Berta González, Ed.D.
Interim Associate Vice President

International Programs

The university encourages global understanding through academic exchange and cooperation. Toward this end, the university is constantly broadening its base of partnerships with universities around the globe. Many institutions in more than 20 countries offer Fresno faculty, staff, or students opportunities for teaching, research, or study abroad, or they send their faculty, staff, or students to this campus.

A faculty advisory council works with International Programs to assist in these tasks.

For further details, refer to the Website at http://www.csufresno.edu/International_Programs.

Study Abroad for Students

Several programs allow students to complete part of their studies in other countries.

The university offers two “semester abroad” programs:

- The London Semester
- The South Pacific Semester

Fresno faculty lead short-term travel study programs to other countries each summer.

Through CSU International Programs and through the University Studies Abroad Consortium, students have a wide range of study abroad opportunities.

(See *International Programs* under the Special Programs section on pages 472-474.)

Faculty/Staff Opportunities

Partnerships with universities in other countries provide ways for campus faculty and staff to teach or pursue research abroad, attend international conferences, or offer special training overseas. Positions with study abroad offer enriching international experiences in programs such as Visiting Professors or Resident Directors, as well as in a variety of fellowship programs (Fulbright, Rotary, CSU International Programs, University Studies Abroad Consortium).

Visiting Scholars

Each year departments and colleges host visiting scholars from other countries who engage in research, offer lectures, and enrich the campus with their expertise. ❖
