Equivalent Quarter Course: HIST 3553.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 385 - Race and the Modern American Nation

Units: 3

Discussion of the evolution of racial identities in the United States since the Civil War. Topics include: Jim Crow South; Social Darwinism; Asian and Mexican diasporas; poverty and race; evolution of legal status; the concepts of "whiteness" and "colorism".

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

HIST 389 - Social Justice and Reform Movements in America

Units: 3 ; G.E./G.R. Area: D4; Social Justice

Examination of reform movements in US history, which may include: Abolitionism, Evangelicalism, Reconstruction, Labor, Civil Rights, feminism, environmentalism, LGBTQ rights, and the rise of the Religious Right; including discussion of what drives organization, identity development and tactics employed for change.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences, Overlay - Social Justice*

HIST 393 - Revolutionary Thought in Latin America

Units: 3 ; G.E./G.R. Area: D4

History of revolutionary thought in Latin America as a focus of political and social change, organizing and armed initiatives; discussion of revolutionary theory with a specific focus on race, ethnicity, sexuality, class, and gender.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3605.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

HIST 461 - India Through Film

Units: 3

An exploration of Indian / South Asian history, and its construction, through documentary and dramatic films. Topics will include: nationalism, class, caste, gender, sexuality, and community identity formation in both India and the South Asian diaspora.

Equivalent Quarter Course: HIST 3307.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

HIST 471 - History of the East Bay: Community Research and Engagement

Units: 3

A research-based course designed to bring students into the local Bay Area community to conduct research, investigate community stories and understand the link between history and community identity.

Equivalent Quarter Course: HIST 3503.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HIST 472 - War and Peace in US History

Units: 3 ; G.E./G.R. Area: C4

An examination of pacifism and militarism in the United States; how our society has come to define and react to pacifists, "good wars", international peace-keeping, anti-war demonstrations, and a shifting perception of military personnel.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 473 - Sexuality and Identity in US History

Units: 3 ; G.E./G.R. Area: C4

Diversity of sexualities and identities in U.S. history. Effects of regional and ethnic/racial family patterns; responses to urbanization, industrialization, migrations, and technology; changing roles of families, children, and developments in marriage and other expressions of love, obligation, and cooperation.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3570.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 474 - Women, Gender and Rights in US History

Units: 3 ; G.E./G.R. Area: C4

Diversity of women's contributions, female gender roles and identities, and gendered cultures across U.S. history from pre-colonial period to the present and women's status in the social, cultural, economic, and political life of the nation across ethnicity, race, and class.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3571.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 479 - World War II: Global Warfront, Local Homefront

Units: 3 ; G.E./G.R. Area: D4

An examination of the WWII era, starting with the Great Depression and discussing human and ideological conflict on the US Homefront and in the global theater. Making connections between the war abroad and the war at home.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3416.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

HIST 488 - Education and American Democracy

Units: 3 ; G.E./G.R. Area: C4

Major themes in American democracy through prism of education. Focus on early public and religious experiments, immigration and parochial schools, Reconstruction, the Borderlands, Progressive reform, professionalization of teaching, the struggle for desegregation, California Master Plan, equality and diversity.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3400.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

History: Sustainability and Modernization

HIST 277 - Science and Culture in the History of Medicine in the United States

Units: 3 ; G.E./G.R. Area: C2; Writing II

History of medicine in the US from the colonial period to the present, including: emergence of the medical profession, the rise of the hospital, the relationship between medicine and science, and the role of politics, cultural beliefs, and religious values.

Prerequisites: Completion of GE area A2.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities, Writing II*

HIST 323 - Global Environmental History

Units: 3 ; G.E./G.R. Area: C4

Seminar discussing the historical roots of global contemporary issues in environmental politics, health and sustainability. Focus on the human relationship to the natural world and how diverse cultures have lived within their environments.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 333 - Sustainability in the Ancient World

Units: 3 ; G.E./G.R. Area: C4; Sustainability

Examination of how the ancient world preserved its cultures and economies during times of war, climate change, disease, and the use/misuse of natural resources; social justice.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities, Overlay - Sustainability*

HIST 334 - Ancient Egyptian Civilization

Units: 3 ; G.E./G.R. Area: C4

10,000 B.C.E. to 400 C.E. The formation of the Egyptian state; social classes; interactions with other Mediterranean/Middle Eastern cultures, and religion. Special focus on sustainability.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 337 - The Roman Republic

Units: 3 ; G.E./G.R. Area: C4

Roman history from foundation to the rise of Augustus. Neolithic; Etruscans; Republic and Punic Wars; Julius Caesar; Age of Augustus, and the pax Romana; interactions with other civilizations, with a special focus on migrations and sustainability.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 341 - The Birth of Europe

Units: 3 ; G.E./G.R. Area: C4

Europe from the decline of Roman power in the West to the Gregorian Reform; the rise of Germanic kingdoms; cultural breaks and continuities; the land and its peoples; localism, trade networks, and a transnational church.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3127.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 345 - Conflict and Expansion in Early Modern Europe

Units: 3

Europe 1550 to 1789. Religious conflict and resolution; age of exploration and discovery; intellectual and technological effects of the Scientific Revolution; art and literature; absolutism, constitutionalism, and state building; political revolutions; thought and culture of the Enlightenment.

Equivalent Quarter Course: HIST 3150.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

HIST 351 - Russia: Peter to the Present

Units: 3

Survey of Russian history with emphasis on everyday life and culture through film, art, literature, and music. Politics of Imperial, Soviet, contemporary Russia through lens of sustainability. Environment economy, state-society relations, foreign relations, national minorities, rebellion/dissent.

(See Errata for changes to this content).

Equivalent Quarter Course: HIST 3223.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HIST 365 - China: Origins to Mongol Conquest

Units: 3 ; G.E./G.R. Area: D4

Chinese history from the archaeological period. Dynastic history, statecraft, origins of the bureaucratic state, regional economic/cultural differentiation, crises of sustainability. Confucius, Buddhism and Daoism, Chinese notions of the natural world, social order and just government.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3311.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

HIST 366 - China: Ming Dynasty to Today

Units: 3 ; G.E./G.R. Area: C4

Survey of modern Chinese history through lens of sustainability. Ming and Qing dynasties, Republican and Communist regimes. Literati and popular culture, philosophical shifts, literature, material arts. Commercialization, urbanization, rebellion/dissent, nationalism, foreign relations, role of diaspora in contemporary China.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3313.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 367 - Japan: Origins to Tokugawa

Units: 3 ; G.E./G.R. Area: C4

Cultural, social, and political history of Japan to 1600, with special emphasis on the aristocracy, the samurai, interactions with the outside world, and the transformed from a geographically- and culturally-isolated archipelago to a rapidly modernizing nation-state.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3322.

Possible Instructional Methods: *Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 368 - Japan, Tokugawa to Today

Units: 3 ; G.E./G.R. Area: C4

The political, social, and cultural dimensions of Japan's transformation from the Meiji Restoration, to its defeat in 1945, to becoming a world economic power today. Special focus will be on sustainability.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3323 and HIST 3325.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 369 - The Korean Peninsula

Units: 3 ; G.E./G.R. Area: C4

The political, social, and cultural history of the Korean peninsula from its origins to the present; focus on geographic factors, indigenous developments, and foreign encounters.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 371 - North America: 1492-1850

Units: 3 ; G.E./G.R. Area: C4

Major topics from colonization to U.S.-Mexican War: Native peoples, European imperialism, African diasporas, environmental change, religious conflict and synthesis, enlightenment, global warfare, revolutionary upheaval and legacy, industrialization, gender relations, la frontera, California.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3530.

Possible Instructional Methods: *Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 377 - The Birth of American Popular Culture

Units: 3

Creation of popular culture in early 19th century America, including shifting ideas of religion, gender, sex, race and bodies. Examines popular culture and sensationalism as a print revolution, with comparisons to contemporary social media.

Equivalent Quarter Course: HIST 3413.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

HIST 382 - California and the World

Units: 3 ; G.E./G.R. Area: D4; US-3

From c. 15,000 BCE to present. Significance in international and national histories; environmental, cultural, and social diversity; economic development and conflict; migrations and immigration; urbanization and suburbanization; land ownership and use; history of legal and political rights; social movements.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3500.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences, American Institutions/Code US-3*

HIST 386 - Food and Justice in US History

Units: 3 ; G.E./G.R. Area: C4

A look at the intersections between food access and race, class and social justice in US History, including discussions on the evolution of land access and agriculture, modernization, poverty, culture and nutrition, urban food deserts.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 388 - US and California Environmental History

Units: 3 ; G.E./G.R. Area: C4

An introduction to US Environmental History, with special emphasis on California topics. Focus is on

the evolution of human cultural relationships with the natural environment, and with understanding sustainability as a historical evolving notion.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 3505.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C4 - Upper Division Arts or Humanities

HIST 392 - Migration and Modernization in 20th Century Mexico

Units: 3

Migration, urbanization and cultural change in modern Mexico. Covers a variety of historical perspectives on Mexico in the 19th and 20th centuries, especially those offered by social historians, cultural historians, environmental historians, and historians studying gender.

Equivalent Quarter Course: HIST 3622.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

History: Skills Courses

HIST 201 - Introduction to History

Units: 4

Introduction to History as a field of study; evaluate competing historical truths, conduct evidence analysis, develop viable research questions, understand different career paths in history. Serves as an introduction to the major, with advising and creation of a digital portfolio.

Equivalent Quarter Course: HIST 2010.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

HIST 301 - Historical Writing

Units: 4 ; G.E./G.R. Area: UWSR

Seminar on writing and revision of reviews, essays, and research papers through study of selected historical topics. Emphasis on form, argument, organization, source citation, and oral presentation.

Prerequisites: HIST 201; and Junior standing or above; and either CR (credit) in ENGL 300 or ENGL 301 and a score of 7 on the first-tier portfolio; or score of 7 or better on the Writing Skills test; or satisfaction of the graduation writing assessment requirement (GWAR) at any CSU campus including the UWSR at Cal State East Bay. Credit unavailable through challenge.

Equivalent Quarter Course: HIST 3010.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *University Writing Skills Requirement*

HIST 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success.

Prerequisites: Department consent and minimum 2.0 GPA.

Equivalent Quarter Course: HIST 3898.

Repeatability: May be repeated with department consent for a maximum of 3 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

HIST 400 - Historiography

Units: 4

Development of historical writing from antiquity to present. Emphasis on Herodotus, Thucydides, St. Augustine, Vico, Hegel, Marx, Von Ranke and his successors, relativists, and postmodernists.

Prerequisites: HIST 201 and HIST 301.

Equivalent Quarter Course: HIST 4030.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

HIST 405 - History Lab

Units: 1

Intense activity section required for Majors and Minors in History (although open to all students). In depth work on research and writing skills, and advanced work in the application of history.

Prerequisites: HIST 201.

Repeatability: May be repeated for credit for a maximum of 6 units when content varies.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HIST 409 - History Portfolio

Units: 1

Completion of digital portfolio of student work for graduation.

Prerequisites: HIST 201 and HIST 301.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

HIST 499 - Thesis Capstone

Units: 4

Seminar in advanced historical research through completion of original paper based on primary sources. Research in Bay Area libraries and on the Internet. Focus on Bay Area, California, and Western history. Self- and group-critiques of works-in-progress. Oral presentation of conclusions.

Prerequisites: HIST 201 and HIST 301.

Equivalent Quarter Course: HIST 4031.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

History: Additional Courses

HIST 120 - Self and Story in World History

Units: 3 ; G.E./G.R. Area: D1-3

Exploration of students' personal and family connections to an event in world history. Students develop a historical question, gather and evaluate primary and secondary historical sources (images and print), and produce a digital project on their findings.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

HIST 140 - Humanity, Science and Nature in History

Units: 3 ; G.E./G.R. Area: C2

Attitudes toward humanity's place in the natural world as revealed in historical documents from Classical times to the present. The rise of science and the Romantic reaction. The development of modern environmental concerns in historical context.

Equivalent Quarter Course: HIST 2040.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

HIST 410 - Internship in History

Units: 3

Independent work and/or project completed for outside organization or in some cases, a university project. Must utilize skills as a student of History. Requires permission of Public History Coordinator.

Prerequisites: Department consent.

Credit Restrictions: Open to MS and BS History majors or Public History Certificate students only.

Equivalent Quarter Course: HIST 4010.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

HIST 477 - History and Trends in Nursing

Units: 3 ; G.E./G.R. Area: C4

History of nursing in the US, including structure of the health care delivery system, and how development of nursing profession illuminates issues of class, race and gender in America. Special emphasis on tying historical scholarship to present-day nursing issues.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: HIST 4710.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

HIST 490 - Independent Study

Units: 3-4

By permission of the instructor, students may register for additional and/or in-depth study on a particular topic.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: For declared History majors only.

Equivalent Quarter Course: HIST 4900.

Repeatability: May be repeated for credit for a maximum of 6 units when content varies

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

HIST 497 - Issues in History

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in history.

Equivalent Quarter Course: HIST 3999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Hospitality and Tourism

HOS 100 - Professional Preparation

Units: 2

Preparation for Hospitality, Recreation, and Recreation Therapy majors. Class and career planning for HRT majors. Basic business and professional preparation include basic computer skills, APA style writing, and professional networking. Introduction to Community Engagement.

Equivalent Quarter Course: REC 4100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 200 - Lodging Management

Units: 3

Examination of the physical aspects of hotel and other lodging operations, including development, classification, organization, management concepts, career opportunities, technology, and social media in hotel and lodging administration.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: HOS 4510.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 205 - Tourism Management

Units: 3 ; G.E./G.R. Area: D1-3

Introduction to tourism as a system with various sectors and functions. Focus on transportation, attractions, information, promotion, facilities, services, marketing, human resources, finance, environmental sciences, and other topics. Emphasis on government relations and destination marketing.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: HOS 4570.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

HOS 210 - Meetings, Conventions, & Special Events

Units: 3

Managing and servicing meetings, conventions and special events. Topics include development of marketing plans, organizing the event, developing contracts, staffing, managing food and beverage, and billing.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: HOS 4530.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 215 - Food and Beverage Management

Units: 3

Exploration of food and beverage management and career opportunities in the industry. Calculating and managing food, beverage, and labor costs. Completion of the ServSafe certification.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: HOS 4560.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

HOS 225 - Technology in Hospitality and Tourism

Units: 3

Use of technology as a tool in the hospitality industry including hotel operations software. Additionally, platforms for managing social media and data analysis will be presented.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 2050.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 230 - Sustainable Global Tourism Development

Units: 3 ; G.E./G.R. Area: D1-3; Sustainability

Introduction and implications for management, marketing, and planning of sustainable global tourism. Topics include tourism development; advancement of sustainable development; socio-cultural, economic, and environmental and physical dimensions of sustainable tourism; impacts of tourism development; and facilities and retro-development.

Strongly Recommended Preparation: HOS 100, REC 100 and HOS 205.

Equivalent Quarter Course: HOS 4550.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences, Overlay - Sustainability*

HOS 235 - Introduction to Community Engagement

Units: 3 ; G.E./G.R. Area: E

An introduction to community engagement where students will apply concepts and knowledge of Hospitality, Recreation & Tourism programming to enhance the quality of life in local communities through service.

Equivalent Quarter Course: REC 2500.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

HOS 297 - Food & Culture

Units: 3 ; G.E./G.R. Area: D1-3; Social Justice

Introduction to what and how people eat, including how geography and history have shaped the food patterns and cultures throughout the world. Examination of food and food practices, traditions in different countries, religions, and cultures.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences, Overlay - Social Justice*

HOS 298 - Customer Service for Professions

Units: 3 ; G.E./G.R. Area: D1-3

Customer service competencies, engaging customers, communication, technologies, customer feedback and recovery, exceeding expectations and service improvement. Developing a customer-service improvement plan.

Prerequisites: HOS 100 and REC 100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

HOS 299 - Professionalism & Etiquette

Units: 3 ; G.E./G.R. Area: E; Diversity

Professional preparation, including professionalism and etiquette. Applying proper use of both in appropriate situations. Emphasis on developing a personal and professional brand.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development, Overlay - Diversity*

HOS 300 - Marketing in Hospitality, Recreation, Recreation Therapy, and Tourism

Units: 3

Marketing principles in the fields of hospitality, recreation, recreation therapy and tourism management. Emphasis on the interaction of marketing activities and the development of marketing strategies, including the use of social media and destination marketing.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: HOS 4520.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

HOS 310 - Design & Management of Special Events in Hospitality and Tourism

Units: 3

Planning, designing, servicing and managing special events. A significant portion of the course will be dedicated to planning and executing a special event and event volunteering. Completion of Cvent certification. *Lecture Units: 2; Activity Units: 1*

Strongly Recommended Preparation: HOS 100, HOS 210 and REC 100.

Equivalent Quarter Course: REC 4501 and HOS 4502.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 315 - Wedding Planning

Units: 3

All aspects of planning a wedding, including budgets, timelines, food and beverage, attire, ceremony, floral decor, stationery, photography, entertainment, rentals, layouts, transportation, and favors. Development of a detailed wedding plan.

Strongly Recommended Preparation: HOS 100, HOS 210 and REC 100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 320 - Event Leadership

Units: 3

Leadership skills and abilities required to be successful event professional. Responsibility of event leaders

to address the quality of events, ethics, risk assessment, risk analysis and environmental issues.

Strongly Recommended Preparation: REC 100, HOS 100, HOS 210 and HOS 310

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 335 - Introduction to Wine, Beer and Spirits

Units: 3

The history, science, sensory, economic, and societal aspects of alcoholic beverages. Historical and applied knowledge of preparation of each beverage type, including selection, pairing beverages with foods, cost controls and proper service.

Strongly Recommended Preparation: HOS 100 and REC 100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 340 - Menu Planning, Cost Control, and Purchasing

Units: 3

The essential relationship between the management functions of menu planning and purchasing. The menu as the foundation of any food service establishment.

Strongly Recommended Preparation: HOS 100, HOS 215 and REC 100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 350 - Resort and Club Management

Units: 3

Description and evaluation of guest amenities and recreational features of resorts and clubs. Current trends and operational issues, including membership, financial and profitability factors.

Strongly Recommended Preparation: REC 100, HOS 100, HOS 200 and HOS 205.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

HOS 355 - Advanced Lodging Management

Units: 3

Simulated management of a full-service hotel and other lodging facilities, including revenue management, group sales, marketing, public relations, and customer service.

Strongly Recommended Preparation: HOS 100, REC 100 and HOS 200.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

HOS 360 - Lodging Alternatives

Units: 3

Development and management of alternative forms of lodging available to customers, including timeshares, condotels, hostels, glamping, and adventure travel/lodging

Strongly Recommended Preparation: All of: HOS 100, HOS 200, HOS 205, REC 100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

HOS 400 - Introduction to Finance in Hospitality, Recreation, Recreation Therapy, and Tourism

Units: 3

Financial aspects of the hospitality, recreation and tourism industries, including comprehension of financial statements, preparing budgets, forecasting costs, and managing revenues.

Strongly Recommended Preparation: HOS 100 and REC 100.

Prerequisites: B.S. Hospitality and Tourism major.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 410 - Revenue Management in Hospitality and Tourism

Units: 3

Revenue management principles and applications in the Hospitality and Tourism industries. Revenue generating strategies, cost analysis, and reading financial reports, including Profit and Loss and industry reports.

Strongly Recommended Preparation: HOS 100, HOS 225 and REC 100.

Equivalent Quarter Course: HOS 4540.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 435 - Advanced Community Engagement

Units: 3 ; G.E./G.R. Area: E

This course combines academic coursework with relevant and impactful service to the community. The students will apply what they learned in the classroom to the community, conversely, student activities in the community are integrated into the classroom to enrich learning.

Equivalent Quarter Course: REC 3010.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

HOS 450 - Data-Driven Decision Making in Hospitality, Recreation, Recreation Therapy, and Tourism

Units: 3

Using data to make informed management decisions. Conduct a literature review, collect and analyze data, and create written and oral reports using both quantitative and qualitative data. Explore current software, such as Microsoft Excel, Survey Monkey, and Google Forms.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 3701.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 475 - Internship Placement

Units: 1

Develop a career portfolio, including resume, cover letter, interview preparation, and personal branding information. Identify an internship site to meet all hospitality criteria along with development of internship goals and objectives. Taken one semester prior to Internship. 1000 pre-internship hours required.

Strongly Recommended Preparation: Completion of most core and elective classes.

Prerequisites: B.S. Hospitality and Tourism major.

Equivalent Quarter Course: HOS 4901.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 490 - Independent Study

Units: 1-3

Undergraduate students who have at least a 2.0 (C) grade point average and graduate students with at least

a 3.0 (B) grade point average in all courses in the field or department in which the Independent Study is to be taken.

Strongly Recommended Preparation: REC 100 and HOS 100.

Prerequisites: Department consent, minimum 2.0 GPA.

Equivalent Quarter Course: REC 4900.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 497 - Issues in Hospitality & Tourism

Units: 1-3

Readings, discussion, and research on contemporary and/or significant issues in Hospitality and Tourism.

Strongly Recommended Preparation: REC 100, HOS 100 and HOS 210.

Prerequisites: Department consent.

Equivalent Quarter Course: REC 3999.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HOS 498 - Internship

Units: 3-6

400-hour hospitality/tourism internship taken after completing major classes and 1,000 hours of experience in the field. Must meet university G.P.A. requirements prior to enrollment. Developing a capstone project that demonstrates knowledge learned throughout the program.

Prerequisites: B.S. Hospitality and Tourism major.

Equivalent Quarter Course: HOS 4912.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

Human Development

HDEV 200 - Human Development in Contemporary Society

Units: 3

Introduction to the study of social and environmental problems influencing human development.

Equivalent Quarter Course: HDEV 2001.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be*

taught both online and on-ground).

Grading: A-F or CR/NC (student choice).

HDEV 300 - Introduction to Human Development for Human Development Majors

Units: 1

Introduction to the Human Development program for Human Development majors, regarding program requirements, degree roadmaps, course enrollment management and planning, online courses orientation, navigating the CSUEB student administration system, and student services and resources.

Prerequisites: Junior, senior or post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 301 - Theories of Human Development

Units: 4

Critical review of major theoretical approaches to human development from an interdisciplinary perspective.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 3201.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 302 - Research Methods in Human Development

Units: 4

Review major research designs and techniques for practical interdisciplinary empirical inquiry into human development. Methodological approaches include experiments, surveys, case study, ethnography, interviews, content analysis and historical methods.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 3202.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 311 - Infant and Child Development

Units: 4

Development from conception to pre-adolescence viewed from various perspectives: biological, psychoanalytic, cognitive-structural, stimulus response, humanistic. Prenatal care and counseling,

attachment-separation, parenting and institutional care.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 3301.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 312 - Adolescence and Emerging Adulthood

Units: 4

Developmental issues arising during adolescence and emerging adulthood - including career choice, intimacy, biological changes, and attainment of cognitive, social, biological, and emotional maturity.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 3302.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 321 - Gender, Race & Class in Human Development

Units: 4

Interdisciplinary examination of the effects of race, class, and gender constructions on individuals' lifespan development. Theoretical and empirical information related to social policies, interpersonal relationships, and individual experiences.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 3304.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 322 - Adult Development and Aging

Units: 4

Addresses human development from entry to adulthood through senescence and the final stages of adult life. Fosters understanding of concepts, theories, research findings and methods related to adult development and aging.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 3303.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 380 - Lifespan Human Development

Units: 3 ; G.E./G.R. Area: D4

Interdisciplinary methodologies (integrating sociocultural and biological perspectives) are examined and applied to understanding the human lifespan in interpersonal contexts.

Prerequisites: Junior, senior or post-baccalaureate standing, and completion of GE Areas A1, A2, A3 and B4.

Equivalent Quarter Course: HDEV 3800.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

HDEV 381 - Interdisciplinary Perspectives on Lifespan Human Development

Units: 3

Interdisciplinary perspectives on lifespan human development from infancy to aging, examining physical, biological, cognitive, linguistic, emotional, and social development with reference to social, cultural, and individual contexts.

Prerequisites: Junior, senior or post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

HDEV 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success.

Prerequisites: Department consent and minimum 2.0 GPA.

Equivalent Quarter Course: HDEV 3898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

HDEV 400 - Futures and Careers for Human Development Majors

Units: 1

Reflecting on students' academic accomplishment through the Human Development program, and sharing and exploring inspirations and aspirations for future education and career pathways and goals.

Prerequisites: HDEV 300.

Co-requisites: HDEV 499.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 401 - Applying Theories and Methods in Human Development

Units: 4

Application of theories and methods learned in HDEV 301 and HDEV 302 to people, organizations, and/or settings in the community. Includes a service learning component.

Prerequisites: HDEV 301 and HDEV 302.

Equivalent Quarter Course: HDEV 3203.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 411 - Early Childhood Cognitive Development: Theory and Research

Units: 4

Theories, methods, and research findings in early childhood cognitive development from the prenatal stage to age five. Biological and genetic foundations of cognition, perception, mental representation, problem solving, reasoning, memory, metacognition, and social cognition.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4010.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 412 - Early Childhood Social Development: Theory & Research

Units: 4

Theories, methods, and research findings in early childhood social-emotional development from the neonatal stage to age five. Topics include emotion and temperament, attachment, identity, achievement, gender roles, pro- and anti-social behavior, morality, peers, and the family.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4030.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 413 - Children in Families and Communities

Units: 4

Contemporary families presented from a socio-psychological viewpoint with a focus on sociology of the family, family policy, and the impact of stress on children. Topics include family formation and dissolution, interpersonal communication, personal awareness, and power.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4150.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 414 - Creative and Artistic Development in Early Childhood

Units: 4

Theories and research findings related to creative and artistic development during early childhood, from birth to age five. Observation, design, and implementation of activities in visual art, music, dance, or drama.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4060.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 419 - Contemporary Research Topics in Early Childhood

Units: 4

Readings, discussion, and research on selected topics in early childhood from a developmental perspective.

Prerequisites: Junior, senior or post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 421 - Child Cognitive Development: Theory and Research

Units: 4

Theories, methods, and research findings in child cognitive development from the prenatal stage to age 12. Biological and genetic foundations of cognition, perception, mental representation, problem solving, reasoning, memory, metacognition, and social cognition.

Prerequisites: Junior, senior or post-baccalaureate standing.

Credit Restrictions: Not open to students with credit for HDEV 4510.

Equivalent Quarter Course: HDEV 4110.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 422 - Social Development of Children: Theory and Research

Units: 4

Theories, methods, and research findings in childhood social-emotional development from birth to age 12. Emotion and temperament, attachment, identity, achievement, gender roles, pro- and anti-social behavior, morality, peers, and the family.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4130.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 423 - Child Language Development

Units: 4

Interdisciplinary study of the development of a first language and the biological, linguistic, cognitive, and social factors involved. Development of prelinguistic skills, semantics, syntax, discourse skills, and phonology. Language acquisition theories and hypotheses.

Prerequisites: Junior, senior or post-baccalaureate standing.

Credit Restrictions: Not open to students with credit for HDEV 4520

Equivalent Quarter Course: HDEV 4120.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 424 - Global Perspectives on Childhood

Units: 4

Cross-cultural and socio-historical perspectives on children, childhood, and child development.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4140.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 429 - Contemporary Topics on Children and Youth

Units: 4

Reading, discussion and research on selected topics on children and youth from a development

perspective.

Prerequisites: Junior, senior or post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 431 - Prevention and Intervention in Adolescent Development

Units: 4

Research and theory-based approaches to developing and evaluating prevention and intervention programs for adolescents at risk.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4230.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 432 - Social Dimensions of Conflict in Adolescent and Adult Development

Units: 4

Studies the impact and consequences of conflict on human development, ranging from wars and military actions to prisons and domestic violence. Focuses on contemporary social conflict using an interdisciplinary social science perspective.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4450.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 433 - Technologies, Media, and Adolescence

Units: 4

Examination of contemporary research, trends, and issues as they relate to adolescents' use of media and technologies.

Prerequisites: Junior, senior or post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 439 - Contemporary Research Topics in Adolescent Development

Units: 4

Examination of contemporary theories, research, issues and trends in adolescent development.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4220.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 441 - Human Development and Work

Units: 4

Explores relationships between work, workplace and human development, focusing on how economic, political and technological forces have transformed impact of work for both men and women.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4310.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 442 - Health and Aging

Units: 4

This course presents an interdisciplinary approach to understand the factors that contribute to health outcomes in older adulthood. Focus ranges from global public health to personal narrative.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4362 or HDEV 4363.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 449 - Contemporary Research Topics in Adulthood and Aging

Units: 4

Examination of contemporary theories, research, issues and trends in adulthood and aging.

Prerequisites: Junior, senior or post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 451 - Midlife Transitions

Units: 4

Analysis of the midlife crisis seen through a life cycle perspective as only one of the predictable crises of adult life experienced by both men and women in contemporary society. Addresses both dangers and opportunities of this life cycle passage.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: Any one from: HDEV 4310, HDEV 4361, HDEV 4362, HDEV 4363.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 452 - Intimate Relationships Across the Lifespan

Units: 4

Nature and structure of parent-child, friendship, and sexual love relations. Developmental changes during childhood, adolescence, adulthood, and old age.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4430.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 453 - Sexual Orientations in Human Development

Units: 4

Theory and research related to sexual identity development; examination of sexuality stereotypes and myths. Exploration of gender identity, sexual orientation, sexuality, love relationships, and examination of relationship between sexual orientations and friendship networks, families, and community relations.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: HDEV 4440.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

HDEV 459 - Contemporary Research Topics in Women's Development

Units: 4

Examination of contemporary theories, research, issues and trends in women's development.

Prerequisites: Junior, senior or post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be*

taught both online and on-ground).

Grading: A-F or CR/NC (student choice).

HDEV 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: HDEV 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

HDEV 497 - Issues in Human Development

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in human development

Equivalent Quarter Course: HDEV 3999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

HDEV 499 - Senior Research Seminar

Units: 4

The capstone experience in the major. Design and completion of independent research project on a topic in the field of Human Development.

Prerequisites: HDEV 401.

Co-requisites: HDEV 400.

Equivalent Quarter Course: HDEV 4811 or HDEV 4812.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

Industrial Engineering

INDE 330 - Engineering Statistics and Probability

Units: 3

Analyzing data to solve non-deterministic engineering problems including specialized engineering

software applications. Topics include analysis of service and production systems including error and variability analysis and optimal sampling schemes for decision-making in logistics and manufacturing.

Prerequisites: MATH 130.

Equivalent Quarter Course: INDE 3601 or STAT 3601.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

INDE 340 - Design of Engineering Experiments

Units: 3

An application-oriented course emphasizing concepts of point estimation, regression models, factorial designs, block designs, fractional designs and response surface concepts applied to solving engineering problems. Identification of factorial components and equations to evaluate alternatives with application software.

Prerequisites: INDE 330 or STAT 316.

Equivalent Quarter Course: INDE 3602 or STAT 3602.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

INDE 360 - Operations Research

Units: 4

Theory and application of deterministic and probabilistic optimization techniques. Topics selected from project management, networks, linear programming, non-linear programming, game theory and dynamic programming. Applications using specialized software.

Prerequisites: MATH 131.

Equivalent Quarter Course: INDE 3841.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

INDE 390 - Human Factors and Work Methods

Units: 4 ; G.E./G.R. Area: B6

Human Factors principles utilized for design of tools, jobs, environments and work methods. Human dimensions, capabilities and limitations, including anthropometric, perceptive and cognitive, inform human-centered designs. Case studies illustrate good/poor designs. Principles applied in course projects, exercises and simulations.

Prerequisites: INDE 330 or STAT 100; and completion of GE A1, A2, A3, and B4.

Equivalent Quarter Course: INDE 3020 and INDE 3190.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: B6 - Upper Division Science Inquiry and Quantitative Reasoning
Cross-listed: PSYC 390

INDE 410 - Facility Planning, Design and Material Handling

Units: 3

Design, improve, and analyze industrial facilities including production, service, and material handling processes, material flow analysis, line balancing, systematic layout planning, design of warehouse facilities, and facilities location.

Prerequisites: ENGR 210.

Equivalent Quarter Course: INDE 4430.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

INDE 420 - Discrete Event Simulation

Units: 3

Analyze, improve and design stochastic processes of manufacturing and service systems by using computer simulation techniques. Identify, define and solve stochastic process problems using queuing theory. Use of computer simulations to measure and improve system performance, and optimize system designs. *Lecture Units: 2; Activity Units: 1*

Prerequisites: ENGR 215, and INDE 330 or STAT 316.

Co-requisites: INDE 360.

Equivalent Quarter Course: INDE 4200.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

INDE 430 - Design of Work Systems

Units: 4

Techniques to maximize labor productivity, employee well-being, and organizational performance. Topics include scientific management, human relations, worker motivation, incentive systems, worker autonomy, management of teams including total productive maintenance and socio-technical systems, integration of quality and sustainability in modern organizations.

Prerequisites: INDE 390.

Equivalent Quarter Course: INDE 4280.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

INDE 440 - Sustainable Production and Supply Chain Systems

Units: 4

Use of application software and mathematical modeling to optimize economics, quality and sustainability of supply chain operations.

Prerequisites: INDE 360, and either INDE 330 or STAT 316.

Equivalent Quarter Course: INDE 4100.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

INDE 450 - Systems Quality & Reliability

Units: 4

Fundamental quality control and reliability techniques and applications for analyzing and improving manufacturing and service processes, and designing mechanical/electrical devices.

Prerequisites: ENGR 210, and either INDE 330 or STAT 316.

Equivalent Quarter Course: INDE 4350.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

INDE 460 - Service and Manufacturing Systems Modeling

Units: 4

Integration, problem identification, and the application of problem resolution techniques in manufacturing and service domains. Systems approach to modeling, and resolutions derived by optimization techniques. Supply chain modeling methods, logistics support analysis, procurement, and outsourcing strategies.

Prerequisites: INDE 360.

Equivalent Quarter Course: INDE 4400.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

INDE 490 - Independent Study

Units: 1-3

Selected research topics agreed on between the student and the faculty supervising the course. A plan of work completion must be approved prior to proceeding with the project. A final presentation is required.

Prerequisites: Department consent and minimum 2.0 GPA.

Equivalent Quarter Course: INDE 4900.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

INDE 492 - Senior Design

Units: 4

Utilization of industrial engineering skills, standards and design concepts to complete an engineering project including: Technical report writing, review and revision; formal presentations with feedback; team building exercises and project collaboration; Engineering ethics through case studies and discussions.

Co-requisites: Completion or enrollment in any three courses from: INDE 410, INDE 420, INDE 440, INDE 450, INDE 460.

Equivalent Quarter Course: INDE 4620.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

INDE 497 - Issues in Industrial Engineering

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in engineering.

Equivalent Quarter Course: INDE 3999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

INDE 498 - Internship

Units: 1-3

Formal work opportunities integrating the academic program with their career aspirations. Integral hands-on experience enhancing education and preparing for professional and personal success.

Prerequisites: Department consent, minimum 2.5 GPA., junior or senior standing.

Equivalent Quarter Course: INDE 3898.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

Information Literacy

LIBY 200 - Topics in Information Literacy

Units: 3 ; G.E./G.R. Area: E

Discussion on information literacy with rotating topics and disciplinary focus. Theories, methods, and perspectives on selected topics such as information ethics, social justice, data privacy, and information literacy as applied in the disciplines. Requires individual research.

Prerequisites: Sophomore or higher standing and completion of GE Area A2.

Equivalent Quarter Course: LIBY 1210 or LIBY 1551.

Possible Instructional Methods: *Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

LIBY 210 - Introduction to Information Literacy Skills

Units: 1 ; G.E./G.R. Area: E

Introduction to basic information literacy skills to assist in research processes. Issues of finding appropriate information sources, critical evaluation, and information ethics will be covered.

Prerequisites: Completion of GE area A2 and Sophomore, Junior or Senior standing.

Credit Restrictions: Not open to students with credit for LIBY 220.

Equivalent Quarter Course: LIBY 1210.

Possible Instructional Methods: *Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

LIBY 220 - Information Literacy Skills

Units: 1 ; G.E./G.R. Area: E

Information literacy skills with an emphasis on research in academic context. Issues and skills covered include: search strategies, information evaluation, information ethics, and use of information in research papers and presentations.

Prerequisites: Sophomore or higher standing and completion of GE Area A2.

Credit Restrictions: Not open to students with credit for LIBY 210.

Equivalent Quarter Course: LIBY 1210 or LIBY 1551.

Possible Instructional Methods: *Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

Information Technology Management

ITM 330 - Business Applications Programming

Units: 3

Fundamental programming logic and use of basic programming structures to solve business problems. Design, code, test, and debug business programs based on business requirements using a selected programming language with emphasis on object-oriented programming techniques.

Strongly Recommended Preparation: Digital proficiency.

Prerequisites: BUS 110.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

ITM 331 - Database Management Systems

Units: 3

Database concepts, design, systems, and administration. Topics include ER (entity relationship) modeling, Relational database, database design and development, SQL (structured query language), normalization of database tables, and database administration.

Prerequisites: BUS 340.

Equivalent Quarter Course: ITM 4271.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

ITM 332 - Business Data Communications

Units: 3

Terminology, techniques, and concepts of business data communications. Emphasis on both the technical aspects and related managerial issues. Topics include network technology, standards, protocols, security and design, network management and network applications.

Prerequisites: BUS 340.

Equivalent Quarter Course: ITM 4272.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

ITM 336 - Information Systems Development and Management

Units: 3

Developing information systems including systems planning, analysis, design, testing, implementation, and maintenance. Primary emphasis on learning and practicing techniques and processes used by system analysts at each phase within a system development lifecycle.

Prerequisites: BUS 340.

Equivalent Quarter Course: ITM 4277.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

ITM 338 - E-Business Technology and Management

Units: 3

Technological, conceptual and methodological aspects of e-commerce. Primary emphasis on developing skills in implementing business-oriented systems for e-commerce using information technologies. Topics include Internet, world wide web, databases, programming, security standards, web authorizing tools, integration with enterprise systems.

Prerequisites: BUS 340.

Equivalent Quarter Course: ITM 4278.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

ITM 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No units may be applied to any CBE major or minor.

Equivalent Quarter Course: ITM 3898.

Repeatability: May be repeated with department consent for a maximum of 3 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

ITM 440 - Business Intelligence Systems

Units: 3

Advanced information technologies that extract non-trivial, actionable, and novel knowledge from data to achieve organizational strategic goals. Topics include multidimensional data modeling, online analytic processing, data warehouse, and data mining.

Prerequisites: ITM 330 and BUS 340.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

ITM 442 - Healthcare Information Systems

Units: 3

Information technology and its deployment to the modern healthcare delivery and management. Topics include electronic health records, imaging applications, eHealth and mHealth applications. Emphasis on develop, understand, manage and integrate healthcare information systems in diverse organizations.

Prerequisites: BUS 340.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

ITM 446 - Information Security

Units: 3

Principles and practices of computer system security including operating system security, network security, software security and web security. Topics include computer attacks, protection measures, security principles, security models, and cryptography.

Prerequisites: BUS 340.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

ITM 448 - Information Systems Analytics

Units: 3

Application of information systems to enhance data analysis and effective business problem solving.

Topics include data visualization, online analytical processing, data mining tools, big data technologies, and spreadsheet for data manipulation, etc.

Prerequisites: BUS 340.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

ITM 449 - Advanced Topics in Information Technology

Units: 3

Advanced topic(s) in information technology. For example, concerns to managers in data and information processing, impacts of emerging information technology on the firm, and global information systems.

Prerequisites: ITM 330 and BUS 340.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

ITM 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: ITM 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

ITM 497 - Issues in Information Technology Management

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in information technology management.

Equivalent Quarter Course: ITM 3999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Information Technology Management: Graduate

ITM 690 - Independent Study

Units: 1-4

Independent study under the supervision of a member of the graduate faculty.

Prerequisites: Department consent and minimum 3.0 GPA.

Equivalent Quarter Course: ITM 6900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

ITM 697 - Issues in Information Technology Management

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in information technology management.

Equivalent Quarter Course: ITM 6999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

ITM 698 - Internship

Units: 1-3

Formal advanced work opportunities integrating the academic program with their career aspirations. Integral advanced hands-on experience enhancing education and preparing for professional and personal success.

Prerequisites: Department consent and minimum 3.0 GPA.

Credit Restrictions: No units may be applied to any CBE graduate degree.

Equivalent Quarter Course: ITM 6898.

Repeatability: May be repeated with department consent for a maximum of 3 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

International Studies

INTS 101 - Introduction to International Studies

Units: 3 ; G.E./G.R. Area: D1-3

Introduction to the interdisciplinary field of international studies. Examination of globalization, the interdependence of people, nations and institutions through the lenses of history, geography, politics, anthropology, and economics. Overview of major processes and outcomes of global interaction, cooperation and conflict.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

INTS 398 - Internship

Units: 2-3

Supervised internship/volunteer work with a company, non-profit or government agency in which a substantial portion of the work experience is overseas or internationally related.

Strongly Recommended Preparation: INTS 101.

Prerequisites: Department consent.

Equivalent Quarter Course: INTS 4100.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

INTS 490 - Independent Study

Units: 1-3

Specific research project coursework approve by instructor.

Strongly Recommended Preparation: INTS 101.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: INTS 4900.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

INTS 497 - Issues in International Studies

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in international studies.

Equivalent Quarter Course: INTS 3999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

INTS 499 - Senior Seminar in International Studies

Units: 3

Advanced research, analysis and evaluation of global systems, processes and outcomes. Synthesis and application of knowledge and understanding of chosen major emphasis in the form of a capstone paper on a relevant contemporary issue.

Prerequisites: INTS 101.

Equivalent Quarter Course: INTS 4500.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

Kinesiology

KIN 100 - Beginning Activities: Badminton

Units: 1 ; G.E./G.R. Area: E

Development of Badminton skills, tactics, game strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1000.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 101 - Beginning Activities: Basketball

Units: 1 ; G.E./G.R. Area: E

Development of basketball skills, tactics, game strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1001.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 107 - Beginning Activities: Swimming

Units: 1 ; G.E./G.R. Area: E

Development of swimming skills, tactics, race strategies, etiquette rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1007.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 109 - Beginning Activities: Volleyball

Units: 1 ; G.E./G.R. Area: E

Development of volleyball skills, tactics, game strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1009.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 110 - Beginning Activities: Circuit Training

Units: 1 ; G.E./G.R. Area: E

Development of circuit training activities and skills, gym etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1011.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 112 - Beginning Activities: Fitness Training

Units: 1 ; G.E./G.R. Area: E

Development of fitness training techniques, gym etiquette, rules, and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1012.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 113 - Beginning Activities: Judo

Units: 1 ; G.E./G.R. Area: E

Development of Judo skills, tactics, strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1013.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 114 - Beginning Activities: Weight Training

Units: 1 ; G.E./G.R. Area: E

Development of Weight Training techniques, gym etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1010.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 115 - Beginning Activities: Hapkido Self Defense

Units: 1 ; G.E./G.R. Area: E

Development of Hapkido Self Defense skills, tactics, strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1015.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 116 - Beginning Activities: Taekwondo Karate

Units: 1 ; G.E./G.R. Area: E

Development of Taekwondo Karate skills, tactics, strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1016.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 117 - Beginning Activities: Soccer

Units: 1 ; G.E./G.R. Area: E

Development of soccer skills, tactics, game strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1017.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 118 - Beginning Activities: Self Defense - Women

Units: 1 ; G.E./G.R. Area: E

Development of Self Defense-Woman skills, strategies, etiquette, rules, and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1018.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 119 - Beginning Activities: Brazilian Jiu Jitsu

Units: 1 ; G.E./G.R. Area: E

Development of Brazilian Jiu Jitsu skills, strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 121 - Beginning Activities: Golf

Units: 1 ; G.E./G.R. Area: E

Development of golf skills, tactics, game strategies, etiquette, rules, and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1021.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 124 - Beginning Activities: Tennis

Units: 1 ; G.E./G.R. Area: E

Development of tennis skills, tactics, game strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1024.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 128 - Beginning Activities: Jogging

Units: 1 ; G.E./G.R. Area: E

Development of jogging techniques, strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1028.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 132 - Beginning Activities: Aerobic Fitness - Lap Swimming

Units: 1 ; G.E./G.R. Area: E

Development of swimming technique, lap swimming strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1032.

Repeatability: Course may be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 133 - Beginning Activities: Relaxation

Units: 1 ; G.E./G.R. Area: E

Development of relaxation techniques, strategies, etiquette, rules and value to active living, life-long fitness, health and wellness.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 134 - Beginning Activities: Yoga

Units: 1 ; G.E./G.R. Area: E

Development of yoga techniques, strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1034.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 135 - Beginning Activities: Tai Chi

Units: 1 ; G.E./G.R. Area: E

Development of Tai Chi skills, techniques, strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1035.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 136 - Beginning Activities: Dance Fitness

Units: 1 ; G.E./G.R. Area: E

Development of Dance Fitness skills, techniques, strategies, etiquette, rules and value to active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1036.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 138 - Beginning Activities: Aerobic Fitness - Kick Boxing

Units: 1 ; G.E./G.R. Area: E

Development of kick boxing techniques, tactics, strategies, etiquette, rules and value to active living, life-

long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1038.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 139 - Beginning Activities: Spin

Units: 1 ; G.E./G.R. Area: E

Development of basic spin skills, etiquette, and value to active living, life-long fitness, health and wellness.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 140 - Beginning Activities: Water Aerobics

Units: 1 ; G.E./G.R. Area: E

Basic water aerobics for toning, weight loss, and overall body conditioning. Proper warm-up and cool down techniques.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 141 - Beginning Activities: Aerobic Condition

Units: 1 ; G.E./G.R. Area: E

Overall basic aerobic and resistance training for toning, weight loss, and overall body conditioning. Proper warm-up and cool down techniques. Heart rate monitoring. Circuit changes throughout the semester.

Equivalent Quarter Course: KIN 1041.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 143 - Beginning Activities: Pilates

Units: 1 ; G.E./G.R. Area: E

Pilates is a non-impact, integrative exercise method. Fundamentals, basics and beginning mat work. Strengthening core muscles to improve posture, limb mobility and overall flexibility and balance.

Equivalent Quarter Course: KIN 1043.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 144 - Beginning Activities: Boot Camp Fitness

Units: 1 ; G.E./G.R. Area: E

Intense conditioning that incorporates a full body workout using cardiovascular, strength, endurance, and stretching exercises.

Equivalent Quarter Course: KIN 1044.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 145 - Beginning Activities: Firm and Tone

Units: 1 ; G.E./G.R. Area: E

Beginning Firm and Tone is designed for strengthening the core muscles to improve posture, limb mobility and overall flexibility and balance.

Equivalent Quarter Course: KIN 1045.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 147 - Beginning Activities: Indoor Soccer

Units: 1 ; G.E./G.R. Area: E

Development of indoor soccer skills, tactics, game strategies, etiquette, rules and value to active living, life-long fitness, health and wellness.

Equivalent Quarter Course: KIN 1047.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 148 - Beginning Activities: Soccer - Tennis

Units: 1 ; G.E./G.R. Area: E

Development of soccer-tennis skills, tactics, game strategies, etiquette, rules and value of active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1048.

Repeatability: Course may be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 149 - Beginning Activities: Aerobic Walking

Units: 1 ; G.E./G.R. Area: E

Development of proficiency in basic walking techniques, and understanding of the cardiovascular benefits of walking, and how they contribute towards life-long fitness, health and wellness.

Equivalent Quarter Course: KIN 1049.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 152 - Beginning Activities: Water Polo

Units: 1 ; G.E./G.R. Area: E

Basic skills required for water polo. Conditioning, ball skills, strategy, tactics, rules and value of active living, life-long fitness, health, and wellness.

Equivalent Quarter Course: KIN 1052.

Repeatability: Course may be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 154 - Beginning Activities: Flag Football

Units: 1 ; G.E./G.R. Area: E

Emphasis on basic skill development, rules, strategies, safety, and sportsmanship involved in playing both competitively and recreationally.

Equivalent Quarter Course: KIN 1054.

Repeatability: Course may be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 155 - Beginning Activities: Table Tennis

Units: 1 ; G.E./G.R. Area: E

Emphasis on basic skill development, rules, strategies, safety, and etiquette necessary to play both competitively and recreationally.

Equivalent Quarter Course: KIN 1055.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 156 - Beginning Activities: Ultimate

Units: 1 ; G.E./G.R. Area: E

Non-stop movement, athletic endurance, aerial passing skills with a disc. Introduction to basic skills and strategy.

Equivalent Quarter Course: KIN 1056.

Repeatability: May be repeated once for credit, for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 160 - Introduction to Kinesiology

Units: 3 ; G.E./G.R. Area: D1-3

Study of human movement from humanities, behavioral science, and life science perspectives. Overview of career opportunities in field of kinesiology.

Equivalent Quarter Course: KIN 1610 or KIN 1611.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

KIN 162 - Nutrition and Performance

Units: 3 ; G.E./G.R. Area: B2

Theories and principles of nutrients, basic diet, weight management, exercise demands, training principles, fitness development and effective nutritional practices.

Equivalent Quarter Course: KIN 1625 or KIN 1626.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *B2 - Lower Division Life Sciences*

KIN 200 - Intermediate Activities: Badminton

Units: 1 ; G.E./G.R. Area: E

Emphasis on instruction for persons with intermediate level skills to develop rules, strategies, safety, and etiquette necessary to play both competitively and recreationally.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2000.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 201 - Intermediate Activities: Basketball

Units: 1 ; G.E./G.R. Area: E

Emphasis on more advanced and challenging skill development, rules, strategies, safety, and etiquette necessary to play both competitively and recreationally.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2001.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 207 - Intermediate Activities: Swimming

Units: 1 ; G.E./G.R. Area: E

Emphasis on more advanced and challenging skill development, rules, strategies, safety, etiquette, and value to active living, life-long fitness, health, and wellness.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2007.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 209 - Intermediate Activities: Volleyball

Units: 1 ; G.E./G.R. Area: E

Instruction at intermediate level skill, life-long fitness, health, and wellness.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2009.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 210 - Intermediate Activities: Weight Training

Units: 1 ; G.E./G.R. Area: E

Instruction at intermediate level skill, life-long fitness, health, and wellness.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2010.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 211 - Intermediate Activities: Circuit Training

Units: 1 ; G.E./G.R. Area: E

Aerobic conditioning and resistance training for increased toning and overall body conditioning. Proper warm-up and cool down. Heart rate monitoring. Circuit changes throughout the semester.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2011.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 212 - Intermediate Activities: Fitness Training

Units: 1 ; G.E./G.R. Area: E

Intermediate fitness training is designed for strengthening muscles to improve mobility, life-long fitness, health, and wellness.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2012.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 216 - Intermediate Activities: Taekwondo

Units: 1 ; G.E./G.R. Area: E

Instruction for persons with intermediate level skill in Taekwondo, a Korean martial art in self defense that emphasizes training of the body and mind.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2016.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 217 - Intermediate Activities: Soccer

Units: 1 ; G.E./G.R. Area: E

Advancement of soccer skills, tactics, game strategies, etiquette, rules and value to active living, life-long fitness, health and wellness.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2017.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 224 - Intermediate Activities: Tennis

Units: 1 ; G.E./G.R. Area: E

Advancement of tennis skills, tactics, game strategies, etiquette, rules and value to active living, life-long fitness, health and wellness.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2024.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 234 - Intermediate Activities: Yoga

Units: 1 ; G.E./G.R. Area: E

Variations of well-known Yoga positions, emphasizing a balanced approach to Yoga that embraces relaxation, flexibility, strength and cardiovascular training. Developing a unique, individual practice appropriate for students' fitness levels and goals.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2034.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 235 - Intermediate Activities: Tai Chi

Units: 1 ; G.E./G.R. Area: E

Introduction to Intermediate Tai Chi movement practice, with an emphasis on training of the body and mind.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2035.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 238 - Intermediate Activities: Kick Boxing

Units: 1 ; G.E./G.R. Area: E

Intermediate-level conditioning class that emphasizes non-contact aerobic conditioning activity combining punches, kicks, traditional aerobic skills, and fitness activities. Designed to enhance cardiovascular endurance, muscular strength, and muscular endurance.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2038.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 240 - Intermediate Activities: Varied Activities

Units: 1 ; G.E./G.R. Area: E

Non-traditional sports (e.g., racquetball, wallyball, and pickleball) with an emphasis on intermediate skills, strategies, safety, and sportsmanship involved in playing both competitively and recreationally.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2040.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 241 - Intermediate Activities: Aerobic Conditioning

Units: 1 ; G.E./G.R. Area: E

Intermediate level conditioning class that emphasizes cardiovascular endurance activities through a variety of exercises that stimulate heart and lung activity in an aerobic capacity.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2041.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 242 - Intermediate Activities: Pilates

Units: 1 ; G.E./G.R. Area: E

Intermediate level Pilates building on the fundamentals. Strengthening core muscles to improve posture, limb mobility and overall flexibility and balance.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2043.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 247 - Intermediate Activities: Indoor Soccer

Units: 1 ; G.E./G.R. Area: E

Intermediate skills, strategies, safety, and sportsmanship involved in playing both competitively and recreationally.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2047.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 251 - Advanced Activities: Basketball

Units: 1 ; G.E./G.R. Area: E

Emphasis on more advanced and challenging skill development, rules, strategies, safety, and etiquette necessary to play both competitively and recreationally.

Strongly Recommended Preparation: Substantive prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 3501.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 252 - Advanced Activities: Weight Training

Units: 1 ; G.E./G.R. Area: E

Designed to teach the student advanced lifts and training methods in weight training and to develop the highest level of force and to become significantly stronger through the use of muscular strength training stimulus.

Strongly Recommended Preparation: Substantive prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 3510.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 253 - Advanced Activities: Soccer

Units: 1 ; G.E./G.R. Area: E

Emphasis on more advanced and challenging skill development, rules, strategies, safety, and etiquette necessary to play both competitively and recreationally.

Strongly Recommended Preparation: Substantive prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 3517.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 254 - Intermediate Activities: Flag Football

Units: 1 ; G.E./G.R. Area: E

Intermediate skills, strategies, safety, and sportsmanship involved in playing both competitively and recreationally.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2054.

Repeatability: May be repeated once for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice)

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 255 - Intermediate Activities: Table Tennis

Units: 1 ; G.E./G.R. Area: E

Intermediate skills, strategies, safety, and sportsmanship involved in playing both competitively and recreationally.

Strongly Recommended Preparation: Prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 2055.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 258 - Advanced Activities: Yoga

Units: 1 ; G.E./G.R. Area: E

Development of advanced-level skills and knowledge related to Yoga. Builds upon the fundamental skills and techniques developed in the beginning and intermediate Yoga classes.

Strongly Recommended Preparation: Substantive prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 3534.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 261 - Competition Conditioning

Units: 2 ; G.E./G.R. Area: E

Principles of development of personal fitness program. Topics include goal setting, self-assessment of fitness, nutrition principles, and access to on-line information.

Equivalent Quarter Course: KIN 3545.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 265 - CPR and First Aid

Units: 2 ; G.E./G.R. Area: E

Adult and pediatric CPR/AED and First Aid. Meets qualifications for Red Cross certification. First Aid and CPR/AED certification. Includes modules in Disaster Preparedness and the use of an epinephrine auto-injector.

Equivalent Quarter Course: KIN 2650.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

KIN 270 - Women and Sport

Units: 3 ; G.E./G.R. Area: D1-3; Diversity

Experiences of girls and women in sport from social, cultural and historical perspectives. Constructs of gender, race, ethnicity, and sexuality will be examined. Ideological constraints, structural constraints, and individual and collective resistance will be explored.

Equivalent Quarter Course: KIN 2700.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences, Overlay - Diversity*

KIN 300 - Critical Inquiry in Kinesiology

Units: 4

Theory and application of research methods and data analysis to professional practice in kinesiology. Develop knowledge and skills to be a consumer and producer of research in kinesiology.

Prerequisites: All of: B.S. Kinesiology major, Junior standing or above, BIOL 270, BIOL 271.

Equivalent Quarter Course: KIN 3300.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 301 - Applied Musculoskeletal Anatomy

Units: 3

Skeletal, muscular, and nervous systems and their roles in determining movement in applied settings,

such as daily living, work, physical activity, and rehabilitation. Bone structure, bony landmarks, muscle attachments, muscle actions and resulting motions, and body planes and axes.

Prerequisites: All of: B.S. Kinesiology major, Junior standing or above, BIOL 270, BIOL 271.

Equivalent Quarter Course: KIN 3305.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

KIN 302 - Social Justice in Kinesiology

Units: 4

Ways that we can promote more humane, socially just, and democratic forms of physical activity so that all people have opportunities to gain the benefits of physical activity.

Prerequisites: All of: B.S. Kinesiology major, Junior standing or above, BIOL 270, BIOL 271, KIN 300.

Equivalent Quarter Course: KIN 3750.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

KIN 303 - Biomechanics

Units: 4

Kinematics and kinetics applied to the musculoskeletal system of the human body and the mechanical and muscular analysis of movement patterns. *Lecture Units: 3; Lab Units: 1*

Prerequisites: All of: B.S. Kinesiology major, Junior standing or above, BIOL 270, BIOL 271, KIN 300, KIN 301.

Equivalent Quarter Course: KIN 3310.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 304 - Motor Development

Units: 3

Theoretical perspectives on motor development research. Relevant social, physical, and cognitive influences on human movement across the lifespan. Practical applications to kinesiology careers.

Prerequisites: All of: B.S. Kinesiology major, Junior standing or above, BIOL 270, BIOL 271.

Equivalent Quarter Course: KIN 3340.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

KIN 305 - Critical Issues of the Body

Units: 4

Historical and cultural assumptions about what constitutes a fit body, for whom and for what purposes. Implications of different positions about the relationship and values of physical activity and "fit" bodies.

Prerequisites: All of: B.S. Kinesiology major, Junior standing or above, BIOL 270, BIOL 271.

Equivalent Quarter Course: KIN 3740.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

KIN 306 - Exercise Physiology

Units: 4

The physiological parameters and mechanisms that determine human physiological adaptations in response to exercise and physical activity. *Lecture Units: 3; Lab Units: 1*

Prerequisites: All of: B.S. Kinesiology major, Junior standing or above, BIOL 270, BIOL 271, KIN 300, KIN 301.

Equivalent Quarter Course: KIN 3320.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 307 - Motor Skill Acquisition and Training

Units: 3

Concepts and principles of motor skill acquisition and training for skilled physical performance. Overview of motor control theories and sensorimotor integration. Emphasis on principles and methods in teaching motor skills to different populations and skill levels.

Prerequisites: All of: B.S. Kinesiology major, Junior standing or above, BIOL 270, BIOL 271, KIN 300, KIN 301.

Equivalent Quarter Course: KIN 3330.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

KIN 308 - Psychology of Physical Activity and Performance

Units: 4

Theoretical and evidence-based perspectives on psychological factors influencing and/or resultant of participation in physical activity and other learning and performance contexts. Topics include personality, motivation, arousal and anxiety, concentration, and group dynamics. *Lecture Units: 3; Lab Units: 1*

Strongly Recommended Preparation: KIN 307.

Prerequisites: All of: B.S. Kinesiology major, Junior standing or above, BIOL 270, BIOL 271, KIN 300.

Equivalent Quarter Course: KIN 3350 or KIN 4410.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 310 - Bone Health and Exercise

Units: 3

The relationship between bone health and exercise from adolescence to aging. Review current guidelines and literature and apply the guidelines to communities.

Prerequisites: BIOL 270 and BIOL 271.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 315 - Sport, Culture, and Power

Units: 3 ; G.E./G.R. Area: D4; Social Justice

Examination of sport as a significant social and cultural institution that impacts and is impacted by the larger society. Analysis of past and contemporary issues and controversies through various sociological frameworks.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: KIN 3750.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences, Overlay - Social Justice*

KIN 320 - Sport Film: Cultural Perspectives

Units: 3 ; G.E./G.R. Area: D4; Diversity

Uses sport films to examine relationships of power in society and the way those relationships are contested and reinforced. Particular attention will be paid to cultural tensions and negotiations around issues related to race, gender, and sexuality.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: KIN 3200.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences, Overlay - Diversity*

KIN 321 - Elementary Classroom Teachers as Movement Educators

Units: 4

Growth and development in children with regard to physical education and the importance of physical activity for the classroom. Students explore standards based planning, team building, assessment, and

cross-curricular lesson development. Lecture Units: 3; Activity Units: 1

Prerequisites: B.A. Liberal Studies major.

Equivalent Quarter Course: KIN 3251 or KIN 3252.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 340 - Ergonomics

Units: 3

To provide knowledge and skills to anticipate, identify, analyze and control the risks that arise from physically demanding activity. Design environments that maximize the musculoskeletal health of workers.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 350 - Advanced Activities: Badminton

Units: 1

Advanced, challenging skill development, rules, strategies, safety, and etiquette necessary to play both competitively and recreationally.

Strongly Recommended Preparation: Substantive prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 3500.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

KIN 354 - Advanced Activities: Taekwondo

Units: 1

Development of advanced-level skills and knowledge related to Taekwondo. Builds upon the fundamental skills and techniques developed in the beginning and intermediate Taekwondo classes.

Strongly Recommended Preparation: Substantive prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 3516.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

KIN 356 - Advanced Activities: Golf

Units: 1

Emphasis on more advanced and challenging skill development, rules, strategies, safety, and etiquette

necessary to play both competitively and recreationally.

Strongly Recommended Preparation: Substantive prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 3521.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

KIN 357 - Advanced Activities: Tennis

Units: 1

Emphasis on more advanced and challenging skill development, rules, strategies, safety, and etiquette necessary to play both competitively and recreationally.

Equivalent Quarter Course: KIN 3524.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

KIN 360 - Aerobics Instructor Training

Units: 2

Skills and knowledge necessary to teach music-based aerobics classes. Fitness assessment, choreography, routines, and music selection. Students gain experience teaching an aerobics class.

Equivalent Quarter Course: KIN 3542.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

KIN 362 - Advanced Activities: Indoor Soccer

Units: 1

Emphasis on more advanced and challenging skill development, rules, strategies, safety, and etiquette necessary to play both competitively and recreationally.

Strongly Recommended Preparation: Substantive prior experience in the activity - check with instructor.

Equivalent Quarter Course: KIN 3547.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

KIN 370 - US Twentieth Century Women's Sport

Units: 3 ; G.E./G.R. Area: C4; Diversity

Examines the social and political issues in women's sport in US twentieth century history. Gender constructions and tensions as they intersect with race, ethnicity, class, and sexuality are explored.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: KIN 3700 or KIN 3701.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities, Overlay - Diversity*

KIN 372 - Teaching Fitness and Self Defense

Units: 1

Techniques and tactics necessary for the teaching of fitness activities and self defense. Application of the California State Framework for Physical Education. Participation required. *Lecture Units: .5; Activity Units: .5*

Prerequisites: Department consent.

Equivalent Quarter Course: KIN 3079.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 375 - Concepts of Teaching Aquatics

Units: 1

Techniques and tactics for the teaching of aquatic activities. Understand and apply the California State Framework for Physical Education. Participation required. *Lecture Units: .5; Activity Units: .5*

Prerequisites: Department consent.

Equivalent Quarter Course: KIN 3075.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 379 - Games Concepts I

Units: 2

Fundamental knowledge of skill acquisition and pedagogical methods teaching team, field, individual and dual sports. Application of the California State Framework for Physical Education. Active participation in physical activities is required. *Lecture Units: 1; Activity Units: 1*

Prerequisites: Department consent.

Equivalent Quarter Course: KIN 3079 or KIN 3080.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 380 - Games Concepts II

Units: 2

Fundamental knowledge of skill acquisition and pedagogical methods for teaching nontraditional and outdoor games and sports. Application of the California State Framework for Physical Education. Active participation in physical activities is required. *Lecture Units: 1; Activity Units: 1*

Prerequisites: Department consent.

Equivalent Quarter Course: KIN 3072 or KIN 3080.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 404 - Elementary Physical Education Curriculum

Units: 3

Introduce prospective physical education teachers to recent trends in delivery of physical education programs at the elementary school level. Instructional strategies and activities appropriate for children in this setting. *Lecture Units: 2; Activity Units: 1*

Prerequisites: B.S. Kinesiology major and KIN 302.

Equivalent Quarter Course: KIN 4004.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 405 - Theories of Teaching Secondary Physical Education Curriculum

Units: 3

Introduce prospective physical education teachers to recent trends and development in the delivery of physical education programs at the secondary level. Educational theories and approaches to teaching, effective instructional strategies, and activities appropriate for adolescents.

Prerequisites: B.S. Kinesiology major and KIN 302.

Equivalent Quarter Course: KIN 4006.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 406 - Introduction to Adapted Physical Activity

Units: 3

Introduces Adapted Physical Education and activities for professional preparation in kinesiology and education.

Prerequisites: B.S. Kinesiology major and KIN 302.

Equivalent Quarter Course: KIN 4008.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 409 - Spinal Biomechanics & Low Back Disorders

Units: 3

A multidisciplinary (e.g., biomechanical, psychosocial, physiological, motor control, clinical and legislative) approach to low-back disorders to improve decision-making about assessment, injury prevention, and rehabilitation.

Prerequisites: KIN 303.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 410 - Musculoskeletal Injuries in Work and Sport

Units: 3

Mechanical principles governing force characteristics, mechanisms of injury, and healing rate of tissues in the human musculoskeletal system.

Prerequisites: KIN 303.

Co-requisites: KIN 306.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 420 - Exercise Prescription

Units: 3

Assess and interpret exercise and fitness testing, including pre-exercise participation screening and assessments of cardiorespiratory endurance, muscular strength and endurance, body composition, and flexibility. Assists with preparing for the ACSM Certified Exercise Physiologist Certification.

Prerequisites: KIN 306 with grade B or better.

Equivalent Quarter Course: KIN 4610.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 421 - Clinical Exercise Physiology

Units: 3

Perform and interpret selected clinical and physical assessments in patients with chronic diseases where exercise training has been shown to be of therapeutic benefit, including cardiovascular and pulmonary diseases, and metabolic and musculoskeletal disorders.

Prerequisites: KIN 306 with grade B or better.

Equivalent Quarter Course: KIN 4330.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 422 - Exercise Nutrition

Units: 3

Foundational nutrition concepts and current literature. Describe general recommendations for health and wellness, principles of sports nutrition, and practical applications of diet assessment and nutrition planning. Examine products designed to increase performance.

Prerequisites: KIN 306 with grade B or better.

Equivalent Quarter Course: KIN 4005.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 423 - Exercise and Stress

Units: 3

The physiology of the stress response, its role in disease, and the immediate and long-term relationship between exercise and stress.

Prerequisites: KIN 306 with grade B or better.

Equivalent Quarter Course: KIN 4615.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 424 - Exercise and Gerontology

Units: 3

Assess and define health issues common with age, understand the pathogenesis of diseases associated with age, and evaluate the benefits of physical activity and exercise to healthy aging.

Prerequisites: KIN 306.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 447 - Motor Skill Expertise

Units: 3

Science of expertise in motor skill acquisition and performance. Evidence-based concepts and principles underlying elite training and skilled physical performance. Practical applications for teaching, coaching, and training elite performers.

Strongly Recommended Preparation: Satisfactory completion of KIN 304 and KIN 308.

Prerequisites: KIN 307 with grade B or better.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

KIN 448 - Mental Skills for Learning and Performance

Units: 3

Optimizing physical and cognitive learning and performance in a variety of contexts using mental skills, such as goal setting, imagery, observational learning, and self-talk.

Prerequisites: B.S. Kinesiology major, KIN 300 and KIN 308.

Equivalent Quarter Course: KIN 3205.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 451 - Intercollegiate Athletics: Basketball

Units: 1

Sport specific physical and mental fitness training and conditioning for successful participation in intercollegiate basketball.

Equivalent Quarter Course: KIN 4051.

Repeatability: Repeatable according to season for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 453 - Intercollegiate Athletics: Baseball

Units: 1

Sport specific physical and mental fitness training and conditioning for successful participation in intercollegiate baseball.

Equivalent Quarter Course: KIN 4053.

Repeatability: Repeatable according to season for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 454 - Intercollegiate Athletics: Cross-Country

Units: 1

Sport specific physical and mental fitness training and conditioning for successful participation in intercollegiate cross-country.

Equivalent Quarter Course: KIN 4054.

Repeatability: Repeatable according to season for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 455 - Intercollegiate Athletics: Outdoor Track

Units: 1

Sport specific physical and mental fitness training and conditioning for successful participation in intercollegiate outdoor track.

Equivalent Quarter Course: KIN 4055.

Repeatability: Repeatable according to season for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 458 - Intercollegiate Athletics: Golf

Units: 1

Sport specific physical and mental fitness training and conditioning for successful participation in intercollegiate golf.

Equivalent Quarter Course: KIN 4058.

Repeatability: Repeatable according to season for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 461 - Exercise and Well-Being

Units: 3 ; G.E./G.R. Area: B6

The application of the scientific principles underpinning exercise to improving fitness, health, and well-being. Using quantitative skills to critically evaluate claims as to the benefits of exercise on health and well-being.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Credit Restrictions: Not open for credit to Kinesiology majors or minors.

Equivalent Quarter Course: KIN 4614.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *B6 - Upper Division Science Inquiry and Quantitative Reasoning*

KIN 462 - Intercollegiate Athletics: Women's Basketball

Units: 1

Sport specific physical and mental fitness training and conditioning for successful participation in

intercollegiate women's basketball.

Equivalent Quarter Course: KIN 4062.

Repeatability: Repeatable according to season for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 468 - Intercollegiate Athletics: Women's Volleyball

Units: 1

Sport specific physical and mental fitness training and conditioning for successful participation in intercollegiate women's volleyball.

Equivalent Quarter Course: KIN 4068.

Repeatability: Repeatable according to season for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 469 - Intercollegiate Athletics: Soccer

Units: 1

Sport specific physical and mental fitness training and conditioning for successful participation in intercollegiate soccer.

Equivalent Quarter Course: KIN 4069.

Repeatability: Repeatable according to season for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 470 - Sport in the Local Community

Units: 3

Examine how local city spaces where sport occurs are constituted and promoted according to distinguishers of race, ethnicity, social class, culture and immigration.

Prerequisites: KIN 302 or KIN 305.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

KIN 474 - Intercollegiate Athletics: Women's Softball

Units: 1

Sport specific physical and mental fitness training and conditioning for successful participation in intercollegiate women's softball.

Equivalent Quarter Course: KIN 4074.

Repeatability: Repeatable according to season for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 477 - Intercollegiate Athletics: Women's Swimming

Units: 1

Sport specific physical and mental fitness training and conditioning for successful participation in intercollegiate women's swimming.

Equivalent Quarter Course: KIN 4077.

Repeatability: Repeatable according to season for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 478 - Intercollegiate Athletics: Women's Waterpolo

Units: 1

Sport specific physical and mental fitness training and conditioning for successful participation in intercollegiate women's waterpolo.

Equivalent Quarter Course: KIN 4078.

Repeatability: Repeatable according to season for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 480 - Gender and Sexualities in Sport

Units: 3

The relationship between sex, gender, sexuality, and sport. Topics include sport and intersectionality, the body, and homophobia.

Prerequisites: Kinesiology major.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

KIN 483 - Intercollegiate Athletics: Women's Soccer

Units: 1

Sport specific physical and mental fitness training and conditioning for successful participation in intercollegiate women's soccer.

Equivalent Quarter Course: KIN 4083.

Repeatability: Repeatable according to season for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 489 - Sport, Racism, and Ethnicity

Units: 3 ; G.E./G.R. Area: D4; Social Justice

Sport as a cultural site that reproduces and challenges racial and ethnic inequalities and ideologies.

Prerequisites: Kinesiology major and completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: KIN 3735.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences, Overlay - Social Justice*

KIN 490 - Independent Study

Units: 1 - 3

Individual investigation of a specific issue, area, or topic in kinesiology planned in consultation with a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Equivalent Quarter Course: KIN 4900.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 493 - Project

Units: 1 - 3

Applied project approved and supervised by a department faculty member addressing specific need, issue or problem in kinesiology summarized in a written report.

Strongly Recommended Preparation: Completion of core KIN classes.

Prerequisites: Kinesiology major.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 495 - Practicum in Kinesiology

Units: 1 - 3

Field experiences to observe and document how working professionals perform their job responsibilities.

Strongly Recommended Preparation: Completion of the kinesiology core.

Prerequisites: Kinesiology major.

Equivalent Quarter Course: KIN 4030.

Repeatability: Yes

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

KIN 497 - Contemporary Issues in Kinesiology

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in kinesiology.

Strongly Recommended Preparation: Completed core kinesiology classes.

Prerequisites: Kinesiology major.

Equivalent Quarter Course: KIN 3999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

KIN 498 - Internship

Units: 1 - 3

Supervised professional field experience in a setting related to kinesiology. Application of theory to practice.

Strongly Recommended Preparation: Completion of B.S. Kinesiology major core classes.

Prerequisites: B.S. Kinesiology major, Junior or Senior standing and department consent.

Equivalent Quarter Course: KIN 4031.

Repeatability: May be repeated for credit for a maximum of 3 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

Kinesiology: Graduate

KIN 601 - Knowledge Construction in Kinesiology

Units: 4

Developing information literacy skills: Finding, critically evaluating, and interpreting scholarly methods, research, and theory. Analyzing and synthesizing information from multiple sources, proposing conclusions and further lines of inquiry.

Prerequisites: M.S. Kinesiology major.

Equivalent Quarter Course: KIN 6000.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 602 - Critical Perspectives on the Body

Units: 4

Explores the ways in which the body has been and is culturally created and shaped in a socio-political context. The fields of health/wellness, physical education, and sport will provide spaces to examine ideological influences on the body is represented and understood.

Equivalent Quarter Course: KIN 6435.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 603 - Psychomotor Aspects of Learning and Performance

Units: 4

Evaluating the impact of human cognition, attitudes, beliefs, and perceptions on motor-skill learning and performance. Emphasis on the importance of evidence-based and contextualized approaches to individual learners, performers, and groups.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: KIN 6411 or 6412.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 604 - Effective Movement Instruction

Units: 4

Applies principles of effective movement instruction, evaluation, and feedback methods. Emphasis on the importance of personal, environmental, situational factors and their interaction in structuring learning and performance environments.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: KIN 6605.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 605 - Physiological Basis of Exercise and Wellness

Units: 4

Evaluating the impact of exercise and physical activity on physiological systems and their mechanisms of adaptation. Application of concepts to the mitigation of chronic disease will also be investigated.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 606 - Current Trends in Kinesiology: Myth Busters

Units: 4

Challenging current trends in health, wellness, and physical activity by critically assessing, interpreting, and synthesizing relevant kinesiology research and theory.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 607 - Assessment of Human Performance

Units: 4

Assessing human performance using a range of tools and methodologies. Evaluating limitations within testing environments and protocols available in a range of settings. Communicating and interpreting outcomes to the learner/performer.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 608 - Biomechanics of Musculoskeletal Injury

Units: 4

Examining the structure, composition and material behavior of the skeletal tissues, including bone, cartilage, tendon, ligament and muscle. Analysis of injury and degenerative changes associated with aging. Problem-based approach.

Strongly Recommended Preparation: Undergraduate Biomechanics.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 609 - Synthesis in Kinesiology

Units: 4

Applying Kinesiology knowledge and perspectives to complete a research project, major literature review, internship, community service project, or University thesis. Developed in consultation with graduate adviser, must include considerable background information search, documentation and reporting of outcomes and conclusions.

Strongly Recommended Preparation: At least 4 other graduate courses in KIN.

Prerequisites: KIN 601.

Credit Restrictions: KIN Post-Baccalaureate only

Equivalent Quarter Course: KIN 6710.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 685 - Supervised Research

Units: 1-4

Independent research under direction of faculty.

Prerequisites: Department consent.

Credit Restrictions: Open to Kinesiology majors only.

Equivalent Quarter Course: KIN 6850.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 690 - Independent Study

Units: 1-4

Individual investigation of a specific issue, area or topic in kinesiology planned in consultation with a department faculty member.

Prerequisites: Department consent, minimum 3.0 GPA.

Credit Restrictions: Open to Kinesiology majors only.

Equivalent Quarter Course: Replaces independent study course from quarter program (KIN5900 or KIN6900). Equivalency to same units taken.

Repeatability: Course may be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 691 - University Thesis

Units: 4

Investigation of area or problem in kinesiology. Address meaningful research question and write a formal research paper submitted to University. Supervision by departmental committee; at least one member must be on graduate faculty. Oral defense required.

Strongly Recommended Preparation: Capstone course that should be taken in the last semester of the program.

Credit Restrictions: Open to Kinesiology majors only.

Equivalent Quarter Course: KIN 6910.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 692 - Comprehensive Exam Review

Units: 4

Prepare for comprehensive examination. Oral defense may be required.

Strongly Recommended Preparation: Capstone course to be taken in the last semester of study.

Prerequisites: Kinesiology major.

Credit Restrictions: Open to Kinesiology majors only.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 693 - Project

Units: 4

Applied project addressing specific need, perspective, issue or problem in kinesiology. Developed in consultation with adviser; must include expansive information search, documentation of the application, reporting of outcomes and conclusions. An oral defense of the project may be required.

Strongly Recommended Preparation: Capstone courses to be taken in last semester of study.

Credit Restrictions: Open to Kinesiology majors only.

Equivalent Quarter Course: KIN 6899.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 697 - Contemporary Issues in Kinesiology

Units: 4

Selected topics on issues of contemporary importance in kinesiology.

Credit Restrictions: Open to Kinesiology majors only.

Equivalent Quarter Course: KIN 6700.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

KIN 698 - Internship

Units: 1-4

Supervised professional field experience in a setting related to kinesiology. Application of theory to practice.

Credit Restrictions: Open to Kinesiology majors only.

Repeatability: Course may be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

Liberal Studies

LBST 201 - Introduction to Liberal Studies

Units: 3

Introduction to the liberal arts educational approach, and application of interdisciplinary perspective to selected contemporary issues. Emphasis on information, reasoning, and evidence in written and/or visual

presentations.

Credit Restrictions: Not open to students with credit in HUM 2010.

Equivalent Quarter Course: HUM 2010.

Possible Instructional Methods: *Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

LBST 499 - Liberal Studies Senior Seminar

Units: 3

Capstone course for the Liberal Studies majors. Emphasis on interdisciplinary analysis of a significant contemporary issue. Written and/or web-based presentation of research and/or community engagement activities, and student learning outcomes portfolio.

Credit Restrictions: Not open to students with credit in HUM 4020.

Equivalent Quarter Course: HUM 4020.

Possible Instructional Methods: *Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

Management

BUS 110 - Fundamentals of Information Systems and Applications

Units: 3

Computer hardware, software and information systems relating to the business environment. Focus on business applications of software including word processing, spreadsheets, databases, presentation, and business-oriented utilization of information technology.

Equivalent Quarter Course: ITM 1270.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

BUS 310 - Organizational Behavior

Units: 3

The translation of organizational behavior theory and research to practices for creating productive organizations that are great workplaces. Students examine behavior at the individual, group and organizational level to explain, predict and change behavior at work.

Strongly Recommended Preparation: Junior, senior, or post-bacc standing.

Equivalent Quarter Course: MGMT 3614.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

BUS 320 - Business and Professional Ethics

Units: 3

Value systems and ethical issues related to business, professional, and commercial activity. Topics may include ethical decision-making, organizational culture, ethical leadership, diversity, and corporate social responsibility.

Equivalent Quarter Course: MGMT 3560 .

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

BUS 340 - Information Technology Management

Units: 3

Effective and efficient uses of information technology in business problems. Topics include Excel for business operations and support, Excel for data analytics, database management systems, telecommunications, case studies and projects related to Excel-based solutions to business applications.

Equivalent Quarter Course: ITM 3060.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

BUS 360 - Operations Management

Units: 3

Management of operations in service and manufacturing organizations. Topics include: operations strategy in global environment, new product and service development, quality management and control, process and capacity management, supply chain management and sustainability, inventory control, and lean management.

Prerequisites: MGMT 350.

Equivalent Quarter Course: MGMT 3620.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

BUS 370 - Business, Government and Society

Units: 3

Focus on how to proactively anticipate, critically analyze, and appropriately respond to the social, political, regulatory, ethical, and technological challenges that confront managers.

Prerequisites: Senior standing and BUS 320.

Equivalent Quarter Course: MGMT 4500

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

BUS 385 - International Business

Units: 3

The cultural, political, and economic environments of international businesses as well as the strategies that businesses pursue in a global context.

Prerequisites: Senior standing.

Equivalent Quarter Course: MGMT 4670.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

BUS 499 - Seminar in Strategic Business Management

Units: 3

Use of business strategy concepts, tools, cases, and strategic planning to identify external influences on businesses, analyze the competitive environment in which organizations operate, assess strategic options for a firm, and craft plans for executing business strategy. Students must have application for graduation on file for department consent.

Prerequisites: BUS 325, BUS 330, MGMT 350 and BUS 370 or ACCT 370 and University Writing Skills Requirement (UWSR) and department consent.

Equivalent Quarter Course: MGMT 4650.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 311 - Managing Diversity in the 21st Century Workplace

Units: 3

Challenges and rewards associated with managing today's increasingly diverse workforce. It responds to demographic and global changes in the workplace by framing diversity and inclusion as a resource to be leveraged rather than a problem.

Prerequisites: Junior, senior or post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 312 - Human Resources Management

Units: 3

Human resources management for human resource professionals and general managers. Representative topics include recruitment and selection, training and development, performance management, compensation and benefits. Emphasizes how organizations manage human resources to obtain and sustain a competitive advantage.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: MGMT 3610.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 314 - Leadership and Management

Units: 3

Critical analysis of descriptive and normative theories of formal organization, including a consideration of organization structure, communications, planning, and control. Other topics include the effects of business environment, behavioral science, and globalization on management decisions.

Prerequisites: Completion of GE areas A1, A2 and A3.

Equivalent Quarter Course: MGMT 3600.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 316 - Training and Development

Units: 3

Workplace learning is key to the development of employees and a firm's success. Topics include needs assessments, learning theories, instructional design, training methodologies, presentation techniques, and program evaluation. Students will design and present sample training and development programs.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: MGMT 4618.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 318 - Employee Relations and Employment Law

Units: 3

Employee-management relations. Topics include: defining the employment relationship; employment law; regulation and compliance; employee rights; alternative dispute resolution and grievance procedures; collective bargaining and preventative employee relations; and emerging issues in employee relations.

Equivalent Quarter Course: MGMT 3680.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 320 - Negotiation and Conflict Management

Units: 3

Negotiation and conflict management are key managerial skills. This course examines a range of conflict settings to develop students' skills in negotiation and conflict resolution. These include conflict mapping, distributive and integrative negotiations, third party intervention and managing cross-cultural conflict.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: MGMT 4520.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 350 - Decision Science

Units: 3 ; G.E./G.R. Area: B6

Problem solving and quantitative reasoning skills for effective decision making. Topics include decision analysis, optimization, simulation and forecasting. Emphasis is on formulating quantitative models to address real world problems and solving them using spreadsheet software.

Prerequisites: Completion of GE Areas A1, A2, A3 and B4 ; MATH 180 and STAT 110.

Equivalent Quarter Course: MGMT 3100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *B6 - Upper Division Science Inquiry and Quantitative Reasoning*

MGMT 362 - Service Management

Units: 3

Interdisciplinary frameworks, theories and research methods used in the design and analysis of contemporary service systems. Topics include service concept and strategy, design of service delivery, service quality, relevant skills, impact of technology, and social impact.

Prerequisites: Completion of GE areas A1, A2 and A3.

Equivalent Quarter Course: MGMT 4625.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 364 - Global Supply Chain Management

Units: 3

Concepts and tools necessary to configure and manage supply chains in a global environment. Topics include network design, strategic planning, supply chain coordination, resource allocation, capacity design, transportation management, material handling, and information technology.

Prerequisites: BUS 360.

Equivalent Quarter Course: MGMT 3645.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 365 - Enterprise Resource Planning and Control

Units: 3

Concepts and applications of managing available resources, such as material, labor, capacity, and financial capital, in both service and manufacturing organizations. Emphasis on developing practical skills and utilizing modern business software in enterprise resource planning.

Prerequisites: BUS 360.

Equivalent Quarter Course: MGMT 4640.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 366 - Logistics Management

Units: 3

Provides a practical, management perspective of logistics. Topics include distribution, transportation, international logistics, inventory control, sustainable logistics practices, key performance indicators, and logistics technology.

Prerequisites: BUS 360.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 368 - Quality and Process Improvement

Units: 3

Elements of quality management methods of and techniques in quality assurance, statistical process control, and acceptance sampling. Emphasis on decision-making and applications in quality improvement. Also, development of variable and attribute quality control charts, and reliability measurement and analysis.

Prerequisites: BUS 360.

Equivalent Quarter Course: MGMT 3626.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 369 - Supply Management and E-Commerce

Units: 3

Concepts and applications of current advances in managing supply of goods and services, including strategic sourcing, computerized purchasing, online auctions, contract design, enterprise software application, quality control, cost analysis, price negotiation, inventory management, and capital equipment procurement.

Prerequisites: BUS 360.

Equivalent Quarter Course: MGMT 3624.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No units may be applied to any CBE major or minor.

Equivalent Quarter Course: MGMT 3898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

MGMT 400 - Seminar on Special Topics in Human Resource Management and Organizational Behavior

Units: 3

In-depth examination of a specific best practice or current issue in Human Resource Management/Organizational Behavior, such as managing diversity, global leadership, leading change and transformation, organizational development, organizational design, high performance management.

Equivalent Quarter Course: MGMT 3612.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 402 - Managing the Global Workplace

Units: 3

Challenges faced by HR managers in managing a global workforce, and solutions in the context of management theory and practice. The course focuses on international human resource & cross cultural management.

Prerequisites: MGMT 312 and junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: MGMT 4675.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 404 - Staffing and Talent Management

Units: 3

Processes organizations typically follow to recruit and retain employees. Reviews key concepts and current practices for strategic human capital planning, such as staffing and recruitment; performance

management; succession planning; and retention.

Prerequisites: Junior or senior or post-baccalaureate standing.

Equivalent Quarter Course: MGMT 3616.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 406 - Compensation and Reward Systems

Units: 3

Theory and practice of compensation. Emphasis on how to design and manage compensation systems to attract, retain, and motivate workers. Representative topics include incentive pay, benefits, deferred compensation, performance evaluation, promotion-based pay systems, wage and hour law.

Prerequisites: Junior or senior or post-baccalaureate standing.

Equivalent Quarter Course: MGMT 4615.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 408 - HR Analytics

Units: 3

Application of statistical data analysis methods to analyze HR functions such as selection, compensation, performance management, leadership, and employee engagement. It uses a data-driven, problem-solving approach for the development of effective HR practices.

Prerequisites: MGMT 312, junior or senior or post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 450 - Project Management

Units: 3

Processes, tools and techniques required in managing projects. Topics include project selection and strategic alignment, project scope, time, cost and resource management, risk management, project control.

Prerequisites: MGMT 350.

Equivalent Quarter Course: MGMT 3110.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 455 - Supply Chain Data Analytics

Units: 3

Quantitative analysis of practical data-driven decisions in operations and supply chain management.

Emphasis on determining best decisions by using methods and tools of big data analytics and application-based software.

Prerequisites: MGMT 350.

Equivalent Quarter Course: MGMT 3115.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 460 - Healthcare Operations Management

Units: 3

Concepts, tools and methodologies to design and manage operational activities in a healthcare system. Topics include operational metrics, quality management, process analysis, supply chain management, healthcare technology, inventory management, and pharmacy operations.

Prerequisites: BUS 360.

Equivalent Quarter Course: MGMT 4660.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 465 - Emerging Technologies in Operations

Units: 3

Investigate how emerging technologies affect business operations; analyze how businesses can utilize emerging technologies to improve operations efficiency and effectiveness and to gain competitive advantages.

Prerequisites: BUS 360.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MGMT 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: MGMT 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MGMT 497 - Issues in Management

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in management.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: MGMT 3999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Management: Graduate

BAN 601 - Technology Fundamentals for Analytics

Units: 3

Technologies for developing analytics applications. Topics include: fundamentals of business programming, sequential file processing, detail and summary reporting, and data validation.

Prerequisites: Post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

BAN 602 - Quantitative Fundamentals for Analytics

Units: 3

Fundamental quantitative methods with software. Topics include: programming for data analysis, computational linear algebra, and quantitative methods.

Strongly Recommended Preparation: College Algebra, Statistics and Object-Oriented Programming.

