Welcome

Thank you for visiting the 2018-2019 Cal State East Bay Catalog. This is the **final** version and **official** publication of the 2018-2019 catalog. The earlier versions (Beta & Gamma) had been published as works-in-progress so that current and potential students could plan for their programs under the new semester-based calendar. This catalog includes courses and policies approved and information provided on or before July 2, 2018.

Campus Map

Throughout the catalog, a map icon is used to display different types of maps. For example, if you click on this map icon it will take you to the Hayward Campus Map. Other map icons will take you to the maps referred to in that information page. For additional maps, see the University's Visitor Information and Maps website.

New University Policy

University Executive Directive 18-01 (Progress Toward Degree) becomes effective with this Catalog. Corresponding policy changes are incorporated herein.

Search Tools

Tips to help you quickly locate and track detail for programs and courses:

Use the **Catalog Search** box located at the top of the left navigation bar.

- Select the type of search using the drop down arrow.
 - Courses
 - Programs
 - Hierarchy Items
 - Other Content
 - Entire Catalog
- Enter a keyword in the "Search Catalog" box.
 - Using the Whole Word/Phrase is like adding the "quotes" to further hone your search.
 - Click on the magnifying glass to begin your search.
- Or use the Advanced Search link to broaden your search parameters, or to further narrow your course search utilizing the "Show Prefix List" link.

Catalog Icons

Degree Planner -
Print-friendly checklist
of degree
requirements.

Add to Folder - Add

for readable print.

Help - More
information on how to
use the catalog.

Changes on Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the chancellor or designee of the California State University, or by the president or designee of the campus. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office.

Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the chancellor of the California State University, or the president of the campus. The trustees, the chancellor, and the president are authorized by law to adopt, amend, or repeal rules and policies that apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the campus or the California State University. The relationship of students to the campus and the California State University is one governed by statute, rules, and policy adopted by the legislature, the trustees, the chancellor, the presidents and their duly authorized designees.

Suggestions

We are always seeking new ways to enhance and improve Cal State East Bay's catalog experience and we'd like to hear what you think about our efforts. Please send an email to our catalog editors with any suggestions or ideas you would like to share with us.

Welcome to the California State University (CSU)

Welcome to the California State University (CSU) - the nation's largest comprehensive higher education system with 23 unique campuses serving approximately 484,000 students with more than 50,800 faculty and staff.

Each year, the university awards more than 120,000 degrees. CSU graduates are serving as leaders in the industries that drive California's economy, including business, agriculture, entertainment, engineering, teaching, hospitality and healthcare. Learn more at www.calstate.edu.

A Tradition of Excellence for More than Five Decades

Since 1961, the CSU has provided an affordable, accessible, and high-quality education to more than 3.4 million graduates throughout California. While each campus is unique based on its curricular specialties, location and campus culture, every CSU is distinguished for the quality of its educational programs. All campuses are fully accredited, provide a high-quality broad liberal educational program and offer opportunities for students to engage in campus life through the Associated Students, Inc., clubs and service learning. Through leading-edge programs, superior teaching and extensive workforce training opportunities, CSU students graduate with the critical thinking skills, industry knowledge and hands-on experience necessary for employment and career advancement.

CSU Facts

- In 2015-16, the CSU received \$579 million in research and education grants and contracts by federal, state, and regional agencies.
- Today, one of every 20 Americans with a college degree is a CSU graduate.
- 1 in every 10 employees in California is a CSU alumnus.
- The CSU awards 45 percent of the bachelor's degrees earned in California.
- More than half of all the nurses in the state earn their degrees from the CSU.
- The CSU awards 95 percent of the hospitality/tourism degrees in the state.
- Nearly half of all of the state's engineers earn their degrees from the CSU.
- The CSU is the leading provider of teacher preparation programs in the state.
- The CSU offers more than 124 fully online and 91 hybrid degree programs and concentrations.

- The CSU offers OVER 3,800 online courses per term providing more educational options to students who may prefer an online format to a traditional classroom setting.
- The CSU's online concurrent enrollment program gives students the ability to enroll in courses offered by other campuses in the CSU.
- Over the past four years, the CSU has issued nearly 50,000 professional development certificates in education, health services, business and technology, leisure and hospitality, manufacturing, international trade, and many other industries.
- Nearly half of the CSU's 484,000 students are engaged in some type of community service, totaling 32 million hours of service annually.
- More than 13,000 students participate in STEM (science, technology, engineering, and mathematics) service-learning courses.
- For every \$1 that the state invests in the CSU, the university generates \$5.43 for California's economy.

CSU Historical Milestones

The individual California State Colleges were established as a system with a Board of Trustees and a Chancellor in 1960 by the Donahoe Higher Education Act. In 1972, the system was designated as the California State University and Colleges, and in 1982 the system became the California State University. Today, the CSU is comprised of 23 campuses, including comprehensive and polytechnic universities and, since July 1995, the California Maritime Academy, a specialized campus.

The oldest campus-San José State University-was founded in 1857 and became the first institution of public higher education in California. The newest-CSU Channel Islands-opened in fall 2002, with freshmen arriving in fall 2003.

In 1963, the Academic Senate CSU was established to act as the official voice of CSU faculty in systemwide matters. Also, the California State College Student Presidents Association-which was later renamed the California State Student Association-was founded to represent each campus student association on issues affecting students.

Through its many decades of service, the CSU has continued to adapt to address societal changes, student needs and workforce trends. While the CSU's core mission has always focused on providing high-quality, affordable bachelor's and master's degree programs, over time the university has added a wide range of services and programs to support student success - from adding health centers and special programs for veterans to building student residential facilities to provide a comprehensive educational experience.

To improve degree completion and accommodate students working full- or part-time, the educational paradigm was expanded to give students the ability to complete upper-division and graduate requirements through part-time, late afternoon, and evening study. The university also expanded its programs to include a variety of teaching and school service credential programs, specially designed for working professionals.

The CSU marked another significant educational milestone when it broadened its degree offerings to include doctoral degrees. The CSU independently offers Doctor of Education (Ed.D.), Doctor of Physical Therapy (DPT), Doctor of Audiology (AuD) and Doctor of Nursing Practice (DNP) degree programs. A

limited number of other doctoral degrees are offered jointly with the University of California and private institutions in California.

In 2010, in an effort to accommodate community college transfer students, the CSU, in concert with the California Community Colleges (CCC), launched the Associate Degree for Transfer (ADT), which guarantees CCC transfer students with an ADT admission to the CSU with junior status.

Always adapting to changes in technology and societal trends to support student learning and degree completion, the CSU achieved another milestone in 2013, when it launched Cal State Online, a systemwide collection of services that support the delivery of fully online programs from campuses. Now, full-time students have access to fully online courses offered at other CSU campuses.

By providing an accessible, hands-on education that prepares graduates for career success, the CSU has created a network of alumni that is so extensive and renowned that it spans across the globe. As of 2016-17, more than 3.4 million CSU alumni are making a difference in the lives of the people of California and the world.

The CSU strives to continually develop innovative programs, services and opportunities that will give students the tools they need to meet their full potential. In 2016, the university launched Graduation Initiative 2025, a bold plan to support students, increase the number of California's graduates earning high-quality degrees and eliminate achievement and equity gaps for all students. Through this initiative, the CSU is ensuring that all students have the opportunity to graduate according to their personal goals, positively impacting their lives, families and communities. The CSU is committed to providing a quality higher education that prepare students to become leaders in the changing workforce.

The California State University International Programs

Developing intercultural communication skills and international understanding among its students is a vital mission of The California State University (CSU). Since its inception in 1963, the CSU International Programs (CSU IP) has contributed to this effort by providing qualified students an affordable opportunity to continue their studies abroad for a full academic year. More than 20,000 CSU students have taken advantage of this unique study option.

International Programs participants earn resident academic credit at their CSU campuses while they pursue full-time study at a host university or study center abroad. CSU IP serves the needs of students in more than 100 designated academic majors. Affiliated with more than 50 recognized universities and institutions of higher education in 18 countries, CSU IP also offers a wide selection of study abroad destinations and learning environments.

Australia - Griffith University, Macquarie University, Queensland University of Technology, University of Queensland, Western Sydney University

Canada - Concordia University

Chile - Pontificia Universidad Católica de Chile

China - Peking University (Beijing)

Denmark - Danish Institute for Study Abroad

France - Institut Catholique de Paris, Institut Supérieur d'Electronique de Paris, Université d'Aix-Marseille (Aix-en-Provence), Université de Cergy-Pontoise, Universités de Paris I, III, IV, VI, VII, VIII, X, XI, XII, XIII, Université Paris-Est Marne-la-Vallée, Université d'Evry Val d'Essonne, Université de Versailles Saint-Quentin-en-Yvelines

Germany - University of Tübingen and a number of institutions of higher education in the Federal state of Baden-Württemberg

Ghana - University of Ghana

Israel - University of Haifa

Italy - CSU Florence Study Center, Accademia di Belle Arti Firenze

Japan - Waseda University, University of Tsukuba

Mexico - Instituto Tecnológico y de Estudios Superiores de Monterrey, Campus Querétaro

South Africa - Nelson Mandela Metropolitan University

South Korea - Yonsei University

Spain - Universidad Complutense de Madrid, Universidad de Granada, Universidad de Jaén

Sweden - Uppsala University

Taiwan - National Taiwan University

United Kingdom - University of Bradford, University of Bristol, University of Hull, Kingston University, Swansea University

Students participating in CSU IP pay CSU tuition and program fees, and are responsible for airfare, accommodations, meals and other personal expenses. Financial aid, with the exception of Federal Work-Study, is available to qualified students and limited scholarship opportunities are also available. All programs require students to maintain good academic and disciplinary standing many programs are open to sophomores or graduate students. California Community College transfer students are eligible to apply (to select programs) directly from their community colleges. Students must possess a current cumulative grade point average of 2.75 or 3.0, depending on the program, and must fulfill all coursework prerequisites. Additional program information and application instructions can be found on our website at www.calstatele.edu/ip.

Governance

The system is governed by the Board of Trustees, most of whom are appointed by the governor and serve with faculty and student representatives. The CSU Chancellor is the chief executive officer, reporting to the Board. The campus presidents serve as the campus-level chief executive officers. The Trustees, Chancellor and presidents develop systemwide educational policy. The presidents, in consultation with the Academic Senate CSU and other campus stakeholder groups, render and implement local policy decisions.

President's Message

As president of Cal State East Bay, I am pleased to welcome you to our vibrant and exciting university. Whether you are taking courses on campus or online, you will find our faculty and staff to be dedicated to your success. Cal State East Bay gives you a choice of learning communities, convenient locations, and academic programs, each designed to meet your needs. Take advantage of the unique experiences we offer, such as opportunities to conduct research with faculty, engage in service learning and pursue artistic and creative efforts.

The catalog is your official guide to our academic programs and contains important information about university policies and procedures. Explore your program of interest among the 80 bachelor's and master's degrees and 30 credential and certificate programs offered. If you are considering an educational doctorate, we offer a program in Leadership for Social Justice, designed for leaders planning to transform the world of education. Our campuses are located in Hayward and Concord and we house a professional development center in downtown Oakland.

In August, we begin semester courses on our campus. The change will align our calendar with other CSU campuses, community colleges and more than 90% of colleges and universities nationwide. The four year process of adapting to the semester calendar allowed us to examine the curriculum in its entirety and transform our programs to ensure we are preparing you for meaningful lifework.

Welcome to Cal State East Bay and Go Pioneers!

Leroy M. Morishita

California State University, East Bay

Cal State East Bay is a comprehensive four-year institution that enrolls more than 15,000 students and offers undergraduate and graduate programs in a wide range of disciplines. Its spacious 342-acre

Hayward campus, situated in the rolling hills above San Francisco Bay, offers students and visitors panoramic views of the bay and bridges, as well as the vibrant cities and open space that surround the campus. With its wide expanses of lawns, tree-lined walkways, fountains, and beds of native California plants, the campus is one of the most beautiful in the CSU system. The University is recognized as a "Best in the West" college and a Best Business School by the *Princeton Review* and as a "top-tier" masters-granting university by *U.S. News & World Report* in its "America's Best Colleges" guide.

University Mission, Shared Strategic Commitments, and Institutional Learning Outcomes

Cal State East Bay takes pride in its eight Shared Strategic Commitments, which express the University's values and aspirations:

1. Reinforce academic quality through open-minded inquiry, innovative teaching, engaged learning, and distinguished scholarship.
2. Enhance our inclusive campus, responding to the backgrounds and interests of our diverse community and promoting their academic, professional and personal development.
3. Serve students first, by expanding access and enhancing each student's educational experience and prospects for success as a graduate and life-long learner.
4. Foster a vibrant community through enriched student services and student life that support student engagement and learning.
5. Contribute to a sustainable planet through our academic programs, university operations, and individual behavior.
6. Continuously improve our efficiency, transparency, and accountability while practicing mutual respect, responsiveness, and collaboration across the University.
7. Support the civic, cultural, and economic life of all communities in the regions we serve through partnerships that promote education and social responsibility.
8. Demonstrate our continuing record of leadership and innovation in higher education, focused on 21st century skills, including science, technology, engineering, and mathematics (STEM).

Institutional Learning Outcomes

Using competencies developed through general education, their scholarly disciplines and co-curricular activities, graduates of CSUEB will be able to achieve the following outcomes:

- *Thinking and Reasoning*
 - Think critically and creatively and apply analytical and quantitative reasoning to address complex challenges and everyday problems.
- *Communication*
 - Communicate ideas, perspectives, and values clearly and persuasively while listening openly to others.
- *Diversity*
 - Apply knowledge of diversity and multicultural competencies to promote equity and social justice in our communities.
- *Collaboration*

- Work collaboratively and respectfully as members and leaders of diverse teams and communities.
- *Sustainability*
 - Act responsibly and sustainably at local, national, and global levels.
- *Specialized Education*
 - Demonstrate expertise and integration of ideas, methods, theory and practice in a specialized discipline of study.

University Accreditation

Cal State East Bay is accredited by the Western Association of Schools and Colleges Senior College and University Commission (WASCUC), 985 Atlantic Avenue, Suite 100, Alameda, CA 94501; phone: (510) 748-9001. The Commission is an institutional accrediting agency recognized by the U.S. Department of Education and is periodically reviewed by the Council for Higher Education Accreditation (CHEA).

- The B.A. and M.A. in Music are accredited by the National Association of Schools of Music.
- The master's program in Speech-Language Pathology is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard #310, Rockville, Maryland 20850, (800) 498-2071 or (301) 296-5700.
- The undergraduate and graduate programs in the College of Business and Economics are accredited by the Association to Advance Collegiate Schools of Business (AACSB International).
- All of the University's programs for teaching and services credentials are approved by the California State Commission for Teacher Credentialing.
- The School Psychology credential program has received full approval from the National Association of School Psychologists.
- The B.S. in Chemistry is approved by the American Chemical Society.
- The B.S. in Nursing is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, NW, Suite 530, Washington, DC 20036, (202) 887-6791 and the California State Board of Registered Nursing.
- The B.S. in Industrial Engineering and the B.S. in Computer Engineering are accredited by the Engineering Accreditation Commission of ABET, <http://www.abet.org>.
- The Master of Social Work is accredited by the Council on Social Work Education.
- The Continuing Education certificate program in Paralegal Studies is approved by the American Bar Association (ABA).
- The Continuing Education certificate program in Chemical Dependency is accredited by the California Association of Alcoholism and Drug Abuse Counselors (CAADAC).
- The Continuing Education certificate program in Human Resource Management is approved by the Human Resource Certification Institute (HRCI) for recertification hours.
- The Continuing Education certificate program in Project Management is approved by the Project Management Institute (PMI).

Institutional Assistance Information

Financial Assistance Information

Information regarding Financial Aid is available from the Enrollment Information Center in the first floor lobby of the Student Services and Administration building, or at (510) 885-2784.

Information regarding Financial Services is available the Student Financial Services Manager, Flo Olney, at (510) 885-3767.

Students with Disabilities Information

Information regarding special facilities and services available to students with disabilities may be obtained from: <http://www.csueastbay.edu/af/departments/as/>

Title IX Information

Information concerning Cal State East Bay policies, procedures, and facilities for students and other to report criminal actions or other emergencies occurring on campus may be obtained from: CSUEB Title IX Coordinator; Terri Labeaux, Risk Management and Internal Control, (510) 885-4918.

Campus Security Information

Information concerning Cal State East Bay annual campus security report and annual fire safety report may be obtained from: <http://www.csueastbay.edu/af/departments/upd/>

Drug & Alcohol Prevention Information

Information concerning the prevention of drug and alcohol abuse and rehabilitation programs may be obtained from: <http://www.csueastbay.edu/students/campus-life/shcs/atod/>

Student Retention Information

Information regarding student retention and graduation rates at Cal State East Bay and, if available, the number and percentage of students completing the program in which the student is enrolled or has expressed interest may be obtained from: <http://www.csueastbay.edu/ir/>

Athletic Opportunities Information

Information concerning athletic opportunities available to male and female students and the financial resources and personnel that Cal State East Bay dedicates to its men's and women's teams may be obtained from: <http://www.eastbaypioneers.com/staff.aspx>

Teacher Preparation Information

Information concerning teacher preparation programs at Cal State East Bay, including the pass rate on teacher certification examinations, may be obtained from: <http://www.csueastbay.edu/stemed/teacher-prep/requirements/credential/>

Student Grievance Information

Information concerning grievance procedures for students who feel aggrieved in their relationships with the University, its policies, practices and procedures, or its faculty and staff may be obtained from: James Carroll, Director of Student Conduct, Rights and Responsibilities, (510) 885-3763, <http://www.csueastbay.edu/studentconduct/>.

Student Activities Information

Information concerning student activities that Cal State East Bay provides, is accessible on: <http://www.csueastbay.edu/prospective/campus-life/>

Diversity Information

Information concerning student body diversity at Cal State East Bay, including the percentage of enrolled, full-time students who are (1) male, (2) female, (3) Pell Grant recipients, and (4) self-identified members of a specific racial or ethnic group, may be obtained from: Student Affairs, (510) 885-3646 (studentaffairs@csueastbay.edu)

Note: See also the Fees & Financial Services and the Military & Veterans Information & Services chapters in this catalog for more information.

Assessment for Continuous Improvement

Cal State East Bay is committed to continuous improvement. Students, faculty and staff are asked to participate in learning assessments at the course, program, and university levels. The information used for assessment includes individual student work (assignments, essays, exams, projects, etc.), in addition to surveys and other indirect methods.

In order to assess the overall educational effectiveness of programs and the University, student work at Cal State East Bay is used on an aggregated basis to provide information for program improvement, as well as to demonstrate accountability to various stakeholders, including our students, the general public, and our accrediting agencies.

Students at Cal State East Bay should expect that their academic work may be used for assessment purposes.

Semester System

Beginning in the 2018-2019 academic year, Cal State East Bay began operating on the semester system. Each semester (fall, spring) is approximately 15 weeks in length (15 weeks of instruction, plus 1 week of final exams). Enrollment in a semester after admission to the University constitutes matriculation, including enrollment in all Special Session courses. (Special Session courses are groups of self-support courses which have been approved to confer residence credit, with the exception of Open University courses.) Enrollment in Open University courses, as well as in Continuing Education courses, does not constitute matriculation.

One (1) semester unit is equivalent to one and one-half (1 1/2) quarter units of credit. One (1) quarter unit is equivalent to two-thirds (2/3) of a semester unit.

Bay Area Points-of-Interest

In addition to its own facilities, activities, and intramural sports, Cal State East Bay's campuses are close to San Francisco and other Bay Area cities that provide unique cultural opportunities including museums, libraries, art galleries, aquariums, planetariums, theater, sports events, and concerts.

Hiking trails are near both campuses. The extensive Garin and Dry Creek-Pioneer East Bay Regional Parks are located immediately southeast of the Hayward campus. Beautiful Mt. Diablo and the Lime Ridge open space are adjacent to the Concord campus. In addition, proximity to the Pacific Ocean and Sierra Nevada mountains offers recreational diversion as well as excellent laboratories for educational studies.

The main Hayward Campus location is nearby these exciting points-of-interest:

- San Francisco Bay--campus overlooks the Bay and region from the East Bay hills
- Pacific Coast--45 minutes west
- San Francisco, Berkeley, Oakland, Walnut Creek, and Concord--30 to 45 minutes northeast and northwest via BART (Bay Area Rapid Transit) trains and freeways
- Lake Tahoe and Yosemite Valley--four hours northeast and east
- Napa and Sonoma Valleys--one hour north
- Sacramento, the state capital--one and one-half hours northeast
- Santa Cruz beaches and Monterey Peninsula--two hours south
- San Jose and the Silicon Valley--30 to 45 minutes south via freeways

Bay Area's Regional Transit (BART)

Since the humble beginning of a rapid transit idea in 1946, San Francisco Bay Area Rapid Transit Commission, comprised of representatives from each of the nine counties which touch the Bay determined that any transportation plan must be coordinated with the area's total plan for future development. Since no development plan existed, the Commission prepared one itself. The result of their thoroughness is a master plan which did much to bring about coordinated planning in the Bay Area, and which was adopted a decade later by the Association of Bay Area Governments (ABAG). The Commission's least-cost solution to traffic tie-ups was to recommend forming a five-county rapid transit district, whose mandate would be to build and operate a high-speed rapid rail network linking major commercial centers with suburban sub-centers. For further information, use the BART website: <https://www.bart.gov/>

C.E. Smith Museum of Anthropology

The Clarence E. Smith Museum of Anthropology was established in 1974 and opened its exhibition gallery in 1979. Chartered as a teaching museum for the instruction of museology in an anthropological context, the Museum is named in honor of the late Professor Clarence Smith of the Department of Anthropology. The Museum strives to demonstrate human diversity and the range of human achievement throughout the world with both traditional cultural forms and their contemporary expressions and influences. Recognizing the value of material culture, exhibits use art and artifacts to illustrate all aspects of human culture from around the world, features of culture change, and technological as well as biological evolution.

The exhibition galleries of the Museum are located in the southeast corner of the fourth floor of Meiklejohn Hall on the Hayward Hills campus. They are open to the public during exhibitions, Monday through Friday, and by appointment. Admission to the galleries is free. Access to the collections is limited to qualified professionals and students whose scholarly research requires direct examination of the Museum's holdings. Consult with the Museum's Assistant Director for a current list of artifacts held. The staff and director's office is located on the fourth floor (MI 4038) of Meiklejohn Hall. Consultations are given by appointment. For information on exhibits and appointments, call the Museum at (510) 885-3104 or (510) 885-3168, Monday through Friday, 8:00 a.m. to 5:00 p.m.

Campus Art Galleries & Cultural Activities

The Hayward Hills campus enjoys two exhibition spaces which make it possible to mount shows of varying size and significance.

The University Art Gallery

Located in AE 106, the Gallery, which commands 2,820 square feet of exhibition space, has one person shows, group shows and student shows in a variety of media. An adjoining courtyard is available to display outdoor sculpture. Admission to the University Art Gallery is free.

The Student Gallery

Located in AE 274, the Student Gallery is a more intimate space. Throughout the year, students present their works for short exhibitions. The days and hours of these shows vary and are also free.

Art, music, and theatre and dance engage, enrich and vitalize society, and are central of the educational mission of the University. They present a variety of exhibitions and performances throughout the year, showcasing the work of students and faculty, and sometimes staff and outside guests. Details are available from the departments, or at: <http://www.csueastbay.edu/arts>.

See Cal State East Bay's University Calendar for current events.

Intercollegiate Athletics, Instruction, Intramural, and Recreational Programs

Intercollegiate Athletics

Cal State East Bay sponsors intercollegiate athletic programs for both men and women through the Department of Athletics. The University is a member of the NCAA in Division II. Teams compete in the California Collegiate Athletic Association (CCAA). The sports offered include basketball, soccer, cross country, outdoor track and golf for men and women, plus men's baseball, women's softball, women's swimming, women's volleyball and women's water polo.

The California State University is committed to providing equal opportunities to men and women CSU students in all campus programs, including intercollegiate athletics. Information concerning athletic opportunities available to male and female students and the financial resources and personnel that Cal State East Bay dedicates to the men's and women's teams may be obtained from the Athletic Director, Department of Athletics, TR 900, (510) 885-3038.

Instructional, Intramural, and Recreational Programs

The University encourages students to participate in some form of physical activity. In addition to the program of intercollegiate athletics, opportunities exist for students to participate in instructional, intramural, and recreational programs. The Department of Kinesiology offers for credit instructional programs in sports, games, and exercise. The Department of Hospitality, Recreation and Tourism offers instructional programs in outdoor activities. Recreation and Wellness Services provide competitive, recreational, and fitness opportunities during fall and spring semesters through group exercise classes, intramural sports leagues, and personal training programs.

The University has two swimming pools, two racquetball courts, a martial arts facility, a basketball/multipurpose gymnasium, a dance studio, a soccer stadium, a track, a baseball diamond, a softball diamond, and a multipurpose practice field. Information regarding programs should be obtained from the Department of Kinesiology at (510) 885-3061. Groups interested in renting the facilities should see the Office of Facility Reservations and Rentals web site for more information. Student clubs or organizations interested in reserving facilities should contact the office of Student Life at (510) 885-3657.

Additionally, the Recreation and Wellness Center (RAW) offers the campus access to a 54,000 square foot facility which includes a 2-story fitness center, equipment rental desk, locker rooms with showers, the wellness center, and a 2-court gymnasium with an indoor track. Memberships are available to students, staff, faculty, alumni, & community members. Call the RAW at (510) 885-4749 for more information.

Pioneer Bookstore

The Pioneer Bookstore's mission is to support the educational endeavor of the University by offering access to course materials for classes, as well as merchandise and services for the convenience of the campus community. The Hayward campus store is located between the Library and the University Union. The Concord campus store is located in the Campus Union.

In addition to required course materials, the bookstore offers: CSUEB logo clothing and gifts, electronics, nursing supplies and scrubs, lab supplies, educationally-discounted computer software and hardware, computer supplies, school and office supplies, testing materials and study guides, general books, art supplies, Peet's coffee, fresh sandwiches and salads, microwave meals, and other snacks. The Hayward store also has a full-service Bank of America ATM.

All course materials and selected merchandise and services can be ordered online for delivery to a student's address at a fee, or for campus pickup at no additional charge. The website also posts current hours and general information. Hours and general information are also available at (510) 885-3507.

California State University, East Bay Foundation, Inc. is a non-profit auxiliary organization within the California State University system.

Having undergone a major reorganization at the end of 2012, the Foundation's main responsibilities include partnering with Follett to manage the Pioneer Bookstore and supporting the Office of Sponsored Research and Programs in its administration of grants received from federal, state and local governments and private foundations.

For over 50 years, the California State University, East Bay Foundation ("CSUEB Foundation") has been making a difference in the educational experience at California State University, East Bay and the overall campus environment. Its only goal is to support the University's educational mission and to provide quality services that complement Cal State East Bay's instructional programs. In the course of carrying out this mission, the Foundation enhances the University for thousands of faculty, staff, and students. The CSUEB Foundation is governed by a board of directors comprised of faculty, students, staff, administrators and community members. The Foundation is incorporated as a nonprofit public benefit corporation and is exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code.

Business and Economics Special Facilities

The College of Business and Economics has Student Success and Service Centers in the Valley Business & Technology Center, VBT 129 (510-885-3323) for undergraduate students and VBT 132 (510-885-2419) for graduate students, providing academic guidance for Business and Economics students. In addition, there are numerous student study commons located throughout the building.

The Acosta Gallery is used for hosting special events and when not in use serves as a gathering place for students.

Science Facilities

The College of Science includes many specialized teaching laboratories, shared and individual student/faculty research laboratories, and specialized computing facilities. Laboratory classes are limited in size depending on the discipline.

In an effort to foster interdisciplinary research opportunities for our faculty and students, the College recently opened a state-of-the-art Molecular Research and Environmental Analysis laboratory suite.

Some examples of the cutting edge equipment and instrumentation housed in the College are listed below. For more comprehensive lists, please visit the websites of individual departments and the School of Engineering.

- Geophysical equipment for exploring subsurface features, such as faults.
- Eddy's covariance tower for measuring greenhouse gases.
- Astrophysics and Particle Physics Computational Facility
- Laser spectroscopy and magnetometry experiments
- Materials science electrical and optical characterization labs
- Maker space/laboratory; including 3D printers, machine shop, etc.
- Nuclear magnetic resonance facility for characterization of chemical structures
- Instrumentation Lab for the separation and spectroscopic analysis of elements and molecules
- Molecular Biology and Biochemistry Facility
- Nursing skills labs equipped with mannequins and equipment found in hospital settings
- Nursing computerized simulation labs with interactive, wireless mannequins with a variety of physiological outputs for practice in patient care
- Animal Care Facility, including insectary facility that allows for up to 3000 mosquitoes per week to be reared in a state-of-the-art humidity-, temperature-, and light-controlled chamber connected to a containment room for malaria parasite rearing and mosquito transmission studies under University and USDA approved ACL-2 conditions.
- Imaging resources including a Leica SP8 laser scanning confocal microscope equipped with a motorized stage and a maximum optical magnification of 630X and capable of imaging four distinct dyes simultaneously, two inverted compound microscopes capable of performing Differential Interference Contrast (DIC) and Phase and Fluorescence Microscopy, as well as a microinjection apparatus for creating transgenic animals.

Recreation and Wellness Center (RAW)

The Recreation and Wellness Center (RAW) offers comprehensive programs and services centered on promoting healthy lifestyle choices through dynamic and inclusive best-practice approaches.

Memberships are available to students, staff, faculty, alumni, and community members. Members obtain access to the 54,000 square foot facility which includes a 2-story fitness center, equipment rental counter, locker rooms with showers, the wellness center, a relaxation room, and a 2-court gymnasium with an indoor track. Services include fitness classes, personal training, intramural sports leagues, and open recreation hours. Designed to LEED (Leadership in Energy and Environmental Design) Gold standards, the RAW's facility design was recognized with a Facility of Merit Award from Athletic Business in 2011.

Within the RAW, wellness programs are offered to provide students with holistic approaches that integrate physical, psychological, emotional and social aspects of a student's health experience. Interactive workshops focus upon nutrition, fitness, sexual health, alcohol, other drugs, and self-care topics. Massage therapy is also available for currently registered students.

The RAW offers students internships and student assistant work positions to gain experience, student leadership, and professional development.

For more information about RAW facilities, programs, or services visit <http://www.csueastbay.edu/raw> or call (510) 885-4749 for more information.

The University Unions

The University Union is considered the "living room" for Cal State East Bay. The Union provides services, facilities, and programs to meet the various academic, social, recreational, and cultural needs of the students, faculty, staff, and community. It has become the center of life and friendship for the Cal State East Bay community.

The University Union has a great deal to offer. Housed within the Union buildings are the Associated Students, Incorporated and Student Government Offices; Customer Service and Reservation center; Student Life and Leadership Programs office; The Diversity and Inclusion Student Center; Aramark Dining office; US Bank; a PHiL Station; an ATM machine; food services; recreational facilities; game rooms; and lounge areas. With conveniently located televisions, the Union is the ideal location for catching up on current events, watching a major sporting event, or enjoying music videos in a relaxing atmosphere.

Conference spaces are also available for use by student organizations, academic and administrative departments, CSU East Bay affiliated groups, and off campus groups. The University Union provides an ideal setting for club and organization meetings, lectures, receptions, banquets, and special events.

- **Reservation Procedures**

- All groups may request to make reservations using the Online Form or access within 25Live.
- Events occurring outside of normal business hours are subject to a fee. No organization or department may reserve space on behalf of another group. Groups may not sell, sublease, or transfer their reservation to another group. In order to avoid operating and personnel charges, reservations should be scheduled during standard hours of operation.
- All groups receive the following complimentary services at no charge:
 - **Room Rental** - standard set-up
 - **Tables** - Based on reservation request/availability
 - **Chairs** - Based on reservation request/availability
 - **Technology** (laptop, projector, screen, BaySync Card Reader) - Based on reservation request/availability
 - **Other Supplies** (easel, whiteboard, chalkboard, post it paper) - Based on reservation request/availability

- **Note:** Catering related items such as table skirts must be ordered through the Catering office. Skirts are not provided for tables unless food is part of the reservation. There may be an additional cost associated.
- Organizations that have access to the University Union facilities include University-recognized student organizations, academic and administrative departments, Cal State East Bay-affiliated groups, and off-campus groups.
- All recognized Cal State East Bay student organizations must make reservations through the Student Life and Leadership Programs (SLLP) Office. SLLP will submit reservation requests and confirm the space with the student group. Academic/administrative/service departments can make reservations directly with the University Union Reservation Desk. The Union facilities shall not be used for regular academic classes. Deviation from this policy requires approval from the Director, University Union.
- Groups not directly affiliated with the university should make reservations directly with the University Union Reservations Desk and will be required to pay all charges and fees associated with their planned event prior to the event.
- **Room Rental Fees**
 - Rental fees will be levied according to the University Union room rental fee structure. If special services (i.e., technical support, special equipment such as dance floor) are requested, the University Union will levy the charge appropriate for the service requested. Set-up fees may be assessed for use of the University Union when the sponsor requires set-ups beyond those normally provided.
- **A-V Equipment**
 - Audio-visual equipment is available upon request at the time of reservation. LCD projectors, screens, P.A. systems, and laptops are available.
- **Cancellations**
 - Groups wishing to cancel their reservation, must do so at least 48 hours prior to the start of their event. If this cancellation policy is not followed, groups are subject to the cancellation fee (based on group type). The fee structure can be found on the University Union website (rate sheet). Early cancellations enables the Union to meet the growing demand for space and prevents our staff from having to set up tables/chair/equipment if they are not needed. Organizations are encouraged to make reservations as early as possible. Groups that frequently violate the cancellation policy will not have the opportunity to continue reserving space for the duration of the current semester.
- **Banners/Posters**
 - Recognized Student Organizations, Associated Students, and University departments may place banners announcing events on designated spaces of the University Union patio railing. Organizations must fill out the UU Banner Display Request Form and be officially approved. Organizations must follow the process as published on the form.

Title 5, California Administrative Code, Subchapter 5, Article 9, Sections 42350-42353 specifies certain restrictions on the posting and distribution of printed materials on campuses of the California State University. Campus Presidents and/or designees are granted authority for implementing and for issuing directives pertaining to such regulations. The policy for posting can be found at: Posting Policy.

Please visit the University Union webpage for more/updated information.

The Hayward (Main) Campus

Our outstanding instructional facilities include over 150 classrooms and teaching laboratories and over 200 specialized instruction rooms. Discipline-specific computer labs and general access labs with PCs and Apple computers are available for student use. The University Library, with its rich collections and online catalog, features individual and group study areas, as well as an innovative Learning Commons offering expert information technology support, access to extensive information resources, library reference services, and information literacy instruction.

Food services, lounges, and meeting rooms are available through the University Union, a popular student gathering place. It also offers specialized services such as a bank and an automatic teller machine. The University Union includes retail food outlets, and space for growing student social and academic activities. The Student Recreation and Wellness Center (RAW) houses a gymnasium, an elevated running track, two fitness centers and two multi-purpose exercise studios, locker rooms, and associated support space to promote nutrition, health and wellness.

Other campus facilities include a 500-seat theater, a television studio, a bookstore, a student health center, a 100,000 square foot student services and administration building, and a 67,000 square foot student and faculty support center. Pioneer Heights, the University's on-campus student apartment complex, offers housing for more than 1,300 residents, as well as a full service Dining Commons.

The Hayward campus recreational facilities include a 20,000 square foot main gymnasium, a dance studio, swimming pools, racquetball courts, tennis courts, volleyball courts, several playing fields, and a par course. The 54,000 square foot Student Recreation and Wellness Center, funded by student fees, opened in 2010, with a multi-court gym for basketball, volleyball, or badminton; an elevated running track; two fitness centers with free weights and machines; multipurpose fitness and activity rooms for aerobics, martial arts and dancing; support space to promote nutrition, health and wellness; locker rooms; and a juice bar in the lobby.

Click the icon for a map of the Hayward Campus

The Concord Campus

The Concord Campus is a branch campus of Cal State East Bay located at 4700 Ygnacio Valley Road near Clayton, Walnut Creek, Pleasant Hill, Pittsburg, and Antioch. The campus is uniquely positioned to serve the educational needs of county residents.

The 386-acre campus includes over 300 acres of open space, community sports fields, and views of Mt. Diablo and the Sacramento Delta. In 2017, the Concord Campus celebrated 25 years of providing public higher education to students and professionals. Many residents benefit from Cal State East Bay's presence in the heart of Contra Costa County and enjoy the small class size and intimate educational experiences the Concord Campus provides.

Degree Programs

Functioning primarily as an upper-division and post baccalaureate campus in Contra Costa County, the Concord Campus offers quality educational programs taught by East Bay faculty. Academic degree and credential programs currently offered at the Concord Campus are:

Undergraduate Fields of Study

Note: See the Concord Campus website for the most current majors and programs available.

Undergraduate degree completion programs with at least upper division coursework that can be completed entirely at Concord include:

- Business
- Liberal Studies
- Nursing
- Psychology

Upper division courses for the following majors are also offered at the Concord Campus. Students may be required to take additional coursework online or at the Hayward Campus in order to complete their degree program:

- Criminal Justice
- Health Sciences
- Human Development
- Sociology

Graduate Fields of Study

- Masters in Educational Leadership
Application and/or registration through either the Hayward or Concord Campus qualifies a student to enroll in courses at both sites. Academic expectations and standards, as well as University policies, are the same at both locations.
- Masters in Early Childhood Education
Application and/or registration through either the Hayward or Concord Campus qualifies a student to enroll in courses at both sites. Academic expectations and standards, as well as University policies, are the same at both locations.

Credentials

- Multiple Subject Teaching Credential
- Single Subject Teaching Credential

Certificate Program

- Paralegal Program Certificate

Post Baccalaureate Program

- Pre-Professional Health Academic Program

Services and Facilities

The Concord Campus promotes student success through a variety of services. These include academic advising on General Education (GE) and graduation requirements, as well as administrative and instructional support services. Students are referred to their departments for major advising.

Instructional support services include advanced computer laboratories, modern smart classrooms, a branch of the University's Library, student collaboration room, on-site bookstore, outdoor fitness park, student lounge and a free shuttle service between the campus and the Concord BART station.

For assistance, or information on any of these services, call (925) 602-6700 or visit <http://www.csueastbay.edu/concord>

Click the icon for a map of the Concord Campus

The Oakland Center

Cal State East Bay's Oakland Center serves the community as a conference center and corporate training facility, and is home to many Continuing Education classes.

Cal State East Bay's Oakland Center specializes in programs for working adults and offers professional development and certificate courses, and further demonstrates the University's regional commitment.

University Police Department

Cal State East Bay enjoys low crime statistics due to an on-campus, professionally trained police department which delivers public safety services to the campus community. The University Police Department programs such as the Bicycle Patrol and Escort Service provide Cal State East Bay with a community-oriented form of police services, which allows for personal interaction between police personnel and members of the university community while providing an increased level of crime prevention patrol on campus grounds.

The department offers several on-going programs available to staff, faculty, and students on the following topics: alcohol and drug awareness, acquaintance rape and awareness, and self-protection for women. The department also distributes a wide variety of crime prevention materials and offers vehicle lockout, battery failure, fingerprinting, and lost and found assistance.

The following information may be obtained from the University Police Department, (510) 885-3791:

- Information concerning Cal State East Bay policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus.
- Information concerning Cal State East Bay's annual campus security report and annual fire safety report. This information is also available on the CSUEB website at <http://www.csueastbay.edu/af/departments/upd/annual-security-report.html>.

- Information concerning the prevention of drug and alcohol abuse.

For information about Emergency Contacts see the **Campus Contacts** + chapter.

Office of Prospective Student Services

The Office of Prospective Student Services (OPSS) offers a vast array of outreach and recruitment services to prospective high school and transfer students interested in attending Cal State East Bay, as well as for counselors and professionals who support prospective students' higher education goals. Services include campus tour programs, small and large scale admission and recruitment events for prospects, applicants, and admitted students and their families, pre-admission advising (both on-campus and in the community), attendance at college fairs, presentations, and serving the community at large to increase CSU and Cal State East Bay awareness and interest in the University.

For more information about the Office of Prospective Student Services (OPSS) call (510) 885-2556 or e-mail: admissioncounseling@csueastbay.edu. To schedule a campus tour or a pre-admission advising appointment, at the Hayward or Concord campus, go to www.csueastbay.edu/visit.

Student Housing and Residence Life

Student Housing and Residence Life (SHRL) Department, consistent with the mission of the University and the Division of Student Affairs, works to engage all residential students in their holistic development and academic success towards retention, graduation, and future endeavors. SHRL works to sustain this mission by providing student-centered programs, services, and facilities that foster a safe, inclusive, and vibrant residential learning community.

Students must be enrolled to live on campus. Student Housing and Residence Life has two complexes:

- Pioneer Heights, which offers apartments and suites.
- University Village, which offers apartments.

First-time freshmen meeting the established criteria are housed in the Pioneer Heights suite resident halls. Other students are housed in the Pioneer Heights and University Village apartments. All housing is based on a first-come, first-served basis.

The Housing application and contract process is completely online. Applicants are notified once the Housing Application and Contract is available, typically in early May. Housing has a limited number of spaces available so students should be sure to check the Student Housing website frequently to ensure they have the most updated information. It is important to note that the University's admission application is separate from the housing application and contracting process. Visit the Student Housing and Residence Life website to learn more about the application, contracting, and room selection process.

The Residence Life experience is part of a vibrant and growing; Residence Life strives to be intentional and student-centered. The staff works collaboratively with other members of the Cal State East Bay community to promote the following:

- Helping students build inclusive, socially just and interactive communities where every member feels a sense of belonging.

- Working to foster student growth in a manner that shapes character and develops independence.
- Encouraging students to explore their personal identity and embrace diversity as well as appreciate individuality.
- Promoting healthy communication, intellectual discourse and support students in achieving academic success.
- Helping students understand their roles, rights, and responsibilities as members of the Cal State East Bay community, and as citizens of our world.

Contact the Student Housing and Residence Life office at (510) 885-7444 or stop by in person. The Housing Office is located across the street from the Recreation and Wellness Center. Visit the Student Housing & Residence Life website to view hours of operations.

Pioneer Heights Complex

The Pioneer Heights apartments and suites are conveniently located on campus across the street from the Recreation and Wellness Center.

The apartments feature single (for upper-division students or students who are 21 or older), double, or triple bedroom accommodations, a full kitchen, living and dining area, and one or two bathrooms. The suites feature double and triple bedroom accommodations, a kitchenette with refrigerator and microwave oven, a living and dining area, and two bathrooms. High-speed Internet access is included as part of the rent. Study space, laundry rooms, and recreation rooms with television, air hockey, and pool tables, are among the amenities with the Recreation and Wellness Center conveniently located across the street. Outdoors are lighted basketball courts, as well as a barbecue terrace. Convenient meal plans are required for all students living on campus, making it easy to save time and great meeting place to share a meal with friends. View the Housing Brochure to learn more about the Pioneer Heights apartments and suites.

University Village Complex

The University Village apartment complex is located across the street from the Hayward Campus' north entrance.

The apartments feature a double or triple occupancy bedroom accommodations, a kitchenette, living area, and one or two bathrooms. The apartments are updated with modern cabinets, a stainless steel refrigerator, and a stainless steel convection microwave. High-speed Internet access and basic cable is included as part of the rent. Study space, laundry rooms, a community kitchen, and a community room with television, and a pool table are among the amenities. Convenient meal plans are required for all students living on campus making it easy to save time and great meeting place to share a meal with friends. View the Housing Brochure to learn more about the University Village apartments.

Off-Campus Housing

Identifying off-campus housing in the East Bay can be challenging and Housing offers a few resources to help students through the process. Please allow two to three months when searching for Off-Campus Housing. The Student Housing & Residence Life website provides assistance in the transition off campus and helps students understand their rights and responsibilities in the greater community. Students have to be motivated and actively looking when finding off-campus housing.

Student Health and Counseling Services

Student Health and Counseling Services (SHCS) provides quality health care by board certified, licensed, and credentialed health care providers and counselors to current, regularly enrolled Cal State East Bay students. SHCS' goal is to assist students in achieving and maintaining optimal health while pursuing their academic and career goals.

Student Health and Counseling Services hours of operations are Monday through Wednesday and Friday from 8:30 a.m. to 5:00 p.m., Thursdays from 10:00 a.m. to 5:00 p.m. Hours may vary during Summer term and semester breaks. Students can be seen on an appointment basis. Same day appointments are available for urgent needs. Limited services are also offered during semester breaks. Medical and counseling services are also available at the Concord Campus. After hours and weekend mental health phone crisis counseling is available by calling (510) 885-3735, and choosing option "2". For more information, please call (510) 885-3735 or visit www.csueastbay.edu/shcs.

Funded by student health fees, SHCS provides an extensive array of outpatient health and mental health care services at no or low cost to students. General medical visits with board-certified, licensed medical doctors, nurse practitioners, nurses, and medical assistants for the care, evaluation, and treatment of acute illnesses and injuries, health education, and family planning are available. SHCS also provides confidential individual, couples, and group counseling. All counselors are licensed or pre-licensed professionals.

Services offered at SHCS include:

General Health Services:		Reproductive Health Services*:
Health Education	Personal Counseling	Birth Control
Hearing Tests	Pharmacy*	HIV Testing
Immunizations*	Physical Exams	STI Testing & Treatment
Laboratory*	Physical Therapy	
Massage Therapy*	Psychiatry	
Orthopedics	Radiology (x-ray)*	
* Fees may apply		

To provide the holistic experience of college health, the Wellness Center also offers a Relaxation Room and a Wellness Room with health education activities and information. The Wellness Center is located in the Recreation and Wellness (RAW) Building. For more information visit www.csueastbay.edu/raw.

Confidentiality

All medical and counseling information is confidential by law and will not be released without the student's written consent.

Accreditation

SHCS is accredited by the Accreditation Association for Ambulatory Health Care, Inc. The SHCS facility and services meet the national standards for providing the highest quality of health care available.

Peer Advocates for Wellness (PAW)

PAW is an opportunity for CSUEB students to become involved with SHCS. Under the supervision of Health & Wellness Services, PAW interns are trained peer health educators who provide resource information, peer support, and outreach about health and wellness issues. For more information, email: paw.csueb@gmail.com.

Student Health Advisory Committee (SHAC)

SHAC advocates for the health needs of students and advises the SHCS Director and University President on programs, scope of services, and hours of operation for SHCS. For more information, email: shac.csueb@gmail.com.

Insurance

Students are strongly encouraged to carry outside coverage for after-hours care, emergency situations, or when referrals to outside providers are needed. For more information about insurance options, visit: www.coveredca.com, www.csuhealthlink.com, or email: csuebhealthinsurance@csueastbay.edu.

Cashiering

The Cashier's Office is responsible for the general cashiering function for the University. They distribute the payroll warrants for all employees and perform a collection function for emergency loans, returned checks, and housing rental payments. In addition, they sell parking permits, distribute emergency loan checks, and provide information to students, staff, and faculty on various issues. The Cashier's Office is located at SA 1200 on the first floor of the Student Services and Administration building on the Hayward Campus.

Greek Life

Cal State East Bay's Greek organizations include nationally affiliated organizations, as well as local and regional groups. Greek organizations promote scholarship, provide numerous leadership opportunities,

and participate in a wide variety of community service activities. Greek organizations also provide members with the opportunity to develop lifelong friendships that enhance the college experience. For more information, see their Facebook Page.

University Parking & Alternative Transportation Services

Parking facilities are available to students, faculty, staff, and guests displaying valid University parking permits. Permits may be purchased [online](#) each semester. Parking permits are required Monday-Thursday from 7am-11pm & Friday from 7am-5pm. Daily and hourly permits are also available and can be purchased at parking dispensers located in select lots around campus. See the campus map for locations of parking dispensers.

Alternative Transportation Services

Hayward Campus

The Hayward campus is a short distance from Interstate 880 and 580. The campus is conveniently located between three BART (Bay Area Rapid Transit) train stations. The University provides complimentary shuttle service from the Downtown Hayward BART station and the Castro Valley BART station. The current Hayward University shuttle schedule can be found [here](#).

AC Transit also provides service to the Hayward campus from the Downtown Hayward BART station. AC Transit runs Monday-Sunday. For the line #60 bus schedule and fare, please click [here](#).

The Alternative Transportation office also offers a Vanpool Program for CSUEB Faculty and Staff. Vanpools currently operate out of the Modesto, Manteca, Tracy, and Fairfield areas.

Zipcar is a car sharing program that CSUEB participates in. 6 Zipcars are currently available on the Hayward campus for students, faculty, and staff to rent by the hour or day. Gas and insurance are included as part of the hourly/daily rate.

Zimride is our new ride sharing program. Open to all students, faculty, and staff, Zimride allows individuals to create a profile and then matches them with other campus members who share the same ride schedule.

Zagster bicycles are part of a bike sharing program. Zagster bikes can be rented by the hour and are a great way to get around campus. There are currently 12 Zagster bikes available around campus to rent. The first three hours are free for every rental.

Concord Campus

The Concord Campus is located a few miles from the Concord, Pleasant Hill, and Walnut Creek BART train stations. A free student shuttle operates between the Concord campus and the Concord BART

station Monday-Thursday during instructional periods on campus. For the current Concord shuttle schedule, click [here](#).

Zimride is our new ride sharing program. Open to all students, faculty, and staff, Zimride allows individuals to create a profile and then matches them with other campus members who share the same schedule and profile.

For more information on Parking & Alternative Transportation, please visit their [website](#) or by phone at (510) 885-3790.

Moss Landing Marine Laboratories

Cal State East Bay is also part of a university consortium that operates the Moss Landing Marine Laboratories in Monterey Bay. In addition, the University runs a San Francisco Bay shore lab with marine and freshwater craft operating in the bay and Sacramento River delta.

Moss Landing Marine Laboratories (MLML) administers the Master of Science in Marine Science program for California State Universities in northern and central California, and is dedicated to the pursuit of excellence in both education and research. An outfitted marine operations department, active research diving program, and state of the art equipment allow for cutting edge research in a wide variety of disciplines including: marine ecology; the biology of marine plants, invertebrates, fishes, turtles, birds, and mammals; oceanography and marine geology; and chemistry and biogeochemistry. MLML is known for a hands-on, field-oriented approach which places students at the frontiers of marine science worldwide where discoveries are being made. MLML provides the skills and training so students become successful scientists, teachers, and resource managers serving societal needs involving marine issues.

The lab is situated in an excellent location for the study of the marine world. The Monterey Submarine Canyon, the largest such feature on the west coast of North America, begins within a few hundred meters of the Moss Landing harbor and the MLML research fleet. To the east of MLML is the Elkhorn Slough, the largest tract of tidal salt marsh in California outside of San Francisco Bay, and an important site for shorebirds and fishes. To the north and south are sand dunes, sandy beaches, and extensive kelp forest habitats along the rocky shoreline. Some of the most productive kelp forests and intertidal areas can be found in this region. MLML also is located between two large upwelling centers, which provide nutrients that stimulate an incredible amount of productivity but also provide a wealth of opportunities to study coastal oceanic processes.

Full-time course offerings are available for resident credit and the facilities are used to supplement courses taught on the Hayward Hills campus. The laboratories are located 82 miles south of Hayward on Monterey Bay, and some classes are taught in Salinas. Contact the Department of Biological Sciences for further details and for courses offered at Moss Landing, as well as information on the M.S. program in Marine Science.

University Extension

General Information

Information on courses, programs, and enrollment procedures is available through Continuing Education's course schedule each semester on the University website at www.ce.csueastbay.edu, by phone (510-885-3605), and by e-mail ce@csueastbay.edu.

Continuing Education

Continuing Education (CE) at Cal State East Bay features a broad spectrum of degree and certificate programs, as well as individual courses that complement the University's regular curriculum, and meet the academic, professional, creative, and lifelong learning goals of its diverse community.

CE designs programs and courses to fulfill the needs of current job market trends, enhance professional development, and promote personal enrichment. Offering more than 40 degree and certificate programs in a variety of industries and fields, CE allows students to explore career options and pursue opportunities for advancement.

Students may take one or more individual courses, enroll in a degree or certificate program, or attend a seminar or conference. In some cases, academic credit is awarded; while in others, Continuing Education Units (CEUs) are available. In programs designed specifically for personal enrichment, no academic credit is awarded.

American Language Program

The University's American Language Program provides instruction for international students in academic English and introduces them to American culture. Each year, students from more than 25 countries enroll in the program. After graduating from the American Language Program, international students often enroll as matriculated students in the University.

Open University Concurrent Enrollment

The "Open University" program allows individuals to enroll in regular University classes without being formally admitted to the University. Regularly enrolled students are not eligible to take Open University courses. A student enrolled in Open University may:

- Examine a field of study before committing to a degree program
- Update job skills or obtain professional training
- Attend classes on a non-continuous basis
- Raise their grade point average prior to application
- Enroll in classes if they've missed the Cal State East Bay application deadline

Open University students will be granted "Open University" extension credit for coursework. There are limits on the number of Open University extension units that may be applied toward University degrees. Up to 24 units may be applied towards a baccalaureate degree and up to 9 units for a master's degree.

Most courses taught by regular Cal State East Bay faculty are available to students through Open University. To enroll in an Open University course, applicants must complete an online Open University application form each term they wish to attend. The application deadline is the eighth instructional day of the term. Go to <https://www.ce.csueastbay.edu/ce/programs/open-university/> to apply online and view application deadlines. Late applications will not be accepted.

Restrictions

Continuing Education registration, in most courses or programs, does not require formal admission to the University. For some programs, however, students may be required to meet certain requirements prior to being eligible to register. Only registration in self-support Special Session classes provides "continuing student" status to admitted, matriculated students.

Glossary of Terms & Definitions

glossary

[glos-uh-ree, glaw-suh-]

noun, plural glossaries.

1. a list of terms in a special subject, field, or area of usage, with accompanying definitions.

- Academic Dishonesty
- Academic Grading Symbols (Undergraduate)
- Academic Grading Symbols (Graduate)
- Academic (Latin) Honors
- Articulation
- Administrative Grading Symbols
- Advancement to Candidacy
- Auditing Courses
- Baccalaureate Degree
- Capstone Experience
- Catalog Rights
- Certificate Programs
- Concentration
- Cooperative Education
- Co-requisite
- Course Numbers
- Credit Equivalency
- Credit Hour/Unit Value
- Cross-listed Courses
- Doctoral Degree
- Drop vs. Withdrawal
- Dual-listed Courses
- Foundation, Inc.
- Free Electives
- Grade Forgiveness
- Grade Point Average (GPA)
- Graduate Student
- Independent Study Course
- Individual Study Course
- Leave of Absence
- Major
- Master's Degree
- Matriculated Student
- Methods of Instruction
- Minor
- Multiple Majors
- MyCSUEB
- Non-catalog Courses
- Open University
- Overlays
- Post-Baccalaureate
- Prefixes
- Prerequisites
- Special Registration Petitions
- Title IX Definitions
- Undergraduate Status: Class Standing
- Undergraduate Status: Full or Part-time
- University Extension

Academic Dishonesty

Academic Dishonesty includes, but is not limited to:

- **cheating**, which includes possessing unauthorized sources of information during examinations, copying the work of others, permitting others to copy a student's own work, submitting work done by others, completing assignments for others, altering work after grading and subsequently submitting it for re-grading, submitting the same work for two or more classes without the

permission of all instructors involved, or retaining materials that students have been instructed to return to their instructor;

- *plagiarism*, which includes taking the words, ideas, or substance of another and either copying or paraphrasing the work without giving credit to the source through appropriate use of footnotes, quotation marks, or reference citations;

- *providing materials to another* with knowledge they will be improperly used;

- *possessing another's work* without permission;

- *selling, purchasing, or trading materials* for class assignments (includes purchasing term papers via the internet);

- *altering the work* of another;

- *knowingly furnishing false or incomplete* academic information;

- *altering documents* that make up part of the student record;

- *forging signatures* or falsifying information on any official academic document;

- *inventing data* or falsifying an account of the method through which data was generated.

Academic Grading Symbols (Undergraduate)

Undergraduate Course Symbols & Grade Points Earned

Academic Symbol	Definitions	Grade (Quality) Points Earned
A	Excellent	4.0
A-	Excellent	3.7
B+	Good	3.3
B	Good	3.0
B-	Good	2.7
C+	Satisfactory	2.3

C	Satisfactory	2.0
C-	Satisfactory	1.7
D+	Poor	1.3
D	Poor	1.0
F	Failing	0.0
CR	Credit	not applicable
NC	No Credit	not applicable

"A-F" Grading Pattern

Courses required for majors in a major department are taken in this pattern. Specific department exemptions are noted in the course description. Faculty use of "+" or "-" is optional.

Credit/No Credit and A/B/C/No Credit Grading Patterns (CR/NC and A/B/C/NC)

Students may enroll in up to 40 semester units in credit/no credit patterns as an **undergraduate**. There are two *credit/no credit* patterns:

1. "CR/NC,"
2. "A/B/C/NC."

Some courses are only offered in the "CR/NC" or "A/B/C/NC" patterns. Undergraduate students can select the "CR/NC" pattern for most other courses subject to certain restrictions. Students can choose the "CR/NC" pattern during registration until the end of the Grade Type Change period.

Note: No changes to, or from, the credit/no credit pattern are permitted after the Grade Type Change period. There are no exceptions to this rule. Courses in a student's major department, regardless of course prefix, may not be taken "CR/NC," unless that is the only grading pattern in the course.

Units that students earn in courses taken under these grading patterns will apply to their degree requirements as long as they are not pre-baccalaureate courses (courses numbered 000 - 099).

- "CR" signifies that a student mastered the material at the level of "C-" or higher.
- "NC" signifies a work level of "D+" or lower.

Academic Grading Symbols (Graduate)

Graduate Course Symbols & Grade Points Earned

Academic Grade	Standard of Work Represented	Grade (Quality) Points
A	Superior	4.0
A-	Superior	3.7
B+	Adequate	3.3
B	Adequate	3.0
B-	Adequate ¹	2.7
C+	Substandard	2.3
C	Substandard	2.0
C-	Unacceptable	1.7
D+	Unacceptable	1.3
D	Unacceptable	1.0
F	Failing	0.0
CR	Credit ²	not applicable
NC	No Credit ²	not applicable

¹Note: A "B-" grade, though described as "adequate," generates fewer than 3.0 grade (quality) points and must be balanced by a grade of "B+" or higher to maintain a 3.0 GPA.

2Note: These grades cannot be selected by students. They are only available in graduate courses offered exclusively on a "credit/no credit" basis.

The typical grading pattern for courses graduate students will take is "A-F"; the use of "+" and "-" is at the discretion of each instructor. As noted in the Master's Degree Requirements section, grades lower than "C" may not be used to satisfy master's degree requirements, and some programs may require grades higher than "C" to meet program requirements; check with the academic department about its policy. A graduate student may use courses taken on a "CR/NC" basis to meet the degree requirements only if the courses are offered exclusively on that basis. Typically, these courses are restricted to fieldwork and internships and a "CR" grade indicates that the student's work is at least of "B-" quality. In post-baccalaureate (500-level) courses, a "CR" grade also indicates that the work is at least of "B-" quality.

Academic (Latin) Honors

Graduation with Honors

Candidates for the baccalaureate degree may be eligible for the awarding of Latin Honors at the time of graduation if they have fulfilled the following conditions:

1. They must have a cumulative grade point average of 3.65 or higher in all coursework and in coursework completed at Cal State East Bay.
2. They must have completed at least 40 semester-units of coursework in residence (as defined in the University Catalog) at Cal State East Bay.

summa cum laude (cumulative GPA, overall and at CSUEB, of 3.85-4.00) *highest honor*

magna cum laude (cumulative GPA, overall and at CSUEB, of 3.75-3.84) *high honor*

cum laude (cumulative GPA, overall and at CSUEB, of 3.65-3.74) *honor*

The GPA is officially calculated at the time the student has completed graduation requirements. The honors designation will be noted on the student's diploma and official transcript. The conditions noted above apply equally to second-baccalaureate degree candidates.

Note: Post-baccalaureate and graduate students are not eligible for Latin Honors.

University Honors Program

The University Honors Program is different from "graduation with honors". Graduation with honors is determined strictly on a GPA basis, and no additional coursework is required. The University Honors Program provides outstanding students the opportunity for academic challenge through the completion of specialized courses, seminars and projects under the direction of faculty mentors. To see their website, click on the link for more information.

Articulation

Authority for decisions regarding the transfer of undergraduate credits is delegated to each California State University (CSU) campus. Most commonly, college level credits earned from an institution of higher education accredited by a regional accrediting agency are accepted for transfer to campuses of the CSU; however, authority for decisions regarding the transfer of undergraduate credits is delegated to each CSU campus.

CSU campuses may enter into course-to-course or program-to-program articulation agreements with other CSU campuses and any or all of the California Community Colleges, and other regionally accredited institutions. Established CSU and California Community College articulations may be found on www.assist.org. Students may be permitted to transfer no more than 70 semester (105 quarter) units to a CSU campus from an institution that does not offer bachelor's degrees or their equivalents, for example, community colleges. Given the university's 30-semester (45-quarter) unit residency requirement, no more than a total of 90-semester (135-quarter) units may be transferred into the University from all sources.

Administrative Grading Symbols

Administrative Grading Symbols & Their Definitions

Administrative Grading Symbol	Definition	Grade (Quality) Points Earned
RP	Report in Progress	not applicable
I	Incomplete (Authorized)	not applicable
IC	Incomplete Charged	0.0
RD	Report Delayed	not applicable
W	Withdrawal	not applicable
WU	Withdrawal Unauthorized	0.0
AU	Audit	not applicable

Report in Progress (RP)

The symbol "RP," Report in Progress, is used in connection with courses that extend beyond an academic term. This symbol indicates that work is in progress, but that a final grade cannot be assigned until additional work is completed. The work must be completed within one year.

Note: If the work is not completed within the established time limit the "RP" grade will be changed to an "F" or "NC," depending on the grading pattern for the course.

Incomplete (I)

The symbol "I", Incomplete (Authorized), indicates that:

1. a discrete portion of the required coursework has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons,
2. attending a future offering of the class is not required to complete the work, and
3. the instructor believes it likely that the student will earn credit for the course upon completion of that work.

Students who are currently failing a course are not eligible for an Incomplete.

It is the student's responsibility to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements that must be satisfied to remove the Incomplete. A final grade is assigned when the work agreed upon has been completed and evaluated. The instructor will specify the work needed to complete the course that can be viewed in *MyCSUEB*.

Note: An "I" must normally be made up within one calendar year immediately following the end of the term during which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Students may not repeat a course in which they currently have an incomplete grade. Students who are currently failing a course are not eligible for an Incomplete.

Students may be able to receive up to a one-semester extension from the instructor. These extensions are for cause and must be approved by both the instructor and department chair. (Examples of cause include military service, serious health or personal problems, or instructor's leave of absence.) If a student wants credit for a course after an "I" has been converted to an "IC," the student must re-register and pass the course.

When the required work has been completed and evaluated, the instructor will submit a change of grade form and the academic grade will be recorded. If the student does not complete the work within the allowed time limit, the grade will be recorded as an "IC" (Incomplete Charged).

A student can graduate with an "I" grade on their record if the course is not necessary for graduation requirements. No grade may be changed once the degree has been awarded.

Incomplete Charged (IC)

The symbol "IC," Incomplete Charged, is used if the student received an authorized incomplete ("I"), but did not complete the required coursework within the allowed time limit, and the original grading pattern of the course was "A-F." If the grading pattern was either "A/B/C/NC" or "CR/NC", the grade will be recorded as "NC."

Note: The "IC" replaces the "I" and is counted as a failing grade for computing grade point average.

Report Delayed (RD)

The Report Delayed grade is an administrative grade assigned to students for a course if the instructor notifies the Office of the Registrar that grade reports have been delayed by circumstances beyond the control of the instructor. An example is the illness of the instructor at the end of the semester. The instructor will replace the "RD" grade with an academic grade as soon as possible.

Note: If the instructor fails to replace it with an academic grade by the end of the following semester, the grade "RD" will be converted to a "WU" or an "NC" depending on the grading pattern.

Withdrawal (W)

Dropping a course may be permitted, without restriction or penalty, during the Add/Drop Period. No grading symbol is recorded in such instances.

The "W" administrative grade indicates that the student was permitted to withdraw from a course after the end of the Add/Drop Period and prior to the last twenty percent of instruction, and may be assigned only for serious and compelling reasons. Permission to withdraw during this time shall be granted only with the approval of both the instructor and the department chair. The requests and approvals shall state the reasons for withdrawal.

Undergraduate students may withdraw after the Add/Drop Period from no more than 18 semester units in the undergraduate career. Only withdrawals recorded in terms beginning with Fall 2009 are counted. When serious illness or accidents are documented and used as the basis for approval of withdrawal from classes in the term, the units in question will not count against the maximum units allowed. Open University units are counted toward the maximum units. No limitations are placed on withdrawals by post-baccalaureate students taking classes in a post-baccalaureate career.

Withdrawals are not permitted during the final twenty percent of instruction except in cases, such as accident or serious illness, where the cause of withdrawal is due to circumstances clearly beyond the student's control and the assignment of an Incomplete is not practicable. Withdrawals of this nature may involve total withdrawal from the campus or may involve only one course, except that a course grade and credit or an Incomplete grade may be assigned for courses in which sufficient work has been completed to permit an evaluation to be made. When serious illness or accidents are documented and used as the basis for approval of withdrawal from classes in the term, the units in question will not count against the maximum units allowed. Request for permission to withdraw under these circumstances shall be granted only with the approval of the instructor, the department chair, the college dean and the administrator appointed by the President to act in such matters.

The "W" grade shall not be used in the calculation of grade point averages.

Withdrawal Unauthorized (WU)

The "WU" grade (Withdrawal Unauthorized) shall be used where a student who is enrolled on the census date does not officially withdraw from a course, but fails to complete it. Its most common use is in those instances where a student has not completed sufficient course assignments or participated in sufficient course activity to make it possible, in the opinion of the instructor, to report satisfactory or unsatisfactory completion of the class by use of the letter grade (A-F). *The "WU" is counted in the grade point average as an*

"F" grade. When assigning the "WU" grade, the instructor shall report the last known date of attendance by the student.

Audit (AU)

Students may take courses for instruction only (Audit), and will attend class but will not receive credit. Audit students will pay the same fees and enjoy the same instructional privileges as students enrolled for credit. Audit students may participate in class, take examinations or complete other assignments, but are not required to do so.

Note: Students may not petition to change their enrollment status from, or to, "Audit" after the Grade Type Change period has ended.

Advancement to Candidacy

"Advancement to Candidacy" is a status which recognizes completion of substantial progress towards a student's graduate degree. A student becomes eligible for Advancement to Candidacy when they:

- have become a "Classified" graduate student in good standing;
- have completed at least 9 semester units of 600-level coursework with a minimum 3.0 GPA;
- have designed a formal program of study approved by their graduate advisor;
- have fulfilled the University Writing Skills Requirement;
- have completed other department prerequisites for advancement; and
- are recommended for Advancement to Candidacy by their academic advisor (subject to approval by the department's graduate coordinator).

*Also see, **Admission, Enrollment, & Fees** chapter for additional information.*

Auditing Courses

An auditor (an enrolled student or non-enrolled individual) pays the same fees and enjoys the same instructional privileges as a student enrolled for credit, but is not held responsible for examinations or term papers. Regular class attendance is expected, and enrollment as an auditor may be deleted if the expected attendance is not observed. If students wish to enroll in a course as an auditor, they must obtain permission from the instructor of the course. Enrollment as an auditor is permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Once enrolled in a course as an auditor, students may not change their enrollment to a credit basis unless such a change is requested no later than the last day to add classes. Students, who are enrolled in a course for credit, may not change to an audit basis after the Add/Drop period has ended.

Baccalaureate Degree: defined

A baccalaureate degree, often called a bachelor's degree, is the academic title that the university confers after successful completion of a minimum number of college credit units (120 semester units at Cal State East Bay), including certain specified patterns of coursework (for example, General Education and a major), a minimum number of advanced units (40 upper division) with a grade point average of at least

2.00 (on a 4.00 point scale), and various other requirements specified in Title 5 of the California Code of Regulations. Some students in higher unit majors will complete more than the minimum 120 semester units for their degree. Cal State East Bay offers three baccalaureate degrees, a Bachelor of Arts (B.A.) degree, a Bachelor of Fine Arts (B.F.A.), and a Bachelor of Science (B.S.) degree. The degree awarded appears on the student's diploma and permanent record.

First-time freshmen can typically complete their coursework in four years if they earn 15 units per semester towards their degree. Transfer students can typically complete their coursework in two years if they earn 15 units per semester toward their degree.

Information concerning the graduation rates of students enrolling at Cal State East Bay is available online at: <http://www.csueastbay.edu/ira/>

*See also Requirements, Exams & Testing **chapter** for baccalaureate degree requirements.*

Capstone Experience

The capstone experience of the graduate program will be the successful completion of a thesis, project, or comprehensive examination. The quality of the student's work, including quality of expression, is the major consideration in judging the success of this degree component.

Thesis

A thesis is the written product of a systematic study of a significant issue. In the thesis, the student is expected to identify the issue, state the major assumptions, explain the significance of the project, detail sources for and methods of obtaining data, provide analysis of the data, and offer conclusions. The thesis should demonstrate original critical and independent thinking, appropriate organization and format, and thorough documentation. If the research involves human subjects, the protocols must be approved by the Institutional Review Board (see "Standards of Research with Human Subjects" section in Graduate Degree Requirements, Policies, & Other Information chapter).

Cal State East Bay offers two kinds of master's degree theses, University Thesis (numbered 691) and Departmental Thesis (numbered 699). Students required, or electing, to write a thesis must register for a minimum of one unit of either 691 or 699 in order to receive credit toward completion of this capstone experience. Students should check with the department for information on the number of units for which they must enroll.

The following criteria are the same for both the Departmental Thesis and the University Thesis.

- The candidate must be a graduate student (i.e., admitted to a master's degree program) to enroll in a thesis course; the academic department may add additional requirements.
- The student's thesis work will be supervised by a departmental committee which must include at least one Cal State East Bay faculty member who is a member of the major department. Please see the Thesis Committee Policy for additional thesis committee requirements.
- The student may not receive credit for more units of thesis work than allowed by the degree program.

- Each semester students will receive a grade of "RP" (Report in Progress) for units earned in 691 or 699 until they have completed their thesis; the student will then be given a final grade for the entire course. No "RP" units will be counted towards the degree or in calculating their GPA. If the thesis is not approved within one year of initial enrollment in a thesis course, the "RP" grade(s) will be changed to "F" or "NC" (depending on the grading pattern of the course).
- Normally, a degree candidate will be required to present an oral defense of their thesis.
- A Master's degree candidate may not earn more than 6 units for either a University Thesis or Departmental Thesis. Some programs have lower unit requirements. Students should check the program description in this catalog.

There are also a few significant differences between the two kinds of theses:

The format of a University Thesis is established by the Office of Graduate Studies. Since these works are expected to serve as resources for future research, the format is formal. An electronic copy is placed in the Institutional Repository. A Departmental Thesis, on the other hand, is usually not as formal. The Departmental Thesis standards and format are determined by the department, and the thesis is retained by the department.

University Thesis:

For information on the steps to follow (the approval process, required format for the structural elements of the thesis, and deadlines) when writing a University Thesis, consult the University Thesis Writing Guide available online at: www.csueastbay.edu/thesiswritingguide. If a student has questions concerning the selection of a topic, and/or the procedure to establish a thesis committee and research protocols, they should contact their department advisor or graduate coordinator. Students should also see if the department requires that a bound copy be submitted to the department. If the student has additional questions concerning the formatting and submission of their University Thesis after having read the University Thesis Writing Guide, it is recommended they contact the University Thesis Editor at: thesis.editor@csueastbay.edu

Departmental Thesis:

For information about a Departmental Thesis (the department's thesis guidelines, including format, acceptable thesis topics, and procedures to establish a thesis committee) contact the department advisor or graduate coordinator.

Project

A project is a significant undertaking in either a fine or applied art or a professional field. Projects should provide evidence of originality, independent thinking, and appropriate form and organization. Students are required to describe their project in a written abstract that addresses the project's significance, objectives, methodology, and conclusions. In some cases, the student may be required to present an oral defense.

Specific criteria for a Project (numbered 693) are the same as those for a Departmental Thesis with a few exceptions.

- An "RP" grade in a project course will become an "F" (no "NC" option) after one year if the project is not completed.
- While the project need not be considered a research resource, it should be of a caliber to constitute a valid terminal activity in a master's degree program and will be permitted only when a thesis is not appropriate.

If a Master's degree student changes from a program requiring a thesis to one requiring a project (or vice versa), they may count a combined maximum of 6 units for 691, 693, and 699 towards the degree.

Comprehensive Examination

A comprehensive examination is intended to assess the student's mastery of relevant subject matter, their ability to analyze and integrate the knowledge of their field, their skill in critical and independent thinking, and their use of appropriate organization and accurate documentation. A record of the student's examination (questions and responses) will be retained by their department. Some departments grant unit credit for exam preparation while others do not.

Catalog Rights for Graduation

As long as a student maintains continuous enrollment as defined in the next paragraph, the degree requirements will remain those of the catalog in effect at the time they declare their major, minor, or degree. However, students may elect to meet the requirements of the catalog in effect at the time of graduation. These principles are called "catalog rights."

Matriculated students who have not enrolled in classes at Cal State East Bay for two consecutive semesters (not including summer or winter sessions), and do not enroll in the third consecutive semester lose their continuous enrollment status and their graduation requirements will be governed by the catalog in effect at the time they reenter. If a student is absent due to an approved Planned Educational Leave or to attend another accredited institution of higher education, they will not lose their catalog rights as long as they are not away from Cal State East Bay for over two years.

Transfer students who attended another CSU campus and/or California Community College have Cal State East Bay catalog rights from the time they began at the other institution if they have continuous enrollment as noted above.

Note: The principle of catalog rights refers to degree requirements, not policies, fees, services, and other matters which, when they change, apply to all students. For that reason, students should check the latest online catalog.

Also Note: Requirements of certain programs (e.g., teacher credential programs) are governed by outside agencies. The requirements of these programs are subject to change based on changes dictated by these outside agencies.

Due to semester conversion, during the 2018-19 academic year only, students with rights to earlier catalogs may request rights to this Catalog for either their major or their graduation requirements or both. Forms are available on the Registrar's website.

Undergraduate Students

Students' catalog rights for their major, minor or degree are governed by the catalog in effect at the time the student declares their major, minor, or degree. Undergraduates will not lose catalog rights for graduation requirements (including general education) by declaring or changing their major if they maintain continuous enrollment.

Post-graduate & Graduate Students

Catalog rights for graduate students are governed by the catalog in effect at the time the student was admitted to their program. As noted earlier, they may select the graduation catalog when they file to graduate. Students should note, however, that there is a requirement that courses in master's programs expire after five years; see the Master's Degree Requirements section of the *Graduate Degree Requirements, Policies, & Other Information* chapter.

Undergraduate Certificate Programs

Undergraduate Certificate Program

A certificate program is a coherent set of academic courses, considerably narrower in scope and objectives than a degree or major, for which students can receive a certificate upon its successful completion. Most certificate programs are oriented toward occupations and/or career skills. A certificate program must contain at least 12 units of courses numbered 300 or above and a minimum of 15 total units. Each certificate program must contain a required core of at least three courses and 9 units. With faculty advice, special certificate programs may be available.

Students must receive a grade of "C" or better in each course applied to the program. Only one course may be taken "CR/NC" in a certificate program not counting courses for which that is the only grading pattern for the course. At least 75% of the units must be taken at Cal State East Bay. (For certificate programs, Cal State East Bay courses may be taken through University Extension or as a regularly admitted and enrolled student.) Students who have already received a major, option, or minor with the same title are not eligible for the certificate. No student is required to complete a certificate program. Completion of a certificate program is recognized by the awarding of a certificate. There is no notation about the program on either a diploma or permanent record. (The courses will be on the student's transcript.) Students may pursue a certificate program before, during, or after their baccalaureate degree. Unlike a minor, a certificate is not part of a degree.

University Extension also offers professional and career development Certificate Programs which may be taken for academic credit or Continuing Education Units (CEUs). For information about the certificate programs offered by University Extension please visit <https://www.ce.csueastbay.edu/>.

Graduate Certificate Programs

For information concerning graduate certificate programs see the Degree Requirements, Policies, & Other Information chapter.

Concentration

A "concentration" is a prescribed pathway through a major which allows for emphasis on a particular segment of the discipline (for example, the Accounting Concentration in the Business Administration Major and the Dance Concentration in the Theatre Arts Major). Not all majors have formal concentrations. Some majors with formal concentrations require students to select a concentration (e.g., Business Administration) whereas others do not (e.g., Chemistry). In some majors, different concentrations have different total unit requirements.

If a student declares a concentration when or prior to filing for graduation and meets the requirements, the concentration will appear on the student's diploma. For those students who wish to complete more than one concentration and have the additional concentration(s) recorded, each must differ by at least three courses and nine units from any other completed concentration.

Note: Students using past-year and archived CSUEB catalogs for their catalog of record, will still see the term "option" being used in those catalogs. The definition for "option" and "concentration", for catalog purposes, are the same.

Cooperative Education

Co-Op Education

The Cooperative Education Course (CEC) is an academic course for which students can receive academic credit for working (paid or unpaid) in a job or internship. Students should speak with their major department advisor about enrolling in such courses. For additional information go to: <http://www.csueastbay.edu/academic/academic-support/aace/career-education/co-op.html>

Fast Facts about Cooperative Education

- Over 3 out of 4 of all U.S. undergraduate students will complete an internship or co-op prior to graduation.
- Over 80% of companies offer experiential learning opportunities as a way to identify talent and eventually recruit full-time employees.
- Employers report that they hire 50% of their intern and co-op students as full-time employees following graduation.

*See also, the **Orientation & Advising** chapter for more information about cooperative education.*

Co-requisite

A co-requisite course is a course that must be taken *concurrently* in the same semester, or has been *previously completed*.

Course Numbering System

The course numbering system indicates the level at which courses are offered. Use the "**Course Descriptions**" for individual course detail.

Course Number	Level of Instruction
000-099	Courses not for baccalaureate degree credit
100-299	Lower-division courses
300-499	Upper-division courses
500-599	Post-baccalaureate and professional level courses
600-699	Graduate level courses
700-799	Doctoral level courses

Credit Equivalency

A semester course that is replacing a quarter course(s) within a department, where both can be considered equivalent for major requirement, articulation, and academic renewal purposes. If a course is equivalent, students who took the quarter version of the course, and passed, cannot then register for and receive credit for the semester version of the course.

Credit Hour/Unit Value

As of July 1, 2011 federal law (Title 34, Code of Federal Regulations, sections 600.2 and 600.4) requires all accredited institutions to comply with the federal definition of the credit hour. All college courses at Cal State East Bay have **unit values** based on the Federal credit hour policy.

For all CSU degree programs and courses bearing academic credit, the "credit hour" is defined as "the amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates not less than:

1. One hour of classroom or direct faculty instruction and a minimum of two hours of out-of- class student work each week for approximately fifteen weeks for one semester or trimester hour of credit, or ten to twelve weeks for one quarter hour of credit, or the equivalent amount of work over a different amount of time; or
2. At least an equivalent amount of work as required in paragraph (1) of this definition for other academic activities as established by the institution, including laboratory work, internships, practice, studio work, and other academic work leading to the award of credit hours."

A credit hour is assumed to be a 50-minute period. In courses in which "seat time" does not apply, a credit hour may be measured by an equivalent amount of work, as demonstrated by student achievement.

Cross-listed Courses

Cross-listed courses are two identical courses (**number, title, units, classification and description are the same**), but each have differing course prefixes. Cross-listed courses can belong to differing departments or the same department. An example could be: ABC 123 is cross listed with XYZ 123 - they are the same course except for their prefixes. Cross-listed course-pairs are identified in their corresponding course descriptions.

See also *Prefixes* in this chapter.

Doctoral Degree: defined

Cal State East Bay offers one (Ed.D) doctoral program. A graduate student who wishes to receive a 60-unit doctoral degree in Education should check the Educational Leadership, Ed.D. ** program in this catalog, as well as consult the Doctoral Handbook (available from the Department of Educational Leadership office) for academic load information.

Drop vs. Withdrawal

Drop

The word "drop" refers to official deletion of a course from a student's record. If students cannot continue enrollment in a course for which they enrolled in for that particular semester, they must officially drop the course using *MyCSUEB*. Students cannot "drop" after the end of the Add/Drop period, but they can "withdraw" until the twelfth week of a full semester (shorter terms have different deadlines).

Withdrawal

The word "withdrawal" refers to official termination of enrollment in a class after the Add/Drop period. Students can withdraw from a class only for serious health or personal problems beyond their control.

Dual-listed Courses

Dual-listed courses are those that are identical in content with undergraduate and graduate students taught in the same classroom, with the same instructor, and at the same time. However, the course requirements will be different for the undergraduate and graduate students. The undergraduate course should have an upper division course number (i.e., 300-499); the graduate course will have a 600-level course number.

East Bay "Foundation"

California State University, East Bay Foundation, Inc. is a non-profit auxiliary organization within the California State University system. For over 50 years, the California State University, East Bay Foundation ("CSUEB Foundation") has been making a difference in the educational experience at California State University, East Bay and the overall campus environment. Its only goal is to support the

University's educational mission and to provide quality services that complement Cal State East Bay's instructional programs. In the course of carrying out this mission, the Foundation enhances the University for thousands of faculty, staff, and students.

Having undergone a major reorganization at the end of 2012, the Foundation's main responsibilities include partnering with Follett to manage the Pioneer Bookstore and supporting the Office of Sponsored Research and Programs in its administration of grants received from federal, state and local governments and private foundations.

The CSUEB Foundation is governed by a board of directors comprised of faculty, students, staff, administrators and community members. The Foundation is incorporated as a nonprofit public benefit corporation and is exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code.

Free Electives

Most students have some units not prescribed by general education, the major, or other graduation requirements. These range from no units in a few very large majors to a handful of courses in some relatively low unit majors.

Free electives are courses students are free to select to complete their minimum unit requirements for the degree. Some students complete free electives with whatever looks interesting when they have free hours in their schedules, but most students have a purpose in mind. This could be taking more courses in the major to prepare for graduate school or employment, taking a minor or certificate program (defined in this section) to complement the major (e.g., an English major taking a Marketing minor), or simply following a special interest (e.g., dance or photography). No student is required to do any of these things, but it is important that students understand available choices.

Grade Forgiveness

Grade Forgiveness is the process that matriculated students seeking a bachelor's degree follow, under limited circumstances, to remove the punitive effect of past academic failures.

See also the Grade Forgiveness Policy in the Grading & Academic Standards chapter for additional information.

Grade Point Average (GPA)

The student's grade point average (GPA) is calculated by dividing the total number of quality hours (units attempted, excluding CR/NC courses) into the number of grade (quality) points earned.

A 2.00 (C) average in all college/university courses, all Cal State East Bay courses, and all major courses are required for a baccalaureate degree (excluding "CR," "NC," "W," and "AU" grades). All courses taken as part of the major, including those in other departments are included in the calculation of the major GPA.

See also Academic Grading Symbols for information about grade points.

Graduate Student: defined

A student is considered a Graduate Student at Cal State East Bay if they have been admitted as:

A Post-Baccalaureate Student

A student who has been admitted after receiving a baccalaureate degree. Basic teacher credential programs constitute a separate area of post-baccalaureate work, and students in these programs are defined as "Classified Post-Baccalaureate" students.

A Master's Student

A student that has been admitted to a specific master's degree program as a "Conditionally Classified" or "Classified" student, or to an advanced credential program which can be earned in conjunction with a master's degree. Most master's degrees are designed to be completed in two years if students are attending full time. A graduate student who wishes to receive a 30-unit master's degree in two years needs to enroll in approximately 8 units for four semesters. (Eight units per semester is generally the minimum for full-time status.)

The master's degree is awarded for completion of a planned and integrated program of advanced study. It recognizes that a student has mastered a particular field sufficiently to pursue creative or applied projects in that field.

Students who have completed a graduate degree will have acquired a mastery of a particular area of knowledge; an ability to relate that knowledge to knowledge in other disciplines; an ability to deal systematically with the concepts, theory, and principles in new situations; an ability to formulate and deal with problems on an advanced level; methodological, technical, and communication skills essential for advanced study; an ability to undertake independent investigation and research; abilities characteristic of professional performance; and attitudes conducive to continuous intellectual and professional development.

Every master's degree program includes what is termed a capstone experience. This will include a thesis or its equivalent, a comprehensive examination or an applied or specialized project that documents an internship, or a case study report, a musical recital, gallery showing, or other comparable achievement. Completion of the capstone experience demonstrates that students have successfully integrated the various elements of the graduate learning experience and have gained an in-depth knowledge of their discipline.

A Doctoral Student

A student who wishes to receive a 60 semester-unit doctoral degree in Education. These students should check the Educational Leadership for Social Justice, Ed.D. program chapter in this catalog, as well as consult the Doctoral Handbook (available from the Educational Leadership Department office) for academic load information and specific degree requirements.

Independent Study Course

An Independent Study course is a program of study, which is above and beyond the regular offerings of a department. The number of such a course is 490 and 690. Such a course is considered as elective credit in the program of a student working for a specified objective.

Note: Students may apply no more than 9 units of independent study in the major department and 8 units in other departments to a baccalaureate degree.

The privilege of Independent Study is limited to undergraduate students who have at least a 2.0 (C) grade point average and graduate students with at least a 3.0 (B) grade point average in all courses in the field or department in which the Independent Study is to be taken, both at this institution and in any work attempted at other institutions. If students are on academic probation, they are ineligible for Independent Study. Independent Study is restricted to students who are able to work with minimal supervision. No faculty member is required to teach an Independent Study course, and arrangements must be made to determine how the faculty's teaching overload (if any) will be made up.

Students may obtain applications for Independent Study (Special Registration Petition) in departmental offices. The application, with signatures of approval, is to be returned to the department office during the enrollment period for that term.

A course offered by Independent (or Individual) Study shall be taught only by a professor in the department offering the credit or by a professor the department judges to be competent to teach the particular course.

Individual Study Course

An Individual Study course is a course that is listed in the Cal State East Bay Catalog, but is not being offered during the term in which a student must gain course credit to complete a specified objective. Permission to take such a course may be granted only in cases of necessity, and arrangements must be made to determine how the faculty's teaching overload (if any) will be made up. Students may obtain applications for Individual Study (Special Registration Petition) in departmental offices. They then return the application, with signatures of approval, to the departmental office during the enrollment period for that semester.

Leave of Absence

Planned Educational Leave

A planned educational leave is a documented leave of absence permitted to a student by the University under specific circumstances. Students may petition for a planned educational leave to pursue education related activities which will enhance the prospect of successful completion of their academic programs, but do not require enrollment at Cal State East Bay or any other institution of higher education.

Students who are unable to enroll due to compulsory military service, or because of a documented disability, or because of pregnancy may apply for a leave of absence. Students should be in good academic standing in a program leading to a degree.

Leave Approval

A planned educational leave may be for a period of up to a total of two years (four consecutive semesters) if the student is enrolled in a program leading to a degree. The leave must be approved by the faculty advisor or department chair, and also approved by the Office of the Registrar.

If approved, the student will retain graduation University Catalog rights and may enroll as a continuing student, provided the student returns and enrolls in the same major for the semester indicated. Applications must be received in advance of, and approved before, an official leave can begin. Students who return from leave earlier than planned must notify the Office of the Registrar in writing.

Student's Responsibility

Failure to return from a planned educational leave during the semester indicated means loss of University Catalog rights. These students will be required to apply for readmission and pay an application fee. Download the Planned Educational Leave Form from the Office of the Registrar website and follow the instructions found on the form.

Major: defined

A major is a specified pattern of courses in a particular discipline or group of disciplines. (A list of Cal State East Bay undergraduate majors appears in the bachelor's degree section of Programs of Study by Degree Type.) The major allows students to specialize in one area and to study it in more depth than the one or two courses taken for General Education in other disciplines. Students can design an Interdisciplinary Studies Major with faculty advice and administrative support (see the *Interdisciplinary Studies, B.A. and/or Interdisciplinary Studies, B.S.* chapter of this catalog).

A major is not the same as a career, though some majors are more closely aligned to specific careers than others. There are people in most careers from a wide variety of majors. Most programs of study list career options that are possible for that degree.

A Bachelor of Science (B.S.) degree major often requires more units in the major than a Bachelor of Arts (B.A.) degree major. A Bachelor of Fine Arts (B.F.A.) degree major requires more units than most B.S. or B.A. degree majors because it is so specialized.

Students may declare their major either on their application when they apply to Cal State East Bay or after they enroll by filling out a "Change of Major" form available in the Student Enrollment and Information Center, 1st Floor, Student Services and Administration Building, online at the Student Records Forms website, or in the Student Services Center at the Concord Campus. Students must declare a major by the semester in which they earn junior status (60 units). High unit students may require permission from the Dean of Academic Programs and Services to change their majors.

Students may complete more than one major at the same time with permission. All majors earned will appear on the same diploma. At this time, Cal State East Bay does not admit post-graduate students for second majors.

Master's Degree: defined

The master's degree is awarded for completion of a planned and integrated program of advanced study earned after completion of an undergraduate degree. It recognizes that a student has mastered a particular field sufficiently to pursue creative or applied projects in that field. The minimum number of units for a Cal State East Bay master's program is 30 semester units with a grade point average of 3.0 (on a 4.0 scale), and various other requirements specified in Title 5 of the California Code of Regulations as well as requirements in this University Catalog. It typically requires at least two years of full-time study (or longer if pursued part time) beyond the bachelor's degree. Master's degrees are awarded in various disciplines as M.A. (master of arts), M.S. (master of science) or as discipline-specific degrees such as business (M.B.A), public administration (M.P.A.), or social work (M.S.W).

A master's degree provides students with a mastery of a particular area of knowledge; an ability to relate that knowledge to knowledge in other disciplines; an ability to deal systematically with the concepts, theory, and principles in new situations; an ability to formulate and deal with problems on an advanced level; methodological, technical, and communication skills essential for advanced study; an ability to undertake independent investigation and research; abilities characteristic of professional performance; and attitudes conducive to continuous intellectual and professional development.

Every master's degree program includes what is termed a capstone experience. This may include a thesis or its equivalent, a comprehensive examination, or project. Completion of the capstone experience demonstrates that students have successfully integrated the various elements of the graduate learning experience and have gained an in-depth knowledge of their discipline.

Matriculated Student

A matriculated student is a *regularly enrolled* student after being admitted to the university.

Methods of Instruction

There are three types of methods of instruction:

Hybrid

A hybrid class is taught with the aspects of both on-ground and online environments; access to a computer can be required.

On-ground

An on-ground class is taught entirely face-to-face, exclusively within the classroom; technically a student in such a class would not be required to have computer access.

Online

An online class is taught exclusively in an online environment; access to a computer would be required for all students. No on-campus meetings are required.

Minor: defined

A minor is a coherent program in some field or group of related fields other than a student's major. Minors range in size from 15-30 semester units, at least 9 of which must be upper division. No student is required to have a minor, so it will not appear on the student's record or diploma unless they request it. The minimum grade point average for a minor is 2.00, so students must take at least one course on the A-F grading pattern. At least 9 units must be taken at Cal State East Bay for a minor to be recognized on the student's diploma and/or permanent record.

Courses in a minor may be double-counted in G.E. However, at least 9 semester units of a minor must not be double-counted in the discipline of the major for Cal State East Bay to recognize the minor.

Students who wish to complete a minor must submit a "Change of Major, Minor, Option" form available online at the Student Records Forms website.

Students cannot receive a minor in the same department as their major unless the disciplines are distinct (e.g., French and Spanish, Art History and Studio Art). A minor is recognized only when a baccalaureate degree is awarded.

Multiple Majors

Students can pursue two or more majors simultaneously with permission, making sure they differ from each other by a minimum of 12 units.

The disadvantage of completing multiple majors while working on the same degree is that the student would have to delay graduation until they complete all requirements of all the majors. However, students are checked for completion of the General Education (G.E.) requirements only once.

In the case of multiple degrees, it is possible for students to pursue additional degrees simultaneously or consecutively. If a student completes a second baccalaureate simultaneously with their first baccalaureate, they will not need to take additional residency or G.E. units beyond those required for the degree they indicate as their primary baccalaureate.

Students cannot get two degrees in the same field. For example, a B.A. with a major in Geology and a B.S. with a major in Geology, or a B.S. with a major in Business Administration (concentration in Accounting) and a B.S. with a major in Business Administration (concentration in Marketing) are not allowed.

Note: Although students cannot receive two B.S. degrees in Business Administration, students can receive a single B.S. degree in Business Administration with two concentrations.

Any concentration and minors completed within the student's degree will also be recorded on their diploma and permanent record if requested.

MyCSUEB

A Class Schedule, prepared each semester, lists general information, courses offered, hours, rooms, instructor names, and final examination times. The online Class Schedule is available before enrollment begins in *MyCSUEB* each semester. Important information such as the semester calendar, orientation, important dates, registration, fees, course selection, and student services contact information may be viewed at: www.csueastbay.edu/students/.

Non-catalog Courses

Each semester, Cal State East Bay offers a variety of new courses whose descriptions are not yet in the catalog. Such courses carry full credit as regular courses in the curriculum. Generally, these courses will be numbered 497 or 697; new general education courses will be numbered 196 or 396. Students, therefore, should check with their advisors to confirm which degree requirements these new courses satisfy and not hesitate to take them.

Descriptions of new, non-catalog courses appear in the Class Schedule each semester. A new course may be passed by examination or challenged only after it has been listed in the Class Schedule and has been or is being taught.

Open University

See *University Extension* in this chapter.

Overlays

For more information about what course overlays are, see the General Education Program chapter.

Post-Baccalaureate

A student who has already formally graduated with a bachelor's degree is considered post-baccalaureate; therefore, a "post-bacc" student is also considered a graduate student for purposes of admission. If a post-bacc student wishes to achieve a graduate-level certificate, credential *, master's or doctoral degree, s/he would apply to the University as a graduate student.

** Note: There is a program offered at Cal State East Bay, called Bachelors Plus, that allows for an undergraduate to obtain a baccalaureate degree, as well as complete courses that prepares the student for a multiple subject credential. For more information concerning the Bachelors Plus Early Pathway program, contact both the Liberal Studies Program coordinator and the Department of Teacher Education.*

Prefixes (Course, Dept, College)

Prefixes are abbreviations for colleges, departments, and courses of study. Click on this PDF link for course, department, and college prefix definitions: PDF - 2018-2019 Prefix Definitions

Prerequisites

A prerequisite is another course or group of courses containing necessary background material for full understanding of the course content or a non-course requisite. Some courses have prerequisites. If a course has a required prerequisite (as noted in the course description) it must be successfully completed before enrolling in the course.

Note: While every effort has been made to include prerequisite courses within programs, prerequisite units may not be included in the total program units and therefore should be considered when planning a program roadmap. Consult with an academic/faculty advisor or department for further information concerning prerequisites and program roadmaps.

Special Registration Petitions

Some courses may require a "Special Registration Petition" prior to enrollment that is **available from the department offering the course**. Typically, courses that will require special registration petitions are:

- Independent Study,
- Individual Study,
- Capstone Project,
- Departmental Thesis, or
- University Thesis.

Title IX

Title IX of the Education Amendments of 1972 protects all people regardless of their gender, gender identity, gender expression or sexual orientation from gender discrimination, which includes sexual harassment and violence:

Sex Discrimination means an adverse action taken against a student by the CSU, a CSU employee, or another student because of gender or sex (including sexual harassment, sexual misconduct, domestic violence, dating violence and stalking) that is perpetrated against an individual on a basis prohibited by Title IX of the Education Amendments of 1972, 20 U.S.C. §1681 et seq., and its implementing regulations, 34C.F.R. Part 106 (Title IX); California Education Code §66250 et seq., and/or California Government Code §11135.

Sexual Harassment, a form of sex discrimination, is unwelcome verbal, nonverbal or physical conduct of a sexual nature that includes, but is not limited to, sexual advances, requests for sexual favors, and any other conduct of a sexual nature where:

1. Submission to, or rejection of, the conduct is explicitly or implicitly used as the basis for any decision affecting a complainant's status or progress, or access to benefits and services, honors, programs, or activities available at or through the university; or
2. The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the complainant, and is

- in fact considered by the complainant, as limiting his or her ability to participate in or benefit from the services, activities or opportunities offered by the university; or
3. The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the complainant, and is in fact considered by the complainant, as creating an intimidating, hostile or offensive environment.

Sexual harassment could include being forced to engage in unwanted sexual contact as a condition of membership in a student organization; being subjected to video exploitation or a campaign of sexually explicit graffiti; or frequently being exposed to unwanted images of a sexual nature in a classroom that are unrelated to the coursework.

Sexual harassment also includes acts of verbal, non-verbal or physical aggression, intimidation or hostility based on gender or sex-stereotyping, even if those acts do not involve conduct of a sexual nature.

Executive Order 1097 covers unwelcome conduct of a sexual nature. While romantic, sexual, intimate, personal or social relationships between members of the university community may begin as consensual, they may evolve into situations that lead to sexual harassment or sexual misconduct, including dating or domestic violence, or stalking, subject to this policy.

Claiming that the conduct was not motivated by sexual desire is not a defense to a complaint of harassment based on gender.

Sexual Misconduct

All sexual activity between members of the university community must be based on affirmative consent. Engaging in any sexual activity without first obtaining affirmative consent to the specific activity is sexual misconduct, whether or not the conduct violates any civil or criminal law. Sexual activity includes, but is not limited to, kissing, touching intimate body parts, fondling, intercourse, penetration of any body part, and oral sex. It also includes any unwelcome physical acts, such as unwelcome sexual touching, sexual assault, sexual battery, rape, and dating violence. When based on gender, domestic violence or stalking also constitute sexual misconduct. Sexual misconduct may include using physical force, violence, threat or intimidation, ignoring the objections of the other person, causing the other person's intoxication or incapacitation through the use of drugs or alcohol, or taking advantage of the other person's incapacitation (including voluntary intoxication) to engage in sexual activity. Men as well as women can be victims of these forms of sexual misconduct. Sexual activity with a minor is never consensual when the complainant is under 18 years old, because the minor is considered incapable of giving legal consent due to age.

Sexual Assault is a form of sexual misconduct and is an attempt, coupled with the ability, to commit a violent injury on the person of another because of that person's gender or sex.

Sexual Battery is a form of sexual misconduct and is any willful and unlawful use of force or violence upon the person of another because of that person's gender or sex as well as touching an intimate part of another person against that person's will and for the purpose of sexual arousal, gratification or abuse.

Rape is a form of sexual misconduct and is non-consensual sexual intercourse that may also involve the use of threat of force, violence, or immediate and unlawful bodily injury or threats of future retaliation and duress. Any sexual penetration, however slight, is sufficient to constitute rape. Sexual acts including intercourse are considered non-consensual when a person is incapable of giving consent because s/he is incapacitated from alcohol and/or drugs, is under 18 years old, or if a mental disorder or developmental or physical disability renders the person incapable of giving consent. The respondent's relationship to the person (such as family member, spouse, friend, acquaintance or stranger) is irrelevant.

Acquaintance Rape is a form of sexual misconduct committed by an individual known to the victim. This includes a person the victim may have just met; i.e., at a party, introduced through a friend, or on a social networking website.

Affirmative Consent means an informed, affirmative, conscious, voluntary, and mutual agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that s/he has the affirmative consent of the other participant(s) to engage in the sexual activity. Lack of protest or resistance does not mean consent nor does silence mean consent. Affirmative consent must be voluntary, and given without coercion, force, threats or intimidation.

- The existence of a dating or social relationship between those involved, or the fact of past sexual activities between them, should never by itself be assumed to be an indicator of affirmative consent. A request for someone to use a condom or birth control does not, in and of itself, constitute affirmative consent.
- Affirmative consent can be withdrawn or revoked. Consent to one form of sexual activity (or sexual act) does not constitute consent to other forms of sexual activity. Consent given to sexual activity on one occasion does not constitute consent on another occasion. There must always be mutual and affirmative consent to engage in sexual activity. Consent must be ongoing throughout a sexual activity and can be revoked at any time, including after penetration. Once consent is withdrawn or revoked, the sexual activity must stop immediately.
- A person who is incapacitated cannot give affirmative consent. A person is unable to consent when s/he is asleep, unconscious or is incapacitated due to the influence of drugs, alcohol, or medication so that s/he could not understand the fact, nature or extent of the sexual activity. A person is incapacitated if s/he lacks the physical and/or mental ability to make informed, rational decisions.
- Whether an intoxicated person (as a result of using alcohol or other drugs) is incapacitated depends on the extent to which the alcohol or other drugs impact the person's decision-making capacity, awareness of consequences, and ability to make fully informed judgments. A person's own intoxication or incapacitation from drugs or alcohol does not diminish that person's responsibility to obtain affirmative consent before engaging in sexual activity.
- A person with a medical or mental disability may also lack the capacity to give consent.
- Sexual activity with a minor (a person under 18 years old) is not consensual, because a minor is considered incapable of giving legal consent due to age.

- It shall not be a valid excuse that a person affirmatively consented to the sexual activity if the respondent knew or reasonably should have known that the person was unable to consent to the sexual activity under any of the following circumstances:
- The person was asleep or unconscious;
- The person was incapacitated due to the influence of drugs, alcohol or medication, so that the person could not understand the fact, nature or extent of the sexual activity;
- The person was unable to communicate due to a mental or physical condition
- It shall not be a valid excuse that the respondent believed that the person consented to the sexual activity under either of the following circumstances:
- The respondent's belief in affirmative consent arose from the intoxication or recklessness of the respondent;
- The respondent did not take reasonable steps, in the circumstances known to the respondent at the time, to ascertain whether the person affirmatively consented.

Consensual Relationships

Consensual relationship means a sexual or romantic relationship between two persons who voluntarily enter into such a relationship. While sexual and/or romantic relationships between members of the university community may begin as consensual, they may evolve into situations that lead to discrimination, harassment, retaliation, sexual misconduct, dating or domestic violence or stalking.

1. A university employee shall not enter into a consensual relationship with a student or employee over whom s/he exercises direct or otherwise significant academic, administrative, supervisory, evaluative, counseling, or extracurricular authority. In the event such a relationship already exists, each campus shall develop a procedure to reassign such authority to avoid violations of this policy.
 - This prohibition does not limit the right of an employee to make a recommendation on the personnel matters concerning a family or household member where the right to make recommendations on such personnel matters is explicitly provided for in the applicable collective bargaining agreement or MPP/confidential personnel plan.

Domestic Violence is abuse committed against someone who is a current or former spouse, current or former cohabitant, someone with whom the respondent has a child, someone with whom the respondent has or had a dating or engagement relationship, or a person similarly situated under California domestic or family violence law. Cohabitant means two unrelated persons living together for a substantial period of time, resulting in some permanency of relationship. It does not include roommates who do not have a romantic, intimate, or sexual relationship. Factors that may determine whether persons are cohabiting include, but are not limited to (1) sexual relations between the parties while sharing the same living quarters, (2) sharing of income or expenses, (3) joint use or ownership of property, (4) whether the parties hold themselves out as spouses, (5) the continuity of the relationship, and (6) the length of the relationship. For purposes of this definition, "abuse" means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury to himself or herself, or another. Abuse does not include non-physical, emotional distress or injury.

Dating Violence is abuse committed by a person who is or has been in a social or dating relationship of a romantic or intimate nature with the victim. This may include someone the victim just met;

i.e., at a party, introduced through a friend, or on a social networking website. For purposes of this definition, "abuse" means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury to himself or herself, or another. Abuse does not include non-physical, emotional distress or injury.

Stalking means engaging in a repeated course of conduct directed at a specific person that would cause a reasonable person to fear for his/her or others' safety or to suffer substantial emotional distress. For purposes of this definition:

1. Course of conduct means two or more acts, including but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person's property;
2. Reasonable person means a reasonable person under similar circumstances and with the same protected status(es) as the complainant;
3. Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.

Note: See further information in Cal State East Bay's sexual violence prevention and education statement, Title IX Notice of Nondiscrimination at <http://www.csueastbay.edu/af/departments/risk-management/investigations/files/docs/notice-of-non-discrimination.pdf> which includes facts and myths about sexual violence at: <http://www.csueastbay.edu/af/departments/risk-management/files/docs/eo-1095-attachment-b-myths-and-facts-2015.pdf>, and Victim's Rights and Options Notice at <http://www.csueastbay.edu/af/departments/risk-management/risk/files/docs/eo-attachment%20c.pdf>

Undergraduate Status: Class Standing

Undergraduate students are assigned a class standing according to the following plan:

Semester Units Earned Toward the Degree

Lower Division:

Freshmen	Fewer than 30 units
Sophomores	30 but fewer than 60 units

Upper Division:

Juniors	60 but fewer than 90 units
Seniors	90 or more units

Graduating Seniors	100 or more earned units, filed for graduation, and paid the graduation filing fee

Undergraduate Status: Full or Part-time

The following classifications apply to students enrolled in the fall and spring semesters (not University Extension non-degree programs and shorter sessions including summer):

1. Full-time undergraduate students (including students seeking a second baccalaureate) are those enrolled in 12 or more units in a regular semester. Part-time undergraduate students are those enrolled in fewer than 12 units.
 - o *Note: that in order to graduate in 4 years or 8 semesters, students must complete an average of 15 units per semester.*
2. Full-time enrollment for veterans (or dependents of disabled or deceased veterans), or reservists under Chapter 30, 31, 33, 34, 35, or 106 is 12 or more units, according to V.A. regulations. Each semester, veterans and eligible dependents should consult the Veteran Affairs Coordinator before the first day of classes and submit their forms requesting certification of enrollment for V.A. benefits. More information can be found on the Veteran Student Admission page.

University Extension

General Information

Information on courses, programs, and enrollment procedures is available through Continuing Education's course schedule each semester on the University website at www.ce.csueastbay.edu, by phone (510-885-3605), and by e-mail ce@csueastbay.edu.

Continuing Education

Continuing Education (CE) at Cal State East Bay features a broad spectrum of degree and certificate programs, as well as individual courses that complement the University's regular curriculum, and meet the academic, professional, creative, and lifelong learning goals of its diverse community.

CE designs programs and courses to fulfill the needs of current job market trends, enhance professional development, and promote personal enrichment. Offering more than 40 degree and certificate programs in a variety of industries and fields, CE allows students to explore career options and pursue opportunities for advancement.

Students may take one or more individual courses, enroll in a degree or certificate program, or attend a seminar or conference. In some cases, academic credit is awarded; while in others, Continuing Education Units (CEUs) are available. In programs designed specifically for personal enrichment, no academic credit is awarded.

American Language Program

The University's American Language Program provides instruction for international students in academic English and introduces them to American culture. Each year, students from more than 25 countries enroll in the program. After graduating from the American Language Program, international students often enroll as matriculated students in the University.

Open University Concurrent Enrollment

The "Open University" program allows individuals to enroll in regular University classes without being formally admitted to the University. Regularly enrolled students are not eligible to take Open University courses. A student enrolled in Open University may:

- Examine a field of study before committing to a degree program
- Update job skills or obtain professional training
- Attend classes on a non-continuous basis
- Raise their grade point average prior to application
- Enroll in classes if they've missed the Cal State East Bay application deadline

Open University students will be granted "Open University" extension credit for coursework. There are limits on the number of Open University extension units that may be applied toward University degrees. Up to 24 units may be applied towards a baccalaureate degree and up to 9 units for a master's degree.

Most courses taught by regular Cal State East Bay faculty are available to students through Open University. To enroll in an Open University course, applicants must complete an online Open University application form each term they wish to attend. The application deadline is the eighth instructional day of the term. Go to <https://www.ce.csueastbay.edu/ce/programs/open-university/> to apply online and view application deadlines. Late applications will not be accepted.

Restrictions

Continuing Education registration, in most courses or programs, does not require formal admission to the University. For some programs, however, students may be required to meet certain requirements prior to being eligible to register. Only registration in self-support Special Session classes provides "continuing student" status to admitted, matriculated students.

Academic Calendar

Please check the current Class Schedule on *MyCSUEB* for any calendar updates. This calendar is not an employee work calendar.

Note: the final examination period extends through the final weekend of the semester for classes meeting only on weekends.

Fall Semester 2018

Aug. 17	Opening of fall semester; faculty meetings

Aug. 17	Advisement day

Aug. 20	Classes begin

Sept. 3	Labor Day (University closed)

Oct 22	Last day to submit thesis to Graduate Studies office (<i>See Errata chapter for date correction</i>)

Nov. 12	Veterans Day observed (University closed)

Nov. 19-23	Thanksgiving recess (no classes)

Nov. 22-23	Thanksgiving holiday (University closed)

Dec. 7	Last day of instruction

Dec. 10-15	Final examinations

Dec. 16	End of semester

Dec. 17	Academic recess begins

Spring Semester 2019

Jan. 22	Opening of spring semester; Classes begin

Mar 25	Last day to submit thesis to Graduate Studies office (<i>See Errata chapter for date correction</i>)
Apr. 1	Cesar Chavez Day observed (University closed)
Apr. 1-5	Spring recess (no classes)
May 10	Last day of instruction
May 13-18	Final examinations
May 17, 18, 19	Commencement Ceremonies
May 19	End of semester
May 20	Academic recess begins
Summer Session 2019	
June 3	Opening of summer session; Classes begin
July 4	Independence Day (University closed)
July 26	Last day of instruction
July 29-Aug. 3	Final examinations
Aug. 5	Academic recess begins

University Administration

- Office of the President
- Academic Affairs
- College Deans, University Library, Department Chairs, and Program Directors
- Academic Senate
- Administration & Finance
- Student Affairs
- University Advancement
- Cal State East Bay Educational Foundation Board

Office of the President

President, Leroy M. Morishita

- Executive Assistant to the President: Rebecca Olivera

Chief of Staff: Derek J. Aitken

- Executive Assistant to the Chief of Staff: Andrea Lum
- Executive Office Manager: Dwyla Jourdan
- Associate Director, Government and Community Relations: Satinder S. Malhi

University Diversity Officer: Kimberly Baker-Flowers

Academic Affairs

Provost and Vice President, Academic Affairs: Edward S. Inch

- Special Assistant to the Provost: Gina Traversa
- Director, Sustainability Initiatives: Jillian Buckholz
- Associate Provost: Linda S. Dobb
 - Director, Faculty Development: Jessica Weiss
 - Director, Center for Community Engagement: Mary D'Alleva
 - Senior Director, Online Campus: Roger Wen
- Associate Provost for Academic Resources and Planning: Rafael Hernandez
 - Director, Institutional Research, Analysis and Decision Support: Fanny Yeung, Interim
 - Team Leader, Institutional Research: David Garcia
 - Director, University Scheduling: Lucero Wallace
- Dean of Academic Programs & Services: Maureen Scharberg
 - Associate Dean, Undergraduate Studies: Mitchell Watnik, Interim
 - Assessment & Program Review: Julie Stein
 - Assessment & Program Review: Fanny Yeung
 - Articulation Officer: Kyle Burch
 - University Honors Program: Shirley Yap

- University Curriculum Coordinator/Catalog and Curriculum Specialist: Sarah Aubert
 - University Catalog Editor and Curriculum Analyst: Sandra Claflin
- APS Support: Philip Cole-Regis
- Analyst: Patricia Loche
- Bay Advisor: David Reed
- Peer Academic Coaching: Marissa Baumann
- Testing Office: Meena Sharma
- Grade Appeal: Erica Wildy
- Director, Academic Advising and Career Education: Larry Bliss
- Director, General Education; Chair, General Studies: Caron Inouye
 - Advisor, General Education Program: Linda Beebe
 - ADT Advisor: Jacquelyn Beas
- Director, Graduate Studies: Kevin Brown
- Associate Vice President, University Extension: Brian Cook
 - Director, Continuing Education Programs: Kate White
 - Director, Special Sessions Programs: Balvinder Kumar
 - Director, Marketing: Dan Bellone
 - Executive Director, International Programs: Raymond P. Wallace
 - Director, Center for International Education: Kelly Moran
 - Director, American Language Programs: Thomas Tyner
 - Executive Director, Concord Campus: Robert Phelps
 - Operations Coordinator: Cecilia Zefeldt
 - Manager, Oakland Center: Kevin Kinney
- Associate Vice President, Research and Sponsored Programs: Jeffery Seitz
 - Director of Compliance: Sean Williams
 - Director, Grant Administration: Jennifer Cabrejas
 - Director, Center for Student Research: Jenny O

College Deans, University Libraries, Department Chairs, and Program Directors

College of Letters, Arts, and Social Sciences

- Dean: Kathleen Rountree
 - Special Assistant to the Dean: TBA
 - Associate Dean: Dawna Komorosky
 - Associate Dean: Patricia Jennings, Interim
 - Assistant to the Associate Deans: Elizabeth Graw
 - Chair, Department of Anthropology, Geography, and Environmental Studies: David Larson
 - Chair, Department of Criminal Justice: vacant
 - Chair, Department of Human Development and Women's Studies: Keri O'Neal
 - Chair, Department of Political Science: Elizabeth Bergman

- Chair, Department of Public Affairs and Administration: Jay Umeh
- Chair, Department of Social Work: Rose Wong
- Chair, Department of Sociology: Carl Stempel
- Chair, Department of Speech, Language, and Hearing Sciences: Shubha Kashinath
- Director, International Studies Program: Andrew Wong

School of Arts and Media (SAM)

- Director: Thomas C. Hird
 - Chair, Department of Art: Gwyon Rhabyt
 - Chair, Department of Communication: Mary Cardaras
 - Chair, Department of Music: Buddy O. James
 - Chair, Department of Theatre and Dance: Darryl Jones
 - Director, Multimedia Graduate Program: Gwyon Rhabyt

School of Global Humanities and Cultural Studies

- Director: Vacant
 - Chair, Department of English: Sarah Nielsen
 - Chair, Department of Ethnic Studies: Carlos Salomon
 - Chair, Department of History: Linda Ivey
 - Chair, Department of Modern Languages and Literatures: Meiling Wu
 - Chair, Department of Philosophy: Christopher Moreman
 - Director, Liberal Studies Program: Keri O'Neal

College of Business and Economics

- Dean: George Low
 - Human Resources Coordinator: Wanda Davenport
 - Associate Dean: Eric Fricke, Interim
 - Director, Undergraduate Programs: Eric Fricke, Interim
 - Director, Graduate Programs: C. Joanna Lee
 - Chair, Department of Accounting and Finance: Nancy Mangold
 - Chair, Department of Economics: Jed DeVaro
 - Chair, Department of Management: Vishwanath Hegde
 - Chair, Department of Marketing: C. Joanna Lee

College of Education and Allied Studies

- Dean: Carolyn Nelson
 - Assistant to the Dean: June Laherran
 - Associate Dean: Patricia Irvine
 - Chair, Department of Educational Leadership: Peg Winkelman
 - Chair, Department of Educational Psychology: John M. Davis
 - Chair, Department of Kinesiology: Paul Carpenter
 - Chair, Department of Hospitality, Recreation and Tourism: Christopher Chamberlain

- Chair, Department of Teacher Education: Eric Engdahl

College of Science

- Dean: Jason Singley
 - Administrative Assistant to the Dean: Mariza Sobejana
 - Associate Dean: Danika LeDuc
 - Chair, Department of Biological Sciences: Brian Perry
 - Chair, Department of Chemistry and Biochemistry: Ann McPartland
 - Chair, Department of Computer Science: Matt Johnson
 - Chair, Department of Earth and Environmental Sciences: Jean Moran
 - Chair, Department of Health Sciences: Jason Smith
 - Chair, Department of Mathematics: Julie Glass
 - Chair, Department of Nursing: Lynn Van Hofwegen
 - Chair, Department of Physics: Erik Helgren
 - Chair, Department of Psychology: David Fencsik
 - Chair, Department of Statistics and Biostatistics: Joshua Kerr
 - Chair, School of Engineering: Saeid Motavalli

University Libraries

- Dean: John Wenzler
 - Coordinator, Instructional Services: Thomas Bickley
 - Coordinator, Research Services: TBA
 - Coordinator, Information Literacy Services: Diana Wakimoto
 - Chair, Library Faculty: Kyzyl Fenno-Smith

Student Center for Academic Achievement

- Director: Jen Nguyen

Academic Senate

Chair, Academic Senate: Mark Karplus

Academic Senate Coordinator: vacant

Administration & Finance

Vice President, Administration and Finance/CFO: Debbie Chaw

Executive Assistant to the Vice President: Carmen Rusca

- Athletics Director: Jason Carmichael
- Associate Vice President, Facilities Development and Operations: Winnie Kwofie
- Associate Vice President, Financial Services: Maureen Pasag

- Associate Vice President, Human Resources and Payroll Services: André Johnson
- Associate Vice President, Risk Management and Internal Control: Nyassa Love Johnson
- Assistant Vice President, Special Projects: Glen Perry
- Associate Vice President Information Technology Services & CIO: Jake Hornsby
 - Chief Technology Office: Gene Lim
 - Information Security Officer: Thomas Dixon
 - Director, Technology Innovations Engineering: Liliana Chiou
 - Director, Education Technology: Eric Neumann
 - Director, Enterprise Information Services: Twinki Mistry
 - Director, Applications Technology & Support: David Corral
- Chief, University Police Department: Sheryl Boykins
 - Director, Parking and Transportation Services: Derrick Lobo
- Director, Administrative Processes: Veronica Salvador

Student Affairs

Vice President, Student Affairs: Suzanne Espinoza

- Associate Vice President, Campus Life: Martin Castillo
 - Dining Manager, Aramark: Debbie Meyer
 - Executive Director, Associated Students Incorporated: Erik Pinlac
 - Coordinator, Diversity & Inclusion Student Center: Jessika Murphy
 - Director, Student Housing, Residence Life and Dining Services: Mark Almeida
 - Director, Student Life and Leadership: Marguerite Hinrichs
 - Director, University Unions: Kenrick Ali
 - Director, Student Conduct, Rights and Responsibilities: James Carroll
- Associate Vice President, Student Support Services: Andrea Wilson
 - Director, Accessibility Services: Katie Brown
 - Director, Recreation and Wellness Services: Jennifer Luna
 - Executive Director, Student Health and Counseling: Alastair Smith, Interim
 - Director Counseling: Shauna Hong
 - Coordinator, Case Management: vacant
- Associate Vice President, Family and Community Relations: vacant
 - Executive Director, Student Equity and Success: Alison Richardson
 - Coordinator, GANAS Program: Melissa Cervantes
 - Director, EXCEL Program: Saleem Gilmore
 - Director, EOP: James Catigay
 - Veteran Student Services: Cherie Randolph
 - Coordinator, Renaissance Scholars: Lael Adediji
 - Coordinator, Sankofa Scholars: Anyania Muse
 - Executive Director, Transfer Student Programs: Diana Balgas
- Associate Vice President, Enrollment Planning and Analysis: Michael McKeon
 - Executive Director Admission and University Registrar: Angela Schneider
 - Director, Financial Aid: Isabelle Mora

- Director, Prospective Student Services: Abigail Jelavich
- Director, Budget and Operations: Fa'aalu Lealaimatafao

University Advancement

Vice President, University Advancement: William Johnson

Executive Assistant to the Vice President: May Hernandez

- Associate Vice President, Development and Campaign Director: Kathleen Brady
- Interim Associate Vice President, University Communications: Jesse Cantley
- Executive Director, Alumni & Constituent Engagement: Richard Watters
- Senior Director, Analytics & Advancement Services: Brandi Gross
- Director, University Advancement Operations & Budget: Fa'aalu Lealaimatafao

Cal State East Bay Educational Foundation Board

- Jack L. Acosta, Chair
- Marvin A. Remmich, Vice Chair
- Tanya Hauck, President
- Mahla Shaghafi, Secretary
- Debbie Chaw, Treasurer

- Revisions of General & Curricular Information

Changes on Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the Legislature, rules and policies adopted by the Board of Trustees of the California State University, by the chancellor or designee of the California State University, or by the president or designee of the campus. It is not possible in a publication of this size to include all of the rules, policies and other information that pertain to students, the institution, and the California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office.

Nothing in this catalog shall be construed as, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of the California State University, the chancellor of the California State University, or the president of the campus. The trustees, the chancellor, and the president are authorized by law to adopt, amend, or repeal rules and policies that apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the campus or the California State University. The relationship of students to the campus and the California State University is one governed by statute, rules, and policy adopted by the legislature, the trustees, the chancellor, the presidents and their duly authorized designees.

Catalog Production

Acknowledgments

The online University Catalog is produced under the direction of the Dean, Academic Programs and Services, Maureen Scharberg. Department chairs, administrators, and staff also contributed to this team effort.

Editor and Project Supervisor: Sarah Aubert, Catalog and Curriculum Analyst/Specialist, Academic Programs and Services

Editor: Sandra Claflin, Catalog Coordination & Process Editor & Curriculum Analyst, Academic Programs and Services

Curriculum Proposal Process

There are different approval processes for different types of curriculum proposals. Please refer to the Curricular Procedures Manual and/or consult with the University Curriculum Coordinator.

Why can't courses and programs be modified mid-year?

Student catalog rights are governed by the catalog in effect at the time they declare their undergraduate major/minor or are admitted to a graduate degree program. To avoid confusion, and to honor CSUEB's agreement with the student, degree requirements and courses cannot be revised mid-year.

Why can't updates be made to the faculty list in the departmental chapters as changes occur?

All faculty changes (including the appointment of departmental Chairs) need to be verified by the Provost's Office as effective beginning the fall semester that the catalog is effective. Updating the faculty lists each year requires more time than is currently available for the staff in the Provost's Office and the staff in the Office of Academic Programs and Services. For an updated and comprehensive list of all university faculty, emeriti faculty, and lecturers with 3-year contracts, visit the Office of Academic Affairs website.

Why don't all the department's emeriti faculty appear in the departmental chapter's faculty list?

Only the names of emeriti faculty who are currently teaching in the department appear in the departmental chapter. All emeriti faculty, however, appear in the comprehensive faculty list maintained by the Office of Academic Affairs (see above), with the exception of those who are deceased.

Regarding additional questions, who should be contacted?

For questions concerning the catalog production process: contact the Catalog Editor, Office of Academic Programs and Services (4th Floor, Student Services and Administration Building).

For questions concerning the status of a curriculum proposal please check the proposal status in Curriculog or: **contact the** University Curriculum Coordinator.

e-Catalog

Beginning Catalog 2015-2016, the e-catalog has been published via *Acalog ACMSTTM Publisher*. The e-catalog is also now available through most mobile devices. Questions and concerns regarding the content, layout, or our mobile application should be directed to the Catalog Editor. The current online University Catalog includes all approved curricular updates effective for Fall - Summer of the current year. Archived catalogs can be found in the Archived Catalogs chapter of this catalog.

Adobe Reader is available [here](#).

Revisions of General & Curricular Information

General Information:

Includes all revisions of narrative text in the general information chapters of the catalog. It also includes edits made to general program description narratives, and departmental chapters if revision through Curriculog is not required. General information and program description information changes do not require an approved curricular proposal. The general information chapters, program descriptions, and the faculty lists in the catalog are revised every year.

Fall Semester:

The *general information* and *program description narrative* pages are made available by the Catalog Editor via Acalog for all designated "Editors" of the appropriate administrative & department offices. Email instructions will be sent to Editors that will include a specified deadline for completing any necessary editing.

Curricular Information:

Only curricular changes approved via Curriculog's approval process will appear in Acalog. The Office of Academic Programs and Services will determine deadlines for each academic year's curricular changes and will contact departments via email, which will include necessary instructions. Contact the University Curriculum Coordinator for more information.

