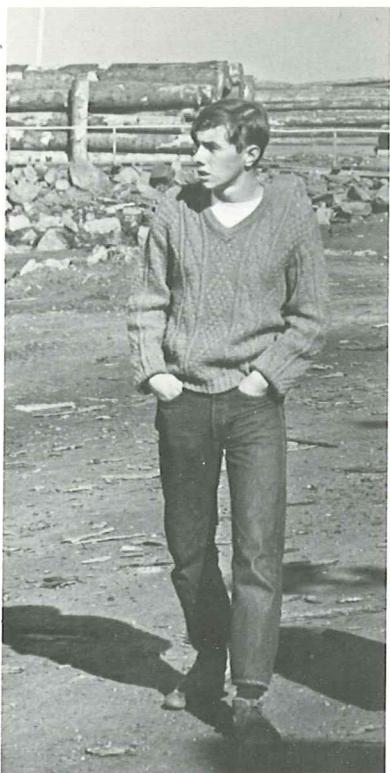

GEORGE BRERETON

2141 Kincaid Way, Sacramento, Calif. 95825

Brainchild of the First Annual Peace and Brotherhood Gathering, X.O. 2-D, Dean's List, Binnacle Staff, Dig Fresh Air and Sunshine Club. . . One of the easier going middies, the Corps had a good thing going with "Toad" as one of its officers. George hopefully plans on splitting on his own boat, but then again there is Sally. Whatever happens George will make the most of it. George says that he will always remember "Little Bill" as a Friend.

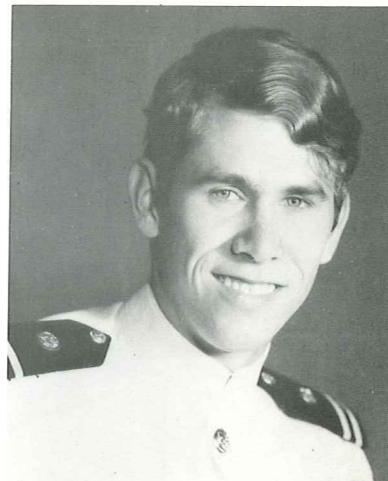

JAMES I. BUCKLEY

1740 Broadway #14, Vallejo, Calif. 94590

Corps Adjutant, Propeller Club, Newman Club, Sailing Club and Bust, NICYRA Skipper. . .Zero earned the wrath of the entire school for his failure to keep the mailboxes stuffed with anything but draft notices, commission rejections, and Dear John's. Jim plans to sail around the world in the Beeble's boat, however Beeb's does not know it yet.

RICHARD CARL BURKLE

53 Genebern Way, San Francisco, Calif. 94112

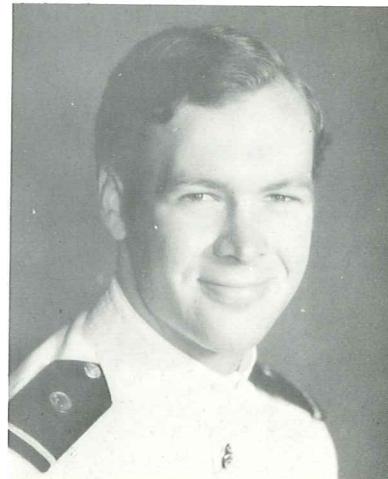

Mate of the CUB, Propeller Club, Dean's List, "The City" Club. . . Rich was one of the more quiet types around Keema. The liquid malady of middies, when imbibed, was never known to alter his mild-mannered demeanor. Although he never seemed to work hard, Rich always appeared to come out ahead. Like other middies from the City, Rich loved Music. His future plans include more education and a job.

MILES THOMAS CHESLEY

Las Vegas, Nevada.

Beeb's Bottle Club, Vallejo Bar Pilot, Propeller Club, North to Alaska Club, Wednesday Night Dinner Club. . .Smiles first entered Keema as the kid who didn't make Annapolis. 2-D quickly cured him of that and added new words to his vocabulary. He is now well known for his smile and infectious laughter, which makes you wonder if he will ever recover. As 3-D Division Commander all he could do was stand around mumbling "Why me? Why me! ?"

LEX CRAWFORD

1190 Via Cielito, Ventura, Calif. 93003

Propeller Club, Newman Club, Down South Club, Dean's List. . .Lex is the one who brought 71/D through the stability problems. What the Hell is GM anyway? Always hitch-hiking to or from Ventura, Lex seems to have contracted the flu more than anyone else, Stretching two day weekends into four, five, or six day vacations. Lex plans to recuperate from Keema, then look for a job.

RALPH DAVIS DAY

2300 Wheystone Court, Vienna, Virginia

First Asst. Engineer of the CUB, Commander Naval Science Specialty Squads, Propeller Club, Intramural Sports, Wrestling, Chemistry Lab Asst., Bowling. . .When Ralph went off on liberty, he took a little golden sunshine from Keema. . .and a lot of purple pants, white shoes, and a very orange Camero. On base, however, it is all spit shine and short hair. "My country, may she ever be right, but my country, right or wrong, my country." Needless to say, Ralph is heading for a Naval Career.

ROBERT V. DIAZ

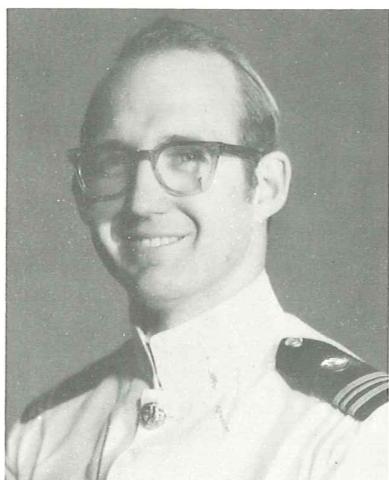

850 Lancashire Place, Concord, Calif.

Propeller Club, Dean's List, Uncle Tom's Fish Study Group Forum Leader . . . Bob was the only member of our class who ran around giving away pens that required feeding and milking before they would write. A party goer from the start, Bob will not soon forget Big Ed's party or Harvey's birthday. When he gets going too hot, you have to use the CO<sub>2</sub> on him. Bob was often overheard telling stories about his fishing trips and the one that did not get away in New Zealand. Bob plans to ship and then reel in his line for some serious living.

BRIAN VERN DORSCH

3243 Michigan, Stockton, Calif.

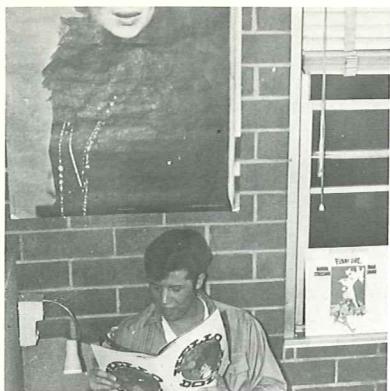

T-Boat Skipper, Propeller Club, Dean's List. . .Brian, one of the old men of the class, was believed to be married by most, and he was also one of the regulars when it came to making the rounds of the "Warf", "Duchess Club", and anywhere else that served liquid refreshment. Brian plans to ship on tugs, and we are sure he will be a splashing success once he finds a job.

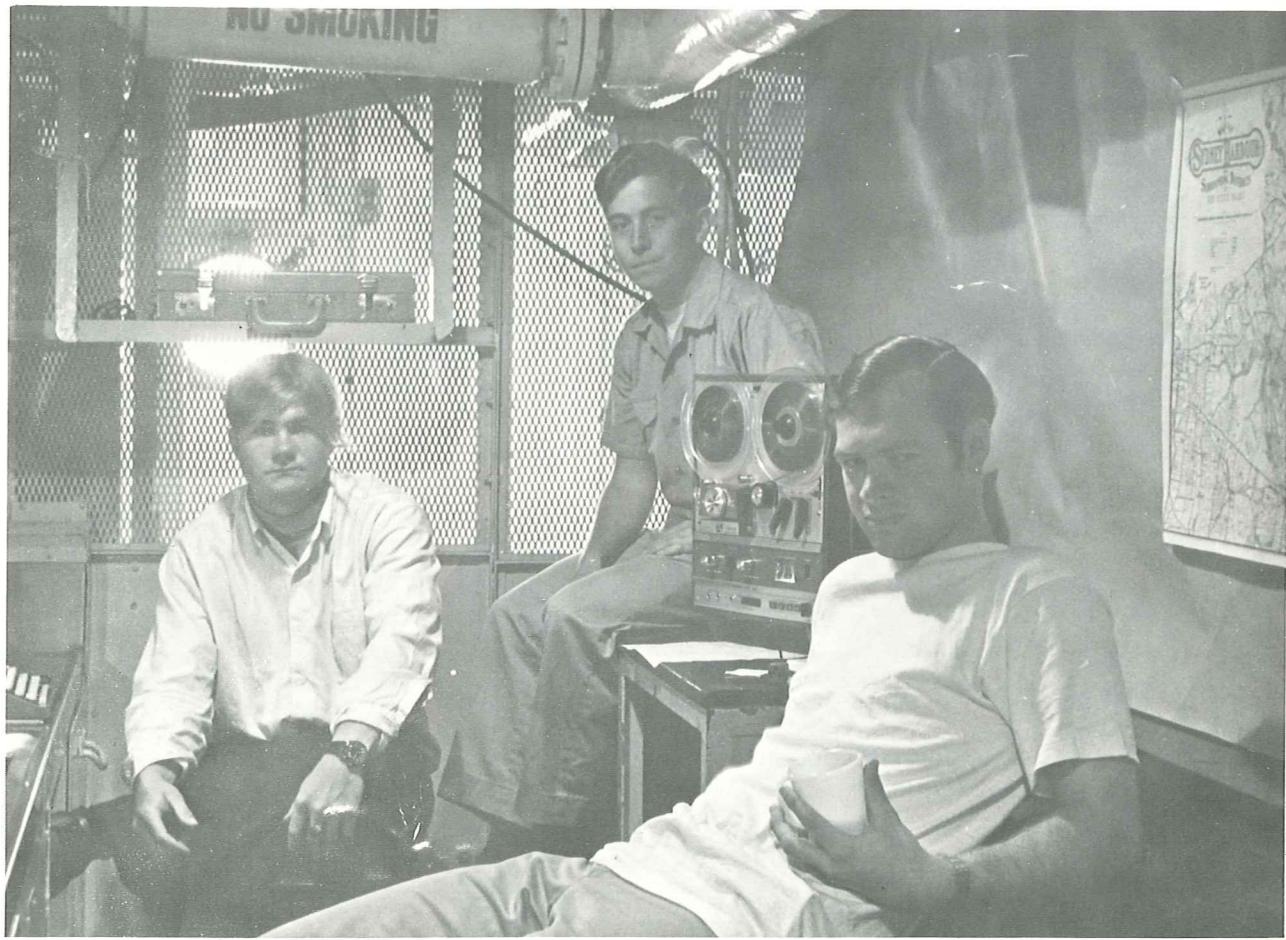

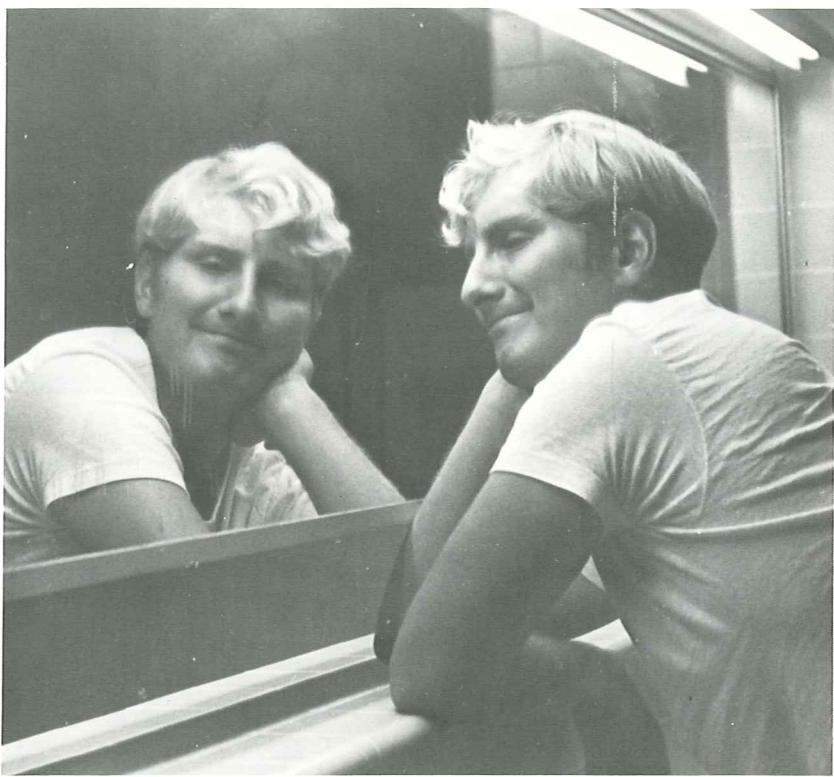

LAWRENCE CLYDE DYER

Rt. 1 Box 487 Alpine, Calif. 92001

Varsity Baseball, Intramural Football and Baseball, Founder of La Bombard and Sons Motorcycle Repair Shop, Propeller Club, Anchor Clank, First Asst. Engineer. . .Larry, because of his accomplishments, always drew notice from people. Crusty was one person who has been burning the candle at both ends. . .he is going bald and he lost his elevator shoes. Larry hopes to find a motorcycle which will last for more than 5 minutes.

ERIC L. ESCHEN

214 Hall Drive, Orinda, California

Propeller Club, 3-D Executive Officer. . . What we have here is a basic dual personality type. Eric would never ignore a problem, if a solution existed Eric would find it. As X.O., Eric kept the division happy and Capt. Carl spellbound by his fairness. Socially, though, we found that after one sip, Eric had the uncanny ability to disappear. Eric feels that he'll be qualified to run a sailboat and maybe even someday become happy again.

