Dear Miss Morgan:

How about a maze in connection with the zoo. I think getting lost in the maze and coming unexpectedly upon lions, tigers, pumas, panthers, wild cats, monkeys, mackaws and cockatoos, etc. etc., would be a thrill even for the most blase.

If the space is big enough - and we will make it big enough by cutting off more hill if necessary - we could have a great maze with all these "animiles" and birds and with a pretty pool in the middle, with cranes and flamingos, etc., and a fountain and EVERYTHING.

Lets do this. I think it is a novel idea. If it should not prove practical we can make a maze in connection with the big pools on Chinese Hill, - but I kind of like the animal maze.

Sincerely yours,

W. R. Hearst #
