Dear Miss Morgan;

file

Mr. Hecox thinks you misunderstood the purpose and plan of his activities.

Mr. Hecox is merely a financial man.

I wanted him to learn what could be done and would be done in the way of finishing certain things and then see that the money was forthcoming to finish them.

For instance - on the outside the colonades and esplanades, - and

on the inside remaking
the fireplaces so they
will all draw and not
smoke installing the
electric heating liberally
in the walls, weather
stripping, additional
furnishing ~~etc~~ to make
the houses as warm
and cosy and livable
as possible.

I know that ~~all~~ all
these things cant be
done immediately but
they should be done
as promptly as possible
because the houses are
unfinished and uncomfortable

without them

I know that the appropriation is expended in certain major directions and that there may not be enough money to finish certain minor but much needed things.

Therefore I asked Mr. Hecox to find what could be furnished and what it would cost and how soon it could be done and to supply certain definite amounts for certain definite objects so as to get the necessary things done as soon as possible.

I don't want him to
interfere with anybody.
I simply want him
to help in a needed
way.

I could do this myself
but I have so many
other things to do.

I think that situation
applies to you too. I
don't like to bother you
about such things.

I thought Hecox
could be of use in
getting the money and
seeing that it was
devoted to certain objects.

I hope this meets with
your approval sincerely
your workman