DOUGLAS RALPH FISCUS

758 Beechwood Ave., Vallejo, Calif.

Propeller Club, Vice President, Sailing Club, Indoctrinator, Christmas and Dance Ring Dance Committee, Admiral's Leadership Award, Co-Chairman Graduation Committee. . . Smiley was CMA's political activist. Doug, who had more connections than TWA, carried on his crusades from the C.C. rec. room, to the office of the Governor. Doug plans to ship until he sees all the world and then come ashore to become president of the U.S.A.

DALE ANTHONY FERRANTO

21462 Pacific Coast Hwy., Huntington Beach, Calif.

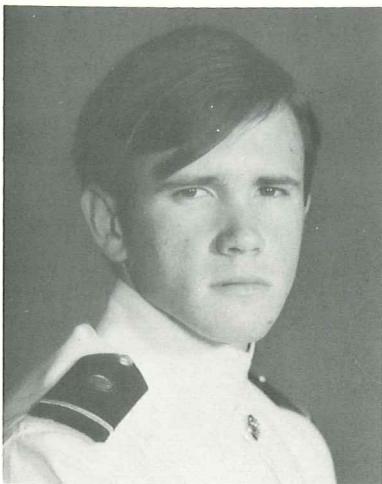

Ferranto and Pickard Fire Fighting Auxiliary, Rude Out Award 1969, Dean's List, 2-E X.O. . . Dale's record shows no runs, hits or scores, but plenty of errors firmly established him as president of the "Old Girlfriends Club". Dale couldn't resist a fire, but the hottest spot he found was a certain telephone booth during the spring's Road Massacre. Usually a temperate person, Dale found out that Foster's lemonade was really a triple scotch.

STANLEY JOSEPH FOSTER

412 Cornish Way, Belmont, Calif. 94002

Propeller Club, First Assistant of the LITTLE BEAR. . . Known to his classmates as "Mr. Webster" Stan and the Kige hit it off from the start. Only northern member of the "Down South" Club. On weekends Stan was either "shiftily" antagonizing Jesse M. Calhoun or buying lethal drinks for his friends. Stan and the engineroom have a natural affinity for one another. Smooth sailing time.

JOHN FOULK

6240 Camino Corto, San Diego, Calif.

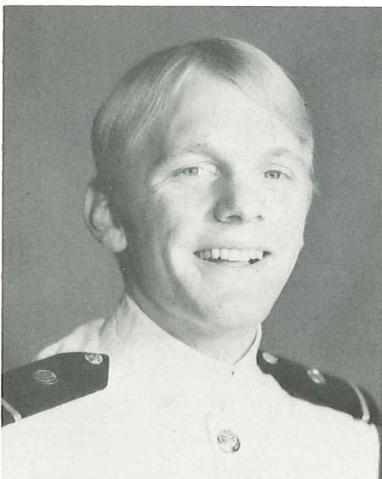

Captain CMA Wrestling, Captain America's roommate. . . Young Foulk could always be counted on for a cool decision in a hot spot. "Lets tack it over" were John's bywords. Always one to think before acting; however, a wrong decision on Springs Road cost him his straight nose and the chip on his shoulder. The fine character John brought to CMA left unblemished, after the first week.

HENRY FREDRICKSON

2219 Oak Hill Dr. Santa Rosa, Calif.

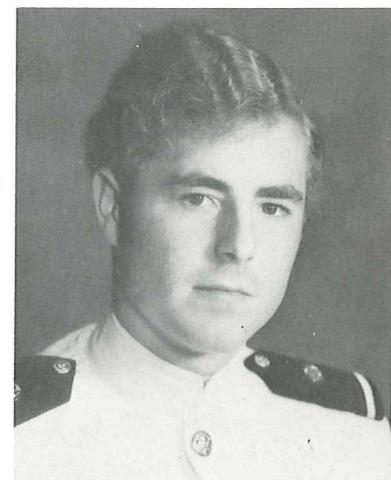

1-E Football, 2nd Class Master at Arms. . . Henry was known to have a sweet tooth for and on occasion indulge in an unbelievable quantity of the hops. Active member of the 1-E for lunch bunch and bar pilots association. Upon graduation, the "old man" plans to retire with memorable moments of the Marine Corps, Monday mornings, and a one time stroke of genius on the grid iron. . . 18-13

GRANT FURGERSON

2021 Waverly St., Napa, Calif.

1st Asst. on the Fireplug, Intramural Sports, Varsity Baseball. . . Furgie, it can be said, was a cool head. From time to time he could be found in his room, amidst the clouds of incense that shrouded his pad. The majority of his time, however, was spent as a cosmic ranger in the eucalyptus grove and pepper tree national forest. Grant plans to lay in the gutter and dig it and play his axe. Good luck on getting the strings across the blade, Furgie.

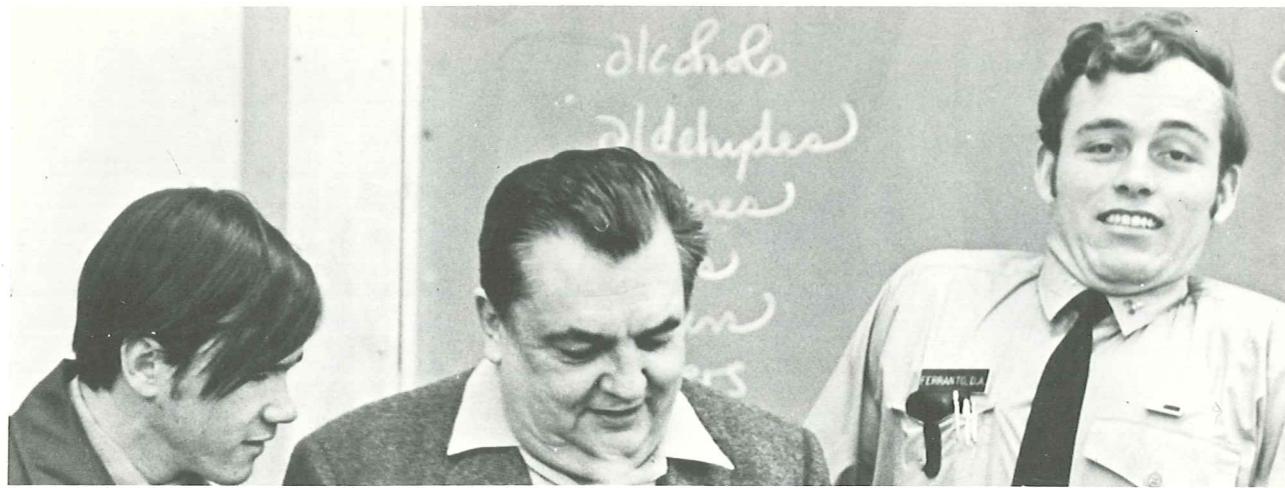

WILLIAM STANLEY GIBSON

1105 Maryland St., Fairfield, Calif. 94533

Propeller Club, Varsity Basketball and Baseball, Intramural Football Champs, 1-E for Lunch Bunch, Chemistry Lab Asst. . . Stanley was the scholar of the class of "71", and like all members of the intellegencia, tended to be forgetful. He forgot to shave, get haircuts, wear the uniform of the day, etc. Stan hopes to get a job. "I consider myself the victim of an economic struggle between an oppressive proletariat and bourgeoisie management."

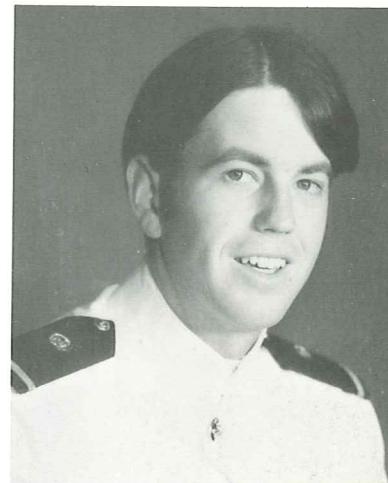

ROD L. GOULD

P.O. Box 164, Rancho Sante Fe, California.

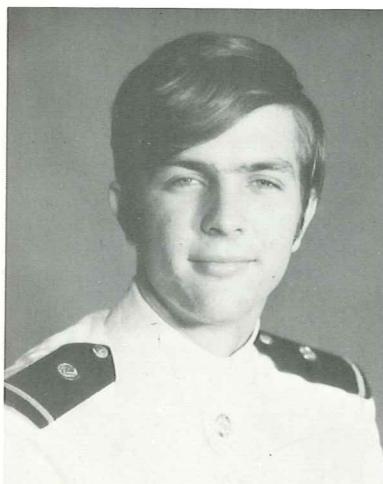

... Dean's List, Propeller Club, and Lowbrow & Sons. . . Better known as "Canteen Fats," Rod could always be counted on to hop into his sharp CHEVY and split to Sacramento at any and all spare moments. Rod is the old "smoothie" of CMA and after graduation he plans to have the ring in his nose surgically removed and slip down south to greener pastures. Good luck, Rod.

GREG J. HANEY

811 Santa Paula Drive, Concord, California

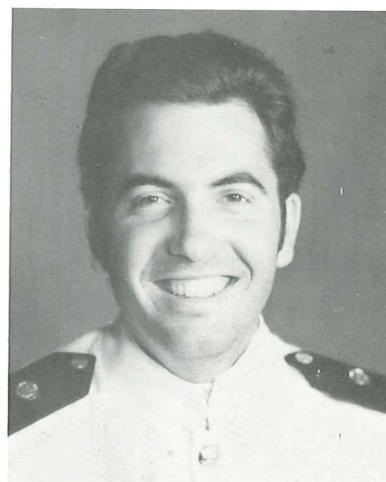

... CMA Hiking Team. . . Greg was everyone's friend and could be counted on for a smile and a kind word. The way he parted his hair reflected his relaxed approach to life. Like his fish, Hippie Haney spent his Keema years floating on fermented fruit juices and marauding the night-time trails of Fantasyland. Uncle Sam may make his future a bit drafty.

HARRY HAUGE

2522 Amherst Ave., Los Angeles, Calif. 90064

Chief Engineer of Fireplug #6, Smokey the Bear of the Cosmic Rangers, 3 year 4-E Man, 1971 Turkey Award. . . Harry's greatest love next to eating turkey was confusing the instructors with his questions. "Mean terminal what?" Every afternoon he could be found busily working in the chemical lab, testing the C.C.'s fuel oil, and recording his results. "I don't care what you say, it's 80 per cent grapefruit juice."

STEVEN ARTHUR HIETT

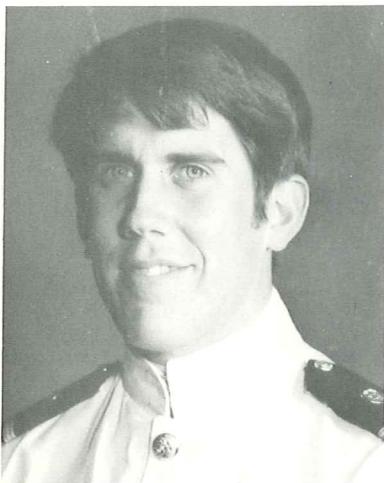

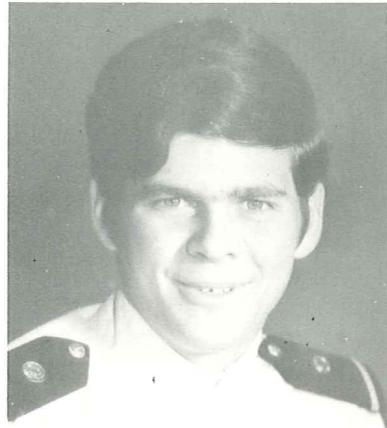

1460 Claremont Dr., San Bruno, Calif. 94066

3-E Bird Watcher, Ponce-Corn Productions. . . Steve was not only the "Head Barber", he shaved an occasional red neck too! . . . Victim of 1970 Bust. Punctuality and class attendance record of the year. Steve was the highest paid projectionist in the history of cinema. Looking toward the future, Steve plans "to enjoy".

TIM JACKSON

160 South G Street, Oxnard, Calif. 93030

CMA Timing Assn., CHP Favorite Target Club, Champion Slider, Skin Diving Club, 3 Year 3-E Man. . . Tim, flashing his peace sign and wearing his Casey Jones hat, became a familiar sight about the halls of CMA. Tim's brief, but jolting encounter with the CHP brought fear to the middies and administration alike that Tim may be taken from us, but he slid through without a scratch. Tim's ambition is to build a fast Chevy to beat Hiett's useless Chrysler product.

THOMAS A. JENSEN

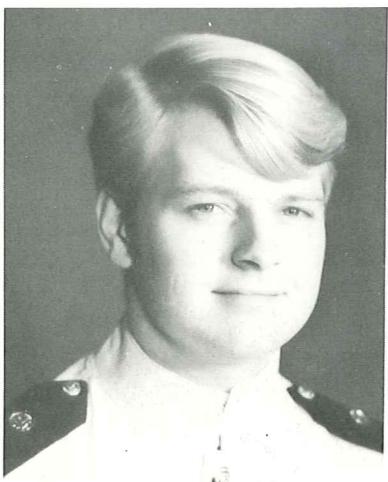

636 Medford Ave., Hayward, Calif. 94541

Propeller Club, President of the Wolfman Club, 1-E for Lunch Bunch. . . Tom was made captain of Frank's pistol team when Tom found out austenitic martensite was not made of iron, but rather 100% pure. . . Tom was often seen hustling down to the boiler room to assist Mr. B. and hustling right out to save his skin.