Prerequisites: Post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

BAN 610 - Database Management and Applications

Units: 3

Data modeling, database design and implementation, database administration, and database applications. Topics include: database design, incorporating business rules into entity-relationship (ER) models, transformation of an ER model into a relational database design, normalization of database tables, and SQL languages.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: ITM 6271.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BAN 612 - Data Analytics

Units: 3

Data collection, preparation, visualization, and analysis with software applications. Topics include: web scraping, Application Program Interface (API) data collection, data wrangling, visualization, data type and structure, and computational and quantitative methods.

Strongly Recommended Preparation: College Algebra, Statistics and Object-Oriented Programming.

Prerequisites: BAN 602.

Equivalent Quarter Course: MGMT 6160.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BAN 620 - Data Mining

Units: 3

Fundamental concepts of data mining and extensive hands-on experience in applying the concepts to real-world applications. Topics include dimension reduction, classification, association analysis, clustering and model evaluation techniques. Business applications of data mining techniques are emphasized.

Prerequisites: BAN 602.

Equivalent Quarter Course: ITM 6285 or MGMT 6285.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BAN 622 - Data Warehousing and Business Intelligence

Units: 3

Data warehousing and business intelligence concepts, design, implementation, and software tools. Topics include data warehouse architecture, dimensional model design, data integration and visualization, business intelligence reporting and dashboards.

Prerequisites: BAN 610.

Equivalent Quarter Course: ITM 6280.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BAN 630 - Optimization Methods for Analytics

Units: 3

Determining the best solution among various choices, suggesting decision options, and illustrating the implications of each option. Topics include: optimization methods, queuing models, simulation, and

application- based software.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: MGMT 6165.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BAN 632 - Big Data Technology and Applications

Units: 3

Key technologies and applications for big data analytics. Topics include: distributed file systems, big data input/output, streaming technologies, techniques for parallel processing, and big data application development.

Prerequisites: BAN 601.

Equivalent Quarter Course: ITM 6273.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BAN 660 - Advanced Topics in Big Data

Units: 3

Newest technologies for Big Data analytics. Topics include: new tools, algorithms, and platforms for Big Data storage, processing, analysis, visualization, and application.

Prerequisites: Post-baccalaureate standing.

Repeatability: May be repeated twice for credit for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BAN 670 - Advanced Topics in Analytics

Units: 3

Recent development in various topics of analytics, which include, but not limited to, advanced data visualization, machine learning, text mining and web analytics, natural language processing, and industrial applications of data analytics.

Strongly Recommended Preparation: College Algebra, Statistics and Object-Oriented Programming.

Prerequisites: BAN 612.

Repeatability: May be repeated twice for credit for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BAN 671 - Data Analytics with R

Units: 3

Focus on applying business analytics techniques using R programming. Emphasis on using R syntax and packages for data manipulation, visualization and advanced analytics in the context of business environment.

Prerequisites: All of: BAN 601, BAN 602, BAN 620.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

BAN 672 - Data Analytics with SAS

Units: 3

Focus on applying business analytics techniques using SAS programming. Emphasis on using SAS syntax and modules for data manipulation, visualization and advanced analytics to solve real world business problems.

Prerequisites: All of: BAN 601, BAN 602, BAN 620.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

BAN 673 - Time Series Analytics

Units: 3

Introduces fundamental concepts and methods of time series analytics. Topics include evaluation of data patterns, moving averages, smoothing models, regression-based forecasting, and ARIMA models. Emphasis is on hands-on experience in applying time series analytics in business.

Prerequisites: BAN 602.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

BAN 674 - Machine Learning for Business Analytics

Units: 3

Covers key topics in machine learning and their applications to business, including but not limited to, supervised and unsupervised learning, regularization, anomaly detection, and recommender systems.

Prerequisites: All of: BAN 601, BAN 602, BAN 620.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

BAN 675 - Text Mining and Social Media Analytics

Units: 3

Covers basic natural language processing techniques, document representation, text categorization, sentiment analysis, topic modeling, text visualization, and social media analytics.

Prerequisites: All of: BAN 601, BAN 602, BAN 620.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

BAN 676 - Deep Learning for Business Applications

Units: 3

Concepts, design and implementation of deep learning models for business analytics. Topics include Deep Neural Networks, Convolutional Neural Networks, Recurrent Neural Networks such as Long Short Term Memory and business value of deep learning technology.

Prerequisites: All of: BAN 601, BAN 602, BAN 620.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

BAN 693 - Business Analytics Capstone Project

Units: 3

This course includes a project to solve a practical problem by applying and integrating the knowledge and skills learned in the Business Analytics degree program. The capstone project will use real business data from an identified organization.

Prerequisites: Department consent.

Co-requisites: BAN 632.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BUS 601 - Leadership and Communication in Organizations

Units: 3

Leadership and communication skills needed in modern organizations. Problem-solving, diversity and cross-cultural awareness, ethics, and teams within the context of leadership, as well as focusing on the role of persuasive communication in leadership.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: MKTG 6120 or MGMT 6225.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BUS 602 - Business Analytics for Managers

Units: 3

Applying business analytics techniques to leverage data in business decision making. Course emphasizes formulating models to address real world problems, implementing models in spreadsheet environment and interpreting modeling results. Topics include descriptive, predictive and perspective analytics.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: MGMT 6015.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BUS 603 - Managing Complex Issues in Global Context

Units: 3 ; G.E./G.R. Area: UWSR

Managers face complex cultural, economic, political, technological, and environmental issues emerging in an increasingly dynamic global context. Using lectures, case studies, and projects, this course develops systematic approaches to managing a shifting array of complex issues in a global context.

Prerequisites: Post-baccalaureate standing ; and either CR (credit) in ENGL 300 or ENGL 301 and a score of 7 on the first-tier portfolio; or score of 7 or better on the Writing Skills test; or satisfaction of the graduation writing assessment requirement (GWAR) at any CSU campus including the UWSR at Cal State East Bay. Credit unavailable through challenge. *Note: see Errata chapter for changes*

Equivalent Quarter Course: MGMT 6120.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *University Writing Skills Requirement*

BUS 608 - Operations and Supply Chain Management

Units: 3

Managing and controlling processes that produce and deliver goods and services of a company. Topics include operations and supply chain strategy, product/process design and improvement, capacity and constraint management, quality management and control, lean management, and inventory management.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: MGMT 6220.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BUS 609 - Negotiation and Conflict Resolution

Units: 3

Develops negotiation and conflict resolution skills needed for managerial and entrepreneurial success. Students learn conflict mapping, distributive and integrative bargaining, alternate dispute resolution, and

cultural differences; to develop effective strategies for negotiating deals and for conflict resolution.

Prerequisites: Post-baccalaureate standing and satisfaction of the University Writing Skills Requirement (UWSR).

Equivalent Quarter Course: MGMT 6520.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

BUS 693 - Strategic Management Capstone (Project)

Units: 3

An integrative capstone experience in which students take a top management perspective to conduct strategic situational analysis and develop a business plan for a strategic initiative that drives competitive advantage. Real world organizational strategies will be emphasized.

Strongly Recommended Preparation: A minimum of 27 units of core and/or concentration courses.

Prerequisites: Department consent and satisfaction of the WST.

Equivalent Quarter Course: MGMT 6800 or ENTR 6800.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 610 - Strategic Human Resources Management

Units: 3

Application of theories from multiple disciplines to analyze core topics in strategic human resources management, including recruitment and screening, training, performance evaluation, compensation and benefits, job design, promotions, downsizing, outsourcing, unions, labor law, internal labor markets, and high-commitment HRM.

Prerequisites: Completion of University Writing Skills Requirement (UWSR) and post-baccalaureate standing.

Equivalent Quarter Course: MGMT 6612.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 612 - Strategic Compensation and Reward Systems

Units: 3

Design of compensation and benefits systems to attract, retain, and motivate top talent in dynamic organizational environments shaped by market, political, legal, and union constraints. Worker behavior responses to the structure of compensation systems are emphasized.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: MGMT 6615.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 614 - Talent Management

Units: 3

The talent management process organizations typically follow to attract, develop, motivate, and retain productive, engaged employees. It reviews key concepts and current business practices for effective employee recruitment and development, performance management, succession planning, and retention strategies.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: MGMT 6618.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 616 - People Analytics

Units: 3

Data analysis of human resource management issues, such as recruitment, compensation, performance management, leadership, and employee engagement. Topics include systematic collection, analysis, and interpretation of data to enable strategic decision making for HR functions.

Prerequisites: BUS 602 and post-baccalaureate standing.

Equivalent Quarter Course: MGMT 6622.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 618 - Human Resources and the Law

Units: 3

HRM decision-making in a complex and changing legal environment, covering key laws that encompass the employment relationship as well as emerging legal issues in HRM. The course focuses on application of legal topics to real-world HRM situations.

Prerequisites: Post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 620 - Leading Teams and Managing Creativity

Units: 3

Development of skills in effectively leading teams and fostering creativity. Explores interpersonal processes, team structure, intra-team relationships, and knowledge sharing as factors influencing team effectiveness; and theoretical conceptualizations of creativity and practical methods for fostering

creativity in individuals and teams.

Prerequisites: Post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 622 - Managing the Global Workplace

Units: 3

Workforce issues faced by global managers and their solutions in the context of management theory and practice. International human resource & cross-cultural management issues in international organizations.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: MGMT 6675.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 624 - Special Topics in Human Resource Management and Organizational Behavior

Units: 3

Current issues in HRM/OB such as managing diversity, global leadership, leading change and transformation, organizational development, organizational design, and high performance management.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: MGMT 6613.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 650 - Global and Sustainable Supply Chains

Units: 3

Develop and manage supply chain performance drivers to improve performance, create value, increase competitiveness for firms. Topics include synthesis of global logistics, operations, purchasing, and distribution into a cohesive strategy, sustainability, and revenue management in supply chain.

Prerequisites: BUS 608.

Equivalent Quarter Course: MGMT 6150.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 652 - Service Operations Management

Units: 3

Effective and efficient management of service operations. Topics include service systems design, process

analysis and improvement, facility location and layout, continuous quality improvement, managing queues, and scheduling.

Prerequisites: BUS 608.

Equivalent Quarter Course: MGMT 6141.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 654 - Enterprise Planning and Control

Units: 3

Techniques used in planning and scheduling resources with Enterprise Resource Planning (ERP) systems. Topics include demand forecasting, aggregate planning, material and capacity requirements planning, supply chain planning, global sourcing, and customer relationship management.

Prerequisites: BUS 608.

Equivalent Quarter Course: MGMT 6130.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 656 - Quality and Lean Management

Units: 3

Quality and lean management, which are integral parts of modern business process development and improvement. Course topics include total quality management, six-sigma quality, lean management processes and tools, reliability management, statistical quality control, and ISO standards.

Prerequisites: BUS 608.

Equivalent Quarter Course: MGMT 6526.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 658 - Project Management

Units: 3

Processes, tools and techniques required in managing projects such as product development, construction, information systems and new business. Topics include project scope, schedule, cost and resource management, risk management, managing teams and project control.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: MGMT 6155.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 660 - Healthcare Operations Management

Units: 3

Strategic and tactical decisions of operations management that are particular to the healthcare industry. Topics include healthcare process and capacity management, healthcare supply chains, healthcare technology, pharmacy operations, and patient and provider scheduling.

Prerequisites: BUS 608.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 662 - Operations Analytics

Units: 3

Quantitative analysis of data that can be used to make efficient and profitable decisions in various operations settings. The emphasis is on utilizing methods and software of big data analytics in operations management.

Prerequisites: BUS 602.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 670 - Strategic Industry and Competitive Analysis

Units: 3

Key concepts, tools, and principles of industry analysis, competitive analysis, and strategy formulation. Students learn to understand industry structure, develop competitive strategies, define firm boundaries, allocate critical resources, and position firms for value creation and capture.

Equivalent Quarter Course: MGMT 6420.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 675 - Innovation Strategy

Units: 3

Applying strategic and entrepreneurial skills and processes effectively to manage innovation in firms. It examines the theory and evaluates approaches for developing new ideas for business practices, technologies, products, and industries.

Equivalent Quarter Course: MGMT 6470.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 676 - Global Strategy

Units: 3

Integrative study of how multinational firms position themselves and diversify their activities in global markets. Emphasis is on firm strategies that fit in the global competitive context, decisions to enter foreign markets, and how to develop and implement global strategies.

Equivalent Quarter Course: MGMT 6440.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 677 - International Field Immersion

Units: 3

Deep explorations of the key factors influencing global business through a field trip overseas. International field immersion offers a mix of site visits and discussions with local business, organization, and government leaders to investigate entrepreneurship, leadership, innovation, and culture.

Prerequisites: Department consent.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 678 - Design Thinking for Leaders

Units: 3

In this course, students will creatively and analytically use design and system thinking to more effectively solve problems in any domain. This course develops students' skills to conceive, organize, lead, implement, and evaluate successful design projects.

Strongly Recommended Preparation: All CBE and University proficiencies.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 680 - Sustainability Strategy

Units: 3

How businesses develop and implement strategies to promote environmental, social, and economic sustainability. Students examine roles and responsibilities of managers and learn how to apply the tools of strategic management to the challenges and opportunities of sustainability.

Strongly Recommended Preparation: All CBE and University proficiencies.

Equivalent Quarter Course: MGMT 6460.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 685 - Non-Market Strategy

Units: 3

Strategies for profit and non-profit organizations to gain an advantage in the political economy. Covers the dynamics among public policy and trade, innovation, entrepreneurship. Topics include investment risks, lobbying, CSR and working with supra-national institutions.

Strongly Recommended Preparation: All CBE and University proficiencies.

Prerequisites: Department consent.

Equivalent Quarter Course: MGMT 6215.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 688 - Business Opportunity Consulting Project

Units: 3

Project course building on the lecture courses offered in the Strategy & Innovation MBA Concentration. Students will leave the classroom behind and enter the creative and analytical world of consulting. Students will negotiate and complete a client-facing business design project.

Strongly Recommended Preparation: One elective course from the Strategy & Innovation concentration.

Prerequisites: Department consent.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 690 - Independent Study

Units: 1-4

Independent study under the supervision of a member of the graduate faculty.

Prerequisites: Department consent and minimum 3.0 GPA.

Equivalent Quarter Course: MGMT 6900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 697 - Issues in Management

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in Management.

Equivalent Quarter Course: MGMT 6999.

Repeatability: May be repeated once for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MGMT 698 - Internship

Units: 1-3

Formal advanced work opportunities integrating the academic program with their career aspirations. Integral advanced hands-on experience enhancing education and preparing for professional and personal success.

Prerequisites: Department consent and minimum 3.0 GPA.

Credit Restrictions: No units may be applied to any CBE graduate degree.

Equivalent Quarter Course: MGMT 6898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

Marine Science

MSC 403 - Marine Ecology

Units: 4

Field-oriented introduction to the interrelationship between marine and estuarine organisms and their environment; emphasis on quantitative data collection and analysis.

Prerequisites: Department consent.

Equivalent Quarter Course: MSC 4103.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 405 - Marine Science Diving

Units: 3

Skin/SCUBA diving course with pool-training, ten ocean dives. Diving physics, physiology, diving environments, night diving and research diving. Successful completion gives AAUS and MLML scientific diver certification. CERTIFIED SCUBA DIVER (OR EQUIVALENCY), physical examination and ability to pass swimming test required.

Prerequisites: Department consent, junior, senior or post baccalaureate standing and Biological or Marine Science major.

Credit Restrictions: Not for major credit.

Equivalent Quarter Course: MSC 4105.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 412 - Marine Birds and Mammals

Units: 4

Systematics, morphology, ecology and biology of marine turtles, birds, and mammals. Upper division college vertebrate zoology required.

Strongly Recommended Preparation: MSC 403.

Prerequisites: Department consent.

Equivalent Quarter Course: MSC 4112.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 413 - Marine Ichthyology

Units: 4

A description of the taxonomy, morphology and ecology of marine fishes. Both field and laboratory work concentrate on the structure, function and habits of marine fishes and the ecological interactions of these fishes with their biotic and abiotic surroundings. College zoology or equivalent required.

Strongly Recommended Preparation: MSC 403.

Prerequisites: Department consent.

Equivalent Quarter Course: MSC 4113.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 424 - Marine Invertebrate Zoology I

Units: 4

A field-oriented introduction to the structure, systematics, evolution, and life histories of the major and minor marine phyla. College zoology or equivalent required.

Strongly Recommended Preparation: MSC 403.

Prerequisites: Department consent.

Equivalent Quarter Course: MSC 4124.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 425 - Marine Invertebrate Zoology II

Units: 3

A field-oriented survey of the common marine invertebrates of the major intertidal habitats in and around Monterey Bay. Focus will be on identification and natural history. College zoology required.

Strongly Recommended Preparation: MSC 403, MSC 424.

Prerequisites: Department consent.

Equivalent Quarter Course: MSC 4125.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 431 - Marine Botany

Units: 4

Introduction to the plants of the sea, with emphasis on the morphology, taxonomy and natural history of seaweeds and seagrasses.

Strongly Recommended Preparation: MSC 403.

Prerequisites: Department consent.

Equivalent Quarter Course: MSC 4131.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 435 - Physiology of Marine Algae

Units: 4

Understanding the adaptations of marine algae to their environment. Physiological topics will include respiration, enzyme activity, and biochemical composition. Hands-on experience in basic electronic instrumentation, chemical separations, optical measurements, culturing methods and radioisotope techniques.

Prerequisites: All of: MSC 403, MSC 431, MSC 444.

Equivalent Quarter Course: MSC 4135.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 441 - Geological Oceanography

Units: 4

A study of the structures, physiography, and sediments of the sea bottom and shoreline.

Strongly Recommended Preparation: Undergraduate course in general geology.

Prerequisites: Department consent.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 442 - Physical Oceanography

Units: 4

An introduction to the nature and causes of various oceanic motions including currents, waves, tides and mixing, and the physical properties of seawater.

Strongly Recommended Preparation: College algebra, college physics and calculus.

Prerequisites: Department consent.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 443 - Chemical Oceanography

Units: 4

An introduction to the theoretical and practical aspects of the chemistry of the oceans, including major salts, dissolved gases, nutrient ions, carbonate system, transient tracers, and shipboard sampling techniques.

Strongly Recommended Preparation: One year of college chemistry.

Prerequisites: Department consent.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 444 - Biological Oceanography

Units: 4

The ocean as an ecological system: the complexity of environmental influences on plankton; the transfer of organic matter between trophic levels; and nutrient cycles. Laboratory sessions will include methods in sampling, shipboard techniques, identification of plankton, and current analytical techniques.

Strongly Recommended Preparation: General biology and general chemistry.

Prerequisites: Department consent.

Equivalent Quarter Course: MSC 4144.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 490 - Independent Study

Units: 1-4

Faculty-directed study of selected problems; open to undergraduate students with adequate preparation. Students may apply no more than 12 units of independent study in the major department and 8 units in other departments toward a baccalaureate degree.

Prerequisites: Department consent and minimum 2.0 GPA.

Equivalent Quarter Course: MSC 4900.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 497 - Topics in Marine Sciences

Units: 1

The study of a selected area in the marine sciences. The subjects will vary depending on student demand and availability of instructors.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Marine Science: Graduate

MSC 601 - Library Research Methods in Marine Science

Units: 1

Students will gain an advanced understanding of the nature of scientific information. Assignments provide the framework for using and evaluating a variety of information sources in marine and ocean sciences.

Prerequisites: Department consent and post-baccalaureate standing.

Equivalent Quarter Course: MSC 6201.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 602 - Oceanographic Instrumentation

Units: 4

Principles of instruments used in oceanographic research, introduction to electronics, and applications of instrument measurements. Emphasis will vary from CTD profilers, current meters, radiometry and chemical measurement.

Prerequisites: Post-baccalaureate standing, MSC 441 and MSC 442.

Equivalent Quarter Course: MSC 6202.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 604 - Sampling and Experimental Design

Units: 4

Basic design of experiments and field sampling, including random and systemic sampling, subsampling, survey techniques, single and multifactor experiments using randomized, nested, and blocked experimental designs, and data analyses.

Prerequisites: MSC 403 and post-baccalaureate standing.

Equivalent Quarter Course: MSC 6204.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 606 - Molecular Biological Techniques

Units: 4

An overview of concepts and techniques for the isolation, characterization, and analysis of DNA and RNA, including standard methods (amplification, cloning, and sequencing), as well as selected specialized techniques (analysis of gene expression). Lectures focus on marine science applications.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: MSC 6206.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 608 - Scientific Methods

Units: 4

The strengths and limitations of various types of scientific reasoning, methodology, and analysis as they relate to scientific progress. Activities include: class discussions; computer, laboratory, and field experiences; critical thinking and writing skill development. *Lecture Units: 3; Lab Units: 1*

Prerequisites: Post-baccalaureate standing and department consent.

Equivalent Quarter Course: MSC 6208.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 611 - Ecology of Marine Turtles, Birds and Mammals

Units: 4

Community approach to the ecology of marine turtles, birds, and mammals using experimental and sampling methodology. Field studies will examine the distribution, abundance, trophic ecology, and behavior of birds and mammals in Elkhorn Slough and Monterey Bay. *Lecture Units: 3; Lab Units: 1*

Prerequisites: Post-baccalaureate standing, MSC 403, MSC 412, and department consent.

Equivalent Quarter Course: MSC 6211.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 612 - Advanced Topics in Marine Vertebrates

Units: 4

Advanced consideration of the ecology, physiology and phylogeny of fishes, birds, reptiles or mammals, emphasizing current literature and research. Topics and emphasis will vary with term and instructor.

Prerequisites: Post-baccalaureate standing and either MSC 412 or MSC 413.

Equivalent Quarter Course: MSC 6212.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 621 - Advanced Topics in Marine Invertebrates

Units: 4

Advanced considerations of the ecology, physiology and phylogeny of the various invertebrate phyla emphasizing current literature and research. Topics and emphasis will vary from term to term.

Prerequisites: Post-baccalaureate standing and MSC 424.

Equivalent Quarter Course: MSC 6221.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 631 - Biology of Seaweeds

Units: 4

Discussions of marine macroalgal biology with extensive reading of original literature. Ecologically oriented individual research projects involving laboratory culture and field experimentation. *Lecture Units: 3; Lab Units: 1*

Prerequisites: Post-baccalaureate standing and MSC 431.

Equivalent Quarter Course: MSC 6231.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 633 - Advanced Topics in Marine Ecology

Units: 4

Selected topics and current issues in marine ecology. The subjects will vary depending on student demand and availability of instructors.

Prerequisites: MSC 403.

Equivalent Quarter Course: MSC 6233.

Repeatability: Course may be repeated for credit for a maximum of 8 units when topic varies.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 634 - Advanced Biological Oceanography

Units: 4

Experimental techniques in biological oceanography with emphasis on problems important in plankton ecology. Course includes lectures, labs, and discussions of current research problems. An individual research project involving the use of one or more modern analytical tools will be required. *Lecture Units: 3; Lab Units: 1*

Prerequisites: Post-baccalaureate standing and MSC 444.

Equivalent Quarter Course: MSC 6234.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 642 - Plate Tectonics

Units: 3

Historical background, modern theory and geophysical evidence of continental drift sea floor spreading and plate tectonics. Examinations of the impact of the recent revolution in historical geology. Offered alternate fall semesters.

Prerequisites: Post-baccalaureate standing and MSC 441.

Equivalent Quarter Course: MSC 6242.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 646 - Geology of the Monterey Bay Region

Units: 4

Geology, tectonics and active naturally occurring processes in the Monterey Bay region and in the Monterey Bay National Marine Sanctuary. The geologic and tectonic history of central California, plate tectonic processes, representative stratigraphy and geomorphology of the Monterey Bay region.

Prerequisites: Post-baccalaureate standing and MSC 441.

Equivalent Quarter Course: MSC 6246.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 648 - Marine Benthic Habitat Mapping Techniques

Units: 4

The collection and interpretation of geophysical data that can be used to characterize marine benthic habitats. Techniques used to identify and characterize marine benthic habitats, including echosounders, multibeam bathymetry and backscatter, sidescan sonar, seismic profiling, and GIS will be reviewed.

Prerequisites: Post-baccalaureate standing and MSC 441.

Equivalent Quarter Course: MSC 6248.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 651 - Marine Geochemistry

Units: 4

Geochemical processes in the oceans: thermodynamics of low temperature aqueous reactions, weathering, oxidation-reduction and biologically mediated reactions, processes occurring at the sea floor and air-sea interface. Offered as needed.

Prerequisites: Post-baccalaureate standing, MATH 130, MATH 131 and MSC 443.

Equivalent Quarter Course: MSC 6251.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 661 - Mixing, Estuarine and Sediment Transport

Units: 4

Dynamical processes in estuarine and coastal systems, with an emphasis on flow, friction, sediment transport, mixing and diffusion of mass and biogeochemical constituents (nutrients and oxygen, others). Discussion of recent literature.

Prerequisites: Post-baccalaureate standing and MSC 442.

Equivalent Quarter Course: MSC 6261.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 663 - Data Analysis Techniques in Marine Science

Units: 4

Introduction to using observational oceanographic data, with hands-on practice in scientific programming for data analysis. Lecture, discussion, and practical experience including the use of existing programs and subroutine libraries. Semester project required. *Lecture Units: 3; Lab Units: 1*

Prerequisites: Post-baccalaureate standing and department consent.

Equivalent Quarter Course: MSC 6263.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 671 - Population Biology

Units: 3

Principles of the interactions among marine organisms that result in the alteration of population structures. Techniques for assessment and management of populations.

Prerequisites: Post-baccalaureate standing and MSC 403.

Equivalent Quarter Course: MSC 6271.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 672 - Subtidal Ecology

Units: 4

The ecology of nearshore rocky subtidal populations and communities with emphasis on kelp forests. Review of original literature. Fieldwork with SCUBA including group projects on underwater research techniques and community analysis, and individual research on ecological questions chosen by students. *Lecture Units: 3; Lab Units: 1*

Prerequisites: Post-baccalaureate standing, MSC 403 and department consent.

Equivalent Quarter Course: MSC 6272.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 674 - Advanced Topics in Oceanography

Units: 4

The study of a selected area of oceanography. The subjects will vary depending on student demand and availability of instructors.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: MSC 6274.

Repeatability: Course may be repeated for credit for a maximum of 8 units when topic varies.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 680 - Scientific Writing

Units: 3

Techniques and strategies of scientific writing used for proposals, journal submissions, and abstracts for meetings. Students will develop their writing skills by preparing, editing, and rewriting manuscripts. There is a maximum of 12 students allowed to register for this course.

Prerequisites: Department consent and post-baccalaureate standing.

Equivalent Quarter Course: MSC 6280.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 681 - Coastal Dynamics

Units: 4

Oceanographic dynamics of coastal environments, with an emphasis on eastern boundary current systems influenced by coastal upwelling. Interactions of physical and geological oceanography and how both affect coastal ecosystem dynamics.

Prerequisites: Post-baccalaureate standing, and either MSC 442 or MSC 441.

Equivalent Quarter Course: MSC 6281.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 689 - Research in Marine Science

Units: 2

Independent investigations of an advanced character for the graduate student with adequate preparation.

Prerequisites: Department consent and post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 690 - Independent Study

Units: 1-4

Independent study under the supervision of a member of the graduate faculty.

Prerequisites: Department consent and minimum 3.0 GPA.

Equivalent Quarter Course: MSC 6900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 691 - University Thesis

Units: 4

Development and writing of a formal research paper for submission to the university in the specified format. Supervision by a departmental committee, at least one of whom must be a Cal State East Bay faculty member. Oral defense is required. (See "University Thesis Writing Guide," available online at www.csueastbay.edu/thesiswritingguide.)

Prerequisites: Department consent and M.S. Marine Science major.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MSC 697 - Graduate Seminar in Marine Science

Units: 2

Seminar topics will change each semester. Each student will be required to give at least one seminar. May be repeated for credit. Offered spring and fall semesters.

Prerequisites: Department consent and post-baccalaureate standing.

Equivalent Quarter Course: MSC 6285.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Marketing

BUS 325 - Marketing Principles

Units: 3

Overview of marketing concepts and practical applications including considerations in designing effective marketing programs. Through a mix of lectures, discussions, and/or projects, students will understand the

scope, the process, and the role of marketing in business firms and non-profit organizations.

Equivalent Quarter Course: MKTG 3401.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 305 - Business Communication

Units: 3 ; GE/GR Area: UWSR

Students develop abilities to communicate effectively; write and revise business documents and work to understand communication in business environments and cross-cultural settings; fulfills Writing II for transfer students who have completed an approved transfer program without a second composition course.

(See Errata for changes to this content).

Prerequisites: Junior standing or above; and either CR (credit) in ENGL 300 or ENGL 301 and a score of 7 on the first-tier portfolio; or score of 7 or better on the Writing Skills test; or satisfaction of the graduation writing assessment requirement (GWAR) at any CSU campus including the UWSR at Cal State East Bay. Credit unavailable through challenge.

Equivalent Quarter Course: MKTG 3495.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *University Writing Skills Requirement*

MKTG 310 - Marketing Research

Units: 3

Marketing research process. Topics include problem formulation, research design, research instrument development, data collection and analysis, and report writing and presentation. Students implement marketing research techniques through assignments and/or projects.

Equivalent Quarter Course: MKTG 3445.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 312 - Marketing Analytics

Units: 3

Marketing analytics metrics and models. Understand how to use data to approach marketing issues analytically. Topics include resource allocation analytics, product analytics, marketing-mix analytics, customer analytics, and digital analytics. Quantitative techniques enforced through case-based learning.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 314 - Consumer Behavior

Units: 3

Major concepts, theories, and applications of consumer behavior. Focus on the "why" of marketing- why consumers prefer certain products and services to other alternatives and the techniques that marketers use to understand and influence consumer's needs and wants.

Equivalent Quarter Course: MKTG 4417.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No units may be applied to any CBE major or minor.

Equivalent Quarter Course: MKTG 3898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

MKTG 415 - Corporate Communications

Units: 3

Development of organizational image campaigns by identifying corporate culture, corporate image, intra-organizational goals. Determining media strategies, tactics, and tools for lobbying, trade organization relations, press agency, publicity, internal communications, and public opinion research included in the context of social responsibility.

Equivalent Quarter Course: MKTG 4415.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 420 - Product, Service, and Brand Management

Units: 3

Product concept evaluation, optimal product design, test marketing, market segmentation, product planning, service delivery, failure, and recovery, service quality, branding elements, brand equity, and strategic branding.

Equivalent Quarter Course: MKTG 3440.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 424 - Sales Management

Units: 3

The sales process, the relationship between sales and marketing, sales force structure, customer relationship management, use of technology to improve sales force effectiveness, and issues in recruiting, training, motivating, compensating and retaining salespeople.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 425 - Business-to-Business Marketing

Units: 3

Strategy development for marketers whose customers include other businesses, the government, and institutions. It explores the buying behavior of organizations as customers. Other topics include segmentation, product development, distribution, pricing, and personal selling and sales management.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 426 - Advertising and Promotion Management

Units: 3

Managing the firm's promotion functions including advertising, personal selling, sales promotions, and public relations. Topics include: defining the market, setting advertising and promotion goals and budgets, developing message strategy and media plan, evaluating campaigns.

Equivalent Quarter Course: MKTG 3410.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 427 - Digital Marketing and Social Media

Units: 3

Use of digital and social media in the marketing of goods and services. Topics include: the relevance of emerging digital technologies to marketing activities, the problems and opportunities that digital marketing activities pose for the marketing managers.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 430 - International Marketing

Units: 3

International marketing concepts and applications including environmental and other factors that impact

global marketing practices. Through a mix of lectures, cases, and/or projects, students will understand the role of culture in developing an international marketing strategy.

Equivalent Quarter Course: MKTG 4470.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 440 - Marketing Strategy

Units: 3

Integrate major themes in core and elective marketing courses. Topics include segmentation, targeting, positioning, differentiation, and other strategic considerations. Focus is on how to create, gain support for, and execute marketing plans that build strong and enduring businesses.

Equivalent Quarter Course: MKTG 4400.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 485 - Establishing New Enterprises

Units: 3

In-depth coverage of procedures for setting up new businesses and of problems confronting managers during the critical start-up period. Uses cases, situational analyses, and projects.

Prerequisites: All of: ACCT 215, BUS 325, BUS 330.

Equivalent Quarter Course: ENTR 4485.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 487 - Practicum in Small Business Management

Units: 3

Student consultant teams assisting small businesses; responsibilities include reviewing performance; isolating problems; researching solutions; presenting oral analysis to class; preparing written reports for business.

Strongly Recommended Preparation: BUS 340.

Prerequisites: All of: ACCT 215, BUS 325, BUS 330, ECON 380, MGMT 350.

Equivalent Quarter Course: ENTR 4490.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

MKTG 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: MKTG 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MKTG 497 - Seminar in Selected Marketing Topics

Units: 3

Selected topics emphasizing the integration of marketing literature with current business practices through seminar discussions and individual field investigations.

Equivalent Quarter Course: MKTG 4450.

Repeatability: May be repeated for credit for a maximum of 6 units when content varies.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

Marketing: Graduate

BUS 607 - Marketing Management

Units: 3

Advanced concepts and analysis with a strategic focus on developing marketing plans and programs. Focus on marketing decisions in a globally competitive environment concerning market segmentation, targeting, and positioning. Covers the core marketing management concepts within a strategic framework.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: MKTG 6215.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MKTG 610 - Marketing Research

Units: 3

Provides students with tools to evaluate and undertake marketing research projects. Demonstrates how research applies to marketing strategy, advertising, globalization, and product development. Emphasizes practical experience in planning and implementing marketing research for marketing decision making through assignments and/or projects.

Prerequisites: BUS 607.

Equivalent Quarter Course: MKTG 6401.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MKTG 612 - Marketing Analytics

Units: 3

Marketing analytics metrics and models. Approach marketing issues analytically; make marketing decisions driven by quantitative evidence. Topics include resource allocation analytics, product analytics, marketing-mix analytics, customer analytics, and digital analytics. Quantitative techniques enforced through hands-on data analysis and case-based learning.

Prerequisites: Post-baccalaureate standing and BUS 607.

Equivalent Quarter Course: MKTG 6402.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MKTG 614 - Buyer Behavior

Units: 3

Theories, concepts, methods, and empirical findings regarding buyers' decision making processes and choice behavior from buyers, marketers, and public policy makers' perspectives. Lectures, discussion research articles, case analysis, and research project emphasized.

Prerequisites: BUS 607.

Equivalent Quarter Course: MKTG 6410.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MKTG 620 - Product and Brand Management

Units: 3

Management of the firm's product or service offerings. Key topics include product development, product positioning, estimation of market potential, and profitable brand strategies. Emphasis on development of meaningful criteria for decision making in the area of product and brand management.

Prerequisites: Post-baccalaureate standing and BUS 607.

Equivalent Quarter Course: MKTG 6411.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MKTG 622 - Pricing Management

Units: 3

Pricing strategies, tactics, methods, laws, treatment of costs, effect of sales promotion, consideration of

competition and customers for pricing. Lectures, discussion of relevant articles, and analyses of cases and pricing problems emphasized.

Prerequisites: BUS 607.

Equivalent Quarter Course: MKTG 6412.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MKTG 624 - Sales and Distribution Management

Units: 3

Marketing channels used for consumer as well as business-to-business products and services through the study of a textbook, cases, simulation, and/or independent analysis of various businesses along with their distribution channel.

Prerequisites: Post-baccalaureate standing and BUS 607.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MKTG 626 - Integrated Marketing Communications

Units: 3

Concepts and activities that comprise integrated marketing communication, and provides practice in solving marketing communication challenges. Cultivates students' ability to become strategic decision makers in marketing communications: advertising, public relations, personal selling, sales promotions, and direct marketing.

Prerequisites: BUS 607.

Equivalent Quarter Course: MKTG 6413.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MKTG 630 - Seminar in International Marketing

Units: 3

Advanced knowledge and managerial skills needed in international marketing. Key topics include marketing concepts, tools, and considerations set in a cultural context. Case studies, lectures, and group/individual projects provide managerial insight and expertise in designing effective global marketing strategies.

Prerequisites: BUS 607.

Equivalent Quarter Course: MKTG 6470.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MKTG 640 - Seminar in Marketing Strategy

Units: 3

Concepts and tools used to develop strategic plans. Key topics include segmentation, targeting, positioning, differentiation, and other strategic considerations. Through case studies, lectures, simulations, and group projects, students acquire managerial insight and expertise in designing effective strategies.

Prerequisites: BUS 607.

Equivalent Quarter Course: MKTG 6420.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MKTG 690 - Independent Study

Units: 1-4

Independent study under the supervision of a member of the graduate faculty.

Prerequisites: Department consent and minimum 3.0 GPA.

Equivalent Quarter Course: MKTG 6900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MKTG 697 - Seminar in Selected Marketing Topics

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in Marketing. Application of concepts, tools, and techniques associated with a special topic in marketing.

Prerequisites: BUS 607.

Equivalent Quarter Course: MKTG 6450.

Repeatability: May be repeated for credit for a maximum of 6 units when content varies.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MKTG 698 - Internship

Units: 1-3

Formal advanced work opportunities integrating the academic program with their career aspirations. Integral advanced hands-on experience enhancing education and preparing for professional and personal success.

Prerequisites: Department consent and minimum 3.0 GPA.

Credit Restrictions: No units may be applied to any CBE graduate degree.

Equivalent Quarter Course: MKTG 6898.

Repeatability: May be repeated with department consent for a maximum of 3 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

Mathematics

MATH 15 - College Algebra Workshop

Units: 1

This course develops foundational skills in mathematics and quantitative reasoning in support of successful completion of Math 115: College Algebra.

Co-requisites: MATH 115.

Credit Restrictions: Required for students in Category III or IV taking Math 115.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

MATH 18 - Mathematics for the Arts and Humanities Workshop

Units: 1

This course develops foundational skills in mathematics and quantitative reasoning in support of successful completion of Math 118: Mathematics for the Arts and Humanities.

Co-requisites: MATH 118.

Credit Restrictions: Required for students in Category III or IV taking Math 118.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

MATH 115 - College Algebra

Units: 3 ; G.E./G.R. Area: B4

Functions and graphs: polynomials, rational functions, exponential and logarithmic functions.

Co-requisites: MATH 15 required for students in Category III or IV.

Equivalent Quarter Course: MATH 1130.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B4 - Lower Division Mathematics/Quantitative Reasoning*

MATH 118 - Mathematics for the Arts and Humanities

Units: 3 ; G.E./G.R. Area: B4

Explores mathematics as a human endeavor created in political, cultural, philosophical, and artistic contexts. Examines the many commonalities mathematics has with literature, philosophy, art, and music.

Co-requisites: MATH 18 required for students in Category III or IV.

Equivalent Quarter Course: MATH 1110.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B4 - Lower Division Mathematics/Quantitative Reasoning*

MATH 120 - Precalculus

Units: 3 ; G.E./G.R. Area: B4

Trigonometric, polynomial, rational, exponential and logarithmic functions. Real and complex roots of polynomials. Trigonometric equations, and basic identities; mathematical modeling. Linear equations and matrices.

Prerequisites: Satisfactory score of 63 or higher on Mathematics Placement Exam or MATH 115 with grade C- or better.

Credit Restrictions: Not open to students with credit for MATH 125.

Equivalent Quarter Course: MATH 1130 and MATH 1300.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B4 - Lower Division Mathematics/Quantitative Reasoning*

MATH 121 - Precalculus Fundamentals

Units: 2

Provides college algebra fundamentals needed to support success in Math 120: Precalculus. Required for students in Category III or IV taking Math 120.

Co-requisites: MATH 120.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 125 - Precalculus with Algebra

Units: 5 ; G.E./G.R. Area: B4

Fundamentals of college algebra with a focus on functions and graphs. Trigonometric, polynomial, rational, exponential and logarithmic functions. Real and complex roots of polynomials. Trigonometric equations and basic identities. Mathematical modeling. Linear equations and matrices.

Credit Restrictions: Not open for credit to students who have completed MATH 120.

Equivalent Quarter Course: MATH 1130 and MATH 1300.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B4 - Lower Division Mathematics/Quantitative Reasoning*

MATH 130 - Calculus I

Units: 4 ; G.E./G.R. Area: B4

Introduction to limits and limit techniques; derivatives; related rates; optimization and applications; antiderivatives, introduction to integration and the fundamental theorem of calculus.

Prerequisites: One from the following: Satisfactory score of 78 or higher on Mathematics Placement Exam, MATH 120 or MATH 125 (either course with grade C- or better).

Equivalent Quarter Course: Students who have taken MATH 1304 AND MATH 1305 under a recent quarter catalog will receive credit for MATH 130.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B4 - Lower Division Mathematics/Quantitative Reasoning*

MATH 131 - Calculus II

Units: 3

Integration techniques and applications; sequences and series; introduction to differential equations.

Prerequisites: MATH 130 with grade C- or better.

Equivalent Quarter Course: Students who have taken MATH 1305 AND MATH 2304 under a recent quarter catalog will receive credit for MATH 131.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 180 - Mathematics for Business with Calculus

Units: 3 ; G.E./G.R. Area: B4

Functions and graphs; exponential and logarithmic functions; matrices and systems of equations and inequalities; introduction to differential and integral calculus with applications to business.

Prerequisites: Satisfactory score of 63 or higher on Mathematics Placement Exam or MATH 115 with grade C- or better.

Equivalent Quarter Course: MATH 1810.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *B4 - Lower Division Mathematics/Quantitative Reasoning*

MATH 210 - Linear Algebra with Differential Equations

Units: 3

Solving linear systems and introduction to linear algebra. Eigenvalues and eigenvectors. Introduction to differential equations. Solving ordinary differential equations with constant coefficients. Homogeneous and nonhomogeneous equations. Introduction to vectors and functions of several variables.

Prerequisites: MATH 130.

Co-requisites: MATH 131.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 211 - Discrete Structures

Units: 3

Propositional logic and predicate calculus, set theory, inference, induction, recursion, divide-and-conquer, enumeration, graphs and topology, trees, binary trees and traversals, Boolean algebra, logic gates, asymptotic notation and algorithm analysis, combinatorics, cryptography, discrete probability, computational modeling.

Prerequisites: MATH 130 with grade C- or better.

Equivalent Quarter Course: MATH 2150.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

Cross-listed: CS 211.

MATH 225 - Numerical Algorithms and Linear Algebra for Computer Science

Units: 3

Computer arithmetic. Introduction to linear algebra and solving systems of equations. Rootfinding, interpolation, eigenvalues/eigenvectors. Programming techniques.

Prerequisites: CS 101 and MATH 130.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 230 - Calculus III

Units: 3

Vectors, dot and cross products; equations of lines, planes and surfaces; partial derivatives, directional derivatives and gradient vector; optimization and Lagrange multipliers; multiple integrals; vector fields; Stoke's theorems; applications.

Prerequisites: MATH 131 with grade C- or better.

Equivalent Quarter Course: Students who have taken MATH 2304 AND MATH 2305 under a recent quarter catalog will receive credit for MATH 230.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 300 - Introduction to Mathematical Proof

Units: 3

Introduction to methods of proof used in advanced mathematics, with topics chosen from logic, set theory, abstract algebra, number theory, and real analysis. Provides a transition from lower division mathematics courses to upper division proof-oriented mathematics courses.

Prerequisites: MATH 131 with grade C- or better.

Co-requisites: MATH 210.

Equivalent Quarter Course: Math 3000.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 305 - Mathematical Software

Units: 3

The use of mathematical software to explore and visualize advanced concepts in mathematics. This course, along with Introduction to Mathematical Proof, serves as a transition to upper division mathematics.

Prerequisites: MATH 131 with grade C- or better.

Co-requisites: MATH 230.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 310 - Linear Algebra Theory

Units: 3

Abstract vector spaces, linear transformations, matrices, inner product spaces, eigenvalues and eigenvectors. Emphasis on both theory and application.

Prerequisites: MATH 210, MATH 300 and MATH 305, all with grade C- or better.

Equivalent Quarter Course: MATH 3100.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 318 - Mathematical Contributions to Modern Society

Units: 3 ; G.E./G.R. Area: B6

Examines the contributions of modern mathematics to the social sciences, arts, and literature. Contemporary developments in math will be explored within their political, cultural, and philosophical contexts.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Credit Restrictions: Not for mathematics major or minor credit.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: B6 - Upper Division Science Inquiry and Quantitative Reasoning

MATH 319 - Mathematics in Art and Architecture

Units: 3 ; G.E./G.R. Area: B6

Patterns, symmetry, structure, shape and beauty - topics at the heart of mathematics. Physical and aesthetic importance of various mathematical constructions including tilings, polyhedra and perspective. Explore the relationship between mathematics and aesthetic and functional structures.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Credit Restrictions: Not for mathematics major or minor credit.

Possible Instructional Methods: Entirely On-ground.

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: B6 - Upper Division Science Inquiry and Quantitative Reasoning

MATH 320 - Abstract Algebra I

Units: 3

Groups and subgroups. Normal subgroups and quotient groups. Group homomorphisms and isomorphisms. Introduction to rings and fields.

Prerequisites: MATH 210 with grade C- or better.

Co-requisites: MATH 300.

Equivalent Quarter Course: MATH 3121.

Possible Instructional Methods: Entirely On-ground.

Grading: A-F or CR/NC (student choice).

MATH 321 - Abstract Algebra II

Units: 3

Rings and fields. Quotient rings, ideals and ring homomorphisms. Polynomial rings and roots of polynomials. Field extensions and finite fields.

Prerequisites: MATH 320 with grade C- or better.

Equivalent Quarter Course: MATH 3122.

Possible Instructional Methods: Entirely On-ground.

Grading: A-F or CR/NC (student choice).

MATH 330 - Analysis I

Units: 3

Field properties of the real numbers. A rigorous study of sequences, completeness, limits, continuity, derivatives and Riemann integration.

Co-requisites: MATH 300

Equivalent Quarter Course: MATH 3300.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 331 - Analysis II

Units: 3

Metric spaces, including topological concepts. Sequences and series of functions. Weierstrass M-test. Connected and compact sets and their continuous images. Differentiability in $\mathbb{R}^n$.

Prerequisites: MATH 330 with grade C- or better.

Equivalent Quarter Course: MATH 3301.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 340 - Modern Geometry

Units: 3

Analytic and transformational geometry. Axiomatic development of modern geometry using both Euclidean and non-Euclidean models. Properties of circles and polygons, constructions. Additional advanced topics in geometry.

Prerequisites: MATH 300 with grade C- or better.

Equivalent Quarter Course: MATH 3215.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 360 - Number Theory

Units: 3

Euclid's algorithm, prime numbers, congruences, Fundamental Theorem of Arithmetic, theorems of Fermat and Euler, quadratic residues.

Prerequisites: MATH 210 and MATH 300, both with grade C- or better.

Equivalent Quarter Course: MATH 3600.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 370 - Numerical Analysis I

Units: 3

Computer storage of real numbers and finite precision arithmetic, errors, root-finding, algorithms for solving linear systems, interpolation. Practical solutions of problems from science, engineering, and mathematics.

Prerequisites: MATH 210, MATH 230 and MATH 305, all with grade C- or better.

Equivalent Quarter Course: MATH 3750.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 375 - Differential Equations I

Units: 3

Solutions and applications of first order differential equations. Linear n-th order equations with emphasis on equations of 2nd order. Topics include power series solutions, Laplace transforms, and linear systems.

Prerequisites: MATH 131 and MATH 210, both with grade C- or better.

Equivalent Quarter Course: MATH 3331.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 380 - Linear Programming

Units: 3

Problems of maximizing or minimizing a linear function subject to linear constraints. Topics include problem formulation, solution procedures, duality theory, sensitivity analysis, transportation and assignment problems.

Prerequisites: MATH 210 and MATH 305, both with grade C- or better.

Equivalent Quarter Course: MATH 3841.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 1 unit may be applied to the Mathematics major.

Equivalent Quarter Course: MATH 3898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

MATH 402 - Mathematics for K-8 Educators I

Units: 4

Number systems. Standard and nonstandard algorithms. Divisibility, prime and composite numbers, GCF, LCM. Ratio, proportion, percent. Patterns and functional relationships. Linear and quadratic equations and inequalities. Factoring and completing the square. Systems of linear equations. Real world applications.

Prerequisites: MMP Category II for math or Completion of GE area B4.

Credit Restrictions: Not for mathematics major or minor credit.

Equivalent Quarter Course: Students who have taken MATH 2011 AND MATH 4014 under a recent quarter catalog will receive credit for MATH 402.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 403 - Mathematics for K-8 Educators II

Units: 4

Transformational approach to geometry. Congruence, Similarity and Coordinate Geometry. Area, perimeter, volume, surface area. Constructive proofs of geometric properties. Measurement systems. Descriptive statistics; mean, median, mode and range. Survey design; sources of biases. Elementary discrete probability. Dependent and independent events.

Prerequisites: MMP Category II for math or satisfactory completion of GE Area B4.

Credit Restrictions: Not for mathematics major or minor credit.

Equivalent Quarter Course: Students who have taken MATH 4012 AND MATH 4013 under a recent quarter catalog will receive credit for MATH 403.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 406 - Advanced Study for School Mathematics

Units: 3

Foundations of school mathematics from an advanced standpoint. An in depth study of middle and high school level algebra, geometry, statistics and number theory and its applications, theoretical foundations and extensions.

Prerequisites: MATH 120 with grade C- or better.

Credit Restrictions: Not for mathematics major or minor credit.

Equivalent Quarter Course: MATH 4030.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 440 - Topics in Geometry

Units: 3

Advanced theoretical and applied topics in geometry. Topics may include differential, algebraic, discrete,

hyperbolic, or projective geometry, convexity, geometric inequalities.

Strongly Recommended Preparation: Completion of 9 units of upper division courses in Mathematics.

Prerequisites: Department consent.

Equivalent Quarter Course: MATH 4215.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 450 - Combinatorics

Units: 3

Counting techniques, Fibonacci numbers, partitions of integers, generating functions, multinomial coefficients, Stirling numbers, Catalan numbers, Pigeon Hole Principle, Ramseys Theorem, inclusion/exclusion, and a variety of other topics.

Prerequisites: MATH 300 with grade C- or better.

Equivalent Quarter Course: MATH 3151.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 470 - Numerical Analysis II

Units: 3

Numerical differentiation and integration, introduction to finite difference methods, iterative methods for linear systems, eigenvalue approximation, function approximation, introduction to numerical methods for differential equations. Applications from various disciplines.

Prerequisites: MATH 370 with grade C- or better.

Equivalent Quarter Course: MATH 4750.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 475 - Differential Equations II

Units: 3

Systems of linear differential equations. Introduction to partial differential equations: the wave equation, the heat equation and Laplaces equation. Superposition principle. Methods of solving partial differential equations including separation of variables, Fourier transform and Laplace transform.

Prerequisites: MATH 375 with grade C- or better.

Equivalent Quarter Course: MATH 4361.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 490 - Independent Study

Units: 1-4

Independent study under the supervision of a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: MATH 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 493 - Senior Seminar

Units: 3

Capstone course in mathematics. Exploration of topics selected to illustrate relationships among various areas of mathematics. Oral presentations and paper required.

Prerequisites: Department consent.

Equivalent Quarter Course: MATH 4901.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MATH 497 - Topics in Advanced Mathematics

Units: 3

Advanced theoretical and applied topics in mathematics.

Prerequisites: Department consent.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Mathematics: Graduate

MATH 605 - Teaching Mathematics at the University Level

Units: 1

Theory, methodology, and practical experience in the teaching of mathematics at the university level. Includes discussion of lecturing techniques, analysis of tests and supporting material, preparation and grading of examinations, and related topics. Required of departmental teaching associates.

Prerequisites: Post-baccalaureate standing and Department consent.

Equivalent Quarter Course: MATH 6005.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

MATH 610 - Mathematical Modeling

Units: 4

Discrete and continuous mathematical models: introduction to the use of difference and differential equations, probability models, and matrices for solving realistic problems with emphasis on computer simulations.

Prerequisites: MATH 310 and MATH 330.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 620 - Algebra with Linear Algebra

Units: 4

Advanced study of abstract algebra and linear algebra. Vector spaces and linear transformations. Groups, homomorphisms, quotient groups. Rings, integral domains, fields.

Prerequisites: MATH 310 and MATH 320.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 621 - Topics in Applied Algebra

Units: 4

Advanced topics in applied algebra and linear algebra such as coding theory, game theory, applied matrix theory, applications of group theory.

Prerequisites: MATH 310 and MATH 320.

Repeatability: May be repeated twice for credit, for a maximum of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 625 - Topics in Mathematical Physics

Units: 4

Mathematical theory and methods with applications to physics. Topics such as classical mechanics, applications of PDEs, general relativity, and quantum mechanics.

Prerequisites: All of: MATH 210, MATH 230, MATH 320.

Repeatability: May be repeated twice for credit, for a maximum of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 630 - Real Analysis

Units: 4

Metric, normed, and inner product spaces, completeness, continuity, connected and compact sets, intermediate and extreme value theorems, differentiation, mean value theorem, Riemann integral, introduction to the Lebesgue integral.

Prerequisites: MATH 310 and MATH 330.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 635 - Mathematical Logic

Units: 4

First order languages, a Sequent Calculus, rules for formal proofs, The Completeness Theorem, Compactness, Godel's Incompleteness Theorems. Selected topics from model theory, set theory, metamathematics.

Prerequisites: MATH 300.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 640 - Complex Analysis

Units: 4

Complex numbers, analytic functions, Cauchy-Riemann equations, complex integration, Cauchy's Theorem, Liouville's Theorem, sequences and series, theory of residues, argument principle, conformal mapping, and other topics.

Prerequisites: MATH 330.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 650 - Combinatorics

Units: 4

Counting techniques, Fibonacci numbers, partitions of integers, generating functions, multinomial coefficients, Stirling numbers, Catalan numbers, Pigeon Hole Principle, Ramsey's Theorem, inclusion/exclusion, Polya's Theorem, other topics such as graph theory.

Prerequisites: MATH 300 or MATH 320.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 660 - Topology

Units: 4

Topological spaces, continuity, connectedness, compactness, separation axioms, homotopy and the fundamental group, additional advanced topics.

Prerequisites: MATH 330.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 663 - Topics in Geometry

Units: 4

Advanced topics in geometry such as Riemannian geometry, geometric analysis, conformal geometry, geometric group theory, combinatorial geometry, lattices, crystallographic groups, projective spaces, and algebraic geometry.

Prerequisites: All of: MATH 310, MATH 320, MATH 330.

Repeatability: May be repeated twice for credit, for a maximum of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 665 - Differential Geometry

Units: 4

Local and global theories of curves and surfaces. Parametrization, canonical coordinates, ruled and minimal surfaces, geodesics, change of parametrization, differential functions on surfaces, tangent planes and differentials, isometries, conformal maps.

Prerequisites: MATH 230 and MATH 310.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 667 - Machine Learning

Units: 4

Introduction to machine learning with an emphasis on the underlying mathematics. Topics such as VC dimension, central limit theorem, gradient descent. Applications such as SVM and neural nets.

Prerequisites: MATH 230 and MATH 310; or M.S. Computer Science major.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Cross-listed: CS 667.

MATH 670 - Numerical Analysis

Units: 4

Rootfinding in one variable; direct and iterative methods to solve linear systems; finite difference approximations to solve partial differential equations, and additional topics.

Prerequisites: MATH 310 and MATH 330.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 671 - Topics in Numerical Analysis

Units: 4

Topics in numerical analysis such as approximation theory, numerical linear algebra, eigenvalue algorithms, numerical solutions to nonlinear systems, numerical methods for differential equations.

Prerequisites: MATH 670.

Repeatability: May be repeated for credit for a maximum of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 675 - Differential Equations

Units: 4

Series solutions, solutions about ordinary and regular singular points. Systems of first order linear equations, Laplace transforms, boundary value problems, Fourier series. Applications such as heat conduction and the wave equation. Euler's method, Runge-Kutta, multi-step methods.

Prerequisites: All of: MATH 210, MATH 310, MATH 330.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 676 - Topics in Differential Equations

Units: 4

Topics selected from the theory of ordinary and partial differential equations, with both linear and nonlinear cases considered.

Prerequisites: MATH 675.

Repeatability: May be repeated for credit for a maximum of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 680 - Optimization

Units: 4

Introduction to Linear Programming, including the Simplex method, duality theory, sensitivity analysis,

and special applications. Nonlinear optimization using Newton's method, plus secant methods to approximate the derivative information. Introduction to constrained optimization problems using Lagrange multipliers.

Prerequisites: MATH 310.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 681 - Topics in Optimization

Units: 4

Topics in optimization such as integer programming, network algorithms, dynamic programming, game theory, graph theory, quasi-Newton methods for multi-variable unconstrained optimization, constrained optimization with nonlinear constraints, convex optimization, quadratic programming, nonlinear least squares.

Prerequisites: MATH 680.

Repeatability: May be repeated for credit for a maximum of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 685 - Topics in Graduate Mathematics

Units: 4

Advanced theoretical and applied topics in graduate mathematics covering fields of study such as topology, algebraic theory, complex analysis, dynamical systems, number theory.

Prerequisites: Department consent.

Repeatability: May be repeated for credit for a maximum of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 690 - Independent Study

Units: 1-4

Independent study under the supervision of a member of the graduate faculty.

Prerequisites: Department consent and minimum 3.0 GPA.

Equivalent Quarter Course: MATH 6900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MATH 692 - Graduate Mathematics Comprehensive Exam Capstone

Units: 2

A synthesis of important areas of mathematics, culminating in comprehensive examinations covering these areas. Topics will include Topology, Real Analysis, Algebra, Complex Variables, Differential Equations, Numerical Analysis, and Linear Programming.

Prerequisites: MATH 620, MATH 630, MATH 670, and two courses from: MATH 640, MATH 660, MATH 675, or MATH 680.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: CR/NC grading only.

Modern Languages and Literatures

MLL 211 - Multicultural Cinema

Units: 3 ; G.E./G.R. Area: C1

A study and analysis of artistic, political, social, and philosophical issues as represented in films from around the world.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MLL 212 - Multiculturalism and Social Justice

Units: 3

Studies a variety of cultural productions in literature, art, news, cinema, advertisement and non-U.S. social and political issues from a global perspective.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

MLL 311 - Studies in Modern Languages and Literatures in English

Units: 3 ; G.E./G.R. Area: D4

This course is an introduction to literary analysis. Students will be introduced to a variety of texts, genres, and styles of literary analysis.

Prerequisites: Completion of GE areas A1, A2, A3, and B4.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: D4 - Upper Division Social Sciences

MLL 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 3 units may be applied to majors and minors offered by Modern Languages and Literatures.

Equivalent Quarter Course: MLL 3898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

MLL 490 - Independent Study

Units: 1-4

Independent study under the supervision of a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: MLL 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MLL 497 - Issues in Modern World Languages and Literatures

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in modern languages and literatures.

Equivalent Quarter Course: MLL 3999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice)

Modern Languages and Literatures: American Sign Language

MLL 131 - Elementary American Sign Language I

Units: 4 ; G.E./G.R. Area: C2

Students will learn conversational language and visual gestural strategies to reinforce ASL fluency. Grammatical principles and functions will be emphasized.

Equivalent Quarter Course: MLL 1901 and MLL 1902.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

MLL 132 - Elementary American Sign Language II

Units: 4 ; G.E./G.R. Area: C1

Students will learn conversational language and visual gestural strategies to reinforce ASL fluency. Grammatical principles and functions will be emphasized as well as appropriate cultural behaviors and conversational regulators.

Prerequisites: MLL 131.

Equivalent Quarter Course: MLL 1902 and MLL 1903.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MLL 231 - Intermediate American Sign Language I

Units: 4 ; G.E./G.R. Area: C2

First course in the second year ASL sequence. Focuses on appropriate cultural behaviors and conversational regulators in ASL.

Prerequisites: MLL 132.

Equivalent Quarter Course: MLL 2901 and MLL 2902.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

MLL 232 - Intermediate American Sign Language II

Units: 4 ; G.E./G.R. Area: D1-3

Second course in the second year ASL sequence. Appropriate cultural behaviors and conversational regulators in ASL will continue to be an important part of the class.

Prerequisites: MLL 231.

Equivalent Quarter Course: MLL 2902 and MLL 2903.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

MLL 331 - Advanced American Sign Language I

Units: 4

Expanded student discourse, advanced ASL structure and vocabulary, role-shifting variations, formal storytelling, text analysis, and formal/informal presentations. Deaf culture aspects will be incorporated into class activities as appropriate.

Prerequisites: MLL 232.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MLL 332 - Advanced American Sign Language II

Units: 4

Content area will focus on transitioning from communicative competence in discussing concrete subjects to being able to using language in more abstract contexts.

Prerequisites: MLL 331.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Units: 3 ; G.E./G.R. Area: C4

Introduces American Deaf Culture, examines the impact of Deaf Culture on the Deaf community and Deaf education. Topics include how Deaf people are viewed, the affect on self concept/self identity, and Deaf Culture's similarities/differences from mainstream American Culture. Class is taught in ASL.

Strongly Recommended Preparation: Completion of Elementary and Intermediate levels of ASL.

Prerequisites: MLL 232; and completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3902.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 335 - Classifiers in American Sign Language

Units: 3

Linguistic components that deal with American Sign Language (ASL) Classifiers. Identifying different ASL classifiers and appropriate use for certain types of ASL classifiers. Aspects of ASL classifiers such as non-manual signals and storytelling.

Prerequisites: MLL 332.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MLL 431 - Linguistics in American Sign Language

Units: 3

The linguistics of American Sign Language. Structural rules governing ASL grammar. Phonology, morphology, syntax and semantics of ASL Linguistics.

Prerequisites: MLL 332.

Equivalent Quarter Course: MLL 3903.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

MLL 435 - Fieldwork in American Sign Language Studies

Units: 3

Expands conversational skills in ASL by placing advanced Sign Language students in agencies and organizations serving the deaf community. *Lecture Units: 1; Supervision Units: 2*

Prerequisites: MLL 335 and MLL 431.

Equivalent Quarter Course: MLL 3904.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

Modern Languages and Literatures: Chinese

MLL 161 - Elementary Mandarin Chinese I

Units: 4 ; G.E./G.R. Area: C2

The first semester of a one-year sequence in elementary Mandarin Chinese. An introduction to the basic skills in speaking, listening, reading and writing. A communicative approach to the acquisition of the language with emphasis on the appreciation of the culture.

Equivalent Quarter Course: MLL 1601 and MLL 1602.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

MLL 162 - Elementary Mandarin Chinese II

Units: 4 ; G.E./G.R. Area: C1

The second semester of a one-year course continues training in basic skills of speaking, listening, reading and writing Chinese. A communicative approach to the acquisition of the language with emphasis on the appreciation of the culture.

Prerequisites: MLL 161.

Equivalent Quarter Course: MLL 1602 and MLL 1603.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MLL 163 - Intensive Elementary Mandarin Chinese

Units: 4 ; G.E./G.R. Area: C1

Intensive Elementary Chinese uses electronic input to develop four basic skills in speaking, listening, reading, and writing Chinese. Using realistic situations, students will learn pronunciation, vocabulary, grammar, Chinese culture, and input Chinese characters via pinyin-Romanization.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MLL 261 - Intermediate Mandarin Chinese I

Units: 4 ; G.E./G.R. Area: C2

The first semester of the intermediate course. Increased emphasis on the structure of the language, vocabulary building, conversation, appreciation of Chinese culture, and on training intermediate proficiency in speaking, listening, reading and writing Chinese.

Prerequisites: MLL 162 or MLL 163.

Equivalent Quarter Course: MLL 2601 and MLL 2602.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

MLL 262 - Intermediate Mandarin Chinese II

Units: 4

The second semester of the intermediate course. Increased emphasis on the structure of the language, vocabulary building, conversation, appreciation of Chinese culture, and on training intermediate proficiency in speaking, listening, reading and writing Chinese.

Prerequisites: MLL 261.

Equivalent Quarter Course: MLL 2602 and MLL 2603.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

MLL 361 - China Headline News: A Chinese-English Bilingual Study

Units: 4 ; G.E./G.R. Area: D4

A Chinese-English bilingual course that examines news about China. Using a variety of texts and digital resources, this course investigates and compares the language, perspectives, and context of the news media of China and US.

Prerequisites: MLL 262; and completion of GE areas A1, A2, A3, and B4.

Equivalent Quarter Course: MLL 3610.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

MLL 362 - Chinese Folktales and Culture (Bilingual)

Units: 4 ; G.E./G.R. Area: C4

Taught in both Chinese and English, this course surveys genres and narratives of Chinese folklore. It investigates Chinese culture and tradition through folktale narratives with a focus on Chinese festivals. Suitable for students at intermediate level and above.

Prerequisites: MLL 262; and completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3601.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 366 - New Chinese Cinema in English Translation

Units: 3 ; G.E./G.R. Area: D4; Social Justice

Analyzes the changing forms and cultural significance of cinematic representations in Greater China since the beginning of New Cinema movements in the 1980s; examines how cinematic movements comment on profound social changes.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3611.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences, Overlay - Social Justice*

MLL 462 - Modern Chinese Short Stories in English Translation

Units: 3 ; G.E./G.R. Area: C4

A comprehensive overview of Chinese literature that has shaped modern-day Greater China (mainland, Taiwan, and Hong Kong). Traces Chinese literary movements over the course of the twentieth to the 21st century; a multi-perspective presentation of Chinese cultural diversity.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3612.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 465 - Chinese Wisdom and Ink-wash Animation in English Translation

Units: 3 ; G.E./G.R. Area: C4

This course is a literary and theoretical study of the three major Chinese philosophical concepts by Lao Tzu, Confucius, and Sun Tzu, which are reflected in the art form of ink-wash animation.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

Modern Languages and Literatures: French

MLL 121 - Elementary French I

Units: 4 ; G.E./G.R. Area: C2

Introduction to speaking, understanding, reading, and writing French. A communicative approach to the acquisition of the language with emphasis on the appreciation of the culture.

Equivalent Quarter Course: MLL 1101 and MLL 1102.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

MLL 122 - Elementary French II

Units: 4 ; G.E./G.R. Area: C1

Introduction to speaking, understanding, reading, and writing French. A communicative approach to the acquisition of the language with emphasis on the appreciation of the culture.

Prerequisites: MLL 121.

Equivalent Quarter Course: MLL 1102 and MLL 1103.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MLL 221 - Intermediate French I

Units: 4 ; G.E./G.R. Area: C2

A continuation of MLL 122 , with increased emphasis on the structure of the language, on vocabulary building and conversation, and on the appreciation of the cultures of the French-speaking world.

Prerequisites: MLL 122.

Equivalent Quarter Course: MLL 2101 and MLL 2102.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

MLL 222 - Intermediate French II

Units: 4

A continuation of MLL 122 and MLL 221, with increased emphasis on the structure of the language, on vocabulary building and conversation, and on the appreciation of the cultures of the French-speaking world.

Prerequisites: MLL 221.

Equivalent Quarter Course: MLL 2102 and MLL 2103.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

MLL 321 - Cinema for French Conversation

Units: 3 ; G.E./G.R. Area: C4

Use of French and Francophone films as a basis for classroom discussion and for instruction in language proficiencies in listening, speaking, reading, and writing in various contexts and situations.
French/Francophone life, language and culture through the writing of essays.

Prerequisites: MLL 222; and completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3101.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 322 - Cinema for French Composition

Units: 3 ; G.E./G.R. Area: C4

Use of French and Francophone films as a basis for classroom discussion and for instruction in language proficiencies in listening, speaking, reading, and writing in various contexts and situations. Writing of essays at an advanced level.

Prerequisites: MLL 222; and completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3102.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 323 - Francophone Culture and Civilization through Cinema

Units: 3 ; G.E./G.R. Area: C4

French culture through French and Francophone films illustrating artistic, political, social, and philosophical schools, to offer a better understanding of a variety of cultures from Francophone countries around the world and analysis of cultural differences.

Prerequisites: MLL 222; and completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3130.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 324 - French/Francophone Literature in Translation

Units: 3 ; G.E./G.R. Area: C4

An interdisciplinary study of authors and movements in French and Francophone literatures, emphasizing literary, philosophical, historical, and cultural backgrounds.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3119.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 325 - Themes in French/Franchophone Literature

Units: 3 ; G.E./G.R. Area: C4

A study of selected themes in French and Francophone literature, and other cultural productions, emphasizing an author, a genre or movement.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 4100.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 326 - Sexuality and Feminism in Francophone Literature and Cinema

Units: 3 ; G.E./G.R. Area: C4

French and Francophone literature and cinema from a feminist perspective in order to reflect on the power of sexuality as both a means of oppression of women and a means of re-appropriation of female identity.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Repeatability: May be repeated once for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 421 - French-English Translation

Units: 3

Concentration on the various skills needed to translate from French to English. Students will apply those techniques by translating a variety of texts.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MLL 153 - Intensive Elementary Japanese

Units: 4 ; G.E./G.R. Area: C1

This Intensive Elementary Japanese course uses electronic input to develop four basic skills of speaking, listening, reading, and writing Japanese. Using realistic situations, students will learn pronunciation, vocabulary, grammar, Japanese culture, and three types of Japanese characters.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be*

taught both online and on-ground).

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C1 - Lower Division Arts

MLL 251 - Intermediate Japanese I

Units: 4 ; G.E./G.R. Area: C2

The first semester of the intermediate course. Increased emphasis on the structure of the language, vocabulary building, conversation, appreciation of Japanese culture, and on training intermediate proficiency in speaking, listening, reading and writing Japanese.

Prerequisites: MLL 152 or MLL 153.

Equivalent Quarter Course: MLL 2801 and MLL 2802.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C2 - Lower Division Humanities

MLL 252 - Intermediate Japanese II

Units: 4

The second semester of the intermediate course. Increased emphasis on the structure of the language, vocabulary building, conversation, appreciation of Japanese culture, and on training intermediate proficiency in speaking, listening, reading and writing Japanese.

Prerequisites: MLL 251.

Equivalent Quarter Course: MLL 2802 and MLL 2803.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MLL 351 - Japan Headline News: A Japanese-English Bilingual Study

Units: 4 ; G.E./G.R. Area: D4

A Japanese-English bilingual course that covers Japanese headline events of the past 5 years. A comparative study of cross-cultural perspectives. Suitable for students of intermediate level and above.

Prerequisites: MLL 252; and completion of GE areas A1, A2, A3, and B4.

Equivalent Quarter Course: MLL 2803.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: D4 - Upper Division Social Sciences

MLL 352 - Japanese Folktales and Culture (Bilingual)

Units: 4 ; G.E./G.R. Area: C4

Taught in both Japanese and English. A survey of Japanese folklore that studies Japanese culture and folk narratives (folklores, legends, myths, and jokes). Focuses on the relationship between animal roles and the livelihood of Japanese people.

Prerequisites: MLL 252; and completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 2803.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 358 - Experiencing Japanese Culture in English Translation

Units: 3 ; G.E./G.R. Area: D4; Social Justice

Spanning from the Meiji Restoration to the 21st century, this course covers topics such as technology, food, nationalism, anime and manga in the visual arts, and the cultural transformation that took place over the course of the 20th century.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3831.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences, Overlay - Social Justice*

MLL 452 - Modern Japanese Short Stories in English Translation

Units: 3 ; G.E./G.R. Area: C4

A comprehensive overview of Japanese literature that has shaped modern-day Japan. Selected stories by prominent writers that portray controversial images of Japan. Course covers the eras of First Experiments, Interwar, Postwar, and the contemporary. All readings are in English.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3812.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 455 - Japanese Manga and Anime Masterpieces in English Translation

Units: 3 ; G.E./G.R. Area: C4

Manga (comic books or graphic novels) and Anime (animated films) are two of the most universally recognized forms of contemporary Japanese mass culture. This course will examine the historical,

cultural, sociological, psychological, and stylistic dimensions of manga and anime.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

Modern Languages and Literatures: Spanish

MLL 141 - Elementary Spanish I

Units: 4 ; G.E./G.R. Area: C2

Introduction to speaking, understanding, reading, and writing Spanish. A communicative approach to the acquisition of the language with emphasis on the appreciation of the culture.

Equivalent Quarter Course: MLL 1401 and MLL 1402.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

MLL 142 - Elementary Spanish II

Units: 4 ; G.E./G.R. Area: C1

Introduction to speaking, understanding, reading, and writing Spanish. A communicative approach to the acquisition of the language with emphasis on the appreciation of the culture.

Prerequisites: MLL 141.

Equivalent Quarter Course: MLL 1402 and MLL 1403.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MLL 146 - Beginning Spanish for Healthcare Professionals

Units: 4

Develops student communicative competence in Spanish language areas relevant to healthcare related fields.

Strongly Recommended Preparation: Prior knowledge of Spanish language.

Prerequisites: MLL 141.

Credit Restrictions: Not for Spanish major credit.

Equivalent Quarter Course: MLL 2407 and MLL 2408.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

MLL 241 - Intermediate Spanish I

Units: 4 ; G.E./G.R. Area: C2

A continuation of MLL 142, with increased emphasis on the structure of the language, on vocabulary building and conversation, and the appreciation of the cultures of Spanish speaking world.

Prerequisites: MLL 142.

Equivalent Quarter Course: MLL 2401 and MLL 2402.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C2 - Lower Division Humanities

MLL 242 - Intermediate Spanish II

Units: 4

A continuation of MLL 241, with increased emphasis on the structure of the language, on vocabulary building and conversation, and the appreciation of the cultures of Spanish speaking world.

Prerequisites: MLL 241.

Equivalent Quarter Course: MLL 2402 and MLL 2403.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

MLL 246 - Intermediate Spanish for Healthcare Professionals

Units: 4

This course, for students with prior Spanish speaking ability, will develop student communicative competence in Spanish language areas relevant to healthcare and related fields. Placement test required.

Prerequisites: MLL 142.

Credit Restrictions: Not for Spanish major credit.

Equivalent Quarter Course: MLL 2408 and MLL 2409.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

MLL 341 - Spanish Conversation

Units: 4

A practical application of Spanish to present-day experiences. Designed to develop advanced oral

communication skills. Emphasis on increasing vocabulary, accuracy and grammatical control.

Prerequisites: MLL 343.

Equivalent Quarter Course: MLL 3410.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MLL 342 - Spanish Conversation for Community Engagement

Units: 4

Develop conversational and written Spanish skills working with the local community. Community Engagement in Spanish may include projects approved by the faculty supervisor, teaching aides in high schools, or interpreting and translating for nonprofit agencies.

Equivalent Quarter Course: MLL 3420.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MLL 343 - Spanish Composition and Syntax

Units: 4

Written Spanish and formal grammar applied to advanced composition in the language.

Prerequisites: MLL 242.

Equivalent Quarter Course: MLL 3401 or MLL 3402.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MLL 344 - Spanish Linguistics and Phonetics

Units: 4

An introduction to the history of Spanish language, grammatical systems (Phonology, Morphology, Syntax), and socio-linguistics status of Spanish in the U.S. (*see Errata - Course page for update)

Prerequisites: MLL 242.

Equivalent Quarter Course: MLL 3411 or MLL 3412.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MLL 345 - Spanish Textual Analysis in a Multicultural Context

Units: 4 ; G.E./G.R. Area: D4

The course will introduce students to textual analysis and production, allowing them to read and write within the context of academic and university discourses. Exposed to texts from diverse traditions both global and local, students will become competent readers and writers.

Prerequisites: MLL 242 and completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3400.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

MLL 447 - Latin American Global and Cultural Studies

Units: 3 ; G.E./G.R. Area: C4

Single author, country, movement, theme or current social issues in Spanish/Latin American literature and culture in a global context. Taught in Spanish, readings in Spanish and English.

Prerequisites: MLL 343 and completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 4495.

Repeatability: May be repeated for credit for a maximum of 15 units when content changes.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 448 - Spanish Global and Cultural Studies

Units: 3

Studies in a single author, region, movement, theme or current social issues in Spanish Peninsular literature and culture in a global context. Taught in Spanish and/or English. Readings in Spanish and English.

Prerequisites: MLL 343.

Equivalent Quarter Course: Any one from: MLL 4455, MLL 4459, MLL 4460, MLL 4461.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MLL 449 - Selected Topics in Hispanic Studies

Units: 3

Selected topics in Hispanic Studies beyond regular course offerings. Subjects will vary and will be specified at time of offering.

Prerequisites: Department consent and MLL 343.

Equivalent Quarter Course: MLL 3999.

Repeatability: May be repeated for credit when content varies for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Modern Languages and Literatures: Spanish-American Literature and Culture

MLL 441 - Introduction to Spanish American Literature: 1492 to 1900

Units: 3

Survey of Spanish-American Literature from pre-Colombian texts to 1900. Socio-political, aesthetic, philosophical and literary ideas of the conquest and colonial literature, romanticism, realism, and modernism discussed. Taught in Spanish, readings in Spanish and English.

Equivalent Quarter Course: MLL 3461.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MLL 442 - Introduction to Spanish American Literature: 1900 to the Present

Units: 3 ; G.E./G.R. Area: C4

Socio-political, aesthetic, philosophical and literary ideas examined in contemporary Latin American literature. Prose, poetry and drama of the 20th and 21st century, including latest development in postmodernity, postcoloniality and cultural studies.

Prerequisites: MLL 343; and completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3463.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 445 - Cultures of Spanish America

Units: 3 ; G.E./G.R. Area: C4

A study of Spanish American cultures through history, race and cultural diversity, arts, myths, leaders, and social institutions. Taught in Spanish, readings in Spanish and English.

Prerequisites: MLL 343; and completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MLL 3495.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

Modern Languages and Literatures: Spanish Peninsular Literature and Culture

MLL 443 - Survey Spanish Literature I: Medieval and Golden Age

Units: 3 ; G.E./G.R. Area: C4

Survey of Spanish literature from the Middle Ages to 1700. Socio-political, aesthetic, philosophical, and literary ideas studied through readings and major works from the Medieval, Renaissance, and Baroque periods. Taught in Spanish, readings in Spanish and English.

Prerequisites: Completion of GE areas A1, A2, A3, and B4.

Equivalent Quarter Course: MLL 4457.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MLL 444 - Survey Spanish Literature II: 18th Century to Present

Units: 3

Survey of Spanish literature from the 18th century to the present. Socio-political, aesthetic, philosophical and literary ideas studied through selections of major works; neo-classicism, romanticism, naturalism, the Generation of '98, and modern and contemporary authors.

Prerequisites: MLL 343 and completion of GE areas A1, A2 and A3.

Co-requisites: MLL 345.

Equivalent Quarter Course: MLL 4458.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MLL 446 - Cultures of Spain

Units: 3 ; G.E./G.R. Area: C4

A study of the diverse cultures of Spain through a variety of texts (fictional and non-fictional) and manifestations of popular culture illustrating Spain's philosophical ideas and its artistic, political, social movements. Taught in Spanish for Spanish majors and/or English. Readings in Spanish and English.

Prerequisites: MLL 343; and completion of GE areas A1, A2, A3 and B4.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

Multimedia: Graduate

MM 601 - Seminar in Interactive Art & Design

Units: 3

Advanced reading and discussion of the foundational literature, principles and paradigms associated with the study of media art, culture, and communication. Course covers the history, methods and terminology of media art.

Equivalent Quarter Course: MM 6101.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 602 - Project and Story Development

Units: 3

Small development projects to develop students' potential to succeed as members of a thesis team.

Establishment of research project teams and the development of thesis proposals.

Prerequisites: MM 601.

Equivalent Quarter Course: MM 6860.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 621 - Screen Based Interaction

Units: 3

Study of the process of designing screen based interactive prototypes within the contexts of apps, games, the web. Students use various tools, including simple scripting, to create prototypes and then test and refine them.

Co-requisites: MM 601.

Equivalent Quarter Course: MM 6120.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 622 - Physical Prototyping

Units: 3

Explore interactivity with physical objects. Study of the process of designing interactive prototypes, both autonomous and networked. Students use various tools, including simple scripting, 3D printing and microcontrollers, to create prototypes and then test and refine them.

Prerequisites: MM 621.

Co-requisites: MM 602.

Equivalent Quarter Course: MM 6110.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 630 - Coding for Multimedia

Units: 3

Using a common art and design friendly language like Processing or JavaScript, students will learn both basic scripting and how to use and adapt pre-existing code and libraries to develop and network software

prototypes and mash-ups.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 632 - Interaction Design

Units: 3

Theories and practices of Interaction Design within a broader context of the fields of User Experience Design and of Human Computer Interaction. Students design and develop interactions and experiences with paper models and examine case studies.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 640 - Forum

Units: 1

Advanced practitioners at the intersections of art, science, and technology present and discuss their work in a dynamic and open format with students. Students are actively engaged in a conversation about current trends and paradigms in contemporary media.

Equivalent Quarter Course: MM 6805.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 665 - Experiments in Interactivity

Units: 3

This course has a different topic or theme each semester and can be repeated, subject to advisor approval. Experimental studio course in application of technology to interactive experience design. Explores concepts of structure, aesthetics, and content of interactive experience design.

Repeatability: May be repeated for credit for a maximum of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 666 - Experiments in Art and Technology

Units: 3

This course has a different topic or theme each semester and can be repeated, subject to advisor approval. Experimental studio course explores the territory at the intersection of the technical, scientific, entertainment and fine arts communities.

Repeatability: May be repeated for credit for a maximum of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 667 - Experiments in Storytelling

Units: 3

Explores various advanced-level strategies in storytelling using theory, production, and multimedia techniques and technologies. Determined by the program coordinator and thesis committee, the topics chosen will support the first project a student will complete on his/her own.

Repeatability: May be repeated for credit for a maximum of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 680 - Interactive Content Development

Units: 3

Team-based interactive content development and management with work on faculty-derived projects. Students synthesize and apply skills in a production environment, then critique and refine processes to optimize creative productivity

Prerequisites: MM 602.

Co-requisites: MM 682.

Equivalent Quarter Course: MM 6600.

Repeatability: May be repeated for credit for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 682 - Individual Multimedia Research and Practice

Units: 3

A series of structured and customized individual research and development modules designed to prepare each student for the capstone project. Socially responsible practice and professional standards of sophistication and productivity are emphasized.

Prerequisites: MM 602.

Co-requisites: MM 680.

Equivalent Quarter Course: MM 6880.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 690 - Independent Study

Units: 1-3

Independent study under direction of faculty.

Prerequisites: Department consent and minimum 3.0 GPA.

Equivalent Quarter Course: MM 6900.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 693 - Interaction Design Capstone Project

Units: 4

Synthesis culminating in a comprehensive team based thesis project under the supervision of a faculty committee. The capstone course is an opportunity for students to demonstrate their comprehensive achievements in interaction design. Students' projects are presented in a public forum.

Prerequisites: MM 680 and MM 682.

Co-requisites: MM 694.

Equivalent Quarter Course: MM 6899.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 694 - Project Documentation

Units: 1

Writing clear, complete, structured and persuasive documentation of multimedia projects for production, publication, promotion and/or grant applications. Professional and effective use of supporting graphics, charts, citation and bibliographies.

Prerequisites: MM 602.

Repeatability: May be repeated for credit for a maximum of 3 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MM 698 - Internship

Units: 1-6

Formal advanced work opportunities integrating the academic program with their career aspirations. Integral advanced hands-on experience enhancing education and preparing for professional and personal success.

Prerequisites: Department consent and minimum 3.0 GPA.

Equivalent Quarter Course: MM 6898.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Music

MUS 281 - Vocal Coaching

Units: 1

Individual vocal coaching in collaborative music making for music majors or minors. Coaching times arranged according to degree recital expectations as outlined in the music major handbook.

Prerequisites: Department consent.

Co-requisites: Minimum of one course from the MUS 261-269 series.

Equivalent Quarter Course: MUS 2601.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 282 - Instrumental Coaching

Units: 1

Individual instrumental coaching in collaborative music making for music majors or minors. Coaching times arranged according to degree recital expectations as outlined in the music major handbook.

Prerequisites: Department consent.

Co-requisites: Minimum of one course from the MUS 261-269 series.

Equivalent Quarter Course: MUS 2602.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 302 - What to Listen for in Music

Units: 3 ; G.E./G.R. Area: C4

Development of a greater appreciation and enjoyment of music through study of selected works. Study of musical elements to develop critical listening skills applicable to all styles of music. Previous musical training not necessary. Field trips may be required.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MUS 3002.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

MUS 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No units may be applied to the Music major; no more than 3 units may be applied to the Music minor.

Equivalent Quarter Course: MUS 3898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

MUS 480 - Recital Class - Senior

Units: 1

Preparation and performance of a senior musical recital. Capstone experience for applied music instruction.

Prerequisites: Minimum of one course from the MUS 461-469 series.

Co-requisites: Minimum of one course from the MUS 461-469 series.

Equivalent Quarter Course: MUS 4609.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: MUS 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Music: Applied Study (LD)

MUS 261A - Applied Study: Piano

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1610 and MUS 2610

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 261B - Applied Study: Harpsichord

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1612 and MUS 2612

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 261C - Applied Study: Organ

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1611 and MUS 2611.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 262 - Applied Study: Voice

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1620 and MUS 2620.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 263A - Applied Study: Violin

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1630 and MUS 2630

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 263B - Applied Study: Viola

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1631 and MUS 2631.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 263C - Applied Study: Cello

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1632 and MUS 2632.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 263D - Applied Study: Double Bass

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1633 and MUS 2633.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 263E - Applied Study: Classic'l Guitar

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1635 or MUS 2635.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 263F - Applied Study: Harp

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1634 and MUS 2634.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 264A - Applied Study: Flute

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1640 and MUS 2640.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 264B - Applied Study: Clarinet

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1642 and MUS 2642.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 264C - Applied Study: Saxophone

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1644 and MUS 2644.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 264D - Applied Study: Oboe

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1641 and MUS 2641.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 264E - Applied Study: Bassoon

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1643 and MUS 2643.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 265A - Applied Study: Trumpet

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1650 and MUS 2650.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 265B - Applied Study: French Horn

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1651 and MUS 2651.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 265C - Applied Study: Trombone

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1652 and MUS 2652.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 265D - Applied Study: Euphonium

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1653 and MUS 2653.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 265E - Applied Study: Tuba

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1654 and MUS 2654.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 266 - Applied Study: Percussion

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1660 and MUS 2660.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 267A - Applied Study: Composition

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course.

Prerequisites: Minimum of two units from the MUS 261-269 series.
Co-requisites: Minimum of one course from the MUS 351-355 series.
Equivalent Quarter Course: MUS 1670 and MUS 2670.
Repeatability: May be repeated for credit for a maximum of 4 units.
Possible Instructional Methods: *Entirely On-ground.*
Grading: A-F grading only.

MUS 267B - Applied Study: Interactive and Media Composition

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition and Portfolio Required.

Prerequisites: Minimum of two units from the MUS 261-269 series.
Co-requisites: Minimum of one course from the MUS 351-355 series.
Equivalent Quarter Course: MUS 1685 and MUS 2685.
Repeatability: May be repeated for credit for a maximum of 4 units.
Possible Instructional Methods: *Entirely On-ground.*
Grading: A-F grading only.

MUS 267C - Applied Study: Jazz Composition

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition and Portfolio Required.

Prerequisites: Minimum of two units from the MUS 261-269 series.
Co-requisites: Minimum of one course from the MUS 351-355 series.
Equivalent Quarter Course: MUS 1690 and MUS 2690.
Repeatability: May be repeated for credit for a maximum of 4 units.
Possible Instructional Methods: *Entirely On-ground.*
Grading: A-F grading only.

MUS 268 - Applied Study: Conducting

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.
Equivalent Quarter Course: MUS 1680 and MUS 2680.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 269A - Applied Study: Jazz Trumpet

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1696 and MUS 2696.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 269B - Applied Study: Jazz Trombone

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1697 and MUS 2697.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 269C - Applied Study: Jazz Saxophone

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1695 and MUS 2695.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 269D - Applied Study: Jazz Guitar

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1692 and MUS 2692.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 269E - Applied Study: Jazz Bass

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1693 and MUS 2693.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 269F - Applied Study: Jazz Drums and Percussion

Units: 1

Individual instruction for music majors or minors at the Lower Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 1694 and MUS 2694.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Music: Applied Study (UD)

MUS 461A - Applied Study: Piano

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 261A.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3610 and MUS 4610.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 461B - Applied Study: Harpsichord

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 261B.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3612 and MUS 4612.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 461C - Applied Study: Organ

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 261C.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3611 and MUS 4611.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 462 - Applied Study: Voice

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 262.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3620 and MUS 4620.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 463A - Applied Study: Violin

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 263A.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3630 and MUS 4630.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 463B - Applied Study: Viola

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 263B.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3631 and MUS 4631.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 463C - Applied Study: Cello

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 263C.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3632 and MUS 4632.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 463D - Applied Study: Double Bass

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 263D.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3633 and MUS 4633.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 463E - Applied Study: Classical Guitar

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 263E.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3635 and MUS 4635.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 463F - Applied Study: Harp

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 263F.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3634 and MUS 4634.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 464A - Applied Study: Flute

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 264A.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3640 and MUS 4640.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 464B - Applied Study: Clarinet

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 264B.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3642 and MUS 4642.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 464C - Applied Study: Saxophone

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 264C.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3644 and MUS 4644.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 464D - Applied Study: Oboe

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 264D.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3641 and MUS 4641.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 464E - Applied Study: Bassoon

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 264E.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3643 and MUS 4643.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 465A - Applied Study: Trumpet

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 265A.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3650 and MUS 4650.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 465B - Applied Study: French Horn

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

grade for the course. Audition required.

