Ah Louis,
San Luis Obispo, Cal.

Dear Sir:

Enclosed please find check for one hundred dollars as requested, and one of the contracts signed in duplicate. As I explained to you when we first made the contract, it is best that I have a written contract where work is of any magnitude, so that it can be shown in court if called for. I therefore waited until the contract was signed before sending check. I explained to Mr Sandercock why I had delayed in sending the money. I trust that this will be satisfactory. I looked over the onion field a few days ago, and the onions seemed to be in good shape, although there are a good many weeds yet. Mr. Mc Guire said your boys were trying to do the work right, so I expect that the next time I go down your field will look well.

Do you want to rent any vegetable land in the valley ? I am making arrangements to rent out most of our land next year, so if you want any would like to hear from you immediately.

Very truly,

D. W. Steele