JAMES WILLIAM JOLLY

1243 Pollasky, Apt. B, Clovis, Calif.

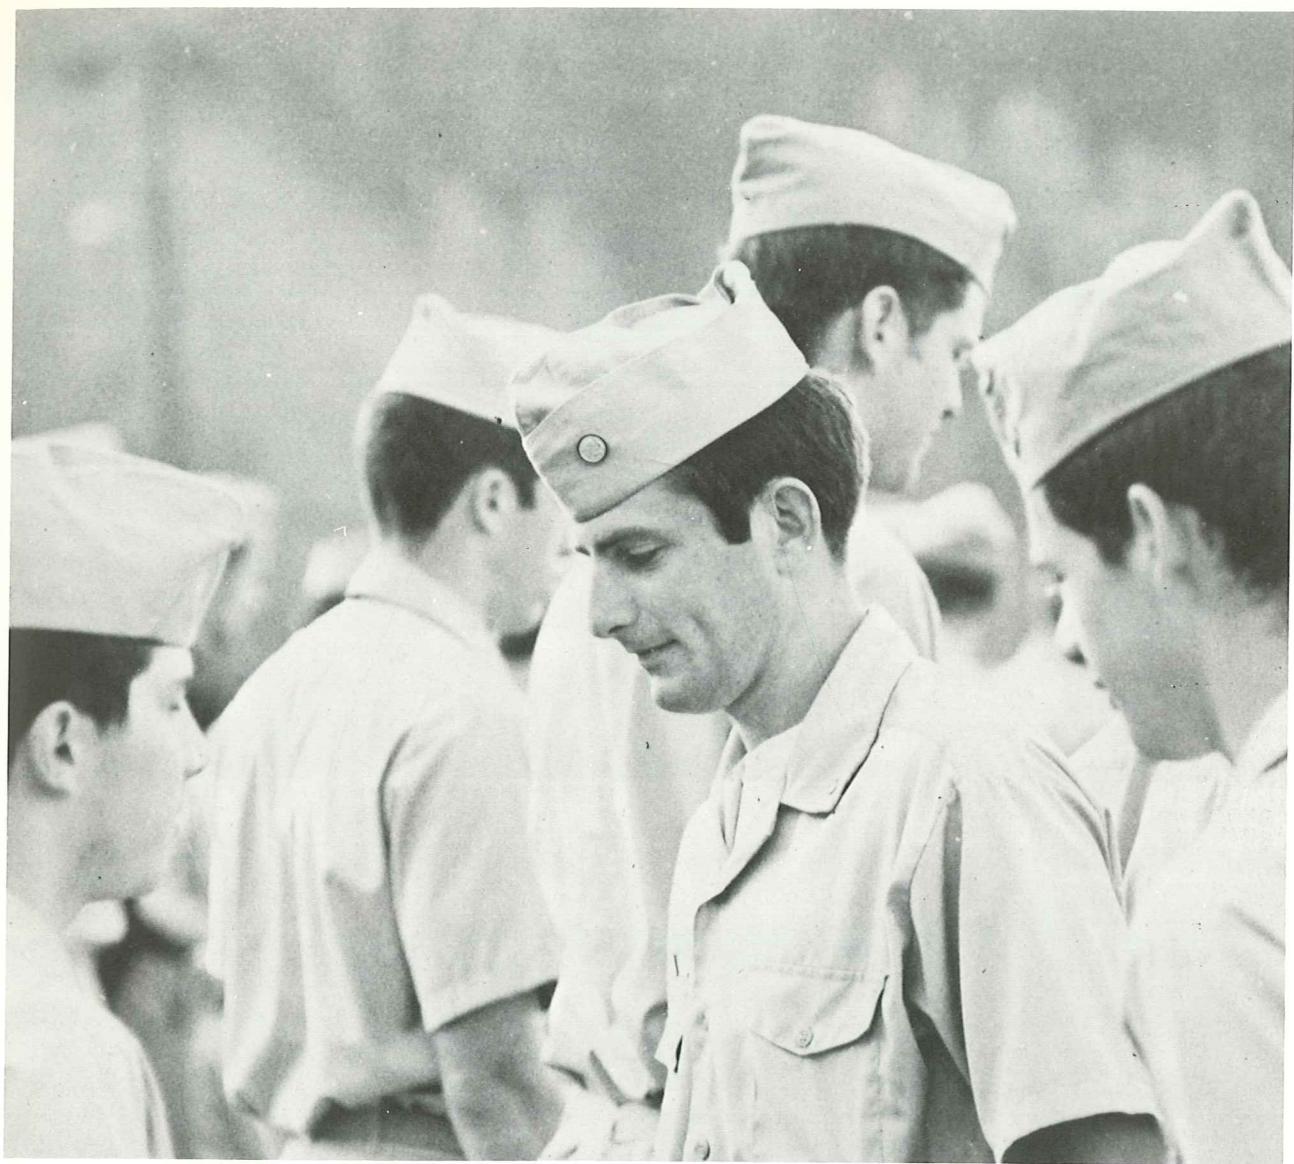

Undisputed Champion of the Fisher Marathon, Intramural Football, Member of the Vallejo Bar Pilots Assn., Weeknight Vallejo Renaissance and Logistics Team, Member of the Fisher Mission. . . A slow mover at breakfast, by noon Jim was picking up steam, and by 1600, he was in the chute ready to give the go ahead nod. Jim will remember helping Carey on Carey's many auto repair jobs, Thursday night poker games, and the green fields of Clovis. Jim plans on seeking employment and going back to school.

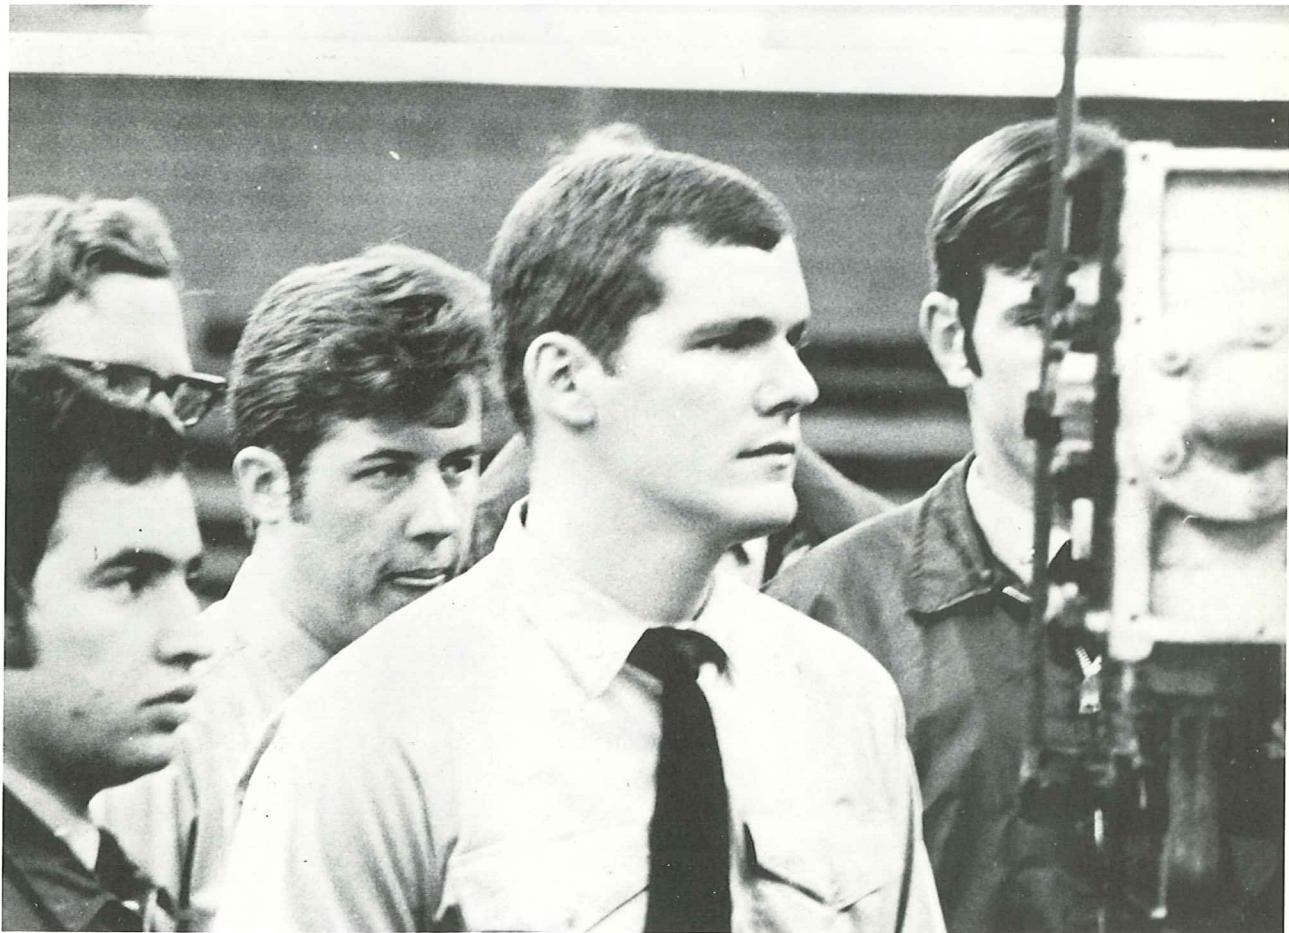

CLINTON D. JONES

4800 Berksford Street, Sacramento, Calif.

4-E, Propeller Club, Ring Dance Committee. . . Clint started out his stay at Keema in a grand manner by being elected Third Class President, and followed it up with a .66 G.P.A. He managed to have a different car each week, the most notable being the N.S.U. Clint plans to make money and retire early so he has time to convince people he is over 21.

STEVEN  
P.O. 13  
Div. Co  
Boys. .  
fellow n  
of his dr  
around.  
who know

CAREY DANA KRANTZ

2970 Yellowstone Lane, Sacramento, Calif.

Propeller Club, Chief Engineer of the LITTLE BEAR, Proprietor of Krantz's Auto Painting While-You-Wait. . . Few middies realized that Carey's purpose for coming to CMA was to open his own body shop behind the diesel lab. A normally slow moving, deliberate Carey was a virtual whirlwind in the engineroom and the engineer's right hand man during ship's ops. An independent soul by nature, this fender bender plans to marry and eventually own a auto body shop or a shop engaged in services similarly related to marine engineering.

TOM LAY

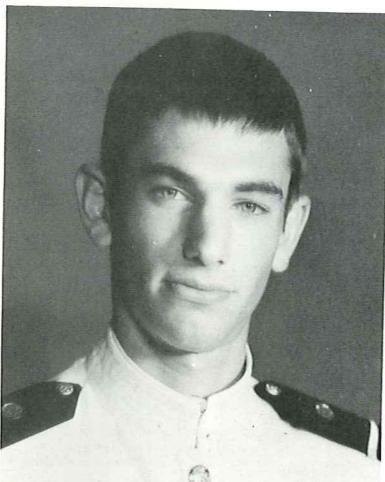

4968 Diane Place, San Diego, Calif. 92117

Dean's List, Captain's List, Meditation. . . Tom originally came to CMA to prepare himself for the space age future; however, it seems that Tom encountered rough times. The Green Bldg. battered Tom's ideas against its walls, but through it all Tom remained himself; something few have tried to do. In the future Tom plans on enjoying life to its fullest under the shade of the spreading eucalyptus tree.

STEVEN G. LEWIS

P.O. 1392 Vallejo, California

Div. Com. 4-D, Waterman Co. Club, One of Beebles Army Corps Boys. . . Steve was known for his considerate thoughtfulness for his fellow middies. Very recently, Steve fell head over heels over the girl of his dreams, and has lately been known as the div. com. who's never around. He spends most of his time doing what she tells him to, and, who knows, maybe she'll straighten out the way he walks.

GARY WILLIAM LIGHTNER

1303 Foster Road, Napa, Calif.

CMA Hiking Team, CMA's entry in Dippy. . . Because of his quiet manner, few people may have realized that Gary was one of the most intelligent people, if not the most intelligent person, in our class. And because of this intelligence Gary was a very complex person, a fact which may or may not explain why he was misunderstood by the administration and his classmates so frequently. Despite these trivial misunderstandings, Gary was liked and respected by the Corp who appreciated his consideration for those around him.

GEORGE L. LOWERY

1051 Goettingen Street, San Francisco, Calif.

Vice President of the Surf Club, Dean's List. . ."Jack" was always known for his entertainment. From his humble beginning as "ordinary George" he quickly advanced to the Garbage Man of 4-D. He can attribute much of his surfing ability to his days of practicing on the horny boards in the res. hall. "Jack" has plans which include working, going to his grave when he dies, and surfing without making waves on the way.

RODNEY DARRELL McCALLEN

P.O. Box 457 Truckee, Calif.

Rodney McBodney or R.D., the original Samson of Keema, kept his hair disguised with grease and glasses during inspections. Afterwards, rowdy Rodney was always ready for fast cars, fast women, and fast wine. He impressed classmates with eloquence, muscles, and untapped leadership which all seemed to disappear into his full and round beer belly. After Keema he will probably be a masked marauder in the Truckee bush.

JAMES BRETT McDANIAL

272 Buchanan Street, Coalinga, Calif. 93210

T-Boat and Duchess Skipper, Ensenada Race, 256 Tapper Assn., Calvin Club, Propeller Club, Haney-Portz 21 Club Organizer. . . Though Hoppy observed many sunrises after Bebe's Bottle Club gathering, he was still full of sunshine. Due to his generosity, the GM of Glack Lines was doubtful. The honest cowboy will, with the Grey Stack emblem on his khaki Stetson, be seen hopping into the sunset. Glack, Glack, Glack. . .

