Dear Mrs. Tolmach:

The final presentation to the Environmental Impact Study ad hoc Citizens Advisory Committee will be made on October 8, 1970 at 9:00 A.M., in the Ventura Room of the Oxnard Community Center, 800 Hobson Way, Oxnard, California.

There will be a reiteration of the noise study by Wyle Laboratories and the air pollution study by Litton Environmental Systems, and a presentation on the environmental and aesthetic considerations in land planning by Cornell, Bridgers and Troller.

We consider this an extremely important meeting and your attendance will be appreciated.

Very truly yours,
