Dearest Patricia:

I have decided not to return to Palo Alto & Las Comitas School today because I have been asked to be present at the Tree lighting ceremony on 7th Street this afternoon and then to have dinner with a group of Department heads & others with Dean Gunderson of Engineering the host. So I think I will join them.

Will you, therefore, as I will be home (or perhaps 1:00 if I should be delayed in getting back from campus) from noon on, phone me as early as the afternoon as you can so that I can relay a message to Dr. Edmiston of Palo Alto & hold the 6:45 time tomorrow for him to see you and have an initial talk with you? You can decide after this consultation on the basis of whether you wish to go on & see him on later occasions. But I have a strong feeling that he can provide additional help for you and perhaps

(over)

help you a very great deal.

Since he is now classed as an M.D. there would be no question whatever about the insurance angle. He has helped others whose charges were paid by insurance companies with no question whatever.

Carl.
