Bonnie Warrington
Ventura County Commission for Women
505 Poli Street
Ventura, California 93001

Dear Bonnie,

I want to thank you and Tiffany for the work you do in supporting the efforts of the commissioners. I hope to be talking with you occasionally, so I can hear about the good work that will be happening in the coming year.

I am sending you a packet I received from the American Documentary people in NYC. It is a description of the film Girl Talk, which I am recommending for study by the Teen Pregnancy Committee. This material is for Katie..but I am sending it through you because I think it would be good to have copies made for each member of the committee. Would you also make a copy for me and for Susan Moffatt, the Mar Vista High School Nurse who is interested in working with this group. Katie has the information on the rental or purchase cost of this film. You can see from the commentary that it may require some conference viewing...but I consider it a penetrating look at the issue of teen pregnancy and some related, wider issues.

Please send Katie's copy to her as soon as possible...I'll try to let her know it is on the way. This is the only copy of the material that was sent...so do make a copy for me!

Thanks Bonnie,
Keep up the good work,

Karen Greenblatt
