

Maybe I can get your "ballet for
late tonight - after midnight.
I'll get a big screw driver from the
College. About the only plants your Mom
will want are the extra junipers. The big
"lilies" are the same as a lot she already has.

Dearest Patricia:

I got the letter off to a
Denver Company about camping equip-
ment. - sent it air mail & enclosed
an air mail stamp for a reply, so I shall
hear soon. Getting everything I needed was
quite a rigmarole - since the packet of
things I had lent you and that you re-
turned to me didn't contain the "Main-
liner". Evidently you still have that. How-
ever, since the place I went last night for
the reunion party of "Palomarian" with
dancers was two thirds of the way up to
the S.F. Airport, I decided to drive on the
rest of the way & get an extra "Mainliner"
there. I phoned beforehand to make sure
they had one. I think one of their men
ran out & took one off a plane - Their
stock is in storage in S.F. & their storehouse
is closed on Sundays. Anyway they got a copy
for me - I found the information & wrote
for brochures & prices & asked all the questions
I could think of about things we'd need to

know in advance. - so all should go well.
I said we'd figure on either April 2-9 (Sat. to Sat.)
or if we had to shorten it a bit from April 3-8.
Your Mom is doing O.K., though improvement
is slow, and she says she'll not want to see
anyone extra so don't bring Ken out. Then
she ended by saying for me to call her after
I contact you & if she is still feeling reasonably
well - after she gets the boys to bed she'd like us
to phone & then come out for a while &
have coffee with her & bring her up on the news.
I gather the implication that this was just
for you and me, but if I make the phone call,
I can ask if she means to include Ken
in her late coffee hour, since she thinks
he's a rather nice person - but I can
make the call from here with ~~no~~^{no} embar-
rassment to him.

I have your mail - your box looked full
when I passed so I stopped. However there
was one large folded envelope - a magazine
of some sort I think that was in your box by
mistake, I put in box #3 where it belonged
which left only 3 magazines for you - not so
much after all. I'll bring them over when
I know you're in.

Connie seems to be coming down with the flu. Leon
had a relapse but is better now but all need to
be careful. My party was loads of fun but I have a
light cold - not the flu. I got a refill on my penicillin
tabs to help knock it and am making good progress.
That's my news to you. Hope you ^{two days have been super.} know if I can see Ken and love, as always,
Carl.
