

PROGRAM PLANNING AND REGISTRATION

Freshmen students should plan their programs early; beginning, when practical, with the selection of a major. Degree requirements in each major are listed under the appropriate department. If a student is undecided about a major, indicate "Undeclared" on the appropriate forms until a definite decision is reached. For general information, see *Degrees and Credentials*.

An academic adviser is assigned to each student or selected by the student depending on the major department's procedure. Undeclared majors are advised by the Office of Advising Services.

It is recommended that all students meet with a faculty advisor once each semester before registering for classes. A faculty advisor assists the student in planning an academic program, but the primary responsibility for meeting all graduation requirements is the student's.

RECOMMENDED PREPARATION

Freshmen Students

Overall excellence of performance in high school subjects and evidence of academic potential provide the basis for admission at CSUF. The applicant is strongly encouraged to include the following subjects as minimal.

College preparatory English.....	4 years
Foreign language.....	2 years
College preparatory mathematics.....	3 years
College preparatory laboratory science.....	1 year
College preparatory history and/or social science.....	2 years
Study in speech, music, art, and other subjects contributing to general academic background.	

Students entering in the Fall of 1984 and thereafter must have completed eight semesters of college preparatory English and four semesters of college preparatory mathematics in high school and/or their equivalent at the college level to qualify for admission to a CSU campus.

Since certain academic majors require high school preparation in definite subjects, the student should consult the requirements indicated in the field of his choice.

In university majors such as engineering, natural science, mathematics, social science, and humanities a maximum number of high school credits should be obtained in appropriate subjects in English, mathematics, science, and foreign languages.

Transfer Students

Students intending to transfer to CSUF should plan their programs while attending other colleges to meet CSUF general education and major degree requirements. Students transferring from a California community college should complete as many of the general education requirements of that college as possible. A general education certification should be sent to CSUF along with the final transcripts. Earning an A.A. or A.S. degree does not necessarily mean one has fulfilled CSU general education requirements.

After admission to CSUF, transfer students with twenty or more units will receive a copy of their advanced standing evaluation indicating how previous college units have been applied toward requirements at CSUF. Questions
