

Dear Editor;

May I express our appreciation to the authorities and to the people of The Fresno Assembly Center. The hospitality and good fellowship has been very good. For the improvements and facilities, the authorities must be commended highly. The atmosphere is the best. So much had not been anticipated. We wish to express our thanks to the authorities and to the people who preceded us here.

Praise must be given to the leaders of the education and recreation departments and to their respective staffs. When we leave this Center, knowledge gained through education, in all probability will be our greatest asset. For their far sightedness and their sincere effort, no words will justify the credit due them. May we live in harmony no matter how long or short the stay.

Sincerely-Thomas Tanabe
(Elk Grove)

OUR UNSUNG HEROES

In a community of \$,000 we must have people performing various tasks in order to have a smoothly functioning city. We need people who will willingly volunteer for jobs pleasant and otherwise.

We see girls of the upper calibre cheerfully dishing out hash in the mess halls. There are college boys industriously working as garbage collectors and others assigned to likewise distasteful work.

The members of the police force who go on the proverbial "grave yard shift," and nurses and their aids who keep vigil over the sick throughout the night. There are the boys who distribute milk formulas to the Center babies at odd hours, and the doctors who offer their services untiringly.

This is but a small portion of our hard-working citizenry who should be commended for their fine spirit and willingness to give their best for the Center populace, no matter how trying the task.