Course Errata

The following is a list of course corrections appended to this catalog:

(alpha order by prefix)

ART 323 Modern Media, Art, and Culture I

Effective January 22, 2019

- Social Justice overlay added.

ART 472 - Painting III

Effective January 22, 2019

- Repeatability shall be modified to read: Course may be repeated for credit for a maximum of 12 units.

BAN 612 - Data Analytics

Effective August 20, 2018

- Prerequisites shall be modified to read: BAN 601 and BAN 602

BAN 632 - Big Data Technology and Applications

Effective August 20, 2018

- Prerequisites shall be modified to read: BAN 601 and BAN 610

BAN 660 - Advanced Topics in Big Data

Effective August 20, 2018

- Prerequisites shall be modified to read: BAN 601

BAN 670 - Advanced Topics in Analytics

Effective August 20, 2018

- Prerequisites shall be modified to read: BAN 601 and BAN 602

BAN 671 - Data Analytics with R

Effective August 20, 2018

- Prerequisites shall be modified to read: BAN 601 and BAN 602

BAN 672 - Data Analytics with SAS

Effective August 20, 2018

- Prerequisites shall be modified to read: BAN 601 and BAN 602

BAN 674 - Machine Learning for Business Analytics

Effective August 20, 2018

- Prerequisites shall be modified to read: BAN 601 and BAN 602

BUS 603 - Managing Complex Issues in Global Context

Effective January 22, 2019

- Prerequisites shall be modified to read: Post-baccalaureate standing.

CMGT 340 - Construction Cost Estimating

Effective January 22, 2019

- Course description shall be modified to remove: "*Lecture units: 2; Lab units: 1*".

COMM 497 - Issues in Communication

Effective January 22, 2019

- Repeatability shall be modified to read: May be repeated for credit for a maximum of 12 units.

CS 101 - Computer Science I

Effective January 22, 2019:

- Equivalent Quarter Course shall be modified to remove: CS 1160.

CS 201 - Computer Science II

Effective January 22, 2019:

- Equivalent Quarter Course shall be modified to remove: CS 2360.

CS 471 - Security and Information Assurance

Effective August 20, 2018

- Equivalent Quarter Course shall be modified to remove: CS 4245.

- Equivalent Quarter Course shall be modified to read: CS 4525 or CS 4526 or CS 4527.

EPSY 696 - Advanced Practicum

Effective January 22, 2019:

- Grading pattern shall be modified to read: CR/NC grading only.

GEOL 432 - Hydrogeology

Effective January 22, 2019:

- Course description shall be modified to include: Lecture units: 3; Lab units: 1.

GS 321 - General Studies for Students in Special Transfer Programs I

Effective August 20, 2018

- Course title shall be modified to read: Strategies for Success in College and Career I
- Course description shall be modified to read: Designed especially for transfer students, this course focuses on the strategies and resources that support the transition to CSUEB, bolsters academic success, builds community, and develops skills for career exploration. Offered in Fall semester.

GS 322 - Strategies for Success in College and Career II

Effective January 22, 2019

- Course units shall be modified to 2 units.
- GE area E and Diversity overlay added only if students also completed GS 321 in fall 2018.

GS 331 Community Engagement and Leadership Seminar for GANAS I

Effective August 20, 2018

- Course approved for Possible Instructional Methods: Entirely On-ground, or Hybrid Only.

GS 332 Community Engagement and Leadership Seminar for GANAS II

Effective August 20, 2018

- Course approved for Possible Instructional Methods: Entirely On-ground, or Hybrid Only.

HIST 321 - Communism as Civilization

Effective January 22, 2019

- Course shall be modified to include G.E/G.R. Area Satisfied and read: *C4 - Upper Division Arts or Humanities, Overlay - Social Justice.*

HIST 351 - Russia: Peter to the Present

Effective January 22, 2019

- Course shall be modified to include G.E/G.R. Area Satisfied and read: *C4 - Upper Division Arts or Humanities, Overlay - Sustainability*

HIST 373 - The American Revolution

Effective January 22, 2019

- Course shall be modified to include G.E/G.R. Area Satisfied and read: *C4 - Upper Division Arts or Humanities.*

HIST 477 History and Trends in Nursing

Effective January 22, 2019

- GE C4 and Diversity overlay added.

HSC 398 - Internship

Effective January 22, 2019

- Grading pattern shall be modified to read: A-F grading only.

KIN 490 - Independent Study

Effective August 20, 2018

- Repeatability shall be modified to read: May be repeated for a maximum of 9 units.

MKTG 305 - Business Communication

Effective January 22, 2019

- Course description shall be modified to remove: "fulfills Writing II for transfer students who have completed an approved transfer program without a second composition course".

MLL 344 Spanish Linguistics and Phonetics

Effective August 20, 2018

- Course approved for Possible Instructional Methods: Entirely On-ground, or Entirely Online, or Hybrid.

MUS 111 - Music Theory I

Effective August 20, 2018

- Prerequisites shall be modified to read: MUS 108 or satisfactory score on the Music Theory Advisory Exam.

MUS 600 - Seminar in Research Methodology

Effective January 22, 2019

- Prerequisites shall be modified to read: Post-baccalaureate standing.

NURS 450 Community Health Nursing

Effective August 20, 2018

- Social Justice overlay has been removed.

NURS 451 Community Health Nursing Practice

Effective January 22, 2019

- Social Justice overlay has been added.

OTL 601 - Introduction to Online Teaching and Learning

Effective January 22, 2019

- Prerequisite shall be modified to read: Post-baccalaureate standing.

OTL 602 - Instructional Design Models for Online Learning

Effective January 22, 2019

- Prerequisite shall be modified to read: M.S. Education, Online Teaching and Learning majors only.

OTL 693 - Capstone Project

Effective January 22, 2019

- Prerequisite shall be modified to read: Completion of UWSR and M.S. Education, Online Teaching and Learning majors only.

REC 480 - Internship

Effective August 20, 2018

- Repeatability shall be modified to read: May be repeated for credit for a maximum of 6 units.

SOC 470 - Sociology of Travel and Tourism

Effective January 22, 2019

- Course description shall be modified to read: Sociological perspectives on travel and tourism industry intertwined with multiple social institutions and social forces. Social contexts revealed through analyses of relationships between travel and tourism, consumption, cultural commodification, global relations of power and privilege, social inequality, and socio-cultural identities.
- Prerequisites shall be modified to read: SOC 100.

SPPA 611 Aural Rehabilitation

Effective August 20, 2018

- Course approved for Possible Instructional Methods: Entirely On-ground, Entirely Online, or Hybrid.

SPPA 695 - Practicum: Treatment

Effective August 20, 2018

- Repeatability shall be modified to read: May be repeated for credit for a maximum of 8 units.

STAT 697 - Issues in Statistics

Effective January 22, 2019

- Course units shall be modified to variable units: 2-4

TED 613 - Implementing and Analyzing Research in P-12

Effective August 20, 2018

- Students who have completed TED 613 have satisfied the University capstone requirement.

Program/Degree Errata

The following is a list of program/degree corrections appended to this catalog:

(alpha order by program/degree)

Art, B.F.A.

Effective January 22, 2019

- Upper-division Foundation Requirements shall include: Course ART 440
- Course ART 491 ad hoc shall state: (*BFA Critique is taken 3 times)

Business Administration, B.S.

Effective August 20, 2018

Major Requirements minimum grade changes:

- All lower division core, upper division core, and concentration courses are 3 semester units each, and must be taken for a letter grade. Credit/No Credit is not accepted.
- Except for BUS 499, each course (including lower division, upper division, and concentration courses) must be completed with a letter grade of "C-" or better.
- BUS 499 must be completed with a letter grade of "C" or better.

Business Administration, M.B.A.: General Business Concentration

Effective August 20, 2018

Master of Business Administration One-Year Intensive Program

- Students can pursue the General Business Concentration by also applying to the M.B.A. One-Year Program offered through University Extension.

Educational Leadership, Ed.D. **

Effective April 22, 2008

- Correct degree title is Educational Leadership, Ed.D. Students will earn a doctorate degree in Educational Leadership. The doctoral program is Educational Leadership for Social Justice.

French, B.A.

Effective August 20, 2018

- Upper Division Coursework requirements shall include the following language: "Students who are NOT exempt from lower-division coursework must complete 21 units as outlined below. Students exempt from lower-division coursework must complete additional upper-division coursework to meet the 24-unit minimum for a B.A. degree."

Health Sciences, B.S.

Effective August 20, 2018

Upper Division Core section shall read as follows:

The following 18 units of Health Science coursework is required:

- HSC 300 - Environmental Health Units: 3 ; G.E./G.R. Area: B6; Sustainability
- HSC 315 - Public Health Units: 3
- HSC 330 - Epidemiology Units: 3
- HSC 355 - Bioethics or PHIL 312 Bioethics Units: 3
- HSC 360 - Health Law Units: 3
- HSC 400 - Health Policy Research and Analysis Units: 3

Elective Courses for Students Not Selecting a Concentration shall read as follows:

Students who do not select a concentration must select an additional 30 units in consultation with an advisor. These electives must be chosen as part of a course plan designed in consultation with an advisor to achieve a student's learning goals. The course plan must be approved and filed before taking elective courses. Students may review courses to construct a plan by using the Course Description link in the catalog. All Health Sciences courses have an HSC prefix.

Students who do not create a course plan with an advisor must select 30 units from the following courses:

- BIOL 270 Human Anatomy and Physiology I (4 units)
- BIOL 271 Human Anatomy and Physiology II (4)
- PHYS 125 Principles of Physics I (4)
- CHEM 111 General Chemistry I (5)
- CHEM 112 General Chemistry II (5)
- CHEM 230 Survey of Organic Chemistry (5)
- CHEM 340 Survey of Biochemistry (3)

Any HSC-prefix course except those listed in the Lower Division Core; the Upper Division Core; the Capstone Requirement; or any HSC course designated "not for major credit". Classes in the Lower Division Core; the Upper Division Core; and the Capstone Requirement cannot be used as electives.

Industrial Engineering, B.S.

Effective: August 20, 2018

- Correction of total units for program: Industrial Engineering, B.S. Program **(122 units)**
- Degree Requirements Unit-Outline: A baccalaureate of science degree requires a total of 122 units:

Interdisciplinary Studies, B.A. Interdisciplinary Studies, B.S.

Effective August 20, 2018

- The total units are 35-62 semester units.

Liberal Studies Teacher Multiple Subject Preparation Program

Effective August 20, 2018

- This waiver/certificate program does not currently exist and is not available to students. This catalog entry will be removed.

Psychology, B.S.: Ergonomics and Human Factors Concentration

Effective August 20, 2018

Correction to typographical error of listed units:

- MATH 131 Calculus II is erroneously listed as a 4-unit course under the concentration electives: MATH Group. This course is actually a 3-unit course, which is correctly displayed under the course description tooltip and the error does not affect the overall concentration unit requirements.

Speech-Language Pathology, M.S.

Effective August 20, 2018

- The total units are 66-68 semester units.

Non-curricular Errata

The following is a list of non-curricular corrections appended to this catalog:

(alpha order by area)

Academic Calendar

Effective August 20, 2018

Fall and Spring semester thesis submission dates shall be modified to:

- October 26, 2018; and,
- March 29, 2019.

Advanced Placement (AP) Exam Credit

Effective August 2018

Document shall include the corrected statement:

"Course credit may be used to satisfy requirements in the major or GE. "

Graduate Study Completion

Effective August 20, 2018

The entirety of this area shall read as follows:

Students who have completed all the units required for their master's degree but are still working on their capstone experience (thesis, project, or studying for a comprehensive exam) may have continued access to University facilities by registering for XXXX 890 Graduate Study Completion course through University Extension, Continuing and International Education. **(Students should register for the course within their major prefix; e.g. graduate chemistry majors should register for CHEM 890).** This is a 1-unit course with a fee of \$134 (fee subject to change).

Registering for XXXX 890 will provide students with:

- a valid Student ID card,
- the ability to check books out of the library,
- remote access to computerized databases in the library,
- use of computer labs on campus,
- the ability to continue to work on projects in science labs,
- eligibility to purchase a parking permit, and
- access to other benefits enjoyed by regularly registered students.

Enrollment in XXXX 890 also qualifies as enrollment for students who are serving as a teaching associate. Note: XXXX 890 cannot be used to satisfy any unit or course requirements for a master's degree.

Students may register by picking up a "XXXX 890 Graduate Study Completion Form" in their department or in the University Extension Office in SF 102. Note: Students will need to obtain a signature from their major department.

Graduation Requirement in Writing Proficiency (UWSR)

Effective August 20, 2018

The entirety of this area shall read as follows:

The California State University system requires that all students must demonstrate competency in writing skills as a requirement for graduation and to receive a baccalaureate, master's, or doctoral degree. This requirement was implemented system-wide in 1977. Students must satisfy the University Writing Skills Requirement (UWSR) in order to receive a degree from Cal State East Bay unless they are exempt by one of the following criteria:

- The student previously satisfied the UWSR at Cal State East Bay or at another CSU campus. In this case, Cal State East Bay will accept an official certification of completion if the entire requirement, as specified by that CSU campus, was satisfied and the student was a matriculated student at that campus at the time. On some CSU campuses, the requirement is called the "Graduation Writing Assessment Requirement (GWAR)."
- The student graduated from any one of the CSU campuses; unless it is noted on the transcript that the UWSR (or GWAR) was not satisfied.
- The student received an essay score of 4.5 or higher on the GMAT or GRE or an essay score of 53 or higher on the CBEST.

Undergraduate Students

Undergraduate students are required to begin steps to satisfy the University Writing Skills Requirement after completing 60 semester units. Students who do not enroll in an appropriate course or register to take the Writing Skills Test in their first semester after completing 60 units will have a registration hold placed. The hold will be lifted as the student progresses towards completion of this requirement. Note: Undergraduate students cannot satisfy this requirement before completing 60 units. For undergraduate students, completion of GE Area A2 and ENGL 200 or another approved second composition course, which are graduation degree requirements, is also required before attempting to satisfy the UWSR.

Graduate Students

Graduate students are required to begin steps to satisfy the University Writing Skills Requirement by the end of their first semester in "Conditionally Classified graduate" status. Students who do not enroll in an appropriate course or register to take the Writing Skills Test in their first semester in "Conditionally Classified graduate" status may have a registration hold placed and may be dropped from their classes. The hold will be lifted as the student progresses towards completion of this

requirement. The UWSR must be satisfied before the student can be admitted as a "Classified Graduate" student and, consequently, before the student can be advanced to candidacy and receive a degree.

To satisfy the requirement at Cal State East Bay, students may do one of the following:

- Option One: Register for and pass the Writing Skills Test. See Writing Skills Test (Option One) below.
- Option Two: Enroll in and pass a first-tier writing course (ENGL 300 or ENGL 301) and possibly a second-tier course, as well. See Course (Option Two) below.

Writing Skills Test (Option One)

The Writing Skills Test (WST) consists of an analytic essay that requires students to demonstrate that they can think and write critically. A score of Clear Competence (8) is needed to meet the requirement. Students who do not receive the Clear Competence designation on the first attempt have only one opportunity to take it again; a score of Clear Competence on the second attempt satisfies the requirement. If both tests are scored as "Limited Competence (6)", they will be required to take the course option (see below). If one or both scores is "Developing Competence (7)", they need only take a second-tier course to satisfy the UWSR (see below).

Note: There is a fee for the WST. See the Fees & Financial Services chapter for more information.

Course (Option Two)

ENGL 300 and ENGL 301 are the first-tier writing courses designed to help students meet the University Writing Skills Requirement. Students who have not attempted the WST or those who have taken the Writing Skills Test (WST) and have received Limited Competence (6) must take either ENGL 300 or ENGL 301 and perhaps a second-tier writing course as well. Students who have not taken the WST twice may take it even when enrolled in a writing skills course. Generally speaking, ENGL 300 is intended for native speakers of

English, while ENGL 301 is intended for non-native speakers. Based on end-of-course portfolio evaluation scores, at the end of the first-tier course they will be advised as to their next step, which will involve one of the following: they may be found to have met the UWSR requirement altogether; they may be directed to enroll in a second-tier course; or, they may be directed to repeat the first tier course.

Generally, two second-tier writing courses are regularly offered: ENGL 302 and MKTG 305 . Students who passed the quarter-based equivalents to these courses (ENGL 3003 and MKTG 3495) prior to fall 2000 may not have met the UWSR. For more information on these courses, contact the individual department. Students who pass a second-tier writing course with a C- or better (or "CR" if taken as CR/NC) have satisfied the UWSR.

Courses approved as a "Second Tier Writing" course. Passing a course listed below satisfies the University Writing Skills Requirement. All courses have the prerequisite of 7 on the WST or ENG 300 or ENG 301.

Undergraduate

- ENGL 302 Discursive Writing

- ES 300 Writing for Social Justice
- HIST 301 Historical Writing
- MKTG 305 Business Communication

Graduate

These courses may be limited to students in the respective graduate programs.

- BUS 603 Managing Complex Issues in Global Context
- EDLD 600 Leading for Social Justice and Equity in Urban Schools
- MUS 600 Seminar in Research Methodology

Students who have taken the first-tier writing course three times consecutively, have not passed, and have a letter of good faith effort from their most recent first-tier instructor may apply to the Dean of Academic Programs and Services for a waiver of the UWSR. If a waiver is granted, the student's permanent record will note that they were allowed to graduate without having satisfied the UWSR. Students who do not satisfy the requirement and do not have a waiver approved will not be allowed to graduate. Contact the Dean of Academic Programs and Services for information on this waiver at (510) 885-2990.

If a student receives a grade of "D+" or "D" in a second-tier writing course (taken Fall Quarter, 2000 or later), they may appeal to the Dean of Academic Programs and Services for a waiver of the UWSR. If a waiver is granted, their permanent record will note that they were allowed to graduate without having satisfied the UWSR. Students who do not satisfy the requirement and do not have a waiver approved will not be allowed to graduate. Contact the Dean of Academic Programs and Services for information on this waiver at (510) 885-2990.

Students who have a verified disability and would like to request accommodations to assist them in satisfying this requirement should contact the Accessibility Services in the Library Complex 2440 or call (510) 885-3868 (phone/TTY).

For more information on meeting the University Writing Skills Requirement, see the Testing Office website or call (510) 885-3661.

Programs Leading to Licensure & Credentialing

Effective August 20, 2018

The last paragraph shall read:

(Students in Biological Science, Educational Psychology, Engineering, Kinesiology, Liberal Studies, Nursing, and Teacher Education, in particular should be aware of these provisions.)

Required Units for Full-time Graduate Students

Effective August 20, 2018

The entirety of this area shall read as follows:

Full-time enrollment for "Graduate" students and "Classified Postbaccalaureate" students is 8 or more units for financial aid, F-1 and J-1 visas, and for veterans (or dependents of disabled or deceased veterans) or reservists (under Chapter 30, 31, 33, 34, 35, or 1606).

Note: Each semester, veterans and eligible dependents should consult the Veteran Benefits Coordinator before the first day of classes and submit their forms requesting certification of enrollment for V.A. benefits. Also, graduate students who apply for Veterans' Benefits (or for benefits as dependents of disabled or deceased veterans), international students wishing Department of Homeland Security certification, student athletes wishing to compete in intercollegiate sports, and students on most types of financial aid must be enrolled in courses that apply to a definite program (master's degree and/or credential).

Upper Division GE Requirements (9 Semester Units) and Learning Outcomes

Effective August 20, 2018

The introduction paragraph has been modified. It shall read as follows:

"At least 9 of the 48 semester units of GE must be from approved upper-division GE courses taken within the CSU. At CSUEB, upper-division courses are numbered 300 and above. Upper-division GE should not be taken until earning a minimum of 60 semester units in all baccalaureate-level coursework. Lower-division GE courses in Areas A1, A2, A3, and B4 must be passed with grades of C- (CR) or better before enrolling in any upper-division GE course."

Military & Veterans Information & Services

- Selective Service
- Servicemember's Opportunity College
- Veteran Student Services
- Veteran's Admission
- Dependents of Veterans
- Enrollment for Veterans & Reservists
- Credit for Military Training and USAFI
- Credit for Non-collegiate Instruction
- Fee Waivers & Exemptions (Section 66025.3 of the CEC) (See chapters: Undergraduate Fees & Financial Services or Admission, Enrollment, & Fees)

Selective Service

The federal Military Selective Service Act (the "Act") requires most males residing in the United States to present themselves for registration with the Selective Service System within thirty days of their eighteenth birthday. Most males between the ages of 18 and 25 must be registered. Males born after December 31, 1959, may be required to submit a statement of compliance with the Act and regulations in order to receive any grant, loan, or work assistance under specified provisions of existing federal law. In California, students subject to the Act who fail to register are also ineligible to receive any need-based student grants funded by the state or a public postsecondary institution.

Selective Service registration forms are available at any U.S. Post Office, and many high schools have a staff member or teacher appointed as a Selective Service Registrar. Applicants for financial aid can also request that information provided on the Free Application for Federal Student Aid (FAFSA) be used to register them with the Selective Service. Information on the Selective Service System is available and the registration process may be initiated online at <http://www.sss.gov>

Servicemember's Opportunity College

Cal State East Bay is a Servicemember's Opportunity College (SOC) and provides educational assistance for active duty servicemembers. SOC institutions offer the following benefits to servicemembers:

1. Admission procedures which ensure access to higher education for academically qualified military personnel;
2. Credit awarded for knowledge acquired through military experiences, if applicable to the servicemember's program of study;
3. Credit awarded for non-traditional learning, if applicable to the servicemember's program of study;
4. Acceptance of inter-institutional transfer credits, if they are appropriate for the servicemember's program and are consistent with the university's curriculum;
5. Residence requirements may be adjusted for military students who transfer, when there are other assurances of program balance;

6. Personnel with appropriate academic qualifications and experience administer and supervise SOC-related activities;
7. Educational services for veterans.

For information about the SOC program, contact the Veterans Affairs Coordinator.

Veteran Student Services

Veteran Student Services (VSS) provides wraparound student support services to all CSUEB veteran students. Program services are organized around three key areas:

1. One-on-one holistic academic counseling for veterans that includes academic advisement, career & goal planning, scholarship guidance, graduate school advising, guidance on balancing academic and personal life.
2. Benefits advising for veterans, reservists, and dependents of veterans on completing and filing VA claim forms for federal and state education assistance programs, including assistance with special procedures for veterans priority registration and dependents CalVet College Fee Waiver program.
3. Developing and implementing student programs, both social and educational, recognizing the needs and interests of our veteran student population.

Veteran Student Services, Library Annex (LI) 2200, Email

- Veterans Benefits Coordinator: Deborah Dorffi Hansana, (510) 885-3669
- Veterans Retention Coordinator: Cherie Randolph, (510) 885-2244

Veteran's Admission

Veterans who meet the admission requirements may attend under full veterans' benefits. Information concerning veterans' programs is outlined at www.csueastbay.edu/veterans.

First-time freshmen and lower division applicants who are California resident veterans of the U.S. Armed Forces, but who do not meet regular entrance requirements may be considered for undergraduate admission if, in the university's judgment, the veteran has the potential to perform satisfactorily at the collegiate level. To be considered under this provision, veterans must have served 181 days active duty since 1955 with a discharge or separation under conditions other than dishonorable.

If an applicant wishes to be considered under this provision, the application for admission must include supporting documents, including separation papers (DD 214), and a letter petitioning special consideration. Transcripts and test scores are also required.

Dependents of Veterans

Full-time enrollment for dependents of disabled or deceased veterans (under Chapter 30, 31, 33, 34, 35, or 106) is 12 or more semester units, according to V.A. regulations. Each semester, eligible dependents should consult the Veteran Affairs Coordinator before the first day of classes and submit their forms requesting certification of enrollment for V.A. benefits.

Note: Undergraduate and graduate students who apply for benefits as dependents of disabled or deceased veterans, must be enrolled in courses that apply to a definite program (baccalaureate or master's degree and/or credential).

Also see: Military & Veterans Information & Services chapter.

Enrollment for Veterans & Reservists

Full-time enrollment for veterans or reservists (under Chapter 30, 31, 33, 34, 35, or 106) is 12 or more semester units, according to V.A. regulations. Each semester, veterans and reservists should consult the Veteran Affairs Coordinator before the first day of classes and submit their forms requesting certification of enrollment for V.A. benefits.

Note: Undergraduate and graduate students who apply for Veterans' Benefits must be enrolled in courses that apply to a definite program (baccalaureate or master's degree and/or credential).

Credit for Military Training and USAFI

Cal State East Bay grants six (6) semester units of credit toward a baccalaureate degree for a student who completed basic training and was honorably discharged from military service of the United States after serving at least one year and one day, in accordance with the recommendation of the American Council on Education. Three (3) of these units may be applied toward General Education Area E.

Note: Credit is not given for completion of the six month reserve training programs.

Commissioned officers may receive an additional six (6) semester units, which may be considered upper division elective credit. In order to receive such credit applicants must present written certification from a recognized military authority, such as papers from a military separation center (service form DD-214 or DD-295) or a Joint Services Transcript (JST). Credit for specific courses may be allowed if the student has satisfactorily completed equivalent study in a military service school. The guidelines of the American Council on Education are followed in determining eligibility.

Cal State East Bay is a Servicemember Opportunity College (SOC).

Also see: Military & Veterans Information & Services chapter.

Credit for Non-collegiate Instruction

Cal State East Bay grants undergraduate degree credit for successful completion of non-collegiate instruction, either military or civilian, appropriate to the baccalaureate degree, which has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The numbers of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.

Note: Lower division, occupational courses designed to train technicians are not acceptable for university credit. Credit granted for non-collegiate instruction is not generally applied to general education or major requirements.

Academic Advising and Career Education (AACE)

AACE provides a full range of excellent academic advising and career counseling services to all undergraduate students. Services include guidance and official updates on students' progress toward completing their general education and graduation requirements (other than major requirements); assistance in developing realistic educational goals and a plan to achieve those goals; explanations of academic policies and procedures; workshops throughout the year; and group advising for new students.

AACE is the academic advising home for undergraduate students who have not yet declared a major at California State East Bay. It offers academic counseling and specialized assistance in exploring, researching and selecting a major based on individual, educational, and career goals. Undeclared students who are placed on academic probation are required to see an AACE academic counselor and/or attend the workshop "Understanding Academic Probation" each semester until good standing is achieved.

In addition, AACE provides academic counseling and support services for all undergraduates who are experiencing academic difficulties such as those on academic probation or those who have been recently

disqualified. Students (non-EOP) on academic probation are encouraged to meet with an AACE counselor to discuss strategies for improving their grades and academic standing.

Accessibility Services

The Accessibility Services department provides academic accommodations and support services to students with permanent and temporary disabilities.

Accessibility Services values the diversity of the Cal State East Bay student body and works with the faculty, staff, and administration to create and maintain an inclusive environment where individuals with differing abilities have full and equal access to all University programs.

Additionally, Accessibility Services administers related student support services to address social skills, time management, academic advising, behavioral health, and career services. Please see the webpage for links to the College Link Program, Project IMPACT, and Work-Ability IV to learn more about these services.

For additional information, please visit: <http://www.csueastbay.edu/accessibility/> or email: as@csueastbay.edu. Accessibility Services' main office is located at Cal State East Bay's Hayward campus in the Library Complex - LI 2400; phone: (510) 885-3868. On the Concord Campus Accessibility Services' office is located in the Academic Services Building - Room 114; phone: (925) 602-6716.

Associated Students, Inc.

Associated Students, Inc.

Phone: (510) 885-4843

<http://www.csueastbay.edu/asi>

As a 501.3c non-profit auxiliary corporation of the CSU, the Associated Students, Inc. (ASI) is the official voice of the students of Cal State East Bay. The ASI represents and advocates on behalf of the interests, needs, and concerns of the diverse and dynamic student body, and provides students with the services and resources to supplement and support their college experience. Each Spring, elections are held to fill the Board of Directors which consists of 15 students representing all the colleges and executive offices.

Business Office

Located in Suite 314 of the Original University Union, ASI Staff work with students to fulfill their organizational needs by providing special services to recognized student clubs and organizations.

Programming

ASI Presents produces a variety of special programs and events to meet the social, cultural and entertainment needs of Cal State East Bay's community.

Career Placement Information

Academic Advising and Career Education (AACE)

The AACE office may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. Any such data provided must be in a form that does not allow for the identification of any individual student. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in the California State University.

Career Preparation & Cooperative Education

Academic Advising and Career Education (AACE)

In addition to academic advising and counseling, AACE provides information and employment services to assist students in transitioning from the university to graduate school or the professional workplace. These services include career advising and coaching, career exploration and assessment, occupational information, job search assistance, and employment information and referral. The office maintains a comprehensive Career Library with books, periodicals, and online resources pertaining to job search, career guidance, and labor market information.

AACE offers regularly scheduled walk-in hours for resume critiques and career-related questions. Appointments are also available for longer counseling sessions. In addition, career assessments are available in AACE to provide personal assessment and occupational information.

AACE offers workshops throughout the year, at both the Hayward and Concord campuses. Subjects include resume writing, interview techniques, finding an internship, and personal skills assessments, among other topics. Workshop and event schedules are listed on the website and the University's password-protected, on-line database for full-time, part-time, seasonal, internship, and summer jobs available to students.

Employers conduct on-campus interviews for graduating seniors and alumni in the fall and spring semesters. Participants are encouraged to attend an orientation session, either online or in the Center, before registering for interviews.

AACE hosts job fairs throughout the academic year for all undergraduates and graduates to explore career options and employment opportunities. Job fairs feature employers from local, national, and worldwide organizations. AACE also sponsors targeted recruitment events with a specific career or employment focus. All of these are also listed on PioneerJobs.

Cal State East Bay alumni and other working professionals in a variety of career fields provide CSUEB students with valuable career exploration information at "Career Panels" and other events. These offer valuable insight into their career fields and experiences.

AACE's website (www.csueastbay.edu/aace) provides information about its services, workshops and events, major and career information, job listings, resume and interviewing guidelines, and other career resources. Students can search for jobs, obtain information about occupations and career fields, participate in the On-Campus Interview program, and view the calendar of upcoming career workshops and job fairs.

Cooperative Education & Internships

The goal of the Cooperative Education program is to enrich students' educational experience by demonstrating the relevance of university study to the world of work and by providing on-the-job experience that will make interns attractive to future employers after the degree is completed.

Students have completed internships in private businesses and public and non-profit agencies, including I.R.S./C.I.D., Shaw Environmental, P.G. & E., and many more.

Normally, a co-op or intern experience should begin during the sophomore year or later. The work schedule varies depending on the needs of the employer. Some students are offered employment with their co-op employer when they graduate.

To participate in the program, students must have at least a 2.0 GPA, be in good academic standing, and be enrolled as a regular student in the University. To register in an internship course, students must meet the requirements of the Internship program in their own academic department. Internship courses are numbered 398 and 498 for undergraduate students and 698 for graduate students. If an internship course is available, it will be listed in the Class Schedule. Students must complete forms in AACE, as well as register for the course in order to receive credit.

In addition to internship courses, many departments offer regular courses in internships or field practice in which students may enroll to receive academic credit for their work.

Note: International students on F-1 visas who are interested in registering for Co-op, internship, or field practice courses should contact the Center for International Education at (510) 885-2880 to discuss employment authorization for such courses.

Concord Campus Student Services

The Concord Campus

The Concord Campus is a branch campus of Cal State East Bay located at 4700 Ygnacio Valley Road near Clayton, Walnut Creek, Pleasant Hill, Pittsburg, and Antioch. The campus is uniquely positioned to serve the educational needs of Contra Costa County residents.

The 386-acre campus includes over 300 acres of open space, community sports fields, and views of Mt. Diablo and the Sacramento River Delta. In 2017, the Concord Campus celebrated 25 years of providing public higher education to students and professionals. Many residents benefit from Cal State East Bay's presence in the heart of Contra Costa County and enjoy the small class size and intimate educational experiences the Concord Campus provides.

Services and Facilities

The Concord Campus promotes student success through a variety of services. These include academic advising on General Education (GE) and graduation requirements, as well as administrative and instructional support services. Students are referred to their departments for major advising.

Instructional support services include advanced computer laboratories, modern smart classrooms, a branch of the University's Library, student collaboration room, on-site bookstore, outdoor fitness park, student lounge, and a free shuttle service between the campus and the Concord BART station.

For assistance, or information on any of these services, call (925) 602-6700 or visit <http://www.csueastbay.edu/concord>

Credentialing Student Services Center

The Credential Student Service Center (CSSC), in the College of Education and Allied Studies, provides a one-stop center for all students inquiring about credential program application requirements, procedures and information about applying for or renewing teaching credentials. The CSSC informs and assists students in fulfilling Early Field Experience, meeting program requirements, and maintaining student records. The Credential Student Service Center is located in the Art Education Building Room 235, (510) 885-2272.

California Resident Freshmen Early Start Program

The Early Start Program serves CSU admitted freshmen who have not demonstrated proficiency in written communication and/or mathematics/quantitative reasoning as determined by systemwide placement standards. Participation in the Early Start Program is required for students needing skills development in these areas; students will be expected to enroll in a written communication course or a mathematics/quantitative reasoning course (but not both) during the summer period prior to the start of the fall term. Students required to participate in the Early Start Program may choose to enroll at any CSU campus; the earned baccalaureate credit will be transferred seamlessly to the student's destination campus.

The goals of the Early Start Program are to:

- Better prepare students in written communication and mathematics/quantitative reasoning before the start of the fall semester of the freshman year;
- Add an important and timely assessment tool in preparing students for college; and
- Improve the opportunity for students to successfully complete their college degrees.

East Bay Cares

Cal State East Bay has created a network of structures, policies and procedures for working with at-risk students (including the potentially violent student) for the purposes of providing support to the individual student and ensuring a safe campus environment. With regard to students in distress, the University has the responsibility to set the policies and programs that promote a safe campus environment and to respond to students who are at risk or are an imminent danger to self or others. Each organizational unit of the

campus involved in this effort has a specific set of functions. However, it is the interaction of the various units of the system that is crucial when encountering the complex cases involving at-risk students.

To that end, Student Affairs has launched an East Bay Cares icon located on the University phone app. The Care team coordinates support services and appropriate University responses for identified students. For more information, see: www.csueastbay.edu/care/ or the EB CARES icon.

Educational Opportunity Program (EOP) & Summer Bridge

Established in 1969, the Educational Opportunity Program (EOP) provides admission and retention support services to low-income and educationally disadvantaged California residents who demonstrate the motivation and potential to succeed in college. EOP identifies and admits students who have the potential to succeed at California State University campuses, but who have not achieved their educational goals because of economic and/or educational background. EOP provides students with the resources, tools and skills to ensure academic and personal success through a variety of academic support services. These services provided by EOP include recruitment, preadmission counseling, special admissions, a *Summer Bridge program* (for entering EOP freshmen), specialized orientation sessions, academic advisement, personal counseling, skill-enhancement workshops, career guidance, peer advising, support groups, social/cultural activities, referral services, and EOP grants for eligible students.

Summer Bridge is a transition program for a select group of newly admitted Educational Opportunity Program (EOP) freshmen students to prepare them for their first year at Cal State East Bay. This intensive college readiness program is designed to provide incoming EOP exception admit freshmen with the following academic, social, and multicultural experiences to smooth their transition from high school to the University's environment:

- Provide classes in English and Mathematics to enhance academic skills
- Acquaint students to the University and its many resources
- Provide workshops in the foundations of college success
- Make new friends
- Meet college professors
- Work with their counselors and peer advisors
- Select Fall semester classes
- Provide cultural and social activities

EOP accepts students who qualify for regular admission, as well as a limited number of students who do not meet regular admission criteria. Only low-income and educationally disadvantaged undergraduate students who need admission assistance and/or support services to succeed at Cal State East Bay are admitted to EOP. Additionally, students must be first generation college students, meet the income eligibility criteria, and either be California residents or AB 540. They must also demonstrate academic potential and motivation to succeed.

To apply for admission to the program, prospective students must complete the online *CALSTATE Apply* Application for Undergraduate Admission and check the appropriate box for EOP services. Once the Cal State East Bay application is submitted (online), EOP applicants will receive an online EOP link and have

access to complete the EOP Applicant Information Form and two EOP recommendation forms. Students must have all three documents submitted in order for their EOP application to be complete.

EOP is a high-demand program which only accepts applications for Fall term from applicants new to the CSU system. Currently enrolled and/or previously enrolled students (not formerly in an EOP CSU program) are not eligible to apply. Applicants who submit all required documents will be reviewed and if selected, will be admitted to EOP. All EOP freshmen receiving exception admission are required to attend the EOP Summer Bridge program as a condition of their admission for Fall term.

For assistance or for further information about EOP and the Summer Bridge program, please visit the EOP Office at Student and Faculty Support (SF) Building 224, or online at www.csueastbay.edu/eop. Prospective applicants can also email eopadmissions@csueastbay.edu or call (510) 885-4683 for more information.

Student Enrollment Information Center

The Hayward campus Enrollment Information Center (EIC) is located on the first floor of the Student Services and Administration Building. It provides general information related to admission, financial aid, records and registration, and graduation evaluation. The Enrollment Information Center is open Monday through Thursday from 8:30 a.m. to 5:30 p.m.; and Friday from 10:00 a.m. to 5:00 p.m. During the first five days of instruction each semester extended hours are 8:00 am to 6:00 pm except Fridays when the closing time is 5:00 pm. The Cashier's Office, also located on the 1st floor of Student Services and Administration Building next to the Student Enrollment Information Center, is open Monday from 8:30 a.m. to 6:00 p.m.; Tuesday through Thursday from 8:30 a.m. to 5:00 p.m.; and Friday from 9:30 a.m. to 4:30 p.m. Students seeking service from departments should contact those offices directly.

Academic Assistance is open 9:00 a.m. to 6:00 p.m. Monday through Thursday, and until 5:00 p.m. on Friday for questions regarding services and to schedule advising appointments. Academic advising is available for all undergraduate students regarding their non-major degree requirements. Drop-in advising is available Tuesday and Wednesday, 10:00 a.m. to 12:30 p.m., and 3:00 p.m. to 5:30 p.m. Appointments may also be scheduled in advance and, if needed, 6:00 p.m. appointments are available. Students should bring all their advising records including their most recent general education evaluation or degree audit when they come for advising. Please call (510) 885-3621 for any current changes to advising hours, or go to www.csueastbay.edu/aace.

Concord Student Services is located in the lobby of the Academic Services Building. It is open Monday through Thursday, 9:00 a.m. to 6:30 p.m.

The Concord Campus Academic Services Office provides academic advising. Please call (925) 602-6700 for more information or visit the Concord Campus website at: www.csueastbay.edu/concord/

EXCEL Program

The EXCEL Program (a TRiO Student Support Services program) is funded by the U.S. Department of Education. The program provides a variety of educational services for Cal State East Bay undergraduates who have a demonstrated academic need and who are either low-income or first-generation college or have a disability. The EXCEL Program aims to increase the retention and graduation rates of program participants and to create a supportive environment that encourages academic success.

EXCEL's Academic Life Planning Counselors assist students in developing academic plans to complete their undergraduate degrees and solve academic related problems. They also provide advising in career and goal planning, scholarship assistance, graduate school advising, guidance on balancing academic and personal life, and personal counseling.

The Learning Skills Coordinator offers help in different ways of improving students' learning skills. Assistance includes offering tutoring in basic subjects, diagnosing academic weaknesses in learning and providing tips in test-taking, taking lecture notes, and study skills. During the academic year, EXCEL offers workshops with topics ranging from study skills to graduate schools to internship/jobs to enhance students' knowledge.

To apply to the EXCEL Program or to find out more about its services, call (510) 885-3722 or visit the main office located in the Student and Faculty Support Building (SF) Suite 202. Additional information can also be found on the website at www.csueastbay.edu/excel.

International Admission Office

All matters pertaining to the admission of international students are handled by the International Admissions Office. Students from other countries should consult with the International Admissions Office regarding visas, eligibility for employment, and any special academic requirements.

The CSU must assess the academic preparation of international students. For this purpose, "international students" include those who hold U.S. temporary visas as students, exchange visitors, or in other non-immigrant classifications. Cal State East Bay uses separate requirements and application filing dates in the admission of "foreign students". Verification of English proficiency (see below), financial resources, and academic performance are each important considerations for admission.

Prospective Graduate Students

Graduate applicants must hold a degree equivalent to a four-year bachelor's degree obtained from a recognized university. Applicants must also have the equivalent of a 2.50 grade point average, or higher, in their last two years of college-level courses.

International Education & Student Exchange Programs

Center for International Education

The Center for International Education (CIE) provides a range of services to international students and scholars that are designed to facilitate their transition to a new environment and to optimize their educational opportunities while at Cal State East Bay. These services include:

1. pre-departure advising
2. orientation for new students
3. assistance in understanding and complying with University rules and regulations
4. counseling designed to help students adjust to life in the USA
5. advice on relevant immigration regulations
6. guidance for students regarding legal employment while in student status
7. referrals for on-campus support services
8. workshops on topics of special interest to international students.

Study Abroad Programs

The study abroad opportunities offered through California State University, East Bay allow Cal State East Bay students to study overseas for one semester or academic year and earn academic credit towards their degree. The experience leads to personal growth and acquisition of valuable skills, such as language fluency and cross-cultural understanding. Financial aid (except Work-Study) may apply, and study abroad scholarships are available.

CSU International Programs: Students can study abroad for a full academic year through the CSU system.

Bilateral Programs: Bilateral exchange programs are one-to-one exchanges with another university overseas. Program length varies from one semester to a full academic year.

International Student Exchange Program (ISEP): Through ISEP, students have the opportunity to study in over 120 study sites around the world for a semester or a full academic year.

Summer London Program: The British Documentary Experience is a study abroad program designed to give Communication major, as well as, non-major undergraduate students a practical and powerful educational opportunity to study the history and practice of documentary filmmaking in the United Kingdom.

National Student Exchange Program

Cal State East Bay students can study at another university in the United States or Canada through the National Student Exchange Program (NSE). NSE offers study opportunities in diverse university settings and provides access to a wide array of courses and programs. Students may use financial aid. Coursework applies to their degree.

For additional information on the Center for International Education's services or the programs listed above contact:

Center for International Education

Program for Accelerated College Education (PACE)

Program for Accelerated College Education (PACE) is an innovative program which enables working adult students to make accelerated progress toward a Bachelor of Arts degree with a major in either Human Development and Women's Studies or Liberal Studies. PACE classes are the same as those taken by students pursuing their degrees through the traditional university format. The only difference is the carefully structured course sequence which includes only courses in the evening, weekend and/or online, as well as the dedicated academic advising for PACE students. More detailed information is available at www.csueastbay.edu/pace.

The PACE program is available at both the Hayward and Concord campuses.

Recreation and Wellness Center (RAW)

The Recreation and Wellness Center (RAW) offers comprehensive programs and services centered on promoting healthy lifestyle choices through dynamic and inclusive best-practice approaches.

Memberships are available to students, staff, faculty, alumni, and community members. Members obtain access to the 54,000 square foot facility which includes a 2-story fitness center, equipment rental counter, locker rooms with showers, the wellness center, a relaxation room, and a 2-court gymnasium with an indoor track. Services include fitness classes, personal training, intramural sports leagues, and open recreation hours. Designed to LEED (Leadership in Energy and Environmental Design) Gold standards, the RAW's facility design was recognized with a Facility of Merit Award from Athletic Business in 2011.

Within the RAW, wellness programs are offered to provide students with holistic approaches that integrate physical, psychological, emotional and social aspects of a student's health experience. Interactive workshops focus upon nutrition, fitness, sexual health, alcohol, other drugs, and self-care topics. Massage therapy is also available for currently registered students.

The RAW offers students internships and student assistant work positions to gain experience, student leadership, and professional development.

For more information about RAW facilities, programs, or services visit <http://www.csueastbay.edu/raw> or call (510) 885-4749 for more information.

Renaissance Scholars Program

Jointly funded by the University, private foundations, non-profit organizations, and individual donations, the Renaissance Scholars Program provides a variety of educational and support services for current or former foster youth attending Cal State East Bay. The major goals of the program are to enhance the retention and graduation rates of program participants and to create a supportive environment that encourages academic success.

Renaissance Scholars assists students in developing life and leadership skills while providing a wide variety of services including academic, career, and psychological counseling, scholarship opportunities, emergency assistance, priority registration, priority placement in on-campus housing, recognition events, workshops, and field trips.

To qualify for Renaissance Scholars, a student must meet the following criteria:

- Be a current or former foster youth attending Cal State East Bay between the ages of 17-23
- Qualify for "Independent Student Status" under federal financial aid guidelines
- Be a California resident
- Be a graduating high school senior or incoming community college transfer student
- Have a minimum high school GPA of 2.0
- Transfer students must have earned a 2.0 GPA in all transferable coursework
- Demonstrate high motivation and potential

To find out more about the Renaissance Scholars Program browse the website at www.csueastbay.edu/renaissance, email us at renaissance@csueastbay.edu, call (510) 885-4426, or visit the office in the Student and Faculty Support (SF) building, suite 202.

Safety Programs

Cal State East Bay enjoys low crime statistics due to an on-campus, professionally trained police department which delivers public safety services to the campus community. The University Police Department programs such as the Bicycle Patrol and Escort Service provide Cal State East Bay with a community-oriented form of police services, which allows for personal interaction between police personnel and members of the university community while providing an increased level of crime prevention patrol on campus grounds.

The University Police Department offers several on-going programs available to staff, faculty, and students on the following topics:

- alcohol,
- drug awareness,
- acquaintance rape and awareness,
- self-protection for women.

The Department also distributes a wide variety of crime prevention materials, as well as, offering vehicle lockout, battery failure, fingerprinting, and lost and found assistance.

The following information may be obtained from the University Police Department, (510) 885-3791:

- Information concerning Cal State East Bay policies, procedures, and facilities for students and others to report criminal actions or other emergencies occurring on campus.
- Information concerning Cal State East Bay's annual campus security report and annual fire safety report. This information is also available on the CSUEB website at Campus Security Report.
- Information concerning the prevention of drug and alcohol abuse.

Student Center for Academic Achievement

The Student Center for Academic Achievement (SCAA) provides tutoring and academic support services that are as diverse as Cal State East Bay's students - from peer tutoring, to group supplemental instruction

sessions, to online assistance and tutoring. Its FREE services are available to fully matriculated CSUEB students. SCAA programs include:

- Peer Tutoring:
 - One-on-one assistance in Math, Writing, Statistics, Physics, Chemistry, Biology, and Computer Science with a trained peer tutor. The tutor's role is to not do the work for students, but to guide them in the process of learning the concepts in their courses.
- Online Writing Lab:
 - The SCAA Online Writing Lab (OWL) allows CSUEB students to submit papers online and receive writing tutor feedback via email. The SCAA OWL makes every effort to return papers within 72 hours after submission.
- eTutoring:
 - If student need assistance in subjects currently not tutored at the SCAA or cannot come to the SCAA during its regular operating hours, they can log in to the eTutoring platform on the SCAA website to get near-24/7 assistance in courses such as Accounting, Spanish, and Biology. Click here to access eTutoring.
- Writing Associates Program:
 - Trained student tutors are paired with an undergraduate course for one semester to assist students in writing assignments that engage undergraduate students in the entire writing process, including feedback and revision.
- Supplemental Instruction:
 - Provides peer-assisted, collaborate, and active study sessions that improve understanding of subject content, fosters critical thinking, and encourages life-long learning to classes that are considered "at risk" (i.e. large lecture classes). These student sessions are typically led by a student who did well in the course.
- WST Prep Programs:
 - The SCAA offers one-time in-person workshops, an online workshop, and an intensive, invite-only WST Boot Camp.

Cal State East Bay students are encouraged to use the Center regularly to improve their academic performance no matter what their skill level or class standing. Students are also encouraged to attend events sponsored by the Center, such as our semester late-night extended hours tutoring event and contests.

The Student Center for Academic Achievement is located in the Upper Mall of the Library. Call (510) 885-3674 or visit its website for information regarding hours, specific tutoring times, workshop dates, event information, or to schedule a one-time appointment.

Student Health and Counseling Services

Student Health and Counseling Services (SHCS) provides quality health care by board certified, licensed, and credentialed health care providers and counselors to current, regularly enrolled Cal State East Bay students. SHCS' goal is to assist students in achieving and maintaining optimal health while pursuing their academic and career goals.

Student Health and Counseling Services hours of operations are Monday through Wednesday and Friday from 8:30 a.m. to 5:00 p.m., Thursdays from 10:00 a.m. to 5:00 p.m. Hours may vary during Summer term and semester breaks. Students can be seen on an appointment basis. Same day appointments are available for urgent needs. Limited services are also offered during semester breaks. Medical and counseling services are also available at the Concord Campus. After hours and weekend mental health phone crisis counseling is available by calling (510) 885-3735, and choosing option "2". For more information, please call (510) 885-3735 or visit www.csueastbay.edu/shcs.

Funded by student health fees, SHCS provides an extensive array of outpatient health and mental health care services at no or low cost to students. General medical visits with board-certified, licensed medical doctors, nurse practitioners, nurses, and medical assistants for the care, evaluation, and treatment of acute illnesses and injuries, health education, and family planning are available. SHCS also provides confidential individual, couples, and group counseling. All counselors are licensed or pre-licensed professionals.

Services offered at SHCS include:

General Health Services:		Reproductive Health Services*:
Health Education	Personal Counseling	Birth Control
Hearing Tests	Pharmacy*	HIV Testing
Immunizations*	Physical Exams	STI Testing & Treatment
Laboratory*	Physical Therapy	
Massage Therapy*	Psychiatry	
Orthopedics	Radiology (x-ray)*	
* Fees may apply		

To provide the holistic experience of college health, the Wellness Center also offers a Relaxation Room and a Wellness Room with health education activities and information. The Wellness Center is located in the Recreation and Wellness (RAW) Building. For more information visit www.csueastbay.edu/raw.

Confidentiality

All medical and counseling information is confidential by law and will not be released without the student's written consent.

Accreditation

SHCS is accredited by the Accreditation Association for Ambulatory Health Care, Inc. The SHCS facility and services meet the national standards for providing the highest quality of health care available.

Peer Advocates for Wellness (PAW)

PAW is an opportunity for CSUEB students to become involved with SHCS. Under the supervision of Health & Wellness Services, PAW interns are trained peer health educators who provide resource information, peer support, and outreach about health and wellness issues. For more information, email: paw.csueb@gmail.com.

Student Health Advisory Committee (SHAC)

SHAC advocates for the health needs of students and advises the SHCS Director and University President on programs, scope of services, and hours of operation for SHCS. For more information, email: shac.csueb@gmail.com.

Insurance

Students are strongly encouraged to carry outside coverage for after-hours care, emergency situations, or when referrals to outside providers are needed. For more information about insurance options, visit: www.coveredca.com, www.csuhealthlink.com, or email: csuebhealthinsurance@csueastbay.edu.

Student Life & Leadership Program

Student Life and Leadership Programs provides opportunities for student learning beyond the classroom and enhances the mission of the university through the coordination and support of a variety of special programs that promote campus life, leadership and community engagement. Special programs include orientation for new students and families; the recognition and development of student clubs and organizations; leadership conferences, seminars and workshops; and campus wide programs and events.

More than 120 student clubs and organizations are active at Cal State East Bay. They encompass a broad range of interests, including academic, cultural, recreational, religious, special interest and Greek organizations (fraternities and sororities). These groups also offer important opportunities for personal growth and development, as well as valuable educational experiences beyond the traditional classroom setting. Student clubs and organizations sponsor many special events, including lectures, films, music, cultural programs, and social activities each quarter.

The Student Life and Leadership Programs staff provides support and consultation to student clubs and organizations in planning programs and events; fund raising, publicity and promotion; and developing service projects and cultural programs. The staff also assists students interested in forming new student organizations or participating in leadership development programs.

Fraternities and sororities actively contribute to campus life at Cal State East Bay. The Greek system includes five social sororities, six social fraternities, five cultural fraternities, six cultural sororities, two co-ed academic fraternities, and one co-ed community service fraternity. In addition to offering

networking and social activities, fraternities and sororities encourage scholarship, leadership, community service, and affiliations that last a lifetime. Student Life and Leadership Programs provides support and assistance to individual chapters, as well as to the Greek governing councils.

Student Life and Leadership Programs offer students the opportunity to enhance their leadership skills through a variety of seminars, classes and conferences presented by campus and community leaders. Through these leadership programs, students gain the insight and skill to assume a leadership role on campus, in their career or in the community; build alliances with faculty, staff, alumni and community leaders; and enhance their future leadership potential. Various leadership programs, depending on the student's class level and interest, are offered fall, winter, and spring quarters and are open to all Cal State East Bay students

Getting involved in student clubs and organizations is an excellent way to meet other students, connect and engage with the campus community, develop leadership skills, pursue special interests, and persist to graduation. The University encourages students, faculty and staff to become active and involved in student clubs and organizations. More information is available from Student Life and Leadership Programs located in the New University Union, Room 2011, (510) 885-3657; email: studentlife@csueastbay.edu; website: <http://www.csueastbay.edu/students/campus-life/student-life/slife/index.html>.

Leadership Development Programs

Student Life and Leadership Programs and the Division of Student Affairs offer students the opportunity to enhance their leadership skills through a variety of seminars, classes and conferences presented by campus and community leaders. Through these leadership programs, students gain the insight and skill to assume a leadership role on campus, in their career or in the community; build alliances with faculty, staff, alumni and community leaders; and enhance their future leadership potential.

Various leadership programs, depending on the student's class level and interest, are offered fall and spring semesters and are open to all Cal State East Bay students. For additional information, contact Student Life and Leadership Programs in the University Union, Room 2011, (510) 885-3657; email: studentlife@csueastbay.edu; website: <http://www.csueastbay.edu/slife>.

Student Services Operation for Success

The Student Service Operation for Success (SSOS) is funded by the U.S. Department of Education. The SSOS program began in late 2011 and provides a full range of academic support services, counseling and cultural activities directed at historically underserved Asian American and Pacific Islander students. California State University East Bay is designated as an Asian American Native American Pacific Islander Serving Institution (AANAPISI). SSOS promotes academic success for Asian American and Pacific Islander students in college and helps students be career ready when they graduate. The program's services include: Peer Mentorship, Academic Tutoring, Student Club Sponsorship, Leadership Class, Asian and Pacific Islander themed campus events, Academic Lecture Series, Financial Aid Workshops, Career Readiness Workshops, SSOS Workshops and more.

To apply to the SSOS Program or to find out more about its services, email us at: ssos@csueastbay.edu, call (510) 885-SSOS (7767), or visit their office at SF 202. Additional information can also be found on the website at: <http://www.csueastbay.edu/apass/>

Testing Services

The Testing Office provides a wide variety of services and assistance to students, faculty, staff and the community.

Students should be aware of CSUEB's test requirements. They are:

- The University Writing Skills Requirement (UWSR). One way to satisfy the UWSR is the Writing Skills Test (WST). The WST must be taken by all undergraduate students at the beginning of the junior year, and by all graduate students upon admission to a program unless they elect to meet the requirement through coursework.
- The American Institutions Requirement in U.S. History, the U.S. Constitution, and California State and Local Government may be met by coursework or tests.

Additional information is available on the Testing Office website.

Other tests administered by the Testing Office:

The ACT (American College Test) and the SAT (Scholastic Aptitude Test), one of which is required for entering freshmen. For more information see the Application & Admissions chapter.

The MAT (Miller Analogies Test) is required by some graduate programs.

The CLEP (College Level Examination Program) was created by the College Board to allow students to demonstrate college-level achievement through a series of exams in undergraduate college courses.

The TEAS (Test of Essential Academic Skills) is required for entering in Nursing Program.

The Math Proficiency Assessment (ALEKS PPL) for students who wish to demonstrate proficiency in College Algebra and/or Pre-calculus in order to fulfill pre-requisite requirements for Math 120, 130 or 180.

Additional tests available on the Testing Office website.

ACT - American College Testing Program

CBEST - California Basic Educational Skills Test

CLAD/BCLAD - Bilingual/Cross cultural Language and Academic Development

CLEP - College Level Examination Program

CSET - California Subject Examinations for Teachers

GMAT - Graduate Management Admission Test

GRE - Graduate Record Examinations

IELTS - International English Language Testing System

LSAT - Law School Admission Test

MAT - Miller Analogies Test

MCAT - Medical College Admission Test

PRAXIS - Praxis Test

RICA - Reading Instruction Competence Assessment

SAT - Scholastic Aptitude Tests

SSAT - California Single Subject Assessments for Teachers

TEAS - Test of Essential Academic Skills

TOEFL - Test of English as a Foreign Language

Transcript Requests

Students may obtain official transcripts of coursework taken at Cal State East Bay (including continuing education and special session courses) from the Office of the Registrar. Refer to the transcripts section on the University website for current ordering procedures, forms and costs. Transcript Request forms that are mailed must also include a check (*payable to Cal State East Bay*) for the current fee. **Please do not send cash with mailed requests.**

Students with financial and judicial holds placed by the University, or with academic, document, library, equipment, or other obligations to Cal State East Bay, are not permitted to receive transcripts or to request transcripts to be sent to other institutions.

Tutoring Services

Free tutoring services are available at the Hayward Campus:

- *Student Center for Academic Achievement* - A staff of more than 30 peer tutors connects with students on their level. Workshops include writing test preparation, grammar review, graduate writing, APA documentation and academic success strategies.
- *EXCEL* - EXCEL students are eligible for one-on-one weekly tutoring in selected courses in Business, Biology, Chemistry, Computer Science, Math, Statistics, Philosophy, Physics, and Writing. WST Preparation and Computer Skills are only provided in a group tutoring format.
- *Project IMPACT*- Project IMPACT offers eligible students with disabilities individualized services such as tutoring and advising.

See each program in this chapter for additional information.

About Academic Freedoms

California State University, East Bay exists for the transmission of knowledge, the pursuit of truth, the development of students, and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students are encouraged and expected to develop the capacity for critical judgment, to accept appropriate responsibilities, and to engage in rational debate utilizing critical thinking in a sustained and independent search for truth.

Freedom to teach and freedom to learn are inseparable components of academic freedom. The freedom to learn depends largely upon appropriate opportunities and conditions in the classroom, on the campuses and in the larger community. The responsibility to secure and to respect general conditions conducive to the freedom to teach and learn is shared by all members of the academic community.

Fundamental Freedoms, Rights, and Responsibilities

A basic component of the University mission statement is the value of diversity in background, interests, experiences, beliefs, and cultures. Faculty, staff, and students represent a variety of interests. Students come to campus with unique experiences, and, while on campus and as a result of their interaction in the formal classroom and co-curricular programs and activities, they continue to develop and expand their knowledge and pursuits.

In the Classroom

The institution maintains minimum standards in order to preserve the following fundamental freedoms for students:

- Freedom to teach and freedom to learn are inseparable components of academic freedom.
- Student academic freedom is incorporated into the classroom setting where learning is concentrated and structured.
- Faculty and students share responsibility for student academic freedom in the classroom.

The following minimum standards enhance student academic freedom in the classroom.

Freedom of Expression

- Students are free to take reasonable exception to the data or views offered in any course of study and to reserve judgment about matters of opinion. Students are responsible for learning the content of any course of study for which they are enrolled.
- Protection Against Improper Academic Evaluation
- Students are responsible for maintaining standards of academic performance established for each course in which they are enrolled. Orderly procedures protect students from prejudice or capricious academic evaluation.

Protection Against Improper Disclosure

- Policies and practices protect students from improper disclosure of information about the students' views, beliefs, and political activities which professors acquire in the course of their work as instructors, advisers, and counselors and such information shall be considered confidential. Judgments of academic ability and character may be provided under appropriate circumstances, normally with the knowledge or consent of the student.

The Grade Appeal and Academic Grievance Committee

Academic Programs and Services, located in *Student Services and Administration* building (SA 4500) operates under the supervision of the Academic Senate and exists to resolve grade disputes and other academic grievances. Reports of discrimination will be handled by Risk Management and Internal Control located in *Student Services and Administration* (SA 1600), and can be contact at: (510) 885-4918; TTY (510) 885-7592.

Access and Retention

In all aspects of access to programs and services provided or sponsored by the institution, students have a right to be free from discrimination on the basis of individual attributes, including, but not limited to race, color, gender, age, disability, national origin, or sexual orientation. Admission to the university is limited by standards which are promulgated by the California legislature and the CSU Board of Trustees. Realities of the campus budget and facilities may impose additional constraints.

Beyond academic, fiscal, and physical limits to admission to the University, prospective and enrolled students have a right to unobstructed access to campus programs and services. In special cases, and with the CSU Chancellor's concurrence, selected degree programs may be given "impacted" status, which adds certain stipulations and/or restriction on access to those majors.

Students have a right to be informed about the institution's policies for access and retention in order to take responsibility for making appropriate choices and to participate effectively in campus programs and services. Issues regarding freedom of access should be referred to the supervisor(s) of the appropriate program or service first. If the matter is not resolved satisfactorily, the student has the right to refer the issue through administrative channels to the Vice Presidents, or to Academic Affairs.

Reports of student misconduct including those relating to academic dishonesty will be handled by the Office of Student Conduct, Rights and Responsibilities located in the *Student Services and Administration* building (1st Floor), and can be reached at: (510) 885-3763.

Off-Campus Freedom of Students

The University has the responsibility to protect students' citizenship rights on campus, and with regard to approved activities which occur off campus. Off-campus activities of students may, upon occasion, result in violation of the law. Students who violate the law may incur penalties prescribed by civil authorities, but institutional authority will not be used merely to duplicate the functions of general laws. As stated in the University's Policy on Time, Place and Manner of Free Expression, "Universities are venues for creative, thoughtful and respectful discourse where conflicting perspectives are vigorously debated and thoroughly discussed."

Freedom of Association

Students are free to organize and join associations to promote their common interests and to have these associations be considered for recognition by the University. "Institutional recognition" is understood to refer to the formal relationship between the student organization and the institution. Recognized student organizations are responsible for abiding by all institutional regulations for student organizations. These regulations are available in the Office of Student Life and Leadership Programs (New University Union, Room 2011).

Freedom of Inquiry and Expression

Students and student organizations are free to examine and discuss all questions of interest to them and to express opinions publicly and privately as long as others' rights are not violated in the process. Students are always free to support causes by orderly means that do not disrupt the regular and essential operation

of the institution. However, such public expressions or demonstrations speak only for the student(s) involved, and not for the institution.

Course Requirement Information - Course Syllabus

Faculty shall provide students with a course syllabus, which should be placed on the course Blackboard site at the beginning of the semester, containing the following information:

- Name of instructor, office location, office hours, office telephone number, and @csueastbay.edu e-mail;
- Course number and title, classroom location, number of units, prerequisites (if any), a course description, objectives and student learning outcomes;
- Required texts and any other required and/or recommended materials;
- Student-supplied equipment and materials necessary for course activities;
- Course specific requirements and their due dates, such as examinations, quizzes, papers, field trips, and labs;
- Grading policy, which includes the relative weight of examinations, quizzes, papers, class participation, and other factors, and the grading scale;
- Attendance and make-up work policies and implications for grading;
- The following statement and reference to University policies regarding cheating and academic dishonesty: **"By enrolling in this class the student agrees to uphold the standards of academic integrity described at: <http://www.csueastbay.edu/academic/academic-policies/academic-dishonesty.html>."**
- Accommodations for students with disabilities.
 - Sample statement: **"If you have a documented disability and wish to discuss academic accommodations, or if you would need assistance in the event of an emergency evacuation, please contact me as soon as possible. Students with disabilities needing accommodation should speak with the Accessibility Services."**
- Emergency information.
 - Sample statement: **"California State University, East Bay is committed to being a safe and caring community. Your appropriate response in the event of an emergency can help save lives. Information on what to do in an emergency situation (earthquake, electrical outage, fire, extreme heat, severe storm, hazardous materials, terrorist attack) may be found at: <http://www.csueastbay.edu/af/departments/risk-management/ehs/emergency-management/index.html>. Please be familiar with these procedures. Information on this page is updated as required. Please review the information on a regular basis."**

Faculty are also encouraged to include additional items such as:

- Course outline;
- Types of quizzes and exams (e.g., true-false, multiple choice, short-answer, essay);
- Availability of appropriate tutoring services;
- Policies regarding audio and video recording and use of electronic devices;
- Reference to University classroom behavior policies;
- Classroom food and drink policies.

Furthermore, faculty should advise students of their expectations in the course no later than the end of the second class. Any changes in course requirements should be communicated to students in a timely

manner. It is the student's responsibility to read the course statement and to request any clarification of course policies. If a student adds the course after the first week of class, they must seek course information in a timely manner.

Final Examination Policy

The student can expect the instructors to provide comprehensive course requirement information for each course at the beginning of the semester. This will include the work that is expected of the student and the basis on which the student will be evaluated. Most courses have graded assignments throughout the semester and a final examination or paper. The University's policy states that final examinations must be given only at the times published in the schedule of classes on *MyCSUEB*. The purpose of this policy is to ensure fairness for all students. Exceptions are, therefore, rare and must be approved in writing by the department chair. A student should contact the department chair or college dean if they believe this policy is not being followed. If the student is in a course which has a separate laboratory, activity or discussion section, the instructor is permitted to give a separate final examination (but only for that section) during the last regularly scheduled meeting of the section.

Faculty Office Hours Policy

The faculty of the University are available during regularly scheduled office hours, which are at times other than scheduled classes. The times of the office hours are posted outside each faculty office, at the faculty member's department, on the department website, and on the faculty member's course syllabi. The faculty member informs the department of their office hours the first day of classes each semester. *Note: There is a proposal to amend the following policy regarding office hours. If approved by the University President, the policy may differ from the one below.*

Full-time faculty members maintain a minimum of three (3) office hours per week and also make provision for meeting with students by appointment at a mutually convenient time beyond the stated office hours. The full-time faculty member's office hours shall be held over at least two days and at least in half-hour blocks. Part-time faculty will maintain the equivalent of one (1) office hour per week for each four WTUs of their teaching load with a minimum of one hour and a maximum of three hours per week.

Faculty teaching online must also hold office hours and may make alternative arrangements with the Department Chair to be available online or by telephone. Online faculty's office hours must include at least one (1) hour of availability by telephone per week.

If for any reason a faculty member cannot meet the posted office hours, the faculty member will inform the Department Chair. If possible, the department will note the absence on the faculty office door.

Note: Normal office hours are to be maintained during the Final Examination period. If a final examination conflicts with a posted office hour, an alternative hour is to be posted for that week alone.

Privacy Rights of Students in Education Records

The federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) set out requirements designed to protect students' privacy in their records maintained by the campus. The statute and regulations govern access to certain student records maintained by the campus and the release of such records. The law provides that the campus must give students access to most records directly related to the student and must also provide opportunity for a hearing to challenge the records if the student claims they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under this law does not include any right to challenge the appropriateness of a grade determined by the instructor. The law generally requires the institution to receive a student's written consent before releasing personally identifiable data about the student. The institution has adopted a set of policies and procedures governing implementation of the statute and the regulations. Copies of these policies and procedures may be obtained at (designate location on campus). Among the types of information included in the campus statement of policies and procedures are:

- (1) the types of student records maintained and the information they contain;
- (2) the official responsible for maintaining each type of record;
- (3) the location of access lists indicating persons requesting or receiving information from the record;
- (4) policies for reviewing and expunging records;
- (5) student access rights to their records;
- (6) the procedures for challenging the content of student records;
- (7) the cost to be charged for reproducing copies of records; and
- (8) the right of the student to file a complaint with the Department of Education.

The Department of Education has established an office and review board to investigate complaints and adjudicate violations. The designated office is: Family Policy Compliance Office, U.S. Department of Education, 400 Maryland Avenue, SW, Washington, D.C. 20202-5920.

The campus is authorized under the Act to release "directory information" concerning students. "Directory information" may include the student's name, address, telephone listing, electronic mail address, photograph, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, grade level, enrollment status, degrees, honors, and awards received, and the most recent previous educational agency or institution attended by the student. The above-designated information is subject to release by the campus at any time unless the campus has received prior written objection from the student specifying what information the student requests not be released. Written objections should be sent to the Office of the Registrar.

The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in the campus's academic, administrative or service functions and have reason for accessing student records associated with their campus or other related academic responsibilities. Student records will be disclosed to the Chancellor's Office of the CSU in order to conduct research, to analyze trends, or to provide other administrative services on behalf of the CSU. Student records may also be disclosed to other persons or organizations under certain conditions (e.g., as part of the accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; or to other institutions to which the student is transferring).

CSU Nondiscrimination Policies & Complaint Procedures

Protected Status: Genetic Information, Marital Status, Medical Condition, Nationality, Race or Ethnicity (including color or ancestry), Religion or Religious Creed, and Veteran or Military Status.

The California State University (CSU) does not discriminate on the basis of age, genetic information, marital status, medical condition, nationality, race or ethnicity (including color and ancestry), religion (or religious creed), and veteran or military status - as these terms are defined in CSU policy - in its programs and activities, including admission and access. Federal and state laws, including Title VI of the Civil Rights Act of 1964 and the California Equity in Higher Education Act, prohibit such discrimination. The Discrimination, Harassment & Retaliation Administrator of Risk Management & Internal Control has been designated to coordinate the efforts to comply with all applicable federal and state laws prohibiting discrimination on these bases.

Inquiries concerning compliance may be presented to:

Discrimination Harassment & Retaliation Administrator

Cal State East Bay, Risk Management and Internal Control

25800 Carlos Bee Blvd., (SA) suite 1600

Hayward, CA 94542

(510) 885-4326 (V), (510) 885-7592 (TTY), (510) 885-4690 (Fx)

CSU Executive Order 1097, revised October 5, 2016 (<http://www.calstate.edu/EO/EO-1097-rev-10-5-16.pdf>) (or any successor executive order) is the systemwide procedure for all complaints of discrimination, harassment or retaliation *made by students* against the CSU, a CSU employee, other CSU students or a third party.

Protected Status: Disability

The California State University (CSU) does not discriminate on the basis of disability (physical and mental) - as this term is defined in CSU policy - in its programs and activities, including admission and access. Federal and state laws, including sections 504 and 508 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990, prohibit such discrimination.

The Director of Accessibility Services (more information found here: <http://www.csueastbay.edu/accessibility/>) has been designated to coordinate the efforts of Cal State East Bay to comply with all applicable federal and state laws prohibiting discrimination on the basis of disability.

Inquiries concerning compliance may be presented to:

Discrimination Harassment & Retaliation Administrator

Cal State East Bay, Risk Management and Internal Control

25800 Carlos Bee Blvd., (SA) suite 1600

Hayward, CA 94542

(510) 885-4326 (V), (510) 885-7592 (TTY), (510) 885-4690 (Fx)

CSU Executive Order 1097 (<http://www.calstate.edu/EO/EO-1097-rev-10-5-16.pdf>) (or any successor executive order) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party.

Protected Status: Gender (or sex), Gender Identity (including transgender), Gender Expression and Sexual Orientation

The California State University (CSU) does not discriminate on the basis of gender (or sex), gender identity (including transgender), gender expression or sexual orientation - as these terms are defined in CSU policy - in its programs and activities, including admission and access. Federal and state laws, including Title IX of the Education Amendments of 1972, prohibit such discrimination.

Risk Management and Internal Control has been designated to coordinate the efforts of Cal State East Bay to comply with all applicable federal and state laws prohibiting discrimination on these bases.

Inquiries concerning compliance may be presented to:

Discrimination Harassment & Retaliation Administrator

Cal State East Bay, Risk Management and Internal Control

25800 Carlos Bee Blvd., (SA) suite 1600

Hayward, CA 94542

(510) 885-4326 (V), (510) 885-7592 (TTY), (510) 885-4690 (Fx)

The California State University is committed to providing equal opportunities to all CSU students in all campus programs, including intercollegiate athletics. CSU Executive Order 1097 Revised October 5, 2016 (www.calstate.edu/EO/EO-1097-rev-10-5-16.pdf) (or any successor executive order) is the systemwide procedure for all complaints of discrimination, harassment or retaliation made by students against the CSU, a CSU employee, other CSU students or a third party.

Title IX

Title IX of the Education Amendments of 1972 protects all people regardless of their gender, gender identity, gender expression or sexual orientation from gender discrimination, which includes sexual harassment and violence:

Sex Discrimination means an adverse action taken against a student by the CSU, a CSU employee, or another student because of gender or sex (including sexual harassment, sexual misconduct, domestic violence, dating violence and stalking) that is perpetrated against an individual on a basis

prohibited by Title IX of the Education Amendments of 1972, 20 U.S.C. §1681 et seq., and its implementing regulations, 34C.F.R. Part 106 (Title IX); California Education Code §66250 et seq., and/or California Government Code §11135.

Sexual Harassment, a form of sex discrimination, is unwelcome verbal, nonverbal or physical conduct of a sexual nature that includes, but is not limited to, sexual advances, requests for sexual favors, and any other conduct of a sexual nature where:

1. Submission to, or rejection of, the conduct is explicitly or implicitly used as the basis for any decision affecting a complainant's status or progress, or access to benefits and services, honors, programs, or activities available at or through the university; or
2. The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the complainant, and is in fact considered by the complainant, as limiting his or her ability to participate in or benefit from the services, activities or opportunities offered by the university; or
3. The conduct is sufficiently severe, persistent or pervasive that its effect, whether or not intended, could be considered by a reasonable person in the shoes of the complainant, and is in fact considered by the complainant, as creating an intimidating, hostile or offensive environment.

Sexual harassment could include being forced to engage in unwanted sexual contact as a condition of membership in a student organization; being subjected to video exploitation or a campaign of sexually explicit graffiti; or frequently being exposed to unwanted images of a sexual nature in a classroom that are unrelated to the coursework.

Sexual harassment also includes acts of verbal, non-verbal or physical aggression, intimidation or hostility based on gender or sex-stereotyping, even if those acts do not involve conduct of a sexual nature.

Executive Order 1097 covers unwelcome conduct of a sexual nature. While romantic, sexual, intimate, personal or social relationships between members of the university community may begin as consensual, they may evolve into situations that lead to sexual harassment or sexual misconduct, including dating or domestic violence, or stalking, subject to this policy.

Claiming that the conduct was not motivated by sexual desire is not a defense to a complaint of harassment based on gender.

Sexual Misconduct

All sexual activity between members of the university community must be based on affirmative consent. Engaging in any sexual activity without first obtaining affirmative consent to the specific activity is sexual misconduct, whether or not the conduct violates any civil or criminal law. Sexual activity includes, but is not limited to, kissing, touching intimate body parts, fondling, intercourse, penetration of any body part, and oral sex. It also includes any unwelcome physical acts, such as unwelcome sexual touching, sexual assault, sexual battery, rape, and dating violence. When based on gender, domestic violence or stalking also constitute sexual misconduct. Sexual misconduct may include using physical force, violence, threat or intimidation, ignoring the objections of the

other person, causing the other person's intoxication or incapacitation through the use of drugs or alcohol, or taking advantage of the other person's incapacitation (including voluntary intoxication) to engage in sexual activity. Men as well as women can be victims of these forms of sexual misconduct. Sexual activity with a minor is never consensual when the complainant is under 18 years old, because the minor is considered incapable of giving legal consent due to age.

Sexual Assault is a form of sexual misconduct and is an attempt, coupled with the ability, to commit a violent injury on the person of another because of that person's gender or sex.

Sexual Battery is a form of sexual misconduct and is any willful and unlawful use of force or violence upon the person of another because of that person's gender or sex as well as touching an intimate part of another person against that person's will and for the purpose of sexual arousal, gratification or abuse.

Rape is a form of sexual misconduct and is non-consensual sexual intercourse that may also involve the use of threat of force, violence, or immediate and unlawful bodily injury or threats of future retaliation and duress. Any sexual penetration, however slight, is sufficient to constitute rape. Sexual acts including intercourse are considered non-consensual when a person is incapable of giving consent because s/he is incapacitated from alcohol and/or drugs, is under 18 years old, or if a mental disorder or developmental or physical disability renders the person incapable of giving consent. The respondent's relationship to the person (such as family member, spouse, friend, acquaintance or stranger) is irrelevant.

Acquaintance Rape is a form of sexual misconduct committed by an individual known to the victim. This includes a person the victim may have just met; i.e., at a party, introduced through a friend, or on a social networking website.

Affirmative Consent means an informed, affirmative, conscious, voluntary, and mutual agreement to engage in sexual activity. It is the responsibility of each person involved in the sexual activity to ensure that s/he has the affirmative consent of the other participant(s) to engage in the sexual activity. Lack of protest or resistance does not mean consent nor does silence mean consent. Affirmative consent must be voluntary, and given without coercion, force, threats or intimidation.

- The existence of a dating or social relationship between those involved, or the fact of past sexual activities between them, should never by itself be assumed to be an indicator of affirmative consent. A request for someone to use a condom or birth control does not, in and of itself, constitute affirmative consent.
- Affirmative consent can be withdrawn or revoked. Consent to one form of sexual activity (or sexual act) does not constitute consent to other forms of sexual activity. Consent given to sexual activity on one occasion does not constitute consent on another occasion. There must always be mutual and affirmative consent to engage in sexual activity. Consent must be ongoing throughout a sexual activity and can be revoked at any time, including after penetration. Once consent is withdrawn or revoked, the sexual activity must stop immediately.

- A person who is incapacitated cannot give affirmative consent. A person is unable to consent when s/he is asleep, unconscious or is incapacitated due to the influence of drugs, alcohol, or medication so that s/he could not understand the fact, nature or extent of the sexual activity. A person is incapacitated if s/he lacks the physical and/or mental ability to make informed, rational decisions.
- Whether an intoxicated person (as a result of using alcohol or other drugs) is incapacitated depends on the extent to which the alcohol or other drugs impact the person's decision-making capacity, awareness of consequences, and ability to make fully informed judgments. A person's own intoxication or incapacitation from drugs or alcohol does not diminish that person's responsibility to obtain affirmative consent before engaging in sexual activity.
- A person with a medical or mental disability may also lack the capacity to give consent.
- Sexual activity with a minor (a person under 18 years old) is not consensual, because a minor is considered incapable of giving legal consent due to age.
- It shall not be a valid excuse that a person affirmatively consented to the sexual activity if the respondent knew or reasonably should have known that the person was unable to consent to the sexual activity under any of the following circumstances:
 - The person was asleep or unconscious;
 - The person was incapacitated due to the influence of drugs, alcohol or medication, so that the person could not understand the fact, nature or extent of the sexual activity;
 - The person was unable to communicate due to a mental or physical condition
- It shall not be a valid excuse that the respondent believed that the person consented to the sexual activity under either of the following circumstances:
 - The respondent's belief in affirmative consent arose from the intoxication or recklessness of the respondent;
 - The respondent did not take reasonable steps, in the circumstances known to the respondent at the time, to ascertain whether the person affirmatively consented.

Consensual Relationships

Consensual relationship means a sexual or romantic relationship between two persons who voluntarily enter into such a relationship. While sexual and/or romantic relationships between members of the university community may begin as consensual, they may evolve into situations that lead to discrimination, harassment, retaliation, sexual misconduct, dating or domestic violence or stalking.

1. A university employee shall not enter into a consensual relationship with a student or employee over whom s/he exercises direct or otherwise significant academic, administrative, supervisory, evaluative, counseling, or extracurricular authority. In the event such a relationship already exists, each campus shall develop a procedure to reassign such authority to avoid violations of this policy.
 - This prohibition does not limit the right of an employee to make a recommendation on the personnel matters concerning a family or household member where the right to make recommendations on such personnel matters is explicitly provided for in the applicable collective bargaining agreement or MPP/confidential personnel plan.

Domestic Violence is abuse committed against someone who is a current or former spouse, current or former cohabitant, someone with whom the respondent has a child, someone with whom the respondent has or had a dating or engagement relationship, or a person similarly situated under

California domestic or family violence law. Cohabitant means two unrelated persons living together for a substantial period of time, resulting in some permanency of relationship. It does not include roommates who do not have a romantic, intimate, or sexual relationship. Factors that may determine whether persons are cohabiting include, but are not limited to (1) sexual relations between the parties while sharing the same living quarters, (2) sharing of income or expenses, (3) joint use or ownership of property, (4) whether the parties hold themselves out as spouses, (5) the continuity of the relationship, and (6) the length of the relationship. For purposes of this definition, "abuse" means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury to himself or herself, or another. Abuse does not include non-physical, emotional distress or injury.

Dating Violence is abuse committed by a person who is or has been in a social or dating relationship of a romantic or intimate nature with the victim. This may include someone the victim just met; i.e., at a party, introduced through a friend, or on a social networking website. For purposes of this definition, "abuse" means intentionally or recklessly causing or attempting to cause bodily injury or placing another person in reasonable apprehension of imminent serious bodily injury to himself or herself, or another. Abuse does not include non-physical, emotional distress or injury.

Stalking means engaging in a repeated course of conduct directed at a specific person that would cause a reasonable person to fear for his/her or others' safety or to suffer substantial emotional distress. For purposes of this definition:

1. Course of conduct means two or more acts, including but not limited to, acts in which the stalker directly, indirectly, or through third parties, by any action, method, device, or means, follows, monitors, observes, surveils, threatens, or communicates to or about a person, or interferes with a person's property;
2. Reasonable person means a reasonable person under similar circumstances and with the same protected status(es) as the complainant;
3. Substantial emotional distress means significant mental suffering or anguish that may, but does not necessarily, require medical or other professional treatment or counseling.

Note: See further information in Cal State East Bay's sexual violence prevention and education statement, Title IX Notice of Nondiscrimination at <http://www.csueastbay.edu/af/departments/risk-management/investigations/files/docs/notice-of-non-discrimination.pdf> which includes facts and myths about sexual violence at: <http://www.csueastbay.edu/af/departments/risk-management/files/docs/eo-1095-attachment-b-myths-and-facts-2015.pdf>, and Victim's Rights and Options Notice at <http://www.csueastbay.edu/af/departments/risk-management/risk/files/docs/eo-attachment%20c.pdf>

Whom to Contact With Complaints, Questions, or Concerns

Title IX requires the University to designate a Title IX Coordinator to monitor and oversee overall Title IX compliance. Cal State East Bay's Title IX Coordinator is available to explain and discuss the right to file a criminal complaint (for example, in cases of sexual misconduct); the University's complaint process, including the investigation process; how confidentiality is handled; available resources, both on and off campus; and other related matters. *In the midst of an emergency, please call the police immediately by dialing 9-1-1.*

CSUEB Title IX Coordinator: Terri LaBeaux (510) 885-4918 title9@csueastbay.edu
25800 Carlos Bee Blvd. Hayward, CA 94542 Monday - Friday
8:30am - 5:00pm

CSUEB Title IX Officer: Nyassa Love Johnson (510) 885-2743
Risk Management and Internal Control 25800 Carlos Bee Blvd. SA 1600
Hayward, CA 94542 Monday - Friday 8:30am - 5:00pm

CSUEB Deputy Title IX Coordinators: Bethany Hobbs-Helmus, Intercollegiate Athletics (510) 885-7624;
Shirley Mar, DHR Senior Investigator (510) 885-4326

University Police Lieutenant: Omar Miakhail (510) 885-3791
25800 Carlos Bee Blvd. Hayward, CA 94542

Hayward Police Department Special Victims Unit: 300 W. Winton Ave. Hayward, CA (510) 293-7034
Non-emergency: (510) 293-7000

Concord Police Department : Non-emergency: (925) 671-3220
Emergency: (925) 671-3333 from cell phone

(415) 486-5555, or
(800) 877-8339 (TDD) or
ocr.sanfrancisco@ed.gov

If you wish to fill out a complaint form online with the OCR, you may do so at:
www2.ed.gov/about/offices/list/ocr/complaintintro.html.

Title IX requires the University to adopt and publish complaint procedures that provide for prompt and equitable resolution of gender discrimination complaints, including sexual harassment and misconduct, as well as provide training, education, and preventive measures related to sex discrimination. CSU Executive Order 1097 (<http://www.calstate.edu/EO/EO-1097-rev-10-5-16.pdf>) (or any successor executive order) is the systemwide procedure for all complaints of discrimination, harassment, or retaliation *made by students* against the CSU, a CSU employee, other CSU students, or a third party.

Except as provided below under Confidentiality and Sexual Misconduct, Dating Violence, Domestic Violence, and Stalking, **any** University employee who knows or has reason to know of allegations or acts that violate University policy shall promptly inform the Title IX Coordinator. These employees are

required to disclose all information including the names of the parties, *even where the person has requested that his/her name remain confidential*. The Title IX Coordinator will determine whether confidentiality is appropriate given the circumstances of each such incident. (See confidential reporting options outlined in this chapter.)

Regardless of whether an alleged victim of gender discrimination ultimately files a complaint, if the campus knows or has reason to know about possible sexual discrimination, harassment, or misconduct, it must review the matter to determine if an investigation is warranted. The campus must then take appropriate steps to eliminate any gender discrimination/harassment/misconduct, prevent its recurrence, and remedy its effects.

Safety of the Campus Community is Primary

The University's primary concern is the safety of its campus community members. The use of alcohol or drugs never makes the victim at fault for gender discrimination, harassment or misconduct; therefore, victims should not be deterred from reporting incidents of sexual misconduct out of a concern that they might be disciplined for related violations of drug, alcohol or other University policies. Except in extreme circumstances, victims of sexual misconduct shall not be subject to discipline for related violations of the Student Conduct Code.

Information Regarding Campus, Criminal & Civil Consequences of Committing Acts of Sexual Violence

Individuals alleged to have committed sexual misconduct may face criminal prosecution by law enforcement and may incur penalties as a result of civil litigation. In addition, employees and students may face discipline at the University, up to and including suspension or expulsion. Employees may face sanctions up to and including dismissal from employment, pursuant to established CSU policies and provisions of applicable collective bargaining unit agreements.

Students who are charged by the university with gender discrimination, harassment or misconduct will be subject to discipline, pursuant to the California State University Student Conduct Procedures (see Executive Order 1098 at www.calstate.edu/EO/EO-1098-rev-6-23-15.pdf or any successor executive order) and will be subject to appropriate sanctions. In addition, during any investigation, the university may implement interim measures in order to maintain a safe and non-discriminatory educational environment. Such measures may include but not be limited to: immediate interim suspension from the university; a required move from university-owned or affiliated housing; adjustments to course schedule; and/or prohibition from contact with parties involved in the alleged incident.

Confidentiality & Sexual Misconduct, Dating Violence, Domestic Violence & Stalking

The University encourages victims of sexual misconduct, dating violence, domestic violence or stalking to talk to someone about what happened - so they can get the support they need, and so the University can respond appropriately.

Privileged and Confidential Communications

Physicians, Psychotherapists, Professional Licensed Counselors, Licensed Clinical Social Workers, and Clergy who work or volunteer on or off campus, acting solely in those roles or capacities as part of their employment, and who provide medical or mental health treatment or counseling (and those who act under their supervision, including all individuals who work or volunteer in their centers and offices) including those who act in that role under their supervision) may not report any information about an incident of sexual misconduct to anyone else at the University, including the Title IX Coordinator, without the victim's consent. A victim can seek assistance and support from physicians, psychotherapists, professional, licensed counselors, licensed clinical social workers and clergy without triggering a university investigation that could reveal the victim's identity or the fact of the victim's disclosure. However, see limited exceptions below regarding when health care practitioners must report to local law enforcement agencies. Health care practitioners should explain these limited exceptions to victims, if applicable.

Sexual Assault and Domestic Violence Counselors and Advocates who work or volunteer on or off campus in sexual assault centers, victim advocacy offices, women's centers and health centers and who are acting solely in that role (including those who act in that role under their supervision, along with non-professional counselors or advocates who work or volunteer in sexual assault centers, victim advocacy offices, women's centers, gender equity centers, or health centers), may talk to a victim without revealing any information about the victim and the incident of sexual misconduct to anyone else at the University, including the Title IX Coordinator, without the victim's consent. A victim can seek assistance and support from these counselors and advocates without triggering a University investigation that could reveal his/her identity or that a victim disclosed an incident to them. However, see limited exceptions below regarding when sexual assault and domestic violence counselors and advocates must report to local law enforcement agencies. Counselors and advocates should explain these limited exceptions to victims, if applicable.

The University will be unable to conduct an investigation into a particular incident or pursue disciplinary action against a perpetrator if a victim chooses to (1) speak only to a physician, professional licensed counselor, licensed clinical social worker, clergy member, sexual assault counselor, domestic violence counselor or advocate; and (2) maintain complete confidentiality. Even so, these individuals will assist victims in receiving other necessary protection and support, such as victim advocacy, disability, medical/health or mental health services, or legal services, and will advise victims regarding their right to file a Title IX complaint with the University and a separate complaint with local or University Police. If a victim insists on confidentiality, such professionals, counselors and advocates will likely not be able to assist the victim with: university academic support or accommodations; changes to university-based living or working schedules; or adjustments to course schedules. A victim who at first requests confidentiality may later decide to file a complaint with the University or report the incident to the police, and thus have the incident fully investigated. These counselors and advocates can provide victims with that assistance if requested by the victim. These counselors and advocates will also explain that Title IX includes protections against retaliation, and that the University will not only take steps to prevent retaliation when it knows or reasonably should know of possible retaliation, but will also take strong responsive action if retaliation occurs.

EXCEPTIONS

Under California law, any health practitioner employed in a health facility, clinic, physician's office, or local or state public health department or clinic is required to make a report to local law enforcement if he or she provides medical services for a *physical condition* to a patient/victim who he or she knows or reasonably suspects is suffering from (1) a wound or physical injury inflicted by a firearm; or (2) any wound or other physical injury inflicted upon a victim where the injury is the result of assaultive or abusive conduct (including sexual misconduct, domestic violence, and dating violence). This exception does not apply to sexual assault and domestic violence counselors and advocates. Health care practitioners should explain this limited exception to victims, if applicable.

Additionally, under California law, *all* professionals described above (physicians, psychotherapists, professional counselors, licensed clinical social workers, clergy, and sexual assault and domestic violence counselors and advocates) are mandatory child abuse and neglect reporters, and are required to report incidents involving victims under 18 years of age to local law enforcement. These professionals will explain this limited exception to victims, if applicable.

Finally, some or all of these professionals may also have reporting obligations under California law to: (1) local law enforcement in cases involving threats of immediate or imminent harm to self or others where disclosure of the information is necessary to prevent the threatened danger; or (2) to the court if compelled by court order or subpoena in a criminal proceeding related to the sexual misconduct, dating or domestic violence, or stalking incident. If applicable, these professionals will explain this limited exception to victims.

Reporting to University Police or University Employees

REPORTING TO UNIVERSITY OR LOCAL POLICE

If a victim reports to local or university police about sexual misconduct crimes, the police are required to notify victims that their names will become a matter of public record unless confidentiality is requested. If a victim requests that his/her identity be kept confidential, his/her name will not become a matter of public record and the police will not report the victim's identity to anyone else at the University, including the Title IX Coordinator. University police will, however, report the facts of the incident itself to the Title IX Coordinator being sure not to reveal to the Title IX Coordinator victim names/identities or compromise their own criminal investigation. The University is required by the federal Clery Act to report certain types of crimes (including certain sex offenses) in statistical reports. However, while the University will report the type of incident in the annual crime statistics report known as the Annual Security Report, victim names/identities will not be revealed.

REPORTING TO THE TITLE IX COORDINATOR AND OTHER UNIVERSITY EMPLOYEES

Most university employees have a duty to report incidents of sexual misconduct when they are on notice of it. When a victim tells the Title IX Coordinator or another university employee about an incident of sexual misconduct, the victim has the right to expect the University to take immediate and appropriate steps to investigate what happened and to resolve the matter promptly and equitably. In all cases, the University strongly encourages victims to report incidents of sexual misconduct directly to the campus Title IX Coordinator. As detailed above, in the "Privileged and Confidential Communications" section of

this policy, all university employees except physicians, licensed professional counselors, licensed clinical social workers, sexual assault counselors and advocates, must report to the Title IX Coordinator all relevant details about any incidents of sexual misconduct of which they become aware. The University will need to determine what happened - and will need to know the names of the victim(s) and the perpetrator(s), any witnesses, and any other relevant facts, including the date, time and specific location of the incident.

To the extent possible, information reported to the Title IX Coordinator or other university employees will be shared only with individuals responsible for handling the University's response to the incident. The University will protect the privacy of individuals involved in a sexual misconduct violence incident except as otherwise required by law or university policy. A report of sexual misconduct may result in the gathering of extremely sensitive information about individuals in the campus community. While such information is considered confidential, university policy regarding access to public records and disclosure of personal information may require disclosure of certain information concerning a report of sexual misconduct. In such cases, efforts will be made to redact the records, as appropriate, in order to protect the victim's identity and privacy and the privacy of other involved individuals. Except as detailed in the section on "Privileged and Confidential Communications" above, no university employee, including the Title IX Coordinator, should disclose the victim's identity to the police without the victim's consent or unless the victim has also reported the incident to the police.

If a victim requests of the Title IX Coordinator or another university employee that his/her identity remain completely confidential, the Title IX Coordinator will explain that the University cannot always honor that request or guarantee complete confidentiality. If a victim wishes to remain confidential or request that no investigation be conducted or disciplinary action taken, the University must weigh that request against the University's obligation to provide a safe, non-discriminatory environment for all students, employees, and third parties, including the victim. Under those circumstances, the Title IX Coordinator will determine whether the victim's request for complete confidentiality and/or no investigation can be honored under the facts and circumstances of the particular case, including whether the University has a legal obligation to report the incident, conduct an investigation or take other appropriate steps. Without information about a victim's identity, the University's ability to meaningfully investigate the incident and pursue disciplinary action against the perpetrator may be severely limited. See Executive Order 1095 (or any successor executive order) for further details around confidential reporting, and other related matters (<http://www.calstate.edu/eo/EO-1095-rev-6-23-15.pdf>).

Data Integrity Policy

Student, Faculty, and University Responsibilities to Ensure the Data Integrity of Academic Work

Purpose and Scope

The purpose of this policy is to establish the rights and responsibilities of students, faculty, and the university in regards to the loss, re-attempt, and/or resubmission of coursework data in the event of verified data or service loss. This policy applies to student and faculty interactions with academic systems or academic functions within more comprehensive systems and does not apply to administrative systems or functions.

Definitions of Data Loss

- Catastrophic data loss is defined as the absolute corruption or destruction of data without any chance of recoverability on the part of its owner through data redundancy measures.
- Data redundancy measures refer to the means and methods for saving and restoring copies of data prior to the point of its absolute corruption or destruction. This is more commonly known as making a "backup" of data.
- Service loss is defined as the loss of services that interrupt and prevent the normal flow of academic work.
- Examples of such services include the Learning Management System (LMS), other systems through which assignments are digitally submitted (for example, network drives), data housed on third-party applications such as Google, VoiceThread, or Pearson, or software provided by companies such as WordPress.

Coursework Data

Coursework data is defined as digital products, materials, and works created, edited, and completed by the student or with which the student interacts as required by coursework specified by the instructor.

Coursework data takes many forms, some of which include single data files (e.g. word processing files, presentation files, multimedia files), compressed archives (e.g. .zip files, .rar files), interactive coursework and assessments (e.g. online exams), and synchronous and asynchronous communication across multiple computing platforms (e.g. webinars, synchronous collaborative documents). While these examples represent a wide variety of the kinds of coursework data that may be required in a classroom, it is understood that the pace of change and innovation in technology introduces new and updated types of coursework data that may not be listed here but are also included as part of this policy.

Responsibilities for the Prevention or Management of Data Loss

- Multiple individual users and groups are responsible for the prevention and restoration of data and service, and the mitigation of damage when irreversible loss occurs. These include: the University, third-party vendors, and end users.
 - The University
 - Data and/or service loss resulting from university systems is known as institutional data loss. The University is responsible for ensuring the integrity of services it provides, either directly, if the data resides on university servers, or indirectly, if the data resides on servers operated by third-party vendors. To minimize the impact of university systems failure, appropriate university personnel will
 - ensure that data is backed up on a regular schedule;
 - restore lost data as quickly as possible; and
 - communicate necessary information via Campus Announcements, including the appropriate requirements of this policy, and providing follow-up Campus Announcements regarding the status of services, as needed.
 - Third-party Vendors and Software
 - In the case of data or service loss by third-party vendors or the use of software not provided by the University, variations will occur depending on the stability and depth of the company providing data, services or software. Within its ability, the University will:
 - ensure that provisions related to the prevention and restoration of data and/or services are included in contracts, and also requirements that the vendor back up data regularly and notify the University when data or service loss occurs;
 - notify the third-party vendor of observable losses when noted at the University;
 - work with the third-party vendor to ensure that data is restored from the last back-up and/or that service is restored as quickly as possible;
 - ensure that the vendor provides appropriate communications to the University regarding the status of data and services; and
 - receive and interpret vendor communications and/or communicate necessary information via a Campus Announcement, invoking the appropriate requirements

of this policy, as appropriate; and provide follow-up Campus Announcements regarding the status of data and services, as needed.

- Campus Announcements should stipulate
 - the nature of the problem;
 - the actions being taken to resolve the problem; and
 - the anticipated recovery time as soon as it is known.

While the University is indirectly responsible for working with third-party vendors and communicating appropriately to the user community, the University cannot be directly held responsible for third-party data losses. Further, should individual faculty, departments, or colleges contract with third-party vendors for data services without the knowledge, authorization, and approval of the institution, the individual, department, or college will be responsible for ensuring data integrity and communicating with the group of users involved in those services.

- Individual Users
 - Individual users (students and faculty) are responsible for preventing data loss by making backups of coursework data. The minimum recommended number of backups is two. Examples of backup methods include: flash drives, emailing documents to self, use of a third-party service such as Carbonite, and backup to external drives. Regardless of the method chosen, backups should be conducted regularly and often, and individuals should "save" their work frequently throughout its creation.
 - It is also important to note that if an individual is working on a university computer (in offices, in the learning commons/library, or elsewhere on campus), the individual is responsible for making appropriate back-ups and saving often to ensure data integrity. Work being created by an individual during a computer crash is the responsibility of that individual. If back-ups are made sufficiently often, no or minimal loss should occur and restoration should be simple. The exception is if the data cannot be backed up regularly, e.g., during the taking of a test in Blackboard.

Rights in the Case of Data Loss

In the case of data loss as a result of the failure of the University or third-party vendors, i.e., a loss that is not the responsibility of students or faculty, accommodations will be made to mitigate negative consequences that may result. Examples of system failures include:

- unscheduled downtime (a "crash"), where an assignment is due between the time of the crash and the last system backup or the last possible restoration point in the case of a failed backup. This could occur in the LMS or in a computer lab;
- unacceptable patterns of slowness/crash/partial recovery/full recovery occurring when assignments are due or online exams/quizzes/tests are underway, making it impossible for students to meet deadlines;
- third-party service interruption or stoppage where students are unable to complete assignments or work by deadlines; and
- power outages in computer labs during exams.

When possible, Information Technology will notify the University community of system failures, but not all will be immediately visible to a faculty member. If no campus announcement has been issued, faculty

should verify any student-reported loss with the Information Technology Service Desk to determine if s/he should implement this policy.

It is understood that there are conditions that are beyond the control of an individual. As a result, faculty are advised to provide students with alternate means of submission in event of an application or browser failure or some other condition, and to include a description of these alternate means in their syllabi. Should data loss occur due to a student's not fulfilling his/her responsibility to back up data appropriately, however, the student is responsible for that failure.

Policy Statements

When an institutional data loss or loss of service is verified by Information Technology Services (ITS) and noted on the learning management site (LMS), students will be allowed to resubmit coursework data and re-attempt tests within 72 hours of the implementation of data redundancy measures and the restoration of service by the institution as verified by ITS. If the window for completing coursework or tests is shorter than 72 hours, a new window (start-stop times) can be created by the faculty member, but a time frame of 72 hours takes into account the possibility that loss and restoration might occur over a weekend period.

For required third-party online sites, such as homework sites associated with publishers, the faculty member will post the method for notification of outages or malfunctions with his/her syllabus on Blackboard. Students shall be given at least 72 hours after restoration of service to complete assignments.

When data loss takes the form of a university computer lab failing during an examination period (for example, a blackout occurs during a midterm), the faculty member shall provide an appropriate accommodation for the resumption of the exam.

Beyond these conditions, students bear the sole responsibility for backing up their coursework data and ensuring data redundancy in the event of non-institutional data loss.

In addition, to providing statements in their syllabi about accommodations in case of data loss, faculty should also provide a statement to explain students' responsibilities in regards to backing up their data. Suggesting phrasing is as follows:

"Accommodations will be made for systems failures beyond students' control. These include:

[list accommodation information here] "

Remember!

- **Accommodations will not be made for failure to complete an assignment or project because data has not been backed up.**
- **The "golden rule" for data is that it does not exist unless it is backed up in two or more places on at least two different types of media. Make sure that the backup is not in a temporary file that will disappear when the program is closed or the computer is shut down.**

Student Publication Responsibilities

Student publications and the student press are valuable aids in establishing and maintaining an atmosphere of free and responsible discussion and intellectual exploration on the campus. Students and faculty who produce student publications have the responsibility to establish and adhere to standards of responsible journalism. While student publications and the student press operate with limited external control, the editorial freedom of student editors and managers entails corollary responsibilities to be governed by the concerns of responsible journalism, such as evidence of libel, indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo.

Student Participation in Institutional Government

Students are free to elect peers to serve and represent them in university government as members of the student body. Students who meet eligibility criteria are appointed to various standing committees by the administration and faculty upon the recommendation of the Associated Students Board of Directors. The role of student government is explicitly defined in the California Education Code and CSU policies. Copies of these regulations can be obtained in the office of the Associate Vice President, Campus Life (Student Services and Administration Building, 1st Floor).

Whistleblower Protection

Under the California Whistleblower Protection act, any employee or applicant for employment may make a protected disclosure of an improper government activity or any condition that may significantly threaten the health or safety of employees or the public to the State Auditor, CSU or CSUEB. The procedure for making such protected disclosures is set forth in the document titled "Reporting Procedures for Protected Disclosure of Improper Governmental Activities and/or Significant Threats to Health or Safety" (Executive Order 929) and can be viewed or downloaded at: <http://www.calstate.edu/eo/EO-929.pdf>. The CSUEB administrator responsible for receiving and investigating such disclosures is the Discrimination, Harassment, and Retaliation Administrator, Risk Management and Internal Control. In addition, under the Act, employees and applicants for employment are protected from retaliation from making such protected disclosures. The procedure for making a complaint of retaliation is set forth in the document titled "Revised Complaint Procedure for Allegations of Retaliation for Disclosure under the California Whistleblower Protection Act" (Executive Order 1058) and can be viewed or downloaded at: <http://www.calstate.edu/eo/EO-1058.pdf>. As with protected disclosures, Risk Management and Internal Control is responsible for receiving and investigating retaliation complaints.

Student Complaint Procedure (Complaints Regarding the CSU)

The California State University takes very seriously complaints and concerns regarding the institution. If a student has a complaint regarding the CSU, they may present their complaint as follows:

1. If the complaint concerns CSU's compliance with academic program quality and accrediting standards, the complaint may be presented to the Western Association of Schools and Colleges (WASC) at www.wascsenior.org/comments. WASC is the agency that accredits the CSU's

academic program. If the student believes that the complaint warrants further attention after having exhausted all the steps outlined by WASC, an appeal may be filed with the Assistant Vice Chancellor, Academic and Student Affairs at the CSU Chancellor's Office.

2. If the complaint concerns an alleged violation by CSU of any law that prohibits discrimination, harassment, or retaliation based on a protected status (such as age, disability, gender (or sex), gender identity, gender expression, nationality, race or ethnicity (including color or ancestry), religion or veteran or military status), the complaint may be presented as described in Section XVI (Nondiscrimination Policy).
3. If the complaint concerns an alleged violation by the CSU of other state law, including laws prohibiting fraud and false advertising, the complaint may be presented to the campus president or Director for Compliance and Internal Control. See Procedure for Student Complaints- Executive Order No. 1063 for details regarding the complaint requirements and complaint process: www.calstate.edu/eo/eo-1063.html.
4. Other complaints regarding the CSU may be presented to the campus dean of students, who will provide guidance on the appropriate campus process for addressing your particular issue.

This procedure should not be construed to limit any right that you may have to take legal action to resolve your complaint.

Appealing an Inappropriate Grade

Faculty have the sole right and responsibility to provide careful evaluation and timely assignment of appropriate grades. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise. In the absence of compelling reasons, such as instructor or clerical error, prejudice or capriciousness, the grade assigned by the instructor of record is to be considered final. Students who believe that an appropriate grade has not been assigned should attempt to resolve the problem with their instructor. If the student is not satisfied with the outcome, they should discuss the issue with the department chair in which the course was offered. If the issue is not resolved, the student should make an appointment with the dean or associate dean of the college in which the course is offered. If all previous actions fail, the student should contact the Presidential Appointee to the Grade Appeal and Academic Grievance Committee by calling (510) 885-3716. If the student has applied for graduation, the student should notify their graduation evaluator that a question is pending resolution. Once a degree is posted, no grade changes will be allowed.

Grade Appeal and Academic Grievance Committee

The Grade Appeal and Academic Grievance process, administered by this committee, allows students to resolve serious cases of alleged academic unfairness. After every effort by all parties to resolve the dispute has been ineffective, students can discuss their case with the Presidential Appointee to the Grade Appeal and Academic Grievance Committee. The Presidential Appointee will assist students in exhausting all normal channels and, if necessary, in filing a Petition (see link below) for a Grade Appeal Hearing. Students will need to submit their petition and supporting documentation to the Academic Programs and Services Office. The committee will review this documentation and the response(s) filed by the other parties involved in the dispute. If the committee finds possible grounds for a grievance, a Hearing Panel will be convened to hear the case. Under normal circumstances, the student must file

their Petition before the end of the semester following the semester in which the alleged incident took place.

The Grade Appeal and Academic Grievance Committee is empowered to change a grade in accordance with the Grade Appeal Document and to assign a grade in cases where the instructor may have assigned an unfair academic grade. The Grade Appeal and Academic Grievance Committee is authorized to change a grade only after it has conducted a proper review of the case.

Grade Appeal Petition Form

For additional information see the **Student Rights, Responsibilities & Conduct** chapter.

More information is available from the Office of Academic Programs and Services (Student Services and Administration Building, Suite 4500; Tel. (510) 885-3716)

Student Conduct

Title 5, California Code of Regulations, § 41301. Standards for Student Conduct

Campus Community Values

The University is committed to maintaining a safe and healthy living and learning environment for students, faculty, and staff. Each member of the campus community should choose behaviors that contribute toward this end. Students are expected to be good citizens and to engage in responsible behaviors that reflect well upon their university, to be civil to one another and to others in the campus community, and contribute positively to student and university life.

Grounds for Student Discipline

Student behavior that is not consistent with the Student Conduct Code is addressed through an educational process that is designed to promote safety and good citizenship and, when necessary, impose appropriate consequences. The following are the grounds upon which student discipline can be based:

- Dishonesty, including:
 - Cheating, plagiarism, or other forms of academic dishonesty that are intended to gain unfair academic advantage.
 - Furnishing false information to a University official, faculty member, or campus office.
 - Forgery, alteration, or misuse of a University document, key, or identification instrument.
 - Misrepresenting one's self to be an authorized agent of the University or one of its auxiliaries.
- Unauthorized entry into, presence in, use of, or misuse of University property.
- Willful, material and substantial disruption or obstruction of a University-related activity, or any on-campus activity.
- Participating in an activity that substantially and materially disrupts the normal operations of the University, or infringes on the rights of members of the University community.

- Willful, material and substantial obstruction of the free flow of pedestrian or other traffic, on or leading to campus property or an off-campus University related activity.
- Disorderly, lewd, indecent, or obscene behavior at a University related activity, or directed toward a member of the University community.
- Conduct that threatens or endangers the health or safety of any person within or related to the University community, including physical abuse, threats, intimidation, harassment, or sexual misconduct.
- Hazing or conspiracy to haze. Hazing is defined as any method of initiation or pre-initiation into a student organization or student body, whether or not the organization or body is officially recognized by an educational institution, which is likely to cause serious bodily injury to any former, current, or prospective student of any school, community college, college, university or other educational institution in this state (Penal Code 245.6), and in addition, any act likely to cause physical harm, personal degradation or disgrace resulting in physical or mental harm, to any former, current, or prospective student of any school, community college, college, university or other educational institution. The term "hazing" does not include customary athletic events or school sanctioned events.
 - Neither the express or implied consent of a victim of hazing, nor the lack of active participation in a particular hazing incident is a defense. Apathy or acquiescence in the presence of hazing is not a neutral act, and is also a violation of this section.
- Use, possession, manufacture, or distribution of illegal drugs or drug- related paraphernalia, (except as expressly permitted by law and University regulations) or the misuse of legal pharmaceutical drugs.
- Use, possession, manufacture, or distribution of alcoholic beverages (except as expressly permitted by law and University regulations), or public intoxication while on campus or at a University related activity.
- Theft of property or services from the University community, or misappropriation of University resources.
- Unauthorized destruction or damage to University property or other property in the University community.
- Possession or misuse of firearms or guns, replicas, ammunition, explosives, fireworks, knives, other weapons, or dangerous chemicals (without the prior authorization of the campus president) on campus or at a University related activity.
- Unauthorized recording, dissemination, or publication of academic presentations (including handwritten notes) for a commercial purpose.
- Misuse of computer facilities or resources, including:
 - Unauthorized entry into a file, for any purpose.
 - Unauthorized transfer of a file.
 - Use of another's identification or password.
 - Use of computing facilities, campus network, or other resources to interfere with the work of another member of the University community.
 - Use of computing facilities and resources to send obscene or intimidating and abusive messages.
 - Use of computing facilities and resources to interfere with normal University operations.
 - Use of computing facilities and resources in violation of copyright laws.

- Violation of a campus computer use policy.
- Violation of any published University policy, rule, regulation or presidential order.
- Failure to comply with directions or, or interference with, any University official or any public safety officer while acting in the performance of his/her duties.
- Any act chargeable as a violation of a federal, state, or local law that poses a substantial threat to the safety or well-being of members of the University community, to property within the University community or poses a significant threat of disruption or interference with University operations.
- Violation of the Student Conduct Procedures, including:
 - Falsification distortion, or misrepresentation of information related to a student discipline matter.
 - Disruption or interference with the orderly progress of a student discipline proceeding.
 - Initiation of a student discipline proceeding in bad faith.
 - Attempting to discourage another from participating in the student discipline matter.
 - Attempting to influence the impartiality of any participant in a student discipline matter.
 - Verbal or physical harassment or intimidation of any participant in a student discipline matter.
 - Failure to comply with the sanction(s) imposed under a student discipline proceeding.
- Encouraging, permitting, or assisting another to do any act that could subject him or her to discipline.

Procedures for Enforcing This Code

The Chancellor shall adopt procedures to ensure students are afforded appropriate notice and an opportunity to be heard before the University imposes any sanction for a violation of the Student Conduct Code.

Note: At the time of publication, such procedures are set forth in California State University Executive Order 1098 (Revised June 23, 2015).

Application of This Code

Sanctions for the conduct listed above can be imposed on applicants, enrolled students, students between academic terms, graduates awaiting degrees, and students who withdraw from school while a disciplinary matter is pending. Conduct that threatens the safety or security of the campus community, or substantially disrupts the functions or operation of the University is within the jurisdiction of this Article regardless of whether it occurs on or off campus. Nothing in this Code may conflict with Education Code Section 66301 that prohibits disciplinary action against students based on behavior protected by the First Amendment.

Title 5, California Code of Regulations, § 41302. Disposition of Fees: Campus Emergency; Interim Suspension.

The President of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301. No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is

readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.

During periods of campus emergency, as determined by the President of the individual campus, the President may, after consultation with the Chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.

The President may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to insure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the President or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.

Academic Dishonesty

Academic Dishonesty includes, but is not limited to:

- **cheating**, which includes possessing unauthorized sources of information during examinations, copying the work of others, permitting others to copy a student's own work, submitting work done by others, completing assignments for others, altering work after grading and subsequently submitting it for re-grading, submitting the same work for two or more classes without the permission of all instructors involved, or retaining materials that students have been instructed to return to their instructor;
- *plagiarism*, which includes taking the words, ideas, or substance of another and either copying or paraphrasing the work without giving credit to the source through appropriate use of footnotes, quotation marks, or reference citations;
- *providing materials to another* with knowledge they will be improperly used;
- *possessing another's work* without permission;
- *selling, purchasing, or trading materials* for class assignments (includes purchasing term papers via the internet);
- *altering the work* of another;
- *knowingly furnishing false or incomplete* academic information;
- *altering documents* that make up part of the student record;
- *forging signatures* or falsifying information on any official academic document;
- *inventing data* or falsifying an account of the method through which data was generated.

Evidence of Academic Dishonesty

Faculty members are expected to instill in their students a respect for integrity and a desire to behave honestly. Deception for individual gain is an offense against the members of the university community. To this end, faculty will take measures to discourage dishonesty, adjust grades appropriately if dishonesty is discovered, and recommend that additional administrative sanctions be considered. Grading policies are the exclusive prerogative of faculty. Non-academic administrative sanctions are the province of the Director of the Office of Student Conduct, Rights and Responsibilities. Telephone: (510) 885-3763.

If there is evidence of dishonesty involving **cheating**: the student should be informed promptly, in private if possible, that they are suspected of cheating. If an exam is in progress, unauthorized materials should be confiscated, and the student should be allowed to finish. If relevant, the names of students in adjoining seats should be noted. If there is evidence involving **plagiarism**: the instructor should assemble documentation and notify the student promptly in private.

Academic Dishonesty Incident Report

Whenever dishonesty occurs, the instructor will take appropriate action and file an "Academic Dishonesty Incident Report" detailing the infraction and the action taken. The report will be filed in the Academic Affairs Office, per Executive Order 1098 with the Office of Student Conduct, Rights and Responsibilities, and the student will receive a copy. The report will remain on file with the Academic Affairs Office for five years or until the student graduates, whichever comes first.

Depending on the circumstances, the student may:

- (a) be warned;
- (b) be required to resubmit work or retake an exam under specified conditions and with a possible grade penalty;
- (c) have the grade adjusted for the assignment; or
- (d) have the grade adjusted in the course, including assignment of an "F" at the discretion of the faculty. If the course grade is adjusted, it is not subject to Grade Forgiveness. See below for further administrative consequences.

Students may appeal an instructor's action to the Grade Appeal Committee (see above). The appeal of an instructor's academic sanction is governed by the "Grade Appeal and Grievance Document."

The instructor may also request that action be taken by the Office of Student Conduct, Rights and Responsibilities. (In any instance of academic dishonesty, however, whereby an academic sanction is imposed, the instructor will file an "Academic Dishonesty Incident Report." See paragraphs above.) At the discretion of the Office of Student Conduct, Rights and Responsibilities, administrative sanctions such as warning, probation, suspension, or expulsion may be imposed. As prescribed in Executive Order 1098, Article V. Sanctions, paragraph E entitled Record of Discipline, a record of disciplinary probation or suspension is entered on a student's transcript, with beginning and end date, for the duration of the sanction. A record of expulsion or suspension for one academic year or more shall note the effective date of discipline and remains on the transcript permanently, without exception. (If an appeal to the Grade Appeal Committee regarding an academic sanction imposed by the instructor is pending, action by the

Office of Student Conduct, Rights and Responsibilities will be postponed until after the adjudication of the appeal.)

The complete text of Title 5, section 41301 of the California Code of Regulations and of Chancellor's Executive Order 1098 can be accessed on the Office of Student Conduct, Rights and Responsibilities website.

Civil & Criminal Penalties for Violation of Federal Copyright Laws

Anyone who is found to be liable for copyright infringement may be liable for either the owner's actual damages along with any profits of the infringer or statutory damages of up to \$30,000 per work infringed. In the case of a willful infringement, a court may award up to \$150,000 per work infringed. (See 17 U.S.C. §504.) Courts also have discretion to award costs and attorneys' fees to the prevailing party. (See 17 U.S.C. §505.) Willful copyright infringement can also result in criminal penalties, including imprisonment and fines. (See 17 U.S.C. §506 and 18 U.S.C. §2319.)

Policies, Standards, and Procedures for Use of Alcohol, Tobacco, and Other Drugs

The possession and/or consumption of alcoholic beverages by anyone under 21 years of age is prohibited at all times on campus and is subject to the penalties imposed by state law and University policies.

Use of illicit drugs (including performance enhancing substances such as anabolic steroids) is forbidden.

Policy Violation and Sanctions

In the Workplace

Any faculty, staff, administrator or other employee who violates the policy on alcohol and other drugs shall be subject to corrective or disciplinary action up to, and including the possibility of dismissal, in accordance with appropriate collective bargaining agreements, CSU policies, and state and federal law. At the discretion of the University, employees found to be in violation of university policy may be required to participate in a substance abuse program, employee assistance program, or other forms of counseling.

Students and Student Organizations

Students and/or student organizations who are alleged to have violated the policy on alcohol, tobacco, and other drugs will be required to meet with the Office of Student Conduct, Rights and Responsibilities. Corrective and educational sanctions will be assigned if it is determined that a violation has occurred.

- Possible sanctions for individual students:
 1. Participation in an alcohol or other drug education program;
 2. Educational requirements;
 3. Disciplinary probation;
 4. Restitution for damages;
 5. Suspension;

6. Expulsion.
 - Possible sanctions for student groups/organizations:
 1. Social probation for a specified period of time;
 2. Restitution for damages;
 3. Freezing of funds, if any are available;
 4. Report of violations to the national headquarters or offices of the organizations if such exist;
 5. Removal of officers from office;
 6. Loss of University recognition and access to campus support services.

Alcohol and Other Drugs Risks and Resources

There are many documented risks associated with alcohol and other drug abuse affecting individuals, families and friends. Alcohol and other drug abuse can lead to serious health and social problems, including short and long-term effects on the body and mind. Additionally, alcohol and other drug abuse can affect academic, athletic, work performance, and can lead to violent or destructive behaviors. There is also a strong relationship between alcohol and other drug abuse and at-risk behaviors.

Alcohol and other drug programs may be requested to supplement academic courses, educate student clubs/organizations, and to provide outreach to the campus community. To request a program, please complete the online form.

CSUEB Campus and Community Resources

For Students: Student Health and Counseling Services (SHCS): 510-885-3735

For Faculty and Staff: Employee Assistance Program (EAP): 1-800-367-7474

Assessment and Referral: 1-800-486-1652

National Alcohol and Drug Treatment Referral: 1-800-454-8966

Alcoholics Anonymous Meetings: East Bay Central Office Directory, 510-839-8900 (24 hrs/day)

For additional information, including the complete Alcohol, Tobacco and Other Drugs Policy and list of community resources, please visit the ATOD website.

Alcohol, Tobacco, and Other Drugs Advisory Council

The California State University, East Bay Alcohol, Tobacco and Other Drugs (ATOD) Advisory Council was established Fall 2001 in response to the Chancellor's directive that CSU campuses provide special attention to the development of alcohol, tobacco, and other drugs policies and prevention programs. The ATOD Council includes representation from CSUEB students, staff, faculty and the community and is divided into five subcommittees:

- Policy
- Assessment
- Education and Prevention
- Community/Treatment

- Funding

The ATOD Advisory Council strives to:

- Educate the campus community about alcohol, tobacco, and other drugs
- Prevent and reduce problems associated with alcohol, tobacco, and other drugs use by CSUEB students, faculty, and staff
- Decrease the amount of high risk drinking behaviors and the potential harm caused by alcohol
- Decrease the amount of drugs usage and the potential harm caused by such usage

ATOD Advisory Council Subcommittee Goals:

- The Policy Subcommittee updates and monitors compliance with university alcohol, tobacco, and other drugs policies. In addition, the subcommittee ensures the dissemination of the CSU East Bay alcohol, tobacco, and other drugs policy.
- The Assessment Subcommittee institutes a process to regularly assess alcohol, tobacco, and other drugs abuse prevention efforts.
- The Education & Prevention Subcommittee educates the campus community regarding policies and issues related to alcohol, tobacco, and other drugs use.
- The Community & Treatment Subcommittee collaborates with the campus and surrounding community to ensure access to treatment and other related resources.
- The Funding Subcommittee ensures adequate funding for campus alcohol and other drugs abuse prevention activities.

University Libraries Mission

The CSUEB Libraries promote student and faculty success by providing comprehensive and convenient access to the scholarly record. The Libraries teach students how to become information literate citizens who will continue to learn throughout their lives. The Libraries serve as a hub of academic support on campus by providing an engaging environment for study and an integrated suite of student services.

Information Resources

The University Libraries offer extensive collections, both in print and online, to support academic programs and faculty research. The libraries hold over 800,000 printed items, including books, journals, scores, maps, and U.S. federal and California state government publications. The libraries maintain over 100 subscriptions to print journals. In addition, they have over 850,000 microform items, and over 30,000 media resources. The libraries subscribe to 133 electronic databases and provides access to approximately 107,000 journals and over 220,000 electronic books.

The University Libraries maintain special collections and archives. Special Collections houses rare and antiquarian books; fine examples of book art; and manuscript collections, such as the Jensen Family papers, which provide rich primary sources on the history of the Hayward area. The University Archives contain the official records of the history of the University, as well as materials pertinent to the history of Southern Alameda County.

Instructional Services

The University Libraries offer information literacy courses. See the Library chapter in the undergraduate section of this catalog for course descriptions and further information. In addition to credit courses, the libraries offer course-specific instruction and workshops at faculty request to complement specific projects and papers assigned in class.

Reference Services

The University Libraries offer reference assistance in person at the Reference Desk, over the telephone, through electronic chat reference, and via email. Librarians are also available by appointment and during scheduled office hours for individual consultation regarding library research. For every department on campus, subject specialist librarians have created a subject guide. For a list of the librarians and their subject areas, see <http://library.csueastbay.edu/aboutthelibraries/subject-specialists>.

Circulation and Borrowing Services

For details about the circulation policies, ask at the Circulation Desk or contact them at (510) 885-3612, or orcircservices@csueastbay.edu. The library participates in CSU+ a service that enables faculty, staff, and students to place their own requests to borrow books that are not available at Cal State East Bay.. Interlibrary Loan staff helps individuals borrow books and journal articles not readily available at the University Libraries or through CSU+. Interlibrary loan requests may be made through the library web site at <https://csueastbay.illiad.oclc.org/illiad/logon.html>.

Media Resources and Reserves

From the Upper Mall service desk of the Main Library, the University Libraries provide access to media resources such as DVDs, CDs, videos, and other formats. Viewing and listening equipment is available. Reserve materials that faculty members have set aside for class use are available at this desk, or through Blackboard if materials are available in digital format.

The Library as Place

The library is an intellectual center to study, engage in research, and share knowledge and insight with others. Various spaces within the Main Library are designed to facilitate group and individual work. The library offers the following:

- The Learning Commons, a state-of-the-art facility offering the largest group of computers on campus, coupled with access to the collections, services, and support offered by the University Libraries;
- Adaptive Technologies which include several workstations on wheelchair accessible tables, and special speech and text magnification software;
- Photocopy Services, self-service machines available throughout the library (machines accept currency, coins, and copy cards);
- Networked Printing Services, computers in the Learning Commons and wireless laptops allow you to print from MS Office suite (Word, Excel, PowerPoint, Access), the Internet, and library databases;
- Group Study Rooms on the Upper Mall in the Main Library can be reserved online with D!Bs (at <http://csueastbay.evanced.info/dibs>) and facilitate work in small groups and the intellectual exchange of ideas through discussion;

- Student Center for Academic Achievement (SCAA) on the Upper Mall offers tutoring primarily in English and Mathematics. For tutoring appointments, visit <http://scaa.csueastbay.edu/>

Concord Campus Library

The branch campus library in Concord is a full-service library, providing reference and instructional assistance, electronic services, and circulation services. The Concord Campus Library provides access to all the resources at the main library through onsite and networked resources. Print materials from the Main Library can be paged for pickup in Concord.