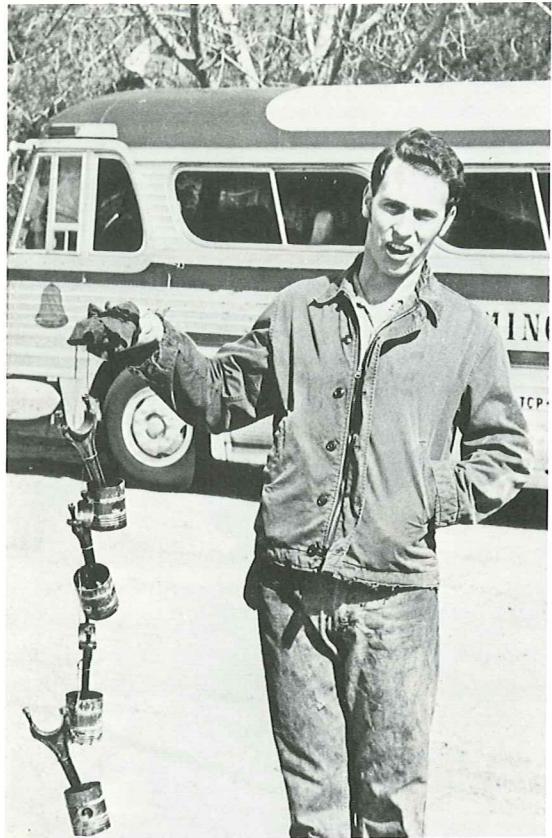

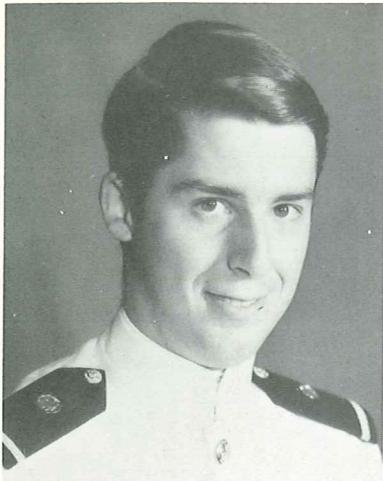

ALBERT SYDNEY McLEMORE

2654 Mariner Drive, San Pedro, Calif.

Water Polo Team, Ring Dance Committee, Hawspipe, Propeller Club, Ex-X.O. 4-E. . . No matter what the task, classmates could always count on Mac to offer his help. None shall forget his modified imitation of Gunga Din while decorating for the Ring Dance. Mac will carry away cherished dreams of Tuesday night's ham and yams and 4-E's Thanksgiving Dinner during the 1970 cruise. Al is going Navy and hopes to live happily ever after. Saltz wants his car back.

ALAN G. McLENEGAN, JR.

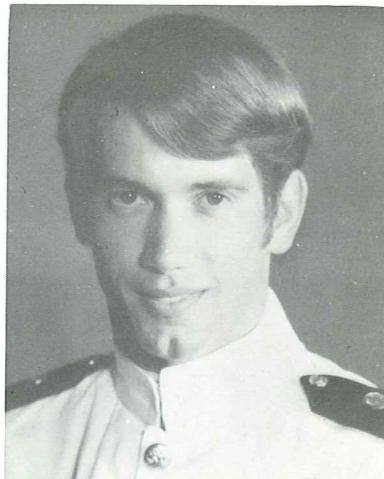

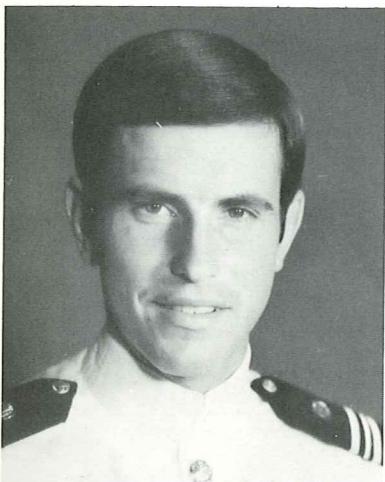

127 Cypress Ave., Kentfield, California

Propeller Club, Intramural Softball and Bowling, Contributor to Green Death Memorial Fund, "Quit Smoking" campaign chairman. Vallejo Reconnaissance and Logistics Team. . . Al was well known for his short-cuts through the Keema swamps during the sprinkler wars of 1970. He was never one to turn down the chance to work on the CRESCENT CITY. Al hopes to ship, spend a month with the Navy, and observe the fate of the C.C.

STEVE MACHE

2438 Thomas Dr., Santa Rosa, California

1-E Div. Com., Frank's Pistol Team, Intramural Champ. . . Steve had a one track mind and on Fridays it ran straight to Santa Rosa with a quick stop at Waldorf's. "Little Frank" was a charter member of C.G.B. Fan Club and was always in demand in Mr. B's Boiler Room. Steve's talents as a bar pilot were well used as officer in charge of 1-E for lunch bunch. He plans to retire in early 1972 and find a rich wife.

MICHAEL MADDEN

110 Homewood Ave., Napa, California

Div. Com. 2-E, Dean's List (they've lost count how many times), Propeller Club. . . Mike was the soft-spoken father of the corps. He claims he jogged all the way to Altamont in order to harmonize with a nearby Rolling Stone. He never made waves, except in his Jack Daniels' bottle. Mike plans to hang his license, commission and degree on the lube room wall of his Honda Shop.

GENE STEPHEN MAPA

Rt. 1, Box 1627, Meadow Vista, California

Propeller Club, Intramural Sports, Wrestling Team, Div. Com. 3-E, Messina's Roommate, Foster Double-Shot Club, Vallejo Car Wash Club, Dean's List, Leadership Award, Sunrise Club, Assistant Supercharging Supervisor, Jesse M. Calhoon Fan Club. . . The Auburn Boy Scout's love for Keema has made him the class's choice to come back to teach. Gene is a man of hard and fast decisions. He plans to ship, go back to school, teach, or anything else that comes along.

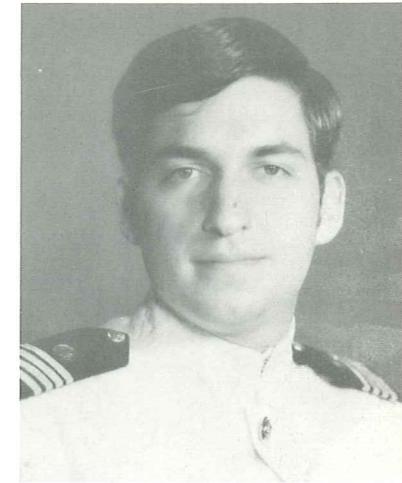

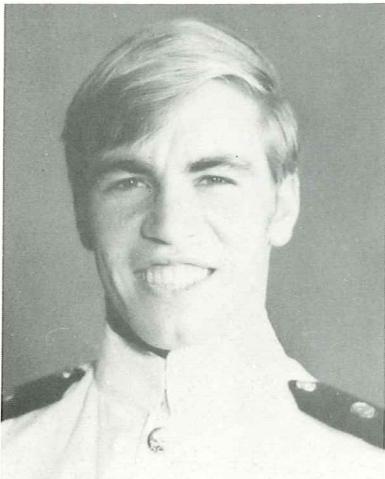

STEVE A. MESSINA

1300 Mariposa St., Vallejo, California

Corps Commander, Double Shot Club, Trinidad Hilton Trapeze

Club. . . Steve had the ability to get the most enjoyment from the least amount of drink and never knew what hit him. "Attention to Announcements" Future: high level executive 25, 000 and up upon graduation (but Cindy has other plans). . . supervised supercharging upon adjourning of the mast board.

GLENN W. MEYER

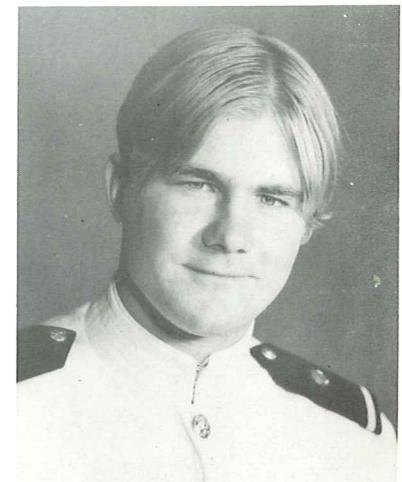

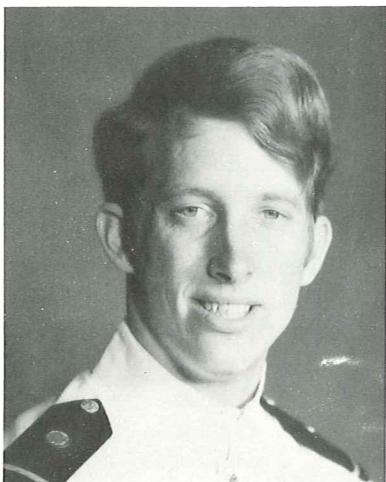

2209 34th St., San Pedro, California

Propeller Club, Car Wash Gand, Dean's List, Water Polo, Original 3-E, 1-E X.O., 1-E Championship Football Team, Philosophy: Easy to be hard. . . Captain America was known for his Weissmuller Muscles and his flashing smile with matching teeth. A member of the Old 4-E, Fish was well schooled in the ways of uncompromising discipline. He loved all types of water (except wash-wax). Glenn plans to find a rich woman or find a job, which ever arrives first.

MICHAEL WILLIAM MEYERS

6295 Sheridan Court, Riverside, California

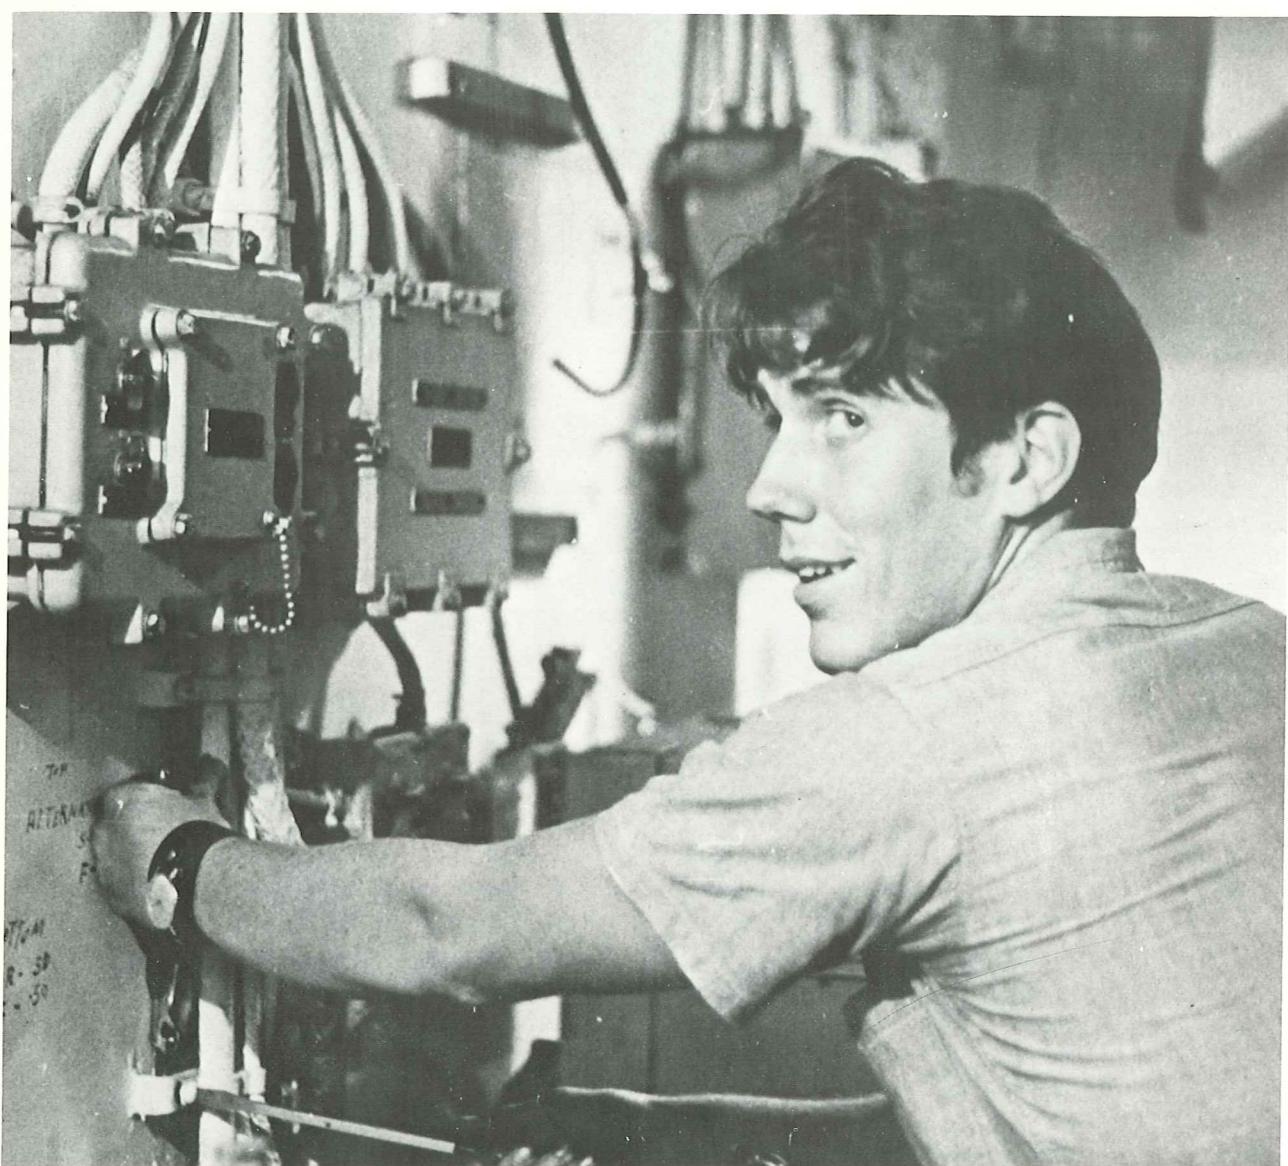

Newman Club President, Prop Club, Baseball 70, Music Club. . . The Oaf became the loser, then the jello, then bummed out. Mike cheered up just about every middie. Uninhibited Jello played "almost cut my hair" on either the kazoo, harmonica, or electric guitar. Portraying a combination of Neil Young and Sleezy rider, Mike loved his motorcycle and leather jacket. Leave a Jello out tonight.

