**"If in the twilight of memory we should meet once more,  
we shall speak again together and you shall sing to me a deeper song.  
And if our hands should meet in another dream,  
we shall build another tower in the sky."**

**—Kahlil Gibran**

Dear Graduate:

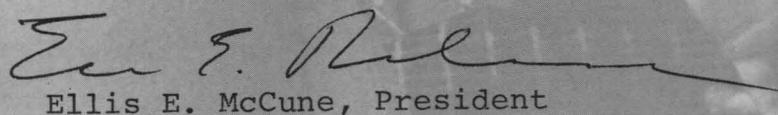

As a member of the Class of 1979 you have witnessed a year of many accomplishments at Cal State, Hayward. First, and foremost, is your personal achievement of a most important educational goal --graduation.

Change was also an accomplishment. The CSUH campus has undergone some changes physically this year with the completion of the Agora Stage and the addition of colorful flowers to the hillside landscaping. We celebrated the opening of a new Disabled Students Center, expansion of our Learning Center and modification of the Reading Clinic.

Student efforts have played an important part in Cal State's accomplishments in 1978/79. Two students of mathematics made international news by proving the largest prime number yet identified; our Pioneer football team posted its best winning season in ten years, finishing second in their Division; and KSUH Radio began broadcasting on carrier current.

Traditions, new and old, have received a new emphasis. New events like Harvest Festival and St. Patrick's Day, and continuing older traditions like Pardi Gras, Casino Nite, Spectrum of the Arts, Science Expo and the Graduate Brunch, have enhanced our campus environment. This edition of Horizons marks its third anniversary at Cal State. There has been a renewed interest in homecoming games, fraternities, sororities and social activities such as disco dancing and concerts. I believe this comes from a continually growing "sense of community" and commitment to making Cal State, Hayward more than just a place to attend classes.

The year will also be remembered for our commitment to maintaining our strong, well rounded academic programs in the face of financial adversity. I encourage you to join the ranks of our rapidly increasing numbers of Alumni who are assisting us in this effort. You can maintain your relationship with the University through the CSUH Alumni Association and through my office. Your continued interest and support is essential to the growth, strength and improvement of Cal State.

Ellis E. McCune, President

## Message From The President

## CSUH ALUMNI ASSOCIATION

ALIVE AND KICKING!

That's what the CSUH Alumni Association is, and you are the reason why!

Graduates help form the Alumni Board of Directors, graduates help plan the programs for the Alumni Association and graduates provide the energy and ideas for the series of ever-expanding programs that are offered to the CSUH Alumni Association membership.

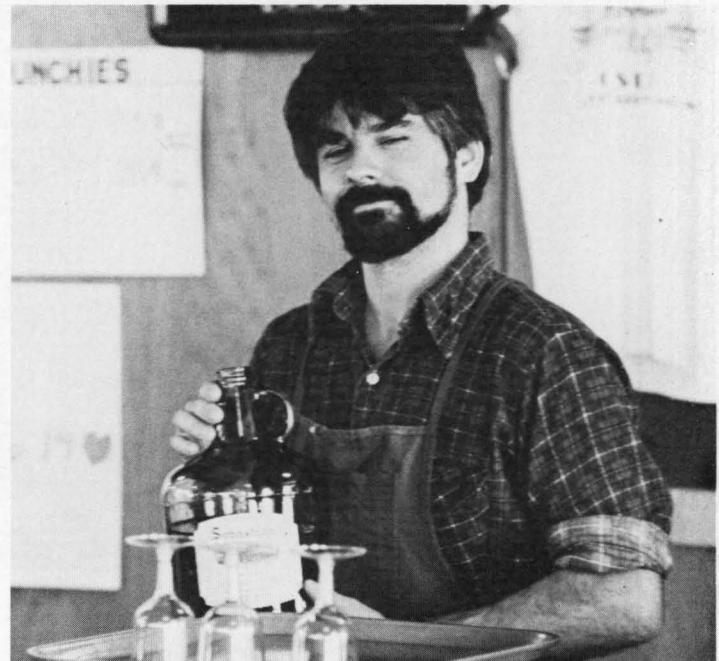

To date the Alumni Association sponsors such programs as the Annual Dinner Meeting (April), Annual Picnic (August), Graduate Brunch (June), Theatre Night (February), and the twice weekly Ale Haus whose proceeds go to the Alumni's Annual Scholarship Fund.

Three new programs are being developed with room for your help. Alumni chapters are being formed statewide to help maintain interest in CSUH. A perpetual scholarship endowment and a life membership endowment have been established to broaden the financial support to future students and the future of your Alumni Association.

