THE ACADEMIC DRESS

When the graduate appears in gown and mortarboard, he bears witness to an identification with scholars and scholarship which extends to us from the Middle Ages. Universities began to appear in Europe in the Twelfth Century, followed within a hundred years by systems of academic degrees. Almost simultaneously, the scholar began to develop a distinctive dress based on modifications of the costume of every day. The hood was, in truth, the head cover of both the medieval scholar and the ecclesiast. The biting wind of the Po and the Seine Valleys was diminished by the robe or cloak.

What we see in American academic procession of today, then, comes to us from an 800-year process of evolution. In 1895, this country reinforced its developing talent for standardization and mass-production by considering a uniform academic costume code for its universities. Meanwhile, European universities maintained their right to variety. The vivid diversity of regalia for European degree holders brings to the American commencement crowd such visual pleasures as sable berets and cardinal robes.

The cap, the hood, and the robe are the usual components of the academic costume. The mortarboard as we see it now comes from joining the elements of a square bonnet and a skull cap. As early as 1600, scholars at Oxford University began introducing light boards to hold out the corners of the bonnet. The tassel may be the color of the faculty or major field of learning in which the degree is conferred or it may be black. At California State University, Long Beach, the tassel color worn by the Bachelor's degree candidate denotes his or her school:

Applied Arts and Sciences	Green
Business Administration	Drab Beige
Education	Light Blue
Engineering	Orange
Fine Arts	Brown
Humanities	White
Natural Sciences	Gold
Public Policy and Administration	Peacock Blue
Social and Behavioral Sciences	Dark Blue

Master's degree candidates wear tassels colored Forty-Niner Gold.

Faculty with the Doctor's degree also have gold tassels.

Gown designs represent the three levels of academic degrees. Except in rare cases, the gown is black. The Bachelor's robe features full and long pointed sleeves with little adornment. The Master's gown has been modified in recent years. The characteristic knee length sleeves formerly had a slit to allow the arm to emerge at the elbow. Whereas the gowns were similar, the variety of emerging arms and sleeves was the despair of the mind that loved uniformity. Now the slit is lower so that only the hand emerges.

The star of the act is the Doctor's gown. Faced with velvet panels from neck to ankle, fitted with bell-shaped sleeves crossed by three velvet bars, the robe is full and long. The color of the panels and bars can designate the faculty which awarded the Doctor's degree. Most common is the dark blue of philosophy, the Ph.D. degree. Also seen on occasion are the light blue of education (the Ed.D.); the white of the arts and letters; the orange of engineering; the lemon yellow of library sciences; the golden yellow of

science; the pink of music; the purple of law; the green of medicine and the scarlet of theology.

A few American universities are breaking away from the Code of 1895 in their Doctor's robes. The Harvard graduate at the doctoral level can wear a gown of full crimson with embroidered crow's feet on the lapels. Yale, of course, has countered with its robe of Yale blue (no crow's feet). Columbia recently has authorized slate gray and Stanford is resplendent in Cardinal. Vivid color is allowed to break through in the hood. Hoods are in three sizes with the smallest (for the Bachelor's degree) being rarely seen. The lining of the hood is taken from the school colors of the institution awarding the degree. The Master's hood of California State University, Long Beach is lined in gold with a brown chevron; no Bachelor's hood is used.

Unfortunately, two universities with the same school colors may design hoods which are similar or identical in appearance. An example is Stanford and Wisconsin. Gold, perhaps by sheer coincidence, appears very frequently as a color on the silk lining of the hood. Following are some hood colors that may be identified in our academic procession. The 25 universities listed made 40 percent of all Doctor's degree awards in the United States during the year 1973-74.

