Morro Bay, California 93442

July 7, 1981

Dear Mr. Pollock:

Thank you for your most interesting letter. I really enjoyed reading about your various activities in 1980 with your family and friends. You and Mrs. Pollock certainly have had extensive travel experiences in the United States, in Europe, and in the Orient. I'm so glad that you and the Bengstons were able to go to Japan with Ray Yasui. We too found Japan a fascinating place.

You asked for my sister's address. It is Mrs. Taft Y. Toribara (Masako Ono), 54 Timpot Drive, Rochester, New York 14624. She teaches voice at the Eastman School of Music. Her husband, a Seattle native, is in the Chemistry Dept. at the University of Rochester.

Usually my sister comes to California in early June but she was unable to visit us this year because she was so involved helping their son move to Iowa City where he will be interning at the University of Iowa Medical Center. This coming September Pat and I will go to Rochester before we join a fall foliage tour of eastern Canada and United States.

I have arranged for a Nisei lady, who formerly worked at the Convalescent Center to keep an eye on my mother. Mother is slipping but at present holding her own. She is bed-ridden and her memory retention is nil. I feel for her.

Our daughter, Karen, now lives in Carmel. Recently she's done some etching. She occasionally does wood block prints. She also works with oils, acrylic, and watercolor. She's a struggling artist and finds she has to do outside work to make ends meet. Rick has his own shop in Monterey and continues his custom cabinet work. We are thankfully all well and busy.

Again, thank you for your informative letter. Pat and I wish you and Mrs. Pollock a good summer. The next time you are in this central coast area let's hope we have better luck getting together. Warmest regards and best wishes--

Sincerely,

*Ann Atsuko Nagano*
