Call Jim

Dear Mayor Tolmach:

Please note the copy attached of mylet to Alan Cranston of 7/25/73 asking his support of the Fairchild Republic Company's A-10 Close Support Fighter. Also is a copy of a news story clarifying what its all about.

Many of our 300 personnel live in Oxnard, and 98% of the rest live in Ventura county. This Military work from the A-10 Airplane will help keep them busy for years to come. Or at least - from a reading of the scene at this point in time it would seem so.

I understand that you are a close supporter and friend of the Senator, and if you could favorably contact him in Washington, or his people in LA, in this matter of the interest of this company and our personnel in the welfare of the A-10, we will appreciate it.

Would you advise us of what you may be able to do for us in this matter so that I can bring it to the favorable attention of our people. Kindest regards, and thanks.

Sincerely,

Norman Nicholson