Prerequisites: MUS 265B.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3651 and MUS 4651.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 465C - Applied Study: Trombone

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 265C.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3652 and MUS 4652.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 465D - Applied Study: Euphonium

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 265D.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3653 and MUS 4653.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 465E - Applied Study: Tuba

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 265E.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3654 and MUS 4654.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 466 - Applied Study: Percussion

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 266.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3660 and MUS 4660.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 467A - Applied Study: Composition

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition and portfolio required.

Prerequisites: MUS 267A.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3670 and MUS 4670.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 467B - Applied Study: Interactive and Media Composition

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition and portfolio required.

Prerequisites: MUS 267B.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3685 and MUS 4685.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 467C - Applied Study: Jazz Composition

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition and portfolio required.

Prerequisites: MUS 267C.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3690 and MUS 4690.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 468 - Applied Study: Conducting

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition and portfolio required.

Prerequisites: MUS 268.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3680 and MUS 4680.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 469A - Applied Study: Jazz Trumpet

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 269A.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3696 and MUS 4696.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 469B - Applied Study: Jazz Trombone

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 269B.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3697 and MUS 4697.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 469C - Applied Study: Jazz Saxophone

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 269C.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3695 and MUS 4695.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 469D - Applied Study: Jazz Guitar

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 269D.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3692 and MUS 4692.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 469E - Applied Study: Jazz Bass

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 269E.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3693 and MUS 4693.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 469F - Applied Study: Jazz Drums

Units: 1

Individual instruction for music majors or minors at the Upper Division performance level. Students demonstrate progress before a faculty jury at the end of each semester. A failed jury results in a failing grade for the course. Audition required.

Prerequisites: MUS 269F.

Co-requisites: Minimum of one course from the MUS 351-355 series.

Equivalent Quarter Course: MUS 3694 and MUS 4694.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 481 - Vocal Coaching

Units: 1

Individual vocal coaching in collaborative music making for music majors or minors. Coaching times arranged according to degree recital expectations as outlined in the music major handbook.

Prerequisites: Department consent.

Co-requisites: Minimum of one course from the MUS 461-469 series.

Equivalent Quarter Course: MUS 4601.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 482 - Instrumental Coaching

Units: 1

Individual instrumental coaching in collaborative music making for music majors or minors. Coaching times arranged according to degree recital expectations as outlined in the music major handbook.

Prerequisites: Department consent.

Co-requisites: Minimum of one course from the MUS 461-469 series.

Equivalent Quarter Course: MUS 4602.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Music: Chamber Ensembles

MUS 361 - Chamber Wind Ensemble

Units: 1

Ensemble focused on performing repertoire for small combinations of wind and brass instruments. Chamber ensembles are open to all qualified students (determined by audition). Field trips may be required.

Equivalent Quarter Course: MUS 3531.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 362 - Brass Ensemble

Units: 1

Ensemble focused on performing repertoire for small combinations of brass instruments. Field trips may be required.

Equivalent Quarter Course: MUS 3532.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 363 - Percussion Ensemble

Units: 1

Ensemble focused on performing repertoire for small combinations of percussion instruments. Field trips may be required. Audition required.

Equivalent Quarter Course: MUS 3535.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 364 - African Drumming Ensemble

Units: 1

Ensemble to explore repertoire for small and large combinations of African drums and percussion instruments. Field trip(s) may be required.

Equivalent Quarter Course: MUS 3536.

Repeatability: may be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 365 - String Ensemble

Units: 1

Ensemble focused on performing repertoire for small combinations of string instruments. Field trips may be required. Audition required.

Equivalent Quarter Course: MUS 3541.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 366 - Guitar Ensemble

Units: 1

Chamber ensemble playing repertoire for small and large combinations of guitars with occasional soloists. Field trip(s) may be required. Audition required.

Equivalent Quarter Course: MUS 3542.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 367 - Piano Ensemble

Units: 1

Repertoire for small and large combinations of keyboard instruments with special attention paid towards works for piano four-hands and two pianos. Audition required.

Equivalent Quarter Course: MUS 3543.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 368A - Jazz Improvisation Ensemble

Units: 1

Introductory-level jazz ensemble focusing on general improvisation techniques in jazz. Field trips may be required. Audition required.

Equivalent Quarter Course: MUS 3550.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 368B - Jazz Standards Ensemble

Units: 1

Jazz ensemble focusing on standard jazz combo repertoire. Field trips may be required. Audition required.

Equivalent Quarter Course: MUS 3551.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 368C - Contemporary Jazz Ensemble

Units: 1

Jazz ensemble emphasizing modern, mainstream jazz repertoire. Field trips may be required. Audition required.

Equivalent Quarter Course: MUS 3552.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 368D - Blue Note Jazz Ensemble

Units: 1

Small jazz ensemble focusing on post-bop jazz of the 1950's and 1960's. Field trips may be required. Audition required.

Equivalent Quarter Course: MUS 3553.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 368E - Latin Jazz Ensemble

Units: 1

Jazz ensemble focusing on Afro-Cuban, Salsa, and Brazilian jazz repertoire. Field trips may be required.

Audition required.

Equivalent Quarter Course: MUS 3554.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 368F - Jazz Composers Ensemble

Units: 1

Jazz ensemble focusing on the composition and performance of student works for jazz ensemble. Field trips may be required. Audition required.

Equivalent Quarter Course: MUS 3555.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 369A - Vocal Repertory Ensemble

Units: 1

Chamber ensemble focusing on repertoire for solo voice and small and large combinations of voices with special attention paid to Art Song and peer review and collaborative assessment of performance practice. Field trip(s) may be required. Audition required.

Equivalent Quarter Course: MUS 3560.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 369B - Chamber Singers

Units: 1

Small vocal ensemble focusing on repertoire for chamber choir, mixed voices. Field trip(s) may be required. Audition required.

Equivalent Quarter Course: MUS 3561.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 369C - Jazz Singers

Units: 1

Small vocal ensemble focusing on repertoire for chamber choir, mixed voices, that is drawn from jazz,

pop, and world traditions. Auditions required.

Equivalent Quarter Course: MUS 3562.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 370A - Electric Jazz Ensemble

Units: 1

Jazz ensemble focusing on Fusion, Funk, and World Jazz. Field trips may be required. Audition required.

Equivalent Quarter Course: MUS 3556.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 370B - Rhythm Section Ensemble

Units: 1

Jazz ensemble emphasizing rhythmically challenging material such as odd-meter composition, polyrhythmic works, and pieces with frequent and dramatic metric changes. Field trips may be required. Audition required.

Equivalent Quarter Course: MUS 3558.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 370C - Sight-reading Ensemble

Units: 1

Jazz ensemble focusing on continual honing of sight-reading abilities through continual practice and performance of works unseen previous to rehearsal. Field trips may be required. Audition required.

Equivalent Quarter Course: MUS 3559.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Music: Courses for Non-Music Majors

MUS 104 - Introduction to World Music

Units: 3 ; G.E./G.R. Area: C1

Investigating various world music traditions, including those in Africa, South America, and Asia, with an emphasis on connections with culture and history. Previous musical experience welcome but not necessary.

Equivalent Quarter Course: MUS 1004.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MUS 106 - History of Rock Music

Units: 3 ; G.E./G.R. Area: C1

A survey of important performers and styles from the 1950's to the present, and of the music's African, rhythm and blues, and classical music sources. Previous musical training not necessary.

Equivalent Quarter Course: MUS 1006.

Possible Instructional Methods: *Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MUS 106A - History of Hip-Hop

Units: 3 ; G.E./G.R. Area: C1

A survey of Hip Hop music, with an emphasis on its musical elements and influences. Students will acquire the appropriate vocabulary necessary to analyze Hip Hop music and trace its development as a form of human expression.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MUS 106B - Music in Film

Units: 3 ; G.E./G.R. Area: C1

Exploration of the role of music in films as it stimulates the emotional response to the visual aspects of the art form and an examination of the historical evolution of film scoring.

Possible Instructional Methods: *Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MUS 106C - History of the Blues

Units: 3 ; G.E./G.R. Area: C1

Examination of a musical genre that forms the backbone of much American popular music. Survey of the

way the various Blues sub-genres have influenced popular music and culture in the United States.

Possible Instructional Methods: *Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MUS 107 - History of Jazz

Units: 3 ; G.E./G.R. Area: C1

Exposes students to the world of jazz music by studying periods, major performers and composers, trends, influences, stylistic features and cultural significance. No previous musical training is required. Field trips may be required.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MUS 108 - The Language of Music

Units: 3 ; G.E./G.R. Area: C1

An introduction to the materials and structure of Western tonal art music, including notation, pitch, rhythm, meter, scales and keys, intervals, chords, harmonic progressions and voice-leading, and form.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MUS 206 - Arts and Media of the Golden State

Units: 3 ; G.E./G.R. Area: C1

Survey of creativity in California, including stage, screen, recording arts, media, Silicon Valley, and gaming. Emphasis on the roles of delivery and content in developing a personal understanding and appreciation for arts and culture. Requires attendance at field trips.

Equivalent Quarter Course: MUS 2269

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MUS 304 - Introduction to World Music & Culture

Units: 3 ; G.E./G.R. Area: C4

Investigating various world music traditions, including those in Africa, South America, and Asia, with an emphasis on connections with culture and history. Previous musical experience welcome but not necessary.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: MUS 3014.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

Music: Education

MUS 231 - Teaching String Instruments

Units: 1

Presents pedagogy and techniques for teaching violin, viola, cello, and bass in a school ensemble setting.

Equivalent Quarter Course: MUS 2331 and 2332.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 232 - Teaching Woodwind Instruments

Units: 1

Presents pedagogy and techniques for teaching flute, clarinet, saxophone, oboe, and bassoon in a school ensemble setting.

Equivalent Quarter Course: MUS 2341 and MUS 2342 and MUS 2343.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 233 - Teaching Brass Instruments

Units: 1

Presents pedagogy and techniques for teaching trumpet, French horn, trombone, and tuba in a school ensemble setting.

Equivalent Quarter Course: MUS 2355 and MUS 2355. Students must have taken both MUS 2355-01 and MUS 2355-02 to demonstrate equivalency for this course

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 234 - Teaching Percussion

Units: 1

Presents pedagogy and techniques for teaching percussion instruments in a school ensemble setting.

Equivalent Quarter Course: MUS 2361.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 235 - Basic Guitar Techniques

Units: 1

Fundamentals of playing guitar with emphasis on developing competencies sufficient to employ the instrument in an educational setting.

Equivalent Quarter Course: MUS 2371.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 236 - Basic Vocal Techniques

Units: 1

Class instruction in fundamentals of singing.

Equivalent Quarter Course: MUS 2321.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 238 - Music Education Laboratory Ensemble

Units: 1

Designed for music majors. Ensemble focused on performance on non-primary instruments, with an emphasis on performing elementary level repertoire suitable for school ensemble settings. Does not satisfy chamber ensemble requirement.

Credit Restrictions: May not be used to satisfy chamber ensemble requirement for BA in music.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 331 - Foundations of Music Education

Units: 3

Overview of music education for prospective music educators, with a focus on K-12 music education. Topics include philosophy of music education, K-12 music pedagogy, and the history, economics, and policy of music education. Field trips may be required.

Equivalent Quarter Course: MUS 2410.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 335 - Technology for Music Educators

Units: 3

Instruction in uses of audio software, and software for desktop, interactive, and music publishing to aid in the development of music education curricula, programs, and lessons. *Seminar Units: 2; Activity Units: 1*

Equivalent Quarter Course: MUS 3095.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 341 - Basic Conducting

Units: 3

Basic techniques of conducting including simple, compound and asymmetrical meters, expression and interpretation through observation and laboratory experience.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: MUS 3370.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 431 - Elementary Music Teaching Methods

Units: 3

Designed for prospective school music educators. Development of methods, techniques, and knowledge appropriate for teaching elementary general music classes. Study and exploration of elementary music instructional materials and topics. Field trips may be required.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: MUS 4445.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 432 - Instrumental Music Teaching Methods

Units: 3

Provides opportunity for students intending to become music teachers to develop rehearsal techniques, organizational procedures related to public school band and orchestra programs; become familiar with public school teaching materials; further develop conducting techniques; and improve secondary instruments skills.

Prerequisites: MUS 341.

Equivalent Quarter Course: MUS 4435.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 433 - Choral Music Teaching Methods

Units: 3

Development of rehearsal techniques and organizational procedures related to choirs and vocal ensembles in the elementary and secondary schools. Teaching materials and appropriate literature from various stylistic periods. Field trips may be required.

Prerequisites: MUS 341.

Equivalent Quarter Course: MUS 4440.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 441 - Intermediate Conducting

Units: 3

Special techniques of choral conducting including vocal and score reading and analysis, interpretation, and rehearsal through observation and laboratory experience.

Prerequisites: MUS 341 and junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: MUS 3380 and MUS 3390.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 495 - Music Education Practicum

Units: 1

Practicum experience in K-12 public school class and rehearsal settings, involving observation and teaching under the supervision of music faculty. Focus on practical skills. Regularly scheduled seminars. Field trips required.

Prerequisites: Department consent.

Credit Restrictions: Only open for credit to music education majors participating in the music single subject matter preparation program.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 497 - Contemporary Issues in Music Education

Units: 3

Examination, discussion, and analysis of topics of consequence related to contemporary music teaching and learning.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Music: Graduate

MUS 600 - Seminar in Research Methodology

Units: 3 ; G.E./G.R. Area: UWSR

Tools and resources available to conduct research in music. Organize and undertake a thesis-directed research project investigating important and relevant questions in music, and communicate findings in an academic manner. Required for Advancement to Candidacy.

Prerequisites: Post-baccalaureate standing ; and either CR (credit) in ENGL 300 or ENGL 301 and a score of 7 on the first-tier portfolio; or score of 7 or better on the Writing Skills test; or satisfaction of the graduation writing assessment requirement (GWAR) at any CSU campus including the UWSR at Cal State East Bay. Credit unavailable through challenge. *Note: see Errata chapter for changes*

Equivalent Quarter Course: MUS 6000.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *University Writing Skills Requirement*

MUS 608A - Interactivity with Sound & Music I

Units: 3

Rudiments of hardware and software connectivity between different devices and programs for sound and music. Topics include the use of MIDI, Open Sound Control, and non-musically focused technology to create new sounds and musical experiences.

Prerequisites: M.A. Music major.

Equivalent Quarter Course: MUS 6085.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 608B - Interactivity with Sound & Music II

Units: 3

Continuation of Interactive Sound & Music I. Detailed study of the use of consumer hardware in conjunction with software protocols for controlling sound and music over computer networks. Rudimentary algorithmic music composition.

Prerequisites: MUS 608A.

Equivalent Quarter Course: MUS 6086.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 630 - Advanced Conducting

Units: 1

Ensemble conducting techniques including stylistic, pedagogical, and physical studies in gesture. Score analysis and ear training through the study of music from all genres and historical periods. Advanced rehearsal techniques and program building, including the development of ensemble.

Prerequisites: M.A. Music major.

Equivalent Quarter Course: MUS 6280.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 631 - Teaching Music in Higher Education

Units: 3

Preparation for careers in post-secondary education. Study of learning theories, curriculum development, assessment, and materials for teaching music in higher education.

Prerequisites: M.A. Music major.

Equivalent Quarter Course: MUS 6445.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 690 - Independent Study

Units: 1-3

Selected research topics agreed on between the student and the faculty supervising the course. A plan of work completion must be approved prior to proceeding with the project.

Prerequisites: Department consent and minimum 3.0 GPA.

Equivalent Quarter Course: MUS 6900.

Repeatability: May be repeated for credit with consent of instructor, for a maximum of 3 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 691 - University Thesis

Units: 1-4

Development and completion of a formal written thesis for submission to the university. Supervision by a departmental committee, at least one of whom must be a Cal State East Bay faculty member. Oral defense required.(See also "University Thesis Writing Guide," www.csueastbay.edu/thesiswritingguide).

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6910.

Repeatability: Course may be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 693 - Project

Units: 1-3

Development and completion of an original product with a written summary. Supervision by a departmental committee, at least one of whom must be a Cal State East Bay faculty member. Oral defense required.

Prerequisites: Department consent and M.A. Music major.

Equivalent Quarter Course: MUS 6899.

Repeatability: May be repeated for credit for a maximum of 3 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 697 - Issues in Music

Units: 3

Graduate seminar focused on readings, discussion, and research on significant issues in music.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6999.

Repeatability: May repeat once for credit for a maximum of 6 units when topic varies.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Music: Graduate: Applied

MUS 660A - Graduate Vocal Coaching

Units: 1

Individual vocal coaching in collaborative music making for music majors or minors with Graduate-level performance ability. Coaching times arranged according to graduate degree recital expectations as outlined in the music major handbook.

Prerequisites: Department consent.

Co-requisites: MUS 662.

Equivalent Quarter Course: MUS 6601.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 660B - Graduate Instrumental Coaching

Units: 1

Individual instrumental coaching in collaborative music making for music majors or minors with Graduate-level performance ability. Coaching times arranged according to graduate degree recital expectations as outlined in the music major handbook.

Prerequisites: Department consent.

Co-requisites: Minimum of one course from: MUS 661A-D, MUS 663A-F, MUS 664A-E, MUS 665A-E, MUS 666, MUS 669A-F.

Equivalent Quarter Course: MUS 6602.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 661A - Graduate Applied Study: Piano

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6610.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 661B - Graduate Applied Study: Organ

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6611.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 661C - Graduate Applied Study: Harpsichord

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6612.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 661D - Graduate Applied Study: Jazz Piano and Keyboard

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6691.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 662 - Graduate Applied Study: Voice

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6620.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 663A - Graduate Applied Study: Violin

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6630.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 663B - Graduate Applied Study: Viola

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6631.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 663C - Graduate Applied Study: Cello

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6632.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 663D - Graduate Applied Study: Bass

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6633.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 663E - Graduate Applied Study: Harp

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6634.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 663F - Graduate Applied Study: Guitar

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6635.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 664A - Graduate Applied Study: Flute

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6640.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 664B - Graduate Applied Study: Clarinet

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6642.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 664C - Graduate Applied Study: Bassoon

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6643.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 664D - Graduate Applied Study: Saxophone

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6644.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 664E - Graduate Applied Study: Oboe

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6241.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 665A - Graduate Applied Study: Trumpet

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6650.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 665B - Graduate Applied Study: French Horn

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6651.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 665C - Graduate Applied Study: Trombone

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6652.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 665D - Graduate Applied Study: Baritone

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6653.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 665E - Graduate Applied Study: Tuba

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6654.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 666 - Graduate Applied Study: Percussion

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6660.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 667A - Graduate Applied Study: Composition

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6670.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 667B - Graduate Applied Study: Jazz Composition

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6690.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 667C - Graduate Applied Study: Interactive and Media Composition

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6685.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 668 - Graduate Applied Study: Conducting

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6680.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 669A - Graduate Applied Study: Jazz Guitar

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6692.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 669B - Graduate Applied Study: Jazz Bass

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6693.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 669C - Graduate Applied Study: Jazz Drums and Percussion

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6694.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 669D - Graduate Applied Study: Jazz Saxophone

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6695.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 669E - Graduate Applied Study: Jazz Trumpet

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6696.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 669F - Graduate Applied Study: Jazz Trombone

Units: 2

Individual instruction for music majors or minors with Graduate-level performance ability. Audition required. At the end of the second semester of study, students demonstrate their progress before a faculty jury. A failed jury results in a failing grade for the course.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 6697.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Music: Graduate: History and Literature

MUS 601A - Analysis of Musical Styles I

Units: 3

Analysis of compositional styles from chant to present-day music. Compositional principles are derived from the music with results then generalized according to composer and period.

Prerequisites: M.A. Music major.

Equivalent Quarter Course: MUS 6015.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 601B - Analysis of Musical Styles II

Units: 3

Analysis of compositional styles from chant to present-day music. Compositional principles are derived from the music with results then generalized according to composer and period.

Prerequisites: M.A. Music major.

Equivalent Quarter Course: MUS 6016.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 611 - Seminar in Music of the Medieval & Renaissance Periods

Units: 3

Musical styles, forms and performance practice from 400 to 1600 with detailed analyses of representative works and close reading of historical writings.

Prerequisites: M.A. Music major.

Equivalent Quarter Course: MUS 6105.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 612 - Seminar in Music of the Baroque Period

Units: 3

Musical styles, forms and performance practice from 1600 to 1750 with detailed analyses of representative works and close reading of historical writings.

Prerequisites: Admitted to M.A. Music program.

Equivalent Quarter Course: MUS 6115.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 613 - Seminar in Music of the Classical Period

Units: 3

Musical styles, forms and performance practice from 1750 to the early 19th century with detailed analyses of representative works and close reading of historical writings.

Prerequisites: M.A. Music major.

Equivalent Quarter Course: MUS 6125.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 614 - Seminar in Music of the Nineteenth Century

Units: 3

Musical styles, forms and performance practice from 1900 to early 20th century with detailed analyses of representative works and close reading of historical writings.

Prerequisites: M.A. Music major.

Equivalent Quarter Course: MUS 6135.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 615 - Seminar in Music of the Twentieth & Twenty-First Centuries

Units: 3

Musical styles, forms and performance practice from late 19th century to the present with detailed analyses of representative works and close reading of historical writings.

Prerequisites: M.A. Music major.

Equivalent Quarter Course: MUS 6180.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 622 - Seminar in Asian Music and Culture

Units: 3

Music and culture of selected parts of Asia and the Asian diaspora. Issues of identity, politics, modernization, and globalization will be studied from an ethnomusicological perspective.

Prerequisites: M.A. Music major.

Equivalent Quarter Course: MUS 6155.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Music: History and Literature

MUS 121 - Music Through the Ages

Units: 3 ; G.E./G.R. Area: C1

Introduction to the history of Western art music. Emphasis on listening, reading, and beginning score study to develop awareness of style and structure. Influence of various styles and genres of music from other cultures may be included.

Equivalent Quarter Course: MUS 1155.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

MUS 321 - Western Music History I

Units: 4

Investigating the stylistic development of music of western civilization; focus on the social, cultural, and historical contexts of the music of each style period. (I.) Music from the Medieval to Baroque periods.

Prerequisites: MUS 212.

Equivalent Quarter Course: MUS 3155.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 322 - Western Music History II

Units: 4

Investigating the stylistic development of music of western civilization; focus on the social, cultural, and historical contexts of the music of each style period. (II.) Music from the Classical to contemporary periods.

Prerequisites: MUS 321.

Equivalent Quarter Course: MUS 3156.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 323 - Western Music History Topics

Units: 3

Investigating the stylistic development of music of western civilization; focus on the social, cultural, and historical contexts of the music of different style periods.

Prerequisites: MUS 322.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 421 - Orchestral Literature

Units: 3

An historical survey of orchestral literature with a focus on important composers and their respective contributions to the genre. Includes the study of significant orchestral compositions. Field trips may be required.

Prerequisites: MUS 212.

Equivalent Quarter Course: MUS 3297 and 3298 and 3299.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 423 - Wind Ensemble Literature

Units: 3

An historical survey of compositions for wind ensemble with a focus on important composers and their respective contributions to the genre. Includes the study of a variety of wind ensemble configurations and

composers. Field trips may be required.

Prerequisites: MUS 212.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Music: Major Performing Ensembles

MUS 351A - Singing Society

Units: 1

Major performance ensemble in the tradition of band and wind ensemble. Music activities are open to qualified students by audition. Music majors are required to enroll in one major performance group each semester of study. Field trips may be required.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 3515.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 351B - East Bay Singers

Units: 1

Major performance ensemble in the tradition of a collegiate choir. Audition required.

Equivalent Quarter Course: MUS 3504.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 353 - East Bay Wind Symphony

Units: 1

Major performance ensemble in the tradition of band and wind ensemble. Music activities are open to qualified students by audition. Music majors are required to enroll in one major performance group each semester of study. Field trips may be required.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 3511.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 354 - East Bay Orchestra

Units: 1

Large music ensemble in the tradition of the Symphonic Orchestra. Field trips may be required. Students must successfully audition with the ensemble director in order to enroll.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 3502. Both courses constitute the same ensemble, an orchestra.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 355 - East Bay Jazz Orchestra

Units: 1

Major performance ensemble in the tradition of jazz big band. Field trip(s) may be required. Audition required.

Prerequisites: Department consent.

Equivalent Quarter Course: MUS 3510.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Music: Performance Activities

MUS 118A - Basic Keyboard I

Units: 1

Group instruction in piano for music majors.

Co-requisites: MUS 111 and MUS 115.

Equivalent Quarter Course: MUS 1315.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 118B - Basic Keyboard II

Units: 1

Group instruction in piano for music majors.

Prerequisites: MUS 118A, MUS 111, MUS 115.

Co-requisites: MUS 112 and MUS 116.

Equivalent Quarter Course: MUS 1316.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 218A - Intermediate Keyboard I

Units: 1

Intermediate keyboard skills for music majors.

Prerequisites: All of: MUS 112, MUS 116, MUS 118B.

Equivalent Quarter Course: MUS 2312.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 218B - Intermediate Keyboard II

Units: 1

Intermediate keyboard skills for music majors.

Prerequisites: MUS 218A.

Equivalent Quarter Course: MUS 2313.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 380 - Recital Class - Junior

Units: 1

Preparation for and performance of a junior level musical recital.

Prerequisites: Minimum of one course from the MUS 261-269 series.

Co-requisites: Minimum of one course from the MUS 361-370 series.

Equivalent Quarter Course: MUS 3609.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Music: Theory

MUS 111 - Music Theory I

Units: 3 ; G.E./G.R. Area: C1

Intensive fundamentals of music, triads and seventh chords, figuration, SATB scoring, and harmonization. Each student will take an assessment exam at the beginning of the semester to determine the level of preparedness in fundamentals.

Strongly Recommended Preparation: MUS 115 and MUS 118A.

Prerequisites: MUS 108 or department consent.

Equivalent Quarter Course: MUS 1031 and MUS 1032.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).
G.E./G.R. Area Satisfied: C1 - Lower Division Arts

MUS 112 - Music Theory II

Units: 3

Diatonic harmonization, advanced figuration, chorale harmonization, seventh chords, and sequences.

Strongly Recommended Preparation: MUS 116 and MUS 118B.

Prerequisites: MUS 111.

Equivalent Quarter Course: MUS 1033.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 115 - Aural Skills I

Units: 1

Development of music reading skills applicable to all instrumental and vocal performance media. Dictation, analysis and singing of melodies and melodic exercises; study and performance of basic rhythmic materials.

Co-requisites: MUS 111 and MUS 118A.

Equivalent Quarter Course: MUS 1028.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 116 - Aural Skills II

Units: 1

Development of music reading skills applicable to all instrumental and vocal performance media. Dictation, analysis and singing of melodies and melodic exercises; study and performance of basic rhythmic materials.

Prerequisites: MUS 115.

Co-requisites: MUS 112 and MUS 118B.

Equivalent Quarter Course: MUS 1029

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 211 - Music Theory III

Units: 3

Sequences, secondary dominants, tonicization and modulation, phrase and motivic analysis, chromaticism, advanced tonal procedures.

Prerequisites: All of: MUS 112, MUS 116, MUS 118B.

Co-requisites: MUS 215.

Equivalent Quarter Course: MUS 2032.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 212 - Music Theory IV

Units: 3

Twentieth Century music up to the present; extension of tonality; non-tonal music. Analysis and compositional exercises.

Prerequisites: MUS 211 and MUS 215.

Co-requisites: MUS 216.

Equivalent Quarter Course: MUS 2033.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 215 - Aural Skills III

Units: 1

Development of music reading skills applicable to all instrumental and vocal performance media. Melodic, rhythmic and harmonic dictation, analysis and singing of melodies and melodic exercises; study and performance of basic rhythmic materials.

Prerequisites: MUS 112 and MUS 116.

Co-requisites: MUS 211.

Equivalent Quarter Course: MUS 2028.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 216 - Aural Skills IV

Units: 1

Development of music reading skills applicable to all instrumental and vocal performance media. Melodic, rhythmic and harmonic dictation, analysis and singing of melodies and melodic exercises; study and performance of basic rhythmic materials.

Prerequisites: MUS 215.

Co-requisites: MUS 212.

Equivalent Quarter Course: MUS 2029.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 311 - Analysis of Contemporary Music

Units: 3

Exploration of various music systems implemented by composers from 1940 forward. Analysis of the implementation of procedural music systems across genres.

Prerequisites: MUS 212.

Equivalent Quarter Course: MUS 3034.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 312 - Form and Analysis

Units: 3

The study and analysis of music written in traditional forms.

Prerequisites: MUS 212.

Equivalent Quarter Course: MUS 3051.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 316 - Jazz Theory and Composition

Units: 3

Study of jazz harmonic theory and composition for small jazz ensembles. Topics include the analysis of standard jazz repertoire and compositions by jazz composers, jazz applications of tonal harmony, reharmonization techniques and chord substitution, and idiomatic song forms.

Prerequisites: MUS 112.

Equivalent Quarter Course: MUS 3040.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 317A - Improvisation Techniques I

Units: 3

Introduction to improvisation techniques for jazz instrumentalists. Use of modes (major & melodic minor), symmetrical scales, and arpeggios in improvisation. Emphasis on the development of an idiomatic jazz style through the transcription and analysis of recorded solos by jazz masters.

Prerequisites: MUS 112.

Equivalent Quarter Course: MUS 3037.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 317B - Improvisation Techniques II

Units: 3

Advanced techniques in jazz improvisation. Topics include harmonic superimposition, playing "out", and poly-rhythms and cross-rhythms. Emphasis on the development of an idiomatic jazz style through the transcription and analysis of recorded solos by jazz masters.

Prerequisites: MUS 317A.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 411 - 16th Century Counterpoint

Units: 3

The writing of counterpoint modeled on the style of Palestrina. Additional work modeled on other 16th century composers may be introduced at the discretion of the instructor.

Strongly Recommended Preparation: MUS 211.

Equivalent Quarter Course: MUS 3061.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 412 - 18th Century Counterpoint

Units: 3

The writing of counterpoint modeled on the style of J. S. Bach. Additional work modeled on other 17th and 18th century composers may be introduced at the discretion of the instructor.

Prerequisites: MUS 211.

Equivalent Quarter Course: MUS 3062.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 413 - Instrumentation

Units: 3

Study of the instruments of the orchestra and band; scoring for small ensembles; survey of scoring for orchestra, band, and chorus.

Prerequisites: MUS 212.

Equivalent Quarter Course: MUS 4054.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

MUS 414 - Orchestration I

Units: 3

Scoring and arranging for smaller combinations of Western classical music forces such as string quartet, wind quintet, and other combinations of acoustic instruments in small ensembles. Overview of the development of the orchestra from the Baroque to Classical periods.

Prerequisites: MUS 212 and MUS 413.

Equivalent Quarter Course: MUS 4074.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 415 - Orchestration II

Units: 3

Continuation of MUS 414. Scoring for larger combinations of Western classical music forces such as string orchestra, wind ensemble, and orchestra. Overview of the development of the orchestra from the romantic period to the present.

Prerequisites: MUS 212 and MUS 414.

Equivalent Quarter Course: MUS 4075.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

MUS 416 - Jazz Arranging for Large Ensemble

Units: 3

Focus on arranging and orchestration techniques for large jazz ensemble. Study of ensemble scores from the jazz masters and the use of doublings, mutes, voicings, upper-structure triads, and linear harmonization to arrange and compose for big band.

Prerequisites: MUS 212 and MUS 316.

Equivalent Quarter Course: MUS 4077.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Nursing

NURS 301 - Nutrition and Medical Nutrition Therapy

Units: 3

Introduction to the sources and functions of nutrients, health disorders caused by lack or excess of nutrients, and nutritional needs across the lifecycle. Concepts of medical nutrition therapy and the basics of nutritional assessment will be introduced.

Equivalent Quarter Course: NURS 2010.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be*

taught both online and on-ground).

Grading: A-F grading only.

NURS 302 - Success in Nursing

Units: 1

This seminar explores learning strategies for the applied science of nursing by means of written and oral communication activities relevant to nursing courses.

Prerequisites: B.S. Nursing major.

Equivalent Quarter Course: NURS 2002.

Repeatability: May be repeated once for credit for a maximum of 2 units

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 306 - Clinical Pathophysiology for the Associate Degree Nurse

Units: 4

Focus on mechanisms of disease, pathophysiological concepts and processes with emphasis on commonly occurring acute and chronic conditions and their clinical management and nursing implications.

Prerequisites: Concurrent enrollment in ADN program or completion of ADN degree.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 310 - Foundations of Professional Nursing

Units: 2

This course is designed to introduce the student to the profession, practice, and discipline of nursing. Introduction to contemporary issues in nursing including theories, concepts, and principles used in the development and delivery of nursing care.

Prerequisites: B.S. Nursing major.

Co-requisites: NURS 311.

Equivalent Quarter Course: NURS 2020.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

NURS 311 - Nursing Interventions I

Units: 1

Introduction to the student to the basic interventions necessary to provide safe nursing care.

Prerequisites: B.S. Nursing major.

Co-requisites: NURS 310.

Equivalent Quarter Course: NURS 2022.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 312 - Health Assessment

Units: 2

Introduction to theories needed for application of the nursing process with emphasis on skills useful in data gathering and analysis for completing a health assessment. Normal and abnormal physical, social, and cultural structure and function are explored.

Prerequisites: B.S. Nursing major.

Co-requisites: NURS 313.

Equivalent Quarter Course: NURS 2030.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

NURS 313 - Health Assessment Lab

Units: 1

This laboratory course is designed to introduce students to health and physical assessment skills needed to provide safe and effective nursing care in all healthcare settings across the life span.

Prerequisites: B.S. Nursing major.

Co-requisites: NURS 312.

Equivalent Quarter Course: NURS 2032.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 314 - Mental Health and Psychiatric Nursing

Units: 2

Mental health is an integral part of an individual's well-being. This course focuses on mental health and psychiatric concepts, the relationship between mental and physical health, and the nursing diagnoses and interventions to address mental health needs of clients.

Prerequisites: B.S. Nursing major.

Co-requisites: NURS 315.

Equivalent Quarter Course: NURS 3406.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

NURS 315 - Mental Health and Psychiatric Nursing Practice

Units: 2

This clinical practicum provides students with experience assessing the mental health of clients, developing patient centered nursing plans of care, implementing interventions, and evaluating client outcomes. Emphasis is on the development of therapeutic relationships.

Prerequisites: B.S. Nursing major.

Co-requisites: NURS 314.

Equivalent Quarter Course: NURS 3407.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 316 - Clinical Pathophysiology

Units: 3

This course focuses on mechanisms of disease, pathophysiologic concepts and processes with emphasis on commonly occurring acute and chronic conditions and their clinical management.

Prerequisites: B.S. Nursing major, or BIOL 270 and BIOL 271 and department consent.

Equivalent Quarter Course: NURS 2005.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 317 - Community Engagement I

Units: 1

This seminar course is focused on the delivery of culturally inclusive community-based healthcare, selected issues in primary care and health promotion. The course includes both in-class sessions and field experience in a community health facility or elder health site.

Prerequisites: B.S. Nursing major.

Co-requisites: All of: NURS 310, NURS 311, NURS 314, NURS 315.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 320 - Nursing Care of Adults I

Units: 2

Focus on nursing care delivery for adult individuals, their families, and communities who are experiencing acute and chronic illnesses.

Prerequisites: All of: NURS 310, NURS 311, NURS 312, NURS 313, NURS 314, NURS 315, NURS 316, NURS 317.

Co-requisites: All of: NURS 321, NURS 322, NURS 323.

Equivalent Quarter Course: NURS 2040.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

NURS 321 - Nursing Interventions II

Units: 1

Introduction to complex interventions necessary to provide safe nursing care.

Prerequisites: All of: NURS 310, NURS 311, NURS 312, NURS 313, NURS 314, NURS 315, NURS 316, NURS 317.

Co-requisites: NURS 320 and NURS 323.

Equivalent Quarter Course: NURS 3001 and NURS 3002 and NURS 3003.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 322 - Aging in Health and Illness

Units: 2

Explore theories of aging, health problems common in the aging individual, and knowledge and skill acquisition needed to care for these patients.

Prerequisites: All of: NURS 310, NURS 311, NURS 312, NURS 313, NURS 314, NURS 315, NURS 316, NURS 317.

Co-requisites: NURS 320, NURS 321 and NURS 323.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 323 - Nursing Care of Adults I Practice

Units: 4

This clinical practicum course provides students with nursing practice experience in a variety of settings, including simulation.

Prerequisites: All of: NURS 310, NURS 311, NURS 312, NURS 313, NURS 314, NURS 315, NURS 316, NURS 317.

Co-requisites: NURS 320, NURS 321 and NURS 322.

Equivalent Quarter Course: NURS 2031 and NURS 2041.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 326 - Pharmacology for Nursing Practice

Units: 2

Basic principles of pharmacotherapeutics and characteristics of major drug groups with an emphasis on

treatment indications and nursing implications.

Prerequisites: B.S. Nursing major.

Co-requisites: All of: NURS 310, NURS 311, NURS 312, NURS 313, NURS 314, NURS 315, NURS 316, NURS 317.

Equivalent Quarter Course: NURS 2015.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 327 - Community Engagement II

Units: 1

Seminar focused on delivering culturally inclusive, community-based health care and on disparities in chronic care and health care outcomes. Includes both in-class sessions and field experiences in community health facilities and facilities serving older adults.

Prerequisites: B.S. Nursing major and NURS 317.

Co-requisites: NURS 320, NURS 322 and NURS 323.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 360 - Transition to Professional Nurse Role

Units: 4

This course builds upon previous nursing education and provides an exploration of contemporary healthcare issues for registered nurses transitioning to the professional nurse role.

Prerequisites: B.S. Nursing: Post-Licensure Concentration major.

Equivalent Quarter Course: NURS 3509.

Possible Instructional Methods: *Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 361 - Health Promotion for Diverse Populations

Units: 3

Framework for exploration of health promotion principles and provides holistic approaches to prevention and maintenance of health and wellness for diverse populations.

Prerequisites: NURS 360.

Equivalent Quarter Course: NURS 3509.

Possible Instructional Methods: *Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 363 - Health Assessment for Registered Nurses

Units: 1

This course is designed for Registered Nurses to build on previous experience and to enhance clinical assessment skills.

Prerequisites: B.S. Nursing: Post-Licensure Concentration major.

Co-requisites: NURS 360.

Equivalent Quarter Course: NURS 3503.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

NURS 410 - Maternity Nursing

Units: 2

This course examines concepts related to the care of antepartal, intrapartal, postpartal and neonatal patients and families. The focus is developing knowledge, skills, and attitudes for evidence-based maternity nursing.

Prerequisites: B.S. Nursing major and all of: HDEV 380, NURS 320, NURS 321, NURS 322, NURS 323, NURS 326, NURS 327.

Co-requisites: NURS 411.

Equivalent Quarter Course: NURS 3404.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 411 - Maternal Newborn Nursing Practice

Units: 2

This course applies concepts related to the care of antepartal, intrapartal, postpartal and neonatal patients and families. The focus is application of knowledge, skills, and attitudes for evidence-based maternity nursing practice.

Prerequisites: B.S. Nursing major and all of: HDEV 380, NURS 320, NURS 321, NURS 322, NURS 323, NURS 326, NURS 327.

Co-requisites: NURS 410.

Equivalent Quarter Course: NURS 3405.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 412 - Pediatric Nursing

Units: 2

This course is designed to provide essential knowledge in the design and delivery of care and integration

of the growth and development principles, health promotion, disease prevention, and recuperative care to the child with acute and chronic illnesses and their families.

Prerequisites: B.S. Nursing major and all of: HDEV 380, NURS 320, NURS 321, NURS 322, NURS 323, NURS 326, NURS 327.

Co-requisites: NURS 413.

Equivalent Quarter Course: NURS 3408.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 413 - Pediatric Nursing Practice

Units: 2

This course is designed to provide the student with clinical experience in nursing care and management of the pediatric patient and their families with complex medical and surgical health care needs, including simulation.

Prerequisites: B.S. Nursing major and all of: HDEV 380, NURS 320, NURS 321, NURS 322, NURS 323, NURS 326, NURS 327.

Co-requisites: NURS 412.

Equivalent Quarter Course: NURS 3409.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 414 - Legal Issues in Nursing Practice

Units: 1

Legal issues in nursing and health care, including the Registered Nurse as client advocate. An overview of the American governmental system, California Nursing Practice Act, and relevant areas of civil and criminal law will be included.

Prerequisites: B.S. Nursing major and all of: NURS 320, NURS 321, NURS 322, NURS 326, NURS 327.

Equivalent Quarter Course: NURS 3401.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 415 - Transitions of Care

Units: 1

Key concepts of the transitions of care framework and related content on health care history, financing, care settings, nursing case management and coordination of care.

Prerequisites: B.S. Nursing major and all of: NURS 320, NURS 321, NURS 322, NURS 326, NURS 327.

Equivalent Quarter Course: NURS 3502.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 417 - Community Engagement III

Units: 1

Seminar focused on delivering culturally inclusive, community based healthcare and on disparities in health outcomes for families and children. Includes both in-class sessions and field experiences in schools or community health facilities serving women, children and families.

Prerequisites: B.S. Nursing major and NURS 327.

Co-requisites: All of: NURS 410, NURS 411, NURS 412, NURS 413.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 420 - Nursing Care of Adults II

Units: 2

Nursing care of adult patients, and their families, who are experiencing complex acute and chronic illness requiring medical and surgical interventions.

Prerequisites: B.S. Nursing major and all of: NURS 410, NURS 411, NURS 412, NURS 413, NURS 417.

Co-requisites: NURS 421.

Equivalent Quarter Course: NURS 3402 and NURS 3410.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 421 - Nursing Care of Adults II Practice

Units: 4

This clinical practicum course provides students with experience in providing nursing care to adult patients, and their families, with complex illnesses in acute care settings, including simulation experience.

Prerequisites: B.S. Nursing major and all of: NURS 410, NURS 411, NURS 412, NURS 413, NURS 417.

Co-requisites: NURS 420.

Equivalent Quarter Course: NURS 3403 and NURS 3411.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 422 - Evidence-Based Practice and Nursing Research

Units: 2

This course focuses on appraisal and integration of research evidence, evaluation of outcomes, development of evidence-based practice, and critique of quantitative and qualitative healthcare research with an emphasis on research utilization.

Prerequisites: B.S. Nursing major and all of: NURS 410, NURS 411, NURS 412, NURS 413, NURS 417.

Equivalent Quarter Course: NURS 4203.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 423 - Leadership in Nursing

Units: 2

Leadership and management theories and their application to healthcare issues and nursing practice.

Prerequisites: B.S. Nursing major and all of: NURS 410, NURS 411, NURS 412, NURS 413, NURS 414, NURS 415.

Equivalent Quarter Course: NURS 3202.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 427 - Community Engagement IV

Units: 1

Delivery of culturally inclusive, community-based healthcare and selected issues of disparities in health outcomes for adults with chronic or complex illness. Includes both in-class sessions and field experiences in settings serving adults with complex healthcare needs.

Prerequisites: B.S. Nursing major and NURS 417.

Co-requisites: NURS 420, NURS 421.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 450 - Community Health Nursing

Units: 2 ; G.E./G.R. Area: Social Justice

This course explores population-focused approaches to community health promotion, disease prevention and integration of complex concepts in community health systems and policies.

Prerequisites: B.S. Nursing major and all of: NURS 420, NURS 421, NURS 422, NURS 423, NURS 427.

Co-requisites: NURS 451.

Equivalent Quarter Course: NURS 4207.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be*

taught both online and on-ground).

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Social Justice*

NURS 451 - Community Health Nursing Practice

Units: 2

This course applies concepts related to health promotion and disease prevention at the individual, family, community and systems levels. The focus is to promote health equity by addressing social determinants of health through the application of the nursing process.

Prerequisites: B.S. Nursing major and all of: NURS 420, NURS 421, NURS 422, NURS 423, NURS 427.

Co-requisites: NURS 450.

Equivalent Quarter Course: NURS 4208.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 452 - Preceptorship Synthesis

Units: 1

This discussion course is designed to assist the student in critical thinking, decision making, team building, and correlating theory and practice with an emphasis on assuming the role of the professional nurse.

Prerequisites: B.S. Nursing major and all of: NURS 420, NURS 421, NURS 422, NURS 423, NURS 427.

Co-requisites: NURS 453.

Equivalent Quarter Course: NURS 4301.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

NURS 453 - Preceptorship Practicum

Units: 4

This capstone practicum is a precepted experience in a clinical setting. Emphasis is placed on guided independence in professional nursing practice with integration, synthesis and application of research and leadership.

Prerequisites: B.S. Nursing major and all of: NURS 420, NURS 421, NURS 422, NURS 423, NURS 427.

Co-requisites: NURS 452.

Equivalent Quarter Course: NURS 4302.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

NURS 490 - Independent Study

Units: 1-4

Students may apply no more than 12 units of independent study in the major department and 8 units in other departments toward a baccalaureate degree.

Prerequisites: Department consent and minimum 2.0 GPA.

Equivalent Quarter Course: NURS 4900.

Repeatability: May be repeated for credit with consent of instructor, for a maximum of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

NURS 492 - Global Health Nursing

Units: 1

Overview of global health in nursing. Students will have the opportunity to read, interpret and evaluate concepts in global health to increase their knowledge, skills, and attitudes regarding global health.

Prerequisites: B.S. Nursing major.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 493 - Nursing Research in Global Health

Units: 1

Overview of global health nursing research. Students will read, interpret and evaluate global health research publications. Emphasis on women and infant health issues and critical analysis of research.

Prerequisites: B.S. Nursing major.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 494 - Essentials of Critical Care Nursing

Units: 2

Medical and nursing management of adult patients with multiple, complex medical and surgical diagnoses in various types of critical care units.

Prerequisites: B.S. Nursing major, and either NURS 360 or both NURS 420 and NURS 421.

Equivalent Quarter Course: NURS 4206.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

NURS 495 - Palliative Care in the Community

Units: 2

Concepts of palliative and hospice care. Students participate in collaboration and practice with a service partner to provide quality interpersonal care to end-of-life patients and their families in the community.

Prerequisites: B.S. Nursing major or B.S. Health Science major and minimum 3.0 GPA.

Repeatability: May be repeated for maximum of 4 units.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: CR/NC grading only.

NURS 496 - Introduction to Healthcare Informatics

Units: 1

Survey of healthcare informatics issues and the technologies used in nursing practice, research, and administration.

Prerequisites: B.S. Nursing major or B.S. Health Science major.

Possible Instructional Methods: *Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

NURS 497 - Current Issues in Professional Nursing

Units: 1

Discussion of a variety of current issues in nursing using Quality and Safety Education in Nursing as a framework. May include: violence in the workplace, opportunities in research and service, current research projects, healthcare needs of vulnerable populations.

Prerequisites: B.S. Nursing major.

Equivalent Quarter Course: NURS 3200.

Repeatability: May be repeated once for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: CR/NC grading only.

NURS 499 - RN Capstone Project

Units: 4

Development, implementation, and evaluation of a project in the healthcare setting or community. Student projects may focus on education, leadership, management and/or evidence-based practice.

Prerequisites: B.S. Nursing: Post-Licensure Concentration major and NURS 360.

Co-requisites: NURS 450.

Equivalent Quarter Course: NURS 4305.

Possible Instructional Methods: *Entirely On-line, Hybrid (every section of this course may be taught both online*

and on-ground).

Grading: A-F grading only.

Nursing: Graduate

NURS 601 - Theoretical Perspectives of Advanced Nursing Practice

Units: 3

An exploration of theories significant to advanced nursing practice and healthcare including those addressing complex systems, bioethics, leadership, behavioral modification, health disparities, and quality improvement. Knowledge synthesis and translation to practice are discussed.

Prerequisites: Admission to M.S. Nursing program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 602 - Scientific Inquiry, Methods and Scholarship

Units: 3

Principles of scientific inquiry and professional writing based on critical appraisal of evidence from quantitative and qualitative biomedical research. Research design, methodology, and the process of synthesizing and implementing nursing and biomedical research findings to address clinical problems are discussed.

Prerequisites: Admission to M.S. Nursing program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 603 - Health Care Informatics

Units: 3

Provides knowledge and skills for navigating healthcare information technology to enhance patient care delivery. Health informatics used for communication, care coordination, interprofessional collaboration, health information management and data analysis for improved healthcare outcomes are discussed.

Prerequisites: Admission to M.S. Nursing program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 604 - Epidemiology of Population Health and Social Disparities

Units: 3

Applies concepts of epidemiology, social determinants of health, cultural inclusivity and the analysis of population data to design equitable health care services for diverse populations. Strategies to promote health, prevent illness, and reduce health disparities are explored.

Prerequisites: M.S.N. major.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 605 - Contemporary Issues in Healthcare Economic and Social Policy

Units: 3

Healthcare issues, policy, politics, and healthcare economics are analyzed in the context of national health priorities. Impact of policies on accessibility, affordability and quality of care are discussed. Strategies for nurse leaders to engage in health policy are evaluated.

Prerequisites: M.S.N. major.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 611 - Learner-Centered Theory and Methods in Nursing Education

Units: 2

Learner-centered education encompasses methods of teaching that shift the focus of instruction from the teacher to the student. This course will explore theories of learning and strategies for learner-centered teaching as they apply to nursing education.

Prerequisites: M.S.N. major.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 612 - Advanced Pathophysiology, Pharmacology & Health Assessment

Units: 4

Emphasis on pathophysiologic processes underlying selected acute and chronic diseases across the life span. Pharmacotherapy and the nurse educator's role in teaching safe and effective medication management. Comprehensive physical, psychological, and cultural assessments for common diseases in clients and families.

Prerequisites: M.S.N. major.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be*

taught both online and on-ground).

Grading: A-F grading only.

NURS 613 - Curriculum Design and Outcomes in Nursing

Units: 3

The components of curriculum design, development, implementation and evaluation in nursing education. Application of curriculum theory is included. Analysis of program data for continuous improvement is discussed.

Prerequisites: NURS 611.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 614 - Instructional Strategies and Educational Technology in Nursing

Units: 3

Introduction of teaching/learning principles, instructional methods, and educational technology that facilitate teaching, assessment, and evaluation of nursing students in the 21st century classroom setting. Application of innovative strategies in healthcare education.

Prerequisites: NURS 611.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 615 - Instructional Practicum: Teaching and Clinical Specialty Practices

Units: 3

A teaching and practical experience to support the development of the nurse educator in a clinical specialty area. Under the supervision of an accomplished preceptor/mentor, students practice the role of nurse educator to actively engage nursing students, healthcare professionals and clients.

Prerequisites: All of: NURS 601, NURS 602, NURS 603, NURS 604, NURS 605, NURS 612, NURS 613, NURS 614.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 621 - Principles and Practices of Quality Patient Care

Units: 3

Examination of the principles and practices of quality improvement in health care settings. Applications of system assessment, data management and analysis, and evaluation methods to design safe, effective,

and efficient healthcare delivery systems are discussed.

Prerequisites: M.S.N. major.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 622 - Leadership Influence and Change

Units: 3

Concepts and theories of leadership in nursing in the context of changing healthcare systems. Skills and strategies for effective leadership including complex system thinking, organizational culture, ethics, interprofessional communication, change models, conflict resolution, characteristics of leaders and team-building are presented.

Prerequisites: M.S.N. major.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 623 - Organizational Systems and Finance Management in Health Care

Units: 3

Examines organizational health care delivery systems and organizational development from a nursing management perspective. Issues of healthcare economics, financial management, budgeting, current regulatory agency requirements and standards are discussed.

Prerequisites: M.S.N. major.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 624 - Human Resources Management for Health Care

Units: 3

Examines human resource management in the current healthcare system with a focus on the role of the nurse manager/executive. Application of organizational and administrative theories to human resources models will be discussed.

Prerequisites: M.S.N. major.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 625 - Leadership Practicum: Nurse Administrative Role in Organization Setting

Units: 3

Directs the student in the application of leadership and administrative principles and development of leadership skills through a mentored practical experience in a healthcare organizational setting.

Prerequisites: All of: NURS 601, NURS 602, NURS 603, NURS 604, NURS 605, NURS 621, NURS 622, NURS 623, NURS 624.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

NURS 693 - Master's Synthesis Project

Units: 3

The master's in nursing synthesis project reflects students' expertise and capabilities as a nurse leader in education or administration. The student will integrate theory and research knowledge to address a selected organizational issue, clinical problem, or educational strategy.

Prerequisites: All of: NURS 601, NURS 602, NURS 603, NURS 604, NURS 605, and either NURS 612, NURS 613, NURS 614 or NURS 621, NURS 622, NURS 623, NURS 624.

Co-requisites: NURS 625, or NURS 615.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

Philosophy

PHIL 100 - Workshop in Critical Thinking

Units: 3 ; G.E./G.R. Area: A3

Development of clarity and focus in thinking, with attention to rigor, modes of explanation, validity of reasoning, etc. Must earn C- or better for GE credit.

Equivalent Quarter Course: PHIL 1000.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *A3 - Lower Division Critical Thinking*

PHIL 110 - Freshman Topics in Philosophy and the Arts

Units: 3 ; G.E./G.R. Area: C1

As part of the Freshman Learning Communities, this course will introduce students to basic concepts in philosophy as applied to the arts through the lens of a particular theme, and in relationship with other disciplines.

Credit Restrictions: Not open to students with credit for PHIL 120 or PHIL 130.

Equivalent Quarter Course: Any one from: PHIL 1005, PHIL 1102, PHIL 1103, PHIL 1104, PHIL 1201, PHIL 1302, PHIL 1303, PHIL 1401.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

PHIL 120 - Freshman Topics in Philosophy

Units: 3 ; G.E./G.R. Area: C2

As part of the Freshman Learning Communities, this course will introduce students to basic concepts in philosophy through the lens of a particular theme, and in relationship with other disciplines.

Credit Restrictions: Not open to students with credit for PHIL 110 or PHIL 130.

Equivalent Quarter Course: Any one from: PHIL 1005, PHIL 1102, PHIL 1103, PHIL 1104, PHIL 1201, PHIL 1302, PHIL 1303, PHIL 1401.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

PHIL 130 - Freshman Topics in Philosophy, Religion, and Social Science

Units: 3 ; G.E./G.R. Area: D1-3

Introduction to basic concepts in philosophy through the lens of a particular theme, and in relationship with other disciplines, specifically in the context of how such concepts reflect relationships between the individual and society.

Credit Restrictions: Not open to students with credit for PHIL 110 or PHIL 120.

Equivalent Quarter Course: Any one from: PHIL 1005, PHIL 1102, PHIL 1103, PHIL 1104, PHIL 1201, PHIL 1302, PHIL 1303, PHIL 1401.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

PHIL 201 - Introduction to Philosophy

Units: 3 ; G.E./G.R. Area: C2

Major themes, thinkers and methods in philosophy. Topics include the history of philosophy, the nature of philosophical questioning, God, reality, truth and the self.

Equivalent Quarter Course: PHIL 2001.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

PHIL 211 - Introduction to Ethics

Units: 3 ; G.E./G.R. Area: C2

Introduction to philosophical ethics. Topics include major ethical theories, virtue, vice, evil, character, moral education and relativism. Impact of cultural diversity on ethical discourse.

Prerequisites: Completion of GE areas A1, A2 and A3.

Equivalent Quarter Course: PHIL 2002.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

PHIL 241 - Introduction to Judaism, Christianity, and Islam

Units: 3 ; G.E./G.R. Area: C2

Covers the three Abrahamic faiths: Judaism, Christianity, and Islam. Students will learn about each tradition's historical development and the specific beliefs of each, in addition to the relationships between these faiths and the sources of conflict.

Credit Restrictions: Not open to students with credit in PHIL 341.

Equivalent Quarter Course: PHIL 2003.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

PHIL 242 - Introduction to Asian Religion

Units: 3 ; G.E./G.R. Area: C2

Introduction to Buddhism in India, Southeast Asia, East Asia, and Japan within the context of related religions including Hinduism, Shinto and the religions of China.

Credit Restrictions: Not open for credit to students with credit for PHIL 342.

Equivalent Quarter Course: PHIL 2605.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

PHIL 300 - Reasoning and Writing for Philosophy Majors

Units: 3

Declared Philosophy Majors and Minors only.

Prerequisites: B.A. Philosophy major.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHIL 301 - Modern Logic

Units: 3 ; G.E./G.R. Area: C4

Advanced course in symbolic logic. Modern logic is more powerful than traditional Aristotelean logic, symbolization covering a greater range of inferences. Modern logic includes results such as Godel's incompleteness theorem, no system of logic can prove all mathematical truths.

Strongly Recommended Preparation: PHIL 100

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3002.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 310 - Ethics

Units: 3 ; G.E./G.R. Area: C4; Social Justice

Major ethical or moral theories and their relation to different social systems, institutions and cultures of the world.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3100.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities, Overlay - Social Justice*

PHIL 311 - Environmental Ethics

Units: 3 ; G.E./G.R. Area: C4; Sustainability

Philosophical conceptions of nature and the environment, and human responsibilities towards it, drawn from different historical and cultural traditions.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3151.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities, Overlay - Sustainability*

PHIL 312 - Bioethics

Units: 3 ; G.E./G.R. Area: C4; Social Justice

Ethical issues in biology and medicine, such as euthanasia, abortion, truth-telling, genetic engineering, cloning, distribution of medical resources.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3152.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C4 - Upper Division Arts or Humanities, Overlay - Social Justice

PHIL 313 - Philosophy of Business and Professional Ethics

Units: 3 ; G.E./G.R. Area: C4

Explores value systems and ethical issues related to business, professional, and commercial activity. Topics may include organizational culture, ethical leadership, diversity, environmental regulation vs. property rights, truthfulness in business communications, and corporate social responsibility.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3560.

Possible Instructional Methods: Entirely On-ground.

Grading: A-F grading only.

G.E./G.R. Area Satisfied: C4 - Upper Division Arts or Humanities

PHIL 320 - Philosophy of Art

Units: 3 ; G.E./G.R. Area: C4; Diversity

Exploring issues in the philosophy of art, such as the nature of artworks, how we learn about or from them, the moral implications of art, art as a voice for underrepresented groups, and cultural appropriation.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3201.

Possible Instructional Methods: Entirely On-ground.

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C4 - Upper Division Arts or Humanities, Overlay - Diversity

PHIL 321 - Philosophy and Science Fiction

Units: 3 ; G.E./G.R. Area: C4; Social Justice

Philosophical discussion about topics contained explicitly or implicitly in science fiction writing and film.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3216.

Possible Instructional Methods: Entirely On-ground.

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C4 - Upper Division Arts or Humanities, Overlay - Social Justice

PHIL 324 - Philosophy and Sex

Units: 3 ; G.E./G.R. Area: C4; Diversity

Philosophical examination of conceptual and ethical issues raised by sexuality and sexual love. Emphasis will include the LGBT community, women, and other historically oppressed groups. Topics include love and sexuality, promiscuity, prostitution, adultery, polyamory, sexual harassment, pornography, and same-

sex marriage.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3161.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities, Overlay - Diversity*

PHIL 330 - Epistemology: Knowing and Not Knowing

Units: 3 ; G.E./G.R. Area: C4

An exploration of such issues as evidence, knowledge, skepticism, relativism, truth, and the nature of understanding.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3301.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 331 - Metaphysics: Being and Not Being

Units: 3 ; G.E./G.R. Area: C4

An exploration of the nature of matter, mind, space, time, causality, truth, and the real.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3311.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 332 - Philosophy of Social Science

Units: 3 ; G.E./G.R. Area: C4

Philosophical study of theories, methods and problems in the social and behavioral sciences.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3321.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 333 - Philosophy of Language

Units: 3 ; G.E./G.R. Area: C4

An exploration of fundamental issues concerning language and discourse, such as truth, communication,

meaning, representation, understanding, metaphor, and irony.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3322.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 335 - Philosophy of Science

Units: 3 ; G.E./G.R. Area: C4

The nature of scientific explanation, scientific methods, and conceptual revolutions in science. How to distinguish between science, non-science, and pseudoscience. Discussion of whether the scientific method is a superior and more objective means of determining truth.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3332.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 336 - Philosophy of Cognition and Artificial Intelligence

Units: 3 ; G.E./G.R. Area: C4

Philosophical study of the nature of cognition and of human and machine intelligence.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3341.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 337 - Science and Religion

Units: 3 ; G.E./G.R. Area: C4

Nature of science and of religion. Apparent conflict between science, religion, and magical thinking. Distinction between facts and values. Discussion of issues such as whether creationism and intelligent design are viable alternatives to the theory of evolution.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3344.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 338 - Atheism, Agnosticism, and Theism

Units: 3 ; G.E./G.R. Area: C4

Philosophical examination of atheism, agnosticism, belief in God, and the reasons, if any, for these three positions. Topics may also include morality, humanism, nihilism, science and religion, the meaning of life, and the nature of spirituality.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3421.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 340 - Philosophy of Religion

Units: 3 ; G.E./G.R. Area: C4

Discusses philosophical issues such as the existence of God, the problem of evil, the paradox of free will, the nature of religious experience and mysticism.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3400.

Repeatability: May be repeated once for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 341 - Abrahamic Religions

Units: 3 ; G.E./G.R. Area: C4

Study of Judaism, Christianity, Islam and others; their beliefs and practices; Abrahamic identity through the history and evolution of the traditions; including readings from the Hebrew Bible, the Christian Bible, the Koran, and other core Abrahamic texts.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3411 and PHIL 3417.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 342 - Religions of Asia

Units: 3 ; G.E./G.R. Area: C4

Survey of South and East Asian religious thought and practice as expressed in the traditions of Confucianism, Daoism, Hinduism, Buddhism, Shintoism and others.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Credit Restrictions: Not open to students with credit in PHIL 242.

Equivalent Quarter Course: PHIL 3403.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 343 - Contemporary Religious Thinkers

Units: 3 ; G.E./G.R. Area: C4

Religious philosophies of one or more major thinkers of the Twentieth Century from different cultures or religious traditions of the world.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3401.

Repeatability: May be repeated once for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 344 - Mysticism

Units: 3 ; G.E./G.R. Area: C4

Survey of mystical and religious experiences and mystical texts and traditions in world religions including Judaism, Christianity, Islam, Hinduism, Buddhism, and Taoism.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3404.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 345 - Comparative Religion

Units: 3 ; G.E./G.R. Area: C4

Critical and comparative study of themes from Western, Indigenous, Global South (e.g., Africana, Southern and Latin American), and South and East Asian philosophies and religions.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3410.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 346 - Cults and New Religious Movements

Units: 3 ; G.E./G.R. Area: C4; Diversity

Introduction to many new religions including Scientology, Wicca, and the Peoples' Temple. Students will learn the origins of such groups and how they grow and perpetuate their beliefs.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3431.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities, Overlay - Diversity*

PHIL 347 - Religion, Monsters, and Horror

Units: 3 ; G.E./G.R. Area: C4

Examination of monsters as they appear in the world's religions. Discussion of the nature of evil, the fear of death, and the experience of the uncanny. References include religious scriptures, folklore, and popular culture.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3432.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 348 - Views of the Afterlife

Units: 3 ; G.E./G.R. Area: C4

Overview of the beliefs in life after death found in the world's religions. Examination of the experiences of those who feel they have had a brush with the dead or with death itself.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3433.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 349 - Africana Philosophy and Religions

Units: 3 ; G.E./G.R. Area: C4

This course considers the intersection of philosophy and religion in African and African Diaspora traditions.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C4 - Upper Division Arts or Humanities

PHIL 351 - Social and Political Philosophy

Units: 3 ; G.E./G.R. Area: C4; Social Justice

Study of the philosophical theories underlying or justifying policy issues: individual freedom and government protection of rights; freedom of speech and religious, racial or sexual prejudice; affirmative action and reverse discrimination; violence, personal responsibility and roots of social injustice.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3502.

Possible Instructional Methods: Entirely On-ground.

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C4 - Upper Division Arts or Humanities, Overlay - Social Justice

PHIL 353 - Human Rights in the U.S.

Units: 3 ; G.E./G.R. Area: C4; Diversity

Philosophical perspectives on human rights principles as they apply to the lived experiences of the diverse cultural groups and women in the United States.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3510.

Possible Instructional Methods: Entirely On-ground.

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C4 - Upper Division Arts or Humanities, Overlay - Diversity

PHIL 354 - Global Human Rights and Social Justice

Units: 3 ; G.E./G.R. Area: C4; Social Justice

Explores human rights theory and its global application from a philosophical perspective. Considers whether the following concepts can be applied globally: The nature of rights, individualism, liberalism, the social contract, multiculturalism, materialism, and the nature of power.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3511.

Possible Instructional Methods: Entirely On-ground.

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C4 - Upper Division Arts or Humanities, Overlay - Social Justice

PHIL 355 - Race and Justice

Units: 3 ; G.E./G.R. Area: C4; Diversity

A philosophical examination of race, racism, racial identity/formation, and racial justice incorporating the

narratives and essays of members of diverse U.S. cultural groups.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3515.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities, Overlay - Diversity*

PHIL 361 - Ancient and Medieval Philosophy

Units: 3 ; G.E./G.R. Area: C4

Western philosophy from the ancient Greeks (including Socrates, Plato and Aristotle) through the philosophers and theologians of the Middle Ages (including St. Augustine and St. Thomas Aquinas).

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3601.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 362 - Modern Philosophy

Units: 3 ; G.E./G.R. Area: C4

Seventeenth and eighteenth century Western philosophy, especially rationalism (Descartes, Spinoza, Leibniz) and empiricism (Locke, Berkeley, Hume).

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3602.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 365 - Existentialism

Units: 3 ; G.E./G.R. Area: C4

An inquiry into the meaning of human existence with particular emphasis on the self. By examining themes like anxiety, alienation, freedom, God, being, and absurdity, students come to understand where the meaning of human existence is located.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3605.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 371 - Philosophy of Education

Units: 3 ; G.E./G.R. Area: C4

Philosophical examination of educational theories and of their applications in various cultural and social contexts.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3701.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 373 - African-American Philosophical Perspectives

Units: 3 ; G.E./G.R. Area: C4; Diversity

Philosophical examination of the social, cultural and political issues of African Americans primarily from the perspective of African-American philosophers. Topics may be historical and contemporary, and may include, (for example) black alienation, nihilism, and black feminist thought.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3721.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities, Overlay - Diversity*

PHIL 375 - Feminist Philosophy

Units: 3 ; G.E./G.R. Area: C4; Social Justice

Major themes, theories, and different schools of feminist philosophy; the influences of Marxism, psychoanalysis, existential phenomenology, postmodernism, and theories of difference, with special reference to American feminist thought.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3720.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities, Overlay - Social Justice*

PHIL 377 - Philosophy of Law

Units: 3 ; G.E./G.R. Area: C4; Social Justice

Introduction to the main schools of jurisprudence and legal philosophy with an emphasis on their application to issues of social justice.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL/POSC 3503.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities, Overlay - Social Justice*

Cross-listed: POSC 377

PHIL 378 - Evil

Units: 3 ; G.E./G.R. Area: C4

Survey of traditional and contemporary philosophical debates on the nature, origin, and existence of evil. Topics may include cruelty, genocide, torture, war, slavery.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3543.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 381 - Shamanism

Units: 3 ; G.E./G.R. Area: C4

Survey of diverse indigenous shamanic traditions in parallel to a critical inquiry into neo-shamanic traditions.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

PHIL 490 - Independent Study

Units: 3

Independent study under direction of faculty.

Prerequisites: Department consent and minimum 2.0 GPA.

Equivalent Quarter Course: PHIL 4900.

Repeatability: May be repeated for credit for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

PHIL 497 - Issues in Philosophy or Religion

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in philosophy and/or religion.

Equivalent Quarter Course: PHIL 3999.

Repeatability: May be repeated once for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHIL 499 - Senior Seminar

Units: 3

Building on the skills instilled in the touchstone course and throughout their work in the major, students will round out their academic and theoretical writing skills. Primary focus will be on completing a portfolio of approximately three polished philosophical essays.

Prerequisites: Senior standing and PHIL 300.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Physics

PHYS 104 - Musical Acoustics

Units: 4 ; G.E./G.R. Area: B1, B3

Basic introduction to the physics of sound waves. Focuses on developing a scientific framework to understand how different musical instruments produce a variety of sounds, how waves transmit the sound, and ultimately how qualities of sound are perceived. *Lecture Units: 3; Lab Units: 1*

Equivalent Quarter Course: PHYS 1200.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B1 - Lower Division Physical Science, B3 - Lower Division Laboratory Activity*

PHYS 105 - How Things Work

Units: 3 ; G.E./G.R. Area: B1

A descriptive exploration of phenomena you observe every day. The underlying universal physical principles that govern how things behave are revealed by examining a variety of examples such as roller coasters, microwaves, cell phones, and radios.

Equivalent Quarter Course: PHYS 1500.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B1 - Lower Division Physical Science*

PHYS 106 - Physics for Future Leaders

Units: 3 ; G.E./G.R. Area: B1; Sustainability

Essential physics needed to be a president, business leader, coach, or any other profession. Covers knowledge required to make informed decisions regarding current issues with technical aspects. Topics of study include energy, radioactivity, spy satellites, and medical imaging.

Equivalent Quarter Course: PHYS 1410.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B1 - Lower Division Physical Science, Overlay - Sustainability*

PHYS 107 - Science of Energy

Units: 3 ; G.E./G.R. Area: B1; Sustainability

A descriptive course covering energy resources, production, and consumption in the 21st century. Energy input and output of physical systems such as household appliances and modes of transportation.

Equivalent Quarter Course: PHYS 2005.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B1 - Lower Division Physical Science, Overlay - Sustainability*

PHYS 108 - Astronomy of Ancient Cultures

Units: 3 ; G.E./G.R. Area: B1; Diversity

Exploration of astronomical techniques, tools, and theories of ancient cultures from around the world (e.g., Aztec, Mayan, Hopi, Chinese, Egyptian, Indian, Greek). Projects and discussions investigate ancient astronomy, cosmology, and timekeeping practices with extensive connections to modern astrophysics.

Equivalent Quarter Course: PHYS 1810.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B1 - Lower Division Physical Science, Overlay - Diversity*

PHYS 115 - Elementary Physics

Units: 3 ; G.E./G.R. Area: B1, B3

A guided-inquiry-based conceptual investigation of the physical world and the nature of science. Students develop ideas in topical areas including energy, forces, heat, electricity and magnetism, and light. *Lecture*

Units: 2; Lab Units: 1

Equivalent Quarter Course: PHYS 1700 and PHYS 1780.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B1 - Lower Division Physical Science, B3 - Lower Division Laboratory Activity*

PHYS 125 - Principles of Physics I

Units: 4 ; G.E./G.R. Area: B1, B3

An algebra-based introduction to the way one can describe the physical world, including motion, the causes of motion as well as other fundamental principles of nature. Major topics covered include kinematics, Newton's laws, conservation laws, thermodynamics, fluids and oscillations. *Lecture Units: 3; Lab Units: 1*

Prerequisites: Satisfactory score of 78 or higher on Math Proficiency Assessment or MATH 120.

Co-requisites: MATH 120.

Equivalent Quarter Course: The two semester sequence PHYS 125 and PHYS 126 is equivalent to the three quarter sequence PHYS 2701 and PHYS 2702 and 2703.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B1 - Lower Division Physical Science, B3 - Lower Division Laboratory Activity*

PHYS 125A - Principles of Physics I - Discussion

Units: 1

Focuses on developing problem solving strategies and provides in-depth review of topics from the lecture. Optional supplemental discussion section taken concurrently with PHYS 125.

Prerequisites: MATH 120.

Co-requisites: PHYS 125.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 126 - Principles of Physics II

Units: 4 ; G.E./G.R. Area: B1, B3

The second semester of the year-long, algebra based, introductory Physics sequence. A major focus is the study of Electricity and Magnetism and the nature of light. Other topics include standing waves, optics, electrical circuits and Modern Physics. *Lecture Units: 3; Lab Units: 1*

Prerequisites: PHYS 125.

Equivalent Quarter Course: The two semester sequence PHYS 125 and PHYS 126 is equivalent to the three quarter sequence PHYS 2701 and PHYS 2702 and 2703.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B1 - Lower Division Physical Science, B3 - Lower Division Laboratory Activity*

PHYS 126A - Principles of Physics II - Discussion

Units: 1

Supplemental discussion section taken concurrently with PHYS 126 focused on problem solving

strategies and in-depth review of topics from the lecture.

Prerequisites: PHYS 125.

Co-requisites: PHYS 126.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 135 - Physics for Scientists and Engineers I

Units: 4 ; G.E./G.R. Area: B1, B3

A calculus-based introduction to Newtonian mechanics that emphasizes both conceptual understanding and the ability to solve quantitative problems. Topics of study include kinematics, Newton's laws, conservation of momentum and energy, rotational motion, gravitation, oscillations, and fluids. *Lecture Units: 3; Lab Units: 1*

Co-requisites: MATH 130.

Equivalent Quarter Course: PHYS 1001. Also, the three semester sequence PHYS 135 and PHYS 136 and PHYS 137 is equivalent to the four quarter sequence PHYS 1001 and PHYS 1002 and PHYS 1003 and PHYS 2004.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B1 - Lower Division Physical Science, B3 - Lower Division Laboratory Activity*

PHYS 136 - Physics for Scientists and Engineers II

Units: 4

A calculus-based introduction to electricity and magnetism that emphasizes both conceptual understanding and the ability to solve quantitative problems. Topics of study include the electric force, field, and potential, electric circuits, magnetic force, magnetic field, electromagnetic induction, Maxwell's equations, and electromagnetic waves. *Lecture Units: 3; Lab Units: 1*

Prerequisites: MATH 130 and PHYS 135.

Equivalent Quarter Course: The three semester sequence PHYS 135 and PHYS 136 and PHYS 137 is equivalent to the four quarter sequence PHYS 1001 and PHYS 1002 and PHYS 1003 and PHYS 2004.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 137 - Physics for Scientists and Engineers III

Units: 4

A calculus-based introduction to modern physics, thermodynamics, and waves that emphasizes both conceptual understanding and the ability to solve quantitative problems. Topics of study include thermodynamics, entropy, heat engines, waves, diffraction and interference, optics, special relativity, quantum mechanics, and atomic/nuclear physics. *Lecture Units: 3; Lab Units: 1*

Prerequisites: MATH 130 and PHYS 136.

Equivalent Quarter Course: The three semester sequence PHYS 135 and PHYS 136 and PHYS 137 is equivalent to the four quarter sequence PHYS 1001 and PHYS 1002 and PHYS 1003 and PHYS 2004.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 138 - Descriptive Astronomy

Units: 3 ; G.E./G.R. Area: B1

A descriptive survey of astronomy, astrophysics and cosmology. Introduction to methods of obtaining facts and formulating principals. Overview of physical nature and evolution of solar system, stars and galaxies.

Equivalent Quarter Course: PHYS 1800.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B1 - Lower Division Physical Science*

PHYS 139 - Astronomy Laboratory

Units: 1 ; G.E./G.R. Area: B3

Laboratory exploration of the visible universe, includes; motion of the moon, planets and stars, the use of light and spectroscopy to understand astronomical objects and telescope operation. Night observations are included. Intended to accompany PHYS 138 or PHYS 339.

Co-requisites: PHYS 138 or PHYS 339.

Equivalent Quarter Course: PHYS 1880.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B3 - Lower Division Laboratory Activity*

PHYS 230 - Physical Reasoning

Units: 3 ; G.E./G.R. Area: Writing II

Focus on the elements of sound physical reasoning as expressed through clear scientific writing. Students will write detailed solutions to challenging problems, summaries of research articles, and reviews of important topics of physics.

Prerequisites: MATH 230, and PHYS 137 or PHYS 126.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *Writing II*

PHYS 301 - Physics Connections

Units: 3 ; G.E./G.R. Area: B6

Connections between Physics and other natural sciences and engineering with real-world applications and examples. Focus is on preparing to teach under the K12 Next Generation Science Standards with the goal of teaching science with confidence.

Prerequisites: Completion of GE Areas A1, A2, A3 and B4 ; and either PHYS 115, PHYS 125, or PHYS 135.

Equivalent Quarter Course: PHYS 3011.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B6 - Upper Division Science Inquiry and Quantitative Reasoning*

PHYS 302 - Physics Connections Laboratory

Units: 1

Laboratory experience demonstrating connections between Physics and other natural sciences and engineering. The course focuses on K12 Next Generation Science Standards with the goal of teaching science with confidence.

Prerequisites: PHYS 301 and either PHYS 115, PHYS 125, or PHYS 135.

Equivalent Quarter Course: PHYS 3012.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 303 - Biophysics

Units: 3 ; G.E./G.R. Area: B6

A descriptive exploration of the intersection between biology, medicine, and physics. Topics of study include, for example, ultrasound, X-rays, magnetic resonance imaging (MRI), and the important discoveries enabled by these techniques.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHYS 3750.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B6 - Upper Division Science Inquiry and Quantitative Reasoning*

PHYS 304 - Acoustics

Units: 3 ; G.E./G.R. Area: B6

Basic introduction to the physical properties of sound. Focus on the scientific and mathematical framework describing acoustical concepts necessary to understand the creation and measurement of sound waves, with particular application to the human voice, speech articulation, and hearing mechanisms.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B6 - Upper Division Science Inquiry and Quantitative Reasoning*

PHYS 305 - Environmental Health Science Electromagnetic and Nuclear Radiation

Units: 3

Focus on the fundamental elements of electromagnetic radiation and nuclear radiation and their connections to environmental health science.

Prerequisites: PHYS 137 or both PHYS 126 and completion of GE area B4.

Credit Restrictions: Not for Physics majors.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 307 - Social Impact Through Sustainable Solar Design

Units: 3 ; G.E./G.R. Area: B6; Sustainability

Topics include: hands-on instruction of solar energy and design, energy poverty, and social justice impacts of solar energy. Construct stand-alone solar energy system designed for delivery of energy to the energy poor. Opportunities to teach solar science in local schools. *Discussion Units: 2; Lab Units: 1*

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B6 - Upper Division Science Inquiry and Quantitative Reasoning, Overlay - Sustainability*

Cross-listed: ENVT 307.

PHYS 308 - Sustainable Energy Systems

Units: 3 ; G.E./G.R. Area: B6; Sustainability

Project-based course; Science of climate change and its relation to energy systems; student projects have high impact on their campus carbon emissions. Readings, discussion, and research on contemporary and/or significant issues in physics relating to climate science and energy systems. *Lecture Units: 2; Lab Units: 1*

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B6- Upper Division Science Inquiry and Quantitative Reasoning, Overlay - Sustainability*

PHYS 330 - Analytic Mechanics

Units: 3

Newton's laws and conservation laws are applied to solve a variety of problems. Calculus of variations and Lagrange's equations are developed and applied. Other topics include central force inertial reference frames, rotational motion of rigid bodies, and coupled oscillators.

Prerequisites: MATH 230, and PHYS 137 or PHYS 126.

Equivalent Quarter Course: PHYS 3101 and PHYS 3102.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 337 - Extrasolar Planets

Units: 3 ; G.E./G.R. Area: B6

Introduction to extrasolar planet detections and characterization. Topics of study include extrasolar planet detection methods, planet geologic and atmospheric characterization, and a summary of biosignatures of Earth and other planetary systems.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHYS 3710.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B6 - Upper Division Science Inquiry and Quantitative Reasoning*

PHYS 338 - The Cosmos

Units: 3 ; G.E./G.R. Area: B6

A grand view of astronomy covering the origin and evolution of the Universe. Topics of study include cosmological models, relativity, particle physics, the Big Bang, the origin and evolution of stars and galaxies, and the search for extra-terrestrial life.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHYS 3700.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B6 - Upper Division Science Inquiry and Quantitative Reasoning*

PHYS 339 - Stars and Galaxies

Units: 3 ; G.E./G.R. Area: B6

Structure and evolution of stars and galaxies. Topics include processes of star formation, stellar evolution, and stellar death as well as galactic formation, evolution, and distribution within the Universe.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHYS 3720.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: B6 - Upper Division Science Inquiry and Quantitative Reasoning

PHYS 340 - Statistical Mechanics and Thermodynamics

Units: 3

Connection between macroscopic properties of light and matter and microscopic characteristics of their constituent particles is explored. Topics of study include microstates/macrostates, energy, temperature, heat, entropy, the canonical ensemble and partition function, quantum degenerate gases, chemical equilibrium, and phase transitions.

Prerequisites: MATH 230, and PHYS 137 or PHYS 126.

Equivalent Quarter Course: PHYS 3151 and PHYS 3152.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 350 - Quantum Mechanics I

Units: 3

Relationship between quantum measurements and the postulates of quantum mechanics is explored. Mathematical techniques are developed (Hilbert spaces, Dirac notation, operators, eigenvalues/eigenvectors). Schrodinger's equation and the Heisenberg uncertainty relation are applied to problems involving one-dimensional potentials and angular momentum.

Prerequisites: MATH 230, and PHYS 126 or PHYS 137.

Equivalent Quarter Course: The two semester sequence PHYS 350 and PHYS 351 is equivalent to the three quarter sequence PHYS 3301 and PHYS 3302 and PHYS 3303.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 351 - Quantum Mechanics II

Units: 3

Topics of study include the general theory of angular momentum and addition of angular momentum, entanglement, three-dimensional potentials, the hydrogen atom, and approximation methods in quantum mechanics with an emphasis on time-independent and time-dependent perturbation theory.

Prerequisites: PHYS 350.

Equivalent Quarter Course: The two semester sequence PHYS 350 and PHYS 351 is equivalent to the three quarter sequence PHYS 3301 and PHYS 3302 and PHYS 3303.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 360 - Selected Topics

Units: 1

Various subjects and projects providing an extension of the Physics curriculum.

Equivalent Quarter Course: PHYS 4250.

Repeatability: May be repeated for credit for a maximum of 6 units when content varies.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 380 - Advanced Laboratory I: Electronics

Units: 3

An intensive laboratory course in basic design, analysis, and modeling of circuits, experimental techniques and control, data acquisition and analysis. Topics of study include: linear circuits, diodes, transistors, Op-Amps, Labview/Python programming, ADC and DAC converters, signal processing, and feedback control. *Discussion Units: 1; Lab Units: 2*

Strongly Recommended Preparation: PHYS 230.

Prerequisites: MATH 230, and PHYS 137 or PHYS 126.

Equivalent Quarter Course: PHYS 3280.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 381 - Advanced Laboratory II: Experimental Methods

Units: 3

A writing-intensive laboratory course focused on experimental techniques and the scientific method. This project-based course places particular emphasis on effective scientific writing using supporting evidence and reasoning, appropriate quantitative/statistical analysis, presentation of data, and convincing argumentation. *Discussion Units: 1; Lab Units: 2*

Strongly Recommended Preparation: PHYS 230.

Prerequisites: PHYS 380.

Equivalent Quarter Course: PHYS 3281.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 3 units may be applied to the Physics major; no more than 1 unit may be applied to the Physics minor.

Equivalent Quarter Course: PHYS 3898

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

PHYS 450 - Electromagnetism I

Units: 3

Focus on electrostatics and magnetostatics, with an emphasis on the properties and sources of vector fields both in vacuum and in the presence of matter.

Prerequisites: MATH 230, and PHYS 126 or PHYS 137.

Equivalent Quarter Course: The two semester sequence PHYS 450 and PHYS 451 is equivalent to the three quarter sequence PHYS 4001 and PHYS 4002 and PHYS 4003.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 451 - Electromagnetism II

Units: 3

Time-varying aspects associated with electromagnetism. In particular this course covers electrodynamics, Faraday's Law, Maxwell's equations, propagation of electromagnetic plane wave radiation, and radiation from accelerated charges.

Prerequisites: PHYS 450.

Equivalent Quarter Course: The two semester sequence PHYS 450 and PHYS 451 is equivalent to the three quarter sequence PHYS 4001 and PHYS 4002 and PHYS 4003.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 460 - Astrophysics

Units: 3

The study of the physical processes that govern the behavior of astronomical objects, the study of their origin, evolution, and composition, and fate of the Universe as a whole. Topics will include main-sequence stars, collapsed stars, supernovae, galaxies, and cosmology.

Prerequisites: PHYS 330

Equivalent Quarter Course: PHYS 3800.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 461 - Atomic Physics

Units: 3

The quantum mechanical description of atomic structure and the interaction of atoms with external fields is explored. Topics of study include laser spectroscopy, resonant probing and manipulation of atoms, atom trapping and cooling, atomic collisions, molecular structure, and experimental methods.

Prerequisites: MATH 210, and PHYS 126 or PHYS 137.

Equivalent Quarter Course: PHYS 4700.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 462 - Solid State Physics

Units: 3

Introduction to the classical and quantum-based theories and models describing the physics of solids. This course includes; crystal and electronic structure, lattice dynamics, phonons, band theory, optical properties of solids, semiconductor physics and superconductivity.

Prerequisites: MATH 210, and PHYS 126 or PHYS 137.

Equivalent Quarter Course: PHYS 4600.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 463 - Particle Physics

Units: 3

The study of nature at the highest energies and shortest distances that we can probe in a laboratory. This course will give a general introduction to the elementary particles of the standard model, and the forces that govern them.

Prerequisites: MATH 210, and PHYS 126 or PHYS 137.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 480 - Advanced Laboratory III: Modeling, Design, and Analysis

Units: 3

An intensive laboratory course focused on the modeling, design, construction, and analysis of experiments.

Strongly Recommended Preparation: PHYS 230.

Prerequisites: PHYS 381.

Equivalent Quarter Course: PHYS 3283.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 481 - Advanced Laboratory IV: Projects

Units: 3

An intensive laboratory course focused on student-designed, open-ended experimental investigations.

Discussion Units: 1; Lab Units: 2

Strongly Recommended Preparation: PHYS 230.

Prerequisites: PHYS 480.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: PHYS 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PHYS 495 - Physics Practicum

Units: 1

Upper-division students will develop teaching skills by working as peer mentors in or associated with various introductory Physics classes.

Prerequisites: PHYS 126 or PHYS 137.

Repeatability: Repeatable for a maximum of 3 units

Possible Instructional Methods: *Entirely On-ground*

Grading: A-F or CR/NC (student choice)

PHYS 497 - Issues in Physics

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in physics.

Equivalent Quarter Course: PHYS 3999.

Repeatability: May be repeated once for credit when content varies.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Political Science

POSC 100 - Introduction to Political Science

Units: 3

Introduction to the study of politics and government, surveying the concepts and approaches of political science.

Equivalent Quarter Course: POSC 1000.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 101 - American Political Institutions

Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-2

Development of political institutions and ideals in the U.S. Key elements of political system, including Constitution, Presidency, Congress, Courts, parties, elections, and bureaucracy.

Equivalent Quarter Course: POSC 1201.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences, American Institutions/Code US-1 and US-2*

POSC 117 - Environmental Politics

Units: 3

The history and present status of the ideologies, interests, movements and understandings that form modern environmental policy and politics.

Equivalent Quarter Course: POSC 1171.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 150 - Conflict in World Politics

Units: 3 ; G.E./G.R. Area: D1-3

Causes of conflict. Topics include Iraq and Desert Storm, Bosnia, the Middle East, and Third World conflicts. Analysis of foreign aggression, civil war, terrorism, ethnic struggle, nationalism, boundary disputes, military force, sanctions, peacekeeping, mediation, disaster relief, and economic aid.

Equivalent Quarter Course: POSC 1500.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

POSC 300 - The Study of Political Science

Units: 3

History and assumptions of political science as a field; basic skills and methodology; ethics in politics, administration and law; careers; personal learning goals; portfolios; Library tour.

Equivalent Quarter Course: POSC 3030.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 490 - Independent Study

Units: 1-3

Individual investigation of a specific issue, area, or topic in political science planned in consultation with a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Equivalent Quarter Course: POSC 4900.

