

BACHELOR OF SCIENCE DEGREE

For the bachelor of science degree, a minimum of 124 to 132 semester units depending on the major field must be completed. The general degree requirements (page 64), a general education pattern (page 66), and one major must be satisfactorily completed. Courses used to meet the general education requirement may not apply on the major. If a second major is taken concurrently or consecutively, courses acceptable for satisfaction of general education requirements for the first major may be used to satisfy second major requirements.
