(including fire prevention)†	2
Group 6. English and Speech (Engl. 1a and Speech 20 or 24)	6
Group 7. Psychology —Psych. 7 or 10	3
Total	45

BACHELOR OF ARTS DEGREE

For the bachelor of arts degree a minimum of 124 semester units must be completed and must include at least 40 upper division units. Upper division courses taken before the student has earned 45 units, or before his fourth semester, may not be applied on this 40-unit requirement.

The general degree requirements (page 64), one of the general education patterns, and one major must be satisfactorily completed; and any minor requirements listed for a given major must be met. Units used to meet the general education requirement may not apply on the major. If a second concurrent major is desired, courses acceptable for satisfaction of general education requirements for first major may be used to satisfy second major requirements. Electives may be used to fulfill or to apply on requirements for a credential or for one or more minors, or they may be free electives selected with help of an adviser. While a minor is not required for most majors, students are encouraged to study the minor offerings of the various departments and consult their advisers to determine whether one or more minors would be an appropriate complement to their college programs.

* The physical education requirement may be waived only on request for students who have a medical excuse from the college physician, or who are 25 years of age or older; requests should be filed in the Counseling Office. Basic air science (4 semesters) may be substituted for physical education requirement.

† Students having had a health education course which did not include fire prevention, can meet the fire prevention requirement by special arrangement with the chairman of the Health Education Department (or by Hlth. Ed. 105). This should be arranged during the student's first semester at the college.