Repeatability: May be repeated for credit with consent of instructor, for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 495 - Political Internship

Units: 1-3

Practical experience on a legislative or executive staff or in a campaign organization.

Prerequisites: Department consent.

Equivalent Quarter Course: POSC 3113.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 497 - Issues in Political Science

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in political science.

Equivalent Quarter Course: POSC 3999.

Repeatability: May be repeated for credit, when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 498 - Internship

Units: 1-3

Formal work opportunities integrating the academic program with their career aspirations. Integral hands-on experience enhancing education and preparing for professional and personal success.

Prerequisites: Department consent and minimum 2.0 GPA.

Equivalent Quarter Course: POSC 3898.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 499 - Capstone

Units: 3

Contributions of natural and social science theories, methods, results for political science; scope and method of political science; individual research on selected topics.

Prerequisites: Senior standing and POSC 300.

Equivalent Quarter Course: POSC 4910.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Political Science: American Government and Politics

POSC 102 - Public Policy/California Politics

Units: 3 ; G.E./G.R. Area: D1-3; US-1, US-3

Issues in American public policy, focusing on contemporary controversies (environment, poverty, etc.) California state and local government.

Equivalent Quarter Course: POSC 1202.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 Lower Division Social Sciences, American Institutions/Code US-1 and US-3*

POSC 311 - The American Presidency

Units: 3

Study of the American Presidency both historically and analytically with an emphasis on roles and powers; the struggle between the President and Congress; the leadership role of the President in

government, political parties, and public opinion.

Equivalent Quarter Course: POSC 3111.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 312 - United States Congress

Units: 3

Development of the modern Congress, including 20th century reforms; Congressional power; leadership and partisanship; inter-branch relations; Congressional elections and campaign finance reform, incumbency and redistricting; the committee system.

Equivalent Quarter Course: POSC 3115.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 314 - State and Local Politics and Government

Units: 3

Structures, processes, policies, political culture and power distributions of governments of states, cities, suburbs, small towns, metropolitan areas and neighborhoods. Special reference to California and San Francisco Bay Area institutions and problems. Satisfies California state and local government code requirement.

Equivalent Quarter Course: POSC 3120.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 315 - Urban Politics

Units: 3

Styles and structures of city government; community power studies; community control and metropolitan government; problems of crime, welfare, finance, education, pollution, planning; emphasis on the Bay Area.

Equivalent Quarter Course: POSC 3130.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 316 - Politics of California

Units: 3

Political culture, electoral systems, and public policy in California. Field trip to the California Legislature. Satisfies code requirement in California state and local government.

Equivalent Quarter Course: POSC 3150.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 330 - Voting and Public Opinion

Units: 3

Nature and causes of voter turnout and vote choice. Determinants and effects of public opinion. Methodology used for measurement and analysis of these subjects.

Prerequisites: STAT 100.

Equivalent Quarter Course: POSC 3300.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 331 - Political Parties and Campaigning

Units: 3

Party organizations in U.S. and California, historical changes in party operations, political machines and patronage, money in politics, party labels, differences and similarities between major parties, minor parties, new style of campaigns, professional campaign management firms, the prospects for reform.

Equivalent Quarter Course: POSC 3310.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 332 - Citizen Action

Units: 3

How can citizens help solve the most important problems of our society? Power, competition and compromise in democracy and reform; case studies. The flow from policy knowledge and values to advocacy and action.

Equivalent Quarter Course: POSC 3370.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 333 - Practical Politics

Units: 3

Professional skills in winning elections and influencing policy. Reading and practice in framing issues, political strategy, campaign management, advertising, polling, speech writing, media relations, Internet use, fund-raising, litigation, lobbying, building and sustaining support.

Equivalent Quarter Course: POSC 3375.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 334 - Interest Groups, Lobbying, and Political Reform

Units: 3

Private power and American public policy; the nature and sources, strategy and tactics of pressure group power in the American political process. Business, labor, agriculture, the professions, minority groups, and religion as organized groups influencing political decision making.

Equivalent Quarter Course: POSC 3330.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 335 - Women and Politics

Units: 3

Public policy relating to American women; impact of the women's movement on public policy and political behavior; women as voters, political activists, political office-holders; the function of sex roles in the political system.

Equivalent Quarter Course: POSC 3340.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 336 - Ethnic and Minority Politics

Units: 3

Contemporary and historic analysis of ethnic and minority participation in the political process. Voting, elections, interest groups, political machines, office holders, activists, strategies, and common participatory patterns.

Credit Restrictions: Not open to those who completed ES 3333 in the quarter system.

Equivalent Quarter Course: POSC 3333.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 337 - African American Politics

Units: 3

The role of African Americans in state and national politics; political history of African Americans in American politics, public policy issues concerning African Americans, successes and failures of African American empowerment strategies, and electoral impact of African American votes.

Equivalent Quarter Course: POSC 3335.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 338 - Asian American Politics

Units: 3

The role of Asian Americans in state and national politics; political history of Asian Americans in American politics, public policy issues concerning Asian Americans, successes and failures of Asian American empowerment strategies, and electoral impact of Asian American votes.

Equivalent Quarter Course: POSC 3336.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Political Science: Comparative Government and Politics

POSC 321 - Political Systems of Western Europe

Units: 3 ; G.E./G.R. Area: D4

The governments and politics of Great Britain, France, Germany, and other Western European nations. Development and expansion of the European Union.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: POSC 3201.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

POSC 322 - Government and Politics of Eastern and Central Europe

Units: 3 ; G.E./G.R. Area: D4

The politics of the formerly communist states of Eastern and Central Europe. Countries covered include Russia, Ukraine, Poland, Romania, the Balkans and others. New democratic institutions and economic development. Links with Western Europe.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: POSC 3222.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: D4 - Upper Division Social Sciences

POSC 323 - Political Systems of Asia

Units: 3 ; G.E./G.R. Area: D4

An analysis of politics in selected Asian countries. The degree of emphasis on particular countries and areas such as China, India, Japan and Southeast Asia varies.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: POSC 3204.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: D4 - Upper Division Social Sciences

POSC 324 - Government and Politics in the Middle East

Units: 3

Contemporary politics in the Middle East. Comparative approach, analyzing the political, social, religious and economic aspects of the area.

Equivalent Quarter Course: POSC 3230.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 326 - Government and Politics of Africa South of the Sahara

Units: 3 ; G.E./G.R. Area: D4

The governments of the nations of Africa south of the Sahara, with special reference to comparative colonial policies, nationalist movements, political parties, and the problems of nation building; comparative economic systems and the role of the military.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: POSC 3260.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: D4 - Upper Division Social Sciences

POSC 327 - Political Systems of Latin America

Units: 3 ; G.E./G.R. Area: D4

Political development, instability, and revolution in a comparative framework. Case studies of political development in major countries; group conflicts, ideology, administrative problems, and the role of

violence.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: POSC 3280.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

POSC 347 - Comparative Law

Units: 3

Essential features of law and their impact upon society using a comparative method. Incorporation of comparative legal theory of various legal systems, and how legal institutions express diverse civilizations.

Equivalent Quarter Course: POSC 3290.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

Political Science: International Relations

POSC 350 - World Problems and Global Response

Units: 3 ; G.E./G.R. Area: D4

Arms control, human rights, development, debt, women's rights, world population, environmental protection, and technology transfers. Analysis of key actors (United Nations, specialized agencies, national governments, non-governmental organizations) and policy alternatives. Student opportunity to work with local organizations.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: POSC 3500.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

POSC 351 - International Relations

Units: 3 ; G.E./G.R. Area: D4

The conduct of relations among states. The international system, national power, sovereignty, nationalism, ideology; use of diplomacy, propaganda, economic influence, military force; problems of neocolonialism, multinational corporations, racial tensions, nuclear deterrence, war, the role of the United Nations.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: POSC 3520.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

POSC 352 - International Security in the 21st Century

Units: 3 ; G.E./G.R. Area: D4

Comprehensive approach to studying traditional and non-traditional security concerns in the world. Issues include great power politics, nuclear proliferation, terrorism, failed states, environmental security, and transnational crime. Simulation of crisis situation.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: POSC 3510.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

POSC 353 - Politics of the Global Economy

Units: 3

International trade and development assistance. Focus on GATT, the World Trade Organization, the G7 nations, and the International Monetary Fund. Problems of transnational corporations, labor standards, and migration. Global liberalism compared with collectivist economies. Ecological, participatory, regional and nationalist challenges.

Equivalent Quarter Course: POSC 3521.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 354 - American Foreign Policy

Units: 3 ; G.E./G.R. Area: D4

National security, economic and development assistance policies since World War II. Current policy choices and the constitutional conflict between Congress and the President. Role of the State Department, the military, the CIA, and non-governmental organizations (labor, business, and veterans).

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: POSC 3505.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

POSC 355 - The United Nations and World Community

Units: 3 ; G.E./G.R. Area: D4

Historical, institutional and theoretical background of the contemporary United Nations and related agencies; focus on participation of selected countries in the UN with regard to current international problems and issues; participation in Model UNFW conference.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: POSC 3550.

Repeatability: May be repeated once for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

Political Science: Political Theory

POSC 371 - Greek, Roman and Medieval Political Thought

Units: 3

Major Western political ideas from the Greeks through the 15th century. Emphasis upon major political theorists in the development of classical Greek and Roman, Medieval Christian, and Renaissance political theory.

Equivalent Quarter Course: POSC 3711.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 373 - Contemporary Political Thought

Units: 3

Major Western political ideas in the 19th and 20th centuries. Emphasis upon central figures in the development of Democratic, Marxist, Socialist, and various other contemporary bodies of political theory.

Equivalent Quarter Course: POSC 3713.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 374 - Marxism in Theory and Practice

Units: 3

The writings of Marx and the characteristics of Marxism in the 20th century.

Equivalent Quarter Course: POSC 3704.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 375 - Theories of Empire

Units: 3

Major theories and debates about imperialism, its history, its modern manifestations, and its status and future in the post-Cold War era.

Equivalent Quarter Course: POSC 3717.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Political Science: Public Law

POSC 340 - Law and Society

Units: 3 ; G.E./G.R. Area: C4

Rise of the American legal system and evolution of values in the law. Courts in the political system and the policy impact of modern legal initiatives.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: POSC 3410.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

POSC 341 - American Constitutional Law: Government

Units: 3

The American Constitution as a model of government. The role of democracy, federalism, assumptions regarding human nature, citizenship, separation of powers, capitalism, and issues of empire building.

Equivalent Quarter Course: POSC 3441.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 342 - American Constitutional Law: Rights

Units: 3

The Bill of Rights as interpreted by Court decisions since its adoption. Topics include freedom of speech, religion, equal protection, and personal privacy. Emphasis on the relationship among rights, politics, judicial behavior and public policy.

Equivalent Quarter Course: POSC 3442.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 343 - Survey of American Law

Units: 3

The basic elements of the American legal system, its essential values, and its impact on society. Personal injury, contracts, criminal law, regulation, and international law. Emphasis on case law as the basis for exploring the legal system.

Equivalent Quarter Course: POSC 3417.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 344 - Environmental Law

Units: 3

Legislative, judicial, and administrative controls over public and private actions impacting on the environment. Examination of statutory, administrative, and judicial decisions relating to the environment and of government actors and agencies making these decisions.

Equivalent Quarter Course: POSC 3460.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 345 - International Law

Units: 3 ; G.E./G.R. Area: D4

The rules that govern governments and world bodies. Includes treaties, law of the sea, environmental protection, use of force, terrorism, and markets. Focus on the movement toward global community.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: POSC 3470.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

POSC 377 - Philosophy of Law

Units: 3 ; G.E./G.R. Area: C4; Social Justice

Introduction to the main schools of jurisprudence and legal philosophy with an emphasis on their application to issues of social justice.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: PHIL 3503 or POSC 3503.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C4 - Upper Division Arts or Humanities, Overlay - Social Justice

Cross-listed: PHIL 377

Political Science: Public Policy and Administration

POSC 380 - Public Policy Analysis

Units: 3

Surveys the formulation, implementation, and impact of public policy dealing with social and economic problems. Examines and evaluates the causes and content of government policy in various areas such as civil rights, social welfare, crime, education, health, environment, energy, taxation.

Equivalent Quarter Course: POSC 3800.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

POSC 382 - U.S. Immigration Policy and Law

Units: 3

Development of U.S. immigration policy including theories, demographic trends, sources of immigration legislation, case law. Relationship of politics, policy, culture, social and economic status to racial and ethnic groups, women, and workers.

Equivalent Quarter Course: POSC 3418.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 383 - Labor Policy and Law

Units: 3

Historical development and changing fortunes of working class, trade unions, immigrant, and women workers. Growth among government workers and declining numbers in private industry. U.S. Government's labor laws and judicial interpretation for private and public sectors.

Equivalent Quarter Course: POSC 3419.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 410 - Politics of Budgeting

Units: 3

Politics and governmental budgeting; executive-legislative relationships, interest group activities, and citizen demands; budget as an instrument for management, planning, and policy-making at federal, state, and local levels.

Equivalent Quarter Course: POSC 4861.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 411 - Public Policy and the Environment

Units: 3

Politics of human-environment relationships. Sustainability, biodiversity, population, consumption, technology, energy, water, resources, recycling, pollution, and urban systems. Cultural values, paradigm change, science, risk analysis, market pricing, competition of networks, and citizen action. Significant written assignment integrates theory and practice.

Equivalent Quarter Course: POSC 4171.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

POSC 412 - Bureaucratic Politics and Administrative Law

Units: 3

Politics of bureaucracy, government regulations, administrative law, exploration of the content, and structure of public administration. Public finances, human resource management, workplace discrimination, ethics, regulation within institutions.

Equivalent Quarter Course: POSC 4445.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Psychology

PSYC 100 - General Psychology

Units: 3 ; G.E./G.R. Area: D1-3

An introduction to the scientific study of basic processes underlying human and animal behavior; sensation and perception, learning and thinking, motivation, and emotion.

Equivalent Quarter Course: PSYC 1000.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

PSYC 121 - Drugs and Behavior

Units: 3 ; G.E./G.R. Area: B2

Overview of psychoactive drugs (prescription, illicit, over-the-counter) and dietary supplements, basic principles of psychopharmacology, and introduction to scientific theories and practices related to drug development. Emphasis on marketing strategies, historical influences on drug use, and government restrictions.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B2 - Lower Division Life Sciences*

PSYC 200 - Methods of Investigation in Psychology

Units: 3

Experimental, correlational, and observational methods in the study of psychology with selected examples.

Prerequisites: PSYC 100.

Equivalent Quarter Course: PSYC 2020.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 300 - Experimental Psychology

Units: 4

A research course in the development, design, and execution of psychological experiments; the analysis of data; and the writing of research reports in APA format.

Prerequisites: PSYC 200 and STAT 310.

Equivalent Quarter Course: PSYC 3100.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

PSYC 310 - Conditioning and Learning

Units: 4

Introduction to the experimental analysis of animal learning and behavior with an emphasis on classical and instrumental/operant conditioning. Additional topics will include non-associative learning, choice behavior, stimulus control, extinction, and aversive control.

Prerequisites: PSYC 200.

Equivalent Quarter Course: PSYC 4200.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 320 - Physiological Psychology

Units: 4

The biological foundations of human and animal behavior, including physiological processes related to sensory and motor activity, perception, learning, thinking, motivation, and emotion.

Prerequisites: PSYC 200.

Equivalent Quarter Course: PSYC 4320.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 330 - Cognitive Psychology

Units: 4

Selected topics in thinking and information processing in humans, such as memory, attention, problem solving, language, concept formation, creativity, and imagery. Experiments and theories are described, analyzed, and interpreted.

Prerequisites: PSYC 200.

Equivalent Quarter Course: PSYC 4220.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 340 - Developmental Psychology

Units: 4

Explores human development across the lifespan. Topics include theoretical foundations of development and research pertaining to cognitive, social-emotional and personality development. Emphasis on the role of biological factors and experience in development.

Prerequisites: PSYC 200.

Equivalent Quarter Course: PSYC 4420.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 350 - Personality Psychology

Units: 4

Critical review of method and content in the study of personality. Historical development of the field, with attention to recent applications of scientific method to research questions within the field.

Prerequisites: PSYC 200.

Equivalent Quarter Course: PSYC 4610.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 360 - Social Psychology

Units: 4

In-depth survey of the major theories, concepts, and research in social psychology. Topics include: the self, attribution, attitudes and persuasion, group processes, intergroup relations, interpersonal attraction, and helping.

Prerequisites: PSYC 200.

Equivalent Quarter Course: PSYC 3500.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 370 - Psychological Measurement

Units: 4

Covers construction of surveys and tests using Classical Test Theory and Item Response Theory; data analysis; test bias and test fairness; an introduction to unidimensional and multidimensional scaling; and measurement models. Applications to cognitive processing and industrial psychology.

Prerequisites: PSYC 200 and STAT 310.

Equivalent Quarter Course: PSYC 3210 or PSYC 3230.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 381 - Psychopathology

Units: 4

Overview of the major psychiatric disorders such as depressive disorders, anxiety disorders, posttraumatic stress disorder, personality disorders, substance use disorder, and schizophrenia. Emphasis is on diagnostic criteria; biological, psychological, and sociocultural factors; and treatment implications.

Prerequisites: PSYC 200.

Equivalent Quarter Course: PSYC 4410.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 382 - Child Psychopathology

Units: 4

Overview of the major psychiatric disorders affecting children and adolescents. Emphasis is on diagnostic criteria; biological, psychological, and sociocultural factors; and treatment implications.

Prerequisites: PSYC 200.

Equivalent Quarter Course: PSYC 4440.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 386 - Stress and Coping

Units: 3 ; G.E./G.R. Area: B6

A systematic look at the major theories and research about stress and coping, with applications. Stress and coping will be examined in the context of everyday situations, e.g., family and other relationships, illness, death and dying, and the workplace.

Prerequisites: Completion of GE Areas A1, A2, A3 and B4 ; and PSYC 100.

Credit Restrictions: Not for psychology major or minor credit.

Equivalent Quarter Course: PSYC 3420.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B6- Upper Division Science Inquiry and Quantitative Reasoning*

PSYC 390 - Human Factors and Work Methods

Units: 4

Human Factors principles utilized for design of tools, jobs, environments and work methods. Human dimensions, capabilities and limitations, including anthropometric, perceptive and cognitive, inform human-centered designs. Case studies illustrate good/poor designs. Principles applied in course projects, exercises and simulations.

Prerequisites: Completion of GE area B4 and STAT 100 or INDE 330.

Equivalent Quarter Course: INDE 3020 and INDE 3190.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Cross-listed: INDE 390.

PSYC 411 - Comparative Psychology

Units: 4

Survey of the similarities and differences in cognitive processes across species. Topics include sensory systems, principles of learning, memory, spatial cognition, numerical competency, social learning, and animal communication/language.

Prerequisites: PSYC 310.

Equivalent Quarter Course: PSYC 4310.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 412 - Learning Theory

Units: 4

A survey of the major theories of learning including their underlying assumptions, strengths and weaknesses, empirical basis, historical context, and practical implications.

Prerequisites: PSYC 310.

Equivalent Quarter Course: PSYC 4210.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 413 - Advanced Conditioning and Learning

Units: 4

This course provides a contemporary survey of theories of learning. Topics may include configural and elemental associative, attentional, hybrid, and connectionist models, with an emphasis on animal models.

Prerequisites: PSYC 310.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 414 - History and Systems of Psychology

Units: 4

An examination of the major schools of thought and historical developments that have led to the modern science of psychology.

Prerequisites: Senior standing.

Equivalent Quarter Course: PSYC 4390.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 415 - Introduction to Applied Behavior Analysis

Units: 4

Introduction to the core principles of behavior analysis. Application to the analysis of real-world problems.

Prerequisites: PSYC 310.

Equivalent Quarter Course: PSYC 3250.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 421 - Cognitive Neuroscience

Units: 4

Overview of research examining the neural mechanisms underlying cognitive processes such as

perception, attention, memory, and language.

Prerequisites: PSYC 320.

Equivalent Quarter Course: PSYC 4370.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 431 - Perception

Units: 4

This course covers how the eyes, ears, and other sense organs bring information about the world to the brain, and how this information is used to perceive objects and events.

Prerequisites: PSYC 330.

Equivalent Quarter Course: PSYC 4345.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 441 - Advanced Developmental Psychology

Units: 4

Advanced topic course in human development, with a focus on developmental psychology research and applications. Topics will be explored using actual data and may include research on the development of language, memory, theory of mind, identity and personality.

Prerequisites: PSYC 340.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 461 - Culture and Social-Organizational Psychology

Units: 4

In-depth examination of the influence of culture on psychology with a focus on social and organizational psychology topics: the self, social cognitive processes, cooperation, conflict, conflict resolution, intercultural contact, intergroup relations, and acculturation.

Prerequisites: PSYC 360.

Equivalent Quarter Course: PSYC 3600.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 462 - Psychology of Negotiation and Conflict Resolution

Units: 4

In-depth examination of psychological research on negotiation and conflict resolution. Topics include:

cognitive, motivational, and emotional processes involved in misunderstanding, conflict, negotiation and conflict resolution.

Prerequisites: PSYC 360.

Equivalent Quarter Course: PSYC 3560.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 463 - Interpersonal Processes

Units: 4

Selected topics on the development of social relationships, interpersonal attraction, self disclosure, communication dynamics of power and intimacy, and the resolution of conflict.

Prerequisites: PSYC 360.

Equivalent Quarter Course: PSYC 3520 or PSYC 3550.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 469 - Group Dynamics

Units: 4

In-depth examination of small group and organizational processes. Topics include group development, group structure, social facilitation, motivation, coordination, teamwork, diversity, brainstorming, group decision-making, conflict, and conflict management.

Prerequisites: PSYC 360.

Equivalent Quarter Course: PSYC 3540.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 471 - Decision Theory and Analysis

Units: 4

Introduction to the literature and methods of decision science in psychology. Theory and decision strategies are surveyed, with examples across many applications. Focus on descriptive models. Students will study decision strategies and methods of modeling preference structures.

Prerequisites: PSYC 200 and STAT 310.

Equivalent Quarter Course: PSYC 3240.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 472 - Motivation

Units: 4

Survey of theoretical approaches to understanding human motivation (biological, behavioral, cognitive, social, affective). Students will apply theories to motivation in real-world contexts (e.g., work, school, relationships) and make suggestions for changing motivation through the principles covered in class.

Prerequisites: PSYC 200.

Equivalent Quarter Course: PSYC 4300.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 479 - Industrial Psychology

Units: 4

Application of psychological principles to the work setting. Topics include the statistical models used in validity studies, selection decision strategies, the application of learning theory to training, and the application of measurement theory to performance appraisal.

Prerequisites: PSYC 370.

Equivalent Quarter Course: PSYC 4500.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 481 - Introduction to Psychotherapy

Units: 4

Overview of professional issues in clinical psychology and the theoretically based approaches to psychotherapy (i.e., psychoanalytic, cognitive, behavioral, existential, humanistic, and systems).

Prerequisites: PSYC 381 or PSYC 382.

Equivalent Quarter Course: PSYC 4630.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: PSYC 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

PSYC 491A - Research in Conditioning and Learning

Units: 4

An advanced research course in which students design and execute an empirical research study related to conditioning and learning. Includes data collection, quantitative data analysis, and presentation in an APA style research report.

Prerequisites: PSYC 300 and PSYC 310.

Equivalent Quarter Course: PSYC 4800 or PSYC 4801 or PSYC 4805.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

PSYC 491B - Research in Physiological Psychology

Units: 4

An advanced research course in which students design and execute an empirical research study related to physiological psychology. Includes data collection, quantitative data analysis, and presentation in an APA style research report.

Prerequisites: PSYC 300 and PSYC 320.

Equivalent Quarter Course: PSYC 4803.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

PSYC 491C - Research in Cognitive Psychology

Units: 4

An advanced research course in which students design and execute an empirical research study related to cognitive psychology. Includes data collection, quantitative data analysis, and presentation in an APA style research report.

Prerequisites: PSYC 300 and PSYC 330.

Equivalent Quarter Course: PSYC 4800 or PSYC 4802.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

PSYC 491D - Research in Developmental Psychology

Units: 4

An advanced research course in which students design and execute an empirical research study related to developmental psychology. Includes data collection, quantitative data analysis, and presentation in an APA style research report.

Prerequisites: PSYC 300 and PSYC 340.

Equivalent Quarter Course: PSYC 4806.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

PSYC 491E - Research in Social & Personality Psychology

Units: 4

An advanced research course in which students design and execute an empirical research study related to social and personality psychology. Includes data collection, quantitative data analysis, and presentation in an APA style research report.

Prerequisites: PSYC 300, and PSYC 350 or PSYC 360.

Equivalent Quarter Course: PSYC 4804.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

PSYC 491F - Research in Clinical Psychology

Units: 4

An advanced research course in which students design and execute an empirical research study related to clinical psychology. Includes data collection, quantitative data analysis, and presentation in an APA style research report.

Prerequisites: PSYC 300, and PSYC 381 or PSYC 382.

Equivalent Quarter Course: PSYC 4807.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

PSYC 493A - Research in Organizational Psychology

Units: 4

An advanced research course in which students design and execute an empirical research study related to organizational psychology. Includes data collection, quantitative data analysis, and presentation in an APA style research report.

Prerequisites: PSYC 300 and PSYC 360.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

PSYC 493B - Research in Industrial Psychology

Units: 4

An advanced research course in which students design and execute an empirical research study related to industrial psychology. Includes data collection, quantitative data analysis, and presentation in an APA style research report.

Prerequisites: PSYC 300 and PSYC 370.
Equivalent Quarter Course: PSYC 4808.
Possible Instructional Methods: *Entirely On-ground.*
Grading: A-F grading only.

PSYC 497 - Issues in Psychology

Units: 4

Readings, discussion, and research on contemporary and/or significant issues in Psychology.

Repeatability: May be repeated for credit when content varies, for a maximum of 8 units.
Possible Instructional Methods: *Entirely On-ground.*
Grading: A-F or CR/NC (student choice).

PSYC 498 - Internship

Units: 1-4

Integration of student's academic study with practical experience in a cooperating organization. Involves off-campus activity designed to serve educational purposes by offering experience in a service learning, business, non-profit, or government setting.

Prerequisites: Department consent.
Equivalent Quarter Course: PSYC 3898.
Repeatability: May be repeated for credit for a maximum of 8 units.
Possible Instructional Methods: *Entirely On-ground.*
Grading: A-F or CR/NC (student choice).

Public Administration

PA 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.
Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.
Equivalent Quarter Course: PUAD 4900.
Repeatability: May be repeated for credit, with department consent, for a total of 12 units.
Possible Instructional Methods: *Entirely On-ground.*
Grading: A-F or CR/NC (student choice).

Public Administration: Graduate

PA 611 - Public Administration Philosophy, Theory, and Practice

Units: 4

Historical and political context of public administration. This course reviews the classical and emerging theoretical perspectives on human organizations and critically analyzes emerging domestic and global ideas and issues shaping and being shaped by the public sector.

Prerequisites: Admission to Master of Public Administration program.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

PA 612 - Research Methods in Public Administration

Units: 4

Examines various methods for designing and conducting interpretive (Qualitative) and positivistic (Quantitative) research for organizational improvements, policy research and decision making in the public sector. Various modes of data-gathering and analysis are discussed and the logic underlying the methods explored.

Prerequisites: Admission to Master of Public Administration program.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

PA 621 - Seminar in Human Organizations, Change, and Social Realities

Units: 4

Considers theoretical frameworks for thinking critically about how knowledge, social realities, and administration are constituted. Meaning-centered, experientially grounded theories are applied to examine organizational humanization and effectiveness. Opportunities to integrate these theories for action and changing organizations are explored.

Prerequisites: PA 611 and PA 612.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

PA 622 - Seminar in the Public Policy Process

Units: 4

Critical analysis of the public policy-making processes emphasizing the interrelationships among policy formulation, implementation, evaluation, and revision. Explores alternative models of the policy process; develop strategies and tactics for identifying and solving implementation problems; assessment of policy impact and effectiveness.

Prerequisites: PA 611 and PA 612.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both*

online and on-ground).

Grading: A-F grading only.

PA 631 - Management, Human Resources, and Ethics in the Public Sector

Units: 4

Examines the responsibilities of public sector managers, public HRM and the ethical dimensions of public service. Topics discussed include influence of social and political values upon public service concepts; examination of public managers as strategic leaders; value dilemmas, and accountability.

Prerequisites: PA 621, PA 622 and completion of the University Writing Skills Requirement (UWSR).

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

PA 641 - Public Budgeting and Finance Administration

Units: 4

Exploration and analysis of the governmental budgetary process and review of strategic principles of fiscal policy in attaining public goals. Emphasizes the role of government budgeting shaping public policy and administrative control at federal, state and local levels.

Prerequisites: PA 697 or PA 695, and PA 631 or HCA 611, and completion of the University Writing Skills Requirement (UWSR).

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

PA 690 - Independent Study

Units: 1-4

Content to be determined by student(s) and faculty instructor.

Prerequisites: Department consent and minimum 3.0 GPA.

Equivalent Quarter Course: PUAD 6900.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

PA 692 - Graduate Synthesis

Units: 4

A synthesis of public administration theories and concepts with a review and critique of major readings in the field. Concludes with the Comprehensive Examination. Advancement to Candidacy (completion of all core courses and option area requirements) and consent of instructor.

Prerequisites: Department consent.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

PA 695 - Internship in Public Administration

Units: 4

Field placements with governmental agencies under the supervision of a faculty member. Examines the relationship between theory and practice in the provisions of public service.

Prerequisites: PA 621, PA 622 and completion of the University Writing Skills Requirement (UWSR).

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

PA 697 - Issues in Public Administration

Units: 4

Readings, discussion, and research on contemporary and/or significant issues in public administration.

Prerequisites: PA 621, PA 622 and completion of the University Writing Skills Requirement (UWSR).

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

PA 698 - Internship

Units: 1-3

Formal advanced work opportunities integrating the academic program with their career aspirations. Integral advanced hands-on experience enhancing education and preparing for professional and personal success.

Prerequisites: Department consent and minimum 3.0 GPA.

Credit Restrictions: No more than 3 units may be applied to the Public Administration major.

Equivalent Quarter Course: PUAD 6898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

PA 699 - Department Thesis

Units: 4

Development and writing of a research paper for submission to the department, which specifies its format.

Supervision by a member of the department faculty. Oral defense normally required.

Prerequisites: Department consent.

Equivalent Quarter Course: PUAD 6910.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

Recreation

REC 100 - Introduction to Hospitality and Tourism, Recreation, and Recreation Therapy

Units: 3 ; G.E./G.R. Area: D1-3

Introduction to conceptual foundations, including historical knowledge, in hospitality, recreation, and recreation therapy. Overview of the hospitality, recreation, and tourism industry and the various segments that make up this industry group.

Equivalent Quarter Course: REC 1000 and HOS 1100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

REC 110 - Foundations of Sustainability in Hospitality, Recreation and Tourism

Units: 3 ; G.E./G.R. Area: Sustainability

Sustainable solutions and key challenges in improving the environment (air, water and food) in a community. Transitioning to a more sustainable approach in HRT industries at the local, regional and global level.

Strongly Recommended Preparation: HOS 100 and REC 100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *Overlay - Sustainability*

REC 200 - Serving Diverse Populations in Hospitality, Recreation, Rec Therapy and Tourism

Units: 3 ; G.E./G.R. Area: D1-3; Social Justice

Concepts of social equity, social justice, ability, ethnic and cultural diversity. Relationship between customers and HRT service providers. Focus includes inclusion and conflict management.

Strongly Recommended Preparation: HOS 100 and REC 100

Equivalent Quarter Course: REC 4050.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences, Overlay - Social Justice*

REC 210 - Programming in Community Recreation, Sport and Camp

Units: 3

Examination of factors influencing the planning, program design, implementation and evaluation of community recreation, sports and camp programs for large and small groups with attention to assuring social justice for ability, ethnic and cultural diversity. Active learning required.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 2200.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 215 - Special Events in Recreation

Units: 3

Conceptualizing, analysis, and project planning of small to large-scale events. Best practices and trends in special events, such as sports, festivals and fundraisers. Developing a plan and analyzing the experience of volunteering at a special event.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 4501.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 230 - Introduction to Youth Development

Units: 3 ; G.E./G.R. Area: D1-3

Developing youth aged 5-17 in non-profit, commercial, and public sectors. Community and youth engagement practices and services. The purpose, principles, and importance of youth leadership and peer mentorship.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 4011.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

REC 235 - Leisure, Self, and Society

Units: 3 ; G.E./G.R. Area: D1-3

Conceptual foundations and understanding of the significance of recreation and leisure. Life-cycle changes relative to an individual's attitudes, values and behaviors. Development of life-long strategies for creating and maintaining a desired quality of life, health and wellness.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 2400.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

REC 300 - Wellness Through Leisure

Units: 3 ; G.E./G.R. Area: D4

Basic theories and concepts of wellness, health, recreation and leisure. Key elements of wellness through leisure, such as quality of life, play, recreation, leisure, balance, work and self-efficacy.

Strongly Recommended Preparation: HOS 100 and REC 100.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: REC 3200.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

REC 310 - Women and Leisure

Units: 3 ; G.E./G.R. Area: D4

Leisure and recreational pursuits of women from a creative, historical and cultural perspective. Factors that influence leisure opportunities and how they contribute to the quality of life for women. Social changes related to leisure and the impact on women's lives.

Strongly Recommended Preparation: HOS 100 and REC 100.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: REC 3202.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences, Overlay - Social Justice*

REC 320 - Aquatic Management

Units: 3

Unique aspects of aquatic program management, including risk management, legal issues, appropriate training techniques, program planning, staffing, facility design and supervising aquatic environments.

Strongly Recommended Preparation: HOS 100 and REC 100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 321 - Resident and Day Camp Administration

Units: 3

Current principles and practices in the organized camp profession. Considers programming for the operation of public, private, and nonprofit camps. Topics include staffing, camper management, marketing, budgeting, activity planning and structure, and risk management.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 325 - Leadership, Management and Ethics in Hospitality, Recreation, Rec Therapy, and Tourism

Units: 3

Leadership and Management and principles, values, and ethical boundaries. Evaluation of personal strengths and challenges as a team member and leader. Hiring, training, motivation, discipline, legal issues, supervision, evaluation and employees with special needs.

Equivalent Quarter Course: REC 3300 and REC 3510.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 330 - Leadership in Small Groups

Units: 3

Leadership styles, characteristics and skills of leaders, and effective communication strategies. Small group leadership for recreation professionals. Understanding group behavior, teamwork and motivation.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 3401.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 340 - Sustainable Facilities, Parks and Open Space

Units: 3 ; G.E./G.R. Area: Sustainability

Principles and procedures for planning, design, operation, care and management of sustainable facilities,

parks, open spaces and other areas. Examining economic, social, and environmental impacts of sustainable areas.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 4300.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *Overlay - Sustainability*

REC 355 - Community Sustainability in Hospitality, Recreation and Tourism

Units: 3

Sustainable behaviors in HRT industries, the barriers and benefits of sustainability and development of individual and community incentives. Assessment of current personal and community sustainability behaviors and opportunities to instigate change locally.

Strongly Recommended Preparation: HOS 100 and REC 100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 360 - Foundations in Recreation Therapy

Units: 3 ; G.E./G.R. Area: E

The human developmental stages of recreation therapy across the lifespan, including theories of human behavior, principles of behavioral change, and concepts and models of health and human services. Investigation of potential career paths.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 3800.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *E - Lifelong Learning and Self-Development*

REC 361 - Recreation Therapy Diagnostic Groupings

Units: 3

Cognitive/developmental disorders, physical/medical disorders, and psychiatric disorders and how recreation therapy interventions are used.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 4605.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 362 - Recreation Therapy Documentation & Assessment

Units: 3

Current recreation therapy assessment instruments, inter-professional inventories and questionnaires, criteria for selection and/or development of assessment, and documentation formats.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 4600.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 363 - Recreation Therapy Process & Techniques

Units: 3

Recreation therapy process and techniques, including modalities and/or interventions, facilitation approaches, and intervention techniques.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 4601.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 364 - Recreation Therapy Program Planning & Implementation

Units: 3

Various recreation therapy service delivery models, including selection of programs, activities, and interventions to achieve the assessed needs, activity modifications, and purpose and techniques of activity/task analysis.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 4601 and REC 4603.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 365 - Advancement of Recreation Therapy Profession and Management

Units: 3

In-depth examination of a recreation therapy service plan of operation, procedures for program evaluation and accountability, quality improvement guidelines and techniques, and professionalism in recreation

therapy management.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: REC 4604.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 400 - Law, Risk and Regulation in Hospitality, Recreation, Rec Therapy, and Tourism

Units: 3

Federal and state statutes, contracts and liability. Aspects of risk management, including the sale of food and alcohol, relationships with guests, crisis management and ethics.

Strongly Recommended Preparation: HOS 100 and REC 100.

Equivalent Quarter Course: HOS 4590.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 425 - Strategic Positioning in Recreation

Units: 3

Strategic planning principles and the influence of organizational culture. Strategic positioning and partnering with stakeholders, including economic, social, and political. Financial management, negotiation strategies and conflict resolution within the workplace.

Strongly Recommended Preparation: HOS 100 and REC 100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 430 - Youth Development: Current Issues for Youth 5-17

Units: 3

Current issues in development for youth aged 5-17. Solutions and approaches for recreation professionals that address those issues. Analyze trends in youth development throughout different time periods.

Prerequisites: REC 230.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 475 - Internship Placement

Units: 2

Develop a career portfolio, including resume, cover letter, interview preparation, and personal branding information. Identify an internship site to meet all criteria along with articulating internship goals and objectives. Experience in the field required. Should be taken one semester prior to REC 480.

Prerequisites: Department consent.

Equivalent Quarter Course: REC 4896.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 476 - Recreation Therapy Internship Placement

Units: 1

Develop a career portfolio, including resume, cover letter, interview preparation, and personal branding information. Identify an internship site to meet all recreation therapy criteria and develop internship goals and objectives. 1,000 hours of experience in the field required. This course to be taken one semester prior to REC 481.

Strongly Recommended Preparation: Completion of B.S. Recreation major core classes.

Prerequisites: Department consent.

Equivalent Quarter Course: REC 4897.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 480 - Internship

Units: 3-6

400-hour recreation internship taken after completing major classes and 1,000 hours of experience in the field. Must meet university GPA requirements prior to enrollment. Develop a capstone project that demonstrates knowledge learned throughout the program. Students will take this course after completing major classes and 1,000 hours of experience in the field.

Prerequisites: REC 475.

Equivalent Quarter Course: REC 4910.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 481 - Recreation Therapy Internship

Units: 3-6

600-hour recreation therapy internship. To be taken after completing major classes and 1,000 hours of experience in the field. Develop a capstone project that demonstrates knowledge learned throughout the

program. Must meet university GPA requirements prior to enrollment.

Prerequisites: REC 476.

Equivalent Quarter Course: REC 4911.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 490 - Independent Study

Units: 1-3

Individual investigation of a specific issue, area, or topic in HRT planned in consultation with a department faculty member. Students may apply no more than 12 units of independent study in the major department and 8 units in other departments to a baccalaureate degree. Undergraduate students who have at least a 2.0 (C) grade point average in all courses in the field or in all courses in the field or department in which the Independent Study is to be taken.

Strongly Recommended Preparation: HOS 100 and REC 100.

Prerequisites: Department consent and minimum 2.0 GPA.

Equivalent Quarter Course: REC 4900.

Repeatability: Repeatable for a maximum of 3 units

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

REC 497 - Issues in Recreation

Units: 1-3

Readings, discussion, and research on contemporary and/or significant issues in Recreation.

Strongly Recommended Preparation: HOS 100 and REC 100.

Prerequisites: Department consent.

Equivalent Quarter Course: REC 3999.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

Hospitality, Recreation and Tourism: Graduate

REC 600 - Foundations of Hospitality, Recreation and Tourism

Units: 3

Examine leisure theories, history, philosophy, and different segments of the hospitality, recreation and tourism professions. Develop a comprehensive literature review on a topic in Hospitality, Recreation or Tourism selected for the synthesis project.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: REC 6100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 610 - Strategic Leadership and Ethics in Hospitality, Recreation and Tourism

Units: 3

Leadership in profit, nonprofit, and public organizations. Topics include talent development, resource allocation, communication strategies, ethical behaviors, and decision making.

Prerequisites: Department consent.

Equivalent Quarter Course: REC 6800.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 620 - Organizational Development in Hospitality, Recreation and Tourism

Units: 3

Fundamental concepts of organizational theory and human relations from a managerial perspective. Topics include structures and systems in service delivery, organizational effectiveness and change, and leadership styles.

Prerequisites: Department consent.

Equivalent Quarter Course: REC 6300.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 630 - Research Methods in Hospitality, Recreation and Tourism

Units: 3

Qualitative and quantitative research design exploration. Essential elements of applied research in Hospitality, Recreation and Tourism, including methodology and statistical analysis. Development of the synthesis project proposal.

Prerequisites: REC 600.

Equivalent Quarter Course: REC 6000.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 640 - Law and Risk in Hospitality, Recreation and Tourism

Units: 3

Law and risk in operations, facilities, services, programs and event management in hospitality, recreation and tourism. Methods for assessing and reducing risk, and elements of a comprehensive risk management plan.

Prerequisites: Department consent.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 650 - Fiscal Management in Hospitality, Recreation and Tourism

Units: 3

Fiscal management for profit, nonprofit, and public agencies. Topics include budgeting, forecasting, product development, pricing, methods of financing, and long-range fiscal planning.

Prerequisites: Department consent.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 660 - Sustainable Solutions in Hospitality, Recreation and Tourism

Units: 3

Analyze, develop, and advocate for sustainable management solutions in hospitality, recreation and tourism, both locally and globally. Discuss economic, social, and environmental practices to enhance sustainability.

Prerequisites: Department consent.

Equivalent Quarter Course: REC 6601.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 670 - Advanced Marketing in Hospitality, Recreation and Tourism

Units: 3

Advanced marketing theory and critical thinking skills applied to support strategic decision making. Developing a marketing campaign through market research. Selecting appropriate media, partnerships, and effective promotion and advertising techniques. Services marketing in Hospitality, Recreation and Tourism industries.

Prerequisites: Department consent.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 693A - Applied Research Project I

Units: 3

Developing a field-based project in Hospitality, Recreation or Tourism management through defining a problem, reviewing literature, and data collection. Advancement to candidacy is required.

Prerequisites: REC 630.

Equivalent Quarter Course: REC 6500.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 693B - Applied Research Project II

Units: 3

This second capstone course is designed to further develop a field-based project. REC 693B includes data collection analysis, reporting, interpreting findings and recommendations for application in the Hospitality, Recreation or Tourism field. Advancement to candidacy is required.

Prerequisites: REC 630 and REC 693A.

Equivalent Quarter Course: REC 6901.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

REC 697 - Special Issues in Hospitality, Recreation and Tourism

Units: 1-3

Advanced, directed group study of special issues related to management of hospitality, recreation or tourism industries.

Prerequisites: Department consent.

Repeatability: May be repeated for credit for a maximum of 3 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

Social Work: Graduate

SW 600 - Human Behavior and the Social Environment

Units: 4

Introduces theoretical perspectives of human development and behavior across the life span, examining the influence of social, political, historical, and cultural variables. Covers physiological, psychological, cognitive, and social dimensions from birth through end-of-life.

Prerequisites: M.S.W. major.

Equivalent Quarter Course: SW 6000 and SW 6001.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 601 - Race, Gender, and Inequality

Units: 4

Exploration of the impact of race, racism, gender, sexism, homophobia, ableism, and inequality in social work practice. Effective problem-solving when confronted with institutional barriers and interpersonal conflicts in agency and community-based social work practice with diverse populations.

Prerequisites: M.S.W. major.

Equivalent Quarter Course: SW 6010.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 602 - Introduction to Social Welfare Policy

Units: 4

Surveys major themes in social welfare policy and examines the associated values, theoretical assumptions, political and budgetary considerations, and structures. Emphasizes the application of social justice-oriented theoretical frameworks for understanding the role and impact of policy.

Prerequisites: M.S.W. major.

Equivalent Quarter Course: SW 6030.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 603 - Introduction to Social Welfare Research

Units: 4

The role of research in social work, the logic of research, the stages of underlying research process, various types of research designs, techniques of data collection and analysis, and strategies for evaluating service delivery in all areas of practice.

Prerequisites: M.S.W. major.

Equivalent Quarter Course: SW 6032.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 611 - Generalist Practice I

Units: 4

Competencies for generalist social work practice in micro and mezzo settings. Students will develop skills in intervention strategies including constructing professional relationships, assessing client situations, planning and implementing change, and evaluating outcomes.

Prerequisites: M.S.W. major.

Equivalent Quarter Course: SW 6011 and SW 6012.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SW 612 - Generalist Practice II

Units: 4

This is the second foundation course in generalist practice. The course orients students to the major areas of small group, community, and organizational practice with particular emphasis on work with disenfranchised and oppressed populations.

Prerequisites: M.S.W. major.

Credit Restrictions: Master of Social Work students only

Equivalent Quarter Course: SW 6012 and SW 6013.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 621A - Advanced Practice I: Children, Youth, and Families: Individuals and Families

Units: 4

This is the first of two advanced practice courses required of students in the children, youth, and families concentration. It imparts knowledge and skills for providing culturally responsive services to individuals and families, particularly minority and underserved populations in urban environments.

Prerequisites: M.S.W. major.

Equivalent Quarter Course: SW 6500 and SW 6510.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 621B - Advanced Practice II: Children, Youth, and Families: Groups, Organizations, and Communities

Units: 4

This is the second required course with a focus on Children, Youth, and Families. The foci are mezzo and macro practices. Special attention will be paid to working with underserved urban and disenfranchised groups with an emphasis on public policy.

Prerequisites: M.S.W. major.

Credit Restrictions: Master of Social Work students only

Equivalent Quarter Course: SW 6510 and SW 6520.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 622A - Advanced Practice I: Community Mental Health: Individuals and Families

Units: 4

This is the first of two advanced practice courses required of students in the community mental health concentration. It imparts knowledge and skills for providing culturally responsive services to individuals and families, particularly minority and underserved populations in urban environments.

Prerequisites: M.S.W. major.

Equivalent Quarter Course: SW 6505 and SW 6515.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 622B - Advanced Practice II: Community Mental Health: Groups, Organizations, and Communities

Units: 4

This is the second advanced practice course required of students in the community mental health concentration. It imparts knowledge and skills for providing culturally responsive services to groups, organizations, and communities, particularly minority and underserved populations in urban environments.

Prerequisites: M.S.W. major.

Credit Restrictions: Master of Social Work students only

Equivalent Quarter Course: SW 6515 and SW 6525.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 630 - The Recovery Model in Community Mental Health

Units: 4

Concepts and practices of wellness and recovery for individuals, families, and society. A major emphasis is on applying recovery concepts to culturally diverse, urban, and stigmatized populations and advocating for and with consumers of mental health programs.

Prerequisites: M.S.W. major.

Credit Restrictions: Master of Social Work students only

Equivalent Quarter Course: SW 6550.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 631 - Advanced Psychosocial Assessment and Diagnosis

Units: 4

Advanced study in psychosocial assessment and diagnosis of children, adolescents, and adults. Examination of person-in-environment and DSM-V diagnosis.

Prerequisites: M.S.W. major.

Credit Restrictions: Master of Social Work students only

Equivalent Quarter Course: SW 6561.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 632 - Family Violence Across the Lifespan

Units: 4

This course provides students with an overview of family violence. It surveys the historical and social background of family violence, its social and psychological consequences for individuals, families and communities, as well as its prevention and intervention.

Prerequisites: M.S.W. major.

Equivalent Quarter Course: SW 6560.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 633 - Assessment and Treatment of Substance Abuse in Social Work Practice

Units: 4

Assessment and treatment of substance abuse issues in social work practice. Topics include prevalence of substance abuse, dual diagnosis, family systems, and evidence-based practices.

Prerequisites: M.S.W. major.

Credit Restrictions: Master of Social Work students only

Equivalent Quarter Course: SW 6553.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 634 - Legal Issues in Social Work Practice

Units: 4

In-depth exploration of complex legal issues in social work practice such as confidentiality, minor consent law, abortion, parental rights, access and consent to treatment, mental health commitment procedures, rights of dependent adults, rights of children, marriage, and divorce.

Prerequisites: M.S.W. major.

Equivalent Quarter Course: SW 6552.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*
Grading: A-F grading only.

SW 689 - Community-Based Research in Social Work Practice

Units: 4

The purpose of this course is to prepare students to implement and evaluate a community-based research, evaluation or advocacy project. Topics include program evaluation and planning, data analysis, and ethical issues in community-based research.

Prerequisites: M.S.W. major.

Equivalent Quarter Course: SW 6932 and SW 6935.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 690 - Independent Study

Units: 1-4

Independent study in social work under guidance by a faculty sponsor.

Prerequisites: M.S.W. major.

Credit Restrictions: Master of Social Work students only

Equivalent Quarter Course: SW 6900.

Repeatability: May be repeated for credit, when content varies, for a maximum of 16 units.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 691 - University Thesis

Units: 4

Completion of a formal research paper for submission to the university in the specified format.
Supervision by a faculty committee, chaired by a regular member of the department.

Prerequisites: M.S.W. major.

Credit Restrictions: Master of Social Work students only.

Equivalent Quarter Course: SW 6910.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 693 - Integrative Project

Units: 4

The integrative project provides students an opportunity to implement a significant community-based research, evaluation, or advocacy project relevant to social work practice. In doing so, students are expected to demonstrate mastery of all MSW Program Learning Outcomes.

Equivalent Quarter Course: SW 6935 and SW 6959.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 695A - Social Work Practicum I

Units: 4

Students in Field Practicum courses are assigned to community-based placements applying the knowledge, skills, and values learned within program courses. Field education is guided by an individualized learning contract developed by the student and the field instructor. *Seminar Units: 2; Practicum Units: 2*

Prerequisites: M.S.W. major.

Equivalent Quarter Course: SW 6020 and SW 6021.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: CR/NC grading only.

SW 695B - Social Work Practicum II

Units: 4

Students in Field Practicum courses are assigned to community-based placements applying the knowledge, skills, and values learned within program courses. Field education is guided by an individualized learning contract developed by the student and the field instructor. *Seminar Units: 2; Practicum Units: 2*

Prerequisites: M.S.W. major.

Credit Restrictions: Master of Social Work students only

Equivalent Quarter Course: SW 6021 and SW 6022.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: CR/NC grading only.

SW 695C - Social Work Practicum III

Units: 4

The advanced practicum and field placement are designed to prepare students for entry into specialized and concentrated (Children Youth and Families or Community Mental Health) areas of practice, among diverse settings and populations. *Seminar Units: 2; Practicum Units: 2*

Prerequisites: M.S.W. major.

Equivalent Quarter Course: SW 6530 and SW 6531.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: CR/NC grading only.

SW 695D - Social Work Practicum IV

Units: 4

The advanced practicum and field placement are designed to prepare students for entry into specialized and concentrated (Children Youth and Families or Community Mental Health) areas of practice, among diverse settings and populations. *Seminar Units: 2; Practicum Units: 2*

Prerequisites: M.S.W. major.

Credit Restrictions: Master of Social Work students only

Equivalent Quarter Course: SW 6531 and SW 6532.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: CR/NC grading only.

SW 697 - Issues in Social Work

Units: 1-4

Readings, discussion, and research on contemporary and/or significant issues in social work.

Prerequisites: M.S.W. major.

Credit Restrictions: Master of Social Work students only

Equivalent Quarter Course: SW 6999.

Repeatability: May be repeated for credit, when content varies, up to a maximum of 8 units.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SW 699 - Departmental Thesis

Units: 4

Developing and writing a research paper for submission to the department, which specifies its format. Supervision by a departmental faculty member. Oral defense is required.

Prerequisites: M.S.W. major.

Credit Restrictions: Master of Social Work students only

Equivalent Quarter Course: SW 6909.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

Sociology

SOC 100 - Introduction to Sociology

Units: 3 ; G.E./G.R. Area: D1-3

Introduces the basic theories, concepts and methods of sociology; its key areas of study; and emphasizes the sociological imagination that connects individual actions and opportunities to social institutions and processes.

Equivalent Quarter Course: SOC 1000.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *D1-3 - Lower Division Social Sciences*

SOC 300 - Sociological Theory

Units: 4

Critical analysis of the works of leading sociological theorists from the middle of the 19th century to the present. Emphasizes linking theories to contemporary research questions and hypotheses.

Prerequisites: SOC 100.

Equivalent Quarter Course: SOC 3310.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 320 - Social Inequalities

Units: 4 ; G.E./G.R. Area: Social Justice

The relationship between unequal access to economic and political resources and social locations in systems of class, race, ethnicity, gender, and/or citizenship.

Equivalent Quarter Course: SOC 3420.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Social Justice*

SOC 325 - Race and Ethnic Relations

Units: 4 ; G.E./G.R. Area: Diversity

The sociological study of race and ethnicity. Examines racial and ethnic stratification in the United States, including each student's own position within the nexus of race, ethnicity, and society.

Prerequisites: SOC 100.

Equivalent Quarter Course: SOC 3520.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Diversity*

SOC 330 - Environmental Sociology

Units: 4

An introduction to environmental justice theory and practice. Environmental racism and other forms of ecological injustice are examined. Claims made by diverse groups are probed, and policy and civil society responses to perceived environmental injustice are explored.

Equivalent Quarter Course: SOC 4422.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 340 - Sociology of Gender

Units: 4 ; G.E./G.R. Area: Diversity

Examines the position that gender is a system of categorization that is created and sustained within the structures and institutions of society. Explores the ways in which gender intersects with other social systems to produce different experiences, perspectives, and opportunities.

Prerequisites: SOC 100.

Equivalent Quarter Course: SOC 3411.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Diversity*

SOC 345 - American Society

Units: 3 ; G.E./G.R. Area: D4

Sociological perspective on important institutions and developments shaping life in American society today.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

SOC 350 - Sociology of Immigration

Units: 4 ; G.E./G.R. Area: Diversity

The political, cultural and social dynamics of immigration to the U.S. Topics include processes of settlement and incorporation; institutional responses to immigration; prejudice and discrimination against immigrants; immigration, social and personal identity; and intergenerational tensions.

Prerequisites: SOC 100.

Equivalent Quarter Course: SOC 3612.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Diversity*

SOC 355 - Global Society

Units: 4 ; G.E./G.R. Area: Sustainability

Examination of the global order with an emphasis on economic and political policies; technology and labor markets; global power relations; political unrest, resistance and social movements; local/global culture; global relations of gender, race & ethnicity; economic and environmental sustainability.

Equivalent Quarter Course: SOC 3431.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Sustainability*

SOC 360 - Sociology of Sexualities

Units: 4

An analysis of the social construction of sexuality. Topics may include the intersection of race, class, gender and sexuality; power and the construction of norms that influence sexual identities; and, the role of agency in generating alternative identities and practices.

Equivalent Quarter Course: SOC 4200.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 365 - Deviance and Social Control

Units: 4

The study of societal and situational deviance, both criminal and non-criminal, with emphasis on deviance as a social construction, and the role of power in defining deviance.

Equivalent Quarter Course: SOC 3745.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 370 - Sociology of Education

Units: 4 ; G.E./G.R. Area: Diversity

The role of educational institutions in industrial and post-industrial societies. The contributions of various theories to understanding how schools affect individuals and groups, and the relationship between education and systems of race/ethnicity, class, and gender.

Equivalent Quarter Course: SOC 3620.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Diversity*

SOC 375 - Urban Sociology

Units: 4

Historical and contemporary examination of urban life including community, race, geography, urban and suburban cultures and lifestyles, stratification, housing, crime, economic and environmental issues, demographic changes. Explores both urbanization in the US and in the international context.

Equivalent Quarter Course: SOC 4450.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SOC 380 - Sociology of Race, Crime and Justice

Units: 4

Critical analysis of contemporary American penal politics and punishment discourses. Emphasis on the state's role in criminalization processes and modern forms of social control. Racial, gender, and social inequality, and alternative policies promoting social justice and freedom, are examined.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 385 - Childhood and Society

Units: 4

Examines how childhood relates to social/political issues in society. Attention will be paid to understanding our own childhood, the social/historical construction of childhood, and race, class, gender and other social factors that intersect with childhood experiences.

Prerequisites: SOC 100.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 390 - Sociological Research Methods

Units: 4

Review of sociological research methods with an emphasis on learning: appropriate selection and use of

different methods; the limitations and strengths of each method; and, practicing qualitative and quantitative data collection and analysis.

Prerequisites: SOC 100 and STAT 100.

Equivalent Quarter Course: SOC 4111 and SOC 4112.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 3 units may be applied to the Sociology major or minor.

Equivalent Quarter Course: SOC 3898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

SOC 400 - Economy and Society

Units: 4 ; G.E./G.R. Area: Social Justice

Analysis of the relationship between economy and society with special attention paid to the evolution of economic practices that influence consumer debt, financial crises, and economic inequality.

Equivalent Quarter Course: SOC 4452.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Social Justice*

SOC 403 - Sociology of the Family

Units: 4

Sociological analysis of relationships between the family and other institutions. Examines different theories of family change and diversification and surveys leading research on key developments in families and policies that influence families and family patterns.

Equivalent Quarter Course: SOC 3410.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 405 - Sociology of Organizations

Units: 4

Bureaucratic organizations and agencies in the modern world in both the public and the private sector. Examples of both successful and failed public agencies will be analyzed in terms of relationship between policy goals and organizational structure.

Equivalent Quarter Course: SOC 3890.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 408 - Animals and Society

Units: 4

Introduction to the field of human-animal studies, studying the social meanings that shape the role and status of animals in society, as well as how constructions and treatment of animals shape human identity.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 410 - Child Welfare Policy

Units: 4

A broad history of the practices and institutions through which we raise our children. The U.S. "child welfare system" is described, including the problems it addresses, the means of addressing them, and the system's successes and failures.

Equivalent Quarter Course: SOC 4750.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 413 - Medical Sociology

Units: 4 ; G.E./G.R. Area: Social Justice

The roles of culture and social structure in mediating the health and illness experiences of individuals and groups. Topics include the social construction of illness, the relationships between patients and health professionals, and the organization of medical work.

Equivalent Quarter Course: SOC 4720.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Social Justice*

SOC 415 - Popular Culture

Units: 4

An analysis of the historical development of modern popular culture through its interaction with both elite and commercial cultures. Various examples from contemporary popular culture (for example: popular music, television, movies) will be examined in detail.

Equivalent Quarter Course: SOC 4400.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 418 - Sociology of Music

Units: 4

Music's connection to social/political issues. Sociological theory is used to understand musical culture, learn how music is connected to other social factors (race, class, and gender), and develop a deeper understanding of our personal musical preferences.

Prerequisites: SOC 100.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 420 - Political Sociology

Units: 4 ; G.E./G.R. Area: Social Justice

Social theories of the state and political power; sociology of political engagement and exclusion; sociology of political divisions around issues such as immigration, globalization, taxation, policing and incarceration, family policy, sustainability, and economic power.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Social Justice*

SOC 423 - Social Movements and Social Change

Units: 4

An examination of social movements and political actions. Theoretical perspectives on the origins, development, and outcomes of various social movements will be examined. Special attention is paid to historical and contemporary movements that emerged in response to social inequalities.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 425 - Work and Professions

Units: 4

Analysis of the transformation of the work process in the modern United States from one led by industrial manufacturing to an increasingly de-industrialized workplace of services, product design, advertising and finance.

Equivalent Quarter Course: SOC 3880.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 430 - Social Policy

Units: 4

Contemporary and historical nature of social policy in the United States, emphasizing at-risk populations and disenfranchised groups. Social problems such as homelessness, child abuse, poverty, and immigration.

Equivalent Quarter Course: SOC 3710.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 433 - Community Engagement

Units: 4 ; G.E./G.R. Area: Social Justice

Builds and promotes community engagement in non-profit community-based organizations. Probes and examines the dynamics of community service, volunteering, and service-based careers. This course includes volunteering in a Bay Area community based organization.

Equivalent Quarter Course: SOC 3614.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Social Justice*

SOC 435 - Social Psychology

Units: 4

Examines the relationship between the individual and society. Emphasis on scientific study of the social behavior and experiences stemming from individuals' participation in social groups, interaction with others, and the effects of the cultural environment and social structures on individuals.

Equivalent Quarter Course: SOC 3500.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SOC 440 - Alcohol and Drug Use

Units: 4

Examines social definitions and theories of drug use, overview of commonly used drugs, drug treatments and regulatory policies, and the political economy of drugs.

Equivalent Quarter Course: SOC 3750.

Possible Instructional Methods: *Entirely On-ground; Entirely On-line.*

Grading: A-F grading only.

SOC 443 - Death and Dying

Units: 4

Trends and patterns in death and dying including some or all of the following: historical perspectives, death in popular culture, demography of death, medical technology and dying, dying patient's perspective, survivors, and ethical dilemmas of death and dying.

Equivalent Quarter Course: SOC 3419.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 445 - Sociology of Emotions

Units: 4

Explores emotions as social constructs that are defined, shaped, changed, and transmitted through culture and social relations, often reflecting and reinforcing power and status differences.

Equivalent Quarter Course: SOC 3505.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 450 - Sociology of Food

Units: 4

Social processes in what, how and why we eat with emphasis on food production and consumption as instruments of social differentiation, identities and power.

Equivalent Quarter Course: SOC 3230.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 455 - Juvenile Delinquency

Units: 4

Examines social causes and contexts of juvenile delinquency. Focuses on government and legal responses to youth offenders, how these are shaped by social inequalities, discrimination, moral panics, and technology. Compares effectiveness and consequences of different responses and examines alternative strategies.

Equivalent Quarter Course: SOC 3730.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 460 - Marriage and Sex

Units: 4 ; G.E./G.R. Area: Diversity

A sociological and historical examination of sexual and intimate relationships. Emphasizes diversity in contemporary sexual and relationship patterns and covers issues like power in relationships, sexual socialization, gender and relationships, pornography, casual and long-term relationships, and managing conflicts.

Prerequisites: SOC 100.

Equivalent Quarter Course: SOC 3412.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Diversity*

SOC 465 - Mediation and Conflict Resolution

Units: 4

Covers theoretical and practical issues of how communities and individuals can resolve conflict. Focuses on mediation policies and mediator skills and gives students in-depth knowledge in alternative conflict resolution practices in diverse communities, in families, between individuals and companies.

Prerequisites: SOC 100.

Equivalent Quarter Course: SOC 3418.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

SOC 470 - Sociology of Travel and Tourism

Units: 4

Examines travel and tourism industry intertwined with multiple social institutions and social forces. Social contexts revealed through analyses of relationships between travel and tourism, consumption, cultural commodification, global relations of power and privilege, social inequality, and socio-cultural

identities.

Equivalent Quarter Course: SOC 3712.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 475 - Sociology of Sport

Units: 4

Sociological analysis of relationships between sport and other local and global institutions. Examines reciprocal linkages between sports and culture, politics, systems of inequality, and social mobility.

Prerequisites: SOC 100.

Equivalent Quarter Course: SOC 3424.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 478 - Sociology of Mega-Events

Units: 4

Examines the history, organization and politics of mega-events. Explores the accomplishments, problems, and consequences of these events on the destinations that host them, placing particular emphasis upon on the social and cultural impacts.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SOC 480 - Global Brazil

Units: 4 ; G.E./G.R. Area: Social Justice

This survey explores Brazilian society in global context from 1500 to the present, focusing on the cultural, economic, and social ties that connect Brazil to the rest of the world. Major themes include slavery, colonialism, race/ethnicity, and social inequality.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

G.E./G.R. Area Satisfied: *Overlay - Social Justice*

SOC 481 - Contemporary Brazil-Study Abroad

Units: 4

Introduces contemporary social issues- citizenship, race, education, policing, religion, social welfare,

health, and poverty will all be explored. Rio de Janeiro will serve as the setting to explore these issues. Summer abroad only.

Equivalent Quarter Course: SOC 3535.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 482 - Global Race and Ethnic Relations

Units: 4

A comparative socio-historical inquiry into race and ethnic relations from an international perspective. Global race and ethnic relations will be examined as a function of politics, ideology, discourse and power.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SOC 485 - Policing and Society

Units: 4

Examines issues related to police, policing, and police-related public policy. It addresses knowledge of crime, how the police respond to crime, and how institutions designed to address crime (police, courts, corrections) function. Race and class is also addressed.

Equivalent Quarter Course: SOC 4730.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 490 - Independent Study

Units: 1-4

Students may apply no more than 12 units of independent study in the major department and 8 units in other departments to a baccalaureate degree. Only open to undergraduate students who have at least a 2.0 (C) grade point average in all sociology courses.

Strongly Recommended Preparation: SOC 100.

Prerequisites: Department consent and minimum 2.0 GPA.

Equivalent Quarter Course: SOC 4900.

Repeatability: Maybe repeated for a maximum of 8 units with permission of instructor.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 491 - Professional Development

Units: 1

Explores career paths for Sociology majors. Students will create a resume; practice interview skills; and learn how to link skills to employment opportunities. Students will also explore graduate programs and will create an application packet for graduate school.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 492 - Capstone Project Support

Units: 1

Additional support and review of sociological theory and methods for students while completing their capstone projects.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

SOC 496 - Topics Seminar

Units: 4

Contributions of sociological theories, methods, and perspectives to selected topics beyond regular courses. Requires individual and group research.

Equivalent Quarter Course: SOC 4800.

Repeatability: Maybe repeated once for credit when content varies, for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 497 - Issues in Sociology

Units: 4

Readings, discussion, and research on important contemporary issues or topics in sociology. Issues covered vary, so check on course details.

Equivalent Quarter Course: SOC 3999.

Repeatability: May be repeated once for credit when content varies for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SOC 499 - Sociology Capstone Project

Units: 4

Design and completion of an independent research project using sociological theory to guide inquiry and sociological methods of gathering, analyzing, and organizing information.

Strongly Recommended Preparation: Two Diversity and Social Justice core courses, and two upper division SOC electives.

Prerequisites: All of: SOC 100, SOC 300, SOC 390, STAT 100.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Speech Pathology and Audiology

SPPA 300 - Communicative and Cognitive Development Across the Lifespan

Units: 3

Acquisition and development of speech, language, cognition, and communication from infancy through the lifespan in typically developing individuals. Topics include language and cognitive developmental milestones, development of pragmatic skills, and changes in these abilities across the lifespan. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Strongly Recommended Preparation: PSYC 100.

Prerequisites: B.S. Speech Pathology and Audiology majors or B.A. Liberal Studies: Concentration in Studies in Educational Psychology major.

Equivalent Quarter Course: SPPA 3852.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 301 - Anatomy and Physiology of Speech and Hearing

Units: 3

Anatomy and physiology of the speech and hearing mechanisms: respiration, phonation, articulation, resonance, hearing - with emphasis on normal processes. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: B.S. Speech Pathology and Audiology major or admitted graduate student; and BIOL 100.

Co-requisites: SPPA 300.

Equivalent Quarter Course: SPPA 3854.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 302 - Phonetics and Phonological Disorders

Units: 3

Study of speech sound production; transcription of typical and disordered speech via the International Phonetic Alphabet (IPA). Introduction to speech sound acquisition, including typical and atypical phonological processes. Overview of evidence-based assessment and intervention for articulation and phonological disorders. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: SPPA 300 and SPPA 301, and declared major in B.S. Speech Pathology and Audiology, or admitted graduate student.

Equivalent Quarter Course: SPPA 3855 and SPPA 4863.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 303 - Speech and Hearing Science

Units: 3

Acoustic fundamentals of hearing, voice, and speech, including audition (hearing sensitivity and thresholds, masking, critical bands, and speech perception), phonation (glottal source signal and source-filter theory), articulation (acoustical phonetics of consonants and vowels), resonance, and clinical applications. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Lecture Units: 2; Lab Units: 1

Prerequisites: SPPA 301 and PHYS 304, and declared major in B.S. Speech Pathology and Audiology, or admitted graduate student.

Co-requisites: SPPA 302.

Equivalent Quarter Course: SPPA 4867.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 304 - Introduction to Communication Disorders

Units: 3

Comprehensive review of disorders of communication, cognition and swallowing across the lifespan for students in Speech-Language Pathology and Audiology. Topics introduced include disorders of speech, language, cognition and swallowing while introducing basic tenets of professional writing and communication. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Declared major in B.S. Speech Pathology and Audiology, or admitted graduate student.

Equivalent Quarter Course: SPPA 2850.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 305 - Observation of Communication Disorders-Lab

Units: 1

Fifteen hours of supervised clinical observation of disorders of communication, cognition and swallowing; introduces tenets of clinical writing and documentation. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Declared major in B.S. Speech Pathology and Audiology, or admitted graduate student.

Equivalent Quarter Course: SPPA 3856.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

SPPA 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Department consent, minimum 2.0 GPA. and declared major in B.S. Speech Pathology and Audiology.

Credit Restrictions: No units may be applied to the Speech-Language Pathology major.

Equivalent Quarter Course: SPPA 3898

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

SPPA 400 - Careers in Communication Disorders

Units: 2

Comprehensive review of career options after earning a degree in Speech-Language Pathology and Audiology. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: SPPA 300, senior standing and declared major in B.S. Speech Pathology and Audiology.

Co-requisites: SPPA 304.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 401 - Neuroanatomy and Neurophysiology of Speech, Language and Hearing

Units: 3

Anatomy and physiology of the central and peripheral nervous systems as related to human cognitive and communicative function and dysfunction - with emphasis on normal processes. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: SPPA 301, SPPA 302, B.S. Speech Pathology and Audiology major, and senior standing, or admitted graduate student.

Equivalent Quarter Course: SPPA 4869.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 402 - Audiology and Audiological Assessment

Units: 3

Review of anatomy and physiology of the outer, middle and inner ear systems and emphasis on their clinical correlates. Theory and application of pure tone and speech audiometric procedures for identification and differential diagnosis of peripheral auditory disorders. Please note: effective spring 2019 this course prefix will change from SPPA to SLHS. *Lecture Units: 2; Lab Units: 1*

Prerequisites: Department consent.

Co-requisites: SPPA 403.

Equivalent Quarter Course: SPPA 3859 and SPPA 4861.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 403 - Audiometry Lab

Units: 1

Provide students with supervised instruction and experience in audiometric screening. May be used for partial fulfillment of roles and responsibilities of SLP-Assistants or School Audiometrists. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Department consent.

Co-requisites: SPPA 402.

Equivalent Quarter Course: SPPA 3859 and SPPA 4861.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 404 - Child Language Disorders

Units: 3

Introduction to the causes and characteristics of primary and secondary language and literacy disorders in children; evidence-based assessment and intervention across settings. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: B.S. Speech Pathology and Audiology major, senior standing, and all of: PSYC 100, SPPA 300, SPPA 301, SPPA 302, SPPA 304, SPPA 305.

Equivalent Quarter Course: SPPA 4865.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 405 - Multicultural Issues in Communicative Sciences and Disorders

Units: 3

Overview of knowledge and skills needed to competently serve diverse populations with communication disorders. Key topics include: components of culture, linguistic diversity, bilingualism and second language acquisition, health disparities, tenets of least-biased assessment, and culturally valid treatment.

Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.

Prerequisites: SPPA 301, SPPA 304, SPPA 404, senior standing and declared major in B.S. Speech Pathology and Audiology.

Equivalent Quarter Course: SPPA 4868.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 406 - Adult Neurocognitive Disorders

Units: 3

Clinical introduction to neurocognitive disorders, namely aphasia, dementia, cognitive impairments, traumatic brain injury, and right hemisphere disorder. Emphasizes learning about human cognitive and communicative systems, identifying characteristics of NCDs, identifying evidence-based principles and techniques for assessment and intervention. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: SPPA 301, SPPA 304, SPPA 401, senior standing and declared major in B.S. Speech Pathology and Audiology, or admitted graduate student.

Co-requisites: SPPA 407.

Equivalent Quarter Course: SPPA 4866.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 407 - Clinical Methods and Diagnostics

Units: 3

Basic principles of client assessment, treatment and management, including designing therapy hierarchies, collecting data, working with families, reinforcing correct behavior and documenting outcomes. Lab observation assignment required. Provides 10 hours of supervised clinical observation. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: SPPA 301, SPPA 302, SPPA 304, SPPA 305, SPPA 402, SPPA 403, SPPA 404, senior standing, and declared major in B.S. Speech Pathology and Audiology, or admitted graduate student.

Equivalent Quarter Course: SPPA 4852 and SPPA 4854.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: SPPA 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

SPPA 497 - Issues in Speech-Language Pathology

Units: 2

Readings, discussion, and research on contemporary and/or significant issues in speech pathology and audiology. Topics may include autism, traumatic brain injury, early intervention, dementia, head and neck cancer, and cleft palate. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: B.S. Speech Pathology and Audiology major, and either senior standing or admitted graduate student.

Equivalent Quarter Course: SPPA 3999.

Repeatability: May be repeated for credit when content varies, for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 508 - Lifespan Development and Child Language Disorders

Units: 4

Study of acquisition and development of speech, language, cognition, and communication from infancy through the lifespan in typically developing individuals and an introduction to causes and treatment of language disorders in children including evidence-based assessment and intervention across settings.

Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

Speech-Language Pathology: Graduate

SPPA 600 - Foundations of Clinical Practicum

Units: 2

Basic principles of clinical management, including foundations of therapy, performance analysis, professional documentation, development of therapeutic hierarchies, cueing, data collection, behavior

management, reinforcements and caregiver training. Emphasis on clinical/professional writing. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Co-requisites: SPPA 694.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 601 - Assessment and Treatment of Child Language Disorders

Units: 4

This course is designed to provide graduate students with the knowledge and skills necessary to provide evidence-based interventions for children with developmental disabilities including those with autism with an emphasis on developing functional communication for children and their families. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Equivalent Quarter Course: SPPA 6060.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 602 - Adult Neurogenic Disorders of Language and Cognition

Units: 4

Relationships between brain dysfunction and disorders of language and cognition. Content includes observation, administering and interpreting standardized and non-standardized assessments, differential diagnosis, designing treatment plans, and collecting data for evidence-based treatment decisions. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program, SPPA 301 and SPPA 406.

Equivalent Quarter Course: SPPA 6055.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 603 - Advanced Seminar on Articulation and Phonological Disorders

Units: 2

Advanced seminar on articulation and phonological disorders; addresses theoretical background, differential diagnosis and evidence-based intervention for articulation and phonological disorders, including the relationship between phonological disorders and development of literacy. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Equivalent Quarter Course: SPPA 6040; SPPA 603 and SPPA 697, if both completed, are equivalent to SPPA 6999.

Possible Instructional Methods: Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).

Grading: A-F grading only.

SPPA 604 - Speech Science and Voice Disorders

Units: 4

Instrumental analysis and quantitative assessment of normal and disordered respiratory, phonatory, articulatory, and resonance patterns. Differential diagnosis and treatment of organic and non-organic voice disorders. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program and SPPA 303.

Equivalent Quarter Course: SPPA 6010 and SPPA 6020.

Possible Instructional Methods: Hybrid (every section of this course may be taught both online and on-ground).

Grading: A-F grading only.

SPPA 605 - Dysphagia in Adults and Children

Units: 4

Evidence-based, contemporary practices for screening, assessment, and treatment of dysphagia in adults and children. Anatomy and physiology of normal swallowing, bedside and instrumental assessment of swallowing disorders, management of swallowing disorders, and ethical issues in clinical practice. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS. Lecture Units: 3; Clinical Units: 1*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Equivalent Quarter Course: SPPA 6220.

Possible Instructional Methods: Hybrid (every section of this course may be taught both online and on-ground).

Grading: A-F grading only.

SPPA 606 - Augmentative and Alternative Communication

Units: 3

Principles of assessment and intervention in augmentative/alternative communication for children and adults with complex communication needs. Includes hands-on experience with software and hardware. Open to professionals in relevant fields with instructor permission. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Equivalent Quarter Course: SPPA 6070.

Possible Instructional Methods: Hybrid (every section of this course may be taught both online and on-ground).

Grading: A-F grading only.

SPPA 607 - Advanced Seminar on Cultural and Linguistic Diversity

Units: 2

Knowledge, skills and attitudes essential for speech-language pathologists serving diverse populations with disorders of speech, language, hearing, cognition, and swallowing. Issues: second language acquisition, techniques for least-biased and dynamic assessment of clients, culturally relevant interviewing and intervention techniques. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Equivalent Quarter Course: SPPA 6040; SPPA 607 and SPPA 697, if both completed, are equivalent to SPPA 6999.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 608 - Research Methods and Evidence-based Practice

Units: 3

This course focuses on research methods in communicative disorders in order to train students to be active consumers and producers of research. Emphasis on integration of research and clinical practice through execution of a single-case research study. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Equivalent Quarter Course: SPPA 6000.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 609 - Motor Speech Disorders in Adults and Children

Units: 3

Differential diagnosis and evidence-based treatment of the dysarthrias, apraxia of speech, and other speech and voice disorders deriving from acquired and developmental neuropathologies in adults and children. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Equivalent Quarter Course: SPPA 6050.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 610 - Fluency Disorders

Units: 2

Theories of etiology, effective assessment and therapeutic approaches to fluency disorders in children and adults. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Equivalent Quarter Course: SPPA 6064.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 611 - Aural Rehabilitation

Units: 3

Advanced study of best practices in audiological rehabilitation including issues faced by clinicians when providing aural rehabilitation services across different clinical settings. Emphasis on forming aural rehabilitation groups and training communication strategies. Guided experience in facilitating group audiological rehabilitation. Please note: effective spring 2019 this course prefix will change from SPPA to SLHS. *Lecture Units: 2; Clinical Units: 1 (*see Errata - Course page for update)*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Equivalent Quarter Course: SPPA 6160.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 612 - Counseling in Speech-Language Pathology

Units: 2

Counseling issues related to speech-language pathology. Students will learn to explore the interpersonal/psychosocial dimensions of working with persons with communicative disabilities and to implement strategies that facilitate their clients' wellness through the lifespan. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Equivalent Quarter Course: SPPA 6080.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 690 - Independent Study

Units: 1-4

Independent study under the supervision of a member of the graduate faculty. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Department consent and minimum 3.0 GPA.

Equivalent Quarter Course: SPPA 6900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 693 - Professional Practices

Units: 2

Understanding policies, procedures, and state/federal/institutional regulations within various models of service delivery, including transitional care, interprofessional collaboration, and financial models.

Understanding licensure, credential, and certification application and maintenance requirements. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Equivalent Quarter Course: SPPA 6030.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

SPPA 694 - Practicum: Introduction to Treatment

Units: 2

Initial clinical practicum for clock hour credit for graduate students. Development, implementation, evaluation of individual therapy plans for clients with speech or language impairments. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: M.S. Speech-Language Pathology major.

Co-requisites: SPPA 600.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

SPPA 695 - Practicum: Treatment

Units: 2

Development, implementation, evaluation of individual therapy plans for clients with speech/language/hearing/cognition/swallowing conditions to develop skills in working with clients with multiple needs; increased independence and competency in clinical writing, oral case summarization, and conducting care conferences with family members of clients. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: M.S. Speech Language Pathology major and SPPA 694.

Equivalent Quarter Course: SPPA 6056.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

SPPA 696 - Practicum: Assessment

Units: 2

Supervised clinical assessment and diagnosis of disorders of speech, language, hearing, cognition and swallowing. Competencies targeted include history taking, test administration, clinical data analysis, client/family counseling, oral case presentation and written report writing. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS. Practicum Units: 1; Lab Units: 1*

Prerequisites: M.S. Speech-Language Pathology major.

Equivalent Quarter Course: SPPA 6057.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

SPPA 697 - Issues in Speech-Language Pathology

Units: 2

Readings, discussion, and research on contemporary and/or significant issues in speech pathology and audiology. Topics may include autism, traumatic brain injury, early intervention, dementia, head and neck cancer, and cleft palate. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Equivalent Quarter Course: SPPA 6040; SPPA 603 and SPPA 697, if both completed are equivalent to SPPA 6999; SPPA 607 and SPPA 697, if both completed are equivalent to SPPA 6999.

Repeatability: Course may be repeated for credit for a total of 4 units, when content varies.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

SPPA 698 - Internship

Units: 6

Field placement in supervised and approved clinical settings such as public schools, hospitals, and community speech-language and hearing clinics and/or programs. Clinical internships are typically completed in two distinct settings to provide requisite breadth of clinical training, and to meet professional accreditation and licensure/certification standards. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Admission to M.S. Speech-Language Pathology program.

Equivalent Quarter Course: SPPA 6066.

Repeatability: Must be repeated twice for credit for a maximum of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

SPPA 699 - Department Thesis

Units: 2

Completion of a supervised research project; includes a written research paper, and oral presentation of methodology and findings-in part fulfillment of the requirements for the M.S. degree in Speech-Language Pathology. Approved written proposal by assigned academic advisor required. Minimum cumulative 3.5 GPA. *Please note: effective spring 2019 this course prefix will change from SPPA to SLHS.*

Prerequisites: Department consent and graduate student enrolled in the MS Program in Speech-Language Pathology.

Equivalent Quarter Course: SPPA 6910.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

Statistics

STAT 100 - Elements of Statistics and Probability

Units: 3 ; G.E./G.R. Area: B4

Descriptive statistics (measures of central tendency, dispersion, correlation), elementary discrete probability distributions. Introduction to tests of statistical hypotheses. Use of computers. Must complete course with a grade of "C-" or better in order to earn General Education, Area B4, credit.

Co-requisites: STAT 100A required for students in Category III and IV.

Credit Restrictions: Not open to students with credit for STAT 110 or STAT 303.

Equivalent Quarter Course: STAT 1000.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B4 - Lower Division Mathematics/Quantitative Reasoning*

STAT 100A - Statistics Principles

Units: 1

This course supports quantitative reasoning skills needed for success in STAT 100 or STAT 110. Required for Category III and IV students taking STAT 100 or STAT 110.

Co-requisites: STAT 100 or STAT 110.

Repeatability: May be repeated for credit for a maximum of 3 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

STAT 101 - Statistics in Everyday Life

Units: 3 ; G.E./G.R. Area: B4

Statistics and probability in daily life. Principles of collecting, presenting and interpreting data in order to critically assess results reported in the media; emphasis is on understanding scientific and social studies; understanding probability, risk and odds.

Co-requisites: STAT 101A required for students in Category III and IV.

Credit Restrictions: Not open to students with credit for STAT 100, STAT 110 or STAT 303. Not for Statistics major or minor credit.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *B4 - Lower Division Mathematics/Quantitative Reasoning*

STAT 101A - Everyday Statistics Principles

Units: 1

This course supports quantitative reasoning skills needed for success in STAT 101. Required for Category III and IV students taking STAT 101.

Co-requisites: STAT 101.

Repeatability: May be repeated for credit for a maximum of 3 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

STAT 110 - Elements of Statistics for Business and Economics

Units: 3

Introduction to modern probability, descriptive statistics, estimation, hypothesis testing, and linear regression. Applications to business and economics. Use of computers.

Co-requisites: STAT 100A required for students in Category III and IV.

Credit Restrictions: Not open to students with credit for STAT 100 or STAT 303.

Equivalent Quarter Course: STAT 2010.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 303 - Statistical Methods in Biology

Units: 3

Basic probability and statistical concepts. Introduction to the analysis of variance, correlation, and simple linear regression. Nonparametric techniques with application to biology. Use of computer packages.

Lecture Units: 2; Lab Units: 1

Prerequisites: Completion of GE area B4.

Equivalent Quarter Course: STAT 3031.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 303A - Biostatistics for Health Science

Units: 3

Basic probability and statistical concepts. Introduction to the analysis of variance, correlation, and simple linear regression. Nonparametric techniques with application to health sciences. Use of computer packages. *Lecture Units: 2; Lab Units: 1*

Prerequisites: Completion of GE area B4.

Credit Restrictions: Not open to students with credit for STAT 303.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 305 - Statistics: From Data to Decisions

Units: 3

Fundamentals of statistical reasoning using real data from many disciplines. May include data science, social science, science, and business applications. Data visualization, simulation, and analysis using computer software. Data-driven decisions. Report writing.

Prerequisites: STAT 100.

Credit Restrictions: Not for Statistics B.S. degree credit, acceptable for Statistics minor.

Equivalent Quarter Course: STAT 3050.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 310 - Statistical Methods in the Social Sciences

Units: 3

Standard scores, t-scores, the normal distribution and its uses, hypothesis testing and estimation for means, paired comparisons, independent means, and analysis of variance. Linear regression and correlation. Uses of chi-squared. Introduction to design of experiments. Use of computer packages.

Lecture Units: 2; Activity Units: 1

Prerequisites: STAT 100.

Equivalent Quarter Course: STAT 3010.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 311 - Data Analysis using Statistical Packages

Units: 3

Using computer packages (e.g., SPSS, JMP) to analyze data and interpret output. Data collection and preparation, descriptive statistics, data visualization, checks for normality, t-tests, F-tests, ANOVA, cross tabulations, chi-squared tests, correlation, and factor analysis. Report writing or oral presentation.

Strongly Recommended Preparation: STAT 310.

Prerequisites: STAT 100 or STAT 110 or STAT 303 or STAT 316 or STAT 330.

Equivalent Quarter Course: STAT 3900.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 315 - Exploring and Analyzing Data

Units: 3

Foundations of data science from three perspectives: inferential thinking, computational thinking, and real-world relevance. Introduction to statistical programming and statistical inference with hands-on analysis of real-world datasets, including economic data, document collections, and social networks.

Lecture Units: 2; Activity Units: 1

Prerequisites: Completion of GE area B4.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 316 - Statistics and Probability for Science and Engineering

Units: 3

Basic probability rules (independence, Bayes' Theorem), distributions (binomial, Poisson, normal, exponential), reliability. Descriptive, inferential statistics (control charts, estimation, hypothesis testing: one, two samples), correlation, regression. Emphasizes: computer analysis, simulation; science, engineering applications.

Prerequisites: MATH 131.

Credit Restrictions: Not open for credit for those taking STAT 330.

Equivalent Quarter Course: STAT 3601.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 320 - Introduction to Probability Theory I

Units: 3

The theory of probability with applications to science and engineering. Selected topics may include: sample spaces; random variables; joint, marginal, conditional distributions; sampling and sampling distributions, expectations; probability distributions (binomial, Poisson, normal, etc.); and moment generating functions.

Prerequisites: MATH 130.

Equivalent Quarter Course: STAT 3401.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 321 - Probability Through Simulation

Units: 3

Introductory probability using simulation methods. Estimation of probabilities applying the Law of Large Numbers using repeated sampling. Accuracy of probabilities applying the Central Limit Theorem using repeated sampling. Simulating conditional probabilities using conditional programming techniques. Bootstrapping, Randomization Testing, Bayesian Modeling.

Prerequisites: CS 100.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 330 - Statistical Inference

Units: 3

Random variables, sampling distributions (binomial, Poisson, normal, exponential), conditional probability. Estimation, confidence intervals, hypothesis testing. Computer-aided computations. Topics include: t-tests, correlation, regression; proportions, chi-squared; ANOVA.

Prerequisites: One of: MATH 115, MATH 120, MATH 180.

Equivalent Quarter Course: STAT 3502.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 331 - Introduction to Analysis of Variance

Units: 3

Analysis of variance with emphasis on design and analysis of experiments. Use of data from social sciences, science, and business. Factorial designs, random effects, nesting. Optional topics: incomplete blocks, missing data, analysis of covariance. Use of statistical software. Report writing.

Prerequisites: STAT 316 or STAT 330.

Equivalent Quarter Course: STAT 3503.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 351 - Sampling Procedures for Surveys

Units: 3

Detailed investigation of sampling methods. Development of surveys. Design and comparisons of stratified, systematic, and cluster sampling procedures. Use of survey, statistical, and cloud-based software. Emphasis on applications to social sciences.

Prerequisites: STAT 100.

Equivalent Quarter Course: STAT 3510.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 401 - Analysis of Variance for Psychology

Units: 3 ; G.E./G.R. Area: D4

Analysis of variance including multiple comparisons and effect size. Factorial analysis of variance, interactions, repeated measures design, random effects design. Statistical analysis using SPSS. Analysis

of real data and report writing.

Prerequisites: Completion of GE Areas A1, A2, A3 and B4; and either STAT 310 or STAT 303.