GEORGE N. MILLER

340 12th St., Fortuna, California

Propeller Club, Intramural Sports, Wrestling Team, "3 year 4-E Man" . . . George was one midshipman who took an active part in extracurricular activities. He was an attendant at the midnight super market, a member of the Keema Firefighting Squad, and a participant at the 4-E turkey shoot. George, in one of his reflective moods, commented that what really scared him was that he may look back and think of the "Good Old Days" at CMA. See the world.

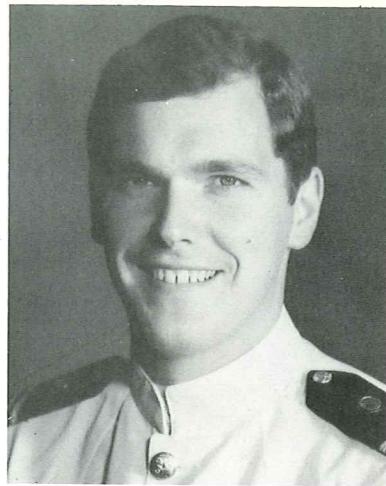

MAX ROBERT MILLER, JR.

207 Francis Street, Bakersfield, Calif.

Third Class Master of Arms, Intramural Sports, Wrestling Team, 3-E X.O., Christmas and Ring Dance Committee, Davis Traveling Club, Anchor Clanker. . . Lump could always be found down in the gym trimming his waistline by juggling a few barbells or playing in the handball court. "Beat Ferrantino again." Easy going Max, one of the best liked fellows at Keema, plans on getting married and joining the Coast Guard or Navy.

KELLY JOSEPH MITCHELL

241 N. Auburn Street, P.O. Box 114, Grass Valley, Calif.

Dean's List, Superintendent's Leadership Award, Div. Com. 2-D. . .

"Sweats" was everybody's buddy. His CMA annual Nevada County Fair Memorial parties and rabbit hunts were the toast of the year. Kelly was friend to his shipmates, father to his Heroes, and "John" to his female companions. In the future Kelly plans to ship and eventually hold a master's ticket.

ANTHONY GERARD MONTI

1236 Sunside Street, San Pedro, Calif. 90732

Newman Club, Propeller Club, Dean's List, First Class President. . .

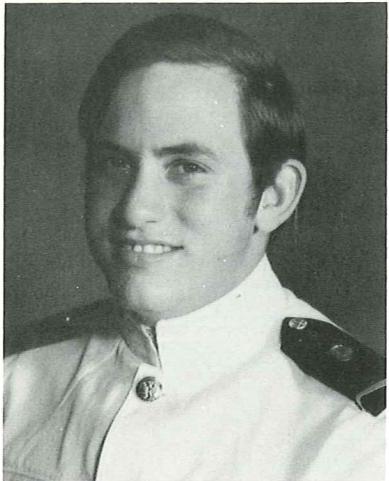

And we stood for 45 minutes and did not understand a word he said. It took most middies 2 years to figure out that Monti was Tony's last name. The Chief says he will remember HR's spaghetti and the babbling brook on the top of Red Mountain. A self-taught conniver, Tony was the second guess champ of our class. The Chief will ship until he owns his own tuna fleet and all us grads work for him.

PATRICK BUDD MOORE

P.O. Box 254, Oxnard, Calif. 93030

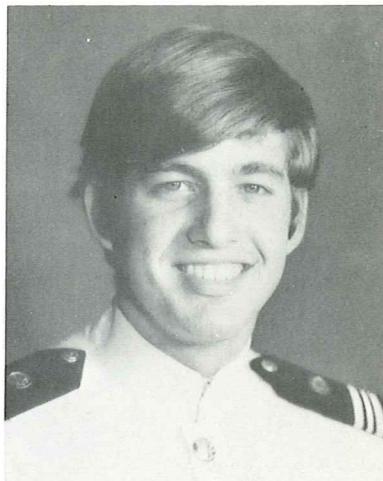

Student Meditation Society and Camera Club President, High Winds and Seven Seas Brotherhood, Ex-Lowbrow and Sons Member. . . Pat firmly believed in non-violence and that happiness is an important part of any life. Patrick was one of the "good people" and could always be counted on for a smile. The sunsets and walks on Mount Tamalpais were just a couple of the things that helped Pat make it through Keema.

WAYNE R. MUGGLI

208 Freda Drive, Pacheco, Calif.

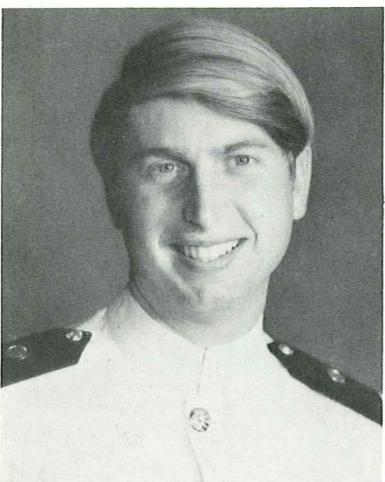

Newman Club, Varsity Basketball and Baseball. . . Wayne had the uncanny habit of always projecting his thoughts but not his voice. Many a minute was spent wondering if in fact "Drip" said anything. Although Wayne had his short comings with speech, he was a polished pro when it came to sports. He led his division to a deckie athletic championship, a feat thought impossible. After he makes the football Hall of Fame, Wayne will become head coach of Notre Dame.

DAVID CARLYLE OWEN

3081 Shasta Road, Berkeley, Calif. 94708

Newman Club, 1-E for Lunch Bunch, Treasurer of Second Class, Anchor Clanker, F & O Painting Co., SOS. . . Uncle Dave probably spoke no more than 150 words while at CMA, but when he spoke, Coast Guard Hill trembled. A Nature lover, Dave was often seen heading for the wilderness with his hiking boots, backpack, and a big grin. Naturalist, automotive engineer, gifted student, musician, Dave was truly a Renaissance man of our period. In the future, Dave hopes to relax.

MARTIN G. PAIGE

123 Ravenna Drive, Long Beach, Calif.

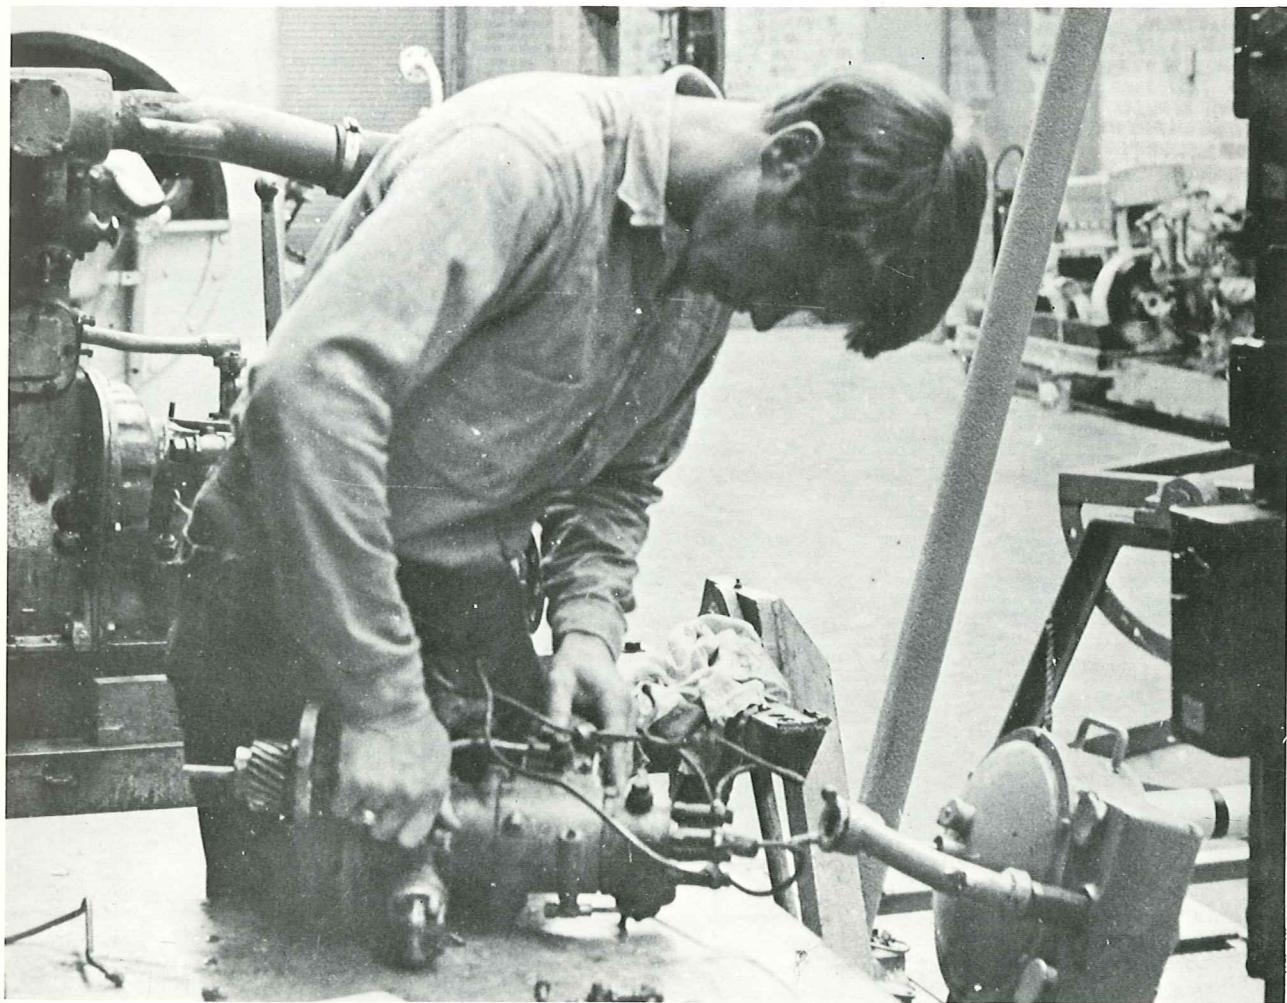

Varsity Waterpolo, President Amateur Radio Club, Newman Club, Students' Meditation Society, Captain's List. . . Marty's room was never hard to locate, just follow the loud electric rock vibes. Marty Montana had a passion for women, and he loved to lay on beaches, or any comfortable spot. Why would anyone wear a skirt to navigation? Whatever, Marty plans on being a guitar playing freak, maybe in New Zealand.

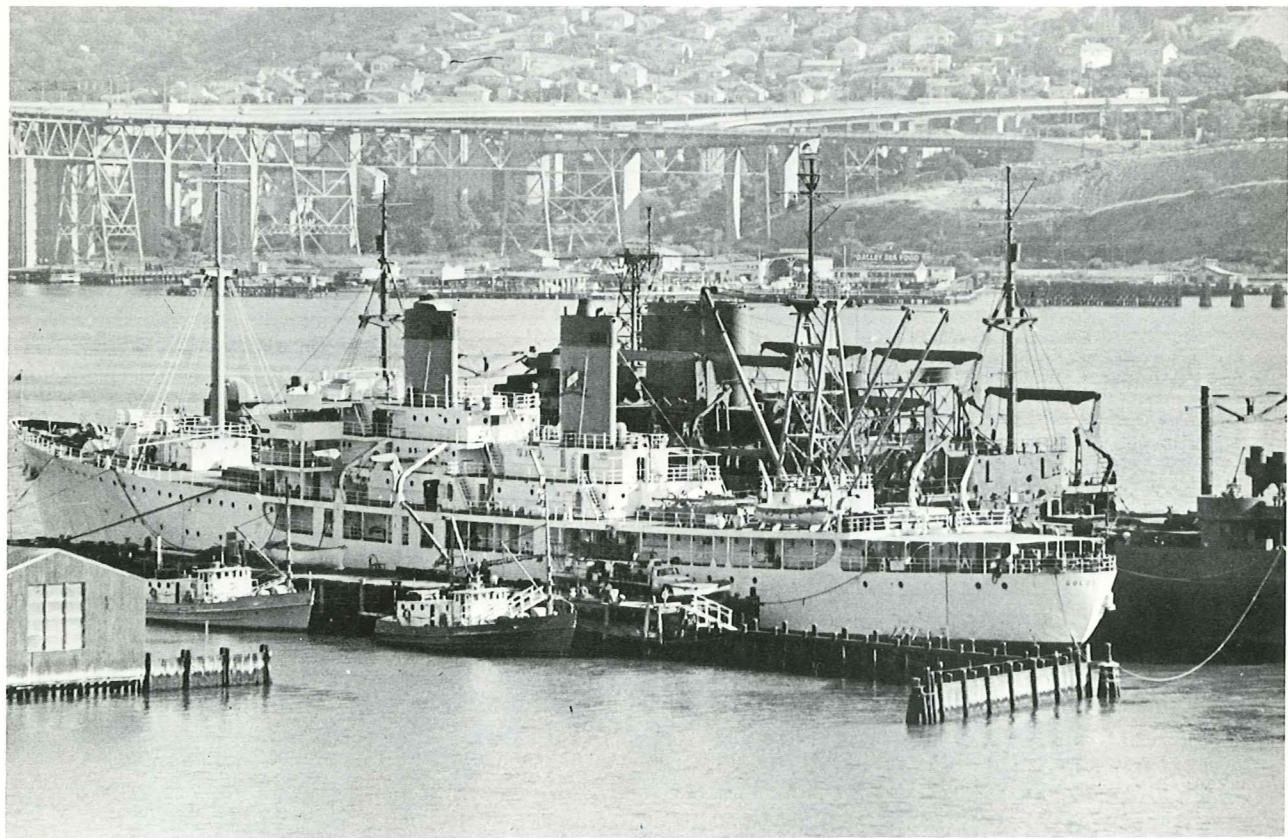

BRUCE PICKARD

3729 Monterey Pines, Santa Barbara, Calif.

Propeller Club, Dean's List, X.O. 1-D, Instigator of the Rebellion. . . No doubt about it, certain instructors and first lieutenants will be glad to see Bruce leave. Bruce was rarely silent about anything ranging from math classes to the Jackson Five. Bruce and Dale Ferranto were often found fighting fires or singing dirty songs. Bruce wants to be a Coastie and maybe some day finish his airplane.

