

Quarantine day 50

There are 2,244 cases in Santa Clara County as of today. There are 117 recorded deaths. We tried reopening the beaches but the cases in the beach towns (including Santa Cruz) started growing rapidly so we shut them down again. People are protesting the quarantine all over the United States because they believe it is "against our constitutional rights". Calaveras County is still doing good. I just came back from visiting Mom's. Dad and I didn't see a lot of people wearing masks.