Equivalent Quarter Course: STAT 4000.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *D4 - Upper Division Social Sciences*

STAT 432 - Introduction to Linear Regression and Logistic Regression

Units: 3

Computational methods in linear regression and logistic regression. Model selection methods. Predictive modeling and forecasting. Attention to model assessment, graphical techniques, and assumption checking. Emphasis on real data from science, social sciences, and business. Use of statistical software. Report writing.

Prerequisites: STAT 330 or STAT 310.

Equivalent Quarter Course: STAT 4601.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 450 - Introduction to R for Data Science

Units: 3

Introduction to the R environment and data analysis. Topics include use of dataframes and lists, importing and exporting different kinds of data files, writing user defined functions, R packages, Regression, Principle Components Analysis (PCA), and Clustering.

Prerequisites: One of: STAT 110, STAT 303, STAT 310, STAT 315, STAT 330.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 451 - Introduction to Data Visualization

Units: 3

Methods used in data visualization and interactive data exploration. Topics include importing, exporting and data merging, visualization of quantitative and qualitative data, effective graphs and charts, interactive maps, elements of visual perception, and meaningful visual representations of complex statistics.

Prerequisites: STAT 303 or STAT 310 or STAT 316 or STAT 330.

Equivalent Quarter Course: STAT 4868.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 452 - Introduction to Statistical Learning

Units: 3

Introduction to statistical machine learning. Supervised learning including linear regression, logistic regression, and classification methods. Unsupervised learning including clustering. Re-sampling methods such as random forests, cross-validation, boosting, and bagging. Applications to data mining, statistical pattern recognition, and data processing.

Prerequisites: One of: STAT 110, STAT 303, STAT 310, STAT 315, STAT 330.

Equivalent Quarter Course: STAT 4869.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 460 - Advanced Statistical Package Usage

Units: 3

Programming using an advanced statistical software package, producing reformatted data, advanced statistical analysis, and probability modeling. Topics may include graphics, spatial statistics, creating and managing data files, simulations, approximation algorithms.

Equivalent Quarter Course: STAT 4910.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 473 - Introduction to Nonparametric Statistics

Units: 3

Introduction to nonparametric methods and distribution-free inferential methods. Topics include resampling methods, permutation methods, and bootstrapping. Hypothesis testing and Estimation. Measures of association.

Prerequisites: STAT 310 or STAT 330.

Equivalent Quarter Course: STAT 4610.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 474 - Introduction to Time Series and Forecasting

Units: 3

Analysis of correlated data in time, trends, seasonal patterns, periodicity, autocorrelation, spectral analysis, filtering, time domain versus spectral domain. Decomposition, auto-regression, ARIMA, and forecasting. Applications to data in economics, engineering, seismology. Report writing. Use of computer software.

Prerequisites: One of: STAT 100, STAT 110, STAT 303, STAT 316, STAT 330.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 475 - Introduction to Stochastic Processes

Units: 3

Theory of stochastic models with applications to science and engineering. Poisson processes. Markov processes. Elementary birth-death processes, queues. Limit theorems. Computer simulation. Applications: e.g., reliability, epidemiology, Bayesian MCMC.

Prerequisites: STAT 320 or STAT 316.

Equivalent Quarter Course: STAT 4401.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice)

STAT 481 - Bayesian Statistics

Units: 3

Undergraduate course focusing on concepts, methodology and computation, with real data applications. Topics include Bayes' theorem, prior, posterior and predictive distributions, and hierarchical models. Computational strategies such as MCMC, model diagnostics and selection will be discussed.

Prerequisites: One of: STAT 316, STAT 320, STAT 321, STAT 330.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: STAT 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 495 - Data Analysis with SAS

Units: 3

Programming and applying SAS. Data preparation and transformation, macros, descriptive statistics. Topics from diagnostics, t-procedures, ANOVA, nonparametrics, cross-tabulation, chi-squared, correlation, regression. Report writing.

Prerequisites: STAT 330.

Equivalent Quarter Course: STAT 4950.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 497 - Issues in Statistics

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in statistics.

Equivalent Quarter Course: STAT 3999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 498 - Internship

Units: 1-3

Formal work opportunities integrating the academic program with their career aspirations. Integral hands-on experience enhancing education and preparing for professional and personal success.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 3 units may be applied to the Statistics major.

Equivalent Quarter Course: STAT 3898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Statistics: Graduate

STAT 620 - Probability and Statistical Theory

Units: 4

Probability and Statistical models used in many areas. Selected topics may include: basic probability concepts, probability models (discrete, continuous, univariate, and multivariate), sampling and sampling distributions, confidence intervals, hypothesis testing, expectation and variance, and simulation.

Prerequisites: Admission to M.S. Statistics major or M.S. Biostatistics program.

Equivalent Quarter Course:

STAT 6204 and STAT 6205.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 630 - Statistical Methods

Units: 4

Random variables, sampling distributions, conditional probability. Expectation. Estimation, method of moments, maximum likelihood. Confidence intervals. Hypothesis testing. Computer-aided computations and simulations. Topics include: t-tests, correlation, regression, proportions, chi-squared, ANOVA, nonparametrics, bootstrapping.

Prerequisites: Admission to M.S. Statistics major or M.S. Biostatistics program.

Equivalent Quarter Course: STAT 6304.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 631 - Analysis of Variance Models

Units: 4

Models for analysis of variance. Expected mean squares, factorial designs, random effects, nesting, power/sample size, mixed model, balanced/unbalanced designs, ANOVA model assessment. Computer-aided analysis. Report writing.

Prerequisites: STAT 630.

Equivalent Quarter Course: STAT 6305.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 632 - Linear and Logistic Regression

Units: 4

Simple linear regression, multiple linear regression models and logistic regression models. Inference about model parameters and predictions, diagnostic, assumption checking, remedial measures about the model, and model building. Emphasis on real data from science, engineering, and business. Computer-assisted analysis.

Prerequisites: STAT 630.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 640 - Advanced Statistical Theory

Units: 4

Theory of point and interval estimation and hypothesis testing from the Neyman-Pearson point of view. May include: decision theory, non-parametric inference, multivariate analysis, Bayesian methods, computer intensive methods, and statistical bootstrapping and simulation.

Prerequisites: STAT 620.

Equivalent Quarter Course: STAT 6501 and STAT 6502.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 641 - Bootstrapping Methods

Units: 2

Implementation of computationally-advanced statistical methods. Use of modern computing software (e.g. R, Python, SAS). Topics may include: bootstrap, Monte Carlo, and applied statistics.

Prerequisites: STAT 640.

Equivalent Quarter Course: STAT 6601.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 650 - Advanced R for Data Science

Units: 2

Professional R programming techniques. Data wrangling. R packages. Connections to databases. Use of R for reproducible research. Data Visualization. Use of R in cloud computing. Topics may include applied statistics, data science, and statistical/machine learning. Report writing.

Prerequisites: Post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 651 - Data Visualization

Units: 2

Methods used for data visualization and interactive exploration of Big Data. Topics include interactive maps, elements of visual perception, effective graphs and charts, and meaningful visual representations of complex statistics and large data sets. Report writing.

Prerequisites: One of: STAT 600 - STAT 699.

Equivalent Quarter Course: STAT 6610.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 652 - Statistical Learning

Units: 2

Statistical machine learning overview. Choosing a learning algorithm. Unsupervised learning including classification methods, nearest neighbors, naïve Bayes, decision trees and rules, neural networks, k-means. Supervised learning including linear regression and logistic regression. Model performance and evaluation. Confusion matrix. Report writing.

Prerequisites: Post-baccalaureate standing.

Equivalent Quarter Course: STAT 6620.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 653 - Statistical Natural Language Processing

Units: 2

Statistical topics used for processing natural language. Text wrangling and cleaning. Creating a word list corpus. Text classification. Web scraping. Social media mining. Data products. Report writing.

Prerequisites: Post-baccalaureate standing.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 654 - Introduction to Applied Deep Learning

Units: 2

Introduction to neural networks and deep neural networks, training a prediction model, avoiding over-fitting, tuning. Prediction and classification problems. Using R packages or Python to connect to h2o, tensorflow, keras. Report Writing.

Prerequisites: STAT 632.

Co-requisites:

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

STAT 660 - Advanced SAS I

Units: 2

Professional SAS® programming techniques. Data management and processing, Data integrity, Graphical presentation of data, Data reporting techniques. Topics in biostatistics and applied statistics. SAS data step and introduction to SAS macros, SAS reports, SAS SQL, and other relevant programming topics. Introduction to JMP. Report writing.

Prerequisites: One of: STAT 600 - STAT 699.

Equivalent Quarter Course: STAT 6250.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 661 - Categorical Data Analysis

Units: 2

Applied methods for discrete data. Topics may include: proportions and counts, contingency tables,

loglinear models, logistic regression, Poisson regression, generalized linear models. Data integrity. Computing techniques and analysis of discrete data. Use of SAS. Report writing.

Prerequisites: STAT 631 and STAT 632.

Equivalent Quarter Course: BSTA 6651 or STAT 6651.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Cross-listed: BSTA 661.

STAT 671 - Advanced JMP

Units: 2

Professional JMP® techniques. Interactive data management and processing, Data integrity, Graphical presentation of data and interactive data wrangling, Data reporting techniques. Design of experiments. Incorporation of external subroutines. Report writing.

Strongly Recommended Preparation: Current enrollment in or completion of a graduate level course in statistics.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 672 - Advanced Multivariate Statistics

Units: 2

Advanced, computer-based applications of multivariate analysis. Topics may include ANOVA, canonical correlation, principal components, discriminant functions, factor/cluster/spatial analysis. Emphasis on actual data, report writing.

Prerequisites: STAT 631, and either STAT 650 or STAT 660.

Equivalent Quarter Course: STAT 6515.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 673 - Nonparametric Statistical Methods

Units: 2

Nonparametric methods and distribution-free inferential methods. Topics include: Permutation methods, bootstrapping, and re-sampling methods. Hypothesis testing and estimation procedures. Exact, Monte-Carlo, and asymptotic p-values. Measures of association.

Prerequisites: STAT 631 and STAT 632.

Equivalent Quarter Course: STAT 6872.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 674 - Time Series

Units: 2

Analysis of correlated data in time, trends, seasonal patterns, periodicity, autocorrelation, spectral analysis, filtering, time domain versus spectral domain. Decomposition, auto-regression, ARIMA, state-space models, forecasting. Applications using to collect data in economics, engineering, seismology. Report writing. Use of statistical software.

Prerequisites: STAT 632.

Equivalent Quarter Course: STAT 6555.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 675 - Advanced Stochastic Processes and Simulation

Units: 2

Theory of stochastic models, Markov chains: classification, limiting behavior, Continuous-time Markov processes. Poisson, birth-death, Simulations of processes and probability modeling. Monte Carlo integration, Gibbs sampling. Use of statistical software. May include: additional limit theorems, queues, renewal theory, applications.

Prerequisites: STAT 620.

Equivalent Quarter Course: STAT 6310.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 676 - Advanced Probability

Units: 4

Advanced treatment of probability theory and its applications. May include: expectation, conditioning, generating/characteristic functions, modes of convergence, limit theorems, bivariate distributions, Monte Carlo simulation, Markov processes, combinatorial techniques, Markov Chain Monte Carlo, and Bayesian models.

Prerequisites: STAT 620.

Equivalent Quarter Course: STAT 6401.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 681 - Bayesian Statistics

Units: 2

Bayes Theorem, subjective probability, conjugate priors, non-informative priors, posterior estimation, credible intervals, prediction, sensitivity analysis, comparison to classical procedures. MCMC, Gibbs sampling, hierarchical Bayesian models. Use of statistical software. Report writing.

Prerequisites: STAT 630.

Equivalent Quarter Course: STAT 6550.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

STAT 690 - Independent Study

Units: 1-4

Independent study under the supervision of a member of the graduate faculty.

Prerequisites: Department consent and minimum 3.0 GPA.

Equivalent Quarter Course: STAT 6900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 692 - Comprehensive Exam Review

Units: 2

An overview of required courses in the M.S. programs in Statistics and Biostatistics. Comprehensive Exam for MS Statistics and Biostatistics programs.

Prerequisites: Admission to M.S. Statistics or M.S. Biostatistics program and department consent.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

STAT 694 - Applied Research in Statistics and Biostatistics

Units: 1-4

A collaborative research experience on a research topic designated by the instructor in the field of Statistics. Students conduct a literature search, develop a research proposal, complete a research project leading to a professional presentation, paper, or report.

Prerequisites: Admission to the Statistics graduate program.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

STAT 697 - Issues in Statistics

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in statistics.

Equivalent Quarter Course: STAT 6999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

STAT 698 - Internship

Units: 1-3

Formal advanced work opportunities integrating the academic program with their career aspirations.

Integral advanced hands-on experience enhancing education and preparing for professional and personal success.

Prerequisites: Department consent and minimum 3.0 GPA.

Credit Restrictions: No more than 3 units may be applied to the Statistics major.

Equivalent Quarter Course: STAT 6898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Teacher Education

TED 301 - Introduction to Education

Units: 3

Exploration of current issues in education through structured observations in T-K through high school classroom. Satisfies 15 hours documented pre-professional work in public schools. Field Component.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 302 - Introduction to Teaching

Units: 3

Roles and responsibilities of teaching. Self-reflection as a tool for personal growth and development in working with students. Course satisfies completion of 30 hours of documented work with students. Field Component.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No units may be applied to credential programs.

Equivalent Quarter Course: TED 3898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

TED 420 - Art Skills for Teachers

Units: 3

Designed specifically for teachers with little or no art experience. Work in drawing, printmaking, weaving, papier-mâché puppets, masks, batik, tie dyeing, lettering. Suggestions for translating teacher skills into activities for children. *Lecture Units: 2; Activity Units: 1*

Equivalent Quarter Course: TED 4320.

Repeatability: Course may be repeated once for credit, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

TED 425 - Arts Integration for Teachers

Units: 3

Designed specifically for teachers with little or no experience in the visual and performing arts. Work in integrating standards based theater, music, dance, and visual arts into elementary math, science and language arts content. *Lecture Units: 2; Activity Units: 1*

Equivalent Quarter Course: TED 4325.

Repeatability: May be repeated once, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

TED 470 - Early Childhood Education: Integrated Language & Literacy Development

Units: 3

Curriculum and instruction for language and literacy development in birth to five years old. Focus on cognition, comprehension, vocabulary, concepts about print, phonemic awareness, and writing development, needs of English Language Learners, and family literacy. Field Component.

Equivalent Quarter Course: TED 4070.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 471 - Early Childhood Education: Integrated Math and Science

Units: 3

Curriculum and instruction for integrated math and science in an early childhood setting. Focus on inquiry-based math and science instruction, emergent numeracy, concepts of number and pattern, and science concepts. Field component required.

Equivalent Quarter Course: TED 4072.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 472 - Early Childhood Education: Integrated Arts and Social Studies

Units: 3

Curriculum and instruction for integrated arts and social studies education in programs for birth to five year olds. Focus on integration of the visual and performing arts across the curriculum, family and community cultures. Field component

Equivalent Quarter Course: TED 4073.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 473 - Early Childhood Education: Inclusive Practices

Units: 3

Developmentally appropriate practice for children from birth to five years of age with disabilities, developmental delays, and those "at-risk". Early intervention, preschool programs, and other service delivery approaches examined from a culturally sensitive, family-focused perspective. Field component.

Equivalent Quarter Course: TED 4074.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 474 - Early Childhood Education: Professional Seminar and Practicum

Units: 4

Culminating course in Early Childhood Education Minor. Focus on preschool models, standards based instruction, positive classroom environment, leadership, parent education and personal growth in selected area of early childhood curriculum. Includes supervised early childhood field practicum. *Seminar Units: 3; Field Studies Units: 1*

Prerequisites: All of: TED 470, TED 471, TED 472, TED 473.

Equivalent Quarter Course: TED 4075.

Possible Instructional Methods: *Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: TED 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

TED 497 - Issues in Teacher Education

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in teacher education.

Equivalent Quarter Course: TED 3999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Teacher Education: Graduate

TED 535 - History Social Studies III: Instructional Methods in a Single Subject Classroom

Units: 3

Advanced course in the practice of instructional methodology in a single subject classroom with a focus on evaluation and assessment of social studies instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5392 and TED 5393 (Prior to 2016-17), TED 5448 and TED 5449 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 600 - Introduction to Graduate Studies

Units: 1

Familiarize students with online resources, university platforms, and foundations of graduate research studies.

Prerequisites: Admission to MS Early Childhood Education Program.

Equivalent Quarter Course: TED 6902.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 601 - Professional Research Seminar I

Units: 1

First course in series designed to familiarize students with research process and reflective practice. Emphasis on Human Subjects, selecting and clarifying topic, on-campus services, and self-reflection.

Prerequisites: TED 600.

Co-requisites: TED 611.

Equivalent Quarter Course: TED 6903.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 602 - Professional Research Seminar II

Units: 1

Second course in series designed to familiarize students with research process and reflective practice. Emphasis on components of research paper, innovating on research, clarifying topic importance, and self reflection.

Prerequisites: All of: TED 600, TED 601, TED 611.

Co-requisites: TED 612.

Equivalent Quarter Course: TED 6904.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 603 - Professional Research Seminar III

Units: 1

Third course in series designed to familiarize students with research process and reflective practice. Emphasis on creating informal devices to collect and analyze data, writing career plan, and self reflection.

Prerequisites: All of: TED 600, TED 601, TED 602, TED 611, TED 612.

Co-requisites: TED 693.

Equivalent Quarter Course: TED 6905.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 611 - Reading and Synthesizing Research in Education

Units: 3

Basic tenets of curriculum and research. Focus on critical analysis and synthesis of published research to write a review of the literature.

Prerequisites: TED 600.

Co-requisites: TED 601.

Equivalent Quarter Course: TED 6300 and TED 6700.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 612 - Understanding Design and Planning Research in Education

Units: 3

Writing a research proposal. Methods and procedures of research in education; sources and use of data, permissions, and protocols.

Prerequisites: All of: TED 600, TED 601, TED 611.

Co-requisites: TED 602.

Equivalent Quarter Course: TED 6020.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 613 - Implementing and Analyzing Research in P-12

Units: 3

Implementation and analysis of action research. Final synthesis paper and writing for professional purpose in education. Concurrent enrollment in TED 603.

Prerequisites: TED 601, TED 602, TED 611, TED 612.

Co-requisites: TED 603.

Equivalent Quarter Course: TED 6020 and TED 6015

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 620 - Advanced Studies in Mathematics Education

Units: 3

Current practice and pedagogical issues related to mathematics education that focus on national, state, and local standards. Emphasis on inquiry, problem-solving, conceptual understanding, and mathematical discourse.

Equivalent Quarter Course: TED 6010

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 621 - Advanced Studies in Science Education

Units: 3

Current practice and pedagogical issues related to science education, focusing on current national and state standards. Emphasis on inquiry-based learning, conceptual understanding and assessment of science while fostering classroom discourse.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: ABC/NC grading only.

TED 622 - Advanced Studies in Expository Reading and Writing

Units: 3

Critical reading, writing, and analytical skills of transitional kindergarten through grade 12 students. Effective and strategic techniques for reading and writing academic prose.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 623 - Advanced Studies in Methods for English Language Learners

Units: 3

Advanced work in current methods to develop reading, writing, listening and speaking in target language of students. Basis for specialized curriculum development for multilingual and cross-cultural settings.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 624 - Advanced Integrated Arts for All Teachers

Units: 3

Research and practice of using creativity and arts integration as effective pedagogy in all elementary and secondary classrooms. Focus on visual, performing and media arts.

Prerequisites: M.S. Education Program.

Equivalent Quarter Course: TED 4325.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be*

taught both online and on-ground).

Grading: A-F grading only.

TED 625 - Teachers as Agents of Change

Units: 3

Develop teachers as agents of change in classrooms and beyond. Models for delivering in-service based on needs assessment. Communication skills, advocacy activities, and strategies for working with communities and families.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 626 - Advanced Studies in Curriculum and Instruction

Units: 3

Principles and practices of curriculum and instruction. Critical examination and analysis of the components. Develop and implement curricular recommendations in a classroom setting.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 627 - Advanced Educational Psychology

Units: 3

Theories of learning and application to classroom teaching. Analysis of research findings applied to classroom issues and challenges.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 630 - Advanced Language & Literacy Development in Early Childhood Education

Units: 4

Curriculum and instruction for language, writing, and literacy development in birth through eight years. Cognition, comprehension, vocabulary, concepts about print, phonemic awareness, phonics, writing development, needs of English Language Learners, and family literacy. Field Component.

Equivalent Quarter Course: TED 6070 and TED 6071.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 631 - Advanced Integrated Math & Science in Early Childhood Education

Units: 3

Curriculum and instruction for math and science from birth through 8-years. Inquiry-based and hands-on instruction; emergent numeracy; concepts of number, correspondence, and pattern; instruction in prediction, exploration, and hypotheses. Field component.

Equivalent Quarter Course: TED 6072.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 632 - Advanced Integrated Arts & Social Studies in Early Childhood Education

Units: 3

Curriculum and instruction for integrated arts and social studies education from birth through 8-years. Focus on visual and performing arts across the curriculum. Family and community cultures. Field component.

Equivalent Quarter Course: TED 6071 and TED 6073.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 633 - Advanced Special Education Practices in Early Childhood Education

Units: 3

Developmentally appropriate practices for children birth through 8-years with high incidence disabilities, developmental delays, and considered at-risk. Early intervention and delivery approaches. Diverse, family-focused perspective. Field component.

Equivalent Quarter Course: TED 6074.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 634 - Professional Leadership in Early Childhood Education

Units: 2

Management and models of preschool centers, classrooms, and leadership topics. Critical analysis of current issues. Field Component.

Prerequisites: All of: TED 630, TED 631, TED 632, TED 633.

Co-requisites: TED 635.

Equivalent Quarter Course: TED 6075.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 635 - Field Based Practicum in Early Childhood Education

Units: 2

Culminating course in ECE fieldwork. Clinical supervision model. Community advocacy project.

Prerequisites: All of: TED 630, TED 631, TED 632, TED 633.

Co-requisites: TED 634.

Equivalent Quarter Course: TED 6076.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 660 - Literacy Research and Methods

Units: 3

Review research; learn normal progression of literacy development relative to grade-level standards; plan, implement, and assess research-based literacy instruction, including phonemic awareness, phonics, fluency, and writing for pre-K and up.

Prerequisites: Department consent.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 661 - Reading Comprehension Research and Methods

Units: 2

Review research; plan, implement and assess research-based literacy instruction, including oral language, vocabulary and reading comprehension for pre-K and up; facilitate use of print media and digital resources.

Prerequisites: Admission to M.S. in Reading and Literacy.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 662 - Culture of Literacy: Focus on Diversity

Units: 2

Review research; develop a culture of literacy capitalizing on students' diverse knowledge and skills; support second language development; plan, implement and assess instruction to students for diverse ethnic, cultural and socioeconomic groups.

Prerequisites: Admission to M.S. in Reading and Literacy.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 663 - Literacy Assessment

Units: 3

Review research; principles of formal and informal literacy-based assessments; select, administer and evaluate assessments for different audiences and purposes.

Prerequisites: Admission to M.S. in Reading and Literacy or Reading and Literacy Added Authorization.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 664 - Literacy Intervention

Units: 3

Review research; assess, instruct and provide intervention for each component of research-based literacy instruction; modify the curriculum to address specific needs of students; interpret and use assessment data to inform placement and intervention decisions.

Prerequisites: TED 663 with grade B- or better.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 670 - The Science of Reading Foundations

Units: 3

Literacy acquisition fundamentals; problems that some children encounter in learning to read. Practical application of current literacy research.

Prerequisites: Admission to M.S. in Reading and Literacy or Reading and Literacy Added Authorization.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 671 - Early Literacy Foundations

Units: 3

Literacy acquisition for children aged 0 - 12 years. Practical application of current literacy research.

Prerequisites: Admission to M.S. in Reading and Literacy or Reading and Literacy Added Authorization.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 672 - Secondary Literacy Foundations

Units: 3

Literacy acquisition for youth aged 13-18 years. Practical application of current literacy research.

Prerequisites: Admission to M.S. in Reading and Literacy or Reading and Literacy Added Authorization.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 687 - Reading Research & Evaluation

Units: 3

Introduction to research and evaluation of literacy development. Emphasis on language of research, review and analysis of research, and application of research to the classroom, school and other instructional settings. Review of needs assessment and other evaluation forms.

Prerequisites: Admission to M.S. in Reading and Literacy or Reading and Literacy Added Authorization.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 688 - Research in Education

Units: 1

Seminar in methods and procedures of research tools in education; sources and uses of data. Critical analysis of published research; preparation of a research project to include references, rationale, and outline.

Prerequisites: Admission to Reading Certificate (Added Authorization) or MS in Reading and Literacy Program and completion of TED 687 with a grade of B- or greater.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 690 - Independent Study

Units: 1-3

Independent study under direction of faculty.

Prerequisites: Department consent and minimum 3.0 GPA.

Equivalent Quarter Course: TED 6900.

Repeatability: May be repeated for credit for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 691 - University Thesis

Units: 1-4

Develop and write a formal research paper for submission to the University in a specified format. Supervision by a department committee, at least one of whom must be a Cal State East Bay faculty member.

Prerequisites: Department consent.

Repeatability: Course may be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 692 - Comprehensive Examination Preparation

Units: 2

Preparation for graduate comprehensive examination. Directed readings and review of sample questions.

Prerequisites: Department consent.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: CR/NC grading only.

TED 693 - Master's Project

Units: 3

Implementation and analysis of action research. Final syntheses paper and writing for professional purposes in education.

Prerequisites: All of: TED 600, TED 601, TED 602, TED 611, TED 612.

Co-requisites: TED 603.

Equivalent Quarter Course: TED 6901.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 695 - Practicum

Units: 1

Work with a struggling 4th- 8th grade student in reading comprehension. Plan, implement and assess lessons. Review progress towards goals in continuous planning cycle. Conduct final assessment and

analyze data for final report.

Prerequisites: Admission to M.S. in Reading and Literacy.

Co-requisites: TED 661, and TED 662.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 697 - Issues in Teacher Education

Units: 1-4

Readings and discussion on issues in teacher education. Topics vary by semester.

Repeatability: May be repeated for multiple topics for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 698 - Internship

Units: 1-3

Formal advanced work opportunities integrating the academic program with their career aspirations.

Integral advanced hands-on experience enhancing education and preparing for professional and personal success.

Prerequisites: Department consent.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 699 - Department Thesis

Units: 1-4

Develop and write a formal research paper for submission to the Department in a specified format.

Supervision by a department committee, at least one of whom must be a Cal State East Bay faculty member.

Prerequisites: Department consent.

Repeatability: Course may be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

Teacher Education: Post-Baccalaureate

TED 500 - Foundations of Multiple Subject Education

Units: 4

Foundations of education for elementary classrooms; application of learning principles for students, including those in multicultural settings; instruction and planning in the multiple-subject classroom.

Prerequisites: Admission to Multiple Subject Credential Program.

Equivalent Quarter Course: TED 5351 and TED 5311.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 501 - Introduction to Teaching Emergent Bilinguals

Units: 1

Guided Language Acquisition and Design (GLAD) practices that address the English language and subject-matter learning needs of emergent bilinguals in a multiple subject classroom.

Prerequisites: Admission to Multiple Subject Credential Program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 502 - Inclusive Teaching Practices in a Multiple Subject Classroom

Units: 3

Theory, content, and methods of teaching emergent bilinguals/English Learners in the elementary classroom; Principles of equity and diversity for emergent bilinguals, English learners and all students.

Prerequisites: Admission to Multiple Subject Credential Program.

Equivalent Quarter Course: TED 5355.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 503 - Equitable Teaching Practices in a Multiple Subject Classroom

Units: 3

Methods for teaching with emergent bilinguals and English learners; methods for working with special education students; teaching for equity and diversity for all students.

Prerequisites: TED 502.

Equivalent Quarter Course: TED 5366.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 504 - Introduction to Teaching Special Populations

Units: 1

Overview of and introduction to appropriate differentiated, individualized and classroom instructional strategies for a multiple subject setting.

Prerequisites: Admission to Multiple Subject Credential Program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 505 - Teaching English Learners in the Multiple Subject Classroom

Units: 3

Theory, content, and methods of teaching emergent bilinguals/English Learners in the elementary classroom; Principles of equity and diversity for emergent bilinguals, English learners and all students.

Prerequisites: Admission to Concurrent Multiple Subject and Education Specialist Credential Program and M.S. in Special Education.

Equivalent Quarter Course: TED 5355.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

TED 507 - Technology in the Multiple Subject Classroom

Units: 2

General and specific knowledge and skills appropriate to educational settings. Explores operations and concepts of basic technology and current trends in order to enhance personal and professional growth and productivity; integration of technology into the classroom.

Prerequisites: Admission to Multiple Subject Credential Program.

Equivalent Quarter Course: TED 5110.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 508 - Curriculum & Instruction: Reading

Units: 3

Theory, content and methods of a balanced, comprehensive program in reading, writing, and related language instruction in K-8 classrooms. Emphasis on research, phonemic awareness, phonics, word identification strategies, spelling, literature, state-adopted texts, application to English Learners and planning for instruction.

Prerequisites: Admission to Multiple Subject Credential Program.

Equivalent Quarter Course: TED 5352.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 509 - Curriculum & Instruction: Language Arts and Social Studies

Units: 4

Focus on development of a balanced, comprehensive program in reading, writing, and related language instruction in K-8 classrooms based on the California Language Arts Standards. Theory, content, and methods of teaching social studies in the elementary classroom.

Prerequisites: TED 508 with a C or better.

Equivalent Quarter Course: TED 5360

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 510 - Curriculum & Instruction: Mathematics in a Multiple Subject Classroom

Units: 3

Theory, content, and methods of teaching mathematics in the elementary classroom. Emphasis on number systems, operations, problem solving, assessment, resource materials, and sheltered instruction for English Learners/Emergent Bilinguals.

Prerequisites: Admission to Multiple Subject Credential Program.

Equivalent Quarter Course: TED 5350.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 511 - Curriculum & Instruction: Visual & Performing Arts

Units: 2

Theory, content, and methods of teaching visual and performing arts and methods of integrative teaching in the elementary classroom. Emphasis on problem based learning, integrative pedagogies across current standards and frameworks and sheltered instruction for English Learners/Emergent Bilinguals.

Prerequisites: Admission to Multiple Subject Credential Program.

Equivalent Quarter Course: TED 5377.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 512 - Curriculum & Instruction: Science in the Multiple Subject Classroom

Units: 3

Theory, content, and methods of teaching science in the elementary classroom. Emphasis on hands-on learning, STEM instruction, current science standards and framework and sheltered instruction for English Learners/Emergent Bilinguals.

Prerequisites: Admission to Multiple Subject Credential Program.

Equivalent Quarter Course: TED 5357.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 513 - Curriculum & Instruction: Health and Physical Education

Units: 2

Theory, content, and methods of teaching health and PE in the elementary classroom. Emphasis on integration of health and PE, current and inclusive pedagogy and teaching English Learners/Emergent Bilinguals.

Prerequisites: Admission to Multiple Subject Credential Program.

Equivalent Quarter Course: TED 5376.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 520 - Foundations of Single Subject Education

Units: 4

Foundations of education for middle school and high school classrooms; emphasis on application of learning principles for students, including multicultural settings; instruction and planning in the single subject classroom.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5301 and 5311.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 521 - Content Literacy for All Learners

Units: 4

Theory, research, and instructional methodology to teach content-based reading and writing skills to a full range of secondary-school students, including struggling readers, students with special needs, English learners and speakers of non-standard English, and advanced learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5320.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 522 - Introduction to Teaching Emergent Bilinguals

Units: 1

Guided Language Acquisition and Design (GLAD) practices that address the English language and subject-matter learning needs of emergent bilinguals.

Prerequisites: Admission to Single Subject Credential Program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 523 - Inclusive Teaching Practices in a Single Subject Classroom A

Units: 3

Principles, policies, and practices that address the English language and subject matter learning needs of English learners. Development of effective patterns, strategies, materials to assist prospective teachers to work with the broad range of identified, gifted and at-risk students.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5326

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 524 - Inclusive Teaching Practices in a Single Subject Classroom B

Units: 3

Concluding course in sequence addressing the needs of English language learners/emergent bilinguals and special education students in general education classrooms.

Prerequisites: Admission to Single Subject Credential Program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 525 - Teaching Special Education Students in a Single Subject Classroom

Units: 1

Overview of and introduction to appropriate differentiated, individualized and classroom instructional strategies for single subject settings.

Prerequisites: Admission to Single Subject Credential Program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 528 - Technology in the Single Subject Classroom

Units: 2

General and specific knowledge and skills appropriate to educational settings. Explores operations and concepts of basic technology and current trends in order to enhance personal and professional growth and productivity, integration of technology into the classroom.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5110.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 529 - Professional Responsibilities in Education

Units: 3

Professional issues, rights and responsibilities of teachers and students. Self-assessment and self-direction for continuing professional growth.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5318.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 530 - English I: Instructional Methods in a Single Subject Classroom

Units: 3

Introductory course in the practice of instructional methodology in a single subject classroom with a focus on the theory and practice of English instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5390 and TED 5391 (Prior to 2016-17), TED 5450 and TED 5451 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 531 - English II: Instructional Methods in a Single Subject Classroom

Units: 3

Intermediate course in the practice of instructional methodology in a single subject classroom with a focus on planning and delivery of English instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5391 and TED 5392 (Prior to 2016-17), TED 5451 and TED 5452 (2016-17 and 2018-19).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 532 - English III: Instructional Methods in a Single Subject Classroom

Units: 3

Advanced course in the practice of instructional methodology in a single subject classroom with a focus on evaluation and assessment of English instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5392 and TED 5393 (Prior to 2016-17), TED 5452 and TED 5453 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 533 - Historical Social Studies I: Instructional Methods in a Single Subject Classroom

Units: 3

Introductory course in the practice of instructional methodology in a single subject classroom with a focus on the theory and practice of social studies instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5390 and TED 5391 (Prior to 2016-17), TED 5446 and TED 5447 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 534 - History Social Studies II: Instructional Methods in a Single Subject Classroom

Units: 3

Intermediate course in the practice of instructional methodology in a single subject classroom with a focus on planning and delivery of social studies instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5391 and TED 5392 (Prior to 2016-17), TED 5447 and TED 5448 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 536 - Science I: Instructional Methods in a Single Subject Classroom

Units: 3

Introductory course in the practice of instructional methodology in a single subject classroom with a focus on the theory and practice of science instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5390 and TED 5391 (Prior to 2016-17), TED 5458 and TED 5459 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 537 - Science II: Instructional Methods in a Single Subject Classroom

Units: 3

Intermediate course in the practice of instructional methodology in a single subject classroom with a focus on planning and delivery of science instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5391 and TED 5392 (Prior to 2016-17), TED 5459 and TED 5460 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 538 - Science III: Instructional Methods in a Single Subject Classroom

Units: 3

Advanced course in the practice of instructional methodology in a single subject classroom with a focus on evaluation and assessment of science instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5392 and TED 5393 (Prior to 2016-17), TED 5460 and TED 5461 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be*

taught both online and on-ground).

Grading: A-F grading only.

TED 539 - Mathematics I: Instructional Methods in a Single Subject Classroom

Units: 3

Introductory course in the practice of instructional methodology in a single subject classroom with a focus on the theory and practice of mathematical methods instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5390 and TED 5391 (Prior to 2016-17), TED 5454 and TED 5455 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 540 - Mathematics II: Instructional Methods in a Single Subject Classroom

Units: 3

Intermediate course in the practice of instructional methodology in a single subject classroom with a focus on planning and delivery of mathematical methods instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5391 and TED 5392 (Prior to 2016-17), TED 5455 and TED 5456 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 541 - Mathematics III: Instructional Methods in a Single Subject Classroom

Units: 3

Introduction to theory and practice of instructional methodology in a single subject classroom. Separate courses for art, Chinese, dance, English, French, Hindi, mathematics, music, physical education, science, social studies, Spanish and theater.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5392 and TED 5393 (Prior to 2016-17), TED 5456 and TED 5457 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 542 - Visual Arts I: Instructional Methods in a Single Subject Classroom

Units: 3

Introduction to theory and practice of instructional methodology in a single subject classroom. Separate courses for art, Chinese, dance, English, French, Hindi, mathematics, music, physical education, science, social studies, Spanish and theater.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5390 and TED 5391 (Prior to 2016-17), TED 5462 and TED 5463 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 543 - Visual Arts II: Instructional Methods in a Single Subject Classroom

Units: 3

Theory and practice of instructional methodology in a single subject classroom. Application in the beginning weeks of a teaching assignment. Separate courses for art, Chinese, dance, English, French, Hindi, mathematics, music, physical education, science, social studies, Spanish and theater.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5391 and TED 5392 (prior to 2016-17), TED 5463 and TED 5464 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 544 - Visual Arts III: Instructional Methods in a Single Subject Classroom

Units: 3

Introduction to theory and practice of instructional methodology in a single subject classroom. Separate courses for art, Chinese, dance, English, French, Hindi, mathematics, music, physical education, science, social studies, Spanish and theater.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5392 and TED 5393 (Prior to 2016-17), TED 5465 and TED 5466 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 545 - Music I: Instructional Methods in a Single Subject Classroom

Units: 3

Introduction to theory and practice of instructional methodology in a single subject classroom. Separate courses for art, Chinese, dance, English, French, Hindi, mathematics, music, physical education, science,

social studies, Spanish and theater.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5390 and TED 5391 (Prior to 2016-17), TED 5466 and TED 5467 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 546 - Music II: Instructional Methods in a Single Subject Classroom

Units: 3

Intermediate course in the practice of instructional methodology in a single subject classroom with a focus on planning and delivery of Music instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5391 and TED 5392 (Prior to 2016-17), TED 5468 and TED 5469 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 547 - Music III: Instructional Methods in a Single Subject Classroom

Units: 3

Advanced course in the practice of instructional methodology in a single subject classroom with a focus on evaluation and assessment of Music instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5392 and TED 5393 (Prior to 2016-17), TED 5469 and TED 5470 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 548 - Physical Education I- Instructional Methods in a Single Subject Classroom

Units: 3

Introductory course in the practice of instructional methodology in a single subject classroom with a focus on the theory and practice of Physical Education instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5390 and TED 5391 (Prior to 2016-17), TED 5480 and TED 5481 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be*

taught both online and on-ground).

Grading: A-F grading only.

TED 549 - Physical Education II- Instructional Methods in a Single Subject Classroom

Units: 3

Intermediate course in the practice of instructional methodology in a single subject classroom with a focus on planning and delivery of Physical Education instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5391 and TED 5392 (Prior to 2016-17), TED 5481 and TED 5482 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 550 - Physical Education III - Instructional Methods in a Single Subject Classroom

Units: 3

Advanced course in the practice of instructional methodology in a single subject classroom with a focus on evaluation and assessment of Physical Education instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5392 and TED 5393 (Prior to 2016-17), TED 5482 and TED 5483 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 551 - Spanish I- Instructional Methods in a Single Subject Classroom

Units: 3

Introductory course in the practice of instructional methodology in a single subject classroom with a focus on the theory and practice of Spanish instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5390 and TED 5391 (Prior to 2016-17), TED 5450 and TED 5471 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 552 - Spanish II: Instructional Methods in a Single Subject Classroom

Units: 3

Intermediate course in the practice of instructional methodology in a single subject classroom with a focus on planning and delivery of Spanish instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5391 and TED 5392 (prior to 2016-17), TED 5371 and TED 5372 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 553 - Spanish III - Instructional Methods in a Single Subject Classroom

Units: 3

Advanced course in the practice of instructional methodology in a single subject classroom with a focus on evaluation and assessment of Spanish instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5392 and TED 5393 (prior to 2016-17), TED 5472 and TED 5473 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 554 - French I - Instructional Methods in a Single Subject Classroom

Units: 3

Introductory course in the practice of instructional methodology in a single subject classroom with a focus on the theory and practice of French instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 555 - French II - Instructional Methods in a Single Subject Classroom

Units: 3

Intermediate course in the practice of instructional methodology in a single subject classroom with a focus on planning and delivery of French instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 556 - French III - Instructional Methods in a Single Subject Classroom

Units: 3

Advanced course in the practice of instructional methodology in a single subject classroom with a focus on evaluation and assessment of French instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 557 - Hindi I: Instructional Methods in a Single Subject Classroom

Units: 3

Introductory course in the practice of instructional methodology in a single subject classroom with a focus on the theory and practice of Hindi instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5390 and TED 5391 (prior to 2016-17), TED 5474 and TED 5475 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 558 - Hindi II: Instructional Methods in a Single Subject Classroom

Units: 3

Intermediate course in the practice of instructional methodology in a single subject classroom with a focus on planning and delivery of Hindi instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5391 and TED 5392 (prior to 2016-17), TED 5475 and TED 5476 (2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 559 - Hindi III: Instructional Methods in a Single Subject Classroom

Units: 3

Advanced course in the practice of instructional methodology in a single subject classroom with a focus on evaluation and assessment of Hindi instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Equivalent Quarter Course: TED 5392 and TED 5393 (prior to 2016-17), TED 5476 and TED 5477

(2016-17 and 2017-18).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 560 - Chinese I: Instructional Methods in a Single Subject Classroom

Units: 3

Introductory course in the practice of instructional methodology in a single subject classroom with a focus on the theory and practice of Chinese instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 561 - Chinese II: Instructional Methods in a Single Subject Classroom

Units: 3

Intermediate course in the practice of instructional methodology in a single subject classroom with a focus on planning and delivery of Chinese instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 562 - Chinese III: Instructional Methods in a Single Subject Classroom

Units: 3

Advanced course in the practice of instructional methodology in a single subject classroom with a focus on evaluation and assessment of Chinese instruction to diverse learners.

Prerequisites: Admission to Single Subject Credential Program.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F grading only.

TED 570 - Multiple Subject Fieldwork Seminar I

Units: 1

Seminar to support first semester of multiple subject fieldwork.

Prerequisites: Admission to Multiple Subject Credential Program.

Co-requisites: TED 580 or TED 582.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

TED 571 - Multiple Subject Fieldwork Seminar II

Units: 1

Seminar to support second semester of multiple subject fieldwork.

Prerequisites: Admission to Multiple Subject Credential Program.

Co-requisites: TED 581 or TED 583.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

TED 575 - Single Subject Fieldwork Seminar I

Units: 1

Seminar to support first semester of single subject fieldwork.

Prerequisites: Admission to Single Subject Credential Program.

Co-requisites: TED 585 or TED 587.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

TED 576 - Single Subject Fieldwork Seminar II

Units: 1

Seminar to support second semester of single subject fieldwork.

Prerequisites: Admission to Single Subject Credential Program.

Co-requisites: TED 586, or TED 588.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

TED 580 - Multiple Subject Student Teaching I

Units: 4

Required field work for multiple subject credential candidates.

Prerequisites: Admission to Multiple Subject Credential Program.

Co-requisites: TED 570.

Equivalent Quarter Course: TED 5354.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

TED 581 - Multiple Subject Student Teaching II

Units: 5

Required field experience for multiple subject credential.

Prerequisites: Admission to Multiple Subject Credential Program.

Co-requisites: TED 571.

Equivalent Quarter Course: TED 5359 and TED 5361.

Possible Instructional Methods: *Entirely On-ground.*

Grading: CR/NC grading only.

TED 582 - Multiple Subject Intern Teaching I

Units: 5

Required fieldwork for multiple subject credential candidates.

Prerequisites: Admission to Multiple Subject Credential Program.

Co-requisites: TED 570.

Equivalent Quarter Course: TED 5354.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

TED 583 - Multiple Subject Intern Teaching II

Units: 5

Required fieldwork for multiple subject credential candidate.

Prerequisites: Admission to Multiple Subject Credential Program.

Co-requisites: TED 571.

Equivalent Quarter Course: TED 5359 and TED 5361.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

TED 585 - Single Subject Field Placement I

Units: 5

Required field experience for single subject credential candidates.

Prerequisites: Admission to Single Subject Credential Program.

Co-requisites: TED 575.

Equivalent Quarter Course: TED 5381.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

TED 586 - Single Subject Field Placement II

Units: 5

Required field experience for single subject credential candidates.

Prerequisites: Admission to Single Subject Credential Program.

Co-requisites: TED 576.

Equivalent Quarter Course: TED 5382 and TED 5383.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

TED 587 - Single Subject Intern Teaching I

Units: 5

Required field experience for single subject credential candidates.

Prerequisites: Admission to Single Subject Credential Program.

Co-requisites: TED 575.

Equivalent Quarter Course: TED 5381 and TED 5382.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

TED 588 - Single Subject Intern Teaching II

Units: 5

Required field experience for single subject credential candidates.

Prerequisites: Admission to Single Subject Credential Program.

Co-requisites: TED 576.

Equivalent Quarter Course: TED 5381 and 5382.

Possible Instructional Methods: *Entirely On-ground.*

Grading: ABC/NC grading only.

Theatre Arts: Activity

THEA 150 - Improvisation for Life, Stage and Wellbeing

Units: 2 ; G.E./G.R. Area: C1

The tools and the power of play. Developing creative, ingenious change makers in all disciplines and facets of life. Improvisation is the ability to "be in the moment," a critical ingredient for our global survival.

Credit Restrictions: Only 2-units of this course are applicable towards major.

Repeatability: May be repeated for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

THEA 151 - Fundamentals of Acting

Units: 3

Using exercises to free the body, intelligence, voice and emotions in the service of relating a memorized text to the given circumstances. Using action, objective, and obstacle and investing them with high stakes.

Discussion Units: 2; Activity Units: 1

Equivalent Quarter Course: THEA 2035 or THEA 1020.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 251 - Stage Voice and Classical Repertoire

Units: 2

Fundamentals of voice production. Includes warm-ups, resonance, relaxation, projection, and breath control, articulation, emphasis, and dialect work in Standard British, Cockney and Irish.

Equivalent Quarter Course: THEA 2031 and THEA 2032.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 252 - Voice and Movement for Actors

Units: 2

The connection of body and voice in the art of stage acting. Emphasis on creating a powerful unified vocal and physical performance presence onstage. Focus on accessing classical texts, realistic and abstract performance, and songs.

Prerequisites: Theatre Arts major.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 255 - Acting on Camera

Units: 3 ; G.E./G.R. Area: C1

The art and technique of acting on camera. Defining your "type" on camera. Meeting the demands and challenges of the camera. Monologue and scene work for film, television, and commercial auditions.

Prerequisites: THEA 110 or THEA 151.

Equivalent Quarter Course: THEA 3052.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

THEA 341 - Dramatic Activities for Children

Units: 3 ; G.E./G.R. Area: C4

Theatre as a means to build and develop creative capacity in children. Includes theatre games, improvisation, puppetry, mask making, and other dramatic activities. Creating lesson plans and teaching a variety of content with creative drama techniques. *Lecture Units: 2; Activity Units: 1*

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: THEA 3650.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

THEA 351 - Intermediate Acting

Units: 3

Builds on the basics of actor training through the principles of Constantine Stanislavski. Stress on the actor's ability to use "self" believably, as well as willingness to transform that "self" beyond its boundaries. *Discussion Units: 2; Activity Units: 1*

Prerequisites: THEA 110 or THEA 151.

Equivalent Quarter Course: THEA 3057.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 371 - Musical Theatre Techniques

Units: 3

Solo songs as monologues; analyzing the musical notations; emotional journey of a song; physically embodying the song. Healthy singing technique. Staging of group songs emphasizing singing, dancing, and acting as an ensemble.

Equivalent Quarter Course: Any one from: THEA 3048, THEA 3049, THEA 4048, THEA 4049.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 372 - Musical Theatre Rehearsal

Units: 1

Rehearsal technique and performance of small ensemble musicals or musical revues. Developing characterizations based on singing, dance, and acting techniques; working as an ensemble; and, heightened lyricism.

Prerequisites: THEA 371.

Equivalent Quarter Course: THEA 2044 or THEA 3048 or THEA 3049.

Repeatability: May be repeated for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 493 - Theatre Projects Capstone

Units: 3

Culminating projects and classroom workshop productions of short plays and new works. Works from various styles and periods. Opportunity to develop a main character, direct, design, or address other compelling issues of performance.

Strongly Recommended Preparation: Complete other Core courses and bulk of one concentration.

Prerequisites: DANC 360 or DANC 362; and DANC 401 or THEA 432; and THEA 151, THEA 461 and THEA 462.

Co-requisites: THEA 381 or THEA 382 or THEA 360.

Equivalent Quarter Course: Either THEA 4038 and THEA 4039; or THEA 4151 and THEA 4152.

Repeatability: May be repeated for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

Theatre Arts: Theatre

THEA 100 - Theatre: A Spotlight on Life

Units: 3 ; G.E./G.R. Area: C2

Theatre as an art form and cultural influence. Creating theatre through dramatic structure and imagination. The contributions of the playwright, actor, director, and designer. The collaborative nature of theatre.

Equivalent Quarter Course: Any one from: DANC 1200, DANC 1201, DANC 1202, DANC 1203, THEA 1010, THEA 1013, THEA 1016, THEA 1200, THEA 2211.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

THEA 101 - Doing The Right Thing: Social Justice Theatre

Units: 3 ; G.E./G.R. Area: C1; Social Justice

The legacy of American social change artists and how ethnic, racial, and gender obstacles helped forge creative expression in theatre and spoken word. Artists as outlaws, rebels, and change makers outside the mainstream.

Equivalent Quarter Course: THEA 1016.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts, Overlay - Social Justice*

THEA 102 - Asian American Theatre

Units: 3 ; G.E./G.R. Area: C2

Asian Pacific Island American (APIA) Theatre and an overview of APIA influences on American Theater and pop culture. Students will research, analyze, experiment, rehearse and perform APIA dramatic/comedic work and spoken word from APIA artists.

Equivalent Quarter Course: THEA 2211.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

THEA 103 - Ancient Theatre

Units: 3 ; G.E./G.R. Area: C1

Dramatic texts of ancient theatre, especially ancient Greek and Roman periods. Special emphasis on performance space, costumes, and masks. Exercises to reveal how theatre artists analyze literature for presentation.

Equivalent Quarter Course: THEA 1013.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

THEA 110 - Discover Acting

Units: 3 ; G.E./G.R. Area: C1

Introduction to acting techniques for improving self-expression and observation skills. Introductory acting designed for non-majors. Suitable for those who work with people of all ages in education, recreation, business, and mass communication.

Equivalent Quarter Course: THEA 1020.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

THEA 111 - Costume Techniques

Units: 1

Basic sewing skills. Process of constructing a costume to clothe a character. Build a complete garment by the end of the semester. Skills and knowledge apply to everyday clothing.

Credit Restrictions: Only one unit applicable to major.

Equivalent Quarter Course: THEA 2422.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 112 - Makeup Techniques

Units: 1

Essential makeup skills. Processes for stage makeup to design a character or enhance features for stage lighting. Skills and knowledge apply to everyday situations.

Credit Restrictions: Only one unit may be applied to the B.A. Theatre Arts major.

Equivalent Quarter Course: THEA 2430.

Repeatability: May be repeated for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 113 - Stage Lighting Techniques

Units: 1

Basic techniques of lighting production. Electricity, control systems, fixtures, color media and accessories; fundamentals of lighting design and documentation; experience hanging and focusing stage lights. Guided introduction to ladder, catwalk, and personnel lift safety. Open to non-majors.

Equivalent Quarter Course: THEA 2423.

Repeatability: May be repeated for credit for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 114 - Sound Production Techniques

Units: 1

Introduction to sound production and design for performance. Analyzing scripts; gathering pre-recorded sounds from digital, analog, and live sources; recording and editing sound files digitally; formatting for playback in performance; fundamentals of sound reinforcement. Assist setups and observe productions.

Equivalent Quarter Course: THEA 2424 and THEA 2428.

Repeatability: May be repeated for a maximum of 2 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 231 - Creating Theatre from Personal Experience

Units: 3 ; G.E./G.R. Area: C1

Reframing personal experience; confidence to tell your own tale through theatrical exercises, games and improvisation. Devising monologues, scenes, spoken word, and poetry. Developing a portfolio of ideas and outlines for future written and marketable treatments. *Discussion Units: 2; Activity Units: 1*

Equivalent Quarter Course: THEA 2073 or THEA 2074 or THEA 2075.

Repeatability: May be repeated for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

THEA 232 - Oral Interpretation of Literature

Units: 3 ; G.E./G.R. Area: C2

The artistic process of studying literature through performance. The critical analysis of texts and guided practice in the effective use of voice and body to communicate the meaning found in poetry, prose, and dramatic texts.

Equivalent Quarter Course: THEA 2310.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

THEA 233 - Pilipinix Culture: Theatre Ensemble

Units: 2 ; G.E./G.R. Area: C2; Diversity

Introduction to the theatrical process of culturally specific theatre production. Producing a student-written premiere through auditions, casting, rehearsals, publicity, fundraising, building sets, props, costume, and sound.

Equivalent Quarter Course: Any one from: THEA 2072, THEA 3071, THEA 3072, THEA 3311.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities, Overlay - Diversity*

THEA 234 - Social Justice Theatre Ensemble

Units: 2 ; G.E./G.R. Area: C2; Social Justice

Introduction to applied theatre, creations based on contemporary issues or events using scripts, other literature, or original work devised in class. Assignments cover practices that include writing, rehearsal, performance, stage management, sets, costumes, lights, sound, publicity, and stage crew.

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

THEA 243 - What's so Funny? Comedic Genius Since the Sixties

Units: 3 ; G.E./G.R. Area: C1

Comic genius in America since the sixties. Society and pop culture skewered by brilliant, perceptive social commentators. Concerning situations from natural disasters to the confusing world of politics and national policy, we love to laugh, to keep from crying.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

THEA 244 - The Genre of Horror

Units: 3 ; G.E./G.R. Area: C2

American Horror and Science Fiction with roots in French Grand Guignol (gory effects) and German Expressionist literature. Landmarks that advanced the stage and film. Iconic films and contemporary theatre spawned by Cold War fears and emerging technology.

Credit Restrictions: Not open for credit to Theatre Arts major.

Equivalent Quarter Course: THEA 3217.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C2 - Lower Division Humanities

THEA 245 - Secrets of Backstage Production

Units: 3 ; G.E./G.R. Area: C1

Artistic and production processes of show business. The progression from concept to rehearsal to performance. Creative exercises to explore technology like sets and costumes. How literature or ideas are translated into visual aspects of a show.

Equivalent Quarter Course: THEA 1006.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C1 - Lower Division Arts

THEA 246 - Women in Performance

Units: 3 ; G.E./G.R. Area: C1

Roots of roles women artists play in U.S. culture; traditional gender-based performance forms; and, the female body in theatre. Includes some women artists of Europe, Africa, and Pacific Rim who have influenced or been influenced by U.S. culture.

Equivalent Quarter Course: THEA 2226.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C1 - Lower Division Arts

THEA 247 - Culture and Diversity

Units: 3 ; G.E./G.R. Area: C2

Artistic and cultural contributions of Native Americans, African Americans, Latino Americans, Asian Americans and LGBTQ artists to American cultural expression, performance and pop culture. Analysis of the historical and political context behind ethnic expression.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: C2 - Lower Division Humanities

THEA 254 - Acting and Diversity

Units: 3 ; G.E./G.R. Area: C2; Diversity

Contemporary American theatrical expression and performance. Organized around ethnic and cultural identity. Analyzing samples of Native American, Chicano, African American, Asian American and LGBTQ theatre with consideration for their historical and political contexts. *Discussion Units: 2; Activity*

Units: 1

Equivalent Quarter Course: THEA 2037.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities, Overlay - Diversity*

THEA 260 - Architecture and Costume History

Units: 3 ; G.E./G.R. Area: C2

Overview of architecture and costume history covering mainly Western building and fashion styles from 5000 BCE to the 20th century.

Equivalent Quarter Course: THEA 3422 or THEA 3423 or THEA 3427.

Repeatability: May be repeated for a maximum of 9 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

THEA 261 - Stage Management

Units: 1

The stage manager as a key player in production. Creating and distributing notes, lists, and schedules; providing rehearsal props and taping a ground plan; running rehearsals and handling personnel issues; maintaining a prompt book; calling cues; leadership an emergency.

Equivalent Quarter Course: THEA 3999.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 262 - Pencil and Color Sketching

Units: 1

Drawing with an emphasis on costume and scenic sketching: human proportions, fabric interpretation, natural objects, building elements, and perspective.

Credit Restrictions: Only one unit may be applied to the B.A. Theatre Arts major.

Equivalent Quarter Course: Any one from: THEA 2421, THEA 2422, THEA 2423, THEA 2424, THEA 2425, THEA 2428, THEA 2430.

Repeatability: May be repeated for credit for a maximum of 3 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 263 - Wood and Metal Construction

Units: 2

Practical materials and techniques of scenic construction including: lumber, plywood, and metal stocks; hardware and tools; adhesives and fasteners; woodworking and welding. Building methods of the modern scene shop. Practice applicable to everyday handiwork.

Equivalent Quarter Course: THEA 2421 and THEA 2427.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 264 - Non-Western Costume

Units: 3 ; G.E./G.R. Area: C1

The development of Non-western clothing and costume with a historical context. Influences on world culture and theatrical design of Chinese, Japanese, other Asian, African, indigenous American, and Pacific Islander fashions.

Equivalent Quarter Course: THEA 3423.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C1 - Lower Division Arts*

THEA 265 - Fashion History and Design

Units: 3 ; G.E./G.R. Area: C2

Design and technical practices in fashion from conception to the runway. Developing concepts, color sketching, selecting fabric, and garment construction. How fashion adjusts to global society facing climate change and increasing concern for sustainability. *Lecture Units: 2; Activity Units: 1*

Equivalent Quarter Course: THEA 3428.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C2 - Lower Division Humanities*

THEA 321 - History of Black Theatre

Units: 3 ; G.E./G.R. Area: C4

The influence of 400 years of African Diaspora on North American theatre traditions. The African American influence on playwriting, music, slave narratives, minstrel shows, The Harlem Renaissance, The Civil Rights Movement, The Black Arts Movement, and contemporary African American theatre.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: THEA 3220.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

THEA 322 - History of Musical Theatre

Units: 3 ; G.E./G.R. Area: C4

Musical theatre from 1866 to the present; 19th-century minstrel and variety shows; the theatre of social change in the 20's and 30's; and "concept" musicals after 1970. Requires theatre attendance.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: THEA 3216.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

THEA 323 - Shakespeare on Film

Units: 3 ; G.E./G.R. Area: C4

Modern interpretations of Shakespeare's plays in the film medium. Critical analysis and interrogation of these works as they apply to contemporary socio-cultural concerns.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: THEA 3230.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

THEA 331 - Solo and Devised Theatre Ensemble

Units: 2

The magic of creating a performance based on original material devised in class from personal experience, issues research, adaptation, or auto-ethnography. Assignments cover practices that include writing, rehearsal, performance, stage management, sets, costumes, lights, sound, publicity, and stage crew.

Equivalent Quarter Course: Any one from: THEA 2072, THEA 2075, THEA 2078, THEA 3071, THEA 3072, THEA 3075, THEA 3078, THEA 3495, THEA 4495.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 344 - Interpretation of Women's and Ethnic Literature

Units: 3 ; G.E./G.R. Area: C4; Diversity

Research, selection, and analysis of literature contributing to American culture by women and ethnic groups. Reading expressively to convey meaning in presentations.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: THEA 3310.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities, Overlay - Diversity*

THEA 345 - How to Watch Plays and Film

Units: 3 ; G.E./G.R. Area: C4

How the audience understands a show. What production elements like acting, scenery, costume, lights, sound, and other physical aspects add to understanding. Identifying a personally satisfying issue and theme. Why performance enhances, supports, and occasionally contradicts the script.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: THEA 3225.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

THEA 350 - Theatre Performance

Units: 2

Participation in production and performance. Illuminating cultural and human issues. Productions based on established scripts. Requires involvement in production, design, operation, performance, or a combination.

Co-requisites: THEA 381 or THEA 382 (only one per semester).

Credit Restrictions: Requires audition or interview. Contact instructor.

Equivalent Quarter Course: Any one from: THEA 1495, THEA 1499, THEA 2495, THEA 2499, THEA 3495, THEA 3499, THEA 4495, THEA 4499.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice). Theatre Arts majors should select A-F grading.

THEA 352 - Acting and Classical Repertoire

Units: 3

Studying plays that define classical theatre periods; how to approach them for acting; differences between period styles. Viewing great performances of period plays, analyzing them, and scene work in a studio environment. *Seminar Units: 2; Activity Units: 1*

Prerequisites: All of: THEA 151, THEA 251, THEA 252.

Equivalent Quarter Course: THEA 3061.

Repeatability: May be repeated for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 359 - Directing

Units: 3

Transformation of text to stage images. Signs and symbols of production elements. Scrutinize arts and myth; experiment in deconstruction, collage, and mise en scene; basic directing. *Discussion Units: 2;*

Activity Units: 1

Prerequisites: THEA 151.

Equivalent Quarter Course: THEA 3256.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 360 - Technology and Design Studio

Units: 1

Production and performance practice to illuminate cultural and human issues. Production based on original material devised in class or scripts. Advanced tech and design assignments settled with design faculty before registering.

Strongly Recommended Preparation: Recommend taken prior to or concurrently: THEA 364, THEA 461, THEA 462.

Prerequisites: All of: THEA 111, THEA 112, THEA 113, THEA 114.

Equivalent Quarter Course: Any one from: THEA 1493, THEA 2493, THEA 3493, THEA 4493.

Repeatability: May be repeated for credit for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 361 - Scene Painting

Units: 2

Painting and rendering in small scale (studio) and full scale (scenery). Projects aimed at developing both drawing and painting skills for performing arts. Fundamentals of paint and color theory; typical application techniques; recipes for common 2D and 3D textures.

Credit Restrictions: Only 2 units may be applied to the B.A. Theatre Arts major.

Equivalent Quarter Course: THEA 3424.

Repeatability: May be repeated for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 362 - Computer Aided Design and Model Making

Units: 2

Through a combination of tutorials, lecture and group discussion, students learn the basics of 3D computer modelling including SketchUP and Vectorworks, the leading CAD software for the entertainment/design industry. Finally, the development of plans, elevations and 3D rendering is complimented by the construction of physical scale white and full color models.

Equivalent Quarter Course: THEA 2450.

Repeatability: May be repeated for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 363 - Advanced Costume Construction

Units: 2

Advanced sewing skills that will help in costume construction. Builds on basic hand and machine sewing skills and results in a complete garment by the end of the term.

Prerequisites: THEA 111.

Credit Restrictions: Only one unit may be applied to the B.A. Theatre Arts major.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 365 - Masks and Specialized Makeup

Units: 2

Mask-making and specialized study of makeup for the theatre. Special makeup effects and mask-making, including construction and application techniques.

Credit Restrictions: Only one unit applicable to major.

Repeatability: May be repeated for credit for a maximum of 4 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 370 - Musical Theater Performance

Units: 2

Rehearsal and performance to illuminate cultural and human issues in a large ensemble musical; original or established material. Characterization based on singing, dance, and acting techniques; working as an ensemble; and, heightened lyricism. Also for production staff responsible to director.

Co-requisites: THEA 381 or THEA 382.

Equivalent Quarter Course: Any one from: THEA 1491, THEA 2491, THEA 3491, THEA 4491.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 380 - Festival and Touring Participation

Units: 2

Selection, preparation, rehearsal, and performance of monologues, scenes, presentations or productions for festivals or off campus venues. Audition or invitation required.

Equivalent Quarter Course: Any one from: THEA 1494, THEA 2494, THEA 3494, THEA 4494.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 381 - Production Support: Stage, Lights and Sound Shop or Crew

Units: 2

Practical experience building or operating a show. Assignments for scenery, lights, sound, props, effects, makeup, or costumes. Weekday building assignments OR nights & weekend crew assignments. Crew includes all rehearsals, performances, and show strike for at least one show.

Equivalent Quarter Course: Any one from: THEA 3490, THEA 3491, THEA 3492, THEA 3493, THEA 3495, THEA 3499, THEA 4490, THEA 4491, THEA 4492, THEA 4493, THEA 4495, THEA 4499.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 382 - Production Support: Costume and Makeup Shop or Crew

Units: 2

Practical experience building or operating a show. Assignments for costume or makeup. Weekday building assignments OR nights & weekend crew assignments. Crew includes all rehearsals, performances, and show strike for at least one show.

Equivalent Quarter Course: Any one from: THEA 1490, THEA 1492, THEA 2490, THEA 2492, THEA 3490, THEA 3492, THEA 4490, THEA 4492.

Repeatability: May be repeated for credit for a maximum of 8 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 398 - Internship

Units: 1-3

Introduction to the internship experience; integration of the academic program with career aspirations; emphasis on internship readiness and preparation for professional success.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 3 units may be applied to the Theatre Arts major; no more than 3 units may be applied to the Theatre minor.

Equivalent Quarter Course: THEA 3898.

Repeatability: May be repeated with department consent for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 431 - Exploration of Dramatic Literature Characters

Units: 3 ; G.E./G.R. Area: C4

Character in drama throughout the ages. How major and minor characters are formed on the page to communicate a message. How the actor and director bring the written character to life on stage.

Strongly Recommended Preparation: Upper division standing. Completion of GE Areas A1, A2 and A3.

Prerequisites: Department consent and completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: Any one from: THEA 3201, THEA 3202, THEA 3203, THEA 3207, THEA 3254.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

THEA 432 - Exploration of Dramatic Literature Themes

Units: 3 ; G.E./G.R. Area: C4

An exploration of the universal, societal, and individual controversies addressed in plays throughout the ages.

Strongly Recommended Preparation: Junior or Senior standing.

Prerequisites: Completion of GE areas A1, A2, A3 and B4.

Equivalent Quarter Course: Any one from: THEA 3201, THEA 3202, THEA 3203, THEA 3207, THEA 3253.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *C4 - Upper Division Arts or Humanities*

THEA 461 - Scenery, Lighting and Sound Design

Units: 3

History and practice of sceneography: the creation of live performance environments. Set design for contemporary plays; theory and practice of lighting and sound design; projection development; drafting in scale; building techniques; safety protocols; light console programming; sound editing. Seminar Units: 1; Activity Units: 2

Strongly Recommended Preparation: Previous courses in stage shop or crew.

Prerequisites: All of: THEA 111, THEA 113, THEA 114.

Equivalent Quarter Course: THEA 3254.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 462 - Costume and Makeup Design

Units: 3

Techniques, theory and practice of costume and makeup design for the performing arts; design, clothing construction, research methods, rendering techniques, makeup theory, and practical projects. *Seminar*

Units: 1; Activity Units: 2

Equivalent Quarter Course: THEA 3255.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F grading only.

THEA 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: THEA 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

THEA 497 - Issues in Dramatic Literature

Units: 3

An exploration of the universal, societal and individual issues addressed in plays throughout the ages.

Strongly Recommended Preparation: Upper Division standing.

Prerequisites: Completion of GE Areas A1, A2 and A3.

Equivalent Quarter Course: Any one from: THEA 3201, THEA 3202, THEA 3203, THEA 3207, THEA 3254.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Women's Studies

WOST 101 - Perspectives on Women

Units: 3

The observed similarities and differences in the behavior of women and men as seen from the perspective of art, history, literature, philosophy, biology, and psychology. How these differences came about and what the future may hold.

Equivalent Quarter Course: WOST 1001.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

WOST 102 - Introduction to Feminist, Gender, and Sexuality Studies

Units: 3 ; G.E./G.R. Area: Diversity

Power hierarchies that structure gender and sexuality. Investigates how gender intersects with race, ethnicity, class, sexuality, age, religion, relevant debates, beliefs, practices, and political struggles.

Equivalent Quarter Course: WOST 1100.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *Overlay - Diversity*

WOST 301 - Women and Work

Units: 3 ; G.E./G.R. Area: Diversity

A feminist intersectional analysis of earnings and employment differentials. Covered topics may include work/family balance, labor policy, sexual harassment, occupational micro-enterprises, colonial legacies, and transitional economies.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: WOST 3400 or WOST 3550 or WOST 3600

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *Overlay - Diversity*

WOST 302 - Women and Families

Units: 3 ; G.E./G.R. Area: Diversity

Gender and unpaid family care-work. Covered topics may include family formation and dissolution, parent-child relations, interaction and power, the diversity of families, heteronormativity, domestic violence, reproductive rights, and family policy.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: WOST 3550 (WOST 3550 is equivalent to both WOST 301 & 302 when both

taken and passed).

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *Overlay - Diversity*

WOST 303 - Violence Against Women

Units: 3 ; G.E./G.R. Area: Diversity

Violence in intimate relationships from a feminist perspective. Violence against women and girls as instituting structured gender inequality and as perpetrated by political, social and economic institutions locally, nationally, and internationally.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: WOST 3900.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *Overlay - Diversity*

WOST 401 - Feminist Theory

Units: 4 ; G.E./G.R. Area: Diversity

Feminist theories of American women's liberation movement from mid-sixties to present. Gender identity; "nature vs. nurture" theories of female subservience and male domination; pornography; rape; class, race, and gender.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: WOST 3050.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *Overlay - Diversity*

WOST 402 - Women's Bodies and Health

Units: 3 ; G.E./G.R. Area: Diversity

Interdisciplinary course focusing on women's body and health experiences, with foci on sexuality, appearance, body control, reproduction, and health/illness. Social, political, and economic perspectives on current health status and health needs of women in the United States.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: WOST 3530 or WOST 3545.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *Overlay - Diversity*

WOST 403 - Comparative Perspectives on Global Feminism

Units: 3 ; G.E./G.R. Area: Social Justice

Women globally in transnational and local contexts; issues of economic and social justice. Including violence against women and children, poverty, migration, political fundamentalism, globalization of capitalist economy, sexual and civil rights, immigration and citizenship, and sex trafficking.

Prerequisites: Junior, senior or post-baccalaureate standing.

Equivalent Quarter Course: WOST 3700.

Possible Instructional Methods: *Entirely On-ground, Entirely On-line, Hybrid (every section of this course may be taught both online and on-ground).*

Grading: A-F or CR/NC (student choice).

G.E./G.R. Area Satisfied: *Overlay - Social Justice*

WOST 490 - Independent Study

Units: 1-4

Independent study under the supervision a department faculty member.

Prerequisites: Department consent and minimum 2.0 GPA.

Credit Restrictions: No more than 12 units of independent study may be applied in the major department and 8 units in other departments to a baccalaureate degree.

Equivalent Quarter Course: WOST 4900.

Repeatability: May be repeated for credit, with department consent, for a total of 12 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

WOST 497 - Issues in Women's Studies

Units: 3

Readings, discussion, and research on contemporary and/or significant issues in women's studies.

Equivalent Quarter Course: WOST 3999.

Repeatability: May be repeated for credit when content varies, for a maximum of 6 units.

Possible Instructional Methods: *Entirely On-ground.*

Grading: A-F or CR/NC (student choice).

Cal State East Bay welcomes students to apply to study at our University.

There are four steps to the application process for most prospective students:

1. Applicants must submit an online CSU application for admission at *CALSTATE Apply*
2. Applicants must submit all supplementary documents required such as transcripts and standardized test scores.
3. Cal State East Bay will determine an applicant's eligibility based on criteria discussed in this chapter.
4. The University will notify the student of the decision.

The following categories must complete an **undergraduate** admission application:

- High school graduates;
- Community college transfer students;
- Students who have been enrolled in Continuing Education Special Sessions Programs and Open University;
- Cal State East Bay students who have not been enrolled for two consecutive semesters;
- Students who have attended Cal State East Bay as visiting students from another university;
- Students who were previously admitted to Cal State East Bay for a particular term but did not enroll.

Students who are uncertain whether they are required to apply may contact the Office of Admission at (510) 885-3500.

The Office of Admission

The Office of Admission is responsible for all domestic admission services for new students. International students on F or J visas (and applicants with transcripts issued by schools outside the United States) are served by the International Admissions Office.

All applicants should use the student online self-service portal *MyCSUEB* at <https://my.csueastbay.edu> to check admission status and required documents.

Undergraduate Application Filing Periods & Deadlines

Application filing periods are also listed at www.csueastbay.edu/prospective/how-to-apply/application-and-document-deadlines

UNDERGRADUATE APPLICATION FILING PERIODS

(Not all campuses/programs are open for admission to every term)			
Terms	Applications First Accepted	Initial Filing Period	Filing Period Duration
Fall Semester	October 1	October 1 - November 30	Each non-impacted campus accepts applications until capacities are reached. Many campuses limit undergraduate admission in an enrollment category due to overall enrollment limits. If applying after the initial filing period, consult the campus admission office for current information.
Spring Semester	August 1	August 1-31	
Summer	February 1	February 1-28	
(Most campuses do not admit students to summer term.)			
<i>Note: Application deadlines are the dates by which applicants must submit their application to CALSTATE Apply. Published deadlines are subject to change. Apply early since enrollment may be limited for some programs. The application filing periods are listed on the Application and Document Deadlines page at www.csueastbay.edu/deadlines.</i>			

On-time applicants may expect to receive an acknowledgment from the campuses to which they have applied within two to four weeks of filing the application. The notice may also include a request that applicants submit additional records necessary to evaluate academic qualifications. Applicants may be assured of admission if the evaluation of relevant qualifications indicates that applicants meet CSU admission requirements, and in the case of admission impaction, supplemental criteria for admission to an

impacted program. Unless specific written approval/confirmation is received, an offer of admission is not transferable to another term or to another campus.

Prospective Cal State East Bay Students

Be sure to review the deadlines for:

- Freshman students
- Transfer students
- Graduate and Credential students
- International students
- University Extension students

Some academic and support service programs have supplemental application forms with specific deadlines. Check with the department for complete details.

- Educational Opportunity Program (EOP)
- Nursing B.S.
- Music B.A.

Application Procedures for Undergraduate Admissions

Note: The following are subject to change without prior notice if necessary so that University policies are consistent with those established by the Trustees of The California State University.

Prospective students applying for part-time or full-time undergraduate programs of study must submit a completed undergraduate application. The \$55 nonrefundable application fee should be paid online at the time of application via credit card, e-check, or PayPal and may not be transferred or used to apply to another term. An alternate major may be requested on the application if desired from the campus. The applications of persons denied admission to an impacted campus may be redirected to another campus at no cost, but only if the applicant is CSU eligible.

Requirements for admission to Cal State East Bay are in accordance with Title 5, Chapter 1, Subchapter 3, of the California Code of Regulations. Complete information is available at: www.calstate.edu/apply.

An applicant must complete all required information, including the Social Security number. (The University uses this number to accurately identify student records and evaluate financial aid applications.) Be certain to accurately enter the requested academic information. Any misrepresentation could result in an offer of admission being rescinded. Applicants must submit all required items indicated on the student's *MyCSUEB* To Do list at <https://my.csueastbay.edu> by the deadline provided.

Program-Specific Admissions Information

- Applicants who want to pursue a major in nursing should see the Nursing, B.S.: Pre-Licensure Concentration program for special admission requirements.
- The bachelor's degree major in Music requires students audition in order to determine admission. Student who want to pursue a major in Music should see the Music, B.A. program for special admissions requirement.

Note: It is important for students to take time to read this catalog and become familiar with the specific policies and procedures of Cal State East Bay and the CSU system. This will help the student to understand their rights and responsibilities, as well as the rights and responsibilities of the University.

CSU Rights Reserved

Cal State East Bay reserves the right to select its students and to deny admission to the University, or to any of its programs, based upon its determination, at its sole discretion, of an applicant's suitability and the best interests of the University.

Importance of Filing Complete, Accurate, and Authentic Application Documents

Cal State East Bay advises prospective students that they must supply complete and accurate information on the application for admission, residency questionnaire, and financial aid forms. Further, applicants must, *when requested*, submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of registration or academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Use of Social Security Number

Applicants are required to include their correct Social Security numbers in designated places on applications for admission pursuant to the authority contained in Section 41201, Title 5, California Code of Regulations, and Section 6109 of the Internal Revenue Code (26 U.S.C. 6109). The University uses the Social Security number to identify students and their records including identification for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution. Also, the Internal Revenue Service (IRS) requires the University to file information returns that include the student's Social Security number and other information such as the amount paid for qualified tuition, related expenses, and interest on educational loans. This information is used by the IRS to help determine whether a student, or a person claiming a student as a dependent, may take a credit or deduction to reduce federal income taxes.

If the student is a taxpayer who claims Hope Scholarship or Lifetime Learning tax credit, the student is required to provide Cal State East Bay with their name, address, and Taxpayer Identification Number.

Hardship Petitions

The campus has established procedures for consideration of qualified applicants who would be faced with extreme hardship if not admitted. Petitioners should submit an appeal form at <http://www.csueastbay.edu/admissions/admission-appeals/admission-appeals.html>. For more information contact the Office of Admission at (510) 885-3500 or admissionpetitions@csueastbay.edu

Impacted Programs

The CSU designates programs as impacted when more applications from regularly eligible applicants are received in the initial filing period (October and November for fall terms, June for winter terms, August for spring terms, February for summer terms) than can be accommodated. Some programs are impacted at every campus which they are offered; others are impacted only at a few campuses. Candidates for admission must meet all of the campus' specified supplementary admission criteria if applying to an impacted program or campus.

The CSU will announce during the fall filing period those campuses or programs that are impacted. Detailed information on campus and program impactation will be available at: www2.calstate.edu/attend/impaction-at-the-csu.

Campuses will communicate supplementary admission criteria for all impacted programs to high schools and community colleges in their application service area and will disseminate this information to the public through appropriate media. This information will also be published on the CSU campus website and made available at www.calstate.edu.

Applicants must file applications for admission to an impacted program during the initial filing period. Applicants who wish to be considered for impacted programs at more than one campus should file an application at each campus for which they seek admission consideration.

Supplementary Admission Criteria

Each campus with impacted programs or class-level admission categories uses supplementary admission criteria in screening applicants. Supplementary criteria may include rank-ordering of freshman applicants based on the CSU eligibility index or rank-ordering of transfer applicants based on verification of the Associate in Arts for Transfer (AA-T) or Associate in Science Transfer (AS-T) degrees, the overall transfer grade point average (GPA), completion of specified prerequisite courses and a combination of campus-developed criteria. Applicants for freshman admission to impacted campuses or programs are required to submit scores on either the SAT or the ACT, regardless of GPA. For fall admission, applicants should take tests as early as possible, but no later than November or December of the preceding year.

The supplementary admission criteria used by individual campuses to screen applicants are made available by the campuses to all applicants seeking admission to an impacted program.

Cal State East Bay Campus Impaction

Cal State East Bay is considered impacted, effective Fall Semester, 2018. Applicants who live in the CSUEB service area (Alameda, Contra Costa, San Francisco, San Mateo, Santa Clara, and Solano counties) only need to be academically qualified, as noted in the Eligibility Index (see below). Similarly, transfer applicants with a designated ADT in a similar major as their declared major at CSUEB are also guaranteed admission, regardless of county of residence in California, provided that they meet the eligibility requirements. For freshman applicants outside Cal State East Bay's service area, higher Eligibility Index scores will be required. The minimum score will depend on the number of qualified applications and the campus enrollment limits. For transfer applicants who do not have a designated ADT and are outside the service area, determinations will be based on grade point averages. Cal State East Bay's goals are to ensure that its students have the courses and resources they need to successfully

complete their degree programs. Depending on capacity, the University may need to restrict, as minimally as possible, admissions from outside its six-county service area.

Re-Routing an Application to Another CSU

If for some reason an applicant with an Associate Degree for Transfer cannot be accommodated at Cal State East Bay, their application will be redirected for the same term to a non-impacted CSU campus, provided that the student meets the minimum CSU admissions requirement.

The Center for International Education

International Students should contact the Center for International Education (cie@csueastbay.edu) for information on matters affecting visa status, eligibility for employment, and any special academic requirements for international students.

Also see: International Education & Student Exchange Programs for more information.

International Admission Office

All matters pertaining to the admission of international students are handled by the International Admissions Office. Students from other countries should consult with the International Admissions Office regarding visas, eligibility for employment, and any special academic requirements.

The CSU must assess the academic preparation of international students. For this purpose, "international students" include those who hold U.S. temporary visas as students, exchange visitors, or in other non-immigrant classifications. Cal State East Bay uses separate requirements and application filing dates in the admission of "foreign students". Verification of English proficiency (see below), financial resources, and academic performance are each important considerations for admission.

Prospective Graduate Students

Graduate applicants must hold a degree equivalent to a four-year bachelor's degree obtained from a recognized university. Applicants must also have the equivalent of a 2.50 grade point average, or higher, in their last two years of college-level courses.

F-1 and J-1 Visa Students

When admitted to Cal State East Bay, international students are expected to comply with all regulations of the U.S. Citizenship and Immigration Services pertaining to international students as well as those of the university.

F-1 and J-1 international students should contact the Center for International Education (cie@csueastbay.edu) for information on matters affecting visa status, eligibility for employment, and any special academic requirements for international students.

International (Foreign) Student Admission Requirements

General Requirements for All International Applicants

The CSU and Cal State East Bay must assess the academic preparation of international students. For this purpose, "international students" include those who hold U.S. visas as students, exchange visitors, or in other nonimmigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of "international students." Verification of English proficiency (see the section on the English Language Requirement for undergraduate applicants), financial resources, and academic performance are each important considerations for admission. Each applicant must have a declared educational objective (major) when the application is filed. Academic records from foreign institutions must be on file before the start of the semester of admission and, if not in English, must be accompanied by certified English translations.

Priority in admission is given to residents of California for majors that are impacted or for programs with limited openings.

Graduate & Post-Baccalaureate Applicants

Graduate applicants must hold a degree equivalent to a four-year bachelor's degree obtained from a recognized university. Applicants must also have the equivalent of a 2.50 grade point average, or higher, in their last two years of college-level courses.

In addition, each applicant must have a declared educational objective when the application is filed. International students on F-1 student visas may be admitted as "Conditionally Classified Graduate," "Classified Graduate," or "Classified Post-Baccalaureate" students. They may not be admitted as "Unclassified Post-Baccalaureate" students.

Note: Some graduate programs may require admission tests such as the GMAT or GRE and a supplemental application. Please consult the individual graduate department for any additional application or admission requirements.

International Admission Requirements

General Requirements for All International Applicants

Cal State East Bay must assess the academic preparation of international students. For this purpose, "international students" include those who hold U.S. visas as students, exchange visitors, or in other nonimmigrant classifications. California residents and U.S. citizens with international transcripts are also classified as "international students" for admission evaluation purposes. However, most students who graduated from a California high school are evaluated like residents, see "Dream Act" section below.

There are separate requirements for the admission of international students. Verification of English proficiency, financial resources, and academic performance are all important considerations for admission. Each applicant must have a declared educational objective (major) when the application is filed.

Priority in admission is given to residents of California for majors that are impacted or for programs with limited openings.

Application Filing Periods & Deadlines for International Students

The University has established deadlines to ensure that all application materials will be processed in time to allow international students to make the necessary passport, visa, travel, and other arrangements to reach the campus before the start of the semester of admission. Current deadlines applicable to international student admission can be found on the University website or by contacting the International Admissions Office: iao@csueastbay.edu.

International Students as First-time Freshmen

Prospective students who received their preparatory education outside the U.S. must have completed the equivalent of 12 years of elementary and secondary schooling with the equivalent of a "B" average or higher. ACT or SAT test scores are not required of international students who completed their secondary schooling outside the U.S.

International students who graduated from a U.S. high school must meet the same requirements as U.S. citizens.

English Language Requirement

All undergraduate, post-baccalaureate and graduate applicants whose native language is not English, and who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction, must demonstrate proof of English proficiency.

CSU minimum TOEFL standards are:

- Undergraduate: 61 - INTERNET, 500- PAPER
- Graduate: 80 - INTERNET, 550 - PAPER

Cal State East Bay standards for Undergraduate Students are:

- TOEFL (Test of English as a Foreign Language) score of 525 (or 197 computer-based or 61 Internet-based) or above.
- An overall IELTS (International English Language Testing System) score of 6.0 or above.
- Transferred from a U.S. college with 60 or more semester units with a minimum grade point average of 2.4, and have completed a transfer course in each of the following general education areas with a grade of 2.0 or better: English composition, speech, critical thinking, and mathematics.

Cal State East Bay standards for Graduate Students are:

- An official transcript showing graduation with a bachelor's degree from a U.S. college or university, or an international college or university where English is the principal language of instruction, or an official letter from the college or university certifying that English was the language of instruction.
- A TOEFL (Test of English as a Foreign Language) score of 550 (213 computer-based or 79 Internet-based; 92 for Master's of Science degree in Economics) or above.
- An overall test score from IELTS (International English Language Testing System) exam of 6.5 or above for graduate students. A score of 7 or above is required for international students seeking a Master's of Science degree in Economics.

Some majors may require a higher score.

Note: All test scores must be sent directly from the testing institution. Cal State East Bay's International Admission Office contacts are located at: <http://www.csueastbay.edu/prospective/how-to-apply/international-student-admission>.

Academic Records of International Students

Certificates, diplomas, mark sheets, transcripts, and test scores *must be sent directly from the issuing institution* to the International Admissions Office to be considered official. The International Admissions Office reserves the right to determine what constitutes an official document. Certified English translations must accompany all non-English original documents. Documents submitted are the property of Cal State East Bay and will not be returned.

Financial Certification Prior to Admission

Prospective International Students

International students who wish to apply for a student visa must demonstrate financial support before a letter of admission or an "I-20" or "DS-2019" form will be issued. The following forms must be submitted:

1. I-20 Letter of Consent,
2. Declaration of Finances, and
3. Health Insurance Compliance.

These forms can be downloaded from the international students admissions page.

California Dream Act

California Dream Act and Application/AB540

The California Dream Act of 2011 allows students who meet AB540 criteria to apply for and receive certain state and institutional financial assistance programs.

AB540 Requirements

To be eligible, a student must meet all of the following requirements:

- The student must have attended a high school (public or private) in California for three or more years AND
- The student must have graduated from a California high school or attained the equivalent prior to the start of the term. For example: the student must have passed the General Education Diploma (GED) or California High School Proficiency exam) AND
- A student who is without lawful immigration status must file an AB540 Affidavit (California Non-Resident Tuition Exemption Request form) with the university stating that he or she has filed an application to legalize his or her immigration status, or will file an application as soon as he or she is eligible to do so. Complete and submit the affidavit to the Office of Admission.

Submit a Dream Application

To apply for the programs available under AB131 you will use the Dream Application. The Dream Application will collect basic personal and income information to determine student eligibility for funding under AB131.

Students will need to complete the Dream Application every year to determine continuing eligibility for state and institutional aid. Students should complete and submit to Cal State East Bay the AB540 Affidavit (California Non-Resident Tuition Exemption Request form) in order to begin a review of your eligibility.

For more information about AB540, visit then AB540 Program website.

Admission Requirements for First-Time Freshmen

Generally, applicants will qualify for consideration for first-time freshman admission if they meet the following requirements:

1. Have graduated from high school, have earned a Certificate of General Education Development (GED) or have passed the California High School Proficiency Examination (CHSPE);
2. Have a qualifiable minimum eligibility index (see "Eligibility Index"); and
3. Have completed, with grades of C- or better, each of the courses in the comprehensive pattern of college preparatory subject requirements also known as the "a-g" pattern (see "Subject Requirements").

Eligibility Index

The eligibility index is the combination of the high school GPA and scores on either the ACT or the SAT. GPA is based on grades earned in courses taken during the final three years of high school. Included in calculation of GPA are grades earned in all college preparatory "a-g" subject requirements and bonus points for approved honors courses. Up to eight semesters of honors courses taken in the last three years of high school, including up to two approved courses taken in the tenth grade can be accepted. Each unit of A in an honors course will receive a total of 5 points; B, 4 points; and C, 3 points.

A CSU eligibility index can be calculated by multiplying a GPA by 800 and adding the total score on the SAT exam (mathematics and critical reading on the old SAT or mathematics and Evidence-Based

Reading and Writing on the new SAT). For students who took the ACT, multiply the GPA by 200 and add 10 times the ACT composite score. Persons who are California high school graduates (or residents of California for tuition purposes) need a minimum index of 2900 using the old SAT, or 2950 using the new SAT or 694 using the ACT. The Eligibility Index Table illustrates several combinations of required test scores and averages. The university has no current plans to include the writing scores from either of the admission tests in the computation of the CSU eligibility index.

Persons who neither graduated from a California high school nor are a resident of California for tuition purposes need a minimum index of 3502 using the old SAT, 3570 using the new SAT or 842 using the ACT. Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section. Impacted CSU campuses, including Cal State East Bay, require SAT or ACT scores of all applicants for freshman admission. Campuses use these test results for advising and placement purposes and may require them for admission to impacted majors or programs.