LIBY 200 - Topics in Information Literacy

Units: 3 ; G.E./G.R. Area: E

Discussion on information literacy with rotating topics and disciplinary focus. Theories, methods, and perspectives on selected topics such as information ethics, social justice, data privacy, and information literacy as applied in the disciplines. Requires individual research.

Prerequisites: Sophomore or higher standing and completion of GE Area A2.

Equivalent Quarter Course: LIBY 1210 or LIBY 1551.

Possible Instructional Methods: *Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

LIBY 210 - Introduction to Information Literacy Skills

Units: 1 ; G.E./G.R. Area: E

Introduction to basic information literacy skills to assist in research processes. Issues of finding appropriate information sources, critical evaluation, and information ethics will be covered.

Prerequisites: Completion of GE area A2 and Sophomore, Junior or Senior standing.

Credit Restrictions: Not open to students with credit for LIBY 220.

Equivalent Quarter Course: LIBY 1210.

Possible Instructional Methods: *Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

LIBY 220 - Information Literacy Skills

Units: 1 ; G.E./G.R. Area: E

Information literacy skills with an emphasis on research in academic context. Issues and skills covered include: search strategies, information evaluation, information ethics, and use of information in research papers and presentations.

Prerequisites: Sophomore or higher standing and completion of GE Area A2.

Credit Restrictions: Not open to students with credit for LIBY 210.

Equivalent Quarter Course: LIBY 1210 or LIBY 1551.

Possible Instructional Methods: *Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

College of Business and Economics

College of Business and Economics

25800 Carlos Bee Blvd. Hayward, CA 94542

Valley Business & Technology Center, VBT 447

Office Hours: 8 a.m.-5 p.m., Monday through Friday

(510) 885-4331

Introduction

Established in 1957, the College of Business and Economics serves the whole of the East of the San Francisco Bay Area with classes offered on the main Hayward Campus, the Concord campus, the Oakland Professional Development Center, the San Ramon Valley Conference Center and online via the Cal State East Bay Online Campus.

Mission Statement

CBE provides life-changing, quality business education to prepare students from diverse backgrounds to become successful business professionals and leaders. We aspire to be a leading business school known for making a difference in the lives of our students and for our impact on the world.

George Low, Dean

Eric Fricke, Interim Associate Dean

In support of our mission, we value:

Ethical behavior and personal integrity

Collegiality and mutual respect

Collaboration for learning, scholarship, and community engagement

Social and environmental responsibility

Inclusive learning environment for a diverse student population

Innovative thinking and a global mindset

Expected Outcomes

- Student professional success.
- Innovative academic programs meeting business and professional needs.
- Improvement in student learning based on teaching innovations.
- Intellectual contributions to the body of knowledge in the theory, practice and teaching of business.

Institutes and Centers

Center for Economic Education, Director: Jane E. Lopus

China America Business and Education Center (CABEC), Director: Nancy Mangold

Financial Literacy Center, Director: Jagdish Agrawal

Smith Center for Private Enterprise Studies, Director: Christian Roessler

Accreditation

All degree programs in the College of Business and Economics are accredited by the AACSB International (Association to Advance Collegiate Schools of Business).

Academics

The Business Administration major program is structured around a set of core courses enabling students to develop general business perspective and skills. Students are required to choose an area of specialization (option) corresponding to their desired career path. Each option allows students flexibility to customize their program by choosing option elective courses. The program is designed to encourage students to actively participate in shaping their program to fit their individual needs.

Our Mission Statement reflects that of our College of Business and Economics

...to provide excellence and innovation in integrating quality teaching and learning, with applied research and relevant experience to a diverse clientele from the San Francisco Bay Area to the Global Community.

We provide an education that will allow students to succeed in a business environment that is characterized by rapid technological advancements; a work force of ethnic, cultural, and gender diversity; demands for continuous improvements in quality and service; demands for continuous individual and organizational learning; and, demands for the understanding and skills needed to practice in global markets.

Our Department strives to maintain a quality program that is responsive to an ever changing environment. The faculty members of our Department combine distinguished academic backgrounds with many years of practical experience in their respective professional areas. Currently, there are 38 faculty members who fill full-time positions augmented by part-time faculty with specialized expertise. These full-time and part-time faculty members are a valuable resource, not just for the University and its students, but also for the surrounding business community.

The Department offers over 100 different courses in accounting, finance, taxation, and real estate courses.

Mission Statement

We are proud of our diverse body of students and our vibrant undergraduate and graduate programs in Economics and Business. Our faculty hold PhDs from leading universities and have diverse backgrounds, teaching and research interests. In addition to receiving numerous grants and publishing in major academic journals in Economics, members of our faculty receive consistently high teaching evaluations, and some have been recognized with teaching awards. They also have made intellectual contributions via publications in books and textbooks of general interest, conferences and media presentations, and studies regarding local community issues, as well as refereeing for a variety of academic journals and in some cases serving as editors or on editorial boards. Department faculty currently head the Smith Center for Private Enterprise Studies and the Center for Economic Education. Our scenic campus is geographically located in one of the most dynamic technological, scientific and cultural hubs in the world.

Department Statement

Tough global competition requires companies to be extremely responsive to the needs and expectations of customers. In addition, many companies today are in a period of rapid changes brought about by technological breakthroughs, business globalization, and extended supply chains. In such a time, the role of the manager and the management professional in facing these challenges and maintaining a competitive edge becomes even more important. Our Management options provide students with an

exciting and diverse education in various areas of management including human resource management and organizational behavior, operations and supply chain management, strategy and international business, and information technology management. Past and present employers of our Management students include almost all major firms, and numerous small and mid-size companies in the Bay Area.

College of Education and Allied Studies

College of Education and Allied Studies

25800 Carlos Bee Blvd. Hayward, CA 94542

Arts & Education Building, AE 111

Office Hours: 8 a.m.-5 p.m., Monday through Friday

(510) 885-3942

Introduction

The College of Education and Allied Studies (CEAS) provides programs that educate and prepare leaders who serve and contribute to the quality of life for individuals and communities. Graduates from CEAS lead schools and school districts as teachers and counselors, school psychologists, and school administrators. Our graduates also organize community park and recreation programs, and manage hotels and restaurants. Other graduates from CEAS become athletic trainers, physical and recreational therapists, and marriage and family therapists. Programs are offered in a variety of formats including activity classes, on-site internships, traditional face-to-face classes, fully on-line courses, and hybrid courses that combine on-line and face-to-face instruction. CEAS also recognizes the need for balance in our lives; therefore, our college provides a full range of physical activity courses from Pilates to swimming, adventure recreation to taekwondo, and volleyball to weight training.

All educator credentials offered by CEAS are accredited by California Commission on Teacher Credentialing (CTC).

Mission Statement

To prepare collaborative leaders committed to professional excellence, social justice and democracy, who will influence a diverse and interconnected world.

College of Letters, Arts, and Social Sciences

College of Letters, Arts, and Social Sciences

25800 Carlos Bee Blvd, Hayward, CA 94542

Music Building, MB 1501

Office Hours: 8 a.m.-5 p.m., Monday through Friday

(510) 885-3161

Introduction

The College of Letters, Arts, and Social Sciences (CLASS) is a world of many activities that involve thousands of students and hundreds of faculty, as well as guest performers, artists, and lecturers. In addition to traditional academic departments, the College includes galleries, institutes, centers, and museums, and its activities span scholarship and research, community outreach, and performance. CLASS is a collection of distinctly individual departments, majors, and faculty experts, featuring an enormous array of courses and degree programs, in addition to scores of activities for both the on-campus student and the community.

Mission Statement

The College of Letters, Arts, and Social Sciences is committed to educational engagement through theory and practice, which enables our students to enhance their understanding and appreciation of the human condition, diverse cultures and values, the natural world, and their own communities. CLASS students graduate with the foundation to be ethical and productive individuals, effective citizens, and informed participants in a global society.

Services provided by CLASS SSC include:

- providing students with information about all programs in CLASS,
- connecting students to departments in CLASS and other campus units outside CLASS,
- advising and helping students to identify and solve problems concerning courses, contacts, appropriate forms and procedures, and other issues confronting the students,
- assisting students with academic administration paper work, such as late add, late drop, and late withdrawal petitions.

Ian Pollock, M.F.A. University of California, Berkeley

Jessica Santone, Ph.D. McGill University (Canada)

Department Statement

Courses in the Department of Art develop students' perceptual skills, their access to the imagination, and their ability to think critically and independently. Instruction in the use of art materials and specific art and design techniques and methods, enables students to create original works of art and design reflecting their evolving vision. Our program also fosters a broad cultural awareness of visual arts and design practices in society. Graduating majors should be able to clearly express their ideas about creating art and design. In addition, their grasp of historical and contemporary aesthetic issues should inform their own work. We offer excellent facilities, small classes taught by a distinguished faculty, space to work, and field trips to museums, galleries, and artists' studios.

Department Statement

The Department of English offers its diverse student population a rich array of courses in literature, language, creative writing, and composition. The department attempts to foster in its students an understanding and appreciation of 1) the major works of British and American literature, including works by and about ethnic and cultural minorities and women, 2) the history and structure of the English language in all its variety, and 3) the aims and processes of writing, both creative and critical. In all its courses, the department attempts to help its students develop the advanced skills in reading, writing, and critical thinking necessary for successful careers in teaching, publishing, law, administration, and business.

Director: Carlos Salomon

Mission Statement

The mission of the Department of Ethnic Studies is to provide an academically rigorous program that substantively contributes to the University's public commitment to provide a multicultural learning experience. Our comparative and interdisciplinary program covers five core areas: African American Studies; American Indian Studies; Asian American Studies; Latino/a and Latin American Studies; and Gender/Sexualities in Communities of Color. In our courses, we teach students to analyze social relations of race, class, gender, and sexuality; develop nuanced understandings of social justice; and act as socially responsible global citizens.

Mission Statement

Human Development is an interdisciplinary program that integrates theory and methodology from disciplines such as anthropology, biology, linguistics, psychology, and sociology. Students majoring in Human Development explore the processes and mechanisms underlying developmental change and stability across the lifespan, and the sociocultural and historical contexts in which development takes place. The program's curriculum equips students with basic understanding of major research findings and core concepts in human development, the ability to critically analyze and evaluate theoretical and practical issues in the field, and the skills to apply their learning to diverse communities outside the university. The program strives to create an optimal learning community which values and fosters mutual learning and dialogue between and among students and faculty from diverse backgrounds.

The Mission of California State University, East Bay's Women's Studies Program is to provide undergraduate students minoring in Women's Studies with a culturally sensitive introduction to the research, literature, and methodologies of gender/Women's Studies within, social, and economic perspectives, taught by an interdisciplinary diverse faculty committed to the Program Outcomes, in order to achieve a basic understanding of local, regional, national, and global power relations and how those relationships affect issues of gender/women contemporarily and historically.

Department Statement

The Department of Modern Languages and Literatures (MLL) offers diverse courses in language, literature, cinema, culture. The rich array of courses are in American Sign Language, Chinese, French, Japanese, Spanish, and in English. The study leads to a Bachelor of Arts degree with majors in French and Spanish; Academic minors are available in American Sign Language, Chinese Language and Cultural Studies, French, Japanese, and Spanish. Students may utilize all languages and literatures courses offered in the department as part of a special major in various areas of study. The department faculty come from a wide variety of national and academic backgrounds and have traveled extensively in the countries whose languages they are teaching. Professors have lectured and published extensively in the United States, Asia, Europe and Latin America.

Language Laboratory

Currently, the Department of Modern Languages and Literatures does not have a language laboratory; however, the University Library has audio and video tape collections of instructional programs in the languages currently taught, including American Sign Language. This temporary facility is located at Media, Resources and Reserves in the library.

Christopher M. Moreman (Chair), Ph.D. University of Wales, Lampeter

Associate Professor

Barbara Hall, Ph.D. University of Arizona, J.D. DePaul University Law School

Assistant Professor

Craig Derksen, Ph.D. University of Maryland

Department Statement

The Philosophy and Religious Studies Department at California State University, East Bay seeks to promote the exploration of enduring human concerns - concerns, for example, about the nature of knowledge, ethics, truth, and God. In addition to emphasizing classical philosophy, the department encourages students to think critically about contemporary debates, particularly in the areas of law, human rights and social justice; science, technology, and values; and religion. We strive to instill in our students lifelong habits of questioning, of exploring views contrary to their own, and of engaging in reasoned and honest dialogue. By our focus on analysis, comprehension and communication, we aim to develop qualities that are essential to personal fulfillment, civic responsibility, and career success.

Maria C. Ortuoste, Ph.D. Arizona State University

Assistant Professors

Amy Below, Ph.D. University of Southern California

Jeremiah Garretson, Ph.D. Vanderbilt University

Danvy Le, Ph.D. University of California, Irvine

Department Statement

The Department of Political Science offers a B.A. degree that gives both a strong background in social science and excellent professional preparation. The major offers three distinct paths to completion, the traditional major and options in pre-law and public affairs and administration. The two options offer interdisciplinary pre-professional curricula. The department is strong in every aspect of American government (national, state, and local institutions, public policy, public law, and public administration), as well as Comparative Politics in international relations. Political Science majors learn to be strong writers, public speakers, and researchers. Opportunities are also offered to learn advanced social science methodology and practical political skills, as well as to participate in faculty research. Students receive assistance in finding - and credit for completing - local, state, and national internships. Graduating seniors report very high levels of satisfaction with the major, and the number of Political Science majors continues to grow.

About the Department

Use our university website link to learn more about what the Political Science Department has to offer.

Institute for Governmental Research and Training: Toni E. Fogarty (Director)

Department Statement

Public Administration is a rich and challenging multi-disciplinary field drawing from sociology, anthropology, philosophy, psychology, economics, and urban and organizational studies. The master's degree program provides students with a grounding in major philosophical and social science thinking about the nature of organizations; it helps students to build the intellectual and practical tools they will need to become effective organizational leaders in the public and non-profit sectors. The M.P.A. program is designed to increase the personal and professional effectiveness of people working in public, voluntary, and private organizations. The purpose of the program is to prepare individuals for leadership positions in various organizations with a sense of commitment to social purpose, the public interest, and effective public problem-solving.

The MS-HCA program seeks to develop professionals who understand how to manage non-profit, for-profit, and voluntary health care organizations in effective and innovative ways. The program focuses on the need for health care administrators to be continuous learners, critical thinkers, and ethical practitioners by recognizing the multiply-constructed nature of human, social, and organizational realities and the complex relationships between the system of health providers and the needs of the community.

Macheo Payne, Ed.D. San Francisco State University (MSW)

Department Statement

The Department of Social Work offers instruction at the graduate level to a diverse multicultural and multiracial student population, leading to the Master of Social Work (MSW) degree. Through teaching, advising and the field experience, MSW faculty members promote a sense of activism, social justice, commitment to change, and a vision of professional competence for students admitted to the program. The CSUEB MSW degree focuses on urban social work practice with vulnerable and/or oppressed populations. The two-year program requires 60 units of coursework. There are two concentrations of choice: Children, Youth and Families or Community Mental Health. Within the program of study, students engage in both academic classes and field experience. This melding of coursework and field experience prepares students for effective social work practice in today's increasingly diverse, complex multicultural and multiracial society.

Mission Statement

The mission of the B.A. program in Sociology is to provide a stimulating and nurturing learning atmosphere for a highly diverse group of students. The program seeks to have students develop and express a love of learning and a respect for a wide range of intellectual perspectives, including a variety of theories and scientific methodologies. We are dedicated to providing students with tools and opportunities to critically examine social life, including a wide range of social problems. Students learn about the workings of social institutions, patterns of group life, social change, and the social causes and consequences of human behavior.

Lecturers

Ulises Alcala, M.F.A. University of Massachusetts, Amherst

Laura Ellis, M.F.A. Mills College

Kimiko Guthrie, M.F.A. Mills College

Mission Statement

Theatre and Dance, as performing arts, provide a spark that transforms a person into a lifelong student. Across the campus we offer opportunities for participation both in production and in critical examination that help students to discover, accept, and express themselves as active, enlightened persons, and to know and appreciate the work and values of others. To succeed in their performances, students master world history as well as the theories of art and esthetics by use of the everyday practices of the liberal arts, including research, writing, figuring, reasoning, and experimentation. They learn practical, usable skills. Students experience the problems of making choices while on stage and off. They learn to recognize the connection between art and life, as well as to discover their own capacities to make choices as citizens, as creators of art, and as directors of their lives.

Liberal Studies Program

The Liberal Studies Program's Office is located on the 4th floor of Meiklejohn Hall, Room MI 4006.

Office Hours: 8:00 am - 5:00 pm

Office Phones: (510) 885-3477

Faculty

Professor

Keri O'Neal (Human Development and Women's Studies) (Director), Ph.D. Texas Tech University

Program Statement

The Liberal Studies Major aims to provide a rich liberal art educational experience through selected courses from a wide range of academic disciplines, while at the same time allowing students to select a field for in-depth study of their own interest. The broad-based, interdisciplinary nature of Liberal Studies provides a solid well-rounded undergraduate educational experience, integrating knowledge from arts and humanities, social sciences, and natural sciences, with analytical and communication skills well suited for many careers and professions.

The major consists of a common core and a choice from seven concentrations, designed to meet diverse student interests and needs not only for school teaching, but also for leadership in government, non-profit organizations, and business, and for graduate education in law, counseling, social work and services, public affairs and administration, and educational leadership.

Program Statement

The International Studies major consists of an integrated group of courses reflecting international aspects of various disciplines. It is designed to provide the student with a broad base of understanding of the interrelationship of the world community, while at the same time providing the opportunity to specialize in an area of interest. A minor in International Studies is also offered.

The International Studies major consists of a lower division requirement of eighteen to nineteen (18-19) units in International Studies, Culture and Society, Geography, Economics, Political Science, and Humanities, plus a foreign language requirement. The upper division requirements include a methods course, a twentieth century History course, and two INTS courses (a senior seminar and an international field experience). The student will complete the major with twelve to sixteen (12-16) units of international coursework with a particular emphasis.

School of Arts and Media

Participating Departments
Art, Communication, Music, Theatre & Dance

School Mission

The field of video production, for television as well as for corporate, educational, and Web uses, is expanding rapidly and there is much demand by employers for people with these skills. Other programs and courses at Cal State East Bay feature documentary and news production (COMM); stage acting (THEA); fiction writing for the printed page and the Internet (ENGL). This program introduces a new dimension to each of these areas: narrative or creative video. The new minor enables these departments to collaborate and actually create several videos of broadcast quality each year, giving students the opportunity to learn skills by practicing them.

College of Science

College of Science

25800 Carlos Bee Blvd., Hayward, CA 94542

North Science (SC-N) building, Room 131

Office Hours: 8 a.m.- 5 p.m., Monday through Friday

(510) 885-3441

Mission Statement

The College of Science, by fostering an environment where students, faculty and staff work collaboratively to expand knowledge in the disciplines of science and mathematics, seeks to provide both majors and non-majors with a science foundation that is appropriate to their career goals and with knowledge and skills that will allow them to function as responsible and contributing members of society.

Jason Singley, Dean

Danika LeDuc, Associate Dean

In support of its mission, the College of Science is committed to provide:

A climate which encourages students, faculty, and staff to contribute to the intellectual, cultural, and economic life of the University and the communities it serves

Academic programs that meet the evolving needs of its students and outreach programs that serve those within the primary service areas of the University

Facilities and technology that support the learning environment

A learning community which ensures students of varying age, ethnicity, culture and socio-economic status are equally well served

An environment that fosters a lifetime of critical inquiry and learning

Institutions and Centers

Alameda County Collaborative for Learning and Instruction in Mathematics (ACCLAIM) is a regional initiative cosponsored by the California State University, East Bay (CSUEB) and the Alameda County Office of Education (ACOE), with the cooperation of local school districts.

East Bay Science Project (EBSP), provides professional development programs for K-12 teachers and technical support services for schools and districts. Established in 1990 at the California State University East Bay (CSUEB), in partnership with the Alameda County Office of Education (ACOE), to improve science education throughout the San Francisco Bay area. The partnership consists of CSUEB science faculty, pedagogical experts at ACOE, in-service and pre-service teachers, and public school administrators. The focus is to increase the quality of K-12 science teachers by increasing their science content knowledge and facilitating the sustained use of inquiry-based pedagogies.

The Biotechnology Certificate Program (BCP), is a competitive, limited enrollment program emphasizing close supervision and instruction in current theoretical and practical training in molecular life sciences. It was established in 1986 to meet the personnel requirements of the rapidly expanding Bay Area biotechnology industry.

The CSCI Student Service Center provides comprehensive major advising and support for students in the Health Sciences, Biology, Chemistry, Biochemistry, and Statistics majors. Advisors assist students in thoroughly understanding their major/minor requirements, planning classes, and completing necessary paperwork. The goal is to help students as they transition into university life and develop useful skills to complete their degree.

Center for Math Education & Research (CSER), is to enhance and facilitate the teaching and learning of mathematics across all communities in the Bay Area. The Center is designed to benefit both faculty members, who are seeking opportunities for grant funding, and funders from outside granting agencies interested in participating in the improvement of mathematics education. CMER provides a centralized location that describes the work and expertise of university faculty. CMER promotes opportunities for outside entities, who are interested in getting involved in community educational improvement, to collaborate with higher education faculty in Math and Education at Cal State East Bay.

Institute for Stem Education (STEMEd), provides leadership and support to California State University, East Bay, as it fulfills its commitment to preparing the students in our diverse community for success in Science, Technology, Engineering, and Mathematics disciplines, and to helping all students acquire the STEM knowledge necessary to function as engaged and informed citizens.

Scholarship Opportunities

Department of Biological Sciences

The Department Office is located on the 4th Floor of the North Science building, Room 429.

Open 8:00 a.m. - 6:00 p.m., Monday - Friday.

Dept. Phone: (510) 885-3471

Faculty

Professor Emeritus

Donald A. Gailey, Ph.D. University of California, Los Angeles

Professors

Christoph W. Baysdorfer, Ph.D. University of California, Berkeley

Michael S. Hedrick, Ph.D. University of British Columbia (Canada)

Caron Y. Inouye, Ph.D. University of California, Los Angeles

Christopher L. Kitting, Ph.D. Stanford University

Carol R. Lauzon, Ph.D. University of Vermont

Maria C. Nieto, Ph.D. University of California, Berkeley

Claudia Uhde-Stone, Ph.D. University of Bielefeld (Germany)

Associate Professors

Tyler Evans, Ph.D. University of Saskatchewan (Canada)

Maria E. Gallegos, Ph.D. University of Wisconsin, Madison

Kenneth Curr, Ph.D. Albert Einstein College of Medicine, New York

James Murray, Ph.D. University of Washington

Brian Perry (Chair), Ph.D. Harvard University

Erica L. Wildy, Ph.D. Oregon State University

Assistant Professors

Ana Maria Almeida, Ph.D. University of California, Berkeley

Pascale Guiton, Ph.D. Washington University in St. Louis

Nazzy Pakpour, Ph.D. University of Pennsylvania

Graduate Coordinator: Maria Gallegos

Mission Statement

The mission of the Department of Biological Sciences is to provide students with the most current biological information possible coupled with extensive laboratory and field experiences. An educated and trained biologist contributes to society and returns this knowledge to the community. A diversity of courses featuring laboratory and field work supports professional specialization in a broad spectrum of disciplines within the life sciences. The degree programs are designed for students with specific career objectives in laboratory, administrative, or field settings, and for students who may seek further graduate training or preparation for careers in health professions or teaching.

Professors

Michael Groziak, Ph.D. Northwestern University

Chul-Hyun Kim, Ph.D. University of California, Berkeley

Anne T. Kotchevar, Ph.D. University of Minnesota, Minneapolis

Danika LeDuc, Ph.D. University of California, Berkeley

Maureen Scharberg, Ph.D. University of California, Davis

Monika Sommerhalter, Ph.D. Technische Universität Berlin (Germany)

Associate Professors

Patrick Fleming, Ph.D. The Ohio State University

Ann A. McPartland (Chair), Ph.D. Purdue University

Assistant Professors

Mark Borja, Ph.D. University of California, San Francisco

Marlin Halim, Ph.D. Columbia University

Patrick Huang, Ph.D. University of California, Berkeley

Aleksey Kocherzhenko, Ph.D. Delft University of Technology (The Netherlands)

Ruth Tinnacher, Ph.D. Colorado School of Mines

Graduate Coordinator: Chul-Hyun Kim

Department Statement

Chemistry is known as the central science because just about everything that we can touch and feel is made of chemicals. The many applications of chemistry to our lives have created a broad range of opportunities for employment. With a B.A., B.S., or M.S. degree in Chemistry, a student may find a research or technical position in the petroleum, chemical or food processing industries. B.A. and B.S. graduates with degrees in chemistry or biochemistry are also employed by pharmaceutical and biotechnology companies. In addition, graduates of chemistry or biochemistry work in sales and plant development, quality control, customer relations, and many other aspects of modern business. Combining the bachelor's degree in chemistry or biochemistry with a higher degree can lead to many unique and rewarding careers. The B.S. degree in biochemistry is particularly useful for those planning advance training in medicine, dentistry, pharmacy, or optometry. The B.A. in Chemistry and B.A. Biochemistry

degrees with the Chemistry Education Concentration prepare students for entry into a single subject teaching credential program in chemistry. The B.S. and M.S. programs provide excellent preparation for the Ph.D. degree for the student who wants to make research and/or university teaching in chemistry or biochemistry a primary occupation. Chemical research is at the heart of progress that is made in the development of pharmaceuticals, agriculture, nutrition, the environment, and our understanding of nature.

In general, the outlook is bright for anyone who wishes to study chemistry or biochemistry.

José Rosario, Ph.D. Cornell University

Environmental Science Program Coordinator: Michael Massey

Department Statement

The Department of Earth and Environmental Sciences at Cal State East Bay is the home of the Geology and Environmental Science programs. Located on the tectonically active Hayward fault, we offer a variety of opportunities for students to obtain experience in lab- and field-based studies. We are a small department that prides itself on a feeling of community. Small class sizes guarantee close interaction between students and faculty, with personal attention at all levels.

Reza Akhavan, Ph.D. University of Central Florida

Fadi Castronovo, Ph.D. Pennsylvania State University

Roger Doering, Ph.D. University of California, Berkeley

James Tandon, Ph.D. University of California, Santa Barbara

Department Statement

The School of Engineering offers undergraduate degrees in Industrial Engineering, Computer Engineering and Construction Management, and graduate degrees in Engineering Management and Construction Management. Certificates in Quality, Project Management, Construction Planning and Control and Construction Administration are also offered. The School serves a diverse regional and international

student population, and utilizes modern tools and laboratories for active learning and student engagement while emphasizing collaborative learning.

Computer Engineers are involved in all aspects of computing, from the design of individual microprocessors, personal computers, and supercomputers, to circuit design, as well as the integration of computer systems into other kinds of systems (a motor vehicle, for example, has a number of subsystems that are computer oriented). Common computer engineering tasks include writing embedded software for real-time microcontrollers, working with sensors, designing mixed signal circuit boards, and designing operating systems. The Computer Engineering Program is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, Telephone: (410) 347-7700.

Industrial Engineers serve an essential need in today's technical society. As the interface between humans and technology, industrial engineers work to improve the quality and efficiency of the production of goods and services. The depth and caliber of academic preparation required to excel in this field is embodied in CSUEB's Industrial Engineering curriculum. The Industrial Engineering Program is accredited by the Engineering Accreditation Commission of ABET, 111 Market Place, Suite 1050, Baltimore, MD 21202-4012, Telephone: (410) 347-7700.

Engineering Management curriculum is distinctive in that it provides a blend of qualitative management and quantitative industrial engineering skills. Courses are offered in engineering, business, computer science and statistics. Students gain theoretical and practical training in how to plan, organize, allocate resources, and direct and control activities that have technological components.

Construction Management goals are to prepare effective managers for public and private construction projects, to prepare the workforce required for the expected increase in the State's transportation infrastructure improvements, and to enable high school graduates, transfer students and working professionals to assume leadership roles in the construction industry. Special attention is given to working students with classes offered mainly at times convenient to students.

About the School

Use our university website link to learn more about what the School of Engineering has to offer.

Michael Stanton, Ph.D. Duke University

Department Statement

The Health Sciences degree program is the second largest and the fastest growing program at CSUEB. It is an applied science that focuses on knowledge and skills necessary to practice in both clinical and population health settings. Students in our Health Sciences program prepare for careers in healthcare administration and policy, public health or prepare for further training in technical or professional clinical programs. Health sciences is an interdisciplinary field that focuses on the application of physical, biological, and social sciences to understand and to improve health in human beings.

Healthcare as an industry is anticipated to become one of the largest employers in the United States in the next ten years with healthcare support and technical occupations being two fastest growing labor groups.

There are hundreds of job opportunities and areas of practice in this field. A degree in Health Sciences from CSUEB provides the foundation graduates need to participate in this exciting and growing field.

Mission

Working together to improve the health of the San Francisco Bay Area, California, and beyond through teaching, research, and service.

Vision

We work for a future where:

The students of the Health Sciences program at CSU East Bay are committed to tackling the health challenges facing the communities of the East Bay and California, to eliminating health disparities, and to creating climate-change resilient communities. The program students are change agents driving improvements in health across the East Bay.

The Health Sciences program emphasizes health policy, public health and environmental health. Rooted in principles of solidarity, health equity, and social justice, the program values an interdisciplinary approach that emphasizes teamwork, problem solving, adaptability, ethics and strong evidence-based practice.

The Health Sciences program is an active and integral part of CSU and the East Bay communities with strong relationships to community organizations, hospitals, medical centers, and health departments. The program is a leader in the institutional focus of CSU East Bay on health and health-related programs and is a critical part of the mission of CSU East Bay. It is nationally-recognized for its innovations in pedagogy and curriculum, and its faculty are active in their respective fields of research with work appearing in a wide range of publications.

The Health Sciences alumni are leaders and pioneers in their fields and work across all sectors in health and public health. They are adaptable to the changing demands of their fields and are lifelong learners. They take pride in their alma mater and are active donors and volunteers to the program, helping to build a resilient program that is a key part of the health of the East Bay and California.

Department Statement

Mathematics is an intriguing, interesting and beautiful subject. It is also challenging and rigorous. Students are drawn to mathematics because of its clarity and the joy of discovering solutions to difficult problems. The Department of Mathematics offers strong Bachelor of Science and Master of Science degrees that include a variety of courses intended to prepare students for a career in any mathematics related field or other areas that value quantitative and problem-solving skills. The program allows flexibility in breadth and depth where students can choose among courses with applied and pure emphases. The faculty are committed to creating a welcoming environment and providing opportunities for all students to explore mathematics within and beyond the classroom.

Claire Valderama-Wallace, MS University of California, San Francisco

Jennifer Winters, Ph.D. Walden University

Mission Statement

The mission of the baccalaureate nursing program at CSUEB is to prepare professional nurse generalists who are committed to the practice of nursing and responsive to the ever changing needs of the communities we serve. The program therefore seeks to provide an inclusive community of learning focused primarily on undergraduate nursing education and the development of lifelong learners.

The nursing program supports and reflects the University mission of quality education for a diverse society. We value a diverse workforce, a diverse nursing student body, and culturally inclusive practitioners of nursing who are equipped to provide high quality care and have a transformative influence on nursing practice, healthcare environments, and the health of our community.

Department of Physics

The Department Office is located on the 2nd Floor of the North Science (SC-N) building, Room 231

Open 8:00 a.m. - 4:30 p.m., Monday - Friday.

Faculty

Professors

Derek Kimball, Ph.D. University of California, Berkeley

Jason Singley, Ph.D. University of California, San Diego

Associate Professor

Erik Helgren (Chair), Ph.D. University of California, Los Angeles

Assistant Professors

Amy Furniss, Ph.D. University of California, Santa Cruz

Kathryn Grimm, Ph.D. State University of New York, Stony Brook

Ryan Smith, Ph.D. University of Colorado, Boulder

Department Statement

Physics is crucial to understanding the world around us, the world inside us, and the world beyond us. It is the most basic and fundamental science. Physics challenges our imaginations with concepts like relativity and string theory, and it leads to great discoveries, like computers and lasers, that change our lives. In Physics, one attempts to discover, formulate, explain, and apply the basic laws of nature. Topics of study in Physics are as diverse as astrophysics, relativity, properties of materials, or the standard model of fundamental particles and interactions. Principles of Physics provide the foundation for other sciences as well as engineering.

At CSUEB students can choose between a Physics, B.S. degree and a Physics, B.A. degree.

The B.S. degree offers a comprehensive curriculum with a hands-on philosophy to learning that includes numerous laboratory courses and a strong emphasis on undergraduate research with faculty. The Physics, B.S. degree major program is designed to give students an in-depth and focused understanding of the fundamentals of physics including concepts of classical mechanics, wave motion and sound, electromagnetism and optics, heat and thermodynamics, relativity, quantum mechanics, and elementary particles and their interactions. The program prepares students for graduate school in Physics and is also an excellent foundation for other professional schools. The Physics B.S. program also prepares students for careers in basic research, defense industry, clean energy, science education, and all technology-related sectors.

The B.A. degree also provides hands-on learning with lab-based coursework but requires fewer courses, and as such the B.A. program can be finished in an accelerated timeframe. The B.A. program still provides enough experience and breadth of study so that students are well prepared for careers in basic research, defense industry, clean energy, science education, and all technology-related sectors.

Physics Major Learning Objectives

Students graduating with a Physics, B.S. or Physics, B.A. degree will be able to:

1. Understand the fundamental principles of physics and be able to apply these core ideas to analyze physical processes;
2. Apply quantitative reasoning and critical thinking to solve complex problems, both theoretical and experimental in nature;
3. Independently learn new technical subjects and skills;
4. Design, construct, assess, and troubleshoot experiments, quantitatively analyze the results using appropriate statistical procedures and tests of systematic errors, and draw meaningful conclusions;
5. Effectively communicate scientific ideas, both theoretical and experimental, to diverse audiences through written and oral presentations, both formal and informal;
6. Work professionally, effectively, and inclusively as a member of diverse collaborations to solve problems.

The Physics department also offers a minor in Physics and, new as of Fall 2018, a minor in Astronomy!

Department Statement

Psychology is the science of behavior and mental processes. Many psychologists work with people to understand how they think, respond to stress, learn and forget, develop into unique personalities, and interact with one another. Others study the behavior and nervous systems of animals in order to find general principles that apply across species. Psychologists apply their knowledge to do therapy and counseling, to improve practices in schools, prisons, and rehabilitation centers, and to enhance performance in industry, business, and the professions. Careers in psychology are already plentiful and fulfilling, and the field is one of the fastest growing in the world.

Department Statement

There are many job opportunities locally for Statisticians in many diverse areas of application, such as Actuarial Science, Biostatistics, Bioinformatics, Data Analysis, Data Science, Medical Statistics, Pharmaceutical, Biotech, Finance, Banking, Government, Education, Consulting, and many others. Students are encouraged to consider the fields of Statistics and Biostatistics as a program of study, whether graduate or undergraduate. Many of the Department's undergraduate students are double-majors. Computer Science, Math, and Psychology majors, in particular, have found double-majoring with Statistics to be valuable in getting a job or pursuing higher degrees.

Pre-Professional Programs (PHAP)

The Pre-Professional Health Academic Program (PHAP) Office is located on the 1st floor of the North Science Building, SC N113

Contact the office for office hours

Office Phone: (510) 885-4764

Faculty

Professor

Oscar Wambuguh, Ph.D. University of California, Berkeley

Program Statement

PHAP is operated by Continuing Education, in collaboration with the College of Science, and prepares undergraduate and post-baccalaureate students interested in biomedical careers (medicine, dentistry, pharmacy, optometry, veterinary science, graduate nursing, physician assistant, podiatry, physical therapy and selected allied health programs) for application to these doctoral programs. Students are encouraged to review information on the PHAP website to learn more about differences between those categories.

A student interested in entering medicine, dentistry, optometry, pharmacy, physical therapy, veterinary science, or allied health sciences should contact the PHAP Office at the North Science Building, SC N113 (510-885-4764) for information and registration in the program. The office will direct the student to a preprofessional health advisor to discuss individual course needs and counseling about the requirements for admission to professional schools. Information about specific health and veterinary fields, schools, admission requirements, applications, etc., is available through numerous online documents listed under "Links" at the PHAP website. The national health professional associations (AAMC, ADEA, AACOM, ASCO, AAVMC, etc.) also have listings of schools which may be linked to from their sites.

The Director of PHAP is Dr. Oscar Wambuguh, also a pre-health advisor and professor in health sciences. There are three other pre-health faculty advisors in the program who can be reached for an appointment using the links at the College of Science highlighted below. Students should make an appointment to meet with the advisor as often as necessary. The pre-health advisor engages students in discussions concerning courses, course mix, course load, and volunteer, research, and community service opportunities required by many professional schools. Information about advising appointments can also be obtained by e-mailing phap@csueastbay.edu

Marine Science Program

Cal State East Bay contact the Biological Sciences Office, located on the 4th Floor of the North Science building, Room 429.

Open 8:00 a.m. - 6:00 p.m., Monday - Friday.

Dept. Phone: (510) 885-3471

Faculty

Professors Emeriti

William Broenkow (Physical Oceanography)

Gregor M. Cailliet (Ichthyology)

Michael S. Foster (Phycology)

H. Gary Greene (Marine Geology)

Professors

Ivano W. Aiello (Geological Oceanography)

Kenneth H. Coale (Chemical Oceanography/Trace Metals)

Jon Geller (Invertebrate Zoology)

Michael H. Graham (Phycology)

Scott Hamilton (Ichthyology)

James T. Harvey (Interim Director, Vertebrate Ecology)

Erika McPhee-Shaw (Physical Oceanography)

Joan Parker (Research Librarian)

Diana Steller (Research Diving)

Nick Welschmeyer (Biological Oceanography)

Research Professors

Simona Bartl (Molecular Biology)

Laurence Breaker (Physical Oceanography)

David A. Ebert (Ecomorphology)

Stacy Kim (Benthic Ecology)

Valerie Loeb (Ichthyoplankton)

John Oliver (Benthic Ecology)

Jason Smith (Environmental Biotechnology Laboratory)

Richard M. Starr (C.A. Seagrass/Fisheries and Conservation Biology)

Program Statement

The California State University operates the Moss Landing Marine Laboratories (MLML) at Moss Landing on Monterey Bay, California. This facility functions as a seaside extension of the campuses of seven cooperating California State Universities (East Bay, Monterey Bay, San Jose, San Francisco, Sacramento, Stanislaus, and Fresno) and offers course work in marine biology, geology, oceanography, and other marine sciences.

Facilities

Since January 2000, the Laboratories have occupied new facilities in Moss Landing overlooking Monterey Bay, replacing the original laboratory demolished in the 1989 Loma Prieta earthquake. The stunning new building provides modern, up-to-date classrooms, laboratories, research facilities, library and conference room for faculty, staff and students of the consortium campuses.

MLML's Marine Operations Center, located also in Moss Landing, facilitates oceanographic and near-shore classes and research by providing shore support. The Center houses equipment used for in-port maintenance of scientific equipment, SCUBA air compressor, shore-based radio operations, and other support needs.

The MLML maintains a collection of nautical charts and topographical maps with an emphasis on the West Coast and there is a growing collection of reprints. It also subscribes to abstracting services such as "Oceanic Abstracts" and "Aquatic Sciences and Fisheries Abstracts." A terminal is available for computer literature searches. Close ties are maintained with libraries at Stanford's Hopkins Marine Station, U.C. Santa Cruz, Naval Postgraduate School, San Jose State University, and the Monterey Bay Aquarium Research Institute. Materials are borrowed from these agencies or further afield as the need arises. A special effort has been made to collect materials relating to Monterey Bay and Elkhorn Slough.

As a member of the Central California Oceanographic Cooperative (CENCAL), MLML operates the 135-foot Research Vessel Point Sur. The R/V Point Sur, built in 1981, is well-equipped for instructional use and research, with a trawl winch, two hydrographic winches and three laboratories, scientific equipment for sampling and oceanographic profiling, Smith-McIntyre grabs, rock dredges, and various types of coring devices. Also available is a variety of nets for bottom and midwater trawls.

The Laboratories also own and operate the 56-foot R/V John Martin and the 35-foot R/V Ed Ricketts. These boats are used for trawling, water sampling and other work near shore, and serve as diving platforms.

In addition, faculty and students at MLML utilize other University National Oceanographic Laboratory System (UNOLS) vessels when they have research requirements for larger vessels or for vessels in a different area of the world. MLML personnel have participated in cruises to Baja California, Hawaii, the Bahamas, Mexico, South America, the Arctic, and the Antarctic.

Graduate Program

A Master of Science in Marine Science degree program is offered at MLML for students from Cal State East Bay and the other consortium schools. Details of this program follow. In addition, graduate students from Cal State East Bay may take such courses at Moss Landing as are appropriate to their degree

objectives, including that of an M.S. in Biological Science or an M.S. in Geology. (See the Department of Biological Sciences and Department of Earth and Environmental Sciences chapters in this catalog.) A major part of the work leading to the M.S. degree in Biological Science, particularly in the environmental biology option, or to the M.S. degree in Geology, may be completed at the Marine Laboratories. Normally, a minimum of one or two quarters enrollment for other necessary courses on the Hayward campus may also be required.

Courses Offered

Full-time coursework and research in marine sciences are offered the year around. Emphasis in instruction and research is at the upper-division undergraduate and graduate levels. The Laboratories operate on a semester system during the academic year.

A total of thirty to forty units is offered each term in marine biological and physical sciences. Contact the Cal State East Bay Department of Biological Sciences for a current list of courses for the term you wish to attend, or you can write to Moss Landing Marine Labs, 8272 Moss Landing Road, Moss Landing, CA 95039. Basic courses offered every term include marine ecology, marine science diving, graduate seminar, and selected topics in marine sciences. See the BIOL and ENSC course prefixes in the Course Descriptions chapter in this catalog.

Nature of Instructional Program

Classes usually are small, with major emphasis upon field and laboratory instruction, and with a strong independent study or directed research component. Coursework usually is organized into large blocks of time (all day on a given day). Since field and laboratory activities are more demanding of time and energy than is usual for on-campus courses, the staff recommends that the student limit his or her academic load to twelve units. While it is possible to commute to Moss Landing for part-time work, this is not recommended because of the time and energy drain. In addition to standard course offerings, independent study (undergraduate) and graduate research and thesis work may be undertaken under supervision of staff members currently in residence.

Research Areas and Emphases at Moss Landing

Stress is upon field-oriented studies of marine and estuarine ecosystems, with physical science research concerned particularly with geological, chemical, and physical limiting factors, and biological investigations dealing with relationships of organisms to these factors. Where possible, physical and biological studies are paired to provide reciprocal benefits from a team approach and from interdisciplinary faculty sponsorship. The near-shore shallow waters of Monterey Bay, Elkhorn Slough, and the deep waters of the Monterey Submarine Canyon provide a wide diversity of habitats.

Housing in Moss Landing Area

Commercial housing (apartments, small furnished houses, rooms with or without board, etc.) is available at communities near Moss Landing (Castroville, Salinas, Watsonville, Aptos, Monterey). Short-distance

commuting from these areas is necessary; thus, availability of a car or participation in a car pool usually is required.

Registration Procedures

Since MLML courses are offered on the semester system (fall and spring semesters), there are special registration procedures.

Students must complete and submit a "Space Reservation" form to MLML (available through the Cal State East Bay Department of Biological Sciences and through MLML). Permission must be given by Cal State East Bay Biological Sciences for East Bay MLML students to register online. Students must also attend the first day of classes at MLML.

Fall and spring registration for MLML courses is at the same time as Cal State East Bay's regular fall and spring registration. Fall registration fees are paid at the same time as regular fall registration fees. Spring registration fees must be paid at the beginning of spring semester MLML classes (end of January).

Programs of Study by Department (A-G)

Academic Course of Study

Cal State East Bay offers a vigorous academic course of study with a real-world curriculum to prepare students for a lifetime of personal achievement and career success.

The program links below contain program descriptions, outcomes, career opportunities, program requirements, course names, numbers, descriptions, and degree, minor, credential, and certificate requirements.

Department of Accounting and Finance

The Department Office is located on the 4th floor of the Valley & Business Technology (VBT) building, Room 435

Open Hours: 8:00 am to 5:00 pm Monday through Friday

Our Mission Statement reflects that of our College of Business and Economics

...to provide excellence and innovation in integrating quality teaching and learning, with applied research and relevant experience to a diverse clientele from the San Francisco Bay Area to the Global Community.

We provide an education that will allow students to succeed in a business environment that is characterized by rapid technological advancements; a work force of ethnic, cultural, and gender diversity; demands for continuous improvements in quality and service; demands for continuous individual and organizational learning; and, demands for the understanding and skills needed to practice in global markets.

Our Department strives to maintain a quality program that is responsive to an ever changing environment. The faculty members of our Department combine distinguished academic backgrounds with many years of practical experience in their respective professional areas. Currently, there are 38 faculty members who fill full-time positions augmented by part-time faculty with specialized expertise. These full-time and part-time faculty members are a valuable resource, not just for the University and its students, but also for the surrounding business community.

The Department offers over 100 different courses in accounting, finance, taxation, and real estate courses.

Bachelor

Business Administration, B.S.: Accounting Concentration

Business Administration, B.S. Program (120 units)

Program Description

The College of Business and Economics, which offers the Bachelor of Science in Business Administration (B.S.B.A.) program, is committed to providing life-changing, quality business education to prepare students from diverse backgrounds to become successful business professionals and leaders. The B.S.B.A. program imparts students with the knowledge and skills necessary to understand the changing global business environment and to prepare students for success in their professional careers.

The B.S.B.A. major program is structured around a set of core courses enabling students to develop general business perspective and skills. Students are required to choose an area of specialization, i.e., concentration, corresponding to their desired career path. In addition, the program allows students flexibility to customize their specialization by choosing business elective courses. These electives may be chosen to further strengthen their preparation in their chosen concentration.

The undergraduate and the graduate programs in the College of Business and Economics are accredited by the Association to Advance Collegiate Schools of Business International (AACSB).

Program Learning Outcomes

Students graduating with a Bachelor of Science in Business Administration will be able to:

- Recognize and integrate foundation knowledge across functional areas.
- Apply critical thinking skills to solve business problems.
- Understand and apply quantitative methods and tools in evaluating business problems and making effective business decisions.
- Apply technology to analyze data and provide solutions to business problems.
- Apply effective oral communication skills in a diverse and global environment.
- Apply effective written communication skills in a diverse and global environment.
- Apply effective team skills to work in a diverse and global environment.
- Identify and assess ethical issues and properly articulate ethical decisions.

Expiration of Courses

Upper division major/concentration requirement courses will expire ten years after completion of the term in which they are earned. Expired courses cannot be used to fulfill degree requirements and must be replaced by current credits. Requests for waivers of the ten-year limit for extenuating circumstances, other than mere failure to register, are made to the department chair in which the course resides and the director of undergraduate programs.

Transfer of Courses

Upper division courses will only be considered for equivalency or transfer credit if they are from AACSB accredited institutions. Exceptions will be made for programs that have current and signed agreements with the College of Business and Economics.

Degree Requirements

The B.S. degree requires a total of 120 units. In addition to General Education courses and other graduation requirements, the Business Administration major requires three sets of courses: (I) lower division core courses, (II) upper division core courses, and (III) courses to fulfill concentration requirements.

Degree Requirements Unit-Outline

- A baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 75 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Business Administration Major Requirements (75 units)

Note: Please see the Errata pages for corrections made to the major requirements effective for all concentrations.

Lower Division Core Courses

The following 18 units of lower-division coursework are required:

- ACCT 210 - Introduction to Financial Accounting *Units: 3*
- ACCT 215 - Introduction to Managerial Accounting *Units: 3*
- ECON 200 - Principles of Microeconomics *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- ECON 205 - Principles of Macroeconomics *Units: 3 ; G.E./G.R. Area: D1-3*
- MATH 180 - Mathematics for Business with Calculus *Units: 3 ; G.E./G.R. Area: B4*
- STAT 110 - Elements of Statistics for Business and Economics *Units: 3*

Upper Division Core Courses

The following 27 units of upper-division coursework is required:

- BUS 310 - Organizational Behavior *Units: 3*
- BUS 325 - Marketing Principles *Units: 3*
- BUS 330 - Financial Management *Units: 3*
- BUS 335 - Communications in Team Building *Units: 3*
- BUS 360 - Operations Management *Units: 3*
- BUS 499 - Seminar in Strategic Business Management *Units: 3*
- ECON 380 - Managerial Economics and Business Strategy *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- MGMT 350 - Decision Science *Units: 3 ; G.E./G.R. Area: B6*

Plus, choose one (1) course from the following:

- BUS 385 - International Business *Units: 3 OR*
- ECON 385 - Global Economic Analysis *Units: 3 Recommended for Business Economics concentration students*

Concentration Requirements

Students must select one (1) of the following concentrations for 30 units:

- Business Administration, B.S.: Accounting Concentration
- Business Administration, B.S.: Business Economics Concentration
- Business Administration, B.S.: Entrepreneurship Concentration
- Business Administration, B.S.: Finance Concentration (Available Online)
- Business Administration, B.S.: General Management Concentration (Available Online)
- Business Administration, B.S.: Human Resources Management & Organizational Behavior Concentration
- Business Administration, B.S.: Information Technology Management Concentration (Available Online)
- Business Administration, B.S.: Marketing Management Concentration
- Business Administration, B.S.: Operations and Supply Chain Management Concentration (Available Online)

Accounting Concentration

The coursework in the Accounting concentration prepares students for accounting, auditing or tax positions in public accounting firms, corporations, government agencies or non-profit organizations. It is a rigorous accounting program that provides students the required education units to qualify for the Certified Public Accountants (CPA) exam. The program focuses on the knowledge of the U.S. financial reporting and auditing standards, federal taxation, business laws and regulations, and accountants' professional responsibilities. It also enables students to develop professional communication and collaborative teamwork skills.

Required Courses

The following 27 units are required.

- ACCT 311 - Intermediate Financial Accounting I *Units: 3*
- ACCT 312 - Intermediate Financial Accounting II *Units: 3*
- ACCT 320 - Business Law for Accountants *Units: 3*
- ACCT 321 - Auditing I *Units: 3*
- ACCT 331 - Federal Taxation for Individuals *Units: 3*
- ACCT 340 - Accounting Information Systems *Units: 3*
- ACCT 342 - Accounting Ethics *Units: 3*
- ACCT 370 - Accounting for Governmental and Not-for-Profit Entities *Units: 3*
- ACCT 411 - Advanced Financial Accounting *Units: 3*

Elective Course

Select one (1) course for 3 units that is an ACCT upper division (300-400 level) course excluding ACCT 335, 398, 435, 490, and excluding the Required Courses for accounting listed above.

Note: Students interested in taking the CPA exam are recommended to choose at least one (1) from the following four courses as an elective. Also, Students interested in a career in taxation are recommended to choose either ACCT 432 or 433.

- ACCT 302 - Cost Accounting Units: 3
- ACCT 421 - Auditing II Units: 3
- ACCT 432 - Federal Taxation for Corporations Units: 3
- ACCT 433 - Federal Taxation for Partnerships Units: 3

Students interested in a career in internal audit are recommended to choose at least one (1) from the following courses as an elective:

- ACCT 422 - Internal Auditing Units: 3
- ACCT 423 - Information Technology Audit Units: 3
- ACCT 424 - Forensic Accounting and Fraud Examination Units: 3

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- ACCT 422 - Internal Auditing Units: 3
- ACCT 423 - Information Technology Audit Units: 3

- ACCT 424 - Forensic Accounting and Fraud Examination *Units: 3*
- ACCT 432 - Federal Taxation for Corporations *Units: 3*
- ACCT 433 - Federal Taxation for Partnerships *Units: 3*
- ACCT 435 - VITA - Quality Review of Individual Income Tax Returns *Units: 3*
- ACCT 490 - Independent Study *Units: 1-4*
- ACCT 497 - Issues in Accounting *Units: 3*
- BUS 220 - Legal Environment of Business *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- BUS 330 - Financial Management *Units: 3*

Accounting: Graduate

- ACCT 611 - Financial Reporting and IFRS I *Units: 3*
- ACCT 612 - Financial Reporting and IFRS II *Units: 3*
- ACCT 613 - Advanced Topics in Accounting *Units: 3*
- ACCT 621 - Accountants' Ethics and Professional Responsibilities *Units: 3*
- ACCT 622 - Auditing Theory and Practice I *Units: 3*
- ACCT 623 - Auditing Theory and Practice II *Units: 3*
- ACCT 631 - Corporate Tax *Units: 3*
- ACCT 639 - Business Law and Regulation *Units: 3*
- ACCT 671 - Business Communications and Professional Development I *Units: 1.5*
- ACCT 672 - Business Communications and Professional Development II *Units: 1.5*
- ACCT 681 - Financial Statement Analysis and Business Valuation *Units: 3*
- ACCT 690 - Independent Study *Units: 1-4*
- ACCT 693 - Project *Units: 3*
- ACCT 697 - Issues in Accounting *Units: 3*
- ACCT 698 - Internship *Units: 1-3*
- BUS 604 - Financial Accounting *Units: 3*

Finance

- FIN 230 - Personal Finance *Units: 3 ; G.E./G.R. Area: E*
- FIN 380 - Real Estate Principles *Units: 3*
- FIN 382 - Real Estate Practice *Units: 3*
- FIN 384 - Real Estate Law *Units: 3*
- FIN 398 - Internship *Units: 1-3*
- FIN 405 - Corporate Finance *Units: 3*
- FIN 410 - Problems in Corporate Finance *Units: 3*
- FIN 420 - Investment Analysis *Units: 3*
- FIN 430 - Derivatives Markets *Units: 3*
- FIN 435 - Risk Management in Financial Institutions *Units: 3*
- FIN 445 - Financial Modeling *Units: 3*
- FIN 460 - International Business Finance *Units: 3*
- FIN 470 - Entrepreneurial Finance *Units: 3*
- FIN 475 - Advanced Investment Analysis and Ethics *Units: 3*
- FIN 480 - Real Estate Finance *Units: 3*
- FIN 482 - Real Estate Valuation *Units: 3*
- FIN 484 - Sustainable Real Estate Development *Units: 3*
- FIN 486 - Real Estate Markets and Housing Policies *Units: 3*
- FIN 488 - Seminar in Advanced Topics in Real Estate *Units: 3*
- FIN 490 - Independent Study *Units: 1-4*
- FIN 497 - Seminar in Financial Theory *Units: 3*

Finance: Graduate

- BUS 605 - Corporate Financial Management *Units: 3*

- FIN 620 - Seminar in Security Analysis and Portfolio Management *Units: 3*
- FIN 630 - Seminar in Options and Futures *Units: 3*
- FIN 640 - Financial Markets and Institutions *Units: 3*
- FIN 650 - Financial Management of Banking Institutions *Units: 3*
- FIN 660 - International Financial Management *Units: 3*
- FIN 670 - New Venture Financing *Units: 3*
- FIN 690 - Independent Study *Units: 1-4*
- FIN 697 - Issues in Finance *Units: 3*
- FIN 698 - Internship *Units: 1-3*

Business Administration, B.S.: Finance Concentration (Available Online)

Business Administration, B.S. Program (120 units)

Program Description

The College of Business and Economics, which offers the Bachelor of Science in Business Administration (B.S.B.A.) program, is committed to providing life-changing, quality business education to prepare students from diverse backgrounds to become successful business professionals and leaders. The B.S.B.A. program imparts students with the knowledge and skills necessary to understand the changing global business environment and to prepare students for success in their professional careers.

The B.S.B.A. major program is structured around a set of core courses enabling students to develop general business perspective and skills. Students are required to choose an area of specialization, i.e., concentration, corresponding to their desired career path. In addition, the program allows students flexibility to customize their specialization by choosing business elective courses. These electives may be chosen to further strengthen their preparation in their chosen concentration.

The undergraduate and the graduate programs in the College of Business and Economics are accredited by the Association to Advance Collegiate Schools of Business International (AACSB).

Program Learning Outcomes

Students graduating with a Bachelor of Science in Business Administration will be able to:

- Recognize and integrate foundation knowledge across functional areas.
- Apply critical thinking skills to solve business problems.
- Understand and apply quantitative methods and tools in evaluating business problems and making effective business decisions.
- Apply technology to analyze data and provide solutions to business problems.
- Apply effective oral communication skills in a diverse and global environment.
- Apply effective written communication skills in a diverse and global environment.
- Apply effective team skills to work in a diverse and global environment.
- Identify and assess ethical issues and properly articulate ethical decisions.

Expiration of Courses

Upper division major/concentration requirement courses will expire ten years after completion of the term in which they are earned. Expired courses cannot be used to fulfill degree requirements and must be

replaced by current credits. Requests for waivers of the ten-year limit for extenuating circumstances, other than mere failure to register, are made to the department chair in which the course resides and the director of undergraduate programs.

Transfer of Courses

Upper division courses will only be considered for equivalency or transfer credit if they are from AACSB accredited institutions. Exceptions will be made for programs that have current and signed agreements with the College of Business and Economics.

Degree Requirements

The B.S. degree requires a total of 120 units. In addition to General Education courses and other graduation requirements, the Business Administration major requires three sets of courses: (I) lower division core courses, (II) upper division core courses, and (III) courses to fulfill concentration requirements.

Degree Requirements Unit-Outline

- A baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 75 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Business Administration Major Requirements (75 units)

Note: Please see the Errata pages for corrections made to the major requirements effective for all concentrations.

Lower Division Core Courses

The following 18 units of lower-division coursework are required:

- ACCT 210 - Introduction to Financial Accounting *Units: 3*
- ACCT 215 - Introduction to Managerial Accounting *Units: 3*
- ECON 200 - Principles of Microeconomics *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- ECON 205 - Principles of Macroeconomics *Units: 3 ; G.E./G.R. Area: D1-3*
- MATH 180 - Mathematics for Business with Calculus *Units: 3 ; G.E./G.R. Area: B4*
- STAT 110 - Elements of Statistics for Business and Economics *Units: 3*

Upper Division Core Courses

The following 27 units of upper-division coursework is required:

- BUS 310 - Organizational Behavior *Units: 3*
- BUS 325 - Marketing Principles *Units: 3*
- BUS 330 - Financial Management *Units: 3*
- BUS 335 - Communications in Team Building *Units: 3*
- BUS 360 - Operations Management *Units: 3*
- BUS 499 - Seminar in Strategic Business Management *Units: 3*
- ECON 380 - Managerial Economics and Business Strategy *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- MGMT 350 - Decision Science *Units: 3 ; G.E./G.R. Area: B6*

Plus, choose one (1) course from the following:

- BUS 385 - International Business *Units: 3 OR*
- ECON 385 - Global Economic Analysis *Units: 3 Recommended for Business Economics concentration students*

Concentration Requirements

Students must select one (1) of the following concentrations for 30 units:

- Business Administration, B.S.: Accounting Concentration
- Business Administration, B.S.: Business Economics Concentration
- Business Administration, B.S.: Entrepreneurship Concentration
- Business Administration, B.S.: Finance Concentration (Available Online)
- Business Administration, B.S.: General Management Concentration (Available Online)
- Business Administration, B.S.: Human Resources Management & Organizational Behavior Concentration
- Business Administration, B.S.: Information Technology Management Concentration (Available Online)
- Business Administration, B.S.: Marketing Management Concentration
- Business Administration, B.S.: Operations and Supply Chain Management Concentration (Available Online)

Finance Concentration

The coursework in the Finance concentration are designed to prepare students for careers in the financial management of corporations, commercial, retail and investment banking, asset management, and other areas in finance. The option develops decision-making skills by first providing a sound theoretical foundation of knowledge. Through hands-on coursework in areas such as financial analysis, investments, derivatives, international finance, risk management, financial modeling, and venture financing, students learn the critical thinking, problem solving, ethics, and effective communication skills valued most by employers.

Required Courses

The following 18 units are required:

- BUS 220 - Legal Environment of Business *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- BUS 320 - Business and Professional Ethics *Units: 3*
- BUS 340 - Information Technology Management *Units: 3*
- BUS 370 - Business, Government and Society *Units: 3*
- FIN 405 - Corporate Finance *Units: 3*
- FIN 420 - Investment Analysis *Units: 3*

Elective Courses

Select four (4) courses for 12 units from the list below:

- FIN 410 - Problems in Corporate Finance *Units: 3*
- FIN 430 - Derivatives Markets *Units: 3*
- FIN 435 - Risk Management in Financial Institutions *Units: 3*
- FIN 445 - Financial Modeling *Units: 3*
- FIN 497 - Seminar in Financial Theory *Units: 3*
- FIN 460 - International Business Finance *Units: 3*
- FIN 470 - Entrepreneurial Finance *Units: 3*
- FIN 475 - Advanced Investment Analysis and Ethics *Units: 3*
- FIN 480 - Real Estate Finance *Units: 3*

Recommendations

Please note the following recommendations:

Students interested in a career in financial management, financial analysis and corporate finance are recommended to choose from the following courses as electives: FIN 410, FIN 430, FIN 435, FIN 445, FIN 460, FIN 470.

Students interested in a career in investment banking, financial institutions, asset management and risk management, are recommended to choose from the following courses as electives: FIN 430, FIN 435, FIN 445, FIN 460, FIN 470.

Students interested in preparing for the CFA level I exam are recommended to take the following courses as electives: FIN 430, FIN 435, FIN 475, FIN 480.

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- FIN 698 - Internship *Units: 1-3*

Master

Accountancy, M.S.

Please note: This program is only available through Continuing Education.

Accountancy, M.S. Program

Program Description

The MS in Accountancy program is a cohort-based, 16-month graduate program. The program prepares students for accounting or auditing positions in public accounting firms, corporations, government agencies or non-profit organizations. It is a high quality rigorous accounting program that provides students the required education to qualify for the Certified Public Accountants (CPA) exam and to meet

the 150-hour California CPA licensure requirements. The program focuses on the knowledge of the U.S. and international financial reporting and auditing standards, taxation, business laws and regulations, and accountants' professional responsibilities. It also enables students to develop professional communication and collaborative teamwork skills.

Career Opportunities

Graduates of the M.S. in Accountancy program can pursue a wide range of professional accounting, auditing and tax careers as accountants, auditors, or tax professionals in public accounting firms, public or private corporations, federal or state government agencies and not-for-profit organizations.

Admission Requirements

Students with a baccalaureate degree in any subject from an accredited college or university may apply. Work experience is desirable, but not required. To be considered for admission to the M.S. in Accountancy program, each applicant is evaluated on the basis of:

- Past academic performance as reflected in undergraduate grade point average and subsequent coursework, a minimum of 2.5 GPA is required;
- Results of the Graduate Management Admissions Test (GMAT) [CSUEB MSA program GMAT code is TCV-K9-86]:
 - Both verbal and quantitative percentages must be greater than 20%.
 - Index score must be greater than 1,050 [Index Score = Upper Division GPA x 200 + Total GMAT].
 - GRE equivalent scores are accepted.
 - GMAT scores waived if an applicant has passed all four parts of the US CPA Examination.
 - GMAT score may be waived if an applicant has completed an MBA degree from an AACSB accredited business school.
- For International students: demonstrated proof of English proficiency (e.g. TOEFL score of 550 (paper-based), 213 (computer-based) or 79 (internet-based) or IELTS of 6.5 or above;
- Relevant business experience;
- Personal interview.

Proficiency

All M.S. in Accountancy program students must fulfill the University Writing Skills Requirement (UWSR). The Writing Skills Requirement could be met as an undergraduate or graduate student at one of the CSU system campuses, with a score of 4.5 or better on the GMAT essay, by passing the Writing Skills Test (WST), or through coursework. Information about the Writing Skills Test and the courses can be found on the Testing Office website. The Website contains information on test dates, registration procedures and fees. Further information can be obtained from the Testing Office, Library, Room LI 3165A, phone 510-885-3661. If students have not satisfied the UWSR before they begin their graduate work, they must either take the WST or enroll in a first tier course by the end of their first semester in the program.

Graduation Requirements

To be eligible for the M.S. in Accountancy, a student must have been Advanced to Candidacy (see Graduate Degree Information chapter of the catalog) and have completed 33 semester units meeting the following criteria:

- Have a combined 3.0 grade point average (minimum) in all units taken to satisfy the requirements of the student's degree program.
- All have a course grade of "C" or better.
- All units earned within the five years immediately preceding the completion of the requirements for the degree.
- Have completed a satisfactory program of study, defined below.

Program Learning Outcomes:

Students graduating with a Master of Science in Accountancy will be able to:

1. Demonstrate knowledge of U.S. and international financial reporting standards and auditing standards for corporate financial reporting and attestation.
2. Develop critical thinking and quantitative reasoning to financial reporting and business valuation.
3. Illustrate the knowledge of accountants' professional ethics standards and apply them to business situations.
4. Build written communication skills to create professional accounting reports.
5. Build oral communication skills to deliver a well-organized, informative, and persuasive oral presentation within a professional context.
6. Improve professional collaboration and teamwork skills in working with individuals and in groups.

Accountancy Degree Requirements (33 units)

Foundation Courses

In order to be considered for "Classified Graduate" standing in the Master of Science in Accountancy program, a student must satisfy the following undergraduate courses or equivalent for up to 12 units. These units are NOT included in the degree total.

Note: Foundation courses may be satisfied by courses taken in an undergraduate program with a grade "B-" or better within the last five years.

- ACCT 210 - Introduction to Financial Accounting Units: 3
- ACCT 215 - Introduction to Managerial Accounting Units: 3
- ACCT 331 - Federal Taxation for Individuals Units: 3
- ACCT 340 - Accounting Information Systems Units: 3

Core Courses

The following 30 units of core coursework is required:

- ACCT 611 - Financial Reporting and IFRS I Units: 3
- ACCT 612 - Financial Reporting and IFRS II Units: 3
- ACCT 613 - Advanced Topics in Accounting Units: 3

- ACCT 621 - Accountants' Ethics and Professional Responsibilities *Units: 3*
- ACCT 622 - Auditing Theory and Practice I *Units: 3*
- ACCT 623 - Auditing Theory and Practice II *Units: 3*
- ACCT 631 - Corporate Tax *Units: 3*
- ACCT 639 - Business Law and Regulation *Units: 3*
- ACCT 671 - Business Communications and Professional Development I
Units: 1.5
- ACCT 672 - Business Communications and Professional Development II
Units: 1.5
- ACCT 681 - Financial Statement Analysis and Business Valuation *Units: 3*

Capstone Requirement

To complete the program the following capstone project course for 3 units is required:

- ACCT 693 - Project *Units: 3*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Business Administration, M.B.A.: Finance Concentration

Business Administration, M.B.A. Program

Mission

CBE provides life-changing, quality business education to prepare students from diverse backgrounds to become successful business professionals and leaders.

Vision and Values

We aspire to be a leading business school known for making a difference in the lives of our students and for our impact on the world. In support of our mission, we value:

- Ethical behavior and personal integrity
- Collegiality and mutual respect
- Collaboration for learning, scholarship, and community engagement
- Social and environmental responsibility
- Inclusive learning environment for a diverse student population
- Innovative thinking and a global mindset

All CBE programs are accredited by AACSB International - The Association to Advance Collegiate Schools of Business.

The College of Business and Economics offers the following master's degrees:

Master of Business Administration

M.B.A. students must select one of the following concentrations to fulfill the degree:

Analytics for Managers • Finance • General Business • Global Innovator • Human Resources and Organizational Behavior • Marketing Management • Operations and Supply Chain Management • Strategy and Innovation

Master of Science in Business Analytics

Master of Science in Economics

Program Description

The M.B.A. program supports students' career advancement by preparing them for positions of leadership in an increasingly diverse and globally competitive economy. The program is centered on the rigorous knowledge of the basic functional areas of business, an appreciation of management challenges in a global context, and opportunities to develop students' interpersonal and executive leadership skills. It also enables students to deepen and broaden their knowledge and skills through elective courses in an area of concentration. The program offers a range of formats to cater to the needs of full and part time students and students seeking an executive style MBA.

Career Opportunities

There is a strong growth in opportunities for management careers in both the general and the functional areas represented in the program's concentrations. The MBA program prepares graduates with strong foundation in general management knowledge and skills and gives them an extra edge in concentration areas that are growing in demand. Among the strong careers for those with MBA include Financial Manager, Health Services Manager, High-End Management Consultant, Human Resources Manager, Investment Banker, Investment Fund Manager, Marketing Manager, Marketing Researcher, Sales Manager, Operations and Supply Chain Manager, and Upper Management and Executive Leadership. The growing career opportunities for Finance, Marketing, HR, Operations, and Strategy validate the strength and the value of the CSUEB MBA program.

Admission

The M.B.A. is open to students who hold a baccalaureate degree from an accredited college or university. Each applicant is evaluated on the basis of past academic performance as reflected in undergraduate grade point average and subsequent coursework; and results of the Graduate Management Admissions Test (GMAT) in verbal, quantitative, and the "Index Score" that involves the total GMAT score, $\text{Index Score} = (\text{Upper Division GPA} \times 200) + \text{Total GMAT}$. Admission to the program is selective. The average GPA and GMAT score of applicants admitted to the program varies from year to year. For last year's admitted students profile, please visit the CBE Graduate Student Success and Services Office. GRE score, if provided, is accepted in place of GMAT. GMAT may be waived for applicants with five years or more work experience.

Proficiencies

All Conditionally Classified M.B.A. students must fulfill the University Writing Skills Requirement (UWSR) to achieve "Classified Graduate" status. The Writing Skills Requirement could be met as an undergraduate or graduate student at one of the CSU system campuses, with a score of 4.5 or better on the GMAT essay, by passing the Writing Skills Test (WST) or through coursework. Information about the Writing Skills Test and the courses can be found on the Testing Office website. The Website contains

information on test dates, registration procedures and fees. Further information can be obtained from the Testing Office. If students have not satisfied the UWSR before they begin their graduate work, they must either take the WST or enroll in a first tier course by the end of their first semester in the program.

The MBA program is designed to provide essential business knowledge to students without assuming prior business background. Therefore no specific prerequisite courses are required, but proficiency in math and statistics is expected.

Student Standing and Progress Toward the Degree

There are three categories of student status which reflect student progress toward the degree: "Conditionally Classified Graduate," "Classified Graduate," and "Advancement to Candidacy."

- Students achieve "Conditionally Classified Graduate" status when they have been admitted to the MBA degree program, but have not yet completed the University Writing Skills Requirement.
 - Students achieve "Classified Graduate" status when they have satisfactorily completed the University Writing Skills Requirement.
 - Students are Advanced to Candidacy when they have completed the 42 semester units meeting the following criteria:
 - All have a course grade of "C" or better.
 - Complete a minimum of 30 units in residence after admission to the program.
 - Have a combined 3.0 grade point average (minimum) in all units taken to satisfy the requirements of the student's degree program.
 - Have no more than 12 units for extension and/or transfer credit (any extension and/or transfer credit must be approved by the Program Director) and/or coursework taken in "Unclassified Post-baccalaureate" status.
 - All units earned within the five years immediately preceding the completion of the requirements for the degree.
 - Have completed a satisfactory program of study as determined by the College of Business and Economics and the university.
 - To be eligible for the M.B.A. a student must have been Advanced to Candidacy (see Graduate Degree Information chapter of the catalog)
- Note: Students who fail to maintain progress by falling below a 3.0 GPA in their graduate courses for two or more consecutive semesters will be academically disqualified from the university.*

Program Learning Outcomes

Students graduating with an M.B.A. from Cal State East Bay will be able to:

- Identify global business opportunities, analyze global business challenges, and develop business strategies.
- Demonstrate leadership and teamwork skills.
- Apply advanced written communication skills.
- Apply advanced oral communication skills.
- Demonstrate cross-cultural awareness and sensitivity in their interpersonal and group communication.
- Perform quantitative analyses and apply advanced technological tools to solve complex business problems.
- Analyze and integrate knowledge across disciplines to make managerial decisions to reach solutions to complex business problems.
- Recognize and analyze ethical issues in decision making.

Business Administration Degree Requirements (42 units)

Core Courses

The following 27 core units are required for all M.B.A. students:

- BUS 601 - Leadership and Communication in Organizations *Units: 3*
- BUS 602 - Business Analytics for Managers *Units: 3*
- BUS 603 - Managing Complex Issues in Global Context *Units: 3 ; G.E./G.R. Area: UWSR*
- BUS 604 - Financial Accounting *Units: 3*
- BUS 605 - Corporate Financial Management *Units: 3*
- BUS 606 - Managerial Economics *Units: 3*
- BUS 607 - Marketing Management *Units: 3*
- BUS 608 - Operations and Supply Chain Management *Units: 3*
- BUS 609 - Negotiation and Conflict Resolution *Units: 3*

Concentrations

Students must select one (1) of the following 12-unit concentrations:

- Business Administration, M.B.A.: Analytics for Managers Concentration
- Business Administration, M.B.A.: Finance Concentration
- Business Administration, M.B.A.: General Business Concentration
- Business Administration, M.B.A.: Global Innovators Concentration (Self Support only)
- Business Administration, M.B.A.: Human Resources Management and Organizational Behavior Concentration
- Business Administration, M.B.A.: Marketing Management Concentration
- Business Administration, M.B.A.: Operations and Supply Chain Management Concentration
- Business Administration, M.B.A.: Strategy & Innovation Concentration

Capstone Requirement

The following capstone is required for 3 units to complete the degree:

- BUS 693 - Strategic Management Capstone (Project) *Units: 3*

Finance Concentration

Prerequisite Requirement

In addition to the successful completion of the M.B.A. core course requirements, an M.B.A. student who chooses to graduate from the Finance concentration will be required to satisfy the prerequisite core finance course BUS 605. BUS 605 course is a prerequisite for all FIN elective courses.

Required Course

All Finance concentration students will be required to complete the following course:

- FIN 620 - Seminar in Security Analysis and Portfolio Management *Units: 3*

Elective Courses

Students can choose three (3) courses from the following electives:

- FIN 630 - Seminar in Options and Futures *Units: 3*
- FIN 640 - Financial Markets and Institutions *Units: 3*
- FIN 650 - Financial Management of Banking Institutions *Units: 3*
- FIN 660 - International Financial Management *Units: 3*
- FIN 670 - New Venture Financing *Units: 3*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

- FIN 670 - New Venture Financing *Units: 3*
- FIN 690 - Independent Study *Units: 1-4*
- FIN 697 - Issues in Finance *Units: 3*
- FIN 698 - Internship *Units: 1-3*

Minor

Real Estate Minor

Minor Requirements (18 units)

The Real Estate minor is designed to prepare students for careers as real estate analysts, portfolio managers, property managers, urban planners, appraisers, acquisition specialists, developers, brokers, market and site location analysts, residential lenders, commercial lenders, and housing analysts. Completing the minor waives the two-year California Real Estate Salesperson's experience requirement needed to qualify to take the California Real Estate Broker's exam. The minor program is designed to complement your primary field of study.

Note:

- **No more than 9 units used to fulfill other requirements (e.g., for general education, a major, concentrations, or other minors) can be counted toward the requirements for the Real Estate minor.**
- **Courses taken for CR/NC (credit/no credit) will not be counted toward the requirements for the Bachelor of Science in Business Administration (BSBA) program because courses for BSBA must be completed with a letter grade of "C-" or better ("C" or better for BUS 499).**
- **ECON 335 requires ECON 200 (Principles of Microeconomics) as a prerequisite. Taking ECON 335 may lead to a total of more than 18 units to complete the Real Estate minor.**

Required Course

The following Principles course is required for 3 units:

- **FIN 380 - Real Estate Principles** *Units: 3*

Elective Courses

Select five (5) courses from the following list for 15 units:

- ECON 335 - Introduction to Urban Economics *Units: 3*
- FIN 382 - Real Estate Practice *Units: 3*
- FIN 384 - Real Estate Law *Units: 3*
- FIN 480 - Real Estate Finance *Units: 3*
- FIN 482 - Real Estate Valuation *Units: 3*
- FIN 484 - Sustainable Real Estate Development *Units: 3*
- FIN 486 - Real Estate Markets and Housing Policies *Units: 3*
- FIN 488 - Seminar in Advanced Topics in Real Estate *Units: 3*

Bachelor

Anthropology, B.A.: Archaeology and Biological Anthropology Concentration

Anthropology, B.A. Program (120 units)

Program Description

Anthropology is the multifaceted study of humanity from an evolutionary, historical, and global perspective. Students in anthropology learn about their own culture as well as those of other peoples as they are shaped by biological evolution, ecological constraints, political history, and sociological conditioning. The Department of Anthropology, Geography, and Environmental Studies offers ethnographic, theoretical and methodological courses in five sub-disciplines: biological anthropology, prehistory and archaeology, linguistic anthropology, sociocultural anthropology, and applied anthropology. Regional courses on major populations of the world, especially the heritage cultures of North and South America, and Asia, form an important component of the curriculum. The B.A. degree program bridges the sciences, social sciences, and humanities, preparing students for multidimensional careers. Fundamentally, the study of anthropology cultivates an appreciation of what all humans share, as well as how humans differ across time and space.

At the undergraduate level, students in the B.A. degree program may choose to focus on special interests in two combined sub-disciplines:

- Archaeology and Biological Anthropology emphasize the study of human biology, variation, evolution, and the reconstruction of past ways of life and cultural systems from material remains.
 - Socio-Cultural and Applied Anthropology emphasize the study of social and cultural systems of more recent historical and contemporary populations, and the application of anthropological insights into present-day problems.
- Other combinations are possible upon consultation with, and approval by, the faculty.

Program Learning Outcomes

Students graduating with a B.A. in Anthropology from Cal State East Bay will be able to:

- identify, summarize and sequence the basic schools of anthropological thought in all four academic sub-fields of the discipline;
- apply basic qualitative and quantitative sociocultural (ethnographic), archaeological, or osteological research methods and skills;
- describe, compare and relate human cultures across different regions of the globe;
- examine human diversity holistically and scientifically, discriminating among and analyzing conceptions and misconceptions of ethnicity, "race," and human biological variation;
- identify pragmatic uses of anthropological methods and perspectives in approaching real-world solutions, and identify instances of and opportunities for applications of anthropological tools and ideas in employment and community development, both locally and globally; and
- communicate information clearly in written and oral forms.

Career Opportunities

Anthropologist • Archaeologist • Artifacts Conservator • Curator • Ethnologist • Foreign Service Officer • Immigration Service Official • International Aid Agencies Official • International Business Employee • Multicultural Education Instructor • Park Ranger • Park Service Official • *Professor/Teacher • Refugee Worker • Researcher • Social Science Teacher* • Social Worker • Travel Consultant • Urban Planner.

*Note: *Teaching may require additional training beyond the B.A.*

Features

The Department administers the Clarence E. Smith Museum of Anthropology, located on the fourth floor of Meiklejohn Hall. The museum houses a sizable collection of archaeological artifacts recovered in Alameda and Contra Costa Counties, as well as ethnographic specimens from cultural groups throughout the world. The museum is an instructional facility for museum curating, research, design, and exhibits. Museum exhibits and special events are open to the public free of charge. For information, call (510) 885-3104.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 42 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consists of 21 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Anthropology Major Requirements (42 units)

Introductory Core Courses

Take three (3) of the following introductory courses for 9 units:

- ANTH 110 - Introduction to Biological Anthropology Units: 3 ; G.E./G.R. Area: B2
- ANTH 120 - Introduction to Archaeology Units: 3 ; G.E./G.R. Area: B1
- ANTH 130 - Introduction to Cultural Anthropology Units: 3 ; G.E./G.R. Area: D1-3
- ANTH 140 - Introduction to Linguistic Anthropology Units: 3 ; G.E./G.R. Area: D1-3
- ANTH 300 - Anthropology of Global Change Units: 3 ; G.E./G.R. Area: D4

Upper-Division Core Courses

The following 21 units of upper-division courses are required:

- ANTH 310 - Evolutionary Biology of Humans Units: 3 ; G.E./G.R. Area: B6
- ANTH 320 - Archaeological Science Units: 3
- ANTH 330 - Social Anthropology Units: 3
- ANTH 340 - Language and Culture Units: 3 ; G.E./G.R. Area: D4
- ANTH 370 - Anthropology in Action Units: 3
- ANTH 377 - Museum Studies Anthropology Units: 3
- ANTH 431 - Advanced Anthropological Theory Units: 3

Concentration

Choose one (1) of the two offered concentrations for 12 units:

- Anthropology, B.A.: Archaeology and Biological Anthropology Concentration
- Anthropology, B.A.: Socio-Cultural and Applied Anthropology Concentration

Archaeology and Biological Anthropology Concentration

Archaeology and Biological Anthropology

Take two (2) of the following for 6 units (one of them may be substituted with a non-ANTH course with consent of advisor):

- ANTH 311 - Human Fossil Record Units: 3 ; G.E./G.R. Area: B6
- ANTH 312 - Primate Behavioral Ecology Units: 3 ; G.E./G.R. Area: D4
- ANTH 321 - Archaeology of the Americas Units: 3 ; G.E./G.R. Area: D4

Research Methods

Take two (2) of the following for 6 units:

- ANTH 410 - Bioarchaeology Laboratory *Units: 3*
- ANTH 411 - Human Forensic Osteology *Units: 3*
- ANTH 420 - Archaeology Laboratory *Units: 3*
- ANTH 421 - Field Archaeology *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Anthropology, B.A.: Socio-Cultural and Applied Anthropology Concentration

Anthropology, B.A. Program (120 units)

Program Description

Anthropology is the multifaceted study of humanity from an evolutionary, historical, and global perspective. Students in anthropology learn about their own culture as well as those of other peoples as they are shaped by biological evolution, ecological constraints, political history, and sociological conditioning. The Department of Anthropology, Geography, and Environmental Studies offers ethnographic, theoretical and methodological courses in five sub-disciplines: biological anthropology, prehistory and archaeology, linguistic anthropology, sociocultural anthropology, and applied

anthropology. Regional courses on major populations of the world, especially the heritage cultures of North and South America, and Asia, form an important component of the curriculum. The B.A. degree program bridges the sciences, social sciences, and humanities, preparing students for multidimensional careers. Fundamentally, the study of anthropology cultivates an appreciation of what all humans share, as well as how humans differ across time and space.

At the undergraduate level, students in the B.A. degree program may choose to focus on special interests in two combined sub-disciplines:

- Archaeology and Biological Anthropology emphasize the study of human biology, variation, evolution, and the reconstruction of past ways of life and cultural systems from material remains.
 - Socio-Cultural and Applied Anthropology emphasize the study of social and cultural systems of more recent historical and contemporary populations, and the application of anthropological insights into present-day problems.
- Other combinations are possible upon consultation with, and approval by, the faculty.

Program Learning Outcomes

Students graduating with a B.A. in Anthropology from Cal State East Bay will be able to:

- identify, summarize and sequence the basic schools of anthropological thought in all four academic sub-fields of the discipline;
- apply basic qualitative and quantitative sociocultural (ethnographic), archaeological, or osteological research methods and skills;
- describe, compare and relate human cultures across different regions of the globe;
- examine human diversity holistically and scientifically, discriminating among and analyzing conceptions and misconceptions of ethnicity, "race," and human biological variation;
- identify pragmatic uses of anthropological methods and perspectives in approaching real-world solutions, and identify instances of and opportunities for applications of anthropological tools and ideas in employment and community development, both locally and globally; and
- communicate information clearly in written and oral forms.

Career Opportunities

Anthropologist • Archaeologist • Artifacts Conservator • Curator • Ethnologist • Foreign Service Officer • Immigration Service Official • International Aid Agencies Official • International Business Employee • Multicultural Education Instructor • Park Ranger • Park Service Official • *Professor/Teacher • Refugee Worker • Researcher • Social Science Teacher* • Social Worker • Travel Consultant • Urban Planner.

*Note: *Teaching may require additional training beyond the B.A.*

Features

The Department administers the Clarence E. Smith Museum of Anthropology, located on the fourth floor of Meiklejohn Hall. The museum houses a sizable collection of archaeological artifacts recovered in Alameda and Contra Costa Counties, as well as ethnographic specimens from cultural groups throughout the world. The museum is an instructional facility for museum curating, research, design, and exhibits. Museum exhibits and special events are open to the public free of charge. For information, call (510) 885-3104.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 42 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consists of 21 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Anthropology Major Requirements (42 units)

Introductory Core Courses

Take three (3) of the following introductory courses for 9 units:

- ANTH 110 - Introduction to Biological Anthropology Units: 3 ; G.E./G.R. Area: B2
- ANTH 120 - Introduction to Archaeology Units: 3 ; G.E./G.R. Area: B1
- ANTH 130 - Introduction to Cultural Anthropology Units: 3 ; G.E./G.R. Area: D1-3
- ANTH 140 - Introduction to Linguistic Anthropology Units: 3 ; G.E./G.R. Area: D1-3
- ANTH 300 - Anthropology of Global Change Units: 3 ; G.E./G.R. Area: D4

Upper-Division Core Courses

The following 21 units of upper-division courses are required:

- ANTH 310 - Evolutionary Biology of Humans Units: 3 ; G.E./G.R. Area: B6
- ANTH 320 - Archaeological Science Units: 3
- ANTH 330 - Social Anthropology Units: 3
- ANTH 340 - Language and Culture Units: 3 ; G.E./G.R. Area: D4
- ANTH 370 - Anthropology in Action Units: 3
- ANTH 377 - Museum Studies Anthropology Units: 3
- ANTH 431 - Advanced Anthropological Theory Units: 3

Concentration

Choose one (1) of the two offered concentrations for 12 units:

- Anthropology, B.A.: Archaeology and Biological Anthropology Concentration
- Anthropology, B.A.: Socio-Cultural and Applied Anthropology Concentration

Socio-Cultural and Applied Anthropology Concentration

Socio-Cultural Anthropology

Choose one (1) of the following for 3 units:

- ANTH 331 - Folklore *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 333 - Women in Cross-Cultural Perspective *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ANTH 334 - Human Sexuality: Anthropological Perspectives *Units: 3 ; G.E./G.R. Area: D4*

Linguistic Anthropology

Choose one (1) of the following for 3 units:

- ANTH 341 - Linguistic Diversity and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ANTH 342 - Language and Sexuality *Units: 3 ; G.E./G.R. Area: D4; Diversity*

Regional Studies and Applied Anthropology

Choose one (1) of the following for 3 units:

- ANTH 350 - Indians of California *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 354 - China *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 355 - Japan *Units: 3*
- ANTH 371 - Business Anthropology *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 372 - Medical Anthropology *Units: 3 ; G.E./G.R. Area: D4; Diversity*

Research Methods

The following course for 3 units is required:

- ANTH 430 - Field Course in Ethnography *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Courses

Anthropology

- ANTH 100 - Introduction to Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 110 - Introduction to Biological Anthropology *Units: 3 ; G.E./G.R. Area: B2*
- ANTH 120 - Introduction to Archaeology *Units: 3 ; G.E./G.R. Area: B1*
- ANTH 130 - Introduction to Cultural Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 140 - Introduction to Linguistic Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 300 - Anthropology of Global Change *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 490 - Independent Study *Units: 1-4*
- ANTH 497 - Issues in Anthropology *Units: 3*

Anthropology: Applied Anthropology

- ANTH 370 - Anthropology in Action *Units: 3*
- ANTH 371 - Business Anthropology *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 372 - Medical Anthropology *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ANTH 377 - Museum Studies Anthropology *Units: 3*
- ANTH 398 - Internship *Units: 1-3*

Anthropology: Archaeology

- ANTH 320 - Archaeological Science *Units: 3*
- ANTH 321 - Archaeology of the Americas *Units: 3 ; G.E./G.R. Area: D4*

Anthropology: Area Studies

- ANTH 350 - Indians of California *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 354 - China *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 355 - Japan *Units: 3*

Anthropology: Biological Anthropology

- ANTH 310 - Evolutionary Biology of Humans *Units: 3 ; G.E./G.R. Area: B6*
- ANTH 311 - Human Fossil Record *Units: 3 ; G.E./G.R. Area: B6*
- ANTH 312 - Primate Behavioral Ecology *Units: 3 ; G.E./G.R. Area: D4*

Anthropology: Methods

- ANTH 410 - Bioarchaeology Laboratory *Units: 3*
- ANTH 411 - Human Forensic Osteology *Units: 3*
- ANTH 420 - Archaeology Laboratory *Units: 3*
- ANTH 421 - Field Archaeology *Units: 3*
- ANTH 430 - Field Course in Ethnography *Units: 3*

Anthropology: Linguistic Anthropology

- ANTH 340 - Language and Culture *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 341 - Linguistic Diversity and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ANTH 342 - Language and Sexuality *Units: 3 ; G.E./G.R. Area: D4; Diversity*

Anthropology: Sociocultural Anthropology

- ANTH 330 - Social Anthropology *Units: 3*
- ANTH 331 - Folklore *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 333 - Women in Cross-Cultural Perspective *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ANTH 334 - Human Sexuality: Anthropological Perspectives *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 431 - Advanced Anthropological Theory *Units: 3*

Environmental Science: Graduate

- ENSC 633 - The Science of Soils *Units: 4*

Environmental Studies

- ENVT 101 - Environmental Challenges of the 21st Century *Units: 3 ; G.E./G.R. Area: D1-3; Sustainability*

- ENVT 225 - Fundamentals of GIS *Units: 3*

- ENVT 307 - Social Impact through Sustainable Solar Design *Units: 3 ; G.E./G.R. Area: B6; Sustainability*

- ENVT 310 - Literature and Research Methods *Units: 4*

- ENVT 320 - Environmental Resource Analysis *Units: 4*

- ENVT 330 - Environment, Sustainability, and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Sustainability*

- ENVT 340 - Climate Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*

- ENVT 380 - Applied Field Studies *Units: 3*

- ENVT 398 - Internship *Units: 1-3*

- ENVT 410 - Environmental Impact Analysis *Units: 3*

- ENVT 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*

- ENVT 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*

- ENVT 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4; Sustainability*

- ENVT 490 - Independent Study *Units: 1-3*

- ENVT 493 - Environmental Projects *Units: 3*

- ENVT 495 - Environmental Internship *Units: 1-3*

Geography

- GEOG 110 - Physical Geography: Earth Processes and Outcomes *Units: 3 ; G.E./G.R. Area: B1*

- GEOG 120 - Human Geography: Diversity and Globalization *Units: 3 ; G.E./G.R. Area: D1-3*

- GEOG 125 - World Regions and Development *Units: 3 ; G.E./G.R. Area: D1-3*

- GEOG 200 - Sustainable Resource Management *Units: 3 ; G.E./G.R. Area: D1-3*

- GEOG 225 - Fundamentals of GIS *Units: 3*

- GEOG 310 - Literature and Research Methods *Units: 4*

- GEOG 320 - Environmental Resource Analysis *Units: 4*

- GEOG 330 - Historical Geography of North America *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 336 - Asian Americans: Multiculturalism and Spatial Disparity *Units: 3 ; G.E./G.R. Area: D4*

D4

- GEOG 340 - Climate Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*

- GEOG 350 - California *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 351 - United States and Canada *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 352 - Latin America and the Caribbean *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 353 - Africa *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 354 - China: Economic Development and Social Transformation *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 355 - Asia Pacific *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 356 - Europe *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 360 - Computer Cartography *Units: 3*

- GEOG 380 - Applied Field Studies *Units: 3*

- GEOG 397 - Issues in Anthropology, Geography and Environmental Studies *Units: 3*

- GEOG 398 - Internship *Units: 1-3*

- GEOG 425 - Advanced GIS *Units: 3*

- GEOG 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*

- GEOG 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*

- GEOG 450 - Earth Surface Processes and Landforms *Units: 3 ; G.E./G.R. Area: B6*

- GEOG 455 - Sustainable Food Systems *Units: 4 ; G.E./G.R. Area: D4; Sustainability*

- GEOG 461 - Remote Sensing of the Environment *Units: 3*

- GEOG 462 - Air Photo Interpretation *Units: 3*

- GEOG 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- GEOG 490 - Independent Study *Units: 1-3*
- GEOG 497 - Issues in Geography *Units: 3*
- GEOG 499 - Senior Seminar in Geography *Units: 3*

Environmental Studies, B.A.

Environmental Studies, B.A. Program (120 units)

Program Description

The Environmental Studies Undergraduate Major is characterized by its focus on equitable, just, and sustainable environmental solutions. Environmental professionals who emerge from the program are generalists who can identify and synthesize the ecological, social, ethical, economic, technical, and behavioral dimensions of critical environmental problems. Using qualitative and quantitative problem solving concepts, approaches, and tools, our students are prepared to synthesize and communicate appropriate environmental solutions.

Majors are typically involved in campus and community sustainability projects such as greenhouse gas assessment, water resource and sustainability assessment, climate action and sustainability planning, and urban restoration projects. The program engages actively in collaborations across the campus, locally, and internationally. The Major benefits by close association with the Geography Program, providing students access to training in the spatial analytical tools that can greatly leverage their expertise for careers as sustainability directors and environmental resource managers. The program also benefits from aggressive regional and state programs to promote environmental sustainability and social justice that make the San Francisco Bay Area a national hotspot for environmental careers.

Features

- Environmental Studies Bachelor of Arts
- Environmental Studies Minor
- Sustainability Certificate
- Sustainable Energy Systems Certificate

Career Opportunities

Career opportunities are highly diverse and new opportunities are rapidly emerging. Our graduates work in all sectors: governmental, non-profit, private, and education. Our students pursue graduate degrees in many fields including: environmental policy and management, urban planning, environmental law, recreation management, landscape architecture, green business, public administration, and education.

Many become environment and resource managers working on issues of water, energy, climate, parks, transportation, and urban environments.

Job titles include, but are not limited to:

Sustainability Officer/Director • Environmental Advocate / Analyst / Educator / Program Manager / Planner • Energy Analyst / Manager • Water Resources Analyst / Manager / Planner • Environmental

Justice Analyst, Compliance Specialist • Environmental Permitting, Planning, and
Compliance • Environmental Business Entrepreneur

Program Learning Outcomes

Graduates with a degree in Environmental Studies should be able to:

- Articulate key threats to the global environment, the scientific basis of the understanding of those threats, their underlying causes and implications for society;
- Articulate and apply key concepts to critical environmental problems including ecological limits, threshold effects, tragedy of the commons, and the interconnectedness of natural and human systems;
- Identify and apply a range of prominent tools and strategies to maintain and restore environmental quality and achieve sustainability;
- Describe and evaluate social justice and equity issues in the context of sustainable development;
- Identify, describe and assess the environmental and associated equity and justice implications of human actions including one's own;
- Apply quantitative and qualitative approaches to identify, analyze, and assess environmental problems.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 53 units
 - General Education & Graduation Requirements consists of 57 units ;
 - Free Electives may consist of 10 units (actual number of free elective units may depend on GE/GR units).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Environmental Studies Major Requirements (53 units)

Lower Division Coursework

Students must take all of the following courses for 18 units as outline below:

Take all of the following 15 units:

- CHEM 100 - Introduction to College Chemistry Units: 3 ; G.E./G.R. Area: B1, B3
- ENSC 240 - Environmental Biology Units: 3 ; G.E./G.R. Area: B2; Sustainability
- ENVT 101 - Environmental Challenges of the 21st Century Units: 3 ; G.E./G.R. Area: D1-3; Sustainability
- ENVT 225 - Fundamentals of GIS Units: 3
- STAT 100 - Elements of Statistics and Probability Units: 3 ; G.E./G.R. Area: B4

Plus, take one (1) of the following courses for 3 units:

- ECON 205 - Principles of Macroeconomics Units: 3 ; G.E./G.R. Area: D1-3
- OR GEOG 125 - World Regions and Development Units: 3 ; G.E./G.R. Area: D1-3

Upper Division Coursework

Students must take all of the following 32 units as outlined below:

Take all of the following 26 units:

- ENVT 310 - Literature and Research Methods *Units: 4*
- ENVT 320 - Environmental Resource Analysis *Units: 4*
- ENVT 330 - Environment, Sustainability, and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Sustainability*
- ENVT 410 - Environmental Impact Analysis *Units: 3*
- ENVT 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*
- ENVT 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4; Sustainability*

Plus, choose one (1) of the following two courses for 3 units:

- POSC 344 - Environmental Law *Units: 3*
- OR POSC 411 - Public Policy and the Environment *Units: 3*

And, choose one (1) of the following two courses for 3 units:

- ENVT 307 - Social Impact through Sustainable Solar Design *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- OR ENVT 380 - Applied Field Studies *Units: 3*

Capstone Requirement

All students must take the Environmental Studies capstone experience for 3 units to complete the major:

- ENVT 493 - Environmental Projects *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- GEOG 398 - Internship *Units: 1-3*

- GEOG 425 - Advanced GIS *Units: 3*

- GEOG 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*

- GEOG 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*

- GEOG 450 - Earth Surface Processes and Landforms *Units: 3 ; G.E./G.R. Area: B6*

- GEOG 455 - Sustainable Food Systems *Units: 4 ; G.E./G.R. Area: D4; Sustainability*

- GEOG 461 - Remote Sensing of the Environment *Units: 3*

- GEOG 462 - Air Photo Interpretation *Units: 3*

- GEOG 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- GEOG 490 - Independent Study *Units: 1-3*
- GEOG 497 - Issues in Geography *Units: 3*
- GEOG 499 - Senior Seminar in Geography *Units: 3*

Geography, B.S.: Regions and Cultures Concentration

Geography, B.S. Program (120 units)

Program Description

Geography is the study of spatial distributions, relations, processes and outcomes within the human-environment system. Attention is focused on historical and contemporary human activities in the natural and built environment, and on people as the major physical, social, cultural and economic change agents across the Earth's surface. A curriculum in Geography helps students understand the world's physical, social, economic and cultural landscapes and how they have been transformed or altered by either the Earth's natural processes or human modifications, and the future sustainability of our current actions in the light of our past experiences and ongoing trends such as urbanization, globalization and climate change.

At Cal State East Bay, Geography BS students can choose between three concentrations in addition to their common core of classes; Resources and Sustainability, Regions and Culture, and Spatial Techniques. These concentrations permit our majors to relatively easily dovetail into second majors, minors or certificate programs especially in Environmental Studies (BA and minor), International Studies (BA and minor), Certificate in Sustainability and Certificate in Cartography and GIS and to study abroad for a semester or year. A BS in Geography provides a valuable multi-perspective education of vital importance in this age of globalization and cumulative environmental change, a period that scientists are labeling the "Anthropocene". Graduates are primed to enter multiple professional fields or go on to a range of graduate programs related to environmental and resource management, planning and administration, sustainable development, and spatial data analysis. The major requires 43-47 units, 18 lower division and 25-29 upper division depending on the courses chosen for the pathway. The lower division portion aligns with the California Community College transfer Associate of Arts degree in Geography.

Career Opportunities

Career opportunities are highly diverse, depending on the student's interests and skills and new opportunities are rapidly emerging and expanding. Our graduates work in all sectors: governmental, non-profit, private, and education in areas such as environmental management, urban and rural planning, public utility services (water, energy, waste, etc.), outdoor recreation and administration (parks and recreation), local government, humanitarian and development assistance, sustainable food systems, education, and the application of geographical and other spatial information systems in the private and public sectors. Our students pursue graduate degrees in many fields including geography, urban and regional planning, environmental science, sustainability, geographical information systems, and other related disciplines.

Job titles include, but are not limited to:

Aerial Photo Interpreter • Agricultural/Food Systems Specialist • Cartographer • Census Analyst • Climatologist • Community Development Specialist • Demographer • Development Specialist • Ecologist • Economic Development Analyst • Environmental Analyst/Planner • Environmental Compliance Officer • Geographical Information Systems Specialist • Map Curator • Natural Resources Manager • Park Ranger • Public Utility Administrator • Recreational Resource Planner • Resiliency Officer • Soil Conservationist • Sustainability Coordinator • Transportation Planner • Urban Geographer • Utility Manager • Water Conservationist/Manager • Zoning Specialist/Surveyor

Program Learning Outcomes

Graduates with a BS degree in Geography should be able to:

1. Synthesize geographic knowledge, apply research strategies and use quantitative tools to solve problems of a geographic nature and relevant to a changing world (e.g. in resource management, spatial analysis, environmental change, and sustainable development)
2. Identify and communicate key geographical processes, ideas, concepts and outcomes orally, in writing, and through the use of geographical information systems (GIS) and other spatial representations
3. Identify, describe and explain the environmental, social, cultural, economic and other key characteristics and dynamics of different world regions
4. Demonstrate effective teamwork ability by contributing to successful execution of group projects in the classroom, GIS laboratory and/or in the field
5. Identify, describe and explain how local, regional and global environmental, human societal, and economic processes and their outcomes are related to sustainable development

Features

With the arrangement of a faculty advisor, students in the Bachelor of Science in Geography program can select from the following concentrations: Resources and Sustainability, Regions and Cultures, and Spatial Techniques.

The Resources and Sustainability pathway will allow the student to relatively easily, with the addition of one or two additional electives (for which they have plenty of room in their 120 units) satisfy the first of the two AGES certificate programs open to students from all majors; the Certificate in Sustainability is for those wanting a specialization in the field of sustainable resource and environmental management. Students may elect to pursue a double major with Environmental Studies should they wish to demonstrate added emphasis in this field to potential employers; this will require careful advising to ensure that the two degrees can be achieved by the right combination of double-counting electives and judicious overlapping between degree electives and GE.

The Regions and Cultures pathway is also designed to provide value-added opportunities for students; it permits seamless participation in one of our supported Study Abroad programs, especially the year long CSU International Programs. Students pursuing this pathway can satisfy all their pathway requirements studying in a foreign university, advancing to graduation in the major through studying equivalent classes overseas. The university has a goal to greatly expand the number of students studying abroad and Geography majors are prime candidates for these programs; with this pathway specifically tailored to students with global interests, the ability to study abroad for a year or semester with maximal incorporation of the overseas classes into satisfying the major requirements is enhanced.

The Regions and Cultures pathway also allows students to double major with the International Studies BA (INTS) should they wish to demonstrate added emphasis in the field of globalization and global

studies to potential employers. Courses taken for the geography pathway would satisfy the upper division emphasis required by INTS. Finally, the Spatial Techniques pathway will allow the student to satisfy the second of the two AGES certificate programs open to students from all majors; the Certificate in Cartography and GIS for those wanting to learn skills and methods in data collection, interpretation, and analysis as well as the design, compilation, production, and reproduction of maps. This is a growing field and students of any discipline, not just Geography, are in demand if they have the skill set obtained through this concentrated program of study.

In addition to these opportunities to double major in the closely allied disciplines of Environmental Studies (ENVT BA) and International Studies (INTS BA), the program offers an elective internship opportunity through GEOG 398 Cooperative Education, through which individual students can gain practical experience with public, private, or volunteer agencies and further develop their career goals and attractiveness to employers.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 43-47 units
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 16-20 units (*actual number of free elective units may depend on*

GE/GR units).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Geography Major Requirements (43-47 units)

Lower Division Core

The lower-division coursework, for 18 units, are required as outlined.

Students must take all of the following five (5) courses for 15 units:

- **GEOG 110 - Physical Geography: Earth Processes and Outcomes** Units: 3 ;
G.E./G.R. Area: B1
- **GEOG 120 - Human Geography: Diversity and Globalization** Units: 3 ; *G.E./G.R. Area: D1-3*
- **GEOG 125 - World Regions and Development** Units: 3 ; *G.E./G.R. Area: D1-3*
- **GEOG 200 - Sustainable Resource Management** Units: 3 ; *G.E./G.R. Area: D1-3*
- **GEOG 225 - Fundamentals of GIS** Units: 3

Students must also take one (1) of the following for 3 units:

- **ENVT 101 - Environmental Challenges of the 21st Century** Units: 3 ; *G.E./G.R. Area: D1-3; Sustainability*
- **ANTH 130 - Introduction to Cultural Anthropology** Units: 3 ; *G.E./G.R. Area: D1-3*

Upper Division Core

Students must take all of the following three (3) upper-division core courses for 10 units:

- GEOG 310 - Literature and Research Methods *Units: 4*
- GEOG 340 - Climate Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- GEOG 425 - Advanced GIS *Units: 3*

Concentration Requirement

An additional 12-16 units of concentrated coursework is required to complete the major. Choose one (1) of the following concentrations:

Geography, B.S.: Regions and Cultures Concentration

Geography, B.S.: Resources and Sustainability Concentration

Geography, B.S.: Spatial Techniques Concentration

Capstone Requirement

The following capstone experience, for 3 units, is required to complete the major:

- GEOG 499 - Senior Seminar in Geography *Units: 3*

Regions and Cultures Concentration

The Regions and Cultures concentration consists of 12 units. Students must choose four (4) of the following courses:

- GEOG 330 - Historical Geography of North America *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 336 - Asian Americans: Multiculturalism and Spatial Disparity *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 350 - California *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 351 - United States and Canada *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 352 - Latin America and the Caribbean *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 353 - Africa *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 354 - China: Economic Development and Social Transformation
Units: 3 ; G.E./G.R. Area: D4
- GEOG 355 - Asia Pacific *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 356 - Europe *Units: 3 ; G.E./G.R. Area: D4*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Courses

Anthropology

- ANTH 100 - Introduction to Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 110 - Introduction to Biological Anthropology *Units: 3 ; G.E./G.R. Area: B2*
- ANTH 120 - Introduction to Archaeology *Units: 3 ; G.E./G.R. Area: B1*
- ANTH 130 - Introduction to Cultural Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 140 - Introduction to Linguistic Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 300 - Anthropology of Global Change *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 490 - Independent Study *Units: 1-4*
- ANTH 497 - Issues in Anthropology *Units: 3*

Anthropology: Applied Anthropology

- ANTH 370 - Anthropology in Action *Units: 3*
- ANTH 371 - Business Anthropology *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 372 - Medical Anthropology *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ANTH 377 - Museum Studies Anthropology *Units: 3*
- ANTH 398 - Internship *Units: 1-3*

Anthropology: Archaeology

- ANTH 320 - Archaeological Science *Units: 3*
- ANTH 321 - Archaeology of the Americas *Units: 3 ; G.E./G.R. Area: D4*

Anthropology: Area Studies

- ANTH 350 - Indians of California *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 354 - China *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 355 - Japan *Units: 3*

Anthropology: Biological Anthropology

- ANTH 310 - Evolutionary Biology of Humans *Units: 3 ; G.E./G.R. Area: B6*
- ANTH 311 - Human Fossil Record *Units: 3 ; G.E./G.R. Area: B6*
- ANTH 312 - Primate Behavioral Ecology *Units: 3 ; G.E./G.R. Area: D4*

Anthropology: Methods

- ANTH 410 - Bioarchaeology Laboratory *Units: 3*
- ANTH 411 - Human Forensic Osteology *Units: 3*
- ANTH 420 - Archaeology Laboratory *Units: 3*
- ANTH 421 - Field Archaeology *Units: 3*
- ANTH 430 - Field Course in Ethnography *Units: 3*

Anthropology: Linguistic Anthropology

- ANTH 340 - Language and Culture *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 341 - Linguistic Diversity and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ANTH 342 - Language and Sexuality *Units: 3 ; G.E./G.R. Area: D4; Diversity*

Anthropology: Sociocultural Anthropology

- ANTH 330 - Social Anthropology *Units: 3*

- ANTH 331 - Folklore *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 333 - Women in Cross-Cultural Perspective *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ANTH 334 - Human Sexuality: Anthropological Perspectives *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 431 - Advanced Anthropological Theory *Units: 3*

Environmental Science: Graduate

- ENSC 633 - The Science of Soils *Units: 4*

Environmental Studies

- ENVT 101 - Environmental Challenges of the 21st Century *Units: 3 ; G.E./G.R. Area: D1-3; Sustainability*
- ENVT 225 - Fundamentals of GIS *Units: 3*
- ENVT 307 - Social Impact through Sustainable Solar Design *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 310 - Literature and Research Methods *Units: 4*
- ENVT 320 - Environmental Resource Analysis *Units: 4*
- ENVT 330 - Environment, Sustainability, and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Sustainability*
- ENVT 340 - Climate Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 380 - Applied Field Studies *Units: 3*
- ENVT 398 - Internship *Units: 1-3*
- ENVT 410 - Environmental Impact Analysis *Units: 3*
- ENVT 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*
- ENVT 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- ENVT 490 - Independent Study *Units: 1-3*
- ENVT 493 - Environmental Projects *Units: 3*
- ENVT 495 - Environmental Internship *Units: 1-3*

Geography

- GEOG 110 - Physical Geography: Earth Processes and Outcomes *Units: 3 ; G.E./G.R. Area: B1*
- GEOG 120 - Human Geography: Diversity and Globalization *Units: 3 ; G.E./G.R. Area: D1-3*
- GEOG 125 - World Regions and Development *Units: 3 ; G.E./G.R. Area: D1-3*
- GEOG 200 - Sustainable Resource Management *Units: 3 ; G.E./G.R. Area: D1-3*
- GEOG 225 - Fundamentals of GIS *Units: 3*
- GEOG 310 - Literature and Research Methods *Units: 4*
- GEOG 320 - Environmental Resource Analysis *Units: 4*
- GEOG 330 - Historical Geography of North America *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 336 - Asian Americans: Multiculturalism and Spatial Disparity *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 340 - Climate Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- GEOG 350 - California *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 351 - United States and Canada *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 352 - Latin America and the Caribbean *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 353 - Africa *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 354 - China: Economic Development and Social Transformation *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 355 - Asia Pacific *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 356 - Europe *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 360 - Computer Cartography *Units: 3*
- GEOG 380 - Applied Field Studies *Units: 3*

- GEOG 397 - Issues in Anthropology, Geography and Environmental Studies *Units: 3*
- GEOG 398 - Internship *Units: 1-3*
- GEOG 425 - Advanced GIS *Units: 3*
- GEOG 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*
- GEOG 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- GEOG 450 - Earth Surface Processes and Landforms *Units: 3 ; G.E./G.R. Area: B6*
- GEOG 455 - Sustainable Food Systems *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- GEOG 461 - Remote Sensing of the Environment *Units: 3*
- GEOG 462 - Air Photo Interpretation *Units: 3*
- GEOG 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- GEOG 490 - Independent Study *Units: 1-3*
- GEOG 497 - Issues in Geography *Units: 3*
- GEOG 499 - Senior Seminar in Geography *Units: 3*

Geography, B.S.: Resources and Sustainability Concentration

Geography, B.S. Program (120 units)

Program Description

Geography is the study of spatial distributions, relations, processes and outcomes within the human-environment system. Attention is focused on historical and contemporary human activities in the natural and built environment, and on people as the major physical, social, cultural and economic change agents across the Earth's surface. A curriculum in Geography helps students understand the world's physical, social, economic and cultural landscapes and how they have been transformed or altered by either the Earth's natural processes or human modifications, and the future sustainability of our current actions in the light of our past experiences and ongoing trends such as urbanization, globalization and climate change.

At Cal State East Bay, Geography BS students can choose between three concentrations in addition to their common core of classes; Resources and Sustainability, Regions and Culture, and Spatial Techniques. These concentrations permit our majors to relatively easily dovetail into second majors, minors or certificate programs especially in Environmental Studies (BA and minor), International Studies (BA and minor), Certificate in Sustainability and Certificate in Cartography and GIS and to study abroad for a semester or year. A BS in Geography provides a valuable multi-perspective education of vital importance in this age of globalization and cumulative environmental change, a period that scientists are labeling the "Anthropocene". Graduates are primed to enter multiple professional fields or go on to a range of graduate programs related to environmental and resource management, planning and administration, sustainable development, and spatial data analysis. The major requires 43-47 units, 18 lower division and 25-29 upper division depending on the courses chosen for the pathway. The lower division portion aligns with the California Community College transfer Associate of Arts degree in Geography.

Career Opportunities

Career opportunities are highly diverse, depending on the student's interests and skills and new opportunities are rapidly emerging and expanding. Our graduates work in all sectors: governmental, non-profit, private, and education in areas such as environmental management, urban and rural planning,

public utility services (water, energy, waste, etc.), outdoor recreation and administration (parks and recreation), local government, humanitarian and development assistance, sustainable food systems, education, and the application of geographical and other spatial information systems in the private and public sectors. Our students pursue graduate degrees in many fields including geography, urban and regional planning, environmental science, sustainability, geographical information systems, and other related disciplines.

Job titles include, but are not limited to:

Aerial Photo Interpreter • Agricultural/Food Systems Specialist • Cartographer • Census Analyst • Climatologist • Community Development Specialist • Demographer • Development Specialist • Ecologist • Economic Development Analyst • Environmental Analyst/Planner • Environmental Compliance Officer • Geographical Information Systems Specialist • Map Curator • Natural Resources Manager • Park Ranger • Public Utility Administrator • Recreational Resource Planner • Resiliency Officer • Soil Conservationist • Sustainability Coordinator • Transportation Planner • Urban Geographer • Utility Manager • Water Conservationist/Manager • Zoning Specialist/Surveyor

Program Learning Outcomes

Graduates with a BS degree in Geography should be able to:

1. Synthesize geographic knowledge, apply research strategies and use quantitative tools to solve problems of a geographic nature and relevant to a changing world (e.g. in resource management, spatial analysis, environmental change, and sustainable development)
2. Identify and communicate key geographical processes, ideas, concepts and outcomes orally, in writing, and through the use of geographical information systems (GIS) and other spatial representations
3. Identify, describe and explain the environmental, social, cultural, economic and other key characteristics and dynamics of different world regions
4. Demonstrate effective teamwork ability by contributing to successful execution of group projects in the classroom, GIS laboratory and/or in the field
5. Identify, describe and explain how local, regional and global environmental, human societal, and economic processes and their outcomes are related to sustainable development

Features

With the arrangement of a faculty advisor, students in the Bachelor of Science in Geography program can select from the following concentrations: Resources and Sustainability, Regions and Cultures, and Spatial Techniques.

The Resources and Sustainability pathway will allow the student to relatively easily, with the addition of one or two additional electives (for which they have plenty of room in their 120 units) satisfy the first of the two AGES certificate programs open to students from all majors; the Certificate in Sustainability is for those wanting a specialization in the field of sustainable resource and environmental management. Students may elect to pursue a double major with Environmental Studies should they wish to demonstrate added emphasis in this field to potential employers; this will require careful advising to ensure that the two degrees can be achieved by the right combination of double-counting electives and judicious overlapping between degree electives and GE.

The Regions and Cultures pathway is also designed to provide value-added opportunities for students; it permits seamless participation in one of our supported Study Abroad programs, especially the year long CSU International Programs. Students pursuing this pathway can satisfy all their pathway requirements studying in a foreign university, advancing to graduation in the major through studying equivalent classes overseas. The university has a goal to greatly expand the number of students studying abroad and Geography majors are prime candidates for these programs; with this pathway specifically tailored to students with global interests, the ability to study abroad for a year or semester with maximal incorporation of the overseas classes into satisfying the major requirements is enhanced.

The Regions and Cultures pathway also allows students to double major with the International Studies BA (INTS) should they wish to demonstrate added emphasis in the field of globalization and global studies to potential employers. Courses taken for the geography pathway would satisfy the upper division emphasis required by INTS. Finally, the Spatial Techniques pathway will allow the student to satisfy the second of the two AGES certificate programs open to students from all majors; the Certificate in Cartography and GIS for those wanting to learn skills and methods in data collection, interpretation, and analysis as well as the design, compilation, production, and reproduction of maps. This is a growing field and students of any discipline, not just Geography, are in demand if they have the skill set obtained through this concentrated program of study.

In addition to these opportunities to double major in the closely allied disciplines of Environmental Studies (ENVT BA) and International Studies (INTS BA), the program offers an elective internship opportunity through GEOG 398 Cooperative Education, through which individual students can gain practical experience with public, private, or volunteer agencies and further develop their career goals and attractiveness to employers.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 43-47 units
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 16-20 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Geography Major Requirements (43-47 units)

Lower Division Core

The lower-division coursework, for 18 units, are required as outlined.

Students must take all of the following five (5) courses for 15 units:

- GEOG 110 - Physical Geography: Earth Processes and Outcomes Units: 3 ; G.E./G.R. Area: B1
- GEOG 120 - Human Geography: Diversity and Globalization Units: 3 ; G.E./G.R. Area: D1-3
- GEOG 125 - World Regions and Development Units: 3 ; G.E./G.R. Area: D1-3
- GEOG 200 - Sustainable Resource Management Units: 3 ; G.E./G.R. Area: D1-3

- **GEOG 225 - Fundamentals of GIS** *Units: 3*

Students must also take one (1) of the following for 3 units:

- **ENVT 101 - Environmental Challenges of the 21st Century** *Units: 3 ; G.E./G.R. Area: D1-3; Sustainability*
- **ANTH 130 - Introduction to Cultural Anthropology** *Units: 3 ; G.E./G.R. Area: D1-3*

Upper Division Core

Students must take all of the following three (3) upper-division core courses for 10 units:

- **GEOG 310 - Literature and Research Methods** *Units: 4*
- **GEOG 340 - Climate Change** *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- **GEOG 425 - Advanced GIS** *Units: 3*

Concentration Requirement

An additional 12-16 units of concentrated coursework is required to complete the major. Choose one (1) of the following concentrations:

Geography, B.S.: Regions and Cultures Concentration

Geography, B.S.: Resources and Sustainability Concentration

Geography, B.S.: Spatial Techniques Concentration

Capstone Requirement

The following capstone experience, for 3 units, is required to complete the major:

- **GEOG 499 - Senior Seminar in Geography** *Units: 3*

Resources and Sustainability Concentration

The Resources and Sustainability concentration consists of 15-16 units. Students must choose four (4) of the following courses:

- **GEOG 445 - Water and Watershed Resources** *Units: 4 ; G.E./G.R. Area: B6*
- **GEOG 447 - Energy, Climate and Society** *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- **GEOG 450 - Earth Surface Processes and Landforms** *Units: 3 ; G.E./G.R. Area: B6*
- **GEOG 455 - Sustainable Food Systems** *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- **GEOG 465 - Sustainable Communities and Development** *Units: 4 ; G.E./G.R. Area: D4; Sustainability*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- GEOG 225 - Fundamentals of GIS *Units: 3*
- GEOG 310 - Literature and Research Methods *Units: 4*
- GEOG 320 - Environmental Resource Analysis *Units: 4*
- GEOG 330 - Historical Geography of North America *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 336 - Asian Americans: Multiculturalism and Spatial Disparity *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 340 - Climate Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- GEOG 350 - California *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 351 - United States and Canada *Units: 3 ; G.E./G.R. Area: D4*

- • GEOG 352 - Latin America and the Caribbean *Units: 3 ; G.E./G.R. Area: D4*
- • GEOG 353 - Africa *Units: 3 ; G.E./G.R. Area: D4*
- • GEOG 354 - China: Economic Development and Social Transformation *Units: 3 ; G.E./G.R. Area: D4*
- • GEOG 355 - Asia Pacific *Units: 3 ; G.E./G.R. Area: D4*
- • GEOG 356 - Europe *Units: 3 ; G.E./G.R. Area: D4*
- • GEOG 360 - Computer Cartography *Units: 3*
- • GEOG 380 - Applied Field Studies *Units: 3*
- • GEOG 397 - Issues in Anthropology, Geography and Environmental Studies *Units: 3*
- • GEOG 398 - Internship *Units: 1-3*
- • GEOG 425 - Advanced GIS *Units: 3*
- • GEOG 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*
- • GEOG 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- • GEOG 450 - Earth Surface Processes and Landforms *Units: 3 ; G.E./G.R. Area: B6*
- • GEOG 455 - Sustainable Food Systems *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- • GEOG 461 - Remote Sensing of the Environment *Units: 3*
- • GEOG 462 - Air Photo Interpretation *Units: 3*
- • GEOG 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4;*
- • GEOG 490 - Independent Study *Units: 1-3*
- • GEOG 497 - Issues in Geography *Units: 3*
- • GEOG 499 - Senior Seminar in Geography *Units: 3*

Geography, B.S.: Spatial Techniques Concentration

Geography, B.S. Program (120 units)

Program Description

Geography is the study of spatial distributions, relations, processes and outcomes within the human-environment system. Attention is focused on historical and contemporary human activities in the natural and built environment, and on people as the major physical, social, cultural and economic change agents across the Earth's surface. A curriculum in Geography helps students understand the world's physical, social, economic and cultural landscapes and how they have been transformed or altered by either the Earth's natural processes or human modifications, and the future sustainability of our current actions in the light of our past experiences and ongoing trends such as urbanization, globalization and climate change.

At Cal State East Bay, Geography BS students can choose between three concentrations in addition to their common core of classes; Resources and Sustainability, Regions and Culture, and Spatial Techniques. These concentrations permit our majors to relatively easily dovetail into second majors, minors or certificate programs especially in Environmental Studies (BA and minor), International Studies (BA and minor), Certificate in Sustainability and Certificate in Cartography and GIS and to study abroad for a semester or year. A BS in Geography provides a valuable multi-perspective education of vital importance in this age of globalization and cumulative environmental change, a period that scientists are labeling the "Anthropocene". Graduates are primed to enter multiple professional fields or go on to a range of graduate programs related to environmental and resource management, planning and administration, sustainable development, and spatial data analysis. The major requires 43-47 units, 18 lower division and 25-29 upper division depending on the courses chosen for the pathway. The lower

division portion aligns with the California Community College transfer Associate of Arts degree in Geography.

Career Opportunities

Career opportunities are highly diverse, depending on the student's interests and skills and new opportunities are rapidly emerging and expanding. Our graduates work in all sectors: governmental, non-profit, private, and education in areas such as environmental management, urban and rural planning, public utility services (water, energy, waste, etc.), outdoor recreation and administration (parks and recreation), local government, humanitarian and development assistance, sustainable food systems, education, and the application of geographical and other spatial information systems in the private and public sectors. Our students pursue graduate degrees in many fields including geography, urban and regional planning, environmental science, sustainability, geographical information systems, and other related disciplines.

Job titles include, but are not limited to:

Aerial Photo Interpreter • Agricultural/Food Systems Specialist • Cartographer • Census Analyst • Climatologist • Community Development Specialist • Demographer • Development Specialist • Ecologist • Economic Development Analyst • Environmental Analyst/Planner • Environmental Compliance Officer • Geographical Information Systems Specialist • Map Curator • Natural Resources Manager • Park Ranger • Public Utility Administrator • Recreational Resource Planner • Resiliency Officer • Soil Conservationist • Sustainability Coordinator • Transportation Planner • Urban Geographer • Utility Manager • Water Conservationist/Manager • Zoning Specialist/Surveyor

Program Learning Outcomes

Graduates with a BS degree in Geography should be able to:

1. Synthesize geographic knowledge, apply research strategies and use quantitative tools to solve problems of a geographic nature and relevant to a changing world (e.g. in resource management, spatial analysis, environmental change, and sustainable development)
2. Identify and communicate key geographical processes, ideas, concepts and outcomes orally, in writing, and through the use of geographical information systems (GIS) and other spatial representations
3. Identify, describe and explain the environmental, social, cultural, economic and other key characteristics and dynamics of different world regions
4. Demonstrate effective teamwork ability by contributing to successful execution of group projects in the classroom, GIS laboratory and/or in the field
5. Identify, describe and explain how local, regional and global environmental, human societal, and economic processes and their outcomes are related to sustainable development

Features

With the arrangement of a faculty advisor, students in the Bachelor of Science in Geography program can select from the following concentrations: Resources and Sustainability, Regions and Cultures, and Spatial Techniques.

The Resources and Sustainability pathway will allow the student to relatively easily, with the addition of one or two additional electives (for which they have plenty of room in their 120 units) satisfy the first of

the two AGES certificate programs open to students from all majors; the Certificate in Sustainability is for those wanting a specialization in the field of sustainable resource and environmental management. Students may elect to pursue a double major with Environmental Studies should they wish to demonstrate added emphasis in this field to potential employers; this will require careful advising to ensure that the two degrees can be achieved by the right combination of double-counting electives and judicious overlapping between degree electives and GE.

