

MINUTES OF THE UNIVERSITY BUDGET COMMITTEE
CALIFORNIA STATE UNIVERSITY, FRESNO
5200 N. Barton Ave, M/S ML 34
Fresno, California 93740-8014
Office of the Academic Senate
Ext. 8-2743

Sep 30, 2015

Present: B. Berrett, A. Levi, R. Maldonado (Chair), J. Parks, J. Schmidtke

Excused: J. Constable, D. Nef

Absent:

Guests: Provost Zelezny

Called to order 3:34 pm in Henry Madden Library Room 1222

1. Agenda

MSC to approve the agenda for 30 Sep 2015.

2. Minutes

MSC to approve the Minutes of 16 Sep 2015

3. Communications and Announcements

a. None

4. Provost's report.

Provost Zelezny opened the discussion with tenure density challenge, the most expensive but also the highest priority. She reviewed the joint plan with Student Affairs for the student success money which included new permanent money for tenure density (for one year). This resulted in seven additional tenure track lines to the ones already approved last year, resulting in 60+ lines. The seven were strategically placed, focusing on growth, sustainability, and the water theme. One line went for a water chemist; one line in math for math ed; one in plant science; and one to be determined in ag; one in kinesiology; one in business in cyber security; and one in high speed rail engineering. The majority of the 60+ are replacement lines.

Thus, this year represents a good beginning year, but the Provost's concern is about future permanent dollars. The university priorities have to go that way. Two percent grown per year is needed to get to 70% in ten years.

Tenure density is far more expensive than equity 1 and 2. But it is an important investment.

After the University's strategic plan is in place in January 2016, Academic Affairs can further strategize. The Provost indicated it shouldn't be just about replacement, but strategically focused on who and where we want to be.

J.Schmidtke: Asked about any strategizing around the majors and programs we have here. Which ones to have here and which to locate elsewhere in the CSU system. R. Maldonado raised access issues given the isolation of CSUF in the Central Valley.

R. Maldonado noted the challenge for tenure density of WTU differential between replaced lecturers and new TT faculty, made higher by the two year release for new faculty.

A discussion followed about the scheduling, office space and research space limits we are experiencing now and the impact growth for the future will have.

Discussion of the kinds of requests the Provost gets outside of the allocation model as well as the Provost's level 0. She reported they vary, but include seed money for research (often match with president). A&H, the largest college, also has the most asks of the Provost (small to large). Band is a big ask. Kremen is also in a transition year due to the restructuring of the doctoral program funding. \$800,000 went to funding for assigned time for research and creative activities. \$100,000 was held for TA fee waivers.

The Provost reported that \$500,000 is being put into equity 2 for this year. Next year is uncertain.

Funding and process will change for discoverE. Faculty 1) can self-nominate; 2) attend required workshops; 3) have development for summer intensive preparation;

The Provost highlighted ongoing problems with deferred maintenance.

In discussing the budget effects of impaction: There might be a net benefit of impaction (due to students not repeating classes). Also, some 400 students were counselled to go to community college. That probably resulted in some net savings, but not much, but it was not a cost.

Final discussion focused on student success versus graduation rates. The six year rate is about 58% with the target being 70%. Four year rates are currently in the low 40s.

Meeting adjourned 5:00pm

Agenda 21 Oct 2015

1. Approval of agenda.
2. Approval of minutes of 30 Sep 2015.
3. Communications and Announcements.
4. New Business
5. Continued discussion of C1 premiums.

Next meeting date: Nov 4