2018-2019 ACT & SAT Eligibility Index Tables

Returning Students

Undergraduate Cal State East Bay students who are seeking a first Bachelor's degree and who do not enroll in classes for two or more consecutive semesters must reapply for admission to the University. Students in this situation are considered to be returning students.

Returning students in good standing may reapply to Cal State East Bay. Students who were previously academically disqualified should first set up an appointment with a readmission counselor by e-mailing readmission@csueastbay.edu. Students who were previously administratively disqualified should first consult a counselor in the General Education office, which can also be found in the Student Services and Administration Building on the Hayward Campus.

How to Apply

To apply, submit an online application via **Cal State Apply** and select Undergraduate Admission Application. Applications are accepted during the transfer applicant filing periods.

Applicants will be notified by mail upon receipt of the updated application. Applicants do not need to send in official transcripts unless they have attended a college or university since their last enrollment at Cal State East Bay.

This policy does not apply toward admission for a second bachelor's degree.

Assessment of Academic Preparation and Placement

The CSU requires that all entering freshmen students be evaluated in terms of their preparation to complete first-year courses in written communication and mathematics/quantitative reasoning. This evaluation will utilize the broadest set of multiple measures including high school grades as well as performance scores on standardized exams such as the ACT or SAT. This evaluation of academic

readiness is not a condition for admission to the CSU, but it is an important step for determining the best course placement for entering students.

Successful completion of general education (GE) written communication and mathematics/quantitative reasoning courses in the first year of CSU enrollment establishes a foundation for continuous learning. Unless the requirements have been completed, freshmen shall enroll in GE written communication and mathematics/quantitative reasoning courses appropriate to each student's major and skill level, as demonstrated by applicable systemwide standards utilized in the review of academic preparation.

Students whose skill assessments indicate academic support will be needed for successful completion of GE in written communication or mathematics/quantitative courses shall enroll in appropriate college-level, baccalaureate credit-bearing courses that strengthen skills development to facilitate achieving the appropriate general education student learning outcomes. Supportive course models may include, among others, co-requisite approaches, supplemental instruction or "stretch" formats that extend a course beyond one academic term. In these approaches, instructional content considered pre-baccalaureate may carry a maximum of one unit and shall be offered concurrently with a college-level, baccalaureate credit-bearing course.

Multiple Measures Assessment for General Education Written Communication

Based on the systemwide assessment standards for GE written communication below, freshmen shall enroll in appropriate GE written communication courses during their first academic year unless the requirement has been fulfilled.

- Students who have met the following requirements have **fulfilled the GE Written Communication requirement** in preparation for advanced courses:
 - A score of 3 or above on either the Language and Composition examination or the Composition and Literature examination of the College Board Scholastic Advanced Placement Program
 - Completion and transfer to the CSU of the credits for a college course that satisfies the CSU GE requirement in written composition, provided such a course was completed with a grade of C- or better
- Students who have met the following requirements are **ready to enroll in a course that meets the GE Written Communication requirement**:
 - A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in English' earned on the CAASPP Early Assessment Program (EAP) exam
 - A score of 550 or higher on the Evidence Based Reading and Writing section of the new SAT Reasoning Test sponsored by the College Board
 - A score of 500 or higher on the Evidence Based Reading and Writing section of the old SAT Reasoning Test sponsored by the College Board
 - A score of 22 or above on the ACT English test
 - Completion of an approved 12th grade, year-long, English course with a grade of C- or better AND a score of 510 - 540 on the Evidence Based Reading and Writing section of the new SAT Reasoning Test or a score of 460-490 on the Evidence Based Reading and Writing section of the old SAT Reasoning Test

- Completion of an approved 12th grade, year-long, English course with a grade of C- or better AND a score of 19-21 on the Act English test
- A result of 'Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in English' on the CAASPP Early Assessment Program (EAP) exam AND completion of an approved 12th grade, year-long, English course with a grade of C- or better
- Achievement of a weighted high school GPA ≥ 3.3 OR a high school GPA ≥ 3.0 and completion of an approved 12th grade, year-long, English course (AP, IB, ERWC) or Honors English or more than 5 years of high school English
- Students who have met the following requirements are *ready to enroll in a course that meets the GE Written Communication requirement and includes supported instruction*:
 - Completion of 4+ years of standard college preparatory high school English courses AND a score of 510-540 on the Evidence Based Reading and Writing section of the new SAT Reasoning Test or a score of 460-490 on the Evidence Based Reading and Writing section of the old SAT Reasoning Test or a score of 19-21 on the ACT English test
 - Achievement of a weighted high school GPA ≥ 3.0 and 4 years of standard college preparatory high school English courses
- Students who have met the following requirements are *required to participate in the Early Start Program and are ready to enroll in a course that meets the GE Written Communication requirement and includes supported instruction*:
 - A score less than 510 on the Evidence Based Reading Writing section of the new SAT Reasoning Test or a score less than 460 on the old SAT Reasoning Test AND achievement of a high school grade point average of ≤ 3.0
 - A score less than 19 on the ACT English test and the achievement of a high school GPA of ≤ 3.0

Multiple Measures Assessment for General Education Mathematics/Quantitative Reasoning

Based on the systemwide assessment standards for GE mathematics/quantitative reasoning below, freshmen shall enroll in appropriate general education mathematics/quantitative reasoning courses during their first academic year unless the requirement has been fulfilled.

Students who have met the following requirements have *fulfilled the GE Math/Quantitative Reasoning requirement* and are permitted to enroll in the next level of math:

- A score of 3 or above on the College Board Advanced Placement Calculus AB or Calculus BC tests
- A score of 3 or above on the College Board Advanced Placement Statistics test
- A score of 4 or above on the International Baccalaureate Mathematics Higher Level (HL)
- A score of 50 or above on the College Board College Level Examination Program (CLEP) Calculus, College Algebra, College Algebra-Trigonometry, Pre-Calculus, or Trigonometry
- Completion and transfer to the CSU of the credits for a college course that satisfies the CSU General Education requirement in mathematics/quantitative reasoning, provided such a course was completed with a grade of C- or better

Students who are *STEM majors* who have met the following requirements are *ready to enroll in a course that meets the GE Math/Quantitative Reasoning requirement*:

- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics' on the CAASPP Early Assessment Program (EAP) exam
- A score of 570 or above on the mathematics section of the new SAT Reasoning Test
- A score of 550 or above on the mathematics section of the old SAT Reasoning Test
- A score of 550 or above on the SAT Subject Test in Mathematics (level 1 or level 2)
- A score of 23 or above on the ACT Mathematics test
- Completion of a 12th grade mathematics course beyond algebra 2 with a grade of C- or better and a score of 520-560 on the new SAT mathematics test or a score of 490-540 on the old SAT mathematics test
- Completion of a 12th grade mathematics course beyond algebra 2 with a grade of C- or better and a score of 20-22 on the ACT Mathematics test
- A result of 'Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in mathematics' on the CAASPP Early Assessment Program (EAP) exam AND completion of a 12th grade mathematics course with a grade of C- or better
- Achievement of a weighted high school GPA ≥ 3.7
- Achievement of a weighted high school mathematics GPA ≥ 3.5 and 5+ years of mathematics or quantitative reasoning courses
- Achievement of a weighted high school mathematics GPA ≥ 3.5 and completion of an approved senior year course

Students who are *Non-STEM majors* who have met the following requirements are *ready to enroll in a course that meets the GE Math/Quantitative Reasoning requirement*:

- A result of 'Standard Exceeded: Ready for CSU or participating CCC college-level coursework in mathematics' on the CAASPP Early Assessment Program (EAP) exam
- A score of 570 or above on the mathematics section of the new SAT Reasoning Test
- A score of 550 or above on the mathematics section of the old SAT Reasoning Test
- A score of 550 or above on the SAT Subject Test in Mathematics (level 1 or level 2)
- A score of 23 or above on the ACT Mathematics test
- Completion of a 12th grade mathematics course beyond algebra 2 with a grade of C- or better and a score of 520-560 on the new SAT mathematics test or a score of 490-540 on the old SAT mathematics test
- Completion of a 12th grade mathematics course beyond algebra 2 with a grade of C- or better and a score of 20-22 on the ACT Mathematics test
- A result of 'Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in mathematics' on the CAASPP Early Assessment Program (EAP) exam AND completion of a 12th grade mathematics course with a grade of C- or better
- A result of 'Standard Met: Conditionally Ready for CSU or participating CCC college-level coursework in mathematics' on the CAASPP Early Assessment Program (EAP exam) and 4 years of mathematics or quantitative reasoning courses
- Achievement of a weighted high school GPA ≥ 3.7
- Achievement of a weighted high school mathematics GPA ≥ 3.5 and 4+ years of mathematics or quantitative reasoning courses

- Achievement of a weighted high school mathematics GPA ≥ 3.0 and completion of 5+ years of mathematics or quantitative reasoning courses
- Achievement of a weighted high school mathematics GPA ≥ 3.0 and completion of an approved senior year course

Students who are *STEM majors* who have met the following requirements are *ready to enroll in a course that meets the GE Math/Quantitative Reasoning requirement and includes supported instruction*:

- Achievement of a high school mathematics GPA ≥ 3.3

Students who are *Non-STEM majors* who have met the following requirements are *ready to enroll in a course that meets the GE Math/Quantitative Reasoning requirement and includes supported instruction*:

- Achievement of a high school mathematics GPA ≥ 3.3
- Achievement of a high school GPA ≥ 3.0

Students who have met the following requirements are *required to participate in the Early Start Program and are ready to enroll in a course that meets the GE Math/Quantitative Reasoning requirement and includes supported instruction*:

- A score less than 510 on the mathematics section of the new SAT Reasoning test or a score less than 490 on the mathematics section of the old SAT Reasoning test AND a high school GPA ≤ 3.2
- A score less than 20 on the ACT Mathematics test AND a high school GPA ≤ 3.2

Conditional Admission of First-time Freshmen

Cal State East Bay may conditionally admit first-time freshman applicants based on their academic preparation through the junior year of high school and planned coursework for the senior year. The campus will monitor the final terms of study to ensure that admitted students complete their secondary school studies satisfactorily, including the required college preparatory subjects, and graduate from high school. Students are required to submit an official transcript after graduation to certify that all coursework has been satisfactorily completed. Official high school transcripts must be received prior to the deadline set by the University. In no case may documentation of high school graduation be received any later than the census date for a student's first term of CSU enrollment. A campus may rescind admission decisions, cancel financial aid awards, withdraw housing contracts and cancel any University registration for students who are found to be ineligible after the final transcript has been evaluated.

Applicants will qualify for regular (non-provisional) admission when the University verifies that they have graduated and received a high school diploma, have earned a qualifiable minimum eligibility index, have completed the comprehensive pattern of college preparatory "a-g" subjects and, if applying to an impacted program or campus, have met all supplementary criteria.

The CSU uses only the ACT composite score, the mathematics and critical reading scores on the old SAT, or the mathematics and Evidence-Based Reading and Writing scores on the new SAT in its admission eligibility equation. The SAT or ACT writing scores are not currently used by CSU campuses.

Subject Requirements

The CSU requires that first-time freshman applicants complete, with grades of C- or better, a comprehensive pattern of college preparatory study totaling 15 units. A "unit" is one year of study in high school.

- 2 years of social science, including 1 year of U.S. history, or U.S. history and government
- 4 years of English
- 3 years of math (algebra, geometry and intermediate algebra; four years recommended)
- 2 years of laboratory science (1 biological & 1 physical, both must have laboratory instruction)
- 2 years in the same foreign language (subject to waiver for applicants demonstrating equivalent competence)
- 1 year of visual and performing arts: art, dance, drama/theater or music
- 1 year of electives: selected from English, advanced mathematics, social science, history, laboratory science, foreign language, visual and performing arts or other courses approved and included on the UC/CSU "a-g" list.

Transfer Requirements

Applicants who have completed fewer than 60 transferable semester college units (fewer than 90 quarter units) are considered lower-division transfer students. Applicants who have completed 60 or more transferable semester college units (90 or more quarter units) are considered upper-division transfer students. Applicants who complete college units during high school or through the summer immediately following high school graduation are considered first-time freshmen and must meet the CSU minimum eligibility requirements for first-time freshman admission. Transferable courses are those designated for baccalaureate credit by the college or university offering the courses and accepted as such by the campus to which the applicant seeks admission.

Lower-Division Transfer Requirements

Due to increased enrollment demands, most CSU campuses do not admit lower-division transfer applicants.

Generally, applicants will qualify for CSU admission consideration as a lower-division transfer if they have a cumulative GPA of at least 2.0 in all transferable units attempted, are in good standing at the last college or university attended, and meet any of the following standards:

1. Will meet the freshman admission requirements (GPA and subject requirements) in effect for the term to which they are applying (see "Freshman Requirements"); or
2. Were eligible as a freshman at the time of high school graduation except for missing college preparatory subject requirements, have been in continuous attendance in an accredited college since high school graduation, and have made up the missing subject requirements with a 2.0 or better GPA.

Applicants who graduated from high school prior to 1988 should contact the admission office to inquire about alternative admission programs.

Lower-division applicants who did not complete subject requirements while in high school may make up missing subjects in any of the following ways:

1. Complete appropriate courses with a C- or better in adult school or high school summer sessions.
2. Complete appropriate college courses with a C- or better. One college course of at least three semester or four quarter units will be considered equivalent to one year of high school study.
3. Earn acceptable scores on specified examinations, e.g., SAT subject tests.

Please consult with the CSU campus admission office to which you are applying for further information about alternative ways to satisfy the subject requirements.

Upper-Division Transfer Requirements

Generally, applicants will qualify for consideration for upper-division transfer admission if they meet all of the following requirements:

1. Cumulative grade point average of at least 2.0 in all transferable units attempted;
2. In good standing at the last college or university attended; and
3. Completed at least sixty (60) transferable semester (90 quarter) units of college level coursework with a grade point average of 2.0 or higher and a grade of C- or better in each course used to meet the CSU general education requirements in written communication, oral communication, critical thinking, and quantitative reasoning, e.g. mathematics.

The 60 units must include at least 30 units of courses that meet CSU general education requirements, including all of the general education requirements in communication in the English language (both oral and written) and critical thinking and the requirement in mathematics/quantitative reasoning (usually 3 semester units) OR the Intersegmental General Education Transfer Curriculum (IGETC) requirements in English communication and mathematical concepts and quantitative reasoning.

Associate Degrees for Transfer (AA-T or AS-T)

The Associate in Arts for Transfer (AA-T) and the Associate in Science for Transfer (AS-T) degrees offered at the California Community Colleges (CCC) are designed to provide a California community college student the optimum transfer preparation and a clear admission pathway to the CSU degree majors.

CCC students who earn an Associate Degree for Transfer (AA-T or AS-T) are guaranteed admission with junior standing to a CSU and given priority admission over other transfer applicants when applying to a local CSU campus or non-impacted CSU program. AA-T or AS-T admission applicants are given limited priority consideration based on their eligibility ranking to an impacted campus/program or to campuses/programs that have been deemed similar to the degree completed at the community college. Students who have completed an AA-T/AS-T in a program deemed similar to a CSU major are able to complete remaining requirements for graduation within 60 semester (90 quarter) units. It is the responsibility of the student who has earned an AA-T/AS-T to provide documentation of the degree to the CSU campus.

Note: CCC students may be eligible for the California Promise program (see the section in the Registration & Enrollment Chapter for additional information).

The California Promise is a program established through California Senate Bill 412 to facilitate graduation for transfer students who have completed an Associate Degree for Transfer. The California Promise program is open to California residents for purposes of in-state tuition eligibility.

Eligibility

Beginning Fall Semester, 2018, students eligible to join the California Promise Program must be:

- incoming transfers with an Associate Degree for Transfer relevant to their admitted major, and
- participants must be California residents for purposes of in-state tuition eligibility.

Program Requirements

Once enrolled in the California Promise program, students must sign a pledge which states they will satisfy the requirements for continued enrollment in the Program.

- Successfully complete 30 units towards the degree every academic year (including Winter and/or Summer Sessions).
- Complete the degree program within two years for transfer students, beginning with the first term of enrollment.
- Maintain good academic standing, including a CSUEB GPA of 2.0 or above.
- Complete all required courses on the first attempt with the minimum grade requirements for the major.
- Complete a California Promise advising workshop and associated workshop requirements.
- Remain in the admitted major. (Students who change majors must receive approval from the California Promise advisor in the college of the new major, verifying that the change of major will allow the student to graduate in two years from their first term of enrollment as a transfer student.)
- Register for classes during the assigned California Promise priority registration window (within the first 24 hours of the registration appointment) and pay fees by the required deadlines.

Benefits of participating in the California Promise Program

- Advising specific to graduating in two years
- Early registration time
- On-time completion of the degree can save the student money.

Applying to Cal State East Bay's California Promise Program

Messages will be sent to the student's MyCSUEB account in May. Eligible incoming students (California residents admitted as a transfer with a verified Associate Degree for Transfer degree relevant to their admitted major) will receive a message in their MyCSUEB account after the Intent to Enroll deadline, sometime in the month of May. This will contain a link to submit the application to the California Promise program. Submission of application does not guarantee admission to the program. Applicants must have earned the Associate Degree for Transfer degree no later than at the time of admission.

Questions

For questions not addressed here, please contact the California Promise Advisor at: californiapromise@csueastbay.edu

Conditional Admission For Transfer Students

Cal State East Bay may conditionally admit transfer applicants based on their academic preparation and courses planned for completion. The campus will monitor the final terms to ensure that those admitted complete all required courses satisfactorily. All accepted applicants are required to submit an official transcript of all college level work completed. Campuses may rescind admission for any student who is found to be ineligible after the final transcript has been evaluated. In no case may such documents be received and validated by the University any later than a student's registration for their second term of CSU enrollment.

Note: Transcripts with all final grades posted must be received by the transcript deadline.

Evaluation of Admission Eligibility

After an applicant receives an acknowledgment from Cal State East Bay that their application has been received, they will be requested to submit required documents (i.e. official transcripts, test scores, etc.), if they have not previously done so. It is the applicant's responsibility to see that all official transcripts are sent directly to the Office of Admission from each previous institution attended by the deadline specified on the student's *MyCSUEB To Do List*. Neither evaluation of transcripts and test scores nor determination of eligibility is possible until all required documents have been received.

- First-time freshmen must submit official transcripts of high school work (grades 9-12). Scores from the ACT or SAT examinations are required. If an applicant is still in high school, they must submit transcripts of work as instructed and a final transcript after graduation.
- If an applicant is applying for undergraduate transfer, graduate, or post-baccalaureate admission, they must submit an official transcript from each college or university previously attended by the deadline specified on the student's *MyCSUEB To Do List*, regardless of length of attendance, and even if no work was completed.
- If an applicant is an international student or non-U.S. citizen, they may be required to submit additional records. See International Admissions Requirements in this chapter.

Note: The University has the obligation to determine whether a transcript will be accepted as official. All transcripts and records submitted for admission or readmission become the property of the University. Students may access their academic records according to policies and procedures established by the campus. Applicants must submit official transcripts from all colleges and universities they have attended so their entire academic experience can be evaluated. Failure to do so will be grounds for denial of admission or readmission or for dismissal from the University.

Application Denial and Appeal

Section 89030.7 of the California Education Code requires that the CSU establishes specific requirements for appeal procedures for a denial of admission. Each CSU campus must publish appeal procedures for applicants denied admission to the University. The procedure is limited to addressing campus decisions to deny an applicant admission to the University.

Admissions appeal procedures must address the basis for appeals, provide 15 business days for an applicant to submit an appeal, stipulate a maximum of one appeal per academic term, provide specific contact information for the individual or office to which the appeal should be submitted, and indicate a time estimate for when the campus expects to respond to an appeal. The appeal procedures must be included in all denial of admission notifications to students, and must also be published on the campus website.

If the applicant does not meet published admission eligibility standards, the student may petition the Admissions Appeals Committee for reconsideration. There is a limit on the number of exceptions to published admission criteria for which the campus may grant an exception. The Committee, therefore, considers a number of factors, normally favoring applicants who are close to qualifying and who are upper division students. Instructions for submitting an appeal are provided to eligible denied students.

If the applicant comes from a disadvantaged background or is a veteran, they may be considered under special criteria in addition to that stated above.

Determination of Residency for Tuition Purposes

University requirements for establishing residency for tuition purposes are independent from those of other types of residency, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student should pay university fees on an in-state or out-of-state basis. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residency Requirements. These laws governing residency for tuition purposes at the California State University are California Education Code sections 68000-68085, 68120-68133, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. This material can be viewed by accessing the California State University's website at www.calstate.edu/GC/resources.shtml.

Each campus' Admissions Office is responsible for determining the residency status of all new and returning students based on the Application for Admission, Residency Questionnaire, Reclassification Request Form and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

Generally, establishing California residency for tuition purposes requires a combination of physical presence and intent to remain indefinitely in the State of California. An adult who, at least 366 days prior to the residency determination date for the term in which enrollment is contemplated, can demonstrate both physical presence in the state combined with evidence of intent to remain in California indefinitely may establish California residency for tuition purposes. A minor normally derives residency from the parent(s) with whom he/she resides or most recently resided.

Evidence demonstrating intent may vary from case to case but will include, and is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California vehicle registration and driver's license, maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or occupying or renting a residence where permanent belongings are kept,

maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

A nonresident student seeking reclassification is required to complete a supplemental questionnaire that includes questions concerning his/her financial independence. Financial independence is required, in addition to physical presence and intent to remain indefinitely, to be eligible for reclassification. Financial independence is established if in the calendar year the reclassification application is made - and in any of the three calendar years preceding the reclassification application - the student:

- has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent(s);
- has not and will not receive more than \$750 per year in financial assistance from his/her parent(s); and
- has not lived and will not live longer than six weeks in the home of his/her parent(s).

A nonresident student who has been appointed as a graduate student teaching assistant, a graduate student research assistant, or a graduate student teaching associate on any CSU campus and is employed on a 0.49 or more time basis is exempt from the financial independence requirement.

Non-citizens establish residency in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

Exceptions to the general residency requirements are contained in California Education Code sections 68070-68085 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906-41906.6, 41910. Whether an exception applies to a particular student can only be determined after the submission of an application for admission and, as necessary, additional supporting documentation. Because neither the campus nor Chancellor's Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

Residency determination dates are set each term. They are:

Semester Term Campuses	
Fall	September 20
Winter*	January 5
Spring	January 25
Summer	June 1
* Applies only to winter term at CSU Stanislaus	

CalState TEACH operates on a trimester system. The residency determination dates for CalState TEACH are as follows:

- Fall - September 20
- Spring - January 5
- Summer - June 1

Nonresident Classification Appeal Process

Students classified as nonresidents may appeal a final campus decision within 30 days of notification by the campus. Information on the appeal process may be found at <http://www.calstate.edu/sas/residency/appeals.shtml>. A campus residency classification appeal must be submitted via the InfoReady online Residence Appeal Form to the California State University Chancellor's Office at:

<https://calstate.infoready4.com/#competitionDetail/1760156>

Appeals via email, fax and U.S. mail will not be accepted. A student with a documented disability that prohibits the student from submitting an appeal through the *InfoReady* site should contact Student Academic Services:

California State University
Attn: Student Academic Services
401 Golden Shore, 6th Floor
Long Beach, CA 90802-4210
Email: residencyappeals@calstate.edu

The Chancellor's Office can either decide the appeal or send the matter back to the campus for further review. Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is also subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents or who no longer meet the criteria for an exception must immediately notify the Admissions Office. Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residency for tuition purposes in California between the time this information is published and the relevant residency determination date. Students are urged to review the statutes and regulations stated above.

California Resident Freshmen Early Start Program

The Early Start Program serves CSU admitted freshmen who have not demonstrated proficiency in written communication and/or mathematics/quantitative reasoning as determined by systemwide placement standards. Participation in the Early Start Program is required for students needing skills development in these areas; students will be expected to enroll in a written communication course or a mathematics/quantitative reasoning course (but not both) during the summer period prior to the start of

the fall term. Students required to participate in the Early Start Program may choose to enroll at any CSU campus; the earned baccalaureate credit will be transferred seamlessly to the student's destination campus.

The goals of the Early Start Program are to:

- Better prepare students in written communication and mathematics/quantitative reasoning before the start of the fall semester of the freshman year;
- Add an important and timely assessment tool in preparing students for college; and
- Improve the opportunity for students to successfully complete their college degrees.

Educational Opportunity Program (EOP) & Summer Bridge

Established in 1969, the Educational Opportunity Program (EOP) provides admission and retention support services to low-income and educationally disadvantaged California residents who demonstrate the motivation and potential to succeed in college. EOP identifies and admits students who have the potential to succeed at California State University campuses, but who have not achieved their educational goals because of economic and/or educational background. EOP provides students with the resources, tools and skills to ensure academic and personal success through a variety of academic support services. These services provided by EOP include recruitment, preadmission counseling, special admissions, a *Summer Bridge program* (for entering EOP freshmen), specialized orientation sessions, academic advisement, personal counseling, skill-enhancement workshops, career guidance, peer advising, support groups, social/cultural activities, referral services, and EOP grants for eligible students.

Summer Bridge is a transition program for a select group of newly admitted Educational Opportunity Program (EOP) freshmen students to prepare them for their first year at Cal State East Bay. This intensive college readiness program is designed to provide incoming EOP exception admit freshmen with the following academic, social, and multicultural experiences to smooth their transition from high school to the University's environment:

- Provide classes in English and Mathematics to enhance academic skills
- Acquaint students to the University and its many resources
- Provide workshops in the foundations of college success
- Make new friends
- Meet college professors
- Work with their counselors and peer advisors
- Select Fall semester classes
- Provide cultural and social activities

EOP accepts students who qualify for regular admission, as well as a limited number of students who do not meet regular admission criteria. Only low-income and educationally disadvantaged undergraduate students who need admission assistance and/or support services to succeed at Cal State East Bay are admitted to EOP. Additionally, students must be first generation college students, meet the income eligibility criteria, and either be California residents or AB 540. They must also demonstrate academic potential and motivation to succeed.

To apply for admission to the program, prospective students must complete the online *CALSTATE Apply* Application for Undergraduate Admission and check the appropriate box for EOP services. Once the Cal State East Bay application is submitted (online), EOP applicants will receive an online EOP link and have access to complete the EOP Applicant Information Form and two EOP recommendation forms. Students must have all three documents submitted in order for their EOP application to be complete.

EOP is a high-demand program which only accepts applications for Fall term from applicants new to the CSU system. Currently enrolled and/or previously enrolled students (not formerly in an EOP CSU program) are not eligible to apply. Applicants who submit all required documents will be reviewed and if selected, will be admitted to EOP. All EOP freshmen receiving exception admission are required to attend the EOP Summer Bridge program as a condition of their admission for Fall term.

For assistance or for further information about EOP and the Summer Bridge program, please visit the EOP Office at Student and Faculty Support (SF) Building 224, or online at www.csueastbay.edu/eop. Prospective applicants can also email eopadmissions@csueastbay.edu or call (510) 885-4683 for more information.

Declaration of Major Objective

When a student applies for undergraduate admission they must state an objective (major and degree) to be pursued. In addition, once the student has been enrolled at the University, faculty, as well as staff of the Academic Advising and Career Education Center, are available to assist the student in selecting a major and degree program. The responsibility for meeting the specific requirements of a program or major rests with the student, but the advisor or the department chair of their selected major will help the student determine the courses remaining for completion of major requirements.

Academic Advising and Career Education may also assist the student in determining General Education requirements.

Alternative Admission Criteria for Adults 25-years and Over

As an alternative to regular admission criteria, an applicant who is 25 years of age or older may be considered for admission as an adult student if he or she meets all of the following conditions:

1. Possesses a high school diploma (or has established equivalence through either the General Educational Development or California High School Proficiency Examinations).
2. Has not been enrolled in college as a full-time student for more than one term during the past five years.
3. If there has been any college attendance in the last five years, has earned a 2.00 GPA or better in all college work attempted.

Consideration will be based upon a judgment as to whether the applicant is as likely to succeed as a regularly admitted freshman or transfer student and will include an assessment of basic skills in the English language and mathematical computation.

Programs Leading to Licensure & Credentialing

See Errata for correction to this content.

Admission into programs leading to licensure and credentialing does not guarantee that students will obtain a license or credential. Licensure and credentialing requirements are set by agencies that are not controlled by or affiliated with the CSU and requirements can change at any time. For example, licensure or credentialing requirements can include evidence of the right to work in the United States (e.g., Social Security number or tax payer identification number) or successfully passing a criminal background check. Students are responsible for determining whether they can meet licensure or credentialing requirements. The CSU will not refund tuition, fees, or any associated costs, to students who determine subsequent to admission that they cannot meet licensure or credentialing requirements. Information concerning licensure and credentialing requirements are available from the Credentialing Student Services Center or see the College of Education & Allied Studies website.

(Students in Biological Science, Educational Psychology, Engineering, Kinesiology, Nursing, and Teacher Education, in particular should be aware of these provisions.)

Credit for Military Training and USAFI

Cal State East Bay grants six (6) semester units of credit toward a baccalaureate degree for a student who completed basic training and was honorably discharged from military service of the United States after serving at least one year and one day, in accordance with the recommendation of the American Council on Education. Three (3) of these units may be applied toward General Education Area E.

Note: Credit is not given for completion of the six month reserve training programs.

Commissioned officers may receive an additional six (6) semester units, which may be considered upper division elective credit. In order to receive such credit applicants must present written certification from a recognized military authority, such as papers from a military separation center (service form DD-214 or DD-295) or a Joint Services Transcript (JST). Credit for specific courses may be allowed if the student has satisfactorily completed equivalent study in a military service school. The guidelines of the American Council on Education are followed in determining eligibility.

Cal State East Bay is a Servicemember Opportunity College (SOC).

Also see: Military & Veterans Information & Services chapter.

Credit for Advanced Placement & International Baccalaureate Tests

Cal State East Bay grants credit toward its undergraduate degrees for successful completion of Advanced Placement (AP) and International Baccalaureate (IB) program tests. Students will be granted college credit for each test completed, depending upon the specific discipline.

Also see the Requirements, Exams & Testing chapter.

Credit for Experience and Prior Learning

No unit credit is allowed toward the bachelor's or master's degrees for practical experience. An exemption allowed for experience will not carry units of advanced standing or diminish the number of units required for graduation.

Transfer Policies of CSU Campuses

Most commonly, college-level credits earned from an institution of higher education accredited by a regional accrediting agency are accepted for transfer to campuses of the CSU; however, authority for decisions regarding the transfer of undergraduate credits is delegated to each CSU campus.

California Community Colleges and other authorized certifying institutions can certify up to 39 semester (58.5 quarter) units of General Education-Breadth (GE-Breadth) or 37 semester (55.5 quarter) units of the Intersegmental General Education Transfer Curriculum (IGETC) for transfer students to fulfill lower-division general education requirements for any CSU campus prior to transfer.

"Certification" is the official notification from a California Community College or authorized institution that a transfer student has completed courses fulfilling lower-division general education requirements. The CSU GE-Breadth and the Intersegmental General Education Transfer Curriculum (IGETC) certification course lists for particular community colleges can be accessed at: www.assist.org.

CSU campuses may enter into course-to-course or program-to-program articulation agreements with other CSU campuses, any or all of the California community colleges and other regionally accredited institutions. Established CSU and CCC articulations may be found on www.assist.org. Students may be permitted to transfer no more than 70 semester (105 quarter) units to a CSU campus from an institution which does not offer bachelor's degrees or their equivalents, for example, community colleges. Given the university's 30-semester (45-quarter) unit residency requirement, no more than a total of 90 semester (135 quarter) units may be transferred into the university from all sources.

California Community Colleges GE Certification

California Community Colleges and other authorized certifying institutions can certify up to 39 semester (60 quarter) units of General Education-Breadth (GE) or 39 semester (60 quarter) units of the Intersegmental General Education Transfer Curriculum (IGETC) for transfer students to fulfill lower-division general education requirements for any CSU campus prior to transfer.

"Certification" is the official notification from a California Community College or authorized institution that a transfer student has completed courses fulfilling lower-division general education requirements. The CSU GE and the Intersegmental General Education Transfer Curriculum (IGETC) certification course lists for particular community colleges can be accessed at www.assist.org.

CSU campuses may enter into course-to-course or program-to-program articulation agreements with other CSU campuses and any or all of the California Community Colleges, and other regionally accredited institutions. Established CSU and CCC articulations may be found on www.assist.org. Students can apply no more than 70 semester units to a CSU campus from an institution which does not offer bachelor's degrees or their equivalents, for example, community colleges.

If a transfer student completes the Intersegmental General Education Transfer Curriculum (IGETC) and it is certified as being complete by their community college, they have satisfied the entire 39 semester unit lower division GE program and have only the three courses, 9 semester units, of the upper division GE program to complete.

Note: Even though a student's certification from a California Community College (CSU GE pattern for CSU Intersegmental General Education Transfer Education Transfer Curriculum-IGETC) or another CSU campus may show more than the maximum number of certifiable units, they must still complete a minimum of 9 upper-division residence GE semester units at Cal State East Bay or another CSU.

If the student's catalog rights for graduation are governed by this catalog, they must complete the following:

- Area B6, an upper-division Science Inquiry or Quantitative Reasoning course of at least 3 units selected from the Area B6 list;
- Area C4, an upper-division Arts or Humanities course of at least 3 units selected from the Area C4 list;
- Area D4, an upper-division Social Science course of at least 3 units selected from the Area D4 list;
- The Overlay requirements may be satisfied simultaneously with lower- or upper-division Area GE requirements, courses in the student's major, or as an elective course selected from Cal State East Bay's Overlays list. This requirement can also be satisfied by lower-division GE transfer courses that meet the CSUEB criteria; and
- The Second Composition requirement for transfer students, is satisfied with ENGL 200 (College Writing II), another approved second composition course, or an equivalent transfer course. Students who satisfy GE Area A3, Critical Thinking, using a course on the IGETC Critical Thinking list can also use that course to satisfy the Cal State East Bay Second Composition requirement.

Under certain circumstances, a student may be covered by different catalogs for their GE and major requirements. Please see an advisor for more information.

Students whose catalog rights for graduation fall under an earlier catalog should check the GE requirements for that catalog.

Students must complete at least 30 semester (45 quarter) units of GE including GE Areas A (English Language Communication and Critical Thinking) and B4 (Mathematics/Quantitative Reasoning) before transferring as a junior.

Transfer Credit Information

New undergraduate transfer students can view their preliminary degree audit in MyCSUEB after they are admitted to the University and have submitted all required transcripts. A complete evaluation of transfer courses applying to general education will be completed by the Office of the Registrar, and students will be notified by Horizon e-mail when this has been completed. Requirements specific to a student's chosen major will be reviewed by the respective department. Students should check their degree audit regularly

so they are aware of remaining graduation requirements, and discuss any discrepancies with an academic or major advisor.

Credit for Accredited Community College Courses

Cal State East Bay and California Community Colleges have articulation agreements regarding course equivalencies. Students who are planning to transfer to Cal State East Bay should consult with their community college counselors as to whether or not particular courses meet CSU specific requirements. Academic Advising and Career Education (AACE) advisors, located on the second floor of the Student Services and Administration Building, are available to discuss and explain students' transfer evaluations or the Degree Audit Report on **MyCSUEB**. An official evaluation or an update of a prior evaluation is available by appointment. (Also see the *Student Services* chapter in this catalog for additional information.)

Credits earned at accredited community colleges will be evaluated by the Office of Admission in accordance with the following provisions:

1. Not more than 70 semester (105 quarter) units of credit may be allowed for community college work; community college credit earned after the student has earned 70 semester units at one or more community colleges will be used for determining grade point averages and may be used to satisfy subject requirements, but may not be applied toward the total units required for the bachelor's degree.
2. No credit may be allowed for professional courses in education taken in a community college, other than an introduction to education course.
3. Certification of part or all of the lower division General Education-Breadth Requirements completed may be submitted by the California Community College from which the student is transferring. Students should request a General Education (GE) certification at the time they request a transcript to be sent to Cal State East Bay. Nine upper division GE semester units must be completed at Cal State East Bay.
4. Certification of the completion of the Cal State East Bay requirements in U.S. History and Institutions will also be accepted from a community college.

Credit for Other Collegiate Work

Students who have taken coursework at another institution while in continuing student status at Cal State East Bay must request an official transcript be sent to the Office of the Registrar. Credit from institutions not regionally accredited will not be used in determining admission eligibility, nor will it normally be used to meet graduation requirements.

Credit for Continuing Education Work

Students may count a maximum of 24 semester (36 quarter) units of extension credit toward a baccalaureate degree at Cal State East Bay. Any such units not earned at Cal State East Bay must be

earned in courses deemed acceptable for Cal State East Bay degrees and course units must come from accredited institutions that accept the units toward their own degrees.

No extension credit may be applied toward the residency requirement for undergraduates or graduates. Courses taken in Cal State East Bay Special Sessions programs, e.g., summer session courses, may be applied toward residency. All transferable extension will be used for determination of the undergraduate grade point average.

Transfer Student Provisions

In general, degree requirements are the same, but special provisions safeguard the programs taken by students at California Community Colleges and other CSU campuses. For transfer students, the following provisions apply.

1. If a transfer student completes GE courses approved for transfer to the CSU and they are certified by the student's California Community College and/or CSU campus (or another campus accepts them and certifies them), Cal State East Bay will accept them to meet the requirements for which they are certified. According to the Code, CSU cannot accept more than 39 semester units (or 60 quarter units).
2. If a transfer student completes any part or all of the U.S. history, U.S. Constitution, and California state and local government requirement at a California Community College or other CSU campus and it is certified, Cal State East Bay will accept that certification for completion for all, or part of, the requirement. Contact the corresponding academic department (e.g., History) with any questions about this requirement.
3. If a transfer student successfully completed a course at another university or college that is not certified for the CSU GE program, but believes it meets the criteria listed earlier for a specific requirement, they may request an "exception" on their degree audit. If they believe they have a petitionable course, they should discuss it with their advisor, with a GE advisor in the Academic Advising and Career Education Office, or the GE Office. If the advisor agrees, the advisor will submit the exception request for review. After action on the request for an exception, an e-mail to the student's Horizon account will notify them of the decision. Likewise, if the student believes they have a petitionable course for the U.S. history and government requirement, they may request an exception. In this case, the student must go to the department appropriate to the course and review the issue with the department chair. If the chairperson agrees, they will approve the exception and note it on the student's degree audit.
4. Cal State East Bay has articulation agreements for all of its majors with all California Community Colleges. These may be viewed online at: <http://www.assist.org>. If a transfer student followed one of these major articulation agreements and completed all equivalent lower division work at the community college, the major department will consider the student's lower division major complete. If they did not follow an articulation agreement, the major department will evaluate their transfer courses individually for equivalence.
5. Cal State East Bay also maintains pre-approved transfer courses from multiple private and out-of-state colleges. They may be viewed online at: TES.
6. The graduation writing proficiency requirement (called the University Writing Skills Requirement or "UWSR" at Cal State East Bay) is mandatory on all CSU campuses. Cal State

East Bay will accept certification of the graduation writing proficiency requirement from any CSU campus. However, written documentation must be provided certifying that the entire requirement was satisfied at the other campus where the student was enrolled as a matriculated student. ("Matriculation" means regularly enrolled after being admitted to a university.) A student cannot, for example, take a writing proficiency test at another campus to meet the UWSR at Cal State East Bay while they are matriculated at Cal State East Bay.

Note: Although students can complete a sizable portion of their graduation requirements at other colleges and universities, they should not forget the residence requirements previously listed. These must be satisfied while matriculated and enrolled at Cal State East Bay.

Transfer of University-level Work from Outside the U.S.

Transfer students with university-level work earned outside the U.S. will be accepted if the overall grade point average of that work is equivalent to the stated minimum grade point average requirements for admission. Transfer credit for university-level course work earned outside of the U.S. will be awarded after a course-by-course evaluation by the International Admissions Office.

Transferable Units through the CSU International Program

A student may also apply units earned through the CSU International Programs that meet the criteria outlined in the lower-division and upper-division transfer requirements in this chapter. If a student also wishes to apply transfer credits to their degree, the total of the transfer and International Program units may not exceed one-half of those required for the degree. If a student completes their capstone experience (thesis, project, or comprehensive examination) while in the International Programs, this must be done under the supervision of at least one Cal State East Bay faculty member.

Also see the Center for International Education for more information.

A Matriculated Student

Matriculation

Upon being fully admitted to the University and having submitted the Student Intent to Register form, the student is registered as a "matriculated student". The student will be issued an enrollment appointment on MyCSUEB to sign up for classes.

Students who fail to enroll in a class during their first term as a matriculated student or who do not enroll in classes for two consecutive semesters (not including summer or winter sessions) and do not enroll in the third consecutive semester are discontinued and will be required to submit a new application to the University for readmission. That is, they lose their status as a matriculated student.

Students who fail to fulfill enrollment or matriculation requirements, or otherwise fail to adhere to academic or Cal State East Bay regulations, are subject to immediate administrative action which may result in the student being placed on Administrative Probation, or having enrollment for that term cancelled.

CSU Immunization Requirements

Entering CSU students are required to present proof of the following immunizations to the CSU campus they will be attending before the beginning of their first semester of enrollment.

- **Measles and Rubella Immunization.**

All new and readmitted students must provide proof of full immunization against measles and rubella prior to enrollment. Failure to comply with this requirement will result in a hold being placed on the student's registration.

- **Tuberculin Skin Test or Chest X-Ray.**

International students must provide written proof of a Tuberculin Skin Test or chest x-ray performed in the U.S.A. during the past 12 months. Failure to comply with this requirement will result in a hold being placed on the student's registration.

- **Hepatitis B.**

All new students who will be 18 years of age or younger at the start of their first term at a CSU campus must provide proof of full immunization against Hepatitis B before enrolling. Full immunization against Hepatitis B consists of three timed doses of vaccine over a minimum 4 to 6 months period. Students who need further details or have special circumstances should consult with Student Health and Counseling Services. Each incoming freshman who will be residing in on-campus housing will be required to return a form indicating that they have received information about Hepatitis B and the availability of the vaccine to prevent contracting the disease and indicating whether or not the student has chosen to receive the vaccination. Failure to comply with this requirement will result in a hold being placed on the student's registration. Hepatitis B immunization is available at Student Health and Counseling Services for no, or low cost. Call Student Health and Counseling Services at (510) 885-3735 for more information or to make an appointment. For convenience, a form is available online for students to download and complete. See the Student Health and Counseling Services Web site for this form or for additional information at: <http://www.csueastbay.edu/shcs>.

- **Meningococcal Disease.**

Meningococcal disease is a potentially life-threatening bacterial infection known to occur more frequently among students living in residence halls. It is recommended that all incoming residential students consider the Meningococcal Vaccine as a way to reduce their risk for this potentially fatal disease. Each incoming freshman who is residing in on-campus housing is required to return a form indicating that they have received information about meningococcal disease and the availability of the vaccine to prevent contraction of the disease, and to indicate on the form whether or not the student has chosen to receive the vaccination. The vaccine is available at Student Health and Counseling Services.

Note: The above are not admission requirements, but are required of students as conditions of enrollment in CSU. However, The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines appropriate based on an applicant's suitability and the best interests of the University.

The Student Health and Counseling Services Center at Cal State East Bay provides immunizations, tuberculin skin tests, laboratory and chest x-ray exams for students at low cost by appointment. For more information, call Student Health and Counseling Services at (510) 885-3735 or visit the Student Health and Counseling Services Web site at: <http://www.csueastbay.edu/students/campus-life/shcs/>.

Note: To remove a registration hold for measles/rubella, tuberculin tests, or Hepatitis B, bring written proof to the Reception Desk at the Student Health and Counseling Services Center.

Enrollment

Students at Cal State East Bay can enroll for classes prior to each term via the University's online registration system in *MyCSUEB*. Demonstrations and instructions for the enrollment process can be found within the "Help" feature in *MyCSUEB*. Students requiring assistance may call the Office of the Registrar at (510) 885-2784 or visit the Student Enrollment Information Center on the first floor of the Student Services and Administration Building on the Hayward Campus or in the lobby of the Academic Services Building on the Concord Campus.

Student Enrollment Information Center

The Hayward campus Enrollment Information Center (EIC) is located on the first floor of the Student Services and Administration Building. It provides general information related to admission, financial aid, records and registration, and graduation evaluation. The Enrollment Information Center is open Monday through Thursday from 8:30 a.m. to 5:30 p.m.; and Friday from 10:00 a.m. to 5:00 p.m. During the first five days of instruction each semester extended hours are 8:00 am to 6:00 pm except Fridays when the closing time is 5:00 pm. The Cashier's Office, also located on the 1st floor of Student Services and Administration Building next to the Student Enrollment Information Center, is open Monday from 8:30 a.m. to 6:00 p.m.; Tuesday through Thursday from 8:30 a.m. to 5:00 p.m.; and Friday from 9:30 a.m. to 4:30 p.m. Students seeking service from departments should contact those offices directly.

Academic Assistance is open 9:00 a.m. to 6:00 p.m. Monday through Thursday, and until 5:00 p.m. on Friday for questions regarding services and to schedule advising appointments. Academic advising is available for all undergraduate students regarding their non-major degree requirements. Drop-in advising is available Tuesday and Wednesday, 10:00 a.m. to 12:30 p.m., and 3:00 p.m. to 5:30 p.m. Appointments may also be scheduled in advance and, if needed, 6:00 p.m. appointments are available. Students should bring all their advising records including their most recent general education evaluation or degree audit when they come for advising. Please call (510) 885-3621 for any current changes to advising hours, or go to www.csueastbay.edu/aace.

Concord Student Services is located in the lobby of the Academic Services Building. It is open Monday through Thursday, 9:00 a.m. to 6:30 p.m.

The Concord Campus Academic Services Office provides academic advising. Please call (925) 602-6700 for more information or visit the Concord Campus website at: www.csueastbay.edu/concord/

Undergraduate Status: Class Standing

Undergraduate students are assigned a class standing according to the following plan:

Semester Units Earned Toward the Degree

Lower Division:

Freshmen	Fewer than 30 units
Sophomores	30 but fewer than 60 units

Upper Division:

Juniors	60 but fewer than 90 units
Seniors	90 or more units
Graduating Seniors	100 or more earned units, filed for graduation, and paid the graduation filing fee

General Enrollment Policies & the MyCSUEB Enrollment System

To enroll at Cal State East Bay, students must be admitted to the University.

- Enrollment is complete only when all enrollment requests have been properly recorded and students have paid all fees, deposits, and charges. Dates for enrolling in *MyCSUEB*, the Cal State East Bay enrollment system, are published on the University website under Important Dates.
- Students are given credit only for those courses in which they are officially enrolled in at the conclusion of the Add/Drop period, except for any course which they have officially filed a Withdrawal form(s) and received an approved withdrawal.
- Students will be held responsible for completing all courses for which they are enrolled, except for those courses from which they withdrew.
- If students enroll in a course and do not attend initial class meetings, they may be dropped from the class if demand for the course exceeds capacity. Departments following this practice will make reasonable efforts to inform students of this action but students should not assume that non-attendance will result in them being automatically dropped and verify the accuracy of their schedule in *MyCSUEB* before the end of the Add/Drop period. It is the student's responsibility to check *MyCSUEB* to verify their course enrollment each term.
- The University does not guarantee the availability of particular courses or sections because admission to classes is authorized only until the maximum number of students allowable in any section has been reached.

Approved by the University Academic Senate, the priority for enrollment is as follows (students must meet the criteria at the time enrollment appointments are set):

- Students authorized to receive priority enrollment
- Graduating undergraduate seniors and graduating graduate students, defined as undergraduates who have filed for graduation by the priority deadline and have 100 semester units completed, and graduate or doctoral students who have filed for graduation and/or have been advanced to candidacy by the faculty of the graduate/doctoral program)
- Students authorized to receive early enrollment
- Freshmen
- Post-baccalaureate credential and doctoral students, and conditionally classified/classified graduate students in masters programs
- Seniors
- Juniors
- Sophomores
- Second baccalaureate, post-baccalaureate certificate program, and unclassified post-baccalaureate students
- AB 386 Students (online students from other CSU Campuses)

The priority for enrollment for students enrolling in 600-level and 700-level courses is as follows:

- All graduate students
- Undergraduate students majoring in the department concerned
- All other students

Enrollment Appointment Times

In MyCSUEB, students may enroll for a maximum of 17 units during their assigned enrollment period and after the initial enrollment period "Graduating Students" will be permitted to enroll up to a maximum of 22 units. "Graduating Students" are defined as undergraduate students who have completed 100 units and have filed for graduation by the priority deadline, and graduate students who have filed for graduation by the priority deadline and/or been advanced to candidacy by the faculty of the graduation program, *by the time enrollment appointments have been assigned*. Check the "Important Dates" page of the University website for dates when enrollment appointments will be set. Students who meet the conditions stated above after appointments are assigned are not eligible for priority registration.

To enroll in additional units exceeding the maximum number, approval must be obtained by contacting the student's major department advisor and College Dean. If approved, the student's major department will notify the Office of the Registrar and the student will then be permitted to add the additional units during the open enrollment or Add/Drop periods.

The normal academic load for full time undergraduate students who expect to graduate by enrolling for two semesters each year for four years is 15 units per semester. Because each classroom hour normally requires two hours of outside study per week, working students should carefully balance the time required for academic preparation with outside commitments.

Registration Restrictions

Possible Registration Restrictions

- Students who have earned 30 or more baccalaureate-level semester units without having satisfied G.E. areas A2 and B4 will not be permitted to register for additional coursework at Cal State East Bay.
- Students who have earned 60 or more baccalaureate-level semester units without having satisfied G.E. areas A1 and A3 will not be permitted to register for additional coursework at Cal State East Bay.
- Students who have earned 60 or more baccalaureate-level semester units and have been accepted into a major will not be permitted to register for additional coursework at Cal State East Bay.
- Students who have earned 75 or more baccalaureate-level semester units and have not taken the Writing Skills Test (WST) or enrolled in ENGL 300 or ENGL 301 will be notified to take the WST during the current semester and will have a registration hold placed for the following semester. Upon taking the WST or enrolling in the appropriate course the registration hold will be removed.
- If a student or former student fails to pay a debt owed to Cal State East Bay, the University may "withhold permission to enroll, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt" until the debt is paid (see Sections 42380 and 42381 of Title 5, California Code of Regulations). For example, Cal State East Bay may withhold production of official transcripts of grades to any person owing a debt. Students who believe that they do not owe all or part of an unpaid obligation should contact Student Financial Services. They will review the pertinent information, including information students may wish to present, and will advise students of their

conclusions with respect to the debt. Students should check **MyCSUEB** to verify whether any holds exist that will block registration for the next or subsequent term.

Note: The University reserves the right to select its students and deny admission to the University or any of its programs as the University, in its sole discretion, determines appropriate based on an applicant's suitability and the best interests of the University.

The California Promise

The California Promise Program at Cal State East Bay is for students with Associate Degrees for Transfer from any California Community College. It allows those students to complete their baccalaureate degrees in 2 years. The program is limited to students who are residents of California.

Students who commit to enter the 2-year pledge will be given a priority registration appointment for each state-supported enrollment period and will be provided with routine and thorough academic advisement. In order to remain in the program, students must meet with their advisors as prescribed, develop an enrollment plan, and complete 30 semester units within each academic year, including summer.

Eligible students must commit to the following:

- Complete a California Promise advising workshop every semester.
- Meet with a Pledge Advisor each semester and agree upon appropriate courses in which to register.
- Remain in the admitted major, unless prior approval has been obtained from the Pledge Advisor.
- Register for classes during the assigned California Promise priority registration window (within the registration appointment) and pay fees by the required deadlines.
- Maintain good academic standing, including GPA of 2.0 or above for both Cal State East Bay and overall.
- Successfully complete 30 semester units towards the degree each academic year (including Winter and/or Summer sessions). *Degree applicable units include baccalaureate level courses that count towards outstanding major and/or degree requirements, such as general education and university requirements.*
- Complete the degree program within two years, beginning with the first term of enrollment at Cal State East Bay.

Interested students entering Cal State East Bay should visit <http://www.csueastbay.edu/admissions/transfer-admission-reqs/california-promise.html>. For CSU-wide information, visit: www2.calstate.edu/apply/freshman/getting_into_the_csu/pages/the-california-promise-program.aspx.

Enrollment Policies for International Students

Undergraduate International Students

The U.S. Custom and Immigration Enforcement requires students on nonimmigrant F1 and J1 visas to pursue a full course of study in a specific program. Therefore undergraduate students are expected to complete a minimum of 12 units per semester for two consecutive semesters.

Note: Enrollment in courses through Open University in University Extension may not count for visa certification purposes.

Non-matriculated Enrollment

Most courses taught by regular Cal State East Bay faculty are available to students through Open University on a space-available basis. To enroll in an Open University course, applicants must complete an online Open University application form each term they wish to attend.

Visit the Open University website for more information and to apply online and view application deadlines. Late applications are not accepted.

High School Students: Enrollment in Special Programs

Dual Matriculation

High school students may be considered for enrollment in certain special programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Such admission is only for a given specific program and does not constitute a right to continued enrollment. This is called "dual matriculation". Information pertaining to dual matriculation is available in the Student Enrollment Information Center on the first floor of the Student Services and Administration Building. Under these programs, eligible high school students may enroll for university credit if they satisfy the requirements for admission to this status.

Intrasystem & Intersystem Enrollment Programs

Fully matriculated students enrolled at any CSU campus have access to courses at other CSU campuses on a space available basis unless those campuses/programs are impacted. This access is offered without students being required to be admitted formally to the host campus and in most cases without paying additional fees. Students should consult their home campus academic advisors to determine how such courses may apply to their specific degree programs before enrolling at the host campus.

There are two programs for enrollment within the CSU and one for enrollment between CSU and the University of California or California Community Colleges. Additional information about these programs is available from the Office of the Registrar.

CSU Fully Online Courses

Matriculated students in good standing may request enrollment in one course per term, offered by a CSU host campus. Enrollment requests will be granted based on available space, as well as completion of any stated pre-requisites. Credit earned at the host campus is electronically reported to the student's home campus to be included on the student's transcript at the home campus.

CSU Visitor Enrollment

Matriculated students in good standing enrolled at one CSU campus may enroll at another CSU campus for one term. Credit earned at the host campus is reported at the student's request to the home campus to be included on the student's transcript at the home campus.

Intersystem Cross-Enrollment

Matriculated CSU, UC, or community college students may enroll on a "space available" basis for one course per term at another CSU, UC, or community college and request that a transcript of record be sent to the home campus.

Undergraduate Academic Course Load

For financial aid and reporting purposes, the minimum academic course load for full-time undergraduate students is 12 units per semester. However, an average of 15 units per semester (30 units per year) is required to graduate in four years.

Undergraduate Status: Full or Part-time

The following classifications apply to students enrolled in the fall and spring semesters (not University Extension non-degree programs and shorter sessions including summer):

1. Full-time undergraduate students (including students seeking a second baccalaureate) are those enrolled in 12 or more units in a regular semester. Part-time undergraduate students are those enrolled in fewer than 12 units.
 - o *Note: that in order to graduate in 4 years or 8 semesters, students must complete an average of 15 units per semester.*
2. Full-time enrollment for veterans (or dependents of disabled or deceased veterans), or reservists under Chapter 30, 31, 33, 34, 35, or 106 is 12 or more units, according to V.A. regulations. Each semester, veterans and eligible dependents should consult the Veteran Affairs Coordinator before the first day of classes and submit their forms requesting certification of enrollment for V.A. benefits. More information can be found on the Veteran Student Admission page.

Enrollment & Degree Progress

Undergraduates who apply for the following must enroll in courses that satisfy their degree program:

- Veterans' Benefits (or for benefits as dependents of disabled or deceased veterans),
- International students wishing USCIS certification,
- Student athletes wishing to compete in intercollegiate sports, and
- Students on most types of financial aid.

California Resident Freshmen Early Start Program

The Early Start Program serves CSU admitted freshmen who have not demonstrated proficiency in written communication and/or mathematics/quantitative reasoning as determined by systemwide

placement standards. Participation in the Early Start Program is required for students needing skills development in these areas; students will be expected to enroll in a written communication course or a mathematics/quantitative reasoning course (but not both) during the summer period prior to the start of the fall term. Students required to participate in the Early Start Program may choose to enroll at any CSU campus; the earned baccalaureate credit will be transferred seamlessly to the student's destination campus.

The goals of the Early Start Program are to:

- Better prepare students in written communication and mathematics/quantitative reasoning before the start of the fall semester of the freshman year;
- Add an important and timely assessment tool in preparing students for college; and
- Improve the opportunity for students to successfully complete their college degrees.

Add/Drop Period

Students may add and drop classes during the Add/Drop period. Beginning the sixth (6th) instructional day of the semester, consent of the instructor and department offering the course is also required for enrollment. If students complete the enrollment process during the Add/Drop period, they are assessed a nonrefundable Late Registration fee. Students may drop a course during the Add/Drop period without it appearing on their permanent record. Courses dropped on or after the first day of the term may result in prorated charges.

Note: Deadlines for shorter sessions (Winter, Summer, and shorter sessions within the semester) may be different and students should consult the "Important Dates" page of the University website.

Adding Courses

Students may add courses during their enrollment appointment, open enrollment, and the Add/Drop period either by:

- (a) using *MyCSUEB*, or
- (b) coordinating their enrollment with the appropriate academic department office for Independent Study, Individual Study, Project, and/or Thesis courses.

Students have the right to add classes during these enrollment periods, subject to their having successfully completed the prerequisites (coursework and/or consent of instructor as stated in the Catalog) and to the availability of sufficient capacity in the class. Beginning the sixth (6th) instructional day of the semester until the end of the Add/Drop period, students may only add courses with the consent of the instructor and academic department offering the course.

Dropping Courses

The word "drop" refers to official deletion of a course from a student's record. If students cannot continue enrollment in a course for which they enrolled in for that particular term, they must officially drop the course using *MyCSUEB*. Students may drop courses through the end of the Add/Drop period without the

course appearing on their permanent record. After the Add/Drop period, students may only withdraw from courses.

Departments offering a class may drop students if they do not attend the first class meeting or if they have not met the course prerequisites that are published in the University Catalog. Some departments may notify students as a matter of courtesy when they are being dropped, but other departments may not. There is no University-wide policy and this determination will vary by department. Students should not assume that they will be dropped automatically if they do not attend class, and are responsible for dropping courses in *MyCSUEB* by the end of the Add/Drop period. Students are also responsible for checking their course enrollment to make sure it is accurate.

Schedule Changes

Students may add, drop, and waitlist courses using *MyCSUEB* during the designated enrollment periods. Beginning the sixth (6th) instructional day of the semester, consent of the instructor and department offering the course is also required for enrollment. Dropping courses may be done online through *MyCSUEB* until the tenth (10th) instructional day of the semester, and students may change their grade type until the fifteenth (15th) instructional day of the semester.

If students are on a waitlist and wish to add a class, it is important that they attend the first class meeting. **See "Registering for Classes" on the University's website for specific instructions.**

Note: Deadlines for shorter sessions (Winter, Summer, and shorter sessions within the semester) may be different and students should consult the "Important Dates" page of the University website.

Withdrawing from a Course(s)

Students cannot "drop" after the end of the Add/Drop period, but they can "withdraw" until the twelfth (12th) week of the semester. The word "withdrawal" refers to official termination of enrollment in a class after the Add/Drop period. Students can withdraw from a class only for serious health or personal problems beyond their control. If they withdraw from a class, the class will appear on their record with a grade of "W." The administrative symbol "W" indicates that a student was permitted to withdraw from a course after the Add/Drop period with the approval of the instructor and appropriate campus officials. This designation carries no connotation of quality of student performance and is not used in calculating grade point average. Beginning the third week of classes, students will be permitted to withdraw from courses by printing the downloadable "Withdrawal" form from the University website under "current students". On the form, state the reason, obtain approvals of the instructor and department and return the completed form to the Enrollment Information Center or the Academic Services Office. The Concord Campus Academic Services may approve withdrawals for courses offered at Concord.

Undergraduate students may withdraw from no more than 18 semester units of coursework in their undergraduate career, including any courses taken in CSUEB Open University. When serious illness or accidents are documented and used as a basis for approval of withdrawal from all classes in the term, the units will not count against the 18 unit maximum allowed. Students who exceed the maximum units allowed may petition for a waiver of the requirement to allow for additional withdrawals.

Withdrawals are normally not permitted after the twelfth (12th) week of the semester, particularly for individual courses. Students who have completed acceptable work up to that point and cannot continue should normally be assigned an "I" (Incomplete) grade. If students have serious and compelling nonacademic reasons for withdrawal from a class after the twelfth (12th) week, they must write a statement outlining the reasons for the withdrawal and obtain written documentation of the circumstances from an impartial third party, such as a doctor or lawyer. The document should be an original document (not a copy) on letterhead; then, the student must obtain the signatures of the instructor, department chair, and college dean, and finally submit the form and documentation to the Student Enrollment and Information Center, 1st Floor, Student Services and Administration Building on the Hayward Hills Campus, or the Concord Campus Academic Services Office for review by the Registration and Records Appeals Committee. Approval of the withdrawal is not automatic. *Note: Withdrawal from any class in which the final examination was taken and/or the student has been assigned an earned grade, is not permitted regardless of circumstances or documentation. Withdrawals will not be processed if students have taken the final examination for the course or have satisfied all the requirements for the course.*

A withdrawal may not automatically result in a fee refund. Students should consult with Student Financial Services for any questions about fee refunds related to withdrawing from classes.

If students enroll for a course and fail to attend, but do not officially drop or withdraw, they will receive an appropriate administrative grade indicating failure ("WU" or "NC" depending on the grading pattern in which they enrolled). Refer to the *Grading & Academic Standards* chapter of this catalog.

Note: Deadlines for all withdrawals can be found under "Important Dates" on the University website. The deadline for withdrawing from a shorter session, including summer or winter, is different than the semester deadline and students should consult the website for all deadline dates.

Cancellation of Registration or Withdrawal from the University

All Students

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term *are required* to follow the University's official withdrawal procedures. Failure to follow formal University procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from the Enrollment Information Center, located on the first floor of the Student Services and Administration Building.

Students who fail to fulfill enrollment or matriculation requirements, or otherwise fail to adhere to academic or Cal State East Bay regulations, are subject to immediate administrative action which may result in the student being placed on Administrative Probation, or having enrollment for that term canceled.

Note: Matriculated students who have not enrolled in classes at Cal State East Bay for two consecutive semesters (not including summer or winter sessions), and do not enroll in the third consecutive semester, will be discontinued and will be required to submit a new application to the University for readmission.

Add/Drop Period

Submitting a "Withdrawal" form is not required if students find it necessary to drop all courses in which they enrolled in using *MyCSUEB* during the Add/Drop period. For refund information, refer to the *Refund of Fees* section in the *Fees & Financial Services* chapter.

If students find it necessary to withdraw from the University after the Add/Drop period has ended (during the third through the twelfth week of instruction), they must complete a "Withdrawal" form, obtain approval signatures from each instructor and department chair, and return it to the Enrollment Information Center or the Academic Services Office. Course withdrawals are handled as noted in the section above. A semester from which a student withdraws is not counted as an interruption of enrollment for matriculated student status. Even if approved, a late withdrawal petition does not result in a fee refund. Students should consult with Student Financial Services for any questions about fee refunds related to withdrawing from classes.

Financial Aid Recipients

Students who receive financial aid funds *must consult* with a financial aid counselor in the Financial Aid Office prior to withdrawing from the University regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. Students who have received financial aid and withdraw from the institution during the academic term or payment period may need to return or repay some or all of the funds received, which may result in a debt owed to the institution.

Fee Refunds

A withdrawal may not automatically result in a fee refund. Students should consult with Student Financial Services for any questions about fee refunds related to withdrawing from classes.

Special Registration Petitions

Some courses may require a "Special Registration Petition" prior to enrollment that is **available from the department offering the course**. Typically, courses that will require special registration petitions are:

- Independent Study,
- Individual Study,
- Capstone Project,
- Departmental Thesis, or
- University Thesis.

Cross-registration with Other Bay Area Two-year & Four-year Institutions

Programs have also been established to permit students from Cal State East Bay and those from the following campuses to take coursework that is not available at their home campus at another school:

- Cañada College,
- Chabot College,

- College of Alameda,
- Contra Costa College,
- Diablo Valley College,
- Holy Names University,
- John F. Kennedy University,
- Laney College,
- Las Positas College,
- Los Medanos College,
- Merritt College,
- Mills College,
- Ohlone College,
- Solano College,
- St. Mary's College, and
- U.C. Berkeley.

Contact the counseling center or registrar at the host campus (or the Office of the Registrar at Cal State East Bay) for information on eligibility requirements, limitations and other privileges or restrictions.

Cross-registration Program with University of California, Berkeley (UCB)

The purpose of this program is to increase a student's educational opportunities by maximizing the use of existing programs and courses available in the East Bay region. The following conditions apply:

No course of instruction available at Cal State East Bay may be taken in the other system. Enrollment is limited to one course per semester.

Students may seek to enroll in a course offered at UCB upon the recommendation of their academic advisor and department chair. These advisors should insure the completion of any prerequisites before application is made.

Note: Forms are available from the University website under Student Records Forms.

Students may seek to enroll in a course offered at UCB only with the permission of the course instructor, and the approval of the appropriate department chair and college dean. Each university gives first registration priority to its own students; therefore, concurrent enrollment may not be available in courses with limited spaces. A Cal State East Bay student should return the completed form and card to 120 Sproul Hall at UCB.

Students must be in good standing, be matriculated in a degree program (undergraduate or graduate) and have a full-time schedule (12 semester units for undergraduates and 8 units of graduate level courses for graduate status) at Cal State East Bay in order to participate in the program.

Cross-registration with UCB is not permitted during a student's first term of enrollment at Cal State East Bay.

Each campus has appointed a coordinator of the cooperative program who verifies the satisfaction of these conditions for each prospective participating student. The Office of the Registrar coordinates the program at Cal State East Bay.

No additional costs are charged to the student at Cal State East Bay. However, they will be billed the Cal State East Bay rates for the total academic load in the combined registrations. Because of the interval involved in sending transcripts, there will be a time lag in the appearance of grades on Cal State East Bay's permanent records.

Cross-registration will be cancelled if the student becomes ineligible for participation.

Planned Educational Leave

Students may request a Planned Educational Leave to pursue educationally related activities which will enhance the prospect of successful completion of their academic program, but which do not require enrollment at Cal State East Bay or any other institution of higher education. Students who are unable to enroll due to compulsory military service or because of a documented disability or because of pregnancy may apply for a Planned Educational Leave. Students requesting a leave should be in good academic standing in a program leading to a degree.

A Planned Educational Leave may be for a period of up to a total of two years (four consecutive semesters, not including summer session) if students are enrolled in a program leading to a degree. The leave must be approved by their faculty advisor or department chair and the Office of the Registrar. If approved, students will retain graduation catalog rights and may enroll as a matriculated student, provided they return and enroll in the same major for the semester indicated. Failure to return from a Planned Educational Leave by the semester indicated means loss of catalog rights and students will be required to apply for readmission to the University and pay an application fee. The Planned Educational Leave form is available on the University website under Student Records Forms.

Undergraduates Petitioning for Graduate Credit

Undergraduate students may apply graduate courses taken during their final term of undergraduate attendance to a Cal State East Bay master's degree program. Students can take up to 9 semester units of courses during their final undergraduate semester (no earlier) and apply them to their master's degree if they:

- have at least a 2.00 grade point average at Cal State East Bay;
- do not need the units or grade points to complete their baccalaureate degree;
- do not need the units for residence credit in their master's degree; and
- obtain prior permission from the Department Chair of the graduate program in which they wish to apply the units.

While an undergraduate, students should obtain and complete a Petition for Graduate Credit form, and obtain the signed approval of the graduate department chair to apply the courses to their master's degree. The form should be filed with the Registrar's Office.

Students cannot be matriculated in a baccalaureate degree and a master's degree program at the same time. So, the units earned in the last undergraduate semester that are applied to the master's degree are not residence credit in the graduate degree. Most Cal State East Bay master's degrees require 30 units, 21 of which must be in residence. If a student takes the maximum 9 units for their graduate degree in the last undergraduate semester, they will have used up their non-residence degree credit and cannot use any transfer, University Extension, or Open University units for their master's degree.

Students who wish to start working on a basic Teaching Credential (500-level courses in Teacher Education) before completing their baccalaureate must be in the Fast-Track Teacher Preparation Program in order to have the credential units applied to their post-baccalaureate requirements. Students who are not in the Fast-Track Teacher Preparation Program may submit a Petition for Graduate Credit to the Office of the Registrar to receive post-baccalaureate credit. The Petition for Graduate Credit must be received prior to the posting of a student's degree, and can only be approved for courses completed during a student's final term before graduation. Once a degree is awarded, no changes can be made to give post-baccalaureate credit to courses taken in a baccalaureate program.

Fees & Financial Services

Fees

- Financial & Cashier Services
- Schedule of Tuition & Fees
- Additional Fees Payable Upon Service
- Miscellaneous Course Fees
- University Extension (Continuing Education) Fees
- Average Support Cost Per FT Equivalent Student

Financial Aid

- Financial Aid Services
- Availability of Institutional & Financial Assistance

Other Services

- Acceptable Methods of Payment
- Fee Waivers & Exemptions
- Refund Regulations
- Refunds of Mandatory Fees (Including Nonresident Tuition)
- Fees & Debts Owed to the Institution
- Procedure for Establishing or Abolishment of Campus-Based Mandatory Fees

Financial & Cashier Services

A variety of financial services are offered to students and staff, including cashier services, the sale of parking decals, and the processing of registration payments. The student financial services offices also assist students with their financial aid and scholarship payment disbursement questions, and accept authorizations to bill third party sponsors for student registration fees. The main office of Accounting and Fiscal Services is located in the Student Services and Administration building (SA), 2nd Floor. The Cashier's Office is located in the SA, 1st Floor and is open weekdays from 8:30 a.m. to 5:00 p.m., except Friday, the hours are 9:00 a.m. to 4:30 p.m. There is a secured drop box located in the front of the Cashier's Office for those wishing to drop off payments after normal business hours. The Cashier's Office accepts checks, cash and money orders only.

Note: Credit cards are NOT accepted at the Cashier's Office; however, students may pay their registration fees online with SmartPay using their American Express, Discover, Visa, or MasterCard with a 2.75% convenience fee. Students may also choose to pay with an electronic check free of charge. Consult MyCSUEB for additional payment information.

Undergraduate Schedule of Tuition and Fees 2018-2019

The CSU makes every effort to keep student costs to a minimum. Tuition and fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU reserves the right, even after tuition or fees are initially charged or initial payments are made, to increase or modify any listed tuition or fees. All listed fees, other than mandatory systemwide tuition, are subject to change without notice, until the date when instruction for a particular semester or quarter has begun. All CSU-listed tuition and fees should be regarded as **estimates** that are subject to change upon approval by the Board of Trustees, the chancellor or the presidents, as appropriate. Changes in mandatory systemwide tuition will be made in accordance with the requirements of the Working Families Student Fee Transparency and Accountability Act (Sections 66028 - 66028.6 of the Education Code).

The following reflects applicable systemwide tuition and fees for both semester and quarter campuses that were authorized by the Board of Trustees at the March 2017 meeting. These rates are subject to change.

Note: Students who already hold a bachelor's degree, regardless of their current educational objective, will pay the fees listed in the Graduate Admission & Fees chapter.

All Students:

Application fee (nonrefundable), payable online at the time of application via credit card, e-check or PayPal: \$55

Students are charged campus fees in addition to tuition and systemwide fees. Information on campus fees are also listed below or contact Financial Services for more information.

Undergraduate Tuition & Fees, effective 2018-2019 ^{1, 2}

	0 to 6.0 Units Per Semester	6.1 or More Units Per Semester
Tuition Fee*	\$1,665	\$2,871
Student Body Fee	64.50	64.50
Facilities Fee	3.00	3.00
University Union Fee	82.50	82.50
University Union Recreational Fee	97.50	97.50
Instructionally Related Activities Fee	12.00	12.00
Health Services Fee	187.50	187.50

Athletics Fee	52.50	52.50
Academic Excellence Fee	120.00	120.00
Photo I.D. (semester fee)	1.50	1.50
Total	\$2,286	\$3,492

1Fee adjustments subject to the policies established in Executive Order 661.

2Disclaimer - Cost of Collection: Unpaid Tuition and Fees. Students are subject to normal collection actions for unpaid debts including: assessment of late registration and past due fees, withholding of University services, withholding of credit for and disenrollment from some or all classes, referral of the debt to a collection agency and/or credit reporting agency, intercept of amounts due them from the State of California and/or legal action. They are obligated to pay all costs of collection, including attorney fees, collection agency fees and court costs (Please see Title 5, California Code of Regulations, Sections 42380 and 42381).

** Note: Undergraduate Tuition for the academic year (two semesters) is \$4,422 for 0 to 6.0 units per semester and \$6,834 for 6.1 or more units per semester. The total fees paid per semester will be determined by the number of units taken, including those in excess of fifteen.*

Nonresident Students (U.S. and Foreign)

Nonresident Tuition of **\$396 is paid on a per unit basis** (in addition to basic tuition and systemwide fees charged all students) for all campuses. The total nonresident tuition paid per term will be determined by the number of units taken.

Note: Mandatory systemwide tuition is waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers).

Credit Cards:

Visa, MasterCard, American Express, Discover and International Bank Transfers may be used for payment of student tuition and fees but may be subject to a non-refundable credit card processing fee.

Additional Fees Payable Upon Service

Additional Fees Payable when Service is Rendered:

Fee	Amount USD
Late registration fee	\$38

Failure to meet administratively-required time limit	\$20
Graduation and diploma fee *	\$55
Lost ID card fee	\$10
Returned check	\$25
Parking fee per semester: Auto	\$195
Parking fee per semester: Motorcycle	\$98
Official transcript of record (single)	\$4
Additional transcripts <i>prepared at same time</i> up to ten (2-10)	\$2 (each)
Additional transcripts <i>prepared at same time</i> after the first ten (11+)	\$1 (each)
Unofficial transcript of record	\$2 (each)
Items lost or broken	COST
Test fees	COST
Laboratory and/or activity fee	COST
Certificate program fee	\$4
Writing Skills Test (WST-Paper Version)	\$25
Writing Skills Test - Limited Administration (WST-Computer Version)	\$50
Miscellaneous Course fee	\$50-500

* Note: The graduation fee does NOT include the cost of cap and gown rental.

Miscellaneous Course Fees

Students may have to pay a miscellaneous course fee for instructional materials and field trips for some courses. If courses have such fees, it is noted in their course descriptions in this catalog. Also refer to the *MyCSUEB* for additional information and specific fee schedules for these courses.

Note: CSU reserves the right, even after initial fee payments are made, to increase or modify any listed fees, without notice, until the date when instruction for a particular semester has begun. All CSU listed fees should be regarded as estimates that are subject to change upon approval by The Board of Trustees.

University Extension (Continuing Education) Fees

Nonresident Tuition is not charged for Continuing Education or Open University courses. Fees for Cal State East Bay Continuing Education courses vary, depending on the type of course selected. Visit the Continuing Education website at <http://www.ce.csueastbay.edu> for the latest information on fees for specific courses, as well as detailed descriptions of programs and courses.

Average Support Cost Per Full-time Equivalent Student & Sources of Funds

The total support cost per full-time equivalent student (FTES) includes the expenditures for current operations, including payments made to students in the form of financial aid, and all fully reimbursed programs contained in state appropriations. The average support cost is determined by dividing the total cost by the number of FTES. The total CSU 2017/18 budget amounts were \$3,390,564,000 from state General Fund (GF) appropriations and before adding \$39.3 million CalPERS retirement adjustment, \$2,477,015,000 from gross tuition revenue and \$594,397,000 from other fee revenues for a total of \$6,461,976,000. The 2017/18 resident FTES target is 364,131 and the nonresident FTES based on past-year actual is 24,398 for a total of 388,529 FTES. The GF appropriation is applicable to resident students only whereas fee revenues are collected from resident and nonresident students. FTES is determined by dividing the total academic student load (e.g. 15 units per semester) (the figure used here to define a full-time student's academic load).

2017/18	Amount	Average Cost per FTES	Percentage
State Appropriation (GF) ¹	3,390,564,000	9,311	54.1%
Gross Tuition Revenue ²	2,477,015,000	6,375	37.0%
Other Fees Revenue ²	594,397,000	1,530	8.9%

Total Support Cost	6,461,976,000	17,217	100.0%

¹Represents state GF appropriation in the Budget Act of 2017/18; GF is divisible by resident students only (364,131 FTES).

²Represents CSU Operating Fund, gross tuition and other fees revenue amounts submitted in campus August 2017/18 final budgets. Revenues are divisible by resident and nonresident students (388,529 FTES).

The 2017/18 average support cost per FTES based on GF appropriation and tuition revenue only is \$15,687 and when including all three sources as indicated below is \$17,217, which includes all fee revenue (e.g. tuition, application fees, and other campus mandatory fees) in the CSU Operating Fund. Of this amount, the average tuition and other fee revenue per FTES is \$7,905.

The average CSU 2017/18 academic year, resident, undergraduate student basic tuition and other mandatory fees required to apply to, enroll in, or attend the university is \$7,216 (\$5,742 tuition fee plus \$1,474 average campus-based fees). However, the costs paid by individual students will vary depending on campus, program, and whether a student is part-time, full-time, resident or nonresident.

Financial Aid Services

The Financial Aid Services department coordinates all University-administered financial aid programs. Students may obtain financial aid information and assistance in the Student Enrollment Information Center (1st floor of Student Services and Administration Building).

Financial Aid Applications

The Free Application for Federal Student Aid (FAFSA) is available on the web at: www.fafsa.ed.gov. Students are strongly encouraged to complete the FAFSA each year by the March 2 priority filing date. The FAFSA helps determine their eligibility for grants, Work-Study, and loans. Eligibility for limited funds is determined by financial need and FAFSA priority filing. California residents may also apply for a Cal Grant by completing the FAFSA and asking their school to submit their grade point average (GPA) to the California Student Aid Commission by March 2 for high school/college students, and September 2 for California Community College transfer students. AB540 students may apply for California State Aid, including Cal Grants, by completing the Dream Application. Information on the Dream Act and a link to the Dream Application may be found at: [Dream Act and Application](#).

Note: The federal Military Selective Service Act requires most males between the ages of 18 and 25, who reside in the United States, to register with the Selective Service System. Those who are subject to the Act and fail to register are ineligible to receive all student aid funded by the federal student aid, state sources, or a public post-secondary institution. See "Military Selective Service Act" in the Military & Veterans Information & Services chapter for additional information.

Academic Progress

Financial aid recipients are required to meet academic and degree progress standards set forth in the Satisfactory Academic Progress Policy. The Financial Aid Office measures academic progress at the end of each term after grades are finalized.

For more information about academic progress, see the Satisfactory Academic Progress (SAP) or Financial Aid websites.

Loans and Grants

Students who demonstrate financial aid need may be eligible for loans or grants. They will be considered for one or more of the following programs:

- Pell Grant,
- Federal Supplemental Educational Opportunity Grant,
- State University Grant,
- Cal Grant A or B,
- Work-Study,
- Perkins Loan,
- Direct Subsidized Loan,
- Parent PLUS Loan, and
- Graduate PLUS Loan.

Students may qualify for Middle Class Scholarship, Unsubsidized Direct Loan, Parent PLUS Loan, and Teach Grant without demonstrating need. Graduate Students are ineligible for Subsidized Direct Loans.

Work-Study Program

Work-Study is earned through part-time employment in on-campus and certain off-campus jobs. Federal Work Study (FWS) is a form of financial aid largely provided by federal funding. A student must apply for financial aid each year to become eligible for the award, or to keep working in their current Work Study job. Eligible FWS students earn money by working a limited number of hours per week at a pre-approved FWS site location. Employment may be found on or off campus with employers that have arranged in advance to offer FWS positions to Cal State East Bay students. If they are eligible, Work-Study employment can assist students in meeting their educational expenses without incurring indebtedness. Financial Aid will use the information provided on the student's FAFSA to determine eligibility for Work-Study.

Scholarships

Students may obtain information on scholarship opportunities from Financial Aid and from major departments. Both on and off-campus scholarship information is available on the University's website. Admitted Students may use the new on-line Pioneer Scholarships application to apply for all East Bay scholarships.

Short-Term Loans

Financial Aid and Student Financial Services also administer the University's short-term Emergency Loan Program and the intermediate term Foreign Student Loan Program. Students are not required to apply for financial aid to receive these interest free loans. Emergency Loans may not be used to pay University charges and are usually limited to \$300 with repayment due in 30 days. Non-U.S. citizens may apply for a maximum of \$200 with repayment due within 9 months.

Note: Also see "Fee Waivers for Senior Citizens" under the University website Special Program Registration Procedures - Over Sixty Program.

Students may obtain additional information on eligibility requirements for financial assistance, and the criteria used to distribute aid among eligible applicants who enroll at Cal State East Bay, from the Financial Aid Department.

Availability of Institutional & Financial Assistance Information

Financial Assistance Information

The Office of Financial Aid coordinates financial assistance for students at Cal State East Bay. The following information is available from the Enrollment Information Center in the first floor lobby of the Student Services and Administration building. Students may also call Financial Aid at (510) 885-2784.

- A description of the federal, state, institutional, local, and private student financial assistance programs available to students who enroll at Cal State East Bay;
- For each aid program, a description of procedures and forms by which students apply for assistance, student eligibility requirements, criteria for selecting recipients from the group of eligible applicants, and criteria for determining the amount of a student's award;
- A description of the rights and responsibilities of students receiving financial assistance, including federal Title IV student assistance programs, and criteria for continued student eligibility under each program;
- The satisfactory academic progress standards that students must maintain for the purpose of receiving financial assistance and criteria by which a student who has failed to maintain satisfactory progress may reestablish eligibility for financial assistance;
- The method by which financial assistance disbursements will be made to students and the frequency of those disbursements;
- The way the school provides for Pell-eligible students to obtain or purchase required books and supplies by the seventh day of a payment period and how the student may opt out;
- The terms of any loan received as part of the student's financial aid package, a sample loan repayment schedule, and the necessity for repaying loans;
- The general conditions and terms applicable to any employment provided as part of the student's financial aid package;
- The terms and conditions of the loans students receive under the Direct Loan and Perkins Loan Programs;
- The exit counseling information the school provides and collects for student borrowers; and
- Contact information for campus offices available for disputes concerning federal, institutional and private loans.

Students who receive financial aid funds must consult with the Office of Financial Aid prior to withdrawing from the university regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. Students who have received financial aid and withdraw from the institution during the academic term or payment period may need to return or repay some or all of the funds received, which may result in a debt owed to the institution.

Under the direction of Flo Olney, Student Financial Services Manager (510) 885-3767, the following Cal State East Bay information is available:

- Information concerning the cost of attending is available and includes tuition and fees; the estimated costs of books and supplies; estimates of typical student room, board, and transportation costs; and, if requested, additional costs for specific programs.
- Information concerning the refund policies for the return of unearned tuition and fees or other refundable portions of institutional charges.
- Information concerning policies regarding the return of federal Title IV student assistance funds as required by regulation.

Note: for additional Institutional Assistance Information see the Cal State East Bay at a Glance chapter.

Acceptable Methods of Payment

Credit Cards, Cash, Check

Students may use credit cards, cash, or check for payment of registration fees. See the current *MyCSUEB* for additional information. The following credit cards are accepted:

- American Express,
- Discover,
- Visa, and
- MasterCard.

Installment Payment Plans

Installment Payment Plans have been authorized if students are assessed Nonresident Tuition or Tuition Fees. See the current *MyCSUEB* for additional information about payment plans.

Payment of Special Fees

The Cashier's Office is located at SA 1200 in the lobby of the Student Services and Administration building accepts in-person cash or check payments for all fees due to Cal State East Bay, such as tuition fees, lab, breakage, test, and parking fees (most payments can also be mailed).

Note: For more information and important dates see the Information About Paying Fees page on the University website.

Fee Waivers & Exemptions

The California Education Code provides for the waiver of mandatory systemwide tuition fees as follows:

Section 66025.3 -

Dependent eligible to receive assistance under Article 2 of Chapter 4 of Division 4 of the Military and Veterans Code; child of any veteran of the United States military who has a service-connected disability, has been killed in service, or has died of a service-connected disability, and meets specified income provisions; dependent, or surviving spouse who has not remarried of any member of the California National Guard who, in the line of duty, and while in the active service of the state, was killed, died of a disability resulting from an event that occurred while in the active service of the state, or is permanently disabled as a result of an event that occurred while in the active service of the state; and undergraduate student who is a recipient of a Medal of Honor, or undergraduate student who is a child of a recipient of a Medal of Honor who is no more than 27 years old, meets the income restriction and California residency requirement. The waiver of tuition or fees under this section applies only to a person who is determined to be a resident of California pursuant to Chapter 1 (commencing with Section 68000) of Part 41.

Section 66602 -

A qualifying student from the California State University who is appointed by the Governor to serve as Trustee of the California State University for the duration of his or her term of office.

Section 68120 -

Surviving spouse or child of a deceased California resident who was employed by a public agency, or was a contractor or an employee of a contractor, performing service for a public agency, and was killed in the performance of his/her principal duties of active law enforcement or fire suppression and prevention duties (referred to as Alan Pattee Scholarships). A person who qualifies for the waiver under this section as a surviving child of a contractor or of an employee of a contractor, who performed services for a public agency must have enrolled as an undergraduate student at the California State University and meets income restriction requirement.

Section 68121 -

A qualifying student enrolled in an undergraduate program who is the surviving dependent of any individual killed in the September 11, 2001, terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001.

Note: Students who may qualify for the above benefits should contact the Admissions/Registrar's Office for further information and/or an eligibility determination: email admissions@csueastbay.edu or call (510) 885-3500.

The California Education Code provides for the following nonresident tuition exemptions:

Section 68075.7 -

A nonresident student is exempt from paying nonresident tuition or any other fee that is exclusively applicable to nonresident students if the student (1) resides in California, (2) meets the definition of "covered individual" as defined in either: (A) Section 3679(c)(2)(A) or (B)(ii)(l) of Title 38 of the United

States Code, as that provision read on January 1, 2017; or (B) Section 3679(c)(2)(B)9(i) or (ii)(II) or Title 38 of the United States Code, as that provision read on January 1, 2017; and (3) is eligible for education benefits under either the federal Montgomery GI Bill-Active Duty program or the Post-9/11 GI Bill program as each read on January 1, 2017.

Section 68122 -

A student who is a victim of trafficking, domestic violence, and other serious crimes who has been granted T or U visa status shall be exempt from paying nonresident tuition to the same extent as individuals who are admitted to the United States as refugees under Section 1157 of Title 8 of the United States Code.

Section 68130.5 -

A student, other than a nonimmigrant alien, who is not a resident of California is exempt from paying nonresident tuition if the student meets the requirements of (1) through (4), below:

(1) Satisfaction of the requirements of either subparagraph (A) or subparagraph (B):

(A) A total attendance of, or attainment of credits earned while in California equivalent to, three or more years of full-time attendance or attainment of credits at any of the following:

(i) California high schools.

(ii) California high schools established by the State Board of Education.

(iii) California adult schools established by a county office of education, a unified school district or high school district, or the Department of Corrections and Rehabilitation (subject to the class hours' requirement).

(iv) Campuses of the California Community Colleges (subject to the credit requirements).

(v) A combination of those schools set forth in clauses (i) to (iv), inclusive.

(B) Three or more years of full-time high school coursework, and a total of three or more years of attendance in California elementary schools, California secondary schools, or a combination of California elementary and secondary schools.

(2) Satisfaction of any of the following:

(A) Graduation from a California high school or attainment of the equivalent thereof.

(B) Attainment of an associate degree from a campus of the California Community Colleges.

(C) Fulfillment of the minimum transfer requirements established for the California State University for students transferring from a campus of the California Community Colleges.

(3) Registration as an entering student at, or current enrollment at, an accredited institution of higher education in California not earlier than the fall semester or quarter of the 2001-02 academic year.

(4) In the case of a person without lawful immigration status, the filing of an affidavit with the institution of higher education stating that the student has filed an application to legalize his or her immigration status, or will file an application as soon as he or she is eligible to do so.

