FOREWORD

Ventura County is proud of the new industries who have established themselves here during 1963. The wealth of any area is based on the number of industries it has and the goods which these industries can produce. All economic factors point to substantial industrial growth in Ventura County in the years ahead.

The Ventura County Board of Supervisors, together with the civic, business and agricultural leaders of the county, welcome industry and are working diligently to develop an economic climate favorable to business and industry.

The healthy growth of the Ventura County economy is evidenced by the increase in the number of industrial establishments and the number of employed persons during the past year. Statistics on Page "b" of this directory, show an increase during 1963 of 281 industrial establishments and 5,450 employees.

The general definition of the word "INDUSTRY" is, "any business which is operated for a profit". No attempt has been made to list all 4,451 firms in Ventura County. Listed in this directory are the principal firms in the following industries:

- 1- Agriculture: Production, Processing, Packing & Shipping
- 2- Mineral Production & Processing
- 3- Manufacturing
- 4- Selected Service Industries

Additional information concerning specific industries, industrial sites, or facts relating to the economy of Ventura County can be obtained by contacting:

Ventura County Economic Development Association
Fred M. Stewart, Executive Director
128 South California St., P.O. Box 909
Ventura, California 93002

Business Facilities

Banks	35
Savings & Loan Associations	8
Newspapers	12
Radio Stations	9
Chambers of Commerce	12

INDUSTRY IS COMING TO VENTURA COUNTY BECAUSE:

1. Ventura County has the nation's finest smog-free year-round climate...
2. Ventura County is an integral part of the nation's second largest market...
3. Ventura County has California's fastest growth rate -- 11.1% in 1963...
4. It has an assured future water supply as a part of the State Water Program and the Metropolitan Water District...
5. Ventura County's governmental, civic, business and agricultural leaders welcome industry and have developed a favorable business climate...
6. A workable land use plan is being developed with ample land set aside for industry...
7. Ventura County has an outstanding labor force with high manual and mechanical skills and excellent work habits...
8. The county tax rate of \$1.74 is one of California's lowest...
9. Ventura County has ample new housing at prices ranging from \$12,500 - \$40,000. More than 10,000 new dwelling units will be built in 1964...
10. It has unexcelled living conditions with fine new schools, modern shopping centers, uncongested suburban atmosphere, and beautiful scenery...
11. Ventura County has outstanding recreational facilities usable twelve months of the year -- including lakes, streams, parks, marinas, beaches, forests and golf courses...
12. It has a fine transportation system and is joined to the Southern California Metropolitan Area by new and expanding freeways...