The Regions and Cultures pathway is also designed to provide value-added opportunities for students; it permits seamless participation in one of our supported Study Abroad programs, especially the year long CSU International Programs. Students pursuing this pathway can satisfy all their pathway requirements studying in a foreign university, advancing to graduation in the major through studying equivalent classes overseas. The university has a goal to greatly expand the number of students studying abroad and Geography majors are prime candidates for these programs; with this pathway specifically tailored to students with global interests, the ability to study abroad for a year or semester with maximal incorporation of the overseas classes into satisfying the major requirements is enhanced.

The Regions and Cultures pathway also allows students to double major with the International Studies BA (INTS) should they wish to demonstrate added emphasis in the field of globalization and global studies to potential employers. Courses taken for the geography pathway would satisfy the upper division emphasis required by INTS. Finally, the Spatial Techniques pathway will allow the student to satisfy the second of the two AGES certificate programs open to students from all majors; the Certificate in Cartography and GIS for those wanting to learn skills and methods in data collection, interpretation, and analysis as well as the design, compilation, production, and reproduction of maps. This is a growing field and students of any discipline, not just Geography, are in demand if they have the skill set obtained through this concentrated program of study.

In addition to these opportunities to double major in the closely allied disciplines of Environmental Studies (ENVT BA) and International Studies (INTS BA), the program offers an elective internship opportunity through GEOG 398 Cooperative Education, through which individual students can gain practical experience with public, private, or volunteer agencies and further develop their career goals and attractiveness to employers.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 43-47 units
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 16-20 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Geography Major Requirements (43-47 units)

Lower Division Core

The lower-division coursework, for 18 units, are required as outlined.

Students must take all of the following five (5) courses for 15 units:

- **GEOG 110 - Physical Geography: Earth Processes and Outcomes** *Units: 3 ; G.E./G.R. Area: B1*
- **GEOG 120 - Human Geography: Diversity and Globalization** *Units: 3 ; G.E./G.R. Area: D1-3*
- **GEOG 125 - World Regions and Development** *Units: 3 ; G.E./G.R. Area: D1-3*
- **GEOG 200 - Sustainable Resource Management** *Units: 3 ; G.E./G.R. Area: D1-3*
- **GEOG 225 - Fundamentals of GIS** *Units: 3*

Students must also take one (1) of the following for 3 units:

- **ENVT 101 - Environmental Challenges of the 21st Century** *Units: 3 ; G.E./G.R. Area: D1-3; Sustainability*
- **ANTH 130 - Introduction to Cultural Anthropology** *Units: 3 ; G.E./G.R. Area: D1-3*

Upper Division Core

Students must take all of the following three (3) upper-division core courses for 10 units:

- **GEOG 310 - Literature and Research Methods** *Units: 4*
- **GEOG 340 - Climate Change** *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- **GEOG 425 - Advanced GIS** *Units: 3*

Concentration Requirement

An additional 12-16 units of concentrated coursework is required to complete the major. Choose one (1) of the following concentrations:

Geography, B.S.: Regions and Cultures Concentration

Geography, B.S.: Resources and Sustainability Concentration

Geography, B.S.: Spatial Techniques Concentration

Capstone Requirement

The following capstone experience, for 3 units, is required to complete the major:

- **GEOG 499 - Senior Seminar in Geography** *Units: 3*

Spatial Techniques Concentration

The Spatial Techniques concentration consists of 12-13 units. Students must choose four (4) of the following courses:

- **GEOG 320 - Environmental Resource Analysis** *Units: 4*
- **GEOG 360 - Computer Cartography** *Units: 3*
- **GEOG 380 - Applied Field Studies** *Units: 3*
- **GEOG 461 - Remote Sensing of the Environment** *Units: 3*
- **GEOG 462 - Air Photo Interpretation** *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Courses

Anthropology

- ANTH 100 - Introduction to Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 110 - Introduction to Biological Anthropology *Units: 3 ; G.E./G.R. Area: B2*
- ANTH 120 - Introduction to Archaeology *Units: 3 ; G.E./G.R. Area: B1*
- ANTH 130 - Introduction to Cultural Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 140 - Introduction to Linguistic Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 300 - Anthropology of Global Change *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 490 - Independent Study *Units: 1-4*
- ANTH 497 - Issues in Anthropology *Units: 3*

Anthropology: Applied Anthropology

- ANTH 370 - Anthropology in Action *Units: 3*
- ANTH 371 - Business Anthropology *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 372 - Medical Anthropology *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ANTH 377 - Museum Studies Anthropology *Units: 3*
- ANTH 398 - Internship *Units: 1-3*

Anthropology: Archaeology

- ANTH 320 - Archaeological Science *Units: 3*
- ANTH 321 - Archaeology of the Americas *Units: 3 ; G.E./G.R. Area: D4*

Anthropology: Area Studies

- ANTH 350 - Indians of California *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 354 - China *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 355 - Japan *Units: 3*

Anthropology: Biological Anthropology

- ANTH 310 - Evolutionary Biology of Humans *Units: 3 ; G.E./G.R. Area: B6*
- ANTH 311 - Human Fossil Record *Units: 3 ; G.E./G.R. Area: B6*
- ANTH 312 - Primate Behavioral Ecology *Units: 3 ; G.E./G.R. Area: D4*

Anthropology: Methods

- ANTH 410 - Bioarchaeology Laboratory *Units: 3*
- ANTH 411 - Human Forensic Osteology *Units: 3*

- ANTH 420 - Archaeology Laboratory *Units: 3*
- ANTH 421 - Field Archaeology *Units: 3*
- ANTH 430 - Field Course in Ethnography *Units: 3*

Anthropology: Linguistic Anthropology

- ANTH 340 - Language and Culture *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 341 - Linguistic Diversity and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ANTH 342 - Language and Sexuality *Units: 3 ; G.E./G.R. Area: D4; Diversity*

Anthropology: Sociocultural Anthropology

- ANTH 330 - Social Anthropology *Units: 3*
- ANTH 331 - Folklore *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 333 - Women in Cross-Cultural Perspective *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ANTH 334 - Human Sexuality: Anthropological Perspectives *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 431 - Advanced Anthropological Theory *Units: 3*

Environmental Science: Graduate

- ENSC 633 - The Science of Soils *Units: 4*

Environmental Studies

- ENVT 101 - Environmental Challenges of the 21st Century *Units: 3 ; G.E./G.R. Area: D1-3; Sustainability*
- ENVT 225 - Fundamentals of GIS *Units: 3*
- ENVT 307 - Social Impact through Sustainable Solar Design *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 310 - Literature and Research Methods *Units: 4*
- ENVT 320 - Environmental Resource Analysis *Units: 4*
- ENVT 330 - Environment, Sustainability, and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Sustainability*
- ENVT 340 - Climate Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 380 - Applied Field Studies *Units: 3*
- ENVT 398 - Internship *Units: 1-3*
- ENVT 410 - Environmental Impact Analysis *Units: 3*
- ENVT 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*
- ENVT 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- ENVT 490 - Independent Study *Units: 1-3*
- ENVT 493 - Environmental Projects *Units: 3*
- ENVT 495 - Environmental Internship *Units: 1-3*

Geography

- GEOG 110 - Physical Geography: Earth Processes and Outcomes *Units: 3 ; G.E./G.R. Area: B1*
- GEOG 120 - Human Geography: Diversity and Globalization *Units: 3 ; G.E./G.R. Area: D1-3*
- GEOG 125 - World Regions and Development *Units: 3 ; G.E./G.R. Area: D1-3*
- GEOG 200 - Sustainable Resource Management *Units: 3 ; G.E./G.R. Area: D1-3*
- GEOG 225 - Fundamentals of GIS *Units: 3*
- GEOG 310 - Literature and Research Methods *Units: 4*
- GEOG 320 - Environmental Resource Analysis *Units: 4*
- GEOG 330 - Historical Geography of North America *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 336 - Asian Americans: Multiculturalism and Spatial Disparity *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 340 - Climate Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*

- GEOG 350 - California *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 351 - United States and Canada *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 352 - Latin America and the Caribbean *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 353 - Africa *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 354 - China: Economic Development and Social Transformation *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 355 - Asia Pacific *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 356 - Europe *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 360 - Computer Cartography *Units: 3*
- GEOG 380 - Applied Field Studies *Units: 3*
- GEOG 397 - Issues in Anthropology, Geography and Environmental Studies *Units: 3*
- GEOG 398 - Internship *Units: 1-3*
- GEOG 425 - Advanced GIS *Units: 3*
- GEOG 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*
- GEOG 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- GEOG 450 - Earth Surface Processes and Landforms *Units: 3 ; G.E./G.R. Area: B6*
- GEOG 455 - Sustainable Food Systems *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- GEOG 461 - Remote Sensing of the Environment *Units: 3*
- GEOG 462 - Air Photo Interpretation *Units: 3*
- GEOG 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- GEOG 490 - Independent Study *Units: 1-3*
- GEOG 497 - Issues in Geography *Units: 3*
- GEOG 499 - Senior Seminar in Geography *Units: 3*

Minor

Anthropology Minor

Minor Requirements (18 units)

General Introduction

Take the following 3 units:

- ANTH 100 - Introduction to Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*

Introductory Core Course

Choose one (1) course for 3 units from the following:

- ANTH 110 - Introduction to Biological Anthropology *Units: 3 ; G.E./G.R. Area: B2*
- ANTH 120 - Introduction to Archaeology *Units: 3 ; G.E./G.R. Area: B1*
- ANTH 130 - Introduction to Cultural Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 140 - Introduction to Linguistic Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 300 - Anthropology of Global Change *Units: 3 ; G.E./G.R. Area: D4*

Upper-Division Core Courses

Choose two (2) courses for 6 units from the following:

- ANTH 310 - Evolutionary Biology of Humans *Units: 3 ; G.E./G.R. Area: B6*
- ANTH 320 - Archaeological Science *Units: 3*
- ANTH 330 - Social Anthropology *Units: 3*
- ANTH 340 - Language and Culture *Units: 3 ; G.E./G.R. Area: D4*

Upper-Division Electives

Choose two (2) elective courses for 6 units from the following:

- ANTH 311 - Human Fossil Record *Units: 3 ; G.E./G.R. Area: B6*
- ANTH 312 - Primate Behavioral Ecology *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 321 - Archaeology of the Americas *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 331 - Folklore *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 333 - Women in Cross-Cultural Perspective *Units: 3 ; G.E./G.R. Area: D4;*
Social Justice
- ANTH 334 - Human Sexuality: Anthropological Perspectives *Units: 3 ; G.E./G.R.*
Area: D4
- ANTH 341 - Linguistic Diversity and Social Justice *Units: 3 ; G.E./G.R. Area: D4;*
Social Justice
- ANTH 342 - Language and Sexuality *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ANTH 350 - Indians of California *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 354 - China *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 355 - Japan *Units: 3*
- ANTH 370 - Anthropology in Action *Units: 3*
- ANTH 371 - Business Anthropology *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 372 - Medical Anthropology *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ANTH 377 - Museum Studies Anthropology *Units: 3*
- ANTH 410 - Bioarchaeology Laboratory *Units: 3*
- ANTH 411 - Human Forensic Osteology *Units: 3*
- ANTH 420 - Archaeology Laboratory *Units: 3*
- ANTH 421 - Field Archaeology *Units: 3*
- ANTH 430 - Field Course in Ethnography *Units: 3*
- ANTH 431 - Advanced Anthropological Theory *Units: 3*

- GEOG 352 - Latin America and the Caribbean *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 353 - Africa *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 354 - China: Economic Development and Social Transformation *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 355 - Asia Pacific *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 356 - Europe *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 360 - Computer Cartography *Units: 3*

- GEOG 380 - Applied Field Studies *Units: 3*

- GEOG 397 - Issues in Anthropology, Geography and Environmental Studies *Units: 3*

- GEOG 398 - Internship *Units: 1-3*

- GEOG 425 - Advanced GIS *Units: 3*

- GEOG 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*

- GEOG 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*

- GEOG 450 - Earth Surface Processes and Landforms *Units: 3 ; G.E./G.R. Area: B6*

- GEOG 455 - Sustainable Food Systems *Units: 4 ; G.E./G.R. Area: D4; Sustainability*

- GEOG 461 - Remote Sensing of the Environment *Units: 3*

- GEOG 462 - Air Photo Interpretation *Units: 3*

- GEOG 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- GEOG 490 - Independent Study *Units: 1-3*
- GEOG 497 - Issues in Geography *Units: 3*
- GEOG 499 - Senior Seminar in Geography *Units: 3*

Environmental Studies Minor

Minor Requirements (22 units)

The Minor in Environmental Studies focuses on issues at the intersection of sustainability and social justice. All of the following courses are required unless modified with the approval of the Director of Environmental Studies.

Required Courses

Take the following 22 units:

- ENVT 101 - Environmental Challenges of the 21st Century *Units: 3 ; G.E./G.R. Area: D1-3; Sustainability*
- ENVT 330 - Environment, Sustainability, and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Sustainability*
- ENVT 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*
- ENVT 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- GEOG 455 - Sustainable Food Systems *Units: 4 ; G.E./G.R. Area: D4; Sustainability*

Courses

Anthropology

- ANTH 100 - Introduction to Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 110 - Introduction to Biological Anthropology *Units: 3 ; G.E./G.R. Area: B2*
- ANTH 120 - Introduction to Archaeology *Units: 3 ; G.E./G.R. Area: B1*
- ANTH 130 - Introduction to Cultural Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 140 - Introduction to Linguistic Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 300 - Anthropology of Global Change *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 490 - Independent Study *Units: 1-4*
- ANTH 497 - Issues in Anthropology *Units: 3*

Anthropology: Applied Anthropology

- ANTH 370 - Anthropology in Action *Units: 3*
- ANTH 371 - Business Anthropology *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 372 - Medical Anthropology *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ANTH 377 - Museum Studies Anthropology *Units: 3*
- ANTH 398 - Internship *Units: 1-3*

Anthropology: Archaeology

- ANTH 320 - Archaeological Science *Units: 3*
- ANTH 321 - Archaeology of the Americas *Units: 3 ; G.E./G.R. Area: D4*

Anthropology: Area Studies

- ANTH 350 - Indians of California *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 354 - China *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 355 - Japan *Units: 3*

Anthropology: Biological Anthropology

- ANTH 310 - Evolutionary Biology of Humans *Units: 3 ; G.E./G.R. Area: B6*
- ANTH 311 - Human Fossil Record *Units: 3 ; G.E./G.R. Area: B6*
- ANTH 312 - Primate Behavioral Ecology *Units: 3 ; G.E./G.R. Area: D4*

Anthropology: Methods

- ANTH 410 - Bioarchaeology Laboratory *Units: 3*
- ANTH 411 - Human Forensic Osteology *Units: 3*
- ANTH 420 - Archaeology Laboratory *Units: 3*
- ANTH 421 - Field Archaeology *Units: 3*
- ANTH 430 - Field Course in Ethnography *Units: 3*

Anthropology: Linguistic Anthropology

- ANTH 340 - Language and Culture *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 341 - Linguistic Diversity and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ANTH 342 - Language and Sexuality *Units: 3 ; G.E./G.R. Area: D4; Diversity*

Anthropology: Sociocultural Anthropology

- ANTH 330 - Social Anthropology *Units: 3*
- ANTH 331 - Folklore *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 333 - Women in Cross-Cultural Perspective *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ANTH 334 - Human Sexuality: Anthropological Perspectives *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 431 - Advanced Anthropological Theory *Units: 3*

Environmental Science: Graduate

- ENSC 633 - The Science of Soils *Units: 4*

Environmental Studies

- ENVT 101 - Environmental Challenges of the 21st Century *Units: 3 ; G.E./G.R. Area: D1-3; Sustainability*
- ENVT 225 - Fundamentals of GIS *Units: 3*
- ENVT 307 - Social Impact through Sustainable Solar Design *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 310 - Literature and Research Methods *Units: 4*
- ENVT 320 - Environmental Resource Analysis *Units: 4*
- ENVT 330 - Environment, Sustainability, and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Sustainability*

- ENVT 340 - Climate Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 380 - Applied Field Studies *Units: 3*
- ENVT 398 - Internship *Units: 1-3*
- ENVT 410 - Environmental Impact Analysis *Units: 3*
- ENVT 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*
- ENVT 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4;*

Sustainability

- ENVT 490 - Independent Study *Units: 1-3*
- ENVT 493 - Environmental Projects *Units: 3*
- ENVT 495 - Environmental Internship *Units: 1-3*

Geography

- GEOG 110 - Physical Geography: Earth Processes and Outcomes *Units: 3 ; G.E./G.R. Area: B1*
- GEOG 120 - Human Geography: Diversity and Globalization *Units: 3 ; G.E./G.R. Area: D1-3*
- GEOG 125 - World Regions and Development *Units: 3 ; G.E./G.R. Area: D1-3*
- GEOG 200 - Sustainable Resource Management *Units: 3 ; G.E./G.R. Area: D1-3*
- GEOG 225 - Fundamentals of GIS *Units: 3*
- GEOG 310 - Literature and Research Methods *Units: 4*
- GEOG 320 - Environmental Resource Analysis *Units: 4*
- GEOG 330 - Historical Geography of North America *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 336 - Asian Americans: Multiculturalism and Spatial Disparity *Units: 3 ; G.E./G.R. Area:*

D4

- GEOG 340 - Climate Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- GEOG 350 - California *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 351 - United States and Canada *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 352 - Latin America and the Caribbean *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 353 - Africa *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 354 - China: Economic Development and Social Transformation *Units: 3 ; G.E./G.R.*

Area: D4

- GEOG 355 - Asia Pacific *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 356 - Europe *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 360 - Computer Cartography *Units: 3*
- GEOG 380 - Applied Field Studies *Units: 3*
- GEOG 397 - Issues in Anthropology, Geography and Environmental Studies *Units: 3*
- GEOG 398 - Internship *Units: 1-3*
- GEOG 425 - Advanced GIS *Units: 3*
- GEOG 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*
- GEOG 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- GEOG 450 - Earth Surface Processes and Landforms *Units: 3 ; G.E./G.R. Area: B6*
- GEOG 455 - Sustainable Food Systems *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- GEOG 461 - Remote Sensing of the Environment *Units: 3*
- GEOG 462 - Air Photo Interpretation *Units: 3*
- GEOG 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4;*

Sustainability

- GEOG 490 - Independent Study *Units: 1-3*
- GEOG 497 - Issues in Geography *Units: 3*
- GEOG 499 - Senior Seminar in Geography *Units: 3*

Geography Minor

Minor Requirements (21-23 units)

Required Courses

Take the following 9 units:

- **GEOG 110 - Physical Geography: Earth Processes and Outcomes** *Units: 3 ; G.E./G.R. Area: B1*
- **GEOG 120 - Human Geography: Diversity and Globalization** *Units: 3 ; G.E./G.R. Area: D1-3*
- **GEOG 125 - World Regions and Development** *Units: 3 ; G.E./G.R. Area: D1-3*

Elective Courses

Choose two (2) courses for 6 units from the following:

- **GEOG 350 - California** *Units: 3 ; G.E./G.R. Area: D4*
- **GEOG 351 - United States and Canada** *Units: 3 ; G.E./G.R. Area: D4*
- **GEOG 352 - Latin America and the Caribbean** *Units: 3 ; G.E./G.R. Area: D4*
- **GEOG 353 - Africa** *Units: 3 ; G.E./G.R. Area: D4*
- **GEOG 354 - China: Economic Development and Social Transformation** *Units: 3 ; G.E./G.R. Area: D4*
- **GEOG 355 - Asia Pacific** *Units: 3 ; G.E./G.R. Area: D4*
- **GEOG 356 - Europe** *Units: 3 ; G.E./G.R. Area: D4*

Choose a minimum of two (2) courses for 6-8 units from the following:

- **GEOG 330 - Historical Geography of North America** *Units: 3 ; G.E./G.R. Area: D4*
- **GEOG 336 - Asian Americans: Multiculturalism and Spatial Disparity** *Units: 3 ; G.E./G.R. Area: D4*
- **GEOG 340 - Climate Change** *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- **GEOG 445 - Water and Watershed Resources** *Units: 4 ; G.E./G.R. Area: B6*
- **GEOG 447 - Energy, Climate and Society** *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- **GEOG 450 - Earth Surface Processes and Landforms** *Units: 3 ; G.E./G.R. Area: B6*
- **GEOG 455 - Sustainable Food Systems** *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- **GEOG 465 - Sustainable Communities and Development** *Units: 4 ; G.E./G.R. Area: D4; Sustainability*

- GEOG 336 - Asian Americans: Multiculturalism and Spatial Disparity *Units: 3 ; G.E./G.R. Area: D4*

D4

- GEOG 340 - Climate Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*

- GEOG 350 - California *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 351 - United States and Canada *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 352 - Latin America and the Caribbean *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 353 - Africa *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 354 - China: Economic Development and Social Transformation *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 355 - Asia Pacific *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 356 - Europe *Units: 3 ; G.E./G.R. Area: D4*

- GEOG 360 - Computer Cartography *Units: 3*

- GEOG 380 - Applied Field Studies *Units: 3*

- GEOG 397 - Issues in Anthropology, Geography and Environmental Studies *Units: 3*

- GEOG 398 - Internship *Units: 1-3*

- GEOG 425 - Advanced GIS *Units: 3*

- GEOG 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*

- GEOG 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*

- GEOG 450 - Earth Surface Processes and Landforms *Units: 3 ; G.E./G.R. Area: B6*

- GEOG 455 - Sustainable Food Systems *Units: 4 ; G.E./G.R. Area: D4; Sustainability*

- GEOG 461 - Remote Sensing of the Environment *Units: 3*

- GEOG 462 - Air Photo Interpretation *Units: 3*

- GEOG 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- GEOG 490 - Independent Study *Units: 1-3*
- GEOG 497 - Issues in Geography *Units: 3*
- GEOG 499 - Senior Seminar in Geography *Units: 3*

Certificate

Cartography and GIS Certificate

The Cartography and GIS Certificate Program consists of 15 units. It is designed to prepare students in methods of data collection, interpretation, and analysis as well as the design, compilation, production, and reproduction of physical and digital maps, thus enabling students to be current in the field of cartography, global positioning and remote sensing, and geographical information systems.

Certificate Requirements (15 units)

Take all of the following:

- GEOG 225 - Fundamentals of GIS *Units: 3*
- GEOG 360 - Computer Cartography *Units: 3*
- GEOG 425 - Advanced GIS *Units: 3*
- GEOG 461 - Remote Sensing of the Environment *Units: 3*
- GEOG 462 - Air Photo Interpretation *Units: 3*

Sustainability Certificate

Program Description

The Certificate in Sustainability provides basic preparation for entry level, public or private sector employment as a sustainability or environmental services professional. Complimentary undergraduate degrees include environmental studies, environmental science, geography, engineering, urban planning, public administration, and political science.

Admission Requirements

Completion of CHEM 100, STAT 100, ENVT 101 or equivalent.

Required Coursework (22-23 units)

Take the following 19 units:

- ENVT 320 - Environmental Resource Analysis *Units: 4*
- ENVT 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*
- ENVT 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4; Sustainability*
- ENVT 493 - Environmental Projects *Units: 3*

Take one (1) of the following courses for 3-4 units:

- ENVT 330 - Environment, Sustainability, and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Sustainability*
- GEOG 455 - Sustainable Food Systems *Units: 4 ; G.E./G.R. Area: D4; Sustainability*

Courses

Anthropology

- ANTH 100 - Introduction to Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 110 - Introduction to Biological Anthropology *Units: 3 ; G.E./G.R. Area: B2*
- ANTH 120 - Introduction to Archaeology *Units: 3 ; G.E./G.R. Area: B1*
- ANTH 130 - Introduction to Cultural Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 140 - Introduction to Linguistic Anthropology *Units: 3 ; G.E./G.R. Area: D1-3*
- ANTH 300 - Anthropology of Global Change *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 490 - Independent Study *Units: 1-4*
- ANTH 497 - Issues in Anthropology *Units: 3*

Anthropology: Applied Anthropology

- ANTH 370 - Anthropology in Action *Units: 3*
- ANTH 371 - Business Anthropology *Units: 3 ; G.E./G.R. Area: D4*

- ANTH 372 - Medical Anthropology *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ANTH 377 - Museum Studies Anthropology *Units: 3*
- ANTH 398 - Internship *Units: 1-3*

Anthropology: Archaeology

- ANTH 320 - Archaeological Science *Units: 3*
- ANTH 321 - Archaeology of the Americas *Units: 3 ; G.E./G.R. Area: D4*

Anthropology: Area Studies

- ANTH 350 - Indians of California *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 354 - China *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 355 - Japan *Units: 3*

Anthropology: Biological Anthropology

- ANTH 310 - Evolutionary Biology of Humans *Units: 3 ; G.E./G.R. Area: B6*
- ANTH 311 - Human Fossil Record *Units: 3 ; G.E./G.R. Area: B6*
- ANTH 312 - Primate Behavioral Ecology *Units: 3 ; G.E./G.R. Area: D4*

Anthropology: Methods

- ANTH 410 - Bioarchaeology Laboratory *Units: 3*
- ANTH 411 - Human Forensic Osteology *Units: 3*
- ANTH 420 - Archaeology Laboratory *Units: 3*
- ANTH 421 - Field Archaeology *Units: 3*
- ANTH 430 - Field Course in Ethnography *Units: 3*

Anthropology: Linguistic Anthropology

- ANTH 340 - Language and Culture *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 341 - Linguistic Diversity and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ANTH 342 - Language and Sexuality *Units: 3 ; G.E./G.R. Area: D4; Diversity*

Anthropology: Sociocultural Anthropology

- ANTH 330 - Social Anthropology *Units: 3*
- ANTH 331 - Folklore *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 333 - Women in Cross-Cultural Perspective *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ANTH 334 - Human Sexuality: Anthropological Perspectives *Units: 3 ; G.E./G.R. Area: D4*
- ANTH 431 - Advanced Anthropological Theory *Units: 3*

Environmental Science: Graduate

- ENSC 633 - The Science of Soils *Units: 4*

Environmental Studies

- ENVT 101 - Environmental Challenges of the 21st Century *Units: 3 ; G.E./G.R. Area: D1-3; Sustainability*
- ENVT 225 - Fundamentals of GIS *Units: 3*
- ENVT 307 - Social Impact through Sustainable Solar Design *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 310 - Literature and Research Methods *Units: 4*
- ENVT 320 - Environmental Resource Analysis *Units: 4*
- ENVT 330 - Environment, Sustainability, and Social Justice *Units: 3 ; G.E./G.R. Area: D4; Sustainability*
- ENVT 340 - Climate Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 380 - Applied Field Studies *Units: 3*
- ENVT 398 - Internship *Units: 1-3*

- ENVT 410 - Environmental Impact Analysis *Units: 3*
- ENVT 445 - Water and Watershed Resources *Units: 4 ; G.E./G.R. Area: B6*
- ENVT 447 - Energy, Climate and Society *Units: 4 ; G.E./G.R. Area: B6; Sustainability*
- ENVT 465 - Sustainable Communities and Development *Units: 4 ; G.E./G.R. Area: D4;*

Sustainability

- ENVT 490 - Independent Study *Units: 1-3*
- ENVT 493 - Environmental Projects *Units: 3*
- ENVT 495 - Environmental Internship *Units: 1-3*

Geography

- GEOG 110 - Physical Geography: Earth Processes and Outcomes *Units: 3 ; G.E./G.R. Area: B1*
- GEOG 120 - Human Geography: Diversity and Globalization *Units: 3 ; G.E./G.R. Area: D1-3*
- GEOG 125 - World Regions and Development *Units: 3 ; G.E./G.R. Area: D1-3*
- GEOG 200 - Sustainable Resource Management *Units: 3 ; G.E./G.R. Area: D1-3*
- GEOG 225 - Fundamentals of GIS *Units: 3*
- GEOG 310 - Literature and Research Methods *Units: 4*
- GEOG 320 - Environmental Resource Analysis *Units: 4*
- GEOG 330 - Historical Geography of North America *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 336 - Asian Americans: Multiculturalism and Spatial Disparity *Units: 3 ; G.E./G.R. Area:*

D4

Department of Art

The Department Office is located in the Arts & Education building, Room 1233.

Open 8:00 a.m. - 5:00 p.m., Monday - Thursday, closed Fridays.

Faculty

Professor Emerita

Grace Munakata, M.F.A. University of California, Davis

Professors

Michael Henninger, M.F.A. California College of Arts and Crafts

Scott H. Hopkins, M.F.A. University of Arizona

Gwyn Rhabyt (Chair), M.F.A. California College of Arts and Crafts

Suzy Wear, M.A. California State University, Hayward

Associate Professor

Janet Green, M.A. California State University, East Bay

Assistant Professors

Michael Hall, M.F.A Mills College

Ian Pollock, M.F.A. University of California, Berkeley

Jessica Santone, Ph.D. McGill University (Canada)

Department Statement

Courses in the Department of Art develop students' perceptual skills, their access to the imagination, and their ability to think critically and independently. Instruction in the use of art materials and specific art and design techniques and methods, enables students to create original works of art and design reflecting their evolving vision. Our program also fosters a broad cultural awareness of visual arts and design practices in society. Graduating majors should be able to clearly express their ideas about creating art and design. In addition, their grasp of historical and contemporary aesthetic issues should inform their own work. We offer excellent facilities, small classes taught by a distinguished faculty, space to work, and field trips to museums, galleries, and artists' studios.

About the Department

Use our university website link to learn more about what the Art Department has to offer.

Bachelor

Art, B.A.: Art History and Visual Studies Concentration

Art, B.A. Program (120 units)

Program Description

The Art Department offers three programs of study in the Bachelor of Arts (B.A.) Degree. The Art History and Visual Studies concentration develops students' skills in research, visual analysis, and argumentation, leading to a range of careers in the arts or to graduate study. The concentration in Studio Arts and the concentration in Design provide broad survey art and design practices in preparation for continued professional development or creative and design careers.

The B.A. Degree Concentrations:

- Art History & Visual Studies
- Studio Arts
- Design

The program core plus concentrations require 51 units of study in the Department to complete the major. Students of Design or Studio Arts who wish to meet full professional expectations or attend Graduate School are encouraged to choose one of the concentrations in the Bachelor of Fine Arts (B.F.A.) program.

Career Opportunities

Graduates from our Bachelor of Art degree program go on to pursue careers as:

• Artist • Designer • Art Librarian • College Professor • Curator • Development Coordinator • Digital Asset and Rights Manager • Director of Cultural Affairs • Gallery Director • Gallery Sales Consultant • Museum Educator • Museum Visitor Services Specialist • Public Art Program Manager • Registrar or Collections Manager.

Program Learning Outcomes

Students graduating with a Bachelor of Arts degree in Art will be able to:

- Demonstrate proficiency in appropriate art-making skills and tools.
- Imagine, ideate and create using an open, confident, and flexible method through creative processes and design thinking.
- Critique and think critically about art works using appropriate concepts from art history and theory, in the context of culture, contemporary art, and in public and global spheres.
- Communicate clearly and persuasively through their work.
- Integrate arts-related skills in developing professional practices and planning for ethical, sustainable civic engagement.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 51 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 12 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Art, B.A. Major Requirements (51 units)

Art Core Coursework

The following 27 core units are required:

- ART 100 - Fundamentals of Drawing *Units: 3 ; G.E./G.R. Area: C1*
- ART 101 - Photography I *Units: 3 ; G.E./G.R. Area: C1*
- ART 102 - 2D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 103 - 3D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 104 - 4D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 220 - Monuments of Western Art I *Units: 3 ; G.E./G.R. Area: C1*
- ART 221 - Monuments of Western Art II *Units: 3 ; G.E./G.R. Area: C1*
- ART 326 - Contemporary Visual Studies I *Units: 3*

Plus

One (1) of the following Senior Project courses depending upon the student's concentration:

- ART 493G - Art History and Visual Studies Senior Project *Units: 3*
- ART 493H - Fine Art Practice Senior Project *Units: 3*
- ART 493I - Graphic Design Senior Project *Units: 3*

Art Concentrations

Students must choose at least one (1) of the following concentrations for 24 units:

- Art, B.A.: Art History and Visual Studies Concentration
- Art, B.A.: Design Concentration
- Art, B.A.: Studio Arts Concentration

Art History and Visual Studies Concentration

The concentration in Art History and Visual Studies trains students in the critical and historical study of art and other visual media. Students in this concentration learn how to approach art objects and images with respect to the socio-political and cultural conditions of their making and reception. This fosters sensitivity for diverse viewpoints and promotes critical awareness of the ethical and aesthetic dimensions of how we see the world. Coursework introduces comparative studies of world cultures, critical

investigations of old and new media technologies, and examination of the global impacts of contemporary visual cultures. Students are also encouraged to broaden the scope of their studies by locating cognate courses on visibility and visual practices outside the department. The concentration prepares graduates for a wide range of careers in the arts or for graduate work in art history, film and media studies, law, and education.

Art History and Visual Studies Core

The following courses for 18 units are required:

- ART 120 - Monuments of World Art *Units: 3 ; G.E./G.R. Area: C1*
- ART 320 - Comparative World Art I *Units: 3 ; G.E./G.R. Area: C4*
- ART 323 - Modern Media, Art, and Culture I *Units: 3*
- ART 420 - Comparative World Art II *Units: 3 ; G.E./G.R. Area: C4*
- ART 423 - Modern Media, Art and Culture II *Units: 3 ; G.E./G.R. Area: C4*
- ART 426 - Contemporary Visual Studies II *Units: 3 ; G.E./G.R. Area: C4*

Upper Division Electives

Take two (2) upper-division University courses for 6 units, with Advisor Approval.

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Art, B.A.: Design Concentration

Art, B.A. Program (120 units)

Program Description

The Art Department offers three programs of study in the Bachelor of Arts (B.A.) Degree. The Art History and Visual Studies concentration develops students' skills in research, visual analysis, and argumentation, leading to a range of careers in the arts or to graduate study. The concentration in Studio Arts and the concentration in Design provide broad survey art and design practices in preparation for continued professional development or creative and design careers.

The B.A. Degree Concentrations:

- Art History & Visual Studies
- Studio Arts
- Design

The program core plus concentrations require 51 units of study in the Department to complete the major. Students of Design or Studio Arts who wish to meet full professional expectations or attend Graduate School are encouraged to choose one of the concentrations in the Bachelor of Fine Arts (B.F.A.) program.

Career Opportunities

Graduates from our Bachelor of Art degree program go on to pursue careers as:

• Artist • Designer • Art Librarian • College Professor • Curator • Development Coordinator • Digital Asset and Rights Manager • Director of Cultural Affairs • Gallery Director • Gallery Sales Consultant • Museum Educator • Museum Visitor Services Specialist • Public Art Program Manager • Registrar or Collections Manager.

Program Learning Outcomes

Students graduating with a Bachelor of Arts degree in Art will be able to:

- Demonstrate proficiency in appropriate art-making skills and tools.
- Imagine, ideate and create using an open, confident, and flexible method through creative processes and design thinking.
- Critique and think critically about art works using appropriate concepts from art history and theory, in the context of culture, contemporary art, and in public and global spheres.
- Communicate clearly and persuasively through their work.
- Integrate arts-related skills in developing professional practices and planning for ethical, sustainable civic engagement.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 51 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 12 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Art, B.A. Major Requirements (51 units)

Art Core Coursework

The following 27 core units are required:

- ART 100 - Fundamentals of Drawing *Units: 3 ; G.E./G.R. Area: C1*
- ART 101 - Photography I *Units: 3 ; G.E./G.R. Area: C1*
- ART 102 - 2D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 103 - 3D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 104 - 4D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 220 - Monuments of Western Art I *Units: 3 ; G.E./G.R. Area: C1*
- ART 221 - Monuments of Western Art II *Units: 3 ; G.E./G.R. Area: C1*
- ART 326 - Contemporary Visual Studies I *Units: 3*

Plus

One (1) of the following Senior Project courses depending upon the student's concentration:

- ART 493G - Art History and Visual Studies Senior Project *Units: 3*
- ART 493H - Fine Art Practice Senior Project *Units: 3*
- ART 493I - Graphic Design Senior Project *Units: 3*

Art Concentrations

Students must choose at least one (1) of the following concentrations for 24 units:

- Art, B.A.: Art History and Visual Studies Concentration
- Art, B.A.: Design Concentration
- Art, B.A.: Studio Arts Concentration

Design Concentration

The Design Concentration introduces students to processes of design thinking, critical discussion and fundamentals of visual communication. Design projects balance learning of conceptual development with technique and design tools. Students address communication problems with concept-focused solutions that integrate images, text and graphics through hands-on and digital production skills.

Design Core

The following 21 units are required:

- ART 152 - Web Design I: Foundations *Units: 3*
- ART 226 - History of Graphic Design *Units: 3*
- ART 230 - Graphic Arts *Units: 3*

- ART 323 - Modern Media, Art, and Culture I *Units: 3*
- ART 330 - Typography I *Units: 3*
- ART 331 - Design Concepts and Narratives *Units: 3*
- ART 332 - Design for Production *Units: 3*

Restricted Image Electives

Choose one (1) course from the following:

- ART 270 - Drawing II *Units: 3*
- ART 272 - Painting II *Units: 3*
- ART 274 - Figure Drawing I *Units: 3*
- ART 348A - Studio Lighting and Product Photography *Units: 3*
- ART 349A - Portrait Photography *Units: 3*
- ART 361 - Color and Concept *Units: 3*
- ART 362 - Illustrating Dynamic Forms *Units: 3*
- ART 363 - Narrative Illustration *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Art, B.A.: Studio Arts Concentration

Art, B.A. Program (120 units)

Program Description

The Art Department offers three programs of study in the Bachelor of Arts (B.A.) Degree. The Art History and Visual Studies concentration develops students' skills in research, visual analysis, and argumentation, leading to a range of careers in the arts or to graduate study. The concentration in Studio Arts and the concentration in Design provide broad survey art and design practices in preparation for continued professional development or creative and design careers.

The B.A. Degree Concentrations:

- Art History & Visual Studies
- Studio Arts
- Design

The program core plus concentrations require 51 units of study in the Department to complete the major. Students of Design or Studio Arts who wish to meet full professional expectations or attend Graduate School are encouraged to choose one of the concentrations in the Bachelor of Fine Arts (B.F.A.) program.

Career Opportunities

Graduates from our Bachelor of Art degree program go on to pursue careers as:

• Artist • Designer • Art Librarian • College Professor • Curator • Development Coordinator • Digital Asset and Rights Manager • Director of Cultural Affairs • Gallery Director • Gallery Sales Consultant • Museum Educator • Museum Visitor Services Specialist • Public Art Program Manager • Registrar or Collections Manager.

Program Learning Outcomes

Students graduating with a Bachelor of Arts degree in Art will be able to:

- Demonstrate proficiency in appropriate art-making skills and tools.
- Imagine, ideate and create using an open, confident, and flexible method through creative processes and design thinking.
- Critique and think critically about art works using appropriate concepts from art history and theory, in the context of culture, contemporary art, and in public and global spheres.
- Communicate clearly and persuasively through their work.
- Integrate arts-related skills in developing professional practices and planning for ethical, sustainable civic engagement.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 51 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 12 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Art, B.A. Major Requirements (51 units)

Art Core Coursework

The following 27 core units are required:

- ART 100 - Fundamentals of Drawing *Units: 3 ; G.E./G.R. Area: C1*
- ART 101 - Photography I *Units: 3 ; G.E./G.R. Area: C1*
- ART 102 - 2D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 103 - 3D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 104 - 4D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 220 - Monuments of Western Art I *Units: 3 ; G.E./G.R. Area: C1*
- ART 221 - Monuments of Western Art II *Units: 3 ; G.E./G.R. Area: C1*
- ART 326 - Contemporary Visual Studies I *Units: 3*

Plus

One (1) of the following Senior Project courses depending upon the student's concentration:

- ART 493G - Art History and Visual Studies Senior Project *Units: 3*
- ART 493H - Fine Art Practice Senior Project *Units: 3*
- ART 493I - Graphic Design Senior Project *Units: 3*

Art Concentrations

Students must choose at least one (1) of the following concentrations for 24 units:

- Art, B.A.: Art History and Visual Studies Concentration
- Art, B.A.: Design Concentration
- Art, B.A.: Studio Arts Concentration

Studio Arts Concentration

The Studio Arts Concentration is offered for students who want to develop a rigorous foundation in fine art practice. With an emphasis on 2D, 3D and emergent art media, students will gain a working knowledge of drawing, painting, digital media and photography. Following 2-3 semesters of study, faculty advisors work with students to design a coherent course of study, with focus in at least one area. Through hands-on studio courses, as well as art historical research, students will conclude their studies with a solo art exhibit and demonstrate a critical understanding of historical and contemporary art practice. (Intermediate and upper division courses in hands-on media are available to students pursuing either the B.A. or the B.F.A. degrees.)

Studio Arts Core

The concentration core requires the completion of 9 units:

- ART 172 - Painting I *Units: 3 ; G.E./G.R. Area: C1*

Plus

Choose one (1) course from each group for 6 units:

- ART 111 - Sculpture I *Units: 3 ; G.E./G.R. Area: C1 or*
- ART 115 - Ceramics I *Units: 3 ; G.E./G.R. Area: C1*
- ART 270 - Drawing II *Units: 3 or*
- ART 274 - Figure Drawing I *Units: 3*

Lower Division Electives

Take two (2) courses from the following for 6 units:

- ART 211 - Sculpture II *Units: 3 ; G.E./G.R. Area: C1*
- ART 215 - Ceramics II *Units: 3 ; G.E./G.R. Area: C1*
- ART 270 - Drawing II *Units: 3*
- ART 272 - Painting II *Units: 3*
- ART 274 - Figure Drawing I *Units: 3*
- ART 278 - Bookmaking I *Units: 3 ; G.E./G.R. Area: C1*
- ART 279 - Printmaking I *Units: 3 ; G.E./G.R. Area: C1*

Upper Division Electives

Only with faculty advisement, select three (3) courses for 9 units to create a coherent course of study. At least two (2) courses must be in one media area: *Note: repeatable-unit courses may count towards the 9 units.*

- ART 311 - Sculpture III *Units: 3*
- ART 315 - Ceramics III *Units: 3*
- ART 370 - Drawing III *Units: 3*
- ART 378 - Bookmaking II *Units: 3*
- ART 379 - Printmaking II *Units: 3*
- ART 472 - Painting III *Units: 3*
- ART 474 - Figure Drawing II *Units: 3*
- ART 496 - Special Topics *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Art, B.F.A.: 3D Art & Design Concentration

Art, B.F.A Program (127 units)

Program Description

The Art Department emphasizes study in our Bachelor of Fine Arts (B.F.A.) Program. This is a professional degree that offers students the opportunity to develop greater expertise through comprehensive and intensive study in a specific area of art or design - a program that leads to successful careers in the visual art and design industries. Students who intend to pursue graduate studies or advanced skills for a professional career typically choose the B.F.A degree.

The B.F.A. professional concentrations require 70 units of study in the Department to complete the major. There is no application procedure to enter the Bachelor of Fine Arts program beyond declaring as a B.F.A. student with a specific concentration. The concentrations are listed below under major requirements.

Career Opportunities

Graduates from the Bachelor of Fine Arts degree program go on to pursue careers as:

• User Experience (UX) Designer • Interaction Designer • Game Designer • Web Designer • User Interface (UI) Designer • User Experience (UX) Researcher • Level Designer • Product Designer • Creative Director • Information Designer/Information Architect • Fine Artist • Product Designer • Architectural Model Maker • 3D Modeler for Film • Craft Artist • Secondary School Teacher • Computer Aided Designer (CAD) • Book Illustrator • Character Designer • Educational Illustrator • Matte Painter (Film and Game Industry) • Animator • Editorial Illustrator • Storyboard Artist • Advertising Illustrator • 3D Modeler • 3D Character Rigger • Digital Painter • Forensic Animator • Stop Motion Animator • Film / Video Editor • Video Production Crew • Motion Graphics Designer • 3D Character Animator • Effects Animator • Compositing Artist • Photo Journalist • Studio / Portrait Photographer • Stock Photographer • Fine Art Photographer • Event Photographer • Fashion Photographer • Commercial / Industrial Photographer • Graphic Designer • Multimedia / Content Developer • Publication Designer • Visual / Branding Designer • Creative Studio Manager • Studio Artist • Muralist • Set Painter/Designer • Production Assistant/Manager • Printmaker • Gallery Assistant • Arts Administrator • Assistant Conservator • Museum & Gallery Preparator • Sculptor • Ceramicist • Production Potter • Art Teacher/Instructor • Game Developer • Creative Technologist • Design Researcher • Wildcard Designer • Imagineer • Environment Designer • Portfolio Coordinator.

Program Learning Outcomes

Students who graduate with a Bachelor's of Fine Arts will be able to:

- Demonstrate mastery of appropriate art-making skills and tools.
- Imagine, ideate and create using an open, confident, and flexible method through creative processes and design thinking.
- Critique and think critically about art works using appropriate concepts from art history and theory, in the context of culture, contemporary art, and in public and global spheres.
- Communicate clearly and persuasively through their work.
- Integrate arts related skills in developing professional practices and planning for ethical, sustainable civic engagement.
- Formulate a plan to develop and maintain a professional creative practice.

Degree Requirements Unit-Outline

- A baccalaureate of fine arts degree requires a total of 127 units:
 - The major requirements consists of 70 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACCE advisors for information.

Art, B.F.A. Major Requirements (70 units)

Lower Division Foundation

18 units of lower-division required:

- ART 100 - Fundamentals of Drawing Units: 3 ; G.E./G.R. Area: C1
- ART 101 - Photography I Units: 3 ; G.E./G.R. Area: C1
- ART 102 - 2D Processes Units: 3 ; G.E./G.R. Area: C1
- ART 103 - 3D Processes Units: 3 ; G.E./G.R. Area: C1
- ART 104 - 4D Processes Units: 3 ; G.E./G.R. Area: C1
- ART 120 - Monuments of World Art Units: 3 ; G.E./G.R. Area: C1

Upper Division Foundation

The following 13 units of upper-division are required:

- ART 323 - Modern Media, Art, and Culture I Units: 3
- ART 326 - Contemporary Visual Studies I Units: 3
- ART 491 - BFA Critique Units: 1 * BFA Critique is taken 4 times. (See Errata chapter for changes to these requirements)
- ART 496 - Special Topics Units: 3

Plus:

One (1) upper-division Art History course for 3 units from the following:

- ART 420 - Comparative World Art II *Units: 3 ; G.E./G.R. Area: C4*
- ART 423 - Modern Media, Art and Culture II *Units: 3 ; G.E./G.R. Area: C4*
- ART 426 - Contemporary Visual Studies II *Units: 3 ; G.E./G.R. Area: C4*

Plus:

One (1) of the following Senior Project courses for 3 units as it matches the concentration:

- ART 493A - Illustration Senior Project *Units: 3*
- ART 493B - Interaction and Game Design Senior Project *Units: 3*
- ART 493C - Photography Senior Project *Units: 3*
- ART 493D - 3D Art & Design Senior Project *Units: 3*
- ART 493E - Transdisciplinary Senior Project *Units: 3*
- ART 493F - Video Animation Senior Project *Units: 3*
- ART 493H - Fine Art Practice Senior Project *Units: 3*
- ART 493I - Graphic Design Senior Project *Units: 3*

Concentrations

Students must choose at least one (1) of these concentrations for 33 units:

- Art, B.F.A.: 3D Art & Design Concentration
- Art, B.F.A.: Fine Arts Practice Concentration
- Art, B.F.A.: Graphic Design Concentration
- Art, B.F.A.: Illustration Concentration
- Art, B.F.A.: Interaction & Game Design Concentration
- Art, B.F.A.: Photography Concentration
- Art, B.F.A.: Transdisciplinary Arts Concentration
- Art, B.F.A.: Video & Animation Concentration

3D Art & Design Concentration

The 3D Art and Design concentration combines the fabrication skill sets of sculpture and industrial design with digital 3D modeling to enable students to create work at the growing overlap of design and fine arts. Increasingly sculptors need to use state of the art 3D printers and modeling software, and designers need to prototype their ideas in clay or welded steel. The emphasis is on carefully aligning form and concept through agile use of a variety of media and creating objects that speak clearly to their chosen audience, from the fine art gallery to the commercial production line.

3D Art and Design Core

The following core courses are required:

Beginning Courses

12 units required:

- ART 111 - Sculpture I *Units: 3 ; G.E./G.R. Area: C1*
- ART 115 - Ceramics I *Units: 3 ; G.E./G.R. Area: C1*
- ART 211 - Sculpture II *Units: 3 ; G.E./G.R. Area: C1*
- ART 246 - 3D Modeling and Animation I *Units: 3*

Intermediate Courses

9 units required:

- ART 310 - 3D Modeling and Fabrication *Units: 3 *Required to take twice for 6-units*
- ART 346 - 3D Modeling and Animation II *Units: 3*

Advanced Course

3 units required:

- ART 418 - Advanced 3D Practice *Units: 3*

Art and Design Electives

Beginning Group

Take one (1) of the following:

- ART 215 - Ceramics II *Units: 3 ; G.E./G.R. Area: C1*
- ART 356 - Interaction Design Studio II : Prototyping the Internet of Things
Units: 3

Drawing Group

Take one (1) of the following:

- ART 260 - Introduction to Illustration *Units: 3*
- ART 270 - Drawing II *Units: 3*

Intermediate Group

Take one (1) of the following:

- ART 311 - Sculpture III *Units: 3*
- ART 315 - Ceramics III *Units: 3*
- ART 357 - Interaction Design Studio III : Interactive Immersive
Experiences *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Courses

Art

- ART 440 - Forum *Units: 1*
- ART 490 - Independent Study *Units: 1-3*
- ART 491 - BFA Critique *Units: 1*
- ART 498 - Internship *Units: 1-6*

Art: History

- ART 120 - Monuments of World Art *Units: 3 ; G.E./G.R. Area: C1*
- ART 124 - History of Animation *Units: 3 ; G.E./G.R. Area: C1*
- ART 127 - History of Play, Games, and Interactivity *Units: 3 ; G.E./G.R. Area: C1*
- ART 220 - Monuments of Western Art I *Units: 3 ; G.E./G.R. Area: C1*
- ART 221 - Monuments of Western Art II *Units: 3 ; G.E./G.R. Area: C1*
- ART 225 - Art and Social Engagement *Units: 3 ; G.E./G.R. Area: C1; Social Justice*
- ART 226 - History of Graphic Design *Units: 3*
- ART 229 - Writing About Art and Design *Units: 3 ; G.E./G.R. Area: Writing II*
- ART 320 - Comparative World Art I *Units: 3 ; G.E./G.R. Area: C4*
- ART 323 - Modern Media, Art, and Culture I *Units: 3*
- ART 325 - Race and Representation in American Art *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- ART 326 - Contemporary Visual Studies I *Units: 3*
- ART 327 - Cinema Art Studies *Units: 3 ; G.E./G.R. Area: C4*
- ART 420 - Comparative World Art II *Units: 3 ; G.E./G.R. Area: C4*
- ART 423 - Modern Media, Art and Culture II *Units: 3 ; G.E./G.R. Area: C4*
- ART 426 - Contemporary Visual Studies II *Units: 3 ; G.E./G.R. Area: C4*
- ART 493G - Art History and Visual Studies Senior Project *Units: 3*

Art: Studio

- ART 100 - Fundamentals of Drawing *Units: 3 ; G.E./G.R. Area: C1*

- • ART 418 - Advanced 3D Practice *Units: 3*
- • ART 430 - Typography for Print and Interactive Publications *Units: 3*
- • ART 448 - Advanced 4D Projects *Units: 3*
- • ART 449 - Select Topics in Video Animation *Units: 3*
- • ART 452 - Web Design III: Design Evolution *Units: 3*
- • ART 455 - Game Development Team Project *Units: 3*
- • ART 457 - Interaction Design Studio IV : Speculative Interaction Research Lab *Units: 3*
- • ART 472 - Painting III *Units: 3*
- • ART 474 - Figure Drawing II *Units: 3*
- • ART 481 - Transdisciplinary Art and Design Seminar *Units: 3*
- • ART 485 - Transdisciplinary Art Laboratory *Units: 3*
- • ART 493A - Illustration Senior Project *Units: 3*
- • ART 493B - Interaction and Game Design Senior Project *Units: 3*
- • ART 493C - Photography Senior Project *Units: 3*

- ART 493D - 3D Art & Design Senior Project *Units: 3*
- ART 493E - Transdisciplinary Senior Project *Units: 3*
- ART 493F - Video Animation Senior Project *Units: 3*
- ART 493H - Fine Art Practice Senior Project *Units: 3*
- ART 493I - Graphic Design Senior Project *Units: 3*
- ART 496 - Special Topics *Units: 3*

Art, B.F.A.: Fine Arts Practice Concentration

Art, B.F.A Program (127 units)

Program Description

The Art Department emphasizes study in our Bachelor of Fine Arts (B.F.A.) Program. This is a professional degree that offers students the opportunity to develop greater expertise through comprehensive and intensive study in a specific area of art or design - a program that leads to successful careers in the visual art and design industries. Students who intend to pursue graduate studies or advanced skills for a professional career typically choose the B.F.A degree.

The B.F.A. professional concentrations require 70 units of study in the Department to complete the major. There is no application procedure to enter the Bachelor of Fine Arts program beyond declaring as a B.F.A. student with a specific concentration. The concentrations are listed below under major requirements.

Career Opportunities

Graduates from the Bachelor of Fine Arts degree program go on to pursue careers as:

• User Experience (UX) Designer • Interaction Designer • Game Designer • Web Designer • User Interface (UI) Designer • User Experience (UX) Researcher • Level Designer • Product Designer • Creative Director • Information Designer/Information Architect • Fine Artist • Product Designer • Architectural Model Maker • 3D Modeler for Film • Craft Artist • Secondary School Teacher • Computer Aided Designer (CAD) • Book Illustrator • Character Designer • Educational Illustrator • Matte Painter (Film and Game Industry) • Animator • Editorial Illustrator • Storyboard Artist • Advertising Illustrator • 3D Modeler • 3D Character Rigger • Digital Painter • Forensic Animator • Stop Motion Animator • Film / Video Editor • Video Production Crew • Motion Graphics Designer • 3D Character Animator • Effects Animator • Compositing Artist • Photo Journalist • Studio / Portrait Photographer • Stock Photographer • Fine Art Photographer • Event Photographer • Fashion Photographer • Commercial / Industrial Photographer • Graphic Designer • Multimedia / Content Developer • Publication Designer • Visual / Branding Designer • Creative Studio Manager • Studio Artist • Muralist • Set Painter/Designer • Production Assistant/Manager • Printmaker • Gallery Assistant • Arts Administrator • Assistant Conservator • Museum & Gallery Preparator • Sculptor • Ceramicist • Production Potter • Art Teacher/Instructor • Game Developer • Creative Technologist • Design Researcher • Wildcard Designer • Imagineer • Environment Designer • Portfolio Coordinator.

Program Learning Outcomes

Students who graduate with a Bachelor's of Fine Arts will be able to:

- Demonstrate mastery of appropriate art-making skills and tools.
- Imagine, ideate and create using an open, confident, and flexible method through creative processes and design thinking.
- Critique and think critically about art works using appropriate concepts from art history and theory, in the context of culture, contemporary art, and in public and global spheres.
- Communicate clearly and persuasively through their work.
- Integrate arts related skills in developing professional practices and planning for ethical, sustainable civic engagement.
- Formulate a plan to develop and maintain a professional creative practice.

Degree Requirements Unit-Outline

- A baccalaureate of fine arts degree requires a total of 127 units:
 - The major requirements consists of 70 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Art, B.F.A. Major Requirements (70 units)

Lower Division Foundation

18 units of lower-division required:

- ART 100 - Fundamentals of Drawing *Units: 3 ; G.E./G.R. Area: C1*
- ART 101 - Photography I *Units: 3 ; G.E./G.R. Area: C1*
- ART 102 - 2D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 103 - 3D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 104 - 4D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 120 - Monuments of World Art *Units: 3 ; G.E./G.R. Area: C1*

Upper Division Foundation

The following 13 units of upper-division are required:

- ART 323 - Modern Media, Art, and Culture I *Units: 3*
- ART 326 - Contemporary Visual Studies I *Units: 3*
- ART 491 - BFA Critique *Units: 1 * BFA Critique is taken 4 times. (See Errata chapter for changes to these requirments)*
- ART 496 - Special Topics *Units: 3*

Plus:

One (1) upper-division Art History course for 3 units from the following:

- ART 420 - Comparative World Art II *Units: 3 ; G.E./G.R. Area: C4*
- ART 423 - Modern Media, Art and Culture II *Units: 3 ; G.E./G.R. Area: C4*

- ART 426 - Contemporary Visual Studies II *Units: 3 ; G.E./G.R. Area: C4*

Plus:

One (1) of the following Senior Project courses for 3 units as it matches the concentration:

- ART 493A - Illustration Senior Project *Units: 3*
- ART 493B - Interaction and Game Design Senior Project *Units: 3*
- ART 493C - Photography Senior Project *Units: 3*
- ART 493D - 3D Art & Design Senior Project *Units: 3*
- ART 493E - Transdisciplinary Senior Project *Units: 3*
- ART 493F - Video Animation Senior Project *Units: 3*
- ART 493H - Fine Art Practice Senior Project *Units: 3*
- ART 493I - Graphic Design Senior Project *Units: 3*

Concentrations

Students must choose at least one (1) of these concentrations for 33 units:

- Art, B.F.A.: 3D Art & Design Concentration
- Art, B.F.A.: Fine Arts Practice Concentration
- Art, B.F.A.: Graphic Design Concentration
- Art, B.F.A.: Illustration Concentration
- Art, B.F.A.: Interaction & Game Design Concentration
- Art, B.F.A.: Photography Concentration
- Art, B.F.A.: Transdisciplinary Arts Concentration
- Art, B.F.A.: Video & Animation Concentration

Fine Arts Practice Concentration

BFA in Fine Arts Practice

The Fine Arts Practice concentration is offered for students who wish to delve deeper into their art practice, develop their key concepts, and create a focused body of work to propel their career in the Arts to the next level. Through intensive hands-on studio courses, thought-provoking academics, and BFA critiques, faculty work with students to hone their skills, widen critical thinking, strengthen creative expression, and form a deeper understanding of their role as a cultural maker. Students can specialize in drawing, painting, printmaking, sculpture, ceramics, or hybrid approaches to artmaking which may incorporate multiple media and digital media. Bridging traditional and contemporary art practices, the program prepares students with skills to produce and sustain a culturally responsive practice that embraces the emerging issues and technologies that impact society and cultural production. This degree is chosen by students who intend to become professional working artists, work in art related fields, or apply for graduate work.

Fine Arts Practice Core

Both painting courses required for 6 units:

- ART 172 - Painting I *Units: 3 ; G.E./G.R. Area: C1*

- ART 272 - Painting II *Units: 3*

Choose one (1) from each group for 6 units:

- ART 111 - Sculpture I *Units: 3 ; G.E./G.R. Area: C1*
- or
- ART 115 - Ceramics I *Units: 3 ; G.E./G.R. Area: C1*
- ART 270 - Drawing II *Units: 3*
- or
- ART 274 - Figure Drawing I *Units: 3*

Restricted Electives - Faculty Advisement Only

Only with faculty advisement, select seven (7) classes for 21 units from the list below to create a coherent course of study.

Choose at least five (5) courses in a specific media area (drawing-painting-printmaking OR ceramics-sculpture), and at least five (5) must be upper division. Up to two (2) electives may be lower or upper division courses from another concentration; example: Video 1, Audio Production, Photo 2, etc.

Note: repeatable-unit courses may count towards the 21 units.

- ART 111 - Sculpture I *Units: 3 ; G.E./G.R. Area: C1 * if not previously taken*
- ART 115 - Ceramics I *Units: 3 ; G.E./G.R. Area: C1 * if not previously taken*
- ART 211 - Sculpture II *Units: 3 ; G.E./G.R. Area: C1*
- ART 215 - Ceramics II *Units: 3 ; G.E./G.R. Area: C1*
- ART 260 - Introduction to Illustration *Units: 3*
- ART 270 - Drawing II *Units: 3*
- ART 272 - Painting II *Units: 3*
- ART 274 - Figure Drawing I *Units: 3*
- ART 278 - Bookmaking I *Units: 3 ; G.E./G.R. Area: C1*
- ART 279 - Printmaking I *Units: 3 ; G.E./G.R. Area: C1*
- ART 311 - Sculpture III *Units: 3*
- ART 315 - Ceramics III *Units: 3*
- ART 361 - Color and Concept *Units: 3*
- ART 370 - Drawing III *Units: 3*
- ART 378 - Bookmaking II *Units: 3*
- ART 379 - Printmaking II *Units: 3*
- ART 472 - Painting III *Units: 3*
- ART 474 - Figure Drawing II *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Art, B.F.A.: Graphic Design Concentration

Art, B.F.A Program (127 units)

Program Description

The Art Department emphasizes study in our Bachelor of Fine Arts (B.F.A.) Program. This is a professional degree that offers students the opportunity to develop greater expertise through comprehensive and intensive study in a specific area of art or design - a program that leads to successful careers in the visual art and design industries. Students who intend to pursue graduate studies or advanced skills for a professional career typically choose the B.F.A degree.

The B.F.A. professional concentrations require 70 units of study in the Department to complete the major. There is no application procedure to enter the Bachelor of Fine Arts program beyond declaring as a B.F.A. student with a specific concentration. The concentrations are listed below under major requirements.

Career Opportunities

Graduates from the Bachelor of Fine Arts degree program go on to pursue careers as:

• User Experience (UX) Designer • Interaction Designer • Game Designer • Web Designer • User Interface (UI) Designer • User Experience (UX) Researcher • Level Designer • Product Designer • Creative Director • Information Designer/Information Architect • Fine Artist • Product Designer • Architectural Model Maker • 3D Modeler for Film • Craft Artist • Secondary School Teacher • Computer Aided Designer (CAD) • Book Illustrator • Character Designer • Educational Illustrator • Matte Painter

(Film and Game Industry) • Animator • Editorial Illustrator • Storyboard Artist • Advertising Illustrator • 3D Modeler • 3D Character Rigger • Digital Painter • Forensic Animator • Stop Motion Animator • Film / Video Editor • Video Production Crew • Motion Graphics Designer • 3D Character Animator • Effects Animator • Compositing Artist • Photo Journalist • Studio / Portrait Photographer • Stock Photographer • Fine Art Photographer • Event Photographer • Fashion Photographer • Commercial / Industrial Photographer • Graphic Designer • Multimedia / Content Developer • Publication Designer • Visual / Branding Designer • Creative Studio Manager • Studio Artist • Muralist • Set Painter/Designer • Production Assistant/Manager • Printmaker • Gallery Assistant • Arts Administrator • Assistant Conservator • Museum & Gallery Preparator • Sculptor • Ceramicist • Production Potter • Art Teacher/Instructor • Game Developer • Creative Technologist • Design Researcher • Wildcard Designer • Imagineer • Environment Designer • Portfolio Coordinator.

Program Learning Outcomes

Students who graduate with a Bachelor's of Fine Arts will be able to:

- Demonstrate mastery of appropriate art-making skills and tools.
- Imagine, ideate and create using an open, confident, and flexible method through creative processes and design thinking.
- Critique and think critically about art works using appropriate concepts from art history and theory, in the context of culture, contemporary art, and in public and global spheres.
- Communicate clearly and persuasively through their work.
- Integrate arts related skills in developing professional practices and planning for ethical, sustainable civic engagement.
- Formulate a plan to develop and maintain a professional creative practice.

Degree Requirements Unit-Outline

- A baccalaureate of fine arts degree requires a total of 127 units:
 - The major requirements consists of 70 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Art, B.F.A. Major Requirements (70 units)

Lower Division Foundation

18 units of lower-division required:

- ART 100 - Fundamentals of Drawing Units: 3 ; G.E./G.R. Area: C1
- ART 101 - Photography I Units: 3 ; G.E./G.R. Area: C1
- ART 102 - 2D Processes Units: 3 ; G.E./G.R. Area: C1
- ART 103 - 3D Processes Units: 3 ; G.E./G.R. Area: C1
- ART 104 - 4D Processes Units: 3 ; G.E./G.R. Area: C1
- ART 120 - Monuments of World Art Units: 3 ; G.E./G.R. Area: C1

Upper Division Foundation

The following 13 units of upper-division are required:

- ART 323 - Modern Media, Art, and Culture I *Units: 3*
- ART 326 - Contemporary Visual Studies I *Units: 3*
- ART 491 - BFA Critique *Units: 1 * BFA Critique is taken 4 times. (See Errata chapter for changes to these requirements)*
- ART 496 - Special Topics *Units: 3*

Plus:

One (1) upper-division Art History course for 3 units from the following:

- ART 420 - Comparative World Art II *Units: 3 ; G.E./G.R. Area: C4*
- ART 423 - Modern Media, Art and Culture II *Units: 3 ; G.E./G.R. Area: C4*
- ART 426 - Contemporary Visual Studies II *Units: 3 ; G.E./G.R. Area: C4*

Plus:

One (1) of the following Senior Project courses for 3 units as it matches the concentration:

- ART 493A - Illustration Senior Project *Units: 3*
- ART 493B - Interaction and Game Design Senior Project *Units: 3*
- ART 493C - Photography Senior Project *Units: 3*
- ART 493D - 3D Art & Design Senior Project *Units: 3*
- ART 493E - Transdisciplinary Senior Project *Units: 3*
- ART 493F - Video Animation Senior Project *Units: 3*
- ART 493H - Fine Art Practice Senior Project *Units: 3*
- ART 493I - Graphic Design Senior Project *Units: 3*

Concentrations

Students must choose at least one (1) of these concentrations for 33 units:

- Art, B.F.A.: 3D Art & Design Concentration
- Art, B.F.A.: Fine Arts Practice Concentration
- Art, B.F.A.: Graphic Design Concentration
- Art, B.F.A.: Illustration Concentration
- Art, B.F.A.: Interaction & Game Design Concentration
- Art, B.F.A.: Photography Concentration
- Art, B.F.A.: Transdisciplinary Arts Concentration
- Art, B.F.A.: Video & Animation Concentration

Graphic Design Concentration

In the Graphic Design concentration students build a professional body of knowledge and the skills required for career entry as a visual designer. Projects enable students to acquire refined visual skills in research, aesthetics awareness, humanistic sensibilities, design composition and organization of information. Multifaceted design briefs require individual and collaborative teamwork, greater sophistication of design thinking, and skill sets for working within a broad application of traditional and

new media formats. Students develop the ability to respond to more complex communication challenges with creative conceptual solutions and with enhanced technical expertise.

Graphic Design Core

The following 27 units are required:

- ART 152 - Web Design I: Foundations *Units: 3*
- ART 226 - History of Graphic Design *Units: 3*
- ART 230 - Graphic Arts *Units: 3*
- ART 330 - Typography I *Units: 3*
- ART 331 - Design Concepts and Narratives *Units: 3*
- ART 332 - Design for Production *Units: 3*
- ART 335 - Design Strategy and Collaborations *Units: 3*
- ART 336 - Information Design *Units: 3*
- ART 430 - Typography for Print and Interactive Publications *Units: 3*

Image Electives

Choose one (1) of the following for 3 units:

- ART 270 - Drawing II *Units: 3*
- ART 272 - Painting II *Units: 3*
- ART 274 - Figure Drawing I *Units: 3*
- ART 361 - Color and Concept *Units: 3*
- ART 362 - Illustrating Dynamic Forms *Units: 3*
- ART 363 - Narrative Illustration *Units: 3*
- ART 348A - Studio Lighting and Product Photography *Units: 3*
- ART 349A - Portrait Photography *Units: 3*

Advanced Graphic Design Electives

Choose one (1) of the following for 3 units:

- ART 245 - Motion Graphics I *Units: 3*
- ART 251 - Interaction and Experience Design Foundations *Units: 3*
- ART 255 - Game Design I *Units: 3 ; G.E./G.R. Area: C1*
- ART 259 - Interaction Design Studio I: Tools for Designers *Units: 3*
- ART 345 - Motion Graphics II *Units: 3*
- ART 351 - User Experience Theory and Design *Units: 3*
- ART 352 - Web Design II: Screen Interactions *Units: 3*
- ART 356 - Interaction Design Studio II : Prototyping the Internet of Things
Units: 3
- ART 378 - Bookmaking II *Units: 3*
- ART 379 - Printmaking II *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Art, B.F.A.: Illustration Concentration

Art, B.F.A Program (127 units)

Program Description

The Art Department emphasizes study in our Bachelor of Fine Arts (B.F.A.) Program. This is a professional degree that offers students the opportunity to develop greater expertise through comprehensive and intensive study in a specific area of art or design - a program that leads to successful careers in the visual art and design industries. Students who intend to pursue graduate studies or advanced skills for a professional career typically choose the B.F.A degree.

The B.F.A. professional concentrations require 70 units of study in the Department to complete the major. There is no application procedure to enter the Bachelor of Fine Arts program beyond declaring as a B.F.A. student with a specific concentration. The concentrations are listed below under major requirements.

Career Opportunities

Graduates from the Bachelor of Fine Arts degree program go on to pursue careers as:

• User Experience (UX) Designer • Interaction Designer • Game Designer • Web Designer • User Interface (UI) Designer • User Experience (UX) Researcher • Level Designer • Product Designer • Creative Director • Information Designer/Information Architect • Fine Artist • Product Designer •

Architectural Model Maker • 3D Modeler for Film • Craft Artist • Secondary School Teacher • Computer Aided Designer (CAD) • Book Illustrator • Character Designer • Educational Illustrator • Matte Painter (Film and Game Industry) • Animator • Editorial Illustrator • Storyboard Artist • Advertising Illustrator • 3D Modeler • 3D Character Rigger • Digital Painter • Forensic Animator • Stop Motion Animator • Film / Video Editor • Video Production Crew • Motion Graphics Designer • 3D Character Animator • Effects Animator • Compositing Artist • Photo Journalist • Studio / Portrait Photographer • Stock Photographer • Fine Art Photographer • Event Photographer • Fashion Photographer • Commercial / Industrial Photographer • Graphic Designer • Multimedia / Content Developer • Publication Designer • Visual / Branding Designer • Creative Studio Manager • Studio Artist • Muralist • Set Painter/Designer • Production Assistant/Manager • Printmaker • Gallery Assistant • Arts Administrator • Assistant Conservator • Museum & Gallery Preparator • Sculptor • Ceramicist • Production Potter • Art Teacher/Instructor • Game Developer • Creative Technologist • Design Researcher • Wildcard Designer • Imagineer • Environment Designer • Portfolio Coordinator.

Program Learning Outcomes

Students who graduate with a Bachelor's of Fine Arts will be able to:

- Demonstrate mastery of appropriate art-making skills and tools.
- Imagine, ideate and create using an open, confident, and flexible method through creative processes and design thinking.
- Critique and think critically about art works using appropriate concepts from art history and theory, in the context of culture, contemporary art, and in public and global spheres.
- Communicate clearly and persuasively through their work.
- Integrate arts related skills in developing professional practices and planning for ethical, sustainable civic engagement.
- Formulate a plan to develop and maintain a professional creative practice.

Degree Requirements Unit-Outline

- A baccalaureate of fine arts degree requires a total of 127 units:
 - The major requirements consists of 70 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Art, B.F.A. Major Requirements (70 units)

Lower Division Foundation

18 units of lower-division required:

- ART 100 - Fundamentals of Drawing Units: 3 ; G.E./G.R. Area: C1
- ART 101 - Photography I Units: 3 ; G.E./G.R. Area: C1
- ART 102 - 2D Processes Units: 3 ; G.E./G.R. Area: C1
- ART 103 - 3D Processes Units: 3 ; G.E./G.R. Area: C1

- ART 104 - 4D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 120 - Monuments of World Art *Units: 3 ; G.E./G.R. Area: C1*

Upper Division Foundation

The following 13 units of upper-division are required:

- ART 323 - Modern Media, Art, and Culture I *Units: 3*
- ART 326 - Contemporary Visual Studies I *Units: 3*
- ART 491 - BFA Critique *Units: 1 * BFA Critique is taken 4 times. (See Errata chapter for changes to these requirements)*
- ART 496 - Special Topics *Units: 3*

Plus:

One (1) upper-division Art History course for 3 units from the following:

- ART 420 - Comparative World Art II *Units: 3 ; G.E./G.R. Area: C4*
- ART 423 - Modern Media, Art and Culture II *Units: 3 ; G.E./G.R. Area: C4*
- ART 426 - Contemporary Visual Studies II *Units: 3 ; G.E./G.R. Area: C4*

Plus:

One (1) of the following Senior Project courses for 3 units as it matches the concentration:

- ART 493A - Illustration Senior Project *Units: 3*
- ART 493B - Interaction and Game Design Senior Project *Units: 3*
- ART 493C - Photography Senior Project *Units: 3*
- ART 493D - 3D Art & Design Senior Project *Units: 3*
- ART 493E - Transdisciplinary Senior Project *Units: 3*
- ART 493F - Video Animation Senior Project *Units: 3*
- ART 493H - Fine Art Practice Senior Project *Units: 3*
- ART 493I - Graphic Design Senior Project *Units: 3*

Concentrations

Students must choose at least one (1) of these concentrations for 33 units:

- Art, B.F.A.: 3D Art & Design Concentration
- Art, B.F.A.: Fine Arts Practice Concentration
- Art, B.F.A.: Graphic Design Concentration
- Art, B.F.A.: Illustration Concentration
- Art, B.F.A.: Interaction & Game Design Concentration
- Art, B.F.A.: Photography Concentration
- Art, B.F.A.: Transdisciplinary Arts Concentration
- Art, B.F.A.: Video & Animation Concentration

Illustration Concentration

The concentration in Illustration prepares students for careers focused in various areas of this professional field. Illustration occupies an artistic space between creativity and communication and is influenced by

society, culture and technology. Our program offers courses to enhance knowledge, skill, creative and professional development. Illustration has areas of specialty including publishing, games, film, concept art, graphic novels, cartoons, children's books, and editorial. Our program begins with practiced emphasis on core and pictorial work then goes on to familiarize the student in ideas and tools specific to the Illustration field, including career and portfolio preparation. The program covers traditional and digital tools to give students a foundation with which to branch out into their own creative endeavors.

Illustration Core

The following 30 units are required:

Beginning

12 units required:

- ART 172 - Painting I *Units: 3 ; G.E./G.R. Area: C1*
- ART 226 - History of Graphic Design *Units: 3*
- ART 260 - Introduction to Illustration *Units: 3*
- ART 274 - Figure Drawing I *Units: 3*

Advanced

15 units required:

- ART 361 - Color and Concept *Units: 3*
- ART 362 - Illustrating Dynamic Forms *Units: 3*
- ART 363 - Narrative Illustration *Units: 3*
- ART 364 - Advanced Illustration *Units: 3*
- ART 474 - Figure Drawing II *Units: 3*

Restricted Electives

Choose two (2) of the following for 6 units:

- ART 230 - Graphic Arts *Units: 3*
- ART 240 - Photography II *Units: 3*
- ART 244 - Animation I *Units: 3*
- ART 245 - Motion Graphics I *Units: 3*
- ART 270 - Drawing II *Units: 3*
- ART 272 - Painting II *Units: 3*
- ART 278 - Bookmaking I *Units: 3 ; G.E./G.R. Area: C1*
- ART 330 - Typography I *Units: 3*
- ART 332 - Design for Production *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Art, B.F.A.: Interaction & Game Design Concentration

Art, B.F.A Program (127 units)

Program Description

The Art Department emphasizes study in our Bachelor of Fine Arts (B.F.A.) Program. This is a professional degree that offers students the opportunity to develop greater expertise through comprehensive and intensive study in a specific area of art or design - a program that leads to successful careers in the visual art and design industries. Students who intend to pursue graduate studies or advanced skills for a professional career typically choose the B.F.A degree.

The B.F.A. professional concentrations require 70 units of study in the Department to complete the major. There is no application procedure to enter the Bachelor of Fine Arts program beyond declaring as a B.F.A. student with a specific concentration. The concentrations are listed below under major requirements.

Career Opportunities

Graduates from the Bachelor of Fine Arts degree program go on to pursue careers as:

• User Experience (UX) Designer • Interaction Designer • Game Designer • Web Designer • User Interface (UI) Designer • User Experience (UX) Researcher • Level Designer • Product Designer • Creative Director • Information Designer/Information Architect • Fine Artist • Product Designer • Architectural Model Maker • 3D Modeler for Film • Craft Artist • Secondary School Teacher • Computer Aided Designer (CAD) • Book Illustrator • Character Designer • Educational Illustrator • Matte Painter (Film and Game Industry) • Animator • Editorial Illustrator • Storyboard Artist • Advertising Illustrator • 3D Modeler • 3D Character Rigger • Digital Painter • Forensic Animator • Stop Motion Animator • Film / Video Editor • Video Production Crew • Motion Graphics Designer • 3D Character Animator • Effects Animator • Compositing Artist • Photo Journalist • Studio / Portrait Photographer • Stock Photographer •

Fine Art Photographer • Event Photographer • Fashion Photographer • Commercial / Industrial Photographer • Graphic Designer • Multimedia / Content Developer • Publication Designer • Visual / Branding Designer • Creative Studio Manager • Studio Artist • Muralist • Set Painter/Designer • Production Assistant/Manager • Printmaker • Gallery Assistant • Arts Administrator • Assistant Conservator • Museum & Gallery Preparator • Sculptor • Ceramicist • Production Potter • Art Teacher/Instructor • Game Developer • Creative Technologist • Design Researcher • Wildcard Designer • Imagineer • Environment Designer • Portfolio Coordinator.

Program Learning Outcomes

Students who graduate with a Bachelor's of Fine Arts will be able to:

- Demonstrate mastery of appropriate art-making skills and tools.
- Imagine, ideate and create using an open, confident, and flexible method through creative processes and design thinking.
- Critique and think critically about art works using appropriate concepts from art history and theory, in the context of culture, contemporary art, and in public and global spheres.
- Communicate clearly and persuasively through their work.
- Integrate arts related skills in developing professional practices and planning for ethical, sustainable civic engagement.
- Formulate a plan to develop and maintain a professional creative practice.

Degree Requirements Unit-Outline

- A baccalaureate of fine arts degree requires a total of 127 units:
 - The major requirements consists of 70 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Art, B.F.A. Major Requirements (70 units)

Lower Division Foundation

18 units of lower-division required:

- ART 100 - Fundamentals of Drawing Units: 3 ; G.E./G.R. Area: C1
- ART 101 - Photography I Units: 3 ; G.E./G.R. Area: C1
- ART 102 - 2D Processes Units: 3 ; G.E./G.R. Area: C1
- ART 103 - 3D Processes Units: 3 ; G.E./G.R. Area: C1
- ART 104 - 4D Processes Units: 3 ; G.E./G.R. Area: C1
- ART 120 - Monuments of World Art Units: 3 ; G.E./G.R. Area: C1

Upper Division Foundation

The following 13 units of upper-division are required:

- ART 323 - Modern Media, Art, and Culture I *Units: 3*
- ART 326 - Contemporary Visual Studies I *Units: 3*
- ART 491 - BFA Critique *Units: 1 * BFA Critique is taken 4 times. (See Errata chapter for changes to these requirements)*
- ART 496 - Special Topics *Units: 3*

Plus:

One (1) upper-division Art History course for 3 units from the following:

- ART 420 - Comparative World Art II *Units: 3 ; G.E./G.R. Area: C4*
- ART 423 - Modern Media, Art and Culture II *Units: 3 ; G.E./G.R. Area: C4*
- ART 426 - Contemporary Visual Studies II *Units: 3 ; G.E./G.R. Area: C4*

Plus:

One (1) of the following Senior Project courses for 3 units as it matches the concentration:

- ART 493A - Illustration Senior Project *Units: 3*
- ART 493B - Interaction and Game Design Senior Project *Units: 3*
- ART 493C - Photography Senior Project *Units: 3*
- ART 493D - 3D Art & Design Senior Project *Units: 3*
- ART 493E - Transdisciplinary Senior Project *Units: 3*
- ART 493F - Video Animation Senior Project *Units: 3*
- ART 493H - Fine Art Practice Senior Project *Units: 3*
- ART 493I - Graphic Design Senior Project *Units: 3*

Concentrations

Students must choose at least one (1) of these concentrations for 33 units:

- Art, B.F.A.: 3D Art & Design Concentration
- Art, B.F.A.: Fine Arts Practice Concentration
- Art, B.F.A.: Graphic Design Concentration
- Art, B.F.A.: Illustration Concentration
- Art, B.F.A.: Interaction & Game Design Concentration
- Art, B.F.A.: Photography Concentration
- Art, B.F.A.: Transdisciplinary Arts Concentration
- Art, B.F.A.: Video & Animation Concentration

Interaction & Game Design Concentration

Interaction Design focuses on the creation of meaningful experiences expressed as interactive applications and objects. Game Design applies this to entertainment, both experimental and commercial. Students analyze interactivity in art, design, and everyday life, acquire skills and develop prototypes, and work in collaborative teams to produce successful games and creatively solve real world problems.

Interaction & Game Design Core

The following 27 units are required:

- ART 127 - History of Play, Games, and Interactivity *Units: 3 ; G.E./G.R. Area: C1*
- ART 152 - Web Design I: Foundations *Units: 3*
- ART 241 - 4D Project Development and Preproduction *Units: 3*
- ART 251 - Interaction and Experience Design Foundations *Units: 3*
- ART 255 - Game Design I *Units: 3 ; G.E./G.R. Area: C1*
- ART 259 - Interaction Design Studio I: Tools for Designers *Units: 3*
- ART 351 - User Experience Theory and Design *Units: 3*
- ART 352 - Web Design II: Screen Interactions *Units: 3*
- ART 356 - Interaction Design Studio II : Prototyping the Internet of Things
Units: 3

Restricted Electives

Choose two (2) of the following for 6 units:

- ART 242 - Audio Production for Video and Animation *Units: 3 ; G.E./G.R. Area: C1*
- ART 355 - Game Design II *Units: 3*
- ART 357 - Interaction Design Studio III : Interactive Immersive Experiences *Units: 3*
- ART 452 - Web Design III: Design Evolution *Units: 3*
- ART 455 - Game Development Team Project *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Art, B.F.A.: Photography Concentration

Art, B.F.A Program (127 units)

Program Description

The Art Department emphasizes study in our Bachelor of Fine Arts (B.F.A.) Program. This is a professional degree that offers students the opportunity to develop greater expertise through comprehensive and intensive study in a specific area of art or design - a program that leads to successful careers in the visual art and design industries. Students who intend to pursue graduate studies or advanced skills for a professional career typically choose the B.F.A degree.

The B.F.A. professional concentrations require 70 units of study in the Department to complete the major. There is no application procedure to enter the Bachelor of Fine Arts program beyond declaring as a B.F.A. student with a specific concentration. The concentrations are listed below under major requirements.

Career Opportunities

Graduates from the Bachelor of Fine Arts degree program go on to pursue careers as:

• User Experience (UX) Designer • Interaction Designer • Game Designer • Web Designer • User Interface (UI) Designer • User Experience (UX) Researcher • Level Designer • Product Designer • Creative Director • Information Designer/Information Architect • Fine Artist • Product Designer • Architectural Model Maker • 3D Modeler for Film • Craft Artist • Secondary School Teacher • Computer Aided Designer (CAD) • Book Illustrator • Character Designer • Educational Illustrator • Matte Painter (Film and Game Industry) • Animator • Editorial Illustrator • Storyboard Artist • Advertising Illustrator • 3D Modeler • 3D Character Rigger • Digital Painter • Forensic Animator • Stop Motion Animator • Film / Video Editor • Video Production Crew • Motion Graphics Designer • 3D Character Animator • Effects Animator • Compositing Artist • Photo Journalist • Studio / Portrait Photographer • Stock Photographer • Fine Art Photographer • Event Photographer • Fashion Photographer • Commercial / Industrial Photographer • Graphic Designer • Multimedia / Content Developer • Publication Designer • Visual / Branding Designer • Creative Studio Manager • Studio Artist • Muralist • Set Painter/Designer • Production Assistant/Manager • Printmaker • Gallery Assistant • Arts Administrator • Assistant Conservator • Museum & Gallery Preparator • Sculptor • Ceramicist • Production Potter • Art Teacher/Instructor • Game Developer • Creative Technologist • Design Researcher • Wildcard Designer • Imagineer • Environment Designer • Portfolio Coordinator.

Program Learning Outcomes

Students who graduate with a Bachelor's of Fine Arts will be able to:

- Demonstrate mastery of appropriate art-making skills and tools.
- Imagine, ideate and create using an open, confident, and flexible method through creative processes and design thinking.
- Critique and think critically about art works using appropriate concepts from art history and theory, in the context of culture, contemporary art, and in public and global spheres.

- Communicate clearly and persuasively through their work.
- Integrate arts related skills in developing professional practices and planning for ethical, sustainable civic engagement.
- Formulate a plan to develop and maintain a professional creative practice.

Degree Requirements Unit-Outline

- A baccalaureate of fine arts degree requires a total of 127 units:
 - The major requirements consists of 70 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Art, B.F.A. Major Requirements (70 units)

Lower Division Foundation

18 units of lower-division required:

- ART 100 - Fundamentals of Drawing *Units: 3 ; G.E./G.R. Area: C1*
- ART 101 - Photography I *Units: 3 ; G.E./G.R. Area: C1*
- ART 102 - 2D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 103 - 3D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 104 - 4D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 120 - Monuments of World Art *Units: 3 ; G.E./G.R. Area: C1*

Upper Division Foundation

The following 13 units of upper-division are required:

- ART 323 - Modern Media, Art, and Culture I *Units: 3*
- ART 326 - Contemporary Visual Studies I *Units: 3*
- ART 491 - BFA Critique *Units: 1 * BFA Critique is taken 4 times. (See Errata chapter for changes to these requirements)*
- ART 496 - Special Topics *Units: 3*

Plus:

One (1) upper-division Art History course for 3 units from the following:

- ART 420 - Comparative World Art II *Units: 3 ; G.E./G.R. Area: C4*
- ART 423 - Modern Media, Art and Culture II *Units: 3 ; G.E./G.R. Area: C4*
- ART 426 - Contemporary Visual Studies II *Units: 3 ; G.E./G.R. Area: C4*

Plus:

One (1) of the following Senior Project courses for 3 units as it matches the concentration:

- ART 493A - Illustration Senior Project *Units: 3*
- ART 493B - Interaction and Game Design Senior Project *Units: 3*
- ART 493C - Photography Senior Project *Units: 3*
- ART 493D - 3D Art & Design Senior Project *Units: 3*
- ART 493E - Transdisciplinary Senior Project *Units: 3*
- ART 493F - Video Animation Senior Project *Units: 3*
- ART 493H - Fine Art Practice Senior Project *Units: 3*
- ART 493I - Graphic Design Senior Project *Units: 3*

Concentrations

Students must choose at least one (1) of these concentrations for 33 units:

- Art, B.F.A.: 3D Art & Design Concentration
- Art, B.F.A.: Fine Arts Practice Concentration
- Art, B.F.A.: Graphic Design Concentration
- Art, B.F.A.: Illustration Concentration
- Art, B.F.A.: Interaction & Game Design Concentration
- Art, B.F.A.: Photography Concentration
- Art, B.F.A.: Transdisciplinary Arts Concentration
- Art, B.F.A.: Video & Animation Concentration

Photography Concentration

The concentration in Photography provides well-grounded studies in the aesthetic and practical areas of contemporary camera-generated imagery with an emphasis on digital technologies. Students take a wide range of classes, including fine art, studio lighting, and advanced digital imaging which culminate in a capstone class designed to prepare the students for a career in photography or to apply to graduate school. The program's goal is to provide students with the visual, technical, conceptual, and professional vocabulary they need to succeed in their field.

Photography Core

The following 24 units are required:

- ART 152 - Web Design I: Foundations *Units: 3*
- ART 240 - Photography II *Units: 3*
- ART 340A - Creative Photography I *Units: 3*
- ART 340B - Creative Photography II *Units: 3*
- ART 340C - Creative Photography III *Units: 3*
- ART 341 - Advanced Photography and Social Justice *Units: 3 ; G.E./G.R. Area: Social Justice*
- ART 348A - Studio Lighting and Product Photography *Units: 3*
- ART 349A - Portrait Photography *Units: 3*

Restricted Electives

Choose three (3) of the following for 9 units:

- ART 111 - Sculpture I *Units: 3 ; G.E./G.R. Area: C1*
- ART 115 - Ceramics I *Units: 3 ; G.E./G.R. Area: C1*
- ART 172 - Painting I *Units: 3 ; G.E./G.R. Area: C1*
- ART 241 - 4D Project Development and Preproduction *Units: 3*
- ART 242 - Audio Production for Video and Animation *Units: 3 ; G.E./G.R. Area: C1*
- ART 243 - Video I *Units: 3*
- ART 247 - Landscape Photography *Units: 3*
- ART 251 - Interaction and Experience Design Foundations *Units: 3*
- ART 270 - Drawing II *Units: 3*
- ART 274 - Figure Drawing I *Units: 3*
- ART 278 - Bookmaking I *Units: 3 ; G.E./G.R. Area: C1*
- ART 279 - Printmaking I *Units: 3 ; G.E./G.R. Area: C1*
- ART 340C - Creative Photography III *Units: 3*
- ART 348B - Advanced Studio Lighting and Product Photography *Units: 3*
- ART 349B - Advanced Portrait Photography *Units: 3*
- ART 496 - Special Topics *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Art, B.F.A.: Transdisciplinary Arts Concentration

Art, B.F.A Program (127 units)

Program Description

The Art Department emphasizes study in our Bachelor of Fine Arts (B.F.A.) Program. This is a professional degree that offers students the opportunity to develop greater expertise through comprehensive and intensive study in a specific area of art or design - a program that leads to successful careers in the visual art and design industries. Students who intend to pursue graduate studies or advanced skills for a professional career typically choose the B.F.A degree.

The B.F.A. professional concentrations require 70 units of study in the Department to complete the major. There is no application procedure to enter the Bachelor of Fine Arts program beyond declaring as a B.F.A. student with a specific concentration. The concentrations are listed below under major requirements.

Career Opportunities

Graduates from the Bachelor of Fine Arts degree program go on to pursue careers as:

• User Experience (UX) Designer • Interaction Designer • Game Designer • Web Designer • User Interface (UI) Designer • User Experience (UX) Researcher • Level Designer • Product Designer • Creative Director • Information Designer/Information Architect • Fine Artist • Product Designer • Architectural Model Maker • 3D Modeler for Film • Craft Artist • Secondary School Teacher • Computer Aided Designer (CAD) • Book Illustrator • Character Designer • Educational Illustrator • Matte Painter (Film and Game Industry) • Animator • Editorial Illustrator • Storyboard Artist • Advertising Illustrator • 3D Modeler • 3D Character Rigger • Digital Painter • Forensic Animator • Stop Motion Animator • Film / Video Editor • Video Production Crew • Motion Graphics Designer • 3D Character Animator • Effects Animator • Compositing Artist • Photo Journalist • Studio / Portrait Photographer • Stock Photographer • Fine Art Photographer • Event Photographer • Fashion Photographer • Commercial / Industrial Photographer • Graphic Designer • Multimedia / Content Developer • Publication Designer • Visual / Branding Designer • Creative Studio Manager • Studio Artist • Muralist • Set Painter/Designer • Production Assistant/Manager • Printmaker • Gallery Assistant • Arts Administrator • Assistant Conservator • Museum & Gallery Preparator • Sculptor • Ceramicist • Production Potter • Art Teacher/Instructor • Game Developer • Creative Technologist • Design Researcher • Wildcard Designer • Imagineer • Environment Designer • Portfolio Coordinator.

Program Learning Outcomes

Students who graduate with a Bachelor's of Fine Arts will be able to:

- Demonstrate mastery of appropriate art-making skills and tools.
- Imagine, ideate and create using an open, confident, and flexible method through creative processes and design thinking.
- Critique and think critically about art works using appropriate concepts from art history and theory, in the context of culture, contemporary art, and in public and global spheres.
- Communicate clearly and persuasively through their work.
- Integrate arts related skills in developing professional practices and planning for ethical, sustainable civic engagement.
- Formulate a plan to develop and maintain a professional creative practice.

Degree Requirements Unit-Outline

- A baccalaureate of fine arts degree requires a total of 127 units:
 - The major requirements consists of 70 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AAC&E advisors for information.

Art, B.F.A. Major Requirements (70 units)

Lower Division Foundation

18 units of lower-division required:

- ART 100 - Fundamentals of Drawing *Units: 3 ; G.E./G.R. Area: C1*
- ART 101 - Photography I *Units: 3 ; G.E./G.R. Area: C1*
- ART 102 - 2D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 103 - 3D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 104 - 4D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 120 - Monuments of World Art *Units: 3 ; G.E./G.R. Area: C1*

Upper Division Foundation

The following 13 units of upper-division are required:

- ART 323 - Modern Media, Art, and Culture I *Units: 3*
- ART 326 - Contemporary Visual Studies I *Units: 3*
- ART 491 - BFA Critique *Units: 1 * BFA Critique is taken 4 times. (See Errata chapter for changes to these requirements)*
- ART 496 - Special Topics *Units: 3*

Plus:

One (1) upper-division Art History course for 3 units from the following:

- ART 420 - Comparative World Art II *Units: 3 ; G.E./G.R. Area: C4*
- ART 423 - Modern Media, Art and Culture II *Units: 3 ; G.E./G.R. Area: C4*
- ART 426 - Contemporary Visual Studies II *Units: 3 ; G.E./G.R. Area: C4*

Plus:

One (1) of the following Senior Project courses for 3 units as it matches the concentration:

- ART 493A - Illustration Senior Project *Units: 3*
- ART 493B - Interaction and Game Design Senior Project *Units: 3*
- ART 493C - Photography Senior Project *Units: 3*
- ART 493D - 3D Art & Design Senior Project *Units: 3*
- ART 493E - Transdisciplinary Senior Project *Units: 3*
- ART 493F - Video Animation Senior Project *Units: 3*
- ART 493H - Fine Art Practice Senior Project *Units: 3*

- **ART 493I - Graphic Design Senior Project** *Units: 3*

Concentrations

Students must choose at least one (1) of these concentrations for 33 units:

- Art, B.F.A.: 3D Art & Design Concentration
- Art, B.F.A.: Fine Arts Practice Concentration
- Art, B.F.A.: Graphic Design Concentration
- Art, B.F.A.: Illustration Concentration
- Art, B.F.A.: Interaction & Game Design Concentration
- Art, B.F.A.: Photography Concentration
- Art, B.F.A.: Transdisciplinary Arts Concentration
- Art, B.F.A.: Video & Animation Concentration

Transdisciplinary Arts Concentration

The concentration in Transdisciplinary Arts prepares students to tackle complex real world problems that demand multiple ways of knowing. The program is designed with flexibility, to permit new pathways for learning between, across, and beyond traditional disciplines. Coursework is completed in two or more departments so that students acquire a breadth of skills with which to creatively answer future design challenges. Students are also trained in visual arts research and the integration of theory and practice. They practice strategies for successful collaboration that will prepare them for careers as Art Directors, Medical Illustrators, Information Designers, Game Developers, Imagineers, Medical Animators, Science and Technical Illustrators, Executive Communications and Marketing Specialists, Creative Technologist or continue their education to become Art Teachers and Professors or Art Therapists.

Transdisciplinary Arts Core

The following 33 units are required:

Beginning

The following 15 units are required:

- **ART 181 - Introduction to Transdisciplinary Art and Design** *Units: 3 ; G.E./G.R. Area: C1*
- or

- **ART 251 - Interaction and Experience Design Foundations** *Units: 3*
- Plus:

Two (2) lower-division electives from ART for 6 units.

Two (2) lower-division electives outside of ART for 6 units.

Advanced

The following 18 units are required:

- **ART 351 - User Experience Theory and Design** *Units: 3*
- **ART 426 - Contemporary Visual Studies II** *Units: 3 ; G.E./G.R. Area: C4*
- **ART 481 - Transdisciplinary Art and Design Seminar** *Units: 3*
- **ART 485 - Transdisciplinary Art Laboratory** *Units: 3 ; Or, one upper-division elective from ART for 3 units.*
- Two lower-division or upper-division electives from outside of ART for 6 units.

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Art, B.F.A.: Video & Animation Concentration

Art, B.F.A Program (127 units)

Program Description

The Art Department emphasizes study in our Bachelor of Fine Arts (B.F.A.) Program. This is a professional degree that offers students the opportunity to develop greater expertise through comprehensive and intensive study in a specific area of art or design - a program that leads to successful careers in the visual art and design industries. Students who intend to pursue graduate studies or advanced skills for a professional career typically choose the B.F.A degree.

The B.F.A. professional concentrations require 70 units of study in the Department to complete the major. There is no application procedure to enter the Bachelor of Fine Arts program beyond declaring as a B.F.A. student with a specific concentration. The concentrations are listed below under major requirements.

Career Opportunities

Graduates from the Bachelor of Fine Arts degree program go on to pursue careers as:

• User Experience (UX) Designer • Interaction Designer • Game Designer • Web Designer • User Interface (UI) Designer • User Experience (UX) Researcher • Level Designer • Product Designer • Creative Director • Information Designer/Information Architect • Fine Artist • Product Designer •

Architectural Model Maker • 3D Modeler for Film • Craft Artist • Secondary School Teacher • Computer Aided Designer (CAD) • Book Illustrator • Character Designer • Educational Illustrator • Matte Painter (Film and Game Industry) • Animator • Editorial Illustrator • Storyboard Artist • Advertising Illustrator • 3D Modeler • 3D Character Rigger • Digital Painter • Forensic Animator • Stop Motion Animator • Film / Video Editor • Video Production Crew • Motion Graphics Designer • 3D Character Animator • Effects Animator • Compositing Artist • Photo Journalist • Studio / Portrait Photographer • Stock Photographer • Fine Art Photographer • Event Photographer • Fashion Photographer • Commercial / Industrial Photographer • Graphic Designer • Multimedia / Content Developer • Publication Designer • Visual / Branding Designer • Creative Studio Manager • Studio Artist • Muralist • Set Painter/Designer • Production Assistant/Manager • Printmaker • Gallery Assistant • Arts Administrator • Assistant Conservator • Museum & Gallery Preparator • Sculptor • Ceramicist • Production Potter • Art Teacher/Instructor • Game Developer • Creative Technologist • Design Researcher • Wildcard Designer • Imagineer • Environment Designer • Portfolio Coordinator.

Program Learning Outcomes

Students who graduate with a Bachelor's of Fine Arts will be able to:

- Demonstrate mastery of appropriate art-making skills and tools.
- Imagine, ideate and create using an open, confident, and flexible method through creative processes and design thinking.
- Critique and think critically about art works using appropriate concepts from art history and theory, in the context of culture, contemporary art, and in public and global spheres.
- Communicate clearly and persuasively through their work.
- Integrate arts related skills in developing professional practices and planning for ethical, sustainable civic engagement.
- Formulate a plan to develop and maintain a professional creative practice.

Degree Requirements Unit-Outline

- A baccalaureate of fine arts degree requires a total of 127 units:
 - The major requirements consists of 70 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Art, B.F.A. Major Requirements (70 units)

Lower Division Foundation

18 units of lower-division required:

- ART 100 - Fundamentals of Drawing Units: 3 ; G.E./G.R. Area: C1
- ART 101 - Photography I Units: 3 ; G.E./G.R. Area: C1
- ART 102 - 2D Processes Units: 3 ; G.E./G.R. Area: C1
- ART 103 - 3D Processes Units: 3 ; G.E./G.R. Area: C1

- ART 104 - 4D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 120 - Monuments of World Art *Units: 3 ; G.E./G.R. Area: C1*

Upper Division Foundation

The following 13 units of upper-division are required:

- ART 323 - Modern Media, Art, and Culture I *Units: 3*
- ART 326 - Contemporary Visual Studies I *Units: 3*
- ART 491 - BFA Critique *Units: 1 * BFA Critique is taken 4 times. (See Errata chapter for changes to these requirements)*
- ART 496 - Special Topics *Units: 3*

Plus:

One (1) upper-division Art History course for 3 units from the following:

- ART 420 - Comparative World Art II *Units: 3 ; G.E./G.R. Area: C4*
- ART 423 - Modern Media, Art and Culture II *Units: 3 ; G.E./G.R. Area: C4*
- ART 426 - Contemporary Visual Studies II *Units: 3 ; G.E./G.R. Area: C4*

Plus:

One (1) of the following Senior Project courses for 3 units as it matches the concentration:

- ART 493A - Illustration Senior Project *Units: 3*
- ART 493B - Interaction and Game Design Senior Project *Units: 3*
- ART 493C - Photography Senior Project *Units: 3*
- ART 493D - 3D Art & Design Senior Project *Units: 3*
- ART 493E - Transdisciplinary Senior Project *Units: 3*
- ART 493F - Video Animation Senior Project *Units: 3*
- ART 493H - Fine Art Practice Senior Project *Units: 3*
- ART 493I - Graphic Design Senior Project *Units: 3*

Concentrations

Students must choose at least one (1) of these concentrations for 33 units:

- Art, B.F.A.: 3D Art & Design Concentration
- Art, B.F.A.: Fine Arts Practice Concentration
- Art, B.F.A.: Graphic Design Concentration
- Art, B.F.A.: Illustration Concentration
- Art, B.F.A.: Interaction & Game Design Concentration
- Art, B.F.A.: Photography Concentration
- Art, B.F.A.: Transdisciplinary Arts Concentration
- Art, B.F.A.: Video & Animation Concentration

Video & Animation Concentration

Based on a broad range of critical, conceptual, and production courses in the Video and Animation concentration, students create artworks that give expression to their ideas while engaging their audiences

whether it is on monitors, theater screens, hand-held devices, or installations. Students' interests and films range from traditional to experimental, fictional to factual, and simply entertaining to highly conceptual. Upon graduation, students are prepared for further study in a graduate program or for entry into the work force.

Video and Animation Core

The following 24 units are required:

- ART 241 - 4D Project Development and Preproduction *Units: 3*
- ART 242 - Audio Production for Video and Animation *Units: 3 ; G.E./G.R. Area: C1*
- ART 243 - Video I *Units: 3*
- ART 244 - Animation I *Units: 3*
- ART 245 - Motion Graphics I *Units: 3*
- ART 246 - 3D Modeling and Animation I *Units: 3*
- ART 327 - Cinema Art Studies *Units: 3 ; G.E./G.R. Area: C4*
- ART 448 - Advanced 4D Projects *Units: 3*

Restricted Electives

Choose three (3) courses from the following for 9 units:

- ART 343 - Video II *Units: 3*
- ART 344 - Animation II *Units: 3*
- ART 345 - Motion Graphics II *Units: 3*
- ART 346 - 3D Modeling and Animation II *Units: 3*
- ART 449 - Select Topics in Video Animation *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Minor

3D Animation Minor

Minor Requirements (24 units)

3D Animation Core

Take the following 21 units:

- ART 100 - Fundamentals of Drawing *Units: 3 ; G.E./G.R. Area: C1*
- ART 101 - Photography I *Units: 3 ; G.E./G.R. Area: C1*
- ART 241 - 4D Project Development and Preproduction *Units: 3*
- ART 244 - Animation I *Units: 3*
- ART 246 - 3D Modeling and Animation I *Units: 3*
- ART 327 - Cinema Art Studies *Units: 3 ; G.E./G.R. Area: C4*
- ART 346 - 3D Modeling and Animation II *Units: 3*

Upper Division Elective

Choose one (1) course for 3 units from the following:

- ART 310 - 3D Modeling and Fabrication *Units: 3*
- ART 361 - Color and Concept *Units: 3*
- ART 363 - Narrative Illustration *Units: 3*
- ART 364 - Advanced Illustration *Units: 3*
- ART 370 - Drawing III *Units: 3*
- ART 448 - Advanced 4D Projects *Units: 3*
- ART 474 - Figure Drawing II *Units: 3*

Art History and Visual Studies Minor

Minor Requirements (24 units)

Art History and Visual Studies Core

Take the following 12 units:

- ART 101 - Photography I *Units: 3 ; G.E./G.R. Area: C1*

- ART 120 - Monuments of World Art *Units: 3 ; G.E./G.R. Area: C1*
- ART 323 - Modern Media, Art, and Culture I *Units: 3*
- ART 326 - Contemporary Visual Studies I *Units: 3*

Advanced Art History and Visual Studies Elective

Choose one (1) course for 3 units from the following:

- ART 420 - Comparative World Art II *Units: 3 ; G.E./G.R. Area: C4*
- ART 423 - Modern Media, Art and Culture II *Units: 3 ; G.E./G.R. Area: C4*
- ART 426 - Contemporary Visual Studies II *Units: 3 ; G.E./G.R. Area: C4*

Upper Division Interdisciplinary Elective

In consultation with your Art History Advisor, choose one (1) upper-division course for a minimum of 3 units from an appropriate department.

Upper Division Art Electives

In consultation with your Art History Advisor, choose two (2) upper-division ART courses for a minimum of 6 units.

Art Studio Minor

Minor Requirements (21 units)

Drawing Core

Take the following fundamentals course for 3 units:

- ART 100 - Fundamentals of Drawing *Units: 3 ; G.E./G.R. Area: C1*

Three-Course Sequence Electives

Choose one (1) of the sequence of coursework (I, II, III) as outlined below for 9 units:

- ART 111 - Sculpture I *Units: 3 ; G.E./G.R. Area: C1*
- ART 211 - Sculpture II *Units: 3 ; G.E./G.R. Area: C1*
- ART 311 - Sculpture III *Units: 3*

- ART 115 - Ceramics I *Units: 3 ; G.E./G.R. Area: C1*
- ART 215 - Ceramics II *Units: 3 ; G.E./G.R. Area: C1*
- ART 315 - Ceramics III *Units: 3*

- ART 172 - Painting I *Units: 3 ; G.E./G.R. Area: C1*
- ART 272 - Painting II *Units: 3*
- ART 472 - Painting III *Units: 3*

Two-Course Sequence Electives

Choose one (1) group of coursework as outlined below for 6 units:

- ART 270 - Drawing II *Units: 3*
- ART 370 - Drawing III *Units: 3*

- ART 274 - Figure Drawing I *Units: 3*
- ART 474 - Figure Drawing II *Units: 3*

- ART 278 - Bookmaking I *Units: 3 ; G.E./G.R. Area: C1*
- ART 378 - Bookmaking II *Units: 3*

- ART 279 - Printmaking I *Units: 3 ; G.E./G.R. Area: C1*
- ART 379 - Printmaking II *Units: 3*

ART History Elective

Take one (1) upper-division Art History course for a minimum of 3 units.

Game Design Minor

Minor Requirements (24-27 units)

Game Design Lower Division Core

Take the following 9 units:

- ART 104 - 4D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 127 - History of Play, Games, and Interactivity *Units: 3 ; G.E./G.R. Area: C1*
- ART 255 - Game Design I *Units: 3 ; G.E./G.R. Area: C1*

Game Design Upper Division Core

Take the following 6 units:

- ART 323 - Modern Media, Art, and Culture I *Units: 3*
- ART 355 - Game Design II *Units: 3*

Game Design Coding Electives

Choose 3-6 units from the following:

- ART 259 - Interaction Design Studio I: Tools for Designers *Units: 3*
- CS 100 - Programming for Everyone *Units: 3*
- CS 101 - Computer Science I *Units: 4*
- CS 200 - Advanced Programming for Everyone *Units: 3*

Game Design Electives

Choose two (2) courses for 6 units from the following:

- ART 251 - Interaction and Experience Design Foundations *Units: 3*
- ART 351 - User Experience Theory and Design *Units: 3*

- ART 356 - Interaction Design Studio II : Prototyping the Internet of Things
Units: 3
- ART 455 - Game Development Team Project *Units: 3*

- ART 496 - Special Topics *Units: 3*

Photography Minor

Minor Requirements (21 units)

Photography Minor Core

Take the following 12 units:

- ART 101 - Photography I *Units: 3 ; G.E./G.R. Area: C1*
- ART 240 - Photography II *Units: 3*
- ART 247 - Landscape Photography *Units: 3*
- ART 323 - Modern Media, Art, and Culture I *Units: 3*

Photography Minor Electives

Take three (3) courses for 9 units from the following:

- ART 340A - Creative Photography I *Units: 3*
- ART 340B - Creative Photography II *Units: 3*
- ART 340C - Creative Photography III *Units: 3*
- ART 341 - Advanced Photography and Social Justice *Units: 3 ; G.E./G.R. Area: Social Justice*
- ART 348A - Studio Lighting and Product Photography *Units: 3*
- ART 348B - Advanced Studio Lighting and Product Photography *Units: 3*
- ART 349A - Portrait Photography *Units: 3*

- ART 349B - Advanced Portrait Photography *Units: 3*

Department of Biological Sciences

The Department Office is located on the 4th Floor of the North Science building, Room 429.

Open 8:00 a.m. - 6:00 p.m., Monday - Friday.

Dept. Phone: (510) 885-3471

Faculty

Professor Emeritus

Donald A. Gailey, Ph.D. University of California, Los Angeles

Professors

Christoph W. Baysdorfer, Ph.D. University of California, Berkeley

Michael S. Hedrick, Ph.D. University of British Columbia (Canada)

Caron Y. Inouye, Ph.D. University of California, Los Angeles

Christopher L. Kitting, Ph.D. Stanford University

Carol R. Lauzon, Ph.D. University of Vermont

Maria C. Nieto, Ph.D. University of California, Berkeley

Claudia Uhde-Stone, Ph.D. University of Bielefeld (Germany)

Associate Professors

Tyler Evans, Ph.D. University of Saskatchewan (Canada)

Maria E. Gallegos, Ph.D. University of Wisconsin, Madison

Kenneth Curr, Ph.D. Albert Einstein College of Medicine, New York

James Murray, Ph.D. University of Washington

Brian Perry (Chair), Ph.D. Harvard University

Erica L. Wildy, Ph.D. Oregon State University

Assistant Professors

Ana Maria Almeida, Ph.D. University of California, Berkeley

Pascale Guiton, Ph.D. Washington University in St. Louis

Nazzy Pakpour, Ph.D. University of Pennsylvania

Graduate Coordinator: Maria Gallegos

Mission Statement

The mission of the Department of Biological Sciences is to provide students with the most current biological information possible coupled with extensive laboratory and field experiences. An educated and trained biologist contributes to society and returns this knowledge to the community. A diversity of courses featuring laboratory and field work supports professional specialization in a broad spectrum of disciplines within the life sciences. The degree programs are designed for students with specific career objectives in laboratory, administrative, or field settings, and for students who may seek further graduate training or preparation for careers in health professions or teaching.

Bachelor

Biological Sciences, B.A.: Biology Education Concentration

Biological Science, B.A. Program (120 units)

Program Description

Biology is concerned with living matter in all its forms, responses, and interactions. It deals with the study of anything that has been or is alive: microbes, fungi, plants, "protists" and all animals, including humans. The science of biology includes a large number of highly integrated sub-disciplines such as microbiology, genetics, molecular biology, ecology, evolutionary biology, physiology, systematics, and behavior. Biologists must draw upon a wide variety of academic disciplines to make observations and form conclusions, and well-trained biologists have solid backgrounds in chemistry, mathematics, computer science, statistics, physics, and the humanities, as required by graduate programs and professional schools, to meet the demands of professions in the life sciences.

The Department of Biological Sciences offers a diversified curriculum in the life sciences. Courses are designed for biology majors with specific degree objectives, for students seeking applied technical training, and for non-major students with general interest in biological subjects. Undergraduate programs will prepare students for both graduate work and for a diversity of careers. Biology majors may enter specialized or general careers in life science and find themselves working in laboratories, offices, the field, administrative posts, academic institutions, industry, government agencies, private foundations, botanic gardens, wildlife preserves and zoos. Simply put, biologists study the living planet.

Program Learning Outcomes

Students graduating with a B.A. in Biological Science from Cal State East Bay will be able to:

1. Explain core biological concepts, including evolutionary processes, structure-function relationships across all levels of biological organization, homeostasis, information flow, matter and energy transformations, and the interactions and interconnectedness of living systems.
2. Apply quantitative reasoning to explain biological phenomena and to address biological problems.
3. Clearly communicate biological information in a variety of formats (written, oral, visual), particularly to an audience of learners at the K-12 levels.
4. Create and implement inquiry-based activities/lessons that allow learners to develop and apply their understanding of scientific concepts and the scientific method.
5. Construct scientific claims, arguments, and conclusions based on evidence drawn from published scientific information from reliable sources.

Career Opportunities

A degree in biological science can lead to many exciting career opportunities including: • Biotechnologist
• Health Professional such as Medical Doctor, Dentist, Ophthalmologist, Veterinarian, and Pharmacist •

Environmental Scientist • Biology Researcher • Environmental Toxicologist • Forensic Scientist • Clinical Lab Scientist • Biology Teacher/Science Educator • College Instructor • Marine Biologist • Physical Therapist • Food Scientist • Radiation Therapy Technologist • Dietician • Science Editor • Medical Illustrator • Horticulturalist • Emergency Medical Technician • Mortician • Medical Technologist • Drug Inspector.

Features

Classes are offered on the Hayward campus in well-equipped facilities, at the Moss Landing Marine Laboratories located in Monterey Bay (via participation in a CSU Consortium which allows degree credit for MLML course), and at field locations such as Garin Reserve adjacent to campus.

A concentration in Microbiology and Biomedical Laboratory Sciences is offered to qualify students for California hospital traineeships which lead to state licensing as medical technologists and clinical lab scientists.

Preparation

A student who has successfully completed an advanced placement course in biology in high school and has earned a score of "3," "4" or "5" on the Advanced Placement Examination will be granted the following course credit:

- Score of 3, credit for non-majors introductory biology and lab (BIOL 100 or BIOL 101+102).
- Score of 4, credit for BIOL 140B only.
- Score of 5, credit for BIOL 140A and BIOL 140B.

Note: students earning a score of "3" or better on the AP Biology Exam will earn no more than 6 semester units toward the degree and will have satisfied GE Areas B2 and B3.

Prerequisite courses for all Biology courses must be passed with a grade of "C-" or better. All requests for Grade Forgiveness are subject to space availability, with priority given to newly enrolled students.

Bachelor's Degree Requirements

The B.A. degree in Biological Science is offered with a single concentration in Biology Education.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 77-78 units;
 - General Education & Graduation Requirements consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Biological Science (B.A.) Major Requirements (77-78 units)

Lower Division Coursework

The following 38 units of interdisciplinary coursework is required:

- BIOL 140A - Principles of Cell and Molecular Biology Units: 5 ; G.E./G.R. Area: B2, B3
- BIOL 140B - Principles of Organismal Biology Units: 5
- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
- CHEM 112 - General Chemistry II Units: 5
- CHEM 230 - Survey of Organic Chemistry Units: 5
- GEOL 100 - Earth Systems Science Units: 4 ; G.E./G.R. Area: B1, B3; Sustainability
- MATH 115 - College Algebra Units: 3 ; G.E./G.R. Area: B4
- MATH 120 - Precalculus Units: 3 ; G.E./G.R. Area: B4
- PHYS 115 - Elementary Physics Units: 3 ; G.E./G.R. Area: B1, B3

Upper Division Coursework

20 units of upper-division BIOL coursework is required:

- BIOL 310 - Genetic Analysis I Units: 4
- BIOL 320 - Evolutionary Biology Units: 3
- BIOL 330 - General Microbiology Units: 5
- BIOL 350 - Ecology Units: 4
- BIOL 370 - Animal Physiology Units: 4

Elective Courses

Choose an additional 6 units of upper division BIOL (300 & 400-level courses) as electives. *Note: A maximum of 2 units of independent study can count toward the 6 units.*

Biology Education Concentration

Teacher Education and Statistics

The following 10 units of interdisciplinary upper-division coursework is required: *Note: PHIL 371 will satisfy GE Area C4.*

- PHIL 371 - Philosophy of Education Units: 3 ; G.E./G.R. Area: C4
- SCI 308 - Hands-On Science Teaching Units: 1
- STAT 303 - Statistical Methods in Biology Units: 3
- TED 301 - Introduction to Education Units: 3

Concentration Electives

Choose one (1) of the following for 3-4 units:

- BIOL 426 - Advanced Molecular and Cell Biology Units: 3
- BIOL 430 - Microbial Physiology and Metabolism Units: 3

- BIOL 469 - Conservation Biology *Units: 4*
- BIOL 488 - Environmental Physiology *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Courses

Biological Science

- • BIOL 100 - Biology in the Real World *Units: 4 ; G.E./G.R. Area: B2, B3*
- • BIOL 101 - Introduction to Biology *Units: 3 ; G.E./G.R. Area: B2*
- • BIOL 102 - Introduction to Biology Lab *Units: 1 ; G.E./G.R. Area: B3*
- • BIOL 140A - Principles of Cell and Molecular Biology *Units: 5 ; G.E./G.R. Area: B2, B3*
- • BIOL 140B - Principles of Organismal Biology *Units: 5*
- • BIOL 230 - Introduction to Clinical Microbiology *Units: 4 ; G.E./G.R. Area: B2, B3*
- • BIOL 270 - Human Anatomy & Physiology I *Units: 4 ; G.E./G.R. Area: B2, B3*
- • BIOL 271 - Human Anatomy & Physiology II *Units: 4*
- • BIOL 301 - Biology Connections *Units: 3*
- • BIOL 302 - Biology Connections Laboratory *Units: 1*
- • BIOL 310 - Genetic Analysis I *Units: 4*
- • BIOL 315 - Marine Biology *Units: 4*
- • BIOL 320 - Evolutionary Biology *Units: 3*
- • BIOL 330 - General Microbiology *Units: 5*
- • BIOL 333 - Humans and Sex *Units: 3 ; G.E./G.R. Area: B6; Diversity*
- • BIOL 334 - Humans and the Living Planet *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- • BIOL 335 - Humans: Health and Disease *Units: 3 ; G.E./G.R. Area: B6; Social Justice*
- • BIOL 350 - Ecology *Units: 4*
- • BIOL 352 - Biogeography *Units: 4*
- • BIOL 356 - Freshwater Environments *Units: 4*
- • BIOL 368 - Fungi of California *Units: 3*
- • BIOL 370 - Animal Physiology *Units: 4*
- • BIOL 372 - Microscopic Methods: Quantitative Analysis of Structure & Function *Units: 3*
- • BIOL 398 - Internship *Units: 1-4*
- • BIOL 410 - Genetic Analysis II *Units: 3*
- • BIOL 415 - PCR, Sequencing and Fragment Analysis *Units: 3*
- • BIOL 420 - Cell and Molecular Biology Undergraduate Seminar *Units: 2*
- • BIOL 424 - Bioinformatics *Units: 3*

- • BIOL 425 - Techniques in Mammalian Cell Culture *Units: 3*
- • BIOL 426 - Advanced Molecular and Cell Biology *Units: 3*
- • BIOL 427 - Molecular and Cell Biology Lab *Units: 3*
- • BIOL 428 - Genomics *Units: 3*
- • BIOL 430 - Microbial Physiology and Metabolism *Units: 3*
- • BIOL 431 - Medical Microbiology *Units: 5*
- • BIOL 432 - Microbe-Host Interactions *Units: 3*
- • BIOL 433 - Microbial Ecology *Units: 3*
- • BIOL 434 - Molecular Microbiology *Units: 3*
- • BIOL 440 - Molecular Virology *Units: 3*
- • BIOL 441 - Parasitology *Units: 3*
- • BIOL 442 - Epidemiology *Units: 3*
- • BIOL 443 - Hematology *Units: 4*
- • BIOL 444 - Medical Entomology *Units: 3*
- • BIOL 445 - Immunology *Units: 3*
- • BIOL 454 - Biology of Fungi *Units: 4*
- • BIOL 455 - Vertebrate Biology *Units: 4*
- • BIOL 458 - Animal Behavior *Units: 4*
- • BIOL 460 - Ecology and Evolutionary Biology Undergraduate Seminar *Units: 2*
- • BIOL 466 - Population Biology *Units: 4*
- • BIOL 468 - Molecular Ecology *Units: 4*
- • BIOL 469 - Conservation Biology *Units: 4*
- • BIOL 470 - Animal Senses *Units: 4*
- • BIOL 471 - Neurobiology *Units: 3*
- • BIOL 472 - Neurobiology Laboratory *Units: 4*
- • BIOL 473 - Comparative Physiology *Units: 3*
- • BIOL 474 - Biomedical Physiology *Units: 3*
- • BIOL 475 - Global Change Biology *Units: 4*
- • BIOL 476 - General Endocrinology *Units: 3*
- • BIOL 488 - Environmental Physiology *Units: 3*
- • BIOL 490 - Independent Study *Units: 1-4*
- • BIOL 497 - Issues in Biological Science *Units: 1-3*

Biological Science: Graduate

- • BIOL 601A - Foundations of Scientific Research *Units: 1*
- • BIOL 601B - Foundations of Scientific Communication *Units: 1*
- • BIOL 602 - Preparation for Undergraduate Instruction in Biology *Units: 3*
- • BIOL 610 - Seminar in Cell & Molecular Biology *Units: 2*
- • BIOL 616 - Cell and Molecular Biology I *Units: 3*
- • BIOL 618 - Cell and Molecular Biology II *Units: 3*
- • BIOL 620 - Functional Genomics *Units: 3*
- • BIOL 622 - Advanced Molecular Techniques *Units: 3*
- • BIOL 630 - Seminar in Microbiology *Units: 2*
- • BIOL 631 - Microbial Physiology and Biochemistry *Units: 3*
- • BIOL 650 - Seminar in Ecology and Evolution *Units: 2*
- • BIOL 652 - Advances in Ecology and Evolution *Units: 3*
- • BIOL 653 - Community and Ecosystem Biology *Units: 4*
- • BIOL 655 - Phylogenetic Methods *Units: 3*
- • BIOL 657 - Environmental Experimental Analysis *Units: 4*
- • BIOL 670 - Seminar in Physiology *Units: 2*
- • BIOL 671 - Advanced Topics in Physiology *Units: 3*

- • BIOL 672 - Microscopic Methods: Quantitative Analysis of Structure & Function *Units: 3*
- • BIOL 690 - Independent Study *Units: 1-4*
- • BIOL 691 - University Thesis *Units: 1-5*
- • BIOL 698 - Internship *Units: 1-4*

Marine Science

- • MSC 403 - Marine Ecology *Units: 4*
- • MSC 405 - Marine Science Diving *Units: 3*
- • MSC 412 - Marine Birds and Mammals *Units: 4*
- • MSC 413 - Marine Ichthyology *Units: 4*
- • MSC 424 - Marine Invertebrate Zoology I *Units: 4*
- • MSC 425 - Marine Invertebrate Zoology II *Units: 3*
- • MSC 431 - Marine Botany *Units: 4*
- • MSC 435 - Physiology of Marine Algae *Units: 4*
- • MSC 441 - Geological Oceanography *Units: 4*
- • MSC 442 - Physical Oceanography *Units: 4*
- • MSC 443 - Chemical Oceanography *Units: 4*
- • MSC 444 - Biological Oceanography *Units: 4*
- • MSC 490 - Independent Study *Units: 1-4*
- • MSC 497 - Topics in Marine Sciences *Units: 1*

Marine Science: Graduate

- • MSC 601 - Library Research Methods in Marine Science *Units: 1*
- • MSC 602 - Oceanographic Instrumentation *Units: 4*
- • MSC 604 - Sampling and Experimental Design *Units: 4*
- • MSC 606 - Molecular Biological Techniques *Units: 4*
- • MSC 608 - Scientific Methods *Units: 4*
- • MSC 611 - Ecology of Marine Turtles, Birds and Mammals *Units: 4*
- • MSC 612 - Advanced Topics in Marine Vertebrates *Units: 4*
- • MSC 621 - Advanced Topics in Marine Invertebrates *Units: 4*
- • MSC 631 - Biology of Seaweeds *Units: 4*
- • MSC 633 - Advanced Topics in Marine Ecology *Units: 4*
- • MSC 634 - Advanced Biological Oceanography *Units: 4*
- • MSC 642 - Plate Tectonics *Units: 3*
- • MSC 646 - Geology of the Monterey Bay Region *Units: 4*
- • MSC 648 - Marine Benthic Habitat Mapping Techniques *Units: 4*
- • MSC 651 - Marine Geochemistry *Units: 4*
- • MSC 661 - Mixing, Estuarine and Sediment Transport *Units: 4*
- • MSC 663 - Data Analysis Techniques in Marine Science *Units: 4*
- • MSC 671 - Population Biology *Units: 3*
- • MSC 672 - Subtidal Ecology *Units: 4*
- • MSC 674 - Advanced Topics in Oceanography *Units: 4*
- • MSC 680 - Scientific Writing *Units: 3*
- • MSC 681 - Coastal Dynamics *Units: 4*
- • MSC 689 - Research in Marine Science *Units: 2*
- • MSC 690 - Independent Study *Units: 1-4*
- • MSC 691 - University Thesis *Units: 4*
- • MSC 697 - Graduate Seminar in Marine Science *Units: 2*

Biological Sciences, B.S.: Cell and Molecular Biology Concentration

Biological Science, B.S. Program (120 units)

Program Description

Biology is concerned with living matter in all its forms, responses, and interactions. It deals with the study of anything that has been or is alive: microbes, fungi, plants, "protists" and all animals, including humans. The science of biology includes a large number of highly integrated sub-disciplines such as microbiology, genetics, molecular biology, ecology, evolutionary biology, physiology, systematics, and behavior. Biologists must draw upon a wide variety of academic disciplines to make observations and form conclusions, and well-trained biologists have solid backgrounds in chemistry, mathematics, computer science, statistics, physics, and the humanities, as required by graduate programs and professional schools, to meet the demands of professions in the life sciences.