Students who may qualify for any of these benefits listed above can contact the following offices:

Office of Admission

(510) 885-3500; FAX: (510) 885-4059; admissions@csueastbay.edu

Graduate Admission

- **For inquiries regarding admission requirements for a specific program contact the academic department directly.**
- **For University Admission requirements questions applicants may e-mail gradadmission@csueastbay.edu**

Office of International Admission

(510) 885-7571; FAX: (510) 885-2787; iao@csueastbay.edu

Refund Regulations

Refund disbursements are not made automatically. If students request a refund check (see below) and it is approved, it will be available in approximately four to six weeks.

If students are eligible for a refund of registration fees (including nonresident tuition) because they withdrew or reduced units before the published deadlines, the amount of the refund will automatically be credited to their University account. If they take no action, the University will leave the balance on their account to apply toward future charges.

A few refund situations are listed below.

- If a student finds it necessary to withdraw officially from Cal State East Bay, they may be eligible for a partial refund of their Registration fees. A Refund Request Form is available at the Cashier's Office on the first floor of Student Service Building or in the Concord Campus Academic Services Lobby.
- If a student withdraws before the first day of instruction for the term, all semester fees, including the Facilities fee, Instructionally Related Activities fee, Associated Students fee, Health Services fee and University Union fee are refunded in full. A \$10.00 processing fee will be assessed if a refund check is generated. Information on procedures and deadlines for canceling registration and dropping classes is available in *MyCSUEB*. The Late Registration fee is not refundable except when due to University error.
- If a student has been called to active military duty and, as a result, finds it necessary to withdraw from Cal State East Bay, they are eligible for a refund of fees. They must file a Refund Request

Form available at the Cashier's Office on the first floor of Student Service Building with a copy of the orders.

- Refunds owed to financial aid recipients will be used to repay the funds from which the student has received financial aid.

Information concerning the refund policy of Cal State East Bay for the return of unearned tuition and fees or other refundable portions of costs is available from the Accounting and Fiscal Services Office, (510) 885-3767.

Refunds of Tuition & Mandatory Fees, Including Nonresident Tuition

Regulations governing the refund of tuition and mandatory fees, including nonresident tuition, for students enrolling at the California State University are included in Section 41802 of Title 5, California Code of Regulations. For purposes of the refund policy, mandatory fees are defined as those systemwide and campus fees that are required to be paid in order to enroll in state-supported academic programs at the CSU. Refunds of fees and tuition charges for self-support, special session and extended education programs or courses at the CSU are governed by a separate policy established by the University, available at <http://www.csueastbay.edu/student-financial-services>

In order to receive a full refund of tuition and mandatory fees, less an administrative charge established by the campus, including nonresident tuition, a student must cancel registration or drop all courses prior to the first day of instruction for the term. Information on procedures and deadlines for canceling registration and dropping classes is available on *MyCSUEB*.

For state-supported semesters, quarters and non-standard terms or courses of four weeks or more, a student who withdraws during the term in accordance with the University's established procedures or drops all courses prior to the campus-designated drop period will receive a refund of tuition and mandatory fees, including nonresident tuition, based on the portion of the term during which the student was enrolled. No student withdrawing after the 60 percent point in the term will be entitled to a refund of any mandatory fees or nonresident tuition.

A student who, within the campus designated drop period and in accordance with campus procedures, drops units resulting in a lower tuition and/or mandatory fee obligation shall be entitled to a refund of applicable tuition and mandatory fees less an administrative charge established by the campus.

For state-supported non-standard terms or courses of less than four weeks, no refunds of tuition and mandatory fees, including nonresident tuition, will be made unless a student cancels registration or drops all classes, in accordance with the University's established procedures and deadlines, prior to the first day of instruction for state-supported non-standard terms or courses or prior to the first meeting for courses of less than four weeks.

Students will also receive a refund of tuition and mandatory fees, including nonresident tuition, under the following circumstances:

- The tuition and fees were assessed or collected in error;
- The course for which the tuition and fees were assessed or collected was cancelled by the University;

- The University makes a delayed decision that the student was not eligible to enroll in the term for which tuition and mandatory fees were assessed and collected and the delayed decision was not due to incomplete or inaccurate information provided by the student; or
- The student was activated for compulsory military service.

Students who are not entitled to a refund as described above may petition the University for a refund demonstrating exceptional circumstances and the chief financial officer of the University or designee may authorize a refund if they determine that the fees and tuition were not earned by the University.

Information concerning any aspect of the refund of fees may be obtained from the Cashier's Office, 1st Floor, Student Services and Administration Building, (510) 885-3865.

Fees & Debts Owed to the Institution

Should a student or former student fail to pay a fee or a debt owed to the institution, including tuition and student charges, the institution may *"withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt"* until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381).

Prospective students who register for courses offered by the University are obligated for the payment of charges and fees associated with registration for those courses. **Note:** *Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student charges and fees including any tuition for the reservation of space in the course.*

The institution may withhold permission to register or to receive official transcripts of grades or other services offered by the institution from anyone owing fees or another debt to the institution. The institution may also report the debt to a credit bureau, offset the amount due against any future state tax refunds due the student, refer the debt to an outside collection agency and/or charge the student actual and reasonable collection costs, including reasonable attorney fees if litigation is necessary, in collecting any amount not paid when due.

If a person believes he or she does not owe all or part of an asserted unpaid obligation, that person may contact **Student Financial Services, (510) 885-3767**, or the individual to which the business office may refer the person, will review all pertinent information provided by the person and available to the campus and will advise the person of its conclusions.

Procedure for Establishing or Abolishment of Campus-Based Mandatory Fees

The law governing the California State University provides that specific campus fees defined as mandatory, such as a student association fee and a student center fee, may be established. A student association fee must be established upon a favorable vote of two-thirds of the students voting in an election held for this purpose (Education Code, Section 89300). The campus President may adjust the student association fee only after the fee adjustment has been approved by a majority of students voting in a referendum established for that purpose. The required fee shall be subject to referendum at any time upon the presentation of a petition to the campus President containing the signatures of 10 percent of the

regularly enrolled students at the University. Student association fees support a variety of cultural and recreational programs, childcare centers, and special student support programs. A student center fee may be established only after a fee referendum is held which approves by a two-thirds favorable vote the establishment of the fee (Education Code, Section 89304). Once bonds are issued, authority to set and adjust student center fees is governed by provisions of the State University Revenue Bond Act of 1947, including, but not limited to, Education Code sections 90012, 90027, and 90068.

The process to establish and adjust other campus-based mandatory fees requires consideration by the campus fee advisory committee and a student referendum as established by Executive Order 1102, Section III. The campus President may use alternate consultation mechanisms if he/she determines that a referendum is not the best mechanism to achieve appropriate and meaningful consultation. Results of the referendum and the fee committee review are advisory to the campus President. The President may adjust campus-based mandatory fees but must request the Chancellor to establish a new mandatory fee. The President shall provide to the campus fee advisory committee a report of all campus-based mandatory fees. The campus shall report annually to the Chancellor a complete inventory of all campus-based mandatory fees.

For more information or questions, please contact the Budget Office in the CSU Chancellor's Office at (562) 951-4560.

Requirements, Exams, and Testing

Note: For detailed information regarding General Education (GE) Requirements see the chapter: General Education Program

Requirements

- Baccalaureate Degree Requirements
- University Writing Skills Requirement (UWSR)
- U.S. History & Government Code Requirement
- Additional Undergraduate Requirements
- English Language Requirement
- Undergraduate Certificate Program Requirements
- Music Auditions & Proficiency Exam Requirements

Credit by Examination

- Challenging Courses by Examination
- College Level Examination Program (CLEP)
- Advanced Placement (AP) Exam Credit
- International Baccalaureate (IB) Exam Credit
- Science Equivalency Exam
- Language Placement Exams

Testing Services

- Testing Office
- Testing Requirements

Baccalaureate Degree Requirements

There are three major parts of a baccalaureate degree and eight basic requirements defined in the California Code of Regulations.

Most courses will fall into one of the three parts of the degree:

1. the General Education (GE)/Breadth requirements for basic skills and breadth,
2. the major for depth in one field, and
3. electives, which can shape students' education in directions they choose.

NOTE: Each of these will be described in other sections of this chapter.

These are the eight basic requirements for the baccalaureate degree defined in the California Code of Regulations:

1. Complete a 48 semester-unit program of General Education requirements including a minimum of 9 upper-division (300 or higher) units in GE Areas B6, C4, D4 (see the General Education Program).
2. Complete the local breadth requirements, including a Second Composition course, 3 units of Diversity Overlay, 3 units of Social Justice Overlay, and 3 units of Sustainability Overlay (see the General Education Program).
3. Complete one of the majors described in this catalog.
4. Complete the U.S. history, U.S. Constitution, and California state and local government requirement through coursework or exams (see U.S. History & Government Code Requirements below).
5. Satisfy the University Writing Skills Requirement (UWSR) (see *Graduation Requirements in Writing Proficiency* below).
6. Complete a minimum of 30 semester units in residence enrolled as an admitted student at Cal State East Bay. Up to 24 units taken through Open University and Extension may be counted for residence. Units in residence must include at least 24 upper division units, 12 units in the major, and 9 units of GE. (Units earned at other institutions and units earned through Credit-by-Examination are not residence units.)
7. Complete at least 120 semester units for a B.A. degree, 130 semester units for a B.F.A. degree, or 120 semester units for a B.S. degree. At least 40 of these units must be in upper division courses (courses numbered 300 and above). No more than 40 units can be graded in the Credit/No Credit pattern (CR/NC or A/B/C/NC). No more than 24 units can be in Continuing Education or Open University, and no more than 30 units can be earned credit-by-examination (excepting Advanced Placement).
8. Attain a grade point average of at least 2.00 on a 4.00 scale in all major and university-earned coursework for the degree.

Graduation Requirement in Writing Proficiency (UWSR)

Note: This content has been changed, please see the Errata chapter for information.

In addition to the lower-division General Education requirements for writing, the California State University system requires that *all students* must demonstrate competency in writing skills as a requirement for graduation and to receive a baccalaureate, master's, or doctoral degree. This requirement was implemented system-wide in 1977. Students must satisfy the University Writing Skills Requirement (UWSR) in order to receive a degree from Cal State East Bay unless they are exempt by one of the following criteria:

1. Previously satisfied the UWSR at Cal State East Bay or at another CSU campus, Cal State East Bay will accept official certification of completion if the entire requirement, as specified by that CSU campus, was satisfied and the student was a matriculated student at that campus at the time. On some CSU campuses, the requirement is called the "Graduation Writing Assessment Requirement (GWAR)."
2. Graduated from any one of the CSU campuses; unless it is noted on the transcript that the UWSR (or GWAR) was not satisfied.

3. Received an essay score of 4.5 or higher on the GMAT or GRE or an essay score of 53 or higher on the CBEST.

Undergraduate students are required to begin steps to satisfy the University Writing Skills Requirement after completing 60 semester units. Students who do not enroll in an appropriate course or register to take the Writing Skills Test in their first semester after completing 60 units will have a registration hold placed. The hold will be lifted as the student progresses towards completion of this requirement. *Note: Undergraduate students cannot satisfy this requirement before completing 60 units. For undergraduate students, completion of GE Area A2 and ENGL 200 or another approved second composition course, which are graduation degree requirements, is also required before attempting to satisfy the UWSR.*

To satisfy the requirement at Cal State East Bay, students may do one of the following:

- **Option One:** Register for and pass the Writing Skills Test. See Writing Skills Test (Option One) below.
- **Option Two:** Enroll in and pass a first-tier writing course (ENGL 300 or ENGL 301) and possibly a second-tier course, as well. See Course (Option Two) below.

Writing Skills Test (Option One)

The Writing Skills Test (WST) consists of an analytic essay that requires students to demonstrate that they can think and write critically. A score of Clear Competence (8) is needed to meet the requirement. Students who do not meet receive the Clear Competence designation on the first attempt have only one opportunity to take it again; a score of Clear Competence on the second attempt satisfies the requirement. If both tests are scored as "Limited Competence (6)", they will be required to take the course option (see below). If one or both scores is "Developing Competence (7)", they need only take a second-tier course to satisfy the UWSR (see below).

Note: There is a fee for the WST. See the Fees & Financial Services chapter for more information.

Course (Option Two)

ENGL 300 and ENGL 301 are the first-tier writing courses designed to help students meet the University Writing Skills Requirement. Students who have not attempted the WST or those who have taken the Writing Skills Test (WST) and have received Limited Competence (6) must take either ENGL 300 or ENGL 301 and perhaps a second-tier writing course as well. Students who have not taken the WST twice may take it even when enrolled in a writing skills course. Generally speaking, ENGL 300 is intended for native speakers of English, while ENGL 301 is intended for non-native speakers. Based on end-of-course portfolio evaluation scores, at the end of the first-tier course they will be advised as to their next step, which will involve one of the following: they may be found to have met the UWSR requirement altogether; they may be directed to enroll in a second-tier course; or, they may be directed to repeat the first tier course.

Generally, two second-tier writing courses are regularly offered: ENGL 302 and MKTG 305 . Students who passed the quarter-based equivalents to these courses (ENGL 3003 and MKTG 3495) prior to fall 2000 may not have met the UWSR. For more information on these courses, contact the individual department. Courses approved for second-tier writing are listed here: Second Tier Courses. Students

who pass a second-tier writing course with a C- or better (or "CR" if taken as CR/NC) have satisfied the UWSR.

Students who have taken the first-tier writing course three times consecutively, have not passed, and have a letter of good faith effort from their most recent first-tier instructor may apply to the Dean of Academic Programs and Services for a waiver of the UWSR. If a waiver is granted, the student's permanent record will note that they were allowed to graduate without having satisfied the UWSR. Students who do not satisfy the requirement and do not have a waiver approved will not be allowed to graduate. Contact the Dean of Academic Programs and Services for information on this waiver at (510) 885-2990.

If a student receives a grade of "D+" or "D" in a second-tier writing course (taken Fall Quarter, 2000 or later), they may appeal to the Dean of Academic Programs and Services for a waiver of the UWSR. If a waiver is granted, their permanent record will note that they were allowed to graduate without having satisfied the UWSR. Students who do not satisfy the requirement and do not have a waiver approved will not be allowed to graduate. Contact the Dean of Academic Programs and Services for information on this waiver at (510) 885-2990.

Students who have a verified disability and would like to request accommodations to assist them in satisfying this requirement should contact the Accessibility Services in the Library Complex 2440 or call (510) 885-3868 (phone/TTY).

For more information on meeting the University Writing Skills Requirement, see the Testing Office website or call (510) 885-3661.

American Institutions Requirement

CSU graduates are expected to have knowledge of: significant events in U.S. history; the role of major ethnic and social groups in these events; the political, economic, social, and geographic context of these events; the U.S. Constitution, U.S. political institutions and processes; the rights and obligations of U.S. citizens; the California Constitution; federal-state relations; and California state and local government, and political processes.

Students demonstrate their competence in these fields by either:

- (a) Passing the CLEP exam in History of the United States I or II, CLEP exam in American Government, and the California State and Local Government exam administered by the CSUEB Testing Office.
- (b) Passing the Advanced Placement United States History with a score of 3 or above, the Advanced Placement United States Government and Politics with a score of 3 or above, and the California State and Local Government exam administered by the CSUEB Testing Office.
- (c) Passing two courses which cover all three topics (while some courses cover all 3 topics, students are required to take two courses):

- ECON 101 US Economic History and Institutions
- ES 120 The People's History I
- ES 121 The People's History II
- HIST 110 The United States to 1877
- HIST 111 The United States Since 1877
- POSC 101 American Political Institutions
- POSC 102 Public Policy/California Politics

US-2:

- ECON 101 US Economic History and Institutions
- ES 120 The People's History I
- ES 121 The People's History II
- HIST 110 The United States to 1877
- POSC 101 American Political Institutions

US-3:

- ES 120 The People's History I
- ES 121 The People's History II
- HIST 111 The United States Since 1877
- HIST 382 California and the World
- POSC 102 Public Policy/California Politics

Note: Be aware that receiving credit for any courses applicable to this requirement through a national test such as Advanced Placement, CLEP, or at an out-of-state institution will not satisfy the California state and local government (US-3) part of this requirement. Please contact the History or Political Science Departments for further information. Students who have completed part of the Code Requirement at a California Community College should also consult the corresponding departments to avoid duplicating coursework.

Additional Undergraduate Requirements

Residence Requirements

Complete a minimum of 30 semester units in residence enrolled as an admitted student at Cal State East Bay. Up to 24 units taken through Open University and Continuing Education may be counted for residence. Units in residence must include at least 24 upper division units, 12 units in the major, and 9 units of GE (Units earned at other institutions, and units earned through Credit-by-Examination are not residence units, with the exception of upper division GE units earned at another CSU.)

Unit Requirements

Complete at least 120 semester units for a B.A. degree, 130 semester units for the B.F.A. degree, or 120-125 semester units for the B.S. degree. At least 40 of these units must be in upper division courses (courses numbered 300 and above). No more than 40 units can be graded in the Credit/No Credit pattern (CR/NC or A/B/C/NC). No more than 24 units can be in Continuing Education, Open University, or

correspondence credit, and no more than 30 units can be earned credit-by-examination (excepting Advanced Placement).

Grade Point Average

Attain a grade point average of at least 2.00 on a 4.00 scale in all units attempted at Cal State East Bay, all the units attempted including transfer units, and all units attempted in the major regardless of the department in which they are taught.

Progress to Degree

Students must complete their GE A1, A2, A3, and B4 requirements before reaching junior status. Students must take steps to satisfy the UWSR during their junior year.

English Language Requirement

All undergraduate, post-baccalaureate and graduate applicants whose native language is not English, and who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction, must demonstrate proof of English proficiency.

CSU minimum TOEFL standards are:

- Undergraduate: 61 - INTERNET, 500- PAPER
- Graduate: 80 - INTERNET, 550 - PAPER

Cal State East Bay standards for Undergraduate Students are:

- TOEFL (Test of English as a Foreign Language) score of 525 (or 197 computer-based or 61 Internet-based) or above.
- An overall IELTS (International English Language Testing System) score of 6.0 or above.
- Transferred from a U.S. college with 60 or more semester units with a minimum grade point average of 2.4, and have completed a transfer course in each of the following general education areas with a grade of 2.0 or better: English composition, speech, critical thinking, and mathematics.

Cal State East Bay standards for Graduate Students are:

- An official transcript showing graduation with a bachelor's degree from a U.S. college or university, or an international college or university where English is the principal language of instruction, or an official letter from the college or university certifying that English was the language of instruction.
- A TOEFL (Test of English as a Foreign Language) score of 550 (213 computer-based or 79 Internet-based; 92 for Master's of Science degree in Economics) or above.
- An overall test score from IELTS (International English Language Testing System) exam of 6.5 or above for graduate students. A score of 7 or above is required for international students seeking a Master's of Science degree in Economics.

Some majors may require a higher score.

Note: All test scores must be sent directly from the testing institution. Cal State East Bay's International Admission Office contacts are located at: <http://www.csueastbay.edu/prospective/how-to-apply/international-student-admission>.

Undergraduate Certificate Programs

Undergraduate Certificate Program

A certificate program is a coherent set of academic courses, considerably narrower in scope and objectives than a degree or major, for which students can receive a certificate upon its successful completion. Most certificate programs are oriented toward occupations and/or career skills. A certificate program must contain at least 12 units of courses numbered 300 or above and a minimum of 15 total units. Each certificate program must contain a required core of at least three courses and 9 units. With faculty advice, special certificate programs may be available.

Students must receive a grade of "C" or better in each course applied to the program. Only one course may be taken "CR/NC" in a certificate program not counting courses for which that is the only grading pattern for the course. At least 75% of the units must be taken at Cal State East Bay. (For certificate programs, Cal State East Bay courses may be taken through University Extension or as a regularly admitted and enrolled student.) Students who have already received a major, option, or minor with the same title are not eligible for the certificate. No student is required to complete a certificate program. Completion of a certificate program is recognized by the awarding of a certificate. There is no notation about the program on either a diploma or permanent record. (The courses will be on the student's transcript.) Students may pursue a certificate program before, during, or after their baccalaureate degree. Unlike a minor, a certificate is not part of a degree.

University Extension also offers professional and career development Certificate Programs which may be taken for academic credit or Continuing Education Units (CEUs). For information about the certificate programs offered by University Extension please visit <https://www.ce.csueastbay.edu/>.

Graduate Certificate Programs

For information concerning graduate certificate programs see the Degree Requirements, Policies, & Other Information chapter.

Music Auditions & Proficiency Exam Requirements

Students who declare a major in music must complete examinations and auditions to determine:

- theory placement,
- level of applied study,
- piano proficiency, and
- major performance ensemble.

These examinations are not a substitute for the *Advanced Placement Test in Music* and should not be confused with the Advanced Placement Program. Auditions and examinations are scheduled prior to the first week of each semester. For additional information and specific appointment times, contact the Department of Music, MB 2571, or telephone (510) 885-3135.

Challenging Courses by Examinations

The University recognizes that exceptional students, by reason of special studies or experiences, may already have achieved the objectives of certain courses in the basic program; therefore, students with this background may petition to receive credit in selected courses by special examination. Such an examination is normally from three to six hours in length and may be oral as well as written. Each course may be challenged only once.

Students who wish credit under this plan must enroll for the course during the enrollment period for the units to be earned by the examination. The class being challenged for credit must be listed in the Class Schedule for the particular semester. Obtain a petition for *credit by examination* from the office of the department offering the course, and obtain the permission of both the instructor and department chair. No instructor is obliged to offer credit-by-examination for a course.

The examination must be administered during the first two weeks of the semester. The instructor is responsible for notifying the student of the results of the examination. If the exam is passed with a grade of "C-" or higher, the letter grade and credit by examination will be indicated on the student's permanent record and the results, in grade form, must be submitted to the Office of the Registrar by the end of the fifth week. If the student receives a grade of "D+," "D," or "F" on the examination, the student must either continue taking the course formally or officially withdraw from it within one week after completing the examination. The instructor need not inform the Office of the Registrar of the grades "D+," "D," or "F." Some departments (e.g., Modern Languages and Literatures) only allow their courses to be challenged for a "CR" grade.

No more than 24 semester units of credit obtained by challenging courses may be applied toward the baccalaureate degree. No credit earned by examination may be used to satisfy the requirement of 30 semester units in residence at Cal State East Bay.

Credit for External Examinations

Cal State East Bay grants credit for successfully passing any University-approved examination, subject to the following conditions:

- Credit shall not be awarded for successful passage of any examination if the student previously took that examination during the past semester.
- Credit shall not be awarded when equivalent degree credit has been granted for regular coursework, credit-by evaluation, or other instructional processes such as correspondence.
- Credit shall not be awarded when credit has been granted at a level represented by the examination in question.

- Duplicate credit shall not be awarded where there are overlapping tests, university level work, or both. Where there is partial overlap, the amount of examination credit shall be reduced accordingly.
- The total amount of credit earned on the basis of externally developed tests that may be applied to a baccalaureate degree shall not exceed 30 semester units. **Note: Advanced Placement credit is excluded from this limit.**

College Level Examination Program (CLEP)

This program was created by the College Board to allow students to demonstrate college-level achievement through a series of exams in undergraduate college courses. There are 2900 colleges that grant credit and/or advanced standing for CLEP exams.

California State University East Bay is an open test center and we welcome military personnel. All of the computer-based exams are administered by the Testing Office.

Note: Please see the list of CLEP exams and the Cal State East Bay credit awarded.

Advanced Placement (AP) Exam Credit

See Errata for corrections to this content.

Cal State East Bay grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Board. Students who present scores of 3 or better will be granted up to six semester units (nine quarter units) of college credit. Students need to request that the official score be sent to the Office of Admission.

The AP exams are prepared and offered by the College Board. Unit credit will be granted to those passing the exams, but no letter grade will be assigned or computed in a student's grade point average.

If students have Advanced Placement credit, they must request to the College Board to send their test score(s) to the Office of Admission at Cal State East Bay.

Normally, if Advanced Placement course credits satisfy G.E. Area B, C, and/or D requirements, they will apply to sophomore year general education requirements and not to freshmen clusters because all freshmen benefit from participating in these learning communities. Only if the amount of Advanced Placement credit exceeds what can be applied to the second year will it be applied to freshmen clusters.

Note: Please see the list of exams and credit awarded here.

International Baccalaureate (IB) Exam Credit

Cal State East Bay recognizes the International Baccalaureate (IB) as a challenging college-preparatory program. Four (4) to fifteen (15) units of college credit will be awarded for each IB Higher Level Examination passed with a score of 4, 5, 6, or 7. (No credit will be awarded for IB Subsidiary Level passes.) A copy of the official IB transcript must be supplied to the University when credit is requested.

All credit is granted in terms of existing Cal State East Bay courses with equivalent subject matter determined by the department.

Note: Please see the list of IB exams and the Cal State East Bay credit awarded here.

Science Equivalency Exam

Students who pass the *American Chemistry Society Cooperative Examination in General Chemistry* at or above the 50th percentile will receive 5 units of credit. Contact the Department of Chemistry & Biochemistry, North Science 431, College of Science, Phone: (510) 885-3452, Office Hours: 9-5, M-F.

Language Placement Exams

Placement exams in French and Spanish languages are offered on a continuing basis through the Department of Modern Languages and Literatures. Placement exams for other languages may also be periodically available. Students who have prior language experience but are uncertain of their level of ability (elementary, intermediate, or advanced) are encouraged to consult with a faculty advisor before enrolling in a French or Spanish language course. Placement exams are given only on the recommendation of faculty. For more information, contact the Department of Modern Languages and Literatures in Music Building (MB) 2599 or by phone at (510) 885-3211.

Testing Services

The Testing Office provides a wide variety of services and assistance to students, faculty, staff and the community.

Students should be aware of CSUEB's test requirements. They are:

- The University Writing Skills Requirement (UWSR). One way to satisfy the UWSR is the Writing Skills Test (WST). The WST must be taken by all undergraduate students at the beginning of the junior year, and by all graduate students upon admission to a program unless they elect to meet the requirement through coursework.
- The American Institutions Requirement in U.S. History, the U.S. Constitution, and California State and Local Government may be met by coursework or tests.

Additional information is available on the Testing Office website.

Other tests administered by the Testing Office:

The ACT (American College Test) and the SAT (Scholastic Aptitude Test), one of which is required for entering freshmen. For more information see the Application & Admissions chapter.

The MAT (Miller Analogies Test) is required by some graduate programs.

The CLEP (College Level Examination Program) was created by the College Board to allow students to demonstrate college-level achievement through a series of exams in undergraduate college courses.

The TEAS (Test of Essential Academic Skills) is required for entering in Nursing Program.

The Math Proficiency Assessment (ALEKS PPL) for students who wish to demonstrate proficiency in College Algebra and/or Pre-calculus in order to fulfill pre-requisite requirements for Math 120, 130 or 180.

Additional tests available on the Testing Office website.

ACT - American College Testing Program

CBEST - California Basic Educational Skills Test

CLAD/BCLAD - Bilingual/Cross cultural Language and Academic Development

CLEP - College Level Examination Program

CSET - California Subject Examinations for Teachers

GMAT - Graduate Management Admission Test

GRE - Graduate Record Examinations

IELTS - International English Language Testing System

LSAT - Law School Admission Test

MAT - Miller Analogies Test

MCAT - Medical College Admission Test

PRAXIS - Praxis Test

RICA - Reading Instruction Competence Assessment

SAT - Scholastic Aptitude Tests

SSAT - California Single Subject Assessments for Teachers

TEAS - Test of Essential Academic Skills

TOEFL - Test of English as a Foreign Language

Test Requirements

Due to campus impaction, freshman and transfer applicants who have fewer than 60 semester or 90 quarter units of transferable college credit must submit scores from either the ACT or the SAT of the College Board. Applicants should take the test no later than November or December of the year prior to enrollment. Test scores also are used for advising and placement purposes.

- Sending SAT Scores: School Code: 4011 (California State University, East Bay).

- Sending ACT Scores: School Code: 0154 (California State University, East Bay).

Registration forms and dates for the SAT or ACT are available from school or college counselors or from a CSU campus testing office at: <http://www.csueastbay.edu/testing/>

Or students may contact:

Orientation & Advising

Orientation Information

- Welcome New Students & Parents
- Main Campus (Hayward) Orientation
- Concord, International, & Graduate Orientation

Advising Information

Several sources for advising services exist on campus. The Class Schedule (available online at *MyCSUEB*) also includes information regarding advisement services. See also Student Services chapter for additional student services information.

- Consulting with an Advisor
- Academic Advising & Career Education (AACE)
- Program for Accelerated College Education (PACE)
- Credentialing Services (CSSC)
- Educational Opportunity Program (EOP)
- Student Center for Academic Achievement (SCAA)
- Student Services Operation for Success (SSOS)
- Project IMPACT
- EXCEL Program
- Renaissance Scholars Program

Other Assistance

- Career Preparation & Cooperative Education (Pioneer Jobs)
- Change of Academic Objective
- Change of Personal Data Information
- Course Requirement Information (Course Syllabus)
- Faculty Office Hours
- Registration Assistance
- Transcript Requests

Welcome New Students & Parents!

Cal State East Bay offers orientation and advisement programs prior to each semester to introduce new students to the University and to prepare students for a successful journey to graduation. Through special programs planned for freshmen, transfer, international, and graduate students, Orientation provides essential information about degree requirements, campus resources, course registration, and student engagement. During Orientation, new students receive academic advising and learn about the campus from current students, faculty, staff, and administration. Tours of the campus are also available. Student

Life and Leadership Programs recognizes that students enter the University from a variety of backgrounds. As a result, special orientation activities are offered to address the concerns of freshmen, transfer, re-entry, and graduate students, their families and their guests. First time freshmen are required to attend Orientation.

Both the Hayward Hills and Concord campuses offer orientation programs for students and their families. Detailed information about Orientation is mailed to all individuals who have been admitted. Students awaiting final notice of admission may attend Orientation, although attendance does not constitute admission by the University.

Specific information about Orientation is mailed directly to all new students and is included in the Class Schedule every semester. Additional information about orientation programs is available through Student Life and Leadership Programs, New University Union, Room 2011, (510) 885-3872, email: orientation@csueastbay.edu; website: www.csueastbay.edu/orientation.

Main Campus (Hayward) Orientation

Freshman and Transfer Student Orientation

Cal State East Bay invites students and their families to attend Orientation, the key to a successful beginning to the East Bay experience! Freshman, Family, and Transfer Orientation programs are coordinated through *Student Life and Leadership Programs (SLLP)* which is located in the New University Union, Room 2011. If students have any questions about Orientation, please call the SLLP office at: (510) 885-3872 or e-mail: orientation@csueastbay.edu.

More about SLLP located in the Student Services chapter.

Orientation for Concord, International, and Graduate Students

Concord, international, and graduate students may attend other orientations. Contact the following offices to receive information:

- Concord Students: Contact Concord Transfer Center at cctransfercenter@csueastbay.edu or call (925) 602-6399 to find out more about the Concord Campus Orientation.
- International Students: Contact the Center for International Education at cie@csueastbay.edu for available orientation information or visit this website: <http://www.csueastbay.edu/cie/news/orientation.html>
- Graduate Students: Contact the major department about orientation information that may be offered, as not all graduate programs offer orientation.

Consulting with an Advisor

Every student who enters Cal State East Bay is entitled to receive major advising from a faculty member in the department or, if taking an Interdisciplinary Studies major, a committee member in his or her major. Undeclared Students, International Students, as well as most other undergraduate students, receive

advising on General Education and other undergraduate degree requirements from *Academic Advising and Career Education* (AACE). All new students should see their advisors (major advisor and one of the AACE academic counselors) at least once each semester during their first year at Cal State East Bay. Students accepted to East Bay as EOP students should see their EOP counselor instead of an AACE counselor.

Freshmen and sophomores should develop a program with their advisors that will satisfy all requirements (General Education, major, and minor or option if required) for the degree. Undergraduate transfer students are encouraged to attend orientation for their first advising session, or contact Academic Advising and Career Education (AACE) at (510) 885-3621. Once transfer students receive the evaluation of their previous college credit, they should develop with their advisor a complete program of courses leading to the baccalaureate degree. Students should consult with their major and AACE advisors before making changes to their program.

Also see AACE below.

Academic Advising and Career Education (AACE)

AACE provides a full range of excellent academic advising and career counseling services to all undergraduate students. Services include guidance and official updates on students' progress toward completing their general education and graduation requirements (other than major requirements); assistance in developing realistic educational goals and a plan to achieve those goals; explanations of academic policies and procedures; workshops throughout the year; and group advising for new students.

AACE is the academic advising home for undergraduate students who have not yet declared a major at California State East Bay. It offers academic counseling and specialized assistance in exploring, researching and selecting a major based on individual, educational, and career goals. Undeclared students who are placed on academic probation are required to see an AACE academic counselor and/or attend the workshop "Understanding Academic Probation" each semester until good standing is achieved.

In addition, AACE provides academic counseling and support services for all undergraduates who are experiencing academic difficulties such as those on academic probation or those who have been recently disqualified. Students (non-EOP) on academic probation are encouraged to meet with an AACE counselor to discuss strategies for improving their grades and academic standing.

Program for Accelerated College Education (PACE)

Program for Accelerated College Education (PACE) is an innovative program which enables working adult students to make accelerated progress toward a Bachelor of Arts degree with a major in either Human Development and Women's Studies or Liberal Studies. PACE classes are the same as those taken by students pursuing their degrees through the traditional university format. The only difference is the carefully structured course sequence which includes only courses in the evening, weekend and/or online, as well as the dedicated academic advising for PACE students. More detailed information is available at www.csueastbay.edu/pace.

The PACE program is available at both the Hayward and Concord campuses.

Credentialing Student Services Center

The Credential Student Service Center (CSSC), in the College of Education and Allied Studies, provides a one-stop center for all students inquiring about credential program application requirements, procedures and information about applying for or renewing teaching credentials. The CSSC informs and assists students in fulfilling Early Field Experience, meeting program requirements, and maintaining student records. The Credential Student Service Center is located in the Art Education Building Room 235, (510) 885-2272.

Educational Opportunity Program (EOP) & Summer Bridge

Established in 1969, the Educational Opportunity Program (EOP) provides admission and retention support services to low-income and educationally disadvantaged California residents who demonstrate the motivation and potential to succeed in college. EOP identifies and admits students who have the potential to succeed at California State University campuses, but who have not achieved their educational goals because of economic and/or educational background. EOP provides students with the resources, tools and skills to ensure academic and personal success through a variety of academic support services. These services provided by EOP include recruitment, preadmission counseling, special admissions, a *Summer Bridge program* (for entering EOP freshmen), specialized orientation sessions, academic advisement, personal counseling, skill-enhancement workshops, career guidance, peer advising, support groups, social/cultural activities, referral services, and EOP grants for eligible students.

Summer Bridge is a transition program for a select group of newly admitted Educational Opportunity Program (EOP) freshmen students to prepare them for their first year at Cal State East Bay. This intensive college readiness program is designed to provide incoming EOP exception admit freshmen with the following academic, social, and multicultural experiences to smooth their transition from high school to the University's environment:

- Provide classes in English and Mathematics to enhance academic skills
- Acquaint students to the University and its many resources
- Provide workshops in the foundations of college success
- Make new friends
- Meet college professors
- Work with their counselors and peer advisors
- Select Fall semester classes
- Provide cultural and social activities

EOP accepts students who qualify for regular admission, as well as a limited number of students who do not meet regular admission criteria. Only low-income and educationally disadvantaged undergraduate students who need admission assistance and/or support services to succeed at Cal State East Bay are admitted to EOP. Additionally, students must be first generation college students, meet the income eligibility criteria, and either be California residents or AB 540. They must also demonstrate academic potential and motivation to succeed.

To apply for admission to the program, prospective students must complete the online *CALSTATE Apply* Application for Undergraduate Admission and check the appropriate box for EOP services. Once the Cal

State East Bay application is submitted (online), EOP applicants will receive an online EOP link and have access to complete the EOP Applicant Information Form and two EOP recommendation forms. Students must have all three documents submitted in order for their EOP application to be complete.

EOP is a high-demand program which only accepts applications for Fall term from applicants new to the CSU system. Currently enrolled and/or previously enrolled students (not formerly in an EOP CSU program) are not eligible to apply. Applicants who submit all required documents will be reviewed and if selected, will be admitted to EOP. All EOP freshmen receiving exception admission are required to attend the EOP Summer Bridge program as a condition of their admission for Fall term.

For assistance or for further information about EOP and the Summer Bridge program, please visit the EOP Office at Student and Faculty Support (SF) Building 224, or online at www.csueastbay.edu/eop. Prospective applicants can also email eopadmissions@csueastbay.edu or call (510) 885-4683 for more information.

Student Center for Academic Achievement

The Student Center for Academic Achievement (SCAA) provides tutoring and academic support services that are as diverse as Cal State East Bay's students - from peer tutoring, to group supplemental instruction sessions, to online assistance and tutoring. Its FREE services are available to fully matriculated CSUEB students. SCAA programs include:

- Peer Tutoring:
 - One-on-one assistance in Math, Writing, Statistics, Physics, Chemistry, Biology, and Computer Science with a trained peer tutor. The tutor's role is to not do the work for students, but to guide them in the process of learning the concepts in their courses.
- Online Writing Lab:
 - The SCAA Online Writing Lab (OWL) allows CSUEB students to submit papers online and receive writing tutor feedback via email. The SCAA OWL makes every effort to return papers within 72 hours after submission.
- eTutoring:
 - If student need assistance in subjects currently not tutored at the SCAA or cannot come to the SCAA during its regular operating hours, they can log in to the eTutoring platform on the SCAA website to get near-24/7 assistance in courses such as Accounting, Spanish, and Biology. Click here to access eTutoring.
- Writing Associates Program:
 - Trained student tutors are paired with an undergraduate course for one semester to assist students in writing assignments that engage undergraduate students in the entire writing process, including feedback and revision.
- Supplemental Instruction:
 - Provides peer-assisted, collaborate, and active study sessions that improve understanding of subject content, fosters critical thinking, and encourages life-long learning to classes that are considered "at risk" (i.e. large lecture classes). These student sessions are typically led by a student who did well in the course.
- WST Prep Programs:

- The SCAA offers one-time in-person workshops, an online workshop, and an intensive, invite-only WST Boot Camp.

Cal State East Bay students are encouraged to use the Center regularly to improve their academic performance no matter what their skill level or class standing. Students are also encouraged to attend events sponsored by the Center, such as our semester late-night extended hours tutoring event and contests.

The Student Center for Academic Achievement is located in the Upper Mall of the Library. Call (510) 885-3674 or visit its website for information regarding hours, specific tutoring times, workshop dates, event information, or to schedule a one-time appointment.

Student Services Operation for Success

The Student Service Operation for Success (SSOS) is funded by the U.S. Department of Education. The SSOS program began in late 2011 and provides a full range of academic support services, counseling and cultural activities directed at historically underserved Asian American and Pacific Islander students. California State University East Bay is designated as an Asian American Native American Pacific Islander Serving Institution (AANAPISI). SSOS promotes academic success for Asian American and Pacific Islander students in college and helps students be career ready when they graduate. The program's services include: Peer Mentorship, Academic Tutoring, Student Club Sponsorship, Leadership Class, Asian and Pacific Islander themed campus events, Academic Lecture Series, Financial Aid Workshops, Career Readiness Workshops, SSOS Workshops and more.

To apply to the SSOS Program or to find out more about its services, email us at: ssos@csueastbay.edu, call (510) 885-SSOS (7767), or visit their office at SF 202. Additional information can also be found on the website at: <http://www.csueastbay.edu/apass/>

Project IMPACT

Project IMPACT is federally funded TRiO Student Support Services program designed to help eligible students with disabilities succeed in their academic program. The services provided by Project IMPACT are beyond the legally mandated services afforded to students with disabilities by Accessibility Services. By fostering a closely knit community of learners, students are encouraged to become self-directed learners who persist to become academic achievers. Project IMPACT offers selected students individualized services such as:

- Academic Advising
- Subject-specific Tutoring
- Skill-building workshops and Learning Strategies Support
- Individualized Support Plans
- Wellness Counseling
- Support with the Financial Aid process and scholarship information
- Major and Career Exploration
- Assistive Technology training
- Access to the Project IMPACT Private Learning Lab

To be eligible for this program students must be:

1. A matriculated student at Cal State East Bay,
2. An individual with a permanent, documented disability
3. A U.S. Citizen, national or permanent resident,
4. Working toward their first baccalaureate degree
5. Have an academic need for support

For more information, or to apply contact Project IMPACT at (510) 885-2489 or visit:
<http://www.csueastbay.edu/project-impact/>

EXCEL Program

The EXCEL Program (a TRiO Student Support Services program) is funded by the U.S. Department of Education. The program provides a variety of educational services for Cal State East Bay undergraduates who have a demonstrated academic need and who are either low-income or first-generation college or have a disability. The EXCEL Program aims to increase the retention and graduation rates of program participants and to create a supportive environment that encourages academic success.

EXCEL's Academic Life Planning Counselors assist students in developing academic plans to complete their undergraduate degrees and solve academic related problems. They also provide advising in career and goal planning, scholarship assistance, graduate school advising, guidance on balancing academic and personal life, and personal counseling.

The Learning Skills Coordinator offers help in different ways of improving students' learning skills. Assistance includes offering tutoring in basic subjects, diagnosing academic weaknesses in learning and providing tips in test-taking, taking lecture notes, and study skills. During the academic year, EXCEL offers workshops with topics ranging from study skills to graduate schools to internship/jobs to enhance students' knowledge.

To apply to the EXCEL Program or to find out more about its services, call (510) 885-3722 or visit the main office located in the Student and Faculty Support Building (SF) Suite 202. Additional information can also be found on the website at www.csueastbay.edu/excel.

Renaissance Scholars Program

Jointly funded by the University, private foundations, non-profit organizations, and individual donations, the Renaissance Scholars Program provides a variety of educational and support services for current or former foster youth attending Cal State East Bay. The major goals of the program are to enhance the retention and graduation rates of program participants and to create a supportive environment that encourages academic success.

Renaissance Scholars assists students in developing life and leadership skills while providing a wide variety of services including academic, career, and psychological counseling, scholarship opportunities, emergency assistance, priority registration, priority placement in on-campus housing, recognition events, workshops, and field trips.

To qualify for Renaissance Scholars, a student must meet the following criteria:

- Be a current or former foster youth attending Cal State East Bay between the ages of 17-23
- Qualify for "Independent Student Status" under federal financial aid guidelines
- Be a California resident
- Be a graduating high school senior or incoming community college transfer student
- Have a minimum high school GPA of 2.0
- Transfer students must have earned a 2.0 GPA in all transferable coursework
- Demonstrate high motivation and potential

To find out more about the Renaissance Scholars Program browse the website at www.csueastbay.edu/renaissance, email us at renaissance@csueastbay.edu, call (510) 885-4426, or visit the office in the Student and Faculty Support (SF) building, suite 202.

Career Preparation & Cooperative Education

Academic Advising and Career Education (AACE)

In addition to academic advising and counseling, AACE provides information and employment services to assist students in transitioning from the university to graduate school or the professional workplace. These services include career advising and coaching, career exploration and assessment, occupational information, job search assistance, and employment information and referral. The office maintains a comprehensive Career Library with books, periodicals, and online resources pertaining to job search, career guidance, and labor market information.

AACE offers regularly scheduled walk-in hours for resume critiques and career-related questions. Appointments are also available for longer counseling sessions. In addition, career assessments are available in AACE to provide personal assessment and occupational information.

AACE offers workshops throughout the year, at both the Hayward and Concord campuses. Subjects include resume writing, interview techniques, finding an internship, and personal skills assessments, among other topics. Workshop and event schedules are listed on the website and the University's password-protected, on-line database for full-time, part-time, seasonal, internship, and summer jobs available to students.

Employers conduct on-campus interviews for graduating seniors and alumni in the fall and spring semesters. Participants are encouraged to attend an orientation session, either online or in the Center, before registering for interviews.

AACE hosts job fairs throughout the academic year for all undergraduates and graduates to explore career options and employment opportunities. Job fairs feature employers from local, national, and worldwide organizations. AACE also sponsors targeted recruitment events with a specific career or employment focus. All of these are also listed on PioneerJobs.

Cal State East Bay alumni and other working professionals in a variety of career fields provide CSUEB students with valuable career exploration information at "Career Panels" and other events. These offer valuable insight into their career fields and experiences.

AACE's website (www.csueastbay.edu/aace) provides information about its services, workshops and events, major and career information, job listings, resume and interviewing guidelines, and other career resources. Students can search for jobs, obtain information about occupations and career fields, participate in the On-Campus Interview program, and view the calendar of upcoming career workshops and job fairs.

Cooperative Education & Internships

The goal of the Cooperative Education program is to enrich students' educational experience by demonstrating the relevance of university study to the world of work and by providing on-the-job experience that will make interns attractive to future employers after the degree is completed.

Students have completed internships in private businesses and public and non-profit agencies, including I.R.S./C.I.D., Shaw Environmental, P.G. & E., and many more.

Normally, a co-op or intern experience should begin during the sophomore year or later. The work schedule varies depending on the needs of the employer. Some students are offered employment with their co-op employer when they graduate.

To participate in the program, students must have at least a 2.0 GPA, be in good academic standing, and be enrolled as a regular student in the University. To register in an internship course, students must meet the requirements of the Internship program in their own academic department. Internship courses are numbered 398 and 498 for undergraduate students and 698 for graduate students. If an internship course is available, it will be listed in the Class Schedule. Students must complete forms in AACE, as well as register for the course in order to receive credit.

In addition to internship courses, many departments offer regular courses in internships or field practice in which students may enroll to receive academic credit for their work.

Note: International students on F-1 visas who are interested in registering for Co-op, internship, or field practice courses should contact the Center for International Education at (510) 885-2880 to discuss employment authorization for such courses.

Change of Academic Objective

Changing a Major or Objective

Undergraduate students who wish to change their baccalaureate major, declare a minor or concentration must complete the required Change of Major/Minor/Concentration form on the University website under Student Records Forms, and obtain approval from the department. Students with 105 or more units will need permission from the Dean of Academic Programs and Services to change their majors or minors or add a new major or minor.

Note: A change is not official until the form has been signed and returned to the Office of the Registrar. Students are responsible for the major or minor requirements in the Catalog in effect at the time they file the form.

Change of Personal Data Information

Change of Name

For name changes, students may download the Personal Data Change form, complete and submit the form with copies of required government issued documentation (e.g., marriage certificate, driver's license, or passport) to the Enrollment Information Center in the Student Services and Administration Building. Forms may also be mailed to the Office of the Registrar at Cal State East Bay.

Change of Address

Students may change their address online using *MyCSUEB*. Students must officially notify Cal State East Bay of an address change in order to ensure that all official correspondence is sent to the correct address.

Note: The University is not responsible for mailing correspondence to the incorrect address unless the student has formally made an address change.

Course Requirement Information - Course Syllabus

Faculty shall provide students with a course syllabus, which should be placed on the course Blackboard site at the beginning of the semester, containing the following information:

- Name of instructor, office location, office hours, office telephone number, and @csueastbay.edu e-mail;
- Course number and title, classroom location, number of units, prerequisites (if any), a course description, objectives and student learning outcomes;
- Required texts and any other required and/or recommended materials;
- Student-supplied equipment and materials necessary for course activities;
- Course specific requirements and their due dates, such as examinations, quizzes, papers, field trips, and labs;
- Grading policy, which includes the relative weight of examinations, quizzes, papers, class participation, and other factors, and the grading scale;
- Attendance and make-up work policies and implications for grading;
- The following statement and reference to University policies regarding cheating and academic dishonesty: **"By enrolling in this class the student agrees to uphold the standards of academic integrity described at: <http://www.csueastbay.edu/academic/academic-policies/academic-dishonesty.html>."**
- Accommodations for students with disabilities.
 - Sample statement: **"If you have a documented disability and wish to discuss academic accommodations, or if you would need assistance in the event of an emergency evacuation, please contact me as soon as possible. Students with disabilities needing accommodation should speak with the Accessibility Services."**
- Emergency information.
 - Sample statement: **"California State University, East Bay is committed to being a safe and caring community. Your appropriate response in the event of an emergency can help save lives. Information on what to do in an emergency situation (earthquake, electrical outage, fire, extreme heat, severe storm, hazardous materials, terrorist attack) may be found at: <http://www.csueastbay.edu/af/departments/risk-management/ehs/emergency->**

management/index.html. Please be familiar with these procedures. Information on this page is updated as required. Please review the information on a regular basis."

Faculty are also encouraged to include additional items such as:

- Course outline;
- Types of quizzes and exams (e.g., true-false, multiple choice, short-answer, essay);
- Availability of appropriate tutoring services;
- Policies regarding audio and video recording and use of electronic devices;
- Reference to University classroom behavior policies;
- Classroom food and drink policies.

Furthermore, faculty should advise students of their expectations in the course no later than the end of the second class. Any changes in course requirements should be communicated to students in a timely manner. It is the student's responsibility to read the course statement and to request any clarification of course policies. If a student adds the course after the first week of class, they must seek course information in a timely manner.

Faculty Office Hours Policy

The faculty of the University are available during regularly scheduled office hours, which are at times other than scheduled classes. The times of the office hours are posted outside each faculty office, at the faculty member's department, on the department website, and on the faculty member's course syllabi. The faculty member informs the department of their office hours the first day of classes each semester. *Note: There is a proposal to amend the following policy regarding office hours. If approved by the University President, the policy may differ from the one below.*

Full-time faculty members maintain a minimum of three (3) office hours per week and also make provision for meeting with students by appointment at a mutually convenient time beyond the stated office hours. The full-time faculty member's office hours shall be held over at least two days and at least in half-hour blocks. Part-time faculty will maintain the equivalent of one (1) office hour per week for each four WTUs of their teaching load with a minimum of one hour and a maximum of three hours per week.

Faculty teaching online must also hold office hours and may make alternative arrangements with the Department Chair to be available online or by telephone. Online faculty's office hours must include at least one (1) hour of availability by telephone per week.

If for any reason a faculty member cannot meet the posted office hours, the faculty member will inform the Department Chair. If possible, the department will note the absence on the faculty office door.

Note: Normal office hours are to be maintained during the Final Examination period. If a final examination conflicts with a posted office hour, an alternative hour is to be posted for that week alone.

Enrollment

Students at Cal State East Bay can enroll for classes prior to each term via the University's online registration system in *MyCSUEB*. Demonstrations and instructions for the enrollment process can be found within the "Help" feature in *MyCSUEB*. Students requiring assistance may call the Office of the

Registrar at (510) 885-2784 or visit the Student Enrollment Information Center on the first floor of the Student Services and Administration Building on the Hayward Campus or in the lobby of the Academic Services Building on the Concord Campus.

Transcript Requests

Students may obtain official transcripts of coursework taken at Cal State East Bay (including continuing education and special session courses) from the Office of the Registrar. Refer to the transcripts section on the University website for current ordering procedures, forms and costs. Transcript Request forms that are mailed must also include a check (*payable to Cal State East Bay*) for the current fee. **Please do not send cash with mailed requests.**

Students with financial and judicial holds placed by the University, or with academic, document, library, equipment, or other obligations to Cal State East Bay, are not permitted to receive transcripts or to request transcripts to be sent to other institutions.

Grading & Academic Standards

Policies & Procedures

- Undergraduate Academic Grading Symbols
- Administrative Grading Symbols
- University Grading Policy
- Grade Availability after Final Exams
- Appealing an Inappropriate Grade
- Grade Forgiveness & Course Repetition
- Grade Forgiveness of Previous Terms

Academic Standards

- Grade Point Average (GPA)
- Qualifying for the Dean's & Honors List
- Latin Honors
- Undergraduate Probation & Disqualification Policy
- Undergraduate Reinstatement after Disqualification

Grade Point Average (GPA)

The student's grade point average (GPA) is calculated by dividing the total number of quality hours (units attempted, excluding CR/NC courses) into the number of grade (quality) points earned.

A 2.00 (C) average in all college/university courses, all Cal State East Bay courses, and all major courses are required for a baccalaureate degree (excluding "CR," "NC," "W," and "AU" grades). All courses taken as part of the major, including those in other departments are included in the calculation of the major GPA.

See also Academic Grading Symbols for information about grade points.

Academic Grading Symbols (Undergraduate)

Undergraduate Course Symbols & Grade Points Earned

Academic Symbol	Definitions	Grade (Quality) Points Earned
A	Excellent	4.0
A-	Excellent	3.7

B+	Good	3.3
B	Good	3.0
B-	Good	2.7
C+	Satisfactory	2.3
C	Satisfactory	2.0
C-	Satisfactory	1.7
D+	Poor	1.3
D	Poor	1.0
F	Failing	0.0
CR	Credit	not applicable
NC	No Credit	not applicable

"A-F" Grading Pattern

Courses required for majors in a major department are taken in this pattern. Specific department exemptions are noted in the course description. Faculty use of "+" or "-" is optional.

Credit/No Credit and A/B/C/No Credit Grading Patterns (CR/NC and A/B/C/NC)

Students may enroll in up to 40 semester units in credit/no credit patterns as an **undergraduate**. There are two *credit/no credit* patterns:

1. "CR/NC,"
2. "A/B/C/NC."

Some courses are only offered in the "CR/NC" or "A/B/C/NC" patterns. Undergraduate students can select the "CR/NC" pattern for most other courses subject to certain restrictions. Students can choose the "CR/NC" pattern during registration until the end of the Grade Type Change period.

Note: No changes to, or from, the credit/no credit pattern are permitted after the Grade Type Change period. There are no exceptions to this rule. Courses in a student's major department, regardless of course prefix, may not be taken "CR/NC," unless that is the only grading pattern in the course.

Units that students earn in courses taken under these grading patterns will apply to their degree requirements as long as they are not pre-baccalaureate courses (courses numbered 000 - 099).

- "CR" signifies that a student mastered the material at the level of "C-" or higher.
- "NC" signifies a work level of "D+" or lower.

Administrative Grading Symbols

Administrative Grading Symbols & Their Definitions

Administrative Grading Symbol	Definition	Grade (Quality) Points Earned
RP	Report in Progress	not applicable
I	Incomplete (Authorized)	not applicable
IC	Incomplete Charged	0.0
RD	Report Delayed	not applicable
W	Withdrawal	not applicable
WU	Withdrawal Unauthorized	0.0
AU	Audit	not applicable

Report in Progress (RP)

The symbol "RP," Report in Progress, is used in connection with courses that extend beyond an academic term. This symbol indicates that work is in progress, but that a final grade cannot be assigned until additional work is completed. The work must be completed within one year.

Note: If the work is not completed within the established time limit the "RP" grade will be changed to an "F" or "NC," depending on the grading pattern for the course.

Incomplete (I)

The symbol "I", Incomplete (Authorized), indicates that:

1. a discrete portion of the required coursework has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons,
2. attending a future offering of the class is not required to complete the work, and
3. the instructor believes it likely that the student will earn credit for the course upon completion of that work.

Students who are currently failing a course are not eligible for an Incomplete.

It is the student's responsibility to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements that must be satisfied to remove the Incomplete. A final grade is assigned when the work agreed upon has been completed and evaluated. The instructor will specify the work needed to complete the course that can be viewed in *MyCSUEB*.

Note: An "I" must normally be made up within one calendar year immediately following the end of the term during which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Students may not repeat a course in which they currently have an incomplete grade. Students who are currently failing a course are not eligible for an Incomplete.

Students may be able to receive up to a one-semester extension from the instructor. These extensions are for cause and must be approved by both the instructor and department chair. (Examples of cause include military service, serious health or personal problems, or instructor's leave of absence.) If a student wants credit for a course after an "I" has been converted to an "IC," the student must re-register and pass the course.

When the required work has been completed and evaluated, the instructor will submit a change of grade form and the academic grade will be recorded. If the student does not complete the work within the allowed time limit, the grade will be recorded as an "IC" (Incomplete Charged).

A student can graduate with an "I" grade on their record if the course is not necessary for graduation requirements. No grade may be changed once the degree has been awarded.

Incomplete Charged (IC)

The symbol "IC," Incomplete Charged, is used if the student received an authorized incomplete ("I"), but did not complete the required coursework within the allowed time limit, and the original grading pattern of the course was "A-F." If the grading pattern was either "A/B/C/NC" or "CR/NC", the grade will be recorded as "NC."

Note: The "IC" replaces the "I" and is counted as a failing grade for computing grade point average.

Report Delayed (RD)

The Report Delayed grade is an administrative grade assigned to students for a course if the instructor notifies the Office of the Registrar that grade reports have been delayed by circumstances beyond the control of the instructor. An example is the illness of the instructor at the end of the semester. The instructor will replace the "RD" grade with an academic grade as soon as possible.

Note: If the instructor fails to replace it with an academic grade by the end of the following semester, the grade "RD" will be converted to a "WU" or an "NC" depending on the grading pattern.

Withdrawal (W)

Dropping a course may be permitted, without restriction or penalty, during the Add/Drop Period. No grading symbol is recorded in such instances.

The "W" administrative grade indicates that the student was permitted to withdraw from a course after the end of the Add/Drop Period and prior to the last twenty percent of instruction, and may be assigned only for serious and compelling reasons. Permission to withdraw during this time shall be granted only with the approval of both the instructor and the department chair. The requests and approvals shall state the reasons for withdrawal.

Undergraduate students may withdraw after the Add/Drop Period from no more than 18 semester units in the undergraduate career. Only withdrawals recorded in terms beginning with Fall 2009 are counted. When serious illness or accidents are documented and used as the basis for approval of withdrawal from classes in the term, the units in question will not count against the maximum units allowed. Open University units are counted toward the maximum units. No limitations are placed on withdrawals by post-baccalaureate students taking classes in a post-baccalaureate career.

Withdrawals are not permitted during the final twenty percent of instruction except in cases, such as accident or serious illness, where the cause of withdrawal is due to circumstances clearly beyond the student's control and the assignment of an Incomplete is not practicable. Withdrawals of this nature may involve total withdrawal from the campus or may involve only one course, except that a course grade and credit or an Incomplete grade may be assigned for courses in which sufficient work has been completed to permit an evaluation to be made. When serious illness or accidents are documented and used as the basis for approval of withdrawal from classes in the term, the units in question will not count against the maximum units allowed. Request for permission to withdraw under these circumstances shall be granted only with the approval of the instructor, the department chair, the college dean and the administrator appointed by the President to act in such matters.

The "W" grade shall not be used in the calculation of grade point averages.

Withdrawal Unauthorized (WU)

The "WU" grade (Withdrawal Unauthorized) shall be used where a student who is enrolled on the census date does not officially withdraw from a course, but fails to complete it. Its most common use is in those instances where a student has not completed sufficient course assignments or participated in sufficient course activity to make it possible, in the opinion of the instructor, to report satisfactory or unsatisfactory completion of the class by use of the letter grade (A-F). *The "WU" is counted in the grade point average as an*

"F" grade. When assigning the "WU" grade, the instructor shall report the last known date of attendance by the student.

Audit (AU)

Students may take courses for instruction only (Audit), and will attend class but will not receive credit. Audit students will pay the same fees and enjoy the same instructional privileges as students enrolled for credit. Audit students may participate in class, take examinations or complete other assignments, but are not required to do so.

Note: Students may not petition to change their enrollment status from, or to, "Audit" after the Grade Type Change period has ended.

University Grading Policy

It is an integral part of the teaching responsibility of the faculty to provide careful evaluation and timely assignment of an appropriate grade to each enrolled student. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise. In the absence of compelling reasons, such as instructor or clerical error, prejudice, or capriciousness, the grade determined by the instructor of record will be considered final.

For purposes of correcting an error, an instructor may change a grade with approval of his/her department chair and college dean. No grade may be changed once graduation has been recorded unless an error has been made, in which case students have one semester after their degree has been awarded to dispute the grade and have it corrected, or if a Grade Appeal petition has resulted in a grade change. The administrative symbol for withdrawal cannot be assigned by a faculty member.

See the Registration & Enrollment chapter for the description of withdrawal policies and procedures.

Grade Availability After Final Exams

Grades for the term are available online after faculty submit their official grade rosters and grades are official. Check the

Important Dates page on the University website for the dates grades become official each term. To check grades and academic standing, visit **MyCSUEB**. Under *Student Center* **use the drop-down "(other academics...)"**.

Appealing an Inappropriate Grade

Faculty have the sole right and responsibility to provide careful evaluation and timely assignment of appropriate grades. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise. In the absence of compelling reasons, such as instructor or clerical error, prejudice or capriciousness, the grade assigned by the instructor of record is to be considered final. Students who believe that an appropriate grade has not been assigned should

attempt to resolve the problem with their instructor. If the student is not satisfied with the outcome, they should discuss the issue with the department chair in which the course was offered. If the issue is not resolved, the student should make an appointment with the dean or associate dean of the college in which the course is offered. If all previous actions fail, the student should contact the Presidential Appointee to the Grade Appeal and Academic Grievance Committee by calling (510) 885-3716. If the student has applied for graduation, the student should notify their graduation evaluator that a question is pending resolution. Once a degree is posted, no grade changes will be allowed.

Grade Appeal and Academic Grievance Committee

The Grade Appeal and Academic Grievance process, administered by this committee, allows students to resolve serious cases of alleged academic unfairness. After every effort by all parties to resolve the dispute has been ineffective, students can discuss their case with the Presidential Appointee to the Grade Appeal and Academic Grievance Committee. The Presidential Appointee will assist students in exhausting all normal channels and, if necessary, in filing a Petition (see link below) for a Grade Appeal Hearing. Students will need to submit their petition and supporting documentation to the Academic Programs and Services Office. The committee will review this documentation and the response(s) filed by the other parties involved in the dispute. If the committee finds possible grounds for a grievance, a Hearing Panel will be convened to hear the case. Under normal circumstances, the student must file their Petition before the end of the semester following the semester in which the alleged incident took place.

The Grade Appeal and Academic Grievance Committee is empowered to change a grade in accordance with the Grade Appeal Document and to assign a grade in cases where the instructor may have assigned an unfair academic grade. The Grade Appeal and Academic Grievance Committee is authorized to change a grade only after it has conducted a proper review of the case.

Grade Appeal Petition Form

For additional information see the **Student Rights, Responsibilities & Conduct** chapter.

More information is available from the Office of Academic Programs and Services (Student Services and Administration Building, Suite 4500; Tel. (510) 885-3716)

Grade Forgiveness and Repetition of Courses

Undergraduate students (regular enrollment and Open University) may repeat courses only if they earned grades lower than a C (including C-, D+ D, F, WU, IC and NC). Repeating a course with an incomplete ("I") grade is not allowed; a grade must be assigned or the "I" must revert to an "IC" prior to repeating the course. The policies regarding repeating courses with Grade Forgiveness or Grade Averaging as described below apply only to courses taken and repeated at Cal State East Bay. Any student who is repeating a course (except if the grade for that course was "W") is not permitted to register during first or second pass and must register on a space available basis during or after the open enrollment period.

Students may repeat a course for grade forgiveness two times. "Grade forgiveness" is the phrase indicating that the earlier attempt(s) is ignored in GPA calculations, but not removed from the record, subject to the following conditions.

Course Equivalencies For Purposes of Grade Forgiveness

For information about forgiveness equivalencies for quarter-based courses, students should contact the chair of the corresponding department.

Equivalent course groups (ECGs) are certain General Education courses that are considered equivalent for the purposes of grade forgiveness. Therefore, students will receive credit for only one course in each of the following groups:

- CHEM 161, CHEM 165.
- GEOL 100, GEOL 101.
- LIBY 210, LIBY 220.
- STAT 100, STAT 110.

Unit Limit on Repeating Courses

Students are limited to 28 semester units.

1. Students can only receive grade forgiveness for 16 semester units of coursework.
2. Students may repeat an additional 12 semester units of coursework for grade averaging. The quality hours and quality points of the repeated courses will be averaged, while the units earned for these subsequent attempts will not be counted.
3. Students who have repeated the maximum allowable, are otherwise making appropriate progress to degree, and still need to repeat courses to fulfill specific major or minor requirements necessary for graduation may petition for an exception to the 28-unit limit. The General Education Office will administer the petition process. Any course(s) approved for repeating by this petition process will be grade averaged.

Grade Forgiveness is not possible in the following circumstances:

1. Repeating any one course for Grade Forgiveness more than twice. (Some departments may restrict grade forgiveness to only one repeat.)
2. Repeating a grade of "C" (2.0) or better.
3. Any grade assigned as a result of academic dishonesty.
4. If the original grade(s) was assigned at Cal State East Bay, Grade Forgiveness by repeating a course at another institution is normally not possible. (Exceptions may be made for disqualified students who file an approved petition prior to repeating the course elsewhere, but only to the extent necessary for their readmission.) Disqualified students repeating courses through Open University at CSUEB, only to the extent necessary for their readmission, do not need to file a petition.

Cal State East Bay honors the Grade Forgiveness policies of other institutions as stated on their official transcripts.

Grade Forgiveness of Previous Terms

Under the most extenuating circumstances, a student can petition to exclude from degree requirements and GPA computations up to two semesters (or up to three quarters) of coursework taken at any institution. To have the petition approved, the student must meet certain conditions and follow the process described below.

- The student must formally request such action and present evidence that substantiates that the work in question is substandard and not representative of the student's current scholastic ability;
- The previous level of scholastic ability was due to extenuating circumstances; and,
- All degree requirements except the earning of at least a 2.0 grade point average have or will soon be met.

Petitioning students must complete the following steps:

- complete the student's portion of the "Petition for Forgiveness of Previous Term,"
- obtain the major advisor's approval on the petition,
- file the petition in the Department of General Education.

If the petitioner is eligible, the Chair of General Studies shall certify that the conditions are met, attach a copy of the student's academic record, and forward the package to the Grade Forgiveness committee. The committee, chaired by the Dean of Academic Programs and Services and consisting of at least three members with the majority being faculty, acts upon all petitions by majority vote.

If the Chair of General Studies determines the petitioner does not meet the conditions, the petitioner will be notified and no action is taken. Final determination shall be made only when:

- Five years have elapsed since the most recent work to be disregarded was completed;
- The student has earned in residence at Cal State East Bay since the most recent work being considered was completed:
 - o 15 semester units with at least a 3.0 GPA, or
 - o 30 semester units with at least a 2.5 GPA, or
 - o 45 semester units with at least a 2.0 GPA;
- When such action is taken, the student's record shall be annotated so that it is readily evident to users of the record that no work taken during the disregarded term(s), even if satisfactory, has been applied towards the meeting of degree requirements. However, all work must remain legible on the record.

If another institution has acted to remove coursework from consideration, such action shall be honored in terms of that institution's policy. But, elimination of any coursework's consideration shall reduce by one semester the two semester maximum on the application of academic renewal to an individual Cal State East Bay's student's record.

Dean's & Honors Lists

Recognition of the following honors will be posted to the student transcript for each semester that the student is on the list.

Qualifying for the Dean's List

Students who achieve academic distinction in any academic semester, as evidenced by a grade point average of 3.80 or higher in 9 units or more, in addition to any units graded CR/NC, will be included on the Dean's List for that semester.

Qualifying for the Honors List

Students with a grade point average in the range of 3.60-3.79 will be included on the Honors List for that semester.

Academic (Latin) Honors

Graduation with Honors

Candidates for the baccalaureate degree may be eligible for the awarding of Latin Honors at the time of graduation if they have fulfilled the following conditions:

1. They must have a cumulative grade point average of 3.65 or higher in all coursework and in coursework completed at Cal State East Bay.
2. They must have completed at least 40 semester-units of coursework in residence (as defined in the University Catalog) at Cal State East Bay.

summa cum laude (cumulative GPA, overall and at CSUEB, of 3.85-4.00) *highest honor*

magna cum laude (cumulative GPA, overall and at CSUEB, of 3.75-3.84) *high honor*

cum laude (cumulative GPA, overall and at CSUEB, of 3.65-3.74) *honor*

The GPA is officially calculated at the time the student has completed graduation requirements. The honors designation will be noted on the student's diploma and official transcript. The conditions noted above apply equally to second-baccalaureate degree candidates.

Note: Post-baccalaureate and graduate students are not eligible for Latin Honors.

University Honors Program

The University Honors Program is different from "graduation with honors". Graduation with honors is determined strictly on a GPA basis, and no additional coursework is required. The University Honors Program provides outstanding students the opportunity for academic challenge through the completion of specialized courses, seminars and projects under the direction of faculty mentors. To see their website, click on the link for more information.

Undergraduate Probation and Disqualification Policy

The following policies govern undergraduate academic & administrative probation and disqualification:

Academic Probation

According to Title 5 of the California Code of Regulations, students must achieve at least a 2.0 grade point average (GPA) in all baccalaureate work, all work at Cal State East Bay, and all work in their major to receive a baccalaureate degree.

A student will be placed on academic probation if, following a Fall or Spring Semester, their Cal State East Bay cumulative GPA falls below 2.0. Academic probation warns individuals that their academic performance is below the state minimum required for graduation, and that their GPA must improve before a degree can be granted.

The probation status is shown on the student's transcript.

Undergraduate students on probation will remain on continued probation when the following semester term GPA is 2.0 or better, but the Cal State East Bay cumulative GPA remains below 2.0. The continued probation status is shown on the transcript and is treated like probation in terms of academic standing.

Freshmen on academic probation are allowed a second consecutive semester of probation (known as "continued probation") if their Cal State East Bay cumulative GPA is in the range of 1.50 to 1.99.

The Registrar will notify students who are placed on probation when semester term grades are posted. The notification will include a referral to academic advisors, including advisors in Academic Advising and Career Education, advisors in college success centers, and faculty major advisors. EXCEL or Educational Opportunity Program (EOP) students should contact their counselors.

Students remain on probation or continued probation until they are either returned to good academic standing or are disqualified. When the Cal State East Bay cumulative GPA is raised to at least 2.0 following a Fall or Spring semester, the student will be returned to good academic standing.

Academic Disqualification

As authorized by Title 5 of the California Code of Regulations, undergraduate students on academic probation are subject to academic disqualification when:

- as a freshman (fewer than 30 semester units of college work completed), the Fall or Spring term grade point average is below 1.50;
- as a sophomore, junior, or senior, the Fall or Spring semester term GPA is below 2.0.

The disqualified status is shown on the student's transcript.

Administrative Academic Probation

As authorized by Title 5 of the California Code of Regulations, a student may be placed on administrative academic probation for:

- withdrawal or administrative disenrollment from all or a substantial portion of a program of studies in two successive terms or in any three terms. (*Note: A student whose withdrawal is directly*

associated with a chronic or recurring medical condition or its treatment is not subject to administrative academic probation for such withdrawal);

- repeated failure to progress toward the stated degree objective or other program objective, including that resulting from the assignment of "NC," when such failure appears to be due to circumstances within the control of the student;
- failure to comply, after due notice, with an academic requirement or regulation, as defined by campus policy, which is routine for all students or a defined group of students, such as failure to complete the writing skills test, failure to complete a required practicum, failure to comply with professional standards appropriate to the field of study, or failure to complete a specified number of units as a condition for receiving student financial aid or making satisfactory progress in the academic program.

When such action is taken, the student shall be notified in writing and shall be provided with the conditions for removal from administrative academic probation and the circumstances that would lead to administrative academic disqualification, should probation not be removed.

Administrative Academic Disqualification

As authorized by Title 5 of the California Code of Regulations, a student who has been placed on administrative academic probation may be disqualified from further attendance if:

- the conditions for removal of administrative academic probation are not met within the period specified;
- the student becomes subject to academic probation while on administrative academic probation;
- the student becomes subject to administrative academic probation for the same or similar reason for which the student has been placed on administrative academic probation previously, although not currently in such status.

Students who are not on probation may be subject to administrative academic disqualification if:

- the student's cumulative grade point average is below 1.0 at the end of any term;
- the student's cumulative grade point average is so low that in view of the student's overall educational record, it seems unlikely that the deficiency will be removed within a reasonable period.

When such action is taken, the student shall receive written notification, including an explanation of the basis for the action.

Reinstatement as an Undergraduate after Academic Disqualification

To be readmitted or reinstated as an undergraduate student following *Academic Disqualification*, a student must have earned good grades at another accredited institution, or through Open University, have improved their CSUEB and cumulative GPA to 2.00 or better, and have completed any required remediation. Typically, students will not be considered for readmission for one year, and certainly not for at least one semester. If a student is not readmitted within two semesters, they must also reapply for admission.

The *Admissions Review Committee* will decide on petitions for reinstatement, on a case-by-case basis. Students who do not meet the above-mentioned criteria but feel they have compelling and/or extenuating circumstances which prevent them from achieving the reinstatement requirements may be reinstated on probation by the committee if, in their judgment, the student is likely to remove any grade point average deficiencies within the subsequent two terms.

Note: Students who are readmitted or reinstated must maintain a minimum term GPA of 2.5. Students who are academically disqualified for a second time will not be readmitted or reinstated.

Graduation

- Time to Think About Graduation
- Important Facts to Remember
- Applying for Graduation
- Graduation Requirement in Writing Proficiency
- SSMP & Credential Program Students Filing for Graduation
- Catalog Rights for Graduation
- Diplomas

Time to Think About Graduation!

Students should apply for graduation by the priority filing deadline for the term in which they intend to graduate:

Continuing students who have satisfied the University Writing Skills Requirement can log into *MyCSUEB* and click on "Apply for Graduation." After filing, students should print the final confirmation page and give a copy to their major and minor departments to initiate a graduate check. Discontinued students can file for graduation using the Graduation Application - Closed Matriculation form on the University website under Student Records Forms.

Note: Students are advised to review completion of degree requirements with their department before filing for graduation. Degrees are awarded within three months after the student's final term of attendance.

IMPORTANT Facts to Remember

Students are advised to review completion of general education requirements and to consult with their major and minor departments before filing for graduation.

Remember:

Students are responsible for filing for graduation by the established priority deadlines. **All students must have completed the University Writing Skills Requirement (UWSR) in order to apply for**

graduation. Undergraduate students must have completed 90 semester units in order to apply for graduation.

Graduation Priority Filing Deadlines

Summer and Fall graduation:

March 1st

Spring graduation:

October 1st

Students who file for graduation after the priority deadline will not receive priority registration as a graduating senior or graduating graduate, and the final graduation review by the Office of the Registrar may also be delayed. Students are responsible for contacting their academic major and minor departments and informing them of their intent to graduate. Students must allow enough notice so that their department will have sufficient time to generate a major or minor check indicating whether the student has satisfied all academic requirements of the major or minor. The major and minor checks are due to the *Office of the Registrar* by the following dates:

Major and Minor Check Deadlines

Summer graduation:

April 15th

Fall graduation:

May 15th

Spring graduation:

November 15th

To register as a graduating senior, students must have filed for graduation by the time registration appointments are assigned and have earned a minimum of 100 semester units; a student may file for graduation when they have earned 90 semester units but must complete 100 semester units to receive priority registration. Students who cannot complete all requirements by their anticipated graduation term may postpone their graduation to the next consecutive term with approval from their major department. Students who file for Fall graduation may postpone to Spring. Students who file for Spring graduation may postpone to Summer and/or Fall. To postpone their graduation, students must complete a Graduation Postponement form, and may be charged a processing fee of up to one half of the current graduation filing fee (the fee is only applicable to undergraduate students). A graduation evaluator may also postpone a student's graduation if they determine all degree requirements will not be met. Any student with more than 144 semester units who wishes to postpone their graduation term must also obtain approval from the

Dean of Academic Programs and Services and may be placed on an academic contract for the remaining coursework. Students should submit the Graduation Postponement form well in advance of the opening of registration for a given term, and no later than the end of the Add/Drop period of the term originally intended to be the student's final term. Changes in the information on the diploma (i.e. change of name, address to be sent, deletion of an incomplete minor) must be submitted no later than the end of the Add/Drop period of the intended term of graduation.

Major & Minor Checks

After filing for graduation, students must contact their major department to complete an official "Major Check" showing all completed and remaining requirements for the major. The department must submit the major check to the *Office of the Registrar* by the deadline listed above.

Students are strongly encouraged to check with their academic department by the deadline to be certain a major check has been filed.

If students are completing a minor and want it recorded, they must request that a "Minor Check" be submitted by the department offering the minor to the *Office of the Registrar* by the deadline listed above.

Waivers

If a substitution or waiver petition is approved for major, G.E., or other graduation requirements, students must be certain the approved petition reaches the *Office of the Registrar* at least four weeks before the end of their final term.

Degree Posting

Degrees are conferred three times a year for students who have filed for graduation and completed all degree requirements: August (Summer), December (Fall) and May (Spring). The date on the diploma reflects the semester in which the student completed all degree requirements. The final graduation evaluation process typically takes up to **three months following the posting of grades from the student's last term of attendance**. The student's diploma will be ordered and mailed to their permanent address of record with the university approximately 6-8 weeks after the degree has been awarded.

Commencement

Participation in a Commencement Ceremony is different than graduating and earning a degree. Graduation applicants who are candidates for a degree during the Fall, Spring, or Summer term of the same academic year or school year as of March 1 are eligible to participate and their name will be printed in the official commencement program. There is one University Commencement each year, held in the Spring.

Student's Historical Record

In order to protect the integrity of its transcripts, the University will not make any changes to student records unless there is documented evidence of University error. Once a degree is posted to a student's permanent record, the diploma and transcript cannot be altered by adding additional options and/or

minors, or by grade changes, withdrawals, and/or grade forgiveness. Transfer coursework submitted after degree posting will not be reflected on a student's record. Students who believe that they have received a grade in error should promptly ask the instructor to verify and, if appropriate, correct the grade. If an error was made, the instructor of record must indicate specifically the nature of that error on the Change of Grade form and submit the completed form to the Student Records Office. Students who feel they received a grade due to unfairness would also have one semester to pursue their allegation of unfairness through the University's Grade Appeal process. Students must notify the *Office of the Registrar* of any errors in their grades no later than the semester subsequent to the semester in which their degree is awarded or upon completion of the Grade Appeal process. The Registrar's Office may also seek clarification of the error from the Department Chair.

If the instructor is absent from campus during the semester subsequent to the semester in which the student's degree is awarded, the student shall promptly consult with the Department Chair about the grade in question. If the Department Chair is unable to contact the instructor, the chair will notify the Dean of the College and the University Registrar in writing that an extension of the grade correction deadline, up to one year after the degree has been awarded, has been requested.

For purposes of correcting an error, an instructor may change a grade with approval of his/her Department Chair and College Dean. No grade may be changed once graduation has been recorded unless an error has been made in which case students have one semester after their degree has been awarded to dispute the grade and have it corrected, or if a Grade Appeal petition has resulted in a grade change. The administrative symbol for withdrawal cannot be assigned by a faculty member.

See the Registration chapter for the description of withdrawal policies and procedures.

Applying for Graduation

Important: Students are advised to review completion of degree requirements with their department before filing for graduation.

Graduation Application Fee

The Graduation Application (filing) Fee will be charged to the student's account after they file for graduation. The fee is nonrefundable, and can be paid in one of the following ways:

- online at *MyCSUEB*,
- in person at the Cashier's Office in the Student Enrollment Information Center (Student Services and Administration Building, 1st Floor) on the Hayward Hills Campus,
- in person in the Academic Services Office on the Concord Campus.

The Graduation Application Fee covers the cost of the graduation check of coursework, completing the diploma, and participation in the annual commencement ceremony. *Note: the application fee does not include the cap and gown rental/purchase, handled separately by the Bookstore.*

Priority Registration

Note: When a student files for graduation, they may obtain a new registration priority.

To register for classes as a "graduating student", students must meet the following criteria at the time enrollment appointments are assigned each term:

- Undergraduate Students: Completed 100 semester units and filed for graduation by the priority filing deadline,
- Graduate Students: Considered a "Classified Graduate" who is recommended for Advancement to Candidacy by their advisor and who has made substantial progress towards their degree, or filed for graduation by the priority filing deadline.

Graduation Requirement in Writing Proficiency (UWSR)

Note: This content has been changed, please see the Errata chapter for information.

In addition to the lower-division General Education requirements for writing, the California State University system requires that *all students* must demonstrate competency in writing skills as a requirement for graduation and to receive a baccalaureate, master's, or doctoral degree. This requirement was implemented system-wide in 1977. Students must satisfy the University Writing Skills Requirement (UWSR) in order to receive a degree from Cal State East Bay unless they are exempt by one of the following criteria:

1. Previously satisfied the UWSR at Cal State East Bay or at another CSU campus, Cal State East Bay will accept official certification of completion if the entire requirement, as specified by that CSU campus, was satisfied and the student was a matriculated student at that campus at the time. On some CSU campuses, the requirement is called the "Graduation Writing Assessment Requirement (GWAR)."
2. Graduated from any one of the CSU campuses; unless it is noted on the transcript that the UWSR (or GWAR) was not satisfied.
3. Received an essay score of 4.5 or higher on the GMAT or GRE or an essay score of 53 or higher on the CBEST.

Undergraduate students are required to begin steps to satisfy the University Writing Skills Requirement after completing 60 semester units. Students who do not enroll in an appropriate course or register to take the Writing Skills Test in their first semester after completing 60 units will have a registration hold placed. The hold will be lifted as the student progresses towards completion of this requirement. *Note: Undergraduate students cannot satisfy this requirement before completing 60 units. For undergraduate students, completion of GE Area A2 and ENGL 200 or another approved second composition course, which are graduation degree requirements, is also required before attempting to satisfy the UWSR.*

To satisfy the requirement at Cal State East Bay, students may do one of the following:

- **Option One:** Register for and pass the Writing Skills Test. See Writing Skills Test (Option One) below.
- **Option Two:** Enroll in and pass a first-tier writing course (ENGL 300 or ENGL 301) and possibly a second-tier course, as well. See Course (Option Two) below.

Writing Skills Test (Option One)

The Writing Skills Test (WST) consists of an analytic essay that requires students to demonstrate that they can think and write critically. A score of Clear Competence (8) is needed to meet the requirement. Students who do not meet receive the Clear Competence designation on the first attempt have only one opportunity to take it again; a score of Clear Competence on the second attempt satisfies the requirement. If both tests are scored as "Limited Competence (6)", they will be required to take the course option (see below). If one or both scores is "Developing Competence (7)", they need only take a second-tier course to satisfy the UWSR (see below).

Note: There is a fee for the WST. See the Fees & Financial Services chapter for more information.

Course (Option Two)

ENGL 300 and ENGL 301 are the first-tier writing courses designed to help students meet the University Writing Skills Requirement. Students who have not attempted the WST or those who have taken the Writing Skills Test (WST) and have received Limited Competence (6) must take either ENGL 300 or ENGL 301 and perhaps a second-tier writing course as well. Students who have not taken the WST twice may take it even when enrolled in a writing skills course. Generally speaking, ENGL 300 is intended for native speakers of English, while ENGL 301 is intended for non-native speakers. Based on end-of-course portfolio evaluation scores, at the end of the first-tier course they will be advised as to their next step, which will involve one of the following: they may be found to have met the UWSR requirement altogether; they may be directed to enroll in a second-tier course; or, they may be directed to repeat the first tier course.

Generally, two second-tier writing courses are regularly offered: ENGL 302 and MKTG 305 . Students who passed the quarter-based equivalents to these courses (ENGL 3003 and MKTG 3495) prior to fall 2000 may not have met the UWSR. For more information on these courses, contact the individual department. Courses approved for second-tier writing are listed here: Second Tier Courses. Students who pass a second-tier writing course with a C- or better (or "CR" if taken as CR/NC) have satisfied the UWSR.

Students who have taken the first-tier writing course three times consecutively, have not passed, and have a letter of good faith effort from their most recent first-tier instructor may apply to the Dean of Academic Programs and Services for a waiver of the UWSR. If a waiver is granted, the student's permanent record will note that they were allowed to graduate without having satisfied the UWSR. Students who do not satisfy the requirement and do not have a waiver approved will not be allowed to graduate. Contact the Dean of Academic Programs and Services for information on this waiver at (510) 885-2990.

If a student receives a grade of "D+" or "D" in a second-tier writing course (taken Fall Quarter, 2000 or later), they may appeal to the Dean of Academic Programs and Services for a waiver of the UWSR. If a waiver is granted, their permanent record will note that they were allowed to graduate without having satisfied the UWSR. Students who do not satisfy the requirement and do not have a waiver approved will not be allowed to graduate. Contact the Dean of Academic Programs and Services for information on this waiver at (510) 885-2990.

Students who have a verified disability and would like to request accommodations to assist them in satisfying this requirement should contact the Accessibility Services in the Library Complex 2440 or call (510) 885-3868 (phone/TTY).

For more information on meeting the University Writing Skills Requirement, see the Testing Office website or call (510) 885-3661.

SSMP & Credential Program Students Filing for Graduation

Undergraduate and Graduate Students

If a student is completing an undergraduate *Single Subject Matter Preparation* program for entry into a teaching credential program, or they are completing a graduate *Single or Multiple Subject Credential* program, they should *NOT* file for graduation.

The appropriate check sheet *MUST* be submitted by the department or program committee offering the program to:

Credentialing Student Services Center

(Art & Education Building [A&E] 2nd Floor)

College of Education and Allied Studies

Catalog Rights for Graduation

As long as a student maintains continuous enrollment as defined in the next paragraph, the degree requirements will remain those of the catalog in effect at the time they declare their major, minor, or degree. However, students may elect to meet the requirements of the catalog in effect at the time of graduation. These principles are called "catalog rights."

Matriculated students who have not enrolled in classes at Cal State East Bay for two consecutive semesters (not including summer or winter sessions), and do not enroll in the third consecutive semester lose their continuous enrollment status and their graduation requirements will be governed by the catalog in effect at the time they reenter. If a student is absent due to an approved Planned Educational Leave or to attend another accredited institution of higher education, they will not lose their catalog rights as long as they are not away from Cal State East Bay for over two years.

Transfer students who attended another CSU campus and/or California Community College have Cal State East Bay catalog rights from the time they began at the other institution if they have continuous enrollment as noted above.

Note: The principle of catalog rights refers to degree requirements, not policies, fees, services, and other matters which, when they change, apply to all students. For that reason, students should check the latest online catalog.

Also Note: Requirements of certain programs (e.g., teacher credential programs) are governed by outside agencies. The requirements of these programs are subject to change based on changes dictated by these outside agencies.

Due to semester conversion, during the 2018-19 academic year only, students with rights to earlier catalogs may request rights to this Catalog for either their major or their graduation requirements or both. Forms are available on the Registrar's website.

Undergraduate Students

Students' catalog rights for their major, minor or degree are governed by the catalog in effect at the time the student declares their major, minor, or degree. Undergraduates will not lose catalog rights for graduation requirements (including general education) by declaring or changing their major if they maintain continuous enrollment.

Post-graduate & Graduate Students

Catalog rights for graduate students are governed by the catalog in effect at the time the student was admitted to their program. As noted earlier, they may select the graduation catalog when they file to graduate. Students should note, however, that there is a requirement that courses in master's programs expire after five years; see the Master's Degree Requirements section of the *Graduate Degree Requirements, Policies, & Other Information* chapter.

Diplomas

After a student has completed all degree requirements and the graduation evaluator has verified their completion, their degree will be conferred and their diploma will be ordered. The final graduation evaluation process typically takes up to **three months following the posting of grades from the student's last semester of graduation candidacy**. The diploma will be mailed to the student's permanent address of record with the University 6-8 weeks after the degree has been awarded.

A diploma is an official document containing the embossed seal of Cal State East Bay, the student's name, the degree conferred and date, major(s) completed in the degree conferred, any concentrations or minors completed, and the signatures of state and University officials. It is not reproducible or available in multiple copies. Students can obtain multiple copies of their record by ordering transcripts which also show degrees, majors and concentrations, as well as other information. If a student needs proof of completion of their degree before receiving their diploma, they may request a verification of graduation or a transcript from the *Office of the Registrar*.

Should a student change their name, they may request that a new diploma be issued with their new name if:

1. they return the originally issued diploma to the *Office of the Registrar*,
2. they provide legal documents confirming their legal name change, and
3. the student pays the fee for a new diploma.

After the degree is posted to a student's permanent record, a student's diploma and transcript cannot be altered by adding additional options, or by grade changes, and/or withdrawals. The University protects the integrity of its transcripts and will not rewrite history unless a University error has occurred.

Welcome Prospective Graduate & Post-baccalaureate Students!

There are four steps to the application process for most prospective graduate and post-baccalaureate students:

1. Applicants must submit an online CSU graduate application for admission at **CALSTATE Apply**

2. Most graduate degree programs at Cal State East Bay also require that an applicant complete a separate departmental application.
3. Cal State East Bay will determine an applicant's eligibility based on criteria discussed in this chapter.
4. The University will notify the student of the decision.