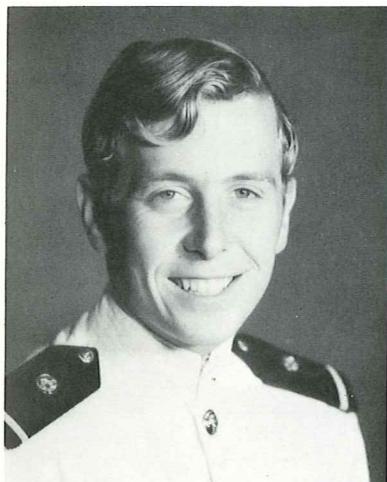

HARVEY MATTHEW PORTZ

8133 Dunbarton Ave., Los Angeles, Calif. 90045

Corps X.O., Propeller Club President, 256 Tapper Assn., Duchess and Ensenada Race Skipper, Beeb's Bottle Club. . . When "Blankets" wasn't in the green bldg. scheming and dreaming, he was stomping around the woods somewhere. Capt. Glack had a supercharged personality that will never be rivaled. Harv will begin his career in the Navy, but he is destined and determined to be a Merchy.

ROGER K. ROBINSON

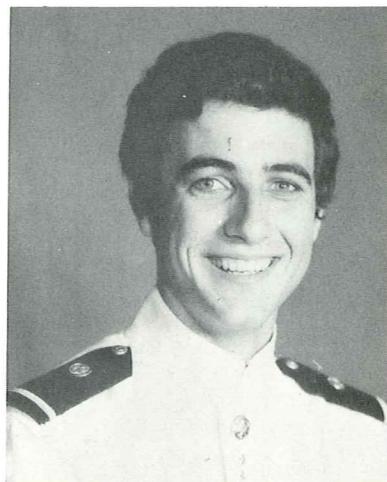

Flag Curtain Bust, CMA Path Finders, Build a Boat and Split the Country Club. . . Roger is one of the more independent members of the class of 71-D. Due to this fact he was one of the first people to become dissatisfied with the Administration and the Establishment as a whole. Roger's big dream is of a sailboat to be built after graduation. Stay stoney, Roger, and good luck on your boat.

BRUCE G. ROWE

359 Lantana Street, Camarillo, Calif.

Dean's List, Propeller Club, First Class Vice President. . . There were two sides to Brucie's character. First there was the mild mannered, helpful, and good natured person. But underneath this placid exterior beat a heart intent on excitement. Bruce embarked upon numerous adventures, and it is a certainty that his plans to attend the Olympics in Munich and finance a Mercedes with fancy rope work will be realized.

JOSEPH SALINI

3001 Chauncey Drive, San Diego, Calif. 92123

Joseph was one of the few men of the Corps who was never successfully threatened, manhandled, or otherwise intimidated by peer or Administrator. This reverent and "quiesive" attitude toward Joe stemmed from his masterful ability to "light off" any type of car. Joe was the class artist and turned his ability into a profitable venture with his sculpture. Joe reached his greatest heights when he gathered 130 demerits in one day. All the class agrees that on Cruise Joe was a good provider. In the future we see gas turbines for Joe.

JAMES WILLIAM SALTZGABER

3278 Easy Street, San Diego, Calif. 92105

Camera Club, Chief Engineer of the CUB, Foster Double Shot Club, '99' Down South Club. . .Captain BS successfully defended his title 3 years running. (Rumor has it that Saltz alone could easily defeat the tag team of MacCely-Carl-Willie) One of the few survivors of the 1968 Mail Truck Massacre, which led to Silver Tooth's eventual membership in Foster's AA. Never to be outspoken, out smoken, or out loafen, Jim's future lies in CMA's rewards. "This place left me broke, unemployed, and 1-A."

GEORGE SCHNEIDER

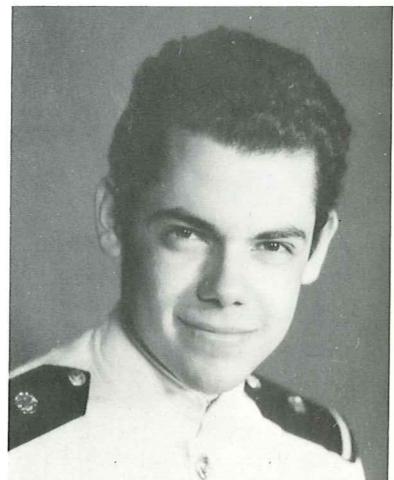

Ridgecrest, California

Dean's List, Propeller Club, Mate of the LITTLE BEAR. . .Like a camel, but with a hump of knowledge on merchant ships instead of stored water, "Gunner" came to Keema from a Navy base in the desert. As a recent associate in Glack Ltd., Gunner managed to load down and full for many pig pushes enabling him to navigate one sweet lovely to his assistance. In the future George plans on going active Navy and eventually going Merchy.

KARL ERWIN SHADLER

625 South Redburn Ave., La Puente, Calif.

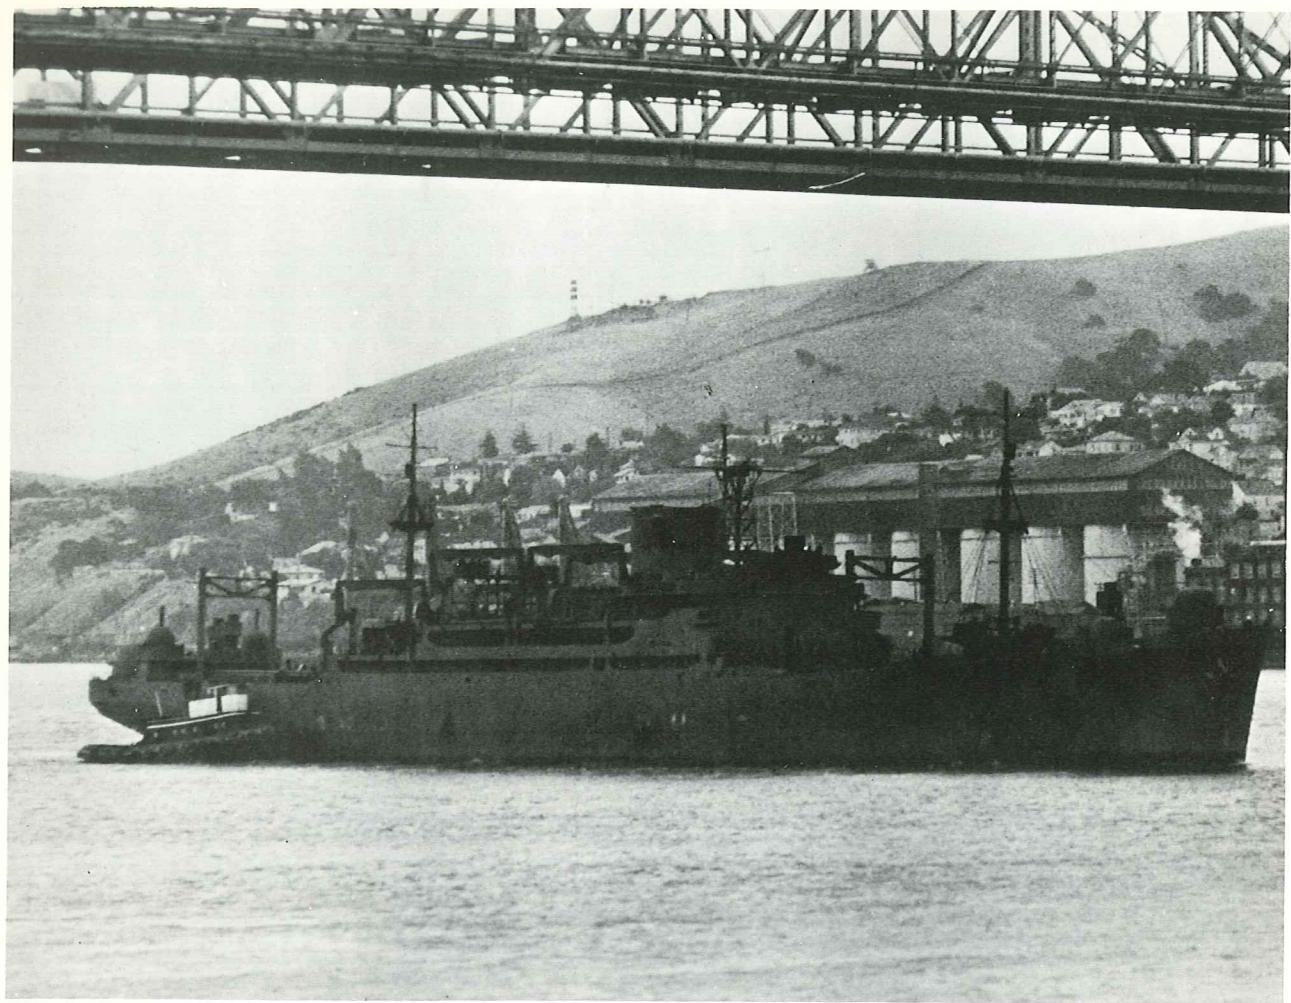

Propeller Club, Original 3-E, Ace Sharpshooter. . .No beating around the bush, Squirrel was hard on roommates. 3 out of 4 prematurely terminated their stay at CMA. Throughout his stay, Karl carried on a passionate love affair with a certain '36 Ford, only to abandon his faithfull Flathead in the homestretch for a short flirtation with a mustang. Karl hopes to again pick up the pieces and reassemble the relationship he and his Ford once knew.

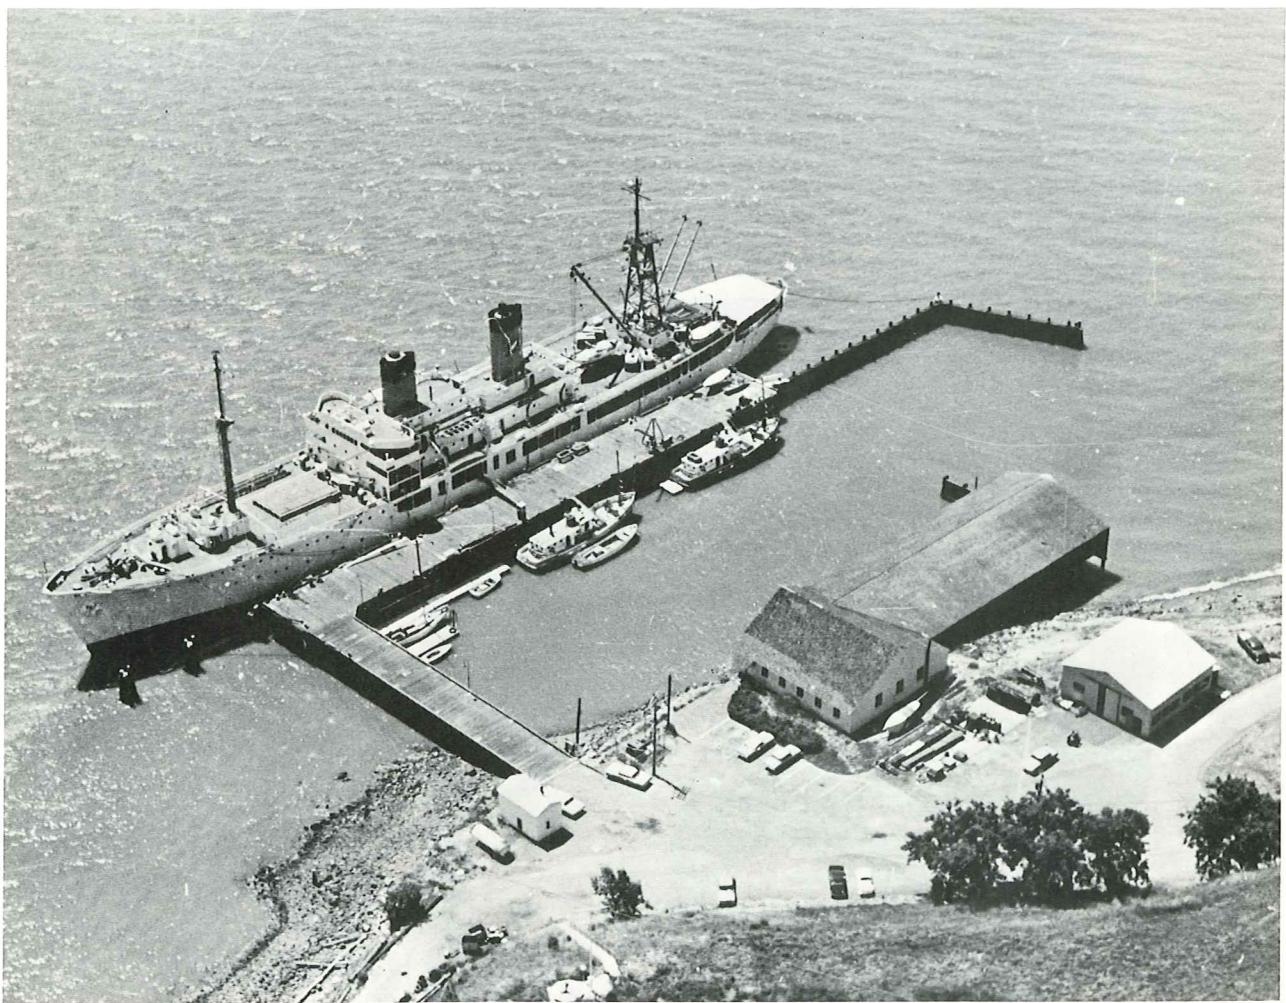

RAYMOND WILLIAM SMITH

1168 Evilo Street, El Cajon, Calif.

We will all remember Ray for his unrelentless initiation of the "Criticism for Improvement Club." He is still in search of the "mint condition" ship hidden somewhere on base. "It sure would have saved the first class a lot of work if we had found it!" Ray ran his own unemployment agency, inspired by literally a wall of rejections. Ray's literary genius came to a head at CMA and is said to have peaked out one night at the sentry box where one of the really stirring dramas of modern man was created.

