

SCHOOL OF AGRICULTURAL SCIENCES

O. J. Burger, Dean

Assistant Dean George F. Ilg

<i>Department</i>	<i>Chairman</i>
Agricultural Economics.....	Thomas I. Gunn
Agricultural Industry and Education.....	Fred S. Nury
Animal Science	Arthur S. Hoversland
Plant Science	Harry P. Karle

The School of Agricultural Sciences provides degree curricula preparatory to professions and occupations in agriculturally related industries. The university farm is organized and operated to provide experience and practical training. Eleven hundred and ninety acres serve as a laboratory and production unit where students carry on supervised farming programs in animal and plant science. In addition, livestock, vineyards, orchards, and crop land are maintained for laboratory use. For information on supervised projects see *Animal and Plant Science Departments*.

The school offers programs leading to the bachelor of science degree in three specialized majors: Agricultural Business, Agricultural Education, and Agricultural Science; an agriculture minor; short courses for those not enrolled in the university program but engaged in farming or allied occupations.

Students desiring to qualify for teaching credentials should consult the Dean of the School of Agricultural Sciences or credential advisers. For credential structure, see *School of Education*.

The master of science degree in agriculture with concentrations in animal science and plant science was authorized on May 5, 1967. See the *Graduate Bulletin*.

CAREER PLANNING

Listed below are a few of the many fields of study in which a student may be interested. He should consult the appropriate department to select an adviser for his field of interest, who will assist him in the preparation of his program of study under one of the three majors for the bachelor of science degree. (See *Individual Counseling*.)

<i>Field of Interest</i>	<i>Department</i>
Farm Labor	Agricultural Economics
Agricultural economics	Agricultural Economics
Farm management	Agricultural Economics
Agribusiness	Agricultural Economics
Marketing and sales	Agricultural Economics
Dairy industry, manufacturing	Agricultural Industry and Education
Mechanized agriculture	Agricultural Industry and Education
Enology, wine technology	Agricultural Industry and Education
Food science, food processing	Agricultural Industry and Education
Agricultural education	Agricultural Industry and Education
Animal husbandry	Animal Science
Dairy husbandry	Animal Science
Poultry husbandry	Animal Science
Horse husbandry	Animal Science
Animal nutrition	Animal Science
Preveterinarian	Animal Science
Meat technology, meat science	Animal Science
Agronomy, field crops	Plant Science
Horticulture	Plant Science
Ornamental horticulture	Plant Science
Natural resources	All Departments
Agricultural inspection and services	All Departments
Viticulture	All Departments
Floriculture	All Departments
Soil science	All Departments
Vegetable crops	All Departments
Environmental sciences	All Departments
General agriculture, diversified farming	All Departments
Agricultural science	All Departments except Agricultural Economics
Agricultural journalism	All Departments except Agricultural Economics
Agricultural chemistry	All Departments except Agricultural Economics