The Department of Biological Sciences offers a diversified curriculum in the life sciences. Courses are designed for biology majors with specific degree objectives, for students seeking applied technical training, and for non-major students with general interest in biological subjects. Undergraduate programs will prepare students for both graduate work and for a diversity of careers. Biology majors may enter specialized or general careers in life science and find themselves working in laboratories, offices, the field, administrative posts, academic institutions, industry, government agencies, private foundations, botanic gardens, wildlife preserves and zoos. Simply put, biologists study the living planet.

Program Learning Outcomes

Students graduating with a B.S. in Biological Science from Cal State East Bay will be able to:

1. Explain core biological concepts, including evolutionary processes, structure-function relationships across all levels of biological organization, homeostasis, information flow, matter and energy transformations, and the interactions and interconnectedness of living systems.
2. Apply quantitative reasoning to explain biological phenomena and to address biological problems.
3. Clearly communicate biological information in a variety of formats (written, oral, visual) using a style appropriate for the intended audience.
4. Apply methods of scientific inquiry by formulating testable hypotheses, collecting and analyzing data, and reporting conclusions.
5. Gather, interpret, and evaluate published scientific information.

Career Opportunities

A degree in biological science can lead to many exciting career opportunities including: • Biotechnologist • Health Professional such as Medical Doctor, Dentist, Ophthalmologist, Veterinarian, and Pharmacist • Environmental Scientist • Biology Researcher • Environmental Toxicologist • Forensic Scientist • Clinical Lab Scientist • Biology Teacher/Science Educator • College Instructor • Marine Biologist • Physical Therapist • Food Scientist • Radiation Therapy Technologist • Dietician • Science Editor • Medical Illustrator • Horticulturalist • Emergency Medical Technician • Mortician • Medical Technologist • Drug Inspector.

Features

Classes are offered on the Hayward campus in well-equipped facilities, at the Moss Landing Marine Laboratories located in Monterey Bay (via participation in a CSU Consortium which allows degree credit for MLML course), and at field locations such as Garin Reserve adjacent to campus.

A concentration in Microbiology and Biomedical Laboratory Sciences is offered to qualify students for California hospital traineeships which lead to state licensing as medical technologists and clinical lab scientists.

Preparation

A student who has successfully completed an advanced placement course in biology in high school and has earned a score of "3," "4" or "5" on the Advanced Placement Examination will be granted the following course credit:

- Score of 3, credit for non-majors introductory biology and lab (BIOL 100 or BIOL 101+102)
- Score of 4, credit for BIOL 140B only
- Score of 5, credit for BIOL 140A and BIOL 140B

Note: students earning a score of "3" or better on the AP Biology Exam will earn no more than 6 semester units toward the degree and will have satisfied GE Areas B2 and B3.

Prerequisite courses for all Biology courses must be passed with a grade of "C-" or better. All requests for Grade Forgiveness are subject to space availability, with priority given to newly enrolled students.

Bachelor's Degree Requirements

For the B.S. degree in Biological Science, the student must select a concentration to complete the major. All concentrations have the same lower and upper division core of required classes. See major requirements for concentration information.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 75 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend*

on GE/GR units).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Biological Science (B.S.) Major Requirements (75 units)

Lower Division Coursework

The following 32 units of interdisciplinary coursework is required:

- BIOL 140A - Principles of Cell and Molecular Biology Units: 5 ; G.E./G.R. Area: B2, B3
- BIOL 140B - Principles of Organismal Biology Units: 5

- CHEM 111 - General Chemistry I *Units: 5 ; G.E./G.R. Area: B1, B3*
- CHEM 112 - General Chemistry II *Units: 5*
- MATH 130 - Calculus I *Units: 4 ; G.E./G.R. Area: B4*
- PHYS 125 - Principles of Physics I *Units: 4 ; G.E./G.R. Area: B1, B3*
- PHYS 126 - Principles of Physics II *Units: 4 ; G.E./G.R. Area: B1, B3*

Upper Division Coursework

The following 7 units of upper-division coursework is required:

- BIOL 310 - Genetic Analysis I *Units: 4*
- BIOL 320 - Evolutionary Biology *Units: 3*

Concentrations

Students must choose one (1) concentration for 36 units to complete the major:

- Biological Sciences, B.S.: Cell and Molecular Biology Concentration
- Biological Sciences, B.S.: Ecology and Evolutionary Biology Concentration
- Biological Sciences, B.S.: Forensic Science Concentration
- Biological Sciences, B.S.: Microbiology and Biomedical Lab Sciences Concentration
- Biological Sciences, B.S.: Physiology Concentration

Cell and Molecular Biology Concentration

Upper Division Coursework

The following 29 units of interdisciplinary coursework is required:

- BIOL 410 - Genetic Analysis II *Units: 3*
- BIOL 424 - Bioinformatics *Units: 3*
- BIOL 426 - Advanced Molecular and Cell Biology *Units: 3*
- BIOL 427 - Molecular and Cell Biology Lab *Units: 3*
- BIOL 428 - Genomics *Units: 3*
- CHEM 331 - Organic Chemistry I *Units: 5*
- CHEM 332 - Organic Chemistry II *Units: 5*
- CHEM 441 - Biochemistry I *Units: 4*

Elective Courses

Choose a minimum of 7 units of electives from the following list of courses. *Note: BIOL 398 Co-operative Education and/or BIOL 490 Independent Study may be used for a maximum total of 3 units elective credit. Enrollment in these courses requires approval by a faculty member and the Department Chair.*

- BIOL 330 - General Microbiology *Units: 5*
- BIOL 398 - Internship *Units: 1-4*
- BIOL 415 - PCR, Sequencing and Fragment Analysis *Units: 3*

- BIOL 420 - Cell and Molecular Biology Undergraduate Seminar *Units: 2*
- BIOL 425 - Techniques in Mammalian Cell Culture *Units: 3*
- BIOL 431 - Medical Microbiology *Units: 5*
- BIOL 434 - Molecular Microbiology *Units: 3*
- BIOL 440 - Molecular Virology *Units: 3*
- BIOL 443 - Hematology *Units: 4*
- BIOL 445 - Immunology *Units: 3*
- BIOL 466 - Population Biology *Units: 4*
- BIOL 468 - Molecular Ecology *Units: 4*
- BIOL 490 - Independent Study *Units: 1-4*
- CHEM 442 - Biochemistry II *Units: 4*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Biological Sciences, B.S.: Ecology and Evolutionary Biology Concentration

Biological Science, B.S. Program (120 units)

Program Description

Biology is concerned with living matter in all its forms, responses, and interactions. It deals with the study of anything that has been or is alive: microbes, fungi, plants, "protists" and all animals, including humans. The science of biology includes a large number of highly integrated sub-disciplines such as microbiology, genetics, molecular biology, ecology, evolutionary biology, physiology, systematics, and behavior. Biologists must draw upon a wide variety of academic disciplines to make observations and form conclusions, and well-trained biologists have solid backgrounds in chemistry, mathematics, computer science, statistics, physics, and the humanities, as required by graduate programs and professional schools, to meet the demands of professions in the life sciences.

The Department of Biological Sciences offers a diversified curriculum in the life sciences. Courses are designed for biology majors with specific degree objectives, for students seeking applied technical training, and for non-major students with general interest in biological subjects. Undergraduate programs will prepare students for both graduate work and for a diversity of careers. Biology majors may enter specialized or general careers in life science and find themselves working in laboratories, offices, the field, administrative posts, academic institutions, industry, government agencies, private foundations, botanic gardens, wildlife preserves and zoos. Simply put, biologists study the living planet.

Program Learning Outcomes

Students graduating with a B.S. in Biological Science from Cal State East Bay will be able to:

1. Explain core biological concepts, including evolutionary processes, structure-function relationships across all levels of biological organization, homeostasis, information flow, matter and energy transformations, and the interactions and interconnectedness of living systems.
2. Apply quantitative reasoning to explain biological phenomena and to address biological problems.
3. Clearly communicate biological information in a variety of formats (written, oral, visual) using a style appropriate for the intended audience.
4. Apply methods of scientific inquiry by formulating testable hypotheses, collecting and analyzing data, and reporting conclusions.
5. Gather, interpret, and evaluate published scientific information.

Career Opportunities

A degree in biological science can lead to many exciting career opportunities including: • Biotechnologist • Health Professional such as Medical Doctor, Dentist, Ophthalmologist, Veterinarian, and Pharmacist • Environmental Scientist • Biology Researcher • Environmental Toxicologist • Forensic Scientist • Clinical Lab Scientist • Biology Teacher/Science Educator • College Instructor • Marine Biologist • Physical Therapist • Food Scientist • Radiation Therapy Technologist • Dietician • Science Editor • Medical Illustrator • Horticulturalist • Emergency Medical Technician • Mortician • Medical Technologist • Drug Inspector.

Features

Classes are offered on the Hayward campus in well-equipped facilities, at the Moss Landing Marine Laboratories located in Monterey Bay (via participation in a CSU Consortium which allows degree credit for MLML course), and at field locations such as Garin Reserve adjacent to campus.

A concentration in Microbiology and Biomedical Laboratory Sciences is offered to qualify students for California hospital traineeships which lead to state licensing as medical technologists and clinical lab scientists.

Preparation

A student who has successfully completed an advanced placement course in biology in high school and has earned a score of "3," "4" or "5" on the Advanced Placement Examination will be granted the following course credit:

- Score of 3, credit for non-majors introductory biology and lab (BIOL 100 or BIOL 101+102)
- Score of 4, credit for BIOL 140B only
- Score of 5, credit for BIOL 140A and BIOL 140B

Note: students earning a score of "3" or better on the AP Biology Exam will earn no more than 6 semester units toward the degree and will have satisfied GE Areas B2 and B3.

Prerequisite courses for all Biology courses must be passed with a grade of "C-" or better. All requests for Grade Forgiveness are subject to space availability, with priority given to newly enrolled students.

Bachelor's Degree Requirements

For the B.S. degree in Biological Science, the student must select a concentration to complete the major. All concentrations have the same lower and upper division core of required classes. See major requirements for concentration information.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 75 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Biological Science (B.S.) Major Requirements (75 units)

Lower Division Coursework

The following 32 units of interdisciplinary coursework is required:

- BIOL 140A - Principles of Cell and Molecular Biology Units: 5 ; G.E./G.R. Area: B2, B3
- BIOL 140B - Principles of Organismal Biology Units: 5
- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
- CHEM 112 - General Chemistry II Units: 5
- MATH 130 - Calculus I Units: 4 ; G.E./G.R. Area: B4
- PHYS 125 - Principles of Physics I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 126 - Principles of Physics II Units: 4 ; G.E./G.R. Area: B1, B3

Upper Division Coursework

The following 7 units of upper-division coursework is required:

- BIOL 310 - Genetic Analysis I Units: 4
- BIOL 320 - Evolutionary Biology Units: 3

Concentrations

Students must choose one (1) concentration for 36 units to complete the major:

- Biological Sciences, B.S.: Cell and Molecular Biology Concentration
- Biological Sciences, B.S.: Ecology and Evolutionary Biology Concentration
- Biological Sciences, B.S.: Forensic Science Concentration
- Biological Sciences, B.S.: Microbiology and Biomedical Lab Sciences Concentration
- Biological Sciences, B.S.: Physiology Concentration

Ecology and Evolutionary Biology Concentration

Upper Division Coursework

The following 25 units of interdisciplinary coursework is required:

- BIOL 350 - Ecology Units: 4
- BIOL 370 - Animal Physiology Units: 4
- BIOL 460 - Ecology and Evolutionary Biology Undergraduate Seminar Units: 2
- BIOL 469 - Conservation Biology Units: 4

- CHEM 230 - Survey of Organic Chemistry Units: 5
- CHEM 340 - Survey of Biochemistry Units: 3
- STAT 303 - Statistical Methods in Biology Units: 3

Note: If the student objective requires a year of organic chemistry and/or a year of biochemistry, then enroll in CHEM 330, 331 and CHEM 441, 442; enrollment in CHEM 441 requires a minimum C- in CHEM 331. A maximum of 5 units for the organic chemistry requirement and a maximum 3 units for the biochemistry requirement will apply to this concentration curriculum.

Elective Courses

Choose a minimum of 11 units of electives from the following list of courses. *Note: BIOL 398 Co-operative Education and/or BIOL 490 Independent Study may be used for a maximum of 3 units elective credit. Enrollment in these courses requires approval by a faculty member and the Department Chair.*

- BIOL 315 - Marine Biology Units: 4
- BIOL 352 - Biogeography Units: 4
- BIOL 368 - Fungi of California Units: 3
- BIOL 398 - Internship Units: 1-4
- BIOL 410 - Genetic Analysis II Units: 3
- BIOL 415 - PCR, Sequencing and Fragment Analysis Units: 3
- BIOL 424 - Bioinformatics Units: 3
- BIOL 444 - Medical Entomology Units: 3
- BIOL 454 - Biology of Fungi Units: 4
- BIOL 455 - Vertebrate Biology Units: 4
- BIOL 458 - Animal Behavior Units: 4
- BIOL 466 - Population Biology Units: 4
- BIOL 468 - Molecular Ecology Units: 4
- BIOL 475 - Global Change Biology Units: 4
- BIOL 490 - Independent Study Units: 1-4

Please Note: Courses offered at Moss Landing Marine Laboratories (<https://www.mlml.calstate.edu>) may also be used to satisfy the electives unit requirement. Enrollment in these courses requires approval by a faculty member and the Department Chair.

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Biological Sciences, B.S.: Forensic Science Concentration

Biological Science, B.S. Program (120 units)

Program Description

Biology is concerned with living matter in all its forms, responses, and interactions. It deals with the study of anything that has been or is alive: microbes, fungi, plants, "protists" and all animals, including humans. The science of biology includes a large number of highly integrated sub-disciplines such as microbiology, genetics, molecular biology, ecology, evolutionary biology, physiology, systematics, and behavior. Biologists must draw upon a wide variety of academic disciplines to make observations and form conclusions, and well-trained biologists have solid backgrounds in chemistry, mathematics, computer science, statistics, physics, and the humanities, as required by graduate programs and professional schools, to meet the demands of professions in the life sciences.

The Department of Biological Sciences offers a diversified curriculum in the life sciences. Courses are designed for biology majors with specific degree objectives, for students seeking applied technical training, and for non-major students with general interest in biological subjects. Undergraduate programs will prepare students for both graduate work and for a diversity of careers. Biology majors may enter

specialized or general careers in life science and find themselves working in laboratories, offices, the field, administrative posts, academic institutions, industry, government agencies, private foundations, botanic gardens, wildlife preserves and zoos. Simply put, biologists study the living planet.

Program Learning Outcomes

Students graduating with a B.S. in Biological Science from Cal State East Bay will be able to:

1. Explain core biological concepts, including evolutionary processes, structure-function relationships across all levels of biological organization, homeostasis, information flow, matter and energy transformations, and the interactions and interconnectedness of living systems.
2. Apply quantitative reasoning to explain biological phenomena and to address biological problems.
3. Clearly communicate biological information in a variety of formats (written, oral, visual) using a style appropriate for the intended audience.
4. Apply methods of scientific inquiry by formulating testable hypotheses, collecting and analyzing data, and reporting conclusions.
5. Gather, interpret, and evaluate published scientific information.

Career Opportunities

A degree in biological science can lead to many exciting career opportunities including: • Biotechnologist • Health Professional such as Medical Doctor, Dentist, Ophthalmologist, Veterinarian, and Pharmacist • Environmental Scientist • Biology Researcher • Environmental Toxicologist • Forensic Scientist • Clinical Lab Scientist • Biology Teacher/Science Educator • College Instructor • Marine Biologist • Physical Therapist • Food Scientist • Radiation Therapy Technologist • Dietician • Science Editor • Medical Illustrator • Horticulturalist • Emergency Medical Technician • Mortician • Medical Technologist • Drug Inspector.

Features

Classes are offered on the Hayward campus in well-equipped facilities, at the Moss Landing Marine Laboratories located in Monterey Bay (via participation in a CSU Consortium which allows degree credit for MLML course), and at field locations such as Garin Reserve adjacent to campus.

A concentration in Microbiology and Biomedical Laboratory Sciences is offered to qualify students for California hospital traineeships which lead to state licensing as medical technologists and clinical lab scientists.

Preparation

A student who has successfully completed an advanced placement course in biology in high school and has earned a score of "3," "4" or "5" on the Advanced Placement Examination will be granted the following course credit:

- Score of 3, credit for non-majors introductory biology and lab (BIOL 100 or BIOL 101+102)
- Score of 4, credit for BIOL 140B only
- Score of 5, credit for BIOL 140A and BIOL 140B

Note: students earning a score of "3" or better on the AP Biology Exam will earn no more than 6 semester units toward the degree and will have satisfied GE Areas B2 and B3.

Prerequisite courses for all Biology courses must be passed with a grade of "C-" or better. All requests for Grade Forgiveness are subject to space availability, with priority given to newly enrolled students.

Bachelor's Degree Requirements

For the B.S. degree in Biological Science, the student must select a concentration to complete the major. All concentrations have the same lower and upper division core of required classes. See major requirements for concentration information.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 75 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend*

on GE/GR units).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Biological Science (B.S.) Major Requirements (75 units)

Lower Division Coursework

The following 32 units of interdisciplinary coursework is required:

- BIOL 140A - Principles of Cell and Molecular Biology Units: 5 ; G.E./G.R. Area: B2, B3
- BIOL 140B - Principles of Organismal Biology Units: 5
- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
- CHEM 112 - General Chemistry II Units: 5
- MATH 130 - Calculus I Units: 4 ; G.E./G.R. Area: B4
- PHYS 125 - Principles of Physics I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 126 - Principles of Physics II Units: 4 ; G.E./G.R. Area: B1, B3

Upper Division Coursework

The following 7 units of upper-division coursework is required:

- BIOL 310 - Genetic Analysis I Units: 4
- BIOL 320 - Evolutionary Biology Units: 3

Concentrations

Students must choose one (1) concentration for 36 units to complete the major:

- Biological Sciences, B.S.: Cell and Molecular Biology Concentration
- Biological Sciences, B.S.: Ecology and Evolutionary Biology Concentration
- Biological Sciences, B.S.: Forensic Science Concentration
- Biological Sciences, B.S.: Microbiology and Biomedical Lab Sciences Concentration
- Biological Sciences, B.S.: Physiology Concentration

Forensic Science Concentration

Upper Division Coursework

The following 32 units of interdisciplinary coursework is required:

- BIOL 415 - PCR, Sequencing and Fragment Analysis *Units: 3*
- BIOL 426 - Advanced Molecular and Cell Biology *Units: 3*
- CHEM 220 - Quantitative Analysis *Units: 4*
- CHEM 320 - Bioanalytical and Forensic Instrumentation *Units: 3*
- CHEM 331 - Organic Chemistry I *Units: 5*
- CHEM 332 - Organic Chemistry II *Units: 5*
- CRJ 340 - Advanced Criminal Investigation *Units: 3*
- CRJ 350 - Criminal Identification *Units: 3*
- CRJ 380 - Survey of Forensic Science *Units: 3*

Elective Courses

Choose a minimum of 4 units from the following:

- BIOL 270 - Human Anatomy & Physiology I *Units: 4 ; G.E./G.R. Area: B2, B3*
- BIOL 271 - Human Anatomy & Physiology II *Units: 4*
- BIOL 424 - Bioinformatics *Units: 3*
- CHEM 441 - Biochemistry I *Units: 4*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Biological Sciences, B.S.: Microbiology and Biomedical Lab Sciences Concentration

Biological Science, B.S. Program (120 units)

Program Description

Biology is concerned with living matter in all its forms, responses, and interactions. It deals with the study of anything that has been or is alive: microbes, fungi, plants, "protists" and all animals, including humans. The science of biology includes a large number of highly integrated sub-disciplines such as microbiology, genetics, molecular biology, ecology, evolutionary biology, physiology, systematics, and behavior. Biologists must draw upon a wide variety of academic disciplines to make observations and form conclusions, and well-trained biologists have solid backgrounds in chemistry, mathematics, computer science, statistics, physics, and the humanities, as required by graduate programs and professional schools, to meet the demands of professions in the life sciences.

The Department of Biological Sciences offers a diversified curriculum in the life sciences. Courses are designed for biology majors with specific degree objectives, for students seeking applied technical training, and for non-major students with general interest in biological subjects. Undergraduate programs will prepare students for both graduate work and for a diversity of careers. Biology majors may enter specialized or general careers in life science and find themselves working in laboratories, offices, the

field, administrative posts, academic institutions, industry, government agencies, private foundations, botanic gardens, wildlife preserves and zoos. Simply put, biologists study the living planet.

Program Learning Outcomes

Students graduating with a B.S. in Biological Science from Cal State East Bay will be able to:

1. Explain core biological concepts, including evolutionary processes, structure-function relationships across all levels of biological organization, homeostasis, information flow, matter and energy transformations, and the interactions and interconnectedness of living systems.
2. Apply quantitative reasoning to explain biological phenomena and to address biological problems.
3. Clearly communicate biological information in a variety of formats (written, oral, visual) using a style appropriate for the intended audience.
4. Apply methods of scientific inquiry by formulating testable hypotheses, collecting and analyzing data, and reporting conclusions.
5. Gather, interpret, and evaluate published scientific information.

Career Opportunities

A degree in biological science can lead to many exciting career opportunities including: • Biotechnologist • Health Professional such as Medical Doctor, Dentist, Ophthalmologist, Veterinarian, and Pharmacist • Environmental Scientist • Biology Researcher • Environmental Toxicologist • Forensic Scientist • Clinical Lab Scientist • Biology Teacher/Science Educator • College Instructor • Marine Biologist • Physical Therapist • Food Scientist • Radiation Therapy Technologist • Dietician • Science Editor • Medical Illustrator • Horticulturalist • Emergency Medical Technician • Mortician • Medical Technologist • Drug Inspector.

Features

Classes are offered on the Hayward campus in well-equipped facilities, at the Moss Landing Marine Laboratories located in Monterey Bay (via participation in a CSU Consortium which allows degree credit for MLML course), and at field locations such as Garin Reserve adjacent to campus.

A concentration in Microbiology and Biomedical Laboratory Sciences is offered to qualify students for California hospital traineeships which lead to state licensing as medical technologists and clinical lab scientists.

Preparation

A student who has successfully completed an advanced placement course in biology in high school and has earned a score of "3," "4" or "5" on the Advanced Placement Examination will be granted the following course credit:

- Score of 3, credit for non-majors introductory biology and lab (BIOL 100 or BIOL 101+102)
- Score of 4, credit for BIOL 140B only
- Score of 5, credit for BIOL 140A and BIOL 140B

Note: students earning a score of "3" or better on the AP Biology Exam will earn no more than 6 semester units toward the degree and will have satisfied GE Areas B2 and B3.

Prerequisite courses for all Biology courses must be passed with a grade of "C-" or better. All requests for Grade Forgiveness are subject to space availability, with priority given to newly enrolled students.

Bachelor's Degree Requirements

For the B.S. degree in Biological Science, the student must select a concentration to complete the major. All concentrations have the same lower and upper division core of required classes. See major requirements for concentration information.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 75 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Biological Science (B.S.) Major Requirements (75 units)

Lower Division Coursework

The following 32 units of interdisciplinary coursework is required:

- BIOL 140A - Principles of Cell and Molecular Biology Units: 5 ; G.E./G.R. Area: B2, B3
- BIOL 140B - Principles of Organismal Biology Units: 5
- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
- CHEM 112 - General Chemistry II Units: 5
- MATH 130 - Calculus I Units: 4 ; G.E./G.R. Area: B4
- PHYS 125 - Principles of Physics I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 126 - Principles of Physics II Units: 4 ; G.E./G.R. Area: B1, B3

Upper Division Coursework

The following 7 units of upper-division coursework is required:

- BIOL 310 - Genetic Analysis I Units: 4
- BIOL 320 - Evolutionary Biology Units: 3

Concentrations

Students must choose one (1) concentration for 36 units to complete the major:

- Biological Sciences, B.S.: Cell and Molecular Biology Concentration
- Biological Sciences, B.S.: Ecology and Evolutionary Biology Concentration

- Biological Sciences, B.S.: Forensic Science Concentration
- Biological Sciences, B.S.: Microbiology and Biomedical Lab Sciences Concentration
- Biological Sciences, B.S.: Physiology Concentration

Microbiology and Biomedical Lab Sciences Concentration

Upper Division Coursework

The following 21 units of interdisciplinary coursework is required:

- BIOL 330 - General Microbiology *Units: 5*
- BIOL 430 - Microbial Physiology and Metabolism *Units: 3*
- CHEM 331 - Organic Chemistry I *Units: 5*
- CHEM 332 - Organic Chemistry II *Units: 5*
- CHEM 340 - Survey of Biochemistry *Units: 3*

Note: Depending on the professional objective, student may opt for CHEM 441, 442 (Biochemistry I, II) with CHEM 441 counting as 3 units here in place of CHEM 340 and CHEM 442 counting as an elective.

Elective Courses

Choose a minimum of 15 units of electives from the following list of courses. *Note: BIOL 398 Co-operative Education and/or BIOL 490 Independent Study may be used for a maximum of 3 units elective credit. Enrollment in these courses requires approval by a faculty member and the Department Chair.*

- BIOL 398 - Internship *Units: 1-4*
- BIOL 431 - Medical Microbiology *Units: 5*
- BIOL 432 - Microbe-Host Interactions *Units: 3*
- BIOL 433 - Microbial Ecology *Units: 3*
- BIOL 434 - Molecular Microbiology *Units: 3*
- BIOL 442 - Epidemiology *Units: 3*
- BIOL 444 - Medical Entomology *Units: 3*
- BIOL 468 - Molecular Ecology *Units: 4*
- BIOL 490 - Independent Study *Units: 1-4*

Recommended Courses

These courses are recommended if the student objective is to apply to a Clinical Lab Scientist licensing program:

- BIOL 440 - Molecular Virology *Units: 3*
- BIOL 441 - Parasitology *Units: 3*
- BIOL 443 - Hematology *Units: 4*
- BIOL 445 - Immunology *Units: 3*
- BIOL 454 - Biology of Fungi *Units: 4*
- CHEM 220 - Quantitative Analysis *Units: 4*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 75 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend*

on GE/GR units).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Biological Science (B.S.) Major Requirements (75 units)

Lower Division Coursework

The following 32 units of interdisciplinary coursework is required:

- BIOL 140A - Principles of Cell and Molecular Biology Units: 5 ; G.E./G.R. Area: B2, B3
- BIOL 140B - Principles of Organismal Biology Units: 5
- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
- CHEM 112 - General Chemistry II Units: 5
- MATH 130 - Calculus I Units: 4 ; G.E./G.R. Area: B4

- **PHYS 125 - Principles of Physics I** *Units: 4 ; G.E./G.R. Area: B1, B3*
- **PHYS 126 - Principles of Physics II** *Units: 4 ; G.E./G.R. Area: B1, B3*

Upper Division Coursework

The following 7 units of upper-division coursework is required:

- **BIOL 310 - Genetic Analysis I** *Units: 4*
- **BIOL 320 - Evolutionary Biology** *Units: 3*

Concentrations

Students must choose one (1) concentration for 36 units to complete the major:

- Biological Sciences, B.S.: Cell and Molecular Biology Concentration
- Biological Sciences, B.S.: Ecology and Evolutionary Biology Concentration
- Biological Sciences, B.S.: Forensic Science Concentration
- Biological Sciences, B.S.: Microbiology and Biomedical Lab Sciences Concentration
- Biological Sciences, B.S.: Physiology Concentration

Physiology Concentration

Upper Division Coursework

The following 18 units of interdisciplinary coursework is required:

- **BIOL 370 - Animal Physiology** *Units: 4*
- **BIOL 488 - Environmental Physiology** *Units: 3*
- **CHEM 230 - Survey of Organic Chemistry** *Units: 5*
- **CHEM 340 - Survey of Biochemistry** *Units: 3*
- **STAT 303 - Statistical Methods in Biology** *Units: 3*

Note: If the student objective requires a year of organic chemistry and/or a year of biochemistry, then enroll in CHEM 331, 332, and CHEM 441, 442; enrollment in CHEM 441 requires a minimum C- in CHEM 332. A maximum of 5 units credit for the organic chemistry requirement and a maximum 3 units credit for the biochemistry requirement will apply to this concentration curriculum.

Elective Courses

Choose 18 units of electives from the following courses. *Note: BIOL 398 Co-operative Education and/or BIOL 490 Independent Study may be used for a maximum total of 3 units elective credit. Enrollment in these courses requires approval by a faculty member and the Department Chair.*

- **BIOL 330 - General Microbiology** *Units: 5*
- **BIOL 350 - Ecology** *Units: 4*
- **BIOL 398 - Internship** *Units: 1-4*
- **BIOL 430 - Microbial Physiology and Metabolism** *Units: 3*
- **BIOL 440 - Molecular Virology** *Units: 3*

- BIOL 441 - Parasitology *Units: 3*
- BIOL 443 - Hematology *Units: 4*
- BIOL 445 - Immunology *Units: 3*
- BIOL 470 - Animal Senses *Units: 4*
- BIOL 471 - Neurobiology *Units: 3*
- BIOL 472 - Neurobiology Laboratory *Units: 4*
- BIOL 473 - Comparative Physiology *Units: 3*
- BIOL 474 - Biomedical Physiology *Units: 3*
- BIOL 475 - Global Change Biology *Units: 4*
- BIOL 476 - General Endocrinology *Units: 3*
- BIOL 490 - Independent Study *Units: 1-4*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Courses

Biological Science

- • BIOL 100 - Biology in the Real World *Units: 4 ; G.E./G.R. Area: B2, B3*
- • BIOL 101 - Introduction to Biology *Units: 3 ; G.E./G.R. Area: B2*
- • BIOL 102 - Introduction to Biology Lab *Units: 1 ; G.E./G.R. Area: B3*
- • BIOL 140A - Principles of Cell and Molecular Biology *Units: 5 ; G.E./G.R. Area: B2, B3*
- • BIOL 140B - Principles of Organismal Biology *Units: 5*
- • BIOL 230 - Introduction to Clinical Microbiology *Units: 4 ; G.E./G.R. Area: B2, B3*
- • BIOL 270 - Human Anatomy & Physiology I *Units: 4 ; G.E./G.R. Area: B2, B3*
- • BIOL 271 - Human Anatomy & Physiology II *Units: 4*
- • BIOL 301 - Biology Connections *Units: 3*
- • BIOL 302 - Biology Connections Laboratory *Units: 1*
- • BIOL 310 - Genetic Analysis I *Units: 4*
- • BIOL 315 - Marine Biology *Units: 4*
- • BIOL 320 - Evolutionary Biology *Units: 3*
- • BIOL 330 - General Microbiology *Units: 5*
- • BIOL 333 - Humans and Sex *Units: 3 ; G.E./G.R. Area: B6; Diversity*
- • BIOL 334 - Humans and the Living Planet *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- • BIOL 335 - Humans: Health and Disease *Units: 3 ; G.E./G.R. Area: B6; Social Justice*

- • BIOL 350 - Ecology *Units: 4*
- • BIOL 352 - Biogeography *Units: 4*
- • BIOL 356 - Freshwater Environments *Units: 4*
- • BIOL 368 - Fungi of California *Units: 3*
- • BIOL 370 - Animal Physiology *Units: 4*
- • BIOL 372 - Microscopic Methods: Quantitative Analysis of Structure & Function *Units: 3*
- • BIOL 398 - Internship *Units: 1-4*
- • BIOL 410 - Genetic Analysis II *Units: 3*
- • BIOL 415 - PCR, Sequencing and Fragment Analysis *Units: 3*
- • BIOL 420 - Cell and Molecular Biology Undergraduate Seminar *Units: 2*
- • BIOL 424 - Bioinformatics *Units: 3*
- • BIOL 425 - Techniques in Mammalian Cell Culture *Units: 3*
- • BIOL 426 - Advanced Molecular and Cell Biology *Units: 3*
- • BIOL 427 - Molecular and Cell Biology Lab *Units: 3*
- • BIOL 428 - Genomics *Units: 3*
- • BIOL 430 - Microbial Physiology and Metabolism *Units: 3*
- • BIOL 431 - Medical Microbiology *Units: 5*
- • BIOL 432 - Microbe-Host Interactions *Units: 3*
- • BIOL 433 - Microbial Ecology *Units: 3*
- • BIOL 434 - Molecular Microbiology *Units: 3*
- • BIOL 440 - Molecular Virology *Units: 3*
- • BIOL 441 - Parasitology *Units: 3*
- • BIOL 442 - Epidemiology *Units: 3*
- • BIOL 443 - Hematology *Units: 4*
- • BIOL 444 - Medical Entomology *Units: 3*
- • BIOL 445 - Immunology *Units: 3*
- • BIOL 454 - Biology of Fungi *Units: 4*
- • BIOL 455 - Vertebrate Biology *Units: 4*
- • BIOL 458 - Animal Behavior *Units: 4*
- • BIOL 460 - Ecology and Evolutionary Biology Undergraduate Seminar *Units: 2*
- • BIOL 466 - Population Biology *Units: 4*
- • BIOL 468 - Molecular Ecology *Units: 4*
- • BIOL 469 - Conservation Biology *Units: 4*
- • BIOL 470 - Animal Senses *Units: 4*
- • BIOL 471 - Neurobiology *Units: 3*
- • BIOL 472 - Neurobiology Laboratory *Units: 4*
- • BIOL 473 - Comparative Physiology *Units: 3*
- • BIOL 474 - Biomedical Physiology *Units: 3*
- • BIOL 475 - Global Change Biology *Units: 4*
- • BIOL 476 - General Endocrinology *Units: 3*
- • BIOL 488 - Environmental Physiology *Units: 3*
- • BIOL 490 - Independent Study *Units: 1-4*
- • BIOL 497 - Issues in Biological Science *Units: 1-3*

Biological Science: Graduate

- • BIOL 601A - Foundations of Scientific Research *Units: 1*
- • BIOL 601B - Foundations of Scientific Communication *Units: 1*
- • BIOL 602 - Preparation for Undergraduate Instruction in Biology *Units: 3*
- • BIOL 610 - Seminar in Cell & Molecular Biology *Units: 2*
- • BIOL 616 - Cell and Molecular Biology I *Units: 3*
- • BIOL 618 - Cell and Molecular Biology II *Units: 3*

- BIOL 620 - Functional Genomics *Units: 3*
- BIOL 622 - Advanced Molecular Techniques *Units: 3*
- BIOL 630 - Seminar in Microbiology *Units: 2*
- BIOL 631 - Microbial Physiology and Biochemistry *Units: 3*
- BIOL 650 - Seminar in Ecology and Evolution *Units: 2*
- BIOL 652 - Advances in Ecology and Evolution *Units: 3*
- BIOL 653 - Community and Ecosystem Biology *Units: 4*
- BIOL 655 - Phylogenetic Methods *Units: 3*
- BIOL 657 - Environmental Experimental Analysis *Units: 4*
- BIOL 670 - Seminar in Physiology *Units: 2*
- BIOL 671 - Advanced Topics in Physiology *Units: 3*
- BIOL 672 - Microscopic Methods: Quantitative Analysis of Structure & Function *Units: 3*
- BIOL 690 - Independent Study *Units: 1-4*
- BIOL 691 - University Thesis *Units: 1-5*
- BIOL 698 - Internship *Units: 1-4*

Marine Science

- MSC 403 - Marine Ecology *Units: 4*
- MSC 405 - Marine Science Diving *Units: 3*
- MSC 412 - Marine Birds and Mammals *Units: 4*
- MSC 413 - Marine Ichthyology *Units: 4*
- MSC 424 - Marine Invertebrate Zoology I *Units: 4*
- MSC 425 - Marine Invertebrate Zoology II *Units: 3*
- MSC 431 - Marine Botany *Units: 4*
- MSC 435 - Physiology of Marine Algae *Units: 4*
- MSC 441 - Geological Oceanography *Units: 4*
- MSC 442 - Physical Oceanography *Units: 4*
- MSC 443 - Chemical Oceanography *Units: 4*
- MSC 444 - Biological Oceanography *Units: 4*
- MSC 490 - Independent Study *Units: 1-4*
- MSC 497 - Topics in Marine Sciences *Units: 1*

Marine Science: Graduate

- MSC 601 - Library Research Methods in Marine Science *Units: 1*
- MSC 602 - Oceanographic Instrumentation *Units: 4*
- MSC 604 - Sampling and Experimental Design *Units: 4*
- MSC 606 - Molecular Biological Techniques *Units: 4*
- MSC 608 - Scientific Methods *Units: 4*
- MSC 611 - Ecology of Marine Turtles, Birds and Mammals *Units: 4*
- MSC 612 - Advanced Topics in Marine Vertebrates *Units: 4*
- MSC 621 - Advanced Topics in Marine Invertebrates *Units: 4*
- MSC 631 - Biology of Seaweeds *Units: 4*
- MSC 633 - Advanced Topics in Marine Ecology *Units: 4*
- MSC 634 - Advanced Biological Oceanography *Units: 4*
- MSC 642 - Plate Tectonics *Units: 3*
- MSC 646 - Geology of the Monterey Bay Region *Units: 4*
- MSC 648 - Marine Benthic Habitat Mapping Techniques *Units: 4*
- MSC 651 - Marine Geochemistry *Units: 4*
- MSC 661 - Mixing, Estuarine and Sediment Transport *Units: 4*
- MSC 663 - Data Analysis Techniques in Marine Science *Units: 4*
- MSC 671 - Population Biology *Units: 3*

- MSC 672 - Subtidal Ecology *Units: 4*
- MSC 674 - Advanced Topics in Oceanography *Units: 4*
- MSC 680 - Scientific Writing *Units: 3*
- MSC 681 - Coastal Dynamics *Units: 4*
- MSC 689 - Research in Marine Science *Units: 2*
- MSC 690 - Independent Study *Units: 1-4*
- MSC 691 - University Thesis *Units: 4*
- MSC 697 - Graduate Seminar in Marine Science *Units: 2*

Master

Biological Science, M.S.

Biological Science, M.S. Program

Program Description

The Master of Science degree in Biological Science offers students the opportunity to obtain advanced academic and research experience in specialized areas. Biological science is an exciting field offering students numerous options for rewarding careers and scientific advancement. The M.S. in Biological Science is a research-based thesis program that provides students with opportunities to develop and complete research projects to enhance advancement and career opportunities in biology. It requires 30 semester units of coursework.

Career Opportunities

Students interested in careers that involve research or interested in pursuing a Ph.D. should consider the M.S. degree in Biological Science. Examples of M.S. study areas in the department are environmental biology, ecology, population biology, marine biology, mycology, physiology, neurobiology, cell and molecular biology, microbiology, genetics, and virology.

Admission Requirements

1. The M.S. degree program in the Department of Biological Sciences is open to graduates of accredited institutions who have a four-year baccalaureate degree in any field of the biological sciences and who have achieved a GPA of at least 2.75 in all undergraduate work and an average of 3.00 in all biological science courses taken as an upper division student. Normally, all applicants should have completed undergraduate courses equivalent to those required of all biological science majors at Cal State East Bay. Applicants must have taken basic courses in biological and physical sciences and mathematics/statistics; areas omitted, if any, will be treated as course deficiencies and must be completed by the time of classification (see below).
2. In addition to filing the university application and fee, students must apply via the on-line application to the Department of Biological Sciences for admission to graduate standing in the M.S. degree program.

3. Applicants must complete the general GRE test. A print screen including the applicant's scores can be uploaded to the departmental application (see below). Generally, target scores should be in the upper 30th percentile; significant deviation from target scores may be grounds for denial of admission.
4. Applicants must write a statement of purpose explaining their reasons for wanting to obtain the master of science degree. This statement of purpose should also outline previous research experience.

Applicant files will not be reviewed or processed until the application file is complete; this is the applicant's responsibility. During the admission process, students interested in the M.S. program are encouraged to obtain information about research interests of the faculty and to contact faculty members who could potentially serve as thesis advisors.

Student Standing and Progress Toward the Degree

Conditionally Classified Graduate Status and the Degree Process

All students admitted to the Master of Science program in Biological Sciences will be admitted as "Conditionally Classified Graduate" students. Thesis research is the only allowable capstone experience for this program. There are generally five areas of research specialization as supported by individual faculty members: Cell & Molecular Biology, Ecology & Evolution, Microbiology, Physiology, and Science Education. Upon acceptance into the program the student must arrange with a faculty member to discuss and agree upon an intended thesis research plan. This includes formulation of a thesis committee of a minimum of three members (that may include one individual outside the Department of Biological Sciences), and chaired by the thesis advisor. The thesis committee will monitor the student's progress through the degree program by periodic review. The thesis committee will design a customized curriculum of coursework for the individual student and will by a thesis defense examination and evaluation of the written thesis decide whether the student meets the departmental standards for conferral of the M.S. in Biological Science. Completion of the thesis research off-site is allowable, upon review of the department and provisional thesis committee; a scenario follows. The individual student may be currently employed by a biotechnology company. By careful arrangement with the employer and CSU East Bay, thesis research may be conducted at the place of employment as supervised by the work supervisor (who will also be a member of the thesis committee). The student should resolve any question about the degree process with the departmental Graduate Program Coordinator.

Classified Graduate

Satisfaction of the University Writing Skills Requirement (UWSR) must be completed before a student can become a fully "Classified Graduate".

Advancement to Candidacy

The student must have attained (a) "Classified Graduate" standing; (b) completed at least six units of satisfactory work beyond the baccalaureate degree suitable for inclusion in an M.S. program in Biological Science as approved by the student's thesis committee; (c) received approval from the thesis committee of a thesis research plan. This plan must be formally submitted prior to enrollment in BIOL 691 thesis units.

Related Programs

The Biotechnology Certificate Program within the department is a post-baccalaureate program emphasizing molecular and cellular techniques. For more information about the Biotechnology Certificate Program refer to the Certificate in Biotechnology section of this chapter. The M.S. degree in Marine

Science is offered at Moss Landing Marine Laboratories (MLML), located on Monterey Bay, for students from Cal State East Bay and seven other California State University consortium schools. Graduate students from Cal State East Bay majoring in other areas of study may also take such courses at Moss Landing as are appropriate for their degree objectives. Contact the Biological Sciences Department for application forms and deadlines for this program. For more information on the M.S. in Marine Sciences refer to the Marine Science chapter in the graduate section of this catalog.

Research Facilities

Department facilities for student research and study include invertebrate, vertebrate, and entomology museums; greenhouse; microbiology facilities; cell culture facilities; animal rooms; molecular biology labs; microscope facilities including phase, differential interference contrast, fluorescence and confocal microscopy; and DNA sequencing and cell storage facilities. Local field opportunities may be found at a wetlands field station at the San Francisco Bay National Wildlife Refuge, the brackish and salt water marshes of the Hayward Regional Shoreline of San Francisco Bay, and a 35-acre oak-grassland preserve located immediately adjacent to the Hayward Hills campus and contiguous with Garin Regional Park (one of the East Bay Regional Parks).

Research and Financial Support

Research space is available to all "Classified Graduate" students in the M.S. in Biological Science program, usually in the thesis advisor's research lab. Limited funds for graduate research supplies are available each year from the department budget. Graduate research grants are available annually on a competitive basis through the Center for Student Research and can be used to purchase supplies or pay travel expenses for graduate research. In addition, research assistantships are available for some students through faculty research grants. Teaching assistantships may become available for a given semester. As financial aid within the department is limited, you may want to contact the Financial Aid Office regarding other assistance from the University Work-Study Program, loans, scholarships, etc.

Program Learning Outcomes

Students graduating with an M.S. in Biological Science from Cal State East Bay will be able to:

1. Demonstrate a broad and sophisticated understanding that contributes to biological concepts and principles across all levels of biological organization, from ions to ecosystems.
2. Demonstrate expertise in a specific area of biological science.
3. Independently apply the scientific method to formulate testable biological hypotheses, analyze empirical data, and synthesize the results of the analysis.
4. Clearly communicate the design and results of an observational or experimental analysis in a variety of formats, including the graduate thesis, scientific paper, scientific poster, and oral presentation.
5. Gather and evaluate primary scientific literature and judge the value of the information presented in relation to particular biological questions.

Biological Sciences Degree Requirements (30 units)

Biological Science Core Requirements

The following 2 units are required. Enrollment in both courses during the first year of the M.S. program is required.

- BIOL 601A - Foundations of Scientific Research *Units: 1*
- BIOL 601B - Foundations of Scientific Communication *Units: 1*

Research Specialization

Choose two (2) courses for 6 units from the following (requires approval of the Thesis Advisor and Thesis Committee):

- BIOL 616 - Cell and Molecular Biology I *Units: 3*
- BIOL 618 - Cell and Molecular Biology II *Units: 3*
- BIOL 631 - Microbial Physiology and Biochemistry *Units: 3*
- BIOL 652 - Advances in Ecology and Evolution *Units: 3*
- BIOL 671 - Advanced Topics in Physiology *Units: 3*

Communicating the Research Specialization

Choose one (1) course for 2 units from the following courses:

- BIOL 610 - Seminar in Cell & Molecular Biology *Units: 2*
- BIOL 630 - Seminar in Microbiology *Units: 2*
- BIOL 650 - Seminar in Ecology and Evolution *Units: 2*
- BIOL 670 - Seminar in Physiology *Units: 2*

Elective Courses

A minimum of 15 units are required from the following list as approved by the Thesis Advisor and Thesis Committee:

- BIOL 602 - Preparation for Undergraduate Instruction in Biology *Units: 3*
- BIOL 620 - Functional Genomics *Units: 3*
- BIOL 622 - Advanced Molecular Techniques *Units: 3*
- BIOL 653 - Community and Ecosystem Biology *Units: 4*
- BIOL 655 - Phylogenetic Methods *Units: 3*
- BIOL 657 - Environmental Experimental Analysis *Units: 4*
- BIOL 690 - Independent Study *Units: 1-4 (take as 3-4 units only as an elective course)*
- Substitutions may be considered subject to approval by the Thesis Advisor, Thesis Committee, and Department.

Capstone Requirement

University thesis and an oral defense for 5 units is required to complete the program.

- BIOL 691 - University Thesis *Units: 1-5*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Marine Science, M.S.

Marine Science, M.S. Program

Program Description

This degree program, offered through the Department of Biological Sciences and the Department of Earth and Environmental Sciences, provides the opportunity for students to acquire a practical and theoretical education in the marine sciences to prepare them for careers as marine specialists, scientists, and teachers. The program at Moss Landing provides interdepartmental work and a field facility for advanced study in the marine sciences which cannot be duplicated on the Cal State East Bay campus.

Program Learning Outcomes

Students graduating with an M.S. in Marine Science from Cal State East Bay will be able to:

1. Demonstrate an understanding of fundamental concepts in a particular category of oceanography and marine science and
 - be able to synthesize and integrate across all of these fields, yet achieve a depth of understanding in the student's individual specialty or field of study (MLML specialties include Physical Oceanography, Biological Oceanography, Chemical Oceanography, Geological Oceanography, Marine Phycology, Marine Ichthyology, Marine Turtle, Bird and Mammal Ecology, and Marine Invertebrate Zoology.)
2. Demonstrate the ability to critically analyze scientific research, whether the student's own research, or that performed by others.
3. Pose relevant scientific hypotheses or questions that may then serve to guide thesis research.
4. Demonstrate proficiency in the design and implementation of experiments or data collection methodologies to address specific hypotheses/questions.
5. Master the skills and tools of data collection and analysis (including analytical and statistical techniques as appropriate) specific to the student's scientific field of study.
6. Demonstrate the ability to place one's own research within the larger context of relevant field of scientific study and to clearly identify the implications of this research for that field.
7. Demonstrate proficiency in oral and written communication by being able to present research clearly and concisely. This includes thoughtful and thorough oral and written presentation of their thesis and their responses to questions.

Career Opportunities

The master's of science in marine science is for students interested in careers in marine science, education and outreach, conservation, policy and management, as well in research through the pursuit of doctoral degrees related to the marine sciences.

Admission to the Program

The master's degree program in marine science is administered through either the Department of Biological Sciences or Department of Earth and Environmental Sciences, depending on the choice of the student, and the program is delivered at the Moss Landing Marine Laboratories (MLML). The prospective student must meet the admission requirements of either of these departments and of the MLML (refer to

descriptions of these department graduate programs and to the MLML program for complete information). Students will be accepted as "Conditionally Classified Graduate" students in the department of their choice upon completion of the admission requirements. The field of marine science is highly competitive, as is acceptance into the MLML master's program. Students accepted by MLML typically have a well-rounded background in science, mathematics, and research. MLML has no GPA or GRE minimums, but admitted students generally have a GPA of 3.2 or greater and GRE scores in the upper 30th percentile. Students who studied marine science or a related field as undergraduates are preferred, but such a background is not required. Prospective students must select an MLML faculty advisor(s) through whom to apply and contact them by email before applying (<https://gradprog.mlml.calstate.edu/choose-faculty-advisor>). Applicants are advised to choose the faculty member whose research is most closely aligned with his or her own area of interest within the field. For a list of faculty advisors, visit the MLML Faculty Directory. Applicants applying to the marine science program through CSUEB should check with their potential MLML faculty advisor to discuss whether additional courses are required for admittance. Newly admitted students must meet the entrance requirements of the CSU consortium campus and the MLML. The student will become a "Classified Graduate" student upon completion of MLML's requirements (below).

MLML Classification in the Program

A "Conditionally Classified Graduate" student may become a fully "Classified Graduate" student in the marine science program as set forth in the following steps:

1. Obtain an adviser at MLML and one from the science department at the home campus. Each new student in the master's program at MLML will be assigned an advisor who may or may not be the final thesis advisor.
2. Make up any coursework deficiencies in either the CSUEB department (see their regulations) and/or at MLML. Three of the following five courses are prerequisites for "Classified Graduate" standing: MSC 403 - Marine Ecology, MSC 441 - Geological Oceanography, MSC 442 - Physical Oceanography, MSC 443 - Chemical Oceanography, and MSC 444 - Biological Oceanography. Upon certification that the equivalent courses have been satisfactorily completed previously, the graduate committee may allow substitutions for these courses.
3. Students who do not receive a grade of "B" or better in the courses described in the prerequisites above taken at MLML, or who wish to substitute equivalent courses taken elsewhere regardless of the grade(s) received, must petition to have the courses accepted, or must pass a written qualifying examination given by the faculty at MLML. The examination will substitute for any equivalent examination given by home campus departments. There is no official time limit, but the exam should be taken as soon as possible; only a limited number of units taken while in "Conditionally Classified" status can be counted toward the degree. The exam may be repeated once, and must be passed before the student can be "Classified." The examination will consist of a choice of five out of six questions designed to test knowledge of the concepts and principles of oceanography, marine ecology, and statistics as covered in the courses listed under prerequisites above. It will be used to evaluate the student's background in these subject areas and the ability to write well and formulate answers logically. Each answer will be graded "pass" or "fail" by two faculty members (a third faculty member will resolve disagreements) on accuracy, content, and ability to clearly communicate. For a reading list covering the required material and further details concerning the exam, see MLML's Assistant to the Director.
4. Students must have satisfied the University Writing Skills Requirement according to Cal State East Bay standards. For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call 510.885.3661.

Advancement to Candidacy

In order to be Advanced to Candidacy, the student must have:

- Attained "Classified Graduate" standing;
- Selected a thesis problem and a thesis advisor committee. The thesis committee will be composed of at least three members, including one faculty member from MLML (who is ordinarily the thesis advisor) and, at the discretion of the home campus, a representative from that campus. The other member or members of the thesis committee may be from MLML, the home campus, or elsewhere, with the approval of the thesis advisor.

Curricular Requirements

A student becomes eligible for the master's degree in Marine Science after the following requirements have been satisfied:

1. The student has been Advanced to Candidacy.
2. The student has satisfied MLML's requirements for the degree.
3. The student has completed the following curricular requirements:
 - A minimum total of 15 semester units of 600-level courses including MSC 697: Graduate Seminar (2 units) and MSC 691: University Thesis (4 units).
 - A total of not more than 15 semester units of 300- and/or 400-level courses.
 - A total of 30 units of coursework must be completed with a grade of 'B' or better.
4. The student must have submitted a University Thesis approved by the thesis advisory committee. The thesis must conform to the rules set forth in the Cal State East Bay "University Writing Guide," available online at: www.csueastbay.edu/thesiswritingguide.
5. The student must successfully give an oral thesis defense in the form of a seminar open to the general public. The thesis advisory committee must be present, may require further oral questioning after the seminar, and will evaluate the success of the presentation.

Marine Science Major Requirements (30 units)

Note: MLML degree requirements are the same for all students regardless of the student's home CSU campus; admission, retention, and graduation procedures, however, vary by campus. All graduate students enter the program as Conditionally Classified and must satisfactorily complete MLML and CSU requirements to become Classified.

Required Courses

Complete three (3) of the five courses below:

- MSC 403 - Marine Ecology Units: 4
- MSC 441 - Geological Oceanography Units: 4
- MSC 442 - Physical Oceanography Units: 4
- MSC 443 - Chemical Oceanography Units: 4
- MSC 444 - Biological Oceanography Units: 4

Elective Courses

Complete 14 units of coursework from the courses listed below:

- MSC 405 - Marine Science Diving Units: 3

- MSC 412 - Marine Birds and Mammals *Units: 4*
- MSC 413 - Marine Ichthyology *Units: 4*
- MSC 424 - Marine Invertebrate Zoology I *Units: 4*
- MSC 425 - Marine Invertebrate Zoology II *Units: 3*
- MSC 431 - Marine Botany *Units: 4*
- MSC 435 - Physiology of Marine Algae *Units: 4*
- MSC 490 - Independent Study *Units: 1-4*
- MSC 601 - Library Research Methods in Marine Science *Units: 1*
- MSC 602 - Oceanographic Instrumentation *Units: 4*
- MSC 604 - Sampling and Experimental Design *Units: 4*
- MSC 606 - Molecular Biological Techniques *Units: 4*
- MSC 608 - Scientific Methods *Units: 4*
- MSC 611 - Ecology of Marine Turtles, Birds and Mammals *Units: 4*
- MSC 612 - Advanced Topics in Marine Vertebrates *Units: 4*
- MSC 621 - Advanced Topics in Marine Invertebrates *Units: 4*
- MSC 631 - Biology of Seaweeds *Units: 4*
- MSC 633 - Advanced Topics in Marine Ecology *Units: 4*
- MSC 634 - Advanced Biological Oceanography *Units: 4*
- MSC 642 - Plate Tectonics *Units: 3*
- MSC 646 - Geology of the Monterey Bay Region *Units: 4*
- MSC 648 - Marine Benthic Habitat Mapping Techniques *Units: 4*
- MSC 651 - Marine Geochemistry *Units: 4*
- MSC 661 - Mixing, Estuarine and Sediment Transport *Units: 4*
- MSC 663 - Data Analysis Techniques in Marine Science *Units: 4*
- MSC 671 - Population Biology *Units: 3*
- MSC 672 - Subtidal Ecology *Units: 4*
- MSC 674 - Advanced Topics in Oceanography *Units: 4*
- MSC 680 - Scientific Writing *Units: 3*
- MSC 681 - Coastal Dynamics *Units: 4*
- MSC 689 - Research in Marine Science *Units: 2*
- MSC 697 - Graduate Seminar in Marine Science *Units: 2*

Capstone Requirement

Students must complete a committee-approved university thesis for 4 units. The thesis must conform to the CSUEB thesis guidelines and meet the academic standards of the MLML graduate program. An oral thesis defense in the form of a seminar open to the general public is required. The thesis committee must be present at the oral defense, may require further questioning after the seminar, and will evaluate the success of the presentation.

- MSC 691 - University Thesis *Units: 4*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Minor

Biological Sciences Minor

Minor Requirements (24 units)

The minor program is designed to provide students in other majors the opportunity to broaden their experience and understanding of the biological sciences, and may expand their educational and employment opportunities.

Required Courses

Take the following 14 units:

- BIOL 140A - Principles of Cell and Molecular Biology *Units: 5 ; G.E./G.R. Area: B2, B3*
- BIOL 140B - Principles of Organismal Biology *Units: 5*
- BIOL 310 - Genetic Analysis I *Units: 4*

Electives

Students must complete three (3) elective BIOL courses for a minimum of 10 units (5 units must be in upper-division coursework).

- • MSC 681 - Coastal Dynamics *Units: 4*
- • MSC 689 - Research in Marine Science *Units: 2*
- • MSC 690 - Independent Study *Units: 1-4*
- • MSC 691 - University Thesis *Units: 4*
- • MSC 697 - Graduate Seminar in Marine Science *Units: 2*

Certificate

Biotechnology Certificate Program

Biotechnology Certificate Program

Program Description

The Biotechnology Certificate Program (BCP) is a competitive, limited enrollment program emphasizing hands on training and theoretical instruction in the molecular life sciences. It was established in 1986 to meet the personnel requirements of the rapidly expanding Bay Area biotechnology industry. Each lab course provides a minimum of 90 hours of hands-on training and the curriculum is continually updated to meet the current needs of academic and commercial laboratories in biotechnology.

Degree Requirements

The 20-unit Biotechnology Certificate Program is designed to be completed in a typical academic year of two semesters. A certificate is awarded upon completion of a 2-day, cumulative exit exam.

Admission Requirements

- Possess a degree in any field in the biological sciences.
- Complete undergraduate courses equivalent to those required of biological science majors at CSUEB including a:
 - year of introductory biology
 - year of general chemistry
 - year of organic chemistry
 - quarter/semester of Microbiology*
 - quarter/semester of Biochemistry*
 - quarter/semester of Genetics*
 - quarter/semester of Molecular Cell Biology*
- Possess an overall GPA of 2.75 or greater.
- Possess a GPA of 3.0 or greater in all biology courses taken as an upper division student.

**Note: a strong applicant has taken these courses within the last 3 years.*

Biotechnology Certificate Requirements (20 units)

Foundation Courses

Take the following three (3) courses for 5 units:

- BIOL 601A - Foundations of Scientific Research *Units: 1*
- BIOL 601B - Foundations of Scientific Communication *Units: 1*
- BIOL 616 - Cell and Molecular Biology I *Units: 3*

Lab Courses

The following 15 units of lab coursework is required:

- BIOL 415 - PCR, Sequencing and Fragment Analysis *Units: 3*
- BIOL 424 - Bioinformatics *Units: 3*
- BIOL 425 - Techniques in Mammalian Cell Culture *Units: 3*
- BIOL 622 - Advanced Molecular Techniques *Units: 3*
- BIOL 620 - Functional Genomics *Units: 3*

Exit Exam

Completion of all required courses and a GPA of B or higher is a prerequisite for taking the exit exam. The exit exam will consist of 7 sections, one for each of the 6 required courses (excluding 601A and 601B) and one section of calculations relevant to the cell and molecular biologist. There are no units associated with the exam.

Courses

Biological Science

- BIOL 100 - Biology in the Real World *Units: 4 ; G.E./G.R. Area: B2, B3*
- BIOL 101 - Introduction to Biology *Units: 3 ; G.E./G.R. Area: B2*
- BIOL 102 - Introduction to Biology Lab *Units: 1 ; G.E./G.R. Area: B3*
- BIOL 140A - Principles of Cell and Molecular Biology *Units: 5 ; G.E./G.R. Area: B2, B3*
- BIOL 140B - Principles of Organismal Biology *Units: 5*
- BIOL 230 - Introduction to Clinical Microbiology *Units: 4 ; G.E./G.R. Area: B2, B3*
- BIOL 270 - Human Anatomy & Physiology I *Units: 4 ; G.E./G.R. Area: B2, B3*
- BIOL 271 - Human Anatomy & Physiology II *Units: 4*

- BIOL 301 - Biology Connections Laboratory *Units: 3*
- BIOL 302 - Biology Connections Laboratory *Units: 1*
- BIOL 310 - Genetic Analysis I *Units: 4*
- BIOL 315 - Marine Biology *Units: 4*
- BIOL 320 - Evolutionary Biology *Units: 3*
- BIOL 330 - General Microbiology *Units: 5*
- BIOL 333 - Humans and Sex *Units: 3 ; G.E./G.R. Area: B6; Diversity*
- BIOL 334 - Humans and the Living Planet *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- BIOL 335 - Humans: Health and Disease *Units: 3 ; G.E./G.R. Area: B6; Social Justice*
- BIOL 350 - Ecology *Units: 4*
- BIOL 352 - Biogeography *Units: 4*
- BIOL 356 - Freshwater Environments *Units: 4*
- BIOL 368 - Fungi of California *Units: 3*
- BIOL 370 - Animal Physiology *Units: 4*
- BIOL 372 - Microscopic Methods: Quantitative Analysis of Structure & Function *Units: 3*
- BIOL 398 - Internship *Units: 1-4*
- BIOL 410 - Genetic Analysis II *Units: 3*
- BIOL 415 - PCR, Sequencing and Fragment Analysis *Units: 3*
- BIOL 420 - Cell and Molecular Biology Undergraduate Seminar *Units: 2*
- BIOL 424 - Bioinformatics *Units: 3*
- BIOL 425 - Techniques in Mammalian Cell Culture *Units: 3*
- BIOL 426 - Advanced Molecular and Cell Biology *Units: 3*
- BIOL 427 - Molecular and Cell Biology Lab *Units: 3*
- BIOL 428 - Genomics *Units: 3*
- BIOL 430 - Microbial Physiology and Metabolism *Units: 3*
- BIOL 431 - Medical Microbiology *Units: 5*
- BIOL 432 - Microbe-Host Interactions *Units: 3*
- BIOL 433 - Microbial Ecology *Units: 3*
- BIOL 434 - Molecular Microbiology *Units: 3*
- BIOL 440 - Molecular Virology *Units: 3*
- BIOL 441 - Parasitology *Units: 3*
- BIOL 442 - Epidemiology *Units: 3*
- BIOL 443 - Hematology *Units: 4*
- BIOL 444 - Medical Entomology *Units: 3*
- BIOL 445 - Immunology *Units: 3*
- BIOL 454 - Biology of Fungi *Units: 4*
- BIOL 455 - Vertebrate Biology *Units: 4*
- BIOL 458 - Animal Behavior *Units: 4*
- BIOL 460 - Ecology and Evolutionary Biology Undergraduate Seminar *Units: 2*
- BIOL 466 - Population Biology *Units: 4*
- BIOL 468 - Molecular Ecology *Units: 4*
- BIOL 469 - Conservation Biology *Units: 4*
- BIOL 470 - Animal Senses *Units: 4*
- BIOL 471 - Neurobiology *Units: 3*
- BIOL 472 - Neurobiology Laboratory *Units: 4*
- BIOL 473 - Comparative Physiology *Units: 3*
- BIOL 474 - Biomedical Physiology *Units: 3*
- BIOL 475 - Global Change Biology *Units: 4*
- BIOL 476 - General Endocrinology *Units: 3*
- BIOL 488 - Environmental Physiology *Units: 3*
- BIOL 490 - Independent Study *Units: 1-4*

- • BIOL 497 - Issues in Biological Science *Units: 1-3*

Department of Chemistry and Biochemistry

The Department Office is located on the 4th Floor of the North Science building, Room 431.

We are open from 9:00 a.m. to 5:00 p.m., Monday through Friday.

Dept. Phone: (510) 885-3452

Faculty

Professors

Michael Groziak, Ph.D. Northwestern University

Chul-Hyun Kim, Ph.D. University of California, Berkeley

Anne T. Kotchevar, Ph.D. University of Minnesota, Minneapolis

Danika LeDuc, Ph.D. University of California, Berkeley

Maureen Scharberg, Ph.D. University of California, Davis

Monika Sommerhalter, Ph.D. Technische Universität Berlin (Germany)

Associate Professors

Patrick Fleming, Ph.D. The Ohio State University

Ann A. McPartland (Chair), Ph.D. Purdue University

Assistant Professors

Mark Borja, Ph.D. University of California, San Francisco

Marlin Halim, Ph.D. Columbia University

Patrick Huang, Ph.D. University of California, Berkeley

Aleksey Kocherzhenko, Ph.D. Delft University of Technology (The Netherlands)

Ruth Tinnacher, Ph.D. Colorado School of Mines

Graduate Coordinator: Chul-Hyun Kim

Department Statement

Chemistry is known as the central science because just about everything that we can touch and feel is made of chemicals. The many applications of chemistry to our lives have created a broad range of opportunities for employment. With a B.A., B.S., or M.S. degree in Chemistry, a student may find a research or technical position in the petroleum, chemical or food processing industries. B.A. and B.S. graduates with degrees in chemistry or biochemistry are also employed by pharmaceutical and biotechnology companies. In addition, graduates of chemistry or biochemistry work in sales and plant development, quality control, customer relations, and many other aspects of modern business. Combining the bachelor's degree in chemistry or biochemistry with a higher degree can lead to many unique and rewarding careers. The B.S. degree in biochemistry is particularly useful for those planning advance training in medicine, dentistry, pharmacy, or optometry. The B.A. in Chemistry and B.A. Biochemistry degrees with the Chemistry Education Concentration prepare students for entry into a single subject teaching credential program in chemistry. The B.S. and M.S. programs provide excellent preparation for the Ph.D. degree for the student who wants to make research and/or university teaching in chemistry or biochemistry a primary occupation. Chemical research is at the heart of progress that is made in the development of pharmaceuticals, agriculture, nutrition, the environment, and our understanding of nature.

In general, the outlook is bright for anyone who wishes to study chemistry or biochemistry.

Bachelor

Biochemistry, B.A.

Biochemistry, B.A. Program (120 units)

Program Description

The Department of Chemistry and Biochemistry provides a strong education in chemistry and biochemistry that prepares its students to function and thrive in society. The department attempts to increase the problem solving and critical thinking skills of all students. Non-science students learn about the scientific and chemical aspects of everyday life that allow them to understand issues related to the environment, energy production, disease prevention, and nutrition. Students of the sciences learn the fundamentals of chemistry that control the interactions of elements and molecules. Building on an understanding of mathematics, physics, and biology, biochemistry majors receive a background in the major disciplines of chemistry including inorganic, analytical, organic, and physical, and take in-depth coursework in biochemistry. Students learn the protocols and techniques for working safely with chemicals and biochemicals. The department recognizes the importance of the pursuit of new knowledge in the development of skilled scientists and productive members of society, and encourages its students to participate in research projects and cooperative educational opportunities.

The undergraduate programs offered by the department include: Chemistry, B.S.; Biochemistry, B.S.; Chemistry, Bioanalytical and Forensics Concentration, B.S.; Chemistry, B.A.; Chemistry, Chemistry Education Concentration, B.A.; Biochemistry, B.A.; Biochemistry, Chemistry Education Concentration, B.A.; and a Chemistry Minor. Descriptions of these programs and their requirements can be found under each degree listing. The department also offers a Chemistry, M.S. degree and a Chemistry M.S., Concentration in Biochemistry. See under program listings for descriptions.

The Biochemistry, B.A. degree prepares students for employment in biochemistry, biotechnology and related fields. It can also serve as preparation for professional health-related programs such as pharmacy or medicine. The Biochemistry, B.A.: Chemistry Education Concentration is designed for students interested in teaching chemistry at the high school level but also prepares graduates to work as biochemists in industry or government. This program prepares students to enter a single subject credential program.

Mission Statement

It is imperative that CSUEB chemistry students possess sufficient theoretical and practical training in chemistry and biochemistry so that they will be able to assume the significant technical responsibilities required by the chemical and biotechnology industries that will employ them. It is important that students are not only trained in chemistry (and biochemistry), but that they will become respected scientists and research technicians. In addition, it is important that students planning for entrance into Ph.D. programs or pre-professional programs are adequately prepared.

Program Learning Outcomes

- Students graduating with a Bachelor's degree in Chemistry or Biochemistry from Cal State East Bay will be able to:
- Demonstrate knowledge in the various areas of chemistry, including inorganic chemistry, analytical chemistry, organic chemistry, physical chemistry, and biochemistry.
- Use quantitative reasoning to analyze and solve chemical problems and evaluate chemical data.
- Work effectively and safely in a laboratory environment to perform experimental procedures and operate modern chemical/biochemical instruments.
- Design, carry out, record and analyze the results of chemical and biochemical experiments.
- Communicate chemical or biochemical issues clearly.

Career Opportunities

Analytical Chemist • Biotechnologist • Biochemist • Biophysicist • Dietitian • Food and Drug Inspector • Geochemist • Health Professional • Materials Scientist • Perfumer • Petrologist • Pharmacist • Pharmaceutical Chemist • Pollution Control • Quality Control Technician • Teacher • Water Purification Chemist

Features

Laboratory equipment and instruments in the Department of Chemistry and Biochemistry include a 500 MHz nuclear magnetic resonance (NMR) spectrometer, a capillary gas chromatograph with mass-spectral detection (GC/MS), Fourier-transform infrared spectrophotometers (FTIR), an inductive coupled plasma optical emission spectrometer (ICP-OES), high performance liquid chromatograph (HP), a fast protein liquid chromatograph (FPLC), a fluorescence spectrometer, a diode-array ultraviolet-visible spectrophotometer, a plate reader, a molecular imager, thermocyclers and microwave synthesizers. A molecular modeling facility is also available for instruction and research.

The Alchemist Club, a student affiliate of the American Chemical Society, is available to students majoring in Chemistry. The club members are active in many aspects of the department, participate in fund-raising for special projects, and take interesting field trips to local industries.

Preparation and Prerequisites

Prerequisite courses for all chemistry courses must be passed with a grade of "C-" or better. Requests for Grade Forgiveness will be allowed only on a space-available basis.

Degree Requirements Unit-Outline

- The baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 70-78 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Biochemistry (B.A.) Major Requirements (70-78 units)

The Bachelor of Arts degree, major in Biochemistry, is designed to prepare students for employment in biochemistry, biotechnology, and related fields. It can also be utilized by students as a preparation for professional health-related programs, secondary school teaching, or non-traditional career paths (e.g., computer science, bioinformatics, business administration, and pharmaceutical sales). Students electing to pursue the B.A. in Biochemistry Degree could also earn a minor in another appropriate discipline such as biology.

Lower Division Core

Take the following lower-division courses for 39 units:

- BIOL 140A - Principles of Cell and Molecular Biology Units: 5 ; G.E./G.R. Area: B2, B3
- BIOL 140B - Principles of Organismal Biology Units: 5
- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
- CHEM 112 - General Chemistry II Units: 5
- CHEM 220 - Quantitative Analysis Units: 4
- MATH 130 - Calculus I Units: 4 ; G.E./G.R. Area: B4
- MATH 131 - Calculus II Units: 3
- And choose one (1) of the two following pairs:
Note: Students who have selected the Chemistry Education concentration must take PHYS 125 and PHYS 126.
- PHYS 125 - Principles of Physics I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 126 - Principles of Physics II Units: 4 ; G.E./G.R. Area: B1, B3
- or
- PHYS 135 - Physics for Scientists and Engineers I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 136 - Physics for Scientists and Engineers II Units: 4

Upper Division Core

Take the following upper-division courses for 25 units:

- CHEM 331 - Organic Chemistry I Units: 5
- CHEM 332 - Organic Chemistry II Units: 5
- CHEM 350 - Biophysical Chemistry Units: 3
- or CHEM 351 - Physical Chemistry I Units: 3
- CHEM 441 - Biochemistry I Units: 4
- CHEM 442 - Biochemistry II Units: 4
- CHEM 443 - Biochemistry Laboratory I Units: 3
- CHEM 470 - Chemical Literature Units: 1

Additional Coursework

Students NOT taking the Chemistry concentration are required to complete a minimum of 6 units of coursework as outlined below.

The following 3 units of labwork is required:

- CHEM 444 - Biochemistry Laboratory II Units: 3

Plus, choose a minimum of three (3) units from the following:

- BIOL 310 - Genetic Analysis I Units: 4
- CHEM 445 - Protein Structure Units: 3
- CHEM 446 - Nucleic Acid Chemistry Units: 3
- CHEM 447 - Major Organ Biochemistry Units: 3

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- • CHEM 233 - Fundamentals of Organic Chemistry *Units: 3*
- • CHEM 301 - Chemistry Connections *Units: 3 ; G.E./G.R. Area: B6*
- • CHEM 302 - Chemistry Connections Laboratory *Units: 1*
- • CHEM 320 - Bioanalytical and Forensic Instrumentation *Units: 3*
- • CHEM 331 - Organic Chemistry I *Units: 5*
- • CHEM 332 - Organic Chemistry II *Units: 5*
- • CHEM 340 - Survey of Biochemistry *Units: 3*
- • CHEM 350 - Biophysical Chemistry *Units: 3*
- • CHEM 351 - Physical Chemistry I *Units: 3*
- • CHEM 352 - Physical Chemistry II *Units: 3*
- • CHEM 355 - Physical Chemistry Laboratory *Units: 2*
- • CHEM 410 - Advanced Inorganic Chemistry *Units: 4*
- • CHEM 415 - Inorganic Chemistry Laboratory *Units: 2*
- • CHEM 420 - Instrumental Analysis *Units: 3*
- • CHEM 425 - Environmental Chemistry *Units: 4*
- • CHEM 430 - Advanced Organic Chemistry *Units: 3*
- • CHEM 441 - Biochemistry I *Units: 4*
- • CHEM 442 - Biochemistry II *Units: 4*
- • CHEM 443 - Biochemistry Laboratory I *Units: 3*
- • CHEM 444 - Biochemistry Laboratory II *Units: 3*
- • CHEM 445 - Protein Structure *Units: 3*
- • CHEM 446 - Nucleic Acid Chemistry *Units: 3*
- • CHEM 447 - Major Organ Biochemistry *Units: 3*
- • CHEM 450 - Classical and Statistical Thermodynamics *Units: 3*

- • CHEM 470 - Chemical Literature *Units: 1*
- • CHEM 480 - Undergraduate Research *Units: 1-2*
- • CHEM 481 - Senior Thesis *Units: 1-2*
- • CHEM 490 - Independent Study *Units: 1-4*

Chemistry: Courses for Non-Science Majors

- • CHEM 106 - Chemistry and Society *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- • CHEM 304 - Chemistry of Wine Making *Units: 3 ; G.E./G.R. Area: B6*
- • CHEM 306 - Green Chemistry and Sustainability *Units: 3 ; G.E./G.R. Area: B6*

Chemistry: Graduate

- • CHEM 621 - Molecular Spectroscopy *Units: 3*
- • CHEM 631 - Graduate Organic Chemistry *Units: 3*
- • CHEM 641 - Graduate Biochemistry *Units: 3*
- • CHEM 642 - Protein Chemistry Techniques *Units: 3*
- • CHEM 651 - Graduate Physical Chemistry *Units: 3*
- • CHEM 652 - Computational Chemistry *Units: 3*
- • CHEM 680 - Seminar *Units: 1*
- • CHEM 681 - Research *Units: 1-2*
- • CHEM 690 - Independent Study *Units: 1-3*
- • CHEM 691 - University Thesis *Units: 2*
- • CHEM 692 - Comprehensive Exam *Units: 2*
- • CHEM 693 - Review Paper *Units: 2*
- • CHEM 697 - Issues in Chemistry *Units: 3*

Biochemistry, B.A.: Chemistry Education Concentration

Biochemistry, B.A. Program (120 units)

Program Description

The Department of Chemistry and Biochemistry provides a strong education in chemistry and biochemistry that prepares its students to function and thrive in society. The department attempts to increase the problem solving and critical thinking skills of all students. Non-science students learn about the scientific and chemical aspects of everyday life that allow them to understand issues related to the environment, energy production, disease prevention, and nutrition. Students of the sciences learn the fundamentals of chemistry that control the interactions of elements and molecules. Building on an understanding of mathematics, physics, and biology, biochemistry majors receive a background in the major disciplines of chemistry including inorganic, analytical, organic, and physical, and take in-depth coursework in biochemistry. Students learn the protocols and techniques for working safely with chemicals and biochemicals. The department recognizes the importance of the pursuit of new knowledge in the development of skilled scientists and productive members of society, and encourages its students to participate in research projects and cooperative educational opportunities.

The undergraduate programs offered by the department include: Chemistry, B.S.; Biochemistry, B.S.; Chemistry, Bioanalytical and Forensics Concentration, B.S.; Chemistry, B.A.; Chemistry, Chemistry Education Concentration, B.A.; Biochemistry, B.A.; Biochemistry, Chemistry Education Concentration, B.A.; and a Chemistry Minor. Descriptions of these programs and their requirements can be found under each degree listing. The department also offers a Chemistry, M.S. degree and a Chemistry M.S., Concentration in Biochemistry. See under program listings for descriptions.

The Biochemistry, B.A. degree prepares students for employment in biochemistry, biotechnology and related fields. It can also serve as preparation for professional health-related programs such as pharmacy or medicine. The Biochemistry, B.A.: Chemistry Education Concentration is designed for students interested in teaching chemistry at the high school level but also prepares graduates to work as biochemists in industry or government. This program prepares students to enter a single subject credential program.

Mission Statement

It is imperative that CSUEB chemistry students possess sufficient theoretical and practical training in chemistry and biochemistry so that they will be able to assume the significant technical responsibilities required by the chemical and biotechnology industries that will employ them. It is important that students are not only trained in chemistry (and biochemistry), but that they will become respected scientists and research technicians. In addition, it is important that students planning for entrance into Ph.D. programs or pre-professional programs are adequately prepared.

Program Learning Outcomes

- Students graduating with a Bachelor's degree in Chemistry or Biochemistry from Cal State East Bay will be able to:
- Demonstrate knowledge in the various areas of chemistry, including inorganic chemistry, analytical chemistry, organic chemistry, physical chemistry, and biochemistry.
- Use quantitative reasoning to analyze and solve chemical problems and evaluate chemical data.
- Work effectively and safely in a laboratory environment to perform experimental procedures and operate modern chemical/biochemical instruments.
- Design, carry out, record and analyze the results of chemical and biochemical experiments.
- Communicate chemical or biochemical issues clearly.

Career Opportunities

Analytical Chemist • Biotechnologist • Biochemist • Biophysicist • Dietitian • Food and Drug Inspector • Geochemist • Health Professional • Materials Scientist • Perfumer • Petrologist • Pharmacist • Pharmaceutical Chemist • Pollution Control • Quality Control Technician • Teacher • Water Purification Chemist

Features

Laboratory equipment and instruments in the Department of Chemistry and Biochemistry include a 500 MHz nuclear magnetic resonance (NMR) spectrometer, a capillary gas chromatograph with mass-spectral detection (GC/MS), Fourier-transform infrared spectrophotometers (FTIR), an inductive coupled plasma optical emission spectrometer (ICP-OES), high performance liquid chromatograph (HPLC), a fast protein liquid chromatograph (FPLC), a fluorescence spectrometer, a diode-array ultraviolet-visible spectrophotometer, a plate reader, a molecular imager, thermocyclers and microwave synthesizers. A molecular modeling facility is also available for instruction and research.

The Alchemist Club, a student affiliate of the American Chemical Society, is available to students majoring in Chemistry. The club members are active in many aspects of the department, participate in fund-raising for special projects, and take interesting field trips to local industries.

Preparation and Prerequisites

Prerequisite courses for all chemistry courses must be passed with a grade of "C-" or better. Requests for Grade Forgiveness will be allowed only on a space-available basis.

Degree Requirements Unit-Outline

- The baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 70-78 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Biochemistry (B.A.) Major Requirements (70-78 units)

The Bachelor of Arts degree, major in Biochemistry, is designed to prepare students for employment in biochemistry, biotechnology, and related fields. It can also be utilized by students as a preparation for professional health-related programs, secondary school teaching, or non-traditional career paths (e.g., computer science, bioinformatics, business administration, and pharmaceutical sales). Students electing to pursue the B.A. in Biochemistry Degree could also earn a minor in another appropriate discipline such as biology.

Lower Division Core

Take the following lower-division courses for 39 units:

- BIOL 140A - Principles of Cell and Molecular Biology Units: 5 ; G.E./G.R. Area: B2, B3
- BIOL 140B - Principles of Organismal Biology Units: 5
- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
- CHEM 112 - General Chemistry II Units: 5
- CHEM 220 - Quantitative Analysis Units: 4
- MATH 130 - Calculus I Units: 4 ; G.E./G.R. Area: B4
- MATH 131 - Calculus II Units: 3
- And choose one (1) of the two following pairs:

Note: Students who have selected the Chemistry Education concentration must take PHYS 125 and PHYS 126.
- PHYS 125 - Principles of Physics I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 126 - Principles of Physics II Units: 4 ; G.E./G.R. Area: B1, B3
- or
- PHYS 135 - Physics for Scientists and Engineers I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 136 - Physics for Scientists and Engineers II Units: 4

Upper Division Core

Take the following upper-division courses for 25 units:

- CHEM 331 - Organic Chemistry I *Units: 5*
- CHEM 332 - Organic Chemistry II *Units: 5*
- CHEM 350 - Biophysical Chemistry *Units: 3*
- or CHEM 351 - Physical Chemistry I *Units: 3*
- CHEM 441 - Biochemistry I *Units: 4*
- CHEM 442 - Biochemistry II *Units: 4*
- CHEM 443 - Biochemistry Laboratory I *Units: 3*
- CHEM 470 - Chemical Literature *Units: 1*

Chemistry Education Concentration (14 units)

The Bachelor of Arts degree, major in Biochemistry with a concentration in Chemistry Education, is designed for students interested in a career teaching chemistry at the high school level, but also prepares students to work as biochemists in an industrial setting. This program will prepare graduates to enter a single subject credential program.

- CHEM 425 - Environmental Chemistry *Units: 4*
- GEOL 100 - Earth Systems Science *Units: 4 ; G.E./G.R. Area: B1, B3; Sustainability*
- PHIL 335 - Philosophy of Science *Units: 3 ; G.E./G.R. Area: C4*
- TED 301 - Introduction to Education *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- • CHEM 445 - Protein Structure *Units: 3*
- • CHEM 446 - Nucleic Acid Chemistry *Units: 3*
- • CHEM 447 - Major Organ Biochemistry *Units: 3*
- • CHEM 450 - Classical and Statistical Thermodynamics *Units: 3*
- • CHEM 470 - Chemical Literature *Units: 1*
- • CHEM 480 - Undergraduate Research *Units: 1-2*
- • CHEM 481 - Senior Thesis *Units: 1-2*
- • CHEM 490 - Independent Study *Units: 1-4*

Chemistry: Courses for Non-Science Majors

- • CHEM 106 - Chemistry and Society *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- • CHEM 304 - Chemistry of Wine Making *Units: 3 ; G.E./G.R. Area: B6*
- • CHEM 306 - Green Chemistry and Sustainability *Units: 3 ; G.E./G.R. Area: B6*

Chemistry: Graduate

- • CHEM 621 - Molecular Spectroscopy *Units: 3*
- • CHEM 631 - Graduate Organic Chemistry *Units: 3*
- • CHEM 641 - Graduate Biochemistry *Units: 3*
- • CHEM 642 - Protein Chemistry Techniques *Units: 3*
- • CHEM 651 - Graduate Physical Chemistry *Units: 3*
- • CHEM 652 - Computational Chemistry *Units: 3*
- • CHEM 680 - Seminar *Units: 1*
- • CHEM 681 - Research *Units: 1-2*
- • CHEM 690 - Independent Study *Units: 1-3*
- • CHEM 691 - University Thesis *Units: 2*
- • CHEM 692 - Comprehensive Exam *Units: 2*
- • CHEM 693 - Review Paper *Units: 2*
- • CHEM 697 - Issues in Chemistry *Units: 3*

Biochemistry, B.S.

Biochemistry, B.S. Program (120 units)

Program Description

The Department of Chemistry and Biochemistry provides a strong education in chemistry and biochemistry that prepares its students to function and thrive in our society. The department attempts to increase the problem solving and critical thinking skills of all students. Non-science students learn about the scientific and chemical aspects of everyday life that allow them to understand issues related to the environment, energy production, disease prevention, and nutrition. Students of the sciences learn the fundamentals of chemistry that control the interactions of elements and molecules. Building on an understanding of mathematics, physics, and biology, biochemistry majors receive a background in the major disciplines of chemistry including inorganic, analytical, organic, and physical, and take in-depth coursework in biochemistry. Students learn the protocols and techniques for working safely with chemicals and biochemicals. The department recognizes the importance of the pursuit of new knowledge in the development of skilled scientists and productive members of society, and encourages its students to participate in research projects and cooperative educational opportunities.

The undergraduate programs offered by the department include: Chemistry, B.S.; Biochemistry, B.S.; Chemistry, Bioanalytical and Forensics Concentration, B.S.; Chemistry, B.A.; Chemistry, Chemistry Education Concentration, B.A.; Biochemistry, B.A.; Biochemistry, Chemistry Education Concentration, B.A.; and a Chemistry Minor. Descriptions of these programs and their requirements can be found under each degree listing. The department also offers a Chemistry, M.S. and a Chemistry M.S. Concentration in Biochemistry. See program listings for descriptions.

The Bachelor of Science degree, major in Biochemistry, is designed to prepare students for entrance into graduate programs of biochemistry and professional health-related programs such as pharmacy, dentistry or medicine. In addition, students completing this program are prepared to secure employment in the areas of biochemistry, biotechnology and related fields. This program is intended for students desiring the highest degree of technical proficiency in this specialized area at the undergraduate level.

Mission Statement

It is imperative that CSUEB chemistry students possess sufficient theoretical and practical training in chemistry and biochemistry so that they will be able to assume the significant technical responsibilities required by the chemical and biotechnology industries that will employ them. It is important that students are not only trained in chemistry (and biochemistry), but that they will become respected scientists and research technicians. In addition, it is important that students planning for entrance into Ph.D. programs or pre-professional programs are adequately prepared.

Program Learning Outcomes

Students graduating with a Bachelor's degree in Chemistry or Biochemistry from Cal State East Bay will be able to:

- Demonstrate knowledge in the various areas of chemistry, including inorganic chemistry, analytical chemistry, organic chemistry, physical chemistry, and biochemistry.
- Use quantitative reasoning to analyze and solve chemical and biochemical problems and evaluate chemical data.

- Work effectively and safely in a laboratory environment to perform experimental procedures and operate modern chemical/biochemical instruments.
- Design, carry out, record and analyze the results of chemical and biochemical experiments.
- Communicate chemical or biochemical issues clearly.

Career Opportunities

Analytical Chemist • Biotechnologist • Biochemist • Biophysicist • Dietitian • Environmental Chemist • Food and Drug Inspector • Forensic Chemist • Geochemist • Health Professional • Materials Scientist • Organic Chemist • Perfumer • Petrologist • Pharmacist • Pharmaceutical Chemist • Pollution Control • Quality Control Technician • Teacher • Water Purification Chemist

Features

Laboratory equipment and instruments in the Department of Chemistry and Biochemistry include a 500 MHz nuclear magnetic resonance (NMR) spectrometer, a capillary gas chromatograph with mass-spectral detection (GC/MS), Fourier-transform infrared spectrophotometers (FTIR), an inductively coupled plasma- optical emission spectrometer (ICP-OES), high performance liquid chromatographs (HPLC), a fast protein liquid chromatograph (FPLC), a fluorescence spectrometer, a diode-array ultraviolet-visible spectrophotometer, a plate reader, a molecular imager, thermocyclers and microwave synthesizers. A molecular modeling facility is also available for instruction and research.

The Alchemist Club, a student affiliate of the American Chemical Society, is available to students majoring in Chemistry. The club members are active in many aspects of the department, participate in fund-raising for special projects, and take interesting field trips to local industries.

Preparation and Prerequisites

Prerequisite courses for all chemistry and biochemistry courses must be passed with a grade of "C-" or better. Requests for Grade Forgiveness will be allowed only on a space-available basis.

Other Degree Requirements

In addition to major requirements, every student must also complete the University requirements for graduation which are described in the Baccalaureate Degree Requirements chapter in this catalog. These include the General Education requirements; the University Writing Skills Requirement; and the residence, unit, and grade point average requirements.

Degree Requirements Unit-Outline

- A baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 75 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (actual # of free elective units may depend on GE/GR units).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Biochemistry (B.S.) Major Requirements (75 units)

Lower Division Core

The following 42 units of interdisciplinary coursework is required:

- BIOL 140A - Principles of Cell and Molecular Biology *Units: 5 ; G.E./G.R. Area: B2, B3*
- BIOL 140B - Principles of Organismal Biology *Units: 5*
- CHEM 111 - General Chemistry I *Units: 5 ; G.E./G.R. Area: B1, B3*
- CHEM 112 - General Chemistry II *Units: 5*
- CHEM 220 - Quantitative Analysis *Units: 4*
- MATH 130 - Calculus I *Units: 4 ; G.E./G.R. Area: B4*
- MATH 131 - Calculus II *Units: 3*
- MATH 230 - Calculus III *Units: 3*
- PHYS 135 - Physics for Scientists and Engineers I *Units: 4 ; G.E./G.R. Area: B1, B3*
- PHYS 136 - Physics for Scientists and Engineers II *Units: 4*

Upper Division Core

The following 30 units of upper-division coursework is required:

- CHEM 331 - Organic Chemistry I *Units: 5*
- CHEM 332 - Organic Chemistry II *Units: 5*
- CHEM 351 - Physical Chemistry I *Units: 3*
- CHEM 352 - Physical Chemistry II *Units: 3*
- CHEM 441 - Biochemistry I *Units: 4*
- CHEM 442 - Biochemistry II *Units: 4*
- CHEM 443 - Biochemistry Laboratory I *Units: 3*
- CHEM 444 - Biochemistry Laboratory II *Units: 3*

Elective Courses

Choose one (1) course from the following for 3 units:

- CHEM 445 - Protein Structure *Units: 3*
- CHEM 446 - Nucleic Acid Chemistry *Units: 3*
- CHEM 447 - Major Organ Biochemistry *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Chemistry, B.A.

Chemistry, B.A. Program (120 units)

Program Description

The Department of Chemistry and Biochemistry provides a strong education in chemistry and biochemistry that prepares its students to function and thrive in our society. The department attempts to increase the problem solving and critical thinking skills of all students. Non-science students learn about the scientific and chemical aspects of everyday life that allow them to understand issues related to the environment, energy production, disease prevention, and nutrition. Students of the sciences learn the fundamentals of chemistry that control the interactions of elements and molecules. Chemistry majors receive extensive instruction in predicting chemical reactivity. Building on an understanding of mathematics and physics, chemistry majors receive a background in the major disciplines of chemistry including inorganic, analytical, organic, physical, and biochemistry. Students learn the protocols and techniques for working safely with chemicals. The department recognizes the importance of the pursuit of new knowledge in the development of skilled scientists and productive members of society, and encourages its students to participate in research projects and cooperative educational opportunities.

The undergraduate programs offered by the department include: Chemistry, B.S.; Biochemistry, B.S.; Chemistry, Bioanalytical and Forensics Concentration, B.S.; Chemistry, B.A.; Chemistry, Chemistry Education Concentration, B.A.; Biochemistry, B.A.; Biochemistry, Chemistry Education Concentration, B.A.; and a Chemistry Minor. Descriptions of these programs and their requirements can be found under each degree listing. The department also offers a Chemistry M.S. degree and a Chemistry, M.S. Concentration in Biochemistry. See under program listings for descriptions.

The Chemistry, B.A. degree prepares students for work as chemists in a variety of careers in industry or government. The Chemistry, Chemistry Education Concentration, B.A. program is designed for students interested in teaching at the high school level but also prepares graduates to work as chemists in industry or government.

Mission Statement

It is imperative that CSUEB chemistry students possess sufficient theoretical and practical training in chemistry and biochemistry so that they will be able to assume the significant technical responsibilities required by the chemical and biotechnology industries that will employ them. It is important that our students are not only trained in chemistry (and biochemistry), but that they will become respected scientists and research technicians. In addition, it is important that students planning for entrance into Ph.D. programs or pre-professional programs are adequately prepared.

Program Learning Outcomes

Students graduating with a Bachelor's degree in Chemistry or Biochemistry from Cal State East Bay will be able to:

- Demonstrate knowledge in the various areas of chemistry, including inorganic chemistry, analytical chemistry, organic chemistry, physical chemistry, and biochemistry.

Preparation and Prerequisites

Prerequisite courses for all chemistry courses must be passed with a grade of "C-" or better. Requests for Grade Forgiveness will be allowed only on a space-available basis.

Degree Requirements Unit-Outline

- The baccalaureate degree requires a total of 120 units:
 - The major requirements consists of 55-63 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0-8 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Chemistry (B.A.) Major Requirements (55-63 units)

The Bachelor of Arts degree, major in Chemistry, is intended for students who would like to use their knowledge of chemistry as a starting point for a career in medicine, molecular biology, dentistry, teaching, environmental remediation, law, or business.

Lower Division Core

The following 29 units of lower-division courses are required:

- CHEM 111 - General Chemistry I *Units: 5 ; G.E./G.R. Area: B1, B3*
- CHEM 112 - General Chemistry II *Units: 5*
- CHEM 220 - Quantitative Analysis *Units: 4*
- MATH 130 - Calculus I *Units: 4 ; G.E./G.R. Area: B4*
- MATH 131 - Calculus II *Units: 3*
- And choose one (1) of the two following pairs:

Note: Students who have selected the Chemistry Education concentration must take PHYS 125 and PHYS 126.

 - PHYS 125 - Principles of Physics I *Units: 4 ; G.E./G.R. Area: B1, B3*
 - PHYS 126 - Principles of Physics II *Units: 4 ; G.E./G.R. Area: B1, B3*
- or
- PHYS 135 - Physics for Scientists and Engineers I *Units: 4 ; G.E./G.R. Area: B1, B3*
- PHYS 136 - Physics for Scientists and Engineers II *Units: 4*

Upper Division Core

The following 20 units of upper-division courses are required:

- CHEM 320 - Bioanalytical and Forensic Instrumentation *Units: 3*
- CHEM 331 - Organic Chemistry I *Units: 5*
- CHEM 332 - Organic Chemistry II *Units: 5*
- CHEM 340 - Survey of Biochemistry *Units: 3*
- CHEM 350 - Biophysical Chemistry *Units: 3*
- CHEM 470 - Chemical Literature *Units: 1*

Elective Courses

Students not choosing the concentration in Chemistry Education coursework must complete a minimum of six (6) units from the following:

- CHEM 410 - Advanced Inorganic Chemistry *Units: 4*
- CHEM 415 - Inorganic Chemistry Laboratory *Units: 2*
- CHEM 420 - Instrumental Analysis *Units: 3*
- CHEM 425 - Environmental Chemistry *Units: 4*
- CHEM 430 - Advanced Organic Chemistry *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Chemistry, B.A.: Chemistry Education Concentration

Chemistry, B.A. Program (120 units)

Program Description

The Department of Chemistry and Biochemistry provides a strong education in chemistry and biochemistry that prepares its students to function and thrive in our society. The department attempts to increase the problem solving and critical thinking skills of all students. Non-science students learn about the scientific and chemical aspects of everyday life that allow them to understand issues related to the environment, energy production, disease prevention, and nutrition. Students of the sciences learn the fundamentals of chemistry that control the interactions of elements and molecules. Chemistry majors receive extensive instruction in predicting chemical reactivity. Building on an understanding of mathematics and physics, chemistry majors receive a background in the major disciplines of chemistry including inorganic, analytical, organic, physical, and biochemistry. Students learn the protocols and techniques for working safely with chemicals. The department recognizes the importance of the pursuit of

new knowledge in the development of skilled scientists and productive members of society, and encourages its students to participate in research projects and cooperative educational opportunities.

The undergraduate programs offered by the department include: Chemistry, B.S.; Biochemistry, B.S.; Chemistry, Bioanalytical and Forensics Concentration, B.S.; Chemistry, B.A.; Chemistry, Chemistry Education Concentration, B.A.; Biochemistry, B.A.; Biochemistry, Chemistry Education Concentration, B.A.; and a Chemistry Minor. Descriptions of these programs and their requirements can be found under each degree listing. The department also offers a Chemistry M.S. degree and a Chemistry, M.S. Concentration in Biochemistry. See under program listings for descriptions.

The Chemistry, B.A. degree prepares students for work as chemists in a variety of careers in industry or government. The Chemistry, Chemistry Education Concentration, B.A. program is designed for students interested in teaching at the high school level but also prepares graduates to work as chemists in industry or government.

Mission Statement

It is imperative that CSUEB chemistry students possess sufficient theoretical and practical training in chemistry and biochemistry so that they will be able to assume the significant technical responsibilities required by the chemical and biotechnology industries that will employ them. It is important that our students are not only trained in chemistry (and biochemistry), but that they will become respected scientists and research technicians. In addition, it is important that students planning for entrance into Ph.D. programs or pre-professional programs are adequately prepared.

Program Learning Outcomes

Students graduating with a Bachelor's degree in Chemistry or Biochemistry from Cal State East Bay will be able to:

- Demonstrate knowledge in the various areas of chemistry, including inorganic chemistry, analytical chemistry, organic chemistry, physical chemistry, and biochemistry.
- Use quantitative reasoning to analyze and solve chemical problems and evaluate chemical data.
- Work effectively and safely in a laboratory environment to perform experimental procedures and operate modern chemical/biochemical instruments.
- Design, carry out, record and analyze the results of chemical experiments.
- Communicate chemical or biochemical issues clearly.

Career Opportunities

Analytical Chemist • Dietitian • Environmental Chemist • Food and Drug Inspector • Geochemist • Materials Scientist • Organic Chemist • Perfumer • Petrologist • Pharmaceutical Chemist • Pollution Control • Quality Control Technician • Teacher • Water Purification Chemist

Features

Laboratory equipment and instruments in the Department of Chemistry and Biochemistry include a 500 MHz nuclear magnetic resonance (NMR) spectrometer, a capillary gas chromatograph with mass-spectral detection (GC/MS), Fourier-transform infrared spectrophotometers (FTIR), an inductively coupled plasma-optical emission spectrometer (ICP-OES), high performance liquid chromatographs (HPLC), a fast protein liquid chromatograph (FPLC), a fluorescence spectrometer, a diode-array ultraviolet-visible

spectrophotometer, a plate reader, a molecular imager and microwave synthesizers. A molecular modeling facility is also available for instruction and research.

The Alchemist Club, a student affiliate of the American Chemical Society, is available to students majoring in Chemistry. The club members are active in many aspects of the department, participate in fund-raising for special projects, and take interesting field trips to local industries.

Preparation and Prerequisites

Prerequisite courses for all chemistry courses must be passed with a grade of "C-" or better. Requests for Grade Forgiveness will be allowed only on a space-available basis.

Degree Requirements Unit-Outline

- The baccalaureate degree requires a total of 120 units:
 - The major requirements consists of 55-63 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0-8 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AAC&E advisors for information.

Chemistry (B.A.) Major Requirements (55-63 units)

The Bachelor of Arts degree, major in Chemistry, is intended for students who would like to use their knowledge of chemistry as a starting point for a career in medicine, molecular biology, dentistry, teaching, environmental remediation, law, or business.

Lower Division Core

The following 29 units of lower-division courses are required:

- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
- CHEM 112 - General Chemistry II Units: 5
- CHEM 220 - Quantitative Analysis Units: 4
- MATH 130 - Calculus I Units: 4 ; G.E./G.R. Area: B4
- MATH 131 - Calculus II Units: 3
- And choose one (1) of the two following pairs:

Note: Students who have selected the Chemistry Education concentration must take PHYS 125 and PHYS 126.

- PHYS 125 - Principles of Physics I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 126 - Principles of Physics II Units: 4 ; G.E./G.R. Area: B1, B3
- or
- PHYS 135 - Physics for Scientists and Engineers I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 136 - Physics for Scientists and Engineers II Units: 4

Upper Division Core

The following 20 units of upper-division courses are required:

- CHEM 320 - Bioanalytical and Forensic Instrumentation *Units: 3*
- CHEM 331 - Organic Chemistry I *Units: 5*
- CHEM 332 - Organic Chemistry II *Units: 5*
- CHEM 340 - Survey of Biochemistry *Units: 3*
- CHEM 350 - Biophysical Chemistry *Units: 3*
- CHEM 470 - Chemical Literature *Units: 1*

Chemistry Education Concentration

The Bachelor of Arts degree, major in Chemistry with a 14-unit concentration in Chemistry Education, is designed for students interested in a career teaching chemistry at the high school level, but also prepares students to work in the chemical industry. This program prepares graduates to enter a single subject credential program.

- BIOL 100 - Biology in the Real World *Units: 4 ; G.E./G.R. Area: B2, B3*
- GEOL 100 - Earth Systems Science *Units: 4 ; G.E./G.R. Area: B1, B3; Sustainability*
- PHIL 335 - Philosophy of Science *Units: 3 ; G.E./G.R. Area: C4*
- TED 301 - Introduction to Education *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Chemistry, B.S.

Chemistry, B.S. Program (120 units)

Program Description

The Department of Chemistry and Biochemistry provides a strong education in chemistry and biochemistry that prepares its students to function and thrive in our society. The department attempts to increase the problem solving and critical thinking skills of all students. Non-science students learn about the scientific and chemical aspects of everyday life that allow them to understand issues related to the environment, energy production, disease prevention, and nutrition. Students of the sciences learn the fundamentals of chemistry that control the interactions of elements and molecules. Chemistry majors receive extensive instruction in predicting chemical reactivity. Building on an understanding of mathematics and physics, chemistry majors receive a background in the major disciplines of chemistry including inorganic, analytical, organic, physical, and biochemistry. Students learn the protocols and techniques for working safely with chemicals. The department recognizes the importance of the pursuit of new knowledge in the development of skilled scientists and productive members of society, and encourages its students to participate in research projects and cooperative educational opportunities.

The undergraduate programs offered by the department include: Chemistry, B.S.; Biochemistry, B.S.; Chemistry, Bioanalytical and Forensics Concentration, B.S.; Chemistry, B.A.; Chemistry, Chemistry Education Concentration, B.A.; Biochemistry, B.A.; Biochemistry, Chemistry Education Concentration, B.A.; and a Chemistry Minor. Descriptions of these programs and their requirements can be found under each degree listing. The department also offers a Chemistry M.S. degree and a Chemistry, M.S. Concentration in Biochemistry. See under program listings for descriptions.

The Chemistry, B.S. degree is approved by the American Chemical Society (ACS). A certified degree is a valuable credential that serves as national-level recognition for completing a rigorous academic chemistry curriculum in an ACS-approved department. The extra rigor of an ACS certified degree is valued by both potential employers and graduate schools.

Mission Statement

It is imperative that CSUEB chemistry students possess sufficient theoretical and practical training in chemistry and biochemistry so that they will be able to assume the significant technical responsibilities required by the chemical and biotechnology industries that will employ them. It is important that our students are not only trained in chemistry (and biochemistry), but that they will become respected scientists and research technicians. In addition, it is important that students planning for entrance into Ph.D. programs or pre-professional programs are adequately prepared.

Program Learning Outcomes

Students graduating with a Bachelor's degree in Chemistry or Biochemistry from Cal State East Bay will be able to:

- Demonstrate knowledge in the various areas of chemistry, including inorganic chemistry, analytical chemistry, organic chemistry, physical chemistry, and biochemistry.
- Use quantitative reasoning to analyze and solve chemical problems and evaluate chemical data.
- Work effectively and safely in a laboratory environment to perform experimental procedures and operate modern chemical/biochemical instruments
- Design, carry out, record and analyze the results of chemical experiments.
- Communicate chemical or biochemical issues clearly.

Career Opportunities

Analytical Chemist • Biotechnologist • Chemist • Dietitian • Environmental Chemist • Food and Drug Inspector • Forensic Chemist • Geochemist • Materials Scientist • Organic Chemist • Perfumer • Petrologist • Pharmacist • Pharmaceutical Chemist • Physical Chemist • Pollution Control • Quality Control Technician • Teacher • Water Purification Chemist

Features

Laboratory equipment and instruments in the Department of Chemistry and Biochemistry include a 500 MHz nuclear magnetic resonance (NMR) spectrometer, a capillary gas chromatograph with mass-spectral detection (GC/MS), Fourier-transform infrared spectrophotometers (FTIR), an inductively coupled plasma-optical emission spectrometer (ICP-OES), high performance liquid chromatographs (HPLC), a fast protein liquid chromatograph (FPLC), a fluorescence spectrometer, a diode-array ultraviolet-visible spectrophotometer, a plate reader, a molecular imager and microwave synthesizers. A molecular modeling facility is also available for instruction and research.

The Alchemist Club, a student affiliate of the American Chemical Society, is available to students majoring in Chemistry. The club members are active in many aspects of the department, participate in fund-raising for special projects, and take interesting field trips to local industries.

Preparation and Prerequisites

Prerequisite courses for all chemistry courses must be passed with a grade of "C-" or better. Requests for Grade Forgiveness will be allowed only on a space-available basis.

Other Degree Requirements

In addition to major requirements, every student must also complete the University requirements for graduation which are described in the Baccalaureate Degree Requirements chapter in this catalog. These include the General Education requirements; the University Writing Skills Requirement; and the residence, unit, and grade point average requirements.

Degree Requirements Unit-Outline

- The baccalaureate degree requires a total of 120 units:
 - The major requirements consists of 72-74 units;
 - General Education & Graduation Requirements consists of 57 units;
 - Free Electives may consist of 0-8 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Chemistry (B.S.) Major Requirements (72-74 units) ACS Certified Program

Lower Division Core

The following 32 units of lower-division coursework are required for all Chemistry B.S. students:

- CHEM 111 - General Chemistry I *Units: 5 ; G.E./G.R. Area: B1, B3*
- CHEM 112 - General Chemistry II *Units: 5*
- CHEM 220 - Quantitative Analysis *Units: 4*
- PHYS 135 - Physics for Scientists and Engineers I *Units: 4 ; G.E./G.R. Area: B1, B3*
- PHYS 136 - Physics for Scientists and Engineers II *Units: 4*
- MATH 130 - Calculus I *Units: 4 ; G.E./G.R. Area: B4*
- MATH 131 - Calculus II *Units: 3*
- MATH 230 - Calculus III *Units: 3*

Upper Division Core

The following 22 units of upper-division coursework are required or all Chemistry B.S. students:

- CHEM 331 - Organic Chemistry I *Units: 5*
- CHEM 332 - Organic Chemistry II *Units: 5*
- CHEM 340 - Survey of Biochemistry *Units: 3*
- CHEM 351 - Physical Chemistry I *Units: 3*
- CHEM 352 - Physical Chemistry II *Units: 3*
- CHEM 420 - Instrumental Analysis *Units: 3*

Additional Required Coursework

An additional 18 units minimum are required to complete the B.S. Chemistry major for students NOT choosing the Bioanalytical and Forensics concentration:

- CHEM 355 - Physical Chemistry Laboratory *Units: 2*
- CHEM 410 - Advanced Inorganic Chemistry *Units: 4*
- CHEM 415 - Inorganic Chemistry Laboratory *Units: 2*
- MATH 210 - Linear Algebra with Differential Equations *Units: 3*
- PHYS 137 - Physics for Scientists and Engineers III *Units: 4*

Plus choose one (1) additional course for a minimum of 3 units from the following:

- CHEM 425 - Environmental Chemistry *Units: 4*
- CHEM 430 - Advanced Organic Chemistry *Units: 3*
- CHEM 450 - Classical and Statistical Thermodynamics *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Master

Chemistry, M.S.

Chemistry, M.S. Program

Program Description

The Master of Science degree provides students with advanced training in chemistry and the analytical skills needed to process and critique complex chemical information. The program requires a set of core courses encompassing the different disciplines of chemistry. Students may complete the remaining unit requirements with coursework in chemistry or may choose a biochemistry concentration, with the additional coursework in that area. The degree program mainly serves students in four categories: those seeking opportunities in the chemical industry requiring training beyond the baccalaureate level,

employed chemists who wish to enhance their career potential, future teachers of high school or community college chemistry, and individuals contemplating more advanced graduate study.

Because of the rapid progress in the fields of chemistry and biochemistry, the department strives to offer a range of courses that cover not only established principles but also recent advances. Through laboratory-based coursework and research opportunities, students are prepared for new developments in experimental methods and instrumentation. They acquire experience reading and analyzing the chemical or biochemical literature in several courses, as well as through a research-based laboratory or computational project (Plan A) or by developing a written literature review (Plan B).

Program Learning Outcomes

Students graduating with a Master of Science in Chemistry will be able to:

- demonstrate mastery of specialized knowledge in the chemical sciences beyond the undergraduate level
- work effectively and safely in a laboratory environment using chemistry laboratory techniques and chemical/biochemical instrumentation.
- use theoretical and experimental chemistry methods to test hypotheses or analyze and design solutions to problems
- research, understand, organize, and critically assess information from the chemical literature
- present complex chemical information via oral and written reports

Programs & Concentrations

Within the Chemistry degree, candidates will choose one of four courses of study:

- M.S. Chemistry, Plan A (Thesis)
- M.S. Chemistry, Plan B (Comprehensive Exam)
- M.S. Chemistry, Concentration in Biochemistry, Plan A (Thesis)
- M.S. Chemistry, Concentration in Biochemistry, Plan B (Comprehensive Exam)

Both Plan A programs require a University Thesis, whereas both Plan B programs require completion of a literature review paper and passing terminal written and oral exams.

Facilities

The laboratories are modern and well-equipped. Major instrumentation includes a 500 MHz nuclear magnetic resonance spectrometer (NMR), a capillary gas chromatograph with mass-spectral detection (GC/MS), Fourier-transform infrared spectrophotometers (FTIR), an inductively coupled plasma-optical emission spectrometer (ICP-OES), high performance liquid chromatographs (HPLC), a fast protein liquid chromatograph (FPLC), a fluorescence spectrometer, thermocyclers, a plate reader with UV and fluorescence detection, a molecular imager and a diode-array ultraviolet-visible spectrophotometer. A molecular modeling facility is available for instruction and research.

Additional Information

The Masters' degree program is under the nominal direction of the graduate coordinator, with the participation of the Graduate Studies Committee. All inquiries should be directed to the graduate coordinator or to the department chair.

Admission Requirements

The basic requirements for entry into the program are possession of a baccalaureate degree in Chemistry or Biochemistry, including a year of physical chemistry, and a GPA of at least 2.6 in upper division chemistry and biochemistry courses. Applicants not meeting the GPA requirement may still be accepted subject to receipt of acceptable letters of recommendation. The G.R.E. subject test in chemistry or biochemistry is optional. Applicants not having an undergraduate major in chemistry or biochemistry may be accepted into the program depending on the amount of undergraduate coursework required to remove deficiencies.

Qualified applicants are accepted in "Conditionally Classified Graduate" status. To become fully "Classified Graduate," students must remove any deficiencies in the undergraduate coursework, complete eight units applicable to the degree, and satisfy the University Writing Skills Requirement.

Plan A, Thesis

A university thesis is required both for the M.S. Chemistry, Plan A and the M.S. Chemistry, Concentration in Biochemistry, Plan A degrees. A thesis topic is decided by mutual agreement between a graduate student and an appropriate faculty member.

Off-Campus Research

Candidates whose employers permit the use of appropriate facilities and approve the release of the applicable findings may arrange to conduct research on their employers' premises in support of their M.S. theses, subject to prior approval by the department.

Plan B, Comprehensive Examination

Plan B entails completion of a significant literature search and submission of a written report on the selected topic. Candidates must pass an oral examination covering the report and also pass a written comprehensive exam consisting of topics from the coursework applied to the degree.

Advancement to Candidacy

Advancement to Candidacy requires that the student complete eight units in 600-level courses applicable towards the degree with an average grade of 3.0 or better and select a research advisor for the thesis or a supervisor for the Plan B literature review paper. Additionally, students must satisfy the University Writing Skills Requirement and qualify for "Classified Graduate" status within two years of admission.

Curricular Requirements

The M.S. programs in Chemistry provide for the degree to be obtained under Chemistry or Chemistry, Concentration in Biochemistry. Under either program, Plan A (University Thesis) or Plan B (Comprehensive Exam) must be selected.

Chemistry Degree Requirements (30 units)

In order to be eligible for the degree, the student must satisfy the following departmental requirements:

Prerequisite Requirement

One year of undergraduate biochemistry is required for students choosing the Biochemistry concentration.

Core Requirements

The following 15-19 units of core coursework are required for all Chemistry, M.S. students:

- CHEM 420 - Instrumental Analysis *Units: 3*
- CHEM 470 - Chemical Literature *Units: 1*
- CHEM 631 - Graduate Organic Chemistry *Units: 3*
- CHEM 641 - Graduate Biochemistry *Units: 3*
- CHEM 651 - Graduate Physical Chemistry *Units: 3*
- CHEM 680 - Seminar *Units: 1 (course must be repeated for a total of two [2] units)*

Students in the General Chemistry program selecting the **Comprehensive Examination/Review Paper** as their capstone experience must also complete these additional 4 units:

- CHEM 425 - Environmental Chemistry *Units: 4*
This course is NOT required for the Biochemistry concentration students.

Capstone Requirements

University Thesis Coursework (Plan A)

Students selecting University Thesis as their capstone experience must submit to the department an acceptable master's degree thesis and complete the following six (6) units:

- CHEM 681 - Research *Units: 1-2 (must be repeated twice for four [4] units)*
- CHEM 691 - University Thesis *Units: 2*

Comprehensive Exam Coursework (Plan B)

Students selecting Comprehensive Examination/Review Paper as their capstone experience must complete the following four (4) units:

- CHEM 692 - Comprehensive Exam *Units: 2*
- CHEM 693 - Review Paper *Units: 2*

Elective Courses

Elective coursework is dependent upon the capstone experience chosen to complete the degree. Take the following elective units as outlined below:

Students selecting the THESIS as their capstone experience must complete a minimum of 9 units from the following electives with a minimum of three units from 600 level courses. No more than three units of CHEM 690 may be included.

Students selecting the COMP EXAM as their capstone experience must complete a minimum of 7 units from the following electives with a minimum of three units from 600 level courses. No more than two units of CHEM 681 may be included.

- CHEM 410 - Advanced Inorganic Chemistry *Units: 4*

- CHEM 425 - Environmental Chemistry *Units: 4*
- CHEM 430 - Advanced Organic Chemistry *Units: 3*
- CHEM 450 - Classical and Statistical Thermodynamics *Units: 3*
- CHEM 621 - Molecular Spectroscopy *Units: 3*
- CHEM 652 - Computational Chemistry *Units: 3*
- CHEM 681 - Research *Units: 1-2*
- CHEM 690 - Independent Study *Units: 1-3*
- CHEM 697 - Issues in Chemistry *Units: 3*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Chemistry, M.S.: Biochemistry Concentration

Chemistry, M.S. Program

Program Description

The Master of Science degree provides students with advanced training in chemistry and the analytical skills needed to process and critique complex chemical information. The program requires a set of core

courses encompassing the different disciplines of chemistry. Students may complete the remaining unit requirements with coursework in chemistry or may choose a biochemistry concentration, with the additional coursework in that area. The degree program mainly serves students in four categories: those seeking opportunities in the chemical industry requiring training beyond the baccalaureate level, employed chemists who wish to enhance their career potential, future teachers of high school or community college chemistry, and individuals contemplating more advanced graduate study.

Because of the rapid progress in the fields of chemistry and biochemistry, the department strives to offer a range of courses that cover not only established principles but also recent advances. Through laboratory-based coursework and research opportunities, students are prepared for new developments in experimental methods and instrumentation. They acquire experience reading and analyzing the chemical or biochemical literature in several courses, as well as through a research-based laboratory or computational project (Plan A) or by developing a written literature review (Plan B).

Program Learning Outcomes

Students graduating with a Master of Science in Chemistry will be able to:

- demonstrate mastery of specialized knowledge in the chemical sciences beyond the undergraduate level
- work effectively and safely in a laboratory environment using chemistry laboratory techniques and chemical/biochemical instrumentation.
- use theoretical and experimental chemistry methods to test hypotheses or analyze and design solutions to problems
- research, understand, organize, and critically assess information from the chemical literature
- present complex chemical information via oral and written reports

Programs & Concentrations

Within the Chemistry degree, candidates will choose one of four courses of study:

- M.S. Chemistry, Plan A (Thesis)
- M.S. Chemistry, Plan B (Comprehensive Exam)
- M.S. Chemistry, Concentration in Biochemistry, Plan A (Thesis)
- M.S. Chemistry, Concentration in Biochemistry, Plan B (Comprehensive Exam)

Both Plan A programs require a University Thesis, whereas both Plan B programs require completion of a literature review paper and passing terminal written and oral exams.

Facilities

The laboratories are modern and well-equipped. Major instrumentation includes a 500 MHz nuclear magnetic resonance spectrometer (NMR), a capillary gas chromatograph with mass-spectral detection (GC/MS), Fourier-transform infrared spectrophotometers (FTIR), an inductively coupled plasma-optical emission spectrometer (ICP-OES), high performance liquid chromatographs (HPLC), a fast protein liquid chromatograph (FPLC), a fluorescence spectrometer, thermocyclers, a plate reader with UV and fluorescence detection, a molecular imager and a diode-array ultraviolet-visible spectrophotometer. A molecular modeling facility is available for instruction and research.

Additional Information

The Masters' degree program is under the nominal direction of the graduate coordinator, with the participation of the Graduate Studies Committee. All inquiries should be directed to the graduate coordinator or to the department chair.

Admission Requirements

The basic requirements for entry into the program are possession of a baccalaureate degree in Chemistry or Biochemistry, including a year of physical chemistry, and a GPA of at least 2.6 in upper division chemistry and biochemistry courses. Applicants not meeting the GPA requirement may still be accepted subject to receipt of acceptable letters of recommendation. The G.R.E. subject test in chemistry or biochemistry is optional. Applicants not having an undergraduate major in chemistry or biochemistry may be accepted into the program depending on the amount of undergraduate coursework required to remove deficiencies.

Qualified applicants are accepted in "Conditionally Classified Graduate" status. To become fully "Classified Graduate," students must remove any deficiencies in the undergraduate coursework, complete eight units applicable to the degree, and satisfy the University Writing Skills Requirement.

Plan A, Thesis

A university thesis is required both for the M.S. Chemistry, Plan A and the M.S. Chemistry, Concentration in Biochemistry, Plan A degrees. A thesis topic is decided by mutual agreement between a graduate student and an appropriate faculty member.

Off-Campus Research

Candidates whose employers permit the use of appropriate facilities and approve the release of the applicable findings may arrange to conduct research on their employers' premises in support of their M.S. theses, subject to prior approval by the department.

Plan B, Comprehensive Examination

Plan B entails completion of a significant literature search and submission of a written report on the selected topic. Candidates must pass an oral examination covering the report and also pass a written comprehensive exam consisting of topics from the coursework applied to the degree.

Advancement to Candidacy

Advancement to Candidacy requires that the student complete eight units in 600-level courses applicable towards the degree with an average grade of 3.0 or better and select a research advisor for the thesis or a supervisor for the Plan B literature review paper. Additionally, students must satisfy the University Writing Skills Requirement and qualify for "Classified Graduate" status within two years of admission.

Curricular Requirements

The M.S. programs in Chemistry provide for the degree to be obtained under Chemistry or Chemistry, Concentration in Biochemistry. Under either program, Plan A (University Thesis) or Plan B (Comprehensive Exam) must be selected.

Chemistry Degree Requirements (30 units)

In order to be eligible for the degree, the student must satisfy the following departmental requirements:

Prerequisite Requirement

One year of undergraduate biochemistry is required for students choosing the Biochemistry concentration.

Core Requirements

The following 15-19 units of core coursework are required for all Chemistry, M.S. students:

- CHEM 420 - Instrumental Analysis *Units: 3*
- CHEM 470 - Chemical Literature *Units: 1*
- CHEM 631 - Graduate Organic Chemistry *Units: 3*
- CHEM 641 - Graduate Biochemistry *Units: 3*
- CHEM 651 - Graduate Physical Chemistry *Units: 3*
- CHEM 680 - Seminar *Units: 1 (course must be repeated for a total of two [2] units)*

Students in the General Chemistry program selecting the **Comprehensive Examination/Review Paper** as their capstone experience must also complete these additional 4 units:

- CHEM 425 - Environmental Chemistry *Units: 4*
- This course is NOT required for the Biochemistry concentration students.**

Capstone Requirements

University Thesis Coursework (Plan A)

Students selecting University Thesis as their capstone experience must submit to the department an acceptable master's degree thesis and complete the following six (6) units:

- CHEM 681 - Research *Units: 1-2 (must be repeated twice for four [4] units)*
- CHEM 691 - University Thesis *Units: 2*

Comprehensive Exam Coursework (Plan B)

Students selecting Comprehensive Examination/Review Paper as their capstone experience must complete the following four (4) units:

- CHEM 692 - Comprehensive Exam *Units: 2*
- CHEM 693 - Review Paper *Units: 2*

Biochemistry Concentration

An additional 3 units are required for the concentration:

- CHEM 642 - Protein Chemistry Techniques *Units: 3*

Elective Coursework

Elective coursework is dependent upon the capstone experience chosen to complete the degree. Take the following elective units as outlined below:

Students completing the THESIS are to choose a minimum of 6 units from the list of electives below**: Students completing the COMP EXAM are to choose a minimum of 8 units from the list of electives below*:

- CHEM 445 - Protein Structure *Units: 3*
- CHEM 446 - Nucleic Acid Chemistry *Units: 3*
- CHEM 447 - Major Organ Biochemistry *Units: 3*
- CHEM 621 - Molecular Spectroscopy *Units: 3*
- CHEM 652 - Computational Chemistry *Units: 3*
- CHEM 697 - Issues in Chemistry *Units: 3*

- CHEM 681 - Research *Units: 1-2 *(only optional for Comprehensive Exam capstone students)(no more than two [2] units may be included)*

- CHEM 690 - Independent Study *Units: 1-3 **(only optional for Thesis capstone students)(no more than three [3] units may be included)*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

- • CHEM 442 - Biochemistry II *Units: 4*
- • CHEM 443 - Biochemistry Laboratory I *Units: 3*
- • CHEM 444 - Biochemistry Laboratory II *Units: 3*
- • CHEM 445 - Protein Structure *Units: 3*
- • CHEM 446 - Nucleic Acid Chemistry *Units: 3*
- • CHEM 447 - Major Organ Biochemistry *Units: 3*
- • CHEM 450 - Classical and Statistical Thermodynamics *Units: 3*
- • CHEM 470 - Chemical Literature *Units: 1*
- • CHEM 480 - Undergraduate Research *Units: 1-2*
- • CHEM 481 - Senior Thesis *Units: 1-2*
- • CHEM 490 - Independent Study *Units: 1-4*

Chemistry: Courses for Non-Science Majors

- • CHEM 106 - Chemistry and Society *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- • CHEM 304 - Chemistry of Wine Making *Units: 3 ; G.E./G.R. Area: B6*
- • CHEM 306 - Green Chemistry and Sustainability *Units: 3 ; G.E./G.R. Area: B6*

Chemistry: Graduate

- • CHEM 621 - Molecular Spectroscopy *Units: 3*
- • CHEM 631 - Graduate Organic Chemistry *Units: 3*
- • CHEM 641 - Graduate Biochemistry *Units: 3*
- • CHEM 642 - Protein Chemistry Techniques *Units: 3*
- • CHEM 651 - Graduate Physical Chemistry *Units: 3*
- • CHEM 652 - Computational Chemistry *Units: 3*
- • CHEM 680 - Seminar *Units: 1*
- • CHEM 681 - Research *Units: 1-2*
- • CHEM 690 - Independent Study *Units: 1-3*
- • CHEM 691 - University Thesis *Units: 2*
- • CHEM 692 - Comprehensive Exam *Units: 2*
- • CHEM 693 - Review Paper *Units: 2*
- • CHEM 697 - Issues in Chemistry *Units: 3*

Department of Communication

The Department Office is located on the 3rd Floor of the Meiklejohn Hall building, Room 3011.