Admission to the University

All graduate and post-baccalaureate applicants (e.g., Ed.D. applicants, joint Ph.D. applicants, master's degree applicants, those seeking educational credentials or certificates) must file a complete graduate application as described in the graduate and post-baccalaureate admission materials at: www.calstate.edu/apply. Applicants who completed undergraduate degree requirements and graduated the preceding term are also required to complete and submit an application and pay the \$55 nonrefundable application fee at the time of submission. The application fee cannot be transferred to a future term; each application filed requires an application fee payment. Since applicants for post-baccalaureate programs may be limited to the choice of a single campus on each application, re-routing to alternate campuses or later changes of campus choice are not guaranteed. To be assured of initial consideration by more than one campus, it is necessary to submit separate applications (including fees) to each. Applicants must submit their applications through *CALSTATE Apply* unless submission of an electronic application is impossible. An electronic version of the CSU graduate application is available at www.calstate.edu/apply.

Depending on the objective, the CSU will consider an application for admission as follows:

- General Admission to the University
- Admission to a Graduate Program

Note: If the application fee is not received by the deadline, the application for admission will be cancelled. Please note, if applying to a future term, any past due application fees are still required and must be paid prior to enrollment in classes.

Transcripts

Request official transcripts from all colleges and universities attended be sent to Cal State East Bay's Office of Admission. (This includes all institutions before and after a student's bachelor's degree.) If a student's graduate program also requires official transcripts, they will also need to send additional copies directly to their department.

These and other CSU admissions requirements are subject to change as policies are revised and laws are amended. The CSU website, www.calstate.edu, and the CSU admissions portal, www.calstate.edu/apply, are good sources of the most up-to-date information.

Graduate & Post-Baccalaureate Application Procedures & Filing Deadlines

Graduate and Post-baccalaureate Application Procedures

All graduate and post-baccalaureate applicants (e.g., Ed.D. applicants, joint Ph.D. applicants, master's degree applicants, those seeking educational credentials or certificates) must file a complete graduate

application as described in the graduate and post-baccalaureate admission materials at:
www.calstate.edu/apply.

Applicants who completed undergraduate degree requirements and graduated the preceding term are also required to complete and submit an application and the \$55 nonrefundable application fee. Applicants must submit their applications through www.calstate.edu/apply unless submission of an electronic application is impossible. An electronic version of the CSU graduate application is available at: www.calstate.edu/apply.

Applicants must also submit all supplemental application materials required by their particular program. Please see the individual program chapters of this catalog or the department websites for required admissions materials.

Application Filing Periods

Application filing periods are also listed at: www.csueastbay.edu/prospective/how-to-apply/application-and-document-deadlines

(Not all campuses/programs are open for admission to every term.)			
Term	Applications Filing Period	* ALL Official Transcripts Due By	Filing Period Duration
Summer	February 1-28		Some departments may accept applications after the deadline on a case-by-case basis; check the department website for details. Programs with earlier application deadlines are indicated below: • Biological Science, MA/MS - application closes April 15 • Computer Science, MS - application closes May 1 • Social Work, MSW - application closes January 17 • Speech Pathology and Audiology, MS - application closes February 1
Fall Semester	October 1 - June 1 International May 1	July 15	
Spring Semester	August 1 - November 1 International - October 1	October 15	

Some graduate and credential programs may require departmental applications and other supplemental application materials. Please check with the department for details. Learn more at www.csueastbay.edu/graduate-admission.

Note: If applying after the initial filing period, consult the campus admission office for current information. Similar information is conveniently available at: calstate.edu/apply. Apply early since enrollment may be limited for some programs. The application filing periods are listed on the Application and Document Deadlines page at www.csueastbay.edu/deadlines.

International Graduate Students

Students who will be studying on an F1/J1 visa or any applicants with transcripts from outside of the U.S. should view www.csueastbay.edu/international for submission deadlines. The university has established deadlines to ensure that all application materials will be processed in time to allow international students to make the necessary passport, visa, travel, and other arrangements to reach the campus before the start of the term of admission. Current deadlines applicable to international student admission can be found on the university website or by contacting the International Admissions Office: iao@csueastbay.edu

Academic Records *

Certificates, diplomas, mark sheets, transcripts, and test scores must be sent directly from the issuing institution to the International Admissions Office to be considered official. The International Admissions Office reserves the right to determine what constitutes an official document. Certified English translations must accompany all non-English original documents. Documents submitted are the property of Cal State East Bay and will not be returned.

Graduate & Post-Baccalaureate Admission Requirements

Admission Requirements

Graduate and post-baccalaureate applicants may apply for a degree objective, a credential or certificate objective. Depending on the objective, the CSU will consider an application for admission as follows:

General Requirements

The minimum requirements for admission to graduate and post-baccalaureate studies at a California State University campus are in accordance with University regulations as well as Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations.

Specifically, a student shall at the time of enrollment:

1. have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities;
2. be in good academic standing at the last college or university attended;
3. have earned a grade point average of at least 2.5 on the last degree completed by the candidate or have attained a grade point average of at least 2.5 (A=4.0) in the last 60 semester (90 quarter) units attempted; and
4. satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate campus authorities may prescribe. In unusual circumstances, a campus may make exceptions to these criteria.

(These and other CSU admission requirements are subject to change as policies are revised and laws are amended. The CSU website www.calstate.edu and the CSU admissions portal www.calstate.edu/apply are good sources of the most up-to-date information.)

English Language Requirement

All undergraduate, post-baccalaureate and graduate applicants whose native language is not English, and who have not attended schools at the secondary level or above for at least three years full time where English is the principal language of instruction, must demonstrate proof of English proficiency.

CSU minimum TOEFL standards are:

- Undergraduate: 61 - INTERNET, 500- PAPER
- Graduate: 80 - INTERNET, 550 - PAPER

Cal State East Bay standards for Undergraduate Students are:

- TOEFL (Test of English as a Foreign Language) score of 525 (or 197 computer-based or 61 Internet-based) or above.
- An overall IELTS (International English Language Testing System) score of 6.0 or above.
- Transferred from a U.S. college with 60 or more semester units with a minimum grade point average of 2.4, and have completed a transfer course in each of the following general education areas with a grade of 2.0 or better: English composition, speech, critical thinking, and mathematics.

Cal State East Bay standards for Graduate Students are:

- An official transcript showing graduation with a bachelor's degree from a U.S. college or university, or an international college or university where English is the principal language of instruction, or an official letter from the college or university certifying that English was the language of instruction.
- A TOEFL (Test of English as a Foreign Language) score of 550 (213 computer-based or 79 Internet-based; 92 for Master's of Science degree in Economics) or above.

- An overall test score from IELTS (International English Language Testing System) exam of 6.5 or above for graduate students. A score of 7 or above is required for international students seeking a Master's of Science degree in Economics.

Some majors may require a higher score.

Note: All test scores must be sent directly from the testing institution. Cal State East Bay's International Admission Office contacts are located at: <http://www.csueastbay.edu/prospective/how-to-apply/international-student-admission>.

English Language Requirement Waiver

Waiver for English Proficiency Requirement

The English proficiency requirement for post-baccalaureate and graduate applicants may be waived by presenting the following:

- an official transcript showing graduation with a bachelor's degree from a U.S. college or university, or
- an official transcript from an international college or university indicating English is the principal language of instruction, or
- an official letter from the college or university certifying that English was the language of instruction.

Educational Objective

Declaration of Educational Objective

Each applicant must have a declared educational objective when the application is filed. International students on F-1 student visas may be admitted as "Conditionally Classified Graduate," "Classified Graduate," or "Classified Post-Baccalaureate" students. They may not be admitted as "Unclassified Post-Baccalaureate" students.

Note: Some graduate programs may require admission tests such as the GMAT or GRE, a supplemental application, a resume and/or other supplemental information. Please consult the individual graduate program for any additional application or admission requirements.

Graduate & Post-Baccalaureate Admission Categories

Students who meet the minimum requirements for graduate and post-baccalaureate studies may be considered for admission in one of the four following categories:

Graduate Classified

To pursue a graduate degree, applicants are required to fulfill all of the professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus; or

Graduate Conditionally Classified

Applicants may be admitted to a graduate degree program in this category if, in the opinion of appropriate campus authority, deficiencies may be remedied by additional preparation; or

Post-Baccalaureate Classified, e.g. admission to an education credential program

Persons wishing to enroll in a credential or certificate program, will be required to satisfy additional professional, personal, scholastic, and other standards, including qualifying examinations, prescribed by the campus; or

Post-Baccalaureate Unclassified

Cal State East Bay does not offer admission to unclassified post-baccalaureate students.

Admission to Graduate Degree Programs

Most graduate degree programs at Cal State East Bay also require that an applicant complete a separate departmental application. These programs may require that the student meet additional admission requirements above and beyond those required for admission to the University. Contact the department offering the program to obtain a departmental application form and information on departmental application deadlines and admission requirements.

Regularly matriculated students pursuing a state-supported master's degree at Cal State East Bay may not be simultaneously enrolled in a CSUEB University Extension degree program. Students interested in pursuing multiple master's degrees should consult their academic department or e-mail: gradadmission@csueastbay.edu if unsure of the program's classification. *Also see the Degree Requirements, Policies, & Other Information chapter.*

For information on changing major, degree, or credential objectives after admission, see the *Change of Educational Objective* section in the *Graduate Degree Requirements, Policies, & Other Information* chapter.

Credit for Transferred Courses

A minimum of seventy (70) percent of the total units required by the degree program must be completed in residence while enrolled as an admitted graduate student at Cal State East Bay.

Note: The number of transferable units for each degree program will be rounded to the nearest whole number of units.

Units taken while at other schools, while an undergraduate with permission to take graduate courses, while pursuing an additional baccalaureate degree in "Unclassified Post-Baccalaureate" status, while enrolled in another graduate degree program, or while enrolled in Continuing Education courses-including Open University courses-do not count as resident units. Courses offered in special session are considered resident units. Please note that individual graduate programs may require more than 70 percent

of the required degree units in residence, so check the particular program's section of this catalog for these requirements.

To request transfer credit:

- The student must have taken the course after earning a bachelor's degree;
- Their department must accept the course(s) as relevant to their degree program;
- The institution at which the student took the course must customarily grant the level of credit for the course (graduate or upper division) that the student wishes to receive for it at Cal State East Bay;
- The student must have taken the course within five calendar years immediately preceding the receipt of their degree.

A student may also apply units earned through the CSU International Programs that meet the criteria outlined above. No more than half of the units required for the degree may be earned in this manner. If a student also wishes to apply transfer credits to their degree, the total of the transfer and International Program units may not exceed one-half of those required for the degree. If a student completes their capstone experience (thesis, project, or comprehensive examination) while in the International Programs, this must be done under the supervision of at least one Cal State East Bay faculty member.

In general, Cal State East Bay does not allow the use of credit-by-examination from challenged courses for master's degree requirements. Exceptions may be established by individual departments and must be noted in the degree description in the University Catalog. They are governed by the following policies:

- The student must pass the exam challenging the course with a grade of "B-" or better;
- Not more than 9 units of credit-by-examination may be applied to the degree.

Transitory Admission Eligibility

Graduate students are eligible for Intrasystem Concurrent Enrollment, Intrasystem Visitor Enrollment, and Cross-Registration with the University of California, Berkeley, and selected other East Bay colleges.

Intrasystem Concurrent Enrollment

Students who are enrolled at any campus of the California State University may apply to attend another campus while concurrently enrolled at their home campus.

Eligibility Requirements:

- Must have completed at least one term at the home campus as a matriculated student, or will be enrolled concurrently in such status,
- Must be, or have been, enrolled in an authorized graduate program at the home campus, and
- Must be in good standing at the last college attended.

Intrasystem Visitor Enrollment

Students of any campus of The California State University may apply for admission as a visiting student at another campus for a period of one term.

Eligibility Requirements:

- Have completed at least one term at the home campus as a matriculated student,
- Are, or have been, enrolled in an authorized graduate program at the home campus, and
- Are in good standing at the last college attended.

For further information contact the *Office of Admission* at (510) 885-3500 or admissions@csueastbay.edu.

General Enrollment Policies & the MyCSUEB Enrollment System

To enroll at Cal State East Bay, students must be admitted to the University.

- Enrollment is complete only when all enrollment requests have been properly recorded and students have paid all fees, deposits, and charges. Dates for enrolling in *MyCSUEB*, the Cal State East Bay enrollment system, are published on the University website under Important Dates.
- Students are given credit only for those courses in which they are officially enrolled in at the conclusion of the Add/Drop period, except for any course which they have officially filed a Withdrawal form(s) and received an approved withdrawal.
- Students will be held responsible for completing all courses for which they are enrolled, except for those courses from which they withdrew.
- If students enroll in a course and do not attend initial class meetings, they may be dropped from the class if demand for the course exceeds capacity. Departments following this practice will make reasonable efforts to inform students of this action but students should not assume that non-attendance will result in them being automatically dropped and verify the accuracy of their schedule in *MyCSUEB* before the end of the Add/Drop period. It is the student's responsibility to check *MyCSUEB* to verify their course enrollment each term.
- The University does not guarantee the availability of particular courses or sections because admission to classes is authorized only until the maximum number of students allowable in any section has been reached.

Approved by the University Academic Senate, the priority for enrollment is as follows (students must meet the criteria at the time enrollment appointments are set):

- Students authorized to receive priority enrollment
- Graduating undergraduate seniors and graduating graduate students, defined as undergraduates who have filed for graduation by the priority deadline and have 100 semester units completed, and graduate or doctoral students who have filed for graduation and/or have been advanced to candidacy by the faculty of the graduate/doctoral program)
- Students authorized to receive early enrollment
- Freshmen
- Post-baccalaureate credential and doctoral students, and conditionally classified/classified graduate students in masters programs
- Seniors
- Juniors

- Sophomores
- Second baccalaureate, post-baccalaureate certificate program, and unclassified post-baccalaureate students
- AB 386 Students (online students from other CSU Campuses)

The priority for enrollment for students enrolling in 600-level and 700-level courses is as follows:

- All graduate students
- Undergraduate students majoring in the department concerned
- All other students

Required Units for Full-time Graduate Students

The following classifications apply to *graduate* students enrolled in the fall and spring semesters (not University Extension non-degree programs and shorter sessions including summer): (*see Errata page for content update*)

1. Full-time enrollment for "Graduate" students and "Classified Post-baccalaureate" students is 6 or more units for university enrollment calculation purposes.
2. Full-time enrollment for "Graduate" students and "Classified Post-baccalaureate" students is 8 or more units for financial aid.
3. Full-time enrollment for "Graduate" students and "Classified Post-baccalaureate" students is 8 or more units for F-1 and J-1 visa students.
4. Full-time enrollment for veterans (or dependents of disabled or deceased veterans), or reservists (under Chapter 30, 31, 33, 34, 35, or 106) is 6 or more units, according to V.A. regulations.

Note: Each semester, veterans and eligible dependents should consult the Veteran Affairs Coordinator before the first day of classes and submit their forms requesting certification of enrollment for V.A. benefits. Also, graduate students who apply for Veterans' Benefits (or for benefits as dependents of disabled or deceased veterans), international students wishing Department of Homeland Security certification, student athletes wishing to compete in intercollegiate sports, and students on most types of financial aid must be enrolled in courses that apply to a definite program (master's degree and/or credential).

Enrollment & Degree Progress

Graduate students who apply for the following must enroll in courses that satisfy their degree program (master's degree and/or credential):

- Veterans' Benefits (or for benefits as dependents of disabled or deceased veterans),
- International students wishing INS certification,
- Student athletes wishing to compete in intercollegiate sports, and
- Students on most types of financial aid.

Enrollment for Veterans & Reservists

Full-time enrollment for veterans or reservists (under Chapter 30, 31, 33, 34, 35, or 106) is 12 or more semester units, according to V.A. regulations. Each semester, veterans and reservists should consult the

Veteran Affairs Coordinator before the first day of classes and submit their forms requesting certification of enrollment for V.A. benefits.

Note: Undergraduate and graduate students who apply for Veterans' Benefits must be enrolled in courses that apply to a definite program (baccalaureate or master's degree and/or credential).

Dependents of Veterans

Full-time enrollment for dependents of disabled or deceased veterans (under Chapter 30, 31, 33, 34, 35, or 106) is 12 or more semester units, according to V.A. regulations. Each semester, eligible dependents should consult the Veteran Affairs Coordinator before the first day of classes and submit their forms requesting certification of enrollment for V.A. benefits.

Note: Undergraduate and graduate students who apply for benefits as dependents of disabled or deceased veterans, must be enrolled in courses that apply to a definite program (baccalaureate or master's degree and/or credential).

Also see: Military & Veterans Information & Services chapter.

International Admission Office

All matters pertaining to the admission of international students are handled by the International Admissions Office. Students from other countries should consult with the International Admissions Office regarding visas, eligibility for employment, and any special academic requirements.

The CSU must assess the academic preparation of international students. For this purpose, "international students" include those who hold U.S. temporary visas as students, exchange visitors, or in other non-immigrant classifications. Cal State East Bay uses separate requirements and application filing dates in the admission of "foreign students". Verification of English proficiency (see below), financial resources, and academic performance are each important considerations for admission.

Prospective Graduate Students

Graduate applicants must hold a degree equivalent to a four-year bachelor's degree obtained from a recognized university. Applicants must also have the equivalent of a 2.50 grade point average, or higher, in their last two years of college-level courses.

International (Foreign) Student Admission Requirements

General Requirements for All International Applicants

The CSU and Cal State East Bay must assess the academic preparation of international students. For this purpose, "international students" include those who hold U.S. visas as students, exchange visitors, or in other nonimmigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of "international students." Verification of English proficiency (see the section on the English Language Requirement for

undergraduate applicants), financial resources, and academic performance are each important considerations for admission. Each applicant must have a declared educational objective (major) when the application is filed. Academic records from foreign institutions must be on file before the start of the semester of admission and, if not in English, must be accompanied by certified English translations.

Priority in admission is given to residents of California for majors that are impacted or for programs with limited openings.

Graduate & Post-Baccalaureate Applicants

Graduate applicants must hold a degree equivalent to a four-year bachelor's degree obtained from a recognized university. Applicants must also have the equivalent of a 2.50 grade point average, or higher, in their last two years of college-level courses.

In addition, each applicant must have a declared educational objective when the application is filed. International students on F-1 student visas may be admitted as "Conditionally Classified Graduate," "Classified Graduate," or "Classified Post-Baccalaureate" students. They may not be admitted as "Unclassified Post-Baccalaureate" students.

Note: Some graduate programs may require admission tests such as the GMAT or GRE and a supplemental application. Please consult the individual graduate department for any additional application or admission requirements.

Enrollment Requirements for F-1 & J-1 Visa Students

Graduate students on a student visa are required by the U.S. Citizenship and Immigration Services to take a minimum of 8 units per semester that will count towards their degree as a "graduate" student, a "classified post-baccalaureate" student, or an "unclassified post-baccalaureate" student with an approved course of study.

Note: Enrollment in courses through Open University (University Extension) may not count for visa certification purposes.

International students should contact the Center for International Education (cie@csueastbay.edu) for information on matters affecting visa status, eligibility for employment, and any special academic requirements for international students.

Academic Records of International Students

Certificates, diplomas, mark sheets, transcripts, and test scores *must be sent directly from the issuing institution* to the International Admissions Office to be considered official. The International Admissions Office reserves the right to determine what constitutes an official document. Certified English translations must accompany all non-English original documents. Documents submitted are the property of Cal State East Bay and will not be returned.

Fee Waivers & Exemptions

The California Education Code provides for the waiver of mandatory systemwide tuition fees as follows:

Section 66025.3 -

Dependent eligible to receive assistance under Article 2 of Chapter 4 of Division 4 of the Military and Veterans Code; child of any veteran of the United States military who has a service-connected disability, has been killed in service, or has died of a service-connected disability, and meets specified income provisions; dependent, or surviving spouse who has not remarried of any member of the California National Guard who, in the line of duty, and while in the active service of the state, was killed, died of a disability resulting from an event that occurred while in the active service of the state, or is permanently disabled as a result of an event that occurred while in the active service of the state; and undergraduate student who is a recipient of a Medal of Honor, or undergraduate student who is a child of a recipient of a Medal of Honor who is no more than 27 years old, meets the income restriction and California residency requirement. The waiver of tuition or fees under this section applies only to a person who is determined to be a resident of California pursuant to Chapter 1 (commencing with Section 68000) of Part 41.

Section 66602 -

A qualifying student from the California State University who is appointed by the Governor to serve as Trustee of the California State University for the duration of his or her term of office.

Section 68120 -

Surviving spouse or child of a deceased California resident who was employed by a public agency, or was a contractor or an employee of a contractor, performing service for a public agency, and was killed in the performance of his/her principal duties of active law enforcement or fire suppression and prevention duties (referred to as Alan Pattee Scholarships). A person who qualifies for the waiver under this section as a surviving child of a contractor or of an employee of a contractor, who performed services for a public agency must have enrolled as an undergraduate student at the California State University and meets income restriction requirement.

Section 68121 -

A qualifying student enrolled in an undergraduate program who is the surviving dependent of any individual killed in the September 11, 2001, terrorist attacks on the World Trade Center in New York City, the Pentagon building in Washington, D.C., or the crash of United Airlines Flight 93 in southwestern Pennsylvania, if the student meets the financial need requirements set forth in Section 69432.7 for the Cal Grant A Program and either the surviving dependent or the individual killed in the attacks was a resident of California on September 11, 2001.

Note: Students who may qualify for the above benefits should contact the Admissions/Registrar's Office for further information and/or an eligibility determination: email admissions@csueastbay.edu or call (510) 885-3500.

The California Education Code provides for the following nonresident tuition exemptions:

Section 68075.7 -

A nonresident student is exempt from paying nonresident tuition or any other fee that is exclusively applicable to nonresident students if the student (1) resides in California, (2) meets the definition of "covered individual" as defined in either: (A) Section 3679(c)(2)(A) or (B)(ii)(I) of Title 38 of the United States Code, as that provision read on January 1, 2017; or (B) Section 3679(c)(2)(B)9(i) or (ii)(II) of Title 38 of the United States Code, as that provision read on January 1, 2017; and (3) is eligible for education benefits under either the federal Montgomery GI Bill-Active Duty program or the Post-9/11 GI Bill program as each read on January 1, 2017.

Section 68122 -

A student who is a victim of trafficking, domestic violence, and other serious crimes who has been granted T or U visa status shall be exempt from paying nonresident tuition to the same extent as individuals who are admitted to the United States as refugees under Section 1157 of Title 8 of the United States Code.

Section 68130.5 -

A student, other than a nonimmigrant alien, who is not a resident of California is exempt from paying nonresident tuition if the student meets the requirements of (1) through (4), below:

(1) Satisfaction of the requirements of either subparagraph (A) or subparagraph (B):

(A) A total attendance of, or attainment of credits earned while in California equivalent to, three or more years of full-time attendance or attainment of credits at any of the following:

(i) California high schools.

(ii) California high schools established by the State Board of Education.

(iii) California adult schools established by a county office of education, a unified school district or high school district, or the Department of Corrections and Rehabilitation (subject to the class hours' requirement).

(iv) Campuses of the California Community Colleges (subject to the credit requirements).

(v) A combination of those schools set forth in clauses (i) to (iv), inclusive.

(B) Three or more years of full-time high school coursework, and a total of three or more years of attendance in California elementary schools, California secondary schools, or a combination of California elementary and secondary schools.

(2) Satisfaction of any of the following:

(A) Graduation from a California high school or attainment of the equivalent thereof.

(B) Attainment of an associate degree from a campus of the California Community Colleges.

(C) Fulfillment of the minimum transfer requirements established for the California State University for students transferring from a campus of the California Community Colleges.

(3) Registration as an entering student at, or current enrollment at, an accredited institution of higher education in California not earlier than the fall semester or quarter of the 2001-02 academic year.

(4) In the case of a person without lawful immigration status, the filing of an affidavit with the institution of higher education stating that the student has filed an application to legalize his or her immigration status, or will file an application as soon as he or she is eligible to do so.

Students who may qualify for any of these benefits listed above can contact the following offices:

Office of Admission

(510) 885-3500; FAX: (510) 885-4059; admissions@csueastbay.edu

Graduate Admission

- **For inquiries regarding admission requirements for a specific program contact the academic department directly.**
- **For University Admission requirements questions applicants may e-mail gradadmission@csueastbay.edu**

Office of International Admission

(510) 885-7571; FAX: (510) 885-2787; iao@csueastbay.edu

Fees & Debts Owed to the Institution

Should a student or former student fail to pay a fee or a debt owed to the institution, including tuition and student charges, the institution may *"withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise or any combination of the above from any person owing a debt"* until the debt is paid (see Title 5, California Code of Regulations, Sections 42380 and 42381).

Prospective students who register for courses offered by the University are obligated for the payment of charges and fees associated with registration for those courses. **Note:** *Failure to cancel registration in any course for an academic term prior to the first day of the academic term gives rise to an obligation to pay student charges and fees including any tuition for the reservation of space in the course.*

The institution may withhold permission to register or to receive official transcripts of grades or other services offered by the institution from anyone owing fees or another debt to the institution. The institution may also report the debt to a credit bureau, offset the amount due against any future state tax refunds due the student, refer the debt to an outside collection agency and/or charge the student actual and reasonable collection costs, including reasonable attorney fees if litigation is necessary, in collecting any amount not paid when due.

If a person believes he or she does not owe all or part of an asserted unpaid obligation, that person may contact **Student Financial Services, (510) 885-3767**, or the individual to which the business office may refer

the person, will review all pertinent information provided by the person and available to the campus and will advise the person of its conclusions.

Acceptable Methods of Payment

Credit Cards, Cash, Check

Students may use credit cards, cash, or check for payment of registration fees. See the current *MyCSUEB* for additional information. The following credit cards are accepted:

- American Express,
- Discover,
- Visa, and
- MasterCard.

Installment Payment Plans

Installment Payment Plans have been authorized if students are assessed Nonresident Tuition or Tuition Fees. See the current *MyCSUEB* for additional information about payment plans.

Payment of Special Fees

The Cashier's Office is located at SA 1200 in the lobby of the Student Services and Administration building accepts in-person cash or check payments for all fees due to Cal State East Bay, such as tuition fees, lab, breakage, test, and parking fees (most payments can also be mailed).

Note: For more information and important dates see the Information About Paying Fees page on the University website.

Determination of Residency for Tuition Purposes

University requirements for establishing residency for tuition purposes are independent from those of other types of residency, such as for tax purposes, or other state or institutional residency. These regulations were promulgated not to determine whether a student is a resident or nonresident of California, but rather to determine whether a student should pay university fees on an in-state or out-of-state basis. A resident for tuition purposes is someone who meets the requirements set forth in the Uniform Student Residency Requirements. These laws governing residency for tuition purposes at the California State University are California Education Code sections 68000-68085, 68120-68133, and 89705-89707.5, and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41900-41916. This material can be viewed by accessing the California State University's website at www.calstate.edu/GC/resources.shtml.

Each campus' Admissions Office is responsible for determining the residency status of all new and returning students based on the Application for Admission, Residency Questionnaire, Reclassification Request Form and, as necessary, other evidence furnished by the student. A student who fails to submit adequate information to establish eligibility for resident classification will be classified as a nonresident.

Generally, establishing California residency for tuition purposes requires a combination of physical presence and intent to remain indefinitely in the State of California. An adult who, at least 366 days prior to the residency determination date for the term in which enrollment is contemplated, can demonstrate both physical presence in the state combined with evidence of intent to remain in California indefinitely may establish California residency for tuition purposes. A minor normally derives residency from the parent(s) with whom he/she resides or most recently resided.

Evidence demonstrating intent may vary from case to case but will include, and is not limited to, the absence of residential ties to any other state, California voter registration and voting in California elections, maintaining California vehicle registration and driver's license, maintaining active California bank accounts, filing California income tax returns and listing a California address on federal tax returns, owning residential property or occupying or renting a residence where permanent belongings are kept, maintaining active memberships in California professional or social organizations, and maintaining a permanent military address and home of record in California.

A nonresident student seeking reclassification is required to complete a supplemental questionnaire that includes questions concerning his/her financial independence. Financial independence is required, in addition to physical presence and intent to remain indefinitely, to be eligible for reclassification. Financial independence is established if in the calendar year the reclassification application is made - and in any of the three calendar years preceding the reclassification application - the student:

- has not and will not be claimed as an exemption for state and federal tax purposes by his/her parent(s);
- has not and will not receive more than \$750 per year in financial assistance from his/her parent(s); and
- has not lived and will not live longer than six weeks in the home of his/her parent(s).

A nonresident student who has been appointed as a graduate student teaching assistant, a graduate student research assistant, or a graduate student teaching associate on any CSU campus and is employed on a 0.49 or more time basis is exempt from the financial independence requirement.

Non-citizens establish residency in the same manner as citizens, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States.

Exceptions to the general residency requirements are contained in California Education Code sections 68070-68085 and California Code of Regulations, Title 5, Subchapter 5, Article 4, sections 41906-41906.6, 41910. Whether an exception applies to a particular student can only be determined after the submission of an application for admission and, as necessary, additional supporting documentation. Because neither the campus nor Chancellor's Office staff may give advice on the application of these laws, applicants are strongly urged to review the material for themselves and consult with a legal advisor.

Residency determination dates are set each term. They are:

Semester Term Campuses

Fall	September 20
Winter*	January 5
Spring	January 25
Summer	June 1

* Applies only to winter term at CSU Stanislaus

CalState TEACH operates on a trimester system. The residency determination dates for CalState TEACH are as follows:

- Fall - September 20
- Spring - January 5
- Summer - June 1

Nonresident Classification Appeal Process

Students classified as nonresidents may appeal a final campus decision within 30 days of notification by the campus. Information on the appeal process may be found at <http://www.calstate.edu/sas/residency/appeals.shtml>. A campus residency classification appeal must be submitted via the InfoReady online Residence Appeal Form to the California State University Chancellor's Office at:

<https://calstate.infoready4.com/#competitionDetail/1760156>

Appeals via email, fax and U.S. mail will not be accepted. A student with a documented disability that prohibits the student from submitting an appeal through the *InfoReady* site should contact Student Academic Services:

California State University
Attn: Student Academic Services
401 Golden Shore, 6th Floor
Long Beach, CA 90802-4210
Email: residencyappeals@calstate.edu

The Chancellor's Office can either decide the appeal or send the matter back to the campus for further review. Students incorrectly classified as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is also subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations.

Resident students who become nonresidents or who no longer meet the criteria for an exception must immediately notify the Admissions Office. Changes may have been made in the rate of nonresident tuition and in the statutes and regulations governing residency for tuition purposes in California between the time this information is published and the relevant residency determination date. Students are urged to review the statutes and regulations stated above.

Residency Determination & Nonresident Tuition

The Office of Admission determines residence status of all new and returning students for nonresident tuition purposes. For information on the criteria used in making this determination, as well as residence determination dates, see the Application & Admissions chapter in this catalog.

Graduate Students

A nonresident student who has been appointed as one of the following on any CSU campus and is employed on a 0.49 or more time basis is exempt from the financial independence requirement:

- a graduate student teaching assistant, or
- a graduate student research assistant, or
- a graduate student teaching associate.

Note: Legal residents of California are not charged tuition, only fees. See "Nonresident Tuition" located in the Undergraduate Information section, Fees & Financial Services chapter in this catalog.

Post Baccalaureate & Graduate Schedule of Tuition and Fees 2018-2019

The CSU makes every effort to keep student costs to a minimum. Tuition and fees listed in published schedules or student accounts may need to be increased when public funding is inadequate. Therefore, CSU reserves the right, even after tuition or fees are initially charged or initial payments are made, to increase or modify any listed tuition or fees. All listed fees, other than mandatory systemwide tuition, are subject to change without notice, until the date when instruction for a particular semester or quarter has begun. All CSU-listed tuition and fees should be regarded as **estimates** that are subject to change upon approval by the Board of Trustees, the chancellor or the presidents, as appropriate. Changes in mandatory systemwide tuition will be made in accordance with the requirements of the Working Families Student Fee Transparency and Accountability Act (Sections 66028 - 66028.6 of the Education Code).

The following reflects applicable systemwide tuition and fees for semester campuses that were authorized by the Board of Trustees at the March 2017 meeting. These rates are subject to change.

All Students

Application fee (nonrefundable), payable online at the time of application via credit card, e-check or PayPal: \$55

Students are charged campus fees in addition to tuition and systemwide fees. Information on campus fees are also listed below or contact Financial Services for more information.

Graduate/Post-Baccalaureate Tuition & Fees, effective 2018-2019 ^{1,2}

	0 to 6.0 Units Per Semester	6.1 or More Units Per Semester
Tuition Fee *	\$2,082	\$3,588
Student Body Fee	64.50	64.50
Facilities Fee	3.00	3.00
University Union Fee	82.50	82.50
University Union Recreational Fee	97.50	97.50
Instructionally Related Activities Fee	12.00	12.00
Health Services Fee	187.50	187.50
Athletics Fee	52.50	52.50
Academic Excellence Fee	120.00	120.00
Photo I.D. (semester) Fee	1.50	1.50
Total	\$2,703	\$4,209

1.Fee adjustments subject to the policies established in Executive Order 661.

2.Disclaimer - Cost of Collection: Unpaid Tuition and Fees. You are subject to normal collection actions for unpaid debts including: assessment of late registration and past due fees, withholding of University services, withholding of credit for and disenrollment from some or all classes, referral of the debt to a collection agency and/or credit reporting agency, intercept of amounts due you from the State of California and/or legal action. You are obligated to pay all costs of collection, including attorney fees, collection agency fees and court costs (Please see Title 5, California Code of Regulations, Sections 42380 and 42381).

**Note: Graduate/Post Baccalaureate Tuition for the academic year (two semesters) is \$5,256 for 0 to 6.0 units per semester and \$8,268 for 6.1 or more units per semester. The total fees paid per semester will be determined by the number of units taken, including those in excess of fifteen.*

Graduate Business Professional Fee

The graduate business professional fee of **\$270 is paid on a per unit** basis in addition to basic tuition and campus fees for the following graduate business programs:

- Master of Business Administration (M.B.A.)
- Master of Science (M.S.) programs in Business Analytics (M.S.B.A.)
- Master of Science (M.S.) programs in Accountancy
- Master of Science (M.S.) programs in Business Administration
- Master of Science (M.S.) programs in Health Care Management
- Master of Science (M.S.) programs in Business and Technology
- Master of Science (M.S.) programs in Information Systems

Note: The fee is also charged for prerequisite courses taken by students who have an admission status and are enrolled in one of these programs.

Education Doctorate Tuition & Fees

Students pursuing the Education Doctorate degree pay the following fees when registering at Cal State East Bay.

Effective Fall 2018-2019 ^{1,2}		
	All Students Per Semester	Per Academic Year
Tuition Fee *	\$5,919	\$11,838
Student Body Fee	64.50	
Facilities Fee	3.00	
University Union Fee	82.50	
University Union Recreational Fee	97.50	
Instructionally Related Activities Fee	12.00	
Health Services Fee	187.50	
Athletics Fee	52.50	
Academic Excellence Fee	120.00	

Photo I.D. (semester) Fee 1.50

Total \$6,540

1.Fee adjustments subject to the policies established in Executive Order 661.

2.Disclaimer - Cost of Collection: Unpaid Tuition and Fees. You are subject to normal collection actions for unpaid debts including: assessment of late registration and past due fees, withholding of University services, withholding of credit for and disenrollment from some or all classes, referral of the debt to a collection agency and/or credit reporting agency, intercept of amounts due you from the State of California and/or legal action. You are obligated to pay all costs of collection, including attorney fees, collection agency fees and court costs (Please see Title 5, California Code of Regulations, Sections 42380 and 42381).

**Note: Applicable term tuition applies for campuses with special terms, as determined by the campus. Total college year tuition cannot exceed the academic year plus summer term tuition. The summer term tuition for the education doctorate at quarter campuses is equal to the per semester tuition listed in the table. Total tuition for the education doctorate over the college year equals the per academic year tuition plus the per semester tuition for the summer term at all CSU campuses.*

Qualified Teacher Credential Tuition & Fees

Students seeking an initial Multiple Subject, Single Subject, or Special Education teaching credential who have been admitted to a credential program with "classified" or "conditionally classified" status pay the following fees. This fee level will apply whether or not the student is simultaneously enrolled in a master's degree program.

Effective 2018-2019 ^{1,2}

	0 to 6.0 Units Per Semester	6.1 or More Units Per Semester
Tuition Fee *	\$1,932	\$3,330
Student Body Fee	64.50	64.50
Facilities Fee	3.00	3.00
University Union Fee	82.50	82.50
University Union Recreational Fee	97.50	97.50
Instructionally Related Activities Fee	12.00	12.00

Health Services Fee	187.50	187.50
Athletics Fee	52.50	52.50
Academic Excellence Fee	120.00	120.00
Photo I.D. (semester) Fee	1.50	1.50

Total	\$2,553	\$3,951

1.Fee adjustments subject to the policies established in Executive Order 661.

2.Disclaimer - Cost of Collection: Unpaid Tuition and Fees. You are subject to normal collection actions for unpaid debts including: assessment of late registration and past due fees, withholding of University services, withholding of credit for and disenrollment from some or all classes, referral of the debt to a collection agency and/or credit reporting agency, intercept of amounts due you from the State of California and/or legal action. You are obligated to pay all costs of collection, including attorney fees, collection agency fees and court costs (Please see Title 5, California Code of Regulations, Sections 42380 and 42381).

**Note: Qualified Credential Program Tuition for the academic year (two semesters) is \$4,956 for 0 to 6.0 units per semester and \$7,752 for 6.1 or more units per semester. The total fees paid per semester will be determined by the number of units taken, including those in excess of fifteen.*

Nonresident Students (U.S. and Foreign)

Nonresident Tuition of **\$396 is paid on a per unit basis** (in addition to basic tuition and systemwide fees charged all students) for all campuses. The total nonresident tuition paid per term will be determined by the number of units taken.

Note: Mandatory systemwide tuition is waived for those individuals who qualify for such exemption under the provisions of the California Education Code (see section on fee waivers).

Credit Cards:

Visa, MasterCard, American Express and Discover credit cards may be used for payment of student tuition and fees but may be subject to a non-refundable credit card processing fee.

Financial Certification Prior to Admission

Prospective International Students

International students who wish to apply for a student visa must demonstrate financial support before a letter of admission or an "I-20" or "DS-2019" form will be issued. The following forms must be submitted:

1. I-20 Letter of Consent,
2. Declaration of Finances, and

3. Health Insurance Compliance.

These forms can be downloaded from the [international students admissions page](#).

Master's Degree: defined

The master's degree is awarded for completion of a planned and integrated program of advanced study earned after completion of an undergraduate degree. It recognizes that a student has mastered a particular field sufficiently to pursue creative or applied projects in that field. The minimum number of units for a Cal State East Bay master's program is 30 semester units with a grade point average of 3.0 (on a 4.0 scale), and various other requirements specified in Title 5 of the California Code of Regulations as well as requirements in this University Catalog. It typically requires at least two years of full-time study (or longer if pursued part time) beyond the bachelor's degree. Master's degrees are awarded in various disciplines as M.A. (master of arts), M.S. (master of science) or as discipline-specific degrees such as business (M.B.A), public administration (M.P.A.), or social work (M.S.W).

A master's degree provides students with a mastery of a particular area of knowledge; an ability to relate that knowledge to knowledge in other disciplines; an ability to deal systematically with the concepts, theory, and principles in new situations; an ability to formulate and deal with problems on an advanced level; methodological, technical, and communication skills essential for advanced study; an ability to undertake independent investigation and research; abilities characteristic of professional performance; and attitudes conducive to continuous intellectual and professional development.

Every master's degree program includes what is termed a capstone experience. This may include a thesis or its equivalent, a comprehensive examination, or project. Completion of the capstone experience demonstrates that students have successfully integrated the various elements of the graduate learning experience and have gained an in-depth knowledge of their discipline.

Graduate Student: defined

A student is considered a Graduate Student at Cal State East Bay if they have been admitted as:

A Post-Baccalaureate Student

A student who has been admitted after receiving a baccalaureate degree. Basic teacher credential programs constitute a separate area of post-baccalaureate work, and students in these programs are defined as "Classified Post-Baccalaureate" students.

A Master's Student

A student that has been admitted to a specific master's degree program as a "Conditionally Classified" or "Classified" student, or to an advanced credential program which can be earned in conjunction with a master's degree. Most master's degrees are designed to be completed in two years if students are attending full time. A graduate student who wishes to receive a 30-unit master's degree in two years needs to enroll in approximately 8 units for four semesters. (Eight units per semester is generally the minimum for full-time status.)

The master's degree is awarded for completion of a planned and integrated program of advanced study. It recognizes that a student has mastered a particular field sufficiently to pursue creative or applied projects in that field.

Students who have completed a graduate degree will have acquired a mastery of a particular area of knowledge; an ability to relate that knowledge to knowledge in other disciplines; an ability to deal systematically with the concepts, theory, and principles in new situations; an ability to formulate and deal with problems on an advanced level; methodological, technical, and communication skills essential for advanced study; an ability to undertake independent investigation and research; abilities characteristic of professional performance; and attitudes conducive to continuous intellectual and professional development.

Every master's degree program includes what is termed a capstone experience. This will include a thesis or its equivalent, a comprehensive examination or an applied or specialized project that documents an internship, or a case study report, a musical recital, gallery showing, or other comparable achievement. Completion of the capstone experience demonstrates that students have successfully integrated the various elements of the graduate learning experience and have gained an in-depth knowledge of their discipline.

A Doctoral Student

A student who wishes to receive a 60 semester-unit doctoral degree in Education. These students should check the Educational Leadership for Social Justice, Ed.D. program chapter in this catalog, as well as consult the Doctoral Handbook (available from the Educational Leadership Department office) for academic load information and specific degree requirements.

Graduate Certificate Programs

Admission to a Graduate Certificate Program

Students who are already enrolled in the University as post-baccalaureates (i.e., pursuing a graduate degree or credential program) may apply to a graduate certificate program. Students who are not already enrolled may apply to the University as a post-baccalaureate classified student. Applicants for graduate certificate programs must meet the minimum requirements for admission to graduate and post-baccalaureate studies that are outlined in the Graduate Admissions and Program Information section of this catalog. Applicants should also see the graduate certificate chapters of this catalog for additional admissions criteria for each specific program. It is recommended that the student seek admission, if appropriate, to a degree program within the sponsoring department so that graduate units may be taken, where permitted, for later application to the degree. No more than 9 units (or 30 percent for master's programs that are over 30 units) taken in classified post-baccalaureate status may be applied towards the requirements of a graduate degree.

Graduate Certificate Program Requirements

A graduate certificate program is a coherent set of academic courses, considerably narrower in scope and objectives than a degree, for which students can receive a certificate upon its successful completion. Most

certificate programs are oriented toward occupations and/or career skills. Each certificate program must contain a minimum of 12 units. For programs that include undergraduate courses, the minimum is 15 units. Any undergraduate courses must be at the upper-division level. Only one course below the 600-level may be taken "CR/NC" and no graduate course may be taken "CR/NC" in a certificate program unless that is the only grading pattern for the course. Students must take at least 75% of the courses and all 600-level courses at Cal State East Bay. (For certificate programs, Cal State East Bay courses may be taken through University Extension or as a regularly admitted and enrolled student.)

No student is required to complete a certificate program. Completion of a certificate program is recognized by the awarding of a certificate. There is no notation about the program on either a diploma or permanent record. (The courses will, of course, be on the student's permanent record.)

Master's Degree Requirements

A student wishing to earn a master's degree must complete the five requirements listed below:

- Fulfill the University Writing Skills Requirement;
- Be Advanced to Candidacy;
- Complete at least 30 semester units applicable to the degree. Please see specific program requirements in this catalog for the total number of units required for each master's degree program.
 - All units must be earned within the five calendar years immediately preceding the receipt of the degree. Outdated units may be accepted for one additional year with the approval of the major department and Graduate Studies. If not completed in the sixth year, currency in the subject matter of the outdated courses must be demonstrated. Courses older than seven years are only applied to the degree in exceptional circumstances.
 - A minimum of seventy (70) percent of the total units required by the degree program must be completed in residence while enrolled as an admitted graduate student at Cal State East Bay. For example, for a 30-unit master's program, 21 units in residence are required. (*Note: The number of transferable units for each degree program will be rounded to the nearest whole number of units.*) Units taken while at other schools, while an undergraduate with permission to take graduate courses, while pursuing an additional baccalaureate degree in "Unclassified Post-Baccalaureate" status, while enrolled in another graduate degree program, or while enrolled in Continuing Education courses (including Open University courses) do not count as resident units. Courses offered in special session, e.g., summer, are considered resident units. Some graduate programs may require more than 70 percent of the required degree units in residence, so check the program's section of this catalog for these requirements.
 - At least 1/2 (50%) of the units in the program must be in stand-alone 600-level courses. Up to 50% of the units may be in upper-division undergraduate courses and/or dual-listed undergraduate/graduate courses.
 - No lower division units can be counted.
 - No more than 6 units of university thesis, departmental thesis or project work can be counted.
 - No more than 8 units of independent study can be counted.

- No units counted towards the total graduate program units may be taken on a "CR/NC" basis unless they are in courses that are offered exclusively on that basis (primarily restricted to fieldwork and internship courses). This does not apply to courses taken to satisfy prerequisite or proficiency requirements or the University Writing Skills Requirement).
- Complete a program of study approved by the department, which must include a thesis, project, or comprehensive examination; and
- Earn a 3.0 grade point average in all units counted towards the degree, with a minimum course grade of "C" in every course. Any course that counts toward the degree requirements with a grade of "C-" or below will have to be repeated.

Please Note: individual master's degree program requirements may be more stringent, including minimum grade requirements, than the University requirements listed above. Please check each program's section of this catalog for specific program requirements.

Doctoral Degree Information

Cal State East Bay offers one doctoral program, the Ed.D. in Educational Leadership for Social Justice. Students accepted into this Ed.D. program should work very closely with their academic advisors to ensure that all policies and procedures are being followed. Policies and procedures for continuing student performance as well as program graduation requirements for this doctoral program are different from those required for students in master's programs. For information regarding the Doctor of Education, please see the Educational Leadership program chapter in this catalog.

Contact the department office or website directly for specific requirements and program information for the Ed.D. degree. A copy of the Doctoral Student Handbook may be requested from the Department of Educational Leadership, Arts & Education Building, Room 250, Tel: (510) 885-4145; email: edld@csueastbay.edu.

Graduation Requirement in Writing Proficiency (UWSR)

Note: This content has been changed, please see the Errata chapter for information.

In addition to the lower-division General Education requirements for writing, the California State University system requires that *all students* must demonstrate competency in writing skills as a requirement for graduation and to receive a baccalaureate, master's, or doctoral degree. This requirement was implemented system-wide in 1977. Students must satisfy the University Writing Skills Requirement (UWSR) in order to receive a degree from Cal State East Bay unless they are exempt by one of the following criteria:

1. Previously satisfied the UWSR at Cal State East Bay or at another CSU campus, Cal State East Bay will accept official certification of completion if the entire requirement, as specified by that CSU campus, was satisfied and the student was a matriculated student at that campus at the time. On some CSU campuses, the requirement is called the "Graduation Writing Assessment Requirement (GWAR)."

2. Graduated from any one of the CSU campuses; unless it is noted on the transcript that the UWSR (or GVAR) was not satisfied.
3. Received an essay score of 4.5 or higher on the GMAT or GRE or an essay score of 53 or higher on the CBEST.

Undergraduate students are required to begin steps to satisfy the University Writing Skills Requirement after completing 60 semester units. Students who do not enroll in an appropriate course or register to take the Writing Skills Test in their first semester after completing 60 units will have a registration hold placed. The hold will be lifted as the student progresses towards completion of this requirement. *Note: Undergraduate students cannot satisfy this requirement before completing 60 units. For undergraduate students, completion of GE Area A2 and ENGL 200 or another approved second composition course, which are graduation degree requirements, is also required before attempting to satisfy the UWSR.*

To satisfy the requirement at Cal State East Bay, students may do one of the following:

- **Option One:** Register for and pass the Writing Skills Test. See Writing Skills Test (Option One) below.
- **Option Two:** Enroll in and pass a first-tier writing course (ENGL 300 or ENGL 301) and possibly a second-tier course, as well. See Course (Option Two) below.

Writing Skills Test (Option One)

The Writing Skills Test (WST) consists of an analytic essay that requires students to demonstrate that they can think and write critically. A score of Clear Competence (8) is needed to meet the requirement. Students who do not meet receive the Clear Competence designation on the first attempt have only one opportunity to take it again; a score of Clear Competence on the second attempt satisfies the requirement. If both tests are scored as "Limited Competence (6)", they will be required to take the course option (see below). If one or both scores is "Developing Competence (7)", they need only take a second-tier course to satisfy the UWSR (see below).

Note: There is a fee for the WST. See the Fees & Financial Services chapter for more information.

Course (Option Two)

ENGL 300 and ENGL 301 are the first-tier writing courses designed to help students meet the University Writing Skills Requirement. Students who have not attempted the WST or those who have taken the Writing Skills Test (WST) and have received Limited Competence (6) must take either ENGL 300 or ENGL 301 and perhaps a second-tier writing course as well. Students who have not taken the WST twice may take it even when enrolled in a writing skills course. Generally speaking, ENGL 300 is intended for native speakers of English, while ENGL 301 is intended for non-native speakers. Based on end-of-course portfolio evaluation scores, at the end of the first-tier course they will be advised as to their next step, which will involve one of the following: they may be found to have met the UWSR requirement altogether; they may be directed to enroll in a second-tier course; or, they may be directed to repeat the first tier course.

Generally, two second-tier writing courses are regularly offered: ENGL 302 and MKTG 305. Students who passed the quarter-based equivalents to these courses (ENGL 3003 and MKTG 3495) prior to fall 2000 may not have met the UWSR. For more information on these courses, contact the individual

department. Courses approved for second-tier writing are listed here: Second Tier Courses. Students who pass a second-tier writing course with a C- or better (or "CR" if taken as CR/NC) have satisfied the UWSR.

Students who have taken the first-tier writing course three times consecutively, have not passed, and have a letter of good faith effort from their most recent first-tier instructor may apply to the Dean of Academic Programs and Services for a waiver of the UWSR. If a waiver is granted, the student's permanent record will note that they were allowed to graduate without having satisfied the UWSR. Students who do not satisfy the requirement and do not have a waiver approved will not be allowed to graduate. Contact the Dean of Academic Programs and Services for information on this waiver at (510) 885-2990.

If a student receives a grade of "D+" or "D" in a second-tier writing course (taken Fall Quarter, 2000 or later), they may appeal to the Dean of Academic Programs and Services for a waiver of the UWSR. If a waiver is granted, their permanent record will note that they were allowed to graduate without having satisfied the UWSR. Students who do not satisfy the requirement and do not have a waiver approved will not be allowed to graduate. Contact the Dean of Academic Programs and Services for information on this waiver at (510) 885-2990.

Students who have a verified disability and would like to request accommodations to assist them in satisfying this requirement should contact the Accessibility Services in the Library Complex 2440 or call (510) 885-3868 (phone/TTY).

For more information on meeting the University Writing Skills Requirement, see the Testing Office website or call (510) 885-3661.

Graduate Academic Course Load

A graduate student who wishes to receive a master's degree in two years needs to enroll in approximately 8 units per semester (15 units per year in a 30-unit master's program). 8 units per semester is the minimum for financial aid and reporting purposes. A graduate student who wishes to receive a doctoral degree in Educational Leadership should check the Educational Leadership for Social Justice, Ed.D. program chapter in this catalog, as well as consult the Doctoral Handbook (available from the Department office) for academic load information.

Required Units for Full-time Graduate Students

The following classifications apply to *graduate* students enrolled in the fall and spring semesters (not University Extension non-degree programs and shorter sessions including summer): (*see Errata page for content update*)

1. Full-time enrollment for "Graduate" students and "Classified Post-baccalaureate" students is 6 or more units for university enrollment calculation purposes.
2. Full-time enrollment for "Graduate" students and "Classified Post-baccalaureate" students is 8 or more units for financial aid.

3. Full-time enrollment for "Graduate" students and "Classified Post-baccalaureate" students is 8 or more units for F-1 and J-1 visa students.
4. Full-time enrollment for veterans (or dependents of disabled or deceased veterans), or reservists (under Chapter 30, 31, 33, 34, 35, or 106) is 6 or more units, according to V.A. regulations.

Note: Each semester, veterans and eligible dependents should consult the Veteran Affairs Coordinator before the first day of classes and submit their forms requesting certification of enrollment for V.A. benefits. Also, graduate students who apply for Veterans' Benefits (or for benefits as dependents of disabled or deceased veterans), international students wishing Department of Homeland Security certification, student athletes wishing to compete in intercollegiate sports, and students on most types of financial aid must be enrolled in courses that apply to a definite program (master's degree and/or credential).

Advancement to Candidacy

"Advancement to Candidacy" is a status which recognizes completion of substantial progress towards a student's graduate degree. A student becomes eligible for Advancement to Candidacy when they:

- have become a "Classified" graduate student in good standing;
- have completed at least 9 semester units of 600-level coursework with a minimum 3.0 GPA;
- have designed a formal program of study approved by their graduate advisor;
- have fulfilled the University Writing Skills Requirement;
- have completed other department prerequisites for advancement; and
- are recommended for Advancement to Candidacy by their academic advisor (subject to approval by the department's graduate coordinator).

*Also see, **Admission, Enrollment, & Fees** chapter for additional information.*

Capstone Experience

The capstone experience of the graduate program will be the successful completion of a thesis, project, or comprehensive examination. The quality of the student's work, including quality of expression, is the major consideration in judging the success of this degree component.

Thesis

A thesis is the written product of a systematic study of a significant issue. In the thesis, the student is expected to identify the issue, state the major assumptions, explain the significance of the project, detail sources for and methods of obtaining data, provide analysis of the data, and offer conclusions. The thesis should demonstrate original critical and independent thinking, appropriate organization and format, and thorough documentation. If the research involves human subjects, the protocols must be approved by the Institutional Review Board (see "Standards of Research with Human Subjects" section in Graduate Degree Requirements, Policies, & Other Information chapter).

Cal State East Bay offers two kinds of master's degree theses, University Thesis (numbered 691) and Departmental Thesis (numbered 699). Students required, or electing, to write a thesis must register for a minimum of one unit of either 691 or 699 in order to receive credit toward completion of this capstone experience. Students should check with the department for information on the number of units for which

they must enroll.

The following criteria are the same for both the Departmental Thesis and the University Thesis.

- The candidate must be a graduate student (i.e., admitted to a master's degree program) to enroll in a thesis course; the academic department may add additional requirements.
- The student's thesis work will be supervised by a departmental committee which must include at least one Cal State East Bay faculty member who is a member of the major department. Please see the Thesis Committee Policy for additional thesis committee requirements.
- The student may not receive credit for more units of thesis work than allowed by the degree program.
- Each semester students will receive a grade of "RP" (Report in Progress) for units earned in 691 or 699 until they have completed their thesis; the student will then be given a final grade for the entire course. No "RP" units will be counted towards the degree or in calculating their GPA. If the thesis is not approved within one year of initial enrollment in a thesis course, the "RP" grade(s) will be changed to "F" or "NC" (depending on the grading pattern of the course).
- Normally, a degree candidate will be required to present an oral defense of their thesis.
- A Master's degree candidate may not earn more than 6 units for either a University Thesis or Departmental Thesis. Some programs have lower unit requirements. Students should check the program description in this catalog.

There are also a few significant differences between the two kinds of theses:

The format of a University Thesis is established by the Office of Graduate Studies. Since these works are expected to serve as resources for future research, the format is formal. An electronic copy is placed in the Institutional Repository. A Departmental Thesis, on the other hand, is usually not as formal. The Departmental Thesis standards and format are determined by the department, and the thesis is retained by the department.

University Thesis:

For information on the steps to follow (the approval process, required format for the structural elements of the thesis, and deadlines) when writing a University Thesis, consult the University Thesis Writing Guide available online at: www.csueastbay.edu/thesiswritingguide. If a student has questions concerning the selection of a topic, and/or the procedure to establish a thesis committee and research protocols, they should contact their department advisor or graduate coordinator. Students should also see if the department requires that a bound copy be submitted to the department. If the student has additional questions concerning the formatting and submission of their University Thesis after having read the University Thesis Writing Guide, it is recommended they contact the University Thesis Editor at: thesis.editor@csueastbay.edu

Departmental Thesis:

For information about a Departmental Thesis (the department's thesis guidelines, including format, acceptable thesis topics, and procedures to establish a thesis committee) contact the department advisor or graduate coordinator.

Project

A project is a significant undertaking in either a fine or applied art or a professional field. Projects should provide evidence of originality, independent thinking, and appropriate form and organization. Students are required to describe their project in a written abstract that addresses the project's significance, objectives, methodology, and conclusions. In some cases, the student may be required to present an oral defense.

Specific criteria for a Project (numbered 693) are the same as those for a Departmental Thesis with a few exceptions.

- An "RP" grade in a project course will become an "F" (no "NC" option) after one year if the project is not completed.
- While the project need not be considered a research resource, it should be of a caliber to constitute a valid terminal activity in a master's degree program and will be permitted only when a thesis is not appropriate.

If a Master's degree student changes from a program requiring a thesis to one requiring a project (or vice versa), they may count a combined maximum of 6 units for 691, 693, and 699 towards the degree.

Comprehensive Examination

A comprehensive examination is intended to assess the student's mastery of relevant subject matter, their ability to analyze and integrate the knowledge of their field, their skill in critical and independent thinking, and their use of appropriate organization and accurate documentation. A record of the student's examination (questions and responses) will be retained by their department. Some departments grant unit credit for exam preparation while others do not.

Graduate Study Completion (All But Capstone)

Note: Please see Errata for corrections to this content.

Students who have completed all the units required for their master's degree but are still working on their capstone experience (thesis, project, or studying for a comprehensive exam) may have continued access to University facilities by registering for GS 690 Graduate Study Completion through University Extension, Continuing and International Education. This is a 1-unit course with a fee of \$78 (fee subject to change). The other alternative is to register for 0.1 units through the regular registration process and pay regular fees for less than six units.

Registering for GS 690 will provide students with:

- a valid Student ID card,
- the ability to check books out of the library,
- remote access to computerized databases in the library,
- use of computer labs on campus,
- the ability to continue to work on projects in science labs,
- eligibility to purchase a parking permit, and

- access to other benefits enjoyed by regularly registered students.

Enrollment in GS 690 also qualifies as enrollment for students who are serving as a teaching associate.

Note: GS 690 cannot be used to satisfy any unit or course requirements for a master's degree.

Students may register by picking up a "GS 690 Graduate Study Completion Form" in their department or in the University Extension Office in SF 102. *Note: Students will need to obtain a signature from their major department.*

Graduate Registration Policies

Master's degree students must follow the same registration policies and procedures as required for undergraduate students. *See the Registration & Enrollment chapter in this catalog for more complete registration information.*

Registration procedures for Thesis or Project courses are slightly different. Master's students must complete a "Special Registration Petition" for each semester they wish to enroll in one of these courses. The petition should be submitted to the department office. This must be done no later than the last day of the Late Add period. The student is responsible for checking on the progress of this procedure.

Special Registration Petitions

Some courses may require a "Special Registration Petition" prior to enrollment that is **available from the department offering the course**. Typically, courses that will require special registration petitions are:

- Independent Study,
- Individual Study,
- Capstone Project,
- Departmental Thesis, or
- University Thesis.

University Grading Policy

It is an integral part of the teaching responsibility of the faculty to provide careful evaluation and timely assignment of an appropriate grade to each enrolled student. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise. In the absence of compelling reasons, such as instructor or clerical error, prejudice, or capriciousness, the grade determined by the instructor of record will be considered final.

For purposes of correcting an error, an instructor may change a grade with approval of his/her department chair and college dean. No grade may be changed once graduation has been recorded unless an error has been made, in which case students have one semester after their degree has been awarded to dispute the grade and have it corrected, or if a Grade Appeal petition has resulted in a grade change. The administrative symbol for withdrawal cannot be assigned by a faculty member.

See the Registration & Enrollment chapter for the description of withdrawal policies and procedures.

Academic Grading Symbols (Graduate)

Graduate Course Symbols & Grade Points Earned

Academic Grade	Standard of Work Represented	Grade (Quality) Points
A	Superior	4.0
A-	Superior	3.7
B+	Adequate	3.3
B	Adequate	3.0
B-	Adequate ¹	2.7
C+	Substandard	2.3
C	Substandard	2.0
C-	Unacceptable	1.7
D+	Unacceptable	1.3
D	Unacceptable	1.0
F	Failing	0.0
CR	Credit ²	not applicable
NC	No Credit ²	not applicable

1Note: A "B-" grade, though described as "adequate," generates fewer than 3.0 grade (quality) points and must be balanced by a grade of "B+" or higher to maintain a 3.0 GPA.

2Note: These grades cannot be selected by students. They are only available in graduate courses offered exclusively on a "credit/no credit" basis.

The typical grading pattern for courses graduate students will take is "A-F"; the use of "+" and "-" is at the discretion of each instructor. As noted in the Master's Degree Requirements section, grades lower than "C" may not be used to satisfy master's degree requirements, and some programs may require grades higher than "C" to meet program requirements; check with the academic department about its policy. A graduate student may use courses taken on a "CR/NC" basis to meet the degree requirements only if the courses are offered exclusively on that basis. Typically, these courses are restricted to fieldwork and internships and a "CR" grade indicates that the student's work is at least of "B-" quality. In post-baccalaureate (500-level) courses, a "CR" grade also indicates that the work is at least of "B-" quality.

Administrative Grading Symbols

Administrative Grading Symbols & Their Definitions

Administrative Grading Symbol	Definition	Grade (Quality) Points Earned
RP	Report in Progress	not applicable
I	Incomplete (Authorized)	not applicable
IC	Incomplete Charged	0.0
RD	Report Delayed	not applicable
W	Withdrawal	not applicable
WU	Withdrawal Unauthorized	0.0
AU	Audit	not applicable

Report in Progress (RP)

The symbol "RP," Report in Progress, is used in connection with courses that extend beyond an academic term. This symbol indicates that work is in progress, but that a final grade cannot be assigned until additional work is completed. The work must be completed within one year.

Note: If the work is not completed within the established time limit the "RP" grade will be changed to an "F" or "NC," depending on the grading pattern for the course.

Incomplete (I)

The symbol "I", Incomplete (Authorized), indicates that:

1. a discrete portion of the required coursework has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons,
2. attending a future offering of the class is not required to complete the work, and
3. the instructor believes it likely that the student will earn credit for the course upon completion of that work.

Students who are currently failing a course are not eligible for an Incomplete.

It is the student's responsibility to bring pertinent information to the attention of the instructor and to determine from the instructor the remaining course requirements that must be satisfied to remove the Incomplete. A final grade is assigned when the work agreed upon has been completed and evaluated. The instructor will specify the work needed to complete the course that can be viewed in MyCSUEB.

Note: An "I" must normally be made up within one calendar year immediately following the end of the term during which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment. Students may not repeat a course in which they currently have an incomplete grade. Students who are currently failing a course are not eligible for an Incomplete.

Students may be able to receive up to a one-semester extension from the instructor. These extensions are for cause and must be approved by both the instructor and department chair. (Examples of cause include military service, serious health or personal problems, or instructor's leave of absence.) If a student wants credit for a course after an "I" has been converted to an "IC," the student must re-register and pass the course.

When the required work has been completed and evaluated, the instructor will submit a change of grade form and the academic grade will be recorded. If the student does not complete the work within the allowed time limit, the grade will be recorded as an "IC" (Incomplete Charged).

A student can graduate with an "I" grade on their record if the course is not necessary for graduation requirements. No grade may be changed once the degree has been awarded.

Incomplete Charged (IC)

The symbol "IC," Incomplete Charged, is used if the student received an authorized incomplete ("I"), but did not complete the required coursework within the allowed time limit, and the original grading pattern of the course was "A-F." If the grading pattern was either "A/B/C/NC" or "CR/NC", the grade will be recorded as "NC."

Note: The "IC" replaces the "I" and is counted as a failing grade for computing grade point average.

Report Delayed (RD)

The Report Delayed grade is an administrative grade assigned to students for a course if the instructor notifies the Office of the Registrar that grade reports have been delayed by circumstances beyond the control of the instructor. An example is the illness of the instructor at the end of the semester. The instructor will replace the "RD" grade with an academic grade as soon as possible.

Note: If the instructor fails to replace it with an academic grade by the end of the following semester, the grade "RD" will be converted to a "WU" or an "NC" depending on the grading pattern.

Withdrawal (W)

Dropping a course may be permitted, without restriction or penalty, during the Add/Drop Period. No grading symbol is recorded in such instances.

The "W" administrative grade indicates that the student was permitted to withdraw from a course after the end of the Add/Drop Period and prior to the last twenty percent of instruction, and may be assigned only for serious and compelling reasons. Permission to withdraw during this time shall be granted only with the approval of both the instructor and the department chair. The requests and approvals shall state the reasons for withdrawal.

Undergraduate students may withdraw after the Add/Drop Period from no more than 18 semester units in the undergraduate career. Only withdrawals recorded in terms beginning with Fall 2009 are counted. When serious illness or accidents are documented and used as the basis for approval of withdrawal from classes in the term, the units in question will not count against the maximum units allowed. Open University units are counted toward the maximum units. No limitations are placed on withdrawals by post-baccalaureate students taking classes in a post-baccalaureate career.

Withdrawals are not permitted during the final twenty percent of instruction except in cases, such as accident or serious illness, where the cause of withdrawal is due to circumstances clearly beyond the student's control and the assignment of an Incomplete is not practicable. Withdrawals of this nature may involve total withdrawal from the campus or may involve only one course, except that a course grade and credit or an Incomplete grade may be assigned for courses in which sufficient work has been completed to permit an evaluation to be made. When serious illness or accidents are documented and used as the basis for approval of withdrawal from classes in the term, the units in question will not count against the maximum units allowed. Request for permission to withdraw under these circumstances shall be granted only with the approval of the instructor, the department chair, the college dean and the administrator appointed by the President to act in such matters.

The "W" grade shall not be used in the calculation of grade point averages.

Withdrawal Unauthorized (WU)

The "WU" grade (Withdrawal Unauthorized) shall be used where a student who is enrolled on the census date does not officially withdraw from a course, but fails to complete it. Its most common use is in those

instances where a student has not completed sufficient course assignments or participated in sufficient course activity to make it possible, in the opinion of the instructor, to report satisfactory or unsatisfactory completion of the class by use of the letter grade (A-F). *The "WU" is counted in the grade point average as an "F" grade.* When assigning the "WU" grade, the instructor shall report the last known date of attendance by the student.

Audit (AU)

Students may take courses for instruction only (Audit), and will attend class but will not receive credit. Audit students will pay the same fees and enjoy the same instructional privileges as students enrolled for credit. Audit students may participate in class, take examinations or complete other assignments, but are not required to do so.

Note: Students may not petition to change their enrollment status from, or to, "Audit" after the Grade Type Change period has ended.

Grade Point Average (GPA)

The student's grade point average (GPA) is calculated by dividing the total number of quality hours (units attempted, excluding CR/NC courses) into the number of grade (quality) points earned. If they repeat a course required in the major, their department has the discretion, under specific circumstances, not to include an earlier attempt in the GPA calculation. The approval not to include the earlier attempt in the student's degree program must be submitted by their department to the Office of the Registrar. This may be done at any time while a student is enrolled in the degree program, but may not be done after they have been awarded their degree.

The graduate program coordinator or department chair also has the discretion to request that grades in courses that do not count towards graduate degree requirements be excluded from a student's GPA calculation. This will be permitted only if those grades result in the student being placed on academic probation. These may include courses taken in a second baccalaureate program, or courses taken in a different graduate degree program. They may not be courses taken in the degree program that the student subsequently elects not to count toward graduate program requirements. They also may not include grades for courses that the student used for a conferred post-baccalaureate degree. The request not to include a grade in a student's GPA calculation must be submitted by the graduate coordinator or department chair to the Office of Academic Programs and Services which will make the final determination of the request. This may be done at any time while a student is in the degree program, but may not be done after they have been awarded their degree.

If the student's GPA falls below 3.00, they should consult immediately with the graduate coordinator or major department chair.

Final Examination Policy

The student can expect the instructors to provide comprehensive course requirement information for each course at the beginning of the semester. This will include the work that is expected of the student and the

basis on which the student will be evaluated. Most courses have graded assignments throughout the semester and a final examination or paper. The University's policy states that final examinations must be given only at the times published in the schedule of classes on *MyCSUEB*. The purpose of this policy is to ensure fairness for all students. Exceptions are, therefore, rare and must be approved in writing by the department chair. A student should contact the department chair or college dean if they believe this policy is not being followed. If the student is in a course which has a separate laboratory, activity or discussion section, the instructor is permitted to give a separate final examination (but only for that section) during the last regularly scheduled meeting of the section.

Standards of Research with Human Subjects

The University has approved policies and procedures for the protection of human subjects in research, development, and related activities carried out by faculty, staff and students. An Institutional Review Board has been established to review research protocols in order to determine whether human subjects would be at risk and to protect their rights and welfare. Protocols must be approved before research commences. Further information and copies of the policy document may be obtained from the Office of Research and Sponsored Programs, SF 302, 885-4212 or online at: <http://www.csueastbay.edu/orsp/>.

Graduate Student Probation and Disqualification Policy

There are two types of probation and disqualification: (1) academic, and (2) administrative.

Academic Probation

Students must maintain a 3.00 GPA in all units attempted after admission to their graduate program, including all prerequisite courses, to remain in good standing. If the student's GPA falls below 3.00, they will be placed on Academic Probation. (*Grades in any coursework taken after admission to the student's master's program at CSUEB will count towards the GPA calculation for academic probation.*) Should this happen, the student must consult with their graduate advisor prior to registering for the next semester. The student is also encouraged to take advantage of various University services (such as advising and tutoring) designed to assist them.

Academic Disqualification

A student may be subject to academic disqualification if during any semester while on probation they do not achieve the minimum 3.0 GPA in all units taken after admission to their graduate program. The student may also be disqualified if, at any time, they do not meet the academic criteria of their department. In addition, an appropriate campus administrator may disqualify a student who at any time during enrollment has demonstrated behavior so contrary to the standards of the profession for which the student is preparing as to render the individual unfit for the profession. In such cases, disqualification will occur immediately upon notice to the student.

Administrative Probation

A student may be placed on Administrative Probation if they:

- withdraw from all courses for two consecutive semesters or any three semesters;
- do not progress towards their degree while enrolled (such as earning a number of "NC" grades);
- do not comply with appropriate academic requirements (such as taking the Writing Skills Test); or
- earn only "IC," "F," "WU," and/or "NC" grades for two consecutive, or any three semesters.

Administrative Disqualification

A student will be administratively disqualified if they:

- do not meet the conditions for removal of their Administrative Probation;
- are placed on Administrative Probation twice for the same reason;
- are placed on Academic Probation while on Administrative Probation.

Reinstatement to a Graduate Program

If a student is disqualified, either academically or administratively, they may apply for reinstatement to their graduate program by completing a "Petition for Graduate Reinstatement." The petition must be approved by the appropriate graduate coordinator or the department chair. Reinstatement will be approved only if the student is able to provide compelling evidence of their ability to complete their degree. Then it will be forwarded for consideration to the Director of Graduate Studies, who has final authority to approve reinstatement. If a student should become disqualified a second time, their reinstatement normally will not be considered. Reinstatement petitions are available at <http://www.csueastbay.edu/academic/colleges-and-departments/apgs/office-graduate-studies/reinstatement.html>.

Declassification from a Degree Program

A student may be declassified (dropped) from a graduate degree or credential program for a range of reasons, including, but not restricted to, unprofessional conduct; behavioral issues that interfere with the learning of others; failure to make progress toward the degree or program as set forth by the University and program policies; failure to meet grade requirements to maintain good standing in the program and/or University; and/or the department/program faculty determine that the student is incapable of completing degree requirements at the level expected of a graduate student in the discipline even if the GPA is above 3.0.

The declassification request must be initiated by the major department with support from the department/program chair and college dean or designee. Requests are submitted to the Office of Academic Programs and Services for final action and official notification to the student and the Registrar's Office. The Office of Academic Programs and Services will also determine if the student should also be academically or administratively disqualified from the University. If the student is not disqualified from the University and wishes to continue in the University, a declassified student must formally apply to another graduate program. Declassified students will not be permitted to enroll through regular University or Open University in any undergraduate or graduate courses in the program or degree

from which they were declassified. Unless the declassification was related to conduct issues that interfere with campus interactions, declassified students are eligible to apply to a new program and be accepted as a student by the new department/program. The student must be accepted to a new program no later than two semesters after being declassified; otherwise, the student must reapply to the University.

Cancellation of Registration or Withdrawal from the University

All Students

Students who find it necessary to cancel their registration or to withdraw from all classes after enrolling for any academic term *are required* to follow the University's official withdrawal procedures. Failure to follow formal University procedures may result in an obligation to pay fees as well as the assignment of failing grades in all courses and the need to apply for readmission before being permitted to enroll in another academic term. Information on canceling registration and withdrawal procedures is available from the Enrollment Information Center, located on the first floor of the Student Services and Administration Building.

Students who fail to fulfill enrollment or matriculation requirements, or otherwise fail to adhere to academic or Cal State East Bay regulations, are subject to immediate administrative action which may result in the student being placed on Administrative Probation, or having enrollment for that term canceled.

Note: Matriculated students who have not enrolled in classes at Cal State East Bay for two consecutive semesters (not including summer or winter sessions), and do not enroll in the third consecutive semester, will be discontinued and will be required to submit a new application to the University for readmission.

Add/Drop Period

Submitting a "Withdrawal" form is not required if students find it necessary to drop all courses in which they enrolled in using MyCSUEB during the Add/Drop period. For refund information, refer to the *Refund of Fees* section in the *Fees & Financial Services* chapter.

If students find it necessary to withdraw from the University after the Add/Drop period has ended (during the third through the twelfth week of instruction), they must complete a "Withdrawal" form, obtain approval signatures from each instructor and department chair, and return it to the Enrollment Information Center or the Academic Services Office. Course withdrawals are handled as noted in the section above. A semester from which a student withdraws is not counted as an interruption of enrollment for matriculated student status. Even if approved, a late withdrawal petition does not result in a fee refund. Students should consult with Student Financial Services for any questions about fee refunds related to withdrawing from classes.

Financial Aid Recipients

Students who receive financial aid funds *must consult* with a financial aid counselor in the Financial Aid Office prior to withdrawing from the University regarding any required return or repayment of grant or loan assistance received for that academic term or payment period. Students who have received financial

aid and withdraw from the institution during the academic term or payment period may need to return or repay some or all of the funds received, which may result in a debt owed to the institution.

Fee Refunds

A withdrawal may not automatically result in a fee refund. Students should consult with Student Financial Services for any questions about fee refunds related to withdrawing from classes.

Appealing an Inappropriate Grade

Faculty have the sole right and responsibility to provide careful evaluation and timely assignment of appropriate grades. There is a presumption that grades assigned are correct. It is the responsibility of anyone appealing an assigned grade to demonstrate otherwise. In the absence of compelling reasons, such as instructor or clerical error, prejudice or capriciousness, the grade assigned by the instructor of record is to be considered final. Students who believe that an appropriate grade has not been assigned should attempt to resolve the problem with their instructor. If the student is not satisfied with the outcome, they should discuss the issue with the department chair in which the course was offered. If the issue is not resolved, the student should make an appointment with the dean or associate dean of the college in which the course is offered. If all previous actions fail, the student should contact the Presidential Appointee to the Grade Appeal and Academic Grievance Committee by calling (510) 885-3716. If the student has applied for graduation, the student should notify their graduation evaluator that a question is pending resolution. Once a degree is posted, no grade changes will be allowed.

Grade Appeal and Academic Grievance Committee

The Grade Appeal and Academic Grievance process, administered by this committee, allows students to resolve serious cases of alleged academic unfairness. After every effort by all parties to resolve the dispute has been ineffective, students can discuss their case with the Presidential Appointee to the Grade Appeal and Academic Grievance Committee. The Presidential Appointee will assist students in exhausting all normal channels and, if necessary, in filing a Petition (see link below) for a Grade Appeal Hearing. Students will need to submit their petition and supporting documentation to the Academic Programs and Services Office. The committee will review this documentation and the response(s) filed by the other parties involved in the dispute. If the committee finds possible grounds for a grievance, a Hearing Panel will be convened to hear the case. Under normal circumstances, the student must file their Petition before the end of the semester following the semester in which the alleged incident took place.

The Grade Appeal and Academic Grievance Committee is empowered to change a grade in accordance with the Grade Appeal Document and to assign a grade in cases where the instructor may have assigned an unfair academic grade. The Grade Appeal and Academic Grievance Committee is authorized to change a grade only after it has conducted a proper review of the case.

Grade Appeal Petition Form

For additional information see the **Student Rights, Responsibilities & Conduct** chapter.

More information is available from the Office of Academic Programs and Services (Student Services and Administration Building, Suite 4500; Tel. (510) 885-3716)

Course Requirement Information - Course Syllabus

Faculty shall provide students with a course syllabus, which should be placed on the course Blackboard site at the beginning of the semester, containing the following information:

- Name of instructor, office location, office hours, office telephone number, and @csueastbay.edu e-mail;
- Course number and title, classroom location, number of units, prerequisites (if any), a course description, objectives and student learning outcomes;
- Required texts and any other required and/or recommended materials;
- Student-supplied equipment and materials necessary for course activities;
- Course specific requirements and their due dates, such as examinations, quizzes, papers, field trips, and labs;
- Grading policy, which includes the relative weight of examinations, quizzes, papers, class participation, and other factors, and the grading scale;
- Attendance and make-up work policies and implications for grading;
- The following statement and reference to University policies regarding cheating and academic dishonesty: **"By enrolling in this class the student agrees to uphold the standards of academic integrity described at: <http://www.csueastbay.edu/academic/academic-policies/academic-dishonesty.html>."**
- Accommodations for students with disabilities.
 - Sample statement: **"If you have a documented disability and wish to discuss academic accommodations, or if you would need assistance in the event of an emergency evacuation, please contact me as soon as possible. Students with disabilities needing accommodation should speak with the Accessibility Services."**
- Emergency information.
 - Sample statement: **"California State University, East Bay is committed to being a safe and caring community. Your appropriate response in the event of an emergency can help save lives. Information on what to do in an emergency situation (earthquake, electrical outage, fire, extreme heat, severe storm, hazardous materials, terrorist attack) may be found at: <http://www.csueastbay.edu/af/departments/risk-management/ehs/emergency-management/index.html>. Please be familiar with these procedures. Information on this page is updated as required. Please review the information on a regular basis."**

Faculty are also encouraged to include additional items such as:

- Course outline;
- Types of quizzes and exams (e.g., true-false, multiple choice, short-answer, essay);
- Availability of appropriate tutoring services;
- Policies regarding audio and video recording and use of electronic devices;
- Reference to University classroom behavior policies;
- Classroom food and drink policies.

Furthermore, faculty should advise students of their expectations in the course no later than the end of the second class. Any changes in course requirements should be communicated to students in a timely

manner. It is the student's responsibility to read the course statement and to request any clarification of course policies. If a student adds the course after the first week of class, they must seek course information in a timely manner.

Faculty Office Hours Policy

The faculty of the University are available during regularly scheduled office hours, which are at times other than scheduled classes. The times of the office hours are posted outside each faculty office, at the faculty member's department, on the department website, and on the faculty member's course syllabi. The faculty member informs the department of their office hours the first day of classes each semester. *Note: There is a proposal to amend the following policy regarding office hours. If approved by the University President, the policy may differ from the one below.*

Full-time faculty members maintain a minimum of three (3) office hours per week and also make provision for meeting with students by appointment at a mutually convenient time beyond the stated office hours. The full-time faculty member's office hours shall be held over at least two days and at least in half-hour blocks. Part-time faculty will maintain the equivalent of one (1) office hour per week for each four WTUs of their teaching load with a minimum of one hour and a maximum of three hours per week.

Faculty teaching online must also hold office hours and may make alternative arrangements with the Department Chair to be available online or by telephone. Online faculty's office hours must include at least one (1) hour of availability by telephone per week.

If for any reason a faculty member cannot meet the posted office hours, the faculty member will inform the Department Chair. If possible, the department will note the absence on the faculty office door.

Note: Normal office hours are to be maintained during the Final Examination period. If a final examination conflicts with a posted office hour, an alternative hour is to be posted for that week alone.

Transferring Units as a Graduate Student

A minimum of seventy (70) percent of the total units required by the degree program must be completed in residence while enrolled as an admitted graduate student at Cal State East Bay.

Note: The number of transferable units for each degree program will be rounded to the nearest whole number of units.

Units taken while at other schools, while an undergraduate with permission to take graduate courses, while pursuing an additional baccalaureate degree in "Unclassified Post-Baccalaureate" status, while enrolled in another graduate degree program, or while enrolled in Continuing Education courses (including Open University courses) do not count as resident units. Courses offered in special session are considered resident units.

Please note that individual graduate programs may require more than 70 percent of the required degree units in residence. If so, it will be noted in the program's section of this catalog for these requirements.

To request transfer credit:

1. The student must have taken the course after earning a bachelor's degree;
2. Their department must accept the course(s) as relevant to their degree program;
3. The institution at which the student took the course must customarily grant the level of credit for the course (graduate or upper division) that the student wishes to receive for it at Cal State East Bay;
4. The student must have taken the course within five calendar years immediately preceding the receipt of their degree.

In general, Cal State East Bay does not allow the use of credit-by-examination from challenged courses for master's degree requirements. Exceptions may be established by individual departments and must be noted in the degree description in the University Catalog. They are governed by the following policies:

- The student must pass the exam challenging the course with a grade of "B-" or better;
- Not more than 9 semester units of credit-by-examination may be applied to the degree; and
- Challenged courses may not be credited to the residency requirement of your degree.

Change in Educational Objective

Change in Educational Objective

Continuing post-baccalaureate students wishing to change their degree objective or credential program must file a "Change of Graduate Objective" application with the Office of Graduate Admissions. Applications are available online. Students may contact gradadmission@csueastbay.edu for more information.

Dual Master's Degrees

If a student wishes to pursue two master's degrees at the same time, they should apply to their primary degree via CALSTATE Apply and complete a "Change of Graduate Objective" form filed with the Office of Graduate Admissions to apply for the second degree.

Note: a student must fulfill all prerequisites and requirements for each degree. See the Second Master's Degree section below for more policies related to dual master's degrees.

Second Master's Degree

If a student already has a master's degree and wants to pursue a second master's degree, they must meet the following criteria:

- Apply and gain admission to the department offering the second master's degree program;
- Fulfill all prerequisites and requirements for the second degree;
- Complete at least 70% of the units required for the second degree in residence after admission to the second degree program. Up to 30% of units from the first degree may be applied to the second degree, if accepted by the second degree program. If no units for the first degree are accepted, all units for the second degree must be completed;

- Earn all units for the second master's degree within the five calendar years immediately preceding the receipt of the degree.

If the second degree is in the same field as the first degree (e.g., business administration), the second degree must be in a different concentration and all units in the degree must be from different courses.

Time to Think About Graduation!

Students should apply for graduation by the priority filing deadline for the term in which they intend to graduate:

Continuing students who have satisfied the University Writing Skills Requirement can log into *MyCSUEB* and click on "Apply for Graduation." After filing, students should print the final confirmation page and give a copy to their major and minor departments to initiate a graduate check. Discontinued students can file for graduation using the Graduation Application - Closed Matriculation form on the University website under Student Records Forms.

Note: Students are advised to review completion of degree requirements with their department before filing for graduation. Degrees are awarded within three months after the student's final term of attendance.

Catalog Rights for Graduation

As long as a student maintains continuous enrollment as defined in the next paragraph, the degree requirements will remain those of the catalog in effect at the time they declare their major, minor, or degree. However, students may elect to meet the requirements of the catalog in effect at the time of graduation. These principles are called "catalog rights."

Matriculated students who have not enrolled in classes at Cal State East Bay for two consecutive semesters (not including summer or winter sessions), and do not enroll in the third consecutive semester lose their continuous enrollment status and their graduation requirements will be governed by the catalog in effect at the time they reenter. If a student is absent due to an approved Planned Educational Leave or to attend another accredited institution of higher education, they will not lose their catalog rights as long as they are not away from Cal State East Bay for over two years.

Transfer students who attended another CSU campus and/or California Community College have Cal State East Bay catalog rights from the time they began at the other institution if they have continuous enrollment as noted above.

Note: The principle of catalog rights refers to degree requirements, not policies, fees, services, and other matters which, when they change, apply to all students. For that reason, students should check the latest online catalog.

Also Note: Requirements of certain programs (e.g., teacher credential programs) are governed by outside agencies. The requirements of these programs are subject to change based on changes dictated by these outside agencies.

Due to semester conversion, during the 2018-19 academic year only, students with rights to earlier catalogs may request rights to this Catalog for either their major or their graduation requirements or both. Forms are available on the Registrar's website.

Undergraduate Students

Students' catalog rights for their major, minor or degree are governed by the catalog in effect at the time the student declares their major, minor, or degree. Undergraduates will not lose catalog rights for graduation requirements (including general education) by declaring or changing their major if they maintain continuous enrollment.

Post-graduate & Graduate Students

Catalog rights for graduate students are governed by the catalog in effect at the time the student was admitted to their program. As noted earlier, they may select the graduation catalog when they file to graduate. Students should note, however, that there is a requirement that courses in master's programs expire after five years; see the Master's Degree Requirements section of the *Graduate Degree Requirements, Policies, & Other Information* chapter.

SSMP & Credential Program Students Filing for Graduation

Undergraduate and Graduate Students

If a student is completing an undergraduate *Single Subject Matter Preparation* program for entry into a teaching credential program, or they are completing a graduate *Single or Multiple Subject Credential* program, they should *NOT* file for graduation.

The appropriate check sheet *MUST* be submitted by the department or program committee offering the program to:

Credentialing Student Services Center

(Art & Education Building [A&E] 2nd Floor)

College of Education and Allied Studies

Applying for Graduation

Important: Students are advised to review completion of degree requirements with their department before filing for graduation.

Graduation Application Fee

The Graduation Application (filing) Fee will be charged to the student's account after they file for graduation. The fee is nonrefundable, and can be paid in one of the following ways:

- online at *MyCSUEB*,
- in person at the Cashier's Office in the Student Enrollment Information Center (Student Services and Administration Building, 1st Floor) on the Hayward Hills Campus,
- in person in the Academic Services Office on the Concord Campus.

The Graduation Application Fee covers the cost of the graduation check of coursework, completing the diploma, and participation in the annual commencement ceremony. *Note: the application fee does not include the cap and gown rental/purchase, handled separately by the Bookstore.*

Priority Registration

Note: When a student files for graduation, they may obtain a new registration priority.

To register for classes as a "graduating student", students must meet the following criteria at the time enrollment appointments are assigned each term:

- Undergraduate Students: Completed 100 semester units and filed for graduation by the priority filing deadline,
- Graduate Students: Considered a "Classified Graduate" who is recommended for Advancement to Candidacy by their advisor and who has made substantial progress towards their degree, or filed for graduation by the priority filing deadline.

Conferring Honors at Graduation

Because graduate students constitute a select group whose members do very well in their programs, there are no academic honors conferred at graduation, and no dean's list recognition as is the case for undergraduates.

Diplomas

After a student has completed all degree requirements and the graduation evaluator has verified their completion, their degree will be conferred and their diploma will be ordered. The final graduation evaluation process typically takes up to **three months following the posting of grades from the student's last semester of graduation candidacy**. The diploma will be mailed to the student's permanent address of record with the University 6-8 weeks after the degree has been awarded.

A diploma is an official document containing the embossed seal of Cal State East Bay, the student's name, the degree conferred and date, major(s) completed in the degree conferred, any concentrations or minors completed, and the signatures of state and University officials. It is not reproducible or available in

multiple copies. Students can obtain multiple copies of their record by ordering transcripts which also show degrees, majors and concentrations, as well as other information. If a student needs proof of completion of their degree before receiving their diploma, they may request a verification of graduation or a transcript from the *Office of the Registrar*.

Should a student change their name, they may request that a new diploma be issued with their new name if:

1. they return the originally issued diploma to the *Office of the Registrar*,
2. they provide legal documents confirming their legal name change, and
3. the student pays the fee for a new diploma.

After the degree is posted to a student's permanent record, a student's diploma and transcript cannot be altered by adding additional options, or by grade changes, and/or withdrawals. The University protects the integrity of its transcripts and will not rewrite history unless a University error has occurred.
