

“All of Us are Related, Each of Us is Unique”

Dr. Marshall Segall

Inauguration of Exhibit – Dr. Martin Luther King Jr. Library

A graphic exhibition comprising eighteen panels of text and graphics, which reveal that “race”, when applied to human beings, is not a valid biological concept at all. Rather, “race” is a misleading cultural construction, with profoundly negative social, political, and economic consequences. This provocative exhibition forces viewers to confront the paradox of racism persisting even though there is no such thing as “race”.

Professor Lewis Aptekar,

Counselor Education, San José State University