Open 8:00 a.m. - 5:00 p.m., Monday through Friday.

Dept. Phone: (510) 885-3292

Faculty

Professors

Edward S. Inch, Ph.D. University of Washington

Grant Kien, Ph.D. University of Illinois at Urbana-Champaign

Associate Professors

Katherine M. Bell, Ph.D. University of Washington

Lonny J. Brooks, Ph.D. University of California, San Diego

Mary Cardaras (Chair), Ph.D. Northeastern University

Yung-I Liu, Ph.D. Ohio State University

Terry L. West, Ph.D. Southern Illinois University (FERP)

Assistant Professors

Anita Chang, Ph.D. University of California, Santa Cruz

William Lawson, Ph.D. Florida State University

Mission Statement

Graduates will be able to make a positive, professional, and important contribution in the field of communication (Media Environments; Organizational Contexts; and Graduate School) by becoming inclusive, ethical, and effective leaders and participants in global and local communities.

Bachelor

Communication, B.A.: Communication and Media Studies Concentration

Communication, B.A. Program (120 units)

Program Description

The Communication Department features the integration of theories and criticism with the essential skills for media production, professional engagement, and meaningful research. Graduates will be able to make a positive, professional, and important contribution in communication theory and research, Strategic Communication, Multimedia Journalism, and Communication and Media Studies. Students will study, research and analyze the perspectives that will lead to their becoming inclusive, ethical, and effective leaders and participants in global and local communities. They will acquire skills in critical analysis, speaking, writing, and visual presentations across all media. They will learn about the changing world of today's and future media as well as the long history of the relationship between communication, self, and society and they will be prepared for a broad array of careers or graduate studies. All undergraduates must complete 32 units in 8 core courses in communication and elect one of three concentrations: Multimedia Journalism emphasizing digital journalism for social justice that converges print, audio, visual, and video; Strategic Communication that converges the study of Advertising, Public Relations and Organizational Communication; and Communication and Media Studies that is designed to give students maximum flexibility in the 21st century job market while providing ample depth for those wishing to pursue graduate study.

Career Opportunities

Our degree in communication will help to provide both hard and soft skills for placement in the following broad areas: Journalism, Media, Social Media, Video Production, Research, Public Relations, Advertising, Entertainment, and Digital Analytics to name a few.

Google, Facebook, Twitter, GoPro, Pandora, Apple, YouTube, DropBox, Pixar, LucasFilms, Adobe, Oracle, Uber, Lyft are some of the companies that call the Bay Area home. We are actively involved in helping our students land internship and entry level job opportunities at these companies. The Bay Area is also home to a number of television and radio stations, sports networks and sports teams, which provide fertile ground for our aspiring students.

Program Learning Outcomes

Students graduating with a B.A. in Communication from Cal State East Bay will be able to

1. explain and illustrate a thorough knowledge and application of communication theories.
2. demonstrate a comprehension and application of communication research methods.
3. explain, analyze and execute various applications of media creation.
4. analyze and discuss diverse communication perspectives toward communities and peoples.
5. express, evaluate and discuss a perception realizing the significance of sustainability concepts in communication.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
- The major requirements consists of 60-62 units
- General Education & Graduation Requirements consists of 57 units ;
- Free Electives may consist of 0 units (actual number of free elective units may depend on GE/GR units).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AAC&E advisors for information.

Communication Major Requirements (60-62 units)

Core Coursework

The Communication core coursework consists of 32 units as outlined:

All students must take one (1) from the following two courses for 4 units:

- COMM 202 - Communication, Media and Culture Units: 4
- OR COMM 206 - New Media in the Digital Age Units: 4

All students must also take all of the following seven (7) courses for 28 units:

- COMM 203 - Communication Theories Units: 4
- COMM 224 - Argumentation and Advocacy Units: 4
- COMM 240 - Visual Communication and Culture Units: 4
- COMM 256 - Persuasion Theory and Practice Units: 4
- COMM 304 - Quantitative Communication Research Methods Units: 4
- COMM 305 - Qualitative Communication Research Methods Units: 4
- COMM 433 - Discourses of Difference Units: 4

Concentrations

Students must choose one (1) from the following concentrations to complete the major:

- Communication, B.A.: Communication and Media Studies Concentration
- Communication, B.A.: Multimedia Journalism Concentration
- Communication, B.A.: Strategic Communication Concentration

Communication and Media Studies Concentration

The Communication and Media Studies concentration consists of 28 units outlined as follows:

Students must take the following five (5) courses for 20 units:

- COMM 300 - History and Criticism of Communication Units: 4
- COMM 320 - Persuasion in Media Units: 4
- COMM 330 - Critical/Cultural Studies Units: 4
- COMM 425 - Digital Cultures Units: 4
- COMM 461 - Popular Culture Units: 4

Students must also take two (2) of the following electives for 8 units:

- COMM 323 - Communication of Difference *Units: 4*
- COMM 326 - Social Media and Social Change Literacies *Units: 4*
- COMM 400 - Film, Communication and Culture *Units: 4*
- COMM 416 - Communication, Technology, and Social Change *Units: 4*
- COMM 417 - Game Studies *Units: 4*
- COMM 418 - Organizational Change, Creativity, and Innovation *Units: 4*
- COMM 420 - Organizational Transformation *Units: 4*
- COMM 488 - Conflict Management *Units: 4*
- COMM 497 - Issues in Communication *Units: 4*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Master

Communication, M.A.

Communication, M.A. Program

Program Description

The Master of Arts degree in Communication is a dynamic, flexible program in the heart of the Bay Area. As a student, you will join an energetic community of active scholars engaged in a wide range of research interests. You will learn foundational approaches to theory, criticism, research, and ethics in communication that prepare students for the public and professional spheres, on local, national, and international levels. As a student you will construct a program of interest to you, with a solid foundation in communication theory and research. Your experience will include specialized seminars from a variety of areas including: rhetoric, cultural studies, organizational communication, media studies, strategic communication and political communication. The program consists of 31 units including: core courses, graduate elective seminars, and independent study courses. The culminating experience is a thesis, project, or comprehensive exam.

Program Learning Outcomes:

- Engage critical/creative thinking toward a convergent praxis of theory and applications relevant to the communication discipline/field;
- Conduct original research adding to the discovery of knowledge in the communication discipline/field;
- Demonstrate results of original research in the communication discipline/field through presentation in written, oral, or mediated formats;
- Develop critical and cultural perspectives for promoting social justice through communication.
- Demonstrate mastery in the scholarly discipline/field of communication.

Career Opportunities

Our program prepares you for advancement in communication and media-related fields. Students with an M.A. in Communication work in areas such as teaching, media technologies, journalism, consulting, human resources, communication training, management, sales, government, and politics. Numerous students use the degree as preparation for Ph.D. and law degrees.

Admission Requirements

A Bachelor's degree in Communication or a related field/discipline. A GPA of 3.0 or higher.

Application for admission includes two parts:

1. Submit the online University application at CALSTATE Apply;
 2. Submit the department application form, a statement of purpose, three letters of recommendation, and a sample of scholarly writing to the Graduate Coordinator, Department of Communication, Cal State East Bay, Hayward, CA 94542. Links to both university and department application forms are available on the Department of Communication website.
- For CSUEB Communication undergraduates we offer a streamlined application process that requires only one letter of recommendation from a current CSUEB faculty member.

The program accepts students in both Fall and Spring semesters.

Student Standing and Progress Toward the Degree

You may be admitted under one of the following:

"Classified Graduate" Standing

For admission with "Classified Graduate" standing to the M.A. program in Communication, students must:

- Submit an application to pursue a specific program of graduate study and be accepted by the department and the university;
- Have completed a baccalaureate major in Communication from an accredited institution, or appropriate preparatory coursework approved by the faculty;
- Have maintained an overall grade point average of at least 3.00, and
- Satisfied the University Writing Skills Requirement.

"Conditionally Classified Graduate" Standing

If a student's degree is in another field, or if the University Writing Skills Requirement has not been satisfied, it may be possible to be admitted with "Conditionally Classified Graduate" standing. In this case, students are admitted graduate students but may have additional course work to satisfy. Student status will remain conditional until the work is completed with a minimum of "B" or better average and the student has passed the Writing Skills Test.

Degree Requirements

The M.A. in Communication requires completion of 31 units in an approved program of study, with a "B" (3.0) or better.

All courses are four units unless otherwise specified. In cases of transferred credit, a minimum of 24 units must be completed at CSU East Bay.

Writing Skills Requirement

All students must meet the University Writing Skills Requirement (UWSR) to become fully "Classified Graduate" students. Graduate students must begin satisfaction of this requirement in their first semester of their residency.

Attainment of "Classified Graduate" Standing

To attain "Classified Graduate" standing, a student must have completed all prerequisites with grades of "B" or better and satisfied the University Writing Skills Requirement. Notify the graduate advisor immediately upon completion, and request that s(he) complete the necessary paper work.

Advancement to Candidacy

To be Advanced to Candidacy for the M.A. degree in Communication, the student must:

1. be a "Classified Graduate" student in good standing;
2. complete 27 semester units beyond the prerequisites with at least "B" grades;
3. choose a program advisor;
4. submit a study plan for completion of the degree program to the program advisor;
5. have the thesis proposal or project proposal approved by their graduate adviser, if applicable;
6. show evidence of progress and ability to complete the program.

Communication Degree Requirements (31 units)

Core Requirements

All students must take 13 units of core courses:

- COMM 600 - Introduction to Graduate Study *Units: 1*
- COMM 601 - Theories in Communication *Units: 4*

Choose one (1) of the two courses listed for 4 units:

- COMM 602 - Critical Cultural Methods *Units: 4*
- COMM 605 - Contemporary Rhetoric *Units: 4*

Choose one (1) of the two courses listed for 4 units:

- COMM 603 - Advanced Quantitative Research Methods *Units: 4*
- COMM 604 - Advanced Qualitative Research Methods *Units: 4*

Elective Courses

All students must take a minimum of 12 units from the following 4-unit courses:

- COMM 620 - Internship in Communication *Units: 1-4*
- COMM 625 - Teaching Communication *Units: 4*
- COMM 630 - Media Studies *Units: 4*
- COMM 640 - Advanced Rhetorical Studies *Units: 4*
- COMM 645 - Media and Globalization *Units: 4*

- COMM 655 - Communication, Media, and Society *Units: 4*
- COMM 665 - Identity and Difference in Media *Units: 4*
- COMM 670 - Communication Campaigns *Units: 4*
- COMM 675 - Digital Organizational Communication *Units: 4*
- COMM 680 - Moral Economies of Digital Media *Units: 4*
- COMM 685 - Future of Media and Society *Units: 4*
- COMM 696 - Topics in Communication *Units: 4*
- Up to 8 units of 400-level Communication courses may count as electives with Department approval.

Capstone Requirements

All students must complete one (1) of the following Capstone experiences for 2-6 units:

- **COMM 691 - University Thesis** *Units: 1-6*
Upon approval of the student's graduate committee, a student may elect the University Thesis for 6 units; the student will carry out research on a specific topic in the field and will report, review, and file the results, and will be examined on the thesis. Students electing the University Thesis capstone will sit for an oral defense of the thesis at its completion.
- **COMM 692 - Comprehensive Exams** *Units: 2*
A student who selects the comprehensive exam capstone must elect a program made up entirely of a minimum of 31 units of approved coursework, including COMM 692 for 2 units. Satisfactory achievement on comprehensive written and oral examinations will be required of students electing the coursework and examination option. For the comprehensive examination, the student will be tested on all coursework taken during their graduate study, including all required courses and any coursework in progress during the semester of examination.
- **COMM 693 - Project** *Units: 1-6*
Upon approval of the student's graduate committee, a student may elect the Project capstone for 6 units; enrollment commits the student to a production of a piece of work which is to follow prescribed forms; a permanent record is to be filed in the departmental office. Students electing the Project capstone will sit for an oral defense of their project at its completion.

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Department of Computer Science

The Department Office is located on the 5th Floor of the Student and Faculty Support (SF) building, Room 570.

Hours Open: 8:00 a.m. to 5:00 p.m., Monday through Friday.

Dept. Phone: (510) 885-4300

Faculty

Professors

Kevin A. Brown, Ph.D. University of South Carolina

Leann Christianson, Ph.D. University of South Carolina

Levent Ertaul, Ph.D. University of Sussex (United Kingdom)

Lynne L. Grewe, Ph.D. Purdue University

C. Matthew Johnson (Chair), Ph.D. College of William and Mary

Associate Professors

Farzan Roohparvar, Ph.D. Iowa State University

David Yang, Ph.D. Columbia University

Assistant Professors

Zahra Derakhshandeh, Ph.D. Arizona State University

Varick Erickson, Ph.D. University of California, Merced

Xiaojun Ruan, Ph.D. Auburn University

Jiaofei Zhong, Ph.D. The University of Texas at Dallas

Graduate Coordinator: Kevin Brown

Department Statement

The Computer Science Department is a large and flourishing department, offering a variety of courses at a variety of times. The Department consists of diverse full-time faculty, with a wide range of backgrounds and interests. The Department offers over 25 undergraduate CS courses and over 25 graduate CS courses. The Department strives to provide a quality education to a diverse student community, and serves as one of the larger majors on campus.

About the Department

Use our university website link to learn more about what the Computer Science Department has to offer.

Bachelor

Computer Science, B.S.

Computer Science, B.S. Program (120 units)

Program Description

The Department of Computer Science offers study leading to a Bachelor of Science degree or minor in Computer Science. This program is designed to prepare students for employment in the technology sector or for advanced study in Computer Science. The curriculum provides a solid foundation of theoretical knowledge as well as experience with practical application in hardware and software.

Computer Science is the study of algorithms for addressing, processing, storing, and transmitting information. It encompasses a broad perspective that includes what constitutes a computer, computer uses and applications, and theoretical approaches to what can or can't be computed. The core curriculum in Computer Science, involving a blend of theory and practice, offers opportunities for problem solving in

many areas and provides experience with a variety of computer languages and software packages. A typical student's experience includes programming through software engineering, hardware through operating systems, and can include data solutions, web design, networking, mobile computing, artificial intelligence, hardware design, and graphic implementations ranging from interface design to computer vision. The breadth of subject material is important as many students can expect to have a number of different job classifications throughout their careers.

Students interested in the B.S. degree program in Computer Science should contact the Computer Science Department's Student Service Center and visit the department's webpage: <http://www.csueastbay.edu/cs/>

Program Learning Outcomes

Students graduating with a B.S. in Computer Science will be able to:

1. Apply knowledge of mathematics and computational theory to analyze problems in computer science, and identify and define the resources and requirements needed for their solution.
2. Design, implement, and evaluate a computer-based system, process, component, or program to meet desired needs.
3. Recognize and distinguish the mechanisms, components and architecture of computing systems.
4. Employ current techniques, skills, and tools necessary for computing practice, and recognize the need for continuing professional development.
5. Identify professional, ethical, legal, and security issues and responsibilities, and the impact of computing on individuals, organizations and society.
6. Perform successfully on teams to accomplish a common goal, and communicate computer science concepts effectively in written and oral form.

Career Opportunities

Software/Application Engineer • Game Designer • Network Systems Engineer • Web/Multimedia Developer • Mobile Developer • Systems Analyst • Network Security Administrator • Cloud Engineer • Systems Manager/Programmer • Network Administrator • Database Applications Programmer/Administrator • Big Data Analyst • Information Technology (IT) Administrator • Technical Writer • Teacher

Features

The University supports Computer Science with a variety of resources. Wireless access is available throughout the campus. Smart classrooms are equipped with a computer and projector, and there are multiple instructional laboratories equipped with 24-35 computers. Students may also use computers in open-access labs. Lab and classroom computers are equipped with a variety of operating systems and devices. The department's industry board provides insight for linking industrial practices with academia. The department has an active computing club, which hosts academic and social events, hackathons, and presentations from researchers and members of industry. Cal State East Bay's proximity to Silicon Valley provides opportunities for internships and employment in the high-tech companies in the area. The department is committed to a program rich in diversity, and encourages women, minorities, and international students to apply.

Admission

To apply for admission to the Bachelor of Science program in Computer Science, students must submit the proper forms, fees and transcripts to the university's Office of Admissions, which reviews each application. Information about the Computer Science major, Degree Roadmap, and answers to frequently asked questions are available on the department website.

High school students who are interested in Computer Science should take a minimum of Algebra, Trigonometry, and Pre-calculus, and a programming course if available. Community college students who are planning to transfer to Cal State East Bay should take Calculus I and II, Linear Algebra, Discrete Structures, Computer Organization and Assembly Language, and a two course sequence in a high level programming language.

Scholarships

Each year the department awards a number of scholarships covering a portion of the fees for the subsequent year. Scholarship applications may be filed during the spring semester.

Degree Requirements Unit-Outline

- The baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 72 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Computer Science Major Requirements (72 units)

Note: Please see Errata page for corrections to course content within the Lower Division Coursework and Computer Science Breadth Coursework.

Lower Division Coursework

The following 31 units of foundation coursework are required. Students must complete all of these required courses with a grade of C- or above:

- CS 101 - Computer Science I Units: 4
- CS 201 - Computer Science II Units: 4
- CS 211 - Discrete Structures Units: 3
- CS 221 - Computer Organization and Assembly Language Units: 3
- CS 230 - Computing and Social Responsibility Units: 3 ; G.E./G.R. Area: D1-3
- MATH 130 - Calculus I Units: 4 ; G.E./G.R. Area: B4
- MATH 131 - Calculus II Units: 3
- MATH 225 - Numerical Algorithms and Linear Algebra for Computer Science Units: 3
- PHYS 135 - Physics for Scientists and Engineers I Units: 4 ; G.E./G.R. Area: B1, B3

Upper Division Coursework

Students must complete all 29 units of upper-division courses with a grade of C- or above:

- CS 301 - Data Structures and Algorithms *Units: 4*
- CS 311 - Programming Language Concepts *Units: 3*
- CS 321 - Computer Architecture *Units: 3*
- CS 401 - Software Engineering *Units: 4*
- CS 411 - Automata and Computation *Units: 3*
- CS 413 - Analysis of Algorithms *Units: 3*
- CS 421 - Operating Systems *Units: 3*
- CS 441 - Computer Networks *Units: 3*
- STAT 316 - Statistics and Probability for Science and Engineering *Units: 3*

Computer Science Breadth Coursework

Note: Please see Errata page for corrections to this course content.

Students must complete two (2) courses of the following for 6 units:

- CS 351 - Website Development *Units: 3*
- CS 431 - Database Architecture *Units: 3*
- CS 453 - Mobile Programming *Units: 3*
- CS 455 - Computer Graphics *Units: 3*
- CS 461 - Artificial Intelligence *Units: 3*
- CS 471 - Security and Information Assurance *Units: 3*

Elective Courses

Students must take two (2) courses with the CS prefix numbered 300 or above for a minimum of 6 units. Courses must not be the same as those already used. *Note: 1-3 units of CS 498 Cooperative Education and/or 1-3 units of CS 490 Independent Study may be used to fulfill the Electives category.*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- CS 453 - Mobile Programming *Units: 3*
- CS 455 - Computer Graphics *Units: 3*
- CS 461 - Artificial Intelligence *Units: 3*
- CS 471 - Security and Information Assurance *Units: 3*
- CS 490 - Independent Study *Units: 1-4*
- CS 497 - Topics in Computer Science *Units: 3*
- CS 498 - Internship *Units: 1-3*

Computer Science: Graduate

- CS 601 - Advanced Algorithms *Units: 3*
- CS 603 - Advanced Software Engineering *Units: 3*
- CS 605 - Information Coding and Cryptography *Units: 3*
- CS 607 - Parallel Programming *Units: 3*
- CS 611 - Theory of Computation *Units: 3*
- CS 615 - Compiler Design *Units: 3*
- CS 621 - Operating Systems Design *Units: 3*
- CS 623 - Cloud Computing *Units: 3*
- CS 625 - Advanced Computer Architecture *Units: 3*
- CS 631 - Database Systems *Units: 3*
- CS 641 - Advanced Computer Networks *Units: 3*
- CS 643 - Distributed Systems *Units: 3*
- CS 645 - Network Analysis and Design *Units: 3*
- CS 651 - Web Systems *Units: 3*
- CS 661 - Advanced Artificial Intelligence *Units: 3*
- CS 663 - Computer Vision *Units: 3*

- CS 665 - Human-Computer Interaction *Units: 3*
- CS 667 - Machine Learning *Units: 4*
- CS 671 - Cybersecurity *Units: 3*
- CS 681 - Digital Signal Processing *Units: 3*
- CS 683 - Computer Simulation *Units: 3*
- CS 690 - Independent Study *Units: 3*
- CS 692 - Capstone Examinations *Units: 3*
- CS 693 - Capstone Project *Units: 1-4*
- CS 697A - Topics in Computer Science *Units: 3*
- CS 697B - Topics in Computer Networks *Units: 3*
- CS 699 - Capstone Thesis *Units: 1-6*

Master

Computer Science, M.S.: Computer Networks Concentration

Computer Science, M.S. Program

Program Description

The Department of Computer Science offers graduate study leading to the degree of Master of Science in Computer Science. This program is designed to extend the student's knowledge in a broad manner beyond the baccalaureate degree major in Computer Science. It will both (1) deepen general understanding of theoretical principles and (2) provide exposure to important applications of Computer Science such as security, software engineering, database, networking, and others. This approach is especially important in Computer Science, where training in specific languages and systems and on specific machines is transitory, as these languages, systems, and machines evolve. In contrast, many of the principles will last, and generally apply to a wide variety of specializations within the field. The breadth of subject material is important as many students will have a number of different job classifications in their working lives.

Students pursuing the Master of Science in Computer Science choose from one of two concentrations, Computer Science or Computer Networks. The Computer Science concentration provides significant flexibility allowing the student to direct their studies towards the special interest area they find most compelling. The Computer Networks concentration provides the opportunity to focus on topics in Computer Networking.

Our program features small classes that allow for close contact between students and faculty. Many graduate classes are offered in the late afternoon or early evening, making it possible for working students to attend. Some courses toward the M.S. degree may also be taken during the summer session.

Students interested in the M.S. degree program in Computer Science should contact the Computer Science Graduate Coordinator.

Program Learning Outcomes

Students graduating with an M.S. in Computer Science will be able to:

1. Apply knowledge of mathematics and computational theory to analyze problems in computer science, and assess and determine the resources and requirements needed for their solution.

2. Design, develop, and evaluate a computer-based system, process, component, or program to meet desired needs.
3. Classify and explain the mechanisms, components and architecture of computing systems.
4. Employ current techniques, skills, and tools necessary for computing practice, and justify the need for continuing professional development.
5. Discuss professional, ethical, legal, and security issues and responsibilities, and the impact of computing on individuals, organizations and society.
6. Function successfully on teams to accomplish a common goal, and explain computer science concepts effectively in written and oral form.

Career Opportunities

Software/Application Designer • Systems Manager/Programmer • Network Programmer/Administrator • Technical Administrator • Teacher/Professor Engineer • Network Analyst • Network Security Administrator • Database Administrator • Teacher/Professor Engineer • Web/Multimedia Administrator • Cloud Administrator • Database Administrator • Information Technology (IT) Developer • Game Engineer • Systems Applications

Features

The university provides multiple PC labs available on campus as well as wireless network access. Cal State has several active Computing Clubs, which host presentations from members of industry, as well as hackathons, academic and social events, and are involved with a number of ongoing projects. Our proximity to Silicon Valley provides opportunities for internships and employment in the high-tech companies in the area. The department is committed to a program rich in diversity, and encourages women, minorities, and international students to apply.

Scholarships

Each year the department awards a number of scholarships covering a portion of the fees for the subsequent year. Scholarship applications may be filed during the spring semester.

Admission

To apply for admission to the Master of Science program in Computer Science, a student must submit the proper forms, fees and transcripts to the university's Office of Admissions, which initially reviews each application. Each applicant must also submit their scores on the General Test of the Graduate Record Examination (GRE) directly to the university. After the Office of Admissions has completed their review, applications are forwarded to the Computer Science department which makes the decision whether to accept or reject the applicant.

A student wishing to enter the M.S. in Computer Science program must normally have an undergraduate degree in Computer Science or in a related field, must have a grade point average of 3.0 in all undergraduate work, and must have earned a "B" or better in the Computer Science and Mathematics courses listed below.

Computer Science Admission Requirements

Four lower-division Computer Science courses equivalent to the following CSU East Bay courses:

- CS 101 Computer Science I
- CS 201 Computer Science II
- CS 211 Mathematical Foundations of Computer Science
- CS 221 Computer Organization and Assembly Programming

Six upper division Computer Science courses equivalent to the following CSU East Bay courses:

- CS 301 Data Structures and Algorithms
- CS 311 Programming Language Concepts
- CS 321 Computer Architecture
- CS 411 Automata and Computation
- CS 413 Analysis of Algorithms
- CS 421 Operating Systems

Mathematics Requirements for Admission

- MATH 130 Calculus I
- MATH 131 Calculus II
- MATH 225 Numerical Algorithms and Linear Algebra for Computer Science
- STAT 316 Statistics and Probability for Science and Engineering I

A student who has not completed all of the course admission requirements may be admitted to the program at the discretion of the department as a "Conditionally Classified Graduate" student, provided the student's record clearly demonstrates the capability of completing all the course requirements after admission. Students must complete any course deficiencies or remediation with grades of "B" or better. Course deficiencies or remediation must be completed before enrolling in graduate Computer Science courses. Note that courses used to make up deficiencies for admission may not be applied toward the master's degree.

Student Standing and Progress Towards the Degree

There are three categories of student status which reflect student progress towards the degree: "Conditionally Classified Graduate", "Classified Graduate", and "Advancement to Candidacy."

- Students are granted "Conditionally Classified Graduate" status when they have been admitted to the M.S. in Computer Science program, but have not yet completed all the requirements for "Classified Graduate" status.
- Students with "Conditionally Classified Graduate" status, no course deficiencies or remediation, and who have satisfied the University Writing Skills Requirement (UWSR) should petition the graduate coordinator for "Classified Graduate" status. Note that satisfaction of the University Writing Skills Requirement must begin during the first semester of admission to the program.
- Students with "Classified Graduate" status may apply for "Advancement to Candidacy" status after completing the five M.S. required courses with a "B" or better average. In addition, a student must have an overall and graduate GPA of 3.0 or better. Before Advancement to Candidacy, a student's complete course of study must be approved by the Computer Science Graduate Coordinator.

Cause for Dismissal from Program

Students may be dismissed from the program at any time "for cause." "For cause" includes, but is not limited to, poor academic performance, violation of the student code of conduct, academic dishonesty, or interference with the educational environment. Students whose GPA falls below 3.0 for two or more

consecutive semesters will be academically disqualified from the university. Students with two or more filed academic dishonesty reports will be referred to the Office of Graduate Studies with a recommendation that they be declassified from the program. See Academic Dishonesty Policies in the Student Rights, Responsibilities & Conduct chapter for further information.

Computer Science Degree Requirements (30-33 units)

The following departmental requirements are in addition to the university requirements.

Required Courses

The following 15 units are required for the degree:

- CS 601 - Advanced Algorithms *Units: 3*
- CS 611 - Theory of Computation *Units: 3*
- CS 621 - Operating Systems Design *Units: 3*
- CS 651 - Web Systems *Units: 3*
- CS 671 - Cybersecurity *Units: 3*

Concentrations

Students must select one (1) of the following concentrations, for 12 units, to fulfill the degree requirements:

- Computer Science, M.S.: Computer Science Concentration
- Computer Science, M.S.: Computer Networks Concentration

Capstone Requirements

A student must select and satisfy 3 units from one (1) of the following capstone requirements. A student must have "Advanced to Candidacy" status, a GPA of 3.0 or greater, and department permission in order to enroll in any of the capstone options.

Students who complete a thesis or project must complete a minimum of 3 units and have an advisor who agrees to oversee the work, and must have the proposed topic approved by the Computer Science Graduate Studies Committee.

- CS 692 - Capstone Examinations *Units: 3*
- CS 693 - Capstone Project *Units: 1-4*
- CS 699 - Capstone Thesis *Units: 1-6*

Computer Networks Concentration

The following 12 units are required for the concentration as outlined below:

- CS 641 - Advanced Computer Networks *Units: 3*

Plus, choose three (3) courses from the following:

- CS 623 - Cloud Computing *Units: 3*
- CS 643 - Distributed Systems *Units: 3*
- CS 645 - Network Analysis and Design *Units: 3*
- CS 697B - Topics in Computer Networks *Units: 3*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

To apply for admission to the Master of Science program in Computer Science, a student must submit the proper forms, fees and transcripts to the university's Office of Admissions, which initially reviews each application. Each applicant must also submit their scores on the General Test of the Graduate Record Examination (GRE) directly to the university. After the Office of Admissions has completed their review, applications are forwarded to the Computer Science department which makes the decision whether to accept or reject the applicant.

A student wishing to enter the M.S. in Computer Science program must normally have an undergraduate degree in Computer Science or in a related field, must have a grade point average of 3.0 in all undergraduate work, and must have earned a "B" or better in the Computer Science and Mathematics courses listed below.

Computer Science Admission Requirements

Four lower-division Computer Science courses equivalent to the following CSU East Bay courses:

- CS 101 Computer Science I
- CS 201 Computer Science II
- CS 211 Mathematical Foundations of Computer Science
- CS 221 Computer Organization and Assembly Programming

Six upper division Computer Science courses equivalent to the following CSU East Bay courses:

- CS 301 Data Structures and Algorithms
- CS 311 Programming Language Concepts
- CS 321 Computer Architecture
- CS 411 Automata and Computation
- CS 413 Analysis of Algorithms
- CS 421 Operating Systems

Mathematics Requirements for Admission

- MATH 130 Calculus I
- MATH 131 Calculus II
- MATH 225 Numerical Algorithms and Linear Algebra for Computer Science
- STAT 316 Statistics and Probability for Science and Engineering I

A student who has not completed all of the course admission requirements may be admitted to the program at the discretion of the department as a "Conditionally Classified Graduate" student, provided the student's record clearly demonstrates the capability of completing all the course requirements after admission. Students must complete any course deficiencies or remediation with grades of "B" or better. Course deficiencies or remediation must be completed before enrolling in graduate Computer Science

courses. Note that courses used to make up deficiencies for admission may not be applied toward the master's degree.

Student Standing and Progress Towards the Degree

There are three categories of student status which reflect student progress towards the degree: "Conditionally Classified Graduate", "Classified Graduate", and "Advancement to Candidacy."

- Students are granted "Conditionally Classified Graduate" status when they have been admitted to the M.S. in Computer Science program, but have not yet completed all the requirements for "Classified Graduate" status.
- Students with "Conditionally Classified Graduate" status, no course deficiencies or remediation, and who have satisfied the University Writing Skills Requirement (UWSR) should petition the graduate coordinator for "Classified Graduate" status. Note that satisfaction of the University Writing Skills Requirement must begin during the first semester of admission to the program.
- Students with "Classified Graduate" status may apply for "Advancement to Candidacy" status after completing the five M.S. required courses with a "B" or better average. In addition, a student must have an overall and graduate GPA of 3.0 or better. Before Advancement to Candidacy, a student's complete course of study must be approved by the Computer Science Graduate Coordinator.

Cause for Dismissal from Program

Students may be dismissed from the program at any time "for cause." "For cause" includes, but is not limited to, poor academic performance, violation of the student code of conduct, academic dishonesty, or interference with the educational environment. Students whose GPA falls below 3.0 for two or more consecutive semesters will be academically disqualified from the university. Students with two or more filed academic dishonesty reports will be referred to the Office of Graduate Studies with a recommendation that they be declassified from the program. See Academic Dishonesty Policies in the Student Rights, Responsibilities & Conduct chapter for further information.

Computer Science Degree Requirements (30-33 units)

The following departmental requirements are in addition to the university requirements.

Required Courses

The following 15 units are required for the degree:

- CS 601 - Advanced Algorithms *Units: 3*
- CS 611 - Theory of Computation *Units: 3*
- CS 621 - Operating Systems Design *Units: 3*
- CS 651 - Web Systems *Units: 3*
- CS 671 - Cybersecurity *Units: 3*

Concentrations

Students must select one (1) of the following concentrations, for 12 units, to fulfill the degree requirements:

- Computer Science, M.S.: Computer Science Concentration
- Computer Science, M.S.: Computer Networks Concentration

Capstone Requirements

A student must select and satisfy 3 units from one (1) of the following capstone requirements. A student must have "Advanced to Candidacy" status, a GPA of 3.0 or greater, and department permission in order to enroll in any of the capstone options.

Students who complete a thesis or project must complete a minimum of 3 units and have an advisor who agrees to oversee the work, and must have the proposed topic approved by the Computer Science Graduate Studies Committee.

- CS 692 - Capstone Examinations *Units: 3*
- CS 693 - Capstone Project *Units: 1-4*
- CS 699 - Capstone Thesis *Units: 1-6*

Computer Science Concentration

Students who have chosen the Computer Science concentration are to select any four (4) courses for 12 units from the 600-level Computer Science course list not including any of the required courses or capstone courses listed above.

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

- CS 699 - Capstone Thesis *Units: 1-6*

Minor

Computer Science Minor

Minor Requirements (21 units)

Lower Division Computer Science

Take the following 11 units:

- CS 101 - Computer Science I *Units: 4*
- CS 201 - Computer Science II *Units: 4*
- CS 211 - Discrete Structures *Units: 3*

Note: CS 100 may be substituted for CS 101 with departmental approval.

Upper Division Computer Science

Take the following 4 units:

- CS 301 - Data Structures and Algorithms *Units: 4*

Computer Science Minor Electives

Students must take two (2) additional courses with the CS prefix numbered 300 and above for a minimum of 6 units. Courses may NOT be the same as those already required in the minor.

Michelle Rippy, MFS National University

Department Statement

The Department of Criminal Justice, established in 1976, offers an undergraduate program leading to a degree of Bachelor of Science, as well as a minor, in Criminal Justice. The undergraduate program is designed for the academic development of knowledge and understanding of practices, theories, and concepts of justice administration, as well as to prepare students for professional careers in justice administration, law enforcement, corrections, and graduate studies.

Bachelor

Criminal Justice, B.S.

Criminal Justice, B.S. Program (120 units)

Program Description

The Department of Criminal Justice offers an undergraduate degree designed for the development of knowledge and understanding of practices, criminological theory, and concepts of the criminal justice system. Through the examination of crime prevention, forensic science and investigation, corrections and community-based programs, equity and diversity, and impact of victimization students will be provided with a general understanding of the issues facing the criminal and juvenile justice systems. This major will prepare students to be leaders for positive change in the community along with careers in law enforcement, corrections, victim advocacy, law, and community-based programs.

Many local, state, federal and private agencies employ Cal State East Bay criminal justice graduates. Senior majors may qualify for internship placement in criminal justice agencies throughout the Bay Area.

Local level agencies include municipal police departments, county sheriffs' offices, probation departments, halfway and pre-release houses, group homes, crisis centers, juvenile halls, welfare fraud units, computer crime analysis, and retail and industrial security agencies. State level agencies include: the Highway Patrol, California Department of Corrections and Rehabilitation, Department of Motor Vehicles, and Departments of Justice, Fish and Game, and Forestry. Federal level agencies include the Border Patrol; F.B.I.; Secret Service; Bureau of Alcohol, Tobacco and Firearms; Internal Revenue Service; National Park Service; Customs; Postal Inspection Service; and Federal Prisons.

Career Opportunities

Family Violence, Crisis, or Shelter Counselor • Community Agency Counselor • Community Service Coordinator • Consumer Affairs Director • Probation, Parole, and Corrections Officer • Deputy Insurance Commissioner • Equal Opportunity Representative • ATF, CIA FBI Agent • Group Worker • Insurance Investigator • Investigator • Loss Prevention Specialist • Park Ranger • Police Administrator • Police Officer • Security Manager • Social Worker • Vocational Rehabilitation Officer

Program Learning Outcomes

Students graduating with a B.S. in Criminal Justice from Cal State East Bay will be able to:

- Analyze and discuss issues of crime and justice from different perspectives that reflect critical and independent thinking;

- Communicate, present, and discuss ideas and issues in one-on-one or group settings (Oral Communication), and write effectively, following appropriate writing styles as commonly practiced in the social sciences;
- Apply knowledge of diversity and multicultural competencies to criminal justice strategies that will promote equity and social justice in every community;
- Work collaboratively and respectfully as members and leaders of diverse teams and communities;
- Demonstrate an understanding of how the ethical and responsible application of criminal justice regulates human conduct and sustains stability in society; and
- Apply appropriate knowledge and skills necessary for a vital career in criminal justice and related professions.

Degree Requirements Unit-Outline

- A baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 48 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 15 units (actual number of free elective units may depend on GE/GR units).
- Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.*

Criminal Justice Major Requirements (48 units)

Note: Credit/No Credit (CR/NC) grading is NOT permitted for classes used to meet the major requirements. A grade of C (2.0) or higher is required for all courses to be counted toward the major.

Lower Division Core

The following 18 units are required:

- CRJ 101 - Introduction to Criminal Justice *Units: 3*
- CRJ 210 - Elementary Criminal Law *Units: 3*
- CRJ 220 - Basic Criminal Investigation *Units: 3*
- CRJ 230 - Police Community Relations *Units: 3*
- SOC 100 - Introduction to Sociology *Units: 3 ; G.E./G.R. Area: D1-3*
- STAT 100 - Elements of Statistics and Probability *Units: 3 ; G.E./G.R. Area: B4*

Upper Division Coursework

The following four (4) upper-division core courses for 12 units are required:

- CRJ 320 - Research Methods in Criminal Justice *Units: 3*
- CRJ 370 - Ethics and Criminal Justice Administration *Units: 3*
- CRJ 460 - Crime Theory *Units: 3*
- CRJ 480 - Criminal Law and Courts *Units: 3*

- *Plus, select one (1) course from each of the following groups for 12 units*

Crime Prevention, Policing, & Forensics Courses

- CRJ 330 - Crime Prevention and Control *Units: 3*
- CRJ 340 - Advanced Criminal Investigation *Units: 3*
- CRJ 350 - Criminal Identification *Units: 3*
- CRJ 380 - Survey of Forensic Science *Units: 3*
- CRJ 410 - Advanced Policing Innovations *Units: 3*

Corrections, Community Based Programs, and Youth

- CRJ 310 - Corrections and Criminal Justice *Units: 3*
- CRJ 455 - Youth Crime and Empowerment *Units: 3*
- CRJ 470 - Community Based Corrections *Units: 3*
- CRJ 475 - Restorative Justice *Units: 3*

Impact of Crime & Victimization

- CRJ 345 - Animal Cruelty and the Criminal Justice System *Units: 3*
- CRJ 375 - Family Violence and the Criminal Justice System *Units: 3*
- CRJ 430 - Victimology & Crime Victims *Units: 3*

Justice, Equity, Diversity

- CRJ 435 - Prejudice, Violence, and Hate Crimes *Units: 3*
- CRJ 450 - Women in Criminal Justice *Units: 3*
- CRJ 465 - Drugs, Law, and Society: Race, Gender, and U.S. Drug Policy
Units: 3

Elective Courses

Select two (2) courses from the following for a total of 6 units:

- CRJ 300 - Crime and Criminal Justice in the Media and Cinema *Units: 3*
- CRJ 310 - Corrections and Criminal Justice *Units: 3*
- CRJ 330 - Crime Prevention and Control *Units: 3*
- CRJ 340 - Advanced Criminal Investigation *Units: 3*
- CRJ 345 - Animal Cruelty and the Criminal Justice System *Units: 3*
- CRJ 350 - Criminal Identification *Units: 3*
- CRJ 360 - Police Organization and Management *Units: 3*
- CRJ 375 - Family Violence and the Criminal Justice System *Units: 3*
- CRJ 380 - Survey of Forensic Science *Units: 3*
- CRJ 400 - Sex Crime Investigation *Units: 3*
- CRJ 410 - Advanced Policing Innovations *Units: 3*
- CRJ 415 - Internship in Criminal Justice *Units: 3*
- CRJ 420 - White Collar Crime *Units: 3*

- CRJ 425 - Transnational Crime *Units: 3*
- CRJ 430 - Victimology & Crime Victims *Units: 3*
- CRJ 435 - Prejudice, Violence, and Hate Crimes *Units: 3*
- CRJ 450 - Women in Criminal Justice *Units: 3*
- CRJ 455 - Youth Crime and Empowerment *Units: 3*
- CRJ 465 - Drugs, Law, and Society: Race, Gender, and U.S. Drug Policy
Units: 3
- CRJ 470 - Community Based Corrections *Units: 3*
- CRJ 475 - Restorative Justice *Units: 3*
- CRJ 483 - Seminar in Forensic Research *Units: 1*
- CRJ 490 - Independent Study *Units: 1-3*
- CRJ 495 - Practicum in Criminal Justice *Units: 3*
- CRJ 497 - Issues in Criminal Justice *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Minor

Criminal Justice Minor

Minor Requirements (24 units)

The purpose of the minor is to provide interested students with the opportunity to study the central areas of criminal justice. The selected courses will offer instruction in law, law enforcement, ethics, corrections and the courts. The minor allows those students with career plans in the social services and business administration to acquire knowledge of criminal justice, a career area with high employment prospects.

Note: Credit/No Credit (CR/NC) grading is not permitted for classes used to meet minor requirements. A C (2.0) or higher is required to pass all courses in the minor.

Lower Division

Take the following 9 units:

- CRJ 101 - Introduction to Criminal Justice *Units: 3*
- CRJ 210 - Elementary Criminal Law *Units: 3*
- CRJ 220 - Basic Criminal Investigation *Units: 3*

Lower Division Statistics Requirement

Take the following 3 units:

- STAT 100 - Elements of Statistics and Probability *Units: 3 ; G.E./G.R. Area: B4*

Upper Division Requirements

Take the following 12 units:

- CRJ 310 - Corrections and Criminal Justice *Units: 3*
- OR CRJ 470 - Community Based Corrections *Units: 3*
- CRJ 330 - Crime Prevention and Control *Units: 3*
- OR CRJ 430 - Victimology & Crime Victims *Units: 3*
- CRJ 360 - Police Organization and Management *Units: 3*
- OR CRJ 410 - Advanced Policing Innovations *Units: 3*
- CRJ 370 - Ethics and Criminal Justice Administration *Units: 3*

Professors

Mitchell Craig, Ph.D. Georgia Institute of Technology

Jean E. Moran, (Chair), Ph.D. University of Rochester

Jeffery C. Seitz, Ph.D. Virginia Polytechnic Institute and State University

Associate Professor

Luther M. Strayer, Ph.D. University of Minnesota

Assistant Professors

Michael Massey, Ph.D. Stanford University

Patricia Oikawa, Ph.D. University of Virginia

José Rosario, Ph.D. Cornell University

Environmental Science Program Coordinator: Michael Massey

Department Statement

The Department of Earth and Environmental Sciences at Cal State East Bay is the home of the Geology and Environmental Science programs. Located on the tectonically active Hayward fault, we offer a variety of opportunities for students to obtain experience in lab- and field-based studies. We are a small department that prides itself on a feeling of community. Small class sizes guarantee close interaction between students and faculty, with personal attention at all levels.

About the Department

Use our university website link to learn more about what the Earth and Environmental Sciences Department has to offer.

Bachelor

Environmental Science, B.S.

Environmental Science, B.S. Program (120 units)

Program Description

The Department of Earth and Environmental Sciences offers undergraduate study leading to the Bachelor of Science degree in Environmental Science, focusing on developing strong foundational knowledge and a broad set of field and laboratory skills that allow students to seek employment, or prepare them for continued academic study in the Earth and environmental sciences.

Environmental science is an interdisciplinary field, focusing on the study of physical, chemical, and biological processes that underpin both natural ecosystems and human-influenced systems. While their focus is often on the physical and life sciences, environmental scientists must also be mindful of social issues, political context, economic factors, and human well-being in order to understand environmental issues and address environmental problems. The coursework for the Environmental Science degree reflects this broad, systems-level approach, with coursework in science and mathematics, as well as the social sciences. This allows students to gain a deeper understanding of the science and social issues involved in addressing complex environmental problems such as environmental contamination, access to food and safe drinking water, and climate change.

The undergraduate degree program in Environmental Science includes a core of required courses intended to provide students with an understanding of the fundamental principles of biology, chemistry, geology, mathematics, physics, and statistics necessary to understand environmental challenges. In addition, further required courses and electives allow students to apply this fundamental knowledge to broader environmental issues and problems, and to deepen their understanding of natural systems, human

systems, and sustainability. The Environmental Science B.S. program serves as preparation for employment in a variety of related fields, both in technical and policy/management roles requiring extensive technical knowledge and background. Due to the breadth of disciplines involved in environmental science, students wishing to do independent work professionally may wish to consider graduate study in a field of specialization, if further training is required for their chosen path.

The Environmental Science B.S. with a concentration in Environmental Health focuses on environmental hazards impacting human health (toxic and hazardous substances, physical and biological hazards, etc.) Above and beyond the general path, the concentration in Environmental Health prepares students for employment as Registered Environmental Health Specialists in the State of California.

The Bachelor of Science (B.S.) program is designed to prepare students for:

- Entry-level employment as environmental scientists in government (city, county, regional, state, and federal), and in private industry (environmental consulting, water and wastewater treatment, environmental health and safety, hazardous materials management, environmental remediation, etc.)
- Graduate study in environmental science, Earth science, Earth systems science, environmental chemistry, climate science, etc.
- The undergraduate Environmental Science program emphasizes field and laboratory training. Many opportunities for field- and laboratory-based research exist throughout Northern California and elsewhere. This program reflects departmental expertise by focusing on issues important to the local and regional communities, such as water availability, water quality, soil remediation, environmental impacts of urban and agricultural communities, and coastal issues of importance to the San Francisco Bay region and the State of California. Rigorous coursework is augmented by field experiences that allow students to synthesize classroom concepts in natural laboratories. Seminars and topical courses address diverse subjects, for example: water contamination, sustainable management of food waste, hazardous waste management, and human use of groundwater and surface water. The Department of Earth and Environmental Sciences maintains strong connections with East Bay Regional Parks, the California Environmental Protection Agency, Lawrence Livermore National Laboratory, NASA Ames, the U.S. Geological Survey in Menlo Park, and SLAC National Accelerator Laboratory.
- Students with strong records in the B.S. degree may be able to engage in guided, individual research projects, working with faculty on their research. Students wishing to pursue a senior thesis should make contact with a faculty advisor at least one full semester in advance to discuss topic and feasibility.
- The Earth & Environmental Science Club, a student-run organization, sponsors a variety of activities including guest speakers, field trips, employment workshops, and student-faculty gatherings. The club is an important part of department life, providing students with opportunities to make professional contacts, to explore graduate school and professional options, and to enjoy the company of others with similar interests.

Career Opportunities

Analytical Laboratory Technician • Drinking Water Treatment Specialist • Environmental Analyst • Environmental Chemist • Environmental Health and Safety Specialist • Environmental Policy, Planning, and Management • Environmental Remediation Specialist • Hydrologist • Hazardous Waste Management Specialist • Park Ranger • Wastewater Treatment Specialist

Program Learning Outcomes

Students graduating with a B.S. in Environmental Science will:

I. Demonstrate foundational knowledge of Earth processes, natural systems, and the effects of human activity (Knowledge)

- Identify key components of the Earth system, and describe the physical, chemical, and biological processes by which Earth systems interact on a variety of scales.
- Apply an interdisciplinary understanding of biology, geology, chemistry, physics, mathematics, and statistics to understanding environmental issues.
- Articulate the impacts of humans on the environment, and the roles of humans in avoiding, mitigating, or remediating environmental impacts.
- Articulate the relationship between scientific findings, the impact of humans on the environment, and the concept of sustainability.

II. Develop fundamental field, laboratory, and computer skills necessary for environmental science (Skills)

- Identify key geologic materials and organisms, and describe their features and importance in the environment.
- Perform basic field and laboratory-based tasks such as chemical analysis, physical analysis, data collection, statistical analysis, and data analysis using standard techniques and equipment.
- Demonstrate competency with basic computational tools and software for data collection, analysis, and effective communication.
- Collaborate effectively with others to accomplish tasks in field and laboratory settings.

III. Critically evaluate, analyze, and integrate scientific findings, data, and socioeconomic context to understand environmental issues (Analysis and synthesis)

- Critically read, analyze, and critique research literature, popular literature, and scientific data from an interdisciplinary scientific and quantitative perspective.
- Articulate the socioeconomic context relevant to environmental issues, including environmental impacts on diverse and vulnerable populations, and environmental justice.
- Integrate scientific findings and socioeconomic context to synthesize an interdisciplinary understanding of environmental issues.
- Understand the complex relationships between local and global needs, and the relationship between human actions and consequences at local and global scales.

IV. Effectively communicate in oral and written form, and develop collaborative skills (Communication)

- Present positions on environmental issues clearly in written form, using words, graphs, tables, and figures as appropriate.
- Communicate effectively in oral form, using prepared presentations.
- Understand the importance of considering competing or contrary viewpoints, as a fundamental part of the scientific process.
- Function responsibly as a member of a diverse team, demonstrating professionalism and effective communication between team members.

V. Understand the role of the environmental science in local, regional, and global sustainability, and the role of an ethical scientist (Sustainability and global thinking)

- Articulate Earth's place in the Universe, global-scale processes such as climate change, and the interactions of Earth systems with human systems.
- Understand the roles and impacts of society and technology on resource use and sustainability (environmental, economic, and social) at local, regional, and global scales.
- Apply knowledge and skills in a responsible, professional, and ethical manner, with an awareness of potential consequences at multiple scales.

VI. Synthesize scientific and technical knowledge and skills, and knowledge of policy and society, to articulate solutions to environmental hazards (toxic substances, climate change, etc.) impacting human health.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units;
- The major requirements consists of 71-81 units
- General Education (GE) & Graduation Requirements (GR) consists of 57 units;
- Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Environmental Science Major Requirements (71-81 units)

Lower Division Requirements

Lower-division core courses focus on fundamental biological, chemical, geological, mathematical, and physical concepts. In addition, lower-division core courses introduce the application of fundamental knowledge to understanding Earth systems and environmental systems. This area is 34 units.

- ENSC 240 - Environmental Biology Units: 3 ; G.E./G.R. Area: B2; Sustainability
- ENSC 241 - Environmental Biology Laboratory Units: 1 ; G.E./G.R. Area: B3
- ENSC 280 - Humans and the Environment in California Units: 3 ; G.E./G.R. Area: B1; Sustainability
- ENSC 297 - Introductory Field Experience Units: 1
- GEOL 210 - Physical and Environmental Geology Units: 4 ; G.E./G.R. Area: B1, B3
- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
- CHEM 112 - General Chemistry II Units: 5
- PHYS 125 - Principles of Physics I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 126 - Principles of Physics II Units: 4 ; G.E./G.R. Area: B1, B3
- MATH 130 - Calculus I Units: 4 ; G.E./G.R. Area: B4

Upper Division Requirements

The following upper-division core, for 16 units, are required:

All of the following 9 units are required:

- BIOL 350 - Ecology Units: 4
- ENSC 397 - Advanced Field Experience Units: 2
- ENVT 410 - Environmental Impact Analysis Units: 3

Plus choose one (1) of the following for 4 units:

- ENSC 350 - Environmental Hydrology Units: 4 ; G.E./G.R. Area: Sustainability
- GEOL 432 - Hydrogeology Units: 4

And, choose one (1) of the following for 3 units:

- **STAT 303 - Statistical Methods in Biology** *Units: 3*
- **STAT 310 - Statistical Methods in the Social Sciences** *Units: 3*

Capstone Requirement

The following capstone experience, for 3 units, is required to complete the major:

- **ENSC 499 - Capstone Seminar in Geosciences** *Units: 3*

Elective Coursework

Only students NOT choosing the Environmental Health concentration are required to select 18-21 units of elective coursework as outlined below:

Choose one (1) course for 3 units:

- **GEOG 225 - Fundamentals of GIS** *Units: 3*
- **ENSC 260 - Introduction to GIS in Earth and Environmental Sciences** *Units: 3 ; G.E./G.R. Area: B1, B3*

Plus choose one (1) course for 3 units from the following:

- **ENSC 414 - Hazardous Waste Management** *Units: 3 ; G.E./G.R. Area: Sustainability*
- **ENSC 420 - Global Change** *Units: 3 ; G.E./G.R. Area: Sustainability*
- **ENSC 497 - Special Topics and Issues in Environmental Sciences** *Units: 3*

And, choose one (1) course for 3-4 units from the following:

- **ECON 360 - Environmental Economics** *Units: 3*
- **ENGL 342 - Environmental Literature** *Units: 4 ; G.E./G.R. Area: C4; Sustainability*
- **ENVT 330 - Environment, Sustainability, and Social Justice** *Units: 3 ; G.E./G.R. Area: D4; Sustainability*
- **HSC 340 - Climate Change and Public Health** *Units: 3*
- **POSC 344 - Environmental Law** *Units: 3*
- **POSC 411 - Public Policy and the Environment** *Units: 3*
- **SOC 330 - Environmental Sociology** *Units: 4*

Depth Electives

Choose a minimum of 9-11 units from the following depth-electives:

- **BIOL 433 - Microbial Ecology** *Units: 3*
- **BIOL 454 - Biology of Fungi** *Units: 4*
- **BIOL 469 - Conservation Biology** *Units: 4*
- **CHEM 220 - Quantitative Analysis** *Units: 4*
- **CHEM 331 - Organic Chemistry I** *Units: 5*
- **CHEM 425 - Environmental Chemistry** *Units: 4*
- **ENSC 410 - Geohealth** *Units: 3*
- **GEOG 425 - Advanced GIS** *Units: 3*

- GEOL 311 - Geomorphology *Units: 3*
- GEOL 360 - Mineralogy and Optical Crystallography *Units: 4*
- GEOL 371 - Sedimentary Geology and Stratigraphy *Units: 4*
- GEOL 460 - Geographic Information Systems for Earth and Environmental Sciences *Units: 4*
- HSC 300 - Environmental Health *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- HSC 460 - Emergency Preparedness and Response *Units: 3*
- *Other upper-division major-related courses may be used with prior consent of the faculty advisor.*
- *One ENSC graduate-level course may be used to satisfy one elective with prior consent of the faculty advisor and instructor consent.*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Courses

Environmental Science

- ENSC 210 - Physical and Environmental Geology *Units: 4 ; G.E./G.R. Area: B1, B3*
- ENSC 211 - Historical Geology *Units: 4*
- ENSC 220 - Warming Planet, Rising Seas, and Global Change *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- ENSC 235 - Disasters on Earth and in Hollywood *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- ENSC 240 - Environmental Biology *Units: 3 ; G.E./G.R. Area: B2; Sustainability*
- ENSC 241 - Environmental Biology Laboratory *Units: 1 ; G.E./G.R. Area: B3*
- ENSC 250 - Oil, Water and Future Earth *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- ENSC 260 - Introduction to GIS in Earth and Environmental Sciences *Units: 3 ; G.E./G.R. Area: B1, B3*
- ENSC 280 - Humans and the Environment in California *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- ENSC 297 - Introductory Field Experience *Units: 1*
- ENSC 311 - Geomorphology *Units: 3*
- ENSC 320 - The Science of Global Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENSC 330 - Weather and the Atmosphere *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENSC 340 - The Oceans *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENSC 343 - Atmospheric Science *Units: 3*
- ENSC 350 - Environmental Hydrology *Units: 4 ; G.E./G.R. Area: Sustainability*

- ENSC 397 - Advanced Field Experience *Units: 2*
- ENSC 410 - Geohealth *Units: 3*
- ENSC 414 - Hazardous Waste Management *Units: 3 ; G.E./G.R. Area: Sustainability*
- ENSC 420 - Global Change *Units: 3 ; G.E./G.R. Area: Sustainability*
- ENSC 460 - Geographic Information Systems for Earth and Environmental Sciences *Units: 4*
- ENSC 490 - Independent Study *Units: 1-4*
- ENSC 497 - Special Topics and Issues in Environmental Sciences *Units: 3*
- ENSC 499 - Capstone Seminar in Geosciences *Units: 3*

Environmental Science: Graduate

- ENSC 601 - Professional Ethics in Environmental Geosciences *Units: 1*
- ENSC 631 - Isotope Geochemistry *Units: 4*
- ENSC 632 - Groundwater Flow and Contaminant Transport *Units: 4*
- ENSC 634 - Biogeochemistry *Units: 4*
- ENSC 671 - Field Experience *Units: 1-2*
- ENSC 698 - Internship *Units: 1-3*

Geology

- GEOL 100 - Earth Systems Science *Units: 4 ; G.E./G.R. Area: B1, B3; Sustainability*
- GEOL 101 - Introduction to the Earth Sciences *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- GEOL 102 - Earth Sciences Laboratory *Units: 1 ; G.E./G.R. Area: B3*
- GEOL 120 - Introduction to Oceanography *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- GEOL 210 - Physical and Environmental Geology *Units: 4 ; G.E./G.R. Area: B1, B3*
- GEOL 211 - Historical Geology *Units: 4*
- GEOL 230 - Natural Disasters *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- GEOL 231 - Natural Hazards *Units: 3*
- GEOL 235 - Disasters on Earth and in Hollywood *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- GEOL 260 - Introduction to GIS in Earth and Environmental Sciences *Units: 3 ; G.E./G.R. Area:*

B1, B3

- GEOL 297 - Introductory Field Experience *Units: 1*
- GEOL 301 - Earth Science Connections *Units: 3*
- GEOL 302 - Earth Science Connections Laboratory *Units: 1*
- GEOL 310 - Geology of the Western National Parks *Units: 3 ; G.E./G.R. Area: B6*
- GEOL 311 - Geomorphology *Units: 3*
- GEOL 325 - Volcanoes and Plate Tectonics *Units: 3 ; G.E./G.R. Area: B6*
- GEOL 330 - Weather and the Atmosphere *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- GEOL 340 - The Oceans *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- GEOL 341 - General Oceanography *Units: 4*
- GEOL 342 - Planetary Geology *Units: 3*
- GEOL 343 - Atmospheric Science *Units: 3*
- GEOL 350 - Environmental Hydrology *Units: 4 ; G.E./G.R. Area: Sustainability*
- GEOL 360 - Mineralogy and Optical Crystallography *Units: 4*
- GEOL 361 - Igneous and Metamorphic Petrology *Units: 4*
- GEOL 371 - Sedimentary Geology and Stratigraphy *Units: 4*
- GEOL 381 - Structural Geology *Units: 5*
- GEOL 397 - Advanced Field Experience *Units: 2*
- GEOL 398 - Internship *Units: 1-3*
- GEOL 410 - Geohealth *Units: 3*
- GEOL 414 - Hazardous Waste Management *Units: 3 ; G.E./G.R. Area: Sustainability*
- GEOL 431 - Applied Geophysics *Units: 4*
- GEOL 432 - Hydrogeology *Units: 4*

- • GEOL 441 - Earthquake Geology *Units: 3*
- • GEOL 490 - Independent Study *Units: 1-3*
- • GEOL 497 - Issues in Geosciences *Units: 3*
- • GEOL 499 - Capstone Seminar in Geosciences *Units: 3*

Geology: Graduate

- • GEOL 601 - Professional Ethics in Environmental Geosciences *Units: 1*
- • GEOL 602 - Graduate Seminar *Units: 2*
- • GEOL 621 - Near Surface Geophysics *Units: 4*
- • GEOL 622 - Seismic Exploration *Units: 4*
- • GEOL 631 - Isotope Geochemistry *Units: 4*
- • GEOL 632 - Groundwater Flow and Contaminant Transport *Units: 4*
- • GEOL 633 - The Science of Soils *Units: 4*

- • GEOL 644 - Structural Styles of Plate Margins and Regions *Units: 4*
- • GEOL 645 - Engineering Geology *Units: 4*
- • GEOL 646 - Quaternary Geology *Units: 4*
- • GEOL 650 - Professional Certification Preparation *Units: 3*
- • GEOL 671 - Field Experience *Units: 1-2*
- • GEOL 690 - Independent Study *Units: 1-3*
- • GEOL 691 - University Thesis *Units: 1-6*
- • GEOL 693 - Project *Units: 1-2*
- • GEOL 697 - Issues in Geosciences *Units: 3*
- • GEOL 698 - Internship *Units: 1-3*

Environmental Science, B.S.: Environmental Health Concentration

Environmental Science, B.S. Program (120 units)

Program Description

The Department of Earth and Environmental Sciences offers undergraduate study leading to the Bachelor of Science degree in Environmental Science, focusing on developing strong foundational knowledge and a broad set of field and laboratory skills that allow students to seek employment, or prepare them for continued academic study in the Earth and environmental sciences.

Environmental science is an interdisciplinary field, focusing on the study of physical, chemical, and biological processes that underpin both natural ecosystems and human-influenced systems. While their focus is often on the physical and life sciences, environmental scientists must also be mindful of social issues, political context, economic factors, and human well-being in order to understand environmental issues and address environmental problems. The coursework for the Environmental Science degree reflects this broad, systems-level approach, with coursework in science and mathematics, as well as the social sciences. This allows students to gain a deeper understanding of the science and social issues involved in addressing complex environmental problems such as environmental contamination, access to food and safe drinking water, and climate change.

The undergraduate degree program in Environmental Science includes a core of required courses intended to provide students with an understanding of the fundamental principles of biology, chemistry, geology,

mathematics, physics, and statistics necessary to understand environmental challenges. In addition, further required courses and electives allow students to apply this fundamental knowledge to broader environmental issues and problems, and to deepen their understanding of natural systems, human systems, and sustainability. The Environmental Science B.S. program serves as preparation for employment in a variety of related fields, both in technical and policy/management roles requiring extensive technical knowledge and background. Due to the breadth of disciplines involved in environmental science, students wishing to do independent work professionally may wish to consider graduate study in a field of specialization, if further training is required for their chosen path.

The Environmental Science B.S. with a concentration in Environmental Health focuses on environmental hazards impacting human health (toxic and hazardous substances, physical and biological hazards, etc.) Above and beyond the general path, the concentration in Environmental Health prepares students for employment as Registered Environmental Health Specialists in the State of California.

The Bachelor of Science (B.S.) program is designed to prepare students for:

- Entry-level employment as environmental scientists in government (city, county, regional, state, and federal), and in private industry (environmental consulting, water and wastewater treatment, environmental health and safety, hazardous materials management, environmental remediation, etc.)
- Graduate study in environmental science, Earth science, Earth systems science, environmental chemistry, climate science, etc.
- The undergraduate Environmental Science program emphasizes field and laboratory training. Many opportunities for field- and laboratory-based research exist throughout Northern California and elsewhere. This program reflects departmental expertise by focusing on issues important to the local and regional communities, such as water availability, water quality, soil remediation, environmental impacts of urban and agricultural communities, and coastal issues of importance to the San Francisco Bay region and the State of California. Rigorous coursework is augmented by field experiences that allow students to synthesize classroom concepts in natural laboratories. Seminars and topical courses address diverse subjects, for example: water contamination, sustainable management of food waste, hazardous waste management, and human use of groundwater and surface water. The Department of Earth and Environmental Sciences maintains strong connections with East Bay Regional Parks, the California Environmental Protection Agency, Lawrence Livermore National Laboratory, NASA Ames, the U.S. Geological Survey in Menlo Park, and SLAC National Accelerator Laboratory.
- Students with strong records in the B.S. degree may be able to engage in guided, individual research projects, working with faculty on their research. Students wishing to pursue a senior thesis should make contact with a faculty advisor at least one full semester in advance to discuss topic and feasibility.
- The Earth & Environmental Science Club, a student-run organization, sponsors a variety of activities including guest speakers, field trips, employment workshops, and student-faculty gatherings. The club is an important part of department life, providing students with opportunities to make professional contacts, to explore graduate school and professional options, and to enjoy the company of others with similar interests.

Career Opportunities

Analytical Laboratory Technician • Drinking Water Treatment Specialist • Environmental Analyst • Environmental Chemist • Environmental Health and Safety Specialist • Environmental Policy, Planning, and Management • Environmental Remediation Specialist • Hydrologist • Hazardous Waste Management Specialist • Park Ranger • Wastewater Treatment Specialist

Program Learning Outcomes

Students graduating with a B.S. in Environmental Science will:

I. Demonstrate foundational knowledge of Earth processes, natural systems, and the effects of human activity (Knowledge)

- Identify key components of the Earth system, and describe the physical, chemical, and biological processes by which Earth systems interact on a variety of scales.
- Apply an interdisciplinary understanding of biology, geology, chemistry, physics, mathematics, and statistics to understanding environmental issues.
- Articulate the impacts of humans on the environment, and the roles of humans in avoiding, mitigating, or remediating environmental impacts.
- Articulate the relationship between scientific findings, the impact of humans on the environment, and the concept of sustainability.

II. Develop fundamental field, laboratory, and computer skills necessary for environmental science (Skills)

- Identify key geologic materials and organisms, and describe their features and importance in the environment.
- Perform basic field and laboratory-based tasks such as chemical analysis, physical analysis, data collection, statistical analysis, and data analysis using standard techniques and equipment.
- Demonstrate competency with basic computational tools and software for data collection, analysis, and effective communication.
- Collaborate effectively with others to accomplish tasks in field and laboratory settings.

III. Critically evaluate, analyze, and integrate scientific findings, data, and socioeconomic context to understand environmental issues (Analysis and synthesis)

- Critically read, analyze, and critique research literature, popular literature, and scientific data from an interdisciplinary scientific and quantitative perspective.
- Articulate the socioeconomic context relevant to environmental issues, including environmental impacts on diverse and vulnerable populations, and environmental justice.
- Integrate scientific findings and socioeconomic context to synthesize an interdisciplinary understanding of environmental issues.
- Understand the complex relationships between local and global needs, and the relationship between human actions and consequences at local and global scales.

IV. Effectively communicate in oral and written form, and develop collaborative skills (Communication)

- Present positions on environmental issues clearly in written form, using words, graphs, tables, and figures as appropriate.
- Communicate effectively in oral form, using prepared presentations.
- Understand the importance of considering competing or contrary viewpoints, as a fundamental part of the scientific process.
- Function responsibly as a member of a diverse team, demonstrating professionalism and effective communication between team members.

V. Understand the role of the environmental science in local, regional, and global sustainability, and the role of an ethical scientist (Sustainability and global thinking)

- Articulate Earth's place in the Universe, global-scale processes such as climate change, and the interactions of Earth systems with human systems.
- Understand the roles and impacts of society and technology on resource use and sustainability (environmental, economic, and social) at local, regional, and global scales.

- Apply knowledge and skills in a responsible, professional, and ethical manner, with an awareness of potential consequences at multiple scales.
- VI. Synthesize scientific and technical knowledge and skills, and knowledge of policy and society, to articulate solutions to environmental hazards (toxic substances, climate change, etc.) impacting human health.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
- The major requirements consists of 71-81 units
- General Education (GE) & Graduation Requirements (GR) consists of 57 units;
- Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Environmental Science Major Requirements (71-81 units)

Lower Division Requirements

Lower-division core courses focus on fundamental biological, chemical, geological, mathematical, and physical concepts. In addition, lower-division core courses introduce the application of fundamental knowledge to understanding Earth systems and environmental systems. This area is 34 units.

- ENSC 240 - Environmental Biology Units: 3 ; G.E./G.R. Area: B2; Sustainability
- ENSC 241 - Environmental Biology Laboratory Units: 1 ; G.E./G.R. Area: B3
- ENSC 280 - Humans and the Environment in California Units: 3 ; G.E./G.R. Area: B1; Sustainability
- ENSC 297 - Introductory Field Experience Units: 1
- GEOL 210 - Physical and Environmental Geology Units: 4 ; G.E./G.R. Area: B1, B3
- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
- CHEM 112 - General Chemistry II Units: 5
- PHYS 125 - Principles of Physics I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 126 - Principles of Physics II Units: 4 ; G.E./G.R. Area: B1, B3
- MATH 130 - Calculus I Units: 4 ; G.E./G.R. Area: B4

Upper Division Requirements

The following upper-division core, for 16 units, are required:

All of the following 9 units are required:

- BIOL 350 - Ecology Units: 4
- ENSC 397 - Advanced Field Experience Units: 2
- ENVT 410 - Environmental Impact Analysis Units: 3

Plus choose one (1) of the following for 4 units:

- ENSC 350 - Environmental Hydrology *Units: 4 ; G.E./G.R. Area: Sustainability*
- GEOL 432 - Hydrogeology *Units: 4*

And, choose one (1) of the following for 3 units:

- STAT 303 - Statistical Methods in Biology *Units: 3*
- STAT 310 - Statistical Methods in the Social Sciences *Units: 3*

Capstone Requirement

The following capstone experience, for 3 units, is required to complete the major:

- ENSC 499 - Capstone Seminar in Geosciences *Units: 3*

Environmental Health Concentration

The Environmental Health concentration, for 28 units, has a substantially restricted list of course requirements, intended to satisfy the California Registered Environmental Health Specialist (REHS) Option V certification pathway. The concentration requires certain specific courses in both the lower and upper division:

- BIOL 230 - Introduction to Clinical Microbiology *Units: 4 ; G.E./G.R. Area: B2, B3*
- CHEM 233 - Fundamentals of Organic Chemistry *Units: 3*
- ENSC 414 - Hazardous Waste Management *Units: 3 ; G.E./G.R. Area: Sustainability*
- HSC 130 - Health Humanities *Units: 3 ; G.E./G.R. Area: C2*
- HSC 300 - Environmental Health *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- HSC 330 - Epidemiology *Units: 3*
- HSC 362 - Environmental Health Policy *Units: 3 ; G.E./G.R. Area: D4*

Plus, select any two (2) from the following:

- HSC 385 - Vector Control *Units: 3*
- HSC 405 - Toxicology *Units: 3*
- HSC 420 - Occupational Health *Units: 3*
- PHYS 305 - Environmental Health Science Electromagnetic and Nuclear

Radiation *Units: 3*

- *(Students with advisor approval and instructor consent may use one ENSC graduate-level course to satisfy one elective)*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- GEOL 343 - Atmospheric Science *Units: 3*
- GEOL 350 - Environmental Hydrology *Units: 4 ; G.E./G.R. Area: Sustainability*
- GEOL 360 - Mineralogy and Optical Crystallography *Units: 4*
- GEOL 361 - Igneous and Metamorphic Petrology *Units: 4*
- GEOL 371 - Sedimentary Geology and Stratigraphy *Units: 4*
- GEOL 381 - Structural Geology *Units: 5*
- GEOL 397 - Advanced Field Experience *Units: 2*
- GEOL 398 - Internship *Units: 1-3*
- GEOL 410 - Geohealth *Units: 3*
- GEOL 414 - Hazardous Waste Management *Units: 3 ; G.E./G.R. Area: Sustainability*
- GEOL 431 - Applied Geophysics *Units: 4*
- GEOL 432 - Hydrogeology *Units: 4*
- GEOL 441 - Earthquake Geology *Units: 3*
- GEOL 490 - Independent Study *Units: 1-3*
- GEOL 497 - Issues in Geosciences *Units: 3*
- GEOL 499 - Capstone Seminar in Geosciences *Units: 3*

Geology: Graduate

- GEOL 601 - Professional Ethics in Environmental Geosciences *Units: 1*
- GEOL 602 - Graduate Seminar *Units: 2*
- GEOL 621 - Near Surface Geophysics *Units: 4*
- GEOL 622 - Seismic Exploration *Units: 4*
- GEOL 631 - Isotope Geochemistry *Units: 4*
- GEOL 632 - Groundwater Flow and Contaminant Transport *Units: 4*
- GEOL 633 - The Science of Soils *Units: 4*
- GEOL 634 - Biogeochemistry *Units: 4*
- GEOL 641 - Earthquake Geology *Units: 4*
- GEOL 643 - Tectonic Geomorphology *Units: 4*
- GEOL 644 - Structural Styles of Plate Margins and Regions *Units: 4*
- GEOL 645 - Engineering Geology *Units: 4*
- GEOL 646 - Quaternary Geology *Units: 4*
- GEOL 650 - Professional Certification Preparation *Units: 3*
- GEOL 671 - Field Experience *Units: 1-2*
- GEOL 690 - Independent Study *Units: 1-3*
- GEOL 691 - University Thesis *Units: 1-6*
- GEOL 693 - Project *Units: 1-2*

- • GEOL 697 - Issues in Geosciences *Units: 3*
- • GEOL 698 - Internship *Units: 1-3*

Geology, B.A.

Geology, B.A. Program (120 units)

Program Description

Geology is the study of the earth and of life and the natural processes occurring on the planet through time. Students learn about the causes of processes such as earthquakes, volcanoes, the formation of mountains, the effect of erosion and deposition, and the formation of rocks and minerals and their uses. Coursework combined with observations on field trips provide Cal State East Bay students with an understanding of natural processes and the human impact on the environment.

The Geology, B.A. program offers the student a greater degree of flexibility and may be more appropriate for those who do not plan to become certified professional geologists or pursue graduate study. (*Note: Transfer from the Geology, B.A. to the Geology, B.S. program or vice versa can be accomplished.*) Students wishing to do independent geological work professionally or plan on graduate study should enroll in the B.S. program; see the B.S. program in Geology in the Department of Earth and Environmental Sciences.

The Department of Earth and Environmental Sciences offers undergraduate study leading to the Bachelor of Science and Bachelor of Arts degrees in Geology, focusing on developing strong foundational knowledge and a broad set of field and laboratory skills in the Earth sciences.

The B.A. program is designed to prepare students for:

- Entry-level employment as geologists and environmental scientists in government (city, county, regional, state, and federal) and private consulting firms (environmental, engineering, and geotechnical firms, mining and oil companies, etc.).
- K-12 Earth Science Education.

The undergraduate Geology programs emphasize field and laboratory training. Many opportunities for field and laboratory research exist throughout northern California and elsewhere. Our B.S. and B.A. program reflects departmental expertise by focusing on near-surface processes, hazards and resources, and concentrates on issues of regional and local importance to our community. Rigorous coursework is augmented by embedded and sequential field experiences that integrate classroom concepts in natural laboratories. Seminars and topical courses address diverse subjects, for example: geochemical evolution of groundwater, natural tracers of geologic processes, tectonic geomorphology, earthquake hazards, bay area tectonics, near-surface geophysics, and modern depositional environments. We maintain strong connections with East Bay Regional Parks, the California Environmental Protection Agency, Lawrence Livermore National Laboratory, NASA Ames, the U.S. Geological Survey in Menlo Park, and SLAC National Accelerator Laboratory.

The Earth & Environmental Science Club, a student-run organization, sponsors a variety of activities including guest speakers, field trips, employment workshops, and student-faculty gatherings. The club is an important part of department life, providing students with opportunities to make professional contacts, to explore graduate school and professional options, and to enjoy the company of others with similar interests.

Career Opportunities in Geology

Science

Admission Requirements

There are four steps to the application process for most prospective students:

1. Applicants must submit an online CSU application for admission at <https://www2.calstate.edu/>.
2. Applicants must submit all supplementary documents required such as transcripts and standardized test scores.
3. Cal State East Bay will determine an applicant's eligibility based on criteria discussed in this chapter.
4. The university will notify the student of the decision.

Program Learning Outcomes

Students graduating with a BS/BA in Geology will be able to:

Develop foundational knowledge in geologic materials, processes & time

1. Identify and classify geologic materials and know their material and/or biological properties or characteristics.
2. Recognize and understand the fundamental geological processes, distribution of natural resources, the magnitude and importance of geologic time, and its role in geologic processes and evolution.
3. Understand and apply basic principles of chemistry and physics to geologic issues.
4. Understand the fundamental principles and subjects that form the core topics of Earth Science.

Develop fundamental geological field and laboratory skills and computer competence

1. Identify and classify, in the field, basic geologic materials, including minerals, rocks, fossils, structures, and landforms.
2. Collect, describe and organize samples of geologic materials in support of field investigations.
3. Create basic types of geologic maps with standard geology symbols, using standard field measurement techniques and equipment.
4. Perform basic types of geologic analysis, such as lithostratigraphic and biostratigraphic correlation, map construction, geophysical and hydrogeological studies, and cross-section construction.
5. Visualize and comprehend geological materials or structures in 3D based on 1D and 2D data sets.
6. Demonstrate competence in basic computer tools and software, and Internet utilization, and utilize appropriate software for geological analysis.

Integrate and analyze geologic information through synthesis & critical thinking

1. Interpret geological terrains (local & regional) by synthesis of literature, field and laboratory studies, to create maps, sections and reports that accurately and effectively illustrate the surficial distribution and 3D geometry of geologic materials and structures (rock, faults, geo-fluids, hazardous waste, etc.).
2. Access, critically read and critique research literature and geologic datasets (2D and 3D) using discipline-specific methods, techniques and equipment.

3. Analyze, interpret, and integrate diverse datasets to address and solve geological and scientific problems.

Develop oral and written communication, and collaborative skills

1. Critically analyze geological and environmental issues by evaluation of scientific literature, and then present their positions clearly and persuasively in written form through words, graphs, and tables, using appropriate formats.
2. Effectively communicate orally using prepared presentations.
3. Understand the importance of hearing, considering and integrating competing and/or contrary points of view to the scientific process.
4. Understand the complex issues and relationships that exist between local community and global needs for earth materials (fossil fuels, mineral reserves, water, etc.) and the effects of climate change on vulnerable populations
5. Work responsibly as a member of a team, demonstrate professional levels of conduct, and communicate effectively with team members through personal and electronic means.

Understand the impact of the Earth Sciences on local-to-global sustainability and their role as an ethical scientist

1. Understand Earth's place in the Universe, global-scale processes such as climate change, plate tectonics, earth systems interactions and rates, and the forcing factors/feedbacks that control them.
2. Have the breadth of education necessary to understand the importance of the Earth Sciences and technology in a global and societal context, and understand the effect of resource consumption on, and the importance of local-to-global-scale sustainability efforts.
3. Have knowledge of contemporary issues, such as sustainable resource development and the prediction of geological hazards.
4. Carry out responsibilities in a professional and ethical manner.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 62 or 64 units
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives consists of 0-1 unit (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Geology (BA) Major Requirements (62-64 units)

Lower Division Core

The following 33 units of lower-division core coursework are required:

- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
- CHEM 112 - General Chemistry II Units: 5
- MATH 115 - College Algebra Units: 3 ; G.E./G.R. Area: B4
- PHYS 125 - Principles of Physics I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 126 - Principles of Physics II Units: 4 ; G.E./G.R. Area: B1, B3
- GEOL 210 - Physical and Environmental Geology Units: 4 ; G.E./G.R. Area: B1, B3

- GEOL 211 - Historical Geology *Units: 4*
- GEOL 260 - Introduction to GIS in Earth and Environmental Sciences *Units: 3 ; G.E./G.R. Area: B1, B3*
- GEOL 297 - Introductory Field Experience *Units: 1*

Upper Division Core

The following 20 units of upper-division core coursework are required:

- GEOL 360 - Mineralogy and Optical Crystallography *Units: 4*
- GEOL 361 - Igneous and Metamorphic Petrology *Units: 4*
- GEOL 371 - Sedimentary Geology and Stratigraphy *Units: 4*
- GEOL 381 - Structural Geology *Units: 5*
- GEOL 499 - Capstone Seminar in Geosciences *Units: 3*

Elective Courses

General B.A. Geology degree program students must choose a minimum of 9 units from the following list to complete the major:

- ENSC 350 - Environmental Hydrology *Units: 4 ; G.E./G.R. Area: Sustainability*
- ENSC 410 - Geohealth *Units: 3*
- GEOL 311 - Geomorphology *Units: 3*
- GEOL 341 - General Oceanography *Units: 4*
- GEOL 342 - Planetary Geology *Units: 3*
- GEOL 343 - Atmospheric Science *Units: 3*
- GEOL 397 - Advanced Field Experience *Units: 2*
- GEOL 431 - Applied Geophysics *Units: 4*
- GEOL 432 - Hydrogeology *Units: 4*
- GEOL 441 - Earthquake Geology *Units: 3*
- GEOL 460 - Geographic Information Systems for Earth and Environmental Sciences *Units: 4*
- GEOL 490 - Independent Study *Units: 1-3*
- GEOL 497 - Issues in Geosciences *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Geology, B.A.: Geoscience Education Concentration

Geology, B.A. Program (120 units)

Program Description

Geology is the study of the earth and of life and the natural processes occurring on the planet through time. Students learn about the causes of processes such as earthquakes, volcanoes, the formation of mountains, the effect of erosion and deposition, and the formation of rocks and minerals and their uses. Coursework combined with observations on field trips provide Cal State East Bay students with an understanding of natural processes and the human impact on the environment.

The Geology, B.A. program offers the student a greater degree of flexibility and may be more appropriate for those who do not plan to become certified professional geologists or pursue graduate study. (*Note: Transfer from the Geology, B.A. to the Geology, B.S. program or vice versa can be accomplished.*) Students wishing to do independent geological work professionally or plan on graduate study should enroll in the B.S. program; see the B.S. program in Geology in the Department of Earth and Environmental Sciences.

The Department of Earth and Environmental Sciences offers undergraduate study leading to the Bachelor of Science and Bachelor of Arts degrees in Geology, focusing on developing strong foundational knowledge and a broad set of field and laboratory skills in the Earth sciences.

The B.A. program is designed to prepare students for:

- Entry-level employment as geologists and environmental scientists in government (city, county, regional, state, and federal) and private consulting firms (environmental, engineering, and geotechnical firms, mining and oil companies, etc.).
- K-12 Earth Science Education.

The undergraduate Geology programs emphasize field and laboratory training. Many opportunities for field and laboratory research exist throughout northern California and elsewhere. Our B.S. and B.A. program reflects departmental expertise by focusing on near-surface processes, hazards and resources, and concentrates on issues of regional and local importance to our community. Rigorous coursework is augmented by embedded and sequential field experiences that integrate classroom concepts in natural laboratories. Seminars and topical courses address diverse subjects, for example: geochemical evolution of groundwater, natural tracers of geologic processes, tectonic geomorphology, earthquake hazards, bay area tectonics, near-surface geophysics, and modern depositional environments. We maintain strong connections with East Bay Regional Parks, the California Environmental Protection Agency, Lawrence Livermore National Laboratory, NASA Ames, the U.S. Geological Survey in Menlo Park, and SLAC National Accelerator Laboratory.

The Earth & Environmental Science Club, a student-run organization, sponsors a variety of activities including guest speakers, field trips, employment workshops, and student-faculty gatherings. The club is an important part of department life, providing students with opportunities to make professional contacts, to explore graduate school and professional options, and to enjoy the company of others with similar interests.

Admission Requirements

There are four steps to the application process for most prospective students:

1. Applicants must submit an online CSU application for admission at <https://www2.calstate.edu/>.
2. Applicants must submit all supplementary documents required such as transcripts and standardized test scores.
3. Cal State East Bay will determine an applicant's eligibility based on criteria discussed in this chapter.
4. The university will notify the student of the decision.

Program Learning Outcomes

Students graduating with a BS/BA in Geology will be able to:

Develop foundational knowledge in geologic materials, processes & time

1. Identify and classify geologic materials and know their material and/or biological properties or characteristics.
2. Recognize and understand the fundamental geological processes, distribution of natural resources, the magnitude and importance of geologic time, and its role in geologic processes and evolution.
3. Understand and apply basic principles of chemistry and physics to geologic issues.
4. Understand the fundamental principles and subjects that form the core topics of Earth Science.

Develop fundamental geological field and laboratory skills and computer competence

1. Identify and classify, in the field, basic geologic materials, including minerals, rocks, fossils, structures, and landforms.
2. Collect, describe and organize samples of geologic materials in support of field investigations.
3. Create basic types of geologic maps with standard geology symbols, using standard field measurement techniques and equipment.
4. Perform basic types of geologic analysis, such as lithostratigraphic and biostratigraphic correlation, map construction, geophysical and hydrogeological studies, and cross-section construction.
5. Visualize and comprehend geological materials or structures in 3D based on 1D and 2D data sets.
6. Demonstrate competence in basic computer tools and software, and Internet utilization, and utilize appropriate software for geological analysis.

Integrate and analyze geologic information through synthesis & critical thinking

1. Interpret geological terrains (local & regional) by synthesis of literature, field and laboratory studies, to create maps, sections and reports that accurately and effectively illustrate the surficial distribution and 3D geometry of geologic materials and structures (rock, faults, geo-fluids, hazardous waste, etc.).
2. Access, critically read and critique research literature and geologic datasets (2D and 3D) using discipline-specific methods, techniques and equipment.

3. Analyze, interpret, and integrate diverse datasets to address and solve geological and scientific problems.

Develop oral and written communication, and collaborative skills

1. Critically analyze geological and environmental issues by evaluation of scientific literature, and then present their positions clearly and persuasively in written form through words, graphs, and tables, using appropriate formats.
2. Effectively communicate orally using prepared presentations.
3. Understand the importance of hearing, considering and integrating competing and/or contrary points of view to the scientific process.
4. Understand the complex issues and relationships that exist between local community and global needs for earth materials (fossil fuels, mineral reserves, water, etc.) and the effects of climate change on vulnerable populations
5. Work responsibly as a member of a team, demonstrate professional levels of conduct, and communicate effectively with team members through personal and electronic means.

Understand the impact of the Earth Sciences on local-to-global sustainability and their role as an ethical scientist

1. Understand Earth's place in the Universe, global-scale processes such as climate change, plate tectonics, earth systems interactions and rates, and the forcing factors/feedbacks that control them.
2. Have the breadth of education necessary to understand the importance of the Earth Sciences and technology in a global and societal context, and understand the effect of resource consumption on, and the importance of local-to-global-scale sustainability efforts.
3. Have knowledge of contemporary issues, such as sustainable resource development and the prediction of geological hazards.
4. Carry out responsibilities in a professional and ethical manner.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 62 or 64 units
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives consists of 0-1 unit (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Geology (BA) Major Requirements (62-64 units)

Lower Division Core

The following 33 units of lower-division core coursework are required:

- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
- CHEM 112 - General Chemistry II Units: 5
- MATH 115 - College Algebra Units: 3 ; G.E./G.R. Area: B4
- PHYS 125 - Principles of Physics I Units: 4 ; G.E./G.R. Area: B1, B3
- PHYS 126 - Principles of Physics II Units: 4 ; G.E./G.R. Area: B1, B3
- GEOL 210 - Physical and Environmental Geology Units: 4 ; G.E./G.R. Area: B1, B3

- GEOL 211 - Historical Geology *Units: 4*
- GEOL 260 - Introduction to GIS in Earth and Environmental Sciences *Units: 3 ; G.E./G.R. Area: B1, B3*
- GEOL 297 - Introductory Field Experience *Units: 1*

Upper Division Core

The following 20 units of upper-division core coursework are required:

- GEOL 360 - Mineralogy and Optical Crystallography *Units: 4*
- GEOL 361 - Igneous and Metamorphic Petrology *Units: 4*
- GEOL 371 - Sedimentary Geology and Stratigraphy *Units: 4*
- GEOL 381 - Structural Geology *Units: 5*
- GEOL 499 - Capstone Seminar in Geosciences *Units: 3*

Geoscience Education Concentration

The BA degree with the optional Geoscience Education concentration for 11 units prepares pre-service teachers for the four content domains in K-12 Earth Science: Geology, Atmospheric Science, Ocean Sciences, and Planetary Science. In addition, these courses cover the content knowledge required to pass the Science CSET exams for credentialing; these exams are required to qualify for the Foundational Level Added Authorization in Science.

- GEOL 341 - General Oceanography *Units: 4*
- GEOL 342 - Planetary Geology *Units: 3*
- GEOL 343 - Atmospheric Science *Units: 3*
- SCI 308 - Hands-On Science Teaching *Units: 1*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Courses

Environmental Science

- ENSC 210 - Physical and Environmental Geology *Units: 4 ; G.E./G.R. Area: B1, B3*
- ENSC 211 - Historical Geology *Units: 4*
- ENSC 220 - Warming Planet, Rising Seas, and Global Change *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- ENSC 235 - Disasters on Earth and in Hollywood *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- ENSC 240 - Environmental Biology *Units: 3 ; G.E./G.R. Area: B2; Sustainability*
- ENSC 241 - Environmental Biology Laboratory *Units: 1 ; G.E./G.R. Area: B3*
- ENSC 250 - Oil, Water and Future Earth *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- ENSC 260 - Introduction to GIS in Earth and Environmental Sciences *Units: 3 ; G.E./G.R. Area: B1, B3*
- ENSC 280 - Humans and the Environment in California *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- ENSC 297 - Introductory Field Experience *Units: 1*
- ENSC 311 - Geomorphology *Units: 3*
- ENSC 320 - The Science of Global Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENSC 330 - Weather and the Atmosphere *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENSC 340 - The Oceans *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENSC 343 - Atmospheric Science *Units: 3*
- ENSC 350 - Environmental Hydrology *Units: 4 ; G.E./G.R. Area: Sustainability*
- ENSC 397 - Advanced Field Experience *Units: 2*
- ENSC 410 - Geohealth *Units: 3*
- ENSC 414 - Hazardous Waste Management *Units: 3 ; G.E./G.R. Area: Sustainability*
- ENSC 420 - Global Change *Units: 3 ; G.E./G.R. Area: Sustainability*
- ENSC 460 - Geographic Information Systems for Earth and Environmental Sciences *Units: 4*
- ENSC 490 - Independent Study *Units: 1-4*
- ENSC 497 - Special Topics and Issues in Environmental Sciences *Units: 3*
- ENSC 499 - Capstone Seminar in Geosciences *Units: 3*

Environmental Science: Graduate

- ENSC 601 - Professional Ethics in Environmental Geosciences *Units: 1*
- ENSC 631 - Isotope Geochemistry *Units: 4*
- ENSC 632 - Groundwater Flow and Contaminant Transport *Units: 4*
- ENSC 634 - Biogeochemistry *Units: 4*
- ENSC 671 - Field Experience *Units: 1-2*
- ENSC 698 - Internship *Units: 1-3*

Geology

- GEOL 100 - Earth Systems Science *Units: 4 ; G.E./G.R. Area: B1, B3; Sustainability*
- GEOL 101 - Introduction to the Earth Sciences *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- GEOL 102 - Earth Sciences Laboratory *Units: 1 ; G.E./G.R. Area: B3*
- GEOL 120 - Introduction to Oceanography *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- GEOL 210 - Physical and Environmental Geology *Units: 4 ; G.E./G.R. Area: B1, B3*
- GEOL 211 - Historical Geology *Units: 4*
- GEOL 230 - Natural Disasters *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- GEOL 231 - Natural Hazards *Units: 3*
- GEOL 235 - Disasters on Earth and in Hollywood *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- GEOL 260 - Introduction to GIS in Earth and Environmental Sciences *Units: 3 ; G.E./G.R. Area: B1, B3*
- GEOL 297 - Introductory Field Experience *Units: 1*
- GEOL 301 - Earth Science Connections *Units: 3*
- GEOL 302 - Earth Science Connections Laboratory *Units: 1*
- GEOL 310 - Geology of the Western National Parks *Units: 3 ; G.E./G.R. Area: B6*

- GEOL 311 - Geomorphology *Units: 3*
- GEOL 325 - Volcanoes and Plate Tectonics *Units: 3 ; G.E./G.R. Area: B6*
- GEOL 330 - Weather and the Atmosphere *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- GEOL 340 - The Oceans *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- GEOL 341 - General Oceanography *Units: 4*
- GEOL 342 - Planetary Geology *Units: 3*
- GEOL 343 - Atmospheric Science *Units: 3*
- GEOL 350 - Environmental Hydrology *Units: 4 ; G.E./G.R. Area: Sustainability*
- GEOL 360 - Mineralogy and Optical Crystallography *Units: 4*
- GEOL 361 - Igneous and Metamorphic Petrology *Units: 4*
- GEOL 371 - Sedimentary Geology and Stratigraphy *Units: 4*
- GEOL 381 - Structural Geology *Units: 5*
- GEOL 397 - Advanced Field Experience *Units: 2*
- GEOL 398 - Internship *Units: 1-3*
- GEOL 410 - Geohealth *Units: 3*
- GEOL 414 - Hazardous Waste Management *Units: 3 ; G.E./G.R. Area: Sustainability*
- GEOL 431 - Applied Geophysics *Units: 4*
- GEOL 432 - Hydrogeology *Units: 4*
- GEOL 441 - Earthquake Geology *Units: 3*
- GEOL 490 - Independent Study *Units: 1-3*
- GEOL 497 - Issues in Geosciences *Units: 3*
- GEOL 499 - Capstone Seminar in Geosciences *Units: 3*

Geology: Graduate

- GEOL 601 - Professional Ethics in Environmental Geosciences *Units: 1*
- GEOL 602 - Graduate Seminar *Units: 2*
- GEOL 621 - Near Surface Geophysics *Units: 4*
- GEOL 622 - Seismic Exploration *Units: 4*
- GEOL 631 - Isotope Geochemistry *Units: 4*
- GEOL 632 - Groundwater Flow and Contaminant Transport *Units: 4*
- GEOL 633 - The Science of Soils *Units: 4*
- GEOL 634 - Biogeochemistry *Units: 4*
- GEOL 641 - Earthquake Geology *Units: 4*
- GEOL 643 - Tectonic Geomorphology *Units: 4*
- GEOL 644 - Structural Styles of Plate Margins and Regions *Units: 4*
- GEOL 645 - Engineering Geology *Units: 4*
- GEOL 646 - Quaternary Geology *Units: 4*
- GEOL 650 - Professional Certification Preparation *Units: 3*
- GEOL 671 - Field Experience *Units: 1-2*
- GEOL 690 - Independent Study *Units: 1-3*
- GEOL 691 - University Thesis *Units: 1-6*
- GEOL 693 - Project *Units: 1-2*
- GEOL 697 - Issues in Geosciences *Units: 3*
- GEOL 698 - Internship *Units: 1-3*

Geology, B.S.

Geology, B.S. Program (120 units)

Program Description

Geology is the study of the earth and of life and the natural processes occurring on the planet through time. Students learn about the causes of processes such as earthquakes, volcanoes, the formation of mountains, the effect of erosion and deposition, and the formation of rocks and minerals and their uses. Coursework combined with observations on field trips provide Cal State East Bay students with an understanding of natural processes and the human impact on the environment.

The undergraduate degree programs consist of required courses plus electives designed to meet the needs of students with objectives including employment at the Bachelor's degree level, preparation for a secondary school teaching credential, and graduate study in Geology. The Geology, B.S. program is the primary professional degree program in Geology offered by the department, and serves as preparation for employment in the field, usually in a technical capacity. The Geology, B.A. program offers the student a greater degree of flexibility and may be more appropriate for those who do not necessarily plan to become professional geologists or pursue graduate study. (*Note: Students may be allowed to change from the Geology, B.A. to the Geology, B.S. program or vice versa.*) Students wishing to do independent geological work professionally should plan on graduate study; see the Environmental Geosciences, M.S. in the Department of Earth and Environmental Sciences.

The Department of Earth and Environmental Sciences offers undergraduate study leading to the Bachelor of Science and Bachelor of Arts degrees in Geology, focusing on developing strong foundational knowledge and a broad set of field and laboratory skills in the Earth sciences.

The Bachelor of Science (B.S.) program is designed to prepare students for:

- Entry-level employment as geologists and environmental scientists in government (city, county, regional, state, and federal) and private consulting firms (environmental, engineering, and geotechnical firms, mining and oil companies, etc.).
- Graduate study in environmental science, geology, geochemistry and geophysics.

The undergraduate Geology programs emphasize field and laboratory training. Many opportunities for field and laboratory research exist throughout northern California and elsewhere. The B.S. and B.A. programs in Geology reflect departmental expertise by focusing on near-surface processes and hazards and resources. They concentrate on issues of regional and local importance to our community. Rigorous coursework is augmented by embedded and sequential field experiences that integrate classroom concepts in natural laboratories. Seminars and topical courses address diverse subjects, for example: geochemical evolution of groundwater, natural tracers of geologic processes, tectonic geomorphology, earthquake hazards, bay area tectonics, near-surface geophysics, and modern depositional environments. The Department of earth and Environmental Sciences maintains strong connections with East Bay Regional Parks, the California Environmental Protection Agency, Lawrence Livermore National Laboratory, NASA Ames, the U.S. Geological Survey in Menlo Park, and SLAC National Accelerator Laboratory.

Students with strong records in the B.S. degree may be able to engage in guided, individual research, working with faculty on their research. Students wishing to pursue senior thesis should make contact with a faculty advisor at least one full semester in advance to discuss topic and feasibility.

The Earth & Environmental Science Club, a student-run organization, sponsors a variety of activities including guest speakers, field trips, employment workshops, and student-faculty gatherings. The club is an important part of department life, providing students with opportunities to make professional contacts, to explore graduate school and professional options, and to enjoy the company of others with similar interests.

Career Opportunities

Engineering Geologist • Environmental Geologist • Geochemist • Geologist • Geophysicist • Hydrologist • Mineralogist • Oceanographer • Park Ranger • Petrologist • Seismologist • Soils Engineer • Stratigrapher

Program Learning Outcomes

Students graduating with a B.S. or B.A. in Geology will be able to:

Develop foundational knowledge in geologic materials, processes & time

1. Identify and classify geologic materials and know their material and/or biological properties or characteristics.
2. Recognize and understand the fundamental geological processes, distribution of natural resources, the magnitude and importance of geologic time, and its role in geologic processes and evolution.
3. Understand and apply basic principles of chemistry and physics to geologic issues.
4. Understand the fundamental principles and subjects that form the core topics of Earth Science.

Develop fundamental geological field and laboratory skills and computer competence

1. Identify and classify, in the field, basic geologic materials, including minerals, rocks, fossils, structures, and landforms.
2. Collect, describe and organize samples of geologic materials in support of field investigations.
3. Create basic types of geologic maps with standard geology symbols, using standard field measurement techniques and equipment.
4. Perform basic types of geologic analysis, such as lithostratigraphic and biostratigraphic correlation, map construction, geophysical and hydrogeological studies, and cross-section construction.
5. Visualize and comprehend geological materials or structures in 3D based on 1D and 2D data sets.
6. Demonstrate competence in basic computer tools and software, and Internet utilization, and utilize appropriate software for geological analysis.

Integrate and analyze geologic information through synthesis & critical thinking

1. Interpret geological terrains (local & regional) by synthesis of literature, field and laboratory studies, to create maps, sections and reports that accurately and effectively illustrate the surficial distribution and 3D geometry of geologic materials and structures (rock, faults, geo-fluids, hazardous waste, etc.).
2. Access, critically read and critique research literature and geologic datasets (2D and 3D) using discipline-specific methods, techniques and equipment.
3. Analyze, interpret, and integrate diverse datasets to address and solve geological and scientific problems.

Develop oral and written communication, and collaborative skills

1. Critically analyze geological and environmental issues by evaluation of scientific literature, and then present their positions clearly and persuasively in written form through words, graphs, and tables, using appropriate formats.
2. Effectively communicate orally using prepared presentations.
3. Understand the importance of hearing, considering and integrating competing and/or contrary points of view to the scientific process.
4. Understand the complex issues and relationships that exist between local community and global needs for earth materials (fossil fuels, mineral reserves, water, etc.) and the effects of climate change on vulnerable populations
5. Work responsibly as a member of a team, demonstrate professional levels of conduct, and communicate effectively with team members through personal and electronic means.

Understand the impact of the Earth Sciences on local-to-global sustainability and their role as an ethical scientist

1. Understand Earth's place in the Universe, global-scale processes such as climate change, plate tectonics, earth systems interactions and rates, and the forcing factors/feedbacks that control them.
2. Have the breadth of education necessary to understand the importance of the Earth Sciences and technology in a global and societal context, and understands the effect of resource consumption on, and the importance of local-to-global-scale sustainability efforts.
3. Have knowledge of contemporary issues, such as sustainable resource development and the prediction of geological hazards.
4. Carry out responsibilities in a professional and ethical manner.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 70-71 units
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Geology (BS) Major Requirements (70-71 units)

Lower Division Core

The following 34-35 units of lower-division core coursework is required as outlined:

- CHEM 111 - General Chemistry I Units: 5 ; G.E./G.R. Area: B1, B3
 - CHEM 112 - General Chemistry II Units: 5
 - GEOL 210 - Physical and Environmental Geology Units: 4 ; G.E./G.R. Area: B1, B3
 - GEOL 211 - Historical Geology Units: 4
 - GEOL 297 - Introductory Field Experience Units: 1
 - MATH 130 - Calculus I Units: 4 ; G.E./G.R. Area: B4
- Plus choose one (1) group of three courses from the two groups below:
- GEOL 260 - Introduction to GIS in Earth and Environmental Sciences Units: 3 ; G.E./G.R. Area: B1, B3
 - PHYS 125 - Principles of Physics I Units: 4 ; G.E./G.R. Area: B1, B3
 - PHYS 126 - Principles of Physics II Units: 4 ; G.E./G.R. Area: B1, B3
- OR
- PHYS 135 - Physics for Scientists and Engineers I Units: 4 ; G.E./G.R. Area: B1, B3
 - PHYS 136 - Physics for Scientists and Engineers II Units: 4
 - PHYS 137 - Physics for Scientists and Engineers III Units: 4

Upper Division Core

The following 24 units of upper-division core coursework is required:

- GEOL 360 - Mineralogy and Optical Crystallography Units: 4

- GEOL 361 - Igneous and Metamorphic Petrology *Units: 4*
- GEOL 371 - Sedimentary Geology and Stratigraphy *Units: 4*
- GEOL 381 - Structural Geology *Units: 5*
- GEOL 397 - Advanced Field Experience *Units: 2 (course will be taken twice for a total of 4 units, but with different subject matter.)*
- GEOL 499 - Capstone Seminar in Geosciences *Units: 3*

Elective Courses

A minimum of 12 units of elective courses are required as outlined below:

One (1) of the following **Quantitative** courses is required for 3 units:

- CS 400 - Computer Programming for Science *Units: 3*
- CMGT 310 - Statics and Strength of Materials *Units: 3*
- MATH 131 - Calculus II *Units: 3*
- PHYS 330 - Analytic Mechanics *Units: 3*
- STAT 315 - Exploring and Analyzing Data *Units: 3*
- STAT 316 - Statistics and Probability for Science and Engineering *Units: 3*
- STAT 320 - Introduction to Probability Theory I *Units: 3*

Plus choose a **minimum of 9 units** of electives from the following * :

- ENSC 350 - Environmental Hydrology *Units: 4 ; G.E./G.R. Area: Sustainability*
- GEOL 311 - Geomorphology *Units: 3*
- GEOL 398 - Internship *Units: 1-3*
- ENSC 410 - Geohealth *Units: 3*
- GEOL 431 - Applied Geophysics *Units: 4*
- GEOL 432 - Hydrogeology *Units: 4*
- GEOL 441 - Earthquake Geology *Units: 3*
- GEOL 460 - Geographic Information Systems for Earth and Environmental Sciences *Units: 4*
- GEOL 490 - Independent Study *Units: 1-3*
- GEOL 497 - Issues in Geosciences *Units: 3*

***Only one (1) course from the following may apply to the above elective units:**

- GEOL 341 - General Oceanography *Units: 4*
- GEOL 342 - Planetary Geology *Units: 3*
- GEOL 343 - Atmospheric Science *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Courses

Environmental Science

- ENSC 210 - Physical and Environmental Geology *Units: 4 ; G.E./G.R. Area: B1, B3*
- ENSC 211 - Historical Geology *Units: 4*
- ENSC 220 - Warming Planet, Rising Seas, and Global Change *Units: 3 ; G.E./G.R. Area: B1;*
Sustainability
- ENSC 235 - Disasters on Earth and in Hollywood *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- ENSC 240 - Environmental Biology *Units: 3 ; G.E./G.R. Area: B2; Sustainability*
- ENSC 241 - Environmental Biology Laboratory *Units: 1 ; G.E./G.R. Area: B3*
- ENSC 250 - Oil, Water and Future Earth *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- ENSC 260 - Introduction to GIS in Earth and Environmental Sciences *Units: 3 ; G.E./G.R. Area:*
B1, B3
- ENSC 280 - Humans and the Environment in California *Units: 3 ; G.E./G.R. Area: B1;*
Sustainability
- ENSC 297 - Introductory Field Experience *Units: 1*
- ENSC 311 - Geomorphology *Units: 3*
- ENSC 320 - The Science of Global Change *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENSC 330 - Weather and the Atmosphere *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENSC 340 - The Oceans *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ENSC 343 - Atmospheric Science *Units: 3*
- ENSC 350 - Environmental Hydrology *Units: 4 ; G.E./G.R. Area: Sustainability*
- ENSC 397 - Advanced Field Experience *Units: 2*
- ENSC 410 - Geohealth *Units: 3*
- ENSC 414 - Hazardous Waste Management *Units: 3 ; G.E./G.R. Area: Sustainability*
- ENSC 420 - Global Change *Units: 3 ; G.E./G.R. Area: Sustainability*
- ENSC 460 - Geographic Information Systems for Earth and Environmental Sciences *Units: 4*
- ENSC 490 - Independent Study *Units: 1-4*
- ENSC 497 - Special Topics and Issues in Environmental Sciences *Units: 3*
- ENSC 499 - Capstone Seminar in Geosciences *Units: 3*

Environmental Science: Graduate

- ENSC 601 - Professional Ethics in Environmental Geosciences *Units: 1*
- ENSC 631 - Isotope Geochemistry *Units: 4*
- ENSC 632 - Groundwater Flow and Contaminant Transport *Units: 4*
- ENSC 634 - Biogeochemistry *Units: 4*
- ENSC 671 - Field Experience *Units: 1-2*
- ENSC 698 - Internship *Units: 1-3*

Geology

- GEOL 100 - Earth Systems Science *Units: 4 ; G.E./G.R. Area: B1, B3; Sustainability*
- GEOL 101 - Introduction to the Earth Sciences *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- GEOL 102 - Earth Sciences Laboratory *Units: 1 ; G.E./G.R. Area: B3*
- GEOL 120 - Introduction to Oceanography *Units: 3 ; G.E./G.R. Area: B1; Sustainability*

- GEOL 210 - Physical and Environmental Geology *Units: 4 ; G.E./G.R. Area: B1, B3*
- GEOL 211 - Historical Geology *Units: 4*
- GEOL 230 - Natural Disasters *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- GEOL 231 - Natural Hazards *Units: 3*
- GEOL 235 - Disasters on Earth and in Hollywood *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- GEOL 260 - Introduction to GIS in Earth and Environmental Sciences *Units: 3 ; G.E./G.R. Area:*

B1, B3

- GEOL 297 - Introductory Field Experience *Units: 1*
- GEOL 301 - Earth Science Connections *Units: 3*
- GEOL 302 - Earth Science Connections Laboratory *Units: 1*
- GEOL 310 - Geology of the Western National Parks *Units: 3 ; G.E./G.R. Area: B6*
- GEOL 311 - Geomorphology *Units: 3*
- GEOL 325 - Volcanoes and Plate Tectonics *Units: 3 ; G.E./G.R. Area: B6*
- GEOL 330 - Weather and the Atmosphere *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- GEOL 340 - The Oceans *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- GEOL 341 - General Oceanography *Units: 4*
- GEOL 342 - Planetary Geology *Units: 3*
- GEOL 343 - Atmospheric Science *Units: 3*
- GEOL 350 - Environmental Hydrology *Units: 4 ; G.E./G.R. Area: Sustainability*
- GEOL 360 - Mineralogy and Optical Crystallography *Units: 4*
- GEOL 361 - Igneous and Metamorphic Petrology *Units: 4*
- GEOL 371 - Sedimentary Geology and Stratigraphy *Units: 4*
- GEOL 381 - Structural Geology *Units: 5*
- GEOL 397 - Advanced Field Experience *Units: 2*
- GEOL 398 - Internship *Units: 1-3*
- GEOL 410 - Geohealth *Units: 3*
- GEOL 414 - Hazardous Waste Management *Units: 3 ; G.E./G.R. Area: Sustainability*
- GEOL 431 - Applied Geophysics *Units: 4*
- GEOL 432 - Hydrogeology *Units: 4*
- GEOL 441 - Earthquake Geology *Units: 3*
- GEOL 490 - Independent Study *Units: 1-3*
- GEOL 497 - Issues in Geosciences *Units: 3*
- GEOL 499 - Capstone Seminar in Geosciences *Units: 3*

Geology: Graduate

- GEOL 601 - Professional Ethics in Environmental Geosciences *Units: 1*
- GEOL 602 - Graduate Seminar *Units: 2*
- GEOL 621 - Near Surface Geophysics *Units: 4*
- GEOL 622 - Seismic Exploration *Units: 4*
- GEOL 631 - Isotope Geochemistry *Units: 4*
- GEOL 632 - Groundwater Flow and Contaminant Transport *Units: 4*
- GEOL 633 - The Science of Soils *Units: 4*
- GEOL 634 - Biogeochemistry *Units: 4*
- GEOL 641 - Earthquake Geology *Units: 4*

- • GEOL 698 - Internship *Units: 1-3*

Master

Environmental Geosciences, M.S.

Environmental Geosciences, M.S. Program

Program Description

The Department of Earth and Environmental Sciences offers graduate study leading to the Master of Science degree in Environmental Geosciences, focusing on near surface and environmental geology, seismic hazards and Bay Area tectonics, and water and soil characterization and remediation.

This program is designed to prepare students for:

1. employment as geologists and environmental scientists in government (city, county, regional, state, and federal) and private consulting firms (environmental, engineering, and geotechnical firms, mining and oil companies, etc.);
2. professional licensing requirements;
3. doctoral study in environmental science, geology, geochemistry, and geophysics; and
4. teaching at the Community College level

The department also provides continuing education for professional geologists, engineers, planners, etc.

Our M.S. program is unique in the bay area in that many courses are offered in the evenings, and augmented by field experiences. Graduate seminars address diverse subjects; for example, geochemical evolution of groundwater, natural tracers of geologic processes, tectonic geomorphology, earthquake hazards, bay area tectonics, near-surface geophysics, and modern depositional environments. We maintain strong connections with East Bay Regional Parks, the California Environmental Protection Agency, Lawrence Livermore National Laboratory, NASA Ames, the U.S. Geological Survey in Menlo Park, and SLAC National Accelerator Laboratory.

Candidates for the M.S. degree will engage in significant, guided, individual research. Recent M.S. thesis and project research topics include near surface geophysics, groundwater dating, groundwater nitrate source identification, local catchment characterization, surface water-groundwater interaction, geologic mapping, slope stability, geochemistry, Bay Area structural geology, engineering geology, and neotectonics. Prospective candidates should determine whether their research interests coincide with those of the faculty members before applying to the program. We invite interested persons to contact the department faculty directly for more details on the program. The Graduate Coordinator provides guidance that enables students to complete the requirements for advancement in the graduate program.

Career Opportunities

1. Scientist for federal, state, or local regulatory, governmental, or research agency
2. Project leader, geologist, or hydrogeologist at environmental consulting company
3. Geologist or geophysicist for energy company

4. Instructor at community college
5. Engineering geologist for consulting company or regulatory agency
6. Research scientist at National Laboratory

Admission Requirements

The M.S. degree program is open to any student in possession of a baccalaureate degree in Geology, Environmental Science, or a closely related field, with coursework substantially equivalent to the core requirements for the B.S. degree in Geology or Environmental Science at CSU East Bay. Students who do not meet those requirements will be considered on an individual basis and accepted only after approval by a majority of regular faculty members.

Students may be admitted with "Conditionally Classified Graduate" until the qualifications listed under "Classified Graduate" status below are satisfied.

Applicants must have a GPA of at least 2.75 in all undergraduate work. Any undergraduate core course with a "D" grade will have to be repeated. Students transferring from another graduate program must have a GPA of at least 3.0 in all graduate geology or environmental science courses. (No more than 12 units may be transferred.)

Applications must be accompanied by two letters of recommendation from faculty members or work supervisors.

Student Standing and Progress Toward the Degree

Conditionally Classified Graduate Status

Students who are otherwise qualified but have course deficiencies and/or have not satisfied the University Writing Skills requirement, will be accepted as "Conditionally Classified Graduate" students. Course deficiencies may be removed by enrolling on either a "CR/NC" or graded basis.

Classified Graduate Status

Students who fulfill all the requirements for admission to the program will be accorded "Classified Graduate" status once they have satisfied the University Writing Skills requirement. All deficiencies have to be removed, and the University Writing Skills requirement satisfied no later than the completion of 12 units of coursework applicable to the degree or the student may be disqualified.

Selection of Thesis/Project or Academic Advisor

Students should meet with an academic advisor upon enrollment. Students will choose a thesis or project advisor based on their area of interest and faculty availability. Students should contact a prospective research advisor prior to applying but research topics may change during the first year when the focus is on coursework.

Advancement to Candidacy

In order to be Advanced to Candidacy, the student must have:

1. been accorded "Classified Graduate" status

2. been assigned a thesis or graduate project advisor; and
3. submitted to the department an acceptable Prospectus describing the thesis research or graduate project work to be attempted (guidelines for preparation of the Prospectus may be obtained from the department office). The research topic must be approved in advance by the advisor.

Program Learning Outcomes

Students graduating with an M.S. in Environmental Geosciences will:

Demonstrate advanced knowledge of geologic materials, processes & time (Knowledge)

1. Recognize and understand the fundamental geological processes, complex system interactions, distribution of natural resources, the magnitude and importance of geologic time, and its role in geologic processes and evolution.
 2. Understand and apply principles of chemistry and physics to geologic and environmental issues.
 3. Understand the fundamental principles and subjects that form the core topics of Earth Science.
- Demonstrate proficiency in geological and environmental field, computing and laboratory applications (Synthesis)

1. Can identify and classify, in the field, basic geologic materials, including minerals, rocks, fossils, structures, and landforms.
 2. Can collect, describe and organize samples of geologic and environmental materials in support of field investigations.
 3. Can create basic types of geologic maps with standard geology symbols, using standard field measurement techniques and equipment.
 4. Can perform basic types of geologic analysis, such as lithostratigraphic and biostratigraphic correlation, map construction, geophysical and hydrogeological studies, and cross-section construction.
 5. Can visualize and comprehend geological materials or structures in 3D based on 1D and 2D data sets.
 6. Is competent in basic computer tools and software, and Internet utilization, and can utilize appropriate software for geological and environmental analysis.
- Perform original research by integration and analysis of geologic and environmental information and data sets (Research)

1. Can interpret geological terrains (local & regional) by synthesis of literature, field and laboratory studies, to create maps, sections and reports that accurately and effectively illustrate the surficial distribution and 3D geometry of geologic materials and structures (rock, faults, geo-fluids, hazardous waste, etc.).
 2. Can access, critically read and critique research literature and geologic datasets (2D and 3D) using discipline-specific methods, techniques and equipment.
 3. Can analyze, interpret, and integrate diverse datasets to address and solve geological and scientific problems.
- Demonstrate skills in effective oral and written communication in multiple contexts, including collaborative work and professional settings (Communication)

1. Can effectively communicate orally using prepared presentations at the professional meeting level
2. Understands the importance of hearing, considering and integrating competing and/or contrary points of view to the scientific process.
3. Can work responsibly as a member of a team, demonstrate professional levels of conduct, and communicate effectively with team members through personal and electronic means.

Participate in an ethical community of scientists who recognize the importance of sustainability, the role of science in society, and the value of life-long learning (Global)

1. Understands Earth's place in the Universe, global-scale processes such as climate change, plate tectonics, earth systems interactions and rates, and the forcing factors/feedbacks that control them.
2. Has the breadth of education necessary to understand the importance of the Earth Sciences and technology in a global and societal context, and understands the effect of resource consumption on, and the importance of local-to-global-scale sustainability efforts.
3. Applies knowledge of contemporary issues, such as sustainable resource development and the prediction of geological hazards.
4. Carries out responsibilities in a professional and ethical manner.

Degree Requirements

- Advancement to Candidacy
- Satisfaction of university requirements described in the Graduate Degree Requirements, Policies, & Other Information chapter in this catalog. These include the 22-unit residence requirement, the five-year rule on currency of subject matter, the minimum number of units of 600-level courses, the 3.00 GPA, and the University Writing Skills requirement. For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing.
- Completion of the 31-32 unit study plan outlined below.
- Completion and defense of the University Thesis or completion (and defense, as required by the department) of the graduate Project.

Environmental Geosciences Degree Requirements (31 units)

Core Courses

A total of 15 units of core coursework is required as outlined:

The following 3 units are required:

- GEOL 601 - Professional Ethics in Environmental Geosciences *Units: 1*
- GEOL 602 - Graduate Seminar *Units: 2*

Plus, one (1) course chosen from this group is required for 4 units:

- GEOL 621 - Near Surface Geophysics *Units: 4*
- GEOL 622 - Seismic Exploration *Units: 4*
- GEOL 641 - Earthquake Geology *Units: 4*

Plus, one (1) course chosen from this group is required for 4 units:

- ENSC 634 - Biogeochemistry *Units: 4*
- GEOL 631 - Isotope Geochemistry *Units: 4*
- GEOL 633 - The Science of Soils *Units: 4*
- GEOL 646 - Quaternary Geology *Units: 4*

And, one (1) course chosen from this group is required for 4 units:

- GEOL 632 - Groundwater Flow and Contaminant Transport *Units: 4*
- GEOL 643 - Tectonic Geomorphology *Units: 4*

- GEOL 644 - Structural Styles of Plate Margins and Regions *Units: 4*
- GEOL 645 - Engineering Geology *Units: 4*

Elective Courses

Students who will complete their degree with a *Thesis* (see capstone requirements) must complete **10 elective units** chosen from the coursework outlined below.

Students who will complete their degree with a *Project* (see capstone requirements) must complete **14 elective units** chosen from the coursework outlined below.

- Any 600-level GEOL course listed in the core that has NOT already been taken.
- GEOL 602 - Graduate Seminar *Units: 2 (course may be repeated for a maximum of 4 units)*
- GEOL 650 - Professional Certification Preparation *Units: 3*
- GEOL 671 - Field Experience *Units: 1-2*
- GEOL 690 - Independent Study *Units: 1-3*
- Up to 9 units may be in approved courses from other STEM disciplines.

Capstone Requirements

Students must choose one (1) of the following capstone courses to complete their degree:

University Thesis (must be taken for a total of 6 units)

Students choosing the Thesis capstone experience must submit to the Thesis Committee, and defend orally, an acceptable University Thesis. The University Thesis is a formal paper reporting the results of original research. This research normally involves modeling, field, and/or laboratory investigation. The thesis is submitted to the university in the format specified in the "University Thesis Writing Guide," www.csueastbay.edu/thesiswritingguide. The Thesis Committee comprises the faculty thesis advisor plus either (1) two other faculty members from the Department of Earth and Environmental Sciences or other appropriate California State University East Bay faculty, or (2) one other faculty member from the department and one or more qualified individuals from outside the university.

Graduate Project (must be taken for a total of 2 units)

Students choosing the Project capstone experience must submit to the department an abstract and acceptable graduate project (for example: manuscript, map, computer model, education module). An oral defense may be required.

- GEOL 691 - University Thesis *Units: 1-6*
Note: Students may not register for more than 50% of the total units prior to starting the writing of their thesis.
- GEOL 693 - Project *Units: 1-2*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the

five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Department of Economics

The Department Office is located on the 4th floor of the VBT building, Room 442.

Hours Open: 8:00 am to 5:00 pm Monday through Friday.

Dept. Phone: 510-885-3265

Faculty

Professors Emeriti

James C. W. Ahiakpor, Ph.D. University of Toronto (Canada)

Gregory B. Christainsen, Ph.D. University of Wisconsin, Madison

Professor

Jed DeVaro (Chair), Ph.D. Stanford University

Associate Professors

Ryan Lampe, Ph.D. Stanford University

Christian Roessler, Ph.D. The University of Melbourne (Australia)

Assistant Professors

Wesley Blundell, Ph.D., University of Arizona

Kai Ding, Ph.D. University of Minnesota

Joseph Kuehn, Ph.D. University of California, Los Angeles

Filippo Rebessi, Ph.D. University of Minnesota

Jung You, Ph.D. Rice University

M.A. Program Director: *Christian Roessler*

Mission Statement

We are proud of our diverse body of students and our vibrant undergraduate and graduate programs in Economics and Business. Our faculty hold PhDs from leading universities and have diverse backgrounds, teaching and research interests. In addition to receiving numerous grants and publishing in major academic journals in Economics, members of our faculty receive consistently high teaching evaluations,

and some have been recognized with teaching awards. They also have made intellectual contributions via publications in books and textbooks of general interest, conferences and media presentations, and studies regarding local community issues, as well as refereeing for a variety of academic journals and in some cases serving as editors or on editorial boards. Department faculty currently head the Smith Center for Private Enterprise Studies and the Center for Economic Education. Our scenic campus is geographically located in one of the most dynamic technological, scientific and cultural hubs in the world.

About the Department

Bachelor

Business Administration, B.S.: Business Economics Concentration

Business Administration, B.S. Program (120 units)

Program Description

The College of Business and Economics, which offers the Bachelor of Science in Business Administration (B.S.B.A.) program, is committed to providing life-changing, quality business education to prepare students from diverse backgrounds to become successful business professionals and leaders. The B.S.B.A. program imparts students with the knowledge and skills necessary to understand the changing global business environment and to prepare students for success in their professional careers.

The B.S.B.A. major program is structured around a set of core courses enabling students to develop general business perspective and skills. Students are required to choose an area of specialization, i.e., concentration, corresponding to their desired career path. In addition, the program allows students flexibility to customize their specialization by choosing business elective courses. These electives may be chosen to further strengthen their preparation in their chosen concentration.

The undergraduate and the graduate programs in the College of Business and Economics are accredited by the Association to Advance Collegiate Schools of Business International (AACSB).

Program Learning Outcomes

Students graduating with a Bachelor of Science in Business Administration will be able to:

- Recognize and integrate foundation knowledge across functional areas.
- Apply critical thinking skills to solve business problems.

- Understand and apply quantitative methods and tools in evaluating business problems and making effective business decisions.
- Apply technology to analyze data and provide solutions to business problems.
- Apply effective oral communication skills in a diverse and global environment.
- Apply effective written communication skills in a diverse and global environment.
- Apply effective team skills to work in a diverse and global environment.
- Identify and assess ethical issues and properly articulate ethical decisions.

Expiration of Courses

Upper division major/concentration requirement courses will expire ten years after completion of the term in which they are earned. Expired courses cannot be used to fulfill degree requirements and must be replaced by current credits. Requests for waivers of the ten-year limit for extenuating circumstances, other than mere failure to register, are made to the department chair in which the course resides and the director of undergraduate programs.

Transfer of Courses

Upper division courses will only be considered for equivalency or transfer credit if they are from AACSB accredited institutions. Exceptions will be made for programs that have current and signed agreements with the College of Business and Economics.

