

MAYOR TOLMACH

NAVAL SHIP MISSILE SYSTEMS ENGINEERING STATION  
PORT HUENEME, CALIFORNIA

"On behalf of the City Council and the citizens of Oxnard, I wish to take the occasion of the Naval Ship Weapon Systems Engineering Station's TENTH ANNIVERSARY to highly commend past and present Station personnel for their outstanding service to our Nation and our community. While all citizens of the United States owe thanks to NSWSES for its important contribution to our national defense program, Oxnard residents have special reasons for expressing our gratitude to Station members. Over the past ten years, NSWSES personnel have not only met their occupational responsibilities, but have also taken a very active and productive role in numerous community betterment activities. Recognizing the many contributions which NSWSES has made to Oxnard, we all look forward to having the Station as our neighbor for many, many years to come."

Mayor Jane M. Tolmach  
City of Oxnard