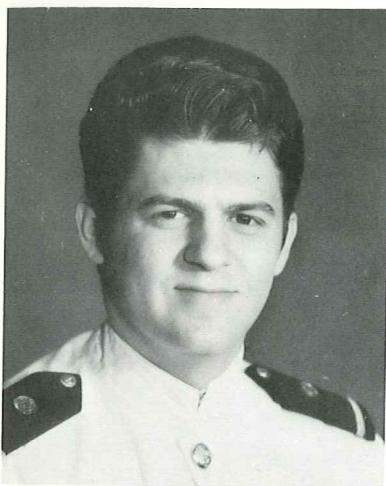

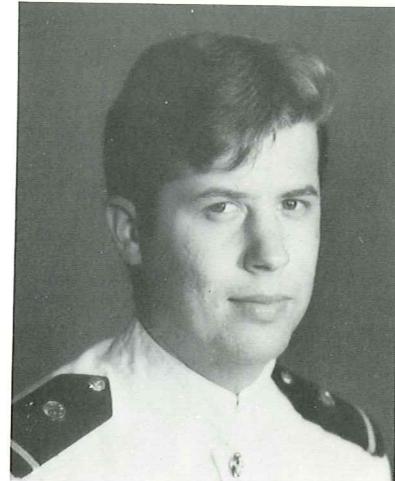

ROGER O. TAYLOR

5720 Olmeda Ave., Atascadero, Calif. 93422

Propeller Club, Camera Club, Survivor of the Tahiti Officers Club. . .

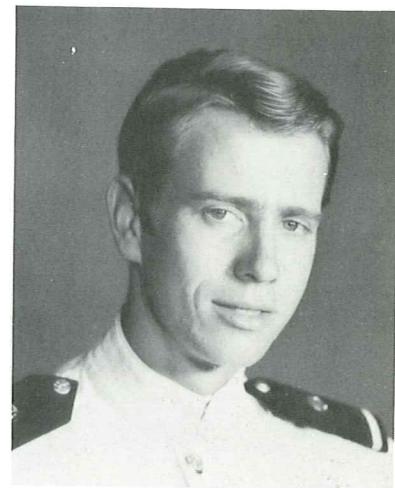

Roger brought culture to CMA. Not only was he the president of the Advancement of Female Jewish Folksingers, but he was the middies own Rex Reed on all the current shows. Roger's cruise high point was found in Hilo where an award winning performance was given by some of our more adventuresome peers on the high wire. Roge hopes to have all his resumes mailed by summer. . . of 73.

DENNIS E. TIPTON

7557 Red Willow Street, Sacramento, Calif.

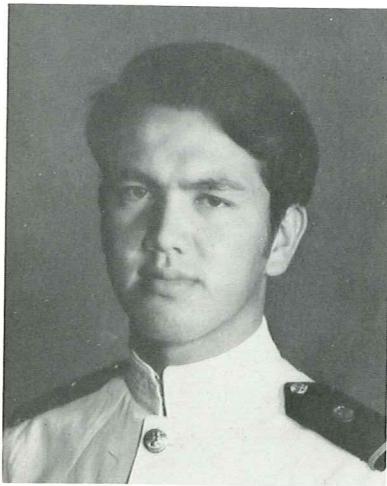

Propeller Club, Survivor of the Tahiti Officers Club, Member of the Hilo Swimming Team and Line Hangers Club, President of the Sacramento Astrology Club. . . Dennis will never be accused of being overly complimentary, but then one always knew where he stood with Din-Din. "I trust you about as far as I can throw a baby grand!" Dennis plans to find a job somehow, sometime, somewhere over the rainbow. . .

RUSS TOWNSEND

115 Bretano Way, Greenbrae, Calif.

Sailing Club, Deans List, Propeller Club. . . Russ has always been known for his Sunday sailing and in his spare time he likes to drink. And, as a matter of fact, he drank so much "port" one day that he inspired Beebs to give the class a lecture on drinking cheap wine and other things. Russ likes to drive race cars and his future plans are to try to put the world in order, but first he wants to set his heart right.

PETER A. TUPAS

2505 Sir Francis Drake Blvd., Fairfax, Calif.

Newman Club, Surfing Club, Varsity Tennis, Propeller Club, Varsity Basketball. . . He goes under the alias of Peter Tupas, but we all know him as the six-foot surfing pineapple. Even though his sayings created group hysteria, it was Pete's obsession for surfing that set him aside from all other middies. Pete plans to 1) find a job and surf, 2) surf and travel, 3) surf and relax, 4) and die on a surfboard.

STEPHEN G. TURNBULL

9013 Friars Road, San Diego, Calif.

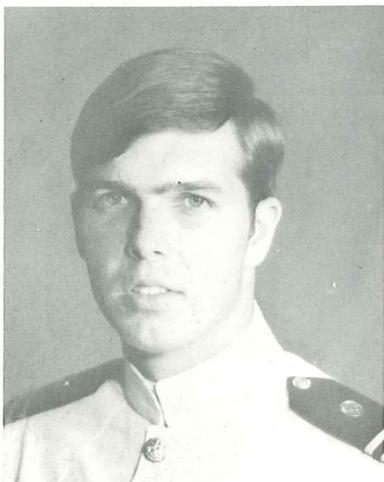

Div. Com. 1-D, Dean's List, Propeller Club. . . Known by his friends at Keema as "Mucho" Steve's easy-going temperament kept him on the best side of everyone at CMA. As Div. Com. it was Mucho's difficult task to ride herd on Mr. Ruff and keep him out of trouble. Even though he may try, Steve will never forget Keema or places like Panama, Munchies, and Waldorf's. His future includes shipping in the Merchant service.

JOHN NORMAN WADE

3023 Alameda, Menlo Park, Calif. 94590

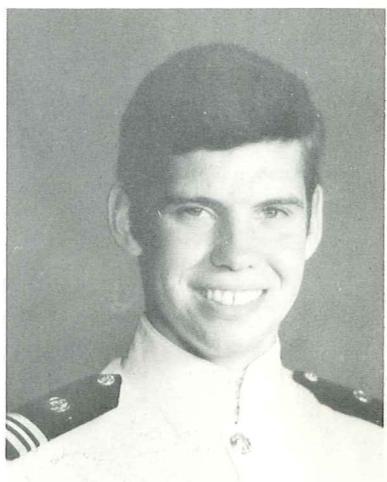

Propeller Club, International Z Club Vice President, Keema Scarfing Club, Sea Scouts, Chief Engineer for the T-BIRD, Intramural Football, National Assn. of Gourmet Cooks. . . John, the class water watcher, had a reputation for eating anything within striking distance. One could believe it if he saw the chunks missing out of the Wade's mattress. John plans to find a job, do some sailing, go back to school, and enjoy people.

BRETT COLLIN WAKEFIELD

2920 Bechelli Lane D-7, Redding, Calif. 96001

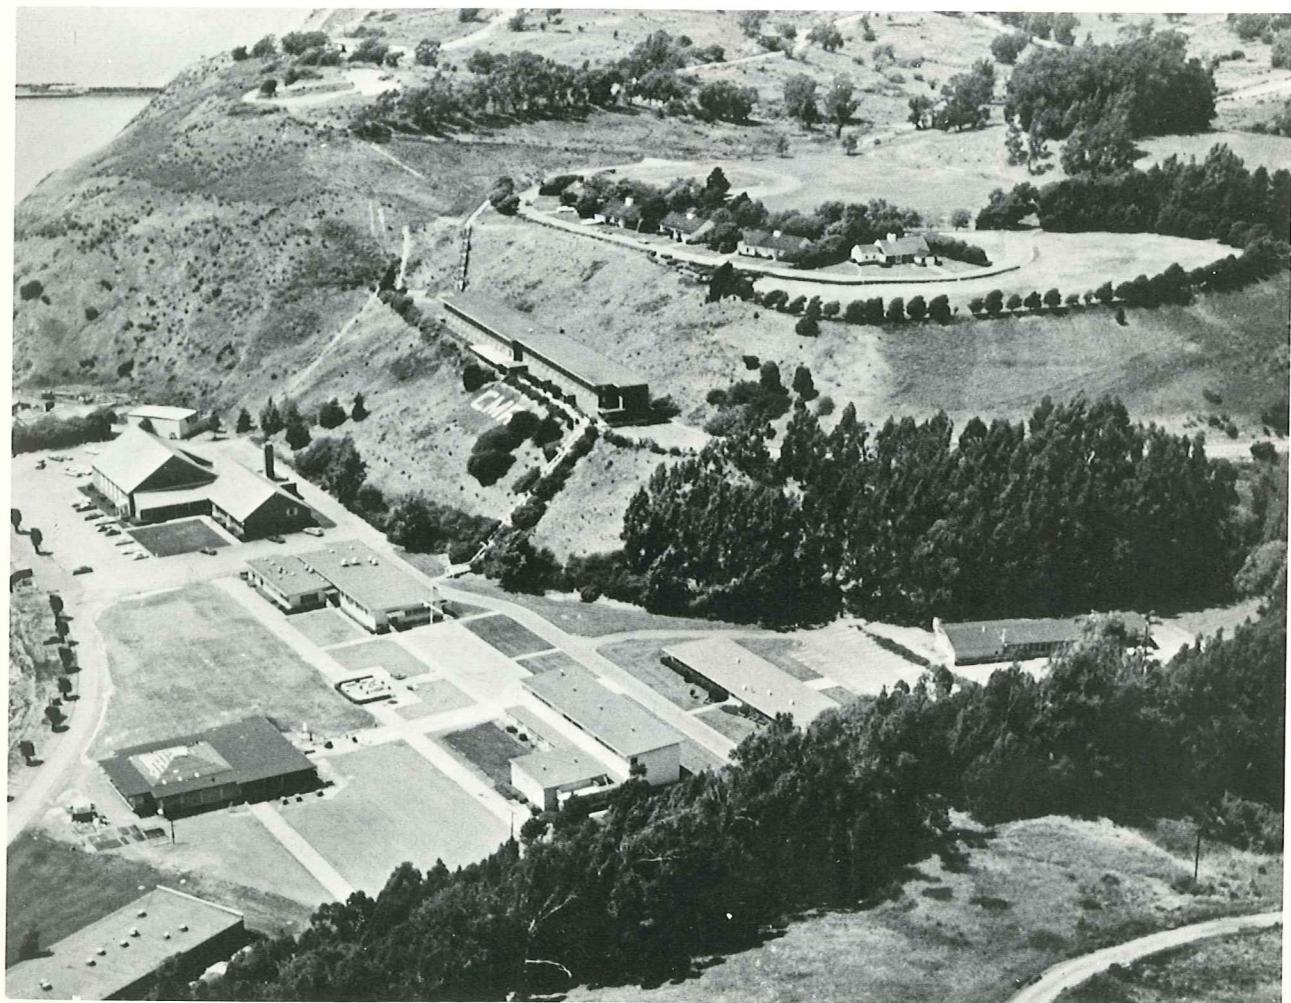

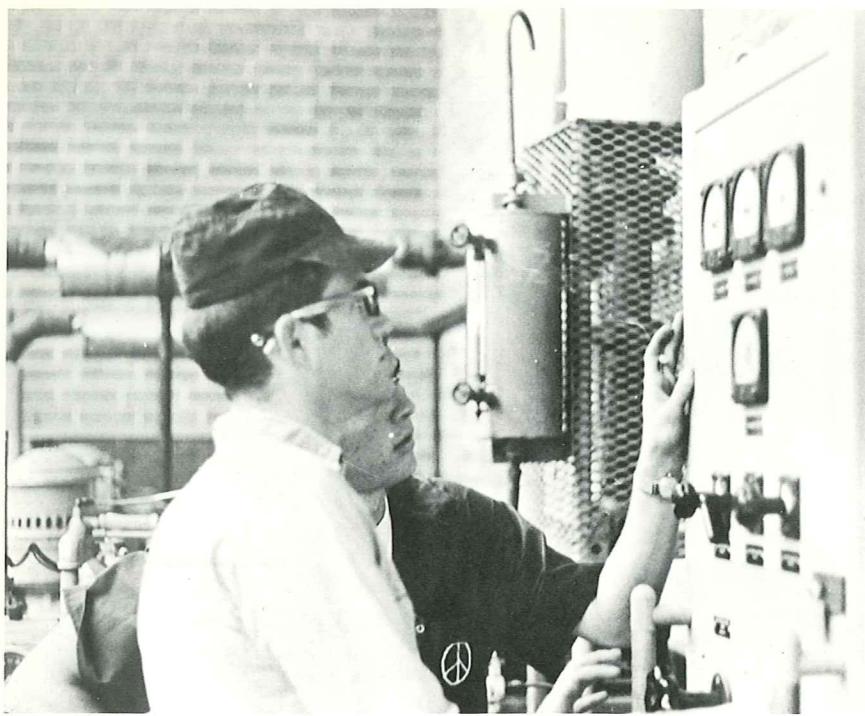

Sailing Club, NCIYRA, Propeller Club, Bicycling, Angel Island Bust, X.O. 4-D. . . As a third class, it was soon realized that, even though Brett was a land-lubber, he had tremendous potential as a sailor. Brett sailed everything from FJ's at night to BARLOA's with all expenses paid. His future plans include working, retiring, and buying a large boat to sail around the world.

