WANTED

A MEETING BETWEEN STUDENTS AND THE COLLEGE PRESIDENT IS TAKING PLACE TODAY AT 1:30pm FOR THE EXPRESS PURPOSE OF SETTING A TIME (HOPEFULLY 12 NOON) AND A PLACE (HOPEFULLY THE AGORA) FOR MR. ELLIS McCUNE TO ADDRESS THE STUDENT BODY IN REGARDS TO THE CURRENT NATIONAL CRISIS AND IN PARTICULAR TO THE RAMAFICATIONS OF THAT CRISIS TO THE STUDENTS OF CAL-STATE, HAYWARD.

ANTI-DRAFT ON WARPATH

Yesterday at 5:45am a group of about 30 brothers and sisters gathered in front of the Hayward draft board to project some of their awareness on to the future inductees. Leaflets containing information on Vietnam and draft counseling were handed to the frightened and confused inductees as they boarded the Oakland Induction Center-bound death bus. Those aboard would soon enter the government's transforming machine and emerge trained killers. They would learn how to fight, and in Vietnam many of them would learn how to die.

The anti-draft group then left Hayward and followed the busload of inductees to Oakland. There they congregated in front of the Induction Center and proceeded to educate inductees of their rights and ways out of the draft. "You don't have to go," they pleaded, "there are ways out." Inductees were directed to the draft counseling office which is about half a block from the Induction Center at 15th and Jefferson.

The anti-drafters remained in front of the Center until 9am. During that time many inductees took up their invitation to seek draft help. Some refused induction and some got out on medicals. One got out because he couldn't read, which says something for our educational system. Many, however, were inducted and are now being subjected to the cold-calculated bullshit of this country's military.

Following the Induction Center scene, some anti-drafters returned to the Hayward draft board and succeeded in mind boggling the secretaries thus keeping them away from their work which might have been selecting your name for induction.

FUCK UP THE DRAFT

CHABOT STUDENTS GET IT ON-REVOLUTION SPREADS!

Statement by the Cambodian Coordinating Committee of Chabot College:

Because of the internal and external crises facing our nation today, we as citizens of this country and students of this college can no longer continue business as usual. We have come to this decision after much individual and collective soul searching.

Our aim is not to shut down this institution nor deny the use of its facilities to any student to redirect campus priorities and energies for the purpose of education in areas created by the turmoil created by U.S. oppression and destruction both at home and abroad. In accord, we are demanding the immediate and total withdrawal of all Southeast Asian countries. Until this demand is met, we are continuing the essential dialog that we feel is necessary.

NO BUSINESS AS USUAL!

COMMITTEE TO ERADICATE COMMITTEES

McCune has disappeared again. Everytime students have questions and issues, the President of this school has to go to the bathroom. People, organize yourselves on individual levels and disrupt this goddamned system. Don't jump into that bowl of bureaucratic buzzard barf. You, as an individual can and have thrown this system into a turmiol. Peace and Love and Revolution and Anarchy through the Democratic process. Deal with your conscience. See Rich in the Studnet Union in the afternoons.
