May 20, 1934.

Dear Miss Morgan :

Please telegraph me to New York the size of the Ogival arches entering the new study on either side of the fireplace and going from the main study room into the smaller room and leading from the main study room into the two little tower rooms,— six stone frames in all.

I am going to try to find genuine whole stone frames to fit in those places and to match with the genuine windows at the east end of the floor.

Sincerely yours,

W R Hearst