Degree Requirements

The B.S. degree requires a total of 120 units. In addition to General Education courses and other graduation requirements, the Business Administration major requires three sets of courses: (I) lower division core courses, (II) upper division core courses, and (III) courses to fulfill concentration requirements.

Degree Requirements Unit-Outline

- A baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 75 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Business Administration Major Requirements (75 units)

Note: Please see the Errata pages for corrections made to the major requirements effective for all concentrations.

Lower Division Core Courses

The following 18 units of lower-division coursework are required:

- ACCT 210 - Introduction to Financial Accounting *Units: 3*
- ACCT 215 - Introduction to Managerial Accounting *Units: 3*
- ECON 200 - Principles of Microeconomics *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- ECON 205 - Principles of Macroeconomics *Units: 3 ; G.E./G.R. Area: D1-3*
- MATH 180 - Mathematics for Business with Calculus *Units: 3 ; G.E./G.R. Area: B4*
- STAT 110 - Elements of Statistics for Business and Economics *Units: 3*

Upper Division Core Courses

The following 27 units of upper-division coursework is required:

- BUS 310 - Organizational Behavior *Units: 3*
- BUS 325 - Marketing Principles *Units: 3*
- BUS 330 - Financial Management *Units: 3*
- BUS 335 - Communications in Team Building *Units: 3*
- BUS 360 - Operations Management *Units: 3*
- BUS 499 - Seminar in Strategic Business Management *Units: 3*
- ECON 380 - Managerial Economics and Business Strategy *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- MGMT 350 - Decision Science *Units: 3 ; G.E./G.R. Area: B6*

Plus, choose one (1) course from the following:

- BUS 385 - International Business *Units: 3 OR*
- ECON 385 - Global Economic Analysis *Units: 3 Recommended for Business Economics concentration students*

Concentration Requirements

Students must select one (1) of the following concentrations for 30 units:

- Business Administration, B.S.: Accounting Concentration
- Business Administration, B.S.: Business Economics Concentration
- Business Administration, B.S.: Entrepreneurship Concentration
- Business Administration, B.S.: Finance Concentration (Available Online)
- Business Administration, B.S.: General Management Concentration (Available Online)
- Business Administration, B.S.: Human Resources Management & Organizational Behavior Concentration
- Business Administration, B.S.: Information Technology Management Concentration (Available Online)
- Business Administration, B.S.: Marketing Management Concentration
- Business Administration, B.S.: Operations and Supply Chain Management Concentration (Available Online)

Business Economics Concentration

The coursework in the Business Economics concentration focuses on the economic aspects of business decision-making. The coursework emphasizes forecasting product demand, setting product prices, estimating production costs, calculating firm profitability, evaluating investment alternatives, and assessing the effects of government regulations and industry competition on firm performance and strategy. Students selecting this concentration will be prepared for careers in banking, finance, economic forecasting, and business economics. The concentration also provides an excellent background for graduate training in economics and business.

Note: Students in this concentration are encouraged to take ECON 385 instead of BUS 385 as part of their required shared-core coursework.

Required Courses

The following 24 units are required:

- BUS 220 - Legal Environment of Business *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- BUS 320 - Business and Professional Ethics *Units: 3*
- BUS 340 - Information Technology Management *Units: 3*
- BUS 370 - Business, Government and Society *Units: 3*
- ECON 210 - Quantitative Methods for Economists *Units: 3*
- ECON 306 - Money, Banking, & Financial Intermediaries *Units: 3 ; G.E./G.R. Area: D4*
- ECON 310 - Introduction to Econometrics *Units: 3*
- ECON 400 - Game Theory *Units: 3*

Elective Courses

Select two (2) courses for 6 units from the following list:

- ECON 305 - Macroeconomic Theory *Units: 3*
- ECON 334 - Economics of Information and Organizations *Units: 3*
- ECON 370 - Health Economics and Public Policy *Units: 3*
- ECON 430 - Introduction to Industrial Organization *Units: 3*
- ECON 431 - Economics of Innovation & Intellectual Property *Units: 3*
- ECON 433 - Introduction to Labor Economics *Units: 3*
- ECON 497 - Special Topics in Economic Analysis *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- • ECON 670 - Economic Research Practices *Units: 4*
- • ECON 688 - Applied Data Analysis *Units: 3*
- • ECON 690 - Independent Study *Units: 1-4*
- • ECON 693 - Project *Units: 1*
- • ECON 697 - Advanced Topics in Economics *Units: 4*
- • ECON 698 - Internship *Units: 1-3*

Economics, B.S.

Economics, B.S. Program (120 units)

Program Description:

The BS in Economics trains students in the tools of economic analysis and exposes them to a great breadth of areas in which those tools can be used to tackle problems, including international trade and finance, labor markets, industry structure, firms' business strategy and competition, public policy and management, the environment, health care, economic development and income inequality, corporate governance and entrepreneurship, money markets and Federal Reserve policy, and law. The program provides rigorous analytical training and quantitative and programming skills that equip students to correctly formulate (and solve) complex problems in the preceding areas and in the daily decision-making and financial planning of their everyday lives. Economics students learn techniques for critically analyzing and correctly evaluating key issues in public policy, and those skills can also be applied outside the public sector (e.g., to business).

Career Opportunities:

As an economics training is highly valued by employers, the program prepares students for a broad variety of careers including those in business, law, banking and insurance, government, consulting, journalism, teaching, research, and starting a business.

Program Learning Outcomes:

Students graduating with a Bachelor of Science in Economics will be able to:

- Formulate mathematical models to solve microeconomic problems.
- Formulate mathematical models to solve macroeconomic problems.
- Analyze research data using modern statistical software packages.

- Construct coherent economic policy arguments, grounded in economic theory.

Degree Requirements Unit-Outline

- A baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 60 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 3 units (*actual number of fee elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Economics Major Requirements (60 units)

Lower Division Core

Students are required to take the following seven (7) courses for 21 units.

Note: MATH 180 can be substituted with MATH 130. STAT 100 can be substituted with STAT 110. ECON 211 can be substituted with CS 100 or CS 101.

- MATH 115 - College Algebra Units: 3 ; G.E./G.R. Area: B4
- MATH 180 - Mathematics for Business with Calculus Units: 3 ; G.E./G.R. Area: B4
- STAT 100 - Elements of Statistics and Probability Units: 3 ; G.E./G.R. Area: B4
- ECON 200 - Principles of Microeconomics Units: 3 ; G.E./G.R. Area: D1-3; Social Justice
- ECON 205 - Principles of Macroeconomics Units: 3 ; G.E./G.R. Area: D1-3
- ECON 210 - Quantitative Methods for Economists Units: 3
- ECON 211 - Programming for Data Analysts Units: 3

Upper Division Core

Students are required to take the following seven (7) courses for 21 units:

- ECON 300 - Microeconomic Theory I Units: 3
- ECON 301 - Microeconomic Theory II Units: 3
- ECON 305 - Macroeconomic Theory Units: 3
- ECON 306 - Money, Banking, & Financial Intermediaries Units: 3 ; G.E./G.R. Area: D4
- ECON 310 - Introduction to Econometrics Units: 3
- ECON 400 - Game Theory Units: 3
- ECON 499 - Capstone: Empirical Analysis Units: 3

Elective Courses

Choose six (6) courses for 18 units from the following list:

- ECON 320 - History of Economic Thought *Units: 3*
- ECON 334 - Economics of Information and Organizations *Units: 3*
- ECON 335 - Introduction to Urban Economics *Units: 3*
- ECON 337 - Sports Economics *Units: 3 ; G.E./G.R. Area: D4*
- ECON 350 - International Economics *Units: 3*
- ECON 360 - Environmental Economics *Units: 3*
- ECON 370 - Health Economics and Public Policy *Units: 3*
- ECON 385 - Global Economic Analysis *Units: 3*
- ECON 397 - Issues in Economic Analysis *Units: 3*
- ECON 430 - Introduction to Industrial Organization *Units: 3*
- ECON 431 - Economics of Innovation & Intellectual Property *Units: 3*
- ECON 433 - Introduction to Labor Economics *Units: 3*
- ECON 456 - Introduction to Monetary Theory *Units: 3*
- ECON 460 - Introduction to Public Economics *Units: 3*
- ECON 497 - Special Topics in Economic Analysis *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- ECON 698 - Internship *Units: 1-3*

Master

Economics, M.S.: General Economics Concentration

Economics, M.S. Program

Program Description:

The MS in Economics combines a thorough grounding in modern economic theory with training in applied skills, informed by data analysis. It is the integration of all these elements that is powerful and distinctive; students not only master statistical methods and programming but, crucially, learn to interpret findings through the lens of economic theory. The program enables students to identify optimal actions in a variety of contexts, anticipate economic consequences, evaluate the effects of policy changes, understand strategic behavior, and explain and predict market outcomes. Students are prepared for a range of analytical careers through their quantitative skills: an ability to mathematically model and solve complex business and policy problems, as well as an advanced command of statistical tools. They may go on to work in corporate finance and banking, marketing research, consulting, public and non-governmental organization (NGO) administration, research, or teaching. Students declare one (and only one) concentration. The Quantitative Business Modeling concentration permits students to gain exposure to finance, marketing, and business analytics that is valuable in corporate careers, through selected courses in CBE's business programs. The General Economics concentration is geared to advisory professions, the public sector, or PhD programs.

Career Opportunities:

Typical career destinations for professional economists are:

Corporate Finance and Banking • Marketing Research • Consulting • Public and Non-governmental Organization (NGO) Administration • Research • Teaching

Admission Requirements:

To be considered for admission, students must hold a baccalaureate degree from an accredited college or university and have a grade point average of 2.75 or better over the last 90 quarter units or 60 semester units of their undergraduate program. A student who does not meet the grade point requirements may be admitted at the discretion of the department pending receipt of other evidence of the student's academic achievement.

International students must show English proficiency by posting an official TOEFL score of 580 or above (237 on the Computer-Based TOEFL), or by posting an official transcript showing graduation with a bachelor's degree from a U.S. college or university, or an international college or university where English is the principal language of instruction, or by an official letter from the college or university certifying that English was the language of instruction.

Students enrolling in the program are expected to have completed the equivalent of MATH 180 and ECON 210 (quantitative methods for economists) or a two-course sequence in calculus; STAT 100 or equivalent; and at least one course in intermediate micro-economics and one course in intermediate macro-economics. Students who have not completed the Economics prerequisites must demonstrate competency and promise for quantitative graduate work in other ways to the satisfaction of the Program Director and the Department Chair.

Classification in the Program

There are three levels of advancement for students within the M.S. program: "Conditionally Classified Graduate" standing, "Classified Graduate" standing, and "Advancement to Candidacy."

Conditionally Classified Graduate Standing

A student who has been admitted to a graduate degree program but who has not satisfied all prerequisite coursework or other requirements such as the University Writing Skills Requirement is a "Conditionally Classified Graduate" student. A student may be admitted to a graduate degree program as a "Conditionally Classified" graduate student upon:

1. submission of a written application, with required supporting documents, to the Admissions Office declaring an intent to pursue the M.S. degree in Economics;
2. acceptance by the department; and
3. completion of other appropriate requirements as specified in the Admission/Graduate chapter in this catalog.

Classified Graduate Standing

A student who has been admitted to the M.S. program by meeting the requirements established in item 1 above; has fulfilled all prerequisite coursework and other requirements such as the University Writing Skills Requirement (UWSR); and has a strong background in economics may begin as a "Classified Graduate" student. Students admitted into the program but lacking such background will be designated as "Conditionally Classified Graduate" students until deficiencies are made up and they are recommended for "Classified Graduate" standing by the department. The student must have satisfied the University Writing Skills Requirement (UWSR) to become a "Classified Graduate" student. For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call 510.885.3661.

Advancement to Candidacy

To be Advanced to Candidacy in the M.S. program a student must:

1. be a "Classified Graduate" student in good standing;
2. have filed an approved program of study with the department;
3. have completed at least 8 semester units in Economics, considered applicable by the department toward the M.S. degree requirements, in residence at Cal State East Bay; and
4. have been recommended for Advancement to Candidacy by the department.

Requirements for Graduation

To be eligible for the M.S. degree in economics a student must:

- have been Advanced to Candidacy
- have completed at least 32 semester units of graduate work as indicated in (C) below, of which:
 - all must have been earned within the five years just preceding the completion of the requirements for the degree;
 - not fewer than 24 units must have been completed in residence;

- all units must have been in Economics courses in the 600-699 series or approved courses in the QBM concentration as specified below, unless an exception is granted by the Program Director in writing;
- each course must have a grade of "C" or better and all 32 or more units must result in at least a 3.00 GPA;
- have completed a satisfactory program of study (16 units of core classes and at least 12 units in one of two concentrations) as approved by the department and the graduate coordinator. (See required courses in the Major Requirements section of this catalog.)

Program Learning Outcomes

Students graduating with a Master in Science in Economics will be able to:

1. Generate solutions to economic optimization problems under constraints.
2. Construct equilibria in models of strategic behavior.
3. Identify and apply appropriate empirical techniques for estimation problems.
4. Estimate models informed by economic theory using specialized software for data analysis.

Economics Degree Requirements (32 units)

Core Courses

The following 16 units are required:

- ECON 600 - Foundations of Economic Theory *Units: 4*
- ECON 601 - Advanced Microeconomics *Units: 4*
- ECON 605 - Advanced Macroeconomics *Units: 4*
- ECON 610 - Advanced Econometrics *Units: 4*

Concentrations

Students must select one (1) of the following concentrations for 12 units to fulfill the program requirements:

- Economics, M.S.: General Economics Concentration
- Economics, M.S.: Quantitative Business Modeling Concentration

IMPORTANT: It is not possible for one student to take both concentrations, General Economics requires a special research course that is *only* open to students in that concentration. If a student takes this class for credit, he or she is in General Economics; if not, then he or she is in Quantitative Business Modeling (QBM) and must complete electives from the QBM list.

Capstone Requirements

The following 4 units are required to complete the program requirements:

- ECON 688 - Applied Data Analysis *Units: 3*
- ECON 693 - Project *Units: 1*

General Economics Concentration

Twelve (12) units are required to fulfill this concentration.

Required Course

The following course for 4 units is required:

- **ECON 670 - Economic Research Practices** *Units: 4*

Elective Courses

Choose two (2) courses for 8 units from the following:

- **ECON 623 - Market Design** *Units: 4*
- **ECON 625 - Urban Economics** *Units: 4*
- **ECON 627 - Personnel Economics** *Units: 4*
- **ECON 636 - Monetary Theory** *Units: 4*
- **ECON 640 - Public Economics** *Units: 4*
- **ECON 647 - International Economic Development** *Units: 4*
- **ECON 660 - Industrial Organization** *Units: 4*
- **ECON 661 - Strategic Pricing** *Units: 4*
- **ECON 665 - Corporate Governance & Entrepreneurship** *Units: 4*
- **ECON 667 - Project Analysis** *Units: 4*
- **ECON 697 - Advanced Topics in Economics** *Units: 4*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Economics, M.S.: Quantitative Business Modeling Concentration

Economics, M.S. Program

Program Description:

The MS in Economics combines a thorough grounding in modern economic theory with training in applied skills, informed by data analysis. It is the integration of all these elements that is powerful and distinctive; students not only master statistical methods and programming but, crucially, learn to interpret findings through the lens of economic theory. The program enables students to identify optimal actions in a variety of contexts, anticipate economic consequences, evaluate the effects of policy changes, understand strategic behavior, and explain and predict market outcomes. Students are prepared for a range of analytical careers through their quantitative skills: an ability to mathematically model and solve complex business and policy problems, as well as an advanced command of statistical tools. They may go on to work in corporate finance and banking, marketing research, consulting, public and non-governmental organization (NGO) administration, research, or teaching. Students declare one (and only one) concentration. The Quantitative Business Modeling concentration permits students to gain exposure to finance, marketing, and business analytics that is valuable in corporate careers, through selected courses in CBE's business programs. The General Economics concentration is geared to advisory professions, the public sector, or PhD programs.

Career Opportunities:

Typical career destinations for professional economists are:

Corporate Finance and Banking • Marketing Research • Consulting • Public and Non-governmental Organization (NGO) Administration • Research • Teaching

Admission Requirements:

To be considered for admission, students must hold a baccalaureate degree from an accredited college or university and have a grade point average of 2.75 or better over the last 90 quarter units or 60 semester units of their undergraduate program. A student who does not meet the grade point requirements may be admitted at the discretion of the department pending receipt of other evidence of the student's academic achievement.

International students must show English proficiency by posting an official TOEFL score of 580 or above (237 on the Computer-Based TOEFL), or by posting an official transcript showing graduation with a bachelor's degree from a U.S. college or university, or an international college or university where English is the principal language of instruction, or by an official letter from the college or university certifying that English was the language of instruction.

Students enrolling in the program are expected to have completed the equivalent of MATH 180 and ECON 210 (quantitative methods for economists) or a two-course sequence in calculus; STAT 100 or equivalent; and at least one course in intermediate micro-economics and one course in intermediate macro-economics. Students who have not completed the Economics prerequisites must demonstrate competency and promise for quantitative graduate work in other ways to the satisfaction of the Program Director and the Department Chair.

Classification in the Program

There are three levels of advancement for students within the M.S. program: "Conditionally Classified Graduate" standing, "Classified Graduate" standing, and "Advancement to Candidacy."

Conditionally Classified Graduate Standing

A student who has been admitted to a graduate degree program but who has not satisfied all prerequisite coursework or other requirements such as the University Writing Skills Requirement is a "Conditionally Classified Graduate" student. A student may be admitted to a graduate degree program as a "Conditionally Classified" graduate student upon:

1. submission of a written application, with required supporting documents, to the Admissions Office declaring an intent to pursue the M.S. degree in Economics;
2. acceptance by the department; and
3. completion of other appropriate requirements as specified in the Admission/Graduate chapter in this catalog.

Classified Graduate Standing

A student who has been admitted to the M.S. program by meeting the requirements established in item 1 above; has fulfilled all prerequisite coursework and other requirements such as the University Writing Skills Requirement (UWSR); and has a strong background in economics may begin as a "Classified Graduate" student. Students admitted into the program but lacking such background will be designated as "Conditionally Classified Graduate" students until deficiencies are made up and they are recommended for "Classified Graduate" standing by the department. The student must have satisfied the University Writing Skills Requirement (UWSR) to become a "Classified Graduate" student. For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call 510.885.3661.

Advancement to Candidacy

To be Advanced to Candidacy in the M.S. program a student must:

1. be a "Classified Graduate" student in good standing;
2. have filed an approved program of study with the department;
3. have completed at least 8 semester units in Economics, considered applicable by the department toward the M.S. degree requirements, in residence at Cal State East Bay; and

4. have been recommended for Advancement to Candidacy by the department.

Requirements for Graduation

To be eligible for the M.S. degree in economics a student must:

- have been Advanced to Candidacy
- have completed at least 32 semester units of graduate work as indicated in (C) below, of which:
 - all must have been earned within the five years just preceding the completion of the requirements for the degree;
 - not fewer than 24 units must have been completed in residence;
 - all units must have been in Economics courses in the 600-699 series or approved courses in the QBM concentration as specified below, unless an exception is granted by the Program Director in writing;
 - each course must have a grade of "C" or better and all 32 or more units must result in at least a 3.00 GPA;
- have completed a satisfactory program of study (16 units of core classes and at least 12 units in one of two concentrations) as approved by the department and the graduate coordinator. (See required courses in the Major Requirements section of this catalog.)

Program Learning Outcomes

Students graduating with a Master in Science in Economics will be able to:

1. Generate solutions to economic optimization problems under constraints.
2. Construct equilibria in models of strategic behavior.
3. Identify and apply appropriate empirical techniques for estimation problems.
4. Estimate models informed by economic theory using specialized software for data analysis.

Economics Degree Requirements (32 units)

Core Courses

The following 16 units are required:

- ECON 600 - Foundations of Economic Theory *Units: 4*
- ECON 601 - Advanced Microeconomics *Units: 4*
- ECON 605 - Advanced Macroeconomics *Units: 4*
- ECON 610 - Advanced Econometrics *Units: 4*

Concentrations

Students must select one (1) of the following concentrations for 12 units to fulfill the program requirements:

- Economics, M.S.: General Economics Concentration
- Economics, M.S.: Quantitative Business Modeling Concentration

IMPORTANT: It is not possible for one student to take both concentrations, General Economics requires a special research course that is *only* open to students in that concentration. If a student takes this

class for credit, he or she is in General Economics; if not, then he or she is in Quantitative Business Modeling (QBM) and must complete electives from the QBM list.

Capstone Requirements

The following 4 units are required to complete the program requirements:

- ECON 688 - Applied Data Analysis *Units: 3*
- ECON 693 - Project *Units: 1*

Quantitative Business Modeling Concentration

Students must complete a minimum of 12 units to fulfill the concentration requirements.

Elective Courses

At least one (1) course, chosen from the list below, must have a prefix other than ECON when completing the minimum 12 unit requirement for this concentration.

Please note: elective courses from the list below may contain one or more prerequisite classes that must be completed before enrollment.

- BAN 612 - Data Analytics *Units: 3*
- BAN 620 - Data Mining *Units: 3*
- BAN 630 - Optimization Methods for Analytics *Units: 3*
- ECON 660 - Industrial Organization *Units: 4*
- ECON 661 - Strategic Pricing *Units: 4*
- ECON 665 - Corporate Governance & Entrepreneurship *Units: 4*
- ECON 667 - Project Analysis *Units: 4*
- FIN 620 - Seminar in Security Analysis and Portfolio Management *Units: 3*
- FIN 630 - Seminar in Options and Futures *Units: 3*
- MKTG 610 - Marketing Research *Units: 3*
- MKTG 612 - Marketing Analytics *Units: 3*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Kathryn Hayes, Ph.D. University of California, Davis

Gerald Reyes, Ph.D. University of California, Berkeley

Kathryn Strom, Ed.D. Montclair State University

Mission Statement

The mission of the Department of Educational Leadership at CSUEB is to prepare and influence bold, socially responsible leaders who will transform the world of schooling. Our central role is to ignite the leadership capacity needed to create vital, democratic and caring places for powerful teaching and learning.

Credential

Administrative Services Credential Clear Induction Program

Administrative Services Credential Clear Induction Program

Program Description

The mission of the Department of Educational Leadership is to prepare bold, socially responsible leaders who will transform the world of schooling. Students examine social, cultural and linguistic issues linked to larger equity and social justice challenges. The program's central role is to help build the leadership capacity needed to create vital, democratic, professional learning communities for equitable learning and teaching.

Career Opportunities

Completing the Administrative Services Credential Clear Induction program enables graduates to obtain an administrative credential that is required for administrative positions at all levels of the K-12 public education system. Various positions include those in school site administration (e.g., principal, vice

principal), and district-level administration (e.g., curriculum coordinator, staff development coordinator, special programs coordinator, human resources, assistant superintendent, and superintendent, among others). In addition, graduates also obtain many positions at county and state-wide public education offices.

Admission Requirements

A candidate must be admitted to the University consistent with requirements and procedures explained in this catalog. Interested candidates apply for admission to the department and to the University at the same time. Candidates are admitted to the program if they have completed the requirements for the Preliminary Administrative Services (Tier I) Credential and are currently employed in an administrative position in a K-12 setting. Applications for admission to the department are online at the departmental website. All admissions materials should be sent to the CSUEB Credential Student Service Center (CSSC), AE 235, 25800 Carlos Bee Blvd., Hayward, CA 94542.

Requirements for the Administrative Services Credential Clear Induction Program include the following:

- Current Preliminary Administrative Services Credential
- Verified position as a school administrator (form available on the department website)
- A current resume showing evidence of leadership experience

Program Learning Outcomes

California Professional Standards for Educational Leadership (CPSEL)

- STD 1: Development and Implementation of a Shared Vision
- STD 2: Instructional Leadership
- STD 3: Management & Learning Environment
- STD 4: Family & Community Engagement
- STD 5: Ethics & Integrity
- STD 6: External Context & Policy

Administrative Services Credential Clear Induction Program Requirements (12 units)

To be recommended for the credential, students must satisfactorily complete all of the following 12 units of coursework and fulfill all the credential requirements:

Credential Coursework

Take all of the following:

- EDLD 681 - Coaching and Assessment Practicum I *Units: 2*
- EDLD 682 - Coaching and Assessment Practicum II *Units: 2*
- EDLD 683 - Coaching and Assessment Practicum III *Units: 2*
- EDLD 684 - Coaching and Assessment Practicum IV *Units: 2*

- EDLD 685 - Managing an Organization and Developing a Collaborative Culture *Units: 1*
- EDLD 686 - Professional and Community Development *Units: 1*
- EDLD 687 - Developing an Inquiring Community *Units: 1*
- EDLD 688 - Political Social Context in Education *Units: 1*

Master

Educational Leadership, M.S. (Available Online)

The M.S. Educational Leadership online program is only available through Continuing Education.

Educational Leadership, M.S. Program

Program Description

The mission of the Department of Educational Leadership is to prepare bold, socially responsible leaders who will transform the world of schooling. Students examine social, cultural and linguistic issues linked to larger equity and social justice challenges. Our central role is to help build the leadership capacity needed to create vital, democratic, professional learning communities for equitable learning and teaching. The department offers the onsite/hybrid program and University Extension offers the fully online program.

Career Opportunities

Completion of the administrative credential and educational leadership master's program enable graduates to obtain a credential that allows them to assume administrative positions at all levels of the K-12 public education system. Various positions include those in school site administration (e.g., principal and vice principal), and district level administration (e.g., curriculum coordinator, staff development coordinator, special programs coordinator, human resources, assistant superintendent, superintendent, etc.). In addition, graduates also obtain many positions at the county and state level offices.

Admission Requirements

A candidate must be admitted to the University, consistent with requirements and procedures explained in this catalog. Candidates apply for admission to the Department and to the University at the same time. Candidates are admitted to the master's degree program and have the option of completing the requirements for the Preliminary Administrative Services Credential by the end of their first year of enrollment. Applications for admission to the department are online at the departmental website. All admissions materials should be sent to the Credential Student Service Center (CSSC), AE 235, 25800 Carlos Bee Blvd., Hayward, CA 94542.

Additional requirements for admission to the M.S. in Educational Leadership and/or the Preliminary Administrative Services Credential include the following:

- A bachelor's degree from an accredited university
- 3.0 GPA or equivalent on all post-baccalaureate work
- A current, valid teaching credential or services credential, such as Pupil Personnel Services, Adult Education, Librarianship, Health Services School Nurse, or Clinical Rehabilitative Services.
- A minimum of three years full-time teaching or service experience as documented by district verification (form available on department website)

- Internship candidates must verify administrative position (form available on department website)
- A current resume showing evidence of leadership experience
- Three recommendations (form available on department website)
- A one-page statement of professional goals
- University application, including two sets of transcripts.

Requirements for the Administrative Services Credential Clear Induction Program include:

- Current Preliminary Administrative Services Credential.
- Verification of position as a school administrator (form available on the department website).
- A current resume showing evidence of leadership experience.

Program Learning Outcomes

The program learning outcomes for the MS in Educational Leadership are the California Administrator Performance Expectations (CAPE) that are aligned to the California Professional Standards for Educational Leaders (CPSEL). The California Commission on Teacher Credentialing adopted revised standards on June 30th, 2016.

1. **Development and Implementation of a Shared Vision.** Educational leaders facilitate the development and implementation of a shared vision of learning and growth of all students.
2. **Instructional Leadership.** Educational leaders shape a collaborative culture of teaching and learning informed by professional standards and focused on student and professional growth.
3. **Management and Learning Environment.** Educational leaders manage the organization to cultivate a safe and productive learning and working environment.
4. **Family and Community Engagement.** Educational leaders collaborate with families and other stakeholders to address diverse student and community interests and mobilize community resources.
5. **Ethics and Integrity.** Educational leaders make decisions, model, and behave in ways that demonstrate professionalism, ethics, integrity, justice, and equity and hold staff to the same standard.
6. **External Context and Policy.** Educational leaders influence political, social, economic, legal and cultural contexts affecting education to improve education policies and practices.

Advancement to Candidacy

"Classified Graduate" Students are eligible for Advancement to Candidacy based on the following criteria:

1. Maintenance of a 3.0 grade point average in all graduate work completed.
2. Submission to the graduate coordinator of an approved program of study developed in conjunction with the appropriate faculty.
3. Completion of the Writing Skills Requirement through passage of the test or equivalency.

Cause for Dismissal

A graduate student may be placed on academic probation for not achieving a 3.0 GPA in any semester. A student may be academically disqualified for failing to achieve a 3.0 in all units taken after admission to a graduate program, by not meeting the academic criteria of the department or behaving contrary to professional standards.

A graduate student may be declassified (or dropped) from a graduate degree for unprofessional conduct, behavior that interferes with others' learning, failure to make progress toward the degree, failure to meet grade requirements, and/or the department faculty determine that the student cannot complete degree requirements at the graduate level even if the GPA is above a 3.0. Please see University Catalog for more detail: <http://www.csueastbay.edu/academic/academic-policies/academic-probation.html>.

Educational Leadership Degree Requirements (30 units)

Core Requirements

Candidates must complete all 18 units of core courses.

- EDLD 600 - Leading for Social Justice and Equity in Urban Schools *Units: 4 ; G.E./G.R. Area: UWSR*
- EDLD 610 - Transforming Professional Learning to Support Equitable Student Outcomes *Units: 4*
- EDLD 620 - Educational Leadership for Equitable Resources *Units: 3*
- EDLD 625 - School Laws, Policies and Governance for Equitable Outcomes *Units: 3*
- EDLD 630 - Collaborative Research for Equity *Units: 4*

Elective Courses

All students must consult your graduate advisor to choose the appropriate 8 units of electives. Select from the following courses:

- EDLD 635 - Equity Research Design I *Units: 3*
- EDLD 645 - Equity Research Design II *Units: 3*
- EDLD 650 - Critical Topics in Educational Leadership I *Units: 1*
- EDLD 655 - Critical Topics in Educational Leadership II *Units: 1*
- EDLD 681 - Coaching and Assessment Practicum I *Units: 2*
- EDLD 682 - Coaching and Assessment Practicum II *Units: 2*
- EDLD 683 - Coaching and Assessment Practicum III *Units: 2*
- EDLD 684 - Coaching and Assessment Practicum IV *Units: 2*
- EDLD 685 - Managing an Organization and Developing a Collaborative Culture *Units: 1*
- EDLD 686 - Professional and Community Development *Units: 1*
- EDLD 687 - Developing an Inquiring Community *Units: 1*
- EDLD 688 - Political Social Context in Education *Units: 1*
- EDLD 690 - Independent Study *Units: 1-3*

Capstone Requirement

The following 4-unit capstone is required:

- EDLD 693 - Collaborative Research Project *Units: 4*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Doctoral

Educational Leadership, Ed.D. **

** Please see the Errata chapter in this catalog for information concerning this degree.

Educational Leadership for Social Justice, Ed.D. Program

Program Description

The mission of the Educational Leadership for Social Justice (ELSJ) Doctoral Program is to prepare educators and other school personnel to assume positions of executive leadership. A primary objective of the program is to guide educators and educational professionals to become bold, socially responsible agents of change and transformation. Graduates of the doctoral program will be able to contribute to closing opportunity gaps that exist between White students, students of color, and students marginalized by gender, sexuality, class, and disability.

The program provides theory, research, and practice in a learning community in which students develop a deeper understanding of themselves as educators, leaders, information producers, policymakers, and policy advocates. Students also develop the knowledge, skills and habits of mind necessary to improve the quality of learning for all students.

Career Opportunities

Graduates with a doctoral degree in Educational Leadership serve in many different arenas that impact education. One career path for graduates is to become an executive leader in a school district or County

Office of Education. Such positions include superintendents, assistant superintendents or directors of curriculum, programs or human relations. Other professionals obtaining the Ed.D. degree serve as policy makers in state and national departments of education, credentialing agencies or as staff for elected officials. Another group works with local, state or national educational foundations, school reform agencies, research organizations, or publishing companies. Others direct grants or consult with schools or districts. Finally, people with an Ed.D. may teach or serve in leadership roles in colleges and universities.

Admission Requirements

- A bachelor's degree and a master's degree from an accredited institution with a GPA in graduate study of 3.0 or above.
- Graduate Record Examination scores within the past 5 years
- Three confidential recommendation forms
- Professional resume
- Written response to a writing prompt about school effectiveness
- Documented professional or personal commitment to equity and social justice
- Demonstrated leadership skills and abilities in education or closely related field
- Professional experiences that demonstrate problem-solving ability and an interest in critically assessing current educational policies and practices

Program Learning Outcomes

The Ed.D. program, Educational Leadership for Social Justice, is organized around the following set of goals:

1. Reflective Practice - Develop reflective leaders who can use self-analysis, inquiry and purposeful reflection to continually improve their own practice; model and encourage these habits with staff; and create communities of practice that promote high achievement for all students.
2. Equity and Cultural Competency - Develop culturally competent practitioner-advocates who purposefully work for equity and dismantle systems of cultural and racial domination and oppression.
3. Systems Thinking - Develop skillful leaders who understand the dynamics of educational systems and are able to leverage those systems in coherent, aligned strategies for educational change by creating democratic learning communities that promote high achievement for all students.
4. Accountability for Equitable Student Performance - Develop instructional leaders who possess the knowledge and ability to ensure that all students engage in powerful, equitable learning opportunities by fostering effective curricular programs, student-centered learning environments, and accountable school cultures that reflect high expectations for student achievement and provide the requisite supports to ensure all students can meet them.
5. Instructional Leadership - Develop socially just instructional leaders who inspire a shared vision and commitment to support all students in achieving at high levels by developing structures and processes fostering collaboration and critical inquiry for continuous pedagogical improvement.
6. Leadership Capacity and Organizational Management - Develop leaders who assess, organize and allocate resources that build and sustain an equitable and socially just organizational culture fostering leadership and change processes that move school systems toward high achievement for all students.

7. Develop leaders who understand the dynamic nature of school systems and educational politics in order to influence politics and policies at multiple levels in ways that support goals of inclusion and equity for all constituents, especially underrepresented groups.

8. Research - Develop leaders who are practitioner-researchers that purposefully engage in inquiry and construct knowledge that promotes social justice and equity in education and advances the public good.

9. Effective Communication - Develop leaders who are powerful communicators in multiple genres and able to promote equity to multiple audiences, including academic, policy makers, and educational stakeholders. Tied to principals of social justice 1, 4, and 6.

Ed.D. Degree Requirements

1. The degree requires a minimum of 60 semester units of approved doctoral-level coursework, including EDLD 780 and EDLD 799, all to be completed within a three-year period. Students must take classes at a CSUEB facility for no less than two semesters each year of the program.
2. A 3.0 GPA or better in all 60 semester units offered as satisfying the requirements of the degree.
3. Satisfactory performance on two qualifying examinations and approval of dissertation prospectus.
4. Completion and oral defense of a dissertation.

Academic Residence

At least 42 semester units shall be completed in residence at California State University at East Bay in order to meet requirements for obtaining an Ed.D. degree.

Transfer of Units

Six semester units of advanced level coursework (beyond the Master's degree) as a matriculated student from an accredited institution may be transferred into the doctoral program, subject to the approval of the Director of the ELSJ Program. The coursework must be deemed equivalent to ELSJ coursework. Students must have earned a grade of B or better in the transferred course. Transfer courses may not have been taken more than 7 years prior to anticipated graduation from the ELSJ Program.

Educational Leadership for Social Justice Doctoral Requirements (60 units)

Core Requirements

Candidates must complete all 57 units of core requirements:

- EDLD 700 - Transformative Leadership *Units: 3*
- EDLD 705 - Foundations of Inquiry for Social Justice *Units: 3*
- EDLD 710 - Social and Cultural Foundations of Education *Units: 3*
- EDLD 715 - Transforming Teaching and Learning in Schools *Units: 3*
- EDLD 720 - Qualitative Inquiry for Social Justice *Units: 3*
- EDLD 725 - Reading and Writing about Educational Leadership *Units: 3*
- EDLD 730 - Community Advocacy, Outreach, and Organizing *Units: 3*

- EDLD 735 - Engaging Critical Social Theories for Designing Research for Equity and Social Justice *Units: 3*
- EDLD 740 - Reform and Change for Social Justice *Units: 3*
- EDLD 745 - Quantitative Inquiry: Data Analysis and Evaluation for Leaders *Units: 3*
- EDLD 750 - Critical Policy Studies in Education *Units: 3*
- EDLD 755 - Applied Study of Educational Issues: Professional Residency I *Units: 3*
- EDLD 760 - Evaluation Research Practicum for Social Justice *Units: 3*
- EDLD 765 - Applied Study of Educational Issues: Professional Residency II *Units: 2*
- EDLD 770 - Critical Perspectives for Finance and Resource Management *Units: 3*
- EDLD 775 - Organizations and Systems for Equity *Units: 3*
- EDLD 780 - Research for Equity and Social Justice *Units: 2*
- EDLD 790 - Research Topic Exploration *Units: 2*
- EDLD 791 - Collaborative Proposal Research *Units: 1*
- EDLD 792 - Collaborative Proposal Development *Units: 2*
- EDLD 793 - Collaborative Dissertation Writing *Units: 3*

Capstone

Candidates will complete the following coursework for 3 units:

- EDLD 799 - Dissertation Seminar *Units: 3*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Credential

Education Specialist Credential in Mild/Moderate Disabilities

Education Specialist Credential

The Education Specialist Credential, in either Mild/Moderate Disabilities or Moderate/Severe Disabilities, prepares candidates for a career in teaching, additional service delivery, implementation of supports and leadership roles in special education. Content courses containing the latest in research and evidence-based practices and fieldwork experiences provide candidates with a wide range of practical methods for enhancing the lives of individuals with exceptional needs, their families and communities. The program provides extensive supervised fieldwork by Cal State East Bay faculty and successful practitioners in settings that are appropriate to a candidate's professional goals.

While completing the requirements for the Education Specialist credential, candidates will concurrently complete the requirements for the M.S. Special Education program:

Special Education, M.S.: Mild/Moderate Disabilities Concentration

Special Education, M.S.: Moderate/Severe Disabilities Concentration

Admission Requirements

1. Bachelor's degree from an accredited university
2. Department Application
3. University Application^[1]_[SEP]
4. Minimum of 3.0 cumulative GPA
5. Statement of Purpose

Additional Credential Requirements

1. Basic educational skills test approved by the California Commission on Teacher Credentialing (CTC).
2. Pass the Multiple Subject California Subject Examination for Teachers (CSET) or obtain a waiver for the CSET by completing an approved subject matter preparation program at a CSU.
3. Two letters of recommendation.
4. U.S. Constitution course or exam.
5. Certificate of Clearance.
6. Tuberculosis test.

Prerequisites

The 4-unit prerequisite is not included in the credential total units:

- SPED 500 - Educating All Learners in Diverse Classrooms *Units: 4*

Credential Requirements

The following 35 units of coursework are required for the credential and are concurrent with the M.S. Special Education, Mild/Moderate Disabilities Concentration requirements:

- SPED 601 - Educational Practices: Mild/Moderate Disabilities *Units: 4*
- SPED 603 - Teaming, Collaborative Educational Processes and Transition Services *Units: 4*
- SPED 604 - Individual and School-Wide Behavioral Needs, Mental Health & Positive Supports *Units: 4*
- SPED 605 - Communication and Technology *Units: 4*
- SPED 606 - Assessment: Students with Mild/Moderate Disabilities *Units: 4*
- SPED 607 - Curriculum and Instruction: Students with Mild/Moderate Disabilities *Units: 4*
- SPED 610 - Research and Professional Practices *Units: 4*
- SPED 611 - Fieldwork I: Mild/Moderate Disabilities *Units: 3*
- SPED 693 - Capstone Research Project *Units: 4*

The following 9 units of additional coursework are required for the Mild/Moderate Disabilities Credential:

- SPED 612 - Fieldwork II: Mild/Moderate Disabilities *Units: 3*
- SPED 613 - Final Student Teaching: Mild/Moderate Disabilities *Units: 6*

Pupil Personnel Services Credential: School Counseling Specialization

Pupil Personnel Services Credential: School Counseling Specialization Program

Program Description

The School Counseling Specialization is required to work as a school counselor in CA public schools. It is approved by the California Commission of Teacher Credentialing (CTC). The CTC sets the standards and competencies for the state, and Cal State East Bay's program is designed to incorporate all knowledge, skills and practical experiences required to meet those expectations.

The School Counseling Credential program is a two-year course of study that reflects an integration of local program needs, the campus mission, and the direction provided by the National Standards and

National Model of the American School Counselor Association (ASCA) and the National Career Development Guidelines (NOICC). The program is designed to train competent practitioners who are prepared to be leaders in building comprehensive, results-based school counseling programs that serve the needs of all pupils.

The School Counseling Credential program includes specific training in guidance program models, guidance program development and implementation, and in the comprehensive and developmental school guidance curricula for academic, career, and personal/social development. Students also learn team building, management, and accountability for a comprehensive guidance program.

Admission Requirements

1. Baccalaureate degree from an accredited institution.
2. University application.
3. Department application.
4. Official transcripts sent to both the University and the Department of Educational Psychology.
5. Three academic professional references.
6. Basic Skills requirement.
7. Certificate of Clearance.
8. A personal statement.
9. Graduate Record Examination (GRE) score report.
10. Complete the prerequisite coursework for the program before Educational Psychology courses begin in fall.

Pupil Personnel Services Credential: School Counseling Specialization Requirements (48 units)

Prerequisite Coursework

The following 0-11 units of prerequisites or their equivalents must be met prior to program admission. Generally prerequisite units are not counted toward the credential. See your department advisor for more information:

- PSYC 340 - Developmental Psychology *Units: 4*
- PSYC 381 - Psychopathology *Units: 4*
- STAT 100 - Elements of Statistics and Probability *Units: 3 ; G.E./G.R. Area: B4*

Required Specialization Coursework

The following 30 units of specialization coursework are required:

- EPSY 660 - Clinic Rounds *Units: 3 (must be taken twice for 6 units)*
- EPSY 648 - Assessment and Testing *Units: 3*
- EPSY 655 - Advanced Pupil Personnel Services *Units: 3*
- EPSY 681 - Foundations in School Counseling *Units: 3*
- EPSY 692 - Action Research and Comprehensive Evaluation *Units: 3*
- EPSY 695 - Practicum *Units: 1-4 (must be taken twice for 6 units)*

- EPSY 696 - Advanced Practicum *Units: 3 (must be taken twice for 6 units)*

Other Required Coursework

This coursework is common with the School Counseling concentration within the Master's in Counseling program. All the following 18 units are also required for the credential.

- EPSY 654 - Career Counseling *Units: 3*
- EPSY 661 - Academic Counseling *Units: 3*
- EPSY 662 - Cognitive Behavior Therapy *Units: 3*
- EPSY 664 - Diverse Needs in School Counseling *Units: 2*
- EPSY 665 - Leadership, Advocacy, and Wellness *Units: 2*
- EPSY 682 - Mental Health Consultation in Schools *Units: 3*
- EPSY 683 - Crisis in Schools and Mental Health Settings *Units: 2*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Pupil Personnel Services Credential: School Psychology Specialization

Pupil Personnel Services Credential: School Psychology Specialization Program

Program Description

The School Psychology program at CSU East Bay is a three-year, full-time program that is nationally accredited by the National Association of School Psychologists (NASP). The program emphasizes social justice applied to schools and provides a supportive cohort model. A cohort model is one whereby each entry group of graduate students takes the same classes together and learns collaboratively. The program is approved by the California Commission on Teacher Credentialing (CTC) which sets the standards for the Pupil Personnel Services Credential in School Psychology. Faculty recommend student candidates for the credential who successfully meet requirements for academic courses (e.g., grades of "B" or better, school-based service learning experiences, professional performance, passing scores on the Praxis II Examination in School Psychology, and a culminating portfolio project).

The US News and World Report rated school psychology as the number one social service job in 2017. California State University East Bay's School Psychology credential program prepares professionals to make a difference in their communities through Intervention, Consultation, Assessment, Research, and Education. School Psychology Credential students are professionals-in-training who begin working in the schools at the very beginning of the program and have fieldwork opportunities in more than 20 culturally and linguistically diverse Bay Area school districts.

Admission Requirements

1. Baccalaureate degree from an accredited institution.

2. University application.
3. Department application.
4. Official transcripts sent to both the University and the Department of Educational Psychology.
5. Three academic professional references.
6. Basic Skills requirement
7. Certificate of Clearance
8. A personal statement.
9. Graduate Record Examination (GRE) score report.
10. Complete the prerequisite coursework before Educational Psychology courses begin in fall.

Pupil Personnel Services Credential: School Psychology Specialization Requirements (65 units)

Prerequisite Coursework

The following 0-19 units of prerequisites or their equivalents must be met prior to program admission. Generally prerequisite units are not counted toward the credential. See your department advisor for more information:

- PSYC 340 - Developmental Psychology *Units: 4*
- PSYC 370 - Psychological Measurement *Units: 4*

Master

Counseling, M.S.: Marriage and Family Therapy Concentration

Counseling, M.S. Program

Program Description

The Master of Science in Counseling degree requires 60 units organized according to university and degree program requirements. Requirements are established to ensure that each degree candidate obtains adequate breadth in subject matter, field experiences, and research.

Students interested in the Pupil Personnel Service Credential in School Counseling or School Psychology, please refer to their individual program pages.

CSU East Bay offers three concentrations within the M.S. in Counseling. Individuals interested in a M.S. in Counseling degree must enroll in one of the following:

Marriage and Family Therapy Concentration

The primary focus of the concentration is to train psychotherapists who eventually plan to obtain a California Marriage and Family Therapy (MFT) and/or a Licensed Professional Clinical Counselor (LPCC) internship license. Additional units may be taken to meet the requirements for the LPCC and the MFT internship. (See BBS Sections 4980.37, 4980.41 (a)(4)&(5) for MFT and 4999.33 for LPCC.).

These additional LPCC courses lead to completion of the required hours of clinical experience for the license application.

The MFT course work is geared towards a relational approach to counseling that focuses on multicultural diversity, collaborative treatment, wellness, resiliency, and recovery. Faculty orient students to promote resilience and practice strength-based interventions. Course work combined with clinical practicum training in the field prepares graduates to work from a relational perspective.

School Counseling Concentration

The School Counseling concentration is a full-time, two-year course of study. Courses are offered during the day, in the evening, and on weekends.

School Counseling reflects an integration of local program needs, the campus mission, and the direction provided by the National Standards and National Model of the American School Counselor Association (ASCA) and the National Career Development Guidelines (NOICC).

Students acquire the skills to develop curriculum for small-group guidance, conduct individual and group therapy, and provide consultation and leadership in the creation and evaluation of integrated, comprehensive prevention and intervention programs.

School Psychology Concentration

The School Psychology concentration is nationally accredited by the National Association of School Psychologists (NASP).

The philosophy of the School Psychology concentration is to train graduate students in evidenced-based practice to promote social justice and equity to diverse school communities. Social justice is the call to provide all pupils with the support, skills, and services they need to reach their full potential in spite of poverty and other significant challenges. The School Psychology concentration is committed to the academic and social-emotional development of children, families and communities. Thus, we strive to promote a strong professional identity in School Psychology while providing a core of shared learning experiences.

The goals of the concentration are to provide clinical training, instruction, field-based placements, and cohort learning opportunities to promote four levels of trainee development; 1) Foundation for Clinical Practice, 2) Professional Skills and Knowledge, 3) Demonstration of Competency, and 4) Professional Identity. Although each area is introduced at different points of the program, levels of development and knowledge based content are continuously revisited and integrated into group and individual discussion and reflection. In addition, coursework continues to build as trainees demonstrate competence in service delivery.

Career Opportunities

Marriage and Family Therapy (MFT)

The MFT concentration prepares graduate students for clinical work in a wide variety of settings, such as community mental health based and county agencies, schools and universities, hospitals, business and industry, and private practice.

Graduates have been hired in a wide range of agencies and businesses. Some are counselors in junior colleges and college counseling settings, Others are drug and alcohol abuse counselors in hospitals, family therapists on-site in schools, advocates for the mentally ill, therapists working with chronically ill and they elderly, child therapists in therapeutic nursery schools, assessment counselors, information and referral clinicians in employment assistance programs, individual and family therapists for police departments, grief counselors, organizational development specialists, and human resource professionals in business and industry.

School Counseling

Graduates of the MS in Counseling with a concentration in School Counseling often work in community agencies. Other graduates have been hired in agencies and businesses and other diverse settings, such

as counselors in junior colleges, colleges, drug and alcohol abuse counselors in hospitals, and as advocates for mentally ill persons. Additional courses taken for the Pupil Personnel Services (PPS) Credential required by the California Commission on Teacher Credentialing (CTC) and coursework required by the Board of Behavioral Sciences (BBS) may lead to positions providing mental health services and guidance support for students in K-12 schools, careers as child therapists in therapeutic nursery schools, assessment counselors, information and referral clinicians in employee assistance programs, individual and family therapists for police departments, organizational development specialists, and human resource professionals. Some graduates have pursued doctoral-level work in clinical and counseling psychology or education after completing their master's degree in this program.

School Psychology

The M.S. Counseling, School Psychology concentration prepares graduates for careers as educational interventionists and counselors in hospitals and mental health organizations. According to the US News and World Report's on-line career review, it is a top social service prospect for the future. Additional courses taken for the Pupil Personnel Services (PPS) Credential required by the California Commission on Teacher Credentialing (CTC) and coursework required by the Board of Behavioral Sciences (BBS) may lead to leadership positions in culturally and linguistically diverse K-12 schools. The additional PPS specialization courses also prepare graduates to make a difference in their communities through providing mental health services and advocacy.

M.S. in Counseling Admission Requirements

- Bachelor's degree from an accredited university
- Cumulative undergraduate GPA of 3.0
- University application (submitted via CSU online application)
- Department application
- Personal Statement
- Writing sample
- Three letters of reference
- Graduate Record Examination (GRE)
- Prerequisites (see curriculum requirements below) are not required for admission, but must be completed prior to start of graduate coursework in the Fall term of admission to the program.

Student Standing and Progress

The MS in Counseling requires demonstration of the following:

- Completion of all coursework toward the degree with a grade of B or higher in each course.
- Completion of the University Writing Skills Test (WST) requirement.

Advancement to Candidacy

- Satisfactory evaluations from field and University supervisors/professors
- Demonstration of ethical and professional program expectations and dispositions program requirements
- Completion of required field-based practicum hours.
- A passing grade on the Praxis test for the School Counseling and School Psychology concentrations.

Program Learning Outcomes

Upon completion of the CSUEB Master of Counseling, graduates will be able to:

1. demonstrate a knowledge of systems theories and be able to successfully apply theories in clinical practice.
2. demonstrate an awareness of diversity and social justice issues, as well as demonstrate competence in working with diverse populations.
3. demonstrate ethical and legal professional practice by identifying and applying ethical and legal standards applied to counseling, assessment, intervention, and consultation.
4. effectively and clearly communicate with all stakeholders.

Counseling Degree Requirements (60-61 units)

Prerequisites or Foundation Requirements

The prerequisites or foundation coursework below (or their equivalents) are required for all students in the M.S. in Counseling program. Please check concentration requirements for additional prerequisites. Prerequisites must be completed before beginning graduate-level coursework. This area may require 0-11 units that are not included in the major units:

- PSYC 381 - Psychopathology *Units: 4*
- PSYC 340 - Developmental Psychology *Units: 4*
- STAT 100 - Elements of Statistics and Probability *Units: 3 ; G.E./G.R. Area: B4*

Required Core Courses

The following 38 units are required for all students:

- EPSY 630 - Law, Ethics and Professional Issues *Units: 3*
- EPSY 631 - Intimate Partner Violence *Units: 1*
- EPSY 632 - Child Abuse Assessment and Reporting *Units: 1*
- EPSY 633 - Substance Abuse *Units: 3*
- EPSY 635 - Pre-Practicum Microcounseling Skills in Relational Practice
Units: 2
- EPSY 636 - Counseling Theories *Units: 3*
- EPSY 637 - Multicultural Counseling *Units: 3*
- EPSY 638 - Psychopathology *Units: 3*
- EPSY 639 - Community Mental Health Counseling *Units: 3*
- EPSY 641 - Child and Youth Psychotherapy *Units: 3*
- EPSY 643 - Family Therapy *Units: 3*
- EPSY 647 - Psychopharmacology *Units: 3*
- EPSY 650 - Group Counseling Theory and Practice *Units: 3*
- EPSY 651 - Research Methods for Evidenced-Based Practice and
Advocacy *Units: 3*
- EPSY 652 - Human Sexuality and Gender *Units: 1*

Concentrations

Choose one (1) of the M.S. in Counseling concentrations for 18 units to complete the degree:

- Counseling, M.S.: Marriage and Family Therapy Concentration
- Counseling, M.S.: School Counseling Concentration
- Counseling, M.S.: School Psychology Concentration

Capstone Requirements

Choose one (1) of the capstone courses below for 4 units according to your concentration:

- EPSY 693A - Project in Marriage and Family Therapy *Units: 4*
- EPSY 693B - Project in School Counseling *Units: 4*
- EPSY 693C - Project in School Psychology *Units: 4*

Marriage and Family Therapy Concentration

Take the following 18 units to complete the M.S. in Counseling degree:

Required Courses

The following 18 units are required for the Marriage and Family Therapy concentration:

- EPSY 634 - Family and Life Cycle Development *Units: 3*
- EPSY 642 - Grief, Trauma, and Crisis Counseling *Units: 2*
- EPSY 645 - Introduction to Systemic-Relational Practice *Units: 2*
- EPSY 648 - Assessment and Testing *Units: 3*
- EPSY 653 - Couples Therapy *Units: 3*
- EPSY 654 - Career Counseling *Units: 3*
- EPSY 646 - Contemporary Issues: Aging & Long-Term Care *Units: 2*
- EPSY 695 - Practicum *Units: 1-4 (only one (1) unit is required for the requirement)*

Licensed Professional Clinical Counselor (Optional)

The following 12 units are not required for the MS in Counseling degree. However, students will be able to apply for the Licensed Professional Clinical Counselor license with the Board of Behavioral Sciences upon completion of these courses:

- EPSY 644 - Pre-Practicum Microcounseling Skills in Relational Practice II
Units: 2
- EPSY 695 - Practicum *Units: 1-4 (An additional 4 units of EPSY 695 must be taken for LPCC option)*
- EPSY 696 - Advanced Practicum *Units: 3 (Course must be taken twice for 6 units).*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Counseling, M.S.: School Counseling Concentration

Take the following 18 units to complete the M.S. in Counseling degree:

Counseling, M.S. Program

Program Description

The Master of Science in Counseling degree requires 60 units organized according to university and degree program requirements. Requirements are established to ensure that each degree candidate obtains adequate breadth in subject matter, field experiences, and research.

Students interested in the Pupil Personnel Service Credential in School Counseling or School Psychology, please refer to their individual program pages.

CSU East Bay offers three concentrations within the M.S. in Counseling. Individuals interested in a M.S. in Counseling degree must enroll in one of the following:

Marriage and Family Therapy Concentration

The primary focus of the concentration is to train psychotherapists who eventually plan to obtain a California Marriage and Family Therapy (MFT) and/or a Licensed Professional Clinical Counselor (LPCC) internship license. Additional units may be taken to meet the requirements for the LPCC and the MFT internship. (See BBS Sections 4980.37, 4980.41 (a)(4)&(5) for MFT and 4999.33 for LPCC.).

These additional LPCC courses lead to completion of the required hours of clinical experience for the license application.

The MFT course work is geared towards a relational approach to counseling that focuses on multicultural diversity, collaborative treatment, wellness, resiliency, and recovery. Faculty orient students to promote resilience and practice strength-based interventions. Course work combined with clinical practicum training in the field prepares graduates to work from a relational perspective.

School Counseling Concentration

The School Counseling concentration is a full-time, two-year course of study. Courses are offered during the day, in the evening, and on weekends.

School Counseling reflects an integration of local program needs, the campus mission, and the direction provided by the National Standards and National Model of the American School Counselor Association (ASCA) and the National Career Development Guidelines (NOICC).

Students acquire the skills to develop curriculum for small-group guidance, conduct individual and group therapy, and provide consultation and leadership in the creation and evaluation of integrated, comprehensive prevention and intervention programs.

School Psychology Concentration

The School Psychology concentration is nationally accredited by the National Association of School Psychologists (NASP).

The philosophy of the School Psychology concentration is to train graduate students in evidenced-based practice to promote social justice and equity to diverse school communities. Social justice is the call to provide all pupils with the support, skills, and services they need to reach their full potential in spite of poverty and other significant challenges. The School Psychology concentration is committed to the academic and social-emotional development of children, families and communities. Thus, we strive to promote a strong professional identity in School Psychology while providing a core of shared learning experiences.

The goals of the concentration are to provide clinical training, instruction, field-based placements, and cohort learning opportunities to promote four levels of trainee development; 1) Foundation for Clinical Practice, 2) Professional Skills and Knowledge, 3) Demonstration of Competency, and 4) Professional Identity. Although each area is introduced at different points of the program, levels of development and knowledge based content are continuously revisited and integrated into group and individual discussion and reflection. In addition, coursework continues to build as trainees demonstrate competence in service delivery.

Career Opportunities

Marriage and Family Therapy (MFT)

The MFT concentration prepares graduate students for clinical work in a wide variety of settings, such as community mental health based and county agencies, schools and universities, hospitals, business and industry, and private practice.

Graduates have been hired in a wide range of agencies and businesses. Some are counselors in junior colleges and college counseling settings, Others are drug and alcohol abuse counselors in hospitals, family therapists on-site in schools, advocates for the mentally ill, therapists working with chronically ill and they elderly, child therapists in therapeutic nursery schools, assessment counselors, information and referral clinicians in employment assistance programs, individual and family therapists for police departments, grief counselors, organizational development specialists, and human resource professionals in business and industry.

School Counseling

Graduates of the MS in Counseling with a concentration in School Counseling often work in community agencies. Other graduates have been hired in agencies and businesses and other diverse settings, such as counselors in junior colleges, colleges, drug and alcohol abuse counselors in hospitals, and as advocates for mentally ill persons. Additional courses taken for the Pupil Personnel Services (PPS) Credential required by the California Commission on Teacher Credentialing (CTC) and coursework required by the Board of Behavioral Sciences (BBS) may lead to positions providing mental health services and guidance support for students in K-12 schools, careers as child therapists in therapeutic nursery schools, assessment counselors, information and referral clinicians in employee assistance programs, individual and family therapists for police departments, organizational development specialists, and human resource professionals. Some graduates have pursued doctoral-level work in clinical and counseling psychology or education after completing their master's degree in this program.

School Psychology

The M.S. Counseling, School Psychology concentration prepares graduates for careers as educational interventionists and counselors in hospitals and mental health organizations. According to the US News and World Report's on-line career review, it is a top social service prospect for the future. Additional courses taken for the Pupil Personnel Services (PPS) Credential required by the California Commission on Teacher Credentialing (CTC and coursework required by the Board of Behavioral Sciences (BBS) may lead to leadership positions in culturally and linguistically diverse K-12 schools. The additional PPS specialization courses also prepare graduates to make a difference in their communities through providing mental health services and advocacy.

M.S. in Counseling Admission Requirements

- Bachelor's degree from an accredited university
- Cumulative undergraduate GPA of 3.0
- University application (submitted via CSU online application)
- Department application
- Personal Statement
- Writing sample
- Three letters of reference
- Graduate Record Examination (GRE)
- Prerequisites (see curriculum requirements below) are not required for admission, but must be completed prior to start of graduate coursework in the Fall term of admission to the program.

Student Standing and Progress

The MS in Counseling requires demonstration of the following:

- Completion of all coursework toward the degree with a grade of B or higher in each course.
- Completion of the University Writing Skills Test (WST) requirement.

Advancement to Candidacy

- Satisfactory evaluations from field and University supervisors/professors
- Demonstration of ethical and professional program expectations and dispositions program requirements
- Completion of required field-based practicum hours.
- A passing grade on the Praxis test for the School Counseling and School Psychology concentrations.

Program Learning Outcomes

Upon completion of the CSUEB Master of Counseling, graduates will be able to:

1. demonstrate a knowledge of systems theories and be able to successfully apply theories in clinical practice.
2. demonstrate an awareness of diversity and social justice issues, as well as demonstrate competence in working with diverse populations.
3. demonstrate ethical and legal professional practice by identifying and applying ethical and legal standards applied to counseling, assessment, intervention, and consultation.
4. effectively and clearly communicate with all stakeholders.

Counseling Degree Requirements (60-61 units)

Prerequisites or Foundation Requirements

The prerequisites or foundation coursework below (or their equivalents) are required for all students in the M.S. in Counseling program. Please check concentration requirements for additional prerequisites. Prerequisites must be completed before beginning graduate-level coursework. This area may require 0-11 units that are not included in the major units:

- PSYC 381 - Psychopathology *Units: 4*
- PSYC 340 - Developmental Psychology *Units: 4*
- STAT 100 - Elements of Statistics and Probability *Units: 3 ; G.E./G.R. Area: B4*

Required Core Courses

The following 38 units are required for all students:

- EPSY 630 - Law, Ethics and Professional Issues *Units: 3*
- EPSY 631 - Intimate Partner Violence *Units: 1*
- EPSY 632 - Child Abuse Assessment and Reporting *Units: 1*
- EPSY 633 - Substance Abuse *Units: 3*
- EPSY 635 - Pre-Practicum Microcounseling Skills in Relational Practice
Units: 2
- EPSY 636 - Counseling Theories *Units: 3*
- EPSY 637 - Multicultural Counseling *Units: 3*
- EPSY 638 - Psychopathology *Units: 3*
- EPSY 639 - Community Mental Health Counseling *Units: 3*
- EPSY 641 - Child and Youth Psychotherapy *Units: 3*
- EPSY 643 - Family Therapy *Units: 3*
- EPSY 647 - Psychopharmacology *Units: 3*
- EPSY 650 - Group Counseling Theory and Practice *Units: 3*
- EPSY 651 - Research Methods for Evidenced-Based Practice and
Advocacy *Units: 3*
- EPSY 652 - Human Sexuality and Gender *Units: 1*

Concentrations

Choose one (1) of the M.S. in Counseling concentrations for 18 units to complete the degree:

- Counseling, M.S.: Marriage and Family Therapy Concentration
- Counseling, M.S.: School Counseling Concentration
- Counseling, M.S.: School Psychology Concentration

Capstone Requirements

Choose one (1) of the capstone courses below for 4 units according to your concentration:

- EPSY 693A - Project in Marriage and Family Therapy *Units: 4*
- EPSY 693B - Project in School Counseling *Units: 4*
- EPSY 693C - Project in School Psychology *Units: 4*

School Counseling Concentration

Required Courses

The following 18 units are required for the School Counseling concentration:

- EPSY 654 - Career Counseling *Units: 3*
- EPSY 661 - Academic Counseling *Units: 3*
- EPSY 662 - Cognitive Behavior Therapy *Units: 3*
- EPSY 664 - Diverse Needs in School Counseling *Units: 2*
- EPSY 665 - Leadership, Advocacy, and Wellness *Units: 2*
- EPSY 682 - Mental Health Consultation in Schools *Units: 3*
- EPSY 683 - Crisis in Schools and Mental Health Settings *Units: 2*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

CSU East Bay offers three concentrations within the M.S. in Counseling. Individuals interested in a M.S. in Counseling degree must enroll in one of the following:

Marriage and Family Therapy Concentration

The primary focus of the concentration is to train psychotherapists who eventually plan to obtain a California Marriage and Family Therapy (MFT) and/or a Licensed Professional Clinical Counselor (LPCC) internship license. Additional units may be taken to meet the requirements for the LPCC and the MFT internship. (See BBS Sections 4980.37, 4980.41 (a)(4)&(5) for MFT and 4999.33 for LPCC.).

These additional LPCC courses lead to completion of the required hours of clinical experience for the license application.

The MFT course work is geared towards a relational approach to counseling that focuses on multicultural diversity, collaborative treatment, wellness, resiliency, and recovery. Faculty orient students to promote resilience and practice strength-based interventions. Course work combined with clinical practicum training in the field prepares graduates to work from a relational perspective.

School Counseling Concentration

The School Counseling concentration is a full-time, two-year course of study. Courses are offered during the day, in the evening, and on weekends.

School Counseling reflects an integration of local program needs, the campus mission, and the direction provided by the National Standards and National Model of the American School Counselor Association (ASCA) and the National Career Development Guidelines (NOICC).

Students acquire the skills to develop curriculum for small-group guidance, conduct individual and group therapy, and provide consultation and leadership in the creation and evaluation of integrated, comprehensive prevention and intervention programs.

School Psychology Concentration

The School Psychology concentration is nationally accredited by the National Association of School Psychologists (NASP).

The philosophy of the School Psychology concentration is to train graduate students in evidenced-based practice to promote social justice and equity to diverse school communities. Social justice is the call to provide all pupils with the support, skills, and services they need to reach their full potential in spite of poverty and other significant challenges. The School Psychology concentration is committed to the academic and social-emotional development of children, families and communities. Thus, we strive to promote a strong professional identity in School Psychology while providing a core of shared learning experiences.

The goals of the concentration are to provide clinical training, instruction, field-based placements, and cohort learning opportunities to promote four levels of trainee development; 1) Foundation for Clinical Practice, 2) Professional Skills and Knowledge, 3) Demonstration of Competency, and 4) Professional Identity. Although each area is introduced at different points of the program, levels of development and knowledge based content are continuously revisited and integrated into group and individual discussion and reflection. In addition, coursework continues to build as trainees demonstrate competence in service delivery.

Career Opportunities

Marriage and Family Therapy (MFT)

The MFT concentration prepares graduate students for clinical work in a wide variety of settings, such as community mental health based and county agencies, schools and universities, hospitals, business and industry, and private practice.

Graduates have been hired in a wide range of agencies and businesses. Some are counselors in junior colleges and college counseling settings, Others are drug and alcohol abuse counselors in hospitals,

family therapists on-site in schools, advocates for the mentally ill, therapists working with chronically ill and the elderly, child therapists in therapeutic nursery schools, assessment counselors, information and referral clinicians in employment assistance programs, individual and family therapists for police departments, grief counselors, organizational development specialists, and human resource professionals in business and industry.

School Counseling

Graduates of the MS in Counseling with a concentration in School Counseling often work in community agencies. Other graduates have been hired in agencies and businesses and other diverse settings, such as counselors in junior colleges, colleges, drug and alcohol abuse counselors in hospitals, and as advocates for mentally ill persons. Additional courses taken for the Pupil Personnel Services (PPS) Credential required by the California Commission on Teacher Credentialing (CTC) and coursework required by the Board of Behavioral Sciences (BBS) may lead to positions providing mental health services and guidance support for students in K-12 schools, careers as child therapists in therapeutic nursery schools, assessment counselors, information and referral clinicians in employee assistance programs, individual and family therapists for police departments, organizational development specialists, and human resource professionals. Some graduates have pursued doctoral-level work in clinical and counseling psychology or education after completing their master's degree in this program.

School Psychology

The M.S. Counseling, School Psychology concentration prepares graduates for careers as educational interventionists and counselors in hospitals and mental health organizations. According to the US News and World Report's on-line career review, it is a top social service prospect for the future. Additional courses taken for the Pupil Personnel Services (PPS) Credential required by the California Commission on Teacher Credentialing (CTC) and coursework required by the Board of Behavioral Sciences (BBS) may lead to leadership positions in culturally and linguistically diverse K-12 schools. The additional PPS specialization courses also prepare graduates to make a difference in their communities through providing mental health services and advocacy.

M.S. in Counseling Admission Requirements

- Bachelor's degree from an accredited university
- Cumulative undergraduate GPA of 3.0
- University application (submitted via CSU online application)
- Department application
- Personal Statement
- Writing sample
- Three letters of reference
- Graduate Record Examination (GRE)
- Prerequisites (see curriculum requirements below) are not required for admission, but must be completed prior to start of graduate coursework in the Fall term of admission to the program.

Student Standing and Progress

The MS in Counseling requires demonstration of the following:

- Completion of all coursework toward the degree with a grade of B or higher in each course.
- Completion of the University Writing Skills Test (WST) requirement.

Advancement to Candidacy

- Satisfactory evaluations from field and University supervisors/professors
- Demonstration of ethical and professional program expectations and dispositions program requirements
- Completion of required field-based practicum hours.
- A passing grade on the Praxis test for the School Counseling and School Psychology concentrations.

Program Learning Outcomes

Upon completion of the CSUEB Master of Counseling, graduates will be able to:

1. demonstrate a knowledge of systems theories and be able to successfully apply theories in clinical practice.
2. demonstrate an awareness of diversity and social justice issues, as well as demonstrate competence in working with diverse populations.
3. demonstrate ethical and legal professional practice by identifying and applying ethical and legal standards applied to counseling, assessment, intervention, and consultation.
4. effectively and clearly communicate with all stakeholders.

Counseling Degree Requirements (60-61 units)

Prerequisites or Foundation Requirements

The prerequisites or foundation coursework below (or their equivalents) are required for all students in the M.S. in Counseling program. Please check concentration requirements for additional prerequisites. Prerequisites must be completed before beginning graduate-level coursework. This area may require 0-11 units that are not included in the major units:

- PSYC 381 - Psychopathology *Units: 4*
- PSYC 340 - Developmental Psychology *Units: 4*
- STAT 100 - Elements of Statistics and Probability *Units: 3 ; G.E./G.R. Area: B4*

Required Core Courses

The following 38 units are required for all students:

- EPSY 630 - Law, Ethics and Professional Issues *Units: 3*
- EPSY 631 - Intimate Partner Violence *Units: 1*
- EPSY 632 - Child Abuse Assessment and Reporting *Units: 1*
- EPSY 633 - Substance Abuse *Units: 3*
- EPSY 635 - Pre-Practicum Microcounseling Skills in Relational Practice
Units: 2
- EPSY 636 - Counseling Theories *Units: 3*
- EPSY 637 - Multicultural Counseling *Units: 3*
- EPSY 638 - Psychopathology *Units: 3*

- EPSY 639 - Community Mental Health Counseling *Units: 3*
- EPSY 641 - Child and Youth Psychotherapy *Units: 3*
- EPSY 643 - Family Therapy *Units: 3*
- EPSY 647 - Psychopharmacology *Units: 3*
- EPSY 650 - Group Counseling Theory and Practice *Units: 3*
- EPSY 651 - Research Methods for Evidenced-Based Practice and Advocacy *Units: 3*
- EPSY 652 - Human Sexuality and Gender *Units: 1*

Concentrations

Choose one (1) of the M.S. in Counseling concentrations for 18 units to complete the degree:

- Counseling, M.S.: Marriage and Family Therapy Concentration
- Counseling, M.S.: School Counseling Concentration
- Counseling, M.S.: School Psychology Concentration

Capstone Requirements

Choose one (1) of the capstone courses below for 4 units according to your concentration:

- EPSY 693A - Project in Marriage and Family Therapy *Units: 4*
- EPSY 693B - Project in School Counseling *Units: 4*
- EPSY 693C - Project in School Psychology *Units: 4*

School Psychology Concentration

Prerequisites

The 0-8 prerequisite units are not included in the unit count for the concentration in School Psychology.

- PSYC 370 - Psychological Measurement *Units: 4*
- PSYC 412 - Learning Theory *Units: 4*

Required Courses

The following 18 units are required for the School Psychology concentration:

- EPSY 662 - Cognitive Behavior Therapy *Units: 3*
- EPSY 663 - Psychoeducational Report Writing *Units: 3*
- EPSY 666 - Psychological Services in School Psychology *Units: 1*
- EPSY 672 - Cognitive and Developmental Assessment *Units: 5*
- EPSY 673 - Assessment of English Language Learners *Units: 1*
- EPSY 682 - Mental Health Consultation in Schools *Units: 3*
- EPSY 683 - Crisis in Schools and Mental Health Settings *Units: 2*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Special Education, M.S.: Mild/Moderate Disabilities Concentration

Special Education M.S. Program

Program Description

The Master of Science in Special Education, with either a Concentration in Mild/Moderate Disabilities or Moderate/Severe Disabilities, is offered as a stand-alone degree program or completed with the Education Specialist teaching credential in Mild/Moderate Disabilities or Moderate/Severe Disabilities. The two-year, 4-semester master's degree program overlaps significantly with the Education Specialist credentials. The Master of Science in Special Education recognizes that all candidates should be grounded in research and to know its direct applicability to the populations of individuals with disabilities. Evidence-based practices for diverse learners in inclusive school and community settings are the backbone of the program to ensure that all individuals may have access to, participate within, and learn across all environments. The master's degree develops and facilitates both teacher leadership among its graduates and related leadership roles in the field.

Education Specialist Credential in Moderate/Severe Disabilities

Education Specialist Credential in Mild/Moderate Disabilities

Career Opportunities

The Master of Science in Special Education prepares graduates for careers in teaching and leadership roles in the field of Special Education at local and state levels and within professional organizations and communities. Careers may include teachers and specialists, program supervisors, administrators, advocates and leadership faculty in special, inclusive and general education, and student support and advocacy.

Admission Requirements

Admission requirements for Master's Degree without earning an Education Specialist Credential:

- Bachelor's degree from accredited university
- Statement of Purpose
- Department Application
- University Application^[SEP]
- Cumulative undergraduate GPA of 3.0
- GRE or ACT if no teaching credential entry assessment data (i.e., the California Subject Examination for Teachers, or CSET)

Student Standing and Progress

1. Completion of courses with a grade of B or higher

2. Completion of the Writing Skills Test (WST)

Program Learning Outcomes

- Think critically and creatively and apply analytical and quantitative reasoning to address complex challenges and everyday problems regarding strategies to achieve equitable social emotional, learning, social emotional outcomes for students and the support for their families, care givers develop systems for success.
- Communicate ideas, perspectives, and values clearly and persuasively while listening openly to others within school, community, university and professional areas.
- Apply knowledge of diversity and multicultural competencies to promote equity and social justice in our communities in which individuals are treated with respect, dignity, trust and fairness.
- Work collaboratively and respectfully as members and leaders of diverse teams and communities to achieve equitable environments and learning outcomes
- Act responsibly and sustainably at local, national, and global levels through the demonstration of pedagogical content knowledge and skills as defined by professional organizations and government agencies.
- Demonstrate expertise and integration of ideas, methods, theory and practice in Education with an emphasis in Special Education aligned with professional standards, research based designs and best practices

Special Education M.S. Requirements (35 units)

Prerequisites

The 4-unit prerequisite is not included in the Master's total.

- **SPED 500 - Educating All Learners in Diverse Classrooms** *Units: 4*

Core Courses

The following 16 units of core coursework is required:

- **SPED 603 - Teaming, Collaborative Educational Processes and Transition Services** *Units: 4*
- **SPED 604 - Individual and School-Wide Behavioral Needs, Mental Health & Positive Supports** *Units: 4*
- **SPED 605 - Communication and Technology** *Units: 4*
- **SPED 610 - Research and Professional Practices** *Units: 4*

Concentrations

SPED M.S. students are required to fulfill a concentration for 15 units to earn the degree:

- Special Education, M.S.: Mild/Moderate Disabilities Concentration
- Special Education, M.S.: Moderate/Severe Disabilities Concentration

Capstone Requirement

The following capstone course is required to complete the degree:

- **SPED 693 - Capstone Research Project** *Units: 4*

Mild-Moderate Disabilities Concentration

The following 15 units are required for the concentration:

- **SPED 601 - Educational Practices: Mild/Moderate Disabilities** *Units: 4*
- **SPED 606 - Assessment: Students with Mild/Moderate Disabilities** *Units: 4*
- **SPED 607 - Curriculum and Instruction: Students with Mild/Moderate Disabilities** *Units: 4*
- **SPED 611 - Fieldwork I: Mild/Moderate Disabilities** *Units: 3*

Department Statement

The Department of English offers its diverse student population a rich array of courses in literature, language, creative writing, and composition. The department attempts to foster in its students an understanding and appreciation of 1) the major works of British and American literature, including works by and about ethnic and cultural minorities and women, 2) the history and structure of the English language in all its variety, and 3) the aims and processes of writing, both creative and critical. In all its courses, the department attempts to help its students develop the advanced skills in reading, writing, and critical thinking necessary for successful careers in teaching, publishing, law, administration, and business.

Bachelor

English, B.A.: British and American Literature Concentration

English, B.A. Program (120 units)

Program Description

The university offers the B.A. degree in English with three distinct concentrations: literature, creative writing, and English language and literacies. The student seeking a degree must observe the general university requirements stated elsewhere in this catalog as well as the specific departmental requirements stated here.

Program Learning Outcomes

Students graduating with a B.A. in English from Cal State East Bay will be able to:

- analyze and interpret literary genres represented by a range of texts;
- write in clear and cogent prose;
- demonstrate knowledge of key English language texts, including multicultural works;
- use critical theory to examine literary texts;
- conduct research relevant to the discipline of English studies and analyze connections among literary works and social issues.

Career Opportunities

Advertising Copy Writer • Author/Critic • Bookstore Manager • Continuity Writer • Corporate Communications Director • Foreign Service Office • Freelance Journalist/Writer • Greeting Card Editor/Writer • Lawyer • Librarian • Media Specialist • Newspaper Reporter • Public Information Officer • Publication Editor • Publicity Director • Publishing Agent • Radio/TV Agent • Script Writer • Teacher/Professor • Writer

Degree Requirements

- The B.A. degree requires a total of 120 units.
 - The major consists of 52 units (students must complete with a grade point average of 3.0 or better);
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free electives may consist of 11 units (actual number of free elective units may depend on GE/GR units).

Note: It may be possible to double count units within the graduation requirement. It may also be possible that a course satisfies both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

English Major Requirements (52 units)

Lower Division Core

The following 12 units are required:

- ENGL 204 - Writing About Literature Units: 4 ; G.E./G.R. Area: C2
- Take one (1) additional lower- or upper-division English major elective course for 4 units.

Choose one (1) course in creative writing for 4 units:

- ENGL 205 - Beginning Workshop in Fiction *Units: 4 ; G.E./G.R. Area: C1*
- ENGL 206 - Beginning Workshop in Poetry *Units: 4 ; G.E./G.R. Area: C1*

Upper-Division Core

The following 12 units are required:

Choose one (1) course in writing or theory for 4 units:

- ENGL 303 - Advanced Expository Writing *Units: 4*
- ENGL 304 - Introduction to Technical and Professional Writing *Units: 4*
- ENGL 307 - Intermediate Workshop in Creative Nonfiction *Units: 4*
- ENGL 340 - Critical Theory of Literature *Units: 4*

Choose one (1) course in linguistics for 4 units:

- ENGL 350 - Study of Language *Units: 4*
- ENGL 351 - Modern English Grammar *Units: 4*

Choose one (1) course in Shakespeare for 4 units:

- ENGL 411 - Shakespeare I *Units: 4 ; G.E./G.R. Area: C4*
- ENGL 412 - Shakespeare II *Units: 4 ; G.E./G.R. Area: C4*

Concentrations

The Department of English offers three concentrations for degree candidates. Students must choose one (1) of the following concentrations for 24 units as a major requirement:

- English, B.A.: British and American Literature Concentration
- English, B.A.: Creative Writing Concentration
- English, B.A.: English Language and Literacies Concentration

Senior Capstone Requirement

The following senior capstone for 4 units is required to complete the major:

- ENGL 499 - Senior Seminar *Units: 4*

British and American Literature Concentration

English majors with a concentration in British and American literature must complete six (6) additional courses for 24 units as described below:

- ENGL 340 - Critical Theory of Literature *Units: 4*
- One course in American literature before 1900 (4 units)
- One course in British literature before 1900 (4 units)
- One course in British or American literature after 1900 (4 units)
- One course in ethnic or global literature (4 units)
- One upper-division elective in English (4 units)

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

English, B.A.: Creative Writing Concentration

English, B.A. Program (120 units)

Program Description

The university offers the B.A. degree in English with three distinct concentrations: literature, creative writing, and English language and literacies. The student seeking a degree must observe the general university requirements stated elsewhere in this catalog as well as the specific departmental requirements stated here.

Program Learning Outcomes

Students graduating with a B.A. in English from Cal State East Bay will be able to:

- analyze and interpret literary genres represented by a range of texts;
- write in clear and cogent prose;
- demonstrate knowledge of key English language texts, including multicultural works;
- use critical theory to examine literary texts;
- conduct research relevant to the discipline of English studies and analyze connections among literary works and social issues.

Career Opportunities

Advertising Copy Writer • Author/Critic • Bookstore Manager • Continuity Writer • Corporate Communications Director • Foreign Service Office • Freelance Journalist/Writer • Greeting Card Editor/Writer • Lawyer • Librarian • Media Specialist • Newspaper Reporter • Public Information Officer • Publication Editor • Publicity Director • Publishing Agent • Radio/TV Agent • Script Writer • Teacher/Professor • Writer

Degree Requirements

- The B.A. degree requires a total of 120 units.
- The major consists of 52 units (students must complete with a grade point average of 3.0 or better);
- General Education (GE) & Graduation Requirements (GR) consists of 57 units;
- Free electives may consist of 11 units (actual number of free elective units may depend on GE/GR units).

Note: It may be possible to double count units within the graduation requirement. It may also be possible that a course satisfies both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

English Major Requirements (52 units)

Lower Division Core

The following 12 units are required:

- ENGL 204 - Writing About Literature Units: 4 ; G.E./G.R. Area: C2
- Take one (1) additional lower- or upper-division English major elective course for 4 units.

Choose one (1) course in creative writing for 4 units:

- ENGL 205 - Beginning Workshop in Fiction Units: 4 ; G.E./G.R. Area: C1
- ENGL 206 - Beginning Workshop in Poetry Units: 4 ; G.E./G.R. Area: C1

Upper-Division Core

The following 12 units are required:

Choose one (1) course in writing or theory for 4 units:

- ENGL 303 - Advanced Expository Writing Units: 4
- ENGL 304 - Introduction to Technical and Professional Writing Units: 4
- ENGL 307 - Intermediate Workshop in Creative Nonfiction Units: 4
- ENGL 340 - Critical Theory of Literature Units: 4

Choose one (1) course in linguistics for 4 units:

- ENGL 350 - Study of Language Units: 4
- ENGL 351 - Modern English Grammar Units: 4

Choose one (1) course in Shakespeare for 4 units:

- ENGL 411 - Shakespeare I Units: 4 ; G.E./G.R. Area: C4
- ENGL 412 - Shakespeare II Units: 4 ; G.E./G.R. Area: C4

Concentrations

The Department of English offers three concentrations for degree candidates. Students must choose one (1) of the following concentrations for 24 units as a major requirement:

- English, B.A.: British and American Literature Concentration
- English, B.A.: Creative Writing Concentration
- English, B.A.: English Language and Literacies Concentration

Senior Capstone Requirement

The following senior capstone for 4 units is required to complete the major:

- ENGL 499 - Senior Seminar *Units: 4*

Creative Writing Concentration

English majors with a concentration in creative writing must complete six (6) additional courses for 24 units as described below:

One (1) beginning workshop for 4 units, whichever course was not taken in the core curriculum:

- ENGL 205 - Beginning Workshop in Fiction *Units: 4 ; G.E./G.R. Area: C1*
- ENGL 206 - Beginning Workshop in Poetry *Units: 4 ; G.E./G.R. Area: C1*

One (1) intermediate or advanced workshop course for 4 units:

ENGL 305 Intermediate Workshop in Fiction

ENGL 406 Advanced Workshop in Poetry

Take an additional two (2) workshop courses for 8 units:

Note: ENGL 305, 405 & 406 may be taken a second time for a total of 8 units for this section only

- ENGL 305 - Intermediate Workshop in Fiction *Units: 4*
- ENGL 307 - Intermediate Workshop in Creative Nonfiction *Units: 4*
- ENGL 405 - Advanced Workshop in Fiction *Units: 4*
- ENGL 406 - Advanced Workshop in Poetry *Units: 4*

Take two elective courses for an additional 8 units: one (1) upper division course in 20th or 21st century literature and one (1) elective, from the following English Course Types:

- American/Global Literature
- American Literature
- British Literature (except ENGL 309)
- Foundation (ENGL 204 only)
- Global Literature (except ENGL 330, 342, 343, 446)
- Language/Grammar (except ENGL 354, 450, 451)
- Literary Theory
- World Literature

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- ENGL 305 - Intermediate Workshop in Fiction *Units: 4*
- ENGL 307 - Intermediate Workshop in Creative Nonfiction *Units: 4*
- ENGL 405 - Advanced Workshop in Fiction *Units: 4*
- ENGL 406 - Advanced Workshop in Poetry *Units: 4*

English, B.A.: English Language and Literacies Concentration

English, B.A. Program (120 units)

Program Description

The university offers the B.A. degree in English with three distinct concentrations: literature, creative writing, and English language and literacies. The student seeking a degree must observe the general university requirements stated elsewhere in this catalog as well as the specific departmental requirements stated here.

Program Learning Outcomes

Students graduating with a B.A. in English from Cal State East Bay will be able to:

- analyze and interpret literary genres represented by a range of texts;
- write in clear and cogent prose;
- demonstrate knowledge of key English language texts, including multicultural works;
- use critical theory to examine literary texts;
- conduct research relevant to the discipline of English studies and analyze connections among literary works and social issues.

Career Opportunities

Advertising Copy Writer • Author/Critic • Bookstore Manager • Continuity Writer • Corporate Communications Director • Foreign Service Office • Freelance Journalist/Writer • Greeting Card Editor/Writer • Lawyer • Librarian • Media Specialist • Newspaper Reporter • Public Information Officer • Publication Editor • Publicity Director • Publishing Agent • Radio/TV Agent • Script Writer • Teacher/Professor • Writer

Degree Requirements

- The B.A. degree requires a total of 120 units.
- The major consists of 52 units (students must complete with a grade point average of 3.0 or better);
- General Education (GE) & Graduation Requirements (GR) consists of 57 units;
- Free electives may consist of 11 units (actual number of free elective units may depend on GE/GR units).

Note: It may be possible to double count units within the graduation requirement. It may also be possible that a course satisfies both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

English Major Requirements (52 units)

Lower Division Core

The following 12 units are required:

- ENGL 204 - Writing About Literature Units: 4 ; G.E./G.R. Area: C2
- Take one (1) additional lower- or upper-division English major elective course for 4 units.

Choose one (1) course in creative writing for 4 units:

- ENGL 205 - Beginning Workshop in Fiction Units: 4 ; G.E./G.R. Area: C1
- ENGL 206 - Beginning Workshop in Poetry Units: 4 ; G.E./G.R. Area: C1

Upper-Division Core

The following 12 units are required:

Choose one (1) course in writing or theory for 4 units:

- ENGL 303 - Advanced Expository Writing *Units: 4*
- ENGL 304 - Introduction to Technical and Professional Writing *Units: 4*
- ENGL 307 - Intermediate Workshop in Creative Nonfiction *Units: 4*
- ENGL 340 - Critical Theory of Literature *Units: 4*

Choose one (1) course in linguistics for 4 units:

- ENGL 350 - Study of Language *Units: 4*
- ENGL 351 - Modern English Grammar *Units: 4*

Choose one (1) course in Shakespeare for 4 units:

- ENGL 411 - Shakespeare I *Units: 4 ; G.E./G.R. Area: C4*
- ENGL 412 - Shakespeare II *Units: 4 ; G.E./G.R. Area: C4*

Concentrations

The Department of English offers three concentrations for degree candidates. Students must choose one (1) of the following concentrations for 24 units as a major requirement:

- English, B.A.: British and American Literature Concentration
- English, B.A.: Creative Writing Concentration
- English, B.A.: English Language and Literacies Concentration

Senior Capstone Requirement

The following senior capstone for 4 units is required to complete the major:

- ENGL 499 - Senior Seminar *Units: 4*

English Language and Literacies Concentration

English majors with a concentration in English language and literacies must complete six (6) additional courses for 24 units as described below:

The following 8 units are required:

- ENGL 340 - Critical Theory of Literature *Units: 4*

One (1) foundational course in linguistics, whichever course was not taken in the core curriculum:

- ENGL 350 - Study of Language *Units: 4*
- ENGL 351 - Modern English Grammar *Units: 4*

Two (2) additional linguistics courses for 8 units:

- ENGL 352 - Introduction to Phonology *Units: 4*
- ENGL 353 - Linguistic History of the English Language *Units: 4*
- ENGL 355 - Language and Gender *Units: 4*
- ENGL 450 - Current Theories in Formal Grammar *Units: 4*
- ENGL 451 - Language in the U.S.A. *Units: 4*
- ENGL 460 - Seminar in English Education *Units: 4*
- ENGL 497 - Topics in the Study of the English Language *Units: 4*

One (1) course for 4 units in children's literature, young adult literature, or film:

- ENGL 345 - Comics and Graphic Novels *Units: 4 ; G.E./G.R. Area: C4*
- ENGL 447 - Film Criticism *Units: 4*
- ENGL 462 - Children's Literature before 1900 *Units: 4*
- ENGL 463 - Children's Literature after 1900 *Units: 4*

One (1) additional literature elective for 4 units.

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- ENGL 405 - Advanced Workshop in Fiction *Units: 4*
- ENGL 406 - Advanced Workshop in Poetry *Units: 4*

Master

English, M.A.

English, M.A. Program

Program Description

The university offers the Master of Arts degree in English. Although there is no separate degree offered in creative writing, it is possible to satisfy the thesis option for the M.A. in English by work in fiction, poetry, or drama. Students seeking a degree must observe the general university requirements stated elsewhere in this catalog as well as the specific departmental requirements stated here. (Note: The M.A. TESOL program is a separate M.A. program.)

Program Learning Outcomes

Students graduating with an M.A. in English from Cal State East Bay will be able to:

1. analyze and interpret various kinds of diverse texts in clear and cogent prose;
2. discuss diverse theoretical perspectives about literature, pedagogy, or linguistics;

3. demonstrate facility with conducting research in traditional/nontraditional ways, including print and electronic library research and data analysis;
4. demonstrate the ability to learn collaboratively and independently.

Admission for the M.A. in English (Literature, Composition, Creative Writing)

To apply for admission to the Master of Arts program in English, students must complete the online university application at CALSTATE Apply. Please contact the Graduate Coordinator for details on additional materials to be sent directly to the English Department. The Office of Graduate Admissions will then send the application to the English Department where it will be accepted or rejected.

To be admitted to the M.A. program in English, applicants must:

1. hold the B.A. degree from an accredited college or university, with a major in English, and
2. have an undergraduate GPA in English courses of at least 3.0.

If applicants cannot comply with these requirements, they may petition the department by letter for special consideration.

Upon admittance to the graduate program in English, students should immediately arrange through the English Department Office to consult a graduate adviser on selecting courses.

"Classified Graduate" Status and Advancement to Candidacy

Students are normally admitted to the program in English as a "Conditionally Classified Graduate" student. One condition to their being a "Classified Graduate" is that they pass ENGL 600 with a grade of "A" or "B". Another is that students must satisfy the University Writing Skills Requirement. There may be other conditions to the "Classified Graduate" status if they have been admitted to the program with deficiencies; students should consult with a graduate adviser to determine whether this is the case. After all conditions have been met, students will be granted "Classified Graduate" status as a graduate student in English. To Advance to Candidacy for the M.A. in English, students must complete 20 semester-units of graduate coursework (including ENGL 600) acceptable for the M.A. For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing.

Applying for Graduation

Students must apply formally to graduate with a master's degree, by submitting a "Candidate for Degree" application by the filing deadlines (March 1 for Summer/Fall graduation or October 1 for Spring graduation).

English Degree Requirements (32 units)

Degree Requirements

Students must complete, with a grade point average of 3.0 or better, 32 semester-units of credit approved by a graduate adviser.

Required Course

The following one (1) course for 4 units is required:

- ENGL 600 - Introduction to Graduate Studies *Units: 4*

Elective Courses

Choose 24 units of electives from the following two groups as outlined:

American and British Literature

Three (3) 600-level literature courses for 12 units in both American and British literature are required, one of which must be before 1900, from among the following:

- ENGL 610 - Medieval Literature *Units: 4*
- ENGL 611 - Renaissance Literature *Units: 4*
- ENGL 612 - Restoration and 18th-Century British Literature *Units: 4*
- ENGL 613 - 19th-Century British Literature *Units: 4*
- ENGL 614 - 20th Century British Literature *Units: 4*
- ENGL 620 - American Literature to 1900 *Units: 4*
- ENGL 621 - African-American Literature *Units: 4*
- ENGL 622 - 20th Century American Literature *Units: 4*
- ENGL 623 - Ethnic American Literature *Units: 4*
- ENGL 630 - Women's Literature *Units: 4*
- ENGL 631 - Post-Colonial Literature *Units: 4*
- ENGL 632 - Children's Literature *Units: 4*
- ENGL 633 - Environmental Literature *Units: 4*
- ENGL 640 - Studies in Literary Nonfiction *Units: 4*
- ENGL 641 - Studies in Poetry and Poetics *Units: 4*

Creative Writing, Literature, Linguistics, or Pedagogy

Three (3) 600-level courses for 12 units in literature, creative writing, pedagogy, or linguistics are required from among the following:

- ENGL 601 - The Literary Magazine *Units: 4*
- ENGL 602 - Graduate Workshop in Fiction *Units: 4*
- ENGL 603 - Graduate Workshop in Poetry *Units: 4*
- ENGL 610 - Medieval Literature *Units: 4*
- ENGL 611 - Renaissance Literature *Units: 4*
- ENGL 612 - Restoration and 18th-Century British Literature *Units: 4*
- ENGL 613 - 19th-Century British Literature *Units: 4*
- ENGL 614 - 20th Century British Literature *Units: 4*
- ENGL 620 - American Literature to 1900 *Units: 4*
- ENGL 621 - African-American Literature *Units: 4*
- ENGL 622 - 20th Century American Literature *Units: 4*
- ENGL 623 - Ethnic American Literature *Units: 4*

- ENGL 630 - Women's Literature *Units: 4*
- ENGL 631 - Post-Colonial Literature *Units: 4*

- ENGL 641 - Studies in Poetry and Poetics *Units: 4*
- ENGL 652 - Phonology, Morphology and Lexical Semantics *Units: 4*
- ENGL 653 - Theory and Practice of Teaching Reading to Adults *Units: 2*
- ENGL 661 - Theory and Practice of Teaching Literature *Units: 4*

Capstone Requirement

Students must select one (1) of the capstone experiences for 4 units to complete the program requirements:

University Thesis Experience

Students may petition to write a critical or creative thesis. Students who elect to submit a thesis must comply with the thesis instructions of the Department of English as well as those in the University Thesis Writing Guide available online at: www.csueastbay.edu/thesiswritingguide. Thesis proposals must be approved by two regular members of the English faculty, one as "director" and one as "second reader," before a thesis can be undertaken. Faculty members are not obliged to accept thesis proposals or to direct theses.

For those who elect to submit an approved thesis, ONE (1) exit examination in the following areas is additionally required:

- an historical period of British literature
- an historical period of American literature
- in composition studies
- ENGL 691 - University Thesis *Units: 4*

Comprehensive Exams Experience

For those who do not elect to submit an approved thesis, TWO (2) exit examinations in the following areas are required:

- an historical period of British literature
- an historical period of American literature
- in composition studies

Plus the student must take 4 units of coursework. Students should consult a graduate adviser for details.

- ENGL 690 - Independent Study *Units: 1-4 (4 units required) OR*
- A 400-level or 600-level course elective in the English department for 4 units.

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Teaching English to Speakers of Other Languages, M.A.

Teaching English to Speakers of Other Languages, M.A. Program

Program Description

CSUEB's M.A. TESOL program provides students with a strong generalist preparation to work with adult English learners while still allowing students to explore particular specialties, such as general linguistics or composition studies. The program is organized around a cohort model which helps to create a strong sense of connection between classmates. There are eight required classes (28 units) as well as a departmental thesis (2 units). Most students complete the program in two academic years.

Career Opportunities

- Teach ESOL at community colleges and adult schools
- Teach composition to bilingual students at four-year colleges and universities
- Teach in intensive English programs
- Teach workplace English in the private sector
- Teach English as a foreign language anywhere in the world
- Prepare for Ph.D. study in English studies, linguistics, or education
- Work in a variety of jobs for ESOL textbook publishers
- Develop ESOL materials
- Start a tutoring business

Admission Requirements

To be admitted to the M.A. in Teaching English to Speakers of Other Languages (TESOL), students must hold a baccalaureate degree in any field with a 3.0 overall GPA, and have completed the prerequisite courses or their equivalents.

Student Standing and Progress Toward the Degree

Students are normally admitted to the M.A. TESOL as "Conditionally Classified Graduate" students. Once students have completed any outstanding prerequisite courses and have passed the Writing Skills Test, they may apply for "Classified Graduate" status. In order to advance to candidacy, students must have completed 18 units of graduate-level coursework with grades of "B" and higher.

Program Learning Outcomes

Students graduating with an M.A. TESOL from Cal State East Bay will be able to:

1. communicate effectively in the profession both orally and in writing;
2. apply information literacy principles in their work as TESOL professionals;
3. draw on knowledge of language ability to shape their instructional choices;
4. use pedagogical content knowledge appropriate for a particular group of language learners;
5. integrate principles of diversity and inclusiveness in their classrooms;
6. select life-long learning strategies to stay current in the profession.

TESOL Degree Requirements (30 units)

Prerequisites

The following prerequisite courses or their equivalents for 0-8 units are to be completed prior to taking the major coursework:

- ENGL 350 - Study of Language *Units: 4*
- ENGL 351 - Modern English Grammar *Units: 4*

Core Courses

All 28 units of the following courses are required:

- ENGL 651 - Theory and Practice of Teaching Oral Skills to Adults *Units: 4*
- ENGL 652 - Phonology, Morphology and Lexical Semantics *Units: 4*
- ENGL 653 - Theory and Practice of Teaching Reading to Adults *Units: 2*
- ENGL 654 - Supervised Tutoring and Teaching *Units: 2*
- ENGL 655 - Multilingualism and Second Language Acquisition *Units: 4*
- ENGL 656 - Pedagogical Grammar *Units: 4*
- ENGL 657 - Curriculum Design and Assessment in ESOL for Adult Learners *Units: 4*
- ENGL 660 - Introduction to Composition Studies Theory and Methods *Units: 4*

Capstone Requirement

The following capstone course for 2 units is required to complete the major requirements:

- ENGL 699 - Departmental Thesis *Units: 2-4*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C"

minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

- ENGL 406 - Advanced Workshop in Poetry *Units: 4*

Minor

Creative Writing Minor

Minor Requirements (22-24 units)

The creative writing minor requires 22-24 units in creative writing and literature.

Lower Division Courses

The following courses are required (6-8 units). See note below about unit requirements.

- ENGL 205 - Beginning Workshop in Fiction *Units: 4 ; G.E./G.R. Area: C1*
- ENGL 206 - Beginning Workshop in Poetry *Units: 4 ; G.E./G.R. Area: C1*

Note: Students who have transferred the satisfactorily-completed, lower-division requirements can meet this requirement with six (6) units.

Upper Division Courses

An additional 16 units are required as described below:

- Take one (1) upper-division course in literature for 4 units
- In addition, choose three (3) upper-division courses in creative writing from the list below for 12 units:
- ENGL 305 - Intermediate Workshop in Fiction *Units: 4*
 - ENGL 307 - Intermediate Workshop in Creative Nonfiction *Units: 4*
 - ENGL 405 - Advanced Workshop in Fiction *Units: 4*
 - ENGL 406 - Advanced Workshop in Poetry *Units: 4*

English Minor

Minor Requirements (24 units)

English Coursework

Students minoring in English must take 20 units of English courses. A maximum of 9 of these units may be in lower-division courses. The following courses are excluded and may not be used in the minor:

ENGL 100-level courses, ENGL 200, ENGL 201, ENGL 300, ENGL 301, ENGL 302.

Writing Coursework

Students minoring in English must take at least one (1) course in writing for 4 units from the list below:

- ENGL 204 - Writing About Literature *Units: 4 ; G.E./G.R. Area: C2*
- ENGL 205 - Beginning Workshop in Fiction *Units: 4 ; G.E./G.R. Area: C1*
- ENGL 206 - Beginning Workshop in Poetry *Units: 4 ; G.E./G.R. Area: C1*
- ENGL 303 - Advanced Expository Writing *Units: 4*
- ENGL 304 - Introduction to Technical and Professional Writing *Units: 4*
- ENGL 305 - Intermediate Workshop in Fiction *Units: 4*
- ENGL 307 - Intermediate Workshop in Creative Nonfiction *Units: 4*
- ENGL 405 - Advanced Workshop in Fiction *Units: 4*
- ENGL 406 - Advanced Workshop in Poetry *Units: 4*

Professors

Nicholas Baham, III, Ph.D. Indiana University, Bloomington

Luz Calvo, Ph.D. University of California, Santa Cruz

Enrique Salmon, Ph.D. Arizona State University

Carlos Salomon (Chair), Ph.D. University of New Mexico

Assistant Professor

Anndretta Wilson, Ph.D. University of California, Los Angeles

Director: Carlos Salomon

Mission Statement

The mission of the Department of Ethnic Studies is to provide an academically rigorous program that substantively contributes to the University's public commitment to provide a multicultural learning

experience. Our comparative and interdisciplinary program covers five core areas: African American Studies; American Indian Studies; Asian American Studies; Latino/a and Latin American Studies; and Gender/Sexualities in Communities of Color. In our courses, we teach students to analyze social relations of race, class, gender, and sexuality; develop nuanced understandings of social justice; and act as socially responsible global citizens.

Bachelor

Ethnic Studies, B.A.: American Indian Studies Concentration

Ethnic Studies, B.A. Program (120 units)

Program Description

Ethnic Studies offers an interdisciplinary major, providing a comparative approach to the study of people of color in the United States. Our Ethnic Studies curriculum has a strong social justice focus. Through a systematic study of the cultures, histories, and social realities of communities of color in the US, our students finish our program prepared to work effectively in multiracial, multiethnic, multigender communities.

The Ethnic Studies major consists of 36 units. Our major provides students with considerable flexibility, allowing them to specialize in one group, while also gaining in-depth knowledge and expertise in the range of histories, cultures, and social realities of communities of color. Students work closely with their academic advisor to put together a program that suits their goals and interests. Students take 18 units of core curriculum, 12 units in their concentration, and 6 units in elective courses in Ethnic Studies. Students choose from the following five areas of concentration: American Indian Studies, Asian American Studies, Black Studies, Genders and Sexualities in Communities of Color, and Latinx/Chicanx Studies.

Career Opportunities

College Faculty, Staff, or Administrator • Community Liaison or Organizer • Diversity Specialist • Government Service • Immigration Policy Advocate • Non-Profit Management • Prison Abolitionist • Public Relations • Social Work/Therapist • Teacher/Counselor • Tribal Government • Union Organizer • Urban Planning and Affordable Housing • Youth Advocate

Program Learning Outcomes

Students graduating with a B.A. in Ethnic Studies from Cal State East Bay will be able to:

- Apply Ethnic Studies frameworks and key concepts to promote equity and social justice in our communities.
- Explain discipline-specific theoretical frameworks including critical race theory, intersectionality, women of color feminisms, and/or queer of color theories
- Recognize the complexity, heterogeneity and power dynamics between and within racialized groups in the US.
- Research and write effectively, in individual or collaborative contexts, on issues, ideas, perspectives, and values that affect people of color in the United States;
- Explain the concepts of colonialism, decolonization, genocide, environmental racism, and/or resilience as foundations of indigenous epistemologies and sovereignty.

Degree Requirements Unit-Outline

A baccalaureate of arts degree requires a total of 120 units:

The major requirements consists of 36 units;

General Education (GE) & Graduation Requirements (GR) consists of 57 units;

Free Electives may consist of 27 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Ethnic Studies Major Requirements (36 units)

Core Coursework

The following 18 units of lower- and upper-division core coursework are required:

- ES 100 - Introduction to Social Justice in Communities of Color *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- ES 200 - Race and Resistance *Units: 3 ; G.E./G.R. Area: C1; Diversity*
- ES 300 - Writing for Social Justice *Units: 3 ; G.E./G.R. Area: UWSR; Social Justice*
- ES 301 - Black Feminisms *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ES 302 - Eating The Landscape *Units: 3 ; G.E./G.R. Area: C4; Sustainability*
- ES 389 - Engaging Communities of Color *Units: 3*

Elective Courses

Students must take an additional 6 units of electives in Ethnic Studies NOT in their area of concentration.

Concentrations

Students must choose one (1) concentration for 12 units below as part of the major requirements:

- Ethnic Studies, B.A.: American Indian Studies Concentration
- Ethnic Studies, B.A.: Asian American Studies Concentration

- Ethnic Studies, B.A.: Black Studies Concentration
- Ethnic Studies, B.A.: Chicana and Latina Studies Concentration
- Ethnic Studies, B.A.: Comparative Ethnic Studies Concentration (Available Online)
- Ethnic Studies, B.A.: Genders and Sexualities in Communities of Color Concentration (Available Online)

American Indian Studies Concentration

Students with a concentration in American Indian Studies will take 12 units of coursework that focus on American Indians. Choose four (4) courses from the following:

- ES 303 - Debates in Contemporary Native America Units: 3 ; G.E./G.R. Area: C4; Diversity
- ES 304 - American Indian Oral Literature Units: 3 ; G.E./G.R. Area: C4; Diversity
- ES 305 - Reel Injun: American Indians in Film Units: 3 ; G.E./G.R. Area: D4; Social Justice
- ES 306 - American Indian Liberation Units: 3 ; G.E./G.R. Area: D4; Social Justice
- ES 307 - God is Red: American Indian Worldview Units: 3 ; G.E./G.R. Area: C4; Sustainability
- ES 308 - Cultures of Habitat Units: 3 ; G.E./G.R. Area: B6; Sustainability
- ES 327 - Decolonize Your Diet Units: 3 ; G.E./G.R. Area: D4; Sustainability

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Ethnic Studies, B.A.: Asian American Studies Concentration

Ethnic Studies, B.A. Program (120 units)

Program Description

Ethnic Studies offers an interdisciplinary major, providing a comparative approach to the study of people of color in the United States. Our Ethnic Studies curriculum has a strong social justice focus. Through a systematic study of the cultures, histories, and social realities of communities of color in the US, our students finish our program prepared to work effectively in multiracial, multiethnic, multigender communities.

The Ethnic Studies major consists of 36 units. Our major provides students with considerable flexibility, allowing them to specialize in one group, while also gaining in-depth knowledge and expertise in the range of histories, cultures, and social realities of communities of color. Students work closely with their academic advisor to put together a program that suits their goals and interests. Students take 18 units of core curriculum, 12 units in their concentration, and 6 units in elective courses in Ethnic Studies. Students choose from the following five areas of concentration: American Indian Studies, Asian American Studies, Black Studies, Genders and Sexualities in Communities of Color, and Latinx/Chicanx Studies.

Career Opportunities

College Faculty, Staff, or Administrator • Community Liaison or Organizer • Diversity Specialist • Government Service • Immigration Policy Advocate • Non-Profit Management • Prison Abolitionist • Public Relations • Social Work/Therapist • Teacher/Counselor • Tribal Government • Union Organizer • Urban Planning and Affordable Housing • Youth Advocate

Program Learning Outcomes

Students graduating with a B.A. in Ethnic Studies from Cal State East Bay will be able to:

- Apply Ethnic Studies frameworks and key concepts to promote equity and social justice in our communities.
- Explain discipline-specific theoretical frameworks including critical race theory, intersectionality, women of color feminisms, and/or queer of color theories
- Recognize the complexity, heterogeneity and power dynamics between and within racialized groups in the US.
- Research and write effectively, in individual or collaborative contexts, on issues, ideas, perspectives, and values that affect people of color in the United States;
- Explain the concepts of colonialism, decolonization, genocide, environmental racism, and/or resilience as foundations of indigenous epistemologies and sovereignty.

Degree Requirements Unit-Outline

A baccalaureate of arts degree requires a total of 120 units:

The major requirements consists of 36 units;

General Education (GE) & Graduation Requirements (GR) consists of 57 units;

Free Electives may consist of 27 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Ethnic Studies Major Requirements (36 units)

Core Coursework

The following 18 units of lower- and upper-division core coursework are required:

- **ES 100 - Introduction to Social Justice in Communities of Color** *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- **ES 200 - Race and Resistance** *Units: 3 ; G.E./G.R. Area: C1; Diversity*
- **ES 300 - Writing for Social Justice** *Units: 3 ; G.E./G.R. Area: UWSR; Social Justice*
- **ES 301 - Black Feminisms** *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- **ES 302 - Eating The Landscape** *Units: 3 ; G.E./G.R. Area: C4; Sustainability*
- **ES 389 - Engaging Communities of Color** *Units: 3*

Elective Courses

Students must take an additional 6 units of electives in Ethnic Studies NOT in their area of concentration.

Concentrations

Students must choose one (1) concentration for 12 units below as part of the major requirements:

- Ethnic Studies, B.A.: American Indian Studies Concentration
- Ethnic Studies, B.A.: Asian American Studies Concentration
- Ethnic Studies, B.A.: Black Studies Concentration
- Ethnic Studies, B.A.: Chicax and Latinx Studies Concentration
- Ethnic Studies, B.A.: Comparative Ethnic Studies Concentration (Available Online)
- Ethnic Studies, B.A.: Genders and Sexualities in Communities of Color Concentration (Available Online)

Asian American Studies Concentration

Students with a concentration in Asian American Studies will take 12 units of coursework that focus on Asian Americans. Choose four (4) courses from the following:

- **ES 360 - Asian American Intimacies and Families** *Units: 3 ; G.E./G.R. Area: D4; Diversity*

- **ES 361 - Asian Immigrant and Refugee Women in Literature and Cinema** *Units: 3 ; G.E./G.R. Area: C4; Social Justice*
- **ES 362 - Concentration Camps, USA** *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- **ES 363 - Asian American & Pacific Islander Film Festival** *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- **ES 364 - Asian American & Pacific Islander Communities** *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- **ES 365 - Asian American and Pacific Islander Environmental Voices** *Units: 3 ; G.E./G.R. Area: C4; Social Justice*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Bachelor Online Degree Completion

Ethnic Studies, B.A.: Comparative Ethnic Studies Concentration (Available Online)

Ethnic Studies, B.A. Program (120 units)

Program Description

Ethnic Studies offers an interdisciplinary major, providing a comparative approach to the study of people of color in the United States. Our Ethnic Studies curriculum has a strong social justice focus. Through a systematic study of the cultures, histories, and social realities of communities of color in the US, our students finish our program prepared to work effectively in multiracial, multiethnic, multigender communities.

The Ethnic Studies major consists of 36 units. Our major provides students with considerable flexibility, allowing them to specialize in one group, while also gaining in-depth knowledge and expertise in the range of histories, cultures, and social realities of communities of color. Students work closely with their academic advisor to put together a program that suits their goals and interests. Students take 18 units of core curriculum, 12 units in their concentration, and 6 units in elective courses in Ethnic Studies. Students choose from the following five areas of concentration: American Indian Studies, Asian American Studies, Black Studies, Genders and Sexualities in Communities of Color, and Latinx/Chicanx Studies.

Career Opportunities

College Faculty, Staff, or Administrator • Community Liaison or Organizer • Diversity Specialist • Government Service • Immigration Policy Advocate • Non-Profit Management • Prison Abolitionist • Public Relations • Social Work/Therapist • Teacher/Counselor • Tribal Government • Union Organizer • Urban Planning and Affordable Housing • Youth Advocate

Program Learning Outcomes

Students graduating with a B.A. in Ethnic Studies from Cal State East Bay will be able to:

- Apply Ethnic Studies frameworks and key concepts to promote equity and social justice in our communities.

- Explain discipline-specific theoretical frameworks including critical race theory, intersectionality, women of color feminisms, and/or queer of color theories
- Recognize the complexity, heterogeneity and power dynamics between and within racialized groups in the US.
- Research and write effectively, in individual or collaborative contexts, on issues, ideas, perspectives, and values that affect people of color in the United States;
- Explain the concepts of colonialism, decolonization, genocide, environmental racism, and/or resilience as foundations of indigenous epistemologies and sovereignty.

Degree Requirements Unit-Outline

A baccalaureate of arts degree requires a total of 120 units:

The major requirements consists of 36 units;

General Education (GE) & Graduation Requirements (GR) consists of 57 units;

Free Electives may consist of 27 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Ethnic Studies Major Requirements (36 units)

Core Coursework

The following 18 units of lower- and upper-division core coursework are required:

- ES 100 - Introduction to Social Justice in Communities of Color *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- ES 200 - Race and Resistance *Units: 3 ; G.E./G.R. Area: C1; Diversity*
- ES 300 - Writing for Social Justice *Units: 3 ; G.E./G.R. Area: UWSR; Social Justice*
- ES 301 - Black Feminisms *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ES 302 - Eating The Landscape *Units: 3 ; G.E./G.R. Area: C4; Sustainability*
- ES 389 - Engaging Communities of Color *Units: 3*

Elective Courses

Students must take an additional 6 units of electives in Ethnic Studies NOT in their area of concentration.

Concentrations

Students must choose one (1) concentration for 12 units below as part of the major requirements:

- Ethnic Studies, B.A.: American Indian Studies Concentration
- Ethnic Studies, B.A.: Asian American Studies Concentration
- Ethnic Studies, B.A.: Black Studies Concentration
- Ethnic Studies, B.A.: Chicanx and Latinx Studies Concentration

- Ethnic Studies, B.A.: Comparative Ethnic Studies Concentration (Available Online)
- Ethnic Studies, B.A.: Genders and Sexualities in Communities of Color Concentration (Available Online)

Comparative Ethnic Studies Concentration

Students must take one (1) course from four out of the five concentrations listed above, (American Indian Studies, Asian American Studies, Black Studies, Latinx and Chicanx Studies, and Genders and Sexualities in Communities of Color) for a total of 12 units.

Note: This concentration is only available to online majors.

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- ES 389 - Engaging Communities of Color *Units: 3*

Electives

Choose three (3) courses for 9 units from the following:

- ES 301 - Black Feminisms *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ES 321 - Latinas in the US *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- ES 342 - James Baldwin *Units: 3 ; G.E./G.R. Area: C4; Social Justice*
- ES 347 - Black Sexualities *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ES 360 - Asian American Intimacies and Families *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ES 361 - Asian Immigrant and Refugee Women in Literature and Cinema *Units: 3 ; G.E./G.R. Area: C4; Social Justice*
- ES 380 - Queer of Color Histories, Cultures, and Identities *Units: 3 ; G.E./G.R. Area: C4; Social Justice*
- ES 381 - Racialized Masculinities *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ES 382 - Women of Color Writers: Race, Sex, and Resistance *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- ES 384 - Interracial Sex and Marriage *Units: 3 ; G.E./G.R. Area: C4; Social Justice*

Courses

Ethnic Studies

- ES 100 - Introduction to Social Justice in Communities of Color *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- ES 120 - The People's History I *Units: 3 ; G.E./G.R. Area: US-1, US-2, US-3; Social Justice*
- ES 121 - The People's History II *Units: 3 ; G.E./G.R. Area: US-1, US-2, US-3; Social Justice*
- ES 200 - Race and Resistance *Units: 3 ; G.E./G.R. Area: C1; Diversity*
- ES 244 - Mixed Race Identities in the US *Units: 3 ; G.E./G.R. Area: D1-3; Diversity*
- ES 247 - Hip Hop Nation *Units: 3 ; G.E./G.R. Area: C1; Social Justice*
- ES 300 - Writing for Social Justice *Units: 3 ; G.E./G.R. Area: UWSR; Social Justice*
- ES 302 - Eating The Landscape *Units: 3 ; G.E./G.R. Area: C4; Sustainability*
- ES 308 - Cultures of Habitat *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- ES 322 - Oral Traditions *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- ES 326 - Peoples of Central America *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ES 389 - Engaging Communities of Color *Units: 3*
- ES 398 - Internship *Units: 1-3*
- ES 490 - Independent Study *Units: 1-4*
- ES 497 - Issues in Ethnic Studies *Units: 3*

Ethnic Studies: African American Studies

- ES 245 - Black Flix *Units: 3 ; G.E./G.R. Area: C1; Diversity*
- ES 301 - Black Feminisms *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ES 340 - Black Literature *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- ES 341 - Enslavement and Resistance in the Americas *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ES 342 - James Baldwin *Units: 3 ; G.E./G.R. Area: C4; Social Justice*
- ES 343 - Black Power *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ES 344 - Malcolm X: Third World Revolutionary *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ES 345 - Jazz Cultures and Communities *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- ES 346 - Afrofuturism *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- ES 347 - Black Sexualities *Units: 3 ; G.E./G.R. Area: D4; Diversity*

Ethnic Studies: American Indian Studies

- ES 303 - Debates in Contemporary Native America *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- ES 304 - American Indian Oral Literature *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- ES 305 - Reel Injun: American Indians in Film *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ES 306 - American Indian Liberation *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ES 307 - God is Red: American Indian Worldview *Units: 3 ; G.E./G.R. Area: C4; Sustainability*

Ethnic Studies: Asian American Studies

- ES 360 - Asian American Intimacies and Families *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- ES 361 - Asian Immigrant and Refugee Women in Literature and Cinema *Units: 3 ; G.E./G.R. Area: C4; Social Justice*
- ES 362 - Concentration Camps, USA *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- ES 363 - Asian American & Pacific Islander Film Festival *Units: 3 ; G.E./G.R. Area: C4; Diversity*

- ES 365 - Asian American and Pacific Islander Environmental Voices *Units: 3 ; G.E./G.R. Area: C4; Social Justice*

Ethnic Studies: Genders and Sexualities in Communities of Color

- • ES 380 - Queer of Color Histories, Cultures, and Identities *Units: 3 ; G.E./G.R. Area: C4; Social Justice*
- • ES 381 - Racialized Masculinities *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- • ES 382 - Women of Color Writers: Race, Sex, and Resistance *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- • ES 384 - Interracial Sex and Marriage *Units: 3 ; G.E./G.R. Area: C4; Social Justice*

Ethnic Studies: Latino/a Studies

- • ES 320 - The Chicano/a Movement *Units: 3 ; G.E./G.R. Area: D4*
- • ES 321 - Latinas in the US *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- • ES 323 - Latinx and Latin American Film *Units: 3 ; G.E./G.R. Area: C4; Social Justice*
- • ES 324 - Latin American Immigration *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- • ES 325 - Cultural Production in Mexico and Mesoamerica *Units: 3 ; G.E./G.R. Area: C4; Social Justice*
- • ES 327 - Decolonize Your Diet *Units: 3 ; G.E./G.R. Area: D4; Sustainability*

Programs of Study by Department (H-Z)

Academic Course of Study

Cal State East Bay offers a vigorous academic course of study with a real-world curriculum to prepare students for a lifetime of personal achievement and career success.

The program links below contain program descriptions, outcomes, career opportunities, program requirements, course names, numbers, descriptions, and degree, minor, credential, and certificate requirements.

Department of Health Sciences

The Department Office is located on the 5th Floor of the Student and Faculty Support (SF) building, Room 502.

Open 8:00 a.m. - 5:00 p.m., Monday - Friday.

Dept. Phone: (510) 885-3481

Faculty

Professor

Oscar Wambuguh, Ph.D. University of California, Berkeley

Associate Professor

Chandrakala Ganesh, Ph.D. Pennsylvania State University

Assistant Professors

Alina Engelman, Dr.P.H. University of California, Berkeley

Ryan Gamba, Ph.D. University of California, Berkeley

Andrew Kelly, Ph.D. Northwestern University

Nidhi Khosla, Ph.D. Johns Hopkins University

Juleen Lam, Ph.D. Johns Hopkins University

Matthew Moore, M.P.H. Tufts University; J.D. Northeastern University, School of Law

Arnab Mukherjea, Dr.P.H. University of California, Berkeley

Michael Schmeltz, Ph.D. City University of New York, Graduate Center

Jason Smith (Chair), M.T.S., Harvard University, School of Divinity; J.D., Northeastern University, School of Law

Michael Stanton, Ph.D. Duke University

Department Statement

The Health Sciences degree program is the second largest and the fastest growing program at CSUEB. It is an applied science that focuses on knowledge and skills necessary to practice in both clinical and population health settings. Students in our Health Sciences program prepare for careers in healthcare administration and policy, public health or prepare for further training in technical or professional clinical programs. Health sciences is an interdisciplinary field that focuses on the application of physical, biological, and social sciences to understand and to improve health in human beings.

Healthcare as an industry is anticipated to become one of the largest employers in the United States in the next ten years with healthcare support and technical occupations being two fastest growing labor groups. There are hundreds of job opportunities and areas of practice in this field. A degree in Health Sciences from CSUEB provides the foundation graduates need to participate in this exciting and growing field.

Mission

Working together to improve the health of the San Francisco Bay Area, California, and beyond through teaching, research, and service.

Vision

We work for a future where:

The students of the Health Sciences program at CSU East Bay are committed to tackling the health challenges facing the communities of the East Bay and California, to eliminating health disparities, and to creating climate-change resilient communities. The program students are change agents driving improvements in health across the East Bay.

The Health Sciences program emphasizes health policy, public health and environmental health. Rooted in principles of solidarity, health equity, and social justice, the program values an interdisciplinary approach that emphasizes teamwork, problem solving, adaptability, ethics and strong evidence-based practice.

The Health Sciences program is an active and integral part of CSU and the East Bay communities with strong relationships to community organizations, hospitals, medical centers, and health departments. The program is a leader in the institutional focus of CSU East Bay on health and health-related programs and is a critical part of the mission of CSU East Bay. It is nationally-recognized for its innovations in pedagogy and curriculum, and its faculty are active in their respective fields of research with work appearing in a wide range of publications.

The Health Sciences alumni are leaders and pioneers in their fields and work across all sectors in health and public health. They are adaptable to the changing demands of their fields and are lifelong learners. They take pride in their alma mater and are active donors and volunteers to the program, helping to build a resilient program that is a key part of the health of the East Bay and California.

Bachelor

Health Sciences, B.S.

Health Sciences, B.S. Program (120 units)

Program Description

Health Sciences is an interdisciplinary field that focuses on the application of physical, biological, and social sciences to understand and to improve health in human beings. It is an applied science that focuses on knowledge necessary to practice in both clinical and population health settings.

Our program helps students to understand health at the individual level, the community level and the population level. In addition to the biomedical model of health, we ask students to think critically and to explore health from a variety of perspectives and to understand the role that culture has in constructing health.

The program also emphasizes problem-based learning. Our goal is to help students develop strong critical thinking skills, team work, and strong problem-solving skills rooted in a population perspective.

Our program emphasizes the environmental factors that impact human health. The effects of climate change have an immediate and long-term effect on human health and the communities of California. Our program focuses on helping students develop the skills to face some of these health challenges.

The BS in Health Sciences without a concentration is designed to prepare students to enter directly into careers in health care or to enter into post-graduate professional programs such as medicine, physician assistant, occupational therapy, nursing, radiation technician, and other clinical fields.

The program also offers concentrations in Health Policy and in Public Health.

Career Opportunities

The health care field is the second largest industry in the United States and employs millions of workers. The demand for highly trained health care workers is high.

There are a number of career opportunities working in health sciences. There is a high demand for workers in clinical fields such as medicine, nursing, occupational therapy, physical therapy, laboratory technology, and other clinical fields.

In addition to clinical fields, there are opportunities in research, technology, administration, finance, pharmaceuticals, and environmental protection and sanitation. There are many career opportunities in fields such as public health and health policy as well.

Program Learning Outcomes

Students graduating with a BS in Health Sciences will be able to:

1. Use knowledge and skills to provide effective, necessary, and appropriate health services and public health interventions in diverse and multicultural communities.
2. Work effectively on a team in health and health care.
3. Act ethically and responsibly.
4. Use critical thinking, knowledge, and expertise to address complex challenges in health and health care.
5. Apply population perspectives in the health professions
6. Apply knowledge of the role of the environment and of climate change in human health in ways that improve population health and sustainability

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 76-79 units;
 - General Education & Graduation Requirements consists of 57 units (*up to 9 units may be double-counted - see your advisor to determine which, if any, GE/GR units can be double-counted for your program plan*);
 - Free Electives that remain = 0 units (*actual # of free elective units may depend on GE units*).