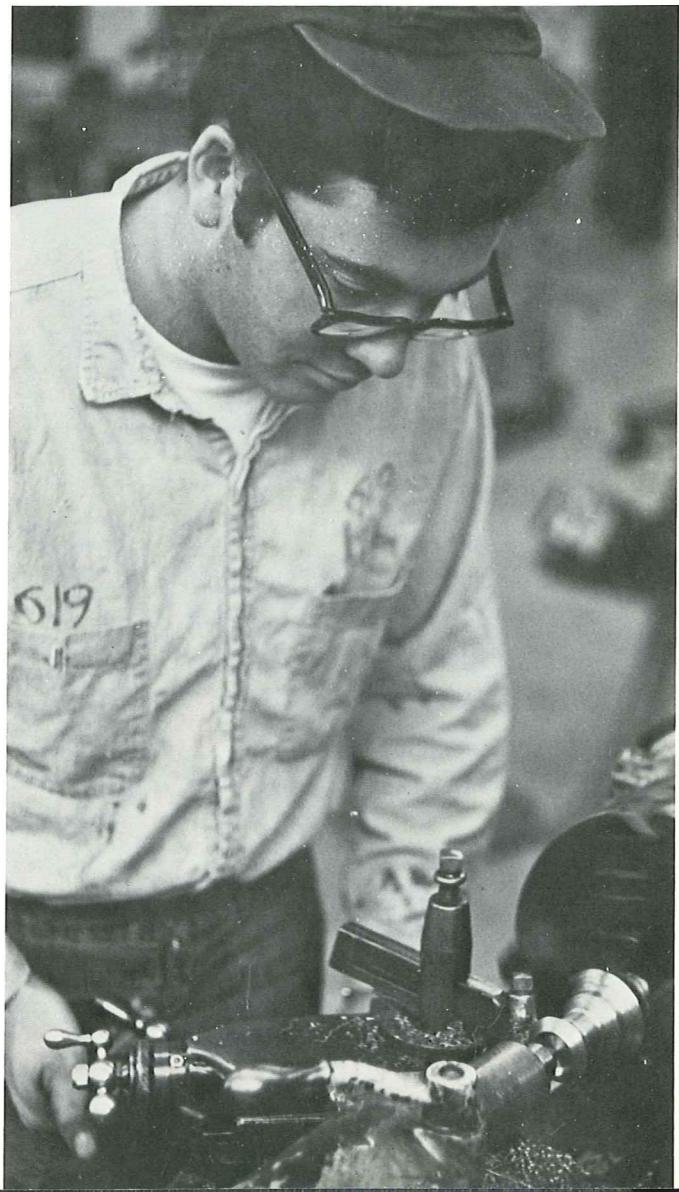

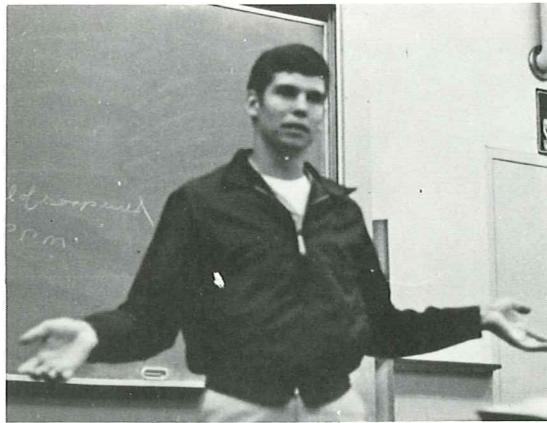

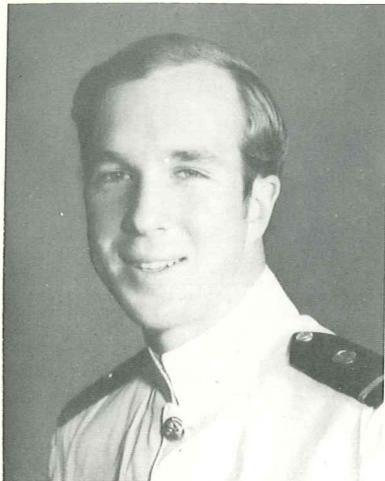

JOHN BRUCE WALKER

4820 Bradshaw Road, Sacramento, Calif.

Second Class President, Ring Dance Committee, Dean's List, Propeller Club, Member of the Highway 12 Anatomy Club, Div. Com. 4-E, Intramural Sports. . . John had a variety of talents, unfortunately, marching was not among them. "Midshipman Walker, I have a question, sir." It can be safely said that John thought CMA was the best school in California. John plans to go Navy.

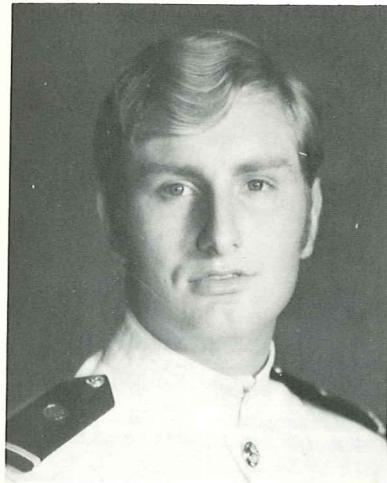

JOHN ROBERT WEAVER

835 Guadalupe Ave., Coronado, Calif.

Beau was strictly a Southern Cal. individual who could enjoy any situation, even two jails in one night. When John was not sliding through his classes or fixing someone's car, he was attending meetings of the International Z Club of which he was vice-president. In the future, John will be looking for warm sun and water and maybe a job with the Ecuadorian tuna fleet. Propeller club, Newman club, sailing and surfing club. . . .

RICHARD JEFFERY WELLS

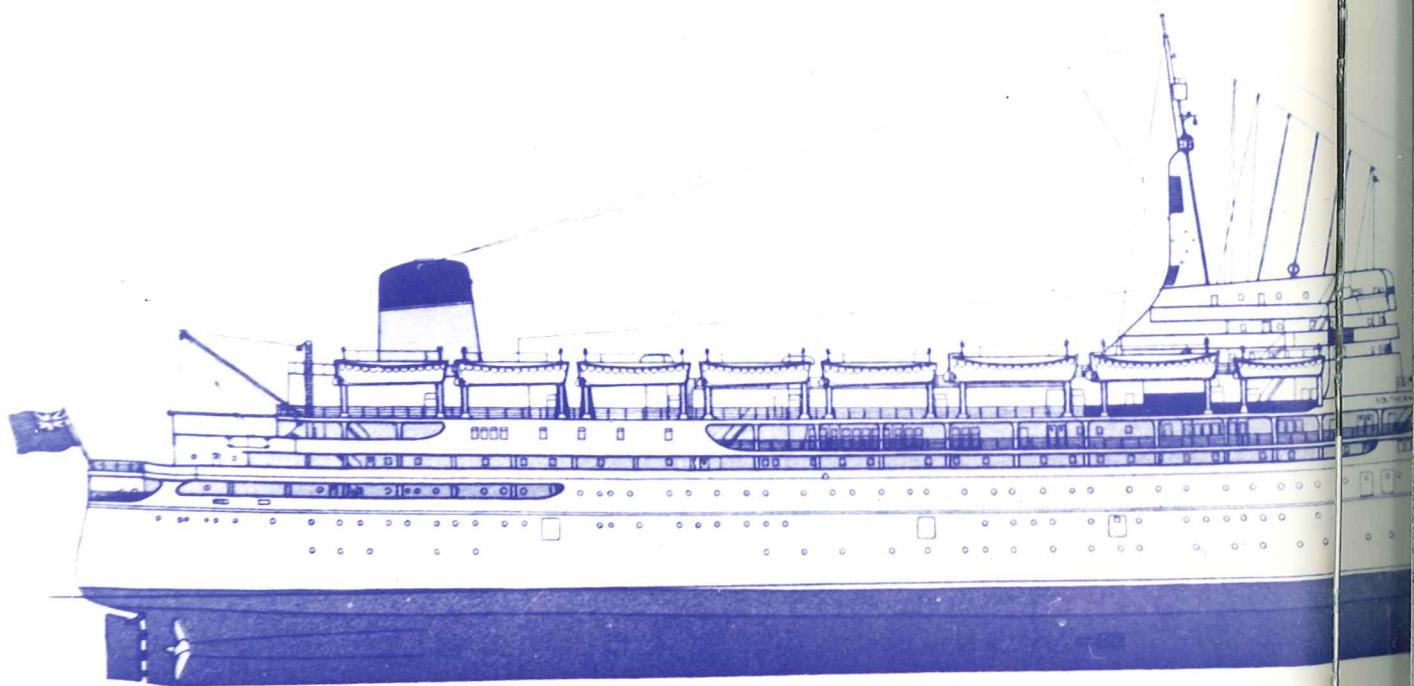

874 Green Street, Placerville, Calif. 95667

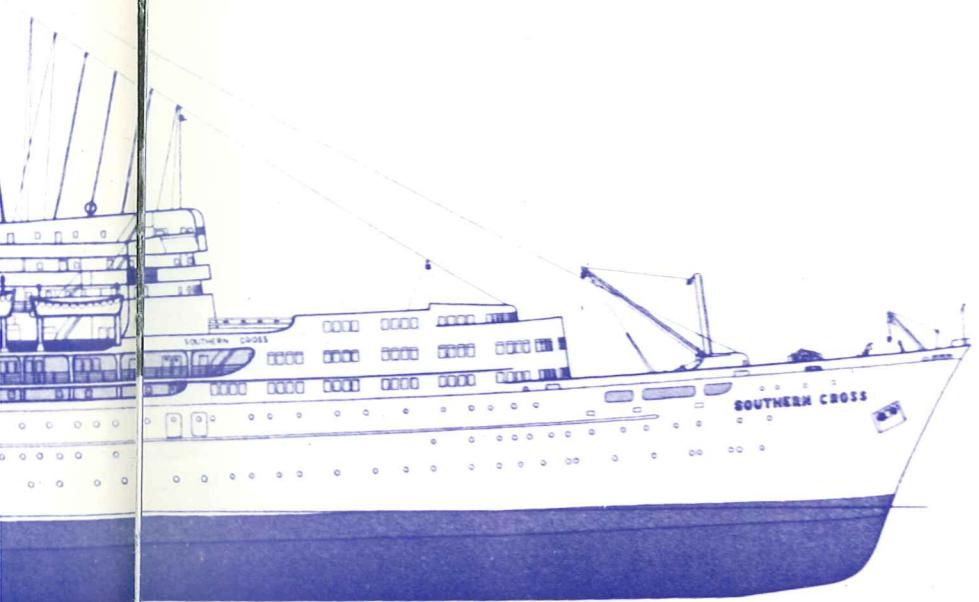

Newman Club, Propeller Club, North to Alaska Club, 256 Tapper Assn., Beeb's Bottle Club. . . . Pillows personality really did not materialize until his last year when the Beeb's Bottle Club was organized. Most of us will probably remember Jeff for his unforgettable head back-bottoms up profile. Seriously though, Jeff and his roommate were one jello body and soul.

EDWARD LANMAN

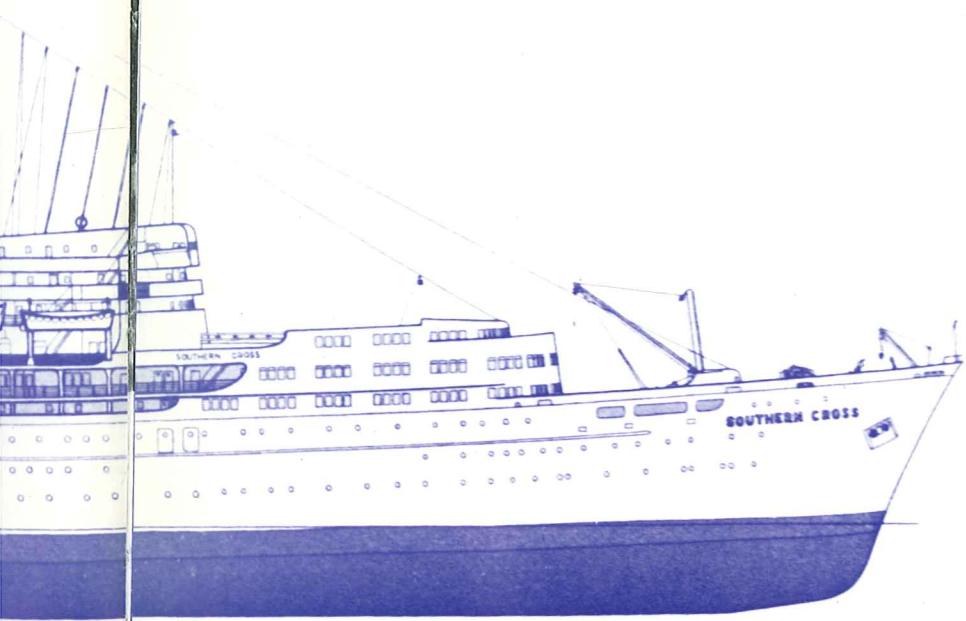

3 Gordon Place, Plymouth, Massachusetts

Corps First Lt., Propeller Club, Pepper Tree Member. . . . Ed was one of the loners of the class, and James Joyce described Ed as well as anyone, "He was alone. He was unheeded, happy and near to the wild heart of life. He was alone and young and willful and wildhearted. . . ." Ed plans on keeping a step ahead of Uncle Sam while shipping for AEIL and someday escape the holocaust on his own schooner.

Men of your skill, devotion to duty and leadership ability enable the American Merchant Marine to continue to serve the ever increasing economic and defense needs of our Nation.

**Chevron Shipping Company**  
A Standard Oil Company of California Subsidiary  
An Equal Opportunity Employer

the **RED SEA HORSE** wants  
to make you happy...that's why he  
takes such good care of your cargo

We pamper your cargo the way we pamper our ships. It's been that way with us for 50 years. You have your choice of container, unitized, refrigerated, bulk or break bulk. With speeds up to 23 knots. And fast turnaround in fewer ports. So, when you have the Far East on your mind, think of the Red Sea Horse. And give us a call.