California, Berkeley	Gold, Yale blue chevron
Chicago	Maroon
Columbia	Light blue, white chevron
Florida State	Garnet, gold chevron
Harvard	Crimson
Illinois	Navy blue, two orange chevrons
Indiana	Crimson, green chevron
Maryland	Black, one gold chevron
MIT	Red, gray chevron
Michigan	Maize, azure blue chevron
Michigan State	Hunter green, white chevron
Minnesota	Old gold, maroon chevron
Northwestern	Purple, gold chevron
NYU	Violet
Ohio State	Scarlet, gray chevron
Pennsylvania	Red, blue chevron
Penn State	Dark blue, white chevron
Pittsburgh	Navy blue, gold chevron
Purdue	Black, two old gold chevrons
Stanford	Cardinal
Texas	Orange, white chevron
UCLA	Gold, Yale blue chevron
USC	Gold, cardinal chevron
Washington	Purple, gold chevron
Wisconsin	Cardinal

RHO OF CALIFORNIA PHI BETA KAPPA CALIFORNIA STATE UNIVERSITY, LONG BEACH

The charter members of Rho Chapter of Phi Beta Kappa at California State University, Long Beach proudly present the outstanding graduates of the 1978 class who have been elected to membership in Phi Beta Kappa, America's first and most renowned honorary society, dedicated from its inception to the pursuit of "friendship, morality, and literature."

Rho Chapter at California State University, Long Beach was granted its charter on December 6, 1976, exactly 200 years and a day after five young men at the College of William and Mary met in Williamsburg and formed the *Societas Philosophiae*. They adopted the Greek motto "*philosophia biou kubernetos*"; that is, "love of knowledge, the helmsman of life." It is from the Greek initials of this motto that the cognomen ΦBK arises. By 1780, a chapter was formed at Yale and another at Harvard in 1781; others followed. Gradually, as the secret rituals became less important, the intellectual activities of the chapters received the priority for which the organization has earned and deserved its unique reputation as the most prestigious honor society in America. Women have been admitted since 1875.

On the occasion of the centennial in 1876, the Harvard chapter proposed a general meeting to systematize activities involving the Society as a whole, and the founding of the United Chapters of Phi Beta Kappa resulted. This national organization still administers the granting of new charters and assists chapters in their promotion of activities dedicated to the stimulation of scholarship and intellectual growth. In fact, it is under the auspices of the United Chapters in conjunction with Rho Chapter that Distinguished Scholars and Visiting Scholars of national and international renown are invited to share their research and creativity with members of the campus community, thereby continuing the interaction of intellectual activity on the campus throughout the year. It was only after an intensive six-year investigation of the academic achievements, intellectual resources, financial stability, and liberal aims of this University, that the Council of the United Chapters granted a charter to those of its members who serve on the faculty of California State University, Long Beach (listed below). So it was in 1976 that this University became one of only 225 institutions of higher learning in the United States to have a chapter of Phi Beta Kappa.

The selection of Members in Course is based on the conviction that the good life of the responsible citizen is necessarily based on keen reason, mature judgment, a well-developed critical faculty, and a thorough understanding of the world, natural, social, and esthetic, in which he or she lives. Phi Beta Kappa maintains that these qualities are most likely to flourish from a thorough grounding in the liberal arts and sciences which comes from serious application to a wisely chosen program of studies. They are not evidenced merely by high grades earned in an arbitrary variety of courses. Nor can they be achieved in a program, however excellent, whose aim is solely voca-

tional. It is on these ideals that the requirements for election to Phi Beta Kappa are based.

Aside from superior grades, a student must therefore demonstrate the following qualities in his or her college career:

1. Broad cultural interests, scholarly achievement, and good character, as evidenced by excellent performance in serious course work, well distributed over the liberal arts and sciences.
2. A knowledge of the basic logical and communicative skills of mathematics and foreign language.
3. Dedication to serious, critical thought.

Currently about 1-2% of those persons earning bachelors' degrees in the liberal arts and sciences meet the exacting qualifications for election. They join a diverse company of persons who, whatever the courses of their lives, have maintained a deep dedication to the life of the mind. Among them are John Marshall, Ralph Waldo Emerson, Oliver Wendell Holmes, John D. Rockefeller, Jr., Mina Rees, John Hope Franklin, Hannah Holborn Gray, Daniel Boorstin, Edward Levi, and Henry Kissinger.