There's lots more to be done and it will take you, the CSUH graduates of 1978, to continue building on the hard work of those who have gone before you. Get involved! Give a little . . . you'll get a whole lot more than just blah, blah, blah!

Film crew on campus (Photo by Geir Jordahl)

## Cal State Makes Movie Magic

CSUH students, new and returning, were greeted by a strange series of events during the first week of classes Fall Quarter. There was a riot, a helicopter, tear gas and an anti-war demonstration that made many at Cal State relive the late '60's. Fortunately, it was not a campuswide return to those turbulent years, but a film crew shooting scenes for the George Lucas sequel to "American Graffiti". The working title for the production is "Purple Haze", set for release sometime during the summer of 1979.

Among the stars: Cindy Williams, Ronnie Howard and MacKenzie Phillips. In spite of hectic filming schedules and endless waiting for final takes to be shot, the film veterans chatted with students and staff, signed autographs and posed for photos that will be treasured by the lucky film fans.

# The World Around Us

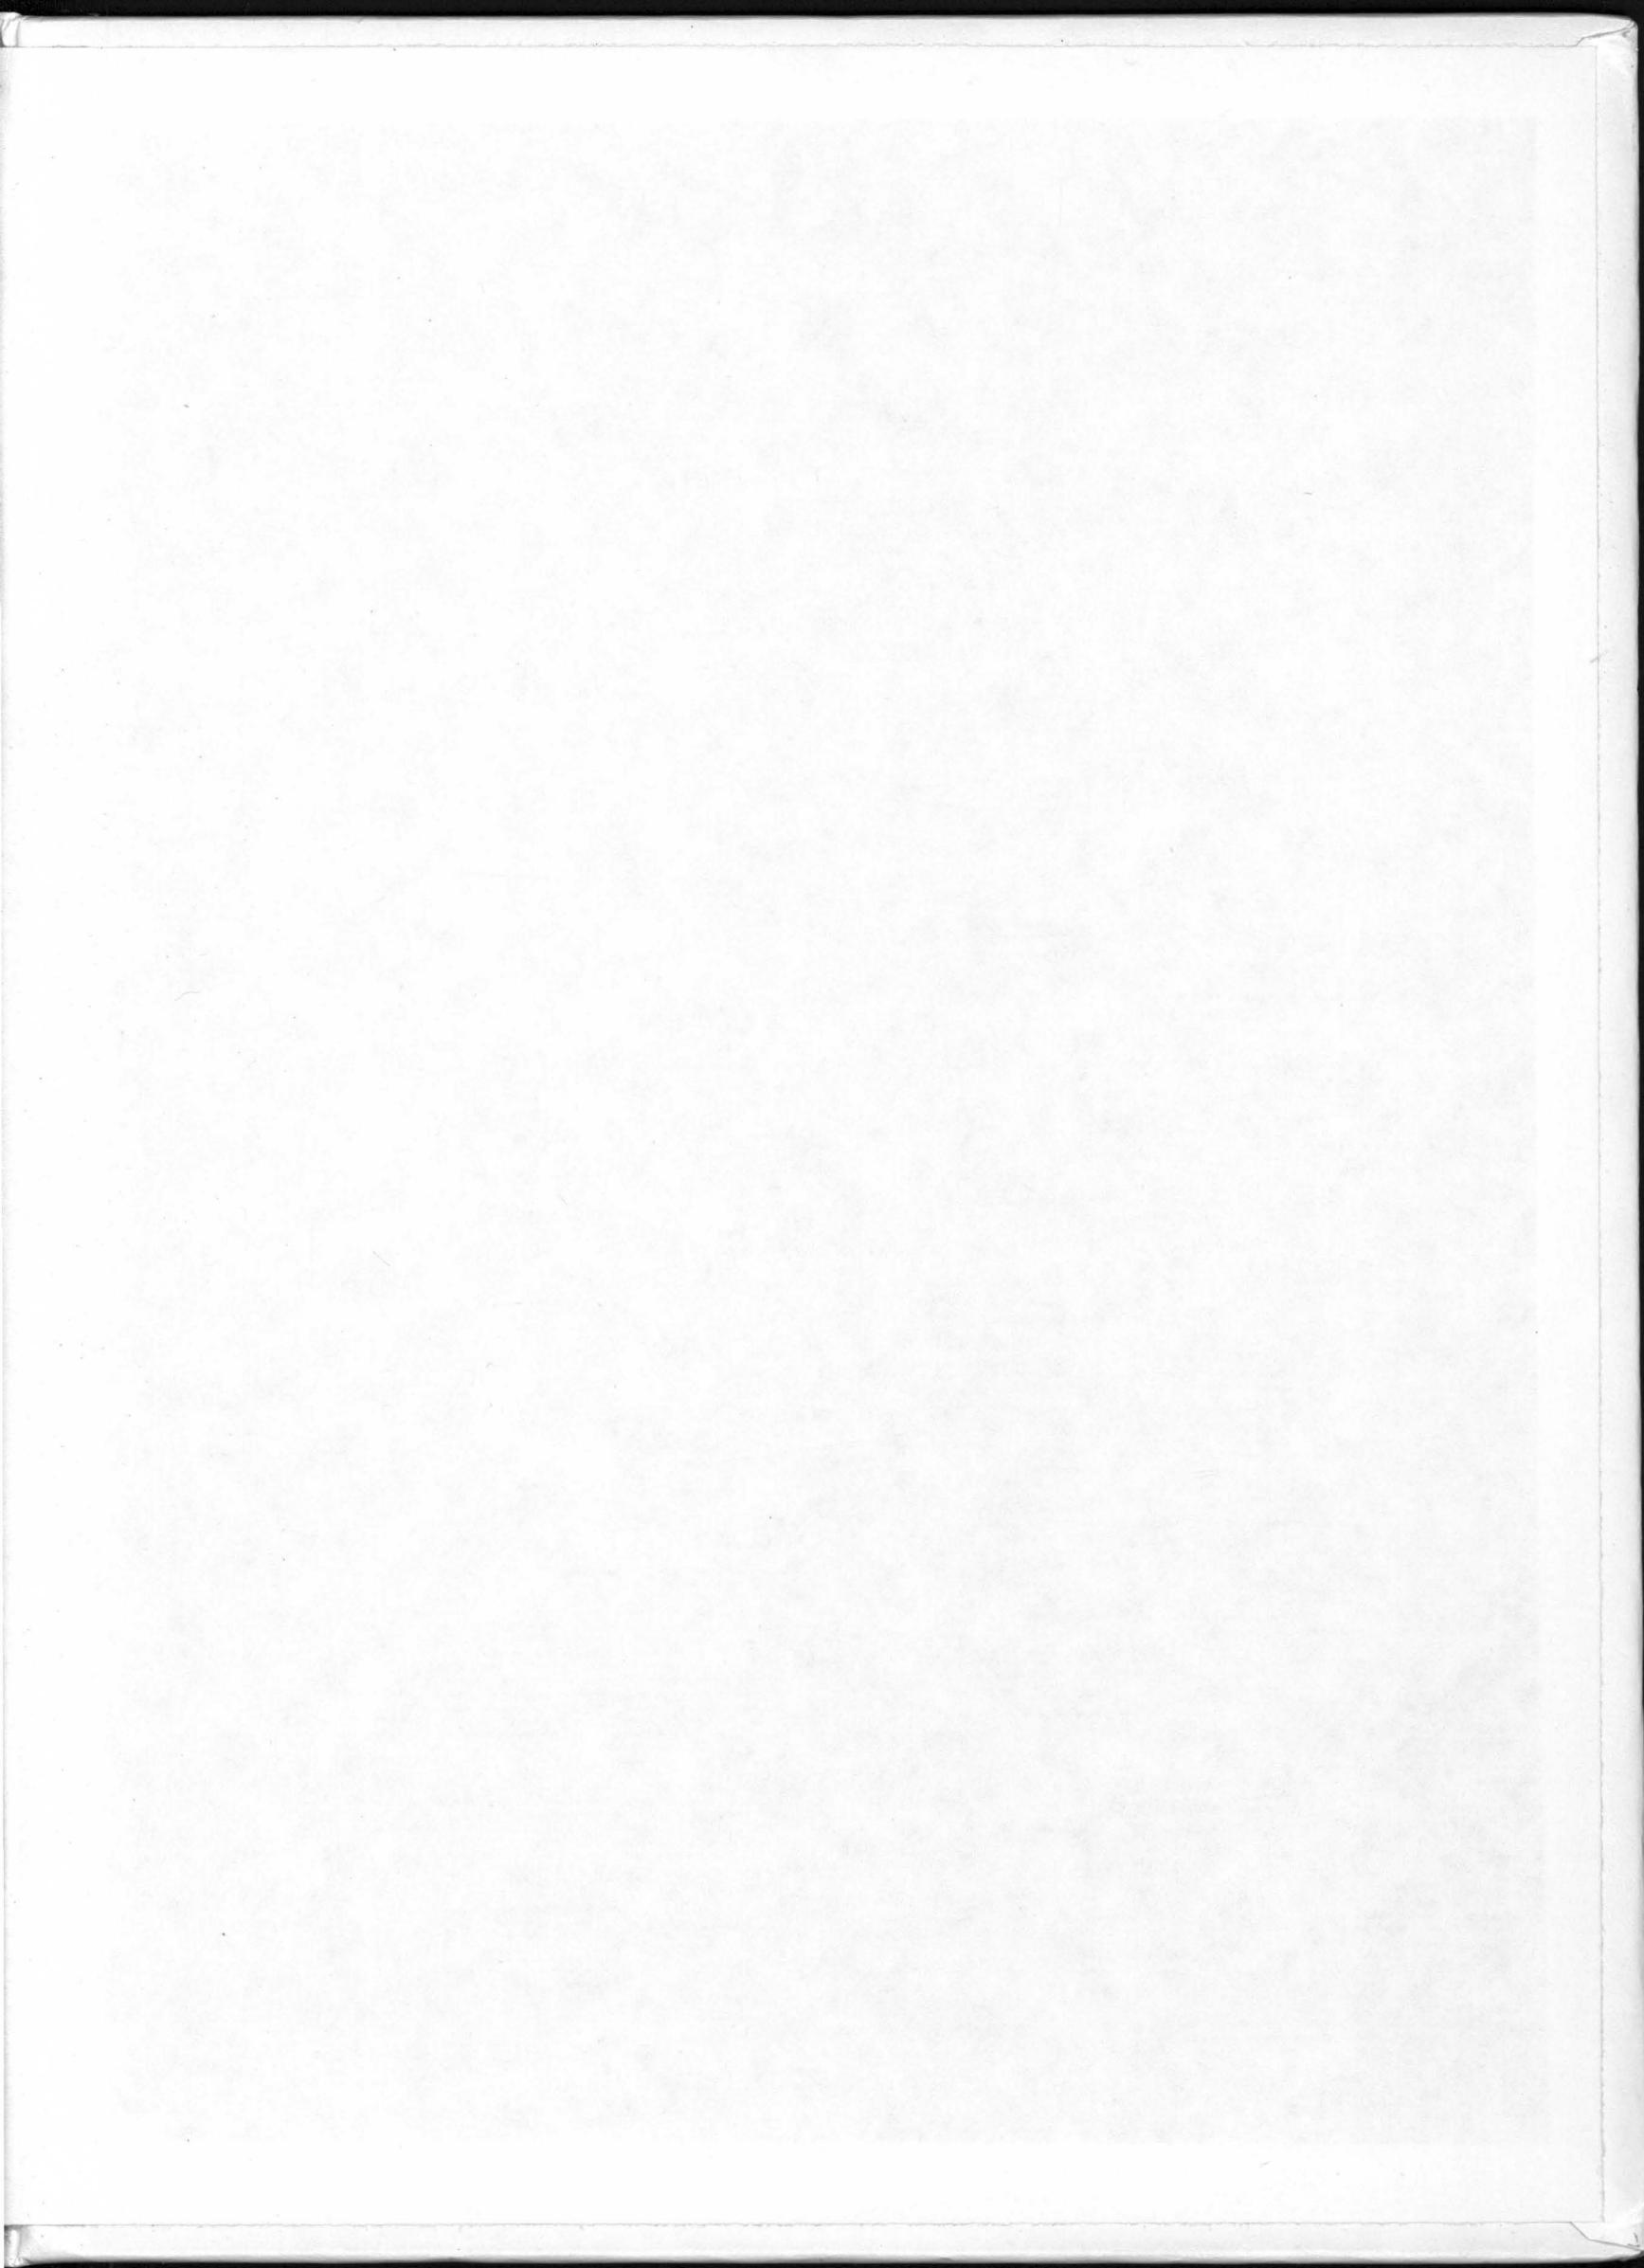

# The World Around Us

1978

The drought was over, but the storms that followed were, in many parts of the country, blizzards and floods. President Carter's popularity was on the downswing because of his foreign policy and the releasing of the Panama Canal. The court rules for Bakke, but condones affirmative action. The nation watched as Californians staged the "Great Tax Revolt," better known as Proposition 13. Champions of world peace were weary with the loss of two Popes, the Russian spy trials, the People's Temple mass suicide and murders in Guyana, and continued tension in the Middle East. Issues still pending were the ERA, the Neutron Bomb, the "Self Rule" plan in Rhodesia, paraquat poisonings, Cuban tension and the threat of Cold War. Muhammad Ali was upset and all of America caught "Saturday Night Fever."