Health Sciences Major Requirements (76-79 units)

Note: All courses for degree credit with a HSC prefix must be completed with a C or better.

Lower Division Core

The following lower-division interdisciplinary coursework for 25 units are required:

- BIOL 230 - Introduction to Clinical Microbiology Units: 4 ; G.E./G.R. Area: B2, B3
- ENSC 280 - Humans and the Environment in California Units: 3 ; G.E./G.R. Area: B1; Sustainability
- STAT 100 - Elements of Statistics and Probability Units: 3 ; G.E./G.R. Area: B4
- POSC 101 - American Political Institutions Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-2
- HSC 100 - First Year Seminar in Health Sciences Units: 3
- HSC 110 - Introduction to Health Systems & Social Determinants of Health Units: 3
- HSC 130 - Health Humanities Units: 3 ; G.E./G.R. Area: C2
- HSC 250 - Health Disparities and Health Equity Units: 3 ; G.E./G.R. Area: Diversity

Upper Division Core

The following 18 units of Health Science coursework is required: *** Please see the Errata chapter in this catalog for information concerning the Upper Division Core.**

- HSC 300 - Environmental Health Units: 3 ; G.E./G.R. Area: B6; Sustainability

- HSC 315 - Public Health *Units: 3*
- HSC 330 - Epidemiology *Units: 3*
- HSC 355 - Bioethics *Units: 3*
- HSC 360 - Health Law *Units: 3*
- HSC 400 - Health Policy Research and Analysis *Units: 3*

Concentrations

Students may choose one of the following concentrations for 33 units to complete their program plan. Students not selecting to complete a concentration must take an additional 30 units of electives.

- Health Sciences, B.S. (elective coursework)
- Health Sciences, B.S.: Health Policy Concentration
- Health Sciences, B.S.: Public Health Concentration

Capstone Requirement

One (1) of the following capstones is required based on your program plan.

Students Not Selecting a Concentration

Take:

- HSC 499A - Capstone in Health Sciences *Units: 3*

Public Health Concentration Students

Take:

- HSC 499B - Capstone in Public Health Interventions *Units: 3*

Health Policy and Administration Concentration Students

Take:

- HSC 499C - Capstone in Health Policy *Units: 3*

Elective Courses for Students Not Selecting a Concentration

Students who do not select a concentration must select an additional 30 units in consultation with an advisor. These electives must be chosen as part of a course plan designed in consultation with an advisor to achieve a student's learning goals. The course plan must be approved and filed before taking elective courses. Students may review courses to construct a plan by using the Course Description link in the catalog. All Health Sciences courses have an HSC prefix.

Note: Once a plan is approved, students should not deviate from the plan without meeting with an advisor. Credit taken off plan may not be approved.

** Please see the Errata chapter in this catalog for information concerning this section.*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Concentrations

Students may choose one of the following concentrations for 33 units to complete their program plan. Students not selecting to complete a concentration must take an additional 30 units of electives.

- Health Sciences, B.S. (elective coursework)
- Health Sciences, B.S.: Health Policy Concentration
- Health Sciences, B.S.: Public Health Concentration

Capstone Requirement

One (1) of the following capstones is required based on your program plan.

Students Not Selecting a Concentration

Take:

- HSC 499A - Capstone in Health Sciences *Units: 3*

Public Health Concentration Students

Take:

- HSC 499B - Capstone in Public Health Interventions *Units: 3*

Health Policy and Administration Concentration Students

Take:

- HSC 499C - Capstone in Health Policy *Units: 3*

Health Policy Concentration

Public policy is increasingly central to society's efforts to promote and protect human health, both at the individual level and at the population level. As the regulations, statutes, and court rulings that affect public health, the environment, and health care systems become more and more complex, the need for health policy professionals has never been higher.

The Concentration in Health Policy in the Bachelor of Science Degree Program is designed to provide students with a solid grounding in policy theory, policy development, the policymaking process, policy

enforcement and policy evaluation. Students are trained in policy processes that occur at all jurisdictional levels, ranging from local communities, to the state, national, and international levels, and will become familiar with the range of stakeholders and institutions influencing health policy.

The program emphasizes teamwork, critical thinking, and problem solving skills. Upon successful completion of the Concentration requirements, graduates will be competent as professionals to recommend evidence-based solutions to problems related to public programs, policies and procedures related to health.

Required Coursework

The following 27 units are required:

- ECON 200 - Principles of Microeconomics *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- ECON 370 - Health Economics and Public Policy *Units: 3*
- HSC 325 - Health Care Payment Systems *Units: 3*
- HSC 380 - Health Regulation *Units: 3*
- HSC 450 - Health Communication *Units: 3*
- HSC 455 - Management and Employment Issues in the Health Professions *Units: 3*
- HSC 465 - Health Data and Information Management *Units: 3*
- HSC 480 - State and Local Health Systems *Units: 3*
- HSC 497 - Issues in Health Sciences *Units: 3*

Elective Courses

Students in the Health Policy concentration must take a minimum of 6 units from the following courses:

- HSC 115 - Human Health and Wellness *Units: 3*
- HSC 270 - Investigating Disease Outbreaks and Epidemics *Units: 3 ; G.E./G.R. Area: C2; Social Justice*
- HSC 310 - Community Engaged Health Promotion *Units: 3*
- HSC 323 - Plagues, Peoples, and Populations *Units: 3*
- HSC 327 - Genes and Human Health *Units: 3 ; G.E./G.R. Area: B6*
- HSC 335 - Pharmaceutical, Biotechnology and Medical Device Policy *Units: 3*
- HSC 340 - Climate Change and Public Health *Units: 3*
- HSC 345 - Aging and Long Term Care *Units: 3*
- HSC 350 - Health Behavior and Health Education Theory *Units: 3*
- HSC 365 - Mental Health and Policy *Units: 3*
- HSC 375 - Program Planning and Evaluation *Units: 3*
- HSC 385 - Vector Control *Units: 3*
- HSC 390 - Lesbian, Gay, Bisexual and Transgender (LGBT) Communities and Health *Units: 3 ; G.E./G.R. Area: C4*
- HSC 405 - Toxicology *Units: 3*

- HSC 410 - Qualitative Methods in the Health Sciences *Units: 3*
- HSC 420 - Occupational Health *Units: 3*
- HSC 423 - Homelessness, Urban Poverty, and Health *Units: 3*
- HSC 435 - Life Course Perspective on Health *Units: 3 ; G.E./G.R. Area: B6*
- HSC 440 - Global Health and Disability *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- HSC 445 - HIV/AIDS in a Global Context *Units: 3*
- HSC 460 - Emergency Preparedness and Response *Units: 3*
- HSC 470 - Health and The Built Environment *Units: 3*
- HSC 485 - Applications of Research Methods in Health Sciences *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- HSC 115 - Human Health and Wellness *Units: 3*
- HSC 130 - Health Humanities *Units: 3 ; G.E./G.R. Area: C2*
- HSC 250 - Health Disparities and Health Equity *Units: 3 ; G.E./G.R. Area: Diversity*
- HSC 270 - Investigating Disease Outbreaks and Epidemics *Units: 3 ; G.E./G.R. Area: C2; Social Justice*
- HSC 300 - Environmental Health *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- HSC 310 - Community Engaged Health Promotion *Units: 3*
- HSC 315 - Public Health *Units: 3*
- HSC 323 - Plagues, Peoples, and Populations *Units: 3*
- HSC 325 - Health Care Payment Systems *Units: 3*
- HSC 327 - Genes and Human Health *Units: 3 ; G.E./G.R. Area: B6*
- HSC 330 - Epidemiology *Units: 3*
- HSC 335 - Pharmaceutical, Biotechnology and Medical Device Policy *Units: 3*
- HSC 340 - Climate Change and Public Health *Units: 3*
- HSC 345 - Aging and Long Term Care *Units: 3*
- HSC 350 - Health Behavior and Health Education Theory *Units: 3*
- HSC 355 - Bioethics *Units: 3*

- • HSC 360 - Health Law *Units: 3*
- • HSC 362 - Environmental Health Policy *Units: 3 ; G.E./G.R. Area: D4*
- • HSC 365 - Mental Health and Policy *Units: 3*
- • HSC 370 - Health Economics and Public Policy *Units: 3*
- • HSC 375 - Program Planning and Evaluation *Units: 3*
- • HSC 380 - Health Regulation *Units: 3*
- • HSC 385 - Vector Control *Units: 3*
- • HSC 390 - Lesbian, Gay, Bisexual and Transgender (LGBT) Communities and Health *Units: 3 ; G.E./G.R. Area: C4*
- • HSC 398 - Internship *Units: 1-3*
- • HSC 400 - Health Policy Research and Analysis *Units: 3*
- • HSC 405 - Toxicology *Units: 3*
- • HSC 410 - Qualitative Methods in the Health Sciences *Units: 3*
- • HSC 420 - Occupational Health *Units: 3*
- • HSC 423 - Homelessness, Urban Poverty, and Health *Units: 3*
- • HSC 435 - Life Course Perspective on Health *Units: 3 ; G.E./G.R. Area: B6*
- • HSC 440 - Global Health and Disability *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- • HSC 445 - HIV/AIDS in a Global Context *Units: 3*
- • HSC 450 - Health Communication *Units: 3*
- • HSC 455 - Management and Employment Issues in the Health Professions *Units: 3*
- • HSC 460 - Emergency Preparedness and Response *Units: 3*
- • HSC 465 - Health Data and Information Management *Units: 3*
- • HSC 470 - Health and The Built Environment *Units: 3*
- • HSC 480 - State and Local Health Systems *Units: 3*
- • HSC 485 - Applications of Research Methods in Health Sciences *Units: 3*
- • HSC 490 - Independent Study *Units: 1-4*
- • HSC 497 - Issues in Health Sciences *Units: 3*
- • HSC 499A - Capstone in Health Sciences *Units: 3*
- • HSC 499B - Capstone in Public Health Interventions *Units: 3*
- • HSC 499C - Capstone in Health Policy *Units: 3*

Health Sciences, B.S.: Public Health Concentration

Health Sciences, B.S. Program (120 units)

Program Description

Health Sciences is an interdisciplinary field that focuses on the application of physical, biological, and social sciences to understand and to improve health in human beings. It is an applied science that focuses on knowledge necessary to practice in both clinical and population health settings.

Our program helps students to understand health at the individual level, the community level and the population level. In addition to the biomedical model of health, we ask students to think critically and to explore health from a variety of perspectives and to understand the role that culture has in constructing health.

The program also emphasizes problem-based learning. Our goal is to help students develop strong critical thinking skills, team work, and strong problem-solving skills rooted in a population perspective.

Our program emphasizes the environmental factors that impact human health. The effects of climate change have an immediate and long-term effect on human health and the communities of California. Our program focuses on helping students develop the skills to face some of these health challenges.

The BS in Health Sciences without a concentration is designed to prepare students to enter directly into careers in health care or to enter into post-graduate professional programs such as medicine, physician assistant, occupational therapy, nursing, radiation technician, and other clinical fields.

The program also offers concentrations in Health Policy and in Public Health.

Career Opportunities

The health care field is the second largest industry in the United States and employs millions of workers. The demand for highly trained health care workers is high.

There are a number of career opportunities working in health sciences. There is a high demand for workers in clinical fields such as medicine, nursing, occupational therapy, physical therapy, laboratory technology, and other clinical fields.

In addition to clinical fields, there are opportunities in research, technology, administration, finance, pharmaceuticals, and environmental protection and sanitation. There are many career opportunities in fields such as public health and health policy as well.

Program Learning Outcomes

Students graduating with a BS in Health Sciences will be able to:

1. Use knowledge and skills to provide effective, necessary, and appropriate health services and public health interventions in diverse and multicultural communities.
2. Work effectively on a team in health and health care.
3. Act ethically and responsibly.
4. Use critical thinking, knowledge, and expertise to address complex challenges in health and health care.
5. Apply population perspectives in the health professions
6. Apply knowledge of the role of the environment and of climate change in human health in ways that improve population health and sustainability

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 76-79 units;
 - General Education & Graduation Requirements consists of 57 units (*up to 9 units may be double-counted - see your advisor to determine which, if any, GE/GR units can be double-counted for your program plan*);
 - Free Electives that remain = 0 units (*actual # of free elective units may depend on GE units*).

Health Sciences Major Requirements (76-79 units)

Note: All courses for degree credit with a HSC prefix must be completed with a C or better.

Lower Division Core

The following lower-division interdisciplinary coursework for 25 units are required:

- BIOL 230 - Introduction to Clinical Microbiology *Units: 4 ; G.E./G.R. Area: B2, B3*
- ENSC 280 - Humans and the Environment in California *Units: 3 ; G.E./G.R. Area: B1; Sustainability*
- STAT 100 - Elements of Statistics and Probability *Units: 3 ; G.E./G.R. Area: B4*
- POSC 101 - American Political Institutions *Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-2*
- HSC 100 - First Year Seminar in Health Sciences *Units: 3*
- HSC 110 - Introduction to Health Systems & Social Determinants of Health *Units: 3*
- HSC 130 - Health Humanities *Units: 3 ; G.E./G.R. Area: C2*
- HSC 250 - Health Disparities and Health Equity *Units: 3 ; G.E./G.R. Area: Diversity*

Upper Division Core

The following 18 units of Health Science coursework is required: *** Please see the Errata chapter in this catalog for information concerning the Upper Division Core.**

- HSC 300 - Environmental Health *Units: 3 ; G.E./G.R. Area: B6; Sustainability*
- HSC 315 - Public Health *Units: 3*
- HSC 330 - Epidemiology *Units: 3*
- HSC 355 - Bioethics *Units: 3*
- HSC 360 - Health Law *Units: 3*
- HSC 400 - Health Policy Research and Analysis *Units: 3*

Concentrations

Students may choose one of the following concentrations for 33 units to complete their program plan. Students not selecting to complete a concentration must take an additional 30 units of electives.

- Health Sciences, B.S. (elective coursework)
- Health Sciences, B.S.: Health Policy Concentration
- Health Sciences, B.S.: Public Health Concentration

Capstone Requirement

One (1) of the following capstones is required based on your program plan.

Students Not Selecting a Concentration

Take:

- HSC 499A - Capstone in Health Sciences *Units: 3*

Public Health Concentration Students

Take:

- HSC 499B - Capstone in Public Health Interventions *Units: 3*

Health Policy and Administration Concentration Students

Take:

- **HSC 499C - Capstone in Health Policy** *Units: 3*

Public Health Concentration

Public health promotes and protects the health of people and the communities where they live, learn, work and play. (APHA). Public health works to track disease outbreaks, prevent injuries, and shed light on why some populations and communities are more likely to suffer from poor health than others. Public health professions work collaboratively and across disciplines to assure the conditions in which people can be healthy.

The Concentration in Public Health in the Bachelor of Science Degree Program aims to prepare qualified, diverse, and committed graduates qualified to understand and address complex public health challenges, locally, nationally, and globally. Upon successful completion of Concentration requirements, graduates will be able to:

1. Define public health and related roles and responsibilities of government, non-government agencies, and private organizations.
2. Evaluate the source and quality of health information, research, data, or public health interventions, which assess and/or address the well-being of a population, as they relate to individual and community health.
3. Analyze the magnitude of health concerns faced by vulnerable and at-risk communities accounting for the role of gender, race, ethnicity, social determinants, and other dynamic influences affecting population health.
4. Assess the role of community engagement in promoting population health and social justice by discussing public health interventions and the values and perspectives of diverse individuals, communities, and cultures and their influence on health behaviors and practices.

Required Courses

The following 21 units of coursework is required:

- **ECON 200 - Principles of Microeconomics** *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- **ECON 370 - Health Economics and Public Policy** *Units: 3*
- **HSC 310 - Community Engaged Health Promotion** *Units: 3*
- **HSC 350 - Health Behavior and Health Education Theory** *Units: 3*
- **HSC 375 - Program Planning and Evaluation** *Units: 3*
- **HSC 410 - Qualitative Methods in the Health Sciences** *Units: 3*
- **HSC 450 - Health Communication** *Units: 3*

Elective Courses

12 units of electives are required. Choose in each of the following groups:

Human Health and Disease Elective Group

Students should choose one (1) course for 3 units from the following:

- **HSC 115 - Human Health and Wellness** *Units: 3*

- HSC 270 - Investigating Disease Outbreaks and Epidemics *Units: 3 ; G.E./G.R. Area: C2; Social Justice*
- HSC 327 - Genes and Human Health *Units: 3 ; G.E./G.R. Area: B6*
- HSC 385 - Vector Control *Units: 3*
- HSC 405 - Toxicology *Units: 3*

Experiential Electives Group

Students must select one (1) course for 3 units from the following:

- HSC 423 - Homelessness, Urban Poverty, and Health *Units: 3*
- HSC 440 - Global Health and Disability *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- HSC 460 - Emergency Preparedness and Response *Units: 3*

General Electives Group

Students must take an additional 6 units from the following courses. Courses not already taken in the other elective groups may be taken as part of the General Elective units:

- HSC 323 - Plagues, Peoples, and Populations *Units: 3*
- HSC 325 - Health Care Payment Systems *Units: 3*
- HSC 335 - Pharmaceutical, Biotechnology and Medical Device Policy *Units: 3*
- HSC 340 - Climate Change and Public Health *Units: 3*
- HSC 345 - Aging and Long Term Care *Units: 3*
- HSC 365 - Mental Health and Policy *Units: 3*
- HSC 375 - Program Planning and Evaluation *Units: 3*
- HSC 380 - Health Regulation *Units: 3*
- HSC 390 - Lesbian, Gay, Bisexual and Transgender (LGBT) Communities and Health *Units: 3 ; G.E./G.R. Area: C4*
- HSC 410 - Qualitative Methods in the Health Sciences *Units: 3*
- HSC 420 - Occupational Health *Units: 3*
- HSC 435 - Life Course Perspective on Health *Units: 3 ; G.E./G.R. Area: B6*
- HSC 445 - HIV/AIDS in a Global Context *Units: 3*
- HSC 465 - Health Data and Information Management *Units: 3*
- HSC 470 - Health and The Built Environment *Units: 3*
- HSC 480 - State and Local Health Systems *Units: 3*
- HSC 485 - Applications of Research Methods in Health Sciences *Units: 3*
- HSC 497 - Issues in Health Sciences *Units: 3*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- HSC 499B - Capstone in Public Health Interventions *Units: 3*
- HSC 499C - Capstone in Health Policy *Units: 3*

Certificate

Data Technology in Health Science Certificate

The Undergraduate Certificate Program in Data Technology is designed for behavioral and health science majors. The program combines theories with emerging technologies, and use evidence-based educational practices as well as contextualized problem-based pedagogy in which students acquire key technical knowledge and skills by solving real-world problems. Students earn this undergraduate certificate to gain or enhance employment.

Requirements

The following 12 units are required:

- CS 100 - Programming for Everyone *Units: 3*
- CS 200 - Advanced Programming for Everyone *Units: 3*
- CS 350 - Databases for Social and Health Sciences *Units: 3*
- CS 497 - Topics in Computer Science *Units: 3*

Department of History

The Department Office is located on the 4th Floor of the Student and Faculty Services building, Room 442

Office Hours: 8:00 a.m. - 5:00 p.m., Monday through Friday

Dept Phone: (510) 885-3207

Faculty

Professor Emerita

Dee E. Andrews, Ph.D. University of Pennsylvania

Professors

Bridget Ford, Ph.D. University of California, Davis

Richard A. Garcia, Ph.D. University of California, Irvine

Linda Ivey (Chair), Ph.D. Georgetown University

Jessica Weiss, Ph.D. University of California, Berkeley

Associate Professors

Vahid Fozdar, Ph.D. University of California, Berkeley

Robert A. Phelps, Ph.D. University of California, Riverside

Assistant Professors

Anna Alexander, Ph.D. University of Arizona

Kevin Kaatz, Ph.D. Macquarie University, Sydney (Australia)

Elizabeth McGuire, Ph.D. University of California, Berkeley

Casey Nichols, Ph.D. Stanford University

Graduate Coordinator: Kevin Kaatz

Department Statement

The History programs at Cal State East Bay seek to present the study of History as an enjoyable and fruitful endeavor incorporating the essential elements of liberal learning. The programs focus on students' acquisition of knowledge, cultivation of perspective, and development of skills in written and oral communication and in critical thinking. We aim to develop students' concern for enduring human values and appreciation of diverse peoples and traditions, as well as to engage students in a rigorous and compelling understanding of how the past informs the present.

Bachelor

History, B.A.: Migration and Globalization Concentration

History, B.A. Program (120 units)

Program Description

Students who pursue a degree in History come to understand the major issues facing the contemporary world through a historical lens, and understand how actions and actors of the past have created the political, social, and environmental circumstances faced by civilization today. Their studies afford them entree to the riches of the recorded past and understanding of the process of historical change. At the same time, a History major enables them to develop critical reading and writing skills that are valuable in life and crucial in any employment field they choose to enter.

Career Opportunities

Archivist • Attorney • Corporate Historian • Curator • Diplomat/Foreign Service Officer • Government Service • International Relations Specialist • Journalist • Legal Assistant • Librarian • Museum Worker • Professor • Politician • Public Administrator • Researcher • Teacher • Writer

Features

The B.A. degree major in History requires 51 semester units in History, 16 at the lower division and 35 at the upper division level. A required applied history course (4 units) introduces majors to the practical application of historical method and research beyond the classroom. Concentration requirements (9 units) permit specialization in a particular area, while elective courses (6 units) provide additional breadth. Three one-unit history labs are required for all majors to deepen the skills learned in the required courses. Capstone courses in historiography and thesis research acquaint students with the theory and practice of historical study and provide opportunities for the student to engage in original historical research.

Program Learning Outcomes

Students graduating with a B.A. in History from Cal State East Bay will be able to:

1. assemble, organize, and interpret historical evidence, and achieve digital literacy in accessing and presenting historical materials;
2. demonstrate significant knowledge of major events and trends in their area of concentration;
3. write and speak clearly and persuasively about historical themes and topics, and solve historical problems by collaboratively with others;
4. conduct historical research in primary sources, provide original interpretation of sources, and accurately reference all sources, and construct historical arguments using original research;
5. identify differences and similarities among diverse peoples and cultures over time and develop an historical perspective on social responsibility and sustainability;
6. analyze the dynamics of applied history beyond the classroom.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 51 units
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 12 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

History Major Requirements (51 units)

Lower Division Requirements

Students are required to take all of the following 16 units:

- HIST 101 - World History I *Units: 3 ; G.E./G.R. Area: C2*
- HIST 102 - World History II *Units: 3 ; G.E./G.R. Area: C2*
- HIST 110 - The United States to 1877 *Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-2*
- HIST 111 - The United States Since 1877 *Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-3*
- HIST 201 - Introduction to History *Units: 4*

Upper Division Skills Courses

Students must take 12 units as outlined below:

- HIST 301 - Historical Writing *Units: 4 ; G.E./G.R. Area: UWSR*
- HIST 400 - Historiography *Units: 4*
- HIST 405 - History Lab *Units: 1 (course must be taken 3 times)*
- HIST 409 - History Portfolio *Units: 1*

Applied History

Students must take one (1) of the Applied History courses listed below for 4 units:

- HIST 402 - Introduction to Public History *Units: 4*
- HIST 403 - Introduction to Digital Historical Methods *Units: 4*
- HIST 404 - Introduction to Teaching of History *Units: 4*

Elective Courses

With consultation from department faculty, students must take two (2) upper division history courses for a minimum of 6 units outside of their area of concentration.

Concentrations

Students must select one (1) of the following 9-unit concentrations:

- History, B.A.: Migration and Globalization Concentration
- History, B.A.: Social Justice and Citizenship Concentration
- History, B.A.: Sustainability and Modernization Concentration

Capstone Requirement

The thesis capstone experience for 4 units is required to complete the major.

- HIST 499 - Thesis Capstone *Units: 4*

Migration and Globalization Concentration

The Migration and Globalization concentration is 9 units. Students must choose three (3) courses from the following:

- HIST 322 - Warfare, Genocide, Terrorism: Globalization Through Conflict Since 1914 *Units: 3 ; G.E./G.R. Area: C4*
- HIST 327 - Love, Sex, Family: Globalization and Private Life Since 1914 *Units: 3 ; G.E./G.R. Area: C4*
- HIST 328 - 20th Century World *Units: 3 ; G.E./G.R. Area: C4*
- HIST 331 - The Barbarians *Units: 3 ; G.E./G.R. Area: C4*
- HIST 338 - The Roman Empire *Units: 3 ; G.E./G.R. Area: C4*
- HIST 344 - Revival and Reform in Early Modern Europe *Units: 3 ; G.E./G.R. Area: C4*
- HIST 352 - Modern Europe: Unity and Diversity *Units: 3 ; G.E./G.R. Area: C4*
- HIST 361 - Traditional India *Units: 3*
- HIST 362 - Modern South Asia *Units: 3 ; G.E./G.R. Area: C4*
- HIST 363 - The Middle East and the Rise of Islamic Societies *Units: 3 ; G.E./G.R. Area: C4*
- HIST 364 - The Modern Middle East *Units: 3 ; G.E./G.R. Area: C4*
- HIST 380 - The American West *Units: 3 ; G.E./G.R. Area: C4*
- HIST 383 - Mexican Americans in the West *Units: 3 ; G.E./G.R. Area: C4*
- HIST 387 - Immigration and the Contested American Identity *Units: 3 ; G.E./G.R. Area: C4*
- HIST 391 - Latin America: Conquest to Revolution *Units: 3 ; G.E./G.R. Area: C4*
- HIST 394 - US Mexico Relations Since 1810 *Units: 3*
- HIST 475 - The Pacific World *Units: 3*
- HIST 478 - Borderlands in North America *Units: 3 ; G.E./G.R. Area: C4*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- HIST 497 - Issues in History *Units: 3*

History, B.A.: Social Justice and Citizenships Concentration

History, B.A. Program (120 units)

Program Description

Students who pursue a degree in History come to understand the major issues facing the contemporary world through a historical lens, and understand how actions and actors of the past have created the political, social, and environmental circumstances faced by civilization today. Their studies afford them entree to the riches of the recorded past and understanding of the process of historical change. At the same time, a History major enables them to develop critical reading and writing skills that are valuable in life and crucial in any employment field they choose to enter.

Career Opportunities

Archivist • Attorney • Corporate Historian • Curator • Diplomat/Foreign Service Officer • Government Service • International Relations Specialist • Journalist • Legal Assistant • Librarian • Museum Worker • Professor • Politician • Public Administrator • Researcher • Teacher • Writer

Features

The B.A. degree major in History requires 51 semester units in History, 16 at the lower division and 35 at the upper division level. A required applied history course (4 units) introduces majors to the practical application of historical method and research beyond the classroom. Concentration requirements (9 units) permit specialization in a particular area, while elective courses (6 units) provide additional breadth. Three one-unit history labs are required for all majors to deepen the skills learned in the required courses. Capstone courses in historiography and thesis research acquaint students with the theory and practice of historical study and provide opportunities for the student to engage in original historical research.

Program Learning Outcomes

Students graduating with a B.A. in History from Cal State East Bay will be able to:

1. assemble, organize, and interpret historical evidence, and achieve digital literacy in accessing and presenting historical materials;
2. demonstrate significant knowledge of major events and trends in their area of concentration;
3. write and speak clearly and persuasively about historical themes and topics, and solve historical problems by collaboratively with others;
4. conduct historical research in primary sources, provide original interpretation of sources, and accurately reference all sources, and construct historical arguments using original research;
5. identify differences and similarities among diverse peoples and cultures over time and develop an historical perspective on social responsibility and sustainability;
6. analyze the dynamics of applied history beyond the classroom.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 51 units
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 12 units (*actual number of free elective units may depend on GE/GR units*).
- Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.*

History Major Requirements (51 units)

Lower Division Requirements

Students are required to take all of the following 16 units:

- HIST 101 - World History I Units: 3 ; G.E./G.R. Area: C2
- HIST 102 - World History II Units: 3 ; G.E./G.R. Area: C2
- HIST 110 - The United States to 1877 Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-2
- HIST 111 - The United States Since 1877 Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-3
- HIST 201 - Introduction to History Units: 4

Upper Division Skills Courses

Students must take 12 units as outlined below:

- HIST 301 - Historical Writing Units: 4 ; G.E./G.R. Area: UWSR
- HIST 400 - Historiography Units: 4
- HIST 405 - History Lab Units: 1 (*course must be taken 3 times*)
- HIST 409 - History Portfolio Units: 1

Applied History

Students must take one (1) of the Applied History courses listed below for 4 units:

- HIST 402 - Introduction to Public History Units: 4

- HIST 403 - Introduction to Digital Historical Methods *Units: 4*
- HIST 404 - Introduction to Teaching of History *Units: 4*

Elective Courses

With consultation from department faculty, students must take two (2) upper division history courses for a minimum of 6 units outside of their area of concentration.

Concentrations

Students must select one (1) of the following 9-unit concentrations:

- History, B.A.: Migration and Globalization Concentration
- History, B.A.: Social Justice and Citizenships Concentration
- History, B.A.: Sustainability and Modernization Concentration

Capstone Requirement

The thesis capstone experience for 4 units is required to complete the major.

- HIST 499 - Thesis Capstone *Units: 4*

Social Justice and Citizenships Concentration

The Social Justice and Citizenship concentration is 9 units. Students choose three (3) courses from the following:

- HIST 320 - Transnational Revolution in the Modern World *Units: 3*
- HIST 321 - Communism as Civilization *Units: 3*
- HIST 326 - Global Feminisms: A History *Units: 3*
- HIST 332 - Tolerance and Intolerance in the Roman Empire *Units: 3 ; G.E./G.R. Area: C4*
- HIST 335 - Rome and Christianity *Units: 3 ; G.E./G.R. Area: C4*
- HIST 342 - Unity and Diversity in the Middle Ages *Units: 3*
- HIST 343 - Society and Culture in the High Middle Ages *Units: 3 ; G.E./G.R. Area: C4*
- HIST 372 - Slavery and Freedom in the Atlantic World *Units: 3*
- HIST 373 - The American Revolution *Units: 3*
- HIST 374 - The Constitution and Its Times *Units: 3*
- HIST 375 - Religion and Diversity in America *Units: 3 ; G.E./G.R. Area: C4*
- HIST 376 - Destroying Slavery in the US Civil War *Units: 3*
- HIST 378 - The Nineteenth Century in the US *Units: 3 ; G.E./G.R. Area: C4*
- HIST 379 - Native North America *Units: 3*
- HIST 381 - US Political History *Units: 3*
- HIST 384 - Modern American Thought *Units: 3 ; G.E./G.R. Area: C4*
- HIST 385 - Race and the Modern American Nation *Units: 3*

- HIST 389 - Social Justice and Reform Movements in America *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- HIST 393 - Revolutionary Thought in Latin America *Units: 3 ; G.E./G.R. Area: D4*
- HIST 461 - India Through Film *Units: 3*
- HIST 471 - History of the East Bay: Community Research and Engagement *Units: 3*
- HIST 472 - War and Peace in US History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 473 - Sexuality and Identity in US History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 474 - Women, Gender and Rights in US History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 479 - World War II: Global Warfront, Local Homefront *Units: 3 ; G.E./G.R. Area: D4*
- HIST 488 - Education and American Democracy *Units: 3 ; G.E./G.R. Area: C4*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

History, B.A.: Sustainability and Modernization Concentration

History, B.A. Program (120 units)

Program Description

Students who pursue a degree in History come to understand the major issues facing the contemporary world through a historical lens, and understand how actions and actors of the past have created the political, social, and environmental circumstances faced by civilization today. Their studies afford them entree to the riches of the recorded past and understanding of the process of historical change. At the same time, a History major enables them to develop critical reading and writing skills that are valuable in life and crucial in any employment field they choose to enter.

Career Opportunities

Archivist • Attorney • Corporate Historian • Curator • Diplomat/Foreign Service Officer • Government Service • International Relations Specialist • Journalist • Legal Assistant • Librarian • Museum Worker • Professor • Politician • Public Administrator • Researcher • Teacher • Writer

Features

The B.A. degree major in History requires 51 semester units in History, 16 at the lower division and 35 at the upper division level. A required applied history course (4 units) introduces majors to the practical application of historical method and research beyond the classroom. Concentration requirements (9 units) permit specialization in a particular area, while elective courses (6 units) provide additional breadth. Three one-unit history labs are required for all majors to deepen the skills learned in the required courses. Capstone courses in historiography and thesis research acquaint students with the theory and practice of historical study and provide opportunities for the student to engage in original historical research.

Program Learning Outcomes

Students graduating with a B.A. in History from Cal State East Bay will be able to:

1. assemble, organize, and interpret historical evidence, and achieve digital literacy in accessing and presenting historical materials;
2. demonstrate significant knowledge of major events and trends in their area of concentration;
3. write and speak clearly and persuasively about historical themes and topics, and solve historical problems by collaboratively with others;
4. conduct historical research in primary sources, provide original interpretation of sources, and accurately reference all sources, and construct historical arguments using original research;
5. identify differences and similarities among diverse peoples and cultures over time and develop an historical perspective on social responsibility and sustainability;
6. analyze the dynamics of applied history beyond the classroom.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 51 units
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 12 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

History Major Requirements (51 units)

Lower Division Requirements

Students are required to take all of the following 16 units:

- HIST 101 - World History I *Units: 3 ; G.E./G.R. Area: C2*
- HIST 102 - World History II *Units: 3 ; G.E./G.R. Area: C2*
- HIST 110 - The United States to 1877 *Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-2*
- HIST 111 - The United States Since 1877 *Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-3*
- HIST 201 - Introduction to History *Units: 4*

Upper Division Skills Courses

Students must take 12 units as outlined below:

- HIST 301 - Historical Writing *Units: 4 ; G.E./G.R. Area: UWSR*
- HIST 400 - Historiography *Units: 4*
- HIST 405 - History Lab *Units: 1 (course must be taken 3 times)*
- HIST 409 - History Portfolio *Units: 1*

Applied History

Students must take one (1) of the Applied History courses listed below for 4 units:

- HIST 402 - Introduction to Public History *Units: 4*
- HIST 403 - Introduction to Digital Historical Methods *Units: 4*
- HIST 404 - Introduction to Teaching of History *Units: 4*

Elective Courses

With consultation from department faculty, students must take two (2) upper division history courses for a minimum of 6 units outside of their area of concentration.

Concentrations

Students must select one (1) of the following 9-unit concentrations:

- History, B.A.: Migration and Globalization Concentration
- History, B.A.: Social Justice and Citizenship Concentration
- History, B.A.: Sustainability and Modernization Concentration

Capstone Requirement

The thesis capstone experience for 4 units is required to complete the major.

- HIST 499 - Thesis Capstone *Units: 4*

Sustainability and Modernization Concentration

The Sustainability and Modernization concentration is 9 units. Students must choose three (3) courses from the following:

- HIST 323 - Global Environmental History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 333 - Sustainability in the Ancient World *Units: 3 ; G.E./G.R. Area: C4;*
Sustainability
- HIST 334 - Ancient Egyptian Civilization *Units: 3 ; G.E./G.R. Area: C4*
- HIST 337 - The Roman Republic *Units: 3 ; G.E./G.R. Area: C4*
- HIST 341 - The Birth of Europe *Units: 3 ; G.E./G.R. Area: C4*
- HIST 345 - Conflict and Expansion in Early Modern Europe *Units: 3*
- HIST 351 - Russia: Peter to the Present *Units: 3*
- HIST 365 - China: Origins to Mongol Conquest *Units: 3 ; G.E./G.R. Area: D4*
- HIST 366 - China: Ming Dynasty to Today *Units: 3 ; G.E./G.R. Area: C4*
- HIST 367 - Japan: Origins to Tokugawa *Units: 3 ; G.E./G.R. Area: C4*
- HIST 368 - Japan, Tokugawa to Today *Units: 3 ; G.E./G.R. Area: C4*
- HIST 369 - The Korean Peninsula *Units: 3 ; G.E./G.R. Area: C4*
- HIST 371 - North America: 1492-1850 *Units: 3 ; G.E./G.R. Area: C4*
- HIST 377 - The Birth of American Popular Culture *Units: 3*
- HIST 382 - California and the World *Units: 3 ; G.E./G.R. Area: D4; US-3*
- HIST 386 - Food and Justice in US History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 388 - US and California Environmental History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 392 - Migration and Modernization in 20th Century Mexico *Units: 3*
- HIST 277 - Science and Culture in the History of Medicine in the United States *Units: 3 ; G.E./G.R. Area: C2; Writing II*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

- HIST 365 - China: Origins to Mongol Conquest *Units: 3 ; G.E./G.R. Area: D4*
- HIST 366 - China: Ming Dynasty to Today *Units: 3 ; G.E./G.R. Area: C4*
- HIST 367 - Japan: Origins to Tokugawa *Units: 3 ; G.E./G.R. Area: C4*
- HIST 368 - Japan, Tokugawa to Today *Units: 3 ; G.E./G.R. Area: C4*
- HIST 369 - The Korean Peninsula *Units: 3 ; G.E./G.R. Area: C4*
- HIST 371 - North America: 1492-1850 *Units: 3 ; G.E./G.R. Area: C4*
- HIST 377 - The Birth of American Popular Culture *Units: 3*
- HIST 382 - California and the World *Units: 3 ; G.E./G.R. Area: D4; US-3*
- HIST 386 - Food and Justice in US History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 388 - US and California Environmental History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 392 - Migration and Modernization in 20th Century Mexico *Units: 3*

History: Skills Courses

- HIST 201 - Introduction to History *Units: 4*
- HIST 301 - Historical Writing *Units: 4 ; G.E./G.R. Area: UWSR*
- HIST 398 - Internship *Units: 1-3*
- HIST 400 - Historiography *Units: 4*
- HIST 405 - History Lab *Units: 1*
- HIST 409 - History Portfolio *Units: 1*
- HIST 499 - Thesis Capstone *Units: 4*

History: Additional Courses

- HIST 120 - Self and Story in World History *Units: 3 ; G.E./G.R. Area: D1-3*
- HIST 140 - Humanity, Science and Nature in History *Units: 3 ; G.E./G.R. Area: C2*
- HIST 410 - Internship in History *Units: 3*
- HIST 477 - History and Trends in Nursing *Units: 3 ; G.E./G.R. Area: C4*
- HIST 490 - Independent Study *Units: 3-4*
- HIST 497 - Issues in History *Units: 3*

Master

History, M.A.: Generalist Concentration

History, M.A. Program

Program Description

The Master of Arts degree in History is designed to meet the varied needs and interests of students seeking an advanced degree in history. The program educates students in advanced skills in historical research, writing, interpretation and research, and provides opportunities for training in teaching and public history. Four areas of concentration permit students to plan their coursework to best suit their goals within the overall program requirements and the range of courses offered. The program includes graduate course offerings in historical research and historiography, a portfolio course, reading seminars, graduate elective units, a scholarly practicum, and a culminating master's experience. Elective units may be taken in other fields with the approval of the History Graduate Coordinator. The Master's culminating experience may be a university thesis, examinations in major and minor fields, a public history project or a graduate teaching project, depending on the concentration chosen. Because the majority of students in the master's program are employed full-time during the day, graduate courses are offered in the evening, usually on a one-night-a-week basis, in fall and spring semesters. This schedule allows students time to complete regular assignments, carry on research, and make regular progress toward the M.A. degree.

Faculty

The History Department faculty includes specialists in Ancient, European, Asian, Latin American, U.S., U.S. West, and California history as well as the history of sustainability, the history of American diversity and social justice movements, world history, public history, and digital humanities. The full-time faculty are professional scholars, widely published in their respective fields and active in regional and national historical associations. The department has many years' experience in advising and training master's students in history.

Areas of Concentration

All History graduate students may complete their degrees with culminating examinations in a major and a minor field, selected in consultation with their graduate committees. Students may also choose one of three other areas of concentration: Teaching, Public History, or University Thesis. These concentrations are distinguished chiefly by their capstone projects, but the Teaching and Public History concentrations also include courses especially designed for the field. Students must apply to the department for permission to complete their programs in any of the four concentrations.

HIST 610 and 630

All graduate students are required to take HIST 610, Seminar in Historical Research, and HIST 630, Graduate Historiography. These two important seminars provide students with first-hand experience in primary source research in Bay Area collections and libraries and on the Internet, and with advanced knowledge of trends in the study of historical interpretation and writing, cross-cultural and interdisciplinary approaches to history, humanistic values in history and ethical standards. Students will take these two courses in their first year of study. Proficiency in information literacy is required for each course.

Reading Seminars

The reading seminars are courses in important and current historical scholarship in a specific subfield or topic. The topics of our reading courses will vary depending on the instructor, according to his or her specialty and interests. The goals of these courses are to enrich students' subject matter knowledge in a specific field, but, as importantly, to train them how to read, analyze, and critique works of academic history. As this are the goals of the reading courses in general, regardless of the students' or instructors' individual research interests, we have assigned one course number to the class.

Distinctive Features

The graduate degree offered at CSU East Bay is an M.A. in History, with the option to pursue different career tracks. Thus, students who are interested in teaching or public history, for example, will be educated as Historians, first and foremost, including training in archival research and historiography. Students are also exposed to, and encouraged to master, historical approaches for the digital age, thinking in fresh ways about pedagogy in the classroom and the public sphere. This is a key distinction of this program, and an important quality for the 21st century job market. Research opportunities in Bay Area and California history abound at the University of California, Berkeley; the Bancroft Library; the National Archives at San Bruno; and numerous private collections in the region. The University Library provides excellent reference, Internet, and interlibrary loan services and contains substantial print and microfilm holdings.

Career Opportunities

The master's program is especially suited to individuals interested in enhancing their careers as secondary school teachers, in qualifying as community college faculty, or training as historical editors, archivists, museum professionals and Bay Area or California historians. It is also useful for individuals interested in retraining for careers in history or in preparing for doctoral programs in history.

Admission Requirements

Admission to the master's program generally requires a B.A. degree major in History, or the equivalent, and a minimum GPA of 3.0 ("B") in the last two years of undergraduate work and 3.25 ("B+") in history. A one-page statement of purpose, a writing sample, and two letters of recommendation must accompany applications. Interested students with degrees in related disciplines, such as American Studies, Ethnic Studies, Political Science, Art or Theater History, and Literature, and suitable academic backgrounds in history are encouraged to apply but will be required to complete prerequisite coursework in history. Students without necessary background in research or writing may also be admitted to the program as "Conditionally Classified Graduate" students with the requirement that they complete HIST 400 and/or 401 at a specified grade level before being admitted to "Classified Graduate" status. Students meeting all admissions requirements and the University Writing Skills Requirement (UWSR) are eligible to be admitted as "Classified Graduate" students. Applicants should consult with the History Graduate Coordinator for advising. For information on meeting the required University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call 510.885.3661.

Student Standing and Progress Toward the Degree

There are three categories of student status, which reflect student progress toward the degree: "Conditionally Classified Graduate" student, "Classified Graduate" student, and Advancement to Candidacy.

1. Generally, students admitted to the program receive "Classified Graduate" status if they have the required background in Historical studies and have met the UWSR.
2. Certain students may be admitted as "Conditionally Classified Graduate" when they do not yet possess the required background in historical studies as determined by the Graduate Committee of the department and/or have not met the UWSR. Those students must complete specified coursework (generally HIST 400 and 401 and possibly additional prerequisites) and satisfy the UWSR in order to receive "Classified Graduate" status.
3. Students are Advanced to Candidacy when they have completed a minimum of 15 units of master's coursework with a 3.0 or better cumulative GPA, and satisfied the University Writing Skills requirement.

Program Learning Outcomes

Students graduating with an M.A. in History from Cal State East Bay will be able to:

1. demonstrate advanced knowledge of United States history and the history of at least one other geographical region;
2. analyze major arguments and themes in contemporary historiography, cross-cultural and interdisciplinary approaches to historical study, and humanistic values and evaluate their validity;
3. make use of Bay Area research libraries, archives, special collections, and digital sources;
4. analyze both secondary and primary sources, and demonstrate advanced research abilities;
5. develop and compose a major independent research project in history;
6. design an individual portfolio showcasing advanced historical work and create work suitable for publication or presentation in your chosen field;
7. identify the standards of academic integrity and attribution of sources, and apply the values of the historical profession, including ethics and standards for work in research libraries, on the Internet, at professional conferences, and at interviews for employment.

History Degree Requirements (30 units)

Prerequisites or Foundation Requirements

A strong undergraduate background in history or related fields is expected. Reading proficiency in a foreign language is strongly encouraged, especially for those planning to pursue doctoral degrees or research careers.

Core Courses

Complete the following 16 units:

- HIST 600 - Reading Seminar in History *Units: 4*
- HIST 610 - Research Seminar *Units: 4*
- HIST 630 - Graduate Historiography *Units: 4*
- HIST 651 - Graduate Portfolio *Units: 2*
- HIST 652 - Scholarly Practicum *Units: 2*

Concentrations

Students must select one (1) of the following concentrations for 8 units:

- History, M.A.: Generalist Concentration
- History, M.A.: Public History Concentration
- History, M.A.: Teaching History Concentration
- History, M.A.: University Thesis Concentration

Capstone Requirements

A capstone course is required to complete the degree. Take the following capstone for 6 units as outlined for each concentration:

- HIST 691 - University Thesis *Units: 6 (University Thesis Concentration)*
- HIST 692 - Comprehensive Exam Review *Units: 6 (Generalist Concentration)*
- HIST 699 - Departmental Thesis *Units: 6 (Public History and Teaching History Concentrations)*

Generalist Concentration

Students must complete the following course two (2) additional times for 8 units:

- HIST 600 - Reading Seminar in History *Units: 4 (x2 for 8 units)*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

History, M.A. Program

Program Description

The Master of Arts degree in History is designed to meet the varied needs and interests of students seeking an advanced degree in history. The program educates students in advanced skills in historical research, writing, interpretation and research, and provides opportunities for training in teaching and public history. Four areas of concentration permit students to plan their coursework to best suit their goals within the overall program requirements and the range of courses offered. The program includes graduate course offerings in historical research and historiography, a portfolio course, reading seminars, graduate elective units, a scholarly practicum, and a culminating master's experience. Elective units may be taken in other fields with the approval of the History Graduate Coordinator. The Master's culminating experience may be a university thesis, examinations in major and minor fields, a public history project or a graduate teaching project, depending on the concentration chosen. Because the majority of students in the master's program are employed full-time during the day, graduate courses are offered in the evening, usually on a one-night-a-week basis, in fall and spring semesters. This schedule allows students time to complete regular assignments, carry on research, and make regular progress toward the M.A. degree.

Faculty

The History Department faculty includes specialists in Ancient, European, Asian, Latin American, U.S., U.S. West, and California history as well as the history of sustainability, the history of American diversity and social justice movements, world history, public history, and digital humanities. The full-time faculty are professional scholars, widely published in their respective fields and active in regional and national historical associations. The department has many years' experience in advising and training master's students in history.

Areas of Concentration

All History graduate students may complete their degrees with culminating examinations in a major and a minor field, selected in consultation with their graduate committees. Students may also choose one of three other areas of concentration: Teaching, Public History, or University Thesis. These concentrations are distinguished chiefly by their capstone projects, but the Teaching and Public History concentrations also include courses especially designed for the field. Students must apply to the department for permission to complete their programs in any of the four concentrations.

HIST 610 and 630

All graduate students are required to take HIST 610, Seminar in Historical Research, and HIST 630, Graduate Historiography. These two important seminars provide students with first-hand experience in primary source research in Bay Area collections and libraries and on the Internet, and with advanced knowledge of trends in the study of historical interpretation and writing, cross-cultural and interdisciplinary approaches to history, humanistic values in history and ethical standards. Students will take these two courses in their first year of study. Proficiency in information literacy is required for each course.

Reading Seminars

The reading seminars are courses in important and current historical scholarship in a specific subfield or topic. The topics of our reading courses will vary depending on the instructor, according to his or her specialty and interests. The goals of these courses are to enrich students' subject matter knowledge in a specific field, but, as importantly, to train them how to read, analyze, and critique works of academic history. As this are the goals of the reading courses in general, regardless of the students' or instructors' individual research interests, we have assigned one course number to the class.

Distinctive Features

The graduate degree offered at CSU East Bay is an M.A. in History, with the option to pursue different career tracks. Thus, students who are interested in teaching or public history, for example, will be educated as Historians, first and foremost, including training in archival research and historiography. Students are also exposed to, and encouraged to master, historical approaches for the digital age, thinking in fresh ways about pedagogy in the classroom and the public sphere. This is a key distinction of this program, and an important quality for the 21st century job market. Research opportunities in Bay Area and California history abound at the University of California, Berkeley; the Bancroft Library; the National Archives at San Bruno; and numerous private collections in the region. The University Library provides excellent reference, Internet, and interlibrary loan services and contains substantial print and microfilm holdings.

Career Opportunities

The master's program is especially suited to individuals interested in enhancing their careers as secondary school teachers, in qualifying as community college faculty, or training as historical editors, archivists, museum professionals and Bay Area or California historians. It is also useful for individuals interested in retraining for careers in history or in preparing for doctoral programs in history.

Admission Requirements

Admission to the master's program generally requires a B.A. degree major in History, or the equivalent, and a minimum GPA of 3.0 ("B") in the last two years of undergraduate work and 3.25 ("B+") in history. A one-page statement of purpose, a writing sample, and two letters of recommendation must accompany applications. Interested students with degrees in related disciplines, such as American Studies, Ethnic Studies, Political Science, Art or Theater History, and Literature, and suitable academic backgrounds in history are encouraged to apply but will be required to complete prerequisite coursework in history. Students without necessary background in research or writing may also be admitted to the program as "Conditionally Classified Graduate" students with the requirement that they complete HIST 400 and/or 401 at a specified grade level before being admitted to "Classified Graduate" status. Students meeting all admissions requirements and the University Writing Skills Requirement (UWSR) are eligible to be admitted as "Classified Graduate" students. Applicants should consult with the History Graduate Coordinator for advising. For information on meeting the required University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call 510.885.3661.

Student Standing and Progress Toward the Degree

There are three categories of student status, which reflect student progress toward the degree: "Conditionally Classified Graduate" student, "Classified Graduate" student, and Advancement to Candidacy.

1. Generally, students admitted to the program receive "Classified Graduate" status if they have the required background in Historical studies and have met the UWSR.
2. Certain students may be admitted as "Conditionally Classified Graduate" when they do not yet possess the required background in historical studies as determined by the Graduate Committee of the department and/or have not met the UWSR. Those students must complete specified coursework (generally HIST 400 and 401 and possibly additional prerequisites) and satisfy the UWSR in order to receive "Classified Graduate" status.
3. Students are Advanced to Candidacy when they have completed a minimum of 15 units of master's coursework with a 3.0 or better cumulative GPA, and satisfied the University Writing Skills requirement.

Program Learning Outcomes

Students graduating with an M.A. in History from Cal State East Bay will be able to:

1. demonstrate advanced knowledge of United States history and the history of at least one other geographical region;
2. analyze major arguments and themes in contemporary historiography, cross-cultural and interdisciplinary approaches to historical study, and humanistic values and evaluate their validity;
3. make use of Bay Area research libraries, archives, special collections, and digital sources;

4. analyze both secondary and primary sources, and demonstrate advanced research abilities;
5. develop and compose a major independent research project in history;
6. design an individual portfolio showcasing advanced historical work and create work suitable for publication or presentation in your chosen field;
7. identify the standards of academic integrity and attribution of sources, and apply the values of the historical profession, including ethics and standards for work in research libraries, on the Internet, at professional conferences, and at interviews for employment.

History Degree Requirements (30 units)

Prerequisites or Foundation Requirements

A strong undergraduate background in history or related fields is expected. Reading proficiency in a foreign language is strongly encouraged, especially for those planning to pursue doctoral degrees or research careers.

Core Courses

Complete the following 16 units:

- HIST 600 - Reading Seminar in History *Units: 4*
- HIST 610 - Research Seminar *Units: 4*
- HIST 630 - Graduate Historiography *Units: 4*
- HIST 651 - Graduate Portfolio *Units: 2*
- HIST 652 - Scholarly Practicum *Units: 2*

Concentrations

Students must select one (1) of the following concentrations for 8 units:

- History, M.A.: Generalist Concentration
- History, M.A.: Public History Concentration
- History, M.A.: Teaching History Concentration
- History, M.A.: University Thesis Concentration

Capstone Requirements

A capstone course is required to complete the degree. Take the following capstone for 6 units as outlined for each concentration:

- HIST 691 - University Thesis *Units: 6 (University Thesis Concentration)*
- HIST 692 - Comprehensive Exam Review *Units: 6 (Generalist Concentration)*
- HIST 699 - Departmental Thesis *Units: 6 (Public History and Teaching History Concentrations)*

Public History Concentration

Students are required to complete 8 units from the following to fulfill the concentration:

- HIST 402 - Introduction to Public History *Units: 4 OR (with advisor permission)*
- HIST 403 - Introduction to Digital Historical Methods *Units: 4*

Plus, choose one (1) of the following courses:

- HIST 641 - Graduate Internship *Units: 4*
- HIST 642 - Public History Practicum *Units: 4*
- HIST 643 - Digital History Practicum *Units: 4*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

 - HIST 373 - The American Revolution *Units: 3*
 - HIST 374 - The Constitution and Its Times *Units: 3*
 - HIST 375 - Religion and Diversity in America *Units: 3 ; G.E./G.R. Area: C4*
 - HIST 376 - Destroying Slavery in the US Civil War *Units: 3*
 - HIST 378 - The Nineteenth Century in the US *Units: 3 ; G.E./G.R. Area: C4*
 - HIST 379 - Native North America *Units: 3*
 - HIST 381 - US Political History *Units: 3*
 - HIST 384 - Modern American Thought *Units: 3 ; G.E./G.R. Area: C4*
 - HIST 385 - Race and the Modern American Nation *Units: 3*
 - HIST 389 - Social Justice and Reform Movements in America *Units: 3 ; G.E./G.R. Area: D4;*
- Social Justice*
- HIST 393 - Revolutionary Thought in Latin America *Units: 3 ; G.E./G.R. Area: D4*

- HIST 461 - India Through Film *Units: 3*
- HIST 471 - History of the East Bay: Community Research and Engagement *Units: 3*
- HIST 472 - War and Peace in US History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 473 - Sexuality and Identity in US History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 474 - Women, Gender and Rights in US History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 479 - World War II: Global Warfront, Local Homefront *Units: 3 ; G.E./G.R. Area: D4*
- HIST 488 - Education and American Democracy *Units: 3 ; G.E./G.R. Area: C4*

History: Sustainability and Modernization

- HIST 277 - Science and Culture in the History of Medicine in the United States *Units: 3 ; G.E./G.R. Area: C2; Writing II*
- HIST 323 - Global Environmental History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 333 - Sustainability in the Ancient World *Units: 3 ; G.E./G.R. Area: C4; Sustainability*
- HIST 334 - Ancient Egyptian Civilization *Units: 3 ; G.E./G.R. Area: C4*
- HIST 337 - The Roman Republic *Units: 3 ; G.E./G.R. Area: C4*
- HIST 341 - The Birth of Europe *Units: 3 ; G.E./G.R. Area: C4*
- HIST 345 - Conflict and Expansion in Early Modern Europe *Units: 3*
- HIST 351 - Russia: Peter to the Present *Units: 3*
- HIST 365 - China: Origins to Mongol Conquest *Units: 3 ; G.E./G.R. Area: D4*
- HIST 366 - China: Ming Dynasty to Today *Units: 3 ; G.E./G.R. Area: C4*
- HIST 367 - Japan: Origins to Tokugawa *Units: 3 ; G.E./G.R. Area: C4*
- HIST 368 - Japan, Tokugawa to Today *Units: 3 ; G.E./G.R. Area: C4*
- HIST 369 - The Korean Peninsula *Units: 3 ; G.E./G.R. Area: C4*
- HIST 371 - North America: 1492-1850 *Units: 3 ; G.E./G.R. Area: C4*
- HIST 377 - The Birth of American Popular Culture *Units: 3*
- HIST 382 - California and the World *Units: 3 ; G.E./G.R. Area: D4; US-3*
- HIST 386 - Food and Justice in US History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 388 - US and California Environmental History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 392 - Migration and Modernization in 20th Century Mexico *Units: 3*

History: Skills Courses

- HIST 201 - Introduction to History *Units: 4*
- HIST 301 - Historical Writing *Units: 4 ; G.E./G.R. Area: UWSR*
- HIST 398 - Internship *Units: 1-3*
- HIST 400 - Historiography *Units: 4*
- HIST 405 - History Lab *Units: 1*
- HIST 409 - History Portfolio *Units: 1*
- HIST 499 - Thesis Capstone *Units: 4*

History: Additional Courses

- HIST 120 - Self and Story in World History *Units: 3 ; G.E./G.R. Area: D1-3*
- HIST 140 - Humanity, Science and Nature in History *Units: 3 ; G.E./G.R. Area: C2*
- HIST 410 - Internship in History *Units: 3*
- HIST 477 - History and Trends in Nursing *Units: 3 ; G.E./G.R. Area: C4*
- HIST 490 - Independent Study *Units: 3-4*
- HIST 497 - Issues in History *Units: 3*

History, M.A.: Teaching History Concentration

History, M.A. Program

Program Description

The Master of Arts degree in History is designed to meet the varied needs and interests of students seeking an advanced degree in history. The program educates students in advanced skills in historical research, writing, interpretation and research, and provides opportunities for training in teaching and public history. Four areas of concentration permit students to plan their coursework to best suit their goals within the overall program requirements and the range of courses offered. The program includes graduate course offerings in historical research and historiography, a portfolio course, reading seminars, graduate elective units, a scholarly practicum, and a culminating master's experience. Elective units may be taken in other fields with the approval of the History Graduate Coordinator. The Master's culminating experience may be a university thesis, examinations in major and minor fields, a public history project or a graduate teaching project, depending on the concentration chosen. Because the majority of students in the master's program are employed full-time during the day, graduate courses are offered in the evening, usually on a one-night-a-week basis, in fall and spring semesters. This schedule allows students time to complete regular assignments, carry on research, and make regular progress toward the M.A. degree.

Faculty

The History Department faculty includes specialists in Ancient, European, Asian, Latin American, U.S., U.S. West, and California history as well as the history of sustainability, the history of American diversity and social justice movements, world history, public history, and digital humanities. The full-time faculty are professional scholars, widely published in their respective fields and active in regional and national historical associations. The department has many years' experience in advising and training master's students in history.

Areas of Concentration

All History graduate students may complete their degrees with culminating examinations in a major and a minor field, selected in consultation with their graduate committees. Students may also choose one of three other areas of concentration: Teaching, Public History, or University Thesis. These concentrations are distinguished chiefly by their capstone projects, but the Teaching and Public History concentrations also include courses especially designed for the field. Students must apply to the department for permission to complete their programs in any of the four concentrations.

HIST 610 and 630

All graduate students are required to take HIST 610, Seminar in Historical Research, and HIST 630, Graduate Historiography. These two important seminars provide students with first-hand experience in primary source research in Bay Area collections and libraries and on the Internet, and with advanced knowledge of trends in the study of historical interpretation and writing, cross-cultural and interdisciplinary approaches to history, humanistic values in history and ethical standards. Students will take these two courses in their first year of study. Proficiency in information literacy is required for each course.

Reading Seminars

The reading seminars are courses in important and current historical scholarship in a specific subfield or topic. The topics of our reading courses will vary depending on the instructor, according to his or her

specialty and interests. The goals of these courses are to enrich students' subject matter knowledge in a specific field, but, as importantly, to train them how to read, analyze, and critique works of academic history. As this are the goals of the reading courses in general, regardless of the students' or instructors' individual research interests, we have assigned one course number to the class.

Distinctive Features

The graduate degree offered at CSU East Bay is an M.A. in History, with the option to pursue different career tracks. Thus, students who are interested in teaching or public history, for example, will be educated as Historians, first and foremost, including training in archival research and historiography. Students are also exposed to, and encouraged to master, historical approaches for the digital age, thinking in fresh ways about pedagogy in the classroom and the public sphere. This is a key distinction of this program, and an important quality for the 21st century job market. Research opportunities in Bay Area and California history abound at the University of California, Berkeley; the Bancroft Library; the National Archives at San Bruno; and numerous private collections in the region. The University Library provides excellent reference, Internet, and interlibrary loan services and contains substantial print and microfilm holdings.

Career Opportunities

The master's program is especially suited to individuals interested in enhancing their careers as secondary school teachers, in qualifying as community college faculty, or training as historical editors, archivists, museum professionals and Bay Area or California historians. It is also useful for individuals interested in retraining for careers in history or in preparing for doctoral programs in history.

Admission Requirements

Admission to the master's program generally requires a B.A. degree major in History, or the equivalent, and a minimum GPA of 3.0 ("B") in the last two years of undergraduate work and 3.25 ("B+") in history. A one-page statement of purpose, a writing sample, and two letters of recommendation must accompany applications. Interested students with degrees in related disciplines, such as American Studies, Ethnic Studies, Political Science, Art or Theater History, and Literature, and suitable academic backgrounds in history are encouraged to apply but will be required to complete prerequisite coursework in history. Students without necessary background in research or writing may also be admitted to the program as "Conditionally Classified Graduate" students with the requirement that they complete HIST 400 and/or 401 at a specified grade level before being admitted to "Classified Graduate" status. Students meeting all admissions requirements and the University Writing Skills Requirement (UWSR) are eligible to be admitted as "Classified Graduate" students. Applicants should consult with the History Graduate Coordinator for advising. For information on meeting the required University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call 510.885.3661.

Student Standing and Progress Toward the Degree

There are three categories of student status, which reflect student progress toward the degree: "Conditionally Classified Graduate" student, "Classified Graduate" student, and Advancement to Candidacy.

1. Generally, students admitted to the program receive "Classified Graduate" status if they have the required background in Historical studies and have met the UWSR.

2. Certain students may be admitted as "Conditionally Classified Graduate" when they do not yet possess the required background in historical studies as determined by the Graduate Committee of the department and/or have not met the UWSR. Those students must complete specified coursework (generally HIST 400 and 401 and possibly additional prerequisites) and satisfy the UWSR in order to receive "Classified Graduate" status.
3. Students are Advanced to Candidacy when they have completed a minimum of 15 units of master's coursework with a 3.0 or better cumulative GPA, and satisfied the University Writing Skills requirement.

Program Learning Outcomes

Students graduating with an M.A. in History from Cal State East Bay will be able to:

1. demonstrate advanced knowledge of United States history and the history of at least one other geographical region;
2. analyze major arguments and themes in contemporary historiography, cross-cultural and interdisciplinary approaches to historical study, and humanistic values and evaluate their validity;
3. make use of Bay Area research libraries, archives, special collections, and digital sources;
4. analyze both secondary and primary sources, and demonstrate advanced research abilities;
5. develop and compose a major independent research project in history;
6. design an individual portfolio showcasing advanced historical work and create work suitable for publication or presentation in your chosen field;
7. identify the standards of academic integrity and attribution of sources, and apply the values of the historical profession, including ethics and standards for work in research libraries, on the Internet, at professional conferences, and at interviews for employment.

History Degree Requirements (30 units)

Prerequisites or Foundation Requirements

A strong undergraduate background in history or related fields is expected. Reading proficiency in a foreign language is strongly encouraged, especially for those planning to pursue doctoral degrees or research careers.

Core Courses

Complete the following 16 units:

- HIST 600 - Reading Seminar in History *Units: 4*
- HIST 610 - Research Seminar *Units: 4*
- HIST 630 - Graduate Historiography *Units: 4*
- HIST 651 - Graduate Portfolio *Units: 2*
- HIST 652 - Scholarly Practicum *Units: 2*

Concentrations

Students must select one (1) of the following concentrations for 8 units:

- History, M.A.: Generalist Concentration

- History, M.A.: Public History Concentration
- History, M.A.: Teaching History Concentration
- History, M.A.: University Thesis Concentration

Capstone Requirements

A capstone course is required to complete the degree. Take the following capstone for 6 units as outlined for each concentration:

- HIST 691 - University Thesis *Units: 6 (University Thesis Concentration)*
- HIST 692 - Comprehensive Exam Review *Units: 6 (Generalist Concentration)*
- HIST 699 - Departmental Thesis *Units: 6 (Public History and Teaching History Concentrations)*

Teaching History Concentration

Students are required to complete 8 units from the following to fulfill the concentration:

- HIST 600 - Reading Seminar in History *Units: 4*

Plus, one (1) from the following:

- HIST 404 - Introduction to Teaching of History *Units: 4*
- HIST 644 - Teaching History Practicum *Units: 4*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

- HIST 477 - History and Trends in Nursing *Units: 3 ; G.E./G.R. Area: C4*
- HIST 490 - Independent Study *Units: 3-4*
- HIST 497 - Issues in History *Units: 3*

History, M.A.: University Thesis Concentration

History, M.A. Program

Program Description

The Master of Arts degree in History is designed to meet the varied needs and interests of students seeking an advanced degree in history. The program educates students in advanced skills in historical research, writing, interpretation and research, and provides opportunities for training in teaching and public history. Four areas of concentration permit students to plan their coursework to best suit their goals within the overall program requirements and the range of courses offered. The program includes graduate course offerings in historical research and historiography, a portfolio course, reading seminars, graduate elective units, a scholarly practicum, and a culminating master's experience. Elective units may be taken in other fields with the approval of the History Graduate Coordinator. The Master's culminating experience may be a university thesis, examinations in major and minor fields, a public history project or a graduate teaching project, depending on the concentration chosen. Because the majority of students in the master's program are employed full-time during the day, graduate courses are offered in the evening, usually on a one-night-a-week basis, in fall and spring semesters. This schedule allows students time to complete regular assignments, carry on research, and make regular progress toward the M.A. degree.

Faculty

The History Department faculty includes specialists in Ancient, European, Asian, Latin American, U.S., U.S. West, and California history as well as the history of sustainability, the history of American diversity and social justice movements, world history, public history, and digital humanities. The full-time faculty are professional scholars, widely published in their respective fields and active in regional and national historical associations. The department has many years' experience in advising and training master's students in history.

Areas of Concentration

All History graduate students may complete their degrees with culminating examinations in a major and a minor field, selected in consultation with their graduate committees. Students may also choose one of three other areas of concentration: Teaching, Public History, or University Thesis. These concentrations are distinguished chiefly by their capstone projects, but the Teaching and Public History concentrations also include courses especially designed for the field. Students must apply to the department for permission to complete their programs in any of the four concentrations.

HIST 610 and 630

All graduate students are required to take HIST 610, Seminar in Historical Research, and HIST 630, Graduate Historiography. These two important seminars provide students with first-hand experience in primary source research in Bay Area collections and libraries and on the Internet, and with advanced knowledge of trends in the study of historical interpretation and writing, cross-cultural and interdisciplinary approaches to history, humanistic values in history and ethical standards. Students will take these two courses in their first year of study. Proficiency in information literacy is required for each course.

Reading Seminars

The reading seminars are courses in important and current historical scholarship in a specific subfield or topic. The topics of our reading courses will vary depending on the instructor, according to his or her specialty and interests. The goals of these courses are to enrich students' subject matter knowledge in a specific field, but, as importantly, to train them how to read, analyze, and critique works of academic history. As this are the goals of the reading courses in general, regardless of the students' or instructors' individual research interests, we have assigned one course number to the class.

Distinctive Features

The graduate degree offered at CSU East Bay is an M.A. in History, with the option to pursue different career tracks. Thus, students who are interested in teaching or public history, for example, will be educated as Historians, first and foremost, including training in archival research and historiography. Students are also exposed to, and encouraged to master, historical approaches for the digital age, thinking in fresh ways about pedagogy in the classroom and the public sphere. This is a key distinction of this program, and an important quality for the 21st century job market. Research opportunities in Bay Area and California history abound at the University of California, Berkeley; the Bancroft Library; the National Archives at San Bruno; and numerous private collections in the region. The University Library provides excellent reference, Internet, and interlibrary loan services and contains substantial print and microfilm holdings.

Career Opportunities

The master's program is especially suited to individuals interested in enhancing their careers as secondary school teachers, in qualifying as community college faculty, or training as historical editors, archivists, museum professionals and Bay Area or California historians. It is also useful for individuals interested in retraining for careers in history or in preparing for doctoral programs in history.

Admission Requirements

Admission to the master's program generally requires a B.A. degree major in History, or the equivalent, and a minimum GPA of 3.0 ("B") in the last two years of undergraduate work and 3.25 ("B+") in history. A one-page statement of purpose, a writing sample, and two letters of recommendation must accompany applications. Interested students with degrees in related disciplines, such as American Studies, Ethnic Studies, Political Science, Art or Theater History, and Literature, and suitable academic backgrounds in history are encouraged to apply but will be required to complete prerequisite coursework in history. Students without necessary background in research or writing may also be admitted to the program as

"Conditionally Classified Graduate" students with the requirement that they complete HIST 400 and/or 401 at a specified grade level before being admitted to "Classified Graduate" status. Students meeting all admissions requirements and the University Writing Skills Requirement (UWSR) are eligible to be admitted as "Classified Graduate" students. Applicants should consult with the History Graduate Coordinator for advising. For information on meeting the required University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call 510.885.3661.

Student Standing and Progress Toward the Degree

There are three categories of student status, which reflect student progress toward the degree: "Conditionally Classified Graduate" student, "Classified Graduate" student, and Advancement to Candidacy.

1. Generally, students admitted to the program receive "Classified Graduate" status if they have the required background in Historical studies and have met the UWSR.
2. Certain students may be admitted as "Conditionally Classified Graduate" when they do not yet possess the required background in historical studies as determined by the Graduate Committee of the department and/or have not met the UWSR. Those students must complete specified coursework (generally HIST 400 and 401 and possibly additional prerequisites) and satisfy the UWSR in order to receive "Classified Graduate" status.
3. Students are Advanced to Candidacy when they have completed a minimum of 15 units of master's coursework with a 3.0 or better cumulative GPA, and satisfied the University Writing Skills requirement.

Program Learning Outcomes

Students graduating with an M.A. in History from Cal State East Bay will be able to:

1. demonstrate advanced knowledge of United States history and the history of at least one other geographical region;
2. analyze major arguments and themes in contemporary historiography, cross-cultural and interdisciplinary approaches to historical study, and humanistic values and evaluate their validity;
3. make use of Bay Area research libraries, archives, special collections, and digital sources;
4. analyze both secondary and primary sources, and demonstrate advanced research abilities;
5. develop and compose a major independent research project in history;
6. design an individual portfolio showcasing advanced historical work and create work suitable for publication or presentation in your chosen field;
7. identify the standards of academic integrity and attribution of sources, and apply the values of the historical profession, including ethics and standards for work in research libraries, on the Internet, at professional conferences, and at interviews for employment.

History Degree Requirements (30 units)

Prerequisites or Foundation Requirements

A strong undergraduate background in history or related fields is expected. Reading proficiency in a foreign language is strongly encouraged, especially for those planning to pursue doctoral degrees or research careers.

Core Courses

Complete the following 16 units:

- HIST 600 - Reading Seminar in History *Units: 4*
- HIST 610 - Research Seminar *Units: 4*
- HIST 630 - Graduate Historiography *Units: 4*
- HIST 651 - Graduate Portfolio *Units: 2*
- HIST 652 - Scholarly Practicum *Units: 2*

Concentrations

Students must select one (1) of the following concentrations for 8 units:

- History, M.A.: Generalist Concentration
- History, M.A.: Public History Concentration
- History, M.A.: Teaching History Concentration
- History, M.A.: University Thesis Concentration

Capstone Requirements

A capstone course is required to complete the degree. Take the following capstone for 6 units as outlined for each concentration:

- HIST 691 - University Thesis *Units: 6 (University Thesis Concentration)*
- HIST 692 - Comprehensive Exam Review *Units: 6 (Generalist Concentration)*
- HIST 699 - Departmental Thesis *Units: 6 (Public History and Teaching History Concentrations)*

University Thesis Concentration

Students must complete the following course two (2) additional times for 8 units:

- HIST 600 - Reading Seminar in History *Units: 4 (x2 for 8 units)*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

- HIST 334 - Ancient Egyptian Civilization *Units: 3 ; G.E./G.R. Area: C4*
- HIST 337 - The Roman Republic *Units: 3 ; G.E./G.R. Area: C4*
- HIST 341 - The Birth of Europe *Units: 3 ; G.E./G.R. Area: C4*
- HIST 345 - Conflict and Expansion in Early Modern Europe *Units: 3*
- HIST 351 - Russia: Peter to the Present *Units: 3*
- HIST 365 - China: Origins to Mongol Conquest *Units: 3 ; G.E./G.R. Area: D4*
- HIST 366 - China: Ming Dynasty to Today *Units: 3 ; G.E./G.R. Area: C4*
- HIST 367 - Japan: Origins to Tokugawa *Units: 3 ; G.E./G.R. Area: C4*
- HIST 368 - Japan, Tokugawa to Today *Units: 3 ; G.E./G.R. Area: C4*
- HIST 369 - The Korean Peninsula *Units: 3 ; G.E./G.R. Area: C4*

- HIST 371 - North America: 1492-1850 *Units: 3 ; G.E./G.R. Area: C4*
- HIST 377 - The Birth of American Popular Culture *Units: 3*
- HIST 382 - California and the World *Units: 3 ; G.E./G.R. Area: D4; US-3*
- HIST 386 - Food and Justice in US History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 388 - US and California Environmental History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 392 - Migration and Modernization in 20th Century Mexico *Units: 3*

History: Skills Courses

- HIST 201 - Introduction to History *Units: 4*
- HIST 301 - Historical Writing *Units: 4 ; G.E./G.R. Area: UWSR*
- HIST 398 - Internship *Units: 1-3*
- HIST 400 - Historiography *Units: 4*
- HIST 405 - History Lab *Units: 1*
- HIST 409 - History Portfolio *Units: 1*
- HIST 499 - Thesis Capstone *Units: 4*

History: Additional Courses

- HIST 120 - Self and Story in World History *Units: 3 ; G.E./G.R. Area: D1-3*
- HIST 140 - Humanity, Science and Nature in History *Units: 3 ; G.E./G.R. Area: C2*
- HIST 410 - Internship in History *Units: 3*
- HIST 477 - History and Trends in Nursing *Units: 3 ; G.E./G.R. Area: C4*
- HIST 490 - Independent Study *Units: 3-4*
- HIST 497 - Issues in History *Units: 3*

Minor

History Minor

Minor Requirements (19-23 units)

Required Lower Division

Take the following 9-10 units as outlined:

- HIST 101 - World History I *Units: 3 ; G.E./G.R. Area: C2*
- HIST 102 - World History II *Units: 3 ; G.E./G.R. Area: C2*
- HIST 201 - Introduction to History *Units: 4*
OR any HIST elective may be substituted for HIST 201.

Required Upper Division

Take 10-13 units as outlined below:

Students minoring in History must take at least three (3) upper division content courses in History, one from each area of concentration (Migration and Globalization, Sustainability and Modernization, and Social Justice and Citizenships) plus HIST 405. The content course numbers are HIST 320-394, and HIST 461-490.

Students who took HIST 201 in their lower division core may also select from:

- HIST 402 - Introduction to Public History *Units: 4*
- HIST 403 - Introduction to Digital Historical Methods *Units: 4*
- HIST 404 - Introduction to Teaching of History *Units: 4*

All History Minor students must also take the following for 1 unit:

- HIST 405 - History Lab *Units: 1*

- HIST 497 - Issues in History *Units: 3*

Certificate

Public History Certificate

The Public History certificate is designed for students with an interest in pursuing a career in Public History. It is designed with the History major in mind, but is open to all students. Students are exposed to the issues of presenting history to a public audience, and also acquire practical skills through coursework that will help build their professional portfolio. The certificate requires a total of 22 units.

Certificate Requirements (22 units)

Public History Core

Take the following 19 units:

- HIST 201 - Introduction to History *Units: 4*
- HIST 402 - Introduction to Public History *Units: 4*
- HIST 403 - Introduction to Digital Historical Methods *Units: 4*
- HIST 410 - Internship in History *Units: 3*
- HIST 471 - History of the East Bay: Community Research and Engagement *Units: 3*

Practical Skills Applications Course

Students are required to take at least 3 units of a "practical application" course outside of the department, in addition to the courses listed above.

The courses below may have pre-requisites. Consult department. Other courses may fulfill the requirement with permission of the Public History Coordinator.

- ART 101 - Photography I *Units: 3 ; G.E./G.R. Area: C1*
- ART 102 - 2D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 103 - 3D Processes *Units: 3 ; G.E./G.R. Area: C1*
- ART 152 - Web Design I: Foundations *Units: 3*
- COMM 260 - Documentary Film Studies *Units: 3 ; G.E./G.R. Area: C2*
- COMM 335 - Visual and Multimedia Storytelling I *Units: 2*
- COMM 369 - Documentary History and Theory Abroad *Units: 4 ; G.E./G.R. Area: C4*
- ENVT 320 - Environmental Resource Analysis *Units: 4*
- GEOL 460 - Geographic Information Systems for Earth and Environmental Sciences *Units: 4*

- HIST 497 - Issues in History *Units: 3*

Single Subject Matter Preparation Program

Social Science Single Subject Matter Preparation Program

The 65-66 unit Single Subject Matter Preparation Program in Social Science is designed for students wishing to earn a Single Subject Teaching Credential in Social Science following the award of their bachelor's degree. Students who successfully complete this program of study will be able to verify their subject matter competence as part of their teaching qualifications and will not be required to take the California Subject Examinations for Teachers for Social Science, also known as the CSET tests. A Single Subject Teaching Credential is required in addition to completion of this program for those wishing to teach in middle or high schools. This program has been approved by the California Commission on Teacher Credentialing (CTC).

Completion of the Single Subject Matter Preparation Program in Social Science is certified by the Department of History. The program may be completed by students in any major, but overlaps major requirements in several Social Science fields, including History, Political Science, Ethnic Studies, Geography, Sociology, and Economics. For additional information, contact the Single Subject Matter Preparation Program advisor in the Department of History: Student and Faculty Support Building (SF), Room 442, or <http://www.csueastbay.edu/class/departments/history/>

Note: No more than six (6) units may be taken on a Credit/No Credit basis. No more than six (6) units with a grade below "C" may be submitted in fulfillment of any program requirement. To successfully complete the program, a student must have a minimum 2.5 cumulative GPA. Students must successfully complete the Assessment Capstone (History 404) in the final year of their participation in the program.

Core Curriculum

All of the following 33 units of core coursework are required:

American Government

All courses required:

- POSC 101 - American Political Institutions *Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-2*
- POSC 102 - Public Policy/California Politics *Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-3*

California History

All courses required:

- HIST 382 - California and the World *Units: 3 ; G.E./G.R. Area: D4; US-3*

Economics

All courses required:

- **ECON 200 - Principles of Microeconomics** *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- **ECON 205 - Principles of Macroeconomics** *Units: 3 ; G.E./G.R. Area: D1-3*

U.S. History and Geography

All courses required:

- **GEOG 330 - Historical Geography of North America** *Units: 3 ; G.E./G.R. Area: D4*
- **HIST 110 - The United States to 1877** *Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-2*
- **HIST 111 - The United States Since 1877** *Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-3*

World History and Geography

All courses required:

- **GEOG 120 - Human Geography: Diversity and Globalization** *Units: 3 ; G.E./G.R. Area: D1-3*
- **HIST 101 - World History I** *Units: 3 ; G.E./G.R. Area: C2*
- **HIST 102 - World History II** *Units: 3 ; G.E./G.R. Area: C2*

Breadth and Perspectives

The following 28-29 units of breadth and perspectives coursework are required:

American Democracy I

Select one (1) course from the following:

- **HIST 373 - The American Revolution** *Units: 3*
- **HIST 376 - Destroying Slavery in the US Civil War** *Units: 3*
- **HIST 378 - The Nineteenth Century in the US** *Units: 3 ; G.E./G.R. Area: C4*

American Democracy II

Select one (1) course from the following:

- **HIST 385 - Race and the Modern American Nation** *Units: 3*
- **HIST 389 - Social Justice and Reform Movements in America** *Units: 3 ; G.E./G.R. Area: D4; Social Justice*
- **HIST 472 - War and Peace in US History** *Units: 3 ; G.E./G.R. Area: C4*
- **HIST 479 - World War II: Global Warfront, Local Homefront** *Units: 3 ; G.E./G.R. Area: D4*

American Democracy III

Select one (1) course from the following:

- POSC 311 - The American Presidency *Units: 3*
- POSC 314 - State and Local Politics and Government *Units: 3*
- POSC 316 - Politics of California *Units: 3*
- POSC 340 - Law and Society *Units: 3 ; G.E./G.R. Area: C4*
- POSC 341 - American Constitutional Law: Government *Units: 3*
- POSC 342 - American Constitutional Law: Rights *Units: 3*

American Diversity

Select one (1) course from the following:

- ES 200 - Race and Resistance *Units: 3 ; G.E./G.R. Area: C1; Diversity*
- ES 320 - The Chicano/a Movement *Units: 3 ; G.E./G.R. Area: D4*
- ES 324 - Latin American Immigration *Units: 3 ; G.E./G.R. Area: C4; Diversity*
- ES 341 - Enslavement and Resistance in the Americas *Units: 3 ; G.E./G.R. Area: D4; Diversity*
- HIST 387 - Immigration and the Contested American Identity *Units: 3 ; G.E./G.R. Area: C4*
- HIST 473 - Sexuality and Identity in US History *Units: 3 ; G.E./G.R. Area: C4*
- HIST 474 - Women, Gender and Rights in US History *Units: 3 ; G.E./G.R. Area: C4*
- POSC 335 - Women and Politics *Units: 3*
- POSC 336 - Ethnic and Minority Politics *Units: 3*
- POSC 337 - African American Politics *Units: 3*
- SOC 325 - Race and Ethnic Relations *Units: 4 ; G.E./G.R. Area: Diversity*
- SOC 320 - Social Inequalities *Units: 4 ; G.E./G.R. Area: Social Justice*

Global Perspectives I

Select one (1) course from the following:

- GEOG 352 - Latin America and the Caribbean *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 353 - Africa *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 354 - China: Economic Development and Social Transformation *Units: 3 ; G.E./G.R. Area: D4*
- GEOG 355 - Asia Pacific *Units: 3 ; G.E./G.R. Area: D4*

Global Perspectives II

Select one (1) course from the following:

- HIST 322 - Warfare, Genocide, Terrorism: Globalization Through Conflict Since 1914 *Units: 3 ; G.E./G.R. Area: C4*
- HIST 328 - 20th Century World *Units: 3 ; G.E./G.R. Area: C4*
- HIST 351 - Russia: Peter to the Present *Units: 3*

- HIST 352 - Modern Europe: Unity and Diversity *Units: 3 ; G.E./G.R. Area: C4*

Global Perspectives III

Select one (1) course from the following:

- HIST 362 - Modern South Asia *Units: 3 ; G.E./G.R. Area: C4*
- HIST 364 - The Modern Middle East *Units: 3 ; G.E./G.R. Area: C4*
- HIST 366 - China: Ming Dynasty to Today *Units: 3 ; G.E./G.R. Area: C4*
- HIST 368 - Japan, Tokugawa to Today *Units: 3 ; G.E./G.R. Area: C4*
- HIST 369 - The Korean Peninsula *Units: 3 ; G.E./G.R. Area: C4*
- HIST 393 - Revolutionary Thought in Latin America *Units: 3 ; G.E./G.R. Area: D4*

Historiography and Research Methods

The following course is required:

- HIST 301 - Historical Writing *Units: 4 ; G.E./G.R. Area: UWSR*

History/Social Science Teaching

The following course is required:

- TED 302 - Introduction to Teaching *Units: 3*

Assessment Capstone

The following 4 unit assessment capstone, to be completed in the final year of the program, is required:

- HIST 404 - Introduction to Teaching of History *Units: 4*

Department of Hospitality, Recreation and Tourism

The Department Office is located on the 1st Floor of the PE building, Room 130.

Hours Open: 8:00 am to 5:00 pm Monday through Friday.

Dept. Phone: (510) 885-3043

Faculty

Professors

Christopher Chamberlain (Chair), D.M. University of Phoenix

Mary F. Fortune, Ed.D. University of San Francisco

Zaher Hallab, Ph.D. Virginia Polytechnic Institute and State University

Doris D. Yates, Ph.D. Michigan State University

Associate Professors

Nancy B. White, Ph.D. University of New Mexico

Assistant Professors

Saehya Ann, Ph.D. Texas Tech University

Erick Kong, Ed.D. Alliant University

Thomas Padron, Ph.D. Capella University

Heather Vilhauer, Ed.D. University of San Francisco

Semih Yilmaz, Ph.D. University of Florida

Lecturers

Kenneth L. Hanley, M.S. California State University, Hayward

Margaret Zeiger, M.S. Golden Gate University

Janeen Hill, M.S. Guelph University (Canada)

Lisa Smusz, M.F.T. California State University, East Bay

Mission Statement

Our mission is to educate and prepare leaders who contribute to the quality of life of individuals and our communities, both locally and globally, through Hospitality, Recreation and Tourism.

Bachelor

Recreation, B.S.: Sustainability Concentration

Recreation, B.S. Program (120 units)

Program Description

The Recreation degree prepares students for leadership positions in public recreation and leisure services agencies. Such work enhances the quality of life for millions of people each day across the nation. Specializations available in the degree include the Sustainability Concentration, Youth Development Programming Concentration, and a Recreation Therapy Concentration that prepares students to sit for the state RT licensing exam.

Potential jobs in this rewarding field include program coordinators, supervisors and directors in a variety of areas including day camps, sports, youth, teen and older adult activities and classes and naturalist, park ranger positions. Many graduates from our program are leaders in leisure services organizations including Concord, Livermore, Oakland, Pleasanton, San Ramon, and the East Bay Regional Park District.

The Recreation Therapy Concentration is designed to prepare students to work as allied health professionals with people who have special needs in clinical, residential, and community-based agencies. This option is specifically designed to meet the standards developed by the National Council for Therapeutic Recreation Certification (NCTRC) and the California Board of Recreation and Park Certification for Recreation Therapy. Successfully completing this curriculum will provide students with knowledge competencies necessary to qualify for both the National and State Therapeutic Recreation Certification Exams.

Many graduates of this option are leaders in Recreation Therapy in the San Francisco Bay Area. They work in varied locations such as rehabilitation hospitals, drug treatment programs, mental health clinics and inpatient programs, state hospitals, long term care facilities, prisons and schools.

Program Learning Outcomes

Students who graduate with a B.S. in Recreation will be able to:

1. Explain effective and sustainable solutions based on evidence to address challenges faced in the provision of recreation programs and services, management of facilities and stewardship of natural resources.
2. Identify effective leadership and teamwork strategies, management skills, methods to evaluate service quality and meet consumer needs in recreation management.
3. Articulate clearly in both written and oral formats the ethical, philosophical, historical, and administrative foundations of the recreation profession.
4. Identify techniques that contribute to a culture of dignity and respect in the recreation management profession.

Students who graduate with a B.S. in Recreation Management with a Recreation Therapy Concentration will be able to:

1. Explain stages of human development, principles of behavioral change, and models for delivery of recreation therapy programs and services.
2. Identify effective leadership and teamwork strategies, standards of practice, assessment techniques and documentation requirements in recreation therapy.
3. Articulate clearly in both written and oral formats the ethical, philosophical, historical, and administrative foundations of the recreation therapy profession.

4. Identify techniques that contribute to a culture of dignity and respect in the recreation therapy profession, based on principles of access, inclusion, and independence.

Degree Requirements Unit-Outline

- A baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 61-70 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0-2 units (*actual number of free elective units may depend on*

GE/GR units).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Recreation Major Requirements (63-69 units)

Core Courses

The Recreation Management Core is 35 units of specific courses that lay a broad foundation in the recreation/leisure industry, including a 400 hour internship. Students taking the Recreation Therapy Concentration will have a 600 hour internship to complete. In addition, students will take elective courses, if needed, to complete the degree.

- HOS 100 - Professional Preparation *Units: 2*
- HOS 300 - Marketing in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- HOS 400 - Introduction to Finance in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- HOS 450 - Data-Driven Decision Making in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- REC 100 - Introduction to Hospitality and Tourism, Recreation, and Recreation Therapy *Units: 3 ; G.E./G.R. Area: D1-3*
- REC 200 - Serving Diverse Populations in Hospitality, Recreation, Rec Therapy and Tourism *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- REC 215 - Special Events in Recreation *Units: 3*
- REC 230 - Introduction to Youth Development *Units: 3 ; G.E./G.R. Area: D1-3*
- REC 325 - Leadership, Management and Ethics in Hospitality, Recreation, Rec Therapy, and Tourism *Units: 3*
- REC 340 - Sustainable Facilities, Parks and Open Space *Units: 3 ; G.E./G.R. Area: Sustainability*
- REC 400 - Law, Risk and Regulation in Hospitality, Recreation, Rec Therapy, and Tourism *Units: 3*
- REC 425 - Strategic Positioning in Recreation *Units: 3*

Concentrations

To complete the Recreation Management major students must choose either one (1) of the following concentrations or 26 units of pre-approved electives:

- Recreation, B.S. (Available Online) (26 units of pre-approved electives)
- Recreation, B.S.: Recreation Therapy Concentration (Available Online) (33 units)
- Recreation, B.S.: Sustainability Concentration (26 units)
- Recreation, B.S.: Youth Development Programming Concentration (26 units)

Capstone Requirement

Choose the internship placement appropriate to the concentration as indicated for 1 or 2 units:

- REC 475 - Internship Placement *Units: 2 (all other concentrations)*
- REC 476 - Recreation Therapy Internship Placement *Units: 1*

Sustainability Concentration

The Recreation Management concentration in Sustainability is 26 units. This concentration is ideal for those who wish to work in the sustainable tourism development or community sustainable industry.

- HOS 230 - Sustainable Global Tourism Development *Units: 3 ; G.E./G.R. Area: D1-3; Sustainability*
- REC 110 - Foundations of Sustainability in Hospitality, Recreation and Tourism *Units: 3 ; G.E./G.R. Area: Sustainability*
- REC 355 - Community Sustainability in Hospitality, Recreation and Tourism *Units: 3*
- REC 475 - Internship Placement *Units: 2*
- REC 480 - Internship *Units: 3-6 (see Errata section for changes to this course)*
- Plus take an additional 9-12 units of electives approved by your advisor.

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Recreation, B.S.: Youth Development Programming Concentration

Recreation, B.S. Program (120 units)

Program Description

The Recreation degree prepares students for leadership positions in public recreation and leisure services agencies. Such work enhances the quality of life for millions of people each day across the nation. Specializations available in the degree include the Sustainability Concentration, Youth Development Programming Concentration, and a Recreation Therapy Concentration that prepares students to sit for the state RT licensing exam.

Potential jobs in this rewarding field include program coordinators, supervisors and directors in a variety of areas including day camps, sports, youth, teen and older adult activities and classes and naturalist, park ranger positions. Many graduates from our program are leaders in leisure services organizations including Concord, Livermore, Oakland, Pleasanton, San Ramon, and the East Bay Regional Park District.

The Recreation Therapy Concentration is designed to prepare students to work as allied health professionals with people who have special needs in clinical, residential, and community-based agencies.

This option is specifically designed to meet the standards developed by the National Council for Therapeutic Recreation Certification (NCTRC) and the California Board of Recreation and Park Certification for Recreation Therapy. Successfully completing this curriculum will provide students with knowledge competencies necessary to qualify for both the National and State Therapeutic Recreation Certification Exams.

Many graduates of this option are leaders in Recreation Therapy in the San Francisco Bay Area. They work in varied locations such as rehabilitation hospitals, drug treatment programs, mental health clinics and inpatient programs, state hospitals, long term care facilities, prisons and schools.

Program Learning Outcomes

Students who graduate with a B.S. in Recreation will be able to:

1. Explain effective and sustainable solutions based on evidence to address challenges faced in the provision of recreation programs and services, management of facilities and stewardship of natural resources.
2. Identify effective leadership and teamwork strategies, management skills, methods to evaluate service quality and meet consumer needs in recreation management.
3. Articulate clearly in both written and oral formats the ethical, philosophical, historical, and administrative foundations of the recreation profession.
4. Identify techniques that contribute to a culture of dignity and respect in the recreation management profession.

Students who graduate with a B.S. in Recreation Management with a Recreation Therapy Concentration will be able to:

1. Explain stages of human development, principles of behavioral change, and models for delivery of recreation therapy programs and services.
2. Identify effective leadership and teamwork strategies, standards of practice, assessment techniques and documentation requirements in recreation therapy.
3. Articulate clearly in both written and oral formats the ethical, philosophical, historical, and administrative foundations of the recreation therapy profession.
4. Identify techniques that contribute to a culture of dignity and respect in the recreation therapy profession, based on principles of access, inclusion, and independence.

Degree Requirements Unit-Outline

- A baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 61-70 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0-2 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Bachelor Online Degree Completion

Hospitality and Tourism, B.S. (Available Online)

Hospitality and Tourism, B.S. Program (120 units)

Program Description

CSU East Bay's Hospitality and Tourism program prepares students to join and advance in the dynamic, growing and exciting hospitality and tourism industry. A variety of career possibilities are available to students in the hospitality and tourism industry, known as one of the largest employers in the world.

The Hospitality and Tourism program provides students with the knowledge they need in various industry sectors such as restaurant/food service, hotel/resort, special event/meeting planning and many others. The program offers the following three areas of concentration: Event Planning and Management, Food and Beverage, and Lodging, Resort and Club Management. Students have the option to select elective courses that suit their interests in place of an area of concentration, with advisor approval, either from existing department curriculum or select courses from other fields.

The hospitality and tourism program provides students with skills related to leadership, communication, technology, research, and problem solving along with the creativity they need to excel in their profession. Combined with work experience, this preparation enables graduates to access a variety of professional opportunities in hospitality and tourism companies in the San Francisco Bay area, a highly ranked tourist destination, and around the world.

CSU Hospitality and Tourism program strives to meet the needs and wants of hospitality and tourism leaders who seek smart, human-driven, quality, practical-oriented and dedicated individuals to help lead the growth of this dynamic industry. Graduates have a career in a field characterized as non-routine and exciting. They enjoy opportunities for career advancements, contribute to others' quality of life, travel, and meet individuals from around the world.

Program Learning Outcomes

Students graduating with a B.S. in Hospitality and Tourism from Cal State East Bay will:

1. Explain effective and sustainable solutions based on evidence to address challenges faced in the provision of lodging, food services, travel and event management.
2. Identify effective leadership and teamwork strategies, management skills, methods to evaluate service quality and meet consumer needs in hospitality and tourism.

3. Articulate clearly in both written and oral formats the ethical, philosophical, historical, and administrative foundations of the hospitality and tourism industries.
4. Identify techniques that contribute to a culture of dignity and respect in the hospitality and tourism profession

Degree Requirements Unit-Outline

- A baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 60 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Hospitality, Recreation, Recreation Therapy, and Tourism Foundational Core (23 units)

The 23 units of HRT Foundational Core represents the core coursework that every undergraduate student in the Hospitality, Recreation and Tourism department must complete in addition to their Major Core, Electives, and Concentration to equal 60 units.

- HOS 100 - Professional Preparation *Units: 2*
- HOS 300 - Marketing in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- HOS 400 - Introduction to Finance in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- HOS 450 - Data-Driven Decision Making in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- REC 100 - Introduction to Hospitality and Tourism, Recreation, and Recreation Therapy *Units: 3 ; G.E./G.R. Area: D1-3*
- REC 200 - Serving Diverse Populations in Hospitality, Recreation, Rec Therapy and Tourism *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*
- REC 325 - Leadership, Management and Ethics in Hospitality, Recreation, Rec Therapy, and Tourism *Units: 3*
- REC 400 - Law, Risk and Regulation in Hospitality, Recreation, Rec Therapy, and Tourism *Units: 3*

Hospitality and Tourism Major Core (22-25 units)

The Hospitality and Tourism major core consists of 22-25 units of specific courses that lay a broad foundation in the hospitality and tourism industry, including a 400 hour internship.

- HOS 200 - Lodging Management *Units: 3*
- HOS 205 - Tourism Management *Units: 3 ; G.E./G.R. Area: D1-3*

- HOS 210 - Meetings, Conventions, & Special Events *Units: 3*
- HOS 215 - Food and Beverage Management *Units: 3*
- HOS 225 - Technology in Hospitality and Tourism *Units: 3*
- HOS 410 - Revenue Management in Hospitality and Tourism *Units: 3*
- HOS 475 - Internship Placement *Units: 1*
- HOS 498 - Internship *Units: 3-6*

Concentrations

To complete the degree, students can choose one of three concentrations or choose to take selected elective coursework, with the approval of an advisor, that emphasis personal goals.

- Hospitality and Tourism, B.S. (Available Online) (elective coursework)
- Hospitality and Tourism, B.S.: Event Planning and Management Concentration (Available Online)
- Hospitality and Tourism, B.S.: Food and Beverage Concentration (Available Online)
- Hospitality and Tourism, B.S.: Lodging, Resort, and Club Management Concentration (Available Online)

Elective Coursework

Students not choosing one of the three concentrations will be required to take selected electives with advisor approval as needed to total 60 units for the major.

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Hospitality and Tourism, B.S.: Event Planning and Management Concentration (Available Online)

Hospitality and Tourism, B.S. Program (120 units)

Program Description

CSU East Bay's Hospitality and Tourism program prepares students to join and advance in the dynamic, growing and exciting hospitality and tourism industry. A variety of career possibilities are available to students in the hospitality and tourism industry, known as one of the largest employers in the world.

The Hospitality and Tourism program provides students with the knowledge they need in various industry sectors such as restaurant/food service, hotel/resort, special event/meeting planning and many others. The program offers the following three areas of concentration: Event Planning and Management, Food and Beverage, and Lodging, Resort and Club Management. Students have the option to select elective courses that suit their interests in place of an area of concentration, with advisor approval, either from existing department curriculum or select courses from other fields.

The hospitality and tourism program provides students with skills related to leadership, communication, technology, research, and problem solving along with the creativity they need to excel in their profession. Combined with work experience, this preparation enables graduates to access a variety of professional opportunities in hospitality and tourism companies in the San Francisco Bay area, a highly ranked tourist destination, and around the world.

CSU Hospitality and Tourism program strives to meet the needs and wants of hospitality and tourism leaders who seek smart, human-driven, quality, practical-oriented and dedicated individuals to help lead the growth of this dynamic industry. Graduates have a career in a field characterized as non-routine and exciting. They enjoy opportunities for career advancements, contribute to others' quality of life, travel, and meet individuals from around the world.

Program Learning Outcomes

Students graduating with a B.S. in Hospitality and Tourism from Cal State East Bay will:

1. Explain effective and sustainable solutions based on evidence to address challenges faced in the provision of lodging, food services, travel and event management.
2. Identify effective leadership and teamwork strategies, management skills, methods to evaluate service quality and meet consumer needs in hospitality and tourism.
3. Articulate clearly in both written and oral formats the ethical, philosophical, historical, and administrative foundations of the hospitality and tourism industries.
4. Identify techniques that contribute to a culture of dignity and respect in the hospitality and tourism profession

Degree Requirements Unit-Outline

- A baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 60 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Hospitality, Recreation, Recreation Therapy, and Tourism Foundational Core (23 units)

The 23 units of HRT Foundational Core represents the core coursework that every undergraduate student in the Hospitality, Recreation and Tourism department must complete in addition to their Major Core, Electives, and Concentration to equal 60 units.

- HOS 100 - Professional Preparation *Units: 2*
- HOS 300 - Marketing in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- HOS 400 - Introduction to Finance in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- HOS 450 - Data-Driven Decision Making in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- REC 100 - Introduction to Hospitality and Tourism, Recreation, and Recreation Therapy *Units: 3 ; G.E./G.R. Area: D1-3*
- REC 200 - Serving Diverse Populations in Hospitality, Recreation, Rec Therapy and Tourism *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*

- REC 325 - Leadership, Management and Ethics in Hospitality, Recreation, Rec Therapy, and Tourism *Units: 3*
- REC 400 - Law, Risk and Regulation in Hospitality, Recreation, Rec Therapy, and Tourism *Units: 3*

Hospitality and Tourism Major Core (22-25 units)

The Hospitality and Tourism major core consists of 22-25 units of specific courses that lay a broad foundation in the hospitality and tourism industry, including a 400 hour internship.

- HOS 200 - Lodging Management *Units: 3*
- HOS 205 - Tourism Management *Units: 3 ; G.E./G.R. Area: D1-3*
- HOS 210 - Meetings, Conventions, & Special Events *Units: 3*
- HOS 215 - Food and Beverage Management *Units: 3*
- HOS 225 - Technology in Hospitality and Tourism *Units: 3*
- HOS 410 - Revenue Management in Hospitality and Tourism *Units: 3*
- HOS 475 - Internship Placement *Units: 1*
- HOS 498 - Internship *Units: 3-6*

Concentrations

To complete the degree, students can choose one of three concentrations or choose to take selected elective coursework, with the approval of an advisor, that emphasis personal goals.

- Hospitality and Tourism, B.S. (Available Online) (elective coursework)
- Hospitality and Tourism, B.S.: Event Planning and Management Concentration (Available Online)
- Hospitality and Tourism, B.S.: Food and Beverage Concentration (Available Online)
- Hospitality and Tourism, B.S.: Lodging, Resort, and Club Management Concentration (Available Online)

Event Planning and Management Concentration

The event planning and management concentration is ideal for those who seek a career in the event planning industry. The following 9 units are required:

- HOS 310 - Design & Management of Special Events in Hospitality and Tourism *Units: 3*
- HOS 315 - Wedding Planning *Units: 3*
- HOS 320 - Event Leadership *Units: 3*

Electives

Selected electives with advisor approval as needed to total 60 units for the major.

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Hospitality and Tourism, B.S.: Lodging, Resort, and Club Management Concentration (Available Online)

Hospitality and Tourism, B.S. Program (120 units)

Program Description

CSU East Bay's Hospitality and Tourism program prepares students to join and advance in the dynamic, growing and exciting hospitality and tourism industry. A variety of career possibilities are available to students in the hospitality and tourism industry, known as one of the largest employers in the world.

The Hospitality and Tourism program provides students with the knowledge they need in various industry sectors such as restaurant/food service, hotel/resort, special event/meeting planning and many others. The program offers the following three areas of concentration: Event Planning and Management, Food and Beverage, and Lodging, Resort and Club Management. Students have the option to select elective courses that suit their interests in place of an area of concentration, with advisor approval, either from existing department curriculum or select courses from other fields.

The hospitality and tourism program provides students with skills related to leadership, communication, technology, research, and problem solving along with the creativity they need to excel in their profession. Combined with work experience, this preparation enables graduates to access a variety of professional opportunities in hospitality and tourism companies in the San Francisco Bay area, a highly ranked tourist destination, and around the world.

CSU Hospitality and Tourism program strives to meet the needs and wants of hospitality and tourism leaders who seek smart, human-driven, quality, practical-oriented and dedicated individuals to help lead the growth of this dynamic industry. Graduates have a career in a field characterized as non-routine and exciting. They enjoy opportunities for career advancements, contribute to others' quality of life, travel, and meet individuals from around the world.

Program Learning Outcomes

Students graduating with a B.S. in Hospitality and Tourism from Cal State East Bay will:

1. Explain effective and sustainable solutions based on evidence to address challenges faced in the provision of lodging, food services, travel and event management.
2. Identify effective leadership and teamwork strategies, management skills, methods to evaluate service quality and meet consumer needs in hospitality and tourism.
3. Articulate clearly in both written and oral formats the ethical, philosophical, historical, and administrative foundations of the hospitality and tourism industries.
4. Identify techniques that contribute to a culture of dignity and respect in the hospitality and tourism profession

Degree Requirements Unit-Outline

- A baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 60 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Hospitality, Recreation, Recreation Therapy, and Tourism Foundational Core (23 units)

The 23 units of HRT Foundational Core represents the core coursework that every undergraduate student in the Hospitality, Recreation and Tourism department must complete in addition to their Major Core, Electives, and Concentration to equal 60 units.

- HOS 100 - Professional Preparation *Units: 2*
- HOS 300 - Marketing in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- HOS 400 - Introduction to Finance in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- HOS 450 - Data-Driven Decision Making in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- REC 100 - Introduction to Hospitality and Tourism, Recreation, and Recreation Therapy *Units: 3 ; G.E./G.R. Area: D1-3*
- REC 200 - Serving Diverse Populations in Hospitality, Recreation, Rec Therapy and Tourism *Units: 3 ; G.E./G.R. Area: D1-3; Social Justice*

- REC 325 - Leadership, Management and Ethics in Hospitality, Recreation, Rec Therapy, and Tourism *Units: 3*
- REC 400 - Law, Risk and Regulation in Hospitality, Recreation, Rec Therapy, and Tourism *Units: 3*

Hospitality and Tourism Major Core (22-25 units)

The Hospitality and Tourism major core consists of 22-25 units of specific courses that lay a broad foundation in the hospitality and tourism industry, including a 400 hour internship.

- HOS 200 - Lodging Management *Units: 3*
- HOS 205 - Tourism Management *Units: 3 ; G.E./G.R. Area: D1-3*
- HOS 210 - Meetings, Conventions, & Special Events *Units: 3*
- HOS 215 - Food and Beverage Management *Units: 3*
- HOS 225 - Technology in Hospitality and Tourism *Units: 3*
- HOS 410 - Revenue Management in Hospitality and Tourism *Units: 3*
- HOS 475 - Internship Placement *Units: 1*
- HOS 498 - Internship *Units: 3-6*

Concentrations

To complete the degree, students can choose one of three concentrations or choose to take selected elective coursework, with the approval of an advisor, that emphasis personal goals.

- Hospitality and Tourism, B.S. (Available Online) (elective coursework)
- Hospitality and Tourism, B.S.: Event Planning and Management Concentration (Available Online)
- Hospitality and Tourism, B.S.: Food and Beverage Concentration (Available Online)
- Hospitality and Tourism, B.S.: Lodging, Resort, and Club Management Concentration (Available Online)

Lodging, Resort, and Club Management Concentration

The lodging, resort, and club management concentration is ideal for those who seek a career in the hotel or lodging industry or country club type atmosphere. The following 9 units are required:

- HOS 350 - Resort and Club Management *Units: 3*
- HOS 355 - Advanced Lodging Management *Units: 3*
- HOS 360 - Lodging Alternatives *Units: 3*

Electives

Selected electives with advisor approval as needed to total 60 units for the major.

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.

Recreation, B.S. (Available Online)

Recreation, B.S. Program (120 units)

Program Description

The Recreation degree prepares students for leadership positions in public recreation and leisure services agencies. Such work enhances the quality of life for millions of people each day across the nation. Specializations available in the degree include the Sustainability Concentration, Youth Development Programming Concentration, and a Recreation Therapy Concentration that prepares students to sit for the state RT licensing exam.

Potential jobs in this rewarding field include program coordinators, supervisors and directors in a variety of areas including day camps, sports, youth, teen and older adult activities and classes and naturalist, park ranger positions. Many graduates from our program are leaders in leisure services organizations including Concord, Livermore, Oakland, Pleasanton, San Ramon, and the East Bay Regional Park District.

The Recreation Therapy Concentration is designed to prepare students to work as allied health professionals with people who have special needs in clinical, residential, and community-based agencies. This option is specifically designed to meet the standards developed by the National Council for Therapeutic Recreation Certification (NCTRC) and the California Board of Recreation and Park Certification for Recreation Therapy. Successfully completing this curriculum will provide students with knowledge competencies necessary to qualify for both the National and State Therapeutic Recreation Certification Exams.

Many graduates of this option are leaders in Recreation Therapy in the San Francisco Bay Area. They work in varied locations such as rehabilitation hospitals, drug treatment programs, mental health clinics and inpatient programs, state hospitals, long term care facilities, prisons and schools.

Program Learning Outcomes

Students who graduate with a B.S. in Recreation will be able to:

1. Explain effective and sustainable solutions based on evidence to address challenges faced in the provision of recreation programs and services, management of facilities and stewardship of natural resources.
2. Identify effective leadership and teamwork strategies, management skills, methods to evaluate service quality and meet consumer needs in recreation management.
3. Articulate clearly in both written and oral formats the ethical, philosophical, historical, and administrative foundations of the recreation profession.
4. Identify techniques that contribute to a culture of dignity and respect in the recreation management profession.

Students who graduate with a B.S. in Recreation Management with a Recreation Therapy Concentration will be able to:

1. Explain stages of human development, principles of behavioral change, and models for delivery of recreation therapy programs and services.
2. Identify effective leadership and teamwork strategies, standards of practice, assessment techniques and documentation requirements in recreation therapy.
3. Articulate clearly in both written and oral formats the ethical, philosophical, historical, and administrative foundations of the recreation therapy profession.

4. Identify techniques that contribute to a culture of dignity and respect in the recreation therapy profession, based on principles of access, inclusion, and independence.

Degree Requirements Unit-Outline

- A baccalaureate of science degree requires a total of 120 units:
 - The major requirements consists of 61-70 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 0-2 units (*actual number of free elective units may depend on*

GE/GR units).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Recreation Major Requirements (63-69 units)

Core Courses

The Recreation Management Core is 35 units of specific courses that lay a broad foundation in the recreation/leisure industry, including a 400 hour internship. Students taking the Recreation Therapy Concentration will have a 600 hour internship to complete. In addition, students will take elective courses, if needed, to complete the degree.

- HOS 100 - Professional Preparation *Units: 2*
- HOS 300 - Marketing in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- HOS 400 - Introduction to Finance in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- HOS 450 - Data-Driven Decision Making in Hospitality, Recreation, Recreation Therapy, and Tourism *Units: 3*
- REC 100 - Introduction to Hospitality and Tourism, Recreation, and Recreation Therapy *Units: 3 ; G.E./G.R. Area: D1-3*

Master Online Degree Programs

Hospitality, Recreation and Tourism, M.S. (Online Only Program)

Hospitality, Recreation and Tourism, M.S. Program

Program Description

In our diverse world, managing organizations has become more complex. A master's degree provides an in-depth understanding of the fast-paced, increasingly difficult challenges in the world of recreation, hospitality and tourism. Through exploring literature, theories, and methods of scientific data collection, our graduates will be prepared for the working world's legal, personnel and ethical dilemmas.

This innovative program is offered completely online. Using interactive learning activities, courses are designed to challenge and inspire intellectual growth. Because the courses are all online, students can attend class when they are ready to learn rather than at a specific time, such as in the evening after a full day of work.

The courses are offered Executive Style, meaning that students take two 7-week, 3-unit courses consecutively for 4 semesters (with the exception of the Applied Research Project, which is offered during the 3rd and 4th semesters).

The program is not self-paced; discussions happen asynchronously and students complete weekly assignments. This learning method is different in that students are not only receivers of knowledge but are more actively engaged in their own learning. Students will be asked not only to absorb facts and theories but to discover and create knowledge that is useful in the real world.

Prerequisites and Criteria for Admission

Students apply to the university and the department. **Only individuals with two or more years of experience in the field should apply.**

- Baccalaureate degree from an accredited university. It is expected that most students applying for this program will have a BS in Hospitality, Recreation or Tourism.
- If your undergraduate degree is not in Hospitality, Recreation or Tourism, you may need some foundational courses. The courses will be determined when a graduate adviser or the department chair evaluates your transcripts and work experience.
- GPA of 2.75 in last 60 hours of course work is required.
- Must have 2 years of work experience in hospitality, recreation and/or tourism.
- Acceptable TOEFL minimum score of 550 for International Students, or a score above 237 on the Computer-Based TOEFL, an official transcript showing graduation with a bachelor's degree from a U.S. college or university where English is the principal language of instruction, or an official letter from the college or university certifying that English is the language of instruction.

In addition to the University Graduate Application and official transcripts from all institutions attended, individuals should submit the following application materials to the department. Admission to the University and admission to the M.S. in Hospitality, Recreation and Tourism are separate but simultaneous steps.

- A two to five page personal statement explaining reasons for pursuing the M.S. in Hospitality, Recreation and Tourism, professional goals, knowledge of the profession, and how previous study and experience will contribute to academic success in this program.
- Three current letters of recommendation from individuals who know you professionally. At least one should be from an immediate supervisor and one should come from someone who knows your academic abilities.
- Current resume detailing professional and academic achievements.

Evaluation Criteria

- Previous work experience in hospitality, recreation and/or tourism.
- GPA in previous academic study.
- Related undergraduate degree.
- Concise, clear personal statement related to the reason you want to pursue this degree; connection between professional goals of the student, previous academic study, job experience and this program; discussion of potential benefits of the degree; identification of needed changes you would like to see in the profession; references to leadership, strategic planning, and equity; references to equity; and quality of writing.
- Information from three current references related to knowledge of the profession, professional work experience and academic potential.

Advancement to Candidacy

Three categories of student status reflect student progress toward the degree: "Conditionally Classified Graduate" student, "Classified Graduate" student, and "Advancement to Candidacy" student.

1. Students achieve "Conditionally Classified Graduate" status when they have been admitted to the M.S. degree in Hospitality, Recreation and Tourism program but have not yet completed the prerequisites for "Classified Graduate" status for the degree.
2. Students achieve "Classified Graduate" status when they have satisfied the University Writing Skills Requirement. For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call 510.885.3661.
3. Students are Advanced to Candidacy when they have completed the required courses with a 3.0 or better GPA.

Note: Students who fail to maintain progress by falling below a 3.0 GPA in program graduate courses for two or more consecutive semesters will be academically disqualified from the university. All graduate degree requirements must be completed within 5 years.

Granting the Degree

Upon satisfaction of all requirements for the degree, the department will recommend that the candidate be granted the M.S. in Hospitality, Recreation and Tourism. Students must file for graduation by the second week of the semester prior to the semester in which they expect to graduate.

Career Possibilities

Recreation Program Manager • Youth Sports Manager • Event Manager • Meetings and Conference Manager • Aquatics Manager • Senior Center Manager • Resort Manager • Retirement Community Program Director • Camp Director • Preschool Director • After-school Director • Country Club Director

Features

Our student-centered department has designed this master's degree for working adults. All courses are offered completely online. Students from many different geographical areas can enroll in the program. Moreover, our friendly, accessible faculty will advise you about meeting all requirements in the most efficient manner. We have excellent industry contacts and can help you plan your future advancement in our profession as all of our faculty have been industry professionals. We are dedicated to helping you realize your dreams.

Program Learning Outcomes

Students who graduate with an M.S. in Hospitality, Recreation and Tourism from CSUEB will be able to:

1. Apply evidence-based research to generate effective, sustainable solutions related to management of personnel, facilities, operations, marketing and finance in hospitality, recreation and tourism.
2. Assess exemplary and innovative management, leadership and teamwork strategies for hospitality, recreation and tourism organizations.
3. Articulate clearly, in both written and oral formats, the foundations of the hospitality, recreation and tourism professions in terms of theory, philosophy, administrative functions and current management practices.
4. Develop a systems approach to create and sustain a culture of dignity and respect among individuals, communities, organizations and hospitality, recreation and tourism industries.

Hospitality, Recreation and Tourism Degree Requirements (30 units)

Required Courses

The following 24 units are required:

- REC 600 - Foundations of Hospitality, Recreation and Tourism *Units: 3*
- REC 610 - Strategic Leadership and Ethics in Hospitality, Recreation and Tourism *Units: 3*
- REC 620 - Organizational Development in Hospitality, Recreation and Tourism *Units: 3*
- REC 630 - Research Methods in Hospitality, Recreation and Tourism *Units: 3*
- REC 640 - Law and Risk in Hospitality, Recreation and Tourism *Units: 3*
- REC 650 - Fiscal Management in Hospitality, Recreation and Tourism *Units: 3*
- REC 660 - Sustainable Solutions in Hospitality, Recreation and Tourism *Units: 3*
- REC 670 - Advanced Marketing in Hospitality, Recreation and Tourism *Units: 3*

Note: The following course may be taken as an elective as interest in a particular topic dictates; see your program advisor:

- **REC 697 - Special Issues in Hospitality, Recreation and Tourism** *Units: 1-3*

Capstone Requirements

Complete both courses for 6 units. Contact your program advisor for scheduling direction.

- **REC 693A - Applied Research Project I** *Units: 3*
- **REC 693B - Applied Research Project II** *Units: 3*

Other Graduate & Post-Baccalaureate Degree Requirements

In addition to departmental requirements, every student must also satisfy the University requirements for graduation as described throughout this catalog. These include the 70% unit residence requirement; the five-year rule on currency of subject matter; the minimum number of units in 600-level courses; the "C" minimum grade for each graduate course; the 3.00 cumulative grade point average; and the University Writing Skills Requirement.

Note: For information on meeting the University Writing Skills Requirement, see the Testing Office website at www.csueastbay.edu/testing or call (510) 885-3661.

Department of Human Development and Women's Studies

The Department Office is located on the 3rd Floor of the Meiklejohn Hall building, Room 3069

Office Hours: 8:00 a.m. - 5:00 p.m., Monday through Friday

Dept Phone: (510) 885-3076

Faculty

Professor Emeritus

Jiansheng Guo, Ph.D. University of California, Berkeley

Professors

Steve Borish, Ph.D. Stanford University

Christina Chin-Newman, Ph.D. University of California, Santa Cruz

Lynn Comerford, Ph.D. State University of New York at Albany

Keri K. O'Neal (Chair), Ph.D. Texas Tech University

Associate Professors

Patricia Drew, Ph.D. University of California, Santa Barbara

D. Xeno Rasmusson, Ph.D. University of Georgia

Rachael Stryker, Ph.D. University of California, Berkeley

Assistant Professor

Mariana Guzzardo, Ph.D. University of Connecticut

Mission Statement

Human Development is an interdisciplinary program that integrates theory and methodology from disciplines such as anthropology, biology, linguistics, psychology, and sociology. Students majoring in Human Development explore the processes and mechanisms underlying developmental change and stability across the lifespan, and the sociocultural and historical contexts in which development takes place. The program's curriculum equips students with basic understanding of major research findings and core concepts in human development, the ability to critically analyze and evaluate theoretical and practical issues in the field, and the skills to apply their learning to diverse communities outside the university. The program strives to create an optimal learning community which values and fosters mutual learning and dialogue between and among students and faculty from diverse backgrounds.

The Mission of California State University, East Bay's Women's Studies Program is to provide undergraduate students minoring in Women's Studies with a culturally sensitive introduction to the research, literature, and methodologies of gender/Women's Studies within, social, and economic perspectives, taught by an interdisciplinary diverse faculty committed to the Program Outcomes, in order to achieve a basic understanding of local, regional, national, and global power relations and how those relationships affect issues of gender/women contemporarily and historically.

Bachelor

Human Development, B.A.: Adolescent Development Concentration

Human Development, B.A. Program (120 units)

Program Description

Human Development is an interdisciplinary program that integrates theory and methodology from disciplines such as anthropology, biology, linguistics, psychology, and sociology. The program explores the processes and mechanisms underlying developmental change and stability across the lifespan and the socio-cultural and historical contexts in which development takes place.

The Program's curriculum aims to develop in students a basic understanding of major research findings and core concepts in human development, the ability to analyze and evaluate theoretical and practical issues in the field, and the skills to apply learning to diverse communities outside the University. The Program strives to create an optimal learning community that values and fosters collaborative learning and dialogue between and among students and faculty from diverse backgrounds.

Program Learning Outcomes

Students graduating with a B.A. in Human Development from California State University, East Bay will be able to:

1. Demonstrate core knowledge in biological, psychological, and socio-cultural aspects of human development.
2. Model critical thinking ability by summarizing, comparing, synthesizing, and critiquing interdisciplinary human development perspectives.
3. Assess information; design and conduct individual and/or group research projects, and present them clearly, logically, and persuasively.
4. Identify and evaluate problems by applying human development knowledge in diverse contexts; and
5. Infer the ability to understand themselves reflectively and others empathetically.

Career Opportunities

The interdisciplinary approach of the Human Development Program provides students with excellent preparation for graduate study in a wide range of disciplines, including anthropology, education, social work, sociology, medicine, public administration, law, criminal justice, psychology, and counseling. It also prepares students to work with people of all age groups from diverse racial, cultural, ethnic, socioeconomic, religious backgrounds, and sexual orientations. Students majoring in Human Development find a variety of career options in areas such as:

Education • Social work • Health care • Counseling • Law and law enforcement • Human resource and organizational work in community or corporate settings

Features

- Human Development faculty members come from a wide range of academic disciplines, including anthropology, biology, human development, linguistics, neuropsychology, psychology, and sociology.
- Students select one of five Concentrations: Early Childhood Development, Childhood Development, Adolescent Development, Adult Development and Gerontology, or Women's Development.
- Minor in Human Development and Minor in Women's Studies (please see Women's Studies Minor) are also offered.
- As part of its commitment to educational access, the Program incorporates a broad range of educational formats, including online classes, hybrid classes that combine an online component with face-to-face interaction, and face-to-face lecture/discussion and seminar classes.
- The program also offers its major through P.A.C.E. (Program for Accelerated College Education). Please contact the P.A.C.E. office for further information.

Degree Requirements Unit-Outline

- A baccalaureate of arts degree requires a total of 120 units:
 - The major requirements consists of 53-55 units;
 - General Education (GE) & Graduation Requirements (GR) consists of 57 units;
 - Free Electives may consist of 8-10 units (*actual number of free elective units may depend on GE/GR units*).

Note: It may be possible to double-count units within the graduation requirements or that a course may satisfy both a graduation requirement and a major requirement. Students should contact their program and AACE advisors for information.

Human Development Major Requirements (53-55 units)

Lower Division Core

Select three (3) courses for 9 units from the following categories, with no more than one course from each category (each course must be a minimum of 3-units each):

1. Anthropology (cultural or social)
2. Psychology
3. Sociology
4. Human or child development
5. Ethnic or area studies
6. Human biology or physical anthropology
7. Additional categories (e.g., statistics, gerontology, developmental disabilities) may be approved by the department

Upper Division Core

The following 30 units of coursework are required:

- HDEV 300 - Introduction to Human Development for Human Development Majors *Units: 1*
- HDEV 301 - Theories of Human Development *Units: 4*
- HDEV 302 - Research Methods in Human Development *Units: 4*
- HDEV 311 - Infant and Child Development *Units: 4*
- HDEV 312 - Adolescence and Emerging Adulthood *Units: 4*
- HDEV 321 - Gender, Race & Class in Human Development *Units: 4*
- HDEV 322 - Adult Development and Aging *Units: 4*
- HDEV 400 - Futures and Careers for Human Development Majors *Units: 1*
- HDEV 401 - Applying Theories and Methods in Human Development *Units: 4*

4

Concentration Requirement

Students must select one (1) of the following concentrations listed below for 10-12 units to complete the major:

- Human Development, B.A.: Adolescent Development Concentration

- Human Development, B.A.: Adult Development and Gerontology Concentration (Available Online)
- Human Development, B.A.: Childhood Development Concentration
- Human Development, B.A.: Early Childhood Development Concentration (Available Online)
- Human Development, B.A.: Women's Development Concentration (Available Online)

Senior Capstone Requirement

The following 4-unit course is required as the senior capstone:

- HDEV 499 - Senior Research Seminar *Units: 4*

Adolescent Development Concentration

Select any three (3) courses for 12 units from the following:

- HDEV 431 - Prevention and Intervention in Adolescent Development *Units: 4*
- HDEV 432 - Social Dimensions of Conflict in Adolescent and Adult Development *Units: 4*
- HDEV 433 - Technologies, Media, and Adolescence *Units: 4*
- HDEV 439 - Contemporary Research Topics in Adolescent Development *Units: 4*
- HDEV 452 - Intimate Relationships Across the Lifespan *Units: 4*
- HDEV 453 - Sexual Orientations in Human Development *Units: 4*

Other Undergraduate Degree Requirements

In addition to major requirements, every student must also complete the University's baccalaureate requirements for graduation, which are described in the Requirements, Exams & Testing chapter of this catalog.