Rho of California, California State University, Long Beach and the Society of Phi Beta Kappa are honored, and will continue to be honored in the future, by the distinguished achievements of those they honor today.

GRAND SYMPHONY CARILLON BELLS

During the Commencement week visitors to campus may have opportunity to hear the campus carillon bells on several occasions. The bells will be played in recitals between ceremonies and will be used for several processionals and recessionals. The Grand Symphony Carillon Bells are an addition to the Carlson Memorial Tower which was designed by the late French sculptor, Andre Bloc.

Among the selections chosen and arranged especially for this occasion are *Pomp and Circumstance* by Edward Elgar, *Procession of Nobles* from "Mlada" by Nicholas Rimsky-Korsakov, *Psalm XX* by Benedetto Marcello, *Festal March* from "Perstare et Praestare" by Philip James, *Elsa's Procession to the Cathedral* from "Lohengrin" by Richard Wagner, *Air and March* by Henry Purcell and *Psalm XIX* by Benedetto Marcello.

Carillonneurs will include the following persons: Professor Wm. Paul Stroud, Dolores Smith, Faye Lynn Strother, Richard L. Hoover, Bryan Beavers and Melissa D. Feeney.

The Carlson Memorial Tower is the last of the outstanding works of sculpture originally designed for this campus as part of the International Sculpture Symposium of 1965. The tower is actually the final work of the French sculptor Andre Bloc who, shortly after completing this project, was killed in a fall from a pre-Mongolian monument near New Delhi, India, in 1966 at the age of 70.

The funds to complete this project are the result of the generous beneficence of Miss Louise Carlson who was born in Sweden and adopted Long Beach as her permanent home. Miss Carlson had no immediate family and during her last few years looked at several possibilities for the estate which she had built. From the many potential recipients, she chose California State University, Long Beach, as a place where she could be remembered for her devotion to youth and education, as well as to display her affection for the city of her choice.

INVITATION TO THE FINE ARTS GALLERIES

Guests and graduates are invited to visit the Fine Arts Galleries during their stay on campus. The galleries are open the three days of Commencement from noon to 9:00 p.m. Special exhibits will include work done in painting, sculpture and other media by CSULB undergraduate and graduate students. The galleries are located in and between Fine Arts Building 2 and Building 3.

DATE OF GRADUATION

Students become eligible for graduation at the conclusion of the Fall Semester, the Spring Semester, or either of the two Summer Sessions. Candidates from the terms ending July and August 1977 and January 1978 have completed requirements for their degrees. May 1978 candidates listed in the program will be awarded their degrees contingent on successful completion of requirements during the Spring Semester.

MASTER'S DEGREE

Thesis titles for master's degree candidates are listed in this program. If no title appears following the candidate's name, either the student elected to take the comprehensive examination or the thesis title was not available at the time of printing the program.

CERTIFICATE PROGRAMS

In addition to receiving the baccalaureate degree, some candidates have fulfilled the requirements for a certificate program. The certificates are listed after the candidates' names.

GRADUATION WITH HONORS

Students who completed requirements for the bachelor's degree during the 1977 Summer Sessions have been awarded honors based on completion of a minimum of 45 units with a 3.3 grade point average or higher at California State University, Long Beach. Those with an average of 3.3-3.49 are graduated *with distinction*; 3.5-3.74 *with high distinction*; 3.75-4.0 *with great distinction*. (4.0 is an A average; 3.0 is B).

Candidates for the bachelor's degree in the academic year 1977-78 who have achieved an average of 3.5-3.74 are graduated *with distinction*; and 3.75-4.0 are graduated *with great distinction*. Grades are not yet available for the current Spring Semester. Inclusion of these grades may produce some additions, deletions and changes in the honors listing found in the Commencement program.

