

REGULATIONS AND PROCEDURES

ADMISSIONS

Admissions standards in the California State Colleges are prescribed by the Trustees of the California State Colleges and are stated in the *California Administrative Code, Title 5, Education* (Section 40600-41200), which provides a uniform pattern of admissions regulations for all the colleges. A student enrolling in any semester, other than summer session or extension or as an auditor without credit, must meet the standards for admission contained in this subchapter.

ADMISSION OF FRESHMEN

A high school graduate must meet one of the following requirements, (a) or (b). All freshman applicants must also complete the required entrance examination, the College Entrance Examination Board Scholastic Aptitude Test (SAT), in order that their applications be considered.

(a) The applicant must have earned 14 or more semester grades of A or B in subjects taken during the last three years of high school, other than physical education, military science, and remedial courses. Six of the 14 grades must be in college preparatory subjects selected from one or more of the following fields (no specific course pattern is required): (1) English, including speech, drama, and journalism, other than activity courses; (2) foreign languages; (3) mathematics; (4) natural sciences; (5) social sciences.

(b) The applicant must have earned 10 or more semester grades of A or B in subjects, taken during the last three years of high school, other than physical education, military science, and remedial courses, and have achieved a score at or above the thirtieth percentile on national college freshmen norms of a standard college aptitude test. Fresno State College requires students to submit the results of the College Entrance Examination Board Scholastic Aptitude Test (SAT).

Changes in Freshman Admission

Effective Fall of 1965

The California State Colleges will change admission requirements for entering freshmen in the fall of 1965. High school students who are planning to apply for admission to a state college at that time should consult with the college and high school counselors about the new freshman admission standards during the 1964-65 academic year.

TECHNICAL AGRICULTURE PROGRAM

High school graduates may be admitted to the technical agriculture program in accordance with provisions listed in the *Agriculture Division*.

ADMISSION OF UNDERGRADUATE TRANSFERS

An applicant who meets the requirements for admission with freshman standing and who has earned credit in one or more accredited junior colleges, colleges, or universities may be admitted if he has a grade point average of 2.0 (grade C on a five-point scale) or better in the total program attempted at such colleges or universities and is in good standing at the last college or university attended.

An applicant who does not meet the requirements for admission with freshman standing must, as a condition for admission, have earned 60 or more semester units of college credit with a grade point average of 2.0 or better in the total program attempted and must be in good standing as noted above.
