Dear Tom and Venita,

I have attached a revised version of APM 215 (which describes the GE Program ePortfolio requirement) that eliminates the reference to MI and deletes the references to 16 courses or submissions. The only changes proposed are to remove all language that refers to MI or to the total number of courses/submissions required. Since these changes are a direct result of the elimination of the upper-division GE MI Area by the Chancellor's Office Executive Order, I believe that this item qualifies for the consent calendar. The attached document is the version of APM 215 discussed by Senate during the Fall 2018 semester and it is marked up using track changes so that the three proposed changes are in red. If you could please add this to the consent calendar for the Academic Senate, I would appreciate it. I understand that the Senate agenda is extremely busy and there may be a delay in scheduling this item. If possible I would like to attend the meeting where it is on the agenda and so if could notify me after it is scheduled, I appreciate it. If you have any questions, please let me know.

Melissa
