

Continuing the Bracero Archive

"Researching Bracero Camps in Ventura County"

"The Braceros of Ventura County" exhibition is not complete and still has many gaps. You can help us fill many of these gaps by sharing your story, photograph or document related to the Bracero Program.

According to one author there were 165 Bracero labor camps in Ventura County but we could not locate at least 20 bracero camps. There were different types of bracero camps, some were labor association camps, corporation camps, small, isolated and seasonal camps, and family camps.

This interactive map will allow you to make a correction about any bracero camps and/or locate a missing one.
