**APPROVED FIFTH YEAR OF STUDY: CLEAR CREDENTIAL**

An approved fifth year of study is required in order to qualify for a clear credential. A Fifth Year program of study provides the potential teacher with much greater opportunity, following completion of the relatively rigid course requirements of the Preliminary Credential program, to select a program of study designed to improve the teacher's competence and skill. For program development and approval, consult the Departmental Coordinator or the Chairman, Department of Secondary Education.

**MASTER OF ARTS DEGREE**

The Secondary Education Department offers a program leading to the master of arts degree in education with a concentration in secondary teaching. Emphasis is on developing highly qualified professional personnel for the secondary schools. Prospective candidates can usually plan to coordinate most of the requirements for the degree with the fifth year of work which must be completed by every candidate for a clear teaching credential. A student may enter the master's degree program following completion of fifteen semester units of acceptable work in professional education or following the meeting of minimum requirements for a teaching credential, provided all criteria for classified graduate standing have been met. In addition, students must also comply with policies and procedures established by the School of Education Graduate Committee. For specific requirements consult the department chairman; for general requirements, see *School of Graduate Studies*. For detailed information about the graduate program, see the *Graduate Bulletin*, available in the Office of the School of Graduate Studies.

**COURSES****SECONDARY EDUCATION (S Ed)****151. Social Foundations of Education (3)**