In addition to honors for bachelor's degree candidates, the Graduate Dean's List of University Scholars and Artists recognizes outstanding students at the graduate level. Nominees are selected annually by the various schools. The number considered does not exceed one percent of a given school's graduate population.

EMERITI 1978

Each year some members of the California State University, Long Beach faculty become emeriti. In recognition and in gratitude for their service to the University, the names of all those who will have attained emeritus rank at the end of the academic year are recorded here.

THE COMMENCEMENT SPEAKER

Joseph N. Sorrentino grew up with juvenile delinquents. He knew the world of gangs, drugs, reformatories, the underworld and jail. He flunked out of high school and was thrown out of the Marines. Shunning this life, Sorrentino went to night school, then entered the University of California where he served as student body president and was graduated *magna cum laude*. He then reenlisted in the Marines to clear his record and went on to Harvard Law School where he was class valedictorian.

Sorrentino currently is an award-winning attorney who has presided over hundreds of trials as a juvenile court referee and a municipal court judge *pro tem*. He is a professor at USC and Pepperdine and an author of three books. Sorrentino has been published in newspapers, magazines and law journals.

THE COMMENCEMENT SPEAKER

Florence R. Skelly is Executive Vice President of Yankelovich, Skelly, and White, Inc. A Phi Beta Kappa graduate of Hunter College with graduate study at Columbia University, she is responsible for the overall management of the firm. She has served for fifteen years as Senior Associate at Stewart Dougall and Associates, a market research and consulting firm.

Long associated with consumer marketing, Ms. Skelly initiated and developed the Laboratory Test Market, a pioneering effort in test market simulation and Monitor, a business service which measures and tracks the impact of social change on consumer goods marketing. She has been responsible for the development of Market Alert, a new business service which measures and tracks "Consumerism" pressures on marketing.

THE COMMENCEMENT SPEAKER

Roger Revelle served several years as Director of the Scripps Institution of Oceanography and led a number of expeditions into the deep Pacific. He is a Richard Saltonstall Professor of Population Policy at Harvard University and former Director of the Harvard Center for Population Studies. Dr. Revelle became science advisor to the Secretary of the Interior in 1961 and began work on problems relating to world population and economic transformation.

During the 1950s Dr. Revelle was instrumental in starting the San Diego campus of the University of California and in 1965 the regents named the first college at San Diego in his honor.

Dr. Revelle was awarded his Ph.D. at the University of California and holds a number of earned and honorary degrees.

Central Quadrangle

Processional

Grand Symphony Carillon Bells playing from the Carlson Memorial Tower

Inspiration Dr. Kenneth L. Marsi
Chairman, Department of Chemistry and Professor of Chemistry

Welcome Dr. Roger D. Bauer
Dean, School of Natural Sciences

Address — *The Humanity of Science* Roger Revelle
Professor of Science and Public Policy, Harvard University

Presentation of Awards Dr. Lee B. Stephens, Jr.
Associate Dean, School of Natural Sciences

Presentation of Alumni Awards Mrs. Carolyn Neal
President-Elect, University Alumni Association

Outstanding Graduating Seniors

Biology — Fred Nothnagel

Chemistry — Oren Schelley

Geology — Lynn Gray

Microbiology — Mary J. Jacobi

Physics — Mark A. Voelker

Presentation of Associated Students Award James Taylor
President, Associated Students
Oren G. Shelley

Presentation of Student Council Service Award Dr. Henry Fung
Professor of Microbiology and Faculty Advisor to the Student Council

Presentation of Honor Graduates Dr. David Adamany
Vice President for Academic Affairs

Biology — Andrea J. Carroll

Chemistry — David Morano

Geology — Brigitte H. Berman

Microbiology — Ursula E. Gibson

Physics — Thomas Nash

Presentation of Bachelor's Candidates Dean Bauer

Hooding of Master's Candidates Dr. Albert Yee
